RAISE MORE HOGS

By J. R. Pfander, Secretary National Duroc-Jersey Record Association.

The past few years have served to prove beyond a shadow of a doubt that the production of livestock is the most important and profitable phase of farming. Not only is this true, but it is now a universally accepted fact that admits no argument. It can be said to the credit of the intelligence of the American farmer that once convinced of the advantages of livestock as a means to increase the revenue derived from his farm and to increase the fertility of the soil, he undertook the increased production of livestock and the results have been such that farming without livestock is a situation that will never again be known to the world of agriculture. Livestock is permanent on every farm and it can be truthfully said that farming cannot be profitably conducted without the production of livestock in connection with farming operations. In nearly every farming community the farmers who have accumulated wealth and who are the forces behind the real accomplishments of the community are livestock farmers.

In an analysis of what constitutes livestock on American farms we are told by figures officially compiled that nearly fifty per cent of the total value of the meat and meat products slaughtered in the packing houses of the United States is derived from the hog. We can present no more telling argument to the American farmer, in our efforts to encourage the raising of more and better hogs than these simple figures. The fact that fifty per cent of the meat products of the United States is produced by the hog, should be sufficient reason to induce all farmers, not heretofore raising hogs, to begin the production of pork.

The hog is primarily the most profitable animal on any farm. No other farm animal matures as rapidly, reproduces as quickly and in as great numbers, or requires as small an initial investment. The capital, labor and equipment necessary to engage in raising hogs is so small that it is within the means of every farmer to be a producer continuous and sure, which insures the farmer the use of money at all times of the year. Growing hogs thus earn quick interest on the principal and enable the grower to realize on the principal which can be re-invested. In other words, money invested in hogs is subject to "quick turnover" and is not indefinitely "tied up." The banker readily appreciates the financial advisability of growing hogs and investigation will show that the pork producer is generally regarded by bankers as a safe risk and is always given bank accommodations. Why is this true? Because the production of pork is profitable and is a forerunner of success and financial independence. Hogs on any farm mean diversified crops, increased soil fertility and increased production, which is a natural consequence of the first two.

The hog is an economical feeder. There is no farm animal that will make greater gains in a given period of time on the same amount of feed than the hog. In other words, the hog makes the most meat in the shortest time with a minimum feed expense. There is no farm product that the hog does not eat and his position as the champion consumer of farm by-products has never been equalled. The hog likewise makes the very best possible use of the pasture, turning into high priced pork, alfalfa, rape, wheat, oats, clover and most any native grasses in connection with other feeds. Hogs cannot be profitably raised on pastures alone, no more than they can be profitably raised on corn or other grain alone but good pasture is often all that is needed to make a balanced ration and in all cases greatly cheapens the cost of producing pork. It should be said that even the best of pasture plus good

corn is not a properly balanced ration for young stock that is being grown out and developed for breeding animals. Such stock should have other feeds that will grow bone, muscle and internal organs and that will stimulate growth and development. Without protein feeds no animal can make growth, much less produce pork at a profit. Hogs that have access to good pasture will invariably do better than hogs confined in close pens. By grazing, hogs secure roots, herbs and sometimes mineral matter that their systems demand, that they would not otherwise get.

A report has reached this country that a woman was killed and eaten on one of the South Pacific islands, because she was a nuisance. If that were the custom in the United States, there would be a few vacant places in the feminine ranks.

Police women in Budapest are to be furnished with rulers with which to measure the skirts of the women. This is done by order of the "Union" of the Societies of Hungarian Women. First thing we know the policemen over here will petition the club women to start a similar measure.

Price Fixing Cost Millions

Washington—Grain dealers of the Southwest, appealing last week to the house agricultural committee for relief from losses claimed to have been sustained through the fixing of wheat prices by the government in 1917, declared that claims for reimbursement already compiled in that section alone exceeded 5 million dollars.

E. E. Clements of Waco, Texas, spokesman for the dealers, charged that the action of the food administration in fixing the price below the market value was "indefensible." On the date the minimum figure of \$2.20 a bushel at Chicago was promulgated, wheat, he said, was selling in many markets at \$2.85 and even higher.

PRAIRIEVIEW

June 20.—The farmers are very busy this week as harvest is in full swing, and the machines can be seen and heard from all sides.

Earl Raper of Halfway is in this community this week harvesting his wheat.

Bro. Ingle preached a very interesting sermon Sunday evening. He will begin a meeting here the first Sunday in August. We hope people will arrange their work so they can give their time that week to the service of God.

A singing class was organized Sunday afternoon. John Funt, president; Clifford Nations, vice president; Miss Gertrude Baty, secretary; Miss Alma Hudgins, organist; Miss Mary Lee Baty, assistant organist. We hope all the people will come and take a part for the more we have the more interest we have.

Sunday school at 1:00 o'clock ever Sunday morning. Bro. Ingle preaches ever first Sunday in the afternoon at 3 o'clock and Bro. Britain preaches on the second Sunday evening at 3 o'clock.

Mrs. R. L. Williams of Plainview is visiting her mother, Mrs. M. L. LeMaster this week.

Mr. and Mrs. Dorset's baby was very sick Sunday. We hope it is better by now.

Miss Alice Williams and Mrs. Henry Greenhaw is on the sick list this week.

HALE CENTER

June 20.—Among Plainview visitors from Hale Center Tuesday were Dr. and Mrs. Underwood, R. W. Hammond and sons, W. T. and Howard, Clyde Whitacre, Mr. and Mrs. C. C. Sanders, Mr. and Mrs. Guy Whitacre, Grady and Maude Burson and C. McGee.

The Needlework Club was very pleasantly entertained at the pretty country home of Mrs. J. F. Triplett, Wednesday afternoon.

Mrs. Henry L. Moon and sister, Mrs. R. I. Moon and little niece Mary Alice Phillips went to Plainview Wednesday afternoon to spend a few days with the former's daughter, Miss Luella Moon.

The Kress base ball team crossed into our boys here Wednesday afternoon. Score being 5 to 3 in favor of Hale Center.

A jolly bunch of young ladies enjoyed a slumber party at the G. H. Bryant home last Thursday night. From the reports there was more merriment than slumber at any rate all report a joyous time.

Wednesday night, Mrs. R. F. Alley and daughter, Mrs. Fred Fish, entertained friends at "42" and "84". A very pleasant evening is reported.

Mr. and Mrs. Geo. Yates entertained a few young people Friday evening.

Miss Evelyn Marshall was hostess to a number of young ladies at 6 o'clock dinner Saturday.

To "Air the Great Thirst"

New York—One-third of a million persons have asked for a place in the Fourth of July parade here in protest against prohibition.

The parade of protest against the eighteenth amendment originated in the mind of a plain citizen here who wrote "a piece for the paper" about it. The next day the postman staggered up to that citizen's residence with twenty-seven thousand letters of acceptance of the general invitation to participate. Now the number has reached 325,000.

Prof. Edwin O. Excell Dead
Chicago—Prof. Edwin O. Excell, 69 years old, evangelist, choir leader and publisher of religious song books, died at a hospital Saturday, after an

No other phonograph can do it!

No other phonograph even dares the test which the New Edison underwent Monday, June 13th, before a large audience at the Baptist Church.

The fact is something for you to think about.

For,—the test of comparison is the one phonograph test which means anything. It is the one way in which a phonograph can prove its realism. At the same time, it is the most drastic of phonograph tests. To sustain it, requires absolutely perfect realism,—no less.

Monday, June 13th, the New Edison stood by Helen Davis' side in the Baptist Church. If you were there, you heard the living

voice and the RE-CREATED voice brought into direct comparison. You know that there was no difference between the two voices. You heard Sibyl Sanderson Fagan make a similar test with her whistling selections. You know that there was no difference between the original performance and its RE-CREATION.

By this wonderful performance, the New Edison has placed itself apart from all other phonograph and talking machines. It alone has dared the drastic test. It alone has proved, concretely and conclusively, that it gives you the living performances of great artists.

The NEW EDISON

"The Phonograph with a Soul"

Any Official Laboratory Model you buy in our store will positively sustain the test made at the Baptist Church. We will give you our guarantee to that effect.

Come in and hear this instrument in some

further tests of its realism. Learn that you can have an Official Laboratory Model of your own, on very small cash outlay. We will make a gentleman's agreement with any music lover.

McMILLAN DRUG CO.

PLAINVIEW, TEXAS

Do You Want a Certificate of Authenticity?

Every one who selects his Official Laboratory Model now, receives one of these handsomely engraved documents, which certifies over the signatures of Helen Davis and Sibyl Sanderson Fagan that such instrument is the equal, in every respect, of the instrument used in their test. The artists have personally inspected all the Official Laboratory Models in our store.

Illness of more than six months.

Prof. Excell, who was a member of the Methodist church was for twenty years associated with Sam Jones, the Georgia evangelist, serving as choir-leader. In 1881 he began publishing hymn books that soon attained wide circulation in Protestant churches throughout the world.

Home Brewing on Decline

Washington—Home brewers used up more than sixteen thousand tons of raisins in 1919. W. M. Griffin, president of the California Associated Raisin Company, estimated in giving a senate subcommittee his views on the pending bill to authorize collective bargaining by farmers.

He placed the raisin grape crop of 1918 at one hundred sixty-seven thousand tons, and of 1919 at one hundred eighty-three thousand tons, the difference, in his judgment, representing demand from home brewers.

This demand now is decreasing, he added, the "hobby" for home brewing apparently having worn itself out to some extent.

Idle Freight Cars Reduced

Washington, June 21—Idle or surplus freight cars were reduced 82,000

within the past month, according to reports received by the car service division of the American Railway Association on June 8, the total number of cars in excess of current freight requirements was 389,526, as against 471,922 on May 8, it was announced.

DO YOU KNOW?

That Texas has a population of 4,663,228?

That she has 435,917 farms? That she was the first in the sisterhood of states in aggregate crop values?

That the hypothetical value of these crops for 1920 was \$727,400,000?

That Texas cotton crop alone was 4,130,000 bales, valued at \$277,200,000?

The United States government has proposed to the Mexican people that the two nations enter into a treaty of commerce and amity such as will stabilize their relations and terminate the protracted period of mutual distrust.

Everybody's spending money shrank last year according to the monthly circulation statement issued by the

CYLINDER GRINDING

We do cylinder and crankshaft grinding by the same method as used by factories. And with accuracy and finish second to none.

Don't put new pistons in your motor without having your cylinders reground. You will then have new true cylinders.

If we grind your cylinders and fit your pistons you will get the same life and efficiency that you would get from a new motor.

Remember that grinding is the only method used successfully today to finish fine machine and tool work. Our new prices on this work will interest you.

AMARILLO WELDING & MACHINE WORKS

ATTENTION

We will be glad to meet our friends in our new location in room 8 over Third National Bank. Come in and list your property with us. We are expecting some buyers from the east soon, if you have a bargain, see us.

Do you want a good suburban home? We have two worth the money and can handle a good car on each of them as part payment. One good five room house, 75 ft. east front, good neighborhood, only \$3250.00. This is a bargain. Better see us at once.

We have three quarter sections, that are worth the money, for sale and can handle a home in Plainview on each of these; also have a good home to put in as first payment on a half section. What have you to offer?

160 acres of as good land as is to be found in Hale county at \$35.00 per acre with \$1600.00 cash, balance 1 to 5 years at 6 per cent. This is a bargain, not a foot of waste land, and in 1 1/2 miles of good two teacher school.

Several black land farms to exchange for Plains lands. Also good lands to trade for income property. Give us a list on your lands.

Sloneker & McClinnish

PERSONAL MENTION

Leslie Randolph is visiting in Amarillo.
Mrs. Ray Ivey is spending this week in Amarillo.
Miss Wynona Guest is spending this week in Lubbock.
E. E. Monzingo of Sweetwater was in Plainview yesterday.
Edgar Day, Buick Salesman from Amarillo was here Wednesday.
Mr. and Mrs. J. R. Lockhart of Ft. Worth are visiting relatives.
Mrs. W. T. Covington and children returned Wednesday from Sonora.
Miss Lella Bryan of Abilene is here visiting her sister, Miss Mary Bryan.
Mrs. Minnie Heeves attended the Commencement exercises at Baylor University.
J. G. Daugherty has returned from Bell county, where he has been visiting relatives.
Gamaliel Graham came in this week from Leray to visit his parents, Mr. and Mrs. L. Graham.
Miss Mamie Thomson, head milliner

for Burns & Pierce, has gone to Mississippi to spend her vacation.
Robert Gordon, traveling salesman for the South Plains Monument Co., left this week for Oklahoma.
Mr. and Mrs. Frank Neal and children of Tyrone, N. M., are here visiting Rev. J. H. Neal and family.
Vernon Lowery, who has been visiting relatives in Plainview has returned to his home in Hartley.
Miss Clara Randolph of Lockney was here this week, the guest of Misses Emma and Ethel Stevens.
J. G. Mayben of Fort Worth, traveling auditor of the Southwestern Telephone Company was here the first of the week.
F. W. Vandersloot of St. Joseph Mo., is here looking after the harvesting of his wheat on his farm nine miles north of town.
Rev. G. I. Brittain, Mrs. Brittain, Miss Geraldine Marrs, Homer Minor and John Austin, are attending the Baptist Encampment near Canyon.
Misses Pansy and Dorothy Posey of Lubbock, who spent last week at

the guests of Mrs. E. O. Nichols and Miss Wynona Guest have returned home.
Mrs. R. A. Helfenstine and sister, Miss Mary B. Hood, are in Amarillo this week visiting relatives and making preparations for moving to that city in the near future.
Fred Watson of Runningwater who underwent an operation last week at the Plainview Sanitarium, is doing well, but will not be able to return home for several days.
Mr. and Mrs. D. C. Yanger, former residents of Otton have returned to the Plains country, after a stay of two years in California. They have rooms at the home of Mrs. A. B. Roberts on Galveston street.
W. E. Patty has been in Canyon this week.
Allison Chambers spent a few days in Canyon this week.
J. P. Flake underwent an operation yesterday for appendicitis.
A. B. Martin returned this morning from a business trip to Memphis.
Mrs. Harold Knupp of Amarillo came in this morning to visit her parents, Mr. and Mrs. S. P. Brown.
Marion Howard of the Plainview Steam Laundry, in Galveston this week, attending the Laundrymen's Convention.
Mrs. Clyde Garrett and Mrs. Milton L. Lawrence and their children will come in Sunday from Eastland to visit their parents, Mr. and Mrs. Sam Day and their sister, Mrs. R. E. Sykes.

ANCHOR

June 22.—This community was visited with a severe wind and lightning followed by a general rain Monday evening about 6 o'clock, which did quite a bit of damage. It killed several head of cattle for Henry Carr, tore limbs from our trees, blew a brick flue from the residence in which Mrs. Leckliter lives, and other little minor damages.
Frank Siminton was in Hale Center Tuesday on business.
Mrs. W. O. Ball was in town Monday on business.
The little 2-year-old son of Mr. and Mrs. David Barrington is quite sick.
Mrs. S. E. Leckliter and daughter, Ruth and Vesta, were in Hale Center Tuesday, for materials to rebuild the flue which the wind blew down Monday.
The rain was a drawback for our growers, but good on our row stuff. The replanting is about over and everything looking good.
W. E. Pescal returned home Saturday from his trip to Chicago and Calumet, Mich., some four or five weeks ago to be at the funeral of his father. He made the trip back in an auto to Childress, where he struck the recent rains and mud. There he took the train for home and left his car. Will Malay, who was making the trip with

him to see for himself what kind of a country the stake Plains of Texas were like. His father was here visiting his daughter last summer and was well pleased with our country.
Our Sunday school was a blank Sunday, as our superintendent failed to get there and our assistant is just recovering from a spell of sickness.
CATTLE LOANS TO BE AVAILABLE IN FEW DAYS BELIEF
Chicago, June 22.—Incorporation of the Bankers' Livestock Loan Corporation, the fifty million dollar livestock loan pool, will be completed within a week, according to plans outlined yesterday at a meeting of New York and Chicago bankers here, it was learned today. It is expected that the corporation, the capital of which will be subscribed by banks throughout the country, will be in a position to function shortly after the subscription list is closed.
M. L. McClure, member of the board of directors of the Federal Reserve Bank of Kansas City, will probably head the corporation as executive manager.
He practically agreed to assume this position following the meeting yesterday. Management of the corporation will be vested in a board of directors elected by the subscribing banks.
Details of the management, however, will be in the hands of an executive committee consisting of five Chicago representatives.
Operation of the corporation is expected to afford immediate financial relief to the livestock industry of the United States.

TWO SOLDIERS KILLED IN FIGHT WITH BANDIT BAND

Laredo, Texas, June 22.—Two soldiers from the garrison at Nuevo Laredo were killed and four others wounded in a fight late yesterday near Huichilito with a force of seventy-five bandits under the command of Col. Delgado and Luis Manero, according to reports received here today. The bandits were said to have crossed the Rio Grande the day previous. Their casualties have not been ascertained.
With the troops reinforced by others from the Nuevo Laredo garrison in close pursuit of the outlaws who are reported to have fled in the direction of Rio Salado, news of another encounter is momentarily expected, the reports added.
A bandit captured during fighting between troops and outlaws Monday, was executed this morning after he refused to give information concerning the personnel of the band and its movements.

USED HOGS AS SCAVENGERS

Charles Dickens Told of Garbage Removal Scheme Practiced in New York in 1842.
Just how the city is going to collect and dispose of all the refuse that has accumulated in the streets while the collection wagons have been unable to make their rounds is worrying the city's officials. But they will not dispose of the garbage by the method that was in vogue 80 years ago. Hogs in those days, remarks the New York Evening Sun, were turned loose in the streets to eat the refuse. They did not belong to the city, but they cleaned up nevertheless.
Recently many cities throughout the United States have established hog-feeding farms, on which the hogs receive city refuse. The city gets rid of the garbage, the hogs turn it into pork and the city and the contractor make a profit. But in the olden days of 1842, as the story is told by Charles Dickens in his "American Notes," the hogs were simply turned loose to find a living in Broadway and the other streets of the American metropolis.

TROUBLE AHEAD.

"Doesn't that annoy you?" asked the visitor, as Mr. Cobble carefully turned his fliiver to one side of the road and let a big car whirl past in a cloud of dust.
"Nope, it don't bother me none to speak of," answered Mr. Cobble, with a chuckle. "There's a ramshackle bridge down th' road a piece. I know all about it, but th' feller in that car don't know about it an' he's liable to be singin' mighty small when we get to him."—Birmingham Age-Herald.

NOT SERIOUSLY TROUBLED.

"Did you hear about that French war bride who had nervous prostration because of the high cost of living and American extravagance?"
"Yes, but she's only one among several thousand. All the others seem to be bearing up remarkably well, considering how much we've heard about French thrift."—Birmingham Age-Herald.

ODE TO THE GIRL

Little girl, you are so small,
Don't you wear no clothes at all?
Don't you wear no shimmey shirt?

HARVEST PRICES

Below we quote a few prices for the benefit of the harvesters over the Plainview country, to show them that they are losing money if they are not buying their supplies from us.

- | | |
|--|-------------------|
| 48lb. sack White Crest Flour | \$2.75 |

"WE SELL FOR LESS"

Don't you wear no "peit" skirt?
Just your corsets and your hose—
Are those all your underclothes?
Little girl you look so light
When I see you in the light.
With your skirts cut rather high
Won't you catch a cold and die?
Aren't you afraid to show your calf?
It must make the fellows laugh.
Little girl what is the cause?
Why your clothes made of gauze?
Don't you wear no undervest
When you go out fully dressed.
Do you like those peek-a-boos.
'Steard of normal underclothes?
Little girl your 'spenders show
When the sunshine plays just so.
Don't you see your 'tinted flesh
Thru your thinnest gown of mesh?
Is it modest do you s'pose
Not to wear no underclothes?
I can see way past your throat
To a region most remote;
Taint my fault now don't suppose
Why not wear some underclothes?
Little girl your socks have shoals
Of those tiny little holes;
Why you want to show your limb
I do not know; is it a whim?

Do you want to catch the eye
Of each fellow passing by?
Little girl where is the charm
In your long uncovered arm?
And the V behind your neck,
Is it for the birds to peck?
Little girl I tell you those
Are not as nice as undervests.
Little girl now listen here:
You would be just twice as dear
If you'd cover up your charms—
Neck, back, legs and arms.
I'd take you to see some s'ows
If you'd wear some underclothes;
But no lover—goodness knows
Wants a girl "sans" underclothes.
Little girl your mystery,
Loving charms and modesty
Are what makes us fellows keen
To possess a little queen.
'Spose I wore some harem pants,
Or no shirt like my aunts,
Or a ringlet through my nose—
They'd arrest me don't you s'pose?
I must wear a coat of mail,
Clothed from head to big toe nail;
I must cover up my form,
Even when the weather's warm.
—By "One of the Boys" in the Hart-
ford Day Spring.
