THE HALE COUNTY HERALD, PLAINVIEW, TEXAS FRIDAY JUNE 9, 1911.

NUMBER TWENTYTHREE.

HALE COUNTY'S \$80,000 CAPITOL IS COMPLETED WAYLAND BAPTIST COLLEGE COMMENCEMENT

ARCHITECT OVERBECK PLEASED WITH CONSTRUCTION.

Only a Little Finishing Yet to be Done on the Building but the Grounds—111

HAPPY OFFICIALS MOVE TO THEIR NEW HOME.

It Contains 42 Well Lighted, Well Ventilated, Beautiful Compartments.

Architect H. A. Overbeck of Dallas was here the past week confabbing with the county judge and the commissioners for the last time. His work has been done and done well and the new court house has been accepted by the county. Here is the substance of his report on same to the Commissioners:

"As architect of the Hale County Court House, I beg to advise that I have examined and made final inspection of said building and find that the contractors, the McRea Building Co. have completed their work according to their contract and with the exception of a few minor details, I therefore recommend the acceptance of the building.

"As to the above contractor I desire to say a word. They started from the beginning to do their work according to the plans and specifications and it gives me pleasure to state that they have carried it out all the way through honestly and faithfully. I wish to state further that it has been the same good work with the other contractors on the building. Attached to this letter of acceptance you will find statement of the amounts of the various contracts and the amounts of warrants paid, which have been checked over and verified by your county clerk. As to the electric wiring, I wish to withhold my acceptance of their contract until a final test is made after the current has been cut into the building by your local light company.

Respectfully Submitted,
H. A. OVERBECK, Architect.

The amount of the contract of the McRea Building Company was \$60,700 and the total of the contracts on the building reaches the sum of \$80,000 in round numbers. The new capital is well furnished and an extra \$10,000 would probably be needed to cover this outlay. The basement of the building extends above the ground and in one side of same has been built the Bastille for the county—strong, sanitary and modern.

In charge by the Deputy-Sheriff the Herald man explored the new building last evening from the basement to the skylight, four stories above. There are ten rooms in the basement in addition to the hallways and the seven cells, the dungeon and run-around of the jail. The dungeon is for exceptionally bad actors and a barred room apart from the jail will be used for the detention of "drunks" and other mild criminals. The Herald man was very nervous while exploring the jail and could not be forced into entering the dungeon. The strength of those massive walls would make even a strong man shudder.

There are thirteen rooms on the first floor. On this floor most of the County Officials have private as well as public compartments to their office and this arrangement will prove highly satisfactory.

There are eleven compartments on the second floor which includes both both the County and District Court rooms. Several of the offices of the District officials are on this floor. The district court room is equipped with a balcony—naturally, to accommodate a larger crowd.

On the third floor there are eight rooms. Here are located the dormitories of the County and District jurors, and the rest are offices. From the third floor is offered a fine view of the town and this is better still from the roof, which is of easy access.

The system of stairways include a couple of the circular or winding variety made of steel. The others are built on an easy angle and one trends on slate when he climbs them. The building is plastered in white and the wainscoting throughout is painted a deep green. One hundred cuspidors have been provided for the building and anti-spitting will be enforced.

He is a dirty dispositioned man indeed, who would profane our beautiful new court house. C. W. Ellison has been chosen janitor and he promises to do good work.

The only kicks the Herald man has heard on the building is that the dome is too dumpy and that the district court room too small. But we understand the former was intended for a skylight rather than a dome and it certainly is a fact that the smaller the dome the larger the building will appear. Regarding the latter—well, we have few cases of sufficient interest in this section to draw a large crowd. For this is a highly moral and peaceable people.

The first of the week was moving day for the various officials. Now they are satisfactorily ensconced in their new home and invite the people to come and see them. The Herald man has already visited some of them and they have only words of praise for their new quarters.

Judge Mayfield says his windows offer a fine view of the town and that he is glad to loll back in an easy chair and enjoy life now that the strain of construction matters is over.

County Attorney Charles Clements was counting his law books and brushing away the cob-webs when the Herald man entered. "Yes, it's a fine building, a magnificent building," the young attorney replied and he continued dreamily, "but you know I could be happy in a little bungalow built for two, etc., etc." and respecting Charley's weakness the Herald man made a hasty exit.

County Clerk Towery was not in but Deputy Box was discovered surveying himself in the mirrored surface of a classy new desk. "We are very glad to get out of that musty old building," he answered. "Over here we have plenty of room and the light is immense. Look how we have these records arranged, etc., etc."

Sheriff G. A. London was lying back in a very easy chair indulging in pipe dreams when we entered. On a nice desk lay copies of "Nick Carters" and "Old King Bradys." "You know, if it wasn't wicked, I would wish for some big criminal occurrence," he confided to us. "I have never really been tried out on a tough case yet. The morality of this county makes life dull for a sheriff. Yes, these rooms are swell and that jail is a peach, etc. etc."

Assessor Frye was very blasé in his manner. "Sure, these boys are excited over their new home and all this luxury but I am used to it, etc. etc."

District Attorney Penry and District Judge Kinder have beautiful offices and are well pleased with same. So are all the officials with theirs.

The old court house is to be moved to the Fair grounds within the next twenty days we understand. The moving will mark the passing of old ideals and traditions—the coming of a new era in the West. When it was put up some twenty years ago, its completion was celebrated with great eclat and the cowboys and their girls made merry with the dance on the night of the housewarming till a late hour.

The old court house, with a bullet scar here and there, is doomed to go as have already passed the traditions of a windswept desert and a land of pestilence and drouth. Exit the day of "Lang Syne," the cowboy and the milling herd; enter agriculture education, prosperity—a new and better Hale County!

HARD HIT BY BRICK.

Thursday morning as Conley Gann, a young man in the employ of the McRea Building Company on the new two-story Campbell Building, was pursuing the even tenor of his work, a brick was dislodged by accident from the top of the structure and caught the young man on the head. The fall was about 40 feet and the brick struck with such force that Mr. Gann was rendered unconscious. Dr. Flamm attended his case, which proved to be a painful scalp wound and not a fracture, and his rationality was soon restored.

W. A. Todd received a telegram from his son Douglass, at College Station to the effect that the latter would graduate at A. & M. College this year with a clear record. Douglas has been attending this school the past four years and has been a credit to Plainview. While born in Scotland, this young man has been living in Plainview the past ten years and everyone here is interested in his welfare. He took the course of electrical engineering and will likely locate in the west.

Dr. J. W. Gidney, of West, Texas is visiting his brother, Dr. C. C. Gidney.

BUNDY-SMYLIE.

Married at the home of the bride's parents last Thursday morning, June 15, Alice, the eldest daughter of Mr. and Mrs. J. W. Smylie to Dr. Orval T. Bundy, Rev. J. H. Bone, Presbyterian Pastor at Hale Center, officiating. The young couple took the train immediately for Portsmouth, Va., where the groom is a surgeon in the army.

They expect to make the Virginia town their home for a few months and then will return to Texas, where Dr. Bundy will enter a partnership with his father, Dr. Z. T. Bundy in the latter's home, Austin.

The groom was a practicing physician in Milford, Texas, when he first met Miss Smylie, who was attending the Presbyterian college at that town. This meeting occurred some three years ago and as they have been separated since we judge by yesterday's occurrence that quite a strong attachment was formed.

The Smylie family is one of the oldest and best thought of in Hale County. Miss Alice having spent most of her life in the West. Naturally, she is a typically Western girl with all the attributes that serve to make them delightful and Plainview's society regret to lose her. The groom has already acquired a reputation as a successful professional man and from the impression formed by a few minutes conversation with him, we are sure he is worthy of this great good-fortune.

"The Traveller," the first annual of the first year of Wayland Baptist College is off the press and in the hands of the proud students (and parents of said students.) It contains almost a hundred pages and is well patronized by the merchants of Plainview. True, it is not as pretentious a volume as are put out by the Universities of the State but it is a more worthy book than we have ever seen worked up by a college the size of Wayland and is much larger than was the Baylor "Round-up" in its incipient stages. Quite a clever resume of the year, replete with good cuts and spiced with neatly turned jokes is the "Traveller." Its parents should be proud of it and so should Plainview for it marks the transition of this place into a true college town.

W. W. Jones who is living at the Speed place nearest north of the Herald building, is rapidly shaping up the garden and yard into the prettiest residence grounds in the city. The magnificent grove is being pruned, the orchard put into healthy condition and the unsightly weed crop cut out. This is one of the most delightful places in which to live in the city. The large cottonwood grove is the abiding place of the first robins and feathered songsters of every description make it their home throughout the year. Being on the street leading to the depot, there is no saying how many prospectors have been influenced to buy by catching their first impression of the town from this ideal homestead. It shows that beautiful grounds may be had for the Plains residence if one but so wills it.

INSTRUCTORS FOR CITY SCHOOLS

The trustees for the Plainview Independent School District for the coming term are as follows: W. C. Mathes, president, O. Holland, E. L. Kerr, E. H. Humphries, J. O. Wyckoff, J. N. Jordan, G. D. French and Ernest Spencer has been retained as secretary.

The teachers for the coming year are: Miss Ellen Robinson, superintendent, Misses Effie Casey, Maud Hall and Emily F. Stanton who comes from Granger, primary department; Prof. Bull, principal of Lamar School; Misses Elsie Cathey, Lula Howell, Emma Norwood of Wichita Falls, Susie Williams, of San Saba, Elmina Robinson, Georgia Saxon, Mesdames A. H. Thomson of Canyon and W. E. Armstrong—Grade work; Misses Margaret Brewer of Grapevine, Texas, Fannie Stephens, of Canyon and Allene Smyth of Canyon—High School.

The Principal and Mathematics teacher, which positions are filled by one person, is yet to be selected. As may be seen by the above there will be seven new faces seen in our city schools this coming year. We are sure this competent board of trustees has exercised good judgment in their selection.

PLAINVIEW TO BE CONGRATULATED.

J. Sam Barcus Elected President of Seth Ward College

At a meeting of the Board of Trustees which met Tuesday June 6th, Rev. J. Sam Barcus was elected President of Seth Ward College. He has accepted and Bishop Atkins has transferred him to the Northwest Texas Conference and appointed him to the Presidency of the College. In a letter to the pastor of the Methodist Church, the Bishop expresses himself as being much interested in the school and wishes it great success. The new president is a graduate of Southwestern University and has filled many responsible positions in the church. He was president of Clarendon College for a few years and made it a success. He was professor on the Southwestern University for several years and did good work there. At the time of his election he was presiding elder of Cisco District in the Texas Conference. He will move to Plainview and take charge of the college. He preached a great sermon last Sunday morning at the Methodist church and at the conclusion Rev. Ferguson raised \$5,000 for the school. Everything will be renovated, improvements will be made and things put in good condition for next year. The large campus has been laid off for a park. About ten acres will be improved. The plow will start as soon as we have rain again. It is the intention of those interested to make Seth Ward College park the most beautiful place on the South Plains.

The East India Medicine Company is holding the boards at the Alamo this week. They had a much better troupe than usual and their performance is attracting large crowds. They also perform on the streets. The inimitable Gassaway was telling of his first impressions of the Plains last Monday. Said he had been told that the vinegarone dwelt in mesquite trees and when the unwary one passed under them they would fit down, light on the neck and sting one to death. "But I was not afraid," Mister Gassaway continued, "I had this little bottle of liniment uncorked etc."

A. A. Hatchell returned Wednesday from a trip to Dallas and other East Texas points. Stated that he had talked with persons interested in the building of the I. O. O. F. Home for orphans and found the chances for Plainview securing it very fair. They said the main things they wanted in the location were "good water and an abundance of morality." Mr. Hatchell told them these were Plainview's strong points.

Miss Lucile Kinder returned this week from St. Mary's College, Dallas, where she has been the past year. The young lady was an exceptionally apt student in her High School career at Plainview and that she has continued her good work was manifested by her bearing back to Plainview the Gold Medal for the highest general average in the entire school.

Three sets of street crossings at the corners of the square have been completed. They certainly look enterprising and all one needs is rubber heels on this concrete to imagine oneself treading on asphalt. Now for more concrete sidewalks and then some more street crossings of the same description.

Work on the big well for irrigation on the Seth Ward College campus is progressing rapidly. E. H. Perry is overseeing the job and that guarantees its success. By the time school starts this fall it is expected to have the grounds transformed into a park of wondrous beauty.

The Herald wishes to call attention to the newly advertising scheme in this issue, the "A. B. C. Mis-spelled Word Contest." Here is a chance for the prize spellers to put their knowledge to profit. Get you a dictionary and be sure you are right before you send in your guess.

The best overall in town for the money at Shelton Brothers.

SLOW UP, PLEASE.

The speed limit is no secret by any means in the town of Plainview. All automobiles whose carburetors feed too freely had best be carried to a garage for treatment. Everybody looks alike to the Sheriff's force when it comes to endangering the lives of little children who are likely to be crossing the streets at any time and place. Young ladies who drive cars in town must not forget how delicate a piece of work it will be to violate the law and be placed in such an embarrassing position as to have us call at your expense.

Respectfully,
G. A. LONDON, Sheriff.

W. H. M. S.

The Woman's Home Mission Society met Monday at the M. E. Church, South in regular business session. Mrs. L. P. Martin was elected as delegate to Childress for the annual Joint Meeting of the Woman's Home and Foreign Mission Societies. Quite an amount of business was transacted and a pleasant time was enjoyed by all members. Next Monday will be Bible Study—meeting begins promptly at 4 p. m.

PRESS REPORTER.

SHOVEL OUT SALE CONTINUES.

Owing to the hearty patronage with which the people of the Plainview trade territory welcomed the big "Shovel Out" sale of the Stephens Dry Goods Company, Mr. Stephens has decided to continue the sale another week. Be sure and note the partial catalogue of goods as shown in his page ad in this issue. The exceptional bargains offered by this firm do not come often. It will pay you to patronize this sale.

RUNNINGWATER.

This section of the country is needing rain, had a small shower Monday, but not enough to do much good. Some of our farmers who happened to get their cotton planted right have a good stand, while others, who did not know or had forgotten how to plant cotton, got it planted too deep and failed to get a stand.

Everyone is busy cultivating. Corn, maize, etc., are looking nicely.

Mr. L. D. Griffin and Miss Minnie Locke are attending the Normal at Canyon.

Prof. Beard, who taught in Hale Center last winter has secured the Runningwater school, while Prof. Griffin will teach east of Plainview the coming term.

Miss Dona Knight is spending a few days with her friend, Miss Joe Helm, of Plainview.

The Halfway Sunday School enjoyed a picnic and fish fry at the old "S" ranch last Wednesday.

Mr. and Mrs. Lem Puckett of near Bartonsite were the guests of their sister, Mrs. J. W. Dye, on last Sunday.

W. W. Pinkerton is off on a business trip to Carlsbad N. M.

R. L. Hooper and family and Mrs. Nelson K. Smith attended the picnic at Wayland College on Tuesday.

Miss Josie Griffin received a telegram on Tuesday calling her to Southern Texas at the bedside of a dying sister. Prof. Griffin and Miss Josie have our sincerest sympathy in their sorrow.

There was no Sunday School here on Sunday on account of the absence of the Superintendent.

The Halfway Sunday School is growing in interest. A class of young people was organized last Sunday afternoon.

EPISCOPAL SERVICES.

Rev. Edwin Weary, Episcopal Rector of Amarillo, will hold services at the Southern Presbyterian Church next Sunday morning, June 11. Everyone is cordially invited to attend these services.

Zeb Reed, of Lockney, a certificate Mason of the Grand Lodge of Texas, is conducting a school of instruction in the Masonic Hall. A large number of members are attending these lectures and are rapidly becoming proficient in the peculiar works of the order, we understand.

C. K. Kellehor of Granger, and Joe Barnhart of Childress came in Wednesday to visit their relatives, the Gidney family.

ATTENDED BY ENORMOUS CROWDS THROUGHOUT.

Excellent Exercises Mark the Close of a Most Successful First Year.

DRS. WILLIAMS AND CARROLL PREACH AND SPEAK.

225 Students Have Been Enrolled This the First Year of the College.

The commencement exercises at Plainview's Baptist College were rendered according to the published program without a hitch. Saturday night the program was featured by a declamatory contest which was won by Jones Goode. The efforts of all the contestants were laudable. Sunday morning at the First Baptist Church the Commencement Sermon was preached by Rev. C. B. Williams of Fort Worth to a crowded house. Sunday night, Dr. B. H. Carroll, President of the Southwestern Baptist Theological Seminary at Fort Worth preached to an audience largely composed of College people.

At the college auditorium Monday morning, President R. E. L. Farmer of Canadian Academy delivered the Baccalaureate address after which E. L. Childress, the only graduate rendered his oration. There was also an excellent musical program. Monday night the Prohibition Oratorical Contest was the attraction. Five good orations were delivered, the medal being awarded to W. H. Forbes.

Tuesday was an all day affair at the College. Music, readings and a short address by Dr. Carroll occupied the morning and at noon the bounteous dinner was spread in the college dining hall. Perhaps more than a thousand partook of same. After dinner the crowd repaired to the auditorium where Dr. Carroll delivered the most masterful address ever heard in Plainview, speaking to the subject, "40 years in Texas." He was very complimentary in his remarks regarding this section and decidedly optimistic as to its future. Especially did he urge upon the people the importance of good schools and colleges in building up a new country. After his speech Revs. Gates, Harder, Dr. Wayland and others reported the progress of the past year and voiced their plans for the future. Considerable money was raised for the college fund and quite a bit of extra enthusiasm was worked up.

Wayland Baptist College has one of the most substantial main buildings of any school in the South. Its foundation alone cost \$20,000 and \$120,000 cash has already been put in the structure and it is still unfinished. One of the costly dormitories was erected the past year and we challenge any other school to produce such a record as the above its first year.

Plainview should get behind this college with more moral and financial support while it is young and in a very few years the moral influence and the financial support will be going the other way to a great extent.

Tuesday was "Old Settlers" Day and quite a number were out at the college. The Herald man managed to interview a few of them and their conversation was as interesting as a novel. On account of lack of space it is impossible to do justice to their optimistic stories this week but next week they will be elaborated in detail.

The Panhandle Retail Hardware and Implement dealers association is booked to meet in a convention in our town on the 26-27 of this month. There will be low excursion rates and quite a large crowd expected. Plainview has a good reputation at a Convention town and we are sure she will do herself proud in this instance. The Association is but two years old, but we understand it has a large membership. R. C. Ware, one of our local merchants, is vice-president of the organization.

Among the Plainview people visiting that historic scene of Indian fights, the McKensie battleground last Sunday were Mrs. J. M. Shafer, Mr. and Mrs. Lee Shropshire and daughters, Misses Ruth and Letha, Misses Ruth Wingo and Bird Perot and Messrs. Tom Shafer, Ellis Carter and J. R. Pepper. Picnic dinner was taken along in the p.m. and the crowd returned in the afternoon from a pleasant day, sun-burned but happy.

The A. B. C. Advertising Contest

\$10.00 CASH PRIZES GIVEN AWAY \$10.00

HOW TO WIN A PRIZE: Scattered through the ads beginning with the letters of the alphabet are several misspelled words placed there on purpose. Read each ad and see if you can find all the mistakes. There will be two issues of this contest, and in order to win a prize answers must be for both issues, when words will be changed. Spell words found incorrectly, correctly, giving names of advertiser where works are found. Abbreviations, capital letters and proper names are not counted. All answers must be sent in by Mail addressed to A. B. C. EDITOR, care The Hale County Herald. No answers will be opened until June 20th, giving everybody an equal chance. Follow the instructions carefully as no replies will be counted if you do not follow the conditions of the contest.

THE EDITOR'S CREED.

I believe in the stuff I am handing out, in the firm I am working for, and in my ability to get results. I believe that honest stuff can be passed out to honest men by honest methods. I believe in working, not weeping; in boosting, not knocking; and in the pleasure of my job. I believe that a man gets what he goes after, that one deed done today is worth two deeds tomorrow, and that no man is down and out until he has lost faith in himself. I believe in today and the work I am doing, in tomorrow and the work I hope to do, and in the sure reward which the future holds. I believe in courtesy, in kindness, in generosity, in good cheer, in friendship, and in honest competition. I believe there is something doing, somewhere, for every man ready to do it. I believe I'm ready—RIGHT NOW.—Elbert Hubbard.

DO YOU EVER READ THIS PAGE?

CERTAINLY NOT. And we can't blame you. This page contains from week to week nothing but breezes from an editorial brain-storm and the Plains people do not think much of hot winds. On the editorial page is expressed the opinions of the editor rather than articles dealing out news exclusively. If you find our conversation uninteresting—why, you are not in the least surprised. Long ago the dear girls of our acquaintance broke the news of this weak spot in our education to us.

But even if we wrote with the quill and understanding of a Shakespeare the editorial page would be ignored. By way of satisfying yourself on this point the Herald man, a short time ago, accosted six citizens of Plainview at random and asked them if they ever read the editorial page of the Dallas News. As one man they answered an emphatic "No."

Now if our people will not read the editorial page of the leading newspaper of Texas how can we expect them to listen to the vaporings of a mediocre country editor? For instance the state press column of the big Dallas paper contains the only real humor in the daily and yet they pass it up of sheer force of habit. And if a man will read the editorial column of the same paper every day for a year and assimilate it properly he will find his concept of the world broadened almost as much as if he had attended a big university the same period.

People read the pages of local news oftentimes out of pure selfishness. They want to see if their names are not mentioned there. Well, that's all right. But out here in West Texas we are so far from the rest of the world we ought to try and keep up with it as much as possible. The editor of the smallest weekly, even, has access to scores of papers every week and can't keep from catching the pulse-beat of the world. He is paid to keep you in touch with the affairs of mankind, both at home and abroad and if every page of his paper is not worth reading, he ought to be "fired." You have often listened to a dull conversation and laughed at a stale joke for politeness' sake. Try reading the editorial page of the Herald for a while. You have no right to convict us of imbecility until we have been given a fair trial.

THE PROBLEM of locating a new home is a matter that is continually perplexing the minds of thousands of people throughout this broad land of old Hale county offers merited attractions, superb climatic conditions, healthfulness, cheap land, good schools and colleges, high moral tone, unbounded recreation possibilities and other drawing cards too numerous to mention. But many people are afraid of the alluring statements made in the literature of the real estate man. While this literature emphasizes the optimistic, still there are very few false statements made in the pages. Our real estate men have learned that it does not pay. People are suspicious of the veracity of the claims for the country made by the Herald. But this paper has been publishing along for twenty-two years and is in a better condition today than ever before. We have never had a prospector yet to come to us, after he had seen the country, and say, "Your paper is a lie." This paper is the organ of no real estate firm and the editor never lies awake at night with a guilty conscience resulting from exaggerated claims. In all seriousness, if the people really knew the great advantages being offered in this western country to homeseekers the trains would always be taxed to carrying capacity bringing people into this country. Down deep in his soul every man knows that it is only a question of time till this immigration will come in greater numbers than ever before and the first who comes are the ones who will get the advantage in the big increase in values. You know this but you are afraid to take the plunge. God never helped a coward.

Pleasure and prosperity notes: cherries are ripe and wheat cutting commences next week. Come to the Plainview country.

HAPPINESS.

HEALTH OF BODY, mind and spirit is its source. Here are a few rules for gaining and keeping health: Be clean, be busy, be kind, be patient, be just, be steadfast. Most bodily sickness is due to excessive eating, to want of bodily exercise, to want of cleanliness, to want of fresh air by day and night to selfishness, to vanity, to laziness, to hateful thoughts, to self-indulgence in a hundred forms. That is far truer of men than of women. Most of the bodily ailments of women are due to self-sacrifice and self-neglect. Daily tasks compel most men to form habits of some regularity. A necessary routine walls them in. This fact is one that powerfully draws women out of the home into commercial and professional pursuits. The work of the home is too seldom systematized. The mother allows herself to be enslaved. Her body, mind and spirit pay the penalty, of sickness of premature decay. Happiness is not in getting what we desire, nearly so much as it is being what we ought to be—clean, strong, generous, friendly individuals, finding it "more blessed to give than to receive."—Southwest.

HOW LONG BEFORE the business men of Fort Worth and Dallas are coming out to visit the Plains people? They keep talking about wanting the trade of this section and yet they are putting on trade excursions to all other points of the state and even Oklahoma and ignoring even the most prominent part of the state. When the returns from this year's crop comes in many people are going to sit up, rub their eyes and take notice of the fertile Plains country. We people go down to the conventions at Fort Worth and Dallas Fair almost every year but they never pay back our visits.

EXTRACT from the essay of one of the "sweet girl graduates" in a Hale county school: "We as students of the High School of Estacado have learned that a beautiful soul produces a beautiful mind and a beautiful mind produces a beautiful face. Some girls have the erroneous idea if they have but a sufficient quantity of paint and powder they appear intelligent whether or not they have any knowledge to back it." Right. Wonder if the young lady is engaged? If that girl does not prove to be a queen then we will wear the office towel for a shirt.

TO MAKE A BOY into a pure man, a mother must do more than pray. She must live with him in the sense of comrade and closest friend. She must stand by him in time of temptation as the pilot sticks to the wheel when the rapids are around. She must never desert him to go off to superintend outside duties anymore than the engineer deserts his post and goes into a baggage car to read up engineering when his train is pounding across the country at forty miles an hour.

AFTER A FRENCHMAN had completed a 750 mile airship flight in his own country he was smothered with French kisses by the women upon his descent. Of course French kisses are more less second-handed but any kind are pleasing. And the very next week another Frenchman was killed in an accident to his machine and his countrymen erected a swell monument in his honor. Win or lose, you get what's coming to you in France.

HEREFORD is to hold a Big Water Carnival next Thursday Friday and Saturday June 15-16-17. There will be low excursion rates and probably a large crowd as the affair has been well advertised. Plainview should send a large delegation to her sister city on this occasion not only as a matter of courtesy but also for information to be derived from listening to addresses from prominent speakers well grounded in irrigation matters.

WHAT ARE THOSE whom we meet in society to us as compared to our own-home circle? Why do we take pains to be polite and agreeable to them and neglect those who have the strongest claim upon us? It always comes about because we have got into the wrong way of thinking. We have put the home in the background, when it should occupy the foremost place in our thoughts.

DOWN AT BRADY the citizens are searching for treasure said to have been buried near there by a Mexican in the long years past. Up here in Hale county the citizens are finding treasure—they will take a half million dollars from the fertile earth this year—represented by wheat and oats alone! A dollar is a dollar for a' that. Come to Hale county.

Be as careful to keep the weeds out of the minds of your children as you are to keep them out of your garden. But remember something will grow there. If you don't plant them with good grain the tares will take root in spite of you. Keep a library of good clean books and by all means keep your home paper before them.

THIS YEAR BIDS FAIR to be the banner year of all the many banner years of Hale County harvests. The Lord is good in Hale county and—by the same token—the various denominational churches have a present investment in Plainview—the seat of Hale county—aggregating one-half million dollars.—Amarillo News.

A ST. LOUIS GIRL killed herself accidentally last week by eating complexion wafers containing arsenic. Many girls live a dog's life trying to be beautiful and some of them die a dog's death—or is it strychnine they give a dog?

AN OKLAHOMA MAN has just cured himself of rheumatism and deafness by fasting 40 days. He weighed 115 pounds when his fast was completed, 30 pounds less than when he started. Now, that man had something on all the heroes of the olden time.

GOVERNOR COLQUITT emphatically declines to resign his membership or sever his connection with the Methodist church because he is an anti-prohibitionist, which course he was urged to take by T. A. Haynes of Mansfield. What's the use of being Governor if you can't be your own boss?

Isn't it wonderful how well informed the average loafer is?

NOW, JUST BETWEEN YOU AND I

A certain prominent society lady of Plainview called up Central one night this week with a query, "Say, can you tell me what time we will see the comet tonight?" Now this town has the most accommodating telephone girls in the world and so instead of reproaching the interrogator for her ignorance of astronomy, Central replied, "No, I cannot, my dear. We have no connection with the stars."

Judge L. is tall while Judge M. is very opposite in the other direction, but both are important personages in Plainview. Both are sensitive as to their physique and we hope they don't see this. When the straw lid season came in, Judge L. who keeps up with the times, purchased a new hat. Judge M. saw it, got funny and said, "Bend down so we can admire your hat." Judge L. was wroth and replied in tones dripping vinegar, "Aw, shut up. Why don't you grow to a man's size if you want to run with men."

Never fear, Plainview will have some June weddings. There are six couples in this town that want to marry badly and they are prominent people too. The reason why one of these couples has not married sooner was because the prospective groom had a hat bet that he wouldn't marry in six months. The time is up now and he is trying to collect the bet. Maybe you know who it is. But the chief reason why these long expected weddings have not taken place sooner is because the young people are afraid of the reception and celebration that will be awaiting them at the hands of their so-called friends. Why, there is a gang of hoodlums that inspect the records of the County Clerk every day in the hopes of finding a surreptitious license recorded. Some of the couples have even contemplated obtaining their license from a mail order house. The Herald man is empowered to announce to the waiting ones that they will not be molested. Go ahead and take the count. Your friends will not do a thing to you. Oh no, certainly not!

There are far too many English sparrows in our town. Really, they are a menace to property. One day last week a customer at a local grocery store had just purchased a dollars worth of bacon and left it on his baggy seat while untying his horse. When he went to get in the buggy imagine his surprise at seeing a thieving little sparrow flying away with the bacon to its nest under the eaves of the building! We must get rid of these sparrows if we want Plainview to be one big business mart of the South Plains.

A citizen of the town drove his wagon onto the scales at a local coal dealers and asked for the weight. The office man carefully adjusted his glasses and inspected his scales without looking into the wagon. After deducting the usual tare the honest coal dealer peered over his specs benignly at his lawful prey and politely said, "You owe me for 12,000 pounds, Mr."

The are far too many English sparrows in our town. Really, they are a menace to property. One day last week a customer at a local grocery store had just purchased a dollars worth of bacon and left it on his baggy seat while untying his horse. When he went to get in the buggy imagine his surprise at seeing a thieving little sparrow flying away with the bacon to its nest under the eaves of the building! We must get rid of these sparrows if we want Plainview to be one big business mart of the South Plains.

NEWSY NOTES AND COMMENTS

Fort Worth and Texas lose a school. Fort Worth University has been amalgamated with the University of the Methodist Episcopal Church of Oklahoma but the site for the school is not given out.

An old, old story that will stand twice-telling! Two men were disputing over different churches. One was a Baptist and the other a Presbyterian. Finally one of them called a neighbor who was passing and asked his opinion as to which was the better church in which to be saved. "Well, neighbor," he replied, "son and I have been hauling wheat nearly forty years. There are two roads that lead to the mill. One is the valley road and the other leads over the hill and never yet has the miller asked me which road I came, but he always asks, "Is the wheat good?"

The man with good manners can oftentimes get by even if he hasn't many convolutions in his gray matter. It pays to be polite.

The cotton acreage of the entire United States has increased 4.6 per cent over 1910. But in Hale County it has increased a thousand per cent. Move to Hale and be ready for the

cotton picking season.

The board of John Tarleton College, Stephenville, consisting of Governor Colquitt, State Superintendent Bralley and the County Judge of Erath County has elected G. J. Nunn of Amarillo, president of that institution.

Talk about immigration in the Plains country this year! Can't beat good crops as an advertisement.

Prosperity note from Oklahoma: "While the recent rains throughout the state will help the late oats crop, wheat will not be materially benefitted and the State will produce but about 8,000,000 bushels this year as against 26,000,000 last year." Come to the South Plains where there is increase rather than decrease.

A sensitive widow has brought an action against a newspaper which said that her husband had gone to a happier home. And if he hadn't have given the deceased a boost the widow would have stopped the paper. Gee, it's tough to be a newspaper man!

There are 23 wet counties in the state, 62 partly wet and 164 dry. As to whiskey, West Texas, the "wooly wicked west" is the driest portion of the state.

According to a report out of New York there are 790,000 autos registered in the United States. New York leads with 70,000 and there are 13 states which have more than 10,000 registered machines. Up to the time the census was taken Texas was not in the 10,000 class. There are more than two hundred cars registered in the city of Plainview alone. And there are 250 counties in the state. If every county had as many cars as Hale, Texas would own several times ten thousand cars. We repeat there's some class to Hale county.

Large babies! Small babies! Pretty babies! All the babies with their mothers, grandmothers and Poppers will be here tomorrow. The arrangements have all been made, the premiums all promised, the building secured and everything is in readiness for the BABY SHOW tomorrow.—Briscoe County Herald.

What a wily old cuss that editor is! Nary a word about the ugly babies and every one knows there are ugly babies the same as ugly grown-ups and that the deluded parents oft-times enter them for the blue ribbon. Trust a married man to respect the frailties of parents. This writer would probably have blundered in something about babies not noted for their pulchritude.

The Commercial Clubs of some of the towns in Texas are engaging in a crusade against the house fly and the Ladies Civic Leagues of the respectable and respectable towns are assisting them in the fight. These two powerful agencies should accomplish much. The health of a community is of first importance and the extermination of the house fly will go a long way towards eliminating disease. Do not allow the flies to pull off an aviation meet daily in your home.

Our farms are hearts of our national life and the chief source of our material greatness. Tear down every edi-

fice in our towns and cities and labor will rebuild them, but abandon the farms and our cities will crumble and disappear. Take the case right here at home. Plainview's growth is secondary and dependent upon the farms in her trade territory. How about encouraging and rewarding the farmers? There should be a meeting held in Plainview at once to arrange for the Plainview Fair and Harvest Festival this early fall. We ought to decide on and publish prizes at this time in order that our farmers may know what to work for.

Down at Plano one day last week the temperature reached 112 in the shade. Farmers there say the hot winds have already cut short the corn crop one-fourth, and if no relief comes within the next few days the crop will be almost a total failure. And yet those are the very East Texans that laughs at the idea of farming in the Plains country. They should come out and take a look at the healthy verdancy of our springing crops.

The Hockaday family of Lockney moved into the place on Wayland Boulevard this week formerly occupied by Dr. R. B. Longmire. Mr. Hockaday swapped a section of land in Floyd county to E. Harlan for this property, his chief incentive for moving to Plainview, being its college advantages. Dr. Longmire and family are occupying the Wayland Dormitory at present but he expects to build soon on the Boulevard just west of the L. A. Knight place.

Misses Louise and Vashti Hoover and Pauline Chambers of Canadian are visiting in the McCasland and May families this week. This little girls were under Prof. McCasland when he was connected with Canadian Academy.

Rev. C. E. Hastings, pastor of the First Methodist Church, left Monday for his old home in York state where he will rusticate for his health in the picturesque Adirondacks a month or so.

J. W. Miles and family of Clarendon have moved to Plainview to take advantage of our excellent college advantages. The citizens of Plainview are beginning to realize the value of good colleges as citizen getters.

Quite a throng of ladies and children were on hand at the opening of Richards Bros. & Collier's June Turner Sale last Wednesday and there was much lady-like jostling for the front row as the first few in won prizes.

E. L. Cook, a young theological student of Wayland Baptist College, was married to Miss Mattie Ingram at St. Francis last week and the couple came in Monday to make their home in Plainview.

LOT SALE.
The Plainview Cemetery Association requests you to call on us for location and prices on grave lots.
PAXTON & OSWALD. 26

Hermann Giesecke, Rudolph, Ebeling and Mr. Norman of Ballinger and Mr. Schertz of San Antonio are among our prospectors this week.

We Sell--"Selz Royal Blue Shoes"

BECAUSE WE COULD FIND NO BETTER SHOES FOR THE MONEY

EVERYTHING that it takes to make a good Shoe is found in the "SELZ". You will find that they have all the snap and style that you will be able to find in any line of high price shoes on the market, and, as to the wearing qualities you can better judge when you have worn a pair.

READ THE GUARANTEE ON EVERY PAIS OF SELZ SHOES

We especially urge you to read the guarantee on every pair of Selz Shoes, this guarantee is in substance the following: Every pair of shoes that has the Selz name on it is guaranteed to give satisfaction to the wearer and if same should not prove so, we as dealers are authorized to take up every such pair of shoes and refund your money in full or give you another pair of shoes.

We realize the fact that any shoe firm from the most reliable concerns in existance might pnt out a pair of shoes that would escape the eye of the inspector and in such cases it is a favor to us for you to retern them and let us make it good. We do not claim the Selz Shoe to last six months or one year, or any lengths of time, but we do claim and guarantee them to give you srtifaction or money refunded.

Let us claim a share of your shoe trade, try a pair of Selz Shoes and then the experiment ceases. We have in stock a complete line of Men's, Women's and Children's Shoes all new and the latest lasts. Hoping you will call on us and let us show you our line of shoes together with our general line, we are.

LOCAL AND PERSONAL

Call 437 for Hot Barbecue. 23

Latest things in ladies oxfords at Shelton Brothers.

J. M. Shafer spent the week end in Lockney visiting relatives.

Fresh catfish every Friday at Otto's market. 23

J. N. Donohoo came in Monday from a few weeks visit at Mineral Wells.

FOUND--A key-ring with keys. Describe and pay for this ad. 24

G. C. Keck is having a commodious and neat addition placed to his residence.

Mollie Bailey's Show will be here Saturday and so will nearly every citizen in Hale County.

Mrs. E. B. Hoehner and little daughter, Elizabeth, of Guthrie, Oklahoma, are here visiting her parent Mr. L. F. Cobb.

Carroll Smith returned Thursday of last week from Denton where he has just completed the course of instruction at the State Normal.

The large storage tank for water underneath the postoffice in the First National Bank Building was removed this week and hauled to the depot.

Miss Maud Hall left Monday for Danferfield where she will spend the summer with relatives, returning in the fall to reaccept a position in the Plainview schools.

Prof. Baird, who was pricipal of the Hale Center school the past two years and in town one day this week and had that he was making preparations to move to Runningwater where he will teach next season.

Miss Lissie Bell Walker left for her home at Forney the first of the week. This capable young art teacher does not expect to have her mail addressed to Plainview any longer. She has been here several years pursuing her avocation both as instructor in Seth Ward Hlege and later of a private class and has many friends who regret her departure.

Everybody pays the same price at Shelton Brothers.

Mr. and Mrs. Will Brewster of Lockney were shopping in town Monday.

Make you money go further by buying dry goods at Shelton Brothers new store.

FOUND--A chain for auto tires. Owner may obtain same by proper description and paying for this ad. 24

Mr. and Mrs. A. J. Sams have returned from their farm in Floyd county and will spend the summer in Plainview.

Mrs. S. I. Newton left Wednesday for Memphis, Texas, where she will meet her son John who is returning from the State University.

J. F. Garrison and wife returned last week from an extended visit in South and Central Texas. Report the Plains to be in better condition than any section they have visited.

The Herald has a big job on their hands at present in the shape of a 1911-12 Catalogue for Wayland Baptist Sollege. It is much more complete than the one got out last year.

Will Goode is home for vacation from the State Medical School at Galveston where he has been for the past two years. Will says he can lop off a person's head now without flinching. We'll take his word for it.

Robert Alley was over from Hale Center in his White Steamer Wednesday and reported his big irrigation well to be conducting itself beautifully. By the way, this irrigation business is a great thing, as we have mentioned before.

G. S. Ballard of Canyon was here last week and purchased town property of J. H. Wayland to the amount of \$17,000. The Herald understands that his family have been visiting here the past week and that the entire family will remove to Plainview some time this summer. Plainview is robbing Canyon of some of her choicest citizens.

Hot Barbecue every day at phone 437. 23

Look for the Shoes ad this week--Shelton Brothers.

Shelton Brothers want your trade. Give them a chance to merit it.

B. T. Ansley, Jr., is at St Louis with his little son who will undergo an operation.

You will find Shelton Brothers place of business in the north end of the Stephen's Building.

Miss Georgia Brashears returned Monday from a few week's visit to relatives in Lubbock.

Mr. and Mrs. J. O. Roundtree of Sonora, Texas, are here visiting their daughter, Mrs. J. J. Bromley.

Farmer Simpson of the southern part of the county announces that he will start to harvesting his 600 acres of wheat next week. It will probably make better than twenty bushels per acre. Hale county is an ideal wheat raising section.

Everything the latest at Shelton Brothers new store.

Read Shelton Brothers ad this week. They are advertising a good shoe.

Men's clothing at one-half the retail price and less at Shelton Brothers.

J. O. Wyckoff, our retired druggist, transacted business in Lubbock the first of the week.

Miss Ruth Shropshire returned Friday from attending the school of Industrial Arts at Denton.

Miss Vera Newton departed for San Francisco California Wednesday where she will spend a portion of the summer.

Misses Mary Williams and Burr Goode are attending a house party at the Barton ranch in the south part of the county this week.

R. C. Benton, of Claude, was here on business this week and we understand he bought several lots in Plainview. These colleges are selling all sorts of property for our citizens.

Everybody pays the same price at Shelton Brothers.

Everthing bought at Shelton Bros. is guaranteed to be as represented.

"Dad" Reid left this week for Coleman where he will begin on a painting contract for the Santa Fe and work this way.

A company of prospectors from Ohio are spying out the lay of Hale County this week. We will probably have some deals to mention next week.

Mrs. W. B. Joiner returned from Lamesa last Saturday where she had been called to address the District Sunday School Convention upon Special phases of Sunday School work.

F. C. Vickery showed us a fine bunch of onions he raised in his garden. We think they could hardly be beat in any country. This is certainly a fine section for onion growing.

W. J. Black, who recently purchased about \$100,000 worth of city property in Plainview, is back from Oklahoma and we understand that he expects to invest some more in the gilt-edge real estate of this promising city.

Emmette Westbrook and wife returned this week to their home in Sterling City. Mr. Westbrook said he was certainly pleasantly surprised and favorably impressed by his first visit to the Plains. That's what the all say.

We understand that Mrs. W. B. Joiner has been honored with an invitation to join a touring party of Sunday School workers from various portions of the United States and accompany them to the National Sunday School Convention which meets at San Francisco June 20-7.

NOTICE.

For Sale or will trade for good property in or near Plainview, one quarter-section claim in Colorado in one of the best irrigated valleys in the West. Overflowing wells anywhere in the valley. Situated five miles from railroad station. For further description call at East Side Grocery Company, Plainview, Texas.

See our line of Men's work shirts for 45c at Shelton Brothers.

Mrs. M. B. West returned Wednesday to her home in Joshua, Texas, after a few weeks visit to her parents, Dr. and Mrs. Jas. Pickett.

Saturday, June 10th is the date for the big Panhandle Prohibition Rally in Amarillo. Excursion rates of one and one-third regular rates.

The R. A. Long Drug Company building is being ornamented with a front porch this week. The improvement bug is buzzing right merrily.

Will McCasland returned today from visiting relatives in Collin County. Reports a large number of hot dry weather days in Northwest Texas.

During Wayland's Commencement receptions for college students were held on different nights at the McGlasson and Webb homes. College spirit and hilarity were rife.

A little chap by the name of Carl Knupp, playing around the building out at Wayland College last Tuesday, suffered a fall of about ten feet and was painfully injured.

Miss Marie Gidney came home from St. Mary's College Wednesday. She had not seen her parents since last September and in the meantime they had removed from Granger to this town.

FOR TRADE.

Equity in 1-2 section of land, improved near railroad for Plainview property. One-third of 260 acres crop with the deal. Years on the deferred payments. Address Box 15, Kress, Texas. tf.

Among the visiting members in attendance at the Commencement exercises of Wayland Baptist College were Rev. G. W. Tubbs, of Lockney, Rev. G. I. Brittain of Floydada, accompanied by his wife and Rev. J. R. Hicks of Matador, all firm friends of the young college.

The Marshall Evangelistic Quartette came in today and will start the protracted meeting at the Christian Church tonight. The personnel is as follows: Rev. Jng. W. Marshall, Chicago, Bass; J. D. Bowles, Abilene, baritone, Earl C. Motter, Lyons, Kansas, 2nd tenor and Dyrre F. Silvey, Altoona, Oklahoma, 1st tenor.

BIG SHOVEL OUT SALE

Beginning Saturday, June 3rd and Continuing Until Saturday, June 17

We need the room for new goods that we are getting in, and we also desire to get rid of the L. W. Sloneker Stock or, better known by some as the "Broken Dollar Stock." Therefore, we are putting on this SHOVEL OUT SALE. What we mean by that, is, if you need good dependable merchandise for one of the family and will come to our store after it, you will purchase for the whole family before you leave, because the prices and quality can't be beat. You will be able to buy in this SHOVEL OUT SALE, good quality merchandise, cheaper than "wholesale merchants" can buy it, even by paying twice what you will have to pay. We want to get established as PRICE MAKERS in Plainview. We mean to do it. All we want is, for you to come to our store, look at the goods, and ask the price--that's all.

Read the prices on the BROKEN DOLLAR STOCK--all new goods are marked as cheap as we can sell them--you will do well in making your purchase, to buy them, they are first-class, dependable, pretty articles.

CITATION BY PUBLICATION.

THE STATE OF TEXAS,
To the Sheriff or any Constable of Hale County—GREETING:

You are hereby commanded that you summon, by making Publication of this Citation in some newspaper published in the County of Hale if there be a newspaper published therein, but if not, then in any newspaper published in the 64th judicial district; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said 64th judicial district, for four weeks previous to the return day hereof, William Kizer and Elijah Severs, whose residence is unknown, to be and appear before the Honorable District Court, Hale County, Texas, at the next regular term thereof, to be holden in the County of Hale at the Court House thereof, in the town of Plainview, Hale County, Texas, on the 12th day of June 1911, same being the regular June term of 1911 of said Court, then and there to answer a petition filed in said Court, on the 10th day of May, A. D. 1911, in a suit numbered on the docket of said Court No. 623, wherein F. Faulkner is plaintiff and Jesse Severs, Sarah Snow, Daniel B. Snow, Elizabeth Bangham and Elijah Severs, William Bangham, Florence Powell, James Powell, and William Kizer are defendants.

The nature of the Plaintiff's demand being as follows, to-wit: Suit in trespass to try title for the recover of the title and possession to the following described tract of land, being all of the South one-half and the Northwest one-fourth of the Northwest one-fourth of section No. 141, Block C, Hale County, Texas, and plaintiff alleges the following title thereto, to-wit:

1. Patent from the State of Texas to Paris Cox, dated 15th February, 1879; 2. Deed from Paris Cox to Lydia A. Severs, dated 8th August, 1879, recorded in Volume C2, page 25, Hale County Deed Records.
3. Deed of gift by memorandum and verbal gift, from Lydia A. Severs to James Severs, recorded with record of deed named in No. 2 above.
4. Deed from James Severs and wife Emily F. Severs, to A. G. Hinn, dated January 26th, 1909, duly recorded in Volume 22, page 44, Hale county deed records.
5. Deed from Albert G. Hinn to W. A. Lowe, dated Feb. 8th, 1909, duly recorded in volume 22, page 58 deed records, Hale county, Texas.
6. W. A. Lowe and R. E. Lowe to B. E. Sebastian, by deed, dated April 8th, 1909, and duly recorded in volume 25 page 288 deed records, Hale County, Texas.
7. Deed from B. E. Sebastian and wife, Leona Sebastian to F. Faulkner, dated September 13th, 1910, and duly recorded in Volume 25, page 259, Hale County deed records.

Plaintiff alleges that the defendants are claiming said land herein controversy as the heirs of Lydia A. Severs, but that his claim to same is superior to defendants.

Herein fail not and have you before said Court, and on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Plainview, this 10th day of May A. D. 1911.
B. H. TOWERK,
Clerk District Court, Hale County, Texas.

SHALLOW AND FREQUENT CULTIVATION.

Dallas, Texas, June 7.—Correspondents of the Texas Industrial congress who are following its instructions contesting for the \$10,000 cash prizes, for the best yields of corn and cotton, report excellent results from shallow cultivation of their crops and the maintenance of a dust mulch to prevent evaporation of the moisture in the ground. Shallow cultivation every four or five days, keeps down the weeds, and save the fertilizing elements of the soil for the growing crop and at the same time keeps the ground from crusting. Many farmers who are practicing these simple but effective methods and their corn and cotton are fresh and green while their neighbors crops are burning up, which emphasizes the fact that the dryer the weather conditions the greater is the necessity for continuous shallow cultivation.

Let us insure your crops against hail.—J. M. Malone Insurance Agency

COTTON ON THE PANHANDLE AND PLAINS

By Avery Turner.
(Mr. Turner is Vice-President of the Santa Fe Railways Pecos Valley Lines, and is one of the best informed men of the Southwest.)

But little is known of the results of cotton growing in the Panhandle country except the good reports from Clarendon, Memphis and other stations on the Denver road in the famous Red River valley, where the extended acreage last year produced a remarkable good crop, which from cotton alone brought prosperity. In addition they also had fair crops of other commodities.

In the counties of Floyd, Hale, Lamb, Hockley, Lubbock, Crosby, Lynn, Terry and Dawson, above the rim-rock and breaks; and even in the southern parts of Briscoe, Swisher, and Castro counties, cotton is not an experiment. Repeated tests during the past seven years on plains farms have shown excellent results of yield, quality of staple and seed, with a remarkable ability to withstand drouth, and ease and cheapness of cultivation not possible in the old cotton country.

The year 1910 was the driest known on the Plains, yet there were numerous fields above the breaks which produced half a bale and more per acre, and sold for \$90 a bale; and it should be remembered that most of it was raised on land bought at prices of less than \$20 per acre; some of it on land which cost only \$10 per acre, thus enabling an industrious settler to pay for a quarter section from one crop of his cotton patch.

There is no question about cotton as a profitable crop below the breaks of the great plains; the production there shows for itself, but little has been told of the advantages of this crop on the plains. Owing to its concentration in a bale and limited weight per acre, it can be hauled a long distance to the railway and since the seed is valuable also, it can profitably be raised thirty-five or forty miles from the railway.

Careful selection of seed best adapted to the plains is advisable, and early maturing, short or low growing varieties are preferred. If a good stand be secured, usually the plant continues to grow like a weed if the rains in August and September are frequent. Dry weather is preferred to make the crop stop growing and bloom to produce the proper number of bolls. Cutting out the tops of the plant often is necessary to let in the sunlight and stop rank growth.

On the Plains there is no boll weevil no sharp shooter, and similar enemies. Weeds are more easily killed and the soil is almost inexhaustible. It is true the labor for picking the crop is difficult, and it essentially is a family crop that can be harvested by the children and aged, and often is picked by women. There is hurry in the harvest on the plains; it is work that can be done at odd times; for six months if necessary permitting a family of five, even if there are children, to pick thirty or forty acres. It should be considered the perquisite of the women and children, and ordinarily planted as a diversification; not as a standard crop, but in connection with poultry, dairy, fruits, and garden vegetables, it insures a profit and adds to the comfort of the farm.

Cotton in connection with raising forage and grains best adapted and sure to grow in what we call by a misnomer, the "semi-arid plains," insures profitable stock farms. It is better to be able to sell cotton seed than to buy meal.

To the cotton grower in the warm country, who is desirous of seeking a cooler climate and escape the boll weevil; who would like to come where there is the finest drinking water in vast quantities; where he can irrigate by pumping if he likes the South Plains presents the attraction of comfort, health, and fortune.

NOTICE TO HORSE AND MULE BREEDERS.
Will make the season three miles east of Plainview at the Grimes place with the following horses and jacks: One draft stallion; one standard bred trotting stallion and two good jacks. It will pay you to see the above stock before breeding elsewhere.
CLINT SHEPARD.

FOR SALE—240 acres of choice land out of south half survey 35, blk. J. K. 2. Located in the northwest part of Plainview, and the most desirable land around town. Will sell in 40 or 80 acre tracts on easy terms. Other lands for sale in all parts of the country. For prices, terms and descriptive literature write Otus Reeves Realty Company, Plainview, Hale county, Texas.

WANTED—Seth Ward College property. We have customers who want to buy or trade lands close in Plainview property or other property for improved or unimproved lots or acreage property in or near Seth Ward College.
ANSLEY REALTY COMPANY.
Plainview, Texas. 23

Irrigated and non-irrigated land in the beautiful Arkansas River Valley in Colorado. Will take part trade at cash value.
J. L. HUGHES,
Plainview, Texas.
In J. A. Price's Land Office.

We have 100 boys suits to close out this season at less than half retail price.—Shelton Brothers.

COTTON PICKINGS.

Cotton has given the world its most gigantic industry. Millions of people cultivate the plant and as many more weave at its looms and its fibre clothes the human race. It is the most powerful agency in our civilization, running both plow and factory, and it is the leading merchandise of mankind. Its field has aroused the inventive genius of the country and it is an important factor in medicine and arts. The seed is food for man and beast and cotton products appear in numerous forms on all markets of the world.

It is the most useful of staple products, having had less than a century of commercial recognition, but it has rapidly acquired power until today it is the King of Products. The fleecy staple is as good as legal tender on any market and based on factory values is the richest of all industries.

For the past century it has engaged the brightest intellects of the world in science and commerce and many of its problems are only half solved. The inventive minds of the universe have pored over its fibre; merchant princes have studied its markets and the ablest financiers have sought to fix its values.

Cotton is limited in its area of production to Texas and a few other Southern States but its consumption is world wide and it is one of the leading necessities of life which insures forever a proper return to the producer. It has been maligned by its beneficiaries and railed at by writers, but Texas cotton stands today the most reliable and profitable staple product of any crop of all agricultural states in the Union. The state average of production per acre 1910 was 149 pounds; the line selling for \$20.86 and the seed for \$3.77, making a total average production per acre of \$24.63. Comparing this with the leading agricultural products of other states we find corn in Illinois producing \$14.85 per acre; wheat in Kansas \$11.93 per acre and oats in Iowa \$10.29 per acre; these states leading in the products mentioned.

Cotton is by far the most valuable of our farm products. In 1910 we harvested 10,520,000 acres of cotton, making 3,140,000 bales, valued at \$219,656,000. The increase in yield in 1910 over 1909 was 24 pounds per acre. The crops of the United States in 1910 was 11,426,700 bales.

Texas is the home of this remarkable plant, the soil and climate being peculiarly adapted by nature to its propagation and to the proper maturing of the fibre.

BIG SUCCESS WITH HOGS.
It is now a firmly established fact that hog raising is a paying proposition, but just how big it will pay where conducted under favorable conditions is not generally appreciated. The experience of J. W. Smith at Panhandle farmer will serve to show just how good a thing raising hogs in Texas is. Mr. Smith was in Dalhart from his farm a few days ago and talking to the editor of the Texan told a hog story that sounds awful good from a hog-raising standpoint.

Mr. Smith said that during the past few months he had marketed eighty head of hogs that average 250 pounds each and sold on the Fort Worth market at \$6.50 per hundred pounds, the eighty head bringing him \$1,300 dollars. These hogs were raised by him on his farm, every ounce of food they consumed was raised by Mr. Smith on his farm, and besides he fed cattle, including dairy cows, and sells butter, feeding the skim milk to his pigs. Encouraged by his success with hogs, Smith will increase his holdings this year and will have a good supply of fine, fat Panhandle pigs on the Fort Worth market next fall.—Fort Worth Star-Telegram.

THE HEART

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions due to impure blood—such as dropsy, fainting spells, nervous debility or the many venereal conditions, ulcers, "fever-sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery
This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. Its a heart tonic and a great deal more, having an alternative action on the liver and kidneys, it helps to eliminate the poisons from the blood.
To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has 40 years of cures behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.
Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of wrapping and mailing only. Send 31 one-cent stamps for the French cloth-bound book. Address: Dr. R. V. Pierce, Buffalo, N. Y.

LISTEN FARMERS.
Hall may come. Let us insure your crop.—J. M. Malone Insurance Agency, Plainview, Texas.

FOR SALE—Two 2-year old Jersey milch cows. See J. L. Craig, Plainview.

This version of a historic incident was given by the Chicago Post: "Try that, madam," said the serpent politely, as he offered Even an apple. "You can raise four hundred barrels of them to the acre on one of our irrigated farms in the Bezingo valley. Your husband can purchase a forty acre tract on easy payments." Shortly after the family moved from Eden to seek the new home.

The Seminole Sentinel tells about a delivery horse eating an "Appeal to Reason" and kicking out of the harness ever afterward. It also gives voice to surprise that the horse was able to do any kicking after its strenuous meal.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one, of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

TAKE The CARDUI Woman's Tonic

if you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system. Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your troubles. Begin today.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free. J. H.

Land Surveying, Etc.

If you are going to have your land surveyed; a map or a plat made, or if you wish a blue print struck off or levels taken of your section, get a good man who guarantees his work to be of the best, without waiting 'til "Kingdom Come" for it.
