

Fees Now Charged In Garbage, Trash Pickup

Letters were mailed Friona residents this week setting forth the provisions of the garbage pick-up and the fire restrictions as recently provided for in a city ordinance.

Signed by City Manager Roy Wilson, the letters outlined specifically the mechanics of the program, with the exception of charges to be made. These rates for the collection service were explained as "set at \$1 per residence or each family unit and from \$1 to \$10 for business houses, depending on the amount of trash and rubbish to be hauled."

Garbage collection has been underway this month in trial runs by the city unit to determine routes and needed frequency. No charge was made for these pickups prior to April 20. Charges were commenced on that date and the water bills dated the first day of June are to include the fees.

To comply with the ordinance, Wilson asks that the following be noted: A covered fly-proof, leak-proof can of preferably from 10 to 30 gallon capacity should be maintained at all times. Fifty-five gallon oil drums may be used for

light materials such as feathers, grass cuttings, yard cleanings, papers, etc. However, Wilson points out that the various oil companies are reported to be charging \$6 per barrel for these drums; a cover would cost about \$2.50 additional, and the cost of a commercial type garbage can with fly-proof cover varies depending on the weight and size from \$3.50 to \$8.00.

Materials such as paste board boxes, wooden boxes, etc. that cannot be placed in the trash container may be collapsed or filled with paper, leaves or other similar materials and may be placed beside the trash can for collection.

The ordinance requires six collections per week for businesses and one per week for residences, and also requires that each person connected to the city water system be billed the amount prescribed by ordinance the first of each month.

Mr. Wilson states: "The Board of Commissioners realizes that most people do not like to be forced to do anything. In this instance it will be rather doubtful if more than six or eight will have to be filed on to get compliance with these ordinances."

Farm Tour Scheduled Monday; SCD Sponsors

A view of several Farmer County farms outstanding in their conservation accomplishments will mark the Soil Conservation District tour to be held Monday afternoon with the public invited to attend.

Sponsored by the local Soil Conservation District organization, the beginning of the tour is scheduled for 1 o'clock p.m. at the Bovina High School. At that time slides of grain sorghum and cowpeas planted in the same row will be shown.

First farm to be visited will be that of Archie McCutcheon where concrete pipe and bench leveling work will be observed, together with exhibits of vetch inner row seeding in 1952 cotton. The McCutcheon farm is located 2 1/2 miles northeast of Bovina on Highway 60.

Terraces and waterways will be observed next at 2:30 on the Jess Osborn farm 3 1/2 miles northeast of Bovina on the same highway.

At 3:15 the group is slated to be at the farm of Mrs. Walter Farman 2 miles east and 4 miles north of Friona. There the use of metal drops on the ditches for purpose of slowing the water in fast ditches will be studied.

Fertilized wheatland, fertilized and prepared for narrow row seeding of grain sorghums will be the topic at the Gus Schlabbs farm 2 miles east of Black.

Concluding the tour, the Roy Euler farm will be visited at 4:15. There will be exhibits there of concrete pipe systems, benched land with pasture wheat and clover seeded for green manure crops, and of

vetch for a green manure crop. Joe Blair of Farwell is president of the local Soil Conservation District. A. L. Black is secretary, and supervisors are Henry Ivy, Henry Reynolds and Clyde Sherrieb.

Woman Found Hanged Near Friona Thursday

Mrs. Johnnie Carlton Stewart, 41 years of age, was found hanged to death this afternoon at a barn located on the farm of her brother, A. L. Carlton, 9 miles southeast of Friona.

Justice of the Peace Walter Lovell conducted an inquest, returning a verdict of suicide.

Funeral services are to be held Friday at 4 p.m. in the First Baptist Church of Turkey, Texas. Rev. Russell Pogue of Hereford will conduct the services, assisted by the Methodist minister at Turkey. Burial will be in the Turkey Cemetery.

The body of Mrs. Stewart was first found by a nephew, Aubrey Lee Carlton, 10, and then by her sister-in-law, Mrs. A. L. Carlton. The children had assumed that Mrs. Stewart had gone into town with their father, but the boy happened to go to the barn, finding the body, and notifying his mother. Mrs. Stewart apparently had looped the lariat around a rafter several times before putting her neck into the noose and climbing onto the edge of a feed bin and stepping off.

She had been at the home of her brother about one month, but she formerly lived here, attending the Jesko school before moving from the locality in 1929.

Survivors include three brothers, Aubrey, Wilburn and Robert, an aunt, Mrs. J. H. M. Scham of Turkey, and an uncle, J. L. Carlton of Friona.

Two Frionans Among WT Degree Candidates

Wanda Robason and Steve Messenger of Friona are among the 219 candidates for degrees expected to participate in commencement events May 25 at West Texas State College at Canyon.

Miss Robason, daughter of Mr. and Mrs. D. O. Robason, is a candidate for the Bachelor of Science Degree. She has been a member of the Buffalo Gals service club.

Steve Messenger is seeking the Bachelor of Business Administration Degree. He belonged to the B.S.U. and the Mary E. Husepeth Union.

Mrs. Annie Wright from Bernard, Kansas, who has been visiting in the A. O. Drake home and with other friends, left Thursday morning for home.

HOSPITAL NOTES

ADMITTED

Mrs. Ralph Smith, OB, Friona.
Mrs. J. L. Ivy, med. Friona.
Mr. C. M. Jones, med. Friona.
Mr. W. H. Alverson, med. Friona.
Mrs. Lee Burnett, surg. Friona.
Mrs. Sam Aldridge, med. Farwell.
Mr. Clyde Shanks, med. Texico.
Mrs. Ansel Renner, OB, Friona.

DISMISSED

Elmer Thompson, Mrs. Franklin Bauer and baby boy, Mrs. G. W. Mims and baby boy, Hank Outland, Mrs. Ralph Smith and baby girl, Mrs. Sam Aldridge, Mr. Clyde Shanks, Mr. Elvie Jennings, and Ansel Renner and baby girl.

Wind-lashed Flames Sweep Thru Lumber Firm in Downtown Friona to Net Heavy Loss

The billowing smoke could be seen for miles when flames swept through the Friona yards of the Rockwell Bros. & Co. lumber firm. Friona firemen in this photo concentrate their successful efforts to save the office building and bins to the east. (See other pictures on back page and more on display at the City Drug Store.)

(FRIDAY) FIRE OF UNDETERMINED ORIGIN DESTROYED MUCH OF THE ROCKWELL BROS. & COMPANY LUMBER FIRM IN FRIONA THIS AFTERNOON, WITH FLAMES SWEEPED BY HIGH WEST WINDS ENGULFING THE ENTIRE WEST SHEDS OF THE FIRM IN THE MATTER OF ONLY A FEW MINUTES.

Totally destroyed were three of the buildings and their contents. The bins forming the west wall of the firm were burned to the ground and only the charred remains of their contents were left by nightfall. Part of this section was erected in 1907 when the Rockwell firm established its Friona branch. This shed was 24 ft. by 150 ft. Part of it had been built later in 1925. A new bin directly behind the offices was completed only a few days ago; it and its contents also were destroyed.

The fire broke out in the extreme northwest corner of the buildings. O. F. Lange, local manager, reported. He stated that no wiring was in that section and only insulation was stored on the upper deck at that point, with nothing stored on the ground floor there. However, most of the bins were virtually full, probably two-thirds of the lumber stock of the firm was destroyed.

The spectacular fire was discovered by employees taking inventory in the yard. Howard Love, Billy Nazworth and W. J. Nazworth noted the flames coming through the roof at about 3:30 or shortly thereafter, Lange said, and firemen were on the scene only a few minutes later, but the high winds already had swept the billowing flames the 150 ft. length of the building.

The Friona firemen and other volunteer workers fought desperately for well over an hour to keep the fire from spreading throughout the yard covering a quarter of the city block in downtown Friona, and their persistent and often dangerous work in close proximity to the wind-swept flames saved the office building and sheds to the east. Wet cloths were continually used by one company of fighters to protect their faces from the extreme heat as they played a steady stream of water onto the rear of the office building, preventing ignition of that section. Suffocating smoke hindered fighting at close quarters.

Late today, manager Lange had made no estimate of the financial loss to the yard or of the board feet of lumber stock destroyed. The firm was insured.

A bit of human interest was supplied with two uniformed Salvation Army workers coming to the scene, both the man and the woman pitching in like veterans to help. After assisting in the fighting they carried cases of Cokes to the hot and weary workers still in the smoke, water and rubble.

The Hereford Fire Department was called and they sped to Friona, greatly assisting in finally quenching the fire. However, the Friona fighters seemed to have the flames well under control by the time the visitors could get here.

Mr. Lange asked the Star late today to express his deepest gratitude to all who assisted in any way, especially to the local firemen and to the Hereford fire department and to the Salvation Army.

Ford Party Attracted

Large Crowd Tuesday

Over two hundred visitors attended the Family Party of the Friona Motor Company, local Dearborn and Ford dealers, at their show rooms Tuesday.

Several valuable awards were given, and the group was treated to coffee and doughnuts throughout the day and to movies in the afternoon.

Prizes were capped by Mrs. Alvin Gaines, Johnnie Parker, H. L. Outland, Bill Gibson, Jimmie Tedford, John Gosnell and W. A. Tinney, Jr.

Several area officials of the lines featured at the motor and appliance firm were on hand for demonstrations and discussions.

Ellison Re-elected Head Bovina Farmers Group

Aubrey Ellison was re-elected president of the Bovina Farm Bureau at the meeting of that organization Monday evening.

Gene Snodgrass was elected vice-president; Mrs. Tom Caldwell was elected secretary-treasurer; and Mrs. Carl Rhea, J. T. Jones and Harold Carpenter were elected local directors to serve with ex-officio members Ellison and Snodgrass.

A letter from Senator Rogers was read, concerning HB 3, the controversial bill embodying an increase in teachers salaries and means for raising the money. It was pointed out that this particular bill was not at all favorable to citizens of this area, because the increase in local ad-valorem taxes would exceed the increase in teacher's salaries. Other legislation of current and local interest was discussed at length in an effort to provide a better understanding of the various issues now being considered in Austin. A telegram from the Texas Farm Bureau Legislative Office, and Farmer County Farm Bureau's telegram replying, were read in opposition to the one-fifth and four-fifths amendment attached to the teachers pay increase provision bill.

Local Youths Charged

Juvenile delinquency charges to be filed in civil suit action were prepared by the Farmer County Attorney this week against seven teen-age Friona youths.

The boys, ranging in age from 13 to 16 years, were taken before County Judge A. D. Smith and County Attorney Sam Aldridge Tuesday after complaints had been registered as a result of reported mischief including rocking of the residence of Mr. Lyndon Sanders, a faculty member of the Friona school system. Charged were Jim Robinson, Clyde Renner, Jerry Zachery, David Cobb, Weldon Fairchild, Larry Fairchild and Marvin Jasper.

Dates were not set for court trial of the cases; in the meantime Attorney Aldridge asked that the local law enforcement officers enforce restrictions on loitering on the streets here at late hours by school-age boys and girls.

The Tuesday proceedings were divided into three phases: (1) a general discussion period between the parents, representatives of the school, and law enforcement parties; (2) questioning of each of the boys involved in the specific case, and (3) the open hearing before Judge Smith.

ATTENDING STATE MEET

Four Friona FFA girls left with their sponsor, Mrs. Lois Sanders, on Wednesday to attend the State meeting of that group in San Antonio. Making the trip with Mrs. Sanders are Mrs. J. G. McFarland and Gay Ann; Gay Cass and June Phipps. Gay Ann is a member of the program committee.

About 600 girls are expected to attend the meet this year.

STORK FEATHERS

A baby girl was born April 25 to Mr. and Mrs. Ansel Renner. She weighed 6 pounds and has been named Amy Sue.

Mr. and Mrs. Ralph Smith are the parents of a baby girl born April 21. She weighed 6 lbs., 9 oz., and has been named Esther Gail.

Notary Appointments

To be Made in May-June

Secretary of State Howard Carney has announced that he will reappoint all persons who now hold Notary Public Commissions and that all such persons must qualify by filing an oath and bond with the County Clerk of their residence between June 1, 1953, and June 10, 1953. The law specifically required County Clerks to approve Notary bonds and individuals should not send money or requests for commissions direct to the Secretary of State. All Notary matters can only be received by the Secretary of State after the County Clerk acts thereon.

Any person who has not heretofore been a Notary Public should apply to his County Clerk between May 1, 1953, and May 23, 1953, if he desires to have this application given prompt attention in the State Department, as the rush of reappointing all old notaries may slow up the ordinary process of making new appointments and issuing commissions.

Secretary of State Carney said, "Each person applying for a commission as a Notary Public must be at least 21 year of age and a resident of the County for which he is appointed; exact names and permanent addresses should be given to the County Clerk in applying for a commission, as location of the Notary may be necessary long after he has notarized a particular instrument."

Farm Bureau Report

Bovina Farm Bureau meeting last Monday night, asked us to publish this fact: "There is a law in Texas requiring that immediately upon abandoning a well, it shall be filled up or securely covered." If you do not voluntarily do this, your county attorney may, at the request of any citizen, call upon you, serving papers demanding that you comply. This is, of course, simply a safety first law, and we are sure if you think, that you won't leave an abandoned well unprotected. If you know, such an open hole, please call the owners attention to it immediately.

A complete report on the good Bovina Farm Bureau meeting appears elsewhere in this paper.

S.B. 24 passed the Senate and to a third reading in the House. An amendment similar to a feature in H.B. 3, which Farm Bureau vigorously opposed, was killed before Senate passage. This amendment sought to force local districts to match minimum foundation funds on a one-fifth and four-fifths basis, creating a continuing increase in local taxes to support a program set by the state with no control by local authorities. Responding to a telegram from the Farm Bureau Legislative Office in Austin, Farmer and many more county Farm

Bureaus wined their opposition strongly enough to knock this devastating amendment off the bill. Your school superintendent or county officials should be able to tell you how much money successful organized effort means to your school district in this one case. Thank Aubrey Ellison, chairman of your county legislative committee for prompt attention and action in this case.

H.B. 441, making possible continued use or surplus commodities, and consequent continuation of the school lunch program is supported statewide by Farm Bureau. Your county and State Farm Bureau also urge passage of S.B. 167 and its companion H.B. 427 in an effort to eradicate vesicular exanthema in hogs. This must pass to avoid jeopardizing the market for Texas hogs, since states to which we ship have already passed similar legislation.

Rhea Farm Bureau meets at the Parish Hall Friday night. We don't have their program, but it will be well worth your attendance.

Consider this: "Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge Him, and He shall direct thy paths."

Proverbs 3: 5-6.

The Friona Star— Editorially Speaking

"A vigilant press has made the American people the best informed in the world."

Monday Morning Musings Youth and Adults:

Nothing affects and stirs the soul of any community more than the activities of its youth - whether we refer to honors heaped on the youngsters or whether we go across the sheet to the misdemeanors, mistakes and flouted disregard of law and authority. Why? Because we must say, "That is MY boy" or "That is MY daughter".

And because of the ever nearness of the situation and the present acuteness of it, we offer no apologies for its discussion in the columns of this paper. We would not be worth our salt and the very ink on this sheet would be tainted if any other course were pursued.

—MMM—

For those who have repeatedly asked the following question we have an answer:

"Who must sign complaints when juveniles are picked up for offenses beyond the limits of the jurisdiction of the city officer?"

County Attorney Sam Aldridge stated Tuesday morning that he personally could and WOULD sign the complaints in any such instance when the local law enforcement officers brought the culprits before him. City Marshal Roberts assured him that he would be diligent in his part of the job.

This should clarify and solve the debated question provided the involved officials carry out their promises which we have reason to believe they will do.

—MMM—

We appreciated very much the manner in which the County Attorney conducted the Tuesday morning sessions directly involving seven local youths and indirectly affecting many more.

Mr. Aldridge first called upon the parents for an open and constructive discussion of the case at hand, pleading for their viewpoints and for their sincere cooperation, even questioning them as to

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Friona Star will be gladly corrected when brought to the attention of the publisher.

their conceptions of just disciplinary action. In the one and one-half hours devoted to this particular session, a "multitude of sins" were aired with the moderator finding it somewhat difficult to focus attention to the one case at hand. In fact, discussions ranged from the commendation by some parents of the local pool hall as a beneficial entertainment and moral force in the community to other subjects including alleged double parking of ye editor, the merits and demerits of particular school representatives, and the past offenses of "the other boys more guilty than mine".

We personally are convinced that much more could have been accomplished had each parent directed more concern toward "my own boy" than in trying the ridiculous number of cases not on the docket.

MMM

The truism has been brought home to many of us in recent weeks: It is so much easier and much more equitable for all concerned to remedy a wrong at its very beginning. Otherwise there are inevitable injustices and complications. AND we don't imply that the boys this week were unjustly punished - we mean that offenders in the past were unjustly ignored or coddled.

MMM

Suggestions for a POSITIVE approach to youth problems or programs are ever in order; bringing to mind some questions:

What are YOU AND I doing in the very real day to day incidents in Friona? What are the churches doing? Are any ministers present at the court trials or at the open forum discussions? What of the school board? What is the extent of the guidance and counseling work of the ministers, the scout leaders, even the city officials who definitely have social obligations in this field?

MMM

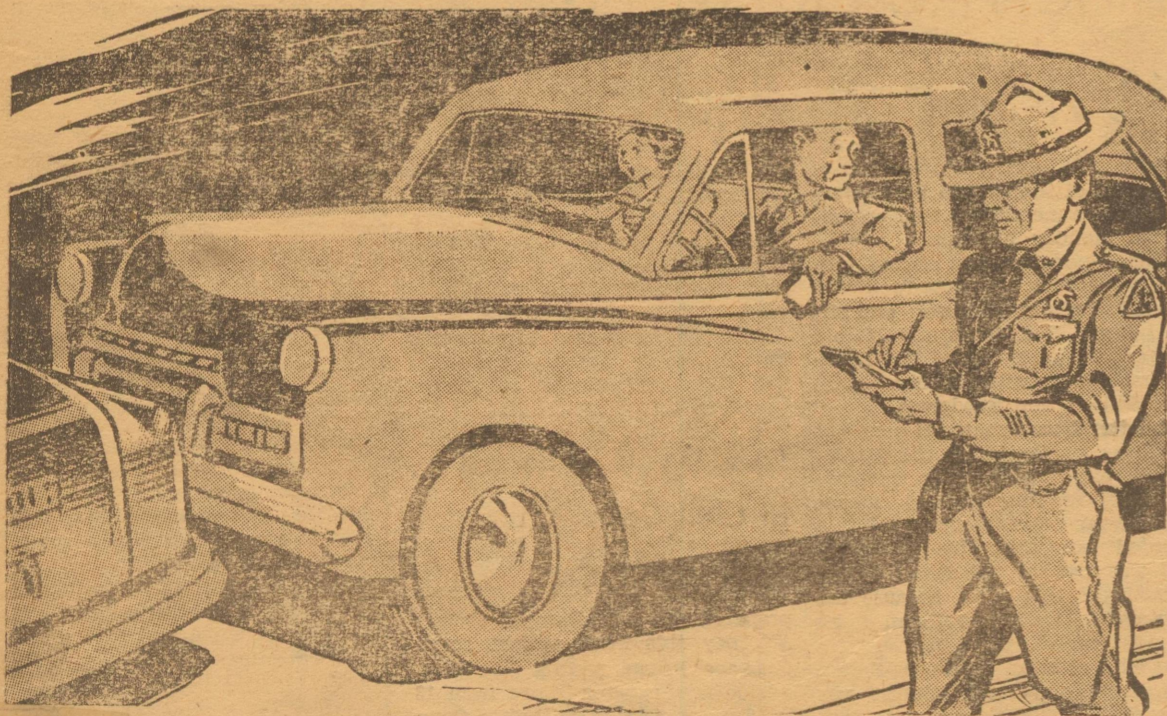

No Fees for April

Understand there will be no charge this month for the garbage and trash disposal during April. The city truck has been making pickups to determine routes to be taken, frequency of pickups needed, and the cost involved. The city dads are to take all these into consideration in announcing in the near future definite schedules and charges.

MMM

They missed the curve, the car was whizzin'-- The fault was hern. The funeral hisn. -Anonymous

WASHINGTON AND—

"Small Business"

—By C. WILSON HARDER

It's an old adage, "Give a calf enough rope and he'll hang himself".

It applies to bureaucrats too, as witnessed by current uproar over firing of Dr. A. V. Astin as head of Bureau of Standards by Commerce Secretary Weeks.

Secretary Weeks acted to uphold a deep seated American principle that a man is entitled to a fair and square trial before reaching a verdict.

But Dr. Astin decided to hang a small manufacturer out in Oakland, California, without benefit of trial. This manufacturer developed a product which he felt served a purpose: a belief shared by many customers including the U. S. Government who over a period of years liked the product so well it was used in all equipment going to Korea.

Under Dr. Astin's direction the Bureau of Standards decided the product though harmless, has no merit, on basis that products in past designed to do the same job did not have merit.

The insistence of the manufacturer to operate in the face of the Bureau, so infuriated the bureaucrats that the full guns of bureaucratic machinery were turned against the small manufacturer.

The Post Office stamped "Fraud" on the firm's mail. To the credit of the Postmaster General, he stepped in and stopped such action.

But as soon as Secretary Weeks fired Dr. Astin, government em-

ployed scientists raised a mighty hue and cry.

Secretary Weeks says he is not a scientist, and while pointing to conflicting views by many scientists on the product, confines his viewpoint to a condemnation of the procedure used.

The Oakland Better Business Bureau, zealous for the public interest as all Better Business branches, found no complaints from users. Secretary Weeks also feels non-harmful products should be allowed trial before jury of public approval.

But with belief in the Divine Right of Bureaus, this view is fought by entrenched bureaucracy.

While the uproar over the Dr. Astin's firing is based on this one case, Secretary Weeks believed there were many other cases of high-handed action. In government one incident does not cause dismissal any more than one swallow makes a summer.

There is ample evidence to disprove bureaucratic infallibility.

In the 1800's the then Commissioner of Patents recommended closing the office because "everything worthwhile that can be invented has now been invented."

In taking action in this case, Secretary Weeks has furnished independent business with the first tangible evidence of Administration's intentions to give independent enterprise a fair opportunity in the market place.

He has acted much as the honest, impartial sheriff acts when breaking up a lynching party, determined that before any action is taken, a fair and square trial of the evidence will be held. He shows determination to stop bureaucratic lynching of independent enterprise.

Letters to the Editor

Mr. Bert Neelley
Editor and Publisher
The Friona Star

Dear Sir:

I am a constant reader of your Monday Morning Musings and your Editorials and wish to state I have enjoyed reading same.

It was very gratifying to read your Editorial Comment on Vandalism in your April 23 issue. It is my belief that this should have been printed last fall when the first stoning of houses commenced. Nevertheless it is not too late so keep up to good work.

There is talk and rumors of an over-all curfew being considered. I am opposed to this as it would penalize those youngsters who do know how to act and display the training and discipline which they are receiving at home. I must say all in all we in Friona have a fine group of young people. For those who insist on Vandalism and Distraction and when caught for same, impose the cost of damage done, then place them under a personal curfew, poroled to their parents who in turn shall place a Bond that they will enforce said curfew.

Further, let's stand behind our officers, giving them a free hand to act, showing no favors or exceptions.

U.S. Fire Deaths Rival Korean Battle Toll

Fire killed almost half as many Americans in 1952 as have been lost in the entire Korean campaign to date, a report from the National Board of Fire Underwriters reveals.

Last year some 11,000 persons died as a result of fires in the U.S. Approximately 5,000 fatalities occurred in the home, with children the No. 1 victims.

Burns and scalds lead in deaths among women and children in the home. Such everyday accidents as an overturned pot of boiling water can cost an average of three lives every hour.

Experienced people—people who KNOW say the Classifieds are tops.

(Senator Lyndon B. Johnson, in writing from the Capitol, gives a weekly report on happenings in Washington as they affect Texas and Texans.

PEACE PROGRAM

A program for real peace was presented to the world by President Eisenhower in his recent address before American newspaper editors. The President spoke as the leader of the nation - not as the leader of a political party. He looked for ways of getting out of our difficulties - not for pointless arguments about how we got into them. He stressed the basic principles that unite Americans - not the partisan differences that divide them.

As your Senator - as an American - I support that kind of program. I am ready at any time to do whatever I can to help the President carry it out.

FLOOD CONTROL

Texas food control projects are threatened with drastic stretch-outs. Heavy cuts in appropriations are suggested in the revised budget for flood control and rivers and harbors, presented to Congress last week.

Suggested appropriation for the Dallas floodway is slashed from \$2,900,000 to \$750,000, that for the Fort Worth floodway from \$1,550,000 to \$1,000,000. These projects are designed to prevent flooding of the Fort Worth-Dallas area by the Trinity River. The cuts, if put into effect, will simply delay completion of the overall project. That delay could be disastrous. Who knows when the Trinity will flood again?

The revised budget cuts out altogether \$975,000 for the Galveston seawall. It would reduce the appropriation for the Garza-Little Elm Reservoir from \$4,935,000 to \$3,635,000. It proposes an appropriation of \$7,265,000 for the Texarkana Reservoir, compared with \$8,565,000 in the original budget.

POSTMASTER EXAMS

Postmaster vacancies in 80 Texas towns and cities have been announced. There may be more to come. All eligible registers were terminated when the Civil Service Commission, at the request of the new

THE CHIEF

DRIVE-IN THEATRE

"First in Parmer County - Unexcelled in the Area"

FRIONA

Half Mile West of Friona at Loop and Hiway 60

You Are Invited...

...to attend this first showing and every feature thereafter, resting assured that the best in picture entertainment will await you at THE CHIEF.

The management has long recognized the need of an outdoor theatre of this type to serve Parmer County—a place where families and the young folks can find within easy driving distance an outstanding drive-in theatre.

A concession room is provided where good snacks can be had at reasonable prices. Plenty of parking room within good view of the large screen has been provided. In fact, we believe THE CHIEF is a wonderful place for you to "come as you are" and relax in the long evenings to follow.

We have done all that we know to build the type theatre that you have signified as needed. The projection equipment and the screen are unsurpassed. Ramps are designed for easy vision. The individual speakers have the latest in volume control mechanisms. Rest rooms are easily accessible in the concession-projection building. Two roads, the loop and Hi-way 60 lead directly to the theatre site.

Won't you come out often?

AND A GREAT BIG WELCOME IS OUT AT ALL TIMES FROM A MANAGEMENT THAT IS SINCERELY APPRECIATIVE OF YOUR PATRONAGE.

Sincerely,
MARVIN LAWSON
Owner and Operator

Highlights and Sidelights FROM Your State CAPITOL

Judge Laughlin, a friend of Parr, was summoned on a resolution by Senator William H. Shireman of Corpus Christi. The resolution calls for an investigation of Judge Laughlin's conduct in office.

The judge had previously appeared before a House committee on the redistricting bill, and before a State Bar Association committee which was probing charges seeking to remove the judge from office.

A bar committee member reported "a very nice hearing." The judge commented: "Now I know how an innocent man feels when he goes to trial."

A House bill by Representative Bert Hall would increase the permit fees of beer and liquor dealers and set up a fund to fight alcoholism.

The bill has the support of the Texas Committee on Alcoholism. Half a dozen witnesses appeared for the bill at a session of the

house committee on revenue and taxation.

Art Stein, director of the New Mexico Commission on Alcoholism, testified that his state is providing clinical treatment for alcoholics at a cost of \$140 per patient, and is effecting cures or rehabilitating in 80 per cent of incipient cases.

Former Speaker Homer Leonard, representing the beer industry, raised the objection that the tax would fall on wet counties, while much of the state is legally dry.

In the House is a bill that would bring about changes in the election code passed by the legislature two years ago.

Passed by the committee was the bill, which would repeal cross filing, remove the requirement that candidates file their expense accounts, and provide for polls to remain open until 8 p. m.

Visitors at the capitol the other day were the Perrico quadruplets of Beaumont, the only male quads in the world.

The 23-year-old brothers, Anthony, Bernard, Carl, and Donald (ABCD) are on duty with the Air Force Reserve. They have just completed a tour of duty in Korea.

SHORT SNORTS: The Senate has a bill, already passed by the House, that would cut off salaries of state employees refusing to testify about their communist connections on the grounds that such testimony might incriminate them . . . Dual control of state hospitals — administrative and medical — is provided for by these salaries in the appropriation bill: executive director \$13,000 a year; mental hospital director, \$12,500; tuberculosis hospital director, \$8,700; educational director, \$7,500; and design engineer, \$7,500—Texas is going to have an official duck-calling champion, to be selected at Beaumont during the South Texas Fair. Making it official is a proclamation, by the governor.

(The above was continued from last week as a result of a shortage of space on editorial page.)

The Legislature seemed ready to boost teachers' salaries last week. Already the Senate has voted a \$600 increase for the teachers. The House moved in the same direction.

Where is the money coming from? That's a good question—the one that kept the House from taking final action on the teacher pay increase.

On Second Reading, the House passed a \$600 per year pay raise for the teachers. Then heard Representative Lamar Zivley of Temple, sponsor of the measure, say, "Whoa, slow down. We've got to pass a Tax Bill."

The Legislators have passed a General Appropriations Bill, providing for the expenditures of the state for the next two years.

That Bill takes up all the money in sight. If the State is going to spend any more money, there will have to be new taxes to raise it.

The State now guarantees teachers minimum pay of \$2,400 per year. The bill being considered by the Legislature would give them \$3,000.

To do that, there would have

to be additional state revenue of something like \$60 million to \$70 million for the next two years.

One prospect for getting the money was a tax on gathering natural gas. That tax was passed by the last session of the Legislature, but it was challenged by the gas companies, and is now being tested in the courts.

If the tax is found to be constitutional, the Treasury will get \$45 million. That would be enough to start the program for increased teachers' pay.

But if the Legislature passed a pay boost for the teachers without providing the money in some manner it would, as Governor Allan Shivers has said, be an "empty gesture".

Opposed to the Zivley Bill was Representative Joe Burkett of Kerrville, who said "This proposition has started off all wrong. I'm opposed to this Legislature telling the school boards you can't hire anybody unless you pay them what we tell you."

Burkett argues that "The people up there in my county in the Forks of the Creek know better what's good for them than anybody in this Legislature."

Burkett is author of a bill that would repeal the Gilmer-Aikin Law.

"The Gilmer-Aikin Program, the foundation fund, is socialism from the beginning," Burkett said at a committee meeting.

Under the Gilmer-Aikin Program, the state guarantees a basic standard of education to every child, regardless of whether he lives in a poor or rich district.

Burkett's Bill would distribute state money to the schools with out regard to the financial status of the various districts. The committee voted favorably on the Bill.

The House passed and sent to the Senate a Bill giving greater to the Texas Liquor Control Board.

Representative Obie Bristow of Big Spring is author of the bill, which gives the Board specific authority to close down indecent taverns for a number of stated reasons such as lack of running water, contributions to political campaigns by the tavern owner, conditions contrary to the health, peace, morals and safety to the people, and so on.

The Liquor Board is empowered to police beer and liquor establishments, and its officers work along that line, with the co-operation of local law enforcement people.

The Board issues permits and licenses to establishments which sell liquor, wine, and beer, and cancels those licenses for violations of the State Liquor Laws.

The Board is collecting agency for state taxes on alcoholic beverages. Resulting funds go to pay teachers, old age pensions, and other state expenses.

Also passed by the House was a Bill authorizing judges to send narcotics addicts to hospitals, to stay there until pronounced cured by their doctors.

Support for Texas and the other states interested in the Tidelands came from various state governors attending a meeting of the Interstate Oil Compact Commission at New Orleans.

The Commission, said Governor Edward Arn of Kansas, chairman, has "Steadfastly taken the position of state rights."

Governor C. Norman Burnsdale of North Dakota voiced apprehension that the Federal Government's doctrine of "Paramount Rights" to the oil-rich tidelands could apply to navigable rivers and lakes.

Stalled by a filibuster in the Senate was a proposed constitutional amendment to authorize the taxation of public water use, the revenue to go for conservation projects.

Senators Rogers Kelly of Edinburg and George Moffett of Chillicothe teamed up to hold the floor for 14 hours and prevent Senate consideration of the proposal.

The Senators' subject was a resolution calling for recognition of San Jacinto Day, but they referred to the water measure as an "Insidious Tax."

At 1 A. M. the Senate lacked a quorum, so Texas Rangers and Austin police had to round up enough members to supply the necessary number—at 3 a. m. Adjournment came at 4:15.

Another constitutional amendment had smoother going. The joint resolution calling for it, by Senator Jep Fuller of Port Arthur, was passed by both Houses and signed by the Governor.

The Amendment, if voted by the people, would lengthen the terms of district, county, and precinct elective officers to four years instead of the present two years.

That was the first proposed constitutional change to be passed during the present Legislative Session.

Still in the news was District Judge C. Woodrow Laughlin of Alice, who was investigated by a State Bar Committee.

Elected last year with the help of political boss George Parr, Judge Laughlin has been in trouble ever since. Recently a Jim Wells County Grand Jury complained to Governor Shivers that the Judge placed stumbling blocks in the way of its investigations.

Specifically, the Grand Jury referred to its inquiry into the killing of Jacob S. Floyd Jr. shot down in his garage. Floyd's father claimed that the slaying was a mistake and that he was the intended victim, not his son.

(continued on page 9)

new REO LP-gas engine is revolutionizing power irrigation!

NEVER BEFORE SO MUCH POWER, ECONOMY, DURABILITY, AND DEPENDABILITY FOR SO LITTLE MONEY!

The efficiency of Reo's new Gold Comet LP-Gas powered irrigation engine is truly amazing. The reason is simple. IT IS A 100% LP-GAS ENGINE . . . engineered, designed and built to take full advantage of LP-Gas characteristics.

The result is no loss of horsepower in conversion to LP-Gas . . . excellent fuel economy . . . and extremely low maintenance cost. The Reo Gold Comet incorporates maximum parts interchangeability for low cost maintenance. Inexpensive factory parts are easily installed by practically anyone with mechanical skill and experience.

REO'S GOLD COMET LP-GAS ENGINE AVAILABLE WITH RADIATOR OR EXPANSION TANK COOLING

The Reo Gold Comet LP-Gas engine has 331 cubic inch displacement . . . develops 93 continuous horsepower at 2500 rpm. You have a choice of radiator cooling, or an expansion tank type for remote location cooling.

USE THIS SENSATIONAL LP-GAS ENGINE FOR ALL YOUR POWER NEEDS
Typical services for which the Reo Gold Comet LP-Gas engine is suitable are:

- Oil field work
- Contractors' equipment
- Shovels
- Cotton ginning
- Hoists
- Compressors

printing that PLEASES The STAR

Governor Allan Shivers is shown preparing to sign an official memorandum proclaiming Texas Fine Arts Week April 18-26 and calling attention to the Fine Arts Festival to be held in Austin during that period. At right is Charles Umlauf, of the University of Texas Art Department and a member of the Texas Fine Arts Association's Executive Committee, with his sculpture of a young steer modeled in Texas clay which will be an entry in the general exhibition at the Festival. On the left is Mrs. Albert Fish, a member of the TFA executive committee. The Fine Arts Festival, to be held in Austin's City Coliseum, will include an exhibit of a million-dollar collection of "Old Master" pictures, on loan from New York's Metropolitan Museum of Art. These 20 renowned paintings will be shown in Texas for the first time. Mrs. Fish is chairman of the Metropolitan exhibit. Besides the old Masters, the Festival includes the work of important American painters, a contemporary Swiss Architectural show, and a presentation of the work of professional and amateur Texas artists and craftsmen, as well as public school art from primary and secondary schools throughout the State. School children attending the Festival in groups will be admitted free. Tickets for adults will be \$1.20 and admission for children not in class groups will be 45 cents.

Sweet Potato Volcanoes—Novel Way to Serve a Favorite Vegetable

As every woman knows, it's a day-in, day-out problem to present the same familiar foods in new ways that look appetizing, taste good—and to do it all with a minimum of fussing. That's why you'll enjoy Volcanoes. The very sight of the dish as it comes hot and browned from the oven stirs a quiver of anticipation.

The base is sweet potatoes whipped up with canned apple sauce, thus mingling two familiar and favorite foods for a new taste. Then beaten egg and cracker crumbs are blended in, and melted butter, nutmeg and salt. The mixture is sectioned, each part swirled and patted into a firm-standing little mound, topped blithely with a marshmallow, and then all are slid into the oven to brown. Quick and easy to fix, as you can see. Yet the result is a fine, fair dish to serve with meat, particularly pork chops or baked ham—since anything with apple sauce has natural affinity to pork.

Canned apple sauce goes a long way to make this the simple dish it is to prepare. Ready-to-use apple sauce is of a smooth consistency that mixes readily. Extra special in taste, too, since the apple sauce you buy in cans or jars is a combination of two or more varieties of tart, juicy apples, skillfully blended for flavor.

SWEET POTATO VOLCANOES

- 1 egg
- 2 cups mashed sweet potato
- 1 cup canned apple sauce
- 1 teaspoon nutmeg
- 1/2 teaspoon salt
- 1/2 cup cracker crumbs
- 1/4 cup melted butter
- 10 marshmallows

Beat egg; add sweet potato, apple sauce, nutmeg, salt, cracker crumbs and butter; mix well. Shape in 10 mounds on greased baking sheet. Place marshmallow on each. Bake in hot oven, 400 F., 10-15 minutes. Yields 10.

QUIZ

- What fruit juice is a quick refresher after the morning's work?
- Apple juice—its tart zing picks you up fast. Drink it well chilled.
- What is the juice for ladies with a keen eye to their weight?
- Apple juice. It has fewer calories than any other fruit juice.
- What juice makes a fine between-meal treat for Small Fry?
- Apple juice—because it doesn't spoil appetites.
- What juice is a heartening drink served piping hot on a cold day?
- Apple juice—especially when a bit of cinnamon stick is dropped into it while it's heating.
- What juice is enjoyed by every single member of the family, from Grandma down to Junior?
- Apple juice! Drink your apple a day.
- What juice is economical to buy?
- Apple juice—always modest in price. Comes in cans and jars, small and large, in every grocery store.

Announcing the great new SIX FOOT ALL-CROP Harvester

Features for the Harvest You Have Always Wanted

- New SIX-FOOT header.
- New Sturdier SIX-BAT reel, for smoother feeding action.
- New STEP-UP straw rack, handles a heavier volume, separates faster and cleaner.
- New rotary flail-type Straw Spreader—optional extra equipment.
- New Center Suspension Springs for header mounting, with quick-cleantout openings on lower draper housing.
- Hydraulic header lift, controlled from the tractor seat.

Here's a new, greater capacity harvester for home ownership.

It's a new ALL-CROP Harvester with many advancements that bring more pleasure and profit to harvest time.

In the new Model 66, you will find all the desired features that have made the ALL-CROP Harvester known and admired throughout the world.

In addition, the Six-Foot ALL-CROP Harvester has many new abilities. It will handle two wide rows of soybeans or sorghums. Crops flow in a broader, WIDE-FLOW stream to the famous rubber-cushioned bar cylinder.

A New STEP-UP straw rack boosts capacity, gives straw a faster, rougher ride; separates cleaner.

See this greatest ALL-CROP Harvester now. An early order means sure delivery. And we probably can allow you more for your old machine if we get it well ahead of harvest.

ALL-CROP is an Allis-Chalmers trademark.

**Nation's Leaders Sign Up
For United States Savings Bonds**

President Dwight D. Eisenhower signed a Bond-A-Month authorization card for Savings Bonds saleswoman, Mary Pickford during her recent visit to the Nation's Capital. They are shown above with Mrs. Eisenhower, who is the Honorary National Chairman of the Women's Advisory Committee for Savings Bonds.

Following the example of the President, House Speaker Joseph W. Martin, Jr. also signed up with Miss Pickford for the regular purchase of Savings Bonds.

Miss Pickford serves as Associate National Chairman of the committee which is currently conducting a Women's Crusade for Security, a campaign to increase sales of United States Savings Bonds through the systematic Bond-A-Month Plan.

**School Scheduled
For Deaf Children**

A ten day session for the parents of pre-school deaf children has been planned for and applications are now being taken. This session is to be held at the Texas School for the Deaf in Austin.

Any parents and pre-school deaf children who are residents of Texas will be potentially eligible to attend. Formerly, only mothers and the deaf child was eligible, but last year the school enrolled two fathers, so fathers are being included in the planning of the session of this school. Preference will be given to children who become six years of age by September of this year.

This summer school is not an attempt to train parents as teachers, but to help clarify the problems and development of a deaf youngster prior to his entering school. Certain educational leaders have recognized the fact that there is no place available for the counselling of parents confronted with deafness of their child and their need for medical, psychological, and educational counselling. This summer school is planned to present people of authority who are professional in each of these areas.

More information concerning the summer school may be obtained by calling the State Department of Public Welfare in the Deaf Smith County Courthouse, or by writing to the Texas School for the Deaf at 1102 South Congress, Austin 4, Texas.

Anyone in the community knowing of a deaf child and his parents should make this information available to them. Incidentally, the only cost to these parents and their deaf child is the transportation to and from Austin.

Sponsors of this summer school are the University of Texas; Texas Educational Agency; the Fogg Foundation; the Texas School for the Deaf; and Department of Public Welfare.

SALES RESISTANCE NIL—

Jodok Concludes Resume of Pioneer Panhandle Purchases

There was another little episode that occurred during the night which caused considerable uneasiness among the many soliciting agents, when an elderly man who said he was from Iowa, was seized with a severe attack of asthma. He said he was subject to it, and the cold damp air had brought on the attack, and he was suffering severely and it seemed for a while that he might pass out, and it was forty miles from a doctor and he had forgotten his medicine. Those men sure did work

with him, doing everything that they knew of that might give him relief, and they finally did so, and all was peaceful during the remainder of the night. No more wampuses and no more asthma.

At the peep of morn all were out to see what could be seen. There was about three inches of snow on the grass and the sun arose so brightly that it seemed it could not be more than two or three miles away, and by ten o'clock not a spot of snow remained.

As soon as the first call had eat-

en their breakfast and stepped out side and across the road to the little land office, they were loaded into cars and away they sped to see the country. Soon cars were seen darting across the prairie in any and all directions, stopping at intervals to show a tract ranging from a section to half and quarter sections. As soon as a man had made a selection, he was rushed back to the office to sign the contract, and others were taken on and away sped the auto. One of the first cars to leave the office drove about two miles to a quarter section and stopped for he men aboard to take a look at the land. During the few minutes there one of the agents said: "This quarter is already sold to that man from Illinois. He signed the contract before we left the office and before he had seen the land. A man in another car looked across at him and asked if that was true, and the man nodded his head in assent. Then the other man - supposedly to be from Illinois also, as all Illinois people are "suckers", - said it is a good thing you did so, for if you had waited to come out first you would not have gotten it, for I would have bought it myself. He bought the quarter adjoining it on the north. It is positively known that this man - Sucker No. 2 - had stated on the way out here that he was positively not going to buy any land. He was making the trip just to see the country. But that is the way it was with people who come to this fine Panhandle Country. They cannot resist buying some of it.

So this program continued thru the day and by the time the sun was getting low in the west, each member of that excursion group had been given a ride over the surrounding territory, and it is reported that most of them had bought land.

The representatives of the Geo. G. Wright Land Company stated that it usually required at least two days to escort their guests over the territory, but this being a small group, and by working early and hard they had been able to complete the job in one day, and they began loading their cars with their guests - many of them now their

When the bridge club meets at your house for lunch, surprise them with a truly ingenious dish. One that is as nutritious as it is tasty is Biscuit Rarebits. Try this one for a real treat!

Sauce
(makes 6 servings)
6 tablespoons margarine
¼ cup minced onion
6 tablespoons flour
½ teaspoon salt
2 cups milk
dash of pepper
¼ cup shredded cheese
1 8-ounce can tomato sauce, OR
1 can condensed tomato soup
12 slices broiled bacon, diced
Melt margarine in top of double boiler. Add onions, cover and let cook for 10 minutes. Stir in flour, salt and pepper, mixing smooth. Add milk gradually and cook, stirring constantly until thickened. Add ¼ cup cheese and stir until melted. Mix in tomato sauce or tomato soup. Cover and keep hot over hot water while making biscuits.

Biscuits
(Makes 6 3-inch square biscuits)
2 cups sifted flour
2½ teaspoons baking powder
½ teaspoon salt
¼ cup shortening
½ cup shredded cheese
½ to ¾ cup milk
Sift together flour, baking powder and salt. Cut or rub in shortening until mixture is like coarse cornmeal. Mix in cheese with fork. Add milk to make a soft dough. Turn out on lightly floured board or pastry cloth, and knead lightly 30 seconds. Pat or roll out into a rectangle 6 inches wide and 9 inches long. Cut into 3-inch squares. Bake on ungreased baking sheet in hot oven (450°F.) 12 to 15 minutes. To serve, split biscuits and arrange lower halves on hot serving dishes. Ladle rarebit sauce over biscuit. Sprinkle with diced broiled bacon. Cover with biscuit tops, then more rarebit sauce. Garnish with broiled bacon bits and remaining ¼ cup shredded cheese. Serve hot with extra sauce and green onions and radishes.

patrons - for the return trip to Friona, and that job was accomplished by about ten o'clock that night, and as soon as the last one was aboard, the train began moving back toward Kansas City.

So ended a very pleasant - and it is hoped - profitable excursion to those who purchased land here that day.

Just One Among 'em

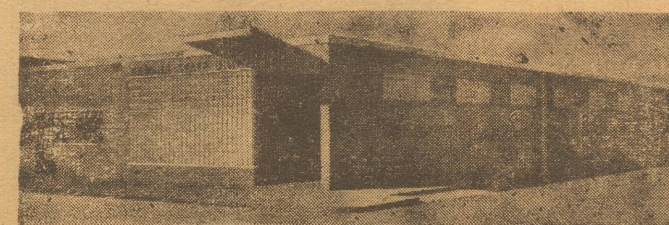

What Is Thrift

???

IF YOU PRACTICE REAL THRIFT YOU WILL FIND IT INCLUDES THESE THINGS:

1. SPEND BUT DO NOT WASTE. This means the careful use of money, of materials, of time and energy.
2. SAVE, BUT DO NOT HOARD. Set aside regularly a part of your pay so you will have a financial reserve to see you thru emergencies and to enable you to take advantage of opportunities which may come to you.
3. Do not get in debt beyond your ability to pay. Remember there is always a day of reckoning.

to the price they could have received from the Commodity Credit Corporation had they elected to come under the price support program. Therefore, this bill was introduced for the purpose of requiring the Commodity Credit Corp to take this crop into the loan program, even though the farmers in southern Maryland had by an almost 3 to 1 majority elected to take their chances on the open market and had agreed to plant as much tobacco as they desired. It reminded me of the case of the negro boy who was hauled before a court to answer a charge. The judge asked him if he wanted to plead guilty or not guilty. The negro boy told the judge that he would like to hear the evidence first. That is exactly the situation that the Maryland tobacco farmers were in. They want to wait until the crop is in and find out what the market is before they decide on the support program. If this policy should be followed on basic commodities as a general farm price support program, it would bankrupt this country in no time at all. And if the Maryland tobacco farmers are entitled to such a program the farmers raising other basic commodities would not be entitled to the same treatment. This type of legislation would add more fuel to the fires of those who would destroy the basic farm price support program than any other thing I can think of. The strange thing was that most of the members of the Congress realized it, but it appeared that certain factions had determined to force this bill through the House simply because Secretary of Agriculture Ezra T. Benson had put his stamp of approval on it. The bill was debated for two hours, or that is the proponent of the bill argued for it for 98 minutes and the opponents got to argue about 22 minutes. Then the bill was read for amendment and a motion was adopted by voice vote which limited further discussion of the bill for amendment to approximately 25 minutes. The few proposed amendments to the bill which were intended to do away with its bad features were shouted down on voice vote and soundly defeated on a teller vote, neither of which votes are recorded. Then on final passage of the bill a record vote was called for and enough members were in favor of the record vote to insure it. On the vote on final passage of the bill it was defeated by the resounding margin of 213 to 110.

During the debate it was brought out by one of the Mississippi Congressmen who was on the Agriculture Committee that during the hearings on the bill, not one of the 71 per cent of the farmers who voted against coming under the support program appeared on behalf of the bill. He explained this by saying that this 71 per cent was probably a bunch of Washingtonians who are farming on the side. In other words, city farmers who operate some of these farms merely for the purpose of saving some money on income taxes. They thought that they would make a killing in the tobacco market, and when they found out that they were not going to do this, they wanted the taxpayer to bail them out. Passage of this legislation could have easily endangered the entire basic farm program for which so many of us have fought. I was somewhat amused at some who supported this bill and who have been screaming about creeping socialism. I thought they were against creeping socialism, but from the looks of this bill it appears that what they wanted to do was to speed it up.

THE DAR

The DAR convention has been in full swing in Washington for the past week. Mrs. Clyde Warwick of Canyon, Mrs. J. A. Brannon and Miss Wilida Neely of Amarillo attended. I had the pleasure of having lunch with them in the House Restaurant today, together with

Postmaster General, "raised standards" for postmasters. I wrote the Postmaster General to ask (1) if postmasterships are to be denied because of political affiliations to persons who have passed Civil Service examinations recently but whose appointments have yet to be confirmed, and (2) if postal appointments are to be removed from Civil Service. The Deputy Postmaster General replied that "No one is being denied opportunity to compete for a postmastership because of political affiliations." He said standards had been raised because "The position of postmaster is much more important than has been generally recognized." It is interesting that the Republicans didn't recognize the importance of postmasters until they started making the appointments. He also wrote: "There is no intention of removing from office any of the postmasters appointed during the previous administration if they are now performing and continue to perform satisfactory service."

TEXAS STATE SOCIETY

President and Mrs. Eisenhower were honor guests at a Texas State Society 'brunch' last Sunday. We felt it highly appropriate that our first native Texan President should attend this post-San Jacinto Day celebration.

WITH TASK FORCE

Serving aboard the attack aircraft carrier USS Philippine Sea on her third tour of duty in Korean waters is James C. Mears, aviation boatswain's mate third class, USN, son of James H. Mears of Route 1, Friona, Texas.

Before entering the Navy in August 1950, Mears attended Friona High School.

The carrier is serving with Task Force 77.

Mrs. Elsie Livings and son Donald Livings of Los Angeles who have been visiting in the A. O. Drake home and with other friends, left for home Friday morning.

Donald met his wife and little daughter in Amarillo as they flew back from Chicago where they had been visiting.

TEXAS HIGHLIGHTS

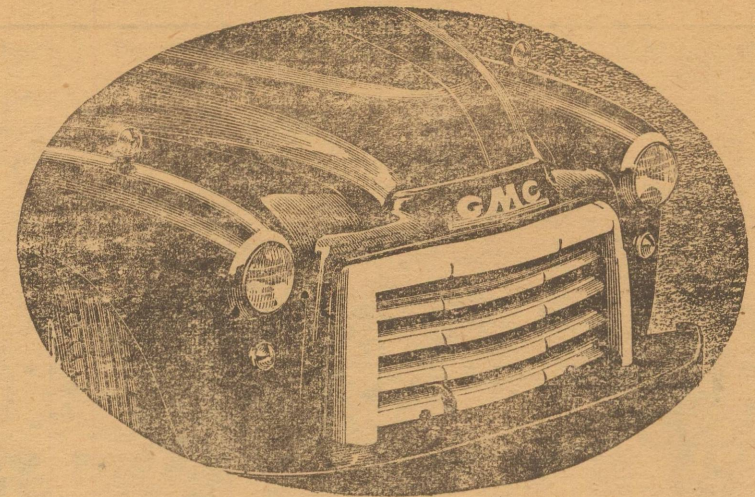

CONTINUED FROM PAGE 2

The same Grand Jury indicted Judge Laughlin for selling his law library to the county for a price that was said to be high. The Judge re-purchased the books and the case was dropped.

Directors of the State Bar Association heard a report on Judge Laughlin's activities when they met in Dallas, end of the week. The report was made by a special investigating committee headed by J. G. Davis of Huntsville. It stated, among other things, that certain acts of the Judge were "reprehensible in every respect." The Board asked the legislature to investigate and prescribe "suitable punishment."

Then a resolution was introduced in the legislature to remove Judge Laughlin from office. This can be done by a rarely-used process called an "address." Two-thirds of the members of both the House and Senate have to approve it before the governor is required to remove the judge.

S. B. and Frances Whittenburg of Amarillo, former Lt. Governor Walter Woodul of Houston, my good wife, Jean, and four year old daughter Mary Catherine. It was a most pleasant experience and I obtained much information about the great work that the Daughters of The American Revolution are doing. I wish we could have had more from the Panhandle here. We also had the honor of seeing Mr. and Mrs. Floyd Hubbard of Panhandle, who are driving through Washington.

CHALLENGE TO THE INDUSTRY

-the new GMC 400-27 that outpowers and outclasses its field

GMC's new 18,000 GVW hauler not only dwarfs trucks of 16,000 and 17,000 GVW, but overshadows—and underprices—those rated at 19,000.

In fact, the GMC 400-27 is designed to outhaul any truck up to 19,500 GVW. Its new engine of progressive design is stripped of excess weight, yet built stronger to absorb the stress of really high compression. It gives you brisker

response, more power and mileage from regular gas.

It includes, as standard equipment, many features that are optional at extra cost on other trucks.

As a tractor—or as a truck—it can increase your hauling ability, give you impressively better equipment—and save you both purchase and operating money to boot.

130 GROSS HORSEPOWER—on moneysaving single carburetion. Valve-in-head engine, 270 cubic inch displacement, 7.5 to 1 compression ratio.

2-SPEED ELECTRIC SHIFT REAR AXLE—15,000 pounds capacity, is coupled with a 4-speed Synchro-Mesh transmission, putting 8 forward speeds at the driver's command. (Single-speed axle available at a saving; 5-speed transmission optional at extra cost.)

30,000 GCW—137" or 149" wheelbase in tractors; 161", 179" or 197" wheelbase in trucks (9- and 12-foot platform or stake bodies optional).

ALSO STANDARD EQUIPMENT: 4,500 pound capacity front axle—Hydrovac-actuated brakes—Moraine M-400 main and connecting rod bearings—Tocco-hardened crankshaft.

Your key to greater hauling profits

Fed cattle prices reacted and well-finished steers and yearlings sold strong to 50 cents or more higher at Fort Worth Monday. Three loads of steers scaling 1,064 pounds from Castleberry Bros., Donley County, cashed at \$21.50, appearing fully 50 cents up. Two loads of steers from Post, Texas, averaged 1,166 lbs. and were lot

mates to steers sold here last week. Monday they brought \$20, against \$19.50 a week ago.

Emphasizing the good outlet for truly fat young cattle was a shipment of Crossbred Brahma yearlings and heifers from J. B. Jones of Marquez (Leon County, Texas). These young cattle averaged just over 700 pounds and the price was

\$20. Creepfeeding of calves to produce beef calves comparable with these is being planned by cattlemen throughout the territory and it looks at present like the best bet since Northern feeders claim they are going into the loan with lots of their corn this year. Some sources in the Middle West are saying they feel that stocker calves and yearlings should be bought around \$12 to \$15 this Fall under present conditions. If such a market as that develops it will be good business for cowmen in this area to figure

on selling "beef" calves by creep feeding this Summer.

Best stocker calves sold at \$16 to \$19.50 at Fort Worth Monday. Yearlings sold at \$18 down for stocker purposes. Stocker cows drew \$11 to \$15. Fat steers and yearlings of good and choice kinds sold from \$18 to \$22 and common, plain and medium butcher cattle drew \$12 to \$17, some shells lower. Fat cows drew \$11.50 to \$13, a few to \$15.50. Canners and cutters drew \$8 to \$11.50. Bulls cashed at \$10 to \$15. Fat calves drew \$15 to \$22, others \$8 to \$15.
