## TO BUILD ROADS WITH TAX ON GAS

Mexican Government Plans Road-Building Program of Large Scope To Connect All Sections.

**TAX CENTAVO PER LITRE**

Richest Portions of Mexico Undeveloped Owing to Lack of Communications With Outside.

By W. A. FOLGER  
(United Press Staff Correspondent)

MEXICO CITY, March 11.—One by one the Calles government is seizing on the vital problems that confront the republic and pressing towards solutions that will bring prosperity to all classes. As is the case with most of Mexico's apparently vexing problems, the question of creating adequate highway facilities is one, the solution of which is simple in conception, but difficult in application.

By the simple process of imposing a one centavo per liter gasoline tax, the government is undertaking a road-building program of wide scope. Hitherto road-building has been a direct drain on the treasuries of the nation, states and cities. Under the new plan there is to be cooperation of all political units throughout the Republic to ward a highway system such as Mexico has never seen but long needed.

The Secretary of Communications and Public Works is at present gathering statistics on the amount of gasoline consumed in the country. When this work is accomplished Secretary Tejada will present the data to Secretary of Finance Pani, who will in turn lay the whole project before President Calles for his approval.

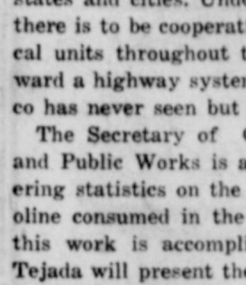

Although there have been sporadic protests from the owners of the automobiles over the project, it now is the sense of the majority of those that they will benefit ultimately along with the others. The oil companies have expressed the opinion that the small tax on gasoline will not affect sales to any appreciable extent.

Under the tentative program the tax will be levied by the Federal government and the construction of highways will be under the supervision of government engineers, assisted by the States and the municipal authorities throughout the country.

Inasmuch as the agrarian elements will be most benefitted by a good road system, the government has circularized the agrarian districts with an appeal that the farm elements assist in the program in any practical way. While the gasoline tax will produce only a small amount of money in the rural districts, it is pointed out that the rural population can assist by contributing manual labor. The agrarians have been asked to notify the government what might be expected of them in the way of assistance.

The plan is to establish a network of highways connecting the richest agricultural sections with the more densely populated towns and cities, thus affording an outlet for produce and probably reducing the cost of living to the ultimate consumer.

## COOLIDGE SEEKS REPLACE WARREN

President Will Submit New Nominee For Attorney General at Present Session Senate.

**NO CHANCE FOR WARREN**

Republican Leaders Confer With Coolidge This Morning Over Disapproval of Nominee.

WASHINGTON, March 11.—President Coolidge will submit a new nominee for attorney general to the Senate before adjournment. Republican leaders declared today after a conference with the President at the White House.

Furthermore, in the opinion of Senator Cummins, Republican of Iowa, the new name will be approved by the Senate at this extra session.

As for a likelihood of the President's re-submitting the name of Charles B. Warren, who was refused confirmation late yesterday after a stormy session, Senator Cummins said:

"It would be hopeless with the present line-up in the Senate. I do not know of any Senators who might be expected to change their vote of yesterday."

## LEAVES FOR WASHINGTON

DETROIT, March 11.—Charles B. Warren, who was rejected by the Senate yesterday as Attorney General, left today for a conference with President Coolidge at Washington. Warren said that at the present time he did not have sufficient knowledge of the situation in Washington to enable him to make any comment.

He was leaving, he said, at the President's request, and would not know what his future action would be until after the conference.

## FRENCHMAN SAYS LOVE NO LONGER THRILLS WOMEN

LONDON (By Mail to United Press).—The thrills of "le grande passion" are no more. This is the opinion of M. Gaston Rageot, president of La Critique Francaise, who lectured on the French post-war drama at Bedford college.

He said that since the war, far from being tremendously thrilled by "a grand passion," women are bored by "Nowadays," said M. Rageot, "if a woman has two lovers she prefers the one who loves her least. She finds the serious and compelling emotion cumbersome."

He added that love to most women was "a nuisance, anyway."

Parks, Barna Haney, Grover Haynes, O. J. Blocker, J. H. Hastings; Sup't. M. L. H. Baze, Mayor A. J. Parker, Turner Snyder, Contractors Stevens and Bolton, Cantrell.

Special to Reporter.

ROSCOE, TEXAS, MARCH 11.—The accompanying cut, courtesy of Fort Worth Star Telegram, shows the new high school building at Roscoe. The building of this structure was necessitated because of the rapid increase in the scholastics in the Roscoe district. Three years ago the Roscoe schools were being taught in one building, of eight rooms and auditorium. The school was unclassified, and one dollar tax had been voted for bond and maintenance. All the grades were crowded. At that time there were nine teachers. M. L. H. Baze, superintendent. All efforts were directed toward standardizing the work and affiliating. More teachers were hired. The auditorium was cut up into class rooms and a study hall. During the year 1922-23 the district was enlarged by legislative enactment, the school was classified as a first class high school, and eight units of affiliation were granted. Plans were laid for greater growth the following year. Being unable to build a new building, arrangements were made to teach

## NATION DEMANDS BETTER SERVICE

Postmaster General Now Having Difficulty Providing Speed and Also Economy.

**WILL BE LARGE DEFICIT**

Salary Increase Goes Into Effect Before Increases in Postal Rates By Many Months.

By United Press.

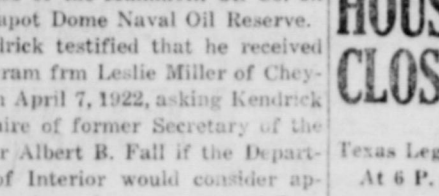

WASHINGTON, March 11.—With the handicap of the new postal bill and increased demands for faster, better service, Postmaster General Harry S. New is doubling his efforts in the new administration to attain the triple goal of economy, speed and modernization of the mails.

The postal bill increasing the salaries of 200,000 clerks and carriers by an aggregate of \$68,000,000 a year starting on January 1 last, and raising the revenue by about \$60,000,000 a year, starting April 15, eliminates the chance of operating the service at a profit this year.

In addition to the \$8,000,000 total increase in money paid out, the fact that the new rates go into effect three and one half months after the salary increases will slice between \$10,000,000 and \$15,000,000 from the profit side of the department ledger.

New has been using heroic measures to hold down expenditures and has been refusing requests of postmasters throughout the country for additional help. He will continue this policy except in case of vital necessity.

By United Press.

AUSTIN, March 11.—Restoration of the full civil rights of former governor James E. Ferguson lost by virtue of his impeachment by legislative enactment setting a precedent in political annals was practically assured today.

Final passage in the House of the Senate bill outlining amnesty for the former governor remains only a formality with sufficient majority available to insure its disposition.

The measure will probably be disposed of today.

It was alternately denounced and defended in an eight hour debate that ended at midnight when the House voted 79 to 53 for engrossment of the bill setting aside the disqualifications imposed upon "Farmer" Jim Ferguson nearly eight years ago.

By United Press.

AUSTIN, March 11.—A letter from Governor Fuller of Massachusetts reopening the discussion with Miriam A. Ferguson over the refusal of Texas to agree to an extradition request and return of Albert Russell of Wichita Falls to face charges of wife desertion, was received at the Governor's office today.

Refusal of Texas officials to honor the request and summarily pass on the guilt or innocence of the person wanted for trial in another state would lead to violations of interstate radials, the Governor's letter said.

There was no comment from the Governor's office here on the letter which will be answered later in the week, she said.

## CITY BASEBALL LEAGUE IS TALK

Gypsum Plant Employees and DeMolays Have Already Organized Teams—Others May Do So.

**MUCH LOCAL INTEREST**

Baseball Fans Reported to Be Much Interested in Proposition—Much Material on Hand.

With news from the training camps of the big and near-big leagues trickling in, and with the return of spring now apparent, local fans of the diamond are longing to hear the resounding smack of horsehide on timber and hands are itching for the sting of the pill, and incidentally, there is quite a bit of talk going the rounds of local sport circles relative to the organization of a City Baseball League for the spring and summer.

Since the demise of the old swatters, baseball activities in the city have been rather limited, confined mostly to occasional contests of high school teams.

There is a world of good argument for a City League, local ball fans declare pointing out that such an organization will be the only means of furnishing the grand old pastime for Sweetwater folks during the summer. There is plenty of available material running around loose in Sweetwater, fans declare, and with the organization of a half dozen, or even less, teams, with a game or two every week during the summer, interest and rivalry are bound to pick up.

The Sweetwater DeMoia chapter has already thrown its hat in the ring, has a team pretty well organized and is now planning ways to secure uniforms. The DeMolays are strong for the City League proposition, it is stated, and are hopeful of seeing other teams organized in the city.

Gypsum employees have found time between turning out sheet rock and plaster to form a nine. The Gyp boys are said to be pulling for a City League and will doubtlessly make it interesting to any team in the proposed league that runs up against them.

There is some talk of an Elks team it is stated, and employees of several business might possibly combine to add several other teams to the proposed league.

## ARE INSTALLED

DeMolays Install New Officers For Coming Year—Plan Enter City League Baseball.

New officers for the ensuing term were installed at a meeting of the Sweetwater Chapter, Order of De Moia at the regular meeting Monday night. The elected officers installed were Clifford Cox, M. C.; Marshall Willis, S. C.; Joe Robertson, J. C.; Leroy McGlaun, treasurer, and Frank Davis, scribe.

New interest and plans for new activities have been taken on by the Sweetwater Chapter. It is reported and several projects by the Chapter are now under way, including the organization of a baseball team, and an orchestra.

The De Moia baseball team, which will enter the City League, had its initial workout Tuesday afternoon in a practice game with the high school nine. An auction of pies and cakes will be held Saturday afternoon at the Court House by the Chapter, the proceeds to be used toward outfitting the De Moia team with uniforms.

**THE BIBLE AND RULERS**

You read that the president, on taking the oath of office kisses the Bible. Eleven of the presidents have kissed particular verses of scripture, while the others have kissed the pages which the upreme court clerk opened at random.

Let us see what verses the presidents have chosen for this ceremony. Grant, first to select a specific verse, chose Isaiah 2:23.

"And it shall come to pass in the last days, that the mountain of the Lord's house shall be established in the top of the mountains, and shall go up and say, Come ye, and let us go up to the mountain of the Lord, to the house of the God of Jacob; and he will teach us of his ways, and we will walk in his paths; for out of Zion shall go forth the law, and the word of the Lord from Jerusalem."

Hayes selected Psalm 18:11-13. "They compassed me about, yea they compassed me about; but in the name of the Lord I will destroy them. They compassed me about like bees; they are quenched as the fire of thorns; for in the name of the Lord I will destroy them. Thou hast thrust sore at me, that I might fall; but the Lord helped me."

Garfield the preacher and the martyr, chose Proverbs 21-1. "The king's heart is in the hand of the Lord, as the rivers of water; he turneth it whithersoever he will."

Arthur's selection was the 31st-23rd verse:

"O love the Lord all ye his saints; for the Lord preserveth the faithful, and plentifully rewardeth the proud doer."

In Cleveland's first inauguration he chose 112th Psalm, verses 1-6. For his second inauguration, he selected Psalm 91 verses 12-16. Harrison chose the 121st Psalm, verses 1-6. McKinley 1st-Chronicles 1-10 and Proverbs 16-20. Roosevelt, alone of all the presidents chose a verse from the New Testament James 1:22-23.

"But he ye doers of the word, and not hearers only deceiving your own selves. For if any be hearers of the word, and not a doer, he is like unto a man beholding his natural face in the glass."

Taft selected 1st Kings 3:10-11. Wilson in 1913 chose 119th Psalm, 43-46, and in 1917, 46th Psalm, first verse:

"God is our refuge and strength, a very present help in trouble."

Harding selected Micah 6:8: "He hath showed thee, O man, what is good; and what doth the Lord require of thee, but to do justly, and to love mercy and to walk humbly with thy God?"

The men who have ruled this nation have found comfort and sound counsel in the Bible. So may any man that walks the earth.

**FLIES**

It should not be necessary in this day and time to warn of the menace of the deadly fly. In the days gone by the fly was regarded as nothing more than a sort of necessary nuisance that got into things if not watched and which always had a fondness for skating on a bald head, especially when the said bald head was getting all set for a nice nap.

Now it has been developed that flies breed in filth, preferably manure. Nor do they take pains to clean off their feet before they walk around on eatables. Not only does the said filth stick to their feet but any disease germs, especially typhoid, that happens to be around is deposited from the said feet on whatever they happen to light on.

Recent warm weather has caused the fly population to bestir itself from winter hiding places. Of course a large percentage of the flies died during the cold weather. But they are prolific breeders. Kill one fly now and millions of its descendants won't have to be killed. For one fly is good for millions of eggs during a single season and in a few weeks time its children will likewise be in the hatching game for all its worth.

Now is the time to repair screens to keep 'em out. It is a still better time to destroy all places where flies might breed. Cover up all such places that cannot be destroyed. Keep flies away from manure and filth and they cannot breed.

A little precaution along these lines now will prevent much annoyance later on to say nothing of possible lives, especially children, saved thru prevention of fly-borne diseases.

**RECORD TRAIN RUN**

Motion Pictures Rushed to New York In 220 Minutes.

PHILADELPHIA, March 11.—A record run of three hours, forty and one half minutes, from Washington to New York, was made recently by a special train of the Pennsylvania Railroad chartered to rush moving picture films of presidential inauguration scenes from the capitol to the nation's metropolis. The train consisted of an engine, one passenger coach and a baggage car.

The special left Union Station Washington at 12:09 1-2 P. M. It arrived at Pennsylvania Station, New York City, at 3:50 P. M.

The run not only established a new speed record between Washington and New York, but is one of the fastest runs of equal length—225 miles in 220 minutes—ever made over any stretch of track in the United States.

Britains Disturbed as Americans Take Lead in Scientific Explorations To the Amazon.

By United Press.  
LONDON, March 10.—Great Britains pride as the premier country for scientific exploration—as the land of Cook and Darwin and Wallace—is being sadly disturbed by America's lavish contributions to science.

Almost every one of the great archeological expeditions which England formerly sent to Egypt, Asia Minor and Greece from her own funds and for her own museums is now affiliated with and partly supported by some American organization, like the Metropolitan Museum of New York, the University of Pennsylvania, the Field Museum, Chicago, of the University of Chicago.

And now word comes that two British scientific expeditions, planned by England, but not sufficiently supported by Englishmen, have passed definitely into American hands.

One is Colonel Fawcett's proposed exploration of the Amazon Valley. He began his arrangements under British auspices, but the lack of contributions forced him to return to New York for help. His expedition leaves shortly for the Amazon under American auspices.

Another of the proposed British expedition to study the Saragossa sea. This has been completely eclipsed by the American expedition under Beebe, which has already left New York and is by this time at work.

All who enjoy real fast-moving action-drama will be right in their glory when Richard Dix's first Paramount starring picture, "Manhattan" opens at the Palace Theatre today for a run of two days. The story is an adaptation by Paul Sloane and Frank Tuttle of the novel, "The Definite Object" by Jefferie Farnol.

The star has the role of Peter Minuit, whose great-great-great-grandfather purchased the island of Manhattan from the Indians and Peter is all for giving it back to them. "There might be some life in the own town then," says he.

You take it from this that Minuit is slightly bored with life. He is just that—a millionaire bachelor who has everything in life except that which he craves most—action, adventure, a definite object, something to live for, to strive and be worthy of. He finds action-plus in New York's Hell's Kitchen and a definite object in the beautiful sister of a youthful yegg whom he befriends.

Universal's latest all star picture, "Riders Up", to be shown at the Lyric Theatre commencing today, was adapted from the Red Book Magazine story "When Johnny Comes Marching Home" by Gerald Beaumont. It is a story of race track life, and the hero is a tout.

The picture was filmed in Tia Juana. Real races and many real track and stable attaches being shown as atmosphere.

The story is that of a youth who drifted onto the race track after saying good bye to his widowed mother and his sister in a little New England village. They believed him engaged in a big business venture and are waiting anxiously for him to keep his oft-made promise to come home.

Fitting of Cruiser to Touch South America Difficult One

LONDON, March 11.—The fitting of the battle cruiser Repulse for the Prince of Wales trip to South Africa and South America is proving a difficult problem, the Daily Mail says.

In addition to the usual complement of 1250 men, room has to be found for the Prince's staff and servants, numbering more than 90, and the fact that so many occasions, climates and conditions must be provided for, necessitates space for an immense amount of baggage, totaling about 200 trunks, 200 chests and other cases.

One difficulty is, the paper says, is that the Repulse is not equipped with a laundry and that therefore a great stock of laundried things must be taken as none can be freshened until Cape Town is reached.

Some of the preparations have to do with the entertainments at which the Prince will be host aboard ship upon his arrivals at various ports. Twenty-one cooks, stewards and waiters will accompany the party and sufficient tableware will be taken to serve 900 guests.

**PEOPLE AVOID YOU IF YOU ARE IMPPLY**

A boy or girl may have ever so perfect a face, neck and poise, but if

even one little pimple, blotch, bump or red spot shows, it ruins their whole appearance. You know how true this is, because you just naturally avoid people whose appearance is not pleasing.

Those things are no longer to be endured, however, because thousands of people are getting rid of the worst and most stubborn cases of such skin

diseases easily and quickly by using Black and White Ointment, and Soap. It seems like magic to eczema, ringworm, itch, "breaking out" etc.

Dealers everywhere are recommending Black and White Ointment, and Soap, now. They are economically priced in liberal size packages. The 60c size Ointment contains three times as much as the liberal 25c size.

The interest of the people and that of the railroad is mutual, and the public should recognize the necessity of that measure of patronage of the railroad that would entitle them to the service that they demand.
