WHAT HAS BECOME OF THE SPEED LAWS?

The Plainview sanitarium is filled with patients, all of them suffering, some of them nervous and made more so by the constant passing of cars and trucks at break neck speed.

What has become of the speed laws and their enforcement?

From the abundance of flies now swarming in Plainview some people must be cultivating the breed and encouraging them to increase and multiply.

Burn all refuse, keep food covered and screens closed and there will be fewer flies to bother your neighbors and produce an epidemic of sickness.

Only two more days to obey the mandate of the City council in regard to cutting the weeds in Plainview.

The recent rains have caused them to grow in rank luxuriance on all the vacant lots and along the sidewalks.

Unless the weeds are burned after being cut, the decaying vegetable is likely to produce sickness and death.

If the editor of the News has any adverse criticism of Mexican politics he is going to wait until he gets back on this side of the Rio Grande to make them.

We trust that our friend, Jess, will return home safely and without starting in any revolutions.

Hijackers, porch climbers, and other robbers would find their professions unprofitable if they only secured bank deposit slips instead of vash.

HIS OWN FAULT

"By Jove, Isabel, when I see by my account that the car has cost us over a thousand this year, I get cold feet."

Wet shoes should be stuffed with paper. This will absorb the moisture and prevent the shoes from getting hard.

NEW TEXAS COUNTY HAS SMALLEST COURTHOUSE

Littlefield, Texas, June 23.—Hockley county, the most recent county in Texas to be organized, has the distinction of having the newest and smallest courthouse in the State, possibly in the United States, and most probably in the whole world.

The county was organized in February of this year. This little building was erected as a temporary cover for the important records.

The new county seat has another distinction in that it has no name. Hockley City was chosen by the citizens, but the Department at Washington refused to grant a postoffice with that cognomen.

Cure for Snake Bites

Coleman, Texas, June 18.—Having seen so many accounts of snakes biting people, thought I would give a first aid remedy that might be the means of saving someone's life.

Take the yellow of an egg and stir in salt to make a paste, spread on a piece of cloth, and add few drops of turpentine. Bind to wound and change each two hours.

I have known both man and beast cured of rattlesnake bites that looked hopeless.

M. J. WRIGHT, et al vs. B. L. RAY. No. 1964 in the District Court of Hale county, Texas, August term, A. D. 1921.

To the Honorable R. C. Joiner, Judge of the said court:

Comes now B. L. Ray, whose residence is Bandera County, Texas, here in after called the plaintiff and complaining of M. J. Wright, whose residence is unknown, and the unknown heirs of M. J. Wright whose residence is unknown, hereinafter called the defendants, and for cause of action against the said defendants, this plaintiff respectfully represents to the court as follows:

1. On or about November 1st, 1916, this plaintiff was the owner entitled to lien in favor of State of Texas for original purchase money, possession and lawfully seized in fee simple, of a tract of land herein after described, situated in the County of Hale, State of Texas, holding the same in fee simple title, and then and at all times since that date, and is now owner in fee simple of the said land and is now entitled to the possession and use of the said property, that afterwards, to-wit:

2. On or about the 1st day of February, 1921, the defendants unlawfully entered upon and dispossessed plaintiff of the said premises and unlawfully withholds from this plaintiff the possession thereof to his damage in the sum of \$5000.00. That the premises so entered upon unlawfully withheld by the defendants from plaintiff are described as follows: Known as Southwest 1-4 of survey 8, block C-4, certificate number 58 issued to the L. & S. V. Ry., company, and containing 160 acres of land, more or less in Hale county Texas.

The chain of title of this plaintiff as follows: Certificate of purchase, State of Texas, to W. M. Duvall, date 7 1906. Recorded in Book one, page 78; Deed Record Hale County, Texas.

Proof of Deaths of W. M. Duvall and Heirships

Proof of heirship, Lee Duvall, affiant, Zoe Duvall, Mrs. S. L. Stout and Myrtle Ship, heirs of W. M. Duvall, deceased; Date 22 day of December, 1906. Filed for record Jan. 1st, 1907, recorded in book 14, page 356 of the Deed records of Hale County, Texas.

Partition Agreement. Lee Duvall, Myrtle M. Ship, Mrs. Zoe McCance (Duvall) joined by her husband, Mr. E. O. McCance. Filed for record March 2, 1907, recorded in book 14, page 460, deed records of Hale County Texas.

Quit Claim Deed. G. W. Stout, Mrs. S. L. Stout to A. I. Frame, date 14th day of September, A. D., 1907, filed for record October 5, 1907, book 14, page 592, Deed records of Hale County Texas.

Warranty Deed. A. I. Frame to E. G. Thompson, date July 20, 1914, filed for record Dec. 15, 1915, recorded in book 36, page 228, Deed records of Hale county Texas.

Warranty Deed. E. C. Thompson to G. S. Ballard, Jr., date August 10, 1914, filed for record, Dec. 13, 1915 in book 36, page 228 Deed records, of Hale County, Texas.

TEXAS.

Quit Claim Deed. G. S. Ballard, Jr., to Mrs. E. T. Burch, date Sept. 27, 1916, filed for record Oct. 6, 1916, book 38, page 198, Deed records of Hale County Texas.

Warranty Deed. Mrs. E. T. Burch joined by her husband, R. E. Burch, to B. L. Ray, plaintiff herein, date Nov. 1st, 1916, filed for record Nov. 25, 1916, recorded in book 38, page 537, Deed records of Hale County Texas.

This plaintiff further represents to the court that the said defendants are asserting some claim of title or color of title to the said property, the character and nature of the said claim not known to this plaintiff.

Plaintiff further says that he and those whom under and is claiming the said land have held and used, occupied and paid taxes on the said land for a period of more than five years, and by virtue school land of warranty deed, duly recorded, and as hereinbefore set out. He has had peaceable, continuous and adverse possession of the said land, the tenants herein above described; and enjoying and using the same and paying all taxes thereon and for a period of more than five years prior to the filing of this suit; and this he is ready to verify.

Wherefore this plaintiff prays the court that the defendants be cited by publication as required by law, and that on final hearing this plaintiff have judgment against said defendants for title and possession of the said land and for all cost in this behalf expended for all other and further relief both legal and equitable as the court deem this plaintiff is entitled to put up on the facts developed at the trial of this cause.

M. J. BAIRD, Attorney for Plaintiff.

STATE OF TEXAS, COUNTY OF HALE.

Before me the undersigned authority on this date personally appeared M. J. Baird attorney for B. L. Ray, and being personally and well known to me and being duly sworn and upon his oath says that the place of residence of defendants named in the above styled case is unknown to him.

M. J. BAIRD, Affiant.

Subscribed and sworn to before me, this 25 day of June, A. D., 1921. Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Plainview, Texas, this, the 28th day of June, A. D., 1921.

WOMAN WIELDS GAVEL IN HOUSE FOR FIRST TIME

Washington, June 24.—For the first time in history, according to official records, a woman presided today over the house of representatives, Miss Alice Roberson, a Republican member from Oklahoma, occupying the chair for about ten minutes.

She was greeted with applause and cheers when Representative Walsh, Republican, Massachusetts, who was presiding in the absence from Washington of Speaker Gillett invited her to wield the gavel.

The roll was being called at the time on a resolution providing for the creation of a commission to represent the United States at the Peruvian centennial celebration. Somewhat embarrassed, but in a clear voice, Mrs. Roberson announced the vote and relinquished the chair before any member had occasion to address her as "Miss Speaker."

Lightning Hits Ford Garage
Saturday afternoon, about 3 o'clock lightning struck the southwest corner of the Ford garage, at the top. Outside of the damage to the corner, no other bad effects were felt. The workmen in the garage state that while they felt the electricity in the air it was not strong enough to effect them extra much. However, all the fuses and switches in the garage were burned out.—Tulia Herald.

John Ralls of Ralls, Texas, closed a deal last week for a \$35,000-acre ranch near Tatum, U. M., trading considerable of his land near Ralls, the bigger part of the consideration being cash, however.

M. David Patterson of Silvester, Texas, died last week. He was a brother to Mrs. J. W. Tatum of this city.

Some of the lamp posts in the city are still uncared for and unplanted. Can't some of the club women in the town undertake the care of some of the posts.

Citation By Publication

THE STATE OF TEXAS, To the sheriff or any constable of Hale county—GREETING:

You are hereby commanded that you summon, by making Publication of this Citation in some newspaper published in the County of Hale if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, William T. Alspach, Edwin S. Alspach, and Susie A. Alspach and Kate C. Alspach individually and as executors under will of Sybilla Alspach, residents of the State of Texas, and N. H. Wilson, whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the court house thereof, in Plainview on the 1st Monday in August, A. D. 1921, same being the 1st day of August, A. D. 1921, then and there to answer a petition filed in said court, on the 25th day of June A. D. 1921, in a suit on the docket of said court No. 1961, wherein J. W. Nethers and Nick Alley are plaintiffs and N. H. Wilson, William T. Alspach, Edwin S. Alspach and Kate C. Alspach and Susie A. Alspach, individually and as executors under will of Sybilla Alspach, are defendants. The nature of the plaintiffs demand being as follows, to-wit: Suit on two notes executed by N. H. Wilson on the 21st day of June, 1916, with interest at 6 per cent per annum, interest payable annually, all past due interest to draw 6 per cent, said notes providing for 10 per cent attorney fee on principal and interest, one of said notes being for twenty nine hundred and fifty three and 20/100 dollars, payable to J. W. Nethers, the other for seven hundred and sixty five and 80/100 dollars, payable to Nick Alley, both notes due June 21st, 1921, interest running from July 1st, 1916, all interest having been paid to June 21st, 1919; plaintiff alleges that said notes were executed at same time as part of same transaction and as part of the purchase money for the Northwest quarter of section No. 19, in block A-1, certificate No. 3-487 issued to the G. C. & S. F. Railway Co. and being in Hale County Texas; that said property was conveyed by J. W. Nethers to N. H. Wilson by deed dated June 21st, 1916 and in said deed and in each of said notes, a lien was retained to secure the payment of said notes, which notes are alleged to be of equal rank and neither subordinate to the other and that lien on said land was given and retained at same time to secure payment of said notes according to their tenor and effect; that said notes have been placed in the hands of an attorney for collection and plaintiffs have promised to pay said attorney the full sum of 10 per cent on principal and interest provided for in said notes as attorney fees, which sum is alleged to be reasonable. AS SARAH UNDERSTOOD IT

Colored Cook Had Her Own Idea of Arrangement Which the "Missus" Had Made.

In a certain city of the South the negro servants for the most part go to their own homes at night. In the case of the cook of a clergyman's family, she not only does this, but frequently arrives at the rectory at too late an hour to prepare breakfast. This sort of thing occurred so often that the pastor's wife informed the cook that, for each breakfast missed, there would be a reduction in cook's weekly wages. Passively Sarah assented to this.

It was not long thereafter that the mistress heard this conversation between the servant next door and the delinquent cook:

"Seems to me 'dat yo' all gits to work mighty late."

"I gits to work when I gits ready."

"How yo' all manage 'bout breakfast?"

"Oh, I pays de missus to cook de breakfast."

ANYWAY, HE HAD AN EXCUSE

How Small Boy Solved Difficulty of Making Embarrassing Explanation to the Grocer.

Little Joe, age five, was sent to the bakery for some ginger snaps. He came back with pickles that he had obtained at the grocery. Whether this was because he liked pickles rather than ginger snaps just then has not developed.

"Joey," said his mother, "you go right back with those pickles, get the money and go to the bakery and get ginger snaps."

The grocer tells the story. He says Joey came in with eleven pickles and said:

"Muvver cated one of them and didn't like it. I want my money back." Whether he ate the pickle or threw it away is not known, but apparently he wished an excuse for returning them and figured one out for himself.—Indianapolis News.

SAVING CAR FARE.

A downtown dairy lunch had been having very good sales on a special sandwich, relates the Indianapolis News. It was just a sliced hard-boiled egg and ham between two pieces of bread, but it looked good. No one had ever questioned the value of it, so many paid 20 cents apiece for the sandwiches very willingly.

But one day a waiter noticed that a girl who had been in the habit of buying one every day at lunch, was buying just a plain ham sandwich which was just 10 cents and a hard-boiled egg which was 5 cents. And as she sat down at the table where there were a number of other girls, she said: "Here's where I save my carfare home tonight by slicing an egg."

"SICK WITH LOVE."

Father was giving the fair young daughter a lecture about her beau. He exclaimed, "Does he know who pays the light bills? Doesn't he know enough to go home at the right time?"

The daughter replied, "Yes, he knows enough to go, but he was sick last night."

With that, father started it again. "Don't tell me that a big, husky fellow like him was sick. What on earth was the matter with him?"

As the fair young daughter started for the door, she sang back, "He has heart trouble."—Indianapolis News.

KNICKERBOCKERED GOLFERS.

"How's your golf club getting along?"

"Splendidly. Some of our women players have started wearing knickerbockers."

"That, of course, adds to the interest of the game."

"Yes, and to the excitement. When they drive into you nowadays you don't know whether to grin politely or swear at 'em."

ANXIOUS TO PLEASE.

"It's like this, Mizsus Oggy," explained the proprietor of the Tote Fair store at Tumbinville, Ark. "This yur cussed drummer has just called me a liar. Would you druther I'd wait on you now and mebby give him a chance to apologize and back out, or would you prefer to see the fight first and trust to luck that I'll be able to wait on you afterward?"—Kansas City Star.

LINDSAY'S IDEA OF RUSSIA

Peter the Great, According to This, Was Unquestionably a Two-Sided Character.

Muscovy! I know little of Muscovy, except that there once lived Peter the Great, who was Jack the Giant Killer and the Giant in one, writes Vachel Lindsay in the Dial. He had a tremendous black mustache, like the villain in a Laura Jean Libbey novel. Yet he ruled like King Alfred of England. I know that he fought all the tribes of India, China and Japan to a standstill and that, personally, he could whip his weight in wildcats after sitting up all night reading the Bible and eating boiled elephant's foot and drinking like a hole in the sink.

Peter the Great had a church full of the bones of all the saints I never heard of and mass was said there so often that incense poured out of the front door and made the trees on that street bloom in winter, and the central pinnacles of that church stretched up in the form of a great hand that would grab the sun at noontide and squeeze flaming hearts' blood from it for the snow to drink. And wherever that cataract touched the snow there sprang up cossacks, cossacks, riding hell-bent, with their loves on their saddlebows or beside them, cossack amazons.

FIRE HORSES HONORED.

Sentiment is not entirely a thing of the past, for not long ago, in a city where the fire apparatus, drawn by splendid, daring animals, was to be supplanted by motor service, the event was celebrated in this fashion: The city commissioners and officials of the fire bureau gathered at the station house, in company with hundreds of the animals' friends and admirers, as, with pomp and ceremony, the horses made a final dash before being placed in retirement. There, with bared heads, the crowd watched the five veterans in the service, Dave and Rosy with truck 4, followed closely by Dan, Wink and Hank pulling old Engine 7, as they made their last spectacular runs.—New York Herald.

DIED IN BATTLE LONG AGO.

Fifteen skeletons have been discovered at Wellington Hill, Eastbourne, England, during excavations for road widening. An iron dagger was also found. It is thought the remains are those of warriors buried after the battle of Hastings in 1066. The hill is situated near Pevensey bay, where William the Conqueror landed. Twelve years ago, when similar discoveries were made, daggers were found in ribs and spearheads in skulls.

COST OF TYPHOID FEVER.

The recent epidemic of typhoid fever at Salem, Ohio, in which there were 850 cases and 50 deaths, cost approximately \$450,000, according to the Journal of the American Medical Association. The water supply of the town became contaminated by a broken tile pipe used for transmission of the water. The tile pipe had been used instead of an iron pipe to save \$1,500.

CLEAR.

"I hope I make myself clear," said the orator. "As clear as the Einstein theory," shouted some sarcastic individual in the audience.

KING IN REALM OF BOOKS

Herbert Putnam, Superintendent of the Library of Congress, Has Charge of Wonderful Collection.

Herbert Putnam is the superintendent of the library of congress, an institution which contains more books than any other in the world except the British museum at London and Nationale bibliotheque in Paris. Mr. Putnam belongs to the celebrated Putnam family, publishers of books, the Detroit News states. He tried to be a lawyer and knows the law, but his fondness for books caused him to give up the legal profession and he now presides over one of the greatest institutions in the United States and is a better-known man than 90 per cent of the lawyers in the country.

Mr. Putnam takes as much pride in the collection of music in the library of congress as he does in anything else connected with it. When he became librarian in 1899, 250,000 pieces of music were catalogued. The collection has since grown to 800,000 pieces and there is scarcely anything that was ever written or published in the way of music in any part of the world of which there is not a copy in the library of congress.

WOMAN, 90, WAS ARMY COOK

Mrs. Doyle Proud of Fact That She Saw Service in Mexican War and in the West.

Penniless, but content, Mrs. Elizabeth J. Doyle, 90 years old, sat in the Union station here the other day awaiting a train to take her and her youngest son, a mere child of 52, to Frannie, Mont., where both expect to find work, says a Billings (Mont.) dispatch to the St. Paul Pioneer-Press. The son John is a section hand and a good one, Mrs. Doyle declared. She herself has had some little experience at toil, one of her first jobs being that of cook with the American forces in the Mexican war. She was then 16.

Mrs. Doyle was born in 1830 on the banks of the Illinois river, near Beardstown.

"Grant and Lee and McClellan were lieutenants when I joined the army," she said. "After the war I was transferred to New Orleans on recruiting service. Then I went with the soldiers to California. Next I went to Nebraska, and afterward to Wyoming. I don't take much with this truck of men army cooks. No man can cook as well as a woman. Ask any soldier."

FOR KEEPSAKE.

A Newcastle woman, who is not a bit backward in declaring she is a Democrat, entertained two Civil war veterans during the recent state Grand Army of the Republic encampment, and when it came time for the two to leave for their homes she made plain that she did not wish any money for housing them during their stay. They insisted on paying her and she held out against accepting money. Finally, the two old soldiers hit on a plan of giving her something as a remembrance. One handed her his souvenir badge and the other presented her with a Harding button. Despite her political prejudice she will keep it.—Indianapolis News.

PAINLESS DENTISTRY?

Looks as if all the joy of life were going to leave the dentist. He isn't going to be able to use his best instrument of torture much longer, says the Popular Science Monthly.

Instead of bringing out teeth in the usual painful way, he will use a "tooth solvent."

This is an acid of organic derivation that will dissolve the decayed portions of a cavity. Simply by dipping a tiny swab in the liquid and applying it to the surfaces to be removed, both dentine and enamel can be painlessly taken out.

VEST POCKET BOW-WOWS.

In England there is a widely prevalent fad for tiny dogs, the smaller the better. These tiny canines are affected by women and are taken everywhere that their mistresses go. They are so small that they slip into a coat pocket or the handbag when being taken from one point to another.

SAVED THAT.

"Any luck on your fishing trip?" "Didn't even get a bite." "Then you don't have to be about the size of the eyes that got away."

HAS PAIR OF SHOES COMING

New York Girl Probably of Opinion That Mr. Fastenberg's Middle Name Is Gratitude.

Celia Knapper, like Cinderella, needed a new pair of shoes. So she walked into Mr. Fastenberg's store and got fitted with a No. 4 triple A.

"I tell you that shoe will give you satisfaction," Fastenberg said to her. "Wait a minute and I'll wrap 'em up."

Miss Knapper opened the box to show her purchase to an admiring family and found—

Hundreds and hundreds of bank notes, in ones, tens, twenties, fifties and hundreds! When she was sure she wasn't dreaming, she took the package and marched back to the store.

Mr. Fastenberg wore a look of alarm. "What's the matter?" says he. "Don't you like the shoes?"

"This isn't shoes. It's money. Thousands of dollars' worth."

"Aah!" said he, "the money I had ready for the bank! I put it in a shoe box for safekeeping. I wouldn't have missed it for a day or so."

"You shouldn't be so careless. If I weren't honest I could have used all of it. I'm going to be married soon."

"That's fine," said Mr. Fastenberg, tucking the box under his arm. "Leave your name and address. I'll send you a pair of shoes for a wedding present. You shall wear it in good health. Fine day today, ain't it?"—New York Correspondence, Philadelphia Ledger.

MISUNDERSTANDING

Sympathizer—My poor man, life is full of trials.

Trump—You bet! What was you up for?

METALLIC CEMENT.

The recipe for metallic cement is as follows: "From 20 to 30 parts of finely divided copper, obtained by the reduction of oxide of copper with hydrogen, or by precipitations from solutions of its sulphate with zinc, are made into a paste with oil of vitriol, and 70 parts of mercury added, the whole being well triturated. When the amalgamation is complete the acid is removed with boiling water, and the compound allowed to cool. In ten or twelve hours it becomes sufficiently hard to receive a brilliant polish, and to scratch the surface of tin or gold. By heat it assumes the consistency of wax, and as it does not contract by cooling, it is recommended by a noted chemist for dentists' use for stopping teeth. This is a splendid cement for attaching anything to the surface of wood, glass, metal and porcelain."

BRONZE-AGE FIND.

One of the most remarkable Bronze Age hoards recently discovered in Great Britain has been given to the Welsh National museum. The hoard was found in Wales. The feature of it, which consists of bronze implements and ornaments, is the fact that it includes an iron sickle of exactly the same shape as two or three bronze sickles found near it. This is taken to prove that it dates from the time of transition from the Bronze to the Iron age. Iron had evidently been discovered, but the metal workers of that day were not fully acquainted with its properties and therefore modeled this historic sickle on their bronze implements.

HOSTILITY.

In the casual camp at St. Aignan one outfit of negro Yanks were used exclusively in the pick-and-shovel brigade. Hence the following conversation at mess:

"Man, what yo' all doin' eatin' bean soup with a fark?"

"Big boy, Ah hates mah shovel so bad! Ah done throwed away mah spoon."—American Legion Weekly.

ORANGE TRADE IS IMPROVED

Spanish Growers Looking Forward to Good Days Now That War Conditions Are Gone.

"Gleaming myriads between the hills and the sea." The writer refers to Valencia's orange groves, starting the plain on either side of her. "When the sea horizon reddens on a cloudless morning, they show up wonderfully beneath the pale purple of the rocky, treeless Sierras. The soil is a gorgeous red, and besides the rows of orange trees and occasionally olives, it is dotted with small dark tufts of cypress and tiny snow-white houses." Yet the London Morning Post's correspondent, who speaks thus enchantingly of Valencia and her winter crops, adds that the year is not accounted a good one for oranges. Plenty of oranges, but they are expensive, is the fact of the situation. But for all that, the Valencian orange trade is reviving. The procession of carts carrying their loads of fruit, the yield of the Valencian plain, for exportation from Gran harbor, is not likely to grow less. The war, the lack of transport, the submarines—all untoward conditions of the last five years, are disappearing into the distance, and the Valencian peasant is looking forward to good days, and meanwhile is contented enough under his blue skies.

LIVED UP TO INVITATIONS

Club Announced That Banquet Was to Be Dry, and It Proved to Be the Truth.

A club, which in the "good old days" was known for the "wetness" of its dinners, gave a banquet the other night, and the invitations to it read that it was to be a "dry" program. Thinking that there was a joke in the invitation somewhere, and that probably the arrangements committee had "dug up" liquor for an old-time celebration, the club membership turned out as one man.

But the committee, to show that it was "on the square," served a menu that included the following: Dried beef, dried corn, dried apricots, unbuttered popcorn, salt mackerel, salted peanuts and dry toast. There was nothing "wet" like the members had been thinking about. And the speeches were the "driest" part of the entertainment.

"The least we expected," lamented the closing speaker, "was a dry Martini or a dry Manhattan."

BABEL OF TONGUES.

In the bureau of war risk insurance, Washington, skilled translators are employed to render into English a mass of incoming mail written in foreign languages and to translate into foreign tongues replies as required. Forty-five linguists in the bureau translate and write in 46 different languages. These translations into their own tongues are of great help to the dependents of service men in foreign countries. Letters written in the Italian tongue overwhelmingly predominate in the mail-receiving section. In August last the bureau received 41,000 letters in Italian, 463 in Spanish, 287 in Greek and 280 in French.

AUSTRALIAN BEE INDUSTRY.

The bee industry is an important one in Australia, and, like poultry farming, is ordinarily an adjunct to agricultural or dairying industries. The average annual production of honey in the past five years has been over 5,000,000 pounds, with a production of about 90,000 pounds of beeswax. In the past year, or two, however, the production of both honey and beeswax has fallen considerably below the high record of 1913, when over 8,000,000 pounds of honey was produced.

MAKING MUSHROOM EXTRACT.

A few drops of an extract of mushrooms prepared as follows are enough to flavor a stew. Fill an earthenware pot with fresh mushrooms covered with salt. After 24 hours crush the mass, place in a linen cloth and squeeze out the juice by wringing. Heat the juice over a gentle fire, skim and pour into small sterilized bottles, corking tight. This will keep indefinitely.

LIQUID FIRE INSECTICIDE.

In his campaign against crickets in Algeria, Gaston Bazile is using liquid fire and also a mixture of crude oil and black soap. In the Oued-Berdi poison gas was used.

INTERESTING DATA ON CRIME

Proof That Lawbreakers Select Special Months in Which to Conduct Their Nefarious Operations.

"The Almanack of Crime" is the result of many years' research by a well-known continental crime expert, who has been steadily collecting statistics for it nearly all his life. The origin of this unique almanac is very simple, remarks the Montreal Herald. Like a good many other people, the expert thought not only that crime was more common during certain months of the year, but that certain crimes occurred more frequently in one month than in another. The compiler found that most cases of murder occurred in January, June and August, and fewest in November, December and February. The favorite month with poisoners is May, while the month they liked least was September. September, in fact, is one of the least "criminy" months in the whole calendar. Just as murderers dislike November and December, it was just these months that burglars and thieves generally got busy. Forgers, as one might have expected, chose round about quarter days more frequently than any other times in the year to show their skill.

IN LATER LIGHT

"What did Shakespeare's character mean when he told his enemy he had him on the hip?" "I guess he meant he had located his last bottle."

REAR ADMIRAL AN INVENTOR.

Rear Admiral Bradley A. Fiske of the United States navy is an inventor of the first rank, the Detroit News states. He has invented a sleeve button, a typewriter, "which did not work very well," a mechanical pencil (from which he received a royalty of \$1,000 that emboldened him to marry), an electric log, a magazine rifle, a range finder, an improved stock ticker, a further development of his range finder, an automatic machine gun (the patent of which he allowed to lapse and the principle of which, it is stated, is now the basis of the Browning gun), a stadiometer, an electric motor developed into an electric ammunition hoist and many others.

RECOVERING TIN FROM CANS.

After trying many other processes of recovering tin from old cans, there is now, according to La Nature (Paris), a return to the old-fashioned method of boiling the scraps (well cleaned) in a solution containing an excess of free alkali and salt-peter. The tin is recovered as crystals of stannate of soda, and the alkali and salt-peter can be used over and over again.

"KING OF THE EARTH."

Besides being king of Italy, Victor Emmanuel, who, it is announced, has made over to his people a number of his palaces, is also, officially, "king of Sardinia, of France, Spain and England, Jerusalem, Greece, Alexandria, Hamburg, Sicily, Ruler of the Midway sea, Master of the Deep, Protector of the Holy Land and King of the Earth."

FISHING-INDUSTRY-COMBINE.

Owners of fishing outfits near Hull, England, are co-operating in a \$5,000,000 scheme to deliver fish to consumers directly from the sea, using motorcars for the purpose. Ultimately the whole trawling industry of the country will be linked up in the scheme.

Leach-Cummings
Miss Ida Leach, daughter of Mr. and Mrs. John B. Leach of this city was married yesterday morning to Virgil Cummings of Hereford, the marriage took place at eight-thirty and was pronounced by Rev. J. W. Israel, with the ring ceremony in the presence of the family and a few intimate friends. A profusion of Shasta daisies formed a beautiful setting for the bridal party. Prior to their entrance, Mrs. R. W. O'Keefe sang "At Dawn" and Mrs. Tom Carter played the wedding march.

The bride wore a handsome blue tailored suit with corresponding accessories.
She has been reared in Plainview and has many warm friends among her associates.

They left soon after the ceremony in a car for Pomona, Calif. After the first of August they will be at home in Hereford, where Mr. Cummings is a prominent druggist.

Announcement Party
One of the most beautiful social events of the mid summer was the announcement party and shower combined, given Friday afternoon at the home of Mrs. Marshall Phelps, in honor of Miss Ida Leach, a bride elect.

The hostesses were Mesdames Robert J. Gordon, E. Y. Brown and Harry Phelps.
Nasturtiums of various shades of yellow were used in decorating the beautiful home.

After the coming of the guests Mrs. R. W. O'Keefe sang "Lovely Night" and Miss Mary Pritchett gave a reading, "The Naughty Girl's Night in a Hotel." Following these numbers the guests were ushered into the dining room, where they beheld "The Sea of Matrimony," most uncertain no treacherous of all seas, but at this nuptial stage of the game it was as placid as a summer lake.

A mirror surrounded by flowers and ferns represented the sea. It rested upon a linen centerpiece and upon its surface was a little boat containing a miniature bride and groom, who were just starting on the fatal voyage. A fleet of tiny gilt boats surrounded the mirror. The boats were attached to cards upon which the following verse was written:

If you would try a journey
On the matrimonial sea,
You must trust your fame and future
In a fragile boat like me,
But do not fear to try me,
The I look so very light
For a matrimonial boat
Is "worse" than its bite.

In the reverse of the cards were the name of the guests who upon taking up the cards discovered another card at the end of the ribbon, bearing the names, "Miss Ida B. Leach, Mr. Virgil A. Cummings, and the date "June 27, 1921". This told the tale.

After this important announcement the bride elect was given a twine, whose devious wanderings finally brought her back into the house where she found a basket filled with hand-picked useful gifts for the equipment of a modern kitchen, which she acknowledged with grateful appreciation.

Next on the program was a mock marriage. To the strains of a wedding march, "Darktown Struttless Ball" played by Mrs. Gordon, a bridal couple entered and stood before Mrs. O'Keefe, who personated the minister and who said the following simple but effective ceremony: "Up the hill and own the level.
Kiss your wife you ugly devil.
The groom was personated by Mrs. J. W. Israel and the bride by Mrs. Marshall Phelps, both dressed appropriately.

Gifts of brick cream and angel food cake with yellow icing were served the following guests: Mesdames Mont Carter, J. W. Israel, E. A. Bennington, Matt Clam, Marshall Phelps, John Lucas, Raymond Phelps, John Oswald, Ben Gardner, James Oswald, N. M. Bonner, J. L. Overall, M. D. Leach, R. W. O'Keefe, A. B. Roberts, J. H. Leach, E. C. Behrdis and Mesdames Ruth Woolverton, Erma Felts, Lillian Stoneker, Geneva Lockhart, Geneva Lockhart, Geneva Seipp, Lois Leach, Erma Leach (Ory), Visor, Mary Pritchett.

Service Unites
Young People's Wednesday
A very beautiful wedding service, for which the First Methodist church at Seventh and Lamar was appropriately decorated, united Joe Mooring and Miss Grace Albritton in marriage Tuesday evening in the presence of an assemblage of relatives and friends.

The marriage was solemnized by Rev. Dr. Pittinger of the church, when the wedding party had grouped at the altar. Preceding the entrance of the party a chorus of Wi-Chi-Ta campfire girls, of which Miss Albritton was president, sang "O Beauteous Night," with Miss Anna Byman at the organ.

In the chorus were Mesdames Juanita McKinley, Marie Berry, Margaret Rodgers, Lillian Brannon, Edith Benney, Era Lee Lewis, Angle and Hazel Noe, Eldora Brunnenberg and Etta Madrey. Miss Byman later played the Lohengrin procession for the entrance of the bridal party. Mesdames Kate Simmons and Mary Underwood, Miss Simmons in pale blue taffeta and Miss Underwood in white, with picture hats to match and carrying arm bouquets or rose carnations, preceded the maid of honor, Miss Lorine Phillips and the little ring bearer, Miss Phillips were pink and gold taffeta

with a drapery of white lace, pink picture hat, and carried rose carnations. Little Miss Barbara Lee Lowery, daughter of Mr. and Mrs. S. L. Lowery, carried the ring, and was very lovely in a fluffy dress of orchid chiffon.

Miss Albritton, who entered with her father, R. A. Albritton, wore white satin and lace with silver trimming, with a tulle veil held in place by orange blossoms. She carried a beautiful showered arm bouquet of bride's roses and lilies.

Mr. Mooring was attended by John Albritton as best man and by Emmett Pinkley and Hommie Mahoney, who also acted as ushers preceding the ceremony. They wore conventional evening dress with buttonieres of carnations.

Reception at Home
Following the wedding, the guests were entertained at an informal reception at the home of the bride's parents, during which the bride's cake was cut and other refreshments served. Mr. and Mrs. Mooring left later for a ten day's visit in Corsicana, Galveston and other cities, after which they will return here to be at home at 1414 Thirteenth street.—Wichita Falls Times.

Joe Mooring formerly lived in Plainview, and is a son of Mr. and Mrs. John Mooring, who live on Route A, Plainview, and has many friends here who wish him a long and happy married life.

Blair-Pearson
Miss Vera Blair of Fort Worth and Mr. Lee Roy Pearson of Ranger were quietly married Saturday evening, June 25th, at seven o'clock in the bridal parlor of the First Christian church, Fort Worth. The ring ceremony was performed by the Pastor, Rev. L. D. Anderson.

The bride wore a stylish grape poirot twill coat suit, heavily embroidered, with fall hat to correspond. She wore a corsage of orchids and rose buds.

Immediately after the ceremony, and Mrs. Pearson left for a short honeymoon in Galveston. Returning, they will be at home in Ranger, Texas, where Mr. Pearson is a prominent attorney.

Both Miss Blair and Mr. Pearson were former residents of Plainview. The bride is a sister of Mrs. James Duncan of this city. Mr. Pearson's parents and brothers reside there. Prior to entering the army, Mr. Pearson was a practicing attorney in Plainview.

Mrs. D. Hefflefinger Entertained
With Bridge Today
Today has been filled with pleasure for the friends of Mrs. D. Hefflefinger, who entertained with Bridge, morning and afternoon.

Carnations, sweet peas and nasturtiums were favored for decorating. The guests assembled at nine in the morning and additional friends were invited for three in the afternoon.

In the matin games Mrs. Guy Jacob won high score and Mrs. George Wyckoff for the afternoon.

Grape fruit cocktail and a salad course were served at both parties.

Those present in the morning were Mesdames Ben Smith, A. B. Martin, J. C. Anderson, Jr., Fred C. Hurlbut, Charles Saigling, Will Dowden, R. M. Malone, Guy Jacob, Wallace Setton, Everett Dye, Geo. Bennett, L. S. Kinder, Morey McGlasson, A. C. McClelland, J. B. Wallace, T. C. Shepard, Kirkpatrick and Misses Lucile Kinder, Helen Ware, Sayde Earle Adams, Louise Lamb and Celestine Harp.

Those who played in the afternoon were Mesdames H. M. Brich, Carl Donohoo, L. A. Knight, J. O. Wyckoff, G. C. Keck, L. C. Wayland, E. H. Lawden, E. O. Nichols, J. L. Guest, R. E. Tudor, A. B. Deloach, Oscar Collier, W. F. Droke, J. P. Woodridge, C. C. Gidney, O. M. Unger, Winfield Holbrook, W. J. Lloyd, George Wyckoff, T. C. Shepard, Morey McGlasson and Miss Sarah Rosse. The out-of-town guests were Mrs. E. E. Roos of Amarillo and Mrs. J. R. Kerley of

Eighteen per cent of all Texas farm lands is operated by negroes. The 78,664 farms operated by negroes in Texas have a total land area of 4,460,457 acres, of which 3,157,711 acres are improved.

According to the United States census, there were 34,984,524 sheep on the farms in the United States and 3,426,506 goats. Of this number, Texas has 2,552,412 sheep and 328,709 goats.

Car shortage is reported from various sections of the grain belt. Six roads operating in Kansas have 6 per cent less cars than they had a year ago and many they are using are in bad repair.—Farm & Ranch.

SWEET MUSIC FROM ROCKS

Remarkable instrument, the Rockophone, has a compass of five octaves—praised by Ruskin.

Musical instruments have been made of all manner of things since the time when it was said that the dried snaws of the tortoise stretched across the shell gave the first idea of the lyre. Perhaps the most unusual instrument of modern times is the rockophone which was used for many years by a family of performers known as the Till family now engaged in church work in New York. William Till, the originator, found the rocks of the Cumberland mountains of England. The rocks are gneiss and hornblende, and were deposited prior to the introduction of life upon the earth, possibly a hundred million years ago. The instrument had a compass of five octaves, the rocks being from six inches to four feet long. William Till is especially proud of the fact that John Ruskin thought enough of the instrument to write: "I congratulate you most heartily on the wonderful instrument no less than on the admirable skill of execution with which you exhibit its peculiar qualities. You have given me a new insight into crystalline rock substance and also a new musical pleasure."

The instruments are not for sale, but there is a small one which Mr. Till made for the collection of the Metropolitan museum of New York. The rockophone was played after the manner of the xylophone and the selections included a wide range from Handel to Ivozak and Sousa.

A QUESTION

"Mr. Coldfact, I love your daughter more than words can express."
"Well, perhaps you can state it in figures."

ADOPTS OLD TRIBAL CUSTOM.

The custom of the savage Indians to bury all their earthly belongings with them was recently carried out in Joplin, when David Lloyd, sixty-five years old, an Indian fighter in his youth, died and was buried. His dying request was that the Indian custom be followed and so into his casket went a razor, a box of shoe polish, a pair of scissors, a bar of soap, a packet of letters, a knife, his spectacles, a knife sharpener, ox-fords, boots, hose, shirts, trousers, underwear, pair of gloves and an alarm clock still running and with the alarm set for 2 a. m. A suitcase which wouldn't go in the coffin was put in a rough box inclosing the coffin.—Joplin News-Herald.

LIGHTHOUSES PASING.

The tendency of shore lines to show marked changes is the principal reason for the gradual supplanting of lighthouses by floating beacons which can be readily moved to suit the conditions. In many instances these permanent beacons once built on the very edge of the water are now so far inland as to be almost useless. Light ships are also better able to weather a severe gale than the lighthouse. The heaviest breakers are estimated to strike with a force equivalent to three and a half tons to the square foot and consequently these towers are likely to be undermined sooner or later.

ONIONS FROM ABROAD.

One million eighty-seven thousand nine hundred and twenty-nine cases of onions were imported into this country during the 1919-20 season. Of this total, the majority came from Spain and the Canary islands. According to the Department of Foreign and Domestic Commerce, during the five seasons ended in May, 1920, exports of onions from Valencia averaged approximately 4,741,000 bushels a year. Exports of onion seed from the Canary islands from less than 15 per cent of the total export trade. Nearly all of the seed is sent to the United States.

HONORED AFTER FIFTY YEARS

French Woman, Heroine of the Franco-Prussian War, Finally Awarded Deserved Medal.

The heroism shown by a French woman while in charge of a village post office during the Franco-Prussian war has just been rewarded. Mlle. Marie Weick was granted the title of chevalier of the Legion of Honor by the French government. In making the announcement, the Journal Officiel, besides attributing to Mlle. Weick 20 years' devoted service to the government, describes the way in which she particularly distinguished herself by her coolness and sagacity in 1870.

She was then directress of the telegraph office at Schlestadt, from which she succeeded in keeping the French army supplied with news by means of a line kept intact despite the presence of the Germans and, although her office was violently bombarded by enemy artillery, the French defense was assured to the end in the face of the greatest difficulties. Mlle. Weick was cited in the order of the day and received the military medal in December, 1870.

ALL MADE CLEAR TO SUSAN

Defection of Fickle Lover Shed Light on Matter Which Had Long Bothered Her.

John T. "went with" Susan for three years and then suddenly grew fickle and began to go with the youngest Allen girl. And Susan was decidedly peeved. She had entertained him well, fed him well, and had done everything in her power to win him.

So when she heard he was going with the Allen girl she decided to get even.

A little later her chance came. John's sister at the Ladies' Aid began to tell how regularly John was going to Allen's. And when she was through Susan sniffed wisely. "At last," she said with an air of triumph, "I know something I've long wondered about." Several pressed her to share her knowledge with them, and finally she did. "I know that the Allens set a good table," she said with so much meaning that John's sister was silent.—Exchange.

BACHELORS PLENTIFUL.

The largest collection of bachelors in the world is in the United States, according to the census bureau report, there being no fewer than 10,000,000 unmarried men over twenty years of age scattered throughout the states. The figures also show in the entire United States 106 males to each 100 females. This will put the United States in a class by itself among the great nations. Gary, Ind., now stands out with 135 males to each 100 females. Troy, N. Y., so far, has the distinction of its greatest excess of females in its population, the proportion being 100 females to 84 males. The city has a total of 38,938 females and but 33,075 males, while Gary has 31,819 males and but 23,559 females.

UPLIFT.

A five-year-old comes East to sign a contract for the movies at the modest figure of \$300,000 a year. This poor little waif only gets \$62.400 now.

And what is the young gentleman, who "likes to play pool and rhum and shoot craps" going to do to earn this? He tells us: "Wait till you see me in 'Peck's Bad Boy,' where I let a swarm of ants loose in church."
So do the movies uplift the value of small boys and the public taste.—Worcester Telegraph.

WITHIN THE LAW.

Son—Say, pop, what is Newton's law of gravitation?
Pop—It is—let's see. Hem! Newton's law of gravitation is—What is it now? (Suddenly relieved). That's a foolish question, son. There's no such thing any more since Professor Einstein's discovery.—Science and Invention.

DOING THEIR BEST.

"Couldn't you find any eggs, dear?" a woman asked her little city niece who was visiting her on her farm.
"No, auntie," said the child, "the hens were scratching all around as hard as they could, but they hadn't found a single egg."—Boston Transcript.

BLACKBIRD AND ROBIN MATE

Students of Bird Life Will Find It Hard to Credit Most Remarkable Alliance.

Capt. J. C. Sistare, fair and square sailorman, and E. M. Ashby, good citizen and true, have been shocked at the alliance which has been formed between a rather rakish-looking blackbird and a robin, which have evidently formed a partnership and have started house-keeping together, says a Noank (Conn.) dispatch.

The pair was at first noticed carrying sticks, dry grass, etc., to a corner of the caves trough in a house near the freight yard. Some fussy observer did not like this evidence of bird miscegenation—or whatever it might be called—and routed the saucy pair from this perch. Now, however, they have taken possession of the decayed spot in an apple tree where the limb has been sawed off, the blackbird making the place larger with his long sharp bill.

The pair are never seen with others of their species, and it is evident that they have been ostracized by both robins and blackbirds. People in the neighborhood of the odd nest are watchfully waiting.

HONORS FRIEND AND FOE.

Marking the line of battle at Salem church and close beside the famed plank road that leads from Fredericksburg to Chancellorsville is a monument erected to the Twenty-third Jersey infantry by the state of New Jersey. It is a graceful shaft surmounted by the statue of a soldier chiseled in gray marble, like many other battlefield memorials, but it is one of the few, if not the only shaft on a battlefield, which pays homage alike to friend and enemy. On one side New Jersey lovingly honors the members of the Twenty-third regiment, who advanced into terrific rifle fire in the woods on Salem heights, and on the other is graven the tribute of the state to the Alabama men who held the line during the two fearful hours of a May day in 1863, when death in the falling dusk took heavy toll.—Birmingham Age-Herald.

THE MEANEST MAN.

The meanest man is not, as has been reported, the Carolina farmer who used to light a lamp on the breakfast table, tell his hired men to notice the location of the victuals so they could find them in the dark, and then blow the lamp out and let them do so.

The meanest man must have been riding downtown the other morning on a North side street car line.
"What did you get your wife for her birthday, John?" one asked.
"Oh, I got her 15 gallons of gasoline and five gallons of engine oil." And he never smiled when he said it, either.—Exchange.

WAR WIDOWS REMARRY.

British war widows are remarrying so rapidly that the chancellor expects to be able to reduce pension appropriations in this year's budget by \$50,000,000. This is only one of the factors contributing to the anticipated reduction, but it is stated that thousands of women made widows by the war have again become wives and thus automatically their names are taken off the pension list.

NOT THE REAL "SHEEPSKIN"

Graduation Diplomas Are Now Made of a Substitute That Is Called "Just as Good."

The 116 Penn State graduates who have just been sent out in the special "war class" at the midyear exercises, start their life work unarmored with the usual sheepskin diploma, according to State College News.

The "high cost of graduation" makes it impossible for the college to indulge in the luxury of the genuine "sheepskin" parchment at this time, and it is necessary to use an imitation parchmentized paper for all diplomas. All recent graduating classes have been fortunate enough to receive the genuine article through the foresightedness of Registrar A. H. Espenshade. He "saw the war coming" and several years ago laid in a large supply of sheepskin for the purpose. But this is now exhausted and Penn State has to join the long list of colleges and universities that have found it necessary to cut down this expense. So, instead of a fee of \$12 for the graduate certificate, Penn State's war class is getting off with less than one-third that amount and with a "dip" that is just as good as the genuine "sheep."

KEEP YOUTH IN THE HEART

Only Way, Writer Asserts, by Which One Can Laugh at the Advancing Years.

I heard a wise old Irish philosopher say the other day, "If you want to keep young, don't let your troubles settle in your knees." He explained like this: "Sure 'n you can tell the unhappy women by the way they lift their feet. There is no spring in their knees; they drag themselves about, no force within 'em—movin' them."

The force within must be one's very own heart. Don't put weights on your knees. Keep your heart young and free and happy. Look for the good in people, in conditions, in surroundings. Learn to explore a little deeper into the soul of man. Interest yourself in the heart next to you, and your own troubles will melt like icicles in the sunshine. Learn to laugh with people, especially the little folk. Cultivate their source of enthusiasm, for if you put yourself into the hands of children, their very interest will keep you young with them. I have often thought that surely one of God's best reasons for giving children to grown-ups and grandchildren to big grown-ups is, through association and interest, to make them young again.—Mary Brooks Picken in Inspiration.

THE BETTER HAND

She—Did you ever hold a hand you liked to hold better than mine?
He—Only once, dearest. Then I held four aces.

POLICE IN AIRPLANES.

Sky trails of the North will soon flash with scarlet as the Royal Canadian mounted police fly in pursuit of lawbreakers. The government has announced a plan to equip the famous corps with airplanes. All winter the police patrolled the Peace and Athabasca rivers to prevent foolhardy persons from striking in for the Ft. Norman oil fields on the Mackenzie. They will continue this work even in the summer, as the journey is difficult and dangerous in any kind of weather. They will permit no one to start who is not physically fit and amply equipped with provisions and clothes. No firearms will be permitted. The oil camp will not be of the traditional wild west type and the "bad man" will not figure in its history. Gamblers and women also will be barred. But for all this vigilance, the country will swarm with adventurers.

ELECTRIC GROWTH.

Twenty years ago American industries consumed about five hundred thousand horsepower; today they require more than twenty million horsepower. Half a century ago the horse himself was tremendously relied upon, but the term "horsepower" was not especially familiar. Now the horse is not depended upon the way he once was, but in dropping into less prominence he has left his strength as a unit of measuring the boundless energy of the new giant, not made of flesh and blood.—North American.

TEETH IN EYE-SOCKETS.

The strange case of a girl of fifteen with an extra supply of teeth is reported to the Bulletin of the Academie de Medicine (Paris), by three French surgeons. They found at least twelve supernumerary teeth making their way out at various places in the face, including the eye-sockets. These were revealed by X-rays. They are letting the teeth in the eye-sockets alone for the present, being afraid to operate.

FAUST IN ICELANDIC.

The first translation of Goethe's "Faust" into the Icelandic language was recently published in Reykjavik. It is the work of Prof. Bjarni Jonsen fra Vigl of the Reykjavik university, who is a poet and writer of ability. The government contributed about 10,000 Danish crowns to the publication expenses.

WATCH FOR FIRES AT NIGHT

Forest Branch of Canadian Government Expects Good Results From This Use of Airplanes.

Aircraft patrolling the clouds in the dead of night will defeat forest fires in the great reserves of western Canada. A squad of planes has been obtained by the Dominion forestry branch. Two main flights will be made daily over the southern Alberta districts. Enough night pilgrimages will be made to spot the smallest outbreak of fire. These flights are made in the timbered foothills of the Rocky mountains west of the rich agricultural country of southern Alberta, now being rapidly settled. Besides adding protection to the forest products, the new aerial patrols will minimize danger of fire in the vast grazing sections of the reserves, where thousands of head of cattle and sheep feed.

Aircraft patrols have been started by the government in other forest districts. Forestry reports, showing Canada has 225,000,000 acres of merchantable timber, declare that the annual loss is being greatly reduced through aircraft service.

FINDS SAFETY IN DISTANCE

Greek Reservist in United States Jealously Refuses Offer of Employment by Constantinople.

After serving five years in the Greek army, with rank of first sergeant, receiving his discharge last January and coming to Marysville three weeks ago, where he obtained work in a local cafe, Edward Kallas received a letter from the Greek war department informing him that his class had been called into service against the Turks and requesting that he report in Athens as soon as possible, says the San Francisco Chronicle.

Kallas immediately wrote a personal letter to King Constantine as follows:

"Dear King: Your letter received and contents noted. After serving five years in the army I have done my bit. As the walking is not good between Marysville and New York and the swimming between New York and Athens is worse, and owing to the fact that you did not send transportation, I will be compelled to refuse your kind offer to come back and mop up the Turks. However, you have my best wishes and I hope you do well."

FACTS ABOUT HOT WATER.

The domestic heating and cooking department of the Consolidated Gas company, New York, states that "hot water" is water at 140 degrees Fahrenheit. The average bath requires fifteen gallons of hot water, the ordinary laundry tub ten gallons, the ordinary handbasin one gallon. The average family paying a rental of \$50 or less per month uses fifty gallons of hot water per day; when the rental is from \$50 to \$75 per month the water consumption is sixty gallons a day; a rental of \$100 to \$150 a month carries with it hot water habits averaging 75 gallons a day; and those who pay more than \$150 are accustomed to use more than one hundred gallons in a day.

FINLAND'S NEW COINS.

Finland is to have new coins. The state council of Finland has authorized the Bank of Finland and the director of the mint to make a contract with the mint, Birmingham, England, for 20,000,000 coins of nickel-bronze, of which 10,000,000 are to be one-mark pieces. About 10,000,000 coins of smaller denominations are made in Finland annually, but as their manufacture there is difficult and expensive the director of the mint recently visited England to see about having the new coins made in that country.

MUST WEAR 'CHUTES.

The government of Switzerland has passed a law requiring aerial passenger carrying companies to provide parachute life packs for all passengers. This legislation follows a similar action by Holland officials, who several months ago established a national precedent by requiring all aviation companies to carry life packs for both pilots and passengers.

Citation by Publication

To the Sheriff or any Constable of Hale county—GREETING:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Hale if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published once each week for four consecutive

weeks previous to the return day hereof, N. W. Thompson whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the Court house thereof, in Plainview on the First Monday in August, 1921 the same being the first day of August, A. D. 1921, then and there to answer a petition filed in said court, on

the 1st day of June, A. D. 1921, in a suit numbered on the docket of said court No. 1946, wherein O. F. Wilson plaintiff and N. W. Thompson defendant. The nature of the plaintiffs demand being as follows, to-wit: That plaintiff purchased from the defendant on or about the last day of March 1921, two large dapple-gray Purcheron mares under the guarantee and warranty that they and each of them were in the best of health and sound in every respect, and paid therefor the sum of \$2400.00, the same being evidenced by three promissory notes, each in the sum of \$700.00, bearing interest from date until paid at the rate of seven per cent per annum, due in one, two and three years from date bearing date of May 1st, 1921. That at the time he purchased said mares, the defendant stated and represented to the plaintiff that said mares were in the best of health and were sound, that they had never had any sickness or trouble of any kind and that if they were not in good health and if not sound, as represented, and guaranteed, that the said defendant would refund the said notes and take back the said mares purchased; that said mares are not in good health and sound, all of which the defendant knew at the time. That one of said mares, within a few hours after plaintiff took charge of her, became lame and useless, and has been lame and useless ever since, that she is unable to move about or do any work and is of no use or benefit to him and is of no value. That under an agreement made between plaintiff and defendant, defendant was to purchase all of the horse colts received from said mares at the stipulated price of \$500.00 each when they were yearlings. That at the time he purchased said mares, defendant represented to him and guaranteed that said mares were in fold by a \$10,000.00 stallion, that such statements and representations were false and untrue and that said mares were not in fold, all of which was well known to the defendant.

That said false and fraudulent representations were made by the defendant for the purpose of inducing this plaintiff to purchase said mares, that said statements were false and untrue and were known to the defendant to be false and untrue when he made them; that they were material and were relied upon by this plaintiff and were made in Hale County Texas. That plaintiff would not have purchased said mares had it not been for the warranties that they were sound and in good health, that they, and each of them, were with colt by a \$10,000.00 stallion. That plaintiff here tenders back the said mares and demands possession of said three notes, that if the defendant has sold said notes or does not surrender them in the court, plaintiff for judgment in the sum of \$1500.00 for damages; that said mares are not worth more, and their market value is not worth more than \$600.00, wherefore, he has been damaged in sum of \$1500.00 aforesaid and plaintiff prays that defendant be cited to appear and answer herein, that he have judgment cancelling the said promissory notes, that defendant be required to surrender them in this court for such purpose, that if he fails to do so, he have judgment for \$1500.00 and for all costs in this behalf expended and for such other and further relief, in law and in equity, to which he may be entitled.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said court, in office in Plainview, Texas, this, the 28th day of June, A. D., 1921.

Citation by Publication To the Sheriff or any Constable of Hale county—GREETING:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Hale if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, E. C. Box, whose residence is unknown, to be and appear before the Honorable District court, at the next regular term thereof, to be holden in the county of Hale, at the Court house thereof, in Plainview on the 1st Monday in August, A. D. 1921, the same being the first day of August, A. D. 1921, then and there to answer a petition filed in said court, on the 27th day of June, A. D. 1921, in a suit numbered on the docket of said court No. 1963, wherein Lillie Box plaintiff, and E. C. Box is defendant. The nature of the plaintiffs demand being as follows, to-wit:

THE STATE OF TEXAS,

COUNTY OF HALE.

In the District Court of Hale County, Texas, August term, 1921.

To the Honorable District Court of Hale County Texas:

Now comes Lillie Box, hereinafter called plaintiff, who resides in Hale County, Texas, complaining of E. C. Box, hereinafter called defendant, whose residence is unknown to the plaintiff, and, praying for a divorce, for grounds says:

1. That on or about the 15th day of December, A. D. 1909, plaintiff was duly and legally married to defendant at Martha, State of Oklahoma, and continued to live with him as his wife until on or about the 20th day of November, A. D. 1920.

2. That plaintiff has been an actual bona fide inhabitant of the State of Texas for a period of twelve

The phonograph that amazed Plainview can be bought

There is a rumor abroad that the instrument which triumphed in the drastic comparison test, made Monday, June 13th, at the Baptist church, was a special exhibition model. That rumor is false. The instrument was a regular Official Laboratory Model—loaned for the occasion to us by Mr. R. M. Peace. Every Official Laboratory Model in our stock is guaranteed to sustain the same test. If you were one of those, in Monday's audience, who wistfully exclaimed: "Wouldn't it be wonderful if I could buy a phonograph like that"—know that you can. Know that it will perform this miracle every day for you in your own home.

The NEW EDISON

"The Phonograph with a Soul"

Come in and hear for yourself the Official Laboratory Model's marvelous realism. Find out our Budget plan, which enables you to own an Official Laboratory Model for a small down payment, the balance on a gentlemen's agreement to suit your convenience.

Note:—The test at the Baptist church was made by Miss Helen Davis, gifted mezzo-soprano and Sibyl Sanderson Fagan, popular whistler, the world-famous soprano. They compared their living art with its RE-CREATION by the New Edison. There was no difference between the living performance and the RE-CREATED performance.

The New Edison stands absolutely alone in this achievement; no other phonograph has ever sustained the test of comparison.

months, and has resided in the said County of Hale, where this suit is filed a period of six months next preceding the filing thereof, having become an inhabitant of said state on or about the 16th day of September, A. D. 1911, and a resident of said county on or about the 1st day of September, A. D. 1920.

3. That at all times, while married to the defendant, plaintiff has conducted herself with propriety, doing her duty as a wife, has at all times treated defendant with kindness and forbearance, and has not been guilty of any act bringing about or causing the hereinafter described acts, omissions and conditions on defendant's part.

4. Plaintiff further shows to the court that she is modest and a lady of refinement and that the defendant represented to plaintiff that he was a man of refinement and culture and caused this plaintiff to believe such representations and induced plaintiff to marry him, and that said representations so made by the defendant were false and fraudulently made. That, for about four years, during the time plaintiff and defendant lived together as wife and husband, the defendant did pretend to preach at various places during said time; afterwards, many times since, the defendant has been guilty of gambling, playing cards, etc. That defendant disregarding the solemnity of his marriage vows and his obligations to treat plaintiff with kindness and attention, shortly after the defendant quit attempting to preach, he commenced a course of unkind, harsh and tyrannical conducts towards plaintiff, which continued, with very slight intermissions until she finally separated from him on or about November the 20th, 1920. That on divers occasions, while plaintiff lived with defendant as aforesaid, he was guilty of excesses, cruel treatment and outrages towards her of such a nature as to render their living together longer, as wife and husband, insupportable. That on or about June 1919, defendant cursed and abused this plaintiff and called her various kinds of names and again during June 1920 the defendant cursed and abused plaintiff and called her various bad names because she wanted

to come to Plainview with her sister, who was to be operated on at the sanitarium at Plainview, Texas. And that it would have been convenient for plaintiff to have come to Plainview with her sister at said time as she lived only a short distance from Plainview; and that since that time, of June, 1920, the defendant had thrust upon plaintiff a series of studied vexations and deliberate insults, which continued until on or about November the 26th, 1920, when this plaintiff was forced to leave the defendant; and that on November the 20th, 1920, the defendant again cursed and abused this plaintiff and made threats against her, all of which were humiliating and very injurious to plaintiff's health as well as to her feelings and physical strength. That defendant is a man of violent passion and ungovernable temper and is overbearing, which makes it impossible for this plaintiff to live with him as his wife.

5. Plaintiff will further respectively show this court that the defendant is a very large man, stout and healthy and that he has failed and refused to provide for plaintiff as he should have according to his circumstances and financial ability. That plaintiff has had to work hard and that during the fall of 1919 this plaintiff put in the best of her strength and made a steady hand in the field, while he defendant was out loafing and idling around at various times did nothing but gamble. That in consequence of the cruel and inhuman treatment above mentioned, together with the threats aforesaid and such brutal outrages conducted toward her, and together with the neglect and refused to support her the plaintiff was forced to leave the defendant and seek employment elsewhere so she could care for herself without being further disgraced by her association with this defendant.

6. Plaintiff further shows to the court that before her marriage to the defendant that her maiden name was Lillie Watts and she especially asks the court to decree her maiden name.

7. Wherefore plaintiff prays that defendant be cited to appear and answer this petition. That on final hearing plaintiff have judgment dissolving the marriage between plaintiff and defendant and granting her an absolute

divorce; and plaintiff especially prays the court that her name be changed to Lillie Watts; and for such other and further relief as the court shall think proper to grant, or as plaintiff may be entitled to, either at law or in equity, and for costs of suit.

Given under my hand and seal of said court, in office in Plainview, Texas, this, the 28th day of June, A. D., 1921.
