

# THE PLAINVIEW EVENING HERALD

TWICE-A-WEEK

VOLUME 27. NUMBER 40

PLAINVIEW, TEXAS, FRIDAY, MAY 19, 1916

## PLAINVIEW BOYS FIND ARMY LIFE STRENUOUS

ARISE AT 5:30 IN THE MORN-  
ING, AND UNTIL NIGHT IT'S  
DRILL, DRILL, DRILL.

### TEXT OF MUSTER-IN OATH

Say They Will Bear True Faith to  
U. S. A. Against All Enemies  
Whomsoever.

Ft. Sam Houston, May 16.—  
The militia brigade encamped  
here has settled down to rou-  
tine camp life under a strenu-  
ous program of drills, exercises  
and schools of instruction.  
Commencing Monday, the mili-  
tiamen have been drilled four  
hours daily, and as a result,  
many are complaining of sore  
feet. The following is the sched-  
ule of orders issued by General  
Hulen governing the militia.  
Reveille, first call 5:30 a. m.,  
march 5:40 a. m.; assembly 5:45  
a. m.; mess call (breakfast)  
6:00 a. m.; assembly after mess  
8:30 a. m.; drill call 7:00 a. m.  
school of instruction for officers  
7 to 7:30; setting up exercises  
for enlisted men 7:30 to 8 a. m.;  
fall out for rest 8:00 to 8:30;  
instructions without arms 8:30  
to 9:15; instructions with arms  
9:15 to 10:15 a. m.; squad drill  
with arms 10:15 to 11:00 a. m.  
school in first aid to injured 11  
to 11:45 a. m.; 11:45 a. m. to 1  
p. m. noon. Afternoon—1  
to 1:45 school for men without  
arms; 2:45 to 3:45 drill for com-  
pany with arms; 6 supper. Tat-  
too, 9:00 p. m.; call to quarters  
10:45; Taps, 11:00.

The chief interest of militia-  
men up to yesterday centered on  
the muster-in roll, concerning  
which there had been consider-  
able conjecture. The following  
oath was subscribed to by each  
militiaman when he was muster-  
ed in.

"I do solemnly swear (or af-  
firm) that I will bear true faith  
to the United States of America,  
and that I will serve them hon-  
estly and faithfully against all  
of their enemies whomsoever;  
and that I will obey the orders  
of the president of the United  
States and the orders of the of-  
ficers appointed over me, ac-  
cording to the rules and regula-  
tions of war."

The strenuous drilling thru  
which the militiamen are being  
put indicates that the officers  
are making preparation to place  
the militia on border patrol du-  
ty. It is believed that General  
Funston will move part of the  
militia to the border within the  
next week, to be used in his plan  
of re-organizing the border con-  
trol.

### MERCHANTS MAY CLOSE DURING CHAUTAUQUA.

J. A. Donaldson, P. D. Hosman  
and E. L. Hennigh, of the Red-  
path-Horner Co., arrived this  
morning and are busy erecting the  
chautauqua tent on the lots south  
of The Herald. Two of these gen-  
tlemen are former students of the  
University of Kansas, the other a  
former student of Illinois Univer-  
sity. They will have everything  
in readiness for the opening of the  
series of entertainments on Sun-  
day afternoon.

Many suggestions have come to  
The Herald and the various orga-  
nizations of the city requesting that  
an effort be made to have the mer-  
chants close their places of busi-  
ness every afternoon from two to  
four o'clock, that all of their clerks  
may have the advantages  
which the program offers. If all  
would do so there would be no loss  
of business, as most of those who  
will attend the Chautauqua will  
do their trading in the morning.

### OBJECT TO RAISE IN INSURANCE RATES.

The Retail Merchants' Associa-  
tion of Plainview and the Chamber  
of Commerce have entered pro-  
tests with the Commissioner of In-  
surance on the proposed raise in  
insurance rates. The case will be  
heard May 26 at Austin.

## "Cold a Germ Disease--Catarrh and Tubercular Affection Often Aftermaths" Says Miss Rich

Misses Rich and Blodgett will  
leave tomorrow morning for Aus-  
tin. On May 29 a special school  
will be opened for rural home-  
economics workers. This school  
will be under the supervision of  
the school of home economics and  
the division of home welfare of the  
University of Texas, and will last,  
the first session from May 29 to  
June 10, and the second session  
from June 11 to July 27. This  
school has been designed to help  
meet the growing demand for ex-  
tension workers in home econom-  
ics. Since the passage of the  
Smith-Lever Bill there has been  
an increasing demand for trained  
women for rural work, a demand  
much greater than the supply.  
Many counties throughout the  
State have employed county dem-  
onstrators in home economics.  
Many more have been prevented  
from doing so by their inability to  
secure women with the proper  
training. The courses will con-  
sist of lectures, demonstrations,  
conferences, and field work in all  
the principal activities connected  
with the home. Among the lec-  
turers are Dr. A. Caswell Ellis, of  
Texas; Clarence Ousley, director  
of the extension, Texas A. and M.;  
P. L. Pous, W. B. Lanham, R. L.  
Thomas, Miss Bernice Carter, of  
the A. and M. Extension Service;  
Professor Mary E. Gearing, Pro-  
fessor Jessie P. Rich, Miss Ger-  
trude L. Blodgett, most of whom  
are well known here, having vis-  
ited Plainview in the work in Hale  
County.

Yesterday one hundred ladies  
registered at the school. The  
largest number registered in any  
one day was one hundred twenty-  
five. A large crowd has been at-  
tending today.

This morning Miss Rich's lec-  
ture was on "Colds and Their  
Dangers." "The popular idea  
that colds are contracted by sleep-  
ing in a draft, sitting with cold  
feet or wearing damp clothes,"  
said Miss Rich, "is incorrect. Cold  
is a germ disease. It is not  
caused, but only aggravated, by  
these things mentioned. Cold  
costs the United States millions of  
dollars each year." She told of  
an experience of Dr. W. A. Evans,  
of Chicago. In a conversation  
with a friend one day Dr. Evans  
was asked: "Why is it that I al-  
ways have a cold?" Dr. Evans  
asked: "How do you sleep?"  
and told him he should sleep in a  
room with plenty of air or where  
there was a circulation of air;  
that he should have plenty of  
fresh air, free from smoke and  
dust, is his office. "It isn't the  
germs in the dust that makes dust  
so harmful," Miss Rich said, "but  
the dust grits and grinds into the  
tissues of the throat and nose,  
making a place for the germs to  
work." She gave six rules by  
which to avoid cold:

1. Avoid people with colds.
2. Sleep and live in rooms  
and offices well ventilated.
3. Eat sparingly of meats  
and plenty of fruits and vegeta-  
bles.
4. Drink plenty of water (at  
least six glasses of water a day).
5. Keep the mouth and teeth  
clean.
6. Keep the chest hardened.

"Cold is a germ disease, and  
has so many aftermaths that it is  
dangerous. Catarrh is probably  
the most common result. Tubercu-  
losis is another, and pneumonia  
generally starts from cold. The  
'white plague' is one of the most  
destructive diseases we have, and  
the United States is doing little  
effective work to stamp it out.  
Germany is doing more than any  
other nation, and England is next.  
"In examinations made in  
schools it has been found that be-  
tween thirty and forty per cent  
of the children have traces of tu-  
berculosis," she concluded.

"Value of Vegetable Diet."  
Miss Blodgett lectured this  
morning on "The Value of Vegeta-  
bles in Diet." She gave the  
classifications of vegetables as:  
**Starchy**—Potatoes, Cereals.

**Leguminous**—Beans (dry), peas  
(dry), lentils, peanuts.

**Strong Juiced**—Cabbage, caulif-  
lower, onion.

**Sweet Juiced**—Green peas, spin-  
ach, carrots, beets.

**Salad**—Lettuce, cress.

She continued, stating that the  
starchy foods should be cooked in  
high temperature. To cook the  
strong-juiced vegetables, they  
should be put on in plenty of hot  
salt water, and the vessel should  
be left open. Do not cook too  
long. Cabbage should be cooked  
twenty-five minutes. When cook-  
ing cabbage and onions in an open  
vessel, you will not have the of-  
fensive odor as you would other-  
wise.

The sweet-juiced vegetables re-  
quire but little water and must be  
cooked in tightly covered vessels  
to retain the sweet juices.

Leguminous vegetables are pro-  
tein foods, and should be cooked  
at a high temperature at first and  
then at a lower temperature.

Vegetables are from 85 to 95 per  
cent water, 1 to 2 per cent protein,  
less than 1 per cent fat and 1-1.3  
per cent mineral matter, and are,  
therefore, very easily digested.

### VEGETABLES.

#### Boiled Cabbage.

Separate cabbage into leaves  
and drop into boiling salted wa-  
ter. Have sufficient water in  
kettle so that leaves are entirely  
immersed. Cook in an uncovered  
vessel until tender, about 25  
minutes. Drain and serve.

#### Scalloped Cabbage.

Boil cabbage as above. When  
tender cut in pieces, put layer in  
buttered baking dish, then layer  
of white sauce and a sprink-  
ling of grated cheese. Continue  
until baking dish is filled. Cover  
with buttered crumbs and  
bake until crumbs are brown.

#### Corn Custard.

1 can corn.  
2 eggs slightly beaten.  
1 teaspoon salt.  
1½ tablespoons butter.  
1 pint scalded milk.  
Combine materials, turn into  
a buttered baking dish and bake  
in a slow oven until firm.

#### Pea Timbales.

Drain and rinse 1 can peas,  
and rub through sieve. To 1 cup  
pea pulp, add 2 beaten eggs, 2  
tablespoons melted butter, ¾  
teaspoon salt and a few drops  
of onion juice. Turn into but-  
tered molds, set in pan of hot  
water and bake until firm.

#### Boiled Spinach.

Carefully pick spinach over  
and wash in several waters. Put  
in a stew pan with no water or  
with only a very little and al-

low to cook tightly covered, in  
its own juice until it is tender or  
about 25 minutes. Drain and  
serve with Hollandaise sauce.

#### Mock Hollandaise Sauce.

1 cup milk.  
2 teaspoons flour.  
2 teaspoons butter.  
½ teaspoon salt.  
Juice one-half lemon.  
Yolk of 1 egg.

#### RICE.

2 cups chopped cooked meat.  
1 teaspoon salt.  
1 egg.  
¼ cup of fine crumbs.  
Line bottom and sides of dish  
with three cups of cooked rice.  
Fill cavity with the other ingre-  
dients. Cover with the remain-  
ing cup of rice. Cover baking  
dish with parafin paper and  
bake or steam. Serve with to-  
mato sauce.

#### Tomato Sauce.

1 can tomatoes; 3 whole cloves  
slice of onion; 1 teaspoon salt  
and 1 teaspoon sugar boiled to-  
gether three minutes. Strain  
and thicken with 1 tablespoon  
of flour.

#### Louisiana Rice.

In buttered baking dish put  
layer of cooked rice, then layer  
of onion, celery and green pep-  
per, then another of rice and  
continue until dish is nearly full.  
On top put layer of sliced toma-  
toes, then buttered crumbs.  
Cover with cream or rich milk  
and bake.

#### Rice Croquettes.

1 cup cold boiled rice.  
1 egg yolk.  
1 tablespoon melted butter.  
Shape in any desired form;  
dip in crumbs, egg, and crumbs  
again. Fry in deep fat and  
drain.

#### Rice and Cheese.

Pack hot boiled rice into in-  
dividual molds. Turn out onto  
serving plate and serve with  
cheese sauce.  
2 cups milk.  
4 tablespoons flour.  
4 tablespoons butter.  
1 teaspoon salt.  
½ lb. cheese.  
Melt butter, add flour and  
cook three minutes. Add scalded  
milk. Put in top of double  
boiler and add diced cheese.  
Leave mixture in double boiler  
until cheese is melted.

#### Rice Tutti Frutti.

One c. cooked rice, three-  
fourths c. apple sauce, flavored  
to taste, three-fourths c. raisins,  
three tablespoons sugar, one ta-  
blespoon gelatin.  
Mash and stem the raisins,  
and plump in hot apple sauce,  
soak the gelatin in one-fourth

cup cold water, then dissolve in  
boiling hot apple sauce. Add  
rice and sugar. Mold. Whip-  
ped cream may be folded in.  
Serve with cream or fruit juice.  
Stewed prunes, apricots or  
peaches may be used in making  
this dessert.

Miss Blodgett lectured Thurs-  
day afternoon on "Canning and  
Preserving Fruits and Vegeta-  
bles."

"Several of our foods are pre-  
served by drying. As we know,  
there are only certain conditions  
under which bacteria can live.  
Bacteria must have moisture, oxy-  
gen, food and warmth. In dry-  
ing the food we take away the  
moisture, which the bacteria must  
have in active growth.

"There are two distinct stages  
in the growth of the bacteria—the  
vegetative and spore. The vegeta-  
tive is a very active growth.  
The low-temperature cold storage  
only keeps the vegetables indefi-  
nitely. It does not kill the bac-  
teria, but only retards their  
growth.

"There are three methods of  
canning: First the open-kettle  
method, which is used mostly for  
fruit; second, the intermittent  
method, which is used for articles  
that can not be kept by the first  
method—most kinds of vegeta-  
bles. There are three distinctive  
steps in the intermittent method.  
First, blanching. This is done by  
simply placing the vegetables in  
a cheese-cloth bag and putting  
them in boiling water for a few  
minutes. The second step is the  
cold dip. While the vegetables  
are still in the cheese-cloth bag,  
dip them in cold water. This re-  
duces the bulk, sets the color and  
removes any objectionable odor.

"The third step is packing. Af-  
ter the vegetables have been  
packed into the jar put one tea-  
spoon of salt to one quart. Then  
fill with water to one-half inch  
from top. Don't put salt into  
string beans, which is the only  
vegetable that does not require  
salt in canning.

"Processing is the fourth step,  
which is simply the cooking.  
Screw top part way on and place  
in utensil as deep as jar contain-  
ing vegetables and put water up  
half way on jar. Cook one hour  
for first day, and remove from fire  
and seal tightly. The second day  
loosen tops and cook as day be-  
fore; also on the third day the  
same way.

"The third method is the steam-  
pressure method. There is also a  
fourth method, which is called the  
continuous method, which is the  
same as the second method, except  
that the vegetables are cooked  
from 3 to 5 hours on the first day,  
instead of cooking three days one  
hour each."

### INJURIES FROM FALLING HORSE KILL' KRESS MAN.

A. T. Bridgermann, age 62  
years, died yesterday morning, at  
Kress, from the effects of injuries  
received when a horse fell on him,  
fracturing his skull and breaking  
his collar bone.

He has been living at Kress about  
two months, having moved there  
with his family some two months  
ago. He has nine children.

The funeral services were con-  
ducted yesterday at the Kress  
Cemetery, under the direction of  
W. F. Garner.

### FRANK J. OTT IS DEAD.

A. A. Hatchell, undertaker for  
Paxton & Oswald, was called to  
Runningwater yesterday to pre-  
pare for burial the body of Frank  
J. Ott, who died at two o'clock.

His body was shipped this morn-  
ing to Potosi, Wis.

Cancer of the stomach was the  
cause of Mr. Ott's death.

He was fifty-eight years of age.  
He leaves a wife and four children.  
Two sons, a daughter and the  
widow of the deceased accom-  
panied the body home.

The family has been living here  
several years.

## R. E. L. FARMER IS NEW PRESIDENT WAYLAND COLLEGE

Is School Man of Practical Experi-  
ence—Formerly Head Cana-  
dian College.

Rev. R. E. L. Farmer, for six  
years president of Canadian Bap-  
tist College, and now pastor of  
the First Baptist Church at Here-  
ford, has been selected to fill the  
vacancy made by the resignation  
of Rev. O. L. Hailey as president  
of Wayland Baptist College. It  
is stated that Rev. Farmer's re-  
cord as president of Canadian Col-  
lege is an enviable one, having  
placed the school not only on a  
high plane of scholarship, but ma-  
terially improving the financial  
condition of the institution.

The new president is now  
in Asheville, N. C., attending  
the Southern Baptist Convention.  
In company with Rev. Hailey, he  
will return to Plainview Tuesday  
morning and complete the orga-  
nization of faculty and adminis-  
tration committee for the coming  
year.

### REAL, LIVE, TENT CIRCUS WITH ANIMALS COMING.

Boys and girls, there's a circus  
coming, and, best of all, you are  
to be the actors and the animals.  
There is to be a real circus parade  
and a tent and ring show. It's the  
most fun you have ever had in  
your life, and it will be here right  
soon.

J. A. Donaldson and Miss Lu-  
cille McCormick want to meet  
every boy and girl in Plainview  
and as many from the country as  
possible at the Chautauqua tent  
tomorrow evening at seven-thirty  
to arrange for the circus. They  
want to tell you of their plans, so  
be there on the dot and bring all  
of the little brothers and sisters  
you can find. There will be some-  
thing for every one of you to do.  
Mr. Donaldson will tell the boys  
over eleven years of age what is  
expected of them, and Miss Mc-  
Cormick will have the little fel-  
lows and the girls in charge.

### WAYMAN DAVENPORT IS LAMAR'S BEST PUPIL.

The highest yearly average  
made at Lamar School this year  
was made by Wayman Davenport.  
His average grade is 96 per cent.  
Others with high grades are Sam  
Harlan, 95; Lelia Bryan, 94; Jau-  
bert Clements, 93; Lee Johnson,  
92. The examinations closed to-  
day. The highest quarterly exam-  
ination grades were made by Way-  
man Davenport, 95; Marie Mc-  
Donald, 93.1-5; Rebecca Bryan,  
91.4-5; Eva Whitfield, 91.4-5; Sam  
Harlan, 91.3-5.

Pupils who have been neither  
absent nor tardy during the en-  
tire year are Wilbert Frye, Edith  
Guyer, Ona Mae Mitchell, Fred  
Frye, Jennie Lee Thompson, Dora  
Nan Bryan, George Mayfield, Del-  
mas Johnson, Alma Hamilton, Jim  
Bryan, Fred Martine, Gladys  
Finch, Bernice De Vore, Marlin  
McWhorter, Tom Bolin, Elizabeth  
Simmons, Mabel Hayden, Pearl  
Williams, Leita Bryan, Wayman  
Davenport, Edson Chambers,  
Scott Simpson, Joubert Clements  
and Sam Harlan.

The following will receive dip-  
lomas from Lamar School: Lo-  
rene Wicker, Le Roy Talbott, Re-  
becca Bryan, Eva Whitfield, Yo-  
landa Makinson, Almira Strange,  
Fannie Warren, Leita Bryan,  
Pearl Williams, Marie McDonald,  
Bessie Terry, Myrtle Mitchell, Al-  
ma Largent, Wayman Davenport,  
Sam Harlan, Ray Pippin, Charlie  
Rushing, Oma Fluke, Lee John-  
son, Lowell Ponder, Ralph An-  
drews, Ernest Huggins, Harold  
Blankenbecker, George Keys,  
Earl Lockhart, Mark Nichols,  
Frank Shipley, Francis Wofford,  
Finch Sharp, Truett Pool, John  
Thompson, Roy Simmons, Joubert  
Clements, Ivy Hart, Grady  
Cramer, Lee Lockhart, Scott Simp-  
son, Dwight Green, Edson Cham-  
bers, Mack Alexander, Willie De  
Jarnatt, Brunson Reddell.

### BIRTHS.

Born, to Mr. and Mrs. C. S. Ebe-  
ling, Thursday, a girl.

J. ADAM BEDE—NATION-WIDE HUMORIST.

## Motor News of General Interest

### SUPER-SIX MAKES SKY LINE ON HIGH.

A remarkable demonstration as to what the modern automobile can do, that means much to the motoring public, was given this week by Manager C. H. Burman, of the Oakland branch of the H. O. Harrison Company, Hudson distributor at San Francisco, when he took one of the new Hudson Super-Six cars from the salesroom floor and with three passengers drove from Broadway to Broadway over the Sky Line Boulevard from the Piedmont Avenue approach, making the entire distance on the high gear.

Taking the Sky Line Boulevard on high gear the entire distance from the Tunnel road is an easier way by far, but for real test of power on high gear work the Piedmont approach is a hard one, and the Hudson car demonstration is a remarkable one.

Practically every motor car owner that has driven the Sky Line from the Piedmont entrance via the Moraga Avenue route knows the steep pitches encountered at the hairpin turns at the beginning of this road, and nearly every driver resorts to the low gear at this point.

The motorist who takes advantage of this scenic route today will appreciate the power of the Hudson car in driving over the road from the Broadway home of the Hudson over the entire Sky Line and back again to the Broadway starting point without once taking the high-gear lever out of mesh.

This is the second remarkable demonstration of power given in Oakland recently by the Hudson Super-Six. The first was when Burman drove the car over the Mandana Boulevard grade the entire distance on high gear from a 20-mile-an-hour start to the top of the grade—making the climb without speeding up at the start.

In the car with Burman when he gave this power demonstration on the Sky Line Boulevard the passenger weight was exactly 625 pounds—a little better than the 150-pound average for the four passengers, a figure exacted by motor officials in tests of this sort.

### COMPLETE AUTOMOBILE TRAIN IN TEXAS.

What is undoubtedly entitled to be termed the most modern of prairie schooners, a motor train consisting of a tractor and five enclosed cars, is described in the June number of Popular Mechanics Magazine. The train is being used to transport a telephone-construction and repair gang through sparsely settled districts in Texas. There are two sleeping cars, a kitchen car, a diner, and, at the rear, a "baggage" car, in which everything needed by the workmen, except poles, is carried. The kitchen trailer is equipped with stoves, a sink, shelves for dishes, and other accessories. The diner is provided with one long table and a butler's pantry, having warming ovens, in which food may be kept hot until served. The final touch is a telephone, which is installed at one end of the car.

### GOODYEAR CAPACITY WILL BE DOUBLED DURING YEAR.

Discussing the announcement made Thursday that the Goodyear Tire and Rubber Company will issue \$10,000,000 of new preferred stock, the sale of which already has been underwritten, President F. A. Seiberling, of the Goodyear Company, says:

"It is all the natural result of Goodyear growth, and the growth of the automobile industry. For the past year or more we have been straining our capacity, working day and night, to keep up with the demand for Goodyear products. We have been making factory enlargements for some time past, but even then have not kept pace with business growth. In fact, we expect business growth. In fact, we expect to practically double our production facilities within the next ten months. For a long time, in the automobile tire department, we have been turning out practically capacity—17,000 tires a day. Within a year our capacity will be 26,000 tires a day.

"Greater business requires greater sums for its transaction, hence the plan that has just been announced."

### COLLINS TO LEAVE BUICK.

FLINT, Mich.—R. H. Collins, well known in motor-car circles as general sales manager of the Buick Motor Co., will, on July 31, sever his active connection with the Buick organization. No announcement of future plans has been made by Mr. Collins, and it is not yet known who will succeed him in the sales work of the Buick organization. With Mr. Collins' retirement the industry will lose one of its pioneer selling figures, as he has been with the industry many years.

### "VICE PRESIDENT IS GREAT AMERICAN CLAM," SAYS BEDE.

"The Vice President is the only official nonentity in our system of government. He is elected for four years to loaf around the throne and wonder what is going to happen. Incidentally he presides over the Senate when in session, if he feels like it, but is not a member of that body and has no speaking acquaintance with any subject before it. The Senate makes its own rules and construes them, and the Vice President is presumed to commit this fact to memory. He has no patronage, no voice in public affairs, no seat at the council chamber—no push nor pull anywhere in the scheme of government—but is like a second-hand husband agreed on in advance and held under suspicion, who as a matter of taste must not obtrude himself upon the marriage feast nor the bridal tour.

His business is to keep still. He is the great American clam, and is held in escrow pending conditions which it is hoped will never occur to make him shuck himself and come out in the open."—J. Adam Bede.

Every time J. Adam opens his mouth he says something that makes you laugh. And then after a time you laugh some more. There is no one in the world like him, no one quite right to fill the place he occupies in this season's Chautauqua, the most pretentious yet brought here.

Oscar Rutledge, of Floydada, was here Tuesday.

### The First Taste Tells the Difference

The New Post Toasties are made to overcome the objections to common ordinary corn flakes.

Just one trial will show that these New Post Toasties retain their delicious crispness—don't mush down when milk or cream is added, nor are they "chaffy" in the package.

They're distinguished by the tiny bubbles on each flake, raised through the quick, intense heat of the new process of manufacture.

And the flavor—the full, true flavor of choicest white Indian corn—is brought out in

## New Post Toasties

Sold by Grocers everywhere.

**Willard** STORAGE BATTERY (T.B.A.)

**See The Point?**

The biggest argument for Willard Battery Service is the fact that it saves a lot of repairs that would be necessary otherwise. Let us show you.

THE T. M. CALDWELL CO., Amarillo, Texas.

Free inspection of any battery at any time

**Ford**

THE UNIVERSAL CAR

Obey that impulse and get your Ford car today. There's no valid reason why you should deny yourself the pleasure and profitable service the Ford gives. Obey that impulse. # Special Notice

We will have another carload of Buicks in Monday.

This will be an excellent time to inspect them while you are here during Chautauqua.

All owners of Buick cars should bring their cars to our shop while here Chautauqua week and have them inspected and thoroughly gone over. This will give you opportunity of service without losing time.

## Buick—Pioneer Builders Valve-in-Head Motor Cars

## THE MODERN SIEGE GUNS ARE BUILT LIKE A BUICK VALVE-IN-HEAD MOTOR

The reason the siege guns will shoot 26 miles is because the firing chamber is so arranged that ALL the force of the powder explosion goes directly against the shell. None of the energy generated by the explosion is wasted.

In the "L" head motor part of the gas explodes in the valve pockets, which means that the piston head does not receive the full force of the blow.

In the "T" head motor there are two side pockets and one-fifth of each explosion is wasted. This is the least efficient of all types of motors.

In the famous Buick Valve-in-Head motor all the gas explodes directly behind the piston, just as all the powder is exploded directly behind the shell in the siege gun. Consider this in buying a car.

## VALVE-IN-HEAD An Engineering Principle—Not An Advertising Slogan

## THE VALVE-IN-HEAD PRINCIPLE REFINED AND DEVELOPED

The trend toward the Valve-in-Head is very rapid, which is only natural now that the motoring public has come to know that this is the best type of motor.

Thirteen years of experience and development finds the present Buick Valve-in-Head motor far advanced over the first one. In the first one the principal was right, but it was not as perfectly applied as we learned later to apply it.

It takes time to learn how to apply any mechanical principle to the best advantage, and in the application of the Valve-in-Head principle the Buick Motor Company has a thirteen years' start over other motor manufacturers. What we have already learned, the others will have to learn through experience. Time and service are the real tests of a motor.

All but one of the cars entered in the Indianapolis classic were Valve-in-Head type—which further confirms the correctness of a principle which has been incorporated in every one of the more than two hundred thousand motor cars that have been built in the last 13 years by the Buick Motor Company.

# The Herald's Review of the Movies

The third of the Pathe specials, "The Iron Claw," is to be shown at The Ruby Monday. "The Cognac Cask" is the title of this installment. It is a thrilling tale of how "Laughing Mask" rescues Margery from what might have been a more awful fate than living under the supervision of Legar, to whom she has again returned in hopes of putting an end to his persecution against her father. Margery is cleverly conveyed from her unhappy home in a cognac cask, after Legar and his associates have been dragged. Margery's mother, having discovered the plot to kidnap the girl, it is reasonable to believe that she has an intimate acquaintance with the "Laughing Mask." Says the Motion Picture News: "The episode is intensely interesting; the suspense maintained throughout has an unusual thrill."

"Baby Early," the beautiful child actress, is to be seen in "The Bold, Bad Burglar," a one-reel juvenile comedy. "The Cry of Erin," a one-reel drama, with Francis Ford and a large supporting cast, completes the program.

"Pathe Gold Rooster" is a term which qualifies plays of a high class. A late release is coming to the Olympic Monday. "The Woman's Law" is a five-reel play in five parts, featuring Florence Reed, supported by Duncan McRae and an excellent cast. This play is an adaptation of the novel of the same name by Maravene Thompson. It gives Miss Reed an excellent vehicle to display her terrible dramatic earnestness, that made her work in "At Bay" and "New York" so salient. "The Woman's Law" is a modern drama, the theme of which is largely built up on the curious theme of a man's physical double.

The Mae I. program failed to arrive this morning, but the management feels that with the new service which they have inaugurated that it will exceed the excellence of their usual program.

Frederick Warde, who starred in "Silas Marner," which made such a favorable impression recently at The Mae I., has signed an exclusive contract with the Mutual Corporation, and will appear more often at the local playhouse. His films will be featured as the "Thanhouser Classics." Mr. Warde is a famous Shakespearean actor, and the Thanhouser Company is arranging for him to appear on the screen in some of his legitimate stage successes.

Florence La Badie has also signed a new contract with the Thanhouser producers, and will be featured in a series of "classics," two of which, "The Fugitive" and "Woman, Saint and Devil," have been completed.

Theatrical gossip from New York tells of a suit instituted by Charles Chaplin to protect his highly valuable reputation as a motion-picture comedian. He has started the first suit ever filed because a picture is not

funny enough. The suit is against the Essanay Film Manufacturing Co., asking a permanent injunction against their showing his picture "Charlie Chaplin's Burlesque on Carmen." He charges that the film being shown is padded and that the quality is seriously injured.

The American Film Company, a Mutual organization, has signed four special-feature artists in the persons of Richard Bennett, Helen Holmes, Mary Miles Minter, and Audrey Munson. These stars will appear in productions of not less than five reels under their new contracts.

It is said of the Thanhouser twins, Madeline and Marion Fairbanks, that they object to being thought of as "two of a kind." They want to be considered individually, although their managers can scarcely distinguish which is which. They exactly resemble each other in height, weight, color of hair, eyes, complexion and even mannerisms. They have just reached their fifteenth birthday, and are feeling that they are due some individual consideration. In the studio they wear different-colored ribbons around their arms to distinguish them.

Tuesday there comes to The Ruby "The Code of Marcia Gray." Playing opposite Constance Collier are Henry De Vere and Forrest Stanley. To those who see the photo plays as mere plays, and who do not appreciate the differences of individual players, this announcement will mean little, but to those who admire the work of Constance Collier it is interesting. In The Motion Picture News, Margaret I. MacDonald criticises this play with: "There are various points of merit about this production in which Constance Collier gives so excellent an impersonation of that type of woman to which the masculine fancy still clings: a splendid virtuous type, but woefully dependent withal, and in this case an innocent participant in the disgrace of her husband's financial crash. The sets displayed are marvellously beautiful. It is a notable fact that of the close-ups which appear in this production not one can be pointed at as being ineffective."

The Olympic offers on this day a program of variety, drama and comedy. "The Honor of the Road" (Kalem) is the sixth episode of the "Stingaree" series, in which the road agent shows up a real rascal who has not only robbed but murdered his partner. He has laid the crime at the convenient door of Stingaree. He gets a clue and stumbles on a means of eliciting a confession. It is a good offering and well holds up its end of the series.

Grace Cunard, Jack Holt and Neal Hardin are starred in a two-reel (Gold Seal) number, written by Francis Ford. The Motion Picture News criticises the scene in which the nude wife poses to earn money for her sick husband, as being dragged in for the purpose of

exciting comment, and further states that it will pass without much criticism, indicating not altogether approval.

A Nestor Comedy, "The Deacon's Waterloo," is the last number. Lee Moran, Eddie Lyons and Betty Compson are in the cast of this Al E. Christie comedy. The substitution of a wooden horse for the deacon's animal makes a laughable feature.

"The Bond Within," a three-reel drama, written by Julian Louis Lamothe and produced by Edward Sloman, is one of the offerings at The Ruby Wednesday. The scenes are laid in the South and in Mexico. The taking of Vera Cruz is one of the main incidents. Adda Gleason is the most effective member of the cast.

Another lively picture in line with the latest output of the MinA Company is the "Little Brown Hen," a one-reel comedy having for its chief fun-maker the unctious William Parsons. There is a well defined plot and the complications are all laughable.

In "The Night Watch" there is "not a single foot of unnecessary material." It is the criticism of the Motion Picture World. A physician does all within his power to save the life of a patient. He learns that he is the cause of the downfall of his daughter. Here is the dramatic situation. Shall he allow him to die or shall he try further to save him? Dallas Tyler is especially capable, and the girl and Richard Purdon and Arthur Albertson are excellent in their respective roles, as is Robert Ellis, who produced the play and acted the part of the physician.

Always a welcome player, one associated in a more or less personal way with Plainview persons, is Warren Kerrigan. He appears at The Olympic Wednesday in "The Pool of Flame," a Red Feather photoplay in five reels. Lois Wilson, Harry Carter, Maude George and others are in the cast. The development up to the climax is conventional, but entertaining and enjoyable. The story is one of the adventurous type and a good one.

### FARM LOANS.

Best Rates, Good Terms, Money Ready. M. F. YOUNG, at Third National Bank.

### PLAINVIEW GIRL ENTERS NATIONAL MOVIE CONTEST.

The Beauty and Brains Contest, a Nation-wide enterprise, which, under the guidance of the World-Equitable Motion Picture Corporation, has been running for the past eight months in the Photoplay Magazine, is drawing to a close. Lillian Russell, one of the judges, has made the first selection.

Miss Lucile Wilkison, of Plainview, one of the original candidates, was selected by Miss Russell and is one of the hundred who will enter the final elimination. The elimination is now going forward to select the eleven successful candidates.

Lucile Wilkison, when the contest originated, was prevailed upon to send her photograph, with the result that when the eight thousand likenesses were gone over she was selected as one of the hundred most likely film subjects by Lillian Russell. The contest called for an equal amount of brains and beauty. It was essential for the candidate to write a letter in her own hand-writing, stating her reasons for desiring to become a film actress. The applicants, or candidates, were then grouped as to the section of the country in which they lived, and two candidates from five different sections will be finally chosen. Lillian Russell, Sophie Irene Loebe, a noted New York society writer, and William A. Brady, the famous theatrical manager, are the judges. There will be ten winning candidates from the United States and one from Canada. The eleven successful young ladies will be taken to New York, a month will be devoted to teaching them the value of various dramatic angles, and then those who show proper interest and sufficient ability will become permanent members of the World and Equitable stock companies, and at goodly salaries appear in films.

Lectures, theatre parties, studio lessons and a number of events are carded for the successful candidates, and it is very likely that Lucile Wilkison will be one of the successful entrants.

The winning candidates will be announced throughout the country early in June.

Allen Duckwall came down from Kress Tuesday morning to visit a short time with his parents, Mr. and Mrs. G. E. Duckwall. He left Wednesday morning, accompanied by his brother, Archie, for Manhattan, Kansas, where they will spend the summer.

### THIRTY-EIGHT HERE PROSPECTING YESTERDAY.

Today being the time for the semi-monthly excursion parties,

thirty-eight arrived to look over the Plainview country. Seventeen of these were with the Texas Land and Development Company and twenty-one with the Alley Brothers, of Hale Center.

## OLYMPIC

"YOU KNOW THE PLACE"

MONDAY.  
Pathe Gold Rooster Day

We offer America's foremost light opera star

**Florence Reed**

in  
**"The Woman's Law"**

We guarantee this production to be one of the best emotional photoplays ever exhibited in this city. It is a production that every woman in Plainview should see—especially the married ones.

TUESDAY,  
"Stingaree" Day  
**"THE HONOR OF THE ROAD"**

An episode in the STINGAREE series, with True Boardman. Each story complete in itself.

**"BORN OF THE PEOPLE"**

Grace Cunard and Jack Holt in a two-part Victor drama.

**THE MAE I. THEATRE**

# At The Chautauqua

SHILKRET'S HUNGARIAN ORCHESTRA—AUGMENTED FOR CHAUTAUQUA.

The first of the BIG FOUR—one of NINE Companies and the opening of a score of great attractions. SAM SHILKRET (himself) and his most interesting orchestra. Then follow MARIO and TREVETTE, the SCHUBERT ARTISTS, the LHEVINNES BELLINO NOVELTY, THAVIU'S BAND and Grand Opera Singers, a New York Company in "THE MELTING POT," ALFRED HILES BERGEN, the HAYDN CHORUS, not to speak of the BIG FOUR in Lectures—GOVERNOR GLENN, EX-CONGRESSMAN J. ADAM BEDE, DR. BENJAMIN HAYWOOD, DR. M. D. HARDIN, and several other notable Lecturers and entertainers, a greatly increased program at no increased cost to those who procure Season Tickets early

**MISS SANSOM PRESIDENT OF THE BROWNING CLUB.**

Misses Burr Goode and Mary Williams entertained the Browning Club Saturday, at the home of Miss Goode.

This being the last meeting of the club year, new officers were elected, as follows: President, Miss Nell Sansom; vice president, Miss Elizabeth Briggs; secretary, Miss May Kinder; treasurer, Miss

Edna Harrington. The program was very interesting and a very unusual one. Each member gave her favorite poem by Browning and what the study of Browning had meant to her.

At the conclusion of the round-table discussion, conducted by Miss Lena Williams, a two-course luncheon was served.

The club contemplates a study of current events next year.

**FOOD FOR CHILDREN FROM 1 TO 3 YEARS OF AGE.**

Helpful suggestions on food for children from one to three years of age are contributed to this issue by Miss Rich, as below:

**Food for Children Over a Year Old.**—Too often, as soon as the baby has been weaned or has given up its bottle, it is brought to the table and fed the same food that the grown-up members of the family eat. This is not right, for we must remember that the young child has a delicate organism, and that its digestive system can easily be upset. We hear much about the relation between mental and physical growth. If we expect our child to develop as he should, mentally and physically, we must see that he is properly nourished, for we feel that its whole future welfare depends upon the proper feeding during its early years. During this period its food habits are being established, and it is essential that the child learn to eat a variety of foods, for the development of a rational appetite is a very necessary part of the training of a child. Often it takes time and care, but it is worth our best efforts to see that the child has all that it needs to develop into a strong, healthy adult. The feeding of a child must be a gradual adjustment to new foods.

First feeding period is from the ninth to the fifteenth months. During this period the child should gradually become accustomed to the following foods: Milk, cereals (well cooked and strained); orange juice, egg yolk, zwieback or dry toasted bread.

The next period is from fifteen months to two years. The feeding continues as in the first period. We may introduce some variety in the cereals and the fruit juice, and we may also introduce a vegetable, cooked and strained. Spinach is a particularly valuable one to commence with. All additions should be given in small quantities until the child's digestive organs have accustomed themselves to the new food.

The next period is from two to four years. Here our menu will consist of: Milk (1 quart.) This may be taken as a beverage or used in combination with cereals or in simple desserts. Cereals (unstrained), fruits (cooked and mashed), eggs, stale bread; vegetables cooked and strained, i. e., spinach, onions, asparagus, potatoes, carrots, peas; simple desserts, as custards, junkets, gelatine, whips, cereal puddings.

The next period, four to seven years, will include the first year of school, and will involve other problems, such as proper school lunches. It is essential that we remember that the entire school age is a period of growth, that the child is constantly facing new situations which demand nervous and muscular energy, and that careful feeding is essential to his healthful, normal development.

**FIREMEN ELECT OFFICERS FOR YEAR.**

The annual meeting of the Plainview Volunteer Firemen's Association was held last night in the firemen's quarters in the City Hall. Seventeen were in attendance. Officers elected were Wiley Brashears, chief; Will Smith, assistant chief; Carl Brown, secretary and treasurer; Ada Hubbard, foreman hose company No. 1; Wade Roberts, foreman hook and ladder company No. 1; C. S. Woodrow, foreman chemical company No. 1; Ray Bryant, assistant foreman hose company No. 1; O. T. Rushing, assistant foreman hook and ladder company No. 1; Curtis Westcoat, assistant foreman chemical company No. 1.

Rev. T. B. Haynie, pastor of the First Presbyterian Church, was elected chaplain. The queen of the fire department is Miss Jennie Humphreys, who is now in Nashville, Tenn., a student of Ward-Belmont; Miss Ada Mae McKinney, and Miss Kathleen Joiner, a student in Randolph Woman's College, Lynchburg, Va., are sponsors, and Arthur Peret is mascot.

**ATTENDING AMARILLO DISTRICT CONFERENCE.**

Rev. A. L. Moore, presiding elder of the Plainview District, and Rev. J. W. Story, pastor of the First Methodist Church, left this morning for Canyon City, where they will attend the district conference for the Amarillo District.

Up to six o'clock last night .65 inch rain fell yesterday. Eleven hundredths of an inch have fallen today, making .75 inch total.

Reports this afternoon indicate that late yesterday evening good showers fell all over the Panhandle and South Plains country.

**THE BETTER BABY.**

"Bernard Shaw, comparing recently the slaughter of 75,000 Englishmen in the first year of the present hideous war with the annual slaughter of infants through personal ignorance or governmental indifference, says: 'We have lost only 2 1/2 per cent of our fighting men. If we take the number of babies conceived in this nation and who ought to be born, we have 938,000. The number which succeeds in getting born is about 800,000. This is not a good beginning. It means that 138,000 have not sufficient vitality to get themselves born; it also means that the mothers are not properly fed and properly instructed. Of the 800,000 babies who do manage to enter the world 100,000 die before they are one year old. This means dirty milk or no milk at all—slums, bad food, and ignorance. We lose 100,000 before one year of age; we drop another 100,000 before they reach the age of fifteen, just when they are becoming industrial producers and available for military service; and of the remainder who grow up we find that another 100,000 have to be rejected for military service because they are unfit; that is 37 1/2 per cent destroyed in peace for the 2 1/2 per cent destroyed by the whole German Army firing shot and shell at them.'

"Whether Texas is in better or worse condition than England in regard to the treatment of her babies and children, no one can state with authority, for Texas is not yet civilized enough to keep the statistics of births and deaths necessary to learn what are our losses in infancy and childhood. But those in the best position to judge are certain that 12,000 babies and children die from improper feeding and preventable diseases each year in Texas, and twice as many more remain sick and miserable or poorly developed for no other reason than ignorance on the part of parents and ignorance on the part of the general public, which makes it well nigh impossible to pass and enforce reasonable sanitary laws or

to secure the funds for disseminating the knowledge that would quickly stop a large part of this slaughter of babies and children.

"Let us not be mean and blame this loss of life on Providence, when we ourselves are the murderers. We can prevent it if we try. In New Zealand the infant death rate has been reduced to 5 per cent, as against 10 per cent in England, 16 per cent in Spain, and 24 per cent in Russia. In certain districts in England and America similar reductions have been made, showing that fully half of the misery and death or permanent weakness with which we visit our children is nothing more than the price we are paying for our ignorance and indifference.

"In the United States 300,000 babies die annually, under one year of age. Eleven per cent of these deaths is preventable, twenty-seven per cent largely prevent-

able, and sixty-two per cent partly preventable. Save the babies! Their health, growth and happiness depends on us."

**Books for Mothers.**

Miss Rich suggests the following books as being of value and interest to mothers: "The Care and Feeding of Children," L. Emmet Holt; "Theory and Practice of Infant Feeding," Chapin; "How to Feed Children," Louise Hogan; "Short Talks to Young Mothers," C. G. Kerley; "Human Nutrition" (Parts I and II), Flora Rose; "The Feeding of Young Children" (Teachers' College Bulletin), M. S. Rose; "Food for Children" (University of Texas Bulletin), Jessie P. Rich; "Diseases of Infancy and Childhood," L. Emmet Holt; "The Prospective Mother," Slemmons.

Rev. J. M. Harder left this morning for Henrietta and Gober to visit sisters at those places.

## LOCKNEY FIRE LOSS IS ESTIMATED AT \$20,000

**INSURANCE \$12,000—ENTIRE BLOCK DESTROYED; ORIGIN UNKNOWN.**

### POWERLESS TO CHECK FLAMES

Ask Aid of Plainview Department, Which Could Not Help Without Water Supply.

At 2:45 a. m. Wednesday fire of unknown origin broke out in the Farmer's Exchange at Lockney. Before it was discovered this building was practically destroyed. A call was made to Plainview requesting the fire department to aid them, but when it was found that no water for fighting fire was available the local firemen decided it was useless to make the long drive with the heavy truck.

From the Farmers' Exchange the fire spread to Riley & Reeves' grocery store. The entire block north of the place where the fire originated was a total loss, except the Willis & Merriweather Building, which is of brick. The stock of goods in this building and the two-story building were damaged to the amount of \$3,000.

The loss of the Farmers' Exchange was \$5,200, with insurance to the amount of \$3,300. Riley & Reeves, grocers, lost \$3,250, with \$2,250 insurance. Mrs. D. J. Thomas' millinery store was burned, with a loss of \$500, which was fully covered by insurance. E. Guthrie's loss on his building was \$1,000, with \$600 insurance. The Happy Hour Theatre lost \$3,000, and had \$1,000 insurance. No insurance was carried on the Home Bakery, which suffered a loss of \$1,400. The Jitney lost \$150, with no insurance. Willis & Merriweather suffered \$3,000 loss on their building, which is fully covered by insurance. The stock of J. H. Graves, dealer in hardware and dry goods, was damaged to the amount of \$1,000, which is fully insured.

Lockney has no water mains or other means of fire protection, and the people had to stand by helplessly and watch the property go up in flames.

The total loss is estimated at \$20,000, with \$12,000 insurance.

### WAYLAND COMMENCEMENT BEGINS FRIDAY, MAY 19.

Professor T. L. Girault, of the faculty of Wayland Baptist College, requests The Herald to announce the following general program for the commencement exercises of Wayland Baptist College:

Friday afternoon at 4:30 o'clock—Recital by the primary department.

Saturday morning, final faculty meeting; 4:30 p. m., primary fine arts recital; Saturday evening, 8:30 o'clock, piano recital by Miss Lula Malone.

Sunday morning at 11 o'clock Dr. I. E. Gates will preach the baccalaureate sermon, at the First Baptist Church.

Monday, 10 a. m., expression and piano concert; 3 p. m., intermediate fine arts recital; 4-6 p. m., grand pageant; 8:30 p. m., inter-society debate.

Tuesday, 10 a. m., senior expression recital; 3:30 p. m., art levee; 8:30 p. m., advanced fine arts recital.

Wednesday, 10 a. m., graduation exercises; address by Judge Bollin, of Matador.

### ZIMMERMANN HAS FINE IRRIGATED WHEAT FIELD.

One of the best fields of wheat to be seen on the Plains is that of Chas. Zimmermann, who lives in the Aiken community. Mr. Zimmermann is a very thorough farmer and believes in intensive soil cultivation. Last year he had on this forty-six-acre plot of ground an oat crop, which he cut early, and as soon as the crop was removed began cultivation of the ground. It was summer fallowed. He planted in September thirty pounds to the acre. He has irrigated part of the wheat, and the line to which the water extended is marked noticeably by the difference in the height of the stalks. He is now completing irrigation of the tract.

### COUNTY SCHOOL BOARD TO MEET SATURDAY.

The County School Board will meet in the Commissioners' Court Room Saturday afternoon.

### TULIA BOYS LOSE TO PICKED LOCAL TEAM.

On Tuesday afternoon at the Wayland College grounds, a team from Tulia lost at baseball to a team picked from the squads of Seth Ward and Wayland Colleges. The score was 14-5. Presley, of Wayland, and Whitworth, of Seth Ward, were the battery for the locals. Johnson, of Wayland, umpired.

### CHRISTIAN AID MEETS WITH MRS. A. B. BELLIS.

Mrs. A. B. Bellis entertained the Ladies Aid of the Christian Church. The Ladies' Aid of the Christian Church is helping to bear the expenses of the church by meeting every Monday afternoon to work. Yesterday afternoon they were busy making rugs for special orders. They are planning a new piano for the church.

### BIRTHS.

Born, to Mr. and Mrs. Geo. R. Quesenberry, May 13th, a boy.

Born, to Mr. and Mrs. M. M. Ferguson, May 15th, a boy.

Mr. and Mrs. L. D. Bowen, eight-pound boy, May 17, Plainview.

## Electricity in the Home for Lighting, Ironing and Cooking

Furnishes the most modern convenience known to the experts in domestic science. Now that the hot days of summer are bringing up memories of hot cook stoves on ironing days, building three fires a day with all their dirt and heat or keeping up the fire all thru the heat of the day, and dirty, smelling, dangerous oil lamps to read and work by, surely the clean, cool way of doing the housework in the modern electrical way will appeal.

The extension of our current lines throughout this section brings the advantages of electrical service to many. If you don't understand the convenience and cheapness of electricity ask our service department.

When we consider the fact that there is a child born every four minutes in Texas, the importance of giving some thought to "child welfare" as individuals and study and organized research as a State is readily seen.

### TEMPTING.

A year ago State Press, a creation of the energy and talent of Joe J. Taylor, of the Dallas News, gave an account of a visit to the Plainview Country. Since Plainview citizens have felt a kindly interest in the "State Press" column. It is a personal interest. And State Press reciprocates. In yesterday's Dallas News he says: "It is difficult for a prosperous stranger to look upon those Plainview alfalfa farms punctuated with pigs without wishing he owned one."

Quite a number of Plainview's youngsters found themselves in an awkward position Sunday evening when a deputy sheriff from the Sheriff's office broke up a miniature parade which was proceeding noisily from one church to another. The boys were engaging in their sport unsuspectingly and innocently enough, not knowing the strict custom of grand juries regarding disturbances of public worship.

Gale Shepard, small son of Mr. and Mrs. T. C. Shepard, is very ill with pneumonia.

Professor and Mrs. G. R. Henderson returned this morning from Tulsa, where they visited with relatives.

Professor and Mrs. G. R. Henderson left this morning for their home in Fort Worth.

R. E. Edwards of Post City, was here Wednesday on business.

J. R. Riley of Kress was a business visitor in Plainview Wednesday.

P. L. Hancock, of Silverton, had business here Wednesday.

A. K. Green, of Slaton, was here Wednesday.

W. A. Gwin, of Slaton, was here Wednesday.

John W. Stansitt and family, of Aiken were here yesterday.

J. E. Ledbetter of Quanah, had business in Plainview yesterday.

Clarendon Ions, of Amarillo, was down yesterday.

Mrs. and Mrs. F. E. McGowan of Denver, were here yesterday.

W. H. Meador, of Amarillo, was a business visitor in Plainview yesterday.

Mr. and Mrs. W. T. Clark, Louis Bulest, W. M. Learned, of Los Angeles, California, en route home in a Hudson car, registered at the Hotel Ware last night.

B. H. Towery and J. G. Hamilton attended the school rally at Halfway today.

Mr. and Mrs. W. M. Ansley and children, of Dumas, are visiting with Mrs. B. T. Ansley, Sr. They came through the country in a car and were accompanied by Mrs. DeGraffenreed and daughter, Miss Jessie, of Canyon, who are guests at the home of R. W. O'Keefe.

Judge J. E. Lancaster went to Amarillo this morning on business.

R. A. Long went to Fort Worth Tuesday to attend the Pharmaceutical Association meeting to be held there this week. He will also visit with his mother, at Bluffdale, before returning home.

A. A. Hatchell returned Tuesday from Houston, where he has been attending the Texas Embalmers' Association.

Miss Anna Story who has been visiting with Mrs. J. W. Willis left for her home in Franklin, this morning.

Mr. and Mrs. T. W. Shepard who have been visiting here, left this morning for their home in Dimmitt.

Mrs. V. L. Formway who has been visiting friends here returned to her home in Kress this morning.

Miss Bettie Clements will leave in a few week for Sherman. She will do post graduate work in Kidd-Key College during the summer.

Miss Nannie Robbs of Lockney went to Hereford today to attend the Muncey trial.

### Readers' Forum

#### A PARK, A PARK, HIS MONEY FOR A PARK!

Why hasn't Plainview a park? Is there no man within her bounds having houses and lands and money in the bank and vacant lots, who would like to give a block to the city and let it be beautified and named for himself, and so go down to posterity as a monument beautiful to his name?

The Civic League, the clubs, the nursery, the floral companies and many private individuals would doubtless be glad to donate trees and flowers. And would not the seed companies of Plainview like to sod it over with a beautiful lawn mixture of velvety grass?

With green things growing and seats and walks and lovely flowers abloom, it would be a delightful rest spot and also a moral factor in the life of our little city. Its influence would cause many to call down blessings on the benefactor who so graciously gave of his bounty for the enjoyment of mankind.

How would "Smith Park" sound? (Is there a wealthy Mr. Smith in Plainview?) or "Jones Park," or some other name? Ah, "Mr. Man-With-Property."

arise and become a public benefactor, and we will name the park for you and bless your memory, and even so will posterity after us.  
 M. JULIEN.

Miss N. F. Dumas, of Brownsville, passed through Plainview this morning en route to Lockney.

Mrs. J. R. Daniels who has been visiting in Gatesville, Texas, returned home this morning. J. N. Moore and E. C. Lucas, of Van Alstyne, Texas, were here Tuesday.

On next Tuesday, May 23, we are going to give with each cash purchase of Wyckoff's Brown Liver Pills 2500 votes

EACH PURCHASER WILL BE RESTRICTED TO FOUR BOXES FOR \$1.00

In placing these pills before the people we feel assured that if they once try them they will use no other. We have spent years of study in perfecting a pill that combined all the medicinal properties of a liver stimulant without producing any bad effects. The dose is smaller than any other pill on the market and they will positively do all we claim for them. These pills contain nothing injurious and can be taken by the most delicate women without fear of any bad results; they are perfectly safe. These Liver Pills are recommended for Biliousness, Constipation, Torpid Liver, Headache, Liver Spots and all Liver Complaints. They are mild and thorough in their action. THEY WORK WHILE YOU SLEEP.

PRICE 25 CENTS

## ANNOUNCEMENTS

The Baptist Ladies' Aid will meet Monday afternoon at one-thirty o'clock with Mrs. J. T. Hartley.

Miss Lula Malone, pupil of Miss Ford Jeter of Wayland Baptist College, will give her graduating recital Saturday evening at 8:30 o'clock in the Wayland College Chapel. Miss Malone will be assisted by Misses Louise Graves, Ruth Bryson, Florence Patton, Gladys Speer and Lucile Bryan.

Tomorrow afternoon at three o'clock, the younger pupils of Wayland Baptist College will give a recital in the college chapel.

## MISS BRIGGS HONORED

Miss Elizabeth Briggs was the guest of honor at a dinner at the Ware last night given by Mrs. T. B. Carter and Mrs. E. B. Miller to the following: Miss Briggs, Mr. and Mrs. F. W. Clinkseales, Mr. and Mrs. A. G. Hinn, Mrs. T. B. Carter and Mr. and Mrs. E. B. Miller.

## FORMER WAYLAND STUDENT TO MARRY

Miss Addie Stevens, a member of the faculty of Wayland Baptist College, leaves Saturday for Cisco, where she will attend the wedding of her niece, Miss Willie Stevens. Miss Willie was formerly a student at Wayland College, and has many friends here.

G. E. Kent and Jos. Kern of Milwaukee, were in Plainview, yesterday on business.

## ABNEY-MALONE

In Lubbock yesterday was solemnized the marriage of Brantley U. Malone to Miss Monita Abney. The ceremony was pronounced by Rev. G. V. Overton, pastor of the Methodist Church at that place.

In attendance from Plainview were Mr. and Mrs. C. A. Malone and children, Mr. and Mrs. Bob Malone, Mr. and Mrs. R. C. Malone, of Abilene, parents of the groom, who have been visiting here. Miss Lucy Malone, of Abilene, and Mrs. W. E. Harvey, of Bradshaw, Texas, sisters of the groom, were also present.

There were many friends of the young couple who had planned to motor down, but gave up the trip on account of the bad roads following the recent rain.

## REST-ROOM CAMPAIGN HAS BEEN SUCCESSFUL

The campaign conducted by the members of the Civic League to secure funds for the ladies' rest room at the Court House has been very successful. Their "hen party" was more than was expected, and the merchants have been very liberal in their subscriptions to the fund for the support of the rest room.

Mesdames L. Lee Dye and Jos. Barrett ask The Herald to thank those who have co-operated in the move, extending thanks especially to the newspapers.

## DINNER TONIGHT HONORING VISITORS

Mrs. Griscorn Bettle will entertain at her home this evening with a six o'clock dinner honoring Misses Rich and Blodgett.

The invited guests are the honorees and Mesdames C. C. Gidney, J. C. Anderson and J. T. Jones.

## PRESBYTERIAN SOCIETY WITH MRS. E. B. HUGHES

The Missionary Society of the Presbyterian Church met Monday afternoon with Mrs. E. B. Hughes. The program arranged for the afternoon was very interesting.

Mrs. L. A. Kerr read a paper on Siam and Laos. Mrs. W. M. Jeffus also read a paper on the subject of "Cuba and Porto Rico." Good music was a feature of the program.

The program was followed by a business meeting, and a food sale was planned to be held during Chautauqua Week, Saturday, May 27th.

At the close of the afternoon, the hostess served dainty refreshments of ice cream and wafers.

## HONORING MISSES RICH AND BLODGETT

Enterprising Members of Recently Organized Club Are Hostesses at Mrs. C. D. Nobles' Home.

Tuesday afternoon, at the home of Mrs. C. D. Nobles, the members of the Home Economics Club received honoring Misses Rich and Blodgett, of the Home Welfare Division of the Extension Department of the University of Texas, who are conducting Home Economics Week in Plainview.

In the receiving lines were Mrs. E. Graham, at the door, Mrs. C. D. Nobles, Mrs. J. F. Duncan, Jr., Mrs. George Saigling and the honorees. The reception room was beautifully decorated with red roses.

Punch was served by Mrs. Will Price and Mrs. B. O. Sanford from a handsome hand-painted punch bowl. In the dining room the decorations were pink roses. In the center of the table was a beautiful centerpiece of Panama lace and a cut-glass basket filled with pink roses. Pink and white ice cream and angle food cake were served. Mrs. Wallace Settoon was at the door as the guests left.

Mesdames H. Grady Lindsay, Cora E. Pritchett, T. B. Carter and Misses Sansom and Wolters furnished vocal and instrumental music.

Mrs. L. S. Kinder and Miss May Kinder entertained the three Bridge Clubs Friday afternoon.

There were seven tables at bridge. Mrs. P. J. Woodriddle was the fortunate player.

The house was beautifully decorated with roses and honeysuckles.

Punch was served during the afternoon. Delicious ice cream and cake were served by the hostess to twenty-eight guests.

Misses Zelda and Resanne Hulen entertained a number of their friends last Wednesday night at the home of their parents, Mr. and Mrs. R. B. Hulen.

The lawn was beautifully lighted with Japanese lanterns.

# GOING TO THE CHAUTAUQUA NEXT WEEK?

Most people will be going and why not? It's the unusual—nothing of the kind has been here before and it's really going to be good. There will be variety—something to please everybody.

That's the way it will be at the Richier store the same week. Something unusual, because just now it's hard to find such beautiful styles. Attractive further because of the specially low prices. Really good because its the Richier quality that means satisfaction, and better for there's a whole season's wear.

## These Prices Are Effective Saturday and Next Week

### LADIES SUITS

We offer at these reduced prices all silk and woolen suits. Every garment is spring 1916 style.

- All \$11.50 to \$12.50 Suits reduced to **\$6.25**
- All \$15.00 to \$18.50 Suits reduced to **\$9.25**
- All \$21.50 to \$25.00 suits reduced to **\$12.50**
- All \$27.50 to \$32.50 Suits reduced to **\$16.25**

FURNITURE and UNDERTAKING

## Economic Recipes

**To Broil Tough Steak.**  
(Bottom Round or Flank Steak.)  
"Take a round or flank steak of about one inch or more in thickness, wipe, trim and place on a clean paper. Slash the surfaces, taking care not to cut through, and with the edge of a kitchen plate work into each surface about one-fourth of a cup of flour. Heat a skillet, rub with a bit of fat, and brown the steak well on both sides. When the steak is brown, add a half cup of boiling water, cover the skillet with a close-fitting lid, and push to the back of the stove to cook slowly until tender. (It should NOT boil.) This takes from 40 to 60 minutes. Season and serve with the gravy.

**Beef Stew.**  
(Use the Brisket or Rump.)  
"Cut two pounds of stew meat into small cubes and put one-third into a greased skillet to brown. When well browned on all surfaces, add this to the remaining meat, cover with cold water and bring slowly to the boiling point. Boil for a few minutes and place at the back of the stove to cook slowly for three or four hours, or until tender. When the meat is tender and the water nearly evaporated, add about one cup of cooked string beans and one can of tomatoes which have had a part of the water evaporated from them. Season and serve. Potatoes may be added also.

**Beef Loaf With Tomato Sauce.**  
(Chuck or Round Steak.)  
"Wipe clean three pounds of beef, chuck or round steak, removing skin and membrane. Run through meat chopper, or chop finely with a knife, add one-half pound of salt pork finely chopped, one-half cup of finely chopped bread crumbs, four tablespoons of cream, one-half cup milk, one egg beaten slightly, two tablespoons lemon juice, one tablespoon salt, one teaspoon pepper, and a few drops of onion juice. Pack in a bread pan, smooth evenly on top and bake two hours in a slow oven. Serve with tomato sauce made as follows: Cook one-half quart can of tomatoes a few minutes, then rub through a strainer. Rub together two tablespoons of butter and two tablespoons of flour; pour tomato on butter and flour and bring slowly to the boiling point, stirring to prevent scorching. Add one-half teaspoon of salt and one-eighth teaspoon of pepper. Turn beef on heated platter with sauce around it.

**Mock Duck.**  
(Chuck Steak or Bottom Round.)  
"Take a round or chuck steak, cut about one inch thick, place on clean paper, and wipe, trim and slash the upper surfaces. Make dressing of bread crumbs, butter, salt, pepper and onion, if desired, and spread on the surface of the meat. Roll up the steak and tie securely; then brown the exposed surface well, and cook on a hot plate in a fireless cooker or in a double boiler. If cooked in the fireless cooker, a small amount of water will need to be added to the steak, but no water is necessary in the double boiler. This takes about three hours to cook.

**Mutton Stew.**  
(Neck Pieces of Mutton.)  
"Cut two pounds of mutton into small pieces, cover with cold water, and bring to boil quickly. Boil a few minutes, and place on the back of the stove to cook slowly for several hours. Prepare about one-half cup of several vegetables cut into small pieces, as potatoes, carrots, onions, turnips, etc., and add to the stew in time to have the vegetables thoroughly cooked. When all is tender, thicken the gravy with flour and season with salt and pepper.  
"Stews may be made on the fireless cooker. Here we have an excellent means of cooking the meat at a low temperature.

**Corn Beef.**  
"Use a lean and solid piece of meat carved from the brisket or rump.  
"For rooking corn beef the fireless cooker is the best. Wash and boil the beef from 30 to 40 minutes on the fire in the stew pan. Place in the cooker and close tightly. Allow this to stand over night or about six hours. Remove from the cooker, and allow the beef that is to be served cold to cool in the water in which it is cooked.  
"Where one has no fireless cooker, the beef can be kept at a cooking temperature at the back of the stove. Do not boil after 30 minutes, as the beef becomes stringy and hard.

**Veal Birds.**  
(Veal Steak from Foreleg.)  
"Wipe, remove bone, trim and cut into pieces about 3 inches square, or smaller pieces, shaped as the muscular division of the meat determines. Make a dressing of bread crumbs, salt and pepper, and spread on the veal. Roll this, and tie or pin with a tooth pick, roll these birds in egg and cracker, brown well in a small amount of fat, add one cup of boiling water, or one can of heated tomatoes, cover tightly and bake for one hour in a moderate oven or brook slowly on top of stove.

**Chicken Fricassee.**  
(For a Tough Fowl.)  
"Dress, clean, wash and cut up the fowl, and put in a cool place for several hours or longer. Before cooking cover the flesh with water to which one quart of sour milk has been added, and allow it to soak for several hours (2 to 4). At the end of the time, pour away the water, cover the meat with boiling water, boil ten minutes, and push to back of stove to simmer slowly until tender (4 to 6 hours, depending on the toughness). When tender, place the chicken on a heated dish and pour over it a sauce made of four tablespoons of butter, four tablespoons of flour and three cups of the broth in which the chicken was cooked. Serve with boiled rice.

**Stewed Chicken With Noodles.**  
"Stew the chicken as described in the above chicken fricassee; remove the chicken from the broth to a hot platter; cook the noodles in the broth, and serve around the chicken.

**To Make Noodles.**  
"Beat two eggs lightly, add one-half teaspoon salt and stir and knead in as much flour as possible. Roll very thin on a board and allow to dry out. Roll and cut very fine.

"When there are any left-over portions of the tough meat, they can be attractively used in made-over dishes, as:

**Cottage Pie.**  
"Cover the bottom of a buttered baking dish with mashed potato. Add a thick layer of finely chopped soup meat or meat left from stew, etc., season with salt, pepper and onion juice, and moisten with some of the stock or gravy. Cover with mashed potato. Bake until well heated through. Cooked rice or macaroni can be substituted for the potato.

**Minced Meat With Poached Egg.**  
"Chop or grind the cold meat; heat with some of the gravy or stock, season with salt, pepper and onion juice or celery salt. Put meat on buttered toast and a poached egg on top of the meat and serve.

**Meat Croquettes.**  
3 tablespoons butter.  
3 tablespoons flour.

**Drink at Our Sanitary Fountain**  
During Home Economics Week.  
Your visit here also offers a good opportunity to supply the family from the famous REXALL LINE.

**DYE DRUG CO.**

**Helietrope Flour**  
The flour of satisfaction for all baking purposes. Try a sack on the first recipe the Home Economics instructors give you. You will use it on all the others.  
Practically every line in our store is a guaranteed quality line.  
**Pierson & Smith**  
Phone 348

1 cup milk or stock.  
1 cup finely chopped meat (heated).  
3-4 teaspoonful salt.  
1-3 teaspoonful pepper.  
"Melt the butter, add flour and heated liquid. Bring to a boil and boil three minutes. Add meat and seasonings. Spread on a plate to cool. Shape, roll in crumbs, then in egg, and again in crumbs, and heat quickly in a hot oven or fry in deep fat. Serve with tomato sauce (given for beef loaf), or with cream sauce to which green peas have been added.

**Muffins.**—One-fourth cup butter, one tablespoon sugar, one egg, one cup milk, two cups flour, four teaspoons baking powder, one teaspoon salt. Cream butter with stiff-handled tablespoon. Cream it until the butter feels like wax. Add sugar and beat to a creamy mass. Add beaten egg and blend well with butter and sugar. Add milk gradually. Sift dry ingredients, add gradually. Beat until smooth. Butter muffin pans well and fill them three-fourths full. Bake twenty-five minutes, in an oven that is hot enough to brown paper in eight minutes.

**Biscuits.**—Two cups flour, four teaspoons baking powder, one teaspoon salt, two to four tablespoons fat, three-fourths cup sweet milk and water, or all water or all milk. Mix dry ingredients and sift. Work in fat with the tips of fingers; add gradually the liquid, mixing with a knife or a wooden spoon to a soft dough. It is impossible to state the exact amount of liquid required, owing to differences in flours. Toss on a floured bread board, pat, and roll lightly to one-half inch thickness. Shape with a biscuit cutter. Place on buttered pan, and bake in hot oven twelve or fifteen minutes. If baked in too slow an oven the gas will escape before it has done its work, and biscuits will not rise

sufficiently. If sour milk, sour cream, or buttermilk is to be used, use one-half teaspoon of soda to each cup of liquid, and one teaspoon of baking powder.

**P. H. S. GRADUATING EXERCISES FRIDAY.**  
School Is Affiliated With University of Texas, and its Graduates Enter Without Exams.

The graduating exercises of the Plainview High School will be held Friday evening, at the First Baptist Church.  
The Plainview High School is fully affiliated with the University of Texas and the Class A colleges of Texas, and her graduates may enter these institutions in the freshman year without examination.  
Plans have been accepted for the new \$50,000 high school building for Plainview, and bids will be received for construction of the building May 30. The new building will probably not be completed by September, but may be turned over by the contractors during the first term of school.

**POSTPONE "OLD MAIDS' CLUB" AT LIBERTY.**

## Friday Is Last Day of Home Economics Week-- The Cost of Living Interesting Closing Lecture

Miss Rich opened the Home Economics School this morning with a lecture on "The Better Baby and Its Care," outlining and re-emphasizing the plan and campaign of the Woman's Home Companion, which has been made somewhat familiar to the women of Hale County through the activity of Mrs. J. W. Day and Mrs. Farris Frye, of the committee on "Better Babies" contest at the Hale County Fair. Miss Rich began her lecture as follows:

"You have undoubtedly heard of the campaign for better babies which the Woman's Home Companion is conducting. In these campaigns all children are scored by a score card similar to that used for stock. Their defects are pointed out, and remedies are suggested.

"Some three years ago Mrs. Mary Watts, of Audobon, Iowa, attended the Denver Livestock Show. She was impressed with the care and attention given to good livestock, and overwhelmed with the care given to improve cattle, but where was any effort devoted to growing better children? Imbued with the idea that children are of prime importance to the state, she hurriedly walked from the fair grounds, saying to a friend, 'I feel as if I were in the center of a whirlwind that bids fair to take me off my feet.' Mrs. Watts took the first train for the Iowa State House, where the Legislature was in session. There her earnest and enthusiastic appeal for the children of Iowa almost swept the law-makers off their feet, and resulted in a \$75,000 appropriation for the new building on the Iowa State Fair Grounds, the building was to be devoted entirely to the cause of better babies.

"In 1912 the Iowa State Fair held its first baby-improvement campaign. Mothers were urged to bring their children for the physical examination. The babies were not to be judged by their beauty and their dainty clothes, but by their physical and mental development.

"Just as Iowa awoke to its duty, so, in close order, Oregon, North Dakota, New Jersey, and Wisconsin held similar contests. In March, 1913, the 'Woman's Home Companion' saw the value of the better-babies movement, and put this important work on an educational basis. Through the efforts of this magazine, the movement has been made public to the world. This magazine has, furthermore, assisted various organizations in conducting contests by furnishing free literature and prizes, and by distributing an immense amount of printed matter free to mothers who want better babies. This free literature sent out by the 'Woman's Home Companion' includes a standard score card, to be filled out by the physicians after a rigid examination; illustrated cards giving instructions for measuring and examining; leaflets giving instructions to mothers who are anxious to improve their babies; and information on holding contests.

"The past year has seen wonderful progress in this movement. As soon as the people understand it, they are ready for work. Every State in the Union has held contests except West Virginia, Utah, and New Hampshire, and they will soon be in line. The August number of the 'Woman's Home Companion,' 1914, shows the pictures of seventeen babies that scored 'Perfect,' 100 per cent, out of more than one hundred thousand babies reached by medical inspection during the past year. They were scored according to the standard score card. These seventeen babies represent the ideal which every mother would like to realize for her child; and yet the 'Companion' and all right-thinking people consider this magazine's greatest achievement that of helping mothers of babies NOT perfect to correct all possible defects in physical development, diet, and general care, and to give their babies a better opportunity to grow into strong and healthy men and women.

"The greatest number of contests have been held in the State of Washington. That State has had two State Fair contests and local contests in each county. At Spokane, alone, the physicians examined 1,217 children. In New York more than 1,600 babies were examined; it took a large staff of workers three weeks to score all of these babies. In the Southern States, Texas takes the lead in the baby contests.

"Texas stands in the lead of the Southern States in this Baby Conference work. Through its Department of Extension the University of Texas has been exceedingly interested in this work, and has aided in contests held at Pittsburg, Dallas, Beaumont, Galveston, Austin, Denison, Navasota, Indian Gap, Center Point, El Paso, Waco, San Antonio, and Yoakum. More than 3,500 babies have been brought to these Conferences and examined, and much help has been given the babies and parents.

"The most important finding of the Conferences in Texas has been the great prevalence in some localities of trachoma, a chronic disease of the eyes. It is certain that if these cases had not been discovered and treated there would have resulted several cases of blindness and more of impaired vision; and even now, not all will escape with perfect vision, in spite of the early discovery and prompt treatment.

"Among other conditions found and called to the attention of the parents have been seriously defective teeth; the presence of enlarged or diseased tonsils or adenoids; several hernias, and many cases in which the feeding was extremely bad. A report from one particularly poorly nourished baby was recently received, and although it had been but three months since attention was called to the need of a change of diet, and a proper diet prescribed, there had been a gain of ten pounds in weight, and other conditions had also improved.

"A second Conference was held at Dallas this year, and two of the prize-winning babies this year were babies who entered the Conference last year, but because of physical defects were not high-scoring babies. These defects had been pointed out and by following directions given to them the parents had corrected the defects, and the babies had become prize winners.

**Things Worth While for the Baby.**  
Provide training for home-making in your schools.

Give the baby intelligent prenatal care.

Be sure the baby's eyes are treated at birth.

Register the baby's birth. This proves your baby's birthright.

From the start cultivate REGULARITY in eating, sleeping, bathing, bowel movement, and exercise.

Give the baby plenty of fresh air. Keep it out of doors if possible; if not, keep the windows open. The more fresh air the baby gets, the better it will sleep.

Keep the baby's skin active by daily bathing.

Clothe the baby loosely and according to the weather.

Keep all flies away from the baby and its food.

Never use soothing syrups. The soothing effect is produced by harmful drugs.

Stop using a pacifier. It frequently causes deformity of the roof of the mouth. Thumb sucking is nearly as bad.

Give the baby a bed of its own.

Nurse the baby if possible. There is no substitute for breast milk.

If breast feeding is not possible, use clean cow's milk modified under a physician's advice.

Give the baby plenty of cold

boiled water to drink.

Consult a physician if the baby does not thrive. It is easier to PREVENT than CURE.

Wean the baby by the end of the first year.

Feed carefully after weaning. Consult physician and feeding bulletins.

Miss Blodgett's morning lectures on "Labor Saving Devices" was very practical. Her plan for constructing a fireless cooker at an expense of a half dollar was interesting. Especial emphasis was laid and suggestions made on the well arranged kitchen. Excerpts from her lecture follow:

**"Labor Saving Devices.**

"The progressive farmer no longer cuts his grain with a cradle or does all his cultivating with hoe and old-fashioned plow, he has better and more efficient implements for his work. The new farm machinery lightens his labor and increases his crop. How about the housewife? Does she have her labor lightened? Are her important duties of housekeeper and mother made easier, and is her efficiency increased by improved household equipment?

"Not long ago the Smith-Lever Bill was passed by Congress, appropriating funds for carrying on extension work in Agriculture, including the work in the farm home. In order to learn how to wisely spend that part of the money which was to be used for the farm home, the United States Department of Agriculture sent 55,000 letters to representative farm homes as to their greatest needs and best methods of supplying them. Only 2,241 answers were received. Among the suggestions given in these answers were such as these: "provide for farm women better opportunities for domestic science education," "publish more literature and bulletins on home sanitation and health," "send demonstrators to teach right ways of preparing foods"; but most frequent of all was the suggestion "show us some way to do our home work better and without such an unceasing round of back-breaking, water-toting, washing, cooking and cleaning-up from before day until after dark."

"Little attention has been given in the home to the possibility of reducing the labor connected with household duties. The equipment in many of our kitchens stands just where it did thirty years ago, and, because of poor arrangement, makes needless daily demands on the housekeeper's time. It has been figured for one kitchen just how many miles during the year the housekeeper must walk to prepare a breakfast of fruit, cereal, soft-cooked eggs, toast and coffee. According to the figures, she would walk about fourteen miles. The kitchen has been rearranged, and the equipment so placed as to reduce the amount of walking requires to only seven miles—just half.

The stationary furnishings in the kitchen, which are essential to doing the daily tasks, the stove, sink and work table should be placed near each other and most poorly arranged kit-

chens can be arranged to meet this requirement.

The kitchen cabinet is essential in order that the staple supplies used daily in the preparation of food, and the utensils necessary for this preparation be grouped together. A very inexpensive and convenient cabinet can be made from one kitchen table with shelves or cupboard placed above.

"In this cabinet the flour and sugar can be kept in large buckets or stone crocks on a sliding shelf at the left under the table. The small equipment, such as egg beater, strainer, etc., can be placed in the drawer or hung from the bottom of the shelf at the back of the table. Also the small sauce pans and skillet used daily can be hung at the back of the cabinet. Tight, small containers for tea, coffee, rice, baking powder, etc., can be kept on the open shelves. Package foods, bowls, pans, etc can be kept in the upper closet. The knives can be kept in the knife cleat or the drawer.

"Such a cabinet can easily be made in the home by any man handy with tools at a small cost. It greatly reduces the labor in the preparation of the every day meals, and is less expensive than a commercial cabinet.

"Undoubtedly one of the greatest needs in the home is running water. The government has recently published figures which show that many housewives travel from one to two miles a day just to bring in water. The government reports also state that the average farm woman who has no running water in her kitchen lifts during the day in bring in the water, filling the teakettle, removing the water, and so forth, from 700 to 2,000 pounds of water a day. Is it any wonder that the housewives give out?

"Every kitchen should have at least a sink and drain; and, if possible, running water. If there is no city water, the water can be supplied from a small hand pump. The sink need not be an expensive one, but should be of material which does not absorb grease. The sink should have an iron drain pipe leading from it, through which the water can be carried away. The drain pipe should be arranged to empty its contents into a set of drain tiles laid with open joints near the surface of the ground; or be so arranged that the water can be discharged at different times in distinctly different places to prevent excess of water in any one spot. In any system, the water must not be allowed to gather in pools about the drain pipe so as to breed mosquitoes.

"If running water cannot be had otherwise a cistern or large barrel can be elevated outside

the kitchen with a pipe leading from it to the kitchen sink. This tank or barrel should be kept filled by the men with a hand force pump or by some mechanical power. Such a plan can be carried out at little expense beside a few feet of pipe and the labor of building the frame to hold the barrel. Some system of running water should be provided in every home.

"In a climate where hot weather lasts from six to eight months in the year, some form of gasolene or kerosene stove should be provided even in the country where wood is free and the kitchen is already equipped with a wood stove. A kerosene or gasolene stove is quickly regulated, does not heat the kitchen as a wood stove does, and re-

lieves the housewife from the nervous exhaustion following the day's work in an overheated kitchen. These stoves are simple to manipulate and not expensive to run. The kerosene stove is perfectly safe, and the cost of fuel is less than the gasolene, as a gallon of kerosene at 12c and a gallon of gasolene at 20c furnish practically the same amount of heat.

**To Make Fireless Cooker.**  
"The fireless cooker is especially adapted to those foods which require a long slow cooking, such as cereals and tough meats.

"The following description of a home-made fireless cooker: Suggestions for its use are

**FRIDAY IS LAST DAY.**

(Continued from Page Nine.)

found in Bulletin No. 347, 'Meat Its Preparation and aVlue in the Diet.' This Bulletin may be obtained by writing to the Department of Extension, University of Texas, Ausin, Texas.

"This home-made fireless cooker was made at a cost of fifty-four cents. The materials necessary are: (1) One candy bucket; (2) one-quart granite pail; excelsior or hay; newspaper; heavy domestic or canvas; asbestos mat; hooks and screws-eyes.

"See that the bucket is perfectly clean and line the sides and bottom with several thicknesses of newspaper. In the bottom pack about four inches of excelsior or finely chopped hay as hard as it can be packed. Place the granite pail on top of this packing in the center of the bucket and pack excelsior or hay all around it. When this is done pull the pail out of the hay or excelsior carefully, leaving a hole the size of the bucket. Make a lining for the opening left, using the cloth for this purpose. At the bottom of the hole fit a piece of asbestos. This will help to keep the heat from escaping. Next make a cloth covered pad of newspaper and excelsior to fit the top of the bucket, cover the pail and hold in the heat. Make a wooden top also to fit snugly over the bucket. This helps to prevent the cold air from entering the bucket and the heat from escaping. Arrange screw-eyes on the lid and hooks on the bucket with which to hold the lid in place.

"The floor of the kitchen should be covered with a material which is impervious to moisture and grease. A good grade of linoleum is best. This will not require scrubbing, but mopping only. If it is not possible to obtain linoleum, the floor may be oiled. For this finish, the floor should first be thoroughly cleaned, then treated with boiled linseed oil and paraffin. The paraffin is melted in the oil, and the mixture applied, boiling hot, by means of a brush. It is then thoroughly rubbed in. At first it is best to put on two coats. This finish is durable and inexpensive, and makes the floor much better looking and easier to clean. The material for an ordinary kitchen floor would cost about one dollar. Anyone can put it on. The best proportions are 1 gallon of oil to 1 pound of paraffin.

"A stool in the kitchen of a height which will enable the worker to sit at the table, sink, or stove, while working, and light enough in weight to be easily carried from one place to another, will save many an hour's continued standing and many a

backache. This costs less than a dollar."

**RECIPES SALADS.**

*Mayonnaise Dressing.*

2 egg yolks; 1 teaspoon salt; 1 teaspoon mustard; 1 teaspoon sugar; 4 tablespoons vinegar or lemon juice; 1½ cups Wesson's salad oil.

Add mustard, salt and one-eighth teaspoon lemon juice to the egg yolk. Beat with doe beater; add one teaspoon oil, and continue beating. Continue to add oil, slowly beating after each addition. When very stiff thin with a part of the acid. Continue in this manner until all oil and acid has been added. Add sugar.

The oil must be added slowly at first.

*Cooked Dressing.*

One-fourth teaspoon salt, one-fourth teaspoon butter, three-fourths cup thin cream or milk, two tablespoons vinegar, a few grains cayenne.

Mix dry ingredients, add eggs, beat until well mixed, add butter and milk. Cook over hot water, stirring until thickened, add vinegar and cool.

More sugar may be used if a sweet dressing is desired.

*Cottage Cheese Salad.*

I. Pour freshly clabbered milk into a cheese cloth bag and hang it to drip over night. Remove cheese from bag, moisten with mayonnaise dressing and serve on a lettuce leaf.

II. Mix equal parts of cheese and cut up pineapple with mayonnaise and serve in a tomato. The tomato may be cut partly through into quarters and the filling put into the opening. Salt the tomato before adding the filling. Serve on a lettuce leaf with mayonnaise dressing.

III. Mix a small amount of salad dressing with the cottage cheese form it into balls, roll in chopped nut meats and serve in a nest of lettuce with more dressing.

IV. Finely pulverize the cottage cheese, season with salt and press into a green pepper that has had the stem ends and seeds removed. Slice in thin slices and serve on slices of tomato. Place on lettuce leaves and serve with dressing.

*To Serve with Salad.*

*Peanut Sticks.*  
Roll baking powder biscuit dough into thin sheets. Place peanut butter moistened with boiling water in the center. Roll up the edges and bake. Serve with fruit salad.

*Cheese Rolls.*

Cut very thin slices of bread and remove crusts. Serve with layer of grated American cheese

**ALL MEMBERS PLAINVIEW COMPANY SIGN MUSTER**

**NOT A MAN REFUSES TO ENTER FEDERAL ARMY FOR FOREIGN DUTY.**

**TO BORDER WITHIN WEEK**

Company Now Under Direction of Funston and Are Ready to Do His Bidding.

(Special Wire to The Herald.)  
FORT SAM HOUSTON, San Antonio, Texas, May 18, 3:15 p. m.—Every member of Company L, Fourth Infantry, Texas National Guard, under Captain L. O. Shropshire, without exception, signed the muster roll making the entire company eligible for Federal service under General Funston for the balance of their enlistment term. The enlistment of the majority of its members expires November second. Every man was given typhus vaccination, which is being given all the regular army and those mustered in from the Texas National Guard to prevent a recurrence of the trouble experienced in the Spanish-American War. The indications are that the company will be transferred to the border within the week.

Ft. Sam Houston, May 16, (by mail.)—The entire Texas National Guard, numbering between 3,800 and 4,000, is now encamped at Fort Sam Houston Company C, 1st Regiment, from Austin was the first to arrive on the field, and Company K, 4th Regiment, from El Paso, owing to the long distance, was the last to arrive. The aviation field of Fort Sam Houston, located about four miles north of San Antonio, where the militiamen are encamped, is truly a tent city, the tents being evenly distributed over about thirty acres.

The greatest part of the time up to the present has been consumed in pitching camps and getting everything in readiness for regular drill. The different companies have been detailed to smooth the company streets, dig drain ditches around the tents and police the company quarters according to the posted regulations. The guardsmen were given their initial drill Saturday under the direction of commissioned officers, but owing to the incomplete equipment the drill

to which has been added salt, melted butter and a shade of paprika. Roll up sandwich, pin with toothpick and toast until brown. Serve hot with vegetables or fresh salad.

period was short; regular drill commenced Monday and continued daily.

The entire Guard is under the command of Brigadier General John A. Hulen, who has opened his headquarters on the field and is in active charge. His first aid is Major H. E. Stevenson.

General Funston returned Saturday from El Paso where he has been for several days in conference with the Mexican Minister of War, General Obregon. Just as soon as Brigadier General Hulen whips the militiamen into line, they will be turned over to General Funston to be used on the border, if the situation demands their transport to the Rio Grande by that time. However, it has been announced that the militiamen, while they may be required to patrol the border, should the situation demand it, yet, so long as they remain in the Texas Militia, and do not sign the muster roll, they will not be required to perform foreign duty.

**BRINKER ARRANGING CHAUTAUQUA TRAINS.**

J. Brinker, general passenger agent of the Santa Fe at Amarillo, was in Lubbock yesterday arranging for a special excursion from Lubbock, Slaton and points south to Plainview for the Chautauqua next week. Mr. Brinker has also assured J. F. Garrison, president of the Chautauqua Association, that he will give special service from Floydada and Lockney.

Mr. Garrison has arranged for the erection of the big tent on the grounds south of The Herald office, where it was located for the Bryan lecture. The Redpath-Horner Co. will have a tent crew here tomorrow or Saturday for the work.

Many from out of Plainview have purchased season tickets, so have many Plainview citizens bought, but the committee has a very few tickets left, and all who have not bought are urged to do so at once, as all season tickets will be sold at \$3.00 instead of \$2.50 upon the arrival of the Chautauqua.

The committee very much appreciates the heavy sale of tickets which has made possible the coming of this big company of artists, and wishes to thank those who have helped in the effort.

Miss Grabow, who has been teaching in Seth Ward College, left this morning for her home, in Caldwell.

Miss Bessie Blair returned to Amarillo this morning, after a visit with her sister, Mrs. J. F. Duncan, Jr.

PROGRAM HALE COUNTY SINGING CONVENTION.

The program for the Hale County Singing Convention which meets at Norfleet the third Sunday in May, follows:

- Song by President.
Prayer by Chaplain.
Two songs by L. D. Griffin.
Three songs by L. W. Sloneker.
Three songs by Jesse Neil.
Three songs by W. H. Hand.
Three songs by Finis Robertson.
Three songs by Prof. Chas. Smith.
Quartet, arranged by Chas. Wilson.
Three songs by J. W. Gipson.
Three songs by Mr. Handson.
Two songs by Mrs. Nine McComas.
Two songs by W. W. Pinkerton.
Quartet, arranged by Earl Raper.
Three songs by Clay Williams.
Two songs by J. E. Stewart.

- NOON.
Two songs by L. D. Griffin.
Three songs by Chas. Smith.
Two songs by Mrs. Guss Miller.
Two songs by Miss Elmira McComas.
Two songs by Chas. Clements.
Two songs by W. R. Ferguson.
BUSINESS SESSION.
One song by the President.
Three songs by Karl Massey.
We will have other numbers on the

program and special items from Littlefield and Lubbock, Texas, which will be of interest to all. We have written the Quartet Music Company, of Fort Worth, Texas, to send us a representative on that day, and we shall expect them.

We urge that all delegates from each choir will be present at this meeting. We will have some important business to attend to. Several questions will come before the convention. Frank Norfleet assures us that we will have a great time and enjoy ourselves with the good people of Norfleet. L. D. GRIFFIN, President.

A Bell Telephone

Always a Friend in Need
In case of sickness or accident, the doctor can be summoned by telephone in less time than it takes to harness a horse. If he is some distance away, he can give instructions over the telephone that may save a life.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making Every druggist in town-your drug-You Sick and Can Not Sallvate.

Every druggist in town-your druggist and everybody's druggist-has noticed a great falling off in the sale of calomel. They all give the same reason-Dodson's Liver Tone is taking its place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick head ache, acid stomach or constipated bowels. It doesn't gripe or cause in-

convenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. -Adv.

Whenever You Need a General Tonic Take Groves

The Old Standard Groves' Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

**General Methods and Principles of Canning**

**LESSON NO. 27.**

**General Directions.**—Thoroughly wash all utensils before proceeding with the canning processes. Sterilize all jars, rubbers and glasses by placing them in a large kettle or boiler on the stove, covering them with cold water and allowing the water to reach the boiling point and boil for half an hour. Covers of jars should be treated in the same way. Prepare the fruit by careful washing and picking over, paring, etc. The skins of peaches and tomatoes may be loosened by pouring boiling water over them. Weigh both the fruit and sugar, or measure them, if you have no scales. See that the proper heat is maintained through the process. Avoid rapid boiling of the fruit.

Place the jars to be filled with hot fruit upon a cloth that has been wet in very hot water, or in a pan filled with about one inch of the top with hot water. Never hold the jar in the hand when filling with hot fruit. Be sure to

see that all air bubbles are removed from the jars and fill them to overflowing before putting on the tops and fastening them down. Wipe off the jars, and if you use Mason jars, stand them on the tops for a few days, to test the tightness of the rubbers and lids. After filling the jelly glasses, set them aside to cool and cover them with a clean cloth. When cool pour melted paraffin over the top, and when that is cooled, put on covers. Label the jars as you fill them, with the name of the contents and the date of work, before placing them away.

**Canning.—Method No. 1.**—Material cooked before it is put into the jar. This is a good method for berries and fruit that will be used as a sauce. Proceed in the preparation and finish according to the general directions. Cook the fruit gently for half an hour, but you can be the better judge as conditions may differ with your fruit. Use as little water as possible. No sugar is necessary in the canning process of berries, but I like a little added in the beginning, as I think it improves the flavor of the fruit. Use say half a cup of sugar to a pound of fruit.

**Canned Grapes.**—This fruit is now beginning to come in the market, and makes a delightful canned product. It is available to many in the country and costs nothing but the labor to obtain it. Wash well and cook in open kettle with enough water to cover. Just heat through well. If you prefer to eliminate a small per cent of the acid, drop a pinch of soda into the boiling fruit. If soda is used pour off water and add boiling water and cook until tender. Fill jars and seal, with all things well sterilized. Never use a knife or spoon that has not been dipped into boiling water before placing in your prepared jar of fruit. Be careful not to cook grapes too long.

**Beans.**—Select tender beans and can only one kind together. Wash well, put in clean sack and allow them to boil ten minutes in clear water. Plunge into cold water to set the color. Fill jars tight and try to pack with regularity and attractiveness. Pour boiling water over them and place in lukewarm water in open kettle for the hot-water-bath method of canning, if you have not a steam canner. Be sure to see that your jars are tempered. For instance, if you have sterilized your jars in hot water, the beans will not be cold enough to affect them. Have the water into which you place your jars as hot as the jar and contents. Allow to boil ten minutes in the jar, add covers, and allow them to boil for two hours in the hot-water bath. Avoid draft when removing hot jars.

MRS. J. L. LANDRUM.

**LUBBOCK COUPLE GET LICENSE TO WED.**

County Clerk B. H. Towery issued a marriage license Wednesday to E. E. Edwards and Miss Mattie Vaughn, of Lubbock.

**SETH WARD STUDENTS LEAVE FOR HOME.**

The graduation exercises Tuesday morning was the close of the commencement exercises of Seth Ward.

The following students left this morning for their respective homes: Claude Donaldson, Tahoka; Earl Porter, Paul and Wilmer Crum, Tullia; Vergil Canning, to Bovina; Miss Ernestine Bolin, to Blackwell; Miss Francis Turner and John Stover, Tahoka; Homer and Roy Gwynn, Sweetwater; Robert Walls, Blackwell; Miss Alma Kincaid, Post; Miss Georgia Bain, Whiteflat; Stokie Bishop, to Floydada; Misses Clo and Nobie and Lowell Page, to Estacado; Elizabeth Lutrick, to Abernathy, and Roy Formway, to Whiteflat.

Prof. and Mrs. Geo. Henderson went to Tullia for a short visit with their friend M. L. Hamilton before they leave for their home, in Fort Worth. Other teachers and students will leave tomorrow.

Miss Pearl Burkhead and Calvin Kiker visited Seth Ward students Sunday.

**MISS CLEMENTS' PUPILS IN RECITAL.**

The pupils of Miss Bettie Clements gave a recital at the Methodist Church Wednesday night. The program was appreciated by a large audience.

The winners in the contest for the medals were Bernice Bowlin, in the primary grade; Ray Russell, in the intermediate grade, and in the advanced grade Blanche MeVickers was winner.

H. W. Wright, of Quanah, was a visitor in Plainview Tuesday.

Mr. and Mrs. Geo. S. Link, Geo. S. Link, Jr., Clay Smart, Mr. and Mrs. W. B. Scott, of S. ur, were in Plainview Tuesday.

**TUESDAY BRIDGE CLUB WITH MRS. H. W. HARREL.**

An unusually pleasant entertainment of the Tuesday Bridge Club was accorded the members and additional guests by Mrs. H. W. Harrel, of Eighth Street, assisted by Mrs. W. E. Armstrong.

At the conclusion of the games a two-course luncheon was attractively served.

The club member holding the highest score was Mrs. Hugh Burch, and the guest, Mrs. Chas. Saigling.

Besides the members, the occasion was enjoyed by Mesdames Chas. Saigling and Chas. McCormack.

The club disbanded until the second Tuesday in October.

**"HEN PARTY" NETS MORE THAN \$30.**

Over \$30 were received from the "hen party" given on the Court House lawn Tuesday by the ladies of Plainview to provide a maintenance fund for the ladies' rest room in the Court House. The following ladies brought hens, which were sold to the Hotel Ware and the Rucker Produce Co.: Mesdames W. B. Seaman, Geo. H. Hutchings, T. A. White, Weise, Thorp, W. C. Willes, W. W. Kupee, J. W. Tilton, R. B. C. Howell, J. C. Eiring, Fred Weyl, C. A. Workman, C. C. Gidney, I. C. Nations, Thornton Hebrist, J. P. Davis, N. K. Smith, Marshall Phelps, A. L. Bailey, G. W. Hay and Misses Alline and Katherine Terrill. Those bringing money substitutes were Mesdames Jos. Barrett, Robt. Tudor, L. Lee Dye, E. B. Hughes, J. O. Wyckoff, R. A. Wilson, L. L. Wheeler, J. C. Anderson, Dave Collier, L. D. Rucker, W. L. Harrington, R. F. Stewart, W. J. Taylor, M. T. Emerson, R. L. Hooper, L. A. Knight, H. C. Randolph, Myrtle Powell, Hammonds, D. F. Sansom, W. B. Seaman, E. J. Lindsay, A. B. Martin, M. E. Cleavinger, Fred L. Brown, Bonnie Hudgins, Sander, B. H. Towery, W. M. P. Rippey, C. W. Sewell, W. B. Martine, E. F. Williamson, M. F. Gardner, T. P. Whitis, R. W. Brahan, G. Bettle, Miss Gertrude Hunt, miscellaneous, \$1.00.

**MRS. WOOLDRIDGE HOSTESS.**

Mrs. P. J. Wooldridge entertained the Wednesday Bridge Club that afternoon with a beautifully arranged luncheon in honor of Mrs. J. C. Anderson, Jr., and Miss Katherine Brooks. The reception suite and dining room were ablaze with roses.

In the bridge games, Mrs. Chas. Saigling won high score.

**SEVENTH GRADE ON AN "OUTING."**

Tuesday afternoon the pupils of the seventh grade of the Central School, accompanied by Misses Donnelly and Briggs, enjoyed a most delightful outing.

They left school soon after the termination of classes, and went in cars to Pioneer Park. Various games were enjoyed for about two hours, and then the delicious picnic lunches were served.

They returned to town about seven o'clock, somewhat weary but thoroughly happy.

**COYOTTE LAKE HAS LARGE SALT DEPOSIT.**

On one of the tracts to be sold in Plainview, June 13, at public auction, is a portion of Coyotte Lake. Commissioner G. L. Phillips, who has been out to the Hale County school land in Bailey County, brought back with him a box of a white crystalline salt, which seems to be sodium chloride, or common table salt. The sample will be sent away for analysis.

Special rates have been granted by the Santa Fe to Plainview for June 13, on which day the four leagues of land will be sold at public auction. There is much good agricultural land in the body, and much interest is being shown by buyers.

**SCHOOL CHILDREN ENJOY A PICNIC.**

May days are picnic days for school children.

Miss Powell and the sixth grade of Central Building went on a picnic to the three-mile grove Tuesday. They left the school building about 3 o'clock, returning about six-thirty. The ride out to the grove on floats was a delightful feature of the picnic.

A picnic lunch was spread on the grass, which was a real feast to the children.

Miss Addie Davidage, of Paris, Texas; Miss Kathryn Powell and Mrs. S. W. Meharg were chaperones.

**KRESS PERSONAL NEWS.**

Mr. Kerr was drilling a well for the Syndicate on the two sections west of Kress Wednesday. Quite a lot of farmers are hauling grain to Kress this week.

Dr. Ford, of Plainview, was

a business caller west of Kress in his auto Friday.

Robert Rousser and Robert Ormsby went in an auto to Tullia Saturday on business.

Rev. J. H. Bone of Hale Center, will preach the third Sunday at 3:30 at the Methodist Church.

**74 YEARS OF KNOWING HOW**

BACKED BY AN UNQUALIFIED GUARANTEE

**THE WORLD'S TWO BEST TWO-ROW CULTIVATORS**

**The P & O Two-Row Cultivator**

Covers every essential feature for perfect work, ease of adjustment and adaptability of all conditions of soils. The simplest and strongest Two-Row Cultivator made. "It's the way we build them". Frame as strong as a bridge. Axles of improved construction prevents wheel widening in front; make light draft. Fine depth adjustment; each gang controlled independently. Four levers do the work of six on other styles, as the inside levers control the inside gangs independently, and also raise or lower the gangs in pairs. Easy working adjustable foot levers. The wheels can be pivoted alone or in connection with the lateral gang movement. The pressure springs are center hung, insuring proper tension in all conditions of the ground and in any position of gangs. The parallel movement of gangs insures each shovel cutting the proper width and depth. Furnished with any style gang.

**No. 27 2-Row Lister Cultivator**

We make a complete line of DRY-FARMING tools, prominent among which is the No. 27 Lister Cultivator, which has many superior features, consisting of two sets of gangs mounted slidingly on a trussed spreader pipe. Turn table construction evenly distributes weight on the gangs, holding them level and preventing one side from going in deeper. Each gang follows its own row. Roller connection between the gangs and spreader pipe. Gangs can be raised as a unit, or shovels can be raised separately. Frame balances with tongue when raising gangs. Easy change from first to second cultivation. Extra high clearance for large corn, with long shield for small corn. Eight shovel attachments can be furnished when ordered.
