BRIEF FOR TECH IS SUBMITTED

COMMITTEE LEAVES FOR AUSTIN TO MEET WITH LOCATING COMMITTEE

Col. R. P. Smyth, C. S. Williams and A. E. Boyd left yesterday morning for Austin to formally submit to the locating committee the brief of Plainview for the Texas Technological college, and it will be placed before the committee today most likely.

The brief is a very handsome book, containing a complete resume of the many resources of the Plainview country, and putting forth the advantages of locating the institution here. There are sixty-five handsome pictures of farms, irrigation plants, industries, residences, streets, public and educational institutions, etc. Statistics are given on a number of subjects.

The brief was compiled by a committee composed of Col. R. P. Smyth, C. S. Williams, A. G. Hinn, E. H. Perry, Winfield Holbrook, John Lucea John Boswell, H. S. Hilburn, E. P. Miller and J. M. Adams, and should make a very favorable impression on the locating committee.

The local committee has had a number of additional copies of the brief printed and bound in paper and these will be for distribution within a week or so.

Building Large Oil Tank

A force of twenty men are working on the big oil storage station being built here by the Santa Fe railway. One of the largest steel under-ground storage tanks in West Texas is being erected over a large underground storage tank. Several buildings and a large amount of machinery is a part of the plant. A rack for unloading tank cars of oil is being built. It will be possible to empty six cars at one time on this rack. The estimated cost of these improvements is \$25,000. Similar stations are being built at Amarillo, Slaton and Dermott.

Light Rains Tuesday

The Lockney community was visited Tuesday by a nice shower which will prove very beneficial to gardens and other vegetation. The rain was accompanied by considerable hail, but the hail being small and there being no wind, did very little damage, if any. The hail covered only a narrow strip, from information we received, and extended east and west, probably less than three miles. The rain was heavy enough to make the streets disagreeably muddy.

FINE RAINS FALL THIS WEEK

ALL PARTS OF COUNTRY NOW HAVE FINE SEASON FOR CROPS

Rains have fallen over every part of the Plainview country nearly every day this week, and in places as much as two or more inches is reported.

In Plainview heavy showers fell Tuesday, Wednesday and this afternoon, but north and west of town the rain was much greater. North of town in Liberty, Kress and Whitfield communities from one to more than two inches fell, and the lakes in the Whitfield section were partly filled.

Halfway, Runningwater and Otton report heavy rains.

East of Plainview fine rains fell all the way to Lockney and beyond.

Hale Center and the south part of the county were also blessed with good rains.

Hail fell in spots but it was so small in size little damage was done. These rains, coupled with the other recent ones, put plenty of moisture in the ground, and almost insure a good winter wheat crop, and will bring the spring wheat, oats and barley up in good shape. They also furnish plenty of moisture for the large kafir, maize and cotton crops to be planted.

Crop prospects in Hale County were never better than at the present.

LOCKNEY NEW CITY OFFICIALS TAKE OFFICE

Byington who succeeded himself at the recent city election, also took the oath of office, and Floyd Huff, who was re-elected as city secretary by 245 votes was sworn in for another term. City Marshal R. E. Hadley has taken over the duties of that office and is busy assessing taxes.

National Patriotic Day Planned

Dallas, April 10.—Plans for a country-wide observance of patriotic day, April 19, by special exercises and community meetings at which better citizenship will be stressed were announced today by the committee on citizenship of the American Bar association.

The association has been working in co-operation with patriotic organizations in all states. These social clubs have been in touch in many instances with county and state bar associations and arranged for speakers to talk on the constitution and patriotism.

The exercises April 19—are to be in celebration of the battles of Lexington and Concord 148 years ago.

Similar plans are being considered for Memorial day, May 30, and Independence Day.

Two Rural Schools Consolidate

The Valleyview and Stansell rural schools, in the northwestern part of the county, have decided to consolidate. A petition has been signed by practically all of the patrons in both communities.

Both school houses will be moved to a central point, in the district which is composed of forty-two sections of land. One building will be used by the higher grades and the other by the lower grades, and two teachers will be employed.

In the recent election Ellis Jones, Mr. Fargason and Bob Norfleet were elected trustees of Valleyview school and Mrs. Edna Wood, J. H. Standifer and D. C. Kimball of Stansell.

Merit, Regardless of Endorsements

Another town has withdrawn hasty action in the matter of endorsing another town for the Texas Tech. Location. Temple's Rotary club endorsed Lubbock, and then rescinded the action. Merit, fellow-citizens, is going to be the deciding factor in the Tech's location, regardless of endorsements. —Abilene Reporter.

High School Defeats Littlefield

In a game of football at Littlefield yesterday the Plainview high school team won, the score being 14 to 3.

GOOD TIMES FOR THE PLAINS

FINE CROPS WILL BRING PROSPERITY TO THIS SECTION

It is safe to say that the prospects of this town, county and the Plains is on the threshold of the most prosperous era in its history, and that there will be better times by next fall than ever before, even the boom times just following the war.

The rains have put a good season in the ground and a good wheat crop is assured, which will begin to move to market the latter part of June. The acreage is large.

The moisture in the ground is ample to plant cotton which will begin soon, and by far the greatest acreage every planted to fleecy staple on the Plains will be planted. The summer rains always make cotton; there has never been a cotton failure on the Plains. Cotton is the greatest distributor of money of any crop; it takes several months to gather it, and the pickers make money and spend it in all channels of trade. When there is a good cotton crop and the price is high, as it will be next fall, everybody has plenty of money and the merchants have a big volume of business and prosper.

There will be an ample row crop, for the present moisture will give the crops a fine start, and the summer rains can be depended upon to finish them in good shape.

Then, the poultry crop—chickens, turkeys, eggs, etc.—promises to be the largest ever on the Plains, and will bring many tens of thousands of dollars into the hands of the growers. Poultry is the coming sure enough big crops of this county.

The cattle, hogs and other crops will also bring in much money, as the tendency of prices for all farm, ranch and dairy products is upward, and as this section depends upon the farmers and ranchmen for its prosperity, if the farmer and ranchmen prosper everybody else does.

New farm houses and barns, town residences, business houses, will be erected; people will buy more clothing, groceries, automobiles, hardware, and other things, and the Plains should get such a momentum that if the people husband their resources as they should there would be no more hard times in this section, at least for years.

Thousands of people from other sections are planning to move to the Plains and we look for a great incoming next fall and winter, and much changing of farms and other real estate.

Yes, the Plains is coming into its own, and become very prosperous within the next few months. It is up to the people to get ready to make the most of this prosperity.

LOCOMOTIVE ENGINEER DIES AT POST OF DUTY

Passengers Saved when Heroic Pilot Stays at His Post on T. & P. Train

Colorado, April 10.—William Price, veteran engineer on Texas & Pacific passenger train No. 15, was instantly killed here this morning while his train was pulling out of the yards at Colorado for the west. Just before reaching the Colorado river, the engine and tender left the track and rolled down a steep embankment with in less than 100 feet of the river bridge.

Price remained in his cab and saved his passengers by applying the airbrakes for the third time, stopping the train just before the passenger coach trucks reached the broken rails. The fireman saved his life by jumping.

PLAINVIEW TO HAVE ANOTHER COTTON GIN

Paris Man Buys Land and Will Install Cotton Gyn for Handling Next Crop

T. E. Delew of Paris, Texas, who was in the city yesterday prospecting with a view of installing a cotton gin here, has after looking over the territory to be served, decided to install a modern ginning plant, and has purchased a site for the gin near the Harvest Grain Mills.

He will begin work soon on the buildings and installation of the machinery, in order to be ready to help handle the next season's crop.

This second gin for Plainview will be a boon to the cotton farmers, as the gin already here had to run night and day last year in order to take care of the cotton, and the acreage this year in cotton will be several times greater than last year.

LIBERTY HAS GOOD SCHOOL

PLAINVIEW MERCHANTS' ASSOCIATION HOLDS COMMUNITY MEETING AT SCHOOL

Despite the fact that the big rain north of town and the several other attractions in town cut the attendance short, the community meeting by the Plainview Merchants' Association at Liberty school tonight was a very enjoyable affair.

The ladies of the community served a very delicious supper, and after the repast a program was put on with J. M. Adams in charge.

Prof. Lowery, principal of the school, gave the address of welcome, which was responded to by Chas. Reinken, president of the Merchants' Association, who also stated the reason for holding these community meetings, throughout the town's trade territory, in order to get better acquainted with the rural people, learn their problems, and urge a greater spirit of co-operation and helpfulness.

Dr. J. C. Anderson gave a short health talk, upon the menace of the cancer, asserting that it was a very prevalent and insidious disease, from which 180,000 persons in the United States die each year. He urged that all sores of several weeks standing, warts, molds, and skin excoriations be examined by the family physician, in order that they may not develop in toancers.

Mrs. Ruth Garrison Francis of the Plainview high school, gave two vocal selections and Miss Katherine McDaniel favored the audience with a couple of readings.

P. D. Windsor of Liberty community in a short talk declared he and the people of the school district were greatly pleased to have the visitors as their guests, and said the town and rural people should work together and help each other in every way possible.

Liberty has a very handsome brick building with three class rooms and cloak rooms, etc., with a stage and curtains and piano. The school has this year been very successfully taught by Prof. and Mrs. Lowery and Miss Williams.

Church of Christ

J. W. Hendley will begin a meeting here (Kress, Texas) next Sunday, April 15. Bro. Hendley is among the best, and most successful preachers we have. He is a very forceful speaker and is well liked by every one who know him.

During this meeting we invite our friends to hear Bro. Hendley, assuring them they will hear nothing but the pure gospel preached in a plain and simple way.—Member.

First Christian Church

We have had several additions during the last three weeks, and others have expressed a desire to unite with the church. The attendance of the membership has been improving since we started our campaign for a better attendance. The outlook is more favorable than at any time since we came here and we can see signs of further improvement. However, there are a number of our members who are not taking the interest and giving the church the support that they should.

Any man who lives in a community is able to help support the church and does not do so, while enjoying the benefits of the church in business and social affairs, is a thief, he is getting something which others have paid for and which does not belong to him.

Our subject for next Sunday evening, 8 o'clock, will be, "What Is Worship?" Very few people understand what worship really is. They think it consists of preaching, praying, singing, playing, etc. These things are not worship at all, if the Bible can be depended on. They are merely things that we may, or may not do when we meet to worship. We shall prove that a man can worship without doing any of these things, and that he may do all of them and not worship. Don't be deceived by customs. Learn what God's Word says about this great subject. Longfaces, sanctimonious solemnity and sorrowful seriousness are not signs of worship and have no place in God's plan.

Come and learn what scriptural worship is.

The public is cordially invited.

W. C. WRIGHT, Minister.

Senator Pepper of Pennsylvania thinks the time has come for the United States to enter the league of nations, with certain reservations. Senator Pepper is a republican. It is becoming more evident that Wilson's League of Nations proposal will be one of the leading issues in next year's presidential campaign. President Harding himself is gradually thawing out on the issue.

A thousand married women all over the country get a questionnaire from a snop society founded by young John D. Rockefeller. The idea is to make a scientific analysis of the ancient institution, spooning before marriage. It's a secret nose count, answers mailed without signing, so they can't be traced back to the sender. Protected by this mask of secrecy the women can answer freely, truthfully. Some of the answers are rather sensational, enough so that sociologists "view with alarm." But we notice that 289 of the 1000 claim they didn't spoon before marriage, never even kissed their fiancés. If the rest of the answers aren't any more truthful than this, better consign the whole inquiry to the wastebasket.

"He said I would get twenty miles to the gallon in this car."

Thousands of sincere automobile salesmen have often been placed in the Ananias Club by equally honest auto owners over performances of automobiles.

Car owners expecting 18-20 or 22 miles per gallon of gasoline—on the claim of salesmen—usually have only themselves to blame when they fail. The use of inferior gasoline and oils usually is the cause.

When Mr. Salesman was talking "miles per gallon" to you, he was making his claim on the assumption that you would use gasoline showing the best refining test.

Texas Gasoline and oils show highest test—always—and their "more miles per gallon" claims have been proved.

Give your car a chance to prove itself. Have your tank filled regularly at our pump.

WILTON LACKAYE DOES GREAT WORK IN PLAY

Purports to Answer Age Old Question—Pantomime Enables Unusual Expression Says Famous Actor

Daniel Carson Goodman's much discussed photoplay "What's Wrong With the Women," now placing that age-old problem before the whole world, brings again to the screen that skilful player, Wilton Lackaye, whose performance is one of the brilliant high-lights of the production at the Olympic Theatre Monday and Tuesday.

His great talents rounded and matured, Wilton Lackaye invests his role with a finish and distinction that could come only from the long years he devoted to the advancement of the American theatre as one of the most popular and distinguished figures.

That the screen affords the actor a splendid opportunity to give expression and scope to his talents is the belief of this distinguished player.

"The art of pantomime as expressed in motion pictures," Mr. Lackaye asserted, "is a welcome opportunity to actors and actresses of the present generation. It is especially welcome because it affords them an opportunity to place their personalities and their talents before an audience much larger than the public that attends the legitimate theatre. And to the true artist this means much indeed. Those misguided folk who still maintain that the photoplay is the step-child of the legitimate theatre make a great mistake, to be sure."

WHAT LOS ANGELES CRITICS SAID

Praise "Adam's Rib" After Pre-Release Showing—Many Daring Acts in the Play

Cecil B. DeMille's latest production for Paramount, "Adam's Rib," by Jeanie Machpherson, had its world premiere at Grauman's Rialto Theatre, Los Angeles, an dregistered the greatest triumph of the producer's career, according to the Los Angeles newspapers, all of which gave high praise to the picture.

Guy Price, in the Evening Herald, said: "For novel daring in the production of forest and cave man sequences in the midst of a portrayal of Twentieth Century life it is doubtful if this picture has ever been equalled. Cecil B. DeMille deserves great commendation as a director. The excellence of the photography cannot be gainsaid. Milton Sills wins the unrestricted approval of all spectators, Elliott Dexter made the most of his part, Theodore Kosloff is a success and Anna Q. Nilsson and Pauline Garon are well suited to their roles."

LIFE OF THE DOUGHBOY DURING WORLD WAR

Official Motion Pictures of Soldiers In Action Reviewed By Amarilloans at Fair Theatre

"Flashes of Action" depicting the life of the American "Doughboy" as it actually existed in the recent world war will begin showing at the Fair Theatre Monday, Tuesday and Wednesday.

A special review of the picture was made Saturday and it can truly be said that it is one of the most interesting and instructive pictures ever brought to Amarillo.

The picture is officially approved by the government and are actual scenes "Overseas."

The film is held to bring back to the ex-service men of this country the stirring days of 1917 and 1918 while to others it is held to give them a true idea of what the boys really went through to win the war.

Mr. Miller, advance man and ex-

service soldier who saw twelve years as an enlisted man and officer says.

"This picture in no way attempts to show the seamy side of the war, nor the rosy side, being simply a sequence of pictures showing American troops from the time they leave Hoboken until they arrive home and are discharged.

"These pictures are so horribly affecting in parts that certain eliminations of battle scenes have been deemed necessary to avoid shocking unduly the sensibilities of the onlooker, but the real conditions of war are exposed in a graphic and faithful manner. "Flashes of Action" is an actual visualization of the war and in every branch of the service on the part of the Americans is included in the scenes portrayed. The result of the work of the United States Signal Corps was designed to be a permanent pictorial record of the war as well as to serve in the immediate purpose of gaining information concerning the progress and plan of the American Expeditionary Forces in France.—Amarillo News.

At the Olympic Theatre Wednesday and Thursday.

Announcement of De Molay Benefit

You have heard of the Order of De Molay for Boys, sponsored all over the world by the Masonic Bodies.

Plainview has recently installed a very active Chapter, and the boys are making wonderful progress in their preparation for better citizenship. The boys themselves are working hard to raise the necessary funds to carry on their work, but this is necessarily slow. Needed funds for equipment amount to approximately \$700.00 at this time.

We desire to do our part toward helping Plainview Chapter of De Molay meet its requirements and proceed with their program of building for citizenship.

We have, therefore, planned to set aside one day at our store as **De Molay Day**. The Chapter has accepted our plan and will heartily help us make the day a real success for their benefit.

On this day, in addition to our already low prices, we will offer some tempting specials, and a percentage of every sale goes to the De Molay.

ALL DAY WEDNESDAY, APRIL 18TH, IS DE MOLAY DAY AT THE A. L. & K. STORE

If you would help the boys in their efforts, hold your purchases for this day, and get your friends to trade on this day also. We bear all expense, offer the same low prices, and the boys get a substantial percentage of the day's business. Then at night, following this big day, the boys will give a De Molay banquet, with a plate charge of 50c which will be added to their necessary budget.

We will not attempt to tell you much of what we offer in this ad, but you can come prepared to meet your general needs on this day. We do, however, wish to advise you of a few unusual items and lines of new goods in the following paragraphs:

HAPPY UNION

April 10.—Garden planting seems to be the order of the day.

Yesterday was a sure enough summer day, but we can't tell what tomorrow will be like.

Last Thursday morning at 1 o'clock the death angel visited in the home of J. W. McCown and took from them their dear wife and mother. She ate supper with the family, seemingly well and hearty, and about one o'clock

she woke her husband and told him she was sick and to phone for a physician, but before he could get on she had died. She leaves a husband and eight children to mourn her untimely death. May God comfort and bless them in their sorrow. She was a good Christian, wife and mother, having found her Savior in early childhood. She was laid to rest in the Plainview cemetery. Bro. H. J. Matthews conducting the funeral services

Quite a number from this vicinity attended the school fair in Plainview Saturday. Ray Hasley won second prize on map drawing.

Mrs. Henry Owens is on the sick list this week.

Misses Ailine and Kathryn Terrell visited in the home of H. H. Tilsor Wednesday.

Ray Halsey is reported to be ill.

The Co-operative club will have their social meeting with Mrs. Byrd Murphy Friday, April 13th.

The county agricultural agent will be at the school house Wednesday night April 11th, to organize a pig club. Hope all the boys and girls over ten years old will be present.

STONEBACK

April 11.—Not having seen any Stoneback items in your great moral guide thought I would let Hale county know we were on the map.

Had a nice rain last night. Spring wheat, rye and speltz looking fine.

A large acreage of cotton will be planted in this community.

Miss Ludie Harrison finished a very successful school Friday, the 9th. The mothers gave a basket dinner in honor of the teachers and children.

March 31, The Stoneback Mothers' Club gave an Easter egg hunt at the school house. A special meeting was called the same day for the purpose of electing officers and changing by-laws and constitution. The following officers were elected: President, Mrs. Robert Lutrick; vice president, Mrs. R. W. Babb; Mrs. Will Harrington was re-elected secretary and treasurer. All these officers are live wires and we are hoping for great things.

April 21, The Stoneback Mothers' Club will give "a pie and cake supper." Mr. Sealing has kindly consented to give a radio entertainment at that time. There will also be other features. A cordial invitation is extended to everyone.

Will be glad if any of the members of the Merchants' Associations of Plainview and Hale Center wish to attend. Everybody welcome. Proceeds to go to the club for the benefit of the school.

Sunday, April 15, at 2:30, the Rev. Palmer will preach to us. A Sunday school will be organized.

Turkey raising is the main topic of conversation among the ladies at present, while the men persuasion are talking cotton and dairy and kaffir and maize.

ANCHOR

April 10.—Wheat in this locality is beginning to show up and with a few more of those nice showers like we have just been receiving it will make good. Some have reported they never had a better prospect at this time

of year.

This part of the country sure seems to be coming to the front with the new dwellings that have been and are still going up and the sod that is being broke out. Mr. Moore is just completing a nice dwelling on his land south of the school house, which he purchased from the Benson brothers.

Mrs. S. E. Leckliter and daughter, Flossie, were transacting business in Abernathy Monday.

Nearly every family of this community was represented in Hale Center Saturday, that being dollar day.

E. T. Chambers and sister, Eunice, of Plainview spent the week end at the Leckliter home, his wife having spent the past week with her mother.

W. O. Ball and wife spent Friday and Saturday in Plainview. They took her mother, Mrs. Lilly Eumford, home and while there they reported a fine sermon delivered by Evangelist Bob Jones.

Mrs. Roy Schwantz returned to her parents, Mr. and Mrs. W. O. Ball Wednesday and her husband will return in about a month. They think they will locate here for the future.

Mr. and Mrs. Ernest Parris and two children of near Hale Center visited her mother, Mrs. Leckliter, Sunday.

Frank White and Mrs. Fosal are both under special treatment of Drs. Gidney and Anderson of Plainview. They have both been "under the weather" for some time.

SPRING LAKE

April 11.—The spring crop that has just been sowed is most of it up and looking fine.

Ed White is doing some house moving this week.

Most all of the farmers have their blank listing finished and are ready to go to planting.

A. Wilson and family were shopping in Plainview last week.

Otis Brown took some chickens to Plainview last week.

R. A. Packard has purchased a 15-30 International tractor and is planning to break some more sod.

Mrs. Earl Gehres visited relatives in Plainview last week.

R. A. Packard and family visited Mrs. Packard's father and mother near Runningwater Sunday.

George Linville and wife were shopping in Plainview last week.

Raymond Gehres visited his father and mother in Plainview Saturday and Sunday; that is that is where he was supposed to be, but we believe there is something else attracting his attention up that way as he now has a Buick roadster.

The rains we have been having the past month have made it possible for Mr. Jordan to finish the west end of the highway that runs through Lamb

GOOD TIMES ARE COMING

With the fine rains the crop prospects in Plainview trade territory were never better, and it now seems that bumper crops at good prices will bless the people this year. Everybody is optimistic for the future, and we are especially so, for the prosperity of the people means prosperity for the banks.

We offer you a mighty good banking place for your money, and the best service and most courteous treatment. Why not start a bank account with us? We welcome you, even though the amount may be small.

Our's is a guaranty fund bank, and your deposits are guaranteed by the State of Texas, so there is not any chance to lose if you deposit your money in a state bank.
