### TEACHERS' INSTITUTE CLOSSES

The Joint Teachers' Institute, which has been in session in Marfa for the past week, completed its work Friday.

Teachers from Terrell, Jeff Davis, Brewster and Presidio counties attended and much good work was accomplished.

A great deal of interest was manifested in the program as outlined by the instructors in charge and Prof. J. E. Conner expressed himself as being highly pleased with the work of this year's Institute.

Many prominent instructors took part in the work and quite a few highly instructive addresses were made by these to the attending teachers and visiting friends of the Institute.

Our city was crowded with visiting teachers and everyone did their best to make their visit here a pleasant one. They were entertained in various ways during their sojourn here and all seemed to have had an enjoyable time.

### BIRTHDAY PARTY

Mrs. L. L. Felix, Miss Greenwood and Mrs. J. H. Highsmith entertained the Presbyterian Ladies Aid Friday afternoon.

The guests of honor Mrs. Robert Greenwood and Mrs. J. R. Jacobs, whose birthdays the reception was to celebrate.

The living rooms and dining rooms were decorated with beautiful flowers in sparkling cut glass vases and silver baskets. Dainty salad courses followed by delightful fees were passed by Mrs. Greenwood's little grandchildren, who were all members of Mrs. Jacobs' infant class in Sunday school.

Every person present recited birthday wishes from the Bible, such as Num. 6-24, 25, 26 and II John 2. The birthday cake, beautiful in its pink decorations, twinkled with sixteen candles. Alma Sue Felix, John Hart and Bobbie Highsmith lit these candles with great ceremony while Frances Greenwood, Evaline Felix and Sarah Sue Highsmith puffed them out amid showers of congratulations and good wishes from everyone present.

Beside the members of the Aid Society among the fortunate and happy guests were: Rev. J. R. Jacobs, Mrs. Luke Brite, Mrs. B. R. Smith, Mrs. Harry Fletcher, Mrs. F. M. Pool, Misses Grace Covey and Bessie Jacobs.

### Marfa Loses Another Good Family

On Friday morning Mrs. Wm. Harper and three daughters left Marfa for Georgetown, Texas, where they will make their home.

Mr. Harper expects to join his family some time in the near future, as soon as he completes the big sale he is now conducting in his store.

In the departure of this good family, Marfa again loses some of our best citizens and we all regret to see them leave our city.

Mr. Harper is moving to Georgetown for the sole purpose of giving his girls a higher education and where they expect to attend the Georgetown University.

Even though this good family is leaving Marfa, they will always be good boosters for our city, where they have lived for quite a few years and where they have made many friends.

The New Era wishes them much success in their new home.

### KILLS LARGE PANTHER

Dr. M. R. Mahon returned a few days ago from his ranch South of Marfa and informed us that his men on the ranch had killed one of the largest panthers that he had ever seen.

The animal had been doing quite a lot of damage to his young stock for several months past but could never be trailed successfully.

Finally, while one of the ranch hands, was riding the range, he came across the tracks of the panther where he had dragged the carcass of a calf about 400 yards up a mountain side, and following the trail he soon came to where the panther had buried the remains of the young calf.

He immediately returned to the headquarter ranch to bring up the dogs and also called up Graves, Bogel to bring over his trained hounds, and then the merry chase began.

It was already night by the time they returned to the scene of the panther's lair but the moon was shining bright and the dogs were soon on a hot trail, which led them to a high cliff.

There out on a projecting rock they saw the form of the big panther silhouetted against the clear sky, a very pretty picture to behold. The first shot from the rifle brought the animal down with a crash at the foot of the cliff and in less time than it takes to tell the story, the four dogs put the finishing touch to the panther.

Dr. Mahon says this panther was about the wisest animal they had ever had any dealings with on his ranch. He was so cunning and on various occasions before had evaded his pursuers, always covering his tracks in such a way in the rough mountains that the dogs could not follow him.

### KINDERGARTEN CLASS

Regius October 2nd. Phone 200. Mrs. Ross Harp. Four years experience in school work.

### MRS. F. M. JOHNSON TO GIVE RECITAL

On Friday night at 8 o'clock, September 22nd, Mrs. F. M. Johnson will give a recital at the Marfa Opera House.

She will be ably assisted by Mrs. A. Graves Bogel and a very entertaining program has been prepared, which will be a treat to the people of Marfa.

Tickets are now on sale. The regular admission will be 50 cents and the reserved seats are 25 cents.

From all indications a full house will be in attendance, so get your tickets early in order to secure good seats.

### RECEIVED GOOD RAIN

Joe Bishop came up from his ranch Thursday and reported that he received a fine rain this week.

It rained continuously for about five hours and covered his entire pasture. The rain came as a blessing to his ranch, for he was badly in need of same.

The rainfall was heavy enough to cause the creeks to flow and to fill up the water holes in his range.

He was indeed a happy man and had a smile for everyone, in spite of the fact that his wife and children left Thursday morning for San Antonio on a few weeks visit to her parents, Mr. and Mrs. T. W. Turner.

### WOODMEN CIRCLE HELD MEETING

On Monday, September 5th, the Woodman Circle held their regular meeting at their Hall in the Court House.

Quite a number of members were present and a very interesting meeting was held. Much business pertaining to the organization was discussed and attended to.

After the regular routine of work had been disposed of, all present were entertained by two of the members, Mrs. Annie Livingston and Mrs. Johnnie Shannon, who served a delicious course of refreshments, consisting of fruit salad, iced tea, cakes, etc.

### GOOD RAIN REPORTS

Nothing could please us more than to report the fact that good rains have fallen in and around Marfa the past week.

In Marfa proper the rain has not been so heavy, but South of town on the R. E. L. Tyler ranch a heavy rain fell last Monday evening and night.

Wm. G. Ridout and H. E. Ridout both report they had a fine rain Monday night, which filled the water holes and caused the creeks to flow.

Bill McGhee reports a fine rain fell all over his ranch and that he is very jubilant over the fact.

W. B. Mitchell had a good rainfall all over his pasture. Also Crawford Mitchell had all his tanks filled. The rain covered his entire range, including the Thomas pasture.

Ben Pruett says his ranch was blessed with a good grass rain, which was badly needed.

On Wednesday a fine rain fell all through the Davis mountain country and extended to within ten miles of Marfa. Again on Thursday this section was again blessed with a downpour which lasted for several hours.

Friday, reports came in from the Holmes ranch, where a good rain had fallen and covered all of that section of the county, extending south to the Brite ranch.

L. C. Brite informs us, that on Wednesday good grass rains had fallen on parts of his big ranch but that the rain was not general.

The Tom Rawls ranch, just South west of Marfa, has had quite a few showers and the grass is fine; in fact, this ranch is about the prettiest sight around Marfa, for it looks like a green meadow, as is often pictured in calendars.

We hope the rains will come more often and become general, for the entire Southwest is badly in need of moisture and unless we do get a good general downpour, this section will surely suffer a drought.

### Old Residents Visit Gonzales

W. P. Fischer and wife and son, Mr. Leo Fischer, of Marfa, arrived yesterday to visit their old home town, relatives and friends a few days. They came into San Antonio on the train and there Mr. Fischer purchased a fine new automobile and the family came over to Gonzales in the car. Mr. Fischer and family are meeting with a cordial welcome here from their best of old friends. They are all looking fine and healthy and full of the pep that one fairly breathes into their system out in the Big Bend country, where the sun shines 365 days in the year.—Gonzales Enquirer.

### St. Mary's Catholic School Opens

The mothers of Marfa are solicited to send their children to the St. Mary's Catholic school, adjoining the Sacred Heart Catholic church. The school opened last Tuesday, September 5th and is open to Protestant as well as Catholic children. The very best of care will be accorded each child enrolled in this school. They will study under competent teachers and the monthly tuition will be very reasonable. Call at the school and enroll your children.

### WALTER WELLS DIES

Mr. and Mrs. W. A. Wells received the sad news this week of the sudden and unexpected death of their eldest son, Walter F. Wells, which occurred at Phoenix, Ariz., on Friday, September 8th.

The deceased leaves a wife and grown daughter, in addition to his parents, also two brothers, Chas. and Oscar Wells; and two sisters, Mrs. R. B. Ellison of El Paso and Mrs. H. H. Kilpatrick of Marfa.

### New Arrival

A fair little maiden by the name of Margaret Mildred made her appearance at the home of Mr. and Mrs. Gus L. Maurer this morning at 1:00 o'clock. Both mother and daughter are doing nicely.

### Catholic Church Notice

Attention is hereby called to the citizens of Marfa that High Mass will be said at the Sacred Heart Catholic church at 9:30 a. m. hereafter instead of 10:00 as heretofore.

A. R. Malley made a trip to Gallup, New Mexico this week to visit his sister.

Mrs. J. H. Nipper of Uvalde, Texas, is now visiting the family of W. M. Ellison.

## BOOST YOUR COUNTY

If you don't who will? Everybody else has enough to do to build up their own county. If yours is not being built up who is to blame? Whose business is it? Don't lay it all onto the other fellow. If it's your county, it is your business to help make it the best county in the state.

In Texas alone there are 251 counties. What would it mean to Texas if there were a county commercial club in every county to study the interests of every man in that county and to plan ways to work together for the mutual success of every man in that county? Do you suppose there is a single county in the state that is measuring up to 100 per cent of its possibilities?

First of all we mean in production. It is the producer that must take the initial step to keep all the wheels of industry and business turning. Let the producer of raw materials, it matters not what they may be, fall and everybody else is against a stone wall. Then why in the name of common sense should not everybody in the state and nation be interested in the success of the producer? Why should not everybody be interested in the institutions that will help him to be a better producer? The whole world is dependent on the producer for food and clothing and shelter and employment and business of every kind. Without the raw material that come from the soil there could be no business world. And the soil has been surveyed and checked off into little squares and other patches called counties. This has been done for the sake of convenience that the people might more easily locate

themselves. And everybody in one of these small portions of the earth should feel akin, and should work together to make their particular county do its best in the great state and national program of production.

As we have suggested on various other occasions, every county in the whole United States is a little nation unto itself, with all its agricultural, educational, industrial and commercial problems to solve within itself. And if the people within your county do not work out their own salvation and their own problems, they will not only lose the victory of having conquered their own difficulties but they will lose the development that comes in honest, human efforts. That county that sits around and waits for somebody else to come along and tell it what to do and how to do it will be just as strong and capable of working out the next problem as the school boy whose father or mother works out all his arithmetic problems for him every night instead of digging them out and finding the way to get the answers himself. It is a good practice and a fine review for father or mother, but it is a mental crime against the boy and makes of him a helpless student, no not student, but a helpless slacker.

We hope to see the day when there will be in every county in our state and every other state for that matter, an organization of men to study out the problems of business and all the interests of the men in that county. But that is only half of the building program of any county, and the small half at that. The home, the school and the community is the larger half and if the problems of the homes, the schools and the communities in your county are ever solved the women will have to solve them. What do you suppose it would mean in the home life of our state within the next generation of children if there were an organization of women in every county to work together for the mutual protection and development of every home and school and community in the county?

Folks, this is possible. It is not

an imaginary dream. It is a possibility. It can be done. Why should the mother, not organize for the welfare and protection of the home and the child the same as men should organize for the protection and promotion of business? Men organize when they want to work together for better crops, for better cattle, for better markets, for better roads. Why should not the women of your county organize for better homes, for a happier motherhood, for more efficient schools for their children, and for a higher grade of entertainment for the whole community. You can do all these things if you will get together and let the people know that you know what you need and that you not only know what you need but you are going to plan to get it.

The women over in McCurtain county called a meeting a few months ago and organized a county federation. Add the very first thing they planned to do was to eliminate malaria from their county. Do you see anything worth while in a work like that? We believe that is one of the biggest things we have heard of the women trying to do for their county. Is there anything in your county that ought to be eliminated? Get all the women after it and see what happens. A few weeks ago the women of Collingsworth county organized a county federation and the first thing they did as a county of women was to work for a county home demonstrator. In four days, by working together, they had nearly four hundred women's names on a petition and the next time the county commissioners met the appropriation was made for the home demonstration agent. If the day ever comes when there is an organization of men and women in every county to work for the development of that county, you will see a change in spirit of things.

## FORTY-TWO PARTY

Mrs. W. A. Carter gave a delightful Forty-two party at her home on Tuesday afternoon.

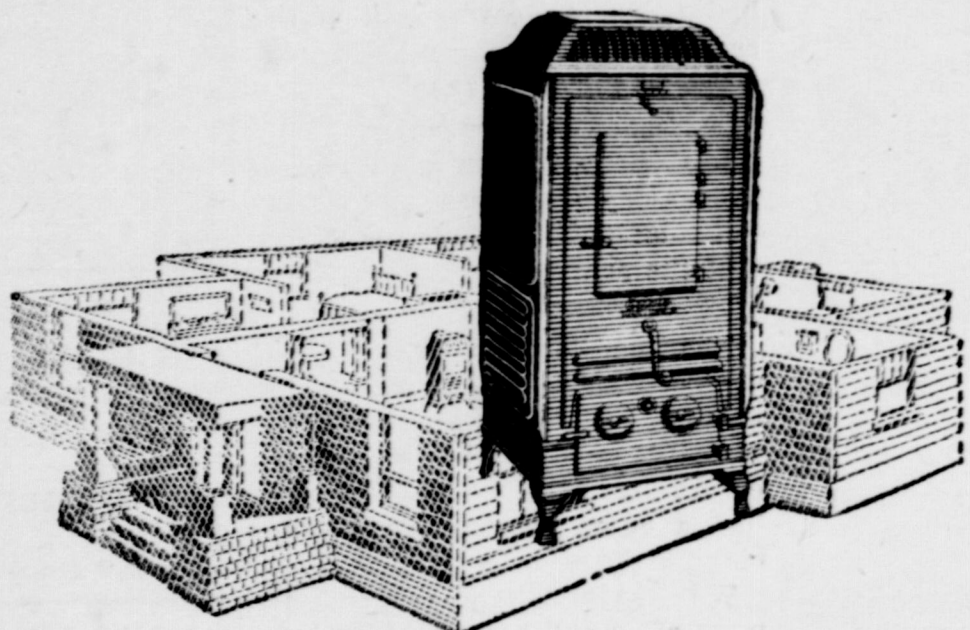

The rooms were beautifully decorated with garden flowers.

Among those present were: Mesdames Chas. Pruett, Ben Pruett, William Fischer, Bertie Mitchell, W. H. Colquitt, J. B. Gillett, Robert Evans, J. M. Rosson, Frank H. Rosson, T. C. Mitchell, C. T. Mitchell, Gorden Haynes, N. L. Casner, W. H. Cardwell, Shipman, Chas. Bailey, M. R. Mahon, Arthur Mitchell, E. C. Nichols, W. A. Mimms, McGaughey, J. E. Conner, Karl Word, Riley Smith, H. B. Holmes, E. R. Mabry, Hillsman Davis, T. C. Crosson, Jno. Humphris, J. B. Scott, W. J. Yates; and Miss Lucile Reeves.

Delicious refreshments were served in two courses.

Prof. Riley Aiken, head of the Department of Modern Languages, at Grubb's Vocational College, which is the North Texas Junior A. & M., and a State institution located at Arlington, Texas, left this morning for his home, after spending a week in Marfa visiting his parents, Mr. and Mrs. N. J. Aiken. His wife and little son will remain here until the first of October. Riley, as we all know him, is a self-made man and a good one at that, and Marfa is proud of him. It was a pleasure for us to meet him and his family after an absence of many years, during which time he graduated from several Universities and perfected himself until today he holds a permanent State position as professor in one of the leading state institutions. For several years before Riley finished the Marfa High School he was in our employ as printers' devil and we are doubly proud of him for having made good.

## Estate HEATROLA

Here is the Solution of Your Heating Problem

ESTATE Heatrola—a practical warm-air furnace, finished in grained mahogany enamel and resembling a handsome cabinet phonograph. Thousands are in use. Back of them is The Estate Stove Company, with over 77 years of experience in building heating appliances for the home.

Results are amazing. The owner (or renter) of a small home is now offered all the advantages of warm air heating at low cost.

### Supplants Stoves and Fireplaces

Installed in one of the living rooms, the Heatrola keeps the whole house warm.

It heats 3 to 6 connecting rooms (8,000 cu. ft., by actual scientific measurements) better than the ordinary stove heats one.

When we say BETTER we mean more uniformly, more economically and more healthfully. That's because the Heatrola works on exactly the same principle as a high-grade pipeless furnace—by

circulating warm, moist air—not by radiating dry, heat, as does the ordinary stove.

### The New-Day Way of Heating Small Homes With or Without Basements

ESTATE Heatrola burns any kind of coal—hard or soft, lignite or slack. It is equipped with an enameled ash pan—large enough to hold a full twenty-four hour accumulation of ashes.

No pipes are necessary to carry the warm air through the rooms. No radiators—no registers—are needed. Air, taken into the Heatrola through the slotted openings at the bottom, is heated and sterilized, moistened, then discharged through the top in sufficient volume and with sufficient velocity to fill the whole house.

Estate Heatrola is the only heating appliance, outside of a basement warm-air furnace, which provides an effective means of moistening the air we breathe in our homes. And this is essential to the healthfulness of a heating system.

The beautiful mahogany finish of the Heatrola is a vitreous enamel—hard and smooth as glass, and practically everlasting. It is grained to look like rare old mahogany. You can rub it and dust it with a cloth, just as you do your furniture. No cast iron parts to black; no nickel to polish. Remember, please, there is only one Heatrola, and that is the Estate Heatrola, made by The Estate Stove Company, of Hamilton, Ohio.

W. P. Murphy, manager of the Big Store of Murphy-Walker Co., returned Thursday from a few days business trip to El Paso. He says he found the city fearfully hot and business very slow. He was glad to get back home where the climate is cool and bracing.

Mr. and Mrs. Santos Quiroz.

Red Hawkins, the popular cattle inspector, is all smiles this week, for Mrs. Hawkins came up from her home at Del Rio to visit with him. We hope Mr. and Mrs. Hawkins will make up their minds to make Marfa their permanent home and move here from Del Rio, where they are now living.

## Texas Cotton Crop Report Shows Great Damage Last Thirty Days

The report of the acreage and  
condition of the Texas cotton crop  
up to September 1st, was compiled  
by R. E. Yantis, Statistician, and  
made public today by Commissioner  
Geo. B. Terrell. The report shows  
great damage to the crop caused  
mostly by drouth, during the last  
thirty days.

In giving out the report Mr. Ter-  
rell said:

"This report covers 193 counties  
practically all the cotton producing  
counties, with from one to fifteen  
reports from each county. The re-  
ports received are from Presidents  
and Secretaries of Farmers Insti-  
tutes, County Farm Demonstration  
Agents, County Commissioners,  
bankers, merchants and individual  
farmers, and verified as far as pos-  
sible, by our field men. The drouth  
seems to be the cause of the great-  
est damage, as a large per cent of  
the cotton was late, especially in  
the western and northwestern parts  
of the state and in the flooded dis-  
tricts, and had no mature bolls when  
the drouth set in. Damage by boll  
weevil and leaf worm was also re-  
ported. The report indicates a con-  
dition of 58.67%, and a yield of one-  
fifth of a bale per acre, while our  
report for August 1st indicated a  
condition of 71% and a yield slight-  
ly more than one-fourth of a bale  
per acre.

Taking the Government figures of  
12,312,000 acres planted, which I be-  
lieve to be too high, it indicates a  
yield of 2,462,400 bales as compared  
with 2,479,143 bales produced last  
year.

If the yield in the other states is  
as low in proportion as that of  
Texas, the total crop of the South  
will be less than 10,000,000 bales, and  
warrants a price of at least 30 cents  
per pound. There will be a cotton  
famine next year and nothing short  
of a conspiracy can keep the price  
from advancing.

FAMOUS RANCH USED BY CAREY  
FOR STAMPEDE

The famous Agoure ranch at Cal-  
abassas, Calif., and five hundred of  
the Agoure's finest cattle were  
used by Harry Carey in the making  
of his latest Universal-Jewel pic-  
ture, a super-western photodrama  
called "Man To Man." The picture  
was adapted from the popular nov-  
el of that name by Jackson Greg-  
ory. It will be shown at the Pop-  
ular Theatre on next Wed-  
nesday, September 13th.

The use of the Agoure ranch, one  
of the finest in the West, was ob-  
tained by the star personally from  
Lester Agoure, its present owner,  
and a warm friend of the Universal  
day representative of a long line of  
Agoures, a family which obtained  
its California estates from the King  
of Spain in the romantic days when  
cowboy star. Agoure is the present  
California was a Spanish colony.

The ranch still retains its medie-  
val romance and color, and was ad-  
mirably suited to the atmosphere  
needed in Carey's picture. Roam-  
ing the broad Agoure lands were  
several thousand steers, many of  
which were herded before the  
camera in one of the most exciting  
stampede scenes ever pictured for  
the screen.

"Man To Man" recounts the strug-  
gles of a young man who fights his  
way from the degradation of a  
South Sea derelict back to respect-  
ability in his home county—the cal-  
tle lands of the West. It is a story  
which might have been written for  
Carey. It provided him with the

he-man of a role which he has made  
famous on the screen.

Unusual for a "Western" picture  
"Man To Man" also includes a se-  
quence of the scenes laid in the  
South Seas. It was a novelty for  
Carey to play the role of a South  
Sea beach comber, but his remark-  
able work in the tramp roles in

They are GOOD!

GIVE!

If it be true (and folks there are  
This legend who believe)  
That every year the Christ Child walks  
Our earth, on Mary's Eve,  
How much of suffering He finds  
To make His kind heart grieve!

So many starving babies, pinched  
And whimpering with cold,  
Such piteous wee faces drawn  
With hunger, gray and old!  
A hundred needy cases? Oh,  
The half has not been told!

And we, whose homes are holly-wreathed,  
And gay with Christmas trees,  
What have we done to merit cheer,  
And comfort—more than these?  
(The Child with sad and puzzled eyes  
Must wonder, as He sees!)

Then, ere the birth-morn of the Babe,  
Give gladly, every one,  
As this past year has prospered you,  
That some poor little one  
May know a tithes of Christmas joy  
Before the Day is done!

WITHOUT STREET ADDRESS  
YOUR MAIL IS DELAYED  
AT OFFICE OF DELIVERY

The Dead Letter Office has been in  
existence ever since Ben Franklin  
started our postal service. Even then  
people addressed mail to Mr. Ezekiel  
Sulthurs, "Atlantic Coast," and ex-  
pected Ben to know just where Zeke  
lived.

Perhaps they had Zeke's address in  
letters up in the garret, maybe a chest  
full of 'em, but then it was easier to  
let Ben hunt Zeke. Today people are  
addressing letters to John Smith, New  
York, N. Y., or Chicago, Ill., thinking  
Uncle Sam can locate him, which is  
just as incomplete as was Zeke's ad-  
dress of yore. The Postoffice Depart-  
ment asks you to put the number and  
street in the address. It helps you.

Trinidad Col.

How do you expect the Postal Clerk  
to know whether you mean Trinidad,  
California, or Trinidad, Colorado?

ALWAYS SPELL OUT THE NAME  
OF THE STATE IN FULL IN THE  
ADDRESS.

"MORE BUSINESS  
IN GOVERNMENT"

This apt phrase was used in Presi-  
dent Harding's first message to Con-  
gress and applies particularly in postal  
management where postmasters are  
being impressed with the fact that  
they are managers of local branches  
of the biggest business in the world.

HERE COMES A STRANGER!

Let's make our post office look neat,  
Mr. Postmaster. Straighten up the  
rural letter box, Mr. Farmer. Tidy  
up some, Mr. Rural Carrier. First  
impressions are lasting. Maybe Mr.  
Stranger, taking notice of these im-  
provements, will come back, bringing  
you benefits. Start these with "POS-  
TAL IMPROVEMENT WEEK" May 1-6.

HUMANIZING THE  
POSTAL SERVICE

"There is no unimportant person or  
part of our service. It is a total of  
human units and their co-operation is  
the key to its success. In its last  
analysis, postal duties are accommo-  
dations performed for our neighbors  
and friends and should be so regarded,  
rather than as a hired service per-  
formed for an absentee employer."—  
Postmaster General Hubert Work.

"Overland Red" and "Sundown  
Jim," two of his former imperson-  
ations, helped him wonderfully in  
portraying a Tahiti derelict.

"Man To Man" was directed by  
Stuart Paton, the man who put the  
thrills into "Conflict." Priscilla  
Dean's recent film melodrama. He  
has done equally as well with the  
thrill scenes in "Man To Man."

Mr. and Mrs. W. P. Fischer and  
their son, Lee Fischer, returned  
this week from an extended trip  
back to Gonzales, their old home.  
They also visited friends at Seguin  
and San Antonio while away. While  
in San Antonio Lee Fischer bought  
a fine Cadillac car in which they  
drove back to Marfa in.

### "Don't Tell Everything" Coming

Every man and woman in Marfa, whether married or single, will find something of great personal interest in the new Paramount picture, "Don't Tell Everything," which will show at the Queen theatre next Wednesday and Thursday. Three great screen notables, Wallace Reid, Gloria Swanson and Elliott Dexter, are the featured players. This combination of players insures a picture of the highest merit and you should not fail to see it.

Gus Maurer has received the contract to paint and paper the home of Mrs. W. A. Cardwell, which John Bean is now remodeling.

Graham Dowdell and wife, from San Antonio, arrived in the city, in their car, a few days ago, and are on their way to Mr. Bogel's ranch at the Saucedo, upon a hunting trip. Mr. Dowdell is a prominent lawyer of San Antonio. There will be quite a large house party at the Bogel ranch as Galley Bogel and his wife will be there too.

### INVADE RANCH AND RUN STOCK ACROSS RIVER

An invasion of the Kilpatrick ranch, owned by Americans, twenty miles south of Carrizo, Chl., Mex., by a band of eight Americans who crossed the river and after obtaining the aid of three Mexican river guards, placed J. J. Kilpatrick, Jr., part owner of the ranch, under arrest, dispersed a herd of 2000 goats, and seized 125 head of cattle, was reported today by local authorities. The visit to the ranch occurred Friday, according to J. J. Kilpatrick Sr., father of Kilpatrick. After stampeding the herd of goats, the Americans, with the aid of the Mexicans, seized the cattle and brought them back to the American side, he reported. Kilpatrick, Jr. was kept under arrest and held at Bosque Bonito, Chl., until the cattle had been brought across the river, the father said.

The ranch is owned jointly by Kilpatrick, Jr. and Patrick Murphy. The 2000 goats, according to the elder Kilpatrick, were bought last December from Luke Britte, ranch owner of Presidio County, Texas. The cattle were purchased from John Snyder of Marfa, Texas. Mr. Kilpatrick said that he was unable to find a reason for the invasion. El Paso Herald.

### GOOD PROSPECTS

We publish the following clipping taken from the Dallas News of September 3rd to show what one of our Marfa business people thinks of our business as it is today in their particular line. We are glad to note that Mrs. Lockley's business is booming and we hope the good rains we have had the past few days will cause business in other lines to boom.

The New Era wants every merchant in Marfa to feel as optimistic about their business as Mrs. L. L. Lockley feels:

"Our business is booming and we cannot keep from feeling that the fall and winter will prove good seasons for everyone in our country." Mrs. Leonard Lockley of Marfa said. "Conditions seem to be on the incline, and as soon as the strike is settled we expect the volume of our trade to take another jump for the better. Dallas is the ideal market and more buyers are daily becoming convinced of this fact," she said. "The Dallas markets are better than they have ever been and there are more new lines of merchandise and more expressions of creative genius to be seen in Dallas than I had ever dreamed."

The Episcopal Guild held their regular meeting last Wednesday at the home of Mrs. H. M. Fennell.

Miss Floy Midkiff left Friday for Fort Stockton, where she will teach a music class for the coming year.

H. L. Kokernot, one of the leading ranchmen of Brewster county, was a welcome visitor in Marfa last Thursday. Mr. Kokernot has just returned from an 800 mile trip through East Texas, in his car and says that he found the pastures around Marfa in better shape than in any section that he covered.

B. W. Redick, roadmaster here, has been transferred to Eugene, Oregon, and is leaving, with his family, for that place, having accepted the same position for the Southern Pacific.

Roadmaster W. Shaw, from El Paso division, has been transferred here from Sierra Blanca.

### OTHER STATES BONUS MONEY REACHES EL PASO

Col. Nathan Lapowski, city clerk and chairman of the American Legion grievance committee, has made a list showing states which have given bonuses and which are to vote on bonuses for ex-service men.

Michigan was the first state to pay a soldier bonus. Checks amounting to \$13,300 were received by veterans living in El Paso, who had enlisted from Michigan.

Ohio, the second state to pay, ran ahead of Michigan in the total amount, which was \$12,300.

Checks are now being received from Missouri and so far have totaled \$7885. A number of applications from Missouri veterans are still pending, also from California and other states, Col. Lapowski said.

North Dakota passed the largest bonus bill, with \$25 a month for war service and a maximum of \$800.

Iowa, with a minimum of \$30 and a maximum of \$350, and Illinois with a minimum of \$30 and a maximum of \$300, will begin paying bonuses if the law is approved by the people at the general election next November.

Bonuses passed or pending in other states follow: Florida, \$25 per month, pending; Indiana, bill for \$15 per month to be voted on in November; Kansas, pay of \$1 a day for war service to be voted in November; Maine, \$100 cash payment to ex-service men; Massachusetts, \$100 bonus paid to all soldiers up to rank of captain; Minnesota, \$15 per month from April, 1917, to August 1919, maximum \$600; Montana, \$10 per month, maximum \$200; New Hampshire, \$200 cash; New Jersey, \$10 per month, maximum \$100 (payable to officers, enlisted men and nurses); New York, \$10 a month, maximum \$250, no pay for less than two months; Oregon, \$15 a month, maximum \$500; Rhode Island, \$100 cash; South Dakota, \$15 a month, maximum \$400; Vermont, \$10 a month, maximum \$120 (officers not included); Washington, \$15 a month, maximum \$465 officers and men; Wisconsin, \$10 a month.

States making other provisions for veterans are: Alabama, soldiers' settlement board; Arizona, trying to settle soldiers on land through Federal aid; California, \$1,000,000 for land settlement and exemption from taxation up to \$5000; Colorado, state loan for training; Conn., bonus bill failed, \$2,500,000 for relief; Delaware, bonus bill failed, \$25,000 for expenditure through soldiers' settlement board, giving medals, assisting soldiers and families; Idaho, \$100,000 to aid settling on land; Kentucky, free scholarships in state university; Nevada, \$1,000,000 for land grants and \$10,000 for vocational training; New Mexico, \$30,000 for development of state lands; North Carolina, land grants; Oklahoma, loans for purchase of homes; Pennsylvania, bill defeated; South Carolina, land grants; Tennessee, option on land for settlement, Texas, endeavoring to amend constitution to extend special privileges to soldiers who settle on land; Utah, \$1,000,000 for farms and homes; Virginia, soldiers' settlement commission; West Virginia, settlement aid commission; Wyoming, soldiers exempt from taxation up to \$2000 and loans for land settlement.

States having no bonus bill passed or pending are District of Columbia, Georgia, Louisiana, Maryland, Mississippi and Nebraska.

Col. Lapowski said it is necessary in all applications to prove residence in the state paying a bonus prior to April 6, 1917. Applicants must not have made application for a bonus from any other state. No pay is given for service prior to April 6, 1917. Copies of discharge must accompany applications, also enlistment record and army serial number.
