

# The Friona Star

OFFICIAL NEWSPAPER OF PARMER COUNTY, TEXAS  
FRIONA, PARMER COUNTY, TEXAS, FRIDAY, AUGUST 23, 1935

Vol. 10—No. 5

## Cogitations & Aphorisms of Jodok

This being the last issue of the Star previous to the "Amendment Election of Saturday of this week, I will proceed, as I promised, to give the readers what I consider a summary of Dale Miller's discussion of the seven proposed amendments to the State Constitution, which reads as follows:

"The combination of some resolutions which are too broad in their grants of legislative power, and others which are definite undesirable in principle, has thus conspired to bring before the people of Texas a slate of proposed amendments which is just about as dubious a collection as ever lined up for public inspection. It may be that the public's traditional suspicion of constitutional revision has at last been justified. The Weekly has always deplored the tendency of the people to 'Vote 'em all' or 'Swat 'em all' by permitting one popular amendment to carry the entire slate through, or permitting one unpopular proposal to drag them all to defeat. But, leaving out of consideration the repeal amendment—which is so prejudicial in nature that the individual mind can scarcely be veered from its moorings in either direction—the rest of the slate should perhaps be made to walk the plank."

"Some of the amendments are perhaps not so bad as the article may have seemed to paint them. But it is nevertheless wise to consider not only the specific changes suggested by these particular amendments, but also to ascertain the direction in which they subtly lead. Taken as a whole, their prevailing flaw is that they tend to undermine constitutional safeguards against the hazards of practical politics, by injecting into practical politics questions of such momentous importance that the State Constitution for nearly sixty years has kept them inviolate in protection of the public wealth."

The above quotation is from Dale Miller, associate editor of the Texas Weekly, and I am not advising my readers, (if there be any) to vote either with or against Mr. Miller's view point, but merely to help any who may care to do so, to reason them out for themselves and to vote accordingly.

### DALLAS PEOPLE HERE

Mr. and Mrs. Roy L. Smith and small son, of Dallas, and Mr. Bill K. Hulsey, of Tulsa, were here visiting W. C. Fallwell and family last week.

During the time they were here they visited the Carlsbad Cavern and were accompanied by Miss Edna and Mr. Ardene Fallwell. They all enjoyed the trip and the view of the wonders of nature.

### HOME FROM VACATION

Frank A. Spring and Dan Ethridge, who spent all of last week in California on a vacation trip, returned home Sunday night.

They express themselves as having spent a most enjoyable vacation, having visited among many other interesting places, the Exposition at San Diego and made a trip to Catalina Islands, which they consider a greater sight than the exposition.

### RETURNED FROM VACATION

Mr. and Mrs. Merle Syvester returned Monday from a short vacation visit with relatives and friends near Abilene.

Merle says they had a most enjoyable time while there and were successful in catching all the fish they cared to eat.

### JUNIOR CLUB BRIDGE TOURNAMENT

The Junior Womens Club sponsored a bridge tournament last Tuesday evening in one of the Kingsley vacant houses, for the purpose of raising funds for the club.

There were twelve tables of bridge and two tables of "42". At a late hour refreshments of ice cream and cake were served to about fifty and all departed declaring a very enjoyable evening.

J. M. Simpson, of Amarillo, who is now representing the Clark-Maverick Company, was a business visitor here Monday.

The 1935-36 program booklets for the Junior Women's Club were received through the Star office and delivered to the program committee this week.

G. (Preach) Cranfill, manager of the Santa Fe Grain Co. elevators here, returned Monday from his vacation trip.

### HOMELAND DEMONSTRATION CLUB NEWS

The Homeland Demonstration Club entertained the State Line Club Tuesday afternoon, August 13, in the club room in the Syndicate Hotel.

Home grown flowers decorated the room. The program consisted of the following:

Song—"How Do You Do?"

Club Prayer and Pledge—Mrs. V. L. Todd and Mrs. E. Lipham, leaders.

Song—"Blest Be the Tie," with violin accompaniment by Miss Conline Matthews.

History of Club—Mrs. V. Reneau.

Music—Ray Matthews, violinist.

Recreational Report of Short Course—Mrs. L. N. Ritter.

Games and visiting.

Refreshments were served to the following: Mmes. Buck Ellison, E. M. Ware, Frank Peach, Lee Osborn, Andrew Moorman, and the Misses Mildred Osborn, Leona Osborn, Gladys Bell, Sybil Bell, and Louise Mooreman, all of State Line, and Mrs. A. H. Howell, of Water Valley.

Mmes. V. L. Todd, E. B. Brannon, H. W. Matthews, Ella B. Lipham, A. H. Boatman, D. Bolte, T. A. O'Brian, E. Adams, L. N. Ritter, and Misses Connie Matthews, Dorothy Brannon, Loladoris Adams, and Julia O'Brian, of the Homeland Club.

Mr. and Mrs. Carl Galloway, of Salt Lake City, arrived here Monday for a short visit with Mr. Galloway's brother, Tommy Galloway, and other relatives and friends.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. Lewis of near Greenville, is here this week visiting his son, Henry Lewis and wife, and other relatives and friends.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

Mr. and Mrs. J. Harlin O'Rear, of Goodnight, arrived here Monday afternoon for a two days visit with Mrs. O'Rear's parents, Mayor and Mrs. F. W. Reeve.

### STATE ENGINEERS HERE

Two engineers from the State Highway Engineer's office at Lubbock were here Thursday and Friday of last week checking up on the field notes of the former survey of State Highway No. 33, or that part of it that passes through Friona.

Messrs. Upton and Potts, deputies in the District office were here on Thursday and they were accompanied by Chief District Engineer, James on Friday. These men, however, could give no information as to when the contract for the Parmer County part of the highway would be put up for bids, nor as to when work will begin on it. They only knew that they had been instructed to check up and verify the field notes on same.

### YORK-GILBREATH

A very pretty wedding ceremony was performed Sunday morning, August 18, at 9:00 o'clock in the parlor of the pastor's home of the Baptist church, for Miss Wilma York and Rufus Gilbreath, Rev. David E. Moore, pastor, officiating.

The bride on this happy occasion is the daughter of Mr. and Mrs. C. D. York, whose home is four and a half miles southeast of Friona, and is one of Friona's most popular and highly esteemed and accomplished young ladies, she being a graduate of the Friona High School of the class of 1934. Her father, C. D. York, owns and operates a 400-acre farm on which the family lives. She is also a member of the Friona Baptist church and an active member of the B. Y. P. U. and Sunday school and takes a leading part in all the activities of the church.

The groom is a prominent and prosperous young business man of Muleshoe, being connected with his father in the operation of a large grocery and feed store in that city. They also own and operate a large 480-acre farm and a half mile northeast of Muleshoe, where the happy couple will make their home for the present.

Following the wedding ceremony a sumptuous wedding dinner was served at the home of the bride's parents at noon, and immediately thereafter the bride and groom departed for a short "honey-moon" trip, which will include a visit to Carlsbad Cavern and other places, returning to their farm home the latter part of this week, where they will be at home to their many friends.

The Star heartily joins with other many friends of these splendid young people in wishing for them a long happy and prosperous wedded life.

### DROUGHT FEED AVAILABLE

Brought feed is now available to Parmer county farmers and may be secured at any time from the supply now on hand at Friona.

This included alfalfa hay, oats, and mixed feed, which has a high feeding value, is priced at \$20.00 a ton. Terms can be arranged where necessary.

This feed is bought from Government Rehabilitation families, giving them a means of paying their debts and passed on to other sections not yet so fortunate.

On Scott is in charge of the local feed sales and can be found at the Friona Supply Company, and will be glad to discuss the needs of those deserving feeds.

### BAPTIST CHURCH NEWS

Sunday school each Sunday morning at ten o'clock and worship and preaching services at eleven o'clock a. m. and eight o'clock p. m., and B. Y. P. U. each Sunday evening, to all of which services the public is most cordially invited.

On last Sunday evening the B. Y. P. U. presented a Radio Missionary program which was thoroughly enjoyed by all present.

Rev. Moore, who has charge of the intermediate boys organization, treated his boys to an outdoor party one night last week, which was held about four miles out in the country. The boys were taken out in cars, but the cars returned home leaving the boys for a four-mile hike to their homes following the entertainment at the party. This will be repeated once each month, but only boys passing a certain test in church work will be included in his party.

### BIBLE SCHOOL CLOSSES TODAY

An hour's program and a display of handwork of the children attending the ten-day Vacation Bible School at the Congregational Church at 8:30 p. m. Friday will bring to a close the school being conducted by the Methodist and Congregational Churches for the past two weeks.

The program will include songs, a playlet, and Bible knowledge gained in the school, and promises to be of interest to all who are interested in the children.

Enrollment in the Vacation Bible school has increased from thirty-eight the first day to ninety-three children for the second week of the school.

### CONGREGATIONAL CHURCH

The regular Sunday school sessions at 10:00 o'clock each Sunday, with the worship services following at 11:00.

Last Sunday Mr. Jess Mitchell, of Muleshoe occupied the pulpit and delivered another of his highly appreciated and instructive sermons. In the evening Mr. Edgar Rice, who is instructor in a missionary college in Mississippi, favored the congregation with an interesting and highly appreciated stereopticon lecture on astronomy.

The men's Study Class meets regularly each Sunday morning at the parsonage for their usual discussion of important topics.

The congregation has not yet secured a pastor and the program committee met on Tuesday evening and prepared a list of leaders and subjects for each Sunday during the remainder of the year.

## REPEAL AND PENSIONS TO AGED ISSUES

### Textbook - Scholastic Change Proposal Included

Texas go to the polls Saturday to vote upon seven constitutional amendments.

Polls will be open from 8 a. m. to 7 p. m. Absentee voting does not indicate that halting will be as heavy as in years when candidates are out for office.

However, with so many important issues at stake, it is probable that voting on election day will be heavier than some officials believe.

Several propositions are attracting considerable attention. Old age pensions and repeal of prohibition are interesting many voters in this county.

The seventh amendment has two clauses, although only one is mentioned in the caption, which states that it permits the furnishing of free text books to every child of scholastic age attending any

**Burial in Arlington Cemetery**

Confederate veterans may be buried in Arlington cemetery under the following conditions: "Persons dying in the District of Columbia or in the immediate vicinity thereof who have served in the Confederate armies during the Civil war, may be buried in the Confederate section of the Arlington National cemetery without additional expense to the United States, upon the certificate of Camp Numbered 171, United Confederate Veterans of the District of Columbia, that such persons are entitled to burial under the authority given in this section; Provided, that all such interments shall be under the supervision and subject to the approval of the secretary of war."

**How Plants Get Their Odor**

Essential or aromatic oils occur in plants in special cells, or special collections of cells called glands. They are the basis of practically all the odors, including the fragrance of flowers, and serve to guide insects in connection with cross-pollination. Chemically they are in part hydrocarbon, or may also contain some oxygen, being formed, without doubt, from carbohydrates.

**Catlin's Indian Gallery**

George Catlin, the famous American artist, died at Jersey City, N. J., December 23, 1872. His 500 portraits from the life of American Indians are in the National museum at Washington, D. C., constituting what is known as the Catlin gallery. About 400 sketches are in the possession of the American Museum of Natural History, New York city.

**Poet-Laureate in England**

There is no authentic record of the origin of the office of poet-laureate of England. According to Warton, there was a versificator regis, or King's poet, in the reign of Henry III (1216-1272), and he was paid 100 shillings a year. Geoffrey Chaucer (1328-1400) assumed the title of poet-laureate, and in 1380 got a royal grant of a yearly allowance of wine.

**Use of Title "Honorable"**

The title, "honorable," should be used in addressing letters to the following: Governors, cabinet officers, senators, representatives, American ambassadors, American ministers, secretaries to the President, assistant secretaries of the executive departments, Judges of the Supreme court.

**Pipes Shaped Like Cigars**

The members of many primitive South American tribes, when smoking, do not use pipes but whiff their tobacco in cigar form. The smoking technique of the ancient Mexicans was of the same order, the outside leaf of their cigars being replaced by a tube. —Gas Logic.

**Porto Rico Insular Possession**

Porto Rico is an insular possession of the United States, and its native inhabitants, who are not Spanish subjects, are American citizens by virtue of an act of congress approved March 2, 1917, which bestowed citizenship by collective naturalization.

**Americans Only for Presidency**

None but native Americans are eligible to the Presidency; but children of American citizens, born during sojourns abroad, are legally regarded as natives of this country in so far as this and all other civil rights are concerned.

**Stiffening of Dead Animals**

The stiffening of the dead animal, known as rigor mortis, occurs at varying periods, but always relatively shortly following the cessation of life. Its occurrence is more rapid in warm weather.

**Hawaii's Legislature**

The Hawaiian legislature consists of a senate of 15 members, elected for four-year terms, and a house of representatives of 30 members, elected for two-year terms.

**Largest Salt Lake in World**

The Caspian sea, the largest salt lake in the world, has no connection whatever with the ocean. Its surplus waters are lost through evaporation alone.

**Fear Mingled With Affection**

"Fear must be mingled with affection," said Hi Ho, the sage of Chinatown. "No affection can be sincere unless it carries with it the fear of offending."

**Old Mill Is Youth's Hostel**

Houghton mill, erected in the 17th century on the Ouse between Huntingdon and St. Ives, England, is operated as a youth's hostel.

**Eskimo Chippewa Term**

The word Eskimo comes from a Chippewa term signifying eaters of raw fish. They call themselves Inuit, meaning people.

**First Gold Miners in California**

The Franciscan fathers mined gold in California in 1812, or 36 years before the discovery by James Marshall which started the great gold rush.

**Americans Use Much Paper**

The average American uses his weight in paper each year, while the average Russian uses less than 10 pounds.

**The Putlog**

The putlog is one of the short horizontal pieces of timber supporting the flooring of a scaffold.

**The White House**

When first provided for in the original plans of the city of Washington, the executive mansion was designated "The Palace." When built it was called "The Executive Mansion." When the British troops invaded Washington in the War of 1812, they pillaged and burned the Executive Mansion, and left it blackened with ugly scars. When the Mansion was rebuilt it was covered with white paint to hide those scars, and it was popularly called "White House." That name was made official about 100 years later when President Theodore Roosevelt had it engraved on his stationery.

**Presidents Out of U. S.**

Presidents who left the territory of the United States while in office included: Roosevelt visited the Panama Canal Zone and went to the City of Panama; Taft also visited Panama and crossed the border into Mexico, dining with President Diaz at Juarez; Cleveland, on a fishing trip, exceeded the boundary of the United States; Wilson went to the Peace conference in Europe; Harding visited British Columbia in Canada; and Coolidge went to Cuba.

**Tennyson Disliked Criticism**

Tennyson published a small volume of poems in 1830, the year before he left college, and another volume in 1832. They were both severely criticized. Blackwood's Magazine called some of the lyrics "drivel," and Carlyle characterized the esthetic verse as "lollipops." This criticism caused the poet to remain silent for nearly 10 years.

**Danger in Crutches**

Of the 5,000 school children in this country who have lost one or both legs, less than half are provided with artificial limbs, says a teacher of orthopedics, adding the warning that long use of crutches may mean improper growth and development of a "crippled attitude" in a child.

**"Printed at Government Expense"**

The distinction, "Not printed at government expense," used over a speech of a member of congress, means that the member has himself paid for the printing of the speech. When a member has speeches printed for his own use these are printed at his own expense.

**Billions Have Lived and Died**

The number of persons who have lived and died on this earth since the dawn of recorded history, some 6,000 years ago, is approximately 40,000,000,000, or only 20 for every individual in the world today, writes D. E. Moore, Jeanette, Pa., in Collier's Weekly.

**Use of Double Negative**

In Anglo-Saxon, Greek, French and some other languages, the double negative acts only as a negative intensifier. In modern English it destroys the force of the real negative; in other words, two negatives make an affirmative.

**Father of American Botany**

John Bartram, eminent American botanist (1688-1777), is frequently called the father of American botany. He founded the first botanical garden in America, and Linnaeus termed him "the greatest natural botanist in the world."

**First Gunpowder Mill**

The first gunpowder mill in America was operated by Edward Rawson, to whom the General court of Massachusetts granted 500 acres at Peccot, Mass., June 5, 1639, on which to erect a powder mill.

**Fur Real Business in Canada**

Fur-bearing mammals of Canada, which produce annually 10 to 20 million dollars worth of raw fur, form the whole income of many tribes, particularly in the far North.

**White House Visitors Checked**

The number of guests received at the White House parties and receptions are checked by an attendant who uses a small instrument which he holds in his hand.

**Invented Endless Paper**

In 1800, a Frenchman conceived the idea of making an endless web of paper by introducing a water suspension of pulp onto an endless moving belt of wire.

**The Focus of Fashion**

The focus of fashion since the world began has been successively Babylon, Miletus, Athens, Alexandria, Rome, Constantinople, Florence, Venice and Paris.

**Whale Produces Much Oil**

One whale of average size will supply 40 tons of oil, used for lubrication and other purposes, and 70 tons of by-products from the flesh and bones.

**Has More Rain Than Snow**

The average annual precipitation in Ohio is 37 inches, of which only one-seventh is snow, the rest being rain.

**Believed in Curses**

Egyptians believed in the efficacy of curses and engraved them on tombs. One dates back to 2700 B. C.

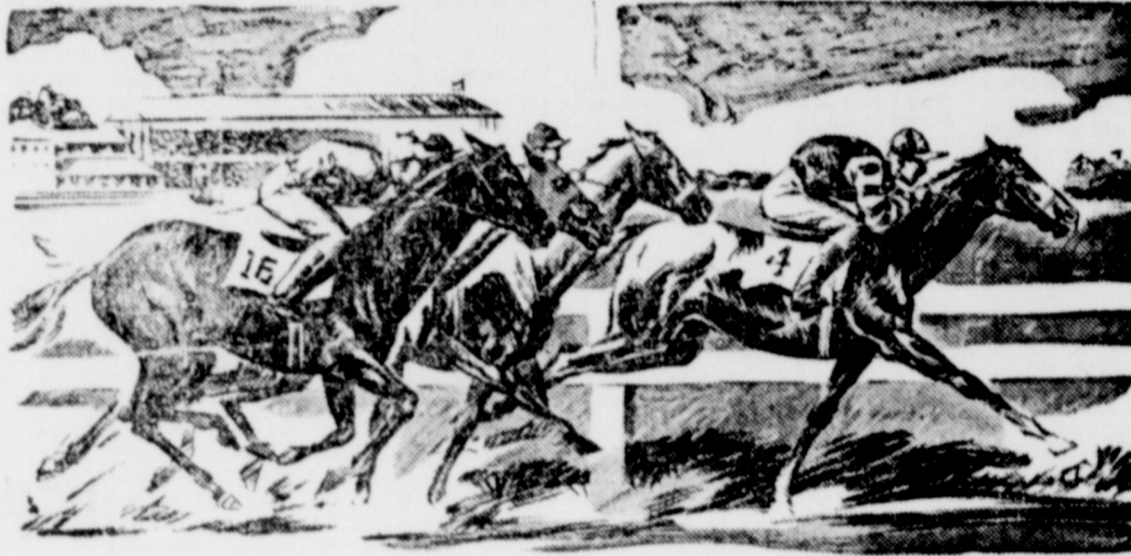

**First M. E. Church in U. S.**

The first Methodist church in the United States was established near Westminster, Md.

**Early Hebrew Writings on Leather**

Hebrew writings of Bible days were chiefly on leather, the books being in roll form.

WILL ROGERS GIVES SOME THOUGHTS ON HERE-AFTER

Some of Will Roger's thoughts on the hereafter were recalled from the pages of a book written by his old friend, the late Charles M. Russell, Montana cowboy artist, says the Associated Press. Russell died several years ago as he was about to complete the book, "Trails Plowed Under," a collection of reminiscences of the old west, illustrated by his own paintings and line drawings. The book was published last year by Doubleday Doran.

Rogers quotes the introduction in the form of a letter to his old friend in the other world. It was done about nine years ago.

With characteristic modesty, Rogers disclaimed the ability to write an introduction. Continuing, he said:

"There ain't much news here to tell you. You know the big Boss gent sent a hand over and got you so quick, Charley. But I guess He needed a good man pretty bad. I hear they been working short handed over there pretty much all the time. I guess it's hard for Him to get hold of good men, they are just getting scarce everywhere.

"... I bet you hadn't been up there three days until you had out your old pencial and was a drawing something funny about some of their old punchers... I bet you, Mark Twain and old Bill Nye, and Whitcomb Riley and a whole bunch of those old joshers was just waiting for you to pop in with the latest ones, what kind of a bird is Washington and Jefferson I bet they are regula fellows when you meet 'em aint they? Most big men are. I would like to see the bunch that is gathered around you the first time you tell the one about putting limburger cheese in the old nestors whiskers. Dont tell that Charley until you get Lincoln around you, he would love that, I bet you and him kinder throw in together when you get well acquainted, darn it when I get to thinking about all them top hands up here, if I could just hold a horse wrangling job with em, I wouldnt mind following that wagon myself. . . .

"You will run onto me old dad up there Charley, for he was a real cowhand and I bet he is running a wagon, and you will pop into some well kept ranch house over under some cool shady trees and you will be asked to have dinner, and will be the best one you ever had in your life, well when you are a thanking the women folks, you just tell the sweet looking little old lady that you know her boy back on an outfit you used to rep for, and tell the daughters that you knew their brother, and if you see a cute little rascal running around there kiss him for me. Well, can't write you any more Charley dam papers all wet it must be raining in this old bunk house.

"Of course we are all just a hanging on here as long as we can. I don't know why we hate to go, we know its better there. Maby its because we havent done anything that will live after we are gone.

"From your old friend, 'WILL.'"

FAIR TO HAVE VARIED GROUP OF FEATURES

Amarillo to Give Good Entertainment This Fall

Amarillo, Aug. 29.—Entertainment of course, is a prominent feature of any exposition.

Men, women and children go to fairs to learn more about the country's greatest industry—the source, production and marketing of foods, agriculture and livestock, and to see the fine arts and other educational material.

But they also go to have a good time.

And so the Tri-State Fair in Amarillo, September 14-21, the largest exposition in Texas this year, will be a well-balanced combination of both education and entertainment.

Among the major attractions will be Harley Sadler's three-ring circus, which will give daily performances. Harley Sadler, long known in West Texas as the "emperor of entertainment," especially in the repertoire field, has purchased the entire equipment of Bailey Brothers' circus.

Under the new management—Sadler is the sole owner and manager—the circus will open August 29 at Tulsa, Okla., and will play 10 days in Oklahoma before coming into Texas and the Tri-State Fair engagement.

Every other day during the fair the circus will stage a mile long street parade.

On the midway will be the Beckmann and Garey Shows, which will come direct from Detroit. This attraction has the latest riding devices, seen for the first time at the Century of Progress in Chicago and the Pacific exposition in San Diego.

Daily horse racing on one of the fastest tracks in the United States also will be featured. Most of these horses will come to Amarillo from panhandle where they will race Aug. 31 to Sept. 7.

There will be other attractions, too, so the TriState Fair will appeal to every amusement taste.

Prize exhibits and record crowds are assured.

The Aleutian Islands

The islands off Alaska are called the Aleutian islands because the natives, who lived like Eskimos and looked like Asiatics, were called Aleuts. When first discovered there were 25,000 of them. Now but a few thousand remain.

First Jersey Cows

The first importation of Jersey cows was made in 1850. A few more were brought over about 20 years later, and from 1870 to 1890 there were numerous importations. Since 1890 many Jerseys have been imported every year.

White-Tailed Squirrel Rare

The white-tailed or Kaibab squirrel is one of the rarer forms of the squirrel species found in America. Its home is the mountainous country of the West. Its distinguishing characteristic is the white tail.

Dairying 3000 B. C.

Carvings from ancient temples in Mesopotamia, are evidence that dairy practices were understood 3,000 B. C. The King James Bible contains at least 38 references to milk and its products.

Goats' Milk Near Pure White

Goats' milk is nearly pure white in color. The small size of the fat globules is one of its chief characteristics. The cream rises very slowly and never so thoroughly as in the case of cows' milk.

Classification of Musical Instruments

Musical instruments are classified according to the way the sound is produced. There are stringed instruments, wind instruments and percussion instruments.

Drone Bee Dies After Mating

After mating with the queen bee the drone dies a moment later. The queen bee lays eggs after this one mating the rest of her life—three or four years.

Epithets Bring Fights

Jud Tunkins says epithets have made a speech more interesting to him, because they leave him hoping that maybe there'll be some kind of a fight.

Long Chance

"Lawyer advice," said Uncle Eben, "is like a pill dat you takes hopin' you'll be lucky enough to get yoh money's worth."

Many Craters on Moon

The side of the moon seen from the earth is marked by about 30,000 craters ascribed to meteoric origin.

So What?

Hawkesby—'Why did you send your son to the Air Force?' Mims—"Because he was no earthly good."

Love Charm of Maori People

Hel tiki, the love charm of the Maori people of New Zealand, usually is carved of nephrite.

Diet Affects Migration

Birds living on insects usually migrate farther south than birds living on seeds.

Roquefort Cheese Old Brand

Roquefort cheese has been made in France for more than 1,000 years.

POULTRY

CORN IDEAL FEED AS FAT PRODUCER

Quality Poultry Important, Expert Points Out.

By H. H. Ain, Poultry Husbandry Extension Specialist, University of Illinois, WNU Service.

While farmers may not be in a position to compete with the commercial egg-producing areas, a plentiful supply of corn offers them the opportunity of becoming leaders in the production of market poultry.

Corn, the major grain crop of the state, has been found to be the ideal feed for producing high-quality poultry. The fat produced by corn is distributed through the meat in a way similar to "marbling" in beef. Wheat produces the poorest quality poultry. It has been shown by experiments in Canada. Both oats and barley are less satisfactory than corn. Corn not only made the best flavored poultry but also, when supplemented with 6 per cent animal protein, produced the best gains.

In addition to the needed corn, recent good prices offer further incentive to farmers to excel in the production of quality market poultry.

With good prices being paid for quality birds and the all-important feed available in the state's corn crop, the future looks bright for the poultryman who feeds for the poultry market.

Too often all the emphasis in poultry husbandry is placed upon egg production, with little attention being given to the production of quality meat and its sale in an appetizing manner. It is true that eggs are usually responsible for the main part of the poultryman's income, but this is not surprising when eggs have been the chief objective on most poultry farms.

Green Sod Near Brooder Induces Goslings to Eat

When the goslings are ready for feeding it is a good practice to place a green sod near the nest or brooder and let the young birds pull the tender shoots themselves. This will induce them to start feeding, observes a writer in the Montreal Herald.

For the first few days goslings should be fed on bread crumbs moistened with milk. When the young birds are about a week old they may be given a mash composed of equal parts by weight of corn meal, barley meal, bran and shorts. This should be made moist but not sloppy. The birds should be fed three or four times daily for about two weeks. When the weather is fine they should be given their liberty but they should be protected from cold rains and confined at night.

Give the goslings a good start and they may then be turned out on good pasture and the feeding of mash discontinued. Make sure that the goslings have plenty of shade and a liberal supply of fresh drinking water before them at all times.

Bloody Droppings

It is said that a dog's nose is his thermometer; if you want to test his health, put your hand against the tip of his nose which is always cold if he is well, and warm if he is sick. Poultry, too, have a thermometer—it is their droppings. If you want to gauge the health of your poultry flock, take a look at their droppings each morning while they are still fresh. They tell you the story, and sometimes it is a sad one. In your baby chick droppings, look for bloody droppings and if you find them, the chances are one of three things is the matter with them—worms, crowding, or coccidiosis. —Missouri Farmer.

Care in Vaccination

An important point to remember in vaccinating against bronchitis is to examine the birds on the fifth day to make certain that each shows a "take" or inflammation of the cloaca. If there is no evidence of this, the bird should be revaccinated, according to a poultryman. If there is any doubt concerning the identity of a previous outbreak resembling bronchitis, the poultryman should consult a pathologist or veterinarian.

Poultry Notes

After being cooled, eggs should be held at 60 degrees.

If birds are properly sorted, even the cull birds may bring a surprisingly good price.

Chickens cannot do their best when mites and lice are taking their toll.

The best way to condition birds for market is to keep them in good flesh at all times.

Chicks put into a house that is thoroughly clean and then kept away from older birds seldom are troubled with lice.

The poultry brooder house should be cleaned before it is moved to new ground.

The best home-grown bedding for poultry consists of wheat, oat, and barley straw. Second comes dry, clean, shredded corn stalks; and third, dry, clean, coarse ground corn cobs.

POULTRY

EMPLOYS FANS TO CHILL WARM EGGS

Ohio Poultryman Finds Plan Is Worth While.

Supplied by the Ohio State University Agricultural Extension Service.

Fans are used by an Ohio poultryman, to cool eggs quickly in order to maintain quality.

The system, to be effective, the poultryman declares, must operate in a very humid room, otherwise the rapid circulation of air over the eggs quickly increases evaporation from the egg and enlarges the air cell.

Here follows a description of the method:

Over a cooling rack surrounded by damp burlap a down draft of cool, humid air is forced. Water for the burlap is supplied by a pan over the rack. In this pan the upper end of the burlap is immersed. The water then follows down the burlap, which acts as a wick.

To prevent growth of molds on the burlap, it is dipped into a solution of two ounces of copper sulfate in one gallon of water. The burlap is then wrung gently and dipped in a solution of eight ounces of washing soda in one gallon of water.

That the method is effective is proved by a report from the Wooster Egg Auction, where the poultryman mentioned sells his eggs. Before the system was installed, his eggs graded 32 per cent U. S. Extras and 68 per cent U. S. Standards. Afterwards his eggs graded 68 per cent U. S. Specials, the highest grade and 32 per cent U. S. Extras. None graded U. S. Standard.

First Eggs Index Size That Pullet Will Yield

The United States Department of Agriculture is authority for the statement that if a pullet's first ten eggs are weighed, the average weight of her future eggs can be determined. The average of the first ten eggs will be almost exactly seven-eighths of the average of the eggs for the year.

This information offers possibilities for poultry flock owners. Those who have neither the time nor the facilities to trapnest throughout the year might be able to arrange to do it for a few weeks during the fall, when the pullets are coming into production.

The research men of the department assure us that this rule is almost variable, provided the following is true. First, that the pullets are receiving a well balanced and plentiful ration, and, second, that they have had an adequate ration since hatching.

People who are troubled with a lot of pee-wee eggs from their flocks can well afford to consider trapnesting for six weeks or two months.—Wallaces Farmer.

Quality of Egg Shell

That the texture and strength of egg shell are affected by feed is a well known fact, states a writer in Wallace's Farmer. The ration of a hen must contain enough mineral matter to supply the body needs as well as to furnish the lime needed for the manufacture of the shell. A laying hen needs a diet in which the lime bears a certain definite relationship to the phosphorus. This relationship need not be exact, but in general lime should constitute from 2 to 4 per cent of the ration, and phosphorus from one-half to 1.2 per cent. One should aim to feed a little more than twice as much lime as phosphorus.

Prevent Early Molting

A wet "fattening" mash is recommended by H. L. Wilcke, Iowa State college, for maintaining the body weight of laying hens, particularly the young pullets which are just coming into production. If the pullets have not become accustomed to eating the proper amount of scratch grain, they will lose weight and go into a partial or complete molt. A mash consisting of equal parts of ground corn and ground oats with skim milk or buttermilk, fed at the rate of two pounds for each 100 birds, preferably at noon, should keep the young birds in good laying condition.

Laxative for Chicks

Pasting up in chicks is often mistaken for diarrhea when in reality it is the opposite, or constipation. O. J. Weisner, South Dakota poultry specialist, says. This condition can be helped by giving a mild laxative which can be made at small expense from one pint of blackstrap molasses to 16 quarts of water. The crude molasses used for feeding live stock can be used. It dissolves more readily in hot water. Use this mixture in place of water, thus forcing the chicks to drink it.

Preserving Eggs

Water glass is a well-known preservative, chemically designated silicate of soda, and is readily obtainable in either liquid or solid form. It is readily soluble and no special directions for preparing the preservative solution are necessary. Only perfectly fresh eggs should be used for preservation and the eggs should be completely immersed all the time until required for use. In storing, a temperature of 40 to 45 degrees Fahrenheit assists materially in retaining good flavor.

Record Narrow Street Parliament street, in Exeter, England, where a broad-shouldered man has to turn sideways to walk in comfort, is one of the narrowest streets in the world if not the prize-taker itself. It is little more than a yard across at the widest point and the houses' front doors open on it. The story is told that 100 years ago a fat man made a bet with a thin athlete that he could beat him in a short race if he (the fat man) had a start of one yard and could pick his course. He picked Parliament street, and the athlete could not pass him.

Bathtubs Once Banned About a century ago a nation-wide fight was raging in the United States over bathtubs. Ohio, Pennsylvania and some other states had passed laws forbidding the installation of a bathtub in any home because they were considered a menace to health. Physicians warned the people against the intemperate habit of bathing once a week and exposing themselves to pneumonia. In spite of all this opposition, it was estimated 1,500 bathtubs were in use in the United States in 1836.—Capper's Weekly.

The Harvest Moon The harvest moon is the full moon occurring nearest the date of the autumnal equinox, September 22. The continuance of light after sunset is very useful to the farmers when taking in their crops. The hunter's moon is the full moon immediately following the harvest moon. The expression harvest moon occurs in English literature as early as 1706. In 1710 there is reference to the hunter's moon.

Government of Brazil The Brazilian form of government is similar to that of the United States. There are two houses of congress. The President serves four years and cannot be re-elected. The United States of Brazil consists of 20 states.

Cremation Old Custom Cremation of the dead was a general practice of the ancient world with some exceptions. During the middle ages, cremation was discouraged and in its modern form dates from the latter part of the 19th century.

Form Ocean Whirlpool The general circulatory system of the North Atlantic consists of a great whirl or vortex turning clockwise. The Gulf stream and the North Atlantic drift form the northwestern and northern portions of this vortex.

Alloy Used in Silver Just enough copper is used in sterling or solid silver to make the metal substantial. Silver is too soft to use alone. Sterling silver must be at least 925 parts of silver to 75 parts of copper.

Use for Ambergris Ambergris is a valuable fatty, inflammable substance, ashy in color, and is a secretion from the intestines of the cachalot or sperm whale. It is principally used in perfumery.

Dr. E. M. Chapman DENTIST REASONABLE PRICES Clovis, New Mexico 606 Pile Street

PAGE THE COOK

Ask for the opinion of the boss of the kitchen on the efficiency of a New Perfection range. It cooks faster, cooks cleaner, cooks better. There is no running up, no smoking. It lights instantly, cooks instantly and is instantly regulated to any height or heat. Let the New Perfection stove be your next stove. See our display of the hottest oil stove in America. Think! Can YOU boil two quarts of water in eight minutes?? Try it. Then try a High Power Perfection.

Cut you feed the economical way with a power tractor binder made by John Deere. It is simple, strong, long lived. We sell them.

# THE ROMANS

## Had A Phrase For It

"CAVEAT EMPTOR." meaning "Let the buyer beware." This was not used as a bit of balm to ease the ancient conscience nor, yet, was it placarded in the booths and stalls of the market-place. It was a piece of every-day knowledge, born of dear-bought experience.

A shopkeeper knew little about the source of his merchandise. This tunic he bought from a trader, who said it came from Byzantium. So he sold it as the latest Byzantian style. The trader told him the dye was pure Tyrian—it wouldn't fade. So he sold it as Tyrian dyed. But the buyer knew the responsibility was his own. If he guessed wrongly, or his judgment was poor, it was HIS hard luck.

Today, fortunately, there are safer guides than the blanket-warning to "let your eyes be your market."

These guides are the newspaper advertisements. In this newspaper, they are a catalog of the best values in town—signed by responsible firms. If the goods are not all that is claimed for them, their sponsors would need to "beware." For no business can thrive on a one-time sale, or on dissatisfied customers.

A signed advertisement is, in a way, like a promissory note. The advertiser has made a statement, and affixed his signature as a sign of good faith.

So, read the advertisements before you start out on a buying trip. Make this habit, and see how much you save . . . in time, in temper, in money, in shoe-leather.
