LUBBOCK, TEXAS, "THE HUB OF THE PLAINS"

THURSDAY, JULY 10, 1924

VOL. II. NO. 43.

MORE RAIN SURE TO BOOST CROPS OVER TERRITORY

Increased Acreage Also Plays Big Part in Outlook for Record Breaking Crops

More rain. Warmer weather. Better crops. Record yields. That is the substance of the following story. Good general rains have been reported all over the plains country. Littlefield is satisfied. La-messa, Tahoka, Post City, Paducah—just any direction you go they have all had plenty of rain to bring all crops up to the maturing stage and then with one good soaker to put weight into the feed stuff and fruit on the cotton—all former crop records for West Texas will go to smash this year.

Warmer weather has followed the rains. Cotton, feed and produce are just spreading themselves and the weeds are running a losing race for every plow, harrow, go-devil and middle buster on the Plains is dusting it up and down the cotton rows this week. Candidates are having a hard time shaking hands with the farmers and are complaining of dirt in their shoes after a day's canvas in the fields. But we can do without the candidates a lot better than we can the working farmers.

From all over the plains country comes the report of greatly increased acreage. So far the hail has done very little damage in the section. Wheat harvest is almost out of the way—and crops are in good condition as a result of the labor that is being reaped from the wheat harvest. With crops no better than last year the total yield would have been increased 33 percent for the South Plains. With the present promise of continued crop conditions favorable to a record yield there is no way to estimate the total volume of cotton, feed and other crops to be harvested, 150,000 bales can be conservatively expected for 1924, if present conditions hold up.

General business is good in spite of the usual summer slowness. Many of the merchants over the South Plains section are away on vacation or going to market and the farmers are too busy to do much shopping, except for necessities but the building program continues to hold up well, public construction is under way in practically every town of the plains, banks are in good condition as shown by reports of last week and everything is in a healthy, solid, promising condition for a real expansion through the fall.

YOUNG COOLIDGE WILL BE BURIED THIS AFTERNOON

The first casualty to occur in the White House since William Lincoln died in President Abraham Lincoln's arms shortly after the Civil war was seen Monday night when Calvin Coolidge, aged sixteen, the youngest son of President and Mrs. Calvin Coolidge, died from a fatal blood poisoning from a blister contracted on his foot a week ago today while playing tennis on the White House courts.

Simple service, with only the family and several close friends present, were held yesterday afternoon at the Presidential mansion and the body of the youth, accompanied by a detachment of United States Marines, was sent to Plymouth, Vermont, where regular burial ceremonies will be held today. Both President and Mrs. Coolidge, although grief-stricken, bore up well under the strain of the death of the junior member of the household.

The condition of young Coolidge was first considered serious last Friday although an operation was thought to have allayed the trouble. He has been depicted as a typical American boy by the biographers who have written of him since his illness began. John Coolidge, aged 19, is the only remaining child of the President since his brother's death.

Shallowwater Matron Wins Leader Contest

Mrs. Roy Small, of Shallowwater, won the \$25 diningroom suite given away by the Leader store here at 6:30 o'clock Monday afternoon. Ross Edwards, proprietor of the establishment, stated yesterday. Mrs. Small held four tickets representing an expenditure of four dollars in winning the prize. A crowd which blocked the streets near the Leader store attended the drawing which was superintended by Edwards and done by a blindfolded newboy chosen from the crowd. The drawing was the second of its kind sponsored by the leader store.

WORK HELD UP

Because of the failure of a shipment of cut stone to arrive on schedule time work on the new Presbyterian church has been temporarily halted, according to Contractor J. B. Maxey, yesterday. As soon as the stone arrives, work will be started again Maxey stated.

New York's Governor, Alfred E. Smith, who was the chief opponent of William Gibbs McAdoo for the Democratic nomination for the presidency until the eve of the nomination of John W. Davis. His supporters stuck doggedly by him, although he was never a sure-shot candidate.

CITY TELEPHONE SERVICE BETTER

May Erect Building For Use of Telephone Company Here as Stated by Manager

In keeping with their promises made to Lubbock citizens concerning better telephone service the local branch of the Southwestern Bell Telephone company has greatly enlarged its local exchange and will continue to do so until the wants in that line here are fully cared for, H. D. Phillips, district manager, stated Wednesday. That definite plans for the erection of a building in Lubbock for the use of the telephone company may be made now at any time, was also announced by Mr. Phillips.

For the past six months there has been an average of seventy-five or one hundred new telephone subscribers in the city and even the great amount of new cable strung here and new instruments installed has not yet satisfied the demand for telephone service. In order to make the organization more efficient a new local section, which will accommodate 200 additional telephone lines, and two more toll sections are being added to the Lubbock exchange. These additions make this local exchange made up of fifteen sections to handle the 1,500 customers of the company.

New Books Soon

The office here is without telephone books at the present time, the great growth of the business having used all the last printing. However, the new edition is now in the hands of the printers and before long 1,750 new telephone books, at least fifty pages to the book, will be released in the city, Phillips said.

Sheppard Outlines His Platform Here In Address Monday

Senator Morris Sheppard, candidate for re-election to the United States Senate from Texas, addressed a large crowd of local voters here on Monday afternoon in the District Court room of the courthouse. He arrived in Lubbock shortly before noon and left the same night for Sweetwater, where he was billed to speak on Tuesday. He is touring the state in the interest of his candidacy for the high public office.

Senator Sheppard, who has a fine record in the senate and is the original author of the Eighteenth Amendment to the Constitution, was introduced by John L. Ratliff, local attorney, and pleased his audience throughout his interesting and pleasing address. He spoke of his record as a senator and outlined his stand on a number of leading issues of the day. He is well known throughout Lubbock county, the South Plains and West Texas, in general.

NEW STORE PROGRESS

Work is rapidly progressing on the new store for the McWhorter-Johnson clothing company, which will be located at the corner of Avenue I and Main street, in the room formerly occupied by the Watkins Jewelry company and the Candyland Confectionery. The store will open about August first.

Music May Be Given Along With Justice In Courthouse Here

Whether or not it is the intention of county officials to serve music with justice a piano, made by the Hackley company, of Muskegon, Michigan, is located in the outer office leading to the inner offices of Sheriff H. L. "Bud" Johnston and County Attorney Owen W. McWhorter. There will be no disturbing notes pounded out on the instrument however, in the opinion of Deputy Sheriff U. L. George, who explained the presence of the piano by telling that it had been recovered from a customer of the Collins-Decker Music company, of Glensville, upon the inability of the erstwhile customer to meet the regular monthly payments of the instrument.

Little has been brewing in the sheriff's office during the past several days, a couple, F. C. Kessler, a railroad fireman of Pratt, Kansas, and Estelle Wyatt, are being held in the county jail preparatory to being banded to federal officials in Amarillo on charges of violating the Mann act. That case, and the arrest of Emma Fullbright on charges of vagrancy are the only violations of the laws which have been brought to the attention of the county officials recently.

TO SHOW MOVIES TO BOOST LOCAL RETAILERS CLUB

Something new in the way of constructive entertainment and benefit to the city as a whole, was decided upon by members of the board of directors of the Lubbock Retail Merchants Association at their regular meeting held Tuesday afternoon in the Chamber of Commerce offices. The new educational stunt will be submitted to Lubbock people in the form of fifteen reels of moving pictures on the value and workings of a retail merchants association.

These moving pictures will be shown in conjunction with regular programs offered at a local cinema house. Which one of the moving picture houses will co-operate with the organization has not yet been decided but the regular films will be shown on certain days of the week, just as ordinary serials are handled by the motion picture theatre owners.

Tuesday night, beginning at 8:15, approximately fifty members of the organization attended the second regular meeting at the Busy Bee cafe. A good program, handled in snappy style, resulted. According to members of the association, many merchants heretofore, non-members of the organization, are joining and are finding that the association is beneficial to themselves personally and to their business as well.

Cotton Exchange Is Located In Lubbock

The Plains Cotton and Grain Exchange, a new concern with headquarters in New Orleans, is establishing offices here in the Merrill hotel building, where the Jones Brothers clothing firm was formerly located, with H. W. Moore in charge, it was announced here this week. The opening of the new exchange will make two regular cotton exchanges located in this city.

The J. W. Winger Company owns the exchange which will be operated here in connection with their New Orleans business.

MONEY REFUNDED

Over \$5,000 has been refunded to persons who contributed to the Tech fund here last year, it was announced by the Chamber of Commerce. Many of the donors are turning their rebates to the Chamber of Commerce for use in other channels and more are invited to do so, officials state.

EXCAVATION FOR ADMINISTRATION BUILDING BEGUN

Actual Work on First College Structure Started Here on Monday Morning

Excavation work for the basement of the administration building of the Texas College of Technology was started Monday and a number of teams and workers are being kept busy on the college site every day, an investigation of rumors to that effect proved yesterday. The excavation contract was sublet by the Ramey Construction company, of El Paso, who signed to erect the first building of the Lubbock school, and an experienced excavating firm, formerly employed extensively by the Santa Fe Railway company, has taken over the work. Four teams and six men are employed on the project.

The decision to begin the excavation work Monday was made here last Thursday when Dr. J. E. Nunn, of Amarillo, and Hon. R. A. Underwood, of Plainview, members of the board of regents, met here with President Paul W. Horn, J. L. Hedrick and County Surveyor Arch Harris and went over the campus and decided the exact spot where the first building was to be erected. Hedrick is a member of the architectural firm of Sanguinet, Staats and Hedrick, of Fort Worth, the company drawing all the plans. The administration hall is being built approximately two hundred yards south of Broadway as that thoroughfare leads from the city and when completed will face south. It is being constructed along the lines of the Spanish Mission type of architecture and will be a buff color to match the surrounding geographical peculiarities of this section of the state.

The building will not be built for future needs but will rather be erected for use during the next few years. When it is completed this time, it will form a nucleus of the building which is expected to be four times as large in the future as this section, according to a statement issued by President Paul Horn upon his return to Lubbock from the contract lettings.

MANY VETS HERE APPLY ON BONUS

Miss Mae Murfee, Secretary of Lubbock's Red Cross, Aids In Making Requests

Over one hundred veterans of the world war have applied to Miss Mae Murfee, secretary of the local Red Cross, for the bonus which is due them following the recent act of congress allowing financial compensation to ex-service men, according to a statement issued by Miss Murfee yesterday. The bonus applications are being handled for Lubbock county through the Red Cross department and Miss Murfee will also aid ex-service men of neighboring counties where no appointments have been made to care for the needs of the veterans in their own home counties.

In speaking of the bonus applications Miss Murfee expressed her surprise at the number of Lubbock county boys who have the maximum sum of approximately \$1,500 coming to them. A great number of the hundred veterans who have already applied to her for aid in making their applications have figured that they have the maximum amount coming to them and as they are only a part of the total number of veterans here she is sure that there will be a number of others who will make the same application. Since it is necessary for all men applying for a bonus to submit their fingerprints when doing so the Plains local business men of these meetings and ex-service men who drop into this office any time of the working day and get the material to make an impression of their fingers absolutely free of charge.

Home Demonstration Agent Is Installed Now In Lamb County

Miss Bertie Lee Burkhalter, formerly of Canyon, Texas, has been installed as county home demonstration agent for Lamb county, with headquarters in Littlefield, according to a statement issued by Miss Mamie Lee Hayden, of College Station, district home demonstration agent, who was transacting business here the latter part of last week.

The addition of Lamb county to the West Texas counties maintaining professional home demonstration agents makes the practice even more general than it has been in the last several years. Counties in this territory maintaining agents are Lubbock, Hale, Floyd, Crosby, Mitchell, Lamb, Lynn, Dawson and Dickens.

Home demonstration work in this section of the state has been found to be very beneficial to the rural communities and farm homes.

Earl Seale, cashier of the First National bank, of Kerenes, Texas, passing through Lubbock Thursday evening en route to New Mexico and Colorado points, Mr. Seale was highly elated with the growth of the South Plains.

William Gibbs McAdoo, of California, who ran a strong race for the presidential nomination in the National Democratic Convention which ended today. McAdoo withdrew from the race at the close of the 99th ballot when he saw the meteoric rise of John W. Davis, of West Virginia, the compromise candidate.

Lubbock Is On Fine Foundation Reports Of Banks Here Show

That Lubbock is a good business town, that the financial condition of the city is good and that the city has been existing in prosperity are all well known facts and have been taken as such but the statements issued by the three local banks at the close of business for the first half of the year 1924 show the facts to be well backed up with figures.

On the first of June a total of \$2,920,192.73 was found to be invested in the banking business in the city. Of that amount the Lubbock State Bank accounted for \$2,285,983.49. The Citizens National Bank showed financial connections amounting to \$568,293.94 and the Security State Bank accounted for a total of \$65,905.30. The statements issued by the three financial institutions showed that business conditions in Lubbock are on a firm foundation and that taken as a criterion, the entire South Plains is in a healthy financial state. With the crops yet to be seen it is only logical to believe that next January, when another statement will be made, the banks will be found to be bigger and stronger than ever.

COMMITTEE FOR C-C FRIENDSHIP APPOINTED HERE

Two neighboring cities have recently held general Chamber of Commerce meetings and a third one will be held on next Monday night and so that Lubbock may always be well represented at the meetings of this type over the territory, it is the plan of the directors of the local chamber to appoint a standing committee to inform local business men of these meetings and urge their attendance to them. It was stated from headquarters yesterday.

Last Monday night in Crosbyton, two hundred men and women met for the annual meeting of the Crosbyton Chamber of Commerce when officers for the coming year were chosen and a report of the secretary submitted. A. E. Davis, manager of the Lubbock Chamber of Commerce, and W. H. Bledsoe, local attorney, were in attendance. R. A. Underwood, of Plainview, a member of the board of regents of the Texas Tech, made the principal address of the evening.

The following night, a general get-together meeting was held in Adkins. The community house there was filled to capacity and a general benefit to all attending resulted. A number of local citizens attended. On Monday night of next week the newly organized chamber at Meadow invites Lubbock citizens to attend a general meeting to be held in that city.

Change Announced In Lubbock Hotel Plans

Plans for the erection of Lubbock's new hotel as made by T. R. Peacock, of Dallas, have been eliminated and unless Peacock submits another and more feasible plan other steps to provide this city with a modern and strictly up-to-date hostelry have to be taken, according to information issued from Chamber of Commerce headquarters yesterday.

Peacock wired his inability to complete his first deal and stated that he was working on another plan at this time. Directors of the local Chamber of Commerce are also working on another plan for the hotel.

"Lubbock will be the cotton center of Texas before many years." That was the opinion voiced by E. M. Westbrook, cashier of the First State bank, of Kerenes, Texas, when he visited this city today enroute for New Mexico.

DEMOCRATS CALL UPON DAVIS AND BRYAN FOR RACE

Former Ambassador to England And Nebraska Governor Bear Colors in Campaign

John W. Davis, of West Virginia, and Governor Charles W. Bryan, of Nebraska, will lead the Democratic party's battle for the presidency and the vice-presidency, respectively, it was decided in the national convention which was brought to an end after more than two weeks of wearisome balloting.

Bryan named today. Governor Bryan received the nomination early this morning on the first ballot, winning handily over Alvin Owsley, of Texas; Major George L. Berry, and other close opponents. Bryan was decided to be given a run for the nomination in a conference of party leaders after Senator Thomas Walsh and E. L. Meredith of Iowa, secretary of agriculture under Woodrow Wilson, had refused to consider making the race.

CONTRACTS MADE ON HIGH SCHOOL

August First Named As Day for Opening of Construction on Senior Building Annex

Construction contracts for the addition to the local senior high school building were let here Monday night. The West Bond Construction company, of Amarillo, was the successful bidder for the general contract and received the work at a price of \$75,494. Actual building on the project will commence on August first, it was announced after the letting.

The New Mexico Plumbing company of Lubbock, will do the plumbing work. The contract calls for the work to be done at a cost of \$11,934.75. With a bid of \$2,199 the Spencer-Nunn Electric Company of Amarillo, signed to complete the wiring on the building. Face brick will be furnished by the Acme Brick company, the same organization furnishing the brick for the original unit of the building, having no trouble in selling the product on the match job basis. The Reliance Brick company furnish the common brick used in construction.

Bonds Taken Care of. Peters and Haynes, local architects, will draw all of the plans for the building, which will be complete and modern in every detail. The Lubbock insurance company handled all of the bonds and also handled all of the building insurance on the structure. A total of \$2,900 is represented in the bonds written for the addition by the insurance concern. Pete Posey stated this morning. The Merrick company has been given the contract to furnish all of the hardware material on the project.

LUBBOCK COUNTY COTTON ALREADY SHOWING BLOOMS

Cotton has begun to bloom in Lubbock county! That was the discovery of County Farm Agent, David F. Eaton, when he visited the farm of R. A. Burton, who resides in the Hardy community, seven miles northwest of Shallowwater. The first part of this week, the cotton on the Burton place began blossoming on July Fourth and after his inspection, Eaton returned to Lubbock bearing a plant with the bloom attached to prove his word.

On the farm of Will Dodson, adjoining that of Burton, there is also a field of cotton in bloom. Both men are extensive cotton planters and it is the portion of their crop planted early in the spring which is now showing the blooms, it was stated.

Eaton has been busy with his farm work and has been doing a great deal of visiting to the homes of his club members. He is keeping the boys interested in the pure seed drives and reports boys club work as progressing nicely. In connection with the pure seed work the agent, with R. E. Karper, of the experimental station, and J. D. Timms, of the Santa Fe Farm Agency, has been visiting the various pure seed plots and reports that they are doing very well and bid fair to be highly successful.

Huge Klan Parade At Slaton Held Tuesday

Approximately 1,200 members of the Ku Klux Klan, including about 100 women members of the ladies branch of the organization, marched in a parade in Slaton Tuesday night before one of the largest crowds ever gathered together in Lubbock county. The parade and the barbecue which followed it was held peacefully and no trouble was experienced.

Special officers were stationed throughout the crowd to prevent any opposition to the parade. Scores of Lubbock people, escorted to the neighboring city to view the proceedings. The marchers were recruited from clans all over the South Plains.

CONTRACTS MADE ON HIGH SCHOOL

August First Named As Day for Opening of Construction on Senior Building Annex

Construction contracts for the addition to the local senior high school building were let here Monday night. The West Bond Construction company, of Amarillo, was the successful bidder for the general contract and received the work at a price of \$75,494. KILLED WITH AXE

SAN ANTONIO.—Harley Hoffy, 25 year-old, World War veteran, died Saturday at Robert B. Green Memorial Hospital from a crushed skull inflicted when a man wielded an ax upon him and Mrs. Jesse Billings in the

Billings home at 223 Ugalita street early Saturday. In an adjoining ward Mrs. Billings lay at the point of death, her head bandaged for scalp wounds and her skull probably fractured. A man telephoned police to come and get him after the tragedy.

MAKING TEST ON DAIRY HERDS IN LUBBOCK COUNTY

Herds are being brought up to Sanitary Standards; Need is Seen for Health Officer

The dairies around Lubbock are bringing their herds up to the proper high sanitary standard that should be required by a city of this size. Additional herds are being tuberculin tested by responsible veterinarians and patrons, are therefore protected in the use of milk from such cows.

Few people appreciate the great importance of taking care to see that their milk supply is from properly tested herds, that the dairies are kept in a sanitary, modern condition and that due care is maintained in delivering the bottled milk to their homes. A tour of investigation to the dairies, the slaughter pens and other sources of food supply might be a revelation to some customers. It is unfair to the milk man, the meat man or the groceryman that is conscientious in the conduct of his business for the protection of his customers to have to sell produce in competition with dealers who have no regard for sanitation and health. Lubbock's greatest need is a full time health officer to make regular and detailed inspections of all sources of food supply, slaughter houses, dairies, and other plants that prepare food for the citizenship of the city.

O'DONNELL BOY DROWNED. O'DONNELL.—While in swimming, fifteen miles southeast of O'Donnell, Frank Arace, 13 years old, was drowned. A friend, who was with him, rode a horse into the pool but failed to rescue the youth. The horse was also drowned.

CONFEDERATES MEET. GEORGETOWN.—The Williamson county Confederate Association met in annual session at Jonah, eight miles east of Georgetown, Saturday, where a program was furnished by the Magee-Brigham Chapter U. D. C., which organization also furnished dinner for the occasion.

Grapeland Man Sees Great Improvements in Lubbock Section

T. H. Leaverton, wife, daughter, Ada Belle, and Miss Melba Brock, from Grapeland, Texas, passed through Lubbock, visiting a few days here with D. N. Leaverton of this city, on their way to California and Pacific Coast points.

Mr. Leaverton is a lumberman in Grapeland and expressed his great surprise at the large building program under way, not only in the city of Lubbock, but in the surrounding towns and rural districts. "I have seen more new farm homes in the last 24 hours than I have seen heretofore in the past five years," stated Mr. Leaverton.

LUBBOCK COUNTY GINS ARE BEING OVERHAULED NOW

If you pass any gin in Lubbock county and the South Plains you will see evidences of repair work, improvements and expansions under way in preparation for the record-breaking cotton crop that is to be marketed here this coming fall.

New machinery of the latest proven type is being added, the old equipment being tested and brought to the highest standards of efficiency, extensions and rearrangements are being made in order to more efficiently handle the crowded yards that are to be expected this fall and things are being shipped into shape to give Lubbock county the best gin service in the history of the section.

The gin record of last year will look sick before the last bale is turned out this year—according to all estimates and predictions at this time. "Let her come, boys, we'll be ready," say the gin men.

MORAN MAN KILLED

MORAN.—J. C. Fite, 23 years old, was killed this morning when his team ran away, throwing him under his wagon and crushing his skull. Fite was working with a thrasher crew on the B. L. Chaney farm at the time of the accident.

Mr. Fite is survived by his father, mother and several brothers and sisters.

SEWERS FOR MIDLAND

MIDLAND.—Work on the construction of a sewer system in Midland will start as soon as the Supreme Court hands down a decision relating to the sale of municipal bonds.

The \$48,000 sewer bond issue and the \$7,000 watermain extension issue were bought by the Commerce Trust company of Kansas City at a premium of \$1,595 with accrued interest at 6 percent. The Municipal Engineering Company of Dallas will construct the sewer system.

HOLD BRITISHERS

GALVESTON.—Capt. W. H. Farrell, master of the British schooner Island Home, and members of his crew, were found guilty in federal court here today on charges of conspiracy to violate the tariff and prohibition acts. R. D. Thompson and Tom Cobb, the latter a former Galveston policeman, were found not guilty.

GREAT FIELD IS SERVED BY PAIR OF SANITARIUMS

Although Little Praised Local Hospitals are Efficient and Far Above Average

There is one class of business in Lubbock that by its very nature is little advertised or heard of. That is the hospital business as represented by the West Texas Hospital and the Lubbock Sanitarium. An hour spent in either institution will give you the first impression that this certainly must be an unhealthy country—for they are always crowded, sick folks are coming and going all of the time, their friends are visiting them, asking about them, or sending them flowers etc. But if you stop to talk with them you will soon discover your mistake.

This is not a sickly country but the reputation of Lubbock's hospitals has come out until patients are coming here not only from the surrounding counties but the adjoining states and more distant counties. The money that is put into circulation in Lubbock thru the hospitals will run well over a half million dollars per year—including the expense of friends and relatives visiting the patients if will run closer to a million dollars per year. And the financial end is not the most important end of the importance of the hospital business in the city.

Good Will Builders

The hospitals are good will builders for Lubbock. A sick man wants attention and when he gets cured he doesn't forget it in a day. Missionaries do better work when they are assisted by capable hospital facilities and white doctors. Lubbock stands better than out West Texas as a result of her hospitals and if the citizenship of Lubbock will take a few minutes now and then to visit these hospitals, meet the friends and relatives who are visiting patients in the institution and let them know that we appreciate having them come here for their specialty service, show a little human interest in their troubles—every single one of them will go away a whole-hearted Lubbock booster.

NEW BUILDING STARTED

TAHOKA.—Construction has been started on a new stone building at New Home, the best of one of the most prosperous and progressive communities in this section. The structure is the property of Jim Izzard, a merchant of that town. New Home is 15 miles northwest of Tahoka.

CAMPER INJURED

FORT WORTH.—U. Collins, 66 years old, of Abilene, was struck at 7 o'clock Saturday night by an automobile on Camp Bowie Boulevard, opposite the municipal tourists' camp, where he was camped. He was badly bruised about the body and limbs, according to attendants at Baptist Hospital. The driver of the automobile failed to stop and render aid.

WE WANT 'EM

Bring those young frying Chickens to us. People like fried chicken and we have been having a hard time feeding the chicken-eating public.

Prices won't be any higher. Always the best prices on poultry, eggs and hides.

NEW PERMANENT Exposition Buildings and Grounds

Many thousands of dollars are being spent in making a permanent home for the Amarillo Tri-State Exposition. A plot of land, comprising 129 acres, adjoining the city limits on the east, has been purchased and is being rapidly improved. The race track and grandstand are already completed. The grounds have been fenced and driveways graveled. Trees have been set out and a water system put in. The main exposition building is almost completed. The city pavement is being extended to the gates of the exposition grounds. Separate buildings will be built to house the—

CATTLEMEN HURT BY DROPPING OF MARKET PRICES

Cattle Business in West Texas Is Poorest in Years, Chas. L. Middleton Says

"Cattle business in West Texas is the worst in years," Chas. L. Middleton, manager of the Lubbock Cattle Co., who is well known in the industry, said today. "The breaking of so many acres of former pasture land into crop lands and the decline of the market prices were the reasons advanced by Middleton for the poor showing in the business which once formed the foundation of wealth in this section of the state."

I. E. (Doc) Barr, a cattle inspector and generally regarded as an authority on the cow business, recently made a trip through the cattle country and upon his return stated that he had never seen the cattle look better at this time of the year, and that the ranges were in good condition, due to the gen-

eral rains falling over the territory, and it is clearly seen that the trouble lies in the big packing companies and not in climatic conditions or in the actions of the cattle owners.

"More than 300 cars ordered for cattle shipping in some three in Texas were cancelled last week, for the reason that cattle prices have generally fallen within three weeks from thirty to 50 percent of what they are today in the principal markets of the United States." It was said here Monday by D. A. Gaumnitz, manager of the Producers Commission association.

Gaumnitz predicted that something soon would be done by the cattlemen in an effort to stabilize the cattle market. He believes they will reduce the amount of stock shipped, reduce production to a point where the supply will no more than meet the domestic demand and pointed to the fact that hundreds of farmers each week are seeking the new co-operative plan of marketing which has been used so successfully by the producers of other agricultural communities.

"In an effort to lower prices to the consumer a concentrated effort has been made to cut the price paid for the raw material to the farmer," said Gaumnitz. "The packer, has stood out against this reduction, until the coolers have become so full that the cut was unavoidable. Now, the farmer is standing the blunt end of the deal, because he can not pass along the reduction as merchandisers do," it was said.

OLSON LOSES TO FARLEY IN JULY FOURTH TOURNEY

Lubbock Grappler Loses First Decision for Over a Year; Returns to City

Charles Olson has returned to Lubbock, after his wrestling match with Cal Farley in the baseball park at Amarillo on July 4. Olson lost to Farley in straight falls and after four matches with the Amarillo boy now holds an even break with him. Two of the matches have been tie-matches and Olson and Farley have each gained a decision.

According to reports issued by the sporting editor of the Amarillo Daily News, Olson was seriously handicapped in his last match due to his underweight. In order to get down to Farley's weight the local grappler was forced to diet and was weakened when he entered the ring.

The sporting editor of the News credited the match with being one of the cleanest ever held in Amarillo and stated that through his sportsmanship Olson could always have a match and draw a big gate in Amarillo. Plans are already being laid now to match the men for the fifth time. Since his return here Olson has got made any plans for the immediate future but will continue to wrestle in this section of the state. His loss to Farley last week is his first reversal in over a year's time.

DRY OFFICER QUILTS
WICHITA FALLS.—R. W. Morton, Federal prohibition enforcement officer of the Wichita Falls division, northern district of Texas, Monday tendered his resignation, to take effect at once.

COTTON BLOOMING
KIRKLAND.—The first cotton bloom of Childress county of the 1924 crop was exhibited Sunday by T. E. Williamson, who lives one-half mile south of town. This time of the year is about the average period that blooms begin to appear in this section.

K. L. RIGGS

K. L. Riggs, formerly of Collinsville, Texas, who has become West Texas manager for the Texas Life Insurance company in their office recently established here, Mr. Riggs, prior to becoming Lubbock manager, was the star salesman for the company, his corps of six special agents, Mr. Riggs and his wife have established their home here.

LUBBOCK CHOSEN FOR TEXAS LIFE COMPANY OFFICE

K. L. Riggs, Star Salesman, Has Charge of Life Insurance Headquarters Here

The Texas Life Insurance company, with headquarters in Waco, the oldest chartered life insurance company in Texas, has opened offices here for business over West Texas, with K. L. Riggs, formerly of Collinsville, as district manager. The new firm to enter the insurance field here is located in room 210 Leader building.

General life insurance business for West Texas will be handled by the company from the Lubbock office although another office is being operated in the city of Waco. In Mr. Riggs the company has one of the foremost insurance salesmen and district man-

agers in the state. In 1922 he was second in his company in the amount of policies sold. In 1923 he led the field by fully \$250,000 worth of business, and thus far this year he is the first of his company's men to gain a free trip to Cuba, which will be given him in February of next year.

That the new company has come to Lubbock to stay and that it is fully prepared to handle any amount and volume of business is evidenced by the personnel making up the local office. Riggs has six special agents and a cashier under his direction. They are: Matt A. McCall, formerly of Gunter, cashier, who will operate in conjunction with the life insurance work a fire insurance agency; R. P. Markham, formerly of Farmington; Charles Allen, from Whitesboro; W. E. Riggs, of Lawton, Oklahoma; C. F. Meek, of Whitesboro, and George T. Crawford of Lubbock.

K. L. Riggs, star representative for the Texas Life Insurance Company, of Waco, Texas, has been appointed Agency Manager for West Texas, for his company with headquarters in Lubbock, Texas. While still comparatively a young man, Mr. Riggs has had considerable training and experience in the insurance business and his rapid advance from a great customer to the responsible position of Agency Manager for his company within the course of a few years will be noted with pleasure by his host of friends and the insurance fraternity. Mr. Riggs attributes his splendid success to the fact that during his entire career he has never lost sight of the interests of his clients.

Mr. Riggs has always been able to distinguish himself in any undertaking and bears the distinction of being the first man to qualify last year for the prize trip to Cuba and established the entire field force of his company for the entire year in the production of new business. In the training, development and handling of new men, Mr. Riggs is peculiarly fitted and qualified, being a master of both the theory and practice of the business. The Texas Life is the pioneer legal reserve life insurance company of the entire Southwest and its decision to intensify production activities with Mr. Riggs at the helm is most gratifying to the insurance fraternity of the state.

Lubbock is to be congratulated upon the acquisition of Mr. Riggs and his estimable wife and family as their influence will be felt in progressive, civic and social affairs and in his development work in this section he is sure to meet with the hearty cooperation of thousands of well wishers, men and women who appreciate the services that old-time life insurance companies are doing today to alleviate the suffering of a humanity eager to protect itself and loved ones.

EXPECT GOITER EPIDEMIC

KANSAS CITY, (JNS)—There should be an extraordinary number of goiter cases in Kansas City, if the theory that the lack of iodine in drinking water causes goiter is correct. Physicians attending the annual meeting of the American Medical Association in Chicago recently, contended the lack of iodine in drinking water was a contributory cause of goiter. A mineral analysis made by Dr. George F. Gilkison, chemist for the water department, shows Kansas City water to contain no iodine.

STEALS CAR DOORS

SHERMAN, (JNS)—The use of grain doors for domestic utilization became so extensive here that Katy railroad officials were compelled to assign special officers to the task of suppressing the practice resulting in the arrest of two negroes. The negroes had established a clientele throughout the city who purchased their stolen doors for use on garages, barns and various other out buildings. The negroes would remove the huge doors from the car in the railroad yards at night, peddling them the next day.

Straight 7 Per Cent MONEY For A-1 Business Property

No brokerage, deductions, trimmings, penalties, etc.—but simple 7 percent loans with semi-annual interest payments and 5 percent annual curtailment of principal to be loaned on high grade revenue producing business property in Lubbock. Minimum loan at this rate \$7,500.

Our Protected Loan is Cheaper

Our regular 8 percent simple interest business and residence loan, with the insurance protection, is the cheapest, most business like loan in Lubbock and you owe it to your family and good business to investigate before you close elsewhere. We already have \$51,000 loaned in Lubbock as an evidence that we are here to stay.

Do Not Change Your Loan—But Add Protection

If you have already paid your brokerage and have a good loan do not change it—but out of justice to your family protect that loan with a reliable Old Line Insurance policy. There are several good companies in Lubbock—with the Jefferson Standard as best, we naturally believe. Cover your outstanding obligations with an insurance policy and give your family an even break in case anything happens to you.

Our loans are made and our insurance sold on a strict dollar and cents business basis. Investigate both before you buy.

Jefferson Standard Life Insurance Co.

The Store of Quality and Service
LUBBOCK, TEXAS

This \$5.00 Desk Clock is for YOU!

AND IT'S A BEAUTY, too; one that would be a credit to the most attractively appointed home or office. But it differs from all other clocks in that it helps you save money. In fact, if you wish it to tell the correct time, it will be necessary to add something to your savings every single day.

While the Clock is an excellent timekeeper, a nickel, dime or quarter must be deposited every twenty-four hours to keep it running. Pennies and bills can also be inserted but neither will operate the Clock. The Coin Controlled Clock makes saving simple and sure. It quickly establishes regularity in savings and builds successful savings accounts when all other means have failed. We have a Coin Controlled Clock for YOU.

SECURITY STATE BANK & TRUST COMPANY
"Wants to Help Those Who Try"

ALL CROSBYTON OFFICIALS LAUD PARKE N. DALTON

To the voters of the 12nd Judicial District: We, the undersigned, being all of the County Officials of Crosby County, Texas, do hereby heartily endorse the candidacy of Parke N. Dalton, of Crosby county, for District Attorney of this District.

We are intimately acquainted with his record, both as a man and as a lawyer. He is a clean, honorable, high minded gentleman, and in every respect worthy of your trust and confidence. As a lawyer he is unusually capable and the equal of any in this district. He is young, active, energetic, alert, vigorous and absolutely fearless in the performance of a duty.

We recommend him to the people of this district who believe in the majesty and enforcement of the law as the type of man we need to fill this important office.

Jake M. Mabe, County Judge and Superintendent; Green Harrison, County Attorney; Jno. D. McDermott, Sheriff and Tax Collector; Edgar Allen, County and District Clerk; R. E. Smith, Tax Assessor; Mrs. Zach Jones, County Treasurer; W. T. Dunn, County Surveyor.

VETERINARY WORK BEGUN COLLEGE STATION.—Twenty-five veterinarians were welcomed to the A. & M. College Monday morning by Dr. R. P. Marsteller, professor of veterinary medicine and surgery for the annual short course for graduate veterinarians, which will be in continuous session for one week. Other students are expected to enroll Tuesday.

The work will consist of both lectures and clinical work. Assisting Dr. Marsteller besides his regular staff is Dr. A. T. Kingsley of Kansas City and Dr. W. L. Boyd of the University of Minnesota.

HIRE CITY MANAGER.—WACO.—E. E. McAdams city manager of Bryan, has been chosen as city manager of Waco. He was elected tonight by a 3 to 1 vote of the city commission and his salary fixed at \$500 per month.

McAdams is a graduate of A. and M. College and at one time was employed in the science department of that institution, and later in the engineering department.

SAGE TEA DANDY TO DARKEN HAIR
It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old fashioned Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, say well known druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark handsome hair and your youthful appearance within a few days.

ANNOUNCEMENT
Due to a combination of circumstances that in no way reflects upon the ability of Homer Hensley, it has become necessary for me to take over the EXIDE BATTERY contract in this city. Not only will the business be continued upon the same high plane of honest service, full value in a quality product, and expert workmanship, but it will be under the personal management of Mrs. Homer Hensley.

At all times a full line of Exide Batteries, battery repair parts and accessories will be carried in stock and honest, intelligent and expert battery service rendered. My personal guarantee is back of every piece of work, complete battery or repair part that goes out from the company. Give the EXIDE BATTERY STATION a try at your next battery problem and be convinced that our service is better. Phone 442.
Signed: W. T. (BIB) MCKINLEY

GREAT INTEREST BEING SHOWN IN TRAINING CAMPS

Opportunity For Real Vacation Being Given By Government With Expenses All Paid

As the time draws nearer for the Summer Training Camp conducted each year by the United States Government for boys between the ages of 17 and 24 years more interest is being taken in this opportunity to enjoy a good vacation with all expenses paid. These summer camps have been operated for the past three years and an increasing number of young men are taking advantage of them with pleasure and profit to themselves physically, mentally and from a character standpoint.

Partially Military.
The camps run for thirty days and include enough military drill to get the boys accustomed to camp life, and to harden their muscles, give them a good coat of tan and send them home stronger, standing straight, and with a fuller appreciation of the ideals and organization of the United States Military Defense provisions. Athletics, musical entertainments, swimming, all of these things and more are included in the summer camps—all under the instruction of capable officers and directors. Free medical attention is available at all times, careful examinations are frequently made in order to check any possible physical fault that may be developing in the youngsters and everything arranged for a clean, healthy, constructive vacation without cost of obligation on the boy's part.

Enlistment Not Expected.
Attendance upon a summer camp does not mean that the boys have to enlist in the regular army, the national guard or the reserve. It is simply an introduction into military life offered by the government in promoting better health, preliminary military training and understanding of the national military organization system. It places the nation in a better position to meet any emergency such as the last war—without waste of time or money. It is profitable to the government in that it builds better, men, stronger men and better citizens. 2,500 of the allotment of 4,300 have already enrolled. Any one interested may see Curtis A. Keen or Harold Griffith.

Great Progress Is Shown By New City Of Meadow, Is Seen

In conversation with A. C. White, editor of the Meadow Messenger, and newly elected secretary of the newly organized Meadow Chamber of Commerce, some interesting facts were brought out about the growth of this one of the newest towns on the South Plains. Only four years ago Meadow consisted of a single, one-store and four residences. Today there is a railroad station, full time agent, thirty-five separate business institutions, two churches, three church buildings and 143 residences. Not to mention 157 new farms opened this year, 2,300 acres of cotton planted this year, and 100,000 acres of land that is being plowed for wheat during the coming fall.

The new \$10,000 school building is already overcrowded and the old wooden shack will have to be used again until additional buildings can be erected and built.

In short, Meadow, along with a whole host of other new South Plains towns, is stepping out and their growth and development is based upon sound economic conditions that spell continued prosperity.

Miss Hortense Ragland, Lubbock girl and the daughter of Mrs. W. N. Woods, who resides on Avenue T, who has returned here for a several week's visit with her mother. Miss Ragland has been studying in New York City for the past two years under the tutelage of the wellknown voice teacher, Herbert Witherspoon and has recently appeared in prominent parts of New York theatrical successes. Last winter, as an understudy to Mary Hay, who is Mrs. Richard Barthelmess, Miss Ragland appeared in the attractive production, "The Gingham Girl."

Junior Chamber Work On Park Progressing

At the regular semi-monthly meeting, members of the Junior Chamber of Commerce, early Wednesday morning at the Melba Grill, announced that their organization had spent more than one hundred fifty dollars in installing stoves, water and light in the local tourist park. The park is not yet as outstanding as the members mean to make it but they will continue the work until the Lubbock Tourist park is the "best in the west."

Plans are being worked on at the present time whereby benches and tables will be placed in the park for the comfort of the visitors.

ON THE SQUARE

- Rylander is back
- Another girl had her hair bobbed this week.
- M. M. Mitchell admits that he is golf player.
- More loafers than workmen at Lubbock State Bank.
- H. A. Davidson was seen collecting around the first.
- R. A. Underwood herded Morris Sheppard Monday.
- Remodel old Watkins stand for McWhorter-Roberts.
- J. R. Germany spent a few minutes on the streets Wed.
- A number of candidates were shaking hands this week.
- E. L. Robertson is working while the boys take vacation.
- City Commission meets more than Democratic convention.

MAN ELECTROCUTED.—GROESBECK.—J. C. Carlisle, 48, years old, a son of a family, was killed here Monday morning when he came in contact with a live wire while on a pole about twenty-five feet from the ground. It is not known positively whether he was killed by the shock or fell. His body was sent to his home at Rowan, Bastrop county, for burial. Mr. Carlisle was an employe of the Community Power and Light Company.

ATTEND SUMMER CAMP.—SAN ANGELO.—Sixty members of Troop G, 112th Cavalry, San Angelo National Guard unit, left Sunday afternoon on the Santa Fe for two weeks' training at Camp Stanley, near San Antonio. The unit is in command of Captain Lyndon F. Webb, First Lieutenant Dave Bowen and Second Lieutenant J. K. Hewitt, Jr. None of the troop's forty horses could be taken to camp owing to an outbreak of stomatitis among them.

CARPENTER ELECTROCUTED.—ORANGE.—J. O. Young, a carpenter, was killed instantly when he came in contact with a high voltage wire Monday morning. He was putting concrete forms under a switchboard.

STATE OFFICIALS HUNTING FOR MAN WHO LEFT DEAD WIFE HERE

LOCAL UNDERTAKING FIRM APPLIES TO LAW TO AID IN LOCATING FORMER LUBBOCK MAN WHOSE WIFE'S BODY WAS LEFT HERE

A year ago last February the body of a woman was turned over to the Simmons Undertaking company for embalming. Her husband, who for a few months had been a Lubbock county citizen, left the body in the hands of the undertakers saying that he was leaving the city but would return and give instructions concerning her burial.

The body was cared for in the usual manner, placed in a casket and left to await the return of the husband. That was seventeen months ago and the husband has not yet returned to give the burial instructions. The body is in as good condition as the day it was given to the undertaking firm.

Recently, while attending a state convention of embalmers, L. D. Simmons, of the undertaking company, made some efforts to locate the man. It was discovered that he had re-married but where he is at this time is unknown. All attempts to locate him and find out what disposition he wants made of the body of his first wife have failed.

Tuesday's news bulletin from the International News Service, with Texas headquarters at Fort Worth, carried the following article. Lubbock received in the article, probably the first in this article, probably the first in the state of Texas:

FORT WORTH, July 8. (INS)—Efforts are still being made by police and county authorities throughout the state to locate a Lubbock man wanted for deserting a dead wife—the first such crime to occur in the history of state manhandling records.

According to information broadcast by a Lubbock undertaker the man wanted left his dead wife with the mortician for embalming, informing him to await instructions for burial.

Three months later the man married. In the meantime, apparently forgetting about the body of his first wife, lying in the morgue.

Over a year has past and the Lubbock undertaker has had not a word from the husband regarding disposition of the body and has appealed to police for action.

Mother Is Best Pal And Severest Critic

Much has been written about Pauline Fredrick, who plays the leading role in "Let Not Man Put Asunder," but little has appeared in public print about her "best pal and severest critic," Miss Fredrick's mother. She is the constant companion of Miss Fredrick, accompanies her to the studio every day, superintends her wardrobe, sees that the maid is properly trained and attends to every want of the actress. There is a comradeship between the mother and daughter that suggests ideal sisterly affection rather than that of parent and child.

Lyric Monday and Tuesday.

ROTARIANS PLAN TO HELP IN BOY SCOUT MOVEMENT

Scoutmaster Sawyer Asks City Clubmen to Aid in Making Scout Work Success

The Lubbock Rotary Club had a very definite proposition put before them recently whereby the Club could realize a real profit on a very small investment. The proposition was made upon the basis of the Rotary motto: "He Profits Most Who Serves Best" and the investment was to be made in time, thought and care given to supporting the Boy Scout movement and the profits were to be paid in better men, stronger boys, and a cleaner town.

Scoutmaster Sawyer who spent a week with the local scout troop at Crosbyton made a report upon the organization and outlined roughly some work for the Rotary Club in fostering the Scout Work. The club president received a letter from the Silver Falls management commending the boys upon the excellent behavior maintained by all of them during the week's encampment, and especially complimenting Lubbock upon her excellent scoutmaster.

"Maybe they were just well trained for the occasion but the entire citizenship of Toronto made everyone of the more than 8,000 visiting Rotarians and Rotary Anns feel that they were sincerely glad to have them there from the 25 nations represented in Rotary and every visitor went away boasting for Toronto," said Roscoe Wilson in speaking of his trip to the International Convention of Rotary.

Delegates were in attendance from China, Japan, Australia, Oklahoma and other foreign and distant points as well as from all parts of the United States, Canada and Europe. Twenty-

six rings took part, carried by Rotary members from as many nations. In a grand international pageant held the opening night of the convention.

"The great wonder of the entire convention was that every one of those more than 8,000 visitors were there in the interest of a Big Ideal, Goodfellowship between the nations and the businessmen of the world and without any thought of personal, financial or political gain," said Roscoe, in declaring that Rotary is today one of the great promoting factors in the entire structure of civilization.

Judge Randolph, formerly of Plainview now on the Supreme Bench in Amarillo, spoke for a few minutes along the happy vein of business luncheons as friendship builders.

QUEER BABY BORN

ARMA, Kas., (INS)—A female baby with two bodies but only one head, was born to a family near here, according to county coroner E. C. Lightfoot. The infant lived but 40 minutes after birth. The baby, according to Coroner Lightfoot, was joined together in much the same way as the famous "Siamese Twins." It appeared normal in every way. The four arms, and four legs were fully formed, as were the double body and double neck. Besides the regular ears, two others were formed on the back of the neck. The infant weighed about six pounds and was 14 inches long and six inches high. The parents have another child, about three year old normal in every way.

"Wherever the Jefferson Standard is Known—It is Favorably Known," and "There's a Reason."

Keeping Pace--

"Within a hundred mile radius of Lubbock, Texas, will someday be grown as much cotton as the State of Texas now produces."

Our company had already decided to build a cotton oil mill in Lubbock before that statement was made by Dr. Hunter, the Chief Entomologist of the Federal Department of Agriculture for we had already realizing the possibilities of the section as a cotton producing section. We recognized the opportunity and in building here a mill more than double the size necessary to meet the present demands of the section accepted the responsibility of keeping pace with the cotton development of the South Plains.

Profit from the production of any commodity comes from having a dependable market whose prices are in line with the world's markets, and facilities for handling the commodity. These things the South Plains cotton farmers have in the two cotton exchanges in Lubbock. Our Cotton Oil Mill, ample compress facilities, and the Santa Fe railroad. Ours is more than a business—it is a service to the cotton producers of the section and we invite a closer acquaintance between these producers and the officials of our company, and a better knowledge of the facilities and operation of our mill.

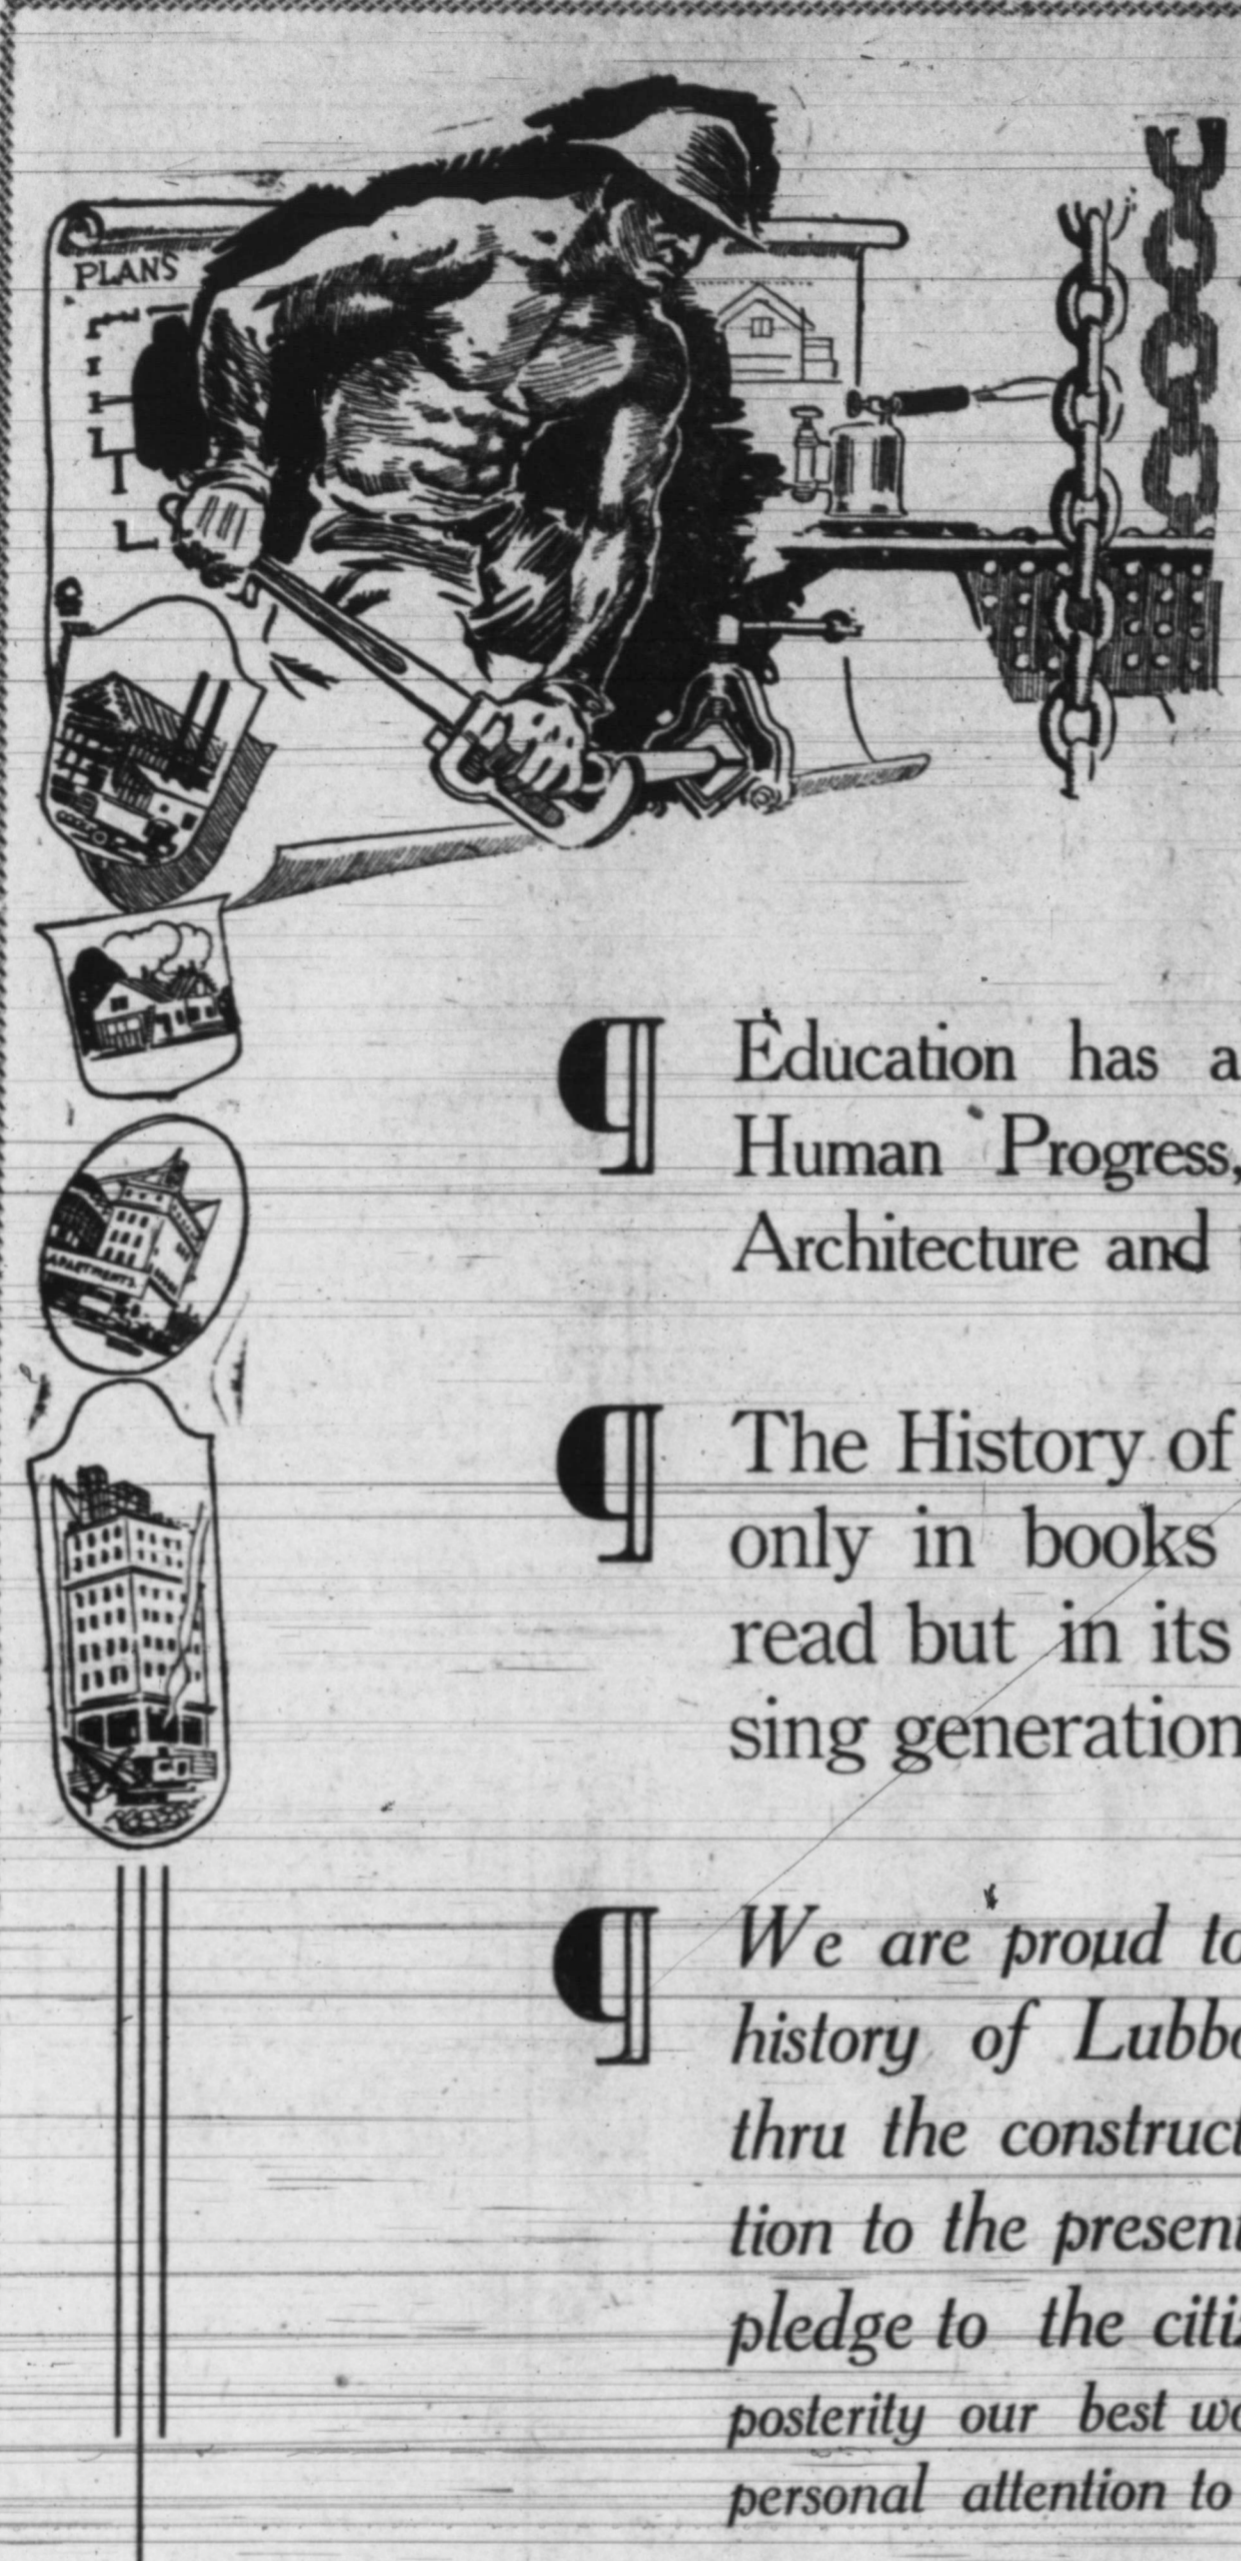

"THRU BETTER ACQUAINTANCE COMES MUTUAL APPRECIATION."

Human Progress---

Education has always lead in the march of Human Progress, to be closely followed by Architecture and the Builders Arts.

The History of a Nation is written not only in books and language for all to read but in its public buildings for passing generations to see and emulate.

We are proud to have a part in writing the history of Lubbock's Growth and Progress thru the construction of the \$125,000 addition to the present High School Building, we pledge to the citizenship of this city and their posterity our best workmanship; highest art and closest personal attention to every detail in its construction.

VOL. II. NO. 43.

LUBBOCK, TEXAS, "THE HUB OF THE PLAINS"

THURSDAY, JULY 10, 1924

WOOL PROFIT AT SAN ANGELO MAY SURPASS COTTON

Money Made by Sheepmen May Make Other West Texas Men Look Like Losers

SAN ANTONIO.—The sale at San Angelo—America's largest primary wool market—of over 5,000,000 pounds of Spring wool, the marketing of much livestock and continued steady improvement in business generally are indicated in the statements of five San Angelo banks June 30, issued on the call of the comptroller of the currency and the state banking commissioner.

Deposits totaled \$5,108,714.14 an increase since March 31 of \$1,192,004.15; total resources aggregated \$7,826,164.76, a gain during April, May and June of \$750,317.53; loans and discounts amounted to \$4,885,866.43, representing a drop of \$465,889.24, and borrowed money was only \$33,337.68, a decline of \$384,322.53. Only one bank had any borrowed money June 30.

All five institutions showed decreases in loans and discounts and borrowed money and the three national and one state bank recorded gains in deposits and total resources. One bank—the Central National—had deposits of \$2,241,469.59 and cash on hand amounting to \$1,450,721.61 on June 30. Deposits June 30 lacked but \$4,881.96 of being as great as on Dec. 31, 1923, when they were greater than at any time since the boom prosperity prevailed early in 1920. Deposits from June 30, 1923 to June 30, 1924, increased \$1,243,669.21, total resources rose \$599,118.74, loans and discounts decreased \$294,421.48 and borrowed money slumped \$548,737.45.

STOLE ONE DOLLAR

HOUSTON. (INS)—George Powell is at liberty under \$1,500 bond charged with the theft of \$1.99. When Barney Brown, service car driver was held up by the highwaymen secured a one dollar bill. Powell was indicted for the theft.

OLD TIMERS TO MEET

SAN SABA. (INS)—Sixty years of age and a resident of San Saba county for forty years will be the requirements for attendance at the Old Settlers annual reunion to be held here August 12. The reunion will be held in conjunction with the San Saba county fair.

Man Sustains Only Small Injuries In Fall of 6 Stories

FORT WORTH.—Eddie Corn, 25, assistant auditor at The Texas Hotel, had a miraculous escape from death early Sunday morning when he fell from the sixth story of the hotel thru a narrow court, to the concrete floor between the northeast corner of The Texas and the Behbold Hotel. Two high tension wires strung from the second floor of each hotel broke his fall, and although Corn was taken unconscious to All Saints Hospital officials said painful scalp wounds and bruises were the extent of his injuries. Corn and a friend were planning to leave early Sunday morning on an automobile tour to Colorado and spent the night at the hotel so they might be sure to be awakened at dawn. It is presumed that Corn, walking in his sleep, plunged through a screen window with a width of less than six feet. Corn was discovered by a night watchman, lying on the floor of the court.

LYCEUM HELD

CANYON.—Wallace R. Clark, head of the music department of the State Teachers College announced today that on July 8th the department presented its first summer lyceum number with Pearl Calhoun Davis, soprano, as the attraction. Marion Douglas Martin, a concert pianist was accompanist for the singer. Both of these artists are known to music lovers throughout the United States.

SURVEY FINISHED

CANYON.—Wallace R. Clark head of the music department of the State Teachers College, disclosed the fact that of the 1399 students, 463 belong to the Baptist Church; 429 are Methodists, 196 are Christians, 79 belong to the Church of Christ, 46 are Presbyterians and 15 subscribe to the Episcopalian creed. The remainder of the students are scattered among a number of churches with only 29 of the entire student body saying they have no church preference whatever.

BREAKS NEWS RECORD

MISSION. (INS)—By turning into print 211 personal news items gathered within three days, Maurine Watson, girl reporter here, has established a national record. The record for minors was formerly held by John Denso of Fort Worth and Miss Ruth Norman—sixteen—of Olaton, Kansas. The youthful journalist is the grand daughter of Mrs. James Watson, editor of the Mission Times and a distant relative of Ian McLaren, the English author.

SPLAWN WONDERS HOW TO GET HIS NAME OFF VOTES

New University Head Running For Railway Commission, Is In Quandary

AUSTIN.—Legal perplexities have presented themselves in the matter of designating candidates for the place on the Railroad Commission to succeed to the place to be vacated by Dr. W. M. W. Splawn when he retires to become president of the University of Texas. Attorney General W. A. Keeling has directed Assistant Attorney General L. C. Spittin, on authority of an election law, to study the act and the authorities and ascertain the exact legal procedure to fill the vacancy on the Democratic primary election ticket. In addition to the foregoing, Dr. Splawn has requested the Attorney General to advise him how he shall proceed to get his name removed from the ticket; that he does not want his name to go before the people in the primary election of July 26, and for that reason he does not want any of the ballots to carry his name. The Attorney General also is looking up that feature. Still further, Dr. Splawn has informed the Attorney General that he is willing to retire at any time that will fit into the legal requirements of the occasion and cause the least possible effort and complications in filling the vacancy on the ticket. Personally, Dr. Splawn hopes to be able to quit the commission Aug. 1 and become the University head, but will conform his plans to meet the Attorney General's views.

BLACKS AND WHITES MIXED

PORT WORTH. (INS)—Ira Black, white, and George White, black, are under charges of illegally possessing liquor. Both men were arrested simultaneously, police clerks registering their names on official dockets finding the above collection of colors grouped accordingly on court records. Black, a white man and White, a negro, were released under \$500 bond.

RICE FARMER KILLED

BAY CITY.—Ed Quinn, a rice farmer living near Wadsworth, was shot and killed there Saturday evening. No cause for the shooting is known. Jim Gilmore—surrendered to Sheriff Frank Carr and is now in the county jail awaiting examining trial.

Legion Picnic Scene Of Gun Duel In Waco

WACO.—At the American Legion picnic near Valley Mills Saturday afternoon, Bud Ponder was shot by Bill Wise, both farmers living near Valley Mills. Five shots were fired from the pistol of Wise, one hitting Ponder in the leg and another in the stomach. Mrs. Ponder narrowly escaped one of the bullets as she was sitting in the automobile her husband was preparing to enter when he was shot. Ponder was rushed to Valley Mills and physicians from Waco summoned. It is said that Wise was at one time a member of the state rangers.

SEND HOUNDS ON TRAIL OF CRIME

Men Who Assaulted Ft. Worth Girl Will Be Captured by Officers Soon

FORT WORTH.—Bloodhounds borrowed from Sheriff Carl Smith are believed to be hot on the trail of the man who Sunday night was reported to have assaulted Irene Heagler, 22, 23 miles northeast of Teague in Freestone County.

A dispatch to the Star-Telegram Monday afternoon said that the dogs are believed to have picked up the trail.

Miss Heagler, daughter of John Heagler, was knocked down, bound and assaulted by a man who escaped without being identified. The girl was so seriously injured that she may not recover. Miss Heagler had just returned from church and had gone into the kitchen to get a drink of water when the man, who had hid in the kitchen, grabbed her. Sheriff Smith early Monday was asked for the use of the bloodhounds and he rushed them to Freestone county.

RAIN FOR CANYON

CANYON.—Rain amounting to .55 of an inch fell recently over practically all of Randall county. No wind accompanied the rain fall and the farmers say that very little wheat will be damaged by it. Oats and cotton will be greatly helped by the precipitation, and all row crops will be put into splendid condition by it. Farmers throughout the county say that cotton is growing very rapidly, and the prospects are very good for a heavy crop.

NAME ATHLETIC COUNCIL

CANYON.—The Athletic Council of Canyon public school is composed of Andy Gilham, C. N. Harrison and S. H. Orton, business men, with Superintendent B. D. Payne and Coach Ray Hale, held a meeting this week at which \$400 worth of athletic equipment was ordered for Canyon high school football team.

FISHERMAN KILLED

MARLIN.—A holiday fishing trip on the Brazos river near P. Tomlinson's farm ended fatally for Sterling Wheeler, who resided west of Lott. Mr. Wheeler was killed accidentally when a shotgun carried by his friend, Carl Windham, was discharged as the latter dropped the weapon in falling and stepped into a boat in the other end of which Wheeler was sitting. The discharge struck Wheeler in the breast and face, death resulting a few minutes later.

EAGLE PROMPTS ZOO

CISCO. (INS)—The gift of a huge American Eagle to the city of Cisco spurred the spark of inspiration in the breast of G. C. Richardson, secretary of the Chamber of Commerce, and now Cisco is confronted with the possibility of having a public zoo. The eagle was donated to aid in the July Fourth celebration. Richardson declared he would make every possible effort to use the bird as a nucleus for a zoo.

BLUE LAWS FOR DALLAS

DALLAS. (INS)—Effective July 29, the haze of the Texas Blue Laws will envelop Dallas. Gasoline filling stations, movies, confectionary stores and all establishments prohibited under the blue statutes will be closed on Sunday. No serious opposition to the unexpected enforcement of the law has been confronted by authorities, the independent gasoline dealers mutually agreeing to close.

FIND DISEASED CATTLE

BROWNWOOD.—There are several cases of mouth disease among the cattle of Brown county. Dr. W. R. Sanderson, veterinarian, issued a statement to the effect that the mouth disease here had no connection or resemblance to the foot and mouth disease of California.

NEGRO KILLER JAILED

MARSHALL.—Jesse Floyd, negro, came in Saturday and surrendered to Sheriff Sanders, giving him an automatic shot gun with which he told the sheriff that he had shot and killed another negro, Henry Rosborough, at his home near Cave Springs. Floyd was locked up in jail.

LADONIA MAN HURT

LADONIA.—On the way to the American Legion picnic at Honey Grove Friday night a car turned turtle and seriously injured Carl Cather, young man of this place and slightly injured two other men in the car with him.

WURZBACH AT HOME

SEGUIN.—Harry M. Wurzbach, Texas' only Republican congressman, has returned to his home in Seguin to spend the summer.

WEST TEXAS C. C. STARTS PLAN TO IMPROVE ORIENT

Condition of Railroad is Now Critical; Rehabilitation Must Start at Once

STAMFORD.—Porter A. Whaley, manager of the West Texas Chamber of Commerce, headquarters at Stamford, when asked in regard to intervention on behalf of the Orient Railway, gave out the following statement: "Dr. Walter Splawn of the Texas Railway Commission and representatives of the West Texas Chamber of Commerce will begin a tour Wednesday, July 9, over the entire line of the K. C. M. & O. Railway in Texas, for the rehabilitation of the line, including prospective purchases of all or part of the line by other systems, which matter was recommended to the Interstate Commerce Commission at Washington last October by a committee of prominent West Texans, who went to the national capital. Mr. Meyer of the Interstate Commerce Commission has telephoned the West Texas Chamber of Commerce that the Orient situation is critical and that some means must be taken by the communities affected to assist in rehabilitation."

GUN VICTIM IMPROVES

WACO.—Bud Ponder, who was shot at Valley Mills late Saturday afternoon, while a picnic was in progress at that place, was brought to Waco and placed in the Baptist sanitarium. He is wounded in the stomach and left leg, but the attending physician does not believe that his injuries are serious. A man was arrested in connection with the shooting. Both live near Valley Mills.

FALLING BRIDGE INJURES 25

BROWNSVILLE.—Twenty-five persons were injured when a foot bridge here collapsed and sent pedestrians hurtling thirty feet to brick pavements. The injured were taken to hospitals. More than 150 persons had gathered on the bridge to watch an automobile be hauled from the river.

Mrs. J. C. Wayland and daughter, prominent Lubbock county citizens, were pleasant visitors in the Plains Journal office Saturday.

Canyon Is Host To District Teachers And Parents Group

CANYON.—The local arrangements committee for the 8th District Parent-Teachers association Training Course which is being given in Canyon July 7th to 12th, under the direction of the State President, Mrs. S. M. N. Marra, reports that the visiting ladies were guests at a lyceum number given at the West Texas State Teachers College Tuesday, July 8th. On this occasion the visitors were given the opportunity to hear Pearl Carhoun Davis, soprano and her accompanist, Marion Douglas Martin.

On July 9th and 10th the visitors will be guests at a story telling program and lecture by R. P. Jarret, head of the Education Department of the Teachers College, and at a program to be given under the direction of Miss Mary Morgan Brown of the Expression Department.

Wednesday afternoon the ladies will attend a meeting of the Young Women's Christian Association, and Thursday afternoon Mrs. Marra and the visitors will be entertained at a reception given by the Parent-Teachers Association of Canyon public school at the home of Mrs. W. J. Flecher.

LYNN COUNTY NEEDS RAIN

TAHOCA.—Though farmers over Lynn county are wishing for rain the crops in this section are holding up unusually well and can stand a considerable amount of dry weather yet. A cool wave which has been passing over this section for the past few days has kept the cotton and feed from budding up.

NEW COURSE AT WACO

WACO.—According to Dr. C. D. Johnson, head of the school of commerce of Baylor University, Waco, that department will, with the beginning of the next term, offer a course in city management. It is not proposed, Dr. Johnson says, that Baylor shall furnish Waco or any other city a fully equipped city manager, but the course will afford young men an opportunity of scientifically studying the ground-work in connection with the city manager plan.

Mr. and Mrs. Charles Reed and family left this week for their summer outing in California.

ONE OF CHICAGO POSTAL ROBBERS FOUND IN TEXAS

Arrest of Man in Del Rio Will Clear up Number of Crimes in Texas, Is Belief

SAN ANTONIO.—With the arrest at Del Rio Friday of Jess Newton, in connection with the \$2,000,000 Chicago mail robbery, officers believe they are on the verge of clearing up a number of Texas bank robberies, notably the New Braunfels, San Marcos, Hondo and Boerne hauls. Newton was brought to San Angelo Saturday night by two Texas rangers and a postoffice inspector and probably will be held here several days.

It was learned Saturday night that four men indicted in connection with the New Braunfels bank robbery in March, 1922, now are under arrest in various parts of the country. Extradition papers for their removal to Texas are understood to have been sent to the governors of the states in which they are held. The New Braunfels indictments never have been made public.

While neither the inspector nor the Rangers would discuss the matter, it was learned that ten men and three women who have been arrested in connection with the Chicago robbery, have been connected with several of the Texas robberies. Newton was arrested at Del Rio Friday afternoon by a Ranger as he entered the grandstand at the rodeo performance. His wife who also was attending the rodeo was taken into custody, and, according to Del Rio dispatches, now is held in the Val Verde county jail. No charges have been filed against her, it was said.

MAN SHOT TO DEATH

MARLIN.—In less than two hours before he was preparing to leave for a visit at his home in Fort Worth, J. M. Higgins, cook for the Central Boarding and Supply Company's extra gang on the I. G. N. Railway at Lufkin, was shot to death accidentally shortly after noon Friday, July 4, by a gun in the hands of Juan Felipe, a fellow-worker. Felipe had a pistol which Higgins wished to purchase. According to information given officers, Higgins asked to see the pistol and Felipe started to hand him the gun. As he did so it was discharged accidentally.

FRANCE BAKER, Vice-Pres.

Your Municipal Light & Power Plant

You must realize that your City Light and Power plant is a standing invitation to industry locating in this city. It's their surety that power costs will be held to a minimum at all times.

That is just one of the many advantages Lubbock offers for the location of needed industries. It is one of the most important.

Dealers in electric stoves are now realizing as never before the encouragement given the public through the operation of this plant. They are assured of a low cooking rate. As efficiency advances in your plant; down goes the cost of current.

Editorially Speaking

The Housing Problem

Lubbock, in line with all other growing towns, has a flock of problems. The problem of City Parks, of financing the Commercial Organization work, of Play Grounds, of Protective zoning, larger school buildings, hard surfaced highways, fake promoters, street beggars, over supply of labor and mush-room business houses; and THE HOUSING PROBLEM.

Rents are too high in Lubbock. Possibly not too high for the man that is making his money in the city in proportion to his growth and prosperity, but too high for the family that wants to move here three or four years for the benefits of the public schools and later for the Tech College. Of course it costs money for a family to move here just for the public schools—that is admitted. But that is one of the obligations of being an outstanding town and we might as well pay and forget it. But steps must be taken now to increase the available rooms and rent houses in Lubbock in anticipation of the certain demand that will follow the opening of the Tech College.

Fifty dollars per month for a three room apartment is more than a student can afford to pay and we might as well admit the fact and start planning on reducing the cost through increasing the supply—or else suffer the consequences when the school opens. Let's get busy.

"Let's Go to the Fire"

That is a relic of the old Country Town days that the folks in Lubbock have never gotten over and it is costing money every time we have a fire. Lubbock has been exceptionally fortunate since the first organization of the city in having a very efficient capable and willing Volunteer Fire Department. From time to time equipment has been added to the department—usually a couple of years after it was really needed, they have been housed in a shack that would hardly serve as a good mule barn, and have worked under various other handicaps and inconveniences. But in spite of all this they have taken care of the emergencies in the city and have kept Lubbock well within the limits of the Good Fire Record and in this way alone have saved the citizenship of the city many thousands of dollars each year.

Soon they will move into their new quarters in the new City Hall. Additional full time firemen will be added to the force. The equipment will be brought closer up to the requirements of the size of the city and their work will naturally improve all the way around. But as long as the average citizen of Lubbock continues to look upon a fire as a little special entertainment arranged for his special benefit and demonstrates his lack of average intelligence by trying to race the fire truck to the blaze the department is going to be greatly handicapped in handling the emergencies that arise from a fire.

Cars are jammed in the side streets, alleys, folks crowd close around the house, hampering the movement of the fire trucks, the hose lines or the work of the department. At a recent fire several minutes were lost while the firemen pushed a Ford coupe out of the way so that the fire engine could be brought into place to handle a hose line. The driver of the fire truck would have been justified in smashing head on into the coupe that the owner had left in the way while he personally rushed around in the house getting in the way of the work of the department.

Let's get out of our country habit and give the fire boys a chance.

Amarillo Is Voting On Huge Fair Park

Lubbock County started something when she lead the state in voting a special tax of five cents for the purchase and improvement of County Recreational Parks. It has been one of the wisest moves ever undertaken by the county and is becoming of increasing benefit each year. But Amarillo is going us one better.

An election will be called for November for the purpose of voting a five cent tax on Potter for the purchase and maintenance of a County Park and in addition to provide for the recreational features such as are provided for in Lubbock county's parks she will take over the erection and maintenance of the permanent fair buildings, the race track and other equipment of the great Tri-State Fair.

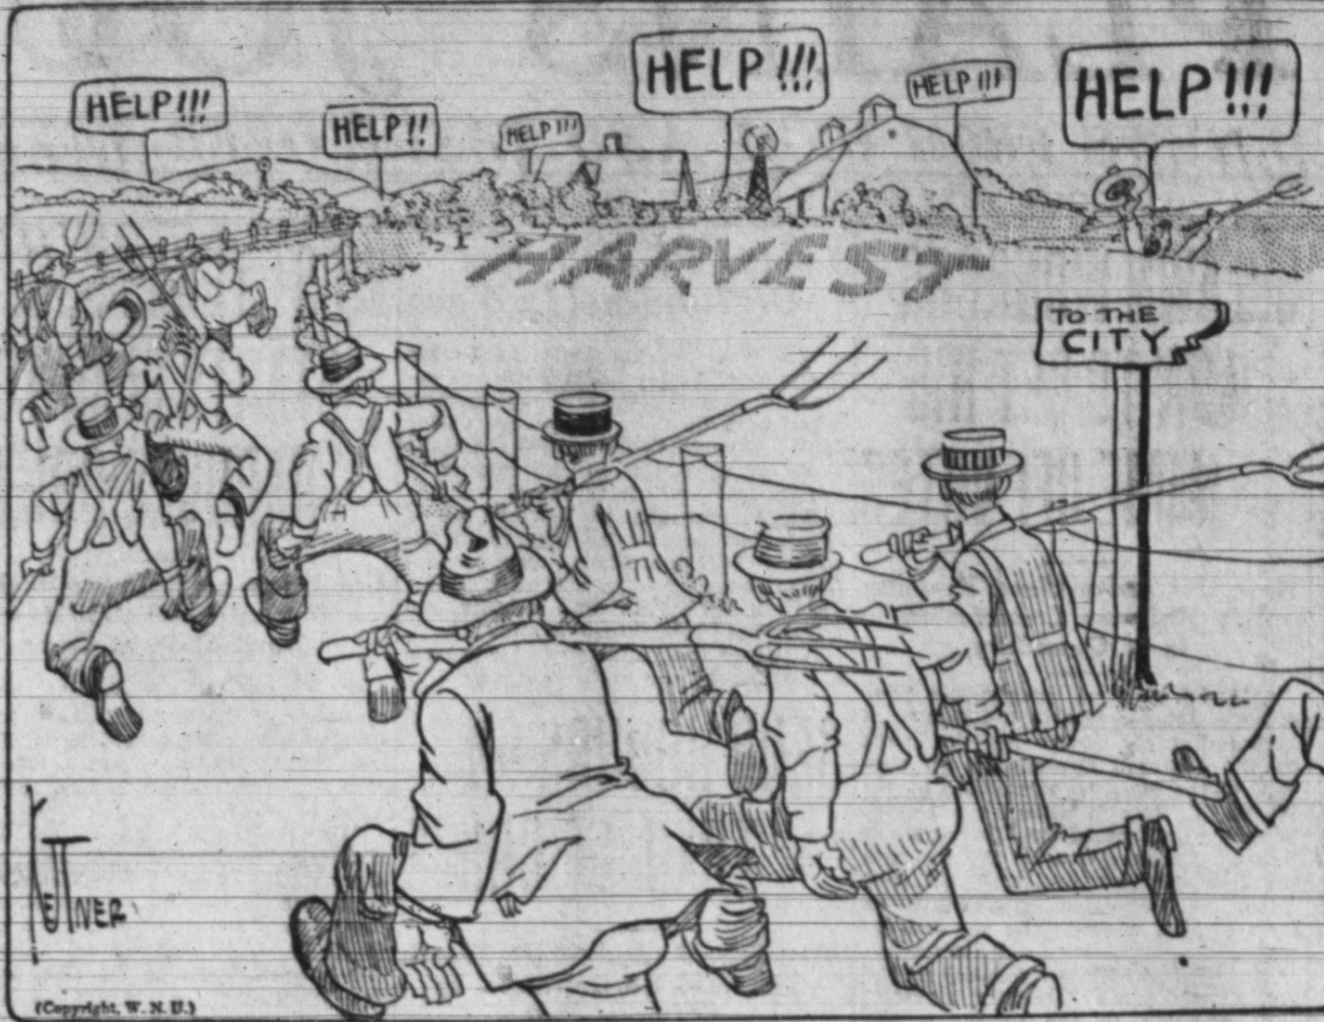

This is a real investment for Potter county who has been a bit short in the past on agricultural development. But there is nothing that will do more to encourage intelligent development of a section's agricultural resources than a well-planned, properly conducted annual fair. Lubbock is leading West Texas with her Panhandle South Plains Fair both in point of date of organization and volume of agricultural exhibits shown—but we need more buildings, better buildings and more permanent buildings and it might be well to study Amarillo's plan of financing and see if something cannot be worked out along that line for this county.

Calamity Howlers Take Notice!

When it just had to rain—it rained. When things were right—the Tech contracts were let. When the schools got just as crowded as they could stand—we started a new building. When the day gets just as hot as we can stand it—night comes. Just before the bottom falls out of things—a change always comes for the better.

The trouble is not with life, with the world, in living—but in your mental attitude. Clean up on your own soured personality and you will find a lot of things worth while around you.

To the Rescue

What's In Town Building for the Town Builder?

"Cities Do Not Happen—They Are Built"—and the Builders are the public spirited citizens who give time, thought, care and money to the job of looking after civic responsibilities, obligations and opportunities. When there is a convention to be had—somebody goes out and gets it, then spends a lot of time, thought and money putting it over in a style that will do credit to the city. When there is a railroad to be had—somebody gives time, thought and money to working up the preliminary details, gets out and raises the necessary bonus and the road is built. Every citizen alike enjoys the advantages of the work.

When there is a fair to be put over, a hotel, a Tech College, a State Experiment Farm, a public school election—any one of the ten thousand things that are necessary to the full rounded development of a modern city—some citizen takes the lead, a dozen more side him and the thing is put over. A Chamber of Commerce is organized. It takes money, time and a deuced lot of work, thought and worry. What to do? How to do it? How to best develop the surrounding trade territory? How much to include in the program of work? What things must be done and what may be left off to a later date with the least damage to the city—for no organization can do everything that is needed to be done just when it is needed. A Retail Merchants Association is organized—with its own problems, its constructive influence upon the trade, growth, development and reputation of the city. All of which require time, thought, labor and more money. The Rotary and Kiwanis Clubs come along with their worth-while program of community building, uplift, progress and goodfellowship. The Elk's Club, the Masonic Orders, the Country Club—the this and that and the other of highly organized modern society—without mentioning the churches, the schools, the ladies clubs, and minor details of all the organizations.

In short, in Lubbock, as in every other growing modern city, about half of every progressive citizen's working time, thought and a lot of his money goes into town building or community work.

Bill Doogen gives half of his time to helping put over civic moves, entertaining conventions, helping with the boy scouts, serving on the school board, and the rest of the time talking necessary civic programs. He has a good little "goofy" business (now goofy may, in this connection mean furniture, groceries, printing, drygoods, gasoline or any other kind of business) is a hard worker, ambitious and deserves to get ahead. When Mr. A. V. Erage Citizen starts out to buy a sack or a spool or a quart of "goofy" does he hunt up Bill Doogen's store and spend his money with him because he appreciates his work in the interest of the city, and the money that he has made Mr. Average Citizen through helping build the town around him?

"Well, maybe he does—but I doubt it."—If we may use the words of an old song. If he happens to drop into Bill's shop and Bill happens to be out working for the good of the town and fails to meet him at the front door with a smile and a glad hand, does he buy his "goofy" from the clerk and come back again and again? "Well, maybe he does, but I doubt it." The chances are that he turns on his heel, crosses the street to Old Man Im A. Ginnit, who has never given a minute's time, a nickle in money or even a passing thought to the progress, growth and development of the city but who is always in the front of his store waiting for customers brought into town and made possible by the work of his competitor, Bill Doogens, and there the business is done.

Bill Doogens is a wonderful fellow, a great town builder, and worth a lot to his community and section, but what does Bill get out of building the town—when Im A. Ginnit owns it? When Bill goes to borrow money does the banker remember that Bill gives a lot of time and money to the building of the town—or does he care more for Bill's financial rating, the property he has accumulated, the profits he is making? When Bill goes broke and needs a good job does Mr. Average Citizen call him in and say "Now Bill, old boy, we appreciate what you have done for the town and are going to back you in getting a new start and want to see you make good." "Well, maybe he does, but I doubt it." Instead it runs about like this—"Well what do you know about that. Old Bill Doogens has gone busted. Just about what I expected. Always a galavanting around over the country blowing off his head about something that was none of his business. I'm darned glad he don't owe me anything." And that the end of Bill.

The moral is—let's spread civic work out a little thinner over more of the citizens of the town and quit working the life out of a faithful fifty. Let's finance our commercial work thru the mill tax plan so that the railroads, the non-residence property owner and the natural born old cusses will have to pay their part of the cost. Let's spend our money with the man that gives his time and thought to the upbuilding of the city and section—and (let me whisper this to you) when you need envelopes, stationery, printing, etc.—take it to one of your newspapers who are trying to build up this city and section instead of sending it to Washington, an Amarillo print shop, or some cut throat mail order house that might save you seven cents on a hundred dollar bill.

The Presbyterians and Methodists adopt pacifist resolutions and then go right on warring among themselves.
AEG International News.

This is also the time of the year when fried chickens are ripe and town people greatly enjoy visiting in the country, notes the Ottawa Herald, Kas.

Kurrent Komment

The calamity howlers, who bewailed that the Tech would never be built here, have stopped moaning since actual work on the building has started. So it goes. The same bunch will be growling about something else in the near future, however. It's just the nature of some beasts.

Most of the people who bemoan the fact that there is nothing to do in Lubbock on Sunday have forgotten that there are ten churches operating in this city and that each of the ten offer two services a day on Sunday. There is no place where Sunday time can be more profitably spent than in church.

D. F. Eaton, Lubbock County farm agents, has already begun to gather up exhibits for the fair. A little co-operation from everybody who wants to see the 1924 Panhandle and South Plains Fair a wonderful success will be greatly appreciated by the fair board. Lend a hand on this big job. It's your fair.

Despite the fact that this is "presidential year" from the reports coming out of the wheat and cotton belts it appears that the fall will usher in a time of unprecedented prosperity. Kansas wheat centers announce a bumper wheat crop being gathered while similar reports are being issued in the other wheat territories. We all know the condition of the cotton growing industry.

The news that actual construction on the paving project is at last in sight is good. With all her progress, all her advancements, with all of the comforts Lubbock extends to her citizenship it must be admitted that there is not another city in this section of Texas which has such a poor system of thoroughfares. The wheels of progress, like the mills of the gods, grind exceedingly slow, but in the case of the streets it seems now that the wheels of progress are destined to grind exceedingly sure.

In preparing for the issuance of the bonus recently voted to service men of the world war by congress the announcement has been made that the department handling the bonus business will be "graft proof." We all hope that it will and unless it is kept in that condition the ideals of this great nation will again be shattered. The solons have decided that cash bonus is due the boys who fought for America and with the passage of the bonus bill that cash bonus is due them and to no one else. Since it has been decided that the money will be spent careful track should be kept of the expenditures and every effort be made to see that the ex-soldiers should get the money and keep others out. Let's hope the bonus department will be kept "graft proof."

Best Editorial of the Week

Capital Punishment

The question of abolition of capital punishment will not down. It is talked about. It keeps cropping up in legislatures. Societies pass resolutions about it. Organizations hold debates about it. The newspapers print speeches about it.

Why? Because of a growing unbelief that the "eye for an eye" develops good twentieth century morals.

It is argued "but murder needs capital punishment as a deterrent." If it were true, everyone would be in favor of capital punishment. It isn't true. One of the reasons why it isn't true is that judges and juries are loath to inflict the extreme penalty. Death for murder is less and less frequent as a punishment, even when it is the law. For instance: during a period of eight years, from 1912 to 1919, in 12 of our states, there were 19,775 homicides, 467 supreme sentences and 336 executions. In New York State during the 10 years from 1912 to 1921, there were 4626 homicides, 193 sentences to supreme penalty, 117 executions.

In England and Wales during the same period, there were 2,668 homicides, 231 sentences to supreme penalties and 125 executions. In four years France had 5,719 homicides, 154 supreme sentences and 48 executions. These are not isolated instances. The same uncertainty everywhere prevails; and statistics show that it prevailed to the same degree 50 years ago.

That is the record; if capital punishment really prohibits murder by terrifying would-be murderers, why isn't it always used as a reply to murder? But if, as is here contended, capital punishment serves but to show the inability of society to do anything with its uneducated morons but kill them, and yet is so loath to do so, that, in but a small proportion of cases where capital punishment is legal it is used, why continue it on the books?

The doctor says, "while there is life there is hope." While there is life, there is hope of a reformation; of a new vision, a making over. To kill those who kill, is, after all, but a confession of weakness; a saying "we don't know what else to do, and its cheaper to kill them than to try to cure them!"

A hundred years hence, the chair and the rope will be as much archaic curiosities as the rack and the thumb-screw today.

If then, why not now? — Scottish Rite News Bureau.

The Best in American Verse

Flag of the heroes who left us their glory,
Borne through their battlefields thunder and flames,
Blazoned in song and illuminated in story,
Wave o'er us all who inherit their fame!
From Oliver Wendell Holmes' "Union And Liberty."

Wise and Otherwise

A lamentation is always twice as long as an outburst of praise, reminds the Atchison, Kas., Globe.

The Wichita Beacon defines a pessimist as a man who wants everything different even after it is.

An Atchison man who frequently complains about the steak for his dog the other day, —Atchison, Kas., Globe.

No woman will ever admit her husband is entirely worthless, except to her husband, notes the Concordia, Kas., Blade-Empire.

A man is arrested for impersonating an officer, but nothing is done to the one who writes "personal" on the envelope containing the circular, complains the Hutchins, Kas., Gazette.

Some men stay away so much that when they do eat at home they look, for the menu.

No "Fourth" of July "is complete without somebody calling our flag "The colors that never run."

Every auto accident is caused by jay walkers or jay drivers.

We have our ups and downs. An optimist looks forward to the ups and a pessimist to the downs.

Justice is blind, but most of us think we are eye doctors.

Some college has been giving the thermometer a few honorary degrees.

Men are known by the company they keep; women by the clothes they keep on wearing.

June is gone and those who managed to stay single through it are fairly safe for another 11 months.

Collectors usually haunt a man when the ghost walks at the office.

A common dog is the safest watch dog. Get a good dog and some burglar is liable to steal him.

No matter how old a gas meter gets, it is always anxious to run.

The demand for people who are polite exceeds the supply.

ADAMS HAS BEEN ABSTRACTOR FOR A DOZEN YEARS

Guaranty Abstract-Title Firm
Was Established Here Back in 1902; Business Fine
Twelve years in the abstract and title business in Lubbock.
That is the record of Charles L. Adams, owner and manager of the Guaranty Abstract and Title company, located in the Merrill hotel building, 1014 Avenue I, phone 420.
And although the company has been the property and under the control of Mr. Adams for twelve years it is now on its twenty-second year and is recognized as one of the oldest abstract and title companies on the South Plains. It was founded in 1902 by M. G. Abernathy, who is still a resident of Lubbock. After running the business for some time Abernathy surrendered his holdings to C. L. Pickett, who ran it until 1908. During that year Pickett surrendered his interests to W. B. Powell, who remained at the helm until Adams took control in 1912.

When Adams took over the business of Lubbock are able to boast of a Yellow Cab company there is one here. It is owned and operated by B. C. McCullum. In the Merrill hotel building at 1010 Broadway with telephone number 688. Two Yellow Cab taxis are operated by McCullum. One is the regulation Yellow Cab car and the other was made especially and has a Willys-Knight motor.
In addition to his taxi business Mr. McCullum also operates a hauling, transfer and excavation business. At present time he has the excavation and hauling contracts for the Lubbock paving and sewer projects and has the concrete hauling for the new Lindsey theatre. He operates seven Ford trucks and employs a total of between twelve and fifteen men.
The Yellow Cab company was begun here in October of last year. Mr. McCullum, prior to that time, having been foreman of the last paving job done in this city. He will add two more Yellow Cabs here in the fall and looks forward to a greater increase in business beginning with the opening of the cool season.
Throughout their business both in the taxicab and hauling lines, the local Yellow Cab company stresses service that will please the customer and with the growth of the city and the increase in the business the same service will be continued, Mr. McCullum stated. He will maintain the taxicab business in Lubbock and will continue to meet the requirement made by the public in the way of service and honest prices.

Mr. and Mrs. Ray Robinson made a trip to Abernathy Tuesday.

Miss Lillie Brown and mother, Mrs. John Brown, and sisters, Ruth and Agnes, and Miss Florence Dyess, were in Shallowater Tuesday.

LUFKIN BOY DROWNED
LUFKIN. — Troy McFarland, 17, was drowned in an unsuccessful effort to swim a lake near the Angelina river at a July Fourth community picnic at Marton's Ferry, fifteen miles from Lufkin, Friday afternoon. Two others who attempted to save the drowning man narrowly escaped a similar fate. Mr. McFarland's funeral was held Saturday afternoon.

Ginghams

WHAT perfectly charming summertime frocks these brightly hued gingham make. They're very popular this season, too. And these prices are so very low, as a result of a fortunate purchase, that you can buy the material for two or three dresses for the price you expected to pay for one. These gingham are guaranteed not to shrink or run. The new low prices are 23c to 49c the yard.

Ford
THE UNIVERSAL CAR

You can buy any model by making a small down-payment and arranging easy terms for the balance. Or you can buy on the Ford Weekly Purchase Plan. The Ford dealer in your neighborhood will gladly explain both plans in detail.

Are old-fashioned marriages best?
Does divorce bring Happiness?
CAN A WOMAN LOVE TWICE?
"LET NOT MAN PUT ASUNDER"

From the Famous Novel by BASIL KING

A powerful drama of love killed by pride; of an empty home; of a bride's second wedding to a man who loved another.
