AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at me, which is mussy and troublesome Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bot tle of this old-time recipe improved by very little cost. Everybody uses this pressibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair,

taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and

glossy and you look years younger.

Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La .- "It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. G. Bowman, of 1319 Front Street, this city.

"I was so run-down in health I could hardly go. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, I

was no pleasure to myself. "I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart. "This nervous condition was worse

than pain. "Some one told me of Cardui, and I decided to use it.

"After using a few bottles, I regained my strength. I wasn't so nervous, and began to eat and sleep, and grew stronger and was soon well.

"I have never found anything better or a run-down condition."

If you suffer as this Louisiana lady did, you, too, should find Cardui helpful for your troubles. Get a bottle of Cardui, today. NC-144

KILL RATTLERS.

G. F. Caldwell was in town the other day and said that his son, W. W. killed 15 rattlers in less than an hour. The rattlers were sunning themselves and three of them were over five feet long. The Caldwell place is about eight miles south of town.

Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison, else you may feel a dull misery in the kidney-region, sharp pains in the back or sick headacht, dizziness, the stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys and stop bladder irritation. ON THE MOUNTAIN TOP

Climb the mountain-stand on the peak-and before you there unfolds a panorama extending as far as your eye can reach. Stay in the valley, and your view is restricted by the surrounding hills.

The Sweetwater Reporter-properly used-will guide you to the mountain top. Read it and your vision is enlarged. You get a bird'seye-view of world events. You glimpse the doings of the day.

Fail to use it, and your view is limited—you remain in ignorance not only of events at home and abroad, but of much that concerns you even more vitally-news of the very things that have to do with your personal, every-day life.

Some one might be selling a new, better and more economical food; or a utensil that would add immeasurable to your comfort and wellbeing; or some better material for shoes or clothing—but you would. never know, because of your restricted view.

You may read every line of the news columns, but if you overlook the advertising, you are still living in the valley. You remain uninformed about many things you ought to know in order to live a happy, useful, profitable life in this age of progress.

Climb out of the valley to the mountain top. Read the advertisements Cord And Fabric Tires

A Colonial Calendar.

In days when calendars were unknown there was a way known in which the day of any fixed anniversary could be found-not so easily perhaps as turning up the leaves of a calendar, but just as accurate. Here it is as told by a San Angelo woman, whose mother was taught it by her great grandfather who was born in 1804:

The only fact which had to be known, was the day of the week on which the New Year came. A key sentence of twelve words was used in which one word stood for each of the twelve months. This key sentence was, "At Dover Dwelt George Brown Esq. Good Christopher Finch and David Friar ...

Take for instance the Fourth of July-as July is the seventh month, take the first letter of the corresponding seventh word of the key sentence which is G. G is also the seventh leter of the alphabet, so begin with Monday, the known New Year Day and count seven days which will be Sunday, and this will be the first day of July and the Fourth of July will be the following Wednesday.

'Another illustration-To find the day of the week of a birthday falling on the seventh of May. As May is the fifth month, take the first letter of the corresponding fifth word of the key sentence which is B. B is also the second letter of the alphabet, so begin with Monday, the known New Year Day. and count two days which will be Tuesday, and this will be found to be the first day of May and the birthday will be the following Monday.
