"The Living Desert" Feature At Plaza

A pageant of loveliness combines with exciting drama as "The Living Desert," Walt Disney's first True Life Adventure feature unfolds on the screen of the Plaza Theatre, Tuesday, Wednesday, and Thursday.

Ranging from the fabulously lovely stretches of the Great American Desert, contrasting sharply with distant Mount Whitney towering fifteen thousand feet above sea level, to the antics of a stout-hearted rodent; from the innermost secrets of a cactus bloom to the raging fury of a band of peccaries on the heels of a bobcat, the film offers a series of highly exciting incidents as dramatic as they are unusual, all played out against the brilliant mosaic of Nature's most colorful scene.

Such personalities as the Gekke lizard, the chuckawalla, pygmy dinosaur, the solemn little elf own, the coati mundi, that rakish desert bandit, and the kangaroo rat share the screen with innumerable other desert creatures representative of the insect, reptile, animal and floral life of that locale.

The raw emotions, the primitive morals, the courtship, battles, pranks and basic activities of bringing up a family, all are captured by the cameras manned by the Disney staff of naturalist-photographers. Her

and Robert Crandall, with additional footage by Stuart V. Jewell, Jack Couffer, Don Arlen and Tad Nichols.

Using the score to highlight the drama, Paul Smith, composer and conductor of Producer Disney's True Life Adventures, establishes a musical liaison between desert personalities and audience, the better to heighten and point up the various emotional values of the film.

Closely allied with the music is the fabulously lovely sweep of color, as the Technicolor values of each sequence, from glances into the golden-yellow heart of a cactus bloom to the wide scenic value of miles of burning sands, offer an exciting and unique experience to those carried along on the magic of modern film making.

In Technicolor, "The Living Desert," like its subject matter, concentrates on the theme that in this fantastic wonderland there are no endings; only a vast and constantly hopeful beginning. After every moment of destruction, a brilliant new start is made, after a very flash flood, the magnificent flowers burst into bloom, after every individual argument a new life is started, as the story of Nature, itself, goes on in eternal optimism for eons to come.

Soil Conservation District News

James Snyder has completed a tank on his ranch north of Baird. A. E. Dyer has constructed a tank on his ranch eight miles north of Baird. Both are cooperators with the Lower Clear Fork Soil Conservation District.

Blue Panic grass seeded last spring on Ralph Robinson's farm southwest of Baird came up to a satisfactory stand and has made abundant growth since the fall rains. Mr. Robinson plans to plant more Blue Panic grass next spring.

Many farmers are through planting fall cover crops. However, cover crops can be planted as late as December 15 and provide protection for the soil during the winter months.

Plans should be made now for the seeding of guar next spring. Guar is a soil improving crop. It is a legume and should be planted in normal width rows. Crops following guar have shown a substantial increase in yields.

Now is the time to begin thinking of grass seed for next spring. Bluestem mixtures, composed of Big Bluestem, Little Bluestem, Indian grass, and Switch grass should be planted from January until the first part of March for best results. These seed should be obtained soon so that there can be no delay when planting time arrives.

Bears Slaughter Moran 32-0

The high-riding Baird Bears romped over the Moran Bulldogs in a District 8-B contest 32-0 last Friday night at Moran.

The Bruins, undefeated in District play with a 6-2 won-lost record, seem destined to cop the District crown. They have only two games left in the season, those being Carbon and Gorman.

Baird scored in the first and final periods to amass the 32 points they accounted for.

In the initial stanza Baird tallied three times. John Bullock demonstrated a fine running form when he dashed 77 yards for a TD on the first play from scrimmage for Baird. Paul Jones converted.

Bullock scored again in the first quarter on a 19 yard scamper. The third tally for the period came on a 35 yard pass play from Paul Jones to Bobby Joy.

The Bears' B string played most of the game and gave a good account of itself. B squadders held Moran scoreless but failed to score themselves in the second and third periods.

The proverbial ice was broken again in the final quarter when Halfback Arvid Harris ran wild picking up 103 yards in 7 carries and scoring twice. Harris scored from the one yard marker and again from the 36.

The other point came on an extra point pass from Jones to End Robert Corn from the one-yard line.

The support the home-town people gave the team was something to see. If the folks keep it up we'll have a District winner yet. Support your high school team, they appreciate it.

Texas Cattlemen Try To Solve Problems

Independence has always been a favorite word in Texas. It is virtually the cornerstone of our history, our attitudes, our heritage and our pride.

The Texas cattleman has long been a symbol of independence and self-reliance. The history of Texas is the history of the cowboy. The state's true greatness began when pioneer cowmen licked drought, depredation and disease to build Texas grazing herds beyond local needs and made the great trail drives to northern markets.

Today Texas is still the beef capitol of America. With a cattle population of 8,587,000 this year, it leads the nation.

Texas cowmen feel that Texas should lead in beef consumption, too, as well as in beef production. That is their answer to price problems. Not price supports, but "Eat More Beef!" is their watchword. The Governor has proclaimed next week as Beef Week in Texas and...

First Baptist Church

Council urges us to eat beef every day. It's a good idea, from every standpoint, and a good way to salute the self-reliant cattle industry of Texas.

Union Usuals and Unusuals

Veda Yarbrough

Hi! No, the witches and goblins didn't catch me so guess I am safe for another year.

I really did enjoy Halloween. Jim and I went to Putnam to the Halloween Carnival and Coronation of the Harvest King and Queen of Putnam High School. I really believe it was the prettiest one they have had. The whole court was real pretty and I must say that Bobbie Isenhower really can memorize this is his first year in school and he recited a real long speech about Halloween and not a bobbie did he make and he said it so well. Bobbie, you just keep making speeches and you will be a great speaker some day.

Jim and I went to Moran Friday night to see Baird and Moran play ball. Baird won, of course, but Moran played good ball.

We also went over to Moran Saturday night to their Carnival. It was on Main Street. They had lots of cakes and pies to sell, Bingo, Fortune Telling and so on. I didn't have my fortune told for I don't want to know my future.

Mrs. Cliff Walker and daughter Virginia spent the weekend with Mrs. Dell Jones. Mrs. Annie Park returned home with them to spend a week or so before she goes on to Eldorado, Ark. The Walkers live in Dallas.

Mildred, as we call Mrs. Walker, Virginia, Mrs. Park and Aunt Dell came up to see Jim and me a few minutes. They visited with A. Yarbrough a while too, Saturday afternoon. You know A. lives on the old home place of the Dick Park family. Bub Park of Idalou was a weekend visitor at the Jones home. He visited with us a while and with D. A. too. He and Mary Ann made a lot of pictures of the old home place Sunday afternoon.

Burette and Johnny May Ramsey visited Joan and family in Jacksboro last Wednesday. They helped them move into their new home that has just been completed. I know they are happy to get into a home of their own and a new one at that. We are happy for you kids and I am coming over to see you some day.

This week is a very important week around here. Little Boy Jim has a birthday and so does Gayle Burnam and Linda Hughes. Gayle's is the 4th, Linda's the 7th and Little Boy Jim's the 6th. Guess will have to make Little Boy Jim a cake of some kind. Oh, I might bake him a sweet potato or a poor man's pudding.

Well I guess Ollie got a hold of the Hired Hand's pocket book as the carpenter started working on her house this morning putting up sheet rock. So guess he won't get to keep his money very long.

Don't know just how the oil well turned out as they are still working on it. Maybe she won't spend too much of his money.

We are glad to hear Holmes Wood and Sonny (Orville) Taylor have arrived in El Paso. They have both been overseas for a year. Don't know just when the boys will get to come on home. Soon I suspect.

Mr. and Mrs. Emmitt Wood, Treva and Elvin came out to see us a while Sunday afternoon; then on to visit Mr. and Mrs. Roggenstein a while. Elvin's wife and daughter spent the day with her parents, the Roggensteins. Elvin and Oleta are driving a pretty new Ford car.

Dick and Annie Yarbrough went to see Mrs. Onie Abernathy a while Saturday afternoon. Jim and I went to see her Sunday a while. She is doing pretty good. She can sit up some in bed. She is still in the hospital.

Mrs. James Abernathy had surgery last Saturday. She is in the Callahan County Hospital at Baird and is doing ok.

Miss Maurine McCollum had surgery last Wednesday. She is doing fine so Clovis said Friday night and thought she would get to come home today, which is Nov. 1. I hope she soon is well and able to be up and about. Her mother and Aunt, Mrs. Muzette Davidson, stayed with her while she was in the hospital at Ft. Worth. Enoch and Clovis batched while Mrs. McCollum was gone.

Retha Burnam spent the weekend at home this past weekend. She said she really liked her job at Midland and liked to live out there. She attended church here Sunday. Mrs. Mary Ramsey had dinner with the Burnam's Sunday. She is doing pretty well. She went to church both morning and evening Sunday.

We are so glad the little Week's girls is still improving and is able to be home again.

Bro. Dee Chandler and wife and little daughter, Caren, spent Sunday with Burette and Johnny Ramsey. I heard Johnny say she was having fried chicken for Sunday dinner.

Well at last they have begun on the highway. They have the trees all bulldozed up and will soon start on the grading and culverts. Suppose it will be spring before they hard surface it as the weather is too cold for that kind of work.

The Neal Hocks have a different car now. They have a red Plymouth. Neal is working on the railroad now, out of Moran.

Big Bud Milton, what has become of you? Thought you were coming to see us after the election. Maybe you haven't gotten rested as you had such a long race.

We had a letter from Roma and John. Everything is covered in snow up there in Salt Lake City. They said they had a seven inch snow on the ground and still snowing. Wonder what we would do if we got a seven inch snow?

You know my cat Tiger, that got his eyes clawed out. Well he is ok now. Able to run and jump and play if he doesn't have but one eye. I made him a house up in a tree and boy is he happy. That is where he stays. I still say a coon is what got a hold of him. Jim said he found a big old coon down by the tank dead. Guess some hound got him and I am glad. I have been seeing coon tracks around the barn and chicken houses.

Hello to you folks out in Ajo, Arizona. Hope you get home ok. Saw your Mother Sunday. She is about the same.

Am getting sleepy so better say good night. Be good. I will be seein' you next week.

The Baird Star, Baird, Callahan County, Texas, November 5, 1954

November issue points out, explaining that the average runoff of surface water, the water which flows down the streams of the state, is 63 billion acre-feet. Of this amount, less than 5 million acre-feet are used, the rest running into the Gulf of Mexico.

"This isn't to say," the article continues, "that many Texans aren't short on water, because they are, but the state as a whole has far more water available than is used or is likely to be used in the foreseeable future."

"To say this though still leaves the water problem unanswered," the article adds. "A city running low on water can get no more comfort from the knowledge there's plenty of water in Texas than can a farmer with a dry well and bawling cows."

Detailed figures on the amount of surface water plus the estimates on the amounts of underground water are given, and the problems of distribution and conservation of the supplies are discussed.

The article is the second in a series being published by the magazine. Next in the series will discuss some of the proposals being made for more equitable distribution of the total water supply.

EDITORIAL

A NEGRO WRITES ON SEGREGATION

By DAVIS LEE

Publisher of the Newark (N. J.) Telegram

(Editor's Note — Below is an editorial written by a negro publisher for his New Jersey newspaper. The editorial came to our attention following its publication in the McComb Mississippi Enterprise-Journal. It is evidence of mighty intelligent thinking by one on the other side of the fence.)

The efforts being made by certain paid agitators and pressure groups against segregated schools in the South may cause Southern Negroes to lose a lot more than they will gain.

The trouble with this group, as with similar ones, is that the initiators don't count the overall cost to the race. The present efforts is designed to destroy the whole pattern of segregation, and to establish an integrated social order in which there will be no distinction made in this country on the basis of race, religion, color or nationality.

This is a laudable objective, but human nature just has not changed that much, and the achievement of such an objective could cause repercussions that might set the Negro back fifty years.

Integration in the schools in the North and East is not a howling success. A Negro can attend most of the schools up here and get an education, but few of the states that educate him will hire him as a teacher. The State of Connecticut doesn't have twenty-five Negro teachers.

Nowhere in these integrated states do Negroes get anywhere near proportionate representation. Every device is employed to keep qualified Negroes from being assigned. Recently a reputable New York labor union made a report on the employment of Negro teachers in New York City and charged that a systematic scheme has been adopted to exclude Negroes as teachers.

This is not true, in the South. The State of Georgia employs 7,313 Negro teachers, and paid them close to \$15,000,000 in salaries last year. North Carolina paid its Negro teachers over \$22,000,000 last year. Florida is another state that ranks at top on teacher pay.

Mississippi paid \$7,414,278 in salaries to 6,753 Negro teachers in the state last year.

If these states, that are now pouring millions of dollars annually into Negro pockets which provides our people with money that enables them to enjoy the dignity of man, to enjoy the prestige and respectability, to buy homes and the necessities of life, are forced to abandon the segregated school, 75 percent of the Negro teachers in the South will lose their jobs. Not only that, but approximately 20,000 Negro principals will lose their jobs as well.

The present movement to end segregation in the schools is merely the beginning of a well-laid plan to completely end segregation in everything in the South. If this happens the Negro will be thrown into direct competition with the white race, and our business institutions will crumble.

No place in the world do Negroes own and control as much as do those in the South. Atlanta is without question the Negro capital of the world. It is the center of Negro culture, education, business and finance. And both Negroes and whites live, work, and operate business without either being conscious of the other's race.

This movement to integrate the schools of the South is loaded with more racial dynamite than appears on the surface and the Negro will be the one who is blown away.

During the past two years I have spent more time in the South than I have in my office, and I have interviewed thousands of Negroes in all walks of life and I have found very few who favor mixed schools. They want their own schools, but equal facilities. This being the situation, one questions the fairness of forcing these colored citizens to accept what they don't want. If a little group of paid agitators succeeds in forcing their will upon these people, it appears to me that they should at least be given an opportunity to be heard.

Right now the Southern Negro is in a better spot educationally, politically and economically than the Negroes anywhere else in the world. Race relations are continually improving. Every day more Southerners are recognizing the Negro as a man and according him the respect that he merits, but the Southern Negro himself can do more about improving conditions than can courts, legislation or pressure groups.

Despite all the hullabaloo about the liberal North and East, no Negro has been made head of a State College or University. Down South the woods are full of Negro college and university presidents. In Texas a Negro college president of a state school gets \$10,000 a year.

Negroes need to refresh their memories on the fact that just a few years ago we were raising Cain because colored kids in the South were being taught by white teachers. We wanted them taught by Negroes until now Negro teachers have completely taken over.

A group goes back into the courts declaring that the Negro is not satisfied with equal facilities, that the separate but equal law is unconstitutional, that nothing less than integration will do. That doesn't seem fair to me.

Changes Made In Social Security Law

(Editor's Note — This is another in a series of informational articles prepared by Raleigh R. Tuley, Jr., Manager of the Abilene District Office.)

One of the many important changes made in the Social Security Act by the 1954 Amendments recently signed into law by the President has to do with claims by survivors of a deceased wage earner which were denied previously because he or she did not have enough quarters of coverage to be fully or currently insured under the law prior to Sept. 1, 1950, and after 1939.

Widows and children who could not be found entitled to benefits may now be paid provided the wage earner had at least 6 quarters of coverage to his credit at the time of his death before Sept. 1, 1950. A quarter of coverage means being paid wages of at least \$50 from employment covered by the Social Security Act in a calendar quarter, a 3-month period beginning with January, April, July, or October, after 1939.

Any family or individuals who were denied monthly benefits because the deceased wage earner did not have enough quarters of coverage to be insured under the law as it stood before Sept. 1, 1950 (the requirement then ranged from 6 to 27, depending on the age and date of death of the wage earner), should immediately get in touch with the nearest office of the Social Security Administration. If it is found that the deceased had at least 6 quarters of coverage to his credit, monthly benefits may become payable with the month of Sept. 1954 provided the children have not married, reached age 18, and the widow still has one or more children entitled to benefits in her care or has herself reached the age of 65 and has not remarried.

This does not mean that every case previously denied can now be paid. If the worker did not have at least 6 quarters of coverage to his credit, then even the '54 amendments do not make him insured. Also, no benefits will be found payable for any months before the month of Sept. Persons who are in doubt as to whether or not this change in the Social Security Act affects their situation should write or otherwise get in touch with their nearest Social Security office so that a check may be made of the facts.

It is estimated that some 30,000 persons were given new entitlement to old-age and survivors insurance benefits by this change, and it is felt that many of them are in the area serviced by the Abilene office. Look for another article on the 1954 Amendments to the Social Security Act in this paper soon.

Game Wardens Nab Lazy Hunters

The luxury of hunting from automobiles cost several Texas hunters an extra sum lately, according to the Director of Law Enforcement for the Game and Fish Commission.

He said the new tabulation of wardens' field reports shows 17 persons were fined for hunting from motor cars. Sixteen of these cases were against dove hunters.

Wardens also filed on two others for shooting from a public road, which also is against a state law.

Many of the 335 cases in the latest compilation were in connection with the mourning dove season, which continues in the South Zone through November 9.

Eleven persons were arrested for hunting doves with an unplugged shotgun. The Federal regulation for both doves and waterfowl requires shotguns to be plugged for a limit load of three shells.

Three persons were arrested for hunting doves with a rifle. A flagrant violation cost an Amarillo man \$100. Waterfowl regulations also prohibit use of rifles for taking ducks and geese.

Wardens caught several hunters rushing the season on quail which does not open state-wide until December 1. Seven cases were filed for snooting quail out of season, and one Greenville man got a \$200 fine plus costs for this type of infraction.

A few hunters got their song birds and game birds mixed up and a Lubbock man was fined \$10 for having a mockingbird among his dove bag.

The good dove shooting in many areas tempted some hunters to exceed the bag limit of 10 doves per day, or 10 in possession. Twenty-six cases for this violation were listed in the latest field reports. One Dallas man was fined \$437.50 plus costs for going far over the limit. A \$200 fine plus court costs was levied against a Midland man on an over-the-limit charge.

Several persons were caught rushing the big game season, which does not open under the general law until November 16. An Austin man paid \$200 and costs for shooting a deer.

The Director of Law Enforcement described the report as "about average for this time of the year." He said the field force is facing its busiest season, helping the hunters while at the same time protecting wildlife.

Our Town Makes Good in New York City

Couldn't place a new subscriber named Clark, but I found out who they were last week when they dropped in *The Clarion's* office.

"We're native New Yorkers," Mrs. Clark said, "and all our friends there are originally from other places. We always felt left out when they talked about things 'back home.'"

"That's why we 'adopted' your town and to get all the news we subscribed to *The Clarion*. Now we have a 'back home' to talk about—and we think it's the most wonderful town there is!"

**Girl Scouts Hold
Tuesday Meeting**

Glenda Ricks reported that the Girl Scouts of Troop No. 6 met Tuesday Nov. 2 and had a rather interesting meeting. While the other members of the Troop were making knapsacks, Donna Drennan, Judy Anderson, and Kitsy Ross laid a trail for the rest to follow. Later the girls were able to follow the trail and find a treasure at the end. On the next meeting date the Troop will take a hike and eat supper before returning to their hut.

and presently Editor of the Texas Clubwoman.
An arrangement of the song "Memories" with words written by Mrs. Bell and dedicated to Mrs. Blackburn, was sung by Mrs. Lee Ivey with Mrs. N. M. George as accompanist.
Mrs. Bell escorted Mrs. Blackburn to the rostrum and seated her behind a gilded picture frame decorated with greenery and yellow roses, the club flower. Tribute was paid to the honor guest as a civic leader, prominent citizens and outstanding club member who, in addition to many other offices, has held that of club president at five different periods.

Other former presidents were introduced, who were: Mmes. E. M. Faust of Bloomington Ind.; Corrie Driskill, D. F. Short, Ace Hickman, W. Clyde White, J. R. Jackson, W. P. B. Lightwell, A. E. Dyer, W. A. Fetterly and Miss Isadore Grimes. Mrs. R. L. Alexander, also a former president, was unable to be present on account of illness.

Mrs. White read the history of the Club. Mrs. Short introduced the guest speaker, Miss Foster, a well-known ranchwoman and prominent club woman, past president of Sixth District and present Texas G.F.W.C. Board member.

Using as her theme "You Are the Light of the World", Miss Foster discussed the objective of the Federation, explained the ten symbols of Freedom and Democracy which Americans today enjoy, and urged her listeners to preserve our wonderful heritage of freedom.

The program was closed with the singing of "Auld Lang Syne" by the audience.
Following this, a reception was held in the church annex. The tea table, laid with an imported lace cloth, was arranged in the shape of the Roman numeral L. At one end was a beautifully decorated anniversary cake. The centerpiece, an arrangement of yellow rosebuds, was flanked by green candies in crystal holders.

Other appointments of the table were in crystal.
As guests sang "Happy Anniversary" Mrs. Blackburn cut the first slice of cake. Mrs. W. P. Brightwell served the cake and Mrs. A. E. Dyer poured coffee. Mrs. Hickman and Mrs. White pinned club favors, yellow rosebuds, on each guest. Assisting in serving were Mmes. L. B. Lewis, I. E. Warren, M. L. Stubblefield, E. J. Hill, and Sam Gilliland.

Guests registering from out-of-town were: Mmes. Hart Shoemaker, J. F. Boren, L. A. Beasley, H. M. Dudley, I. N. Garden Club News

North Park Nursery in Abilene. She discussed "Chores to Be Done in November." Spring flowering shrubs should be planted.
