FOR SALE BY PERRY & CRAM

We are presenting to our customers in this issue a large list of lands than we usually use, thinking that perhaps it will serve to give a better idea of values than the short list.

With lands selling as readily as they do, a printed lst is likely to be disappointing for the reason that many of these farms will be gone before our customers can get action.

We want to impress upon our readers that these tracts are only samples of the exceedingly large list that we have of lands all over this part of the country. If you don't see what you want in this list, tell use what you have in mind and what you want to invest and we will try to meet your wants.

Remember that we are the EXCLUSIVE AGENTS for what is known as the PRICE BROTHERS LAND, located Northeast of Plainview, in the WHITFIELD country. There are no finer lands on the Plains than this. It is especially adapted to the growing of WHEAT AND COTTON, and of course will grow any other crop known to the Plains country. We have about 10,000 acres of this, and you can make your selection in tracts of 160, 320 or 640 acres. The prices are right and the terms good. This land has been in One Family for 45 Years, and this is the First Time it has ever been offeered for sale. It is CREAM. Let us show you, and your judgment will tell you what to do.

From other THOUSANDS of ACRES listed with us, we are giving below a few samples. You will be sure to find something in this list that will interest you. We shall only give general descriptions. Select what seems to appeal to you and let us give you the details.

MY OLD KENTUCKY HOME

The sun shines bringht in my old Kentucky home, Tis summer, and the darkies are gay; The corn-top's ripe and the meadow's in the bloom, While the birds make music all the day; The young folks roll on the little cabin floor, All merry, all happy and bright; By'n-by "hard times" comes a-knocking at the door, Then, my Old Kentucky Home, good-night

Weep no more, my lady, Oh, weep no more today; We will sing once song for the Old Kentucky home, For the old Kentucky Home, far away.

They hunt no more for the possum and the coon On the meadow, the hill and the shore; They sing no more by the glimmer of the moon, On the bench by the old cabin door; The day goes by like a shadow o'er the heart, With sorrow where all was delight: The time has come when the darkies have to part; Then, My Old Kentucky Home, good-night.

The head must bow and the back will have to bend, Wherever the dark / may go A few more days and the trouble all will end, In the fields where the sogar canes grow; A few more days for to tote the heavy load, No matter, 'twill never be light: A few more days we will totter on the road, Then, My Old Kentucky Home, good-night.

How Happy Combination of the Two Put End to "Run" on Famous English Bank.

A story is told, with some reserva-

tion, by a London paper, concerning the grandfather of the well-known Quaker peer, Lord Peckover. The bank of which he was a return one time known as that of Gurney mother, accompanied them. Birkbeck, Peckover & Co., he exhibited, within sight of the counter, bags day from a trip to Dallas. full of gold, surmounted by a peck measure also filled with sovereigns. "You see," he explained to the depositors anxious to draw their balances, "that there is enough money for you all, and a peck over." This is said to have terminated the run. Such is the magic of gold, and of humor. One feels by no means certain that stacks of "fivers" would have achieved the same happy result. CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed-Read Her Own Story of Recovery.

aint Rock, Ala.-Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed. suffering a great deal of pain, weak, nervous, depressed. I was so weak, I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since . . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."

If anybody wants to buy a ruined castle, described as "of great historical and romantic history," now is their chance, according to advertisements inserted in the British papers.

It is not exactly modern, dating, as it does, from 1066, and the advertiser states that "considerable outlay will be required to reconstruct it." The purchaser is assured, however, that it reconstructed, "a unique and charming home would result."

Nothing is said about ghosts, but it stands to reason that a castle of this age must have a large and lively flock of such insects. So here's a chance for some of America's millionaires to acquire at small cost a castle-and all that goes with it.

An added inducement is that there is good trout fishing near by, so that when tired of gazing at his unique and charming home the purchaser can rest his mind by going fishing.

British Land Changing Hands.

Land in the British isles is changing hands at the rate of 100,000 acres a week, well-informed real estate dealers estimate. By the end of this year some \$100,000,000 in land deals will nave been completed.

Large estates are being sold, mostly in small lots. One of 10,100 acres in Durham fetched \$430,000 when cut up into 96 farms. Syndicates are getting in their work. One estate, valued at \$500,000 was sold to a syndicate for \$750,000 and the latter disposed of the land to another syndicate for \$1000,-000. Only 3,000 acres were involved.

Tenant farmers are pressing for opportunity to own the land and large landowners are availing themselves of the chance to "get out" at high prices.

Mrs. Dollie Gibson of Hale Center was here this week visiting Mr. and Mrs. C. H. Patton.

S. B. Farris, retired farmer, Plainview says: "My back was sore and lame and ached most all the time. It bothered me mostly when I had to stoop over, as sharp and aching pains would shoot through my back and shoulders. Mornings when I first I could hardly straighten. I felt tired and worn out and had dizzy spells. I also suffered from headacres. My kidneys were weak and the kidney secretions were scanty in passage and bothered me a great deal. I saw Doan's Kidney Pills advertised and bought some from R. A. Long's Drug Store. One box of Doan's cured me of the trouble. I recommend Doan's Kidney Pills highly to all my friends."

Look at the roads for twenty miles around on a Sunday

"HERE isn't any "country" any more. The automobile has brought the most remote settlement almost as close to the center of things as the next county was in the old days.

To hear some tire dealers talk you might think that nobody knew anything about tires except the fellow from Broadway.

That's not the basis we go on.

We give every man credit for knowing what he is spending his money on, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

That's one thing we like about U. S. Tires.

They make no distinction between the small car owner and the owner of the biggest car in the country.

It's all the same to them. So long as a man owns an automobile - large or small -he's entitled to the very heet fire they can give him.

Quality has always been the outstanding feature of U. S. Tires. There's no limit on the U.S. guarantee. All U.S. Tires are guaranteed for the life of the tire.

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

KIRBY L. SMITH Next to News Office Accidents Notably Decreased.

Accidents in the Iron and steel Industry have decreased by more than two-thirds during the last ten years as the result of a movement to enforce safety regulations, according to a report by the bureau of labor statistics. In 1907, the report shows, 245 men were killed or injured out of every 1,000 employed, while in 1914 the accident rate was reduced to 81 per 1,000. A further reduction would have been recorded in 1917 but for the dislocation of industrial processes to meet war needs, the report says.

Hemp Raised by Convicts.

Penitentiary officials at Lansing conducted an interesting experiment on an island in the Missouri river by planting 50 acres of hemp. The Leavenworth Times reports a bumper crop was raised. Experts declare it may be used in making binder twine at the penitentiary plant. The hemp may be substituted for the sisal imported from Yucatan, in making twine. The result would be a big saving in cost to the wheat farmers.—Kansas City Star.
