PLAINVIEW, TEXAS, TUESDAY, OCTOBER 7, 1913

NUMBER FIFTY-NINE

COUNCIL CONDEMNS WOODEN BUILDINGS

Last Three Frame Structures on North Side of Square Ordered Removed Last Night.

NO CONTAGIOUS DISEASES

Will Furnish Fuel for Library One Afternoon Each Week; Sewer for West Side School.

The City Council ordered, at its meeting last night, three wooden buildings on the north side of the Public Square removed. Two of these buildings belong to T. A. Johnson, of Paris, Texas. Mrs. Mary R. Anderson, of Plainview, owns the other one. It is stated that Mr. Johnson is entirely willing to replace his frame structures with brick as soon as the other building is removed.

These structures were condemned as unsanitary and hazardous from the standpoint of fire risk.

A sewer was ordered put in for the West Side School, and the contract was awarded to the Plainview Plumbing and Electric Co. at a price of 34 1/2¢ a foot, and 50¢ extra for each "wye."

It was ordered that the city surveyor's help be paid only for time actually put in.

On motion it was ordered that the city furnish fuel for the public library one afternoon each week.

Dr. E. F. McClendon reported that slaughter pens and dairies are in good condition. He said there are no contagious diseases in Plainview.

The City Secretary was ordered to issue warrants bearing interest at 10 per cent from October 6 to Malone Light and Ice Co. for amounts which the city is in arrears with Mr. Malone.

Regular bills were paid.

AMARILLO BOOSTER WOULD GROW MANY TREES.

D. C. Priddy Favors Black Locust, Because of Hardiness and Quick Growth.

The thing which, next to irrigation, will benefit the Plains of Texas most is tree planting, according to many "old timers," and many others who are not so old. Not only will trees beautify the home and farm and roadside; they will break the force of spring winds, they will conserve moisture, and more than one close observer has ventured the opinion that more rainfall will come when the Plains are covered with trees.

At any rate, a windbreak on your farm or a grove will supply fire-wood and posts. It may be made to yield a considerable income every year from this source, and it adds no little to the value of your farm, in addition to the beauty of trees. Many varieties have been tried.

D. C. Priddy, of Amarillo, favors black locust. The black locust is hardy and of quick growth. In a few years it will produce fire-wood and a supply of the best posts obtainable. Everybody ought to plant trees, Mr. Priddy thinks, and he says that he believes more trees will be planted during the next few years.

Mr. Priddy is enthused over the possibilities of the Shallow Water Belt. He was pleased to learn that the Texas Land and Development Company purchased more than 100,000 tamarac last year, and that individuals in Hale County are giving time to tree planting.

SETH WARD LOSES TWO HARD-CONTESTED GAMES.

Freedom from Wrangling is Feature of Contests with Clarendon and Lowrey-Phillips.

Seth Ward College lost the game with Clarendon College Saturday by a score of 9 to 26. The local men were outweighed nearly 25 pounds to the man; they also lacked experience, and some of their best players were out on account of sickness.

Monday Lowrey-Phillips School, at Amarillo, won from the local team by a score of 6 to 19. After the game with the heavier Clarendon collegians, they were in no condition to meet the wire lads at Amarillo.

However, the north side boys are not making excuses. They take defeat like men. It is a part of the game they play. "We learned a lot" said one of the fellows to-day. There was no squabbling in either game.

Seth Ward meets Clarendon on the local gridiron October 25.

LUBBOCK AND WAYLAND PLAY 0 TO 0 GAME.

Baptist College Meets Clarendon on Local Gridiron October 27; Wayland's Line Holds.

With ideal weather conditions, Lubbock and Wayland football teams opened the season Saturday on Wayland's athletic field in a fast and hard-fought game, which resulted in a 0-to-0 score. The game being new to most men on both teams, they were very evenly matched, but from this game both teams learned a great lesson.

Fletcher and Lochridge starred on defense, while Don Wallen starred on offense for Wayland. Potts, Robinson, Baker, Burrus and H. Stubbs starred for Lubbock.

The ball was in Wayland's territory all the game, even reaching the 1-yard line. Then the Wayland line played ball, and held them for three successive downs.

Wayland meets Lubbock at Lubbock October 18.

The line-up:

Lubbock.	
Center	Simpson
Right Guard	Lokoy
Right Tackle	Agnew
Right End	C. Wright
Left Guard	H. Spikes
Left Tackle	Dickinson
Left End	Potts Robinson
Quarterback	H. Stubbs
Fullback	H. Burrus
Right Half	V. Spikes
Left Half	Baker

Wayland.

Center	Tom Fletcher
Right Guard	W. May
Right Tackle	Day and Hardesty
Right End	Murphy (Capt.)
Left Guard	Curtis and Byars
Left Tackle	Paul Wallen
Left End	Ray Blakemore
Quarterback	Lochridge
Fullback	Hansome Fletcher
Right Half	Don Wallen
Left Half	Rentfro

Substitutes: Lubbock—Whelock, Rankin and Bowers.

Officials: Referee—Mr. Adams, of Oxford University; umpire—Professor Woodward, of High School.

There was no wrangling in the game.

Wayland will play Clarendon, on the Wayland athletic field, Monday, October 27. Remember the date. The game has been specially arranged on Monday for the benefit of the business men who wish to see a good game.

KITCHEN FIRE BURNS FIXTURES OF DELMONICO.

Saturday Night's Blaze on Public Square Damaged Sloneker's Stock, Too.

A blaze which originated in the kitchen of the Delmonico Cafe about 12 o'clock Saturday night put the restaurant temporarily out of business. It destroyed all furnishings of the cafe.

A hurried run by the volunteer firemen prevented a spread of the blaze to other buildings. However, water did considerable damage to the stock of goods in Sloneker's Variety Store, next door.

Both F. L. Stovall, proprietor of the restaurant, and Mr. Sloneker carried insurance. The building belonged to T. A. Johnson, of Paris.

FLIES ARE MORE PLENTIFUL.

Cool Weather Seems to Numb Efforts of Catchers—Not of Pest.

The recent cool weather and rains seem to have headed off the fly campaign. It has affected the winged pest in just another way. Flies are more plentiful this week than they have been since the campaign started, in April. And they bite hard; more than that, it is the "typhoid" fly just now.

A concerted effort at this time would wipe out the fly for another year. A flyless Plainview! What a contemplation! Yet the fly is convincing proof of filth. All any town has to do to be rid of flies is to clean up all filth.

Flies are still being purchased by the Civic League at 5¢ a pint. It is a challenge to the boys and girls, and to the grown-ups, too.

PHILADELPHIA WINS FIRST OF SERIES.

The Philadelphia American League team defeated the New York Nationals this afternoon in the first game of the World's Championship Series by a score of 6 to 4.

CHICAGO LADIES ORCHESTRA PLEASURES

Methodist Church is Crowded to Hear First Number of Joint Lyceum Series.

IMPERSONATOR NOVEMBER 3

Seth Ward and Wayland Colleges and High School Offering High-Grade Entertainment.

The crowd which gathered last night to hear the Chicago Ladies' Orchestra filled all the lower floor of the Methodist Church and overflowed into the balcony.

These entertainers were the first number of the lyceum course supported by the three schools of Plainview—Wayland College, Seth Ward College and the High School.

Mr. Brooks, in "Bugle Call," was the beginning of a program of select numbers.

Miss Mary Lutz, as violin virtuoso, Miss Cora Cawthan, as reader, and Mr. Harry Brooks, cornetist, were especially pleasing to the large audience. They received one encore after another, and responded each time with numbers which were still more enthusiastically applauded.

"The End of a Perfect Day," a duet by Miss Lutz and Mr. Brooks, was probably more appreciated by the majority than any other one number.

The entire program was highly entertaining. Each performer demonstrated artistically his or her mastery of the subject in hand.

The Orchestra left today for Lubbock, where they play tonight.

The management of the lyceum regrets that continual disturbance in the back of the house tended to mar the enjoyment of such a program. It is nearly always the case that some in the audience are so full of heart and light of head that they just must bubble over continually. Unfortunately some school boys and girls do not know what are the markings of a gentleman or lady—else, if they must make love at such times, they would do it in whispers.

Miss Sarah Mildred Wilmer, characterist and impersonator, will come to Plainview on November 3, the second entertainment on the lyceum.

WANTED: SOMEBODY TO BUILD RENT HOUSES.

Prospective Residents Can't Find Places to Live; Homes Have Been Scarce for Year.

"Plainview is all right," said W. A. Curtis last week, "but I may have to move to Tulsa to find a place to live." Mr. Curtis is at work stamping out cattle diseases. He was sent to Plainview by the United States Government.

Mr. Curtis finds the climate delightful; he likes the push of the people and their confidence in the future of the country. He says Plainview is the best town he has seen, only—and right here many prospective residents have been put out of humor during the past year—Mr. Curtis can't find a satisfactory place in which to live.

Mr. Curtis isn't asking for a Fifth Avenue mansion. All he wants is a comfortable cottage.

There are no houses for rent in Plainview. This situation has existed for a year. Rents are high. A conveniently-arranged home would yield a good return on the investment, and land values are steadily increasing.

In view of this situation it seems queer to many that a number of good rent houses are not built.

A modern apartment house, constructed on modest plans, is another need of the town. If one may judge by the demand for furnished rooms with conveniences. One, two and three room apartments have been sought time and again—nothing could be found. Had you thought of making an investment?

BISHOP ATKINS TO VISIT PLAINVIEW METHODISTS.

Bishop James Atkins will spend Sunday, October 12, in Plainview. Yesterday he telegraphed Rev. S. A. Barnes of his intended visit to Northwest Texas. He will preach at the Methodist Church. Bishop Atkins is chairman of the Board which launched Southern Methodist University, at Dallas; he has large interest in the educational system which the Methodist Church is working out in Texas.

Bishop Atkins' home is in Waynesville, N. C. He will preside at the Northwest Texas Conference, to be held at Vernon, next month.

LOCAL BOY SCOUTS ASK FOR CHARTER

Youngsters Will Earn Money for Uniforms; Cannot Solicit Funds; to Help Any Worthy Enterprise.

WANT SCOUT PHYSICIAN

E. B. Miller, Scout Master; H. S. Hillburn and O. D. Coan, Assistants in Work.

A Boy Scout brigade was organized at the Court House Saturday. After an enthusiastic meeting, application was made for a local charter. In the meantime the boys are preparing for the test which will be necessary to take before they may join.

Uniforms will be ordered as soon as the charter is granted. First cost of the uniforms will not exceed \$5, and the boys will earn the money necessary to make this purchase. The Boy Scout movement does not permit solicitation of funds for any of their equipment or the acceptance of funds for any effort they may put forth.

E. B. Miller is scout master; H. S. Hillburn and O. D. Coan are assistant scout masters. Patrol and assistant patrol leaders will be appointed. The boys will soon be ready to answer summons to help in any worthy purpose. Mr. Miller asks that anybody desiring support of the Scouts apply to him.

A meeting of the Scouts will be held at 5 o'clock Friday afternoon, at the City Hall, rather than at the Court House, as announced Saturday.

Mr. Miller asks that all parents who are interested in the making of many men out of boys co-operate in this movement.

All Scouts who participate in athletic events or hikes across country must stand physical examination. It is asked if some physician in Plainview will not offer his services as "Physician to the Scouts."

The Boy Scout movement was originated by Ernest Thompson Seton a few years ago. It has spread over two continents. And everywhere it is making youths more manly, more respectful of delegated authority, of the rights of others, of law and order. It is making boys constructive instead of destructive, and is giving them a world of information about every-day things.

A Scout must pledge to keep himself "sound in body, alert in mind and clean in morals." It takes the overflowing energies of the boy and directs them into cleaning the town, rendering little services to men and women who may be unfortunately doing something to build up their character and increase their efficiency in life.

Isn't all of that worth while to the boys of Plainview? Isn't it worth an hour of father's time?

The movement will be directed by E. B. Miller, by request of the Civic League. Plans for permanent organization will be discussed and perfected at to-morrow's meeting.

SCHOOL ENROLLMENT PASSES 1,300 MARK.

Wayland and Seth Ward Colleges Have 415 Students; 185 Entered in High School.

Enrollment in all of Plainview's schools has passed the 1,300 mark. Of this number not quite 900 are in the three public schools. One hundred and eighty-five boys and girls are enrolled for High School work.

Wayland College has an enrollment of 240. This is an increase over last year for the Baptist College of more than 75. Seth Ward has enrolled 175 students to date. President Pearce says that the students are more mature than last year and rank much higher.

The endowment of \$75,000 raised for Seth Ward gives the Methodist school perhaps the firmest foundation of any institution in all Texas Methodism.

BONNER GETS EXTENSION.

Aerodrome Proprietor Secures an Additional 30 Days.

J. S. Bonner secured from the City Council last night a permit to continue his airfield thirty days longer. The original permit expired October 1. It was necessary to secure a permit to erect a wooden structure on Pacific Street.

Mr. Bonner expects to be in his new play house about November 1.

ESPY WILL RECOMMEND DRAGGING COUNTY ROADS.

Commissioner Says That Kansas Highways Are Kept First-Class with "Smoother."

Road dragging is the greatest factor in good dirt roads, according to W. J. Espy, county commissioner. Mr. Espy has been on a visit through Kansas. All of the roads in the Sunflower State are dragged, and he says they are smooth and hard, even though it has been raining there.

"I am going to ask the commissioners to buy some drags," Mr. Espy said this morning, "and then we will let the road overseer call out individuals to drag the roads after each rain. Let a man pay his road time dragging. That plan is working well in Northern States."

Then Mr. Espy called attention to the road built by the Texas Land and Development Company from the main road east of town to Pioneer Park. Dragging has kept this road in fine condition. When a road is not dragged it soon becomes full of holes and ruts.

O'KEEFE SETS EXAMPLE FOR GOOD CITIZENSHIP.

Leading Plainview Citizens Don Work Clothes and Cut Weeds After Rain.

R. W. O'Keefe is setting an example of individual effort which builds communities; he co-operates in the same spirit. Mr. O'Keefe owns some lots on North Pacific Street. The other day he put on work clothes, took his hoe and chopped a rank growth of weeds. It improved the looks of his property and increased the asset of the town in civic attractiveness.

O. M. Unger is another of Plainview's leading citizens who has taken his hoe each time weeds would spring up during the summer and cleaned up his lots. Mr. Unger stands first in matters of town-building.

The clean-up idea is spreading from such examples as these men have set. Many citizens, rich and poor, have, as yet, taken little interest in weed-cutting or the removal of rubbish. The idea that cleanliness, work, health and prosperity go hand in hand has gained much ground this season. Undoubtedly it means a cleaner Plainview.

ALL YOUR BLESSINGS COME FROM GOD, SAYS PREACHER.

Rev. S. A. Barnes Says Heavenly Father Has Right to Demand the Best You Have.

Rev. S. A. Barnes took for his subject at Sunday night's service, "Treasurer." "Lay up for yourselves treasures in heaven," the preacher said, "because—first, accumulations here are transitory; second, one cannot invest here without being interested here; in the third place, the abiding surety of treasures in heaven.

"Our treasure here may not mean money; it may mean anything that a man sets his heart on. 'Where your treasure is, there will your heart be also,'—your life, your all.

"It is a natural, as well as a divine, law that things which are of the earth must, in the course of time, return to the earth. You cannot name one thing save a soul that will not finally return to the earth from which it came. Gold, stocks, bonds, all decay."

Brother Barnes declared that he gloried in the man who is striving after knowledge, but he pities the man who is striving to put all into his head and nothing into his character.

"Every blessing you enjoy comes from God," the preacher said, "and when God offers you all that is best, He has a right to demand that we give Him the best we have."

Bishop James Atkins will preach at the Methodist Church Sunday morning and night.

CHRISTIAN SERVICES BEGIN AT 7:45 O'CLOCK.

Rev. Foy E. Wallace, of Georgetown, Is Conducting Interesting Meeting.

Services at the Church of Christ will continue indefinitely, according to Rev. Foy E. Wallace, of Georgetown, Texas, who is in charge. Good audiences are attending the services and much interest is manifest.

Song service begins at 7:45 o'clock and preaching at 8 o'clock each night. The subject to-night will be "The State of the Religious Dead;" subject for Thursday night will be "The Final Destiny of the Wicked."

SANTA FE OFFERS SPECIAL TO FAIR

Railroad Will Put on Special if Chamber of Commerce Guarantees \$225.

IS SOUTH PLAINS DAY

Hale County Exhibit Is Attracting Favorable Comment, Say Visitors to Amarillo.

A special train to Amarillo—one leaving Plainview at 6 or 7 o'clock Thursday morning, and reaching Plainview on the return trip about 9 o'clock at night—that is what the Santa Fe Railroad offers, provided Plainview's Chamber of Commerce will guarantee seventy-five passengers, or the sum of \$225. A round-trip rate of \$3 is proposed by the Railroad Company.

E. E. Roos went to Amarillo yesterday. He consulted with the Santa Fe officials. They admitted that it is difficult for a man to spend the greater part of three days away from home just to visit the Fair one day. And they said to Mr. Roos that they would put on the train from Plainview on a guarantee of \$225, making a rate of \$3 for the round trip.

Immediately upon receipt of this advice, late to-day, O. M. Unger, J. C. Anderson and other "live wires" started out to get up the guarantee. Practically everybody seems willing to go in on the proposition; so that it is practically assured that a special train will leave Plainview Thursday morning and return Thursday night, permitting you to spend one day at the Fair and only be away from home one day.

"Hale County has the best exhibit at Amarillo, with the possible exception of Portales, New Mexico," said a travelling man this morning. Portales is said to have a very fine display. The Fair is well attended, according to reports coming from Amarillo, and all Panhandle counties are making a strong display of their products. The Amarillo News of Tuesday makes special mention of the "excellent playing by the Plainview band."

Because Thursday is South Plains Day, the Chamber of Commerce has postponed its meeting set for Thursday night until Monday. At that time it is expected that a Secretary will be selected. President Anderson is particularly anxious that all business men come out.

FOUR HUNDRED MOTOR CARS IN HALE COUNTY.

Plainview Dealers Placed 180 Automobiles During 9 Months Ending June 1.

There are 402 automobiles and motorcycles in Hale County. At least, 402 licenses have been issued by County Clerk Towery. Perhaps not a score of these are motorcycles.

That means an automobile for every five families, or, counting five persons to each family, it gives an automobile to each 25 people living in Hale County. The average for all Texas is one motor car for each 110 persons.

There are 35,187 automobiles in Texas, according to report of the Commercial Secretaries. These cars represent an investment of \$43,983,750.

Plainview dealers sold 180 automobiles after 1913 cars came out last fall until June 1. More than 200 have been sold from Plainview during twelve months.

MABEE MAY WRESTLE.

Popular Oklahoman Returns to Plainview; Can Walk Now.

Roy Mabree may wrestle again. He came to Plainview Wednesday. Roy's knee has healed sufficiently to enable him to walk without difficulty. He thinks perhaps he may go on the mat again.

Roy was seriously hurt early in the summer when his motorcycle collided with John Newton's automobile.

WHITWORTH TO REPORT WORLD CHAMPIONSHIP SERIES.

H. C. Whitworth will receive reports on the World's Championship Baseball Series by innings. "Whit" says that he is spending considerable to get this information, but he wants it, and he believes his friends do, too.

The games will be posted on "Whit's" bulletin board in front of Ben's Barber Shop.

was seated. He explained that he had just come in on a blind baggage from Indianapolis. He asked that hobos be not confused with tramps, who were a disgrace to the hobo profession. "The hobo wants work," he said, "and is idle through no fault of his own. There are 300,000 hobos in this country, and they want good roads so that it will be easier for them to obtain work."

Herman Oelrichs, of New York, was arrested on the charge of stabbing Miss Lucile Singleton, a 19-year-old Byrn Marr student, daughter of a Texas mine owner. Miss Singleton was automobile riding with a man she called "Creighton." The automobile was wrecked by striking a stone and crashing into a tree, and the man ran away. The machine was found to belong to Oelrichs, and his arrest followed.

John C. Henning, who sued Clarence S. Funk, former general manager of the International Harvester Co., for \$50,000, alleging alienation of his wife's affections, was arrested in Minneapolis, after a search of a year, and will be prosecuted for perjury. A check found in Henning's possession is believed to reveal the identity of the man who is thought to have influenced Henning to bring the suit to discredit Funk's testimony before the Lorimer Investigating Committee.

"Devil Anse" Hatfield, of Hatfield-McCoy feud fame, appeared in vaudeville at a Charleston, West Virginia, theater. He is 74 years old. He recounts to his audience some of his feud experiences.

The body of W. L. Cowden, an attorney of Kansas City, Kans., was found in the Kansas River. The appearance of the body indicates that he had been killed with an axe. He had been missing several days. He was 60 years old and a prominent church worker.

The Treasury Department, at Washington, is preparing to distribute blanks through post offices, internal revenue offices and other Federal agencies to be filled out by persons who are subject to the new income tax, which applies to all single and married persons whose income exceeds \$3,000 a year, and to all married men whose incomes exceed \$4,000 a year.

The skeleton of a woman, believed to have been murdered, was found doubled up in a box three feet long at Paris, Ill. The discovery was made by men who were excavating for a residence. At the base of the skull was a fracture. The woman had been buried within 15 years.

Col. Theodore Roosevelt has made arrangements to spend three months, from the middle of December, hunting in the wilds of South America. He sailed Saturday from New York for Buenos Ayres.

Count Boni de Castellane has put off the more importunate of his creditors by stationing them about the grounds of Miss Anne Morgan's villa at Paris and permitting them to see Miss Morgan walking with him. The conclusion Boni wished the tradesmen to reach was that he is to wed Miss Morgan and get enough dollars to pay his debts.

SUMMARY OF WORLD NEWS OF THE WEEK.

Thomas Tohesky, who has been entombed a week a hundred feet below the surface by a fall of coal at the Continental Colliery, Centralia, Pa., has been kept alive by nourishment lowered to him through 50 feet of tubing driven into his place of imprisonment from an adjoining cham-

ber. He was able to converse through the pipe with the rescuers and sent many messages of cheer to his wife and children. Once he requested an opportunity to speak with his wife, who was waiting at the edge of the mine breach. Despite the danger, Mrs. Tohesky, with the assistance of miners, descended to the bottom of the mine and talked to her husband. He asked about the children and par-

ticularly the baby, and told her not to worry.

The Rev. J. M. McCathan, while holding an open-air meeting at Uniontown, Ark., became insane, and attacked his audience with a club. After he had been confined in the Van Buren jail he attempted to kill himself by slashing his wrists with a knife.

A meeting of the American Road Congress at Detroit was interrupted by the entrance of a man who shouted that he was the hobo king of America, and, as the hobos were more interested in good roads than anybody else, he asked to be seated as a delegate. After he had introduced himself as C. Jeff Davis, president of the International Itinerant Workers, he The Assembly Board of Managers have rested their case in the impeachment trial of Governor Sulzer, at Albany, N. Y. Two weeks were consumed in presenting the case against the Governor. Both the Governor and Mrs. Sulzer are expected to take the stand before the defense closes. The Governor is expected to explain his failure to report campaign contributions by the statement they were personal gifts, and Mrs. Sulzer is ex-

still harps on the narrow footline, because fullness is piled on fullness. There is no visible sign of a corset even when one is worn, and the neck and shoulders have as much freedom. The transparency of the modern gown may be objectionable to many, but it is not necessary to wear unlined lace for a bodice and go without a petticoat. This thing, after all, must be decided upon by the woman who wears the gown. There is nothing objectionable about the collarless blouse, which is universal. There is something to object to when a woman carries the point of this collar too far and forgets to fasten it until she arrives nearly at the wastline, but this negligence expresses the temperament of the wearer, not that of the dressmaker.—Kansas City Star.

ARKANSAS' CREW CANDIDATE FOR TARGET TROPHY. Battleship Breaks World's Record by Making Perfect Score in Practice with Turret Guns.

Washington, D. C., Oct. 4.—The breaking of the world's record for rapid-fire hits at deep-sea targets by the turret crew of the Arkansas, of the Atlantic fleet, leads the officers and crew of that battleship to believe that the pennant for excellence in battery practice will be wrested from the dreadnaught Idaho at the official contest in October, on the ranges of the Virginia capes. In making the marvelous record in preliminary practice, the Arkansas fired six shots from 12-inch rifles within a space of 57 seconds, each shot striking the target. The excellence of this record is shown when it is remembered that in the battle of Santiago 12- and 13-inch guns belated from our ships with an average interval of three minutes between shots, with a low average of 2 per cent of hits at the short range in which the battle was fought. The practice was at the regulation targets used in preliminary trials—canvas oblongs, 12 x 14 feet, mounted on rafts and towed at a speed of five miles an hour, at distances which made them appear not much larger than the tip of a seagull's wing. In the firing there were three loading intervals of 10 seconds each, leaving but 27 seconds in which to revolve the 500-ton turret and to train two 80-ton rifles for six shots from a moving platform at a moving target. In the navy mind there is no greater game in the world today than the struggle for the fleet pennant for excellence in target practice, a rivalry that extends from the squadron to the individual ships. The ship that wins the pennant is envied by the crews of all others and is the pride of its men as long as the emblem floats above them. All available ships of the Atlantic fleet will go to the ranges off the Virginia capes early in October to take part in the battery practice. President Wilson, the Secretary of the Navy and other high Government officials will witness the struggle of the dreadnaughts to take the trophy from the Idaho, which won the pennant in the last annual contest.

BLouses MUCH WIDER.

The one comment among Americans is the side of the bodices; no one realizes how much they make the ordinary waist look commonplace and old-fashioned until the two are placed side by side. The front is as wide as the back, and there is not always a yoke to restrain the fullness. Often the gathers are put in full at the neck line, and this extra width of material drops without let or hindrance to the waist, where it sags over a deep belt for two inches.

The sleeves are cut in exaggerated kimono shape and extend to the wrists. One rarely sees an armhole, although there is a line of juncture between the sleeve and the body part that may be called an armhole by courtesy. It extends from the neck to the waist, back and front, and is outlined with a lapped seam of fine beading.

There is a vast variety of separate white blouses, and it looks as though they were to be at the height of fashion again. One kind that is favored is made of a white, wash metalasse, which has a satiny surface. It is immensely broad, more so than you think by mere reading, and the pear-shaped sleeves fall to the hand, where they end in a point at the back. They make no pretense of fitting the wrist, and they are the only kind of sleeve which is loose at the wrist that has any grace.

But, after all, it is not the separate waists, but the bodices for 1-piece frocks, that one is especially interested in for the moment. It is these that have outgrown all their former dimensions. And, by the way, many of them are separate from the skirt, because the latter fastens in the back and the former in front. A waist that fastens down the back, except in a decollete gown, is most unusual.

One whole width of the material is used for the back, which is a trifle fuller than the front, and the immense sleeves, which come in fully three inches beyond the armhole, add to the breadth. There are many other kinds of sleeves which are conventional in shape, but they begin four inches below the shoulder and, in that case, the fronts of the waist are widened well beyond the arm.

A description of these new blouses is crude, but the blouse itself is much more graceful. It allows the figure to be unconfined and gives a graceful freedom when one walks. There is surely nothing to object to in the modern gowns, unless the reformer

"Another Cup, Please—I Can't Resist"
—everybody wants more—just as surely as you offer, more is the answer—if the offering is

White Swan COFFEE

The very aroma is thick with deliciousness—a promise that the taste of the coffee itself more than fulfills.

Every reason to drink it—every reason to buy it—full flavor, full strength, full quality—full weight. A conscientious package of conscientiously selected, roasted and packed coffee.

Ask your grocer—he will compliment your selection.

Full weight—1, 2 and 3 lb. air-tight cans—only.

AGE NO BAR.

Everybody in Plainview Is Eligible.

Old people stooped with suffering, Middle age, courageously fighting, Youth protesting impatiently; Children, unable to explain; All in misery from their kidneys. Perhaps a little backache at first. Urinary disorders, dropsy may quickly follow.

Doan's Kidney Pills are for sick kidneys.

Are endorsed by thousands. Here's Plainview testimony:

Mrs. W. J. Mitchell, West California Ave., Plainview, Texas, says: "I can say that Doan's Kidney Pills are a good remedy for those afflicted with weak kidneys. We got our supply from the Long Drug Co. and gave them to a child who had trouble with the kidney secretions. Doan's Kidney Pills were the only remedy that brought beneficial results."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. —Adv. 60

EASY RELIEF FROM CONSTIPATION.

The Remedy That Replaces Calomel; Causes No Restriction of Habit or Diet. It is a mistake to take calomel when your liver is lazy and needs toning up. Hundreds of people in this section have discovered that Dodson's Liver Tone is a thousand times better and safer and its action is just as sure. There are none of the bad after-effects of calomel to Dodson's Liver Tone and no danger of salivation. For attacks of constipation or biliousness one or two spoonfuls of this mild, pleasant-tasting vegetable liquid are enough, and R. A. Long Drug Co. gives a personal guarantee that every bottle will do all that is claimed for it. Money back in any case where it fails.

YOUR BEST INVESTMENT.

Communities, as well as individuals,
profit by wise expenditures of money.
Penuriousness has frequently resulted
in blight. It robs the individual of
physical strength, of mental acumen,
of moral fiber. It leaves communities
in a commercial morass, moss covered
and decaying.

Modern school houses, graded
streets, concrete sidewalks are not
only a public convenience, but an in-
dividual necessity. They are divid-
ing investments.

Considerations of health, comfort
and the facilities for character build-
ing have large place in determining
for the most desirable home-builders
where they shall dwell.

Health and comfort materially effect
the efficiency of the workman.
They are, then, important factors in
securing commercial interests. They
weigh heavily in city building.

A community cannot be more pro-
gressive than its citizens. Plainview
is making progress in the matter of
street improvement. Sidewalks are
being laid, and the law will require
that others be placed as soon as cross-
ings are in.

A majority of the individuals in and
around Plainview are unfair to the
community and unwise to their own
best interests in their failure to cut
weeds, to clean up fence corners and
alleys. Recent rains have made nec-
essary that you launder your property
again.

We shall sometime become too fair
to permit upon our own premises any-
thing which would offend us if it were
upon public ground or in a neighbor's
yard.

Plainview must be kept clean. The
cost of this clean-up will be a profit-
able investment.

SCHOOL HOURS AND AFTER.

The interest which parents manifest
in their children is gratifying. It is
no less disappointing to note that a
majority of parents do not manifest
any visible concern in the training of
their offspring.

A score of mothers are lined up
with the Parent-Teachers' Associa-
tion. Father is "down town." There
are 900 children in Plainview's public
schools.

Undoubtedly all of those mothers
who have not been present at the
meetings of the Association are busy
women. Many of them could arrange
their interests so as to take part in a
study of those questions which must
be answered in the character building
of their children.

The teacher is entitled to your
counsel; it is fair to the child that
you should know what the teacher
finds out while he watches its char-
acter unfold.

In too many instances training be-
gins when the child reaches school in
the morning and ceases when school
is dismissed. Frequently mother does
not know where her son is after
school hours, or what he is doing.
Father seldom does. There is no in-
telligent responsibility assumed in the
home; no practiced effort at charac-
ter building.

There can be no co-operation be-
tween teacher and parent unless each
understands the problems of the other
and the methods which each is em-
ploying to train the child.

Isn't it possible for parents to fore-
go some of their interests and line up
with teachers in intelligently train-
ing the child? When that is done
there will be less poverty, less crime,
less mental inefficiency.

Do you know your child's teacher?

OVERCONFIDENCE.

But when men think they most in
safety stand,
Their greatest peril often is at hand.
—Drayton.

POEMS ASKED FOR.

Recessional.

God of our fathers, known of old—
Lord of our far-flung battle line—
Beneath whose awful hand we hold
Dominion over palm and pine—
Lord God of Hosts, be with us yet,
Lest we forget—lest we forget!

The tumult and the shouting dies—
The captains and the kings depart;
Still stands thine ancient sacrifice,
An humble and a contrite heart.
Lord God of Hosts, be with us yet,
Lest we forget—lest we forget!

Far-called our navies melt away—
On dune and headland sinks the fire—
Lo, all our pomp of yesterday
Is one with Nineveh and Tyre!
Judge of the Nations, spare us yet,
Lest we forget—lest we forget!

If drunk with sight of power, we loose
Wild tongues that have not Thee
in awe—
Such boasting as the Gentiles use
Or lesser breeds without the Law—
Lord God of Hosts, be with us yet,
Lest we forget—lest we forget!

For heathen heart that puts her trust
In eeking tube and iron shard—
All valiant dust that builds on dust,
And guarding calls not Thee to
guard—
For foolish boast and foolish word,
Thy Mercy on Thy People, Lord!
Amen!
—Rudyard Kipling.

A HELPFUL TABLE.

A little table of weights and mea-
sures pasted in the front or back of
your cook book or even on a card
which can be hung on the pantry wall
or propped up on the pantry shelf
when you are cooking is a convenience
and a safeguard against mistakes.
For kitchen weights and measures
are complicated, and judgment as an
asset in cooking has little to commend
it as a substitute for accurate meas-
uring—some famous cooks to the con-
trary notwithstanding.

Liquid measures:
One cupful equals half a pint, two
equal a pint and four a quart.
One gill equals half a cupful, two
equal a cupful and eight a quart.

Thirty-two liquid ounces equal a
quart, sixteen a pint, eight a cupful.
But liquid ounces are not often used
in recipes. Gills take their place.

Sixteen ounces equal a pound, eight
equal half a pound, four equal a quar-
ter of a pound.

A table for flour and ground coffee,
of equal weight:

Four cupfuls equal a pound.
Eight ounces equal a cupful, one
ounce equals a quarter of a cupful,
Two ounces equal a gill.

One gill is an eighth of a quart, or
half a cupful. A gill, being a measure,
not a weight, is the same in all things.

A table for granulated sugar, butter
and milk:

Two cupfuls equal a pound.
Eight ounces equal a cupful, two
equal a quarter of a cupful.

Two tablespoonfuls equal an ounce.
Four ounces equal a gill.

Two and a half cupfuls of pow-
dered sugar equal a pound.

GIRL FARMERS WIN U. S. PRIZES.

One Young Southern Tomato Raiser
Even Made Profit Off of Worms.

The "boys' corn clubs," established
by Secretary Houston of the Depart-

ment of Agriculture, that have done
so much to improve corn growing in
the South, have been supplemented
this year by "girls' tomato clubs,"
says a Washington dispatch. They
seem to have been equally success-
ful. One Georgia girl not only grew
prize tomatoes, but sold enough of the
greatest tomato pest—the tomato
worm—to fishermen for bait to pay
for working and harvesting her crop.
Two fishermen offered her a cent
apiece for all the tomato worms she
would bring them. In one week she
turned in over five hundred and got
more than \$5. This she kept up all
season, and when the supply of worms
became scarce in her patch she went
to work in her neighbors' fields. The
department won't tell her name yet.
The prize winners of the corn and to-
mato clubs will come to Washington
in December to receive honors.

FIVE STEPS IN CLEANING THE DAIRY UTENSILS.

Smooth, Polished Surface Does Not
Permit Lodgement of Decay-
ing Matter.

The utensils should be of such ma-
terial and construction that they are
easily cleaned and kept so. The in-
terior should be smooth, with no
cracks or crevices for dirt and milk
remnants to find lodgement and be
removed only with difficulty. The
surface should be heavily tinned and
the seams filled with solder. Tinware
should be kept bright and perfect.
As soon as any rust spots make their
appearance an entrance is given into
the soft iron for germs and small
particles of decaying matter, which
are, in consequence, removed with
much more difficulty. The process of
cleaning vessels which have contained
milk should be:

1. Rinse them thoroughly in
lukewarm water.
2. Wash thoroughly with the
aid of some good soap or cleans-

ing powder in water as hot as the
hand will bear.

3. Thoroughly rinse in hot
water.

4. Expose to live steam from
one to two minutes or to boiling
hot water for five minutes, in case
steam is not available.

5. Exposure, if possible, in
bright sunlight from two to three
hours.

In this way tinware can be kept
clean and bright and free from bac-
teria. Having thoroughly cleaned the
vessels, the prevention of access of
dirt to the milk in process of milking
is important.

FOR YOUR LIBRARY.

To get the good of the library in the
school of life you must bring into it
something more than a mere bookish
taste. You must bring the power to
read between the lines, behind the
words, beyond the horizon of the
printed page. Philip's question to the
chamberlain of Ethiopia was crucial:
"Understandest thou what thou read-
est?" I want books not to pass the
time, but to fill it with beautiful
thoughts and images, to enlarge my
world, to give me new friends in the
spirit, to purify my ideals and make

Exclusiveness of Style Dominates Our Entire Display

Our Fall Dress Goods Display must be seen to be fully appreciated. Mere words cannot describe the beauties, the refinement and elegance of the Dress, Suit or Cloaking fabrics we have assembled—nor is there anything that we CAN say that will prove their superiority to YOUR satisfaction like a personal and deliberate examination. See this display for yourself. Examine and choose from its offerings and you too will say that

In All Points of Style, Service,
Quality and Price

LaPote

DRESS GOODS Always Satisfy

The satisfaction that comes with making Dress Goods selections in this store
CONTINUES long after the price is forgotten.

You will be sure of getting the BEST STYLES—the very pick of the Mill's
choice patterns, in fact—and you need never be obliged to pay more than you feel
you can afford, TO GET THE BEST.

For Dress Frocks or others patterned after the more simple lines for Everyday
Wear, you can find nothing prettier or more serviceable than our

stars of universal truth.—Henry Van
Dyke.

THIS YEAR 140,000 GO TO CANADA.

Winnipeg, Manitoba, Oct. 1.—Immig-
ration from the United States into
Canada will this year reach one hun-
dred and forty thousand, a slight in-
crease over 1912. This is the largest
figure on record, according to J. Bruce
Walker, commissioner of immigration,
today.

DON'T RIDE TIRES SOFT.

When the tires are ridden soft there
is too much action in the side wall, or
hinge, which must eventually result in
the same injury to the fabric that oc-
curs to a wire when bent numerous
times at a given point, says J. Patter-
son, St. Louis manager of the Fire-
stone Company.

This excessive heating softens the
rubber cement, or "friction," on the
fabric carcass. In a sense, devulcani-
zation takes place. This, combined
with an irregular tension of one layer
of fabric in relation to another, de-
velops a separation, chafing and ulti-
mately a blow-out. Most of the ad-

vantage of a large tire is lost unless
it is kept inflated properly, as other-
wise it is only equivalent to the com-
parative air volume of a smaller size.

From experience it has been proved
that it is not necessary to ride Fire-
stone tires soft in order to secure the
desired resiliency and comfort. Hav-
ing worked out just the right tension
of the fabric during construction of
the carcass, the quality of the rubber
friction on the fabric, the liveliness
of the tread rubber and the method
of curing (vulcanization) this pro-
duces a superior combination.

HAVE YOU SEEN IT!

The display of beautiful China to be
given away absolutely free by DUN-
CAN'S PHARMACY, now awaiting
your inspection in their show window?
If not, be sure to the very next time
you are down town, and become one
of the many patrons who will receive
one of them, without cost to you.

Step in the store and ask how you
may secure one of them, for you surely
want to be one of the lucky par-
ties.

—Adv. 59
Mr. and Mrs. J. F. Garrison went
to the Panhandle State Fair Monday.

"Etiquette in Advertising"

Up to within the last few years it has been considered a
breach of etiquette in certain businesses and professions to ad-
vertise.

These men have said: "Oh, yes, advertising is all very well
for the butcher, the baker, the candlestick maker, but it would
not do at all for us. It is not good business ethics."

In later years, however, the idea is being abandoned, to-
gether with a lot of other old and worn-out theories.

The public now looks to the advertising section of the
good newspapers for information on all subjects. The demand
has created the supply.

People want to know not only where they can spend their
money, but where and how to invest it. This has led bankers,
and other business and professional men to tell their stories in
the best newspapers. Advertisements in the Herald are an in-
dex of the most successful business men.

Get Stationery at The Herald.

LOCAL AND PERSONAL

J. H. Helm went to Amarillo to-day.

E. E. Roos went to Amarillo yesterday.

Judge L. S. Kinder bought a Ford Saturday.

Med Ellis, of Lockney, was in Plainview to-day.

Mrs. Walter Day went to Amarillo yesterday to attend the Panhandle State Fair.

C. E. White, of White Seed Company, went to Amarillo yesterday with his seed exhibit.

Mrs. O. E. Plumlee, of Floydada, was in Plainview to-day, on her way to Kansas City.

A girl was born to Raymond Young and wife, six miles southwest of Plainview, October 1.

J. B. Nance, K. Barker, Judge Lancaster, W. A. Todd and Judge Carter went to Amarillo to-day to attend the Fair.

Mrs. Alex Anderson returned to-day from Hillsboro, Texas, where she has been visiting her people for some weeks.

B. O. Brown, editor of The Herald, spend Sunday at the Lamb County Sunday School Convention, held in Olton.

J. L. Harrington, of Hale Center, is in Plainview to-day. He is a brother of our fellow-townsmen W. L. Harrington.

Miss Margaret Butler, who has been in Plainview nursing Ross Harp, who was accidentally shot several weeks ago, returned to-day to Fort Worth, Texas.

George P. Hill, architect for Grant and Blueher and Korder, returned yesterday from Albuquerque, where he has been superintending some new buildings.

Barney Johnson, of Littlefield, is in Plainview on business. Mr. Johnson owns a farm adjoining the townsite of Littlefield, and has recently built a four-room house on it and his family has moved in. Mrs. Johnson was formerly postmistress at Crosbyton, Texas.

Laura Rallings, of Floydada, went to Abernathy to-day.

Dr. and Mrs. J. W. Grant returned to-day from Oklahoma City.

Clint Shepard went to Amarillo this morning, in his Hudson car.

Mrs. E. W. Jackson went to Sentinel, Oklahoma, to-day to visit her parents, J. J. Caldwell and wife.

Mrs. A. W. McKee left yesterday for Amarillo, to attend the Panhandle Fair and to visit friends.

A. W. Denton and family came in from Seminole, Okla., to-day to visit T. H. Buchanan and family.

Mrs. E. Jell Deal, of Charleston, Mo., sister of Mrs. E. E. Roos, is in Plainview as a guest of Mrs. Roos.

Mrs. R. W. Brahan and son, Thomas, returned Sunday from an extended visit to relatives in Alabama.

Mrs. M. A. Paschal, who has been a guest of Mrs. J. M. Brazill, returned to-day to her home, at Decatur, Texas.

Judge L. S. Kinder, Levi Schick and Ernest Spencer are spending a few days on Judge Kinder's ranch in Swisher County.

Jim Knight, of Washington, D. C., came in to-day to visit his brother, A. E. Knight. The boys have not seen each other for thirty years.

J. M. Lary, of Fort Worth, is looking over the Plainview country. Mr. Lary has been figuring on buying some cattle in the Lockney neighborhood.

Mr. and Mrs. W. L. Harrington came in from Lubbock yesterday, in their Hupmobile. They have been visiting their daughter, Mrs. Scott Cochrane.

J. L. Dorsett, Dick Hatchett and Rev. H. H. Street went to Lockney this morning. The Executive Board of the Staked Plains Baptist Association is in session there to-day.

G. W. Struve, of Norfolk, was in town this morning with 30 rabbit ears. Mr. Struve says that he has brought in more than 175. He will receive 3c each for the scalps on November 1.

E. B. Miller, business manager of The Herald, wife and baby, Betsy, left to-day for Amarillo, where they will attend the Panhandle Fair. Mrs. Miller will go on to Artesia, New Mexico, to visit a sister, Mrs. W. J. Figge.

Mrs. P. C. Crawford, of Slaton, Texas, went to Floydada to-day.

Mrs. F. H. Snodgrass, of Hale Center, went to Kress, Texas, to-day.

Rev. W. R. Saffles returned to-day from Lamesa, Texas.

MAYOR ISSUES CALL FOR FIRE PREVENTION DAY.

WHEREAS, Acting Governor Will H. Mayes has issued a proclamation designating October 9th, 1913, anniversary of the great Chicago fire, as Fire Prevention Day in Texas, and calling on all Mayors of towns and villages to issue and publish their proclamation;

NOW, THEREFORE, I, J. L. Dorsett, Mayor of the City of Plainview, Texas, call on every citizen of Plainview to observe the day as Fire Prevention Day in Plainview, and personally examine all your chimneys, flues and stove pipes and put them in a safe condition for winter use. And I want to call your special attention to brick flues that have been built some time; the mortar has dried and in some instances has fallen out from between the ends of the brick, leaving an opening entirely through the flue; you can sometimes see smoke escaping through such places, or, by close examination, you will find such places filled with soot, and the brick smoked on the outside. Such flues are very dangerous if the soot should become ignited and burn, as it often does. And I further ask that you remove all piles of kindling, trash piles and such like materials that would increase the fire hazard from near any of your buildings, for, as you no doubt know, such things will increase your insurance rate if brought to the attention of the insurance companies.

J. L. DORSETT,

Mayor of Plainview.

HERE ARE SOME DON'TS FOR NOVICES LEARNING TO DRIVE.

The most difficult task for the driving novice to master is gear shifting. The disengagement of the clutch, together with the speed lever movement, is quite as difficult at first as patting the head with one hand and rubbing the chest with the other. If there were not so many things to do at the same time the beginner would be less confused. However, driving is a simple art when once mastered. Before starting the car it may be well to note a few "don'ts," namely: Don't place the hands above the center of the steering wheel at any time. Don't take a death grip on the steering wheel, as it looks awkward and is tiresome and dangerous. Don't race

the motor. Don't move the gear lever without disengaging the clutch. Don't let the clutch in fast. Don't move the foot away from the clutch pedal when the car is moving. Don't start the car on any other than first speed. Don't slip the clutch too much, as it will burn or wear beyond repair. Don't watch the fellow behind, as he is watching you. Don't take your eyes off the road for any reason whatever while the car is rolling.

With the engine started and bearing these don'ts in mind, proceed to start the car. First throw out the clutch, release the emergency brake and place gear lever in first speed. Then let clutch come back easily, accelerating engine as it takes the load. When the car is rolling release the clutch again and shift from first to intermediate gear. This operation must be accomplished before the momentum already

gained is lost, or it will be necessary to start over again on first speed. Having gained the intermediate speed, and assuming the next to be the high, one should accelerate considerably and then repeat the former clutch and lever movement.—Star-Telegram.

John C. Henning, who sued Clarence S. Funk, former general manager of the International Harvester Co., for \$50,000, alleging alienation of his wife's affections, was arrested in Minneapolis, after a search of a year, and will be prosecuted for perjury. A check found in Henning's possession is believed to reveal the identity of the man who is thought to have influenced Henning to bring the suit to discredit Funk's testimony before the Lorimer Investigating Committee.

THE IDLE POOR.

I've not met many idle rich—
Most folks I know with money
Keep on the job to take the stitch
In time. But, it is funny,
Just loafing 'round the village store
I've seen a lot of idle poor.

I've seen them sit and whittle things
For hour after hour,
And curse their luck, with mutterings
Against the Money Power,
And swear the things which kept
them poor
Was that some other folks had more.

Their wives were taking washing in
To keep the wolf from biting,
While they would gather there to spin
Sad yarns about the slighting
Which still they got from cruel fate,
Though bravely they would sit and
wait.

And I can't help but often think
That all long-winded shirkers
Would have less grouch and far more
chink
If they were only workers,
For Better Times won't strike their
gait
For those who're sitting while they
wait.

—Lee Shippey.

Lay Your Plans NOW to Attend the Great
Panhandle State Fair

to be held at

Amarillo, Texas

October 6th to 11th, 1913, Inclusive

Horse Racing,
 All Kinds of Exhibits,
 All Kinds of Amusements,
 Low Railroad Rates

"Visible Evidence is Better Than Descriptive Evidence."

For particulars address:

The Secretary, Panhandle State Fair
 AMARILLO, TEXAS

tice of the Illinois Supreme Court. He says he is supporting Judge Puterbaugh because he regards him as the best man for the place. Democrats, displeased with his attitude, have protested to the President against his appointment.

Two earthquakes, one of five seconds' and the other of 19 seconds' duration, shook Panama, but did no damage to the canal.

Congressman Richard Bartholdt, returning from Europe, was interviewed in Washington by the St. Louis Post-Dispatch concerning letters written to Dr. L. O. Glayis, for many years Washington lobbyist for steamship lines, requesting "transportation" to Europe for himself and Mrs. Bartholdt. He admitted writing the letters, but said that all the favors received at the hands of the steamship companies was to be assigned, after the ship left port, to better quarters than he had paid for. His requests, he said, were merely for good accommodations for the least money.

The Rev. W. J. Williamson, pastor of the Third Baptist Church, St. Louis, Mo., told the St. Louis Ad Men's League, in a talk at the City Club, that they could do much to advance religious thought in the community by advertising the basic principles of religion. He suggested that they might begin by advertising that man needs one day's rest in seven.

The Board of Stewards of the proposed new \$150,000 Cupples Memorial M. E. Church, South of University City, St. Louis, Mo., voted unanimously to refuse to receive the Rev. G. W. Holmes as pastor of the congregation. Holmes is 23 years old, and has just been received into the ministry. He is opposed because of his youth and inexperience. The board members declare that he is not equal to coping with the building proposition. The board has requested that the Rev. Ivan Lee Holt, founder of the congregation, be returned from Cape Girardeau, or that the Rev. Elmer T. Clark be retained.

Colin M. Selph was formally installed as Postmaster at St. Louis, Mo., succeeding Thomas J. Akins, Republican. His first official order was against the practice of advancing money to employees between pay days, and advising employees that borrowing from sharks or money lenders would be looked upon with disfavor.

The Grand Lodge of Masons of Missouri elected Van F. Boor, of Kansas City, as grand master and decided to hold next year's convention in Kansas City.

The will of Elias Michael, president of the Rice-Stix Dry Goods Co., St. Louis, Mo., distributes \$259,000 cash, but the value of his real estate has not been disclosed. He bequeathed \$10,000 to veteran employees of the firm, to be divided among those who have been in service from 20, 25 and 30 years. He left \$100,000 to his wife and \$21,000 to charity.

Sylvester Kemp, a coal miner, of Bellville, Ill., is ahead \$2,000 because

a verdict for \$8,000 awarded him by a jury in a damage suit for personal injuries against the Southern Coal and Mining Co. was set aside by the judge, on the ground that it was excessive. On the second trial of the case another jury gave him a verdict for \$10,000.

St. Louis suffragettes opened quarters at 901 Franklin Avenue for a week's campaign of persuasion and education by means of a moving picture machine, a stereopticon and speeches in connection with the Franklin Avenue Improvement Co.'s annual fall festival.

"TOPPINGS" FOR MOTOR FUEL.

To test out a new kind of carburetor, a motor truck recently made a trip from Los Angeles to San Francisco using as fuel oil "toppings." The distance covered was 472 miles, and about 46 1/2 gallons of fuel were used, giving an average of over ten miles to the gallon. The car was of 1,500 pounds capacity, and was loaded with over 2,000 pounds. The entire bill for fuel amounted to \$1.40, and in addition to this 3 1/2 gallons of lubricating oil were used. The "toppings" are that portion of the refinings which float on the top of the tank, and have heretofore been considered practically a waste product. The specific gravity is 41 degrees at a temperature of 85 degrees Fahrenheit, and the cost is 3 cents per gallon. The following is a table of fuels, giving their specific gravities and the cost per gallon at Los Angeles:

Fuel	Gravity, 60 F.	Cost per gallon
Oil toppings	38.5	.03
Kerosene	42.7	.09
Distillate, 1/2 kerosene	47.6	.08
Distillate	51.4	.07
Gasoline, 1/2 Distillate	55.3	.11
Gasoline	59.7	.14 1/2

—Scientific American.

TO IMPROVE THE PARCEL POST.

Postmaster General Designates Three Experimental Offices.

The standardization of methods of handling parcel post matter is being worked out by Postmaster General Burleson, according to the Washington press. Three post offices have been selected at which instructions will be given to the employees by experts in approved methods of handling such mail.

The offices selected are Baltimore, Boston and Richmond, Va. They will be used as experimental offices. After a standard is attained in them every postmaster in the country will be instructed in the various methods adopted, so that when the holiday season is reached parcel post matter may be handled with dispatch.

Mr. Burleson has determined that safety to the merchandise transported shall be the principal improvement attained.

BIG SURPRISE TO MANY IN PLAINVIEW.

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka, the German appendicitis remedy. J. W. Willis, druggist, states that this simple remedy antiseptizes the digestive system and draws off the impurities so thoroughly that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY. —Adv. 59

PAIGE CARS IN SPAIN.

A large shipment of Paige cars has been made to Cadiz Province in Spain, where automobile service has been established between Jerez de la Frontera and Arcos.

Arcos is situated upon a rocky eminence in a part of the country almost isolated because of the lack of railroads.

The distance between these two cities, a journey of between 18 and 20 miles, has previously been covered by ungainly and uncomfortable horse-drawn carriages and wagons. To make the trip had previously consumed about five hours, which seemed more like ten, because of the slow-moving vehicles and uncomfortable jolts. Now, however, the distance is easily covered with comfort and dispatch, requiring only about one hour and a quarter to negotiate the roads.

While these roads are not worse than many in our own country, nevertheless to the Spaniard they were impossible until the American showed him how to once more put Arcos, a city of 10,000 people, on the map, carry their mail and give them a twice-daily connection with the outside world.

The fares for this journey range between 80 cents and \$1.08, which, if generally known in this country, should cause all taxicab company officials to bow their heads with shame.

UNITED STATES WILL EXPORT 50,000 MOTOR VEHICLES.

John L. Poole, resident export manager of the Hupp Motor Car Company, made the prediction, just before returning to Paris, last week, that the United States will export 50,000 motor-driven vehicles in 1914; and that 75 per cent of these, valued at about \$37,500,000, will be contributed by Detroit. The entire output of this country was only 55,000 cars in 1908.

Mr. Poole also declared that the main purpose of his recent visit to Detroit was to secure 50 per cent of the Hupp Motor Car Co.'s 1914 output, but although the company, which exported 33 1-3 per cent of its product last year, will send abroad this season a still larger proportion of a greatly-increased output, it could not agree to the figure Mr. Poole demanded.

DRY FARMING CONGRESS A RURAL WORLD'S FAIR.

Crops from All Quarters of the Globe Will Be Exhibited on 120-Acre Site.

The International Soil Products Exposition, to be held at Tulsa, Okla., this month, in connection with the International Dry-Farming Congress, will be a veritable world's fair for farmers.

When the gates were opened, on October 2, there were on show good crops from practically every continent on the globe, as well as from 18 Western States and four Western Provinces of Canada. Never before in the history of this country have so many states and nations taken part in an exclusively agricultural fair and exposition.

Chinese farmers bring an exhibit nearly 15,000 miles to Tulsa to compete with the farmers of Oklahoma, Kansas and Texas on the same crops as are grown in the states named. The exhibit from China consists largely of cotton, corn, kafir corn, milo maize, millet, kaoliang, wheat, rye and barley.

Wheat from a number of foreign countries will compete with the wheat of the United States and Canada for world supremacy and for the \$1,250 threshing machine. Cotton from California will fight for prizes with the cotton of Oklahoma and Texas. Corn from Mexico, where the stalks grow 16 feet high and two crops are raised in a season, will be shown in competition with other corn from the best farms in the South and Southwest.

The United States Government has spent \$20,000 on an enormous exhibit of the work which is being done by the Department of Agriculture. The people of Saskatchewan, Canada, have

SHERIFF'S SALE.

THE STATE OF TEXAS, County of Hale.

BY VIRTUE of a certain Order of Sale, issued out of the Honorable District Court of Hale County, on the 4th day of October, 1913, by B. H. Towery, District Clerk of said County, against S. A. Baugus and W. E. Armsarong, for the sum of Seven Hundred and Seventy-four Dollars and 64 Cents (\$774.64) and costs of suit, in cause No. 966 in said Court, styled Mrs. Samantha Wingo vs. S. A. Baugus and W. E. Armstrong, and placed in my hands for service, I, J. C. Hooper, as Sheriff of Hale County, Texas, did, on the 4th day of October, 1913, levy on certain Real Estate, situated in Hale County, described as follows, to-wit:

Lot No. Nine and the South Thirty feet of Lot No. Ten in Block No. 27 in Highland Addition to the town of Plainview, Hale County, Texas; said South 10 feet of said Lot No. 10 being described as beginning at the Southwest Corner of said Lot No. 10, thence North 30 feet, thence East 140 feet, thence South 30 feet, thence West 140 feet, to the place of beginning; as against S. A. Baugus, Grace Juanita Baugus, W. E. Armstrong and O. T. Rushing, and levied upon as the property of said parties as above stated. And on Tuesday, the 4th day of November, 1913, at the Court House door of Hale County, in the City of Plainview, Texas, between the hours of ten a. m. and four p. m., I will sell said property, at public vendue, for cash, to the highest bidder, as the property of said parties as above stated, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Hale County Herald, a newspaper published in Hale County.

SOCIAL HAPPENINGS.

LONDON FASHIONS OF A CENTURY AGO.

(From the London Times of September 17, 1813.) Autumn and winter dress, in all seasonable colors, of the best quality, in velvets, superfine Merino wool cloths, poplins, lusters, bombazeens, cottage stuffs, sarsnets, satins, elegant long and square silk India shawls, veils, hosiery, etc., to the amount of twenty thousand pounds; together with an entire new elegant article for dresses, peculiarly adapted to the autumn season, and warranted for durability, at only three shillings a yard, worth five shillings, the whole of the above having been purchased in lots, for ready money, from the needy manufacturers, which enables the proprietors to submit them to the inspection of the fashionable world, on singularly advantageous terms, viz: from 20 to 50 per cent cheaper than the regular trade prices; by way of explanation of the charge of the whole, the prices of the velvets and Merino wool cloths for pelisses and mantels, are from three shillings to six shillings under the regular charge; the satins, lusters, bombazeens, poplins and plain and twilled sarsnets from one shilling six pence to four shillings under price; the long and square India silk shawls, and all articles of family mourning, are equally cheap. This will well suit ladies or gentlemen who have commissions. No abatement is ever made from the marked price.

CAPTAIN TANDY WINS HIGH SCORE AT STAG PARTY.

H. C. McIntyre Celebrates Birthday with Dozen Course Luncheon, at Home of His Daughter.

H. C. McIntyre was glad he had a birthday Saturday. A stag party for him by his daughter, Mrs. J. F. Garrison, made the day a glad one. Autumn blossoms in beautiful shades of gold and red furnished a joyous glow to the interiors.

Those who enjoyed the sumptuous one-dozen-course dinner with Mr. McIntyre were: Captain C. W. Tandy, Dr. C. C. Gidney, Dr. J. C. Anderson, Editor J. M. Adams, R. W. O'Keefe, G. F. J. Stephens and the host, J. F. Garrison.

The after-dinner hours were spent in playing "42." Captain Tandy won high score.

Mr. McIntyre was given many tokens of friendly reminders of the day.

POPULAR PLAINVIEW YOUNG PEOPLE MARRY.

Only Immediate Friends and Relatives Witness Nuptials of W. N. Speer and Miss Fletcher.

Immediate friends and relatives were the only guests at the marriage Saturday night of Miss Emma Louis Fletcher to Mr. W. N. Speer. They were married at the residence of Dr. J. D. Hanby, where Miss Fletcher has been boarding since accepting a position with the Richards Bros. & Collier store, a year ago.

Mrs. Hanby served a dainty one-course luncheon following the ceremony, which was performed by Rev. H. H. Street.

Mr. Speer is window decorator for the Carter-Houston Dry Goods Co. Mr. and Mrs. Speer will at present make their home at Dr. Hanby's.

HUNTER FOR SUPREME COURT.

Friends of Col. Sam H. Hunter, formerly Judge of the Court of Civil Appeals in Fort Worth, are urging that he make the race for Judge of the Court of Criminal Appeals, to succeed Judge Davidson. Judge Hunter has made a good record in the State Legislature.

FORMER MANAGER OF HERALD TO MARRY TULIA GIRL.

Cards are out announcing the marriage of Tom Shafer, of Plainview, and Miss Olga Marie Schaefer, of Tulia. The marriage will take place at 8 o'clock Wednesday evening, October 15, at the home of the bride, in Tulia.

FLORESVILLE MAN TO WED HALE COUNTY GIRL.

Marriage license was issued yesterday to Herbert Hatchett and Miss Edna Wright, who lives southwest of Plainview. The young couple will make their home at Floresville.

ANNOUNCEMENTS.

The Bridge Club is meeting this afternoon with Mrs. L. S. Kinder.

The I. F. E. Girls will meet tomorrow with Mrs. D. H. Collier.

CHURCH HAS THREE PROBLEMS.

Sex, Race and Social Order Difficulties Must Be Solved.

Southampton, England, Sept. 30.—"The Church today has three subjects of absorbing interest to consider and solve—the sexes, the races and social order." This was the announcement made today at the opening of the annual Church of England Congress by its president, the Right Rev. Edward Stuart Talbot, Bishop of Winchester. His subject was "The Need for Unflinching Application of Christian Principles to Social Injustices and

Economic Problems."

He continued: "There is a clamorous need for more strenuous thinking and more insistent action in connection with the problems of the avoidance of marriage, the abuse of marriage, the revolt against its responsibilities and duties, and the relations between men and women.

"On the questions of color, a stronger stand is required against racial contempt and the greed of the exploiters. Disclosures like those of the Congo, Putumayo and the Portuguese Islands show what European action can do.

"The disclosures of the white slave

TEACH YOUR BOY OBEDIENCE, SAYS SUNDAY SCHOOL WORKER.

Mrs. M. E. Cleavinger Gives Lamb County Convention Excellent Suggestions on Character Building.

"Education" was the subject on which President W. M. Pearce of Seth Ward College addressed the Lamb County Sunday School Convention, at Olton, Sunday. "Education," Presi-

dent Pearce said, "means training for service." The Sunday School is the most efficient training school for Christian service.

Dr. M. W. Axtell, of Spring Lake, declared that he did not think it wise to consider the "relative importance" of any phases of work in the church. It is all one, he said. "It is men, and not the Lord, who make the division."

Dr. Axtell said that Sunday School work is important because it reaches so great a number of people, and reaches them when character is being formed; it reaches neighborhoods where there is no church; its purpose is specialized teaching of the Bible; it fits its teaching to the individual boy or girl. The Sunday School is, or should be, an organized effort to reach every individual in the community, Dr. Axtell declared.

Mrs. M. E. Cleavinger, of Spring Lake, spoke on "The Boy Problem." "One of the first things to teach your child, either boy or girl, is obedience," Mrs. Cleavinger said. "Parents should feel the responsibility of their children. The training for the child should begin with the parents. Give the boy his own room, and help him to have a good time at home. Teach the boy to do all kinds of work—to do something good and useful every day. Then go to Sunday School with your boy."

At 10:45 o'clock Rev. F. Pilley, President of the Association, turned the meeting over to D. G. Axtell, Superintendent at Spring Lake; regular Sunday School was conducted. Rev. C. W. Foley gave an address at the preaching hour.

The remainder of the program was as follows:

The remainder of the program was as follows:

President Wilson on the Sunday School, by Margaret Shallabarger; special song by the Spring Lake Quartette; "The Baraca Movement," B. O. Brown, of Plainview; "The Mission of the Word," Rev. H. L. Harris; duet, by Misses Fitzloff, of Olton.

The Convention voted to meet with Spring Lake Sunday School at such a time as the committee in charge might see fit.

One of the most enjoyable features was "dinner on the ground." Such a dinner! Fried chicken, baked chicken, chicken fixed in ways we had never heard of before; roast beef, pork, cakes, pies and coffee; and then the list would include a score of things the writer hadn't the capacity to even sample. It was a dinner such as you don't ever get anywhere except "on the ground," and of that variety it was "par excellence."

PARIS STARTS WAR ON STEEL-TIRED VEHICLES.

Ordinance to Reform Traffic Conditions Goes into Effect Middle of This Month.

Following the lead of Germany, Paris has now decreed that all steel-tired commercial vehicles shall go and that speeds of all "poid-lourdes" shall be restricted to seven and a half miles an hour. The edict, which is one of the results of the efforts of the new prefect of police to reform street and traffic conditions, is further rendered obnoxious by reason of the fact that rubber tires must be applied to all such machines before October 15.

Heavy haulage is well established in the French metropolis, and heretofore the traffic has been restricted as to speed and practically without restriction as to weight.

POSTAL RECEIPTS SHOW INCREASE FOR QUARTER.

Business Transacted Entitles Plainview to Free Delivery; "Build Sidewalks," Says Government.

Postal receipts for the quarter ending September 30, 1913, were \$2,629.45, according to Postmaster Sanford's records. This shows a substantial increase over the same period of 1912.

Receipts last year were nearly \$12,000. A postal business of \$10,000 a year entitles the town to free mail delivery. The Government inspector was approached in regard to free delivery not long ago. His answer was "Build sidewalks." The Postal Department seems ready to give Plainview this convenience just as soon as street crossings are completed and sidewalks put down.

The local post office has six postal savings bank depositors, with deposits of \$283.

AUTOMOBILE ON PACIFIC ST. HITS NEW MEXICO MAN.

A Storey was knocked down this afternoon by A. B. Rosser's automobile. He was not seriously injured.

From bystanders, it seems that Mr. Rosser was coming from the east and started to turn north on Pacific Street. A number of dray wagons were standing on the corner, so that neither pedestrian nor driver saw each other until the fender of Mr. Rosser's car had struck Mr. Storey.

Mr. Storey had brought a load of cotton from near Tucumcari, N. M., to Plainview to have it ginned—a distance of nearly 175 miles.

Duncan's Pharmacy Offers Substantial Appreciation of Patronage

On Wednesday, October 8th, Duncan's Pharmacy will commence giving away to their customers a number of \$25 sets of Dishes absolutely free. These dishes are of beautiful white Dresden China with delicate gold bands and any housewife would be proud to have a set in her china closet.

The sets will be given away in this manner: With every purchase made at their store a cash coupon will be given equal in value to the amount of the purchase. These coupons are to be saved and when Five Dollar's worth have been accumulated votes will be given to the holder of these coupons, which call for one particular piece of the above mentioned set. It will only be a very short time until the whole set can be procured in this manner.

In addition to the regular set of dishes, that you can so easily secure, commencing Monday, October 20th, One Hundred Sets consisting of Chocolate or Coffee, Lemonade, Hot Cake, Berry, Cake and Game sets, none worth less than \$5, will be given away as a further inducement, one set to be given each day at 3:00 o'clock to the person holding the largest number of votes in the store at that time. These votes do not bear a time limit and if you should not happen to be the lucky one on that date, save your votes as you may be the fortunate holder the next day. One of these sets will be given away each day for One Hundred Days and you certainly ought to be able to secure one of them within that time.

This proposition is now on display in the show window of Duncan's Pharmacy and they would be pleased to have you stop and inspect it, and ask all the questions you may feel like asking about it.

Be sure to save your coupons as they are valuable.

"The Store Where You Feel At Home"

MANY INNOVATIONS IN FALL MOTOR COSTUMES.

Coats and Bonnets Show Changes; Coats Follow Style of Skirts.

There are many innovations in fall motoring costumes. The particular innovation appears in the motor coats and bonnets. The former follow the style in women's skirts and are extremely long, almost touching the ground. The prevalent materials are heavy ratines, chinchillas and heavy

plaid, with a few silks thrown in for the warmer motoring trips.

Loops take the place of button holes on the coats, and the smarter ones are made with two collars, one of the same material as the coat, to be worn when the weather is warm, and a storm collar of plush for the colder nights.

The kimono sleeve is another pleasing new feature of the fall motor coats, allowing greater freedom of the arms of the wearer.

The bonnets, to be really fashionable, should match the coats in color. A new shade of green is considered au-

fait for both. The materials used are reversible silks for the tighter fitting bonnets, and plush, plush velvet and beaver velour for the larger affairs. A small feather adds an ideal adornment.—Star-Telegram.

METHODIST PREACHER WINS POPULAR PLAINVIEW BRIDE.

Mr. A. B. Rosser has issued invitations announcing the marriage of his daughter Vera to Rev. J. T. Ross, on Thursday, October 9. Mr. Ross was a student in Seth Ward Col-

lege last year. He is a member of the Northwest Texas Conference of the Methodist Church.

Herman Oelrichs, of New York, was arrested on the charge of stabbing Miss Lucile Singleton, a 19-year-old Byrn Marr student, daughter of a Texas mine owner. Miss Singleton was automobile riding with a man she called "Creighton." The automobile was wrecked by striking a stone and crashing into a tree, and the man ran away. The machine was found to belong to Oelrichs, and his arrest followed.
