LOWER EXPRESS RATES ORDERED

I. C. C. ORDERS REDUCTIONS OCTOBER 1 AMOUNTING TO \$20,000,000

RATE MAKING REFORMS

Cost of Shipping 50 Packages Any Distance Will be Less—Other Reductions

By Associated Press.
Washington, Aug. 4.—Reductions in express rates which will cut the revenue of the Interstate Commerce Commission approximately 10 per cent of their gross revenue, were ordered by the Interstate Commerce Commission today to become effective October 1, 1913. Notable reforms in the application of rates were also ordered.

The 100 pound rates for short distances either have been left unchanged or slightly reduced; for longer distances they have been lowered. For 50 pound packages all rates have been reduced. For packages of more than four pounds going more than 200 miles and less than 2000 miles the rates are generally lower than the parcels post rates. For packages of more than four pounds going more than 2,000 miles the rates are practically the same.

The express companies had filed statements claiming the losses of revenues under the proposed rates would be intolerable and argued that the establishment of the parcels post had deprived them of thirty per cent of their revenues from parcels 11 pounds and less. They contended that the express company could not survive if the rates were enforced.

"This is equivalent to saying," commented Commissioner Marble in his report, "that inasmuch as the shippers have been given a convenience and economy of the parcels post, the express carriers must on that account be allowed to charge higher rates than would otherwise be right."

The new system is not only a simplification of rate methods but in the opinion of rate experts lays the foundation for future rate making in the express business.

DEATH STOPS SUIT FILED FOR DIVORCE

Lawton, Okla., Aug. 4.—The grim reaper stepped in to prevent the fulfillment of the old saw, "Marry in haste and repent at leisure," when Gladys Vernon Higgenbotham, nee Baird, 15 years of age, died within three days after her husband had divorced her for desertion.

In July of last year Howard Higgenbotham, a farm hand in the employ of Will V. Baird, a Wichita mountaineer, eloped with his employer's 14 year old daughter, Gladys. They drove by night across the mountains into Caddo county and tried to get a marriage license at Anadarko. A hitch came, however, because of the extreme youth of the girl and before marriage could be consummated, the father, accompanied by a deputy sheriff from Lawton, arrived on the scene. Higgenbotham was arrested and returned to Lawton, but before formal charge was filed, the father relented and agreed to the marriage.

Even with the father's consent, however, the laws of Oklahoma forbade the marriage of a 14 year old child, and the marriage party took their case by automobile to Wichita Falls, where under the Texas laws, they secured the necessary license.

Within less than a month after their marriage the child wife left her husband's home and returned to her father. This week Higgenbotham secured a divorce in the courts of a county which had refused to sanction his marriage and today the bride of a year ago was buried. She was ill with typhoid fever when application for divorce was filed and willingly signed a waiver of objections to the issuance of a court decree.

SENATE TAKES UP ELECTION CONTEST

Resolution Prevalts that Senate as a Whole Take Up its Consideration

By Associated Press.
Austin, Tex., Aug. 4.—The Senate with the prospect of an election contest before it settled down to dispose of the vacancy in the first senatorial district this morning. Townsend proposed to make a committee of the entire body for the consideration of the matter. With all the prohibitionists voting for it the resolution was adopted, and the entire body designated as a committee on privileges and elections.

A telegram was received from the county judge of Bowie county stating that A. C. Oliver on the face of the returns had been elected by a plurality of 24 votes and that a certificate was on route. Watson moved the immediate swearing in of Oliver but the entire discussion was closed on a point of order that no certificate had yet arrived and that the Senate could not act. Wheeler's election contest was filed and referred to a committee.

REBELLION HAS BEEN SUPPRESSED

REVOLT OF SOUTHERN CHINESE PROVINCES WAS ONLY SHORT LIVED

CANTON IS CELEBRATING

Declaration of Independence Abrogated and Government as Triumphant

By Associated Press.
Hong Kong, China, Aug. 4.—The southern Chinese rebellion has been suppressed and the declaration of independence of the revolutionary provinces has been abrogated. Canton is celebrating the ending of the uprising.

The artillerymen of Canton killed their lieutenant colonel and then marched to the government offices and looted the treasury. One of the shells fired by the artillerymen fell in the prefect's office and killed 12 persons. Fighting continues along the West River.

TWENTY KILLED IN SCOTISH MINE DISASTER

By Associated Press.
Glasgow, Scotland, Aug. 4.—Twenty-four coal miners perished in a fire which started last night in the Mavis Valley pit of the Cadder Colliery near here. Only one man of the shift in the pit at the time escaped. A widow lost three of her sons.

BIG BATTLE FOUGHT BY CHINESE FACTIONS

Cantonese and Revolutionists Clash With Government Troops at Shi Sheng

By Associated Press.
Canton, China, Aug. 4.—A battle was fought yesterday at Shi Sheng on the west side of the river between Cantonese and revolutionists and a northern army under Lin Huang in command of the government forces. The result of the battle was not known here this morning although it is reported the casualties have been heavy on both sides.

JOLLY BLACKSMITH IDENTIFIED ASSAILANTS

T. E. Meadows, the blacksmith from Jolly, who was assaulted by two negroes some time ago, identified Robert Crafts as one of the men who assaulted him. Crafts was arrested Saturday and with seven others was lined up in the jail this morning. Meadows was asked to go in and see if any of them were the men wanted. Without hesitation he picked out Crafts who was then given an examining trial before Judge Brothers, and bound over on a charge of robbery in bond of \$1000.

STILL HOLDING MAN IN MONTAGUE JAIL

Two Dallas Officers on Their Way to Look Over Suspect Held at that Place

By Associated Press.
Dallas, Texas, Aug. 4.—Two Dallas officers conversant with all the details of the Florence Brown murder mystery will leave here some time this afternoon to look over the suspect held by Sheriff Cunningham of Montague county at Montague. From the interest taken by the local authorities in the man held at Montague it is believed they still have strong hopes that he is the man wanted.

The suspect is still held in the Montague jail on the technical charge of insanity. Sheriff Cunningham says frankly he believes the man is shamming and that he is perfectly sane. Two buttons, which were cut from the man's shirt were sent to Dallas by special delivery. The buttons do not correspond with the broken button found in the wash room where Miss Brown was murdered but Detective Tanner says they were factory sewn buttons and that the button found might easily have been sewn on after another button was lost and one of a different kind.

WEATHER FORECAST

Tonight and Tuesday, generally fair.

North Atlantic Fleet Will Try To Open The Back Door To New York Harbor

New York, Aug. 4.—The North Atlantic fleet is going to try to open the back door of New York City the week beginning Aug. 2 and ending Aug. 9. It'll be so scientific and theoretic that no blood will be spilled. There are two doors to New York harbor. The front door is by way of Sandy Hook. This is well defended by forts with disappearing guns, and sudden surprises in the way of submarine mines. The back door is by way of Long Island Sound. These forts have been placed on a war basis for the purpose of this test and are to be manned by twenty-two full companies of coast defense artillery. The North Atlantic squadron of twenty battleships and twenty-six torpedo boats and ten submarines, with a flotilla of floating ambulances, seagoing blacksmith shops and corner grocery stores will attack these back door forts and try to enter the sound just as if they did not belong to Uncle Sam and wanted to knock the daylight out of Yankee Doodle land. The land and sea forces will work out certain problems presented to them and no decision will be made. The naval and war authorities think nowadays that the rivalry of the old fashioned war game is a bad thing for discipline, so the result of the test will not be known until about Nov. 1 when the conclusions will be printed in an official book. General Barry will have supervision of the land forces and Rear Admiral Badger will direct the attack of the fleet.

ANNOUNCEMENT IS MADE TODAY

CONSTITUTIONALISTS AND HUERTA GOVERNMENT WILL BE DEALT WITH EQUALLY

EFFECTIVE OCTOBER 14

President Wilson Will Set Forth Attitude of U. S. in a Formal Declaration

By Associated Press.
Washington, Aug. 4.—Secretary Bryan today announced the acceptance of the resignation of Henry Lane Wilson as ambassador to Mexico. Secretary Bryan made the following statement: "Ambassador Wilson's resignation has been accepted to take effect October 14. The part which he felt it his duty to take in the earlier stages of the Mexican revolt would make it difficult for him to represent the views of the present administration as the situation now exists."

Mr. Wilson became ambassador to Mexico in 1909 after diplomatic service in Chili, Belgium and Greece. It became known that at the conference at which his resignation was accepted the talk at time grew heated and a disagreement arose over the formal acceptance of his resignation. The ambassador expected that the president would command him for his acts at his post of duty on the occasions of various emergencies and that some action would be taken to prove his record.

Secretary Bryan carried this suggestion to the president but on his return for a further conference with the ambassador announced the resignation in practically the same form as agreed upon earlier in the day. It is the wish of the administration that Mr. Wilson should not return to Mexico at this time as he is regarded as a factor in the political situation there.

Henry Lane Wilson's Resignation As Ambassador To Mexico Accepted

LOWER RATES FOR PARCELS POST

FURTHER REDUCTIONS IN RATES AND LARGER PACKAGES AFTER AUGUST 15

LIMIT TO TWENTY POUNDS

Sharp Reductions in Rate and Banking by Mail at Same Time

By Associated Press.
Austin, Texas, Aug. 4.—To further popularize the parcels post with the public, Postmaster General Harrison today announced that after August 15 the weight limit of packages would be raised from 11 to 20 pounds and that sharp reductions in charges for the transportation of packages would be made.

He announced that on the same date the banking by mail feature would be introduced.

The reduction in the charges on parcels post packages for local delivery is from the present rate of five cents for the first pound and one cent for each additional pound to five cents for the first pound and one cent for each additional two pounds. For delivery in the first zone the rate will be reduced from five cents for the first pound and three cents for each additional pound to five cents for the first pound and one cent for each additional pound. For the second zone the rate will be cut from six cents for the first pound and four cents for each additional pound to five cents for the first and two cents for each additional pound.

WATSON REFUSES TO GO ON STAND

MAN FREQUENTLY MENTIONED BY MULLHALL SAYS DEMOCRATIC PROBERS PREJUDGED

HAVE PREJUDGED CASE

Former Republican Whip Says Prefers to Take Case to Another Court

By Associated Press.
Washington, Aug. 4.—Charges that the democracy of the Senate lobby in investigating committee have prejudged the case made out by Martin Mulhall against the National Association of Manufacturers without hearing the other side, were made by former Republican representative James E. Watson of Indiana who referred to published statements by Chairman Overman and Senators Reed and Walsh.

He declined to appear before the committee saying it would be useless. "I much prefer to take my case to another court," he said.

Watson was formerly whip of the House. He was a candidate for governor of Indiana on the republican ticket and has frequently been named by Mulhall in his testimony before the committee.

TWO INJURED IN AUTO ACCIDENT

Mrs. R. D. Lee and Miss Audrey Gibbons Slightly Hurt Saturday Night

Mrs. R. D. Lee and her sister, Miss Audrey Gibbons, were slightly injured in an automobile accident Saturday night at some point between this city and Lake Wichita. The ladies had gone out on the street car but when it came time to return the street cars were crowded and W. A. Reid who had his car at the lake, accompanied by Mr. Davis and Dr. Garrison, offered the ladies seats in Mr. Reid's auto. The auto turned over, breaking two wheels and was smashed up generally and their escape with only slight bruises was considered almost miraculous.

NOT WORRYING ABOUT THE TARIFF

Montana Senator Believes Country Will Exist Without High Duty on Wool

By Associated Press.
Washington, Aug. 4.—Senator Myers, democrat of Montana, told the Senate today that the West does not fear the new tariff bill. The cry of discrimination against home interests, he said, often meant "we are not getting our share of the graft; we are being overlooked in the distribution of the plunder."

MASON'S SUIT HAS BEEN COMPROMISED

Oil Man Reported to Have Received \$2500 in Settlement of Claim

The suit of G. W. Mason vs. the City National Bank and the Producers' Oil company has been compromised it was learned today. No authoritative statement as to the amount paid Mason could be had today but it is said to have been \$2500. At a trial several weeks ago the jury in the case could not agree upon a verdict. A few days ago when the case was set for trial it was continued.

HUERTA WILL NOT BE RECOGNIZED

HEATED WORDS EXCHANGED IN CONFERENCE PRECEDING THE ANNOUNCEMENT

WILL ISSUE STATEMENT

Administration Deems it Inadvisable for Wilson to Return to Mexico Now

By Associated Press.
Washington, Aug. 4.—Armed intervention in Mexico is neither a probability or a possibility as the prospect for peaceful solution of the troubles in the southern republic are daily growing more probable.

This is the view of President Wilson made known today. He let it be known that before the end of the day he would make a brief announcement of the policy of the United States toward Mexico.

While no inkling has come from the White House it was expected that the president would formally announce his intention not to recognize the Huerta government. It was also suggested that the announcement would formally express the determination of the administration to treat the constitutionalists and the unrecognized Huerta government on an equality in the supposition of the arms into Mexico.

Stubborn Orozco Feared
El Paso, Texas, Aug. 4.—The Huerta government has been advised of friction between Gen. Mercedo, military governor of Chihuahua and Gen. Pascual Orozco Jr., commanding a force of 2000 irregulars. A report by Orozco and his followers is said to be feared both in Chihuahua and the City of Mexico. Orozco objects to the military governor's orders to conduct a campaign against the rebels. Orozco has a large following in his home State among those not already under arms against the Huerta government.

Francisco Villa, who is still threatening an attack on Juarez, has received 1200 reinforcements from the rebels in Sonora. Mexican secret service men say this force, which has been service in the Sonora campaign, brings Villa's fighting strength up to 2400.

Huerta Urges Military Training

Clerks in the stores of the City of Mexico and men in all walks of life have been urged by President Huerta to devote a part of their time to military training, according to private advices received here from the City of Mexico. All stores there were closed today, ostensibly for a holiday, but the real reason was to give the male population opportunity to learn the manual of arms and military tactics.

The president is declared to have urged this training on the men "in order to make themselves proficient in the use of firearms that they may assist in repelling a foreign invasion."

President Huerta's intention is said to be to put an army of 20,000 in the field against the rebels under Carranza in Chihuahua and Sonora.

NON-JURY CIVIL CASES IN DISTRICT COURT

In the district court this week, Judge Martin is hearing a number of non-jury civil cases, there being no more jury cases until August 15, when the case of J. V. Jackson charged with murder in connection with the death of Charlie Yearly, will be taken up. Sheriff Randolph is getting up a special venire of 75 jurymen for this case, after the Jackson case is disposed of the regular criminal docket will be taken up on the tenth.

TWO INJURED IN AUTO ACCIDENT

Mrs. R. D. Lee and Miss Audrey Gibbons Slightly Hurt Saturday Night

Mrs. R. D. Lee and her sister, Miss Audrey Gibbons, were slightly injured in an automobile accident Saturday night at some point between this city and Lake Wichita. The ladies had gone out on the street car but when it came time to return the street cars were crowded and W. A. Reid who had his car at the lake, accompanied by Mr. Davis and Dr. Garrison, offered the ladies seats in Mr. Reid's auto. The auto turned over, breaking two wheels and was smashed up generally and their escape with only slight bruises was considered almost miraculous.

NOT WORRYING ABOUT THE TARIFF

Montana Senator Believes Country Will Exist Without High Duty on Wool

By Associated Press.
Washington, Aug. 4.—Senator Myers, democrat of Montana, told the Senate today that the West does not fear the new tariff bill. The cry of discrimination against home interests, he said, often meant "we are not getting our share of the graft; we are being overlooked in the distribution of the plunder."

The wool-growing business, he said, after nearly a hundred years' protection—nearly a century of coddling and nursing—is a decadent business. Not only does it not hold its own but it is in a decline. If the United States cannot compete with the world in wool growing after a century of protection, then it had better go out of the wool business."

Mr. and Mrs. T. J. Deshong of Paris, Texas are the guests of the McHam family. Mrs. Deshong is the cousin of the McHam boys. The couple came overland from Paris in their auto.

REV. BOONE TENDERS HIS RESIGNATION

Pastor Will Leave First Baptist Church Here After Four Years Successful Work

Rev. Joseph P. Boone for the past four years pastor of the First Baptist Church in this city, offered his resignation Sunday morning to take effect September 1. He has accepted a position as field representative in Texas and the Southwest for the Judson Memorial fund of the Baptist Foreign Mission Board of Richmond, Va. Dallas will be his headquarters. This fund represents a movement among southern Baptists to raise \$1,250,000 for equipment for the missionary work of the church in foreign lands. During Rev. Boone's pastorate here the church has had a remarkable growth. It is now considered one of the best organized churches in the State and has a number of efficient workers. During his pastorate the Wichita County Baptist Association has been organized and two Baptist mission chapels have been built within the city. The Fourth Street Baptist church is the result of one of his efforts. Rev. Boone has held a prominent part in the work of the North Texas district of the Baptist work. He is a member of the board of trustees of Decatur Baptist College and a member of the Texas Baptist Educational Board. Rev. Boone's resignation is the cause of regret not only among the members of his own congregation but on the part of townspeople outside his church as well.

Metal Workers Meet at Atlanta. Atlanta, Ga., Aug. 4.—Great increases in membership were announced in reports read today before the opening sessions of the annual convention of the Amalgamated Sheet Metal Workers' International Alliance which convened today.

GAINESVILLE DOCTOR FATALLY WOUNDED

By Associated Press. Gainesville, Texas, Aug. 4.—Dr. C. E. Adams, aged 68, died here today from pistol wounds received Sunday at the home of Wyatt Williams at Bye Mount. Williams has announced he will plead the unwritten law in connection with the shooting.

CLOSING ANTI WHITE SLAVE MEETING TONIGHT

Dr. S. E. Betts Will Address Open Meeting at First Baptist Church

The last of a series of meetings here to stir up local interest in the fight being waged against the white slave traffic, will be held at the First Baptist church at 8:30 tonight when Dr. S. E. Betts of Kansas City, will address a mass meeting on the subject, "Doings of the Devil in the White Slave Deal." This meeting will be open to all and no admission will be charged.

Sunday afternoon Dr. Esbert addressed a meeting of men at the First M. E. Church, South, and Dr. Betts addressed a women's meeting at the same time at the First Baptist Church. At eight o'clock a union meeting was held at the First M. E. Church, South. Large crowds attended all three of these meetings and there was evidence of the deepest interest.

AMOS STEELSMITH FUNERAL MONDAY P.M.

Many Oil Men and Other Friends Pay Last Tribute to Gallant Pennsylvanian

The funeral services of the late Amos Steelsmith were held at the family residence of Brook street at three o'clock this afternoon being attended by a large concourse of friends, including many oil men and a large delegation of workers from the oil fields who respected and loved the dead man. The funeral sermon was delivered by Rev. J. W. Hill, after which the body was borne to its last resting place in Riverside Cemetery.

Mrs. Braun, the daughter of Mr. Steelsmith, arrived from New York Sunday night. The pall bearers were all oil men many of whom had known Mr. Steelsmith since the early days of the oil industry in Pennsylvania. The active pall bearers were A. A. Scott, J. W. Dyson, E. S. Easton, G. C. Woods, E. W. Morgan, Harry Patent, J. H. Bailey and Bob Brewer. The honorary pall bearers were—Chappelle, L. C. Heydrick, J. C. Strauss and W. G. Long.

ORANGE VS. GRAPE JUICE AT WASHINGTON.

Washington, Aug. 4.—President Wilson and his chief lieutenant, William J. Bryan, secretary of state, do not agree on one of the very important questions which has marked the present administration. That is the subject of drink. Mr. Bryan likes grape juice. President Wilson just dotes on orange juice.

Every morning the assistant chef at the White House selects the very finest specimens from a bountiful supply of oranges in the pantry and carefully squeezes the juice into a glass. This is served plain, without the addition of water or sugar, with the eggs and toast and other articles that go to make up the presidential breakfast. Mrs. Wilson, the president's wife, taught the assistant chef how to prepare the beverage.

A General Clean-up

Is the August Program at This Store

All Summer Merchandise is Marked for Slaughter

Beginning Monday, we will inaugurate a General Clean-up Sale of Summer Goods; prices will be radically reduced to insure a complete clearing. Two months yet remain for light wearables, but we realize that the selling period is short and are going to make prices, regardless of values, that will move them.

We will not carry goods over from season to season, if **SLAUGHTERING PRICES** will move them out, and, our experience is, it generally does.

Our buyers have been in the Eastern Markets the past four weeks and the greatest Fall Stock in the history of this business is beginning to arrive, for which we must have room, and to make the necessary room we must Slaughter summer stock.

SUFFRAGETTES INTERRUPTED SERVICE AT ST. PAUL'S.
London, Aug. 4.—A party of forty well-dressed suffragettes interrupted the morning service at St. Paul's Cathedral by chanting a prayer in behalf of Mrs. Emmeline Pankhurst. The disturbance took place during the singing of the litany. The women who had front seats in the center aisle chanted loudly: "Save Emmeline Pankhurst! Spare her, spare her! Save her, save her! Hear us while we pray to Thee!" Evidently the chant had been carefully rehearsed. The suffragettes repeated their chant three or four

times in a hoarse tone each time. Many of them were finally led out by the ushers but a half dozen or so clung to their chairs and fought against ejection. A squad of police attended at vesper this evening, but there was no disturbance. My motto: Miller sells it for less.

Pretty Duchess Of Marlborough Now In Politics; She's The New Leader Of London Suffragists

London, Aug. 2.—The beautiful Duchess of Marlborough, former Miss Consuelo Vanderbilt of New York, is going in for English politics. She has given earnest study to political conditions and is now starting a salon for the purpose of furthering her political ambitions. The duchess is one of the prominent leaders of the American colony. She recently accepted the presidency of the Women's Municipal party, which was formed to further the candidacy of women for office in the various London municipalities. The duchess is not a militant, but she is an ardent suffragist.

MRS WESLEY DIED SUNDAY MORNING

DEATH OF PIONEER WOMAN COMES AT AGE OF 82 AFTER LONG SUFFERING

TEACHER AND PREACHER

A Native of Alabama, She Came to Texas in 1859—Mother of Nine Children

Mrs. Abbie C. Wesley, mother of Mrs. M. Smyre, died Sunday morning at 2 o'clock at the family home, 903 Austin. Death was due to a general breaking down of the system as the result of age. Mrs. Wesley was past 82 years old, and for nearly 40 years had been confined to her bed as the result of a fall in which her hip was dislocated. Previous to that she had been ill for some time, and the end came only after a most heroic struggle of a brave, undaunted spirit and flesh that was 100 years old.

Mrs. Wesley, or "Grandma" Wesley, as she was generally known, was a grand woman. Born in 1831, in Tennessee. When a child she went with her parents to Oklahoma, where she grew to womanhood, and married J. M. Henderson. The couple came to Texas in 1859, and settled in Wichita Falls to make her home with Mrs. Smyre, and during that time she had made a great many friends, especially in the Baptist church, where she was a regular attendant when her health permitted. Mrs. Wesley joined the church at the age of 15, and during all these years has been an earnest, uncompromising Christian, always working for the cause of Christ and the betterment of mankind. During the pioneer days in Texas, when churches were few and preachers fewer, Mrs. Wesley was foremost in the community, teaching and preaching the word of God to all with whom she came in contact, and in her latter days it was a pleasure to her friends to listen to "Grandma" in her uncompromising way, quote the Scriptures to prove the right or wrong of an issue or an act.

The funeral was held this morning at 9:30 from the home, Rev. J. P. Boone officiating. Interment was made at Riverside. Her son, George Wesley, of Forney, and a daughter, Mrs. Sally Morgan, of Tyler, were here to attend the funeral. Other children are Mrs. Nancy Spence of Alpine, Mrs. C. B. Rather, Bullard, and J. M. Henderson of Post City. Welch Morgan, salesman for D. B. King, is a grandson.

RACES START AT 2 P. M. TUESDAY

Five Events Scheduled With Purse Aggregating \$1,000 Open Days Program

John Carr of Frederick, Okla., one of the veteran horsemen of the so-called state and recognized as one of the most capable race men in the business, has been selected to act as starter in the races here this week. Only one of the three judges, Dr. Bolya the veterinary surgeon who has had experience on the Virginia circuits, has yet been named. The two other judges will be appointed today.

The horses will be called to the post for the first race Tuesday afternoon at 2 o'clock and the five races on the program the 2:20 race, a 25 ft. trot, two year old pace, quarter mile dash and the five-eighths mile dash will furnish entertainment throughout the afternoon. Manager Jeffries states that 85 horses are entered in the different events of the week and he says they are the fastest bunch of horses ever gathered together in North Texas.

Arrangements have been made to keep the track well sprinkled and dragged so that fast racing will be possible with a minimum of discomfort to the visitors.

CLERKS WON FROM BURKBURNETT SUNDAY

Wichita Falls Twirler Allowed Only Two Hits and Fanned Eighteen Men

"Joe Doe" pitching for the Wichita Falls clerks let the heavy hitting Burkburnett team down with two hits and sent eighteen sluggers back to the bench after futile attempts to connect with his offerings in the game at Burkburnett Sunday afternoon. The Wichitans were winners by a score of 2 to 1. Jacks pitched a good game for Burkburnett allowing only five hits. The batteries were Wichita Falls, "Joe Doe" and Collins; Burkburnett, Jacks and Powell.

Marriage By Lottery Suggested
Vienna, Aug. 4.—Because of the alarming decline in marriages in Trieste, civic dignitaries today are seriously considering the suggestion recently made that the government establish a marriage lottery system. The plan is to have all single women of 25 and all bachelors of 30 present themselves on a given date to the authorities in whose jurisdiction they reside. After medical examination, the names of all who are physically sound would be placed in two urns, according to sex, and then drawn out two at a time. Those who are 30 present would be immediately married by the Syndic free of charge.

MAN ARRESTED BY MON. TAGUE NOT MURDERER.

Dallas, Texas, Aug. 4.—According to a statement made Sunday afternoon by Chief of Detectives J. Henry Tanner, the solution of the mystery surrounding the murder of Miss Florence Brown last Monday morning in the rear office of Robinson & Styron on Field street, is no nearer than it was the first few hours following the finding of the young woman's lifeless body.

"Every possible clue or theory that has been broached has been run down without results," says the chief. "The clues developed last Wednesday which looked promising, developed nothing, and the man whom we thought might know something of the crime proved to our satisfaction that there was absolutely no cause to even suspect him."

"I do not believe that the man being held at Montague knows anything of the affair, but, of course, he will be investigated, as will any other suspects that may be arrested at any point. We will leave nothing undone that might result in the apprehension of the murderer. I am free to admit that I am as far from knowing who killed the unfortunate girl today as I was a few minutes after the murder had been discovered. It is an absolute mystery to me, in fact it is the most mysterious case that I have ever had to come under my observation."

During the day Patrolman J. H. Brown and Jeff D. Robinson, father and uncle of the murdered girl, conferred with Chief of Police Ryan and Chief Tanner at the police headquarters. What was discussed at this conference is not known.

"Drugless Healers" To Convene
Seattle, Wash., Aug. 4.—A movement to obtain legislation legalizing the practice of several systems of drugless healing plans for which were started today, will be inaugurated at the annual convention of the Washington Association of Drugless Healers which will convene here September 18 to 21, 1913.

Dr. J. E. Lydon, president of the association, made this statement: "The systems as represented by the association," said Dr. Lydon, "have been before the public for the past thirty years and have demonstrated that many diseases and cases of deformity may be cured or prevented by properly educating the people to a better understanding of the fundamental laws which govern health. There will be clinics during the convention to demonstrate the efficiency we claim for the drugless methods of treating chronic diseases and deformities, physiological treatment and exercises, scientific food chemistry and hygienic measures."

Some Persons "Flinch" When Truth Hunts Them

"If any man is able to convince me and show me that I do not think or act right, I will gladly change for I seek the truth, by which no man was ever injured."—Marcus Aurelius, Roman Emperor.

Some shrink and try to close their eyes and ears to the haunting fact that the little 2-1-2 grains of Caffeine in every average cup of coffee is the demon which relentlessly pursues and starts various ailments, such as biliousness, headache, nervousness, sleeplessness, bowel trouble, heart failure and a long string of aches and ills, taking one form in one person and another in another.

The effect of repeated doses of coffee, on those who are susceptible to caffeine poisoning, is so complex that it is difficult to foretell where its hurt will be most serious; in Heart, Head, Eyes, Nerves or where.

The stroke of trouble will come somewhere if the daily doses are persisted in.

Of course if anyone prefers to treat his body in that way it is useless to suggest relief.

Let him "follow the trail" until badly wounded.

Some go so far they can't get back to health. Others quit the foolish, losing game before fixed chronic disease sets in.

There is a mighty army of sensible ones, however, who have bravely tested the truth with their own bodies to see whether or not it was the truth that coffee caused their ailments.

It's an easy test. Quit coffee absolutely for 10 days. Take Postum hot and well-made and keep track of the change toward health day by day.

It's the most exquisite pleasure in the world to be perfectly well with all the delicate and beautifully adjusted machinery of the body working in harmony, not interfered with by drugs, one of the most insidious and deceptive of which is caffeine in coffee.

This is Truth.

Meet it bravely with head up and hearty hand-clasp.

Truth thus made welcome will prove your best friend.

These are facts without regard to our own opinion, or to whether or not you use Postum.

However it is well to consider that famous food-drink because it supplies a hot beverage of the deep seal-brown color of coffee, which turns to the rich golden-brown when cream is added.

It has a snappy flavor much like the old-time real Java, but there is no "sting" in it, no caffeine or other drug of any sort. It is skillfully manufactured of wheat and a trace of New Orleans molasses.

It comes in two forms. One called Regular Postum, must be boiled full 15 minutes.

The other, Instant Postum, is in powder form and a level teaspoonful in a cup of hot water makes the beverage instantly. Grocers keep both kinds.

"There's a Reason" for POSTUM

MAN ARRESTED FOR HAULING LIQUOR

Deputy Sheriff intercepts Shipment of Liquor Being Hauled Through Cotton County

Walters, Okla., Aug. 4.—Deputy Sheriff J. R. Geriester, at 10 o'clock Thursday night arrested Alva Hosenback six miles north of Randlett, charged with transporting liquor. Sheriff Tom Mullins Friday afternoon brought the prisoner to Lawton and lodged him in the Comanche county jail where he will be held pending trial.

The arrest of Hosenback, according to Sheriff Mullins of Cotton county is the second arrest made in Cotton county since the Webb law has gone into effect. Twenty gallons of whiskey and nineteen gallons of alcohol was confiscated by the Cotton county deputy. Also a fine team of horses valued at \$300 and the wagon in which the booze was loaded was taken charge of by the official.

Across Bridge.
The deputy sheriff had learned that Hosenback was headed toward Cotton county and shortly after he crossed

the Red River bridge he was caught by the deputy who was lying in wait. Hosenback stated that he was hauling the booze which he bought at Wichita Falls, Texas, to Ardmore in Carter county, a distance of 90 miles. It has been known here for some time that illegal transportation of wet goods has been in practice for some time and the arrest of Thursday night is thought to merely a forerunner of others that will follow.

Great Day For Chickens in New York
New York, Aug. 4.—This little old town has seen a lot of mighty pert looking chickens but today's display broke all records. Now stop right here and don't waste your time reading further if all you care about is the kind of chicken sung about in the song. This story refers to "cuttin' chickens." Today was opening day for as great a display of chickens as has been seen in the east in years at the Greater New York Fair and Exposition being held at the Empire City track. Nearly 1000 hens and chickens were shown in a score of states with the best of all prizes will be awarded Saturday.

War Secretary on Texan Border After First Hand Facts About The Real Situation in Mexico

Secretary of War Garrison beamed all over when he was greeted by Col. William H. Carter, in charge of the United States troops in Texas on the Mexican border. The secretary went to Texas to gather first hand information as to conditions along the border. The picture is interesting and newsworthy in view of the present Mexican situation as regards the stand of the United States.

Heinz Spaghetti It's Delicious

Officers and Directors: Ed Howard, President

E. H. Huff, Vice President

G. D. Anderson, Secretary

E. D. Donnell, Treasurer

J. K. Kell, W. L. Robertson

Wichita Falls, Texas, August 4, 1913

The war in Mexico, Gov. Colquhoun and Col. Jake Walters are still raging.

Jade William F. Ramsey writes a friend that while he is not a candidate for governor, it is quite possible that he might be persuaded to get in the race.

The resignation of Henry Lane Wilson, ambassador to Mexico, has been accepted.

It strikes the Times that, inasmuch as the Telephone Company will not and say that it is impossible to furnish information as to the location of fires, a better system than is now in practice could be adopted.

There are more compensations in farm life than mere dollars and cents.

There is no improvement today in the quality of water being served in the people of this city by the water company, and as yet the company has not offered to make any explanation whatever why it is that so much mud is being mixed with the water.

Hon. Richard Potts of Dallas, representing the Southern States Cotton Corporation, with a paid up capital of eleven million dollars, is in the city today and expects to remain in this county until September 1st.

Col. Bill Edwards of the esteemed Henrietta Review, was a visitor to the city today and paid his respects to the Times.

Like all the other prohibitionists, Ed Howard is not particularly perturbed by the fact that the Times is not a frequent visitor to this city by any means.

But these things aside, Ed Howard is a newspaper and business man, all right, and has risen to the occasion along with the conditions that have made a bright and presentable daily paper possible.

The report states that considering what is consumed and the rate of pay to the laborer on the farm ought to command that the investment of farming does not yield more than 5 per cent.

A glass blower can make \$5 or \$6

BELLE OF WICHITA--It's the Best

THE MODEL LAUNDRY

a day, but his life is short. The men who work in caissons make big wages but they do not last long.

The lights for the office may have injured the clerk's eyes, lack of physical exercise may have weakened him, and if his quarters are badly ventilated his lungs may be in bad condition.

As a man on a farm has taken ordinary care of himself he is stronger at 40 than the clerk, the glass blower or the rolling mill receiver.

There are more compensations in farm life than mere dollars and cents.

First, every farmer is his own master, unless he has mortgage on his property.

Any man of ordinary intelligence may put a few thousand dollars in a farm and make for himself and family a good living.

A man of the same intelligence may put an equal amount of money in a small business and in spite of careful management the danger of his investment becoming profitless is far greater than if he were a farmer.

Commercial Appeal.

THE WATER SITUATION

There was no improvement today in the quality of water being served in the people of this city by the water company, and as yet the company has not offered to make any explanation whatever why it is that so much mud is being mixed with the water.

Atorney N. Henderson has furnished the Times with the following ordinance which it seems was adopted by the City Council May 20, 1908.

Several years after the city had entered into a binding contract with the water company, and under the provisions of this ordinance Mr. Henderson is of the opinion the water company can and should be forced to clear the water.

Section 7. "The Wichita Falls Water and Light Company is meant wherever the words Water and Light Company appear in this ordinance, and this ordinance is made in consideration of the fact that the said Water and Light Company has proposed and agreed to install a system of settling basins for the purpose of clarifying and as far as practical, purify the water furnished to the city of Wichita Falls, Texas, and its citizens, and this ordinance is made upon the express condition that the said Water Company shall begin within thirty days and complete within six months from the date the construction of said settling basins, the same to be constructed in compliance with the plans and specifications submitted to the council, subject however to such modifications in details, as said Water Company may deem best."

At least 75 per cent of the people of Wichita Falls use city water for domestic purposes. They are entitled to protection insofar as the city has power to protect them.

MR. BRYAN'S PEACE PLAN

Universal peace, produced by the settlement through international tribunals of questions formerly decided by the sword, may still be a long way off, but it can no longer be decided merely an iridescent dream.

When twenty nations and the most powerful in the world, have accepted the general principle of Mr. Bryan's peace plan, even the peace and the pessimist must admit that we are at least making a definite approach to the long desired goal.

The agreement upon details will, of course, be the difficult part of the arrangement, but the principle of investigation being accepted, there will be disposition to adjust rather than emphasize minor objections.

The proposal to maintain the status quo as to military and naval preparations among disputants during the investigation of international differences is a feature of the plan that will strongly recommend it to the producers and taxpayers of the world, if not men of war.

Whether it should not go further and provide for a general halt on the part of all great powers in warlike preparations when two of them were having their differences settled may be worth considering.

But a relief even a temporary and partial suspension of the war tax would be to the great masses of the people in such countries as Great Britain and Germany, for instance, and after the people once get a taste of this relief, would they not be apt to clamor for more and more of it until the war system had been reduced to a minimum?

If Mr. Bryan can succeed in securing the adoption of his plan even in a modified form, the world will call him blessed from generation to generation.

But as a matter of justice, Mr. Taft's name should be coupled with this movement for the promotion of peace on earth and good will among men.

His earnest efforts to secure arbitration of international controversies through treaty agreements kept the subject to the front.

Some Mediocrites

By Sylvanus Adolphus, Editor of the Commercial Appeal.

The story of Mulhall has fetched to town some sentiment very prominent in public affairs the last half of the decade of the last century and the first half of the third decade of the present century.

Among them, James E. Watson of Rushville, Ind., and a slight of him recalls some of the great little men who ruled the republican party in congress after the death of Nelson Dingley and the retirement of Thomas B. Reed.

It was the era of David Henderson, when the democratic party had retired a spell from politics, and for practical purposes there was no serious opposition to the majority in the national house of representatives.

Watson was 42 years younger than William S. Holman when he was elected to a seat in the Fifty-fourth congress in 1894.

Holman was twenty times the democratic candidate for representative and sixteen times he was elected. He was defeated in 1894, 1876, 1878, and 1894.

A man of moderate ability, he was recruited by addition for distinction and his success was due to sterling personal integrity and a ceaseless industry.

He was a democrat and with the little 'd' as well as with the big 'D'. He had considerable talent for details, and there is not a doubt that he was an invaluable public servant, having, in addition to his public service, many a million by means of his familiarity with the rules and his constant and effective objections to jobs.

The New York Sun called him the "Greater Objector," and Charles A. Deans wanted to make him president of the United States.

As a public speaker Holman was far inferior to Watson, one of the best "rabble rousers" of his time.

Watson is a Methodist and that church "North" was the backbone of the g. o. p. when that organization was alive.

In 1894 everything went republican and Watson was elected to congress.

Returned to congress from Indiana, though four years earlier there were but three republicans in the delegation.

Dingley died, and Tom Reed, who had little respect for McKinley and no love for Hanna, retired.

Old Joe Cannon was the logical successor of the "big gun" for speakership, but he had opposed that infamy, the oleomargarine tax, and they chose Dave Henderson, the man who ought to have had it if they were hunting for the member least fitted for the job.

It was the palmy days of the mediocrities. There were three first-class men on the republican side, but they did not take the center of the stage.

Dalzell of Pennsylvania, Burton of Ohio and McCall of Massachusetts. Payne was titular leader, but the tariff was off the hooks, and the leadership was put "in commission" as they sometimes dispose of the great seal of England.

There were Cannon, Hopkins and Routell of Illinois. Mann was there too, but as yet obscure.

Hull, Cousins and Hepburn were from Iowa. Hemenway, Crumpacker, Landis and Steele were from Indiana.

Littlefield was from Maine, William Alden Smith from Michigan, Tawney was from Minnesota, Babcock and Jenkins from Wisconsin and Frank Cushman from Washington.

All of these chaps were "leaders." Their strength would lay. This thing of taking dry baths via talcum powder is getting old, besides when a fellow has prickly heat he cannot use toilet water, for it would require the aid of an automobile to catch me after it was applied.

High life would not be in it. Then all toilet water is 20 per cent alcohol, and if a summer widower is a real cut-up he is liable to drink it the next morning.

I think my logic is good, and I further believe I have stated the case plainly.

Every time I go to dinner I have to be deodorized; I also am against mud baths.

Your "Bawthless Willie" W. G. LONG.

P. S. If this thing keeps up I am going to write a tragedy entitled: "Six Months in a Bawthless Desert," with a Sent, or "Why is a Goat?" W. G. L.

NEAR DEATH BY SMOTHERING

But Husband, With Aid of Cardui, Effects Her Deliverance.

Draper, N. C.—Mrs. Helen Dalton, of this place, says: "I suffered for years, with pains in my left side, and would often almost smother to death."

Medicines pitched me up for awhile but then I would get worse again. Finally, my husband bought me a bottle of Cardui, the woman's friend, so he bought me a bottle and began using it. It did me more good than all the medicines I had taken.

I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years, Cardui has been relieving woman's sufferings and building weak women up to health and strength.

If you are a woman, give it a fair trial. It should surely help you, as it has a million others.

Get a bottle of Cardui to-day.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn. For instructions on your case and 64-page book, "How to Treat Women," in plain wrapper. R.C. 13

S. D. Samples brought to the Times office today the first open bolls of cotton. They were gathered from the field of T. L. Trotten, west of the city.

Dr. Nelson, dentist, Phone connections 13 tlc.

E. G. Hill, undertaker, office and parlors 900 Scott Ave. Phone 225. Prompt ambulance service. 95 tlc.

Work of tearing down the C. W. Bean building on Indiana Avenue was begun this morning, preparatory to the erection of a two-story modern building. Scott Bros. have the contract for the new building and work will be pushed rapidly on.

My motto: Miller sells it for less.

Jesse J. Dolman, licensed embalmer, with Hines & Embury, undertakers, Phone 132.

My motto: Miller sells it for less.

The fire department was called to the Mansion hotel on Ohio avenue this morning, by a blaze that was extinguished before the wagons got there.

Newton Maer, who was operated on at Colorado Springs last week for appendicitis, is reported to be getting along nicely, in letters from relatives with him. He was taken sick upon his return to Colorado Springs after a short business trip to Wichita Falls and was operated upon immediately.

The brick building at Grandfield, Oklahoma, was damaged to the extent of \$1500 Sunday night. The fire threatened the town for a while but good work by the volunteer fire department prevented its spread.

Dr. Prothro, dentist, Ward building, Eighth Street. 50 tlc.

AUTOMOBILES ARE TO BLAME

FEWER MERCHANTS IN NEW YORK MARKETS BECAUSE FEWER GOODS BEING BOUGHT

ALL MONEY FOR GASOLINE

Owners of Machines Pinching Expenditures in Other Directions—Amusements Suffer

(By Carlton Ten Eyck, written for the United Press)

New York, Aug. 4.—The open season for summer tourists is upon us, the time of the year when the railroads from the far-near and middle west make enticingly low excursion rates to New York and return. On the streets may be seen a lot of hurrying visitors anxious to see all they can in their limited time, and the hotels report a brisk business, but the most careless observer can see that there are not so many strangers in our midst as formerly. The shopkeepers also contribute mournfully to the evidence that things are not as they used to be. The man on Broadway was wondering in a helpless sort of way what has become of the August visitors. The man who travels undertook to tell him. "Automobiles," he said laconically and the M. O. B. looked around to see if any brand new make of car was in sight to provoke the remark. "I mean automobiles are the cause

of the falling off of fall tourists," patiently explained the M. W. T. "The automobile is the menace of the west. I mean the commercial menace. Maybe it is the moral menace too; some folk say it is, but I'm willing to leave that to the sky pilots. However, I do know what I am talking about when I say that the gasoline wagon is the rock on which the west is liable to get a jolt if the people are not careful."

The M. W. T. then proceeded to illustrate what he meant. As just one illustration he told his friend of one small farming community out in Western Missouri, and I can vouch for the truth of what he said. This town is within fifty miles of Kansas City, in the middle of a remarkably rich bottom farming district. It has 6,000 inhabitants and they are prosperous. So are the farmers living in the town's trading district. They have brick paved streets, electric lights, water and sewer systems, handsome and costly homes, rock roads and all the modern improvements that make the present-day western farm and small town life so pleasant.

The farmers there this year produced bumper wheat and corn crops and the merchants of the town looked for great prosperity. But what has happened? The people of that one Missouri town this year spent \$200,000 for automobiles. Everybody who could raise the money bought a car. Those who did not have the ready cash mortgaged their homes and their land. Those who could not do that gave notes for their machines. That \$200,000 passed out of the county and the state for all time. Except for the agents' commissions, not a cent of it remained in the county that produced the wealth and not a penny of it will find its way back into the community. But the financial loss to the Missouri county and small town goes farther. Those peo-

ple who have bought automobiles, most of them pinched and saved to do it. They now are economizing in every possible and impossible manner. Women who have cars are not buying gowns. They do not need them. Riding in their machines over the roads they need nothing but old clothes and linen dusters for the rain and dust would ruin fine gowns if they had them.

The men who have automobiles to pay for are not buying new refrigerators and cook stoves. They are making the old ones do. The broken coffee pots and kitchen utensils are being mended. The old family clock will have to serve another year. No farm machinery is being bought—they are making the old plows, cultivators and reapers last a while longer.

There is absolutely nothing doing in the piano and organ line and none of the car owners ever thinks of entering the town jewelry store. There is little or no trade in luxuries. People are not building new homes nor painting the old ones, as is usually done every summer in such a town.

In short, the automobile took out of the town and county all the surplus wealth that the tremendous crops produced, and the retrenchment felt necessary by the purchase and upkeep of the automobiles is felt in every line of business that is boasted by the little town. But business is not all that feels the effect of the automobile wave that is sweeping the middle western country. The amusement people are feeling it. Towns that formerly supported summer stock companies in all domes, now have only five cent moving picture theatres and these are going poor business, their proprietors say. And it is not only the small towns that are feeling the effect of automobile buying but the larger cities as well. In the big department stores,

OBSTETRICIAL PRACTITIONER

THIS LATEST TITLE FOR THE CITY—EMPLOYS NURSES TO AID THE STORK

MUCH GOOD BEING DONE

City's Nurses Help Mothers in Care of Babies and are Often Present When Stork Comes

(Philadelphia, Aug. 4.—Philadelphia has been called a lot of names, complimentary and otherwise. The very latest, however, that could be applied to the Quaker City is "Obstetrical Practitioner."

Philadelphia as a municipality has branched out into the ancient and honorable profession of mid-wifery and there are no charges for services. On the theory that a citizen saved is a citizen earned, Philadelphia has gone into the business of saving its babies by not only looking after their health and welfare after they arrive, on this mundane sphere but also by arranging for the arrival of Old Doc Stork (the midwife) by seeing him flying Philadelphia way. This comparatively new department of the municipal nurse department of the Child Hygiene Bureau is to the city, and many Philadelphians are this summer, realizing for the first time that Philadelphia is successfully acting the role of nurse to the poor and needy. Miss Charlotte Perkins is chief of the Child Hygiene Bureau of the Department of Health. She explained through the United Press what her

staff of nurses does and how they do it. The first and most important thing is education of the mother, according to Miss Perkins.

"The most effective method that can be employed to reduce the alarming totals of infant mortality in big cities," said Miss Perkins, "is education of the mother both before and after childbirth. Next in importance is care of the child's food. Milk, of course holds first place as the food which must be most closely watched. Mothers cannot be too careful in preparing it for the little ones. Then comes education of the mother as to what she should and should not eat. It is really astonishing how many mothers and mothers-to-be do not know that they must exercise constant care in choosing their own food. Many babies are killed outright by the mother innocently eating food that agrees with her all right, but which, when made into milk by nature, for the baby, will make the little one ill."

Every morning a group of eight women, clad in light blue suits, black hats, with a badge of the health department on their breasts and carrying a small physician's satchel can be seen leaving the City Hall. They are the municipal nurses starting on their daily rounds. They haven't been granted any hero medals nor have the papers carried any first page stories about them, so far as is known, but they probably have actually saved more lives than any ten firemen and policemen in the city. Miss Perkins declared today that these eight nurses in the three years they have answered calls from Old Doc Stork, have aided in increasing the population of Philadelphia by 6,000 little residents. That means an average of 250 for each nurse for one year. The city nurse bureau was started as an experiment. It is now considered one of the most important branches of the municipal government. The nurses are assigned to certain sections of the city and they visit these sections regularly not only to attend the little ones that are already miniature members of the community but to jot down in their "assignment books" the whispered tip from those who are expecting young arrivals and what train they expect to arrive on. "It is easily realized," said Miss Perkins, "that these eight nurses not only must be competent trained nurses but they must be also tactful and diplomatic to gain the confidence of their patients. It is not always easy to step in and tell a mother how she ought to prepare herself for the ordeal of childbirth and it is also hard sometimes for the nurses to make the mothers know how they should care for the little ones that are already here. "One of the first things to do is to see that the homes are made clean and kept clean. Other officials of the health department aid in doing this

Facts About Mexico

Although the Republic of Mexico is the most important government neighbor to the United States, having twice the population of Canada, though about one-fifth of the area, Americans are not generally informed about the southern republic. The present constitution of Mexico was adopted February 5, 1887. There have been a number of amendments. Under this constitution Mexico is considered a federative republic, divided into 27 states, three territories and one federal district, each having the right of local self-government. The functions of the federal government are divided as under our own constitution—the three departments—executive, legislative and judicial—being similarly organized. The president, under the constitution at least is elected by electors popularly chosen for a single term of six years. The area of the country is 765,527 square miles, nearly three times that of the State of Texas. The population in 1910 was 15,963,207.

Of these about 19 per cent pure white, 43 per cent mixed bloods and 38 per cent Indians. A relatively small part of the population, from 15 to 18 per cent, live in the temperate zone, which embraces the northern states, now in open rebellion against the authority of Provisional President Huerta. In his message to Congress on September 16, 1912, the late President Madero stated that the full strength of the army was 107 generals, 6,236 officers and 49,332 men. Six gunboats of 1900 to 1906 tons, two transports and several revenue cutters constitute the naval equipment. The revenues for the last fiscal year amounted to \$55,500,000, and the expenditures the same amount. The total national debt on January 1, 1911 was \$219,219,000 with interest and other annual charges of \$14,418,000. Mexico has 16,000 miles of railway, 50,000 miles of telegraph lines and 2964 post offices.

part of the work. In some cases it is necessary because of the crowded conditions to order the expectant mother to a hospital and it isn't always the easiest thing in the world to make her see that she should go. The nurses have all these details to attend to and it is up to them to arrange for the transfer back to the home when the mother and baby are strong enough to be changed. In the majority of cases, however, word of the good work of these nurses has been passed along, and the mothers and prospective mothers are only too glad when one of them calls.

The nurses prove a great help to the various aid societies of the city. Having first hand knowledge of so many troubles, the nurses are frequently appealed to and by aid society officials to decide when and how much help is needed. Lloyd Weaver left today on a pleasure trip to Denver, Colorado Springs and other points in Colorado. He will make the trip in an auto and expects to be gone several weeks.

theatres, restaurants and furniture houses it is felt the most. Where formerly the people patronized the \$1.50 and \$2 shows liberally, they now get their amusement by riding through the country and when they want theatre amusement they go to the moving picture shows and to the popular priced standville houses. "And that's why you miss a few of the people that August used to bring to our main street," said the man who travels, to the wondering man on Broadway. "This country is more prosperous than ever but a good deal of money that once went for clothes and trips to town now goes for gasoline and spark plugs. That's the answer."

Are You Afraid Of Summer Storms? See What Young Cyclone Did To Office Building In Washington

RUINS OF SAUL BUILDING WASHINGTON WHERE SEVERAL WERE KILLED

Washington, Aug. 4.—The danger of terrific summer storms was never more suddenly or violently demonstrated than during the recent visitation of the young cyclone which did about \$1,000,000 damage here. One has only to look at the ruins of the three story Saul building, which was as badly wrecked as any during the great Omaha tornado, to see how awful the storm was. Several were killed in this wrecked structure, including Walter E. Hilton, an official of the E. F. Saul Real Estate Company and Thomas Pealy, an aged employee of the concern. The gale not only unroofed government buildings, but created widespread havoc throughout the city. One of the regrettable results was the destruction of many fine old trees in the White House grounds. Beautiful trees around the capitol and in the city parks were also uprooted.

THE STATE PRESIDENT SENDS WEEKLY LETTER

Do you realize, friend, that the fifteenth annual convention of the Texas Federation of Women's clubs is fast approaching.

The date, November eleventh through the fourteenth, at beautiful Corpus Christi is not far off.

For Weakness and Loss of Appetite The Old Standard general strengthening tonic, GROVER'S TASTELSS CHILL TONIC, drives out malaria and builds up the system.

It is one thing to make soda crackers that are occasionally good.

It is quite another thing to make them so that they are always better than all other soda crackers, always of unvarying goodness.

The name "Uneeda"—stamped on every biscuit—means that if a million packages of Uneeda Biscuit were placed before you, you could choose any one of them, confident that every soda cracker in that package would be as good as the best Uneeda Biscuit ever baked. Five cents.

NATIONAL BISCUIT COMPANY

develops their strength, both mentally and physically.

Miss Lathrop to Speak.

You must, dear friends, attend the convention in order to hear this important talk, and also another that will be made by no less a national figure than Miss Julia Lathrop, of Washington, D. C., chief of the Child Bureau, and by the way, the only woman chief in the employ of our national government.

Ex-President Taft is appointing Miss Lathrop paid a just tribute to the womanhood of America, for he recognized that woman is peculiarly fitted, and by nature intended to look after the well being of the child.

Miss Lathrop will indeed prove an inspiration.

From time to time I shall tell you some of the good things that are being arranged for your instruction and pleasure at the Corpus Christi convention.

Give to Be Discussed.

A civic session is always full of interest, and in connection with civics I want you to read the following, clip it from the paper and give it a prominent place in your home, where all the members of the family can become familiar with it.

There are ten commandments issued by the Chicago Woman's Aid Association.

1. Thou shalt honor thy city and keep its laws.

2. Remember thy cleaning day and keep it wholly.

3. Thou shalt love and cherish thy children and provide for them decent homes and playgrounds.

4. Thou shalt not keep thy windows closed day or night.

5. Thou shalt keep in order thy alley, thy back yard, thy hall and stairway.

6. Thou shalt not kill thy neighbor's babies with poisonous air and their souls with bad companions.

7. Thou shalt not let the wicked fly live.

8. Thou shalt not steal thy children's right to happiness from them.

9. Thou shalt bear witness against thy neighbor's rubbish heap.

10. Thou shalt covet all the air and sunlight thou canst obtain.

On the reverse side of the card is a diagram graphically setting forth these facts:

Good housing promotes: Health, life, morality, success, ambition.

Bad housing promotes: Failure, stupidity, crime, disease, death.

Always faithfully yours, MRS. ELI HERTZBERG, San Antonio, Texas, July 30.

Corinthian Regatta is On.

Marblehead, Mass., Aug. 4.—The mid-summer regatta of the Corinthian Yacht Club which started off Marblehead today, brought together one of the largest fleets of racing

and pleasure boats ever seen in this harbor. The combined fleets of the Corinthian, Boston, Eastern, Manchester clubs and the Interclub Association numbered over 200 small boats. The regatta will continue through August 9.

PERSONAL MENTION

Mrs. H. F. Robertson has returned home from a two weeks visit with friends at Whitewater.

Fred Weeks and Loyd Weaver left this morning for Colorado Springs in Mr. Weeks' automobile. They expect to reach Colorado Springs in three days. They will remain in Colorado Springs two weeks. Mr. Weeks family is already there.

Will Kleinman spent Sunday in Dallas.

Mrs. Charles R. Krizan was operated upon for appendicitis at Wichita Sanitarium Sunday. The patient is doing nicely.

Mrs. C. M. Bryan left Sunday for Colorado Springs where she will spend a month with her son.

Lee Moore left today for Long Beach Cal., where he will visit with his brother and sister.

Attorney Leslie Humphries of Henrietta, is attending district court here today.

J. B. Marlow and family have returned after a month's automobile tour through Colorado, Kansas and Oklahoma. They went to Denver and thence across into Kansas and down through Oklahoma to Apache where they stopped for several days for a visit with friends after which they came on back home.

Jim S. Elliott returned today from Electra on personal business.

M. J. White and family of Bellevue visited with Mr. and Mrs. T. W. Scott, 1402 Scott avenue, yesterday. They made the trip in an auto.

Attorney T. F. Hunter left today for San Juan, New Mexico, in response to a telegram announcing the death of his mother.

Misses Genevieve and Merle Truly left today for Ballinger to visit their parents for a month.

Mr. and Mrs. H. E. Crane returned today from a visit with relatives in Tennessee.

Whit M. Grant, mayor of Oklahoma City, and daughter, Marguerite, and Mr. and Mrs. Geo. L. Stiller are in the city for a few days. They have some property interests in Archer county, and also wish to see the oil fields. They came overland in their auto.

L. T. Brewer spent Sunday with his family at Mansfield, returning this afternoon.

Mr. and Mrs. Ed Gardner left today for a month's visit to Colorado Springs.

Grady Taylor went to Fort Worth this afternoon, where he will finish a course in the business college.

Rev. J. L. McKee returned today from Missouri, bringing with him some fancy driving horses from his farm.

Harry Flater left this afternoon on a vacation to be spent in Colorado.

S. Williams went down to Dundee today to look after his farm interests.

Rev. J. P. Boone went to Gorman, Texas, today where he will conduct a series of revival meetings for ten days.

Mrs. A. B. Huff and Robert Huff left this afternoon for Colorado Springs.

Jerome Stone returned Sunday from points in Colorado.

PASSENGER LOCOMOTIVE
JUMPED TRACK HERE

Engine Ran Into Unlocked Switch
Early Monday Morning—Nobody
Was Hurt

Fort Worth & Denver passenger
No. 7 due here at 2:45 a. m., ran into
a switch that had been left unlocked
just east of the mill this morning.
The big engine No. 563 split the
switch and jumped the track, running
for more than its length on the ties.
None of the cars left the track. The
pilot of the engine was broken off
by catching in the rail and some
damage was done to the track. The
train was delayed twenty-five min-
utes, being sent along with another
engine. The wrecking crew with the
assistance of three engines worked
until noon today to get the big en-
gine back onto the track.

LOVE—LIFE—HOME

"Dust thou art, and unto dust returnest.
Was not spoken of the soul."
How strong and faithfully does every good and noble life bear out
the above sentiment from the Poet's Pen. Man and woman pass
through this life battling with conditions and yielding to environments
as nothing else does. Each have their joys and sorrows and loved
ones. Each their joys and their sorrows; each their creeds and de-
sires while playing an important part in our actions comes greed,
avarice, misfortune and penury.
What emotions fill the human breast as varied as life itself. So
thrilling that no hand however skilled can picture it; so tragic that
no human tongue however voluble can express the heart rending emo-
tions that wring bitter tears from human eyes. So full of hope that
we place angel wings on human form and halos of light around their
mortal head.
All thanks to Pandora! Hope points above where weeping loved
ones see the way to a brighter and better life beyond.
Our MEMORIALS tell the full story of LOVE, LIFE, HOME,
COMPLETELY and EVERLASTINGLY.

IS SEGREGATION THE ONLY SOLUTION?

Chicago, Ill., Aug. 4.—Bombed with reports that the closing up of the "red light" district has not only scattering vice throughout the residential parts of the city but has increased the danger and temptation of young girls seeking innocent amusement, Mayor Harrison purposes to discover, if possible, if the information that has reached him is true. Upon the mayor's suggestion John McWeney, chief of police, has issued orders to police captains that they prepare at once for him a detailed report of the number of crimes against children and against their morals in their several districts during July, making comparisons with like data for 1911 and 1912. Girls have been put face to face with multiplied danger and temptation, the mayor has been told and there has been a heavy increase in the number of offenses against children.

ANYTHING IN YOUR
EYE

Many people who come to us for eye examination imagine there is some foreign substance in their eyes. It is sometimes hard to convince them that these gritty, sandy, scratching, irritating conditions are symptoms, and effects due to refractive errors, which may be corrected by the use of proper Glasses. Let us Take the Grit Out. No "drops." We know how.
