

\$22,800,000 Tank Destroyer Tactical Firing Center To Be Permanently Established In Bell-Coryell Counties

52 BATTALIONS OF 900 TO 100 MEN EACH TO BE TRAINED AT BIG CAMP; FAST MOVING TANK-KILLER UNITS FROM FORT MEADE, MARYLAND, TRANSFERRED TO CENTRAL TEXAS; ORDER EFFECTIVE YESTERDAY

Coryell County now HAS an Army Camp!

Wednesday night telegrams were received from Senator Tom Connally, and Thursday morning longer ones were received from Congressman W. R. Poage. They read as follows:

WAA 13 10 GOVT. WASHINGTON DC JAN 14 619P

HONORABLE J D BROWN JR TANK DESTROYER TACTICAL AND FIRING CENTER PERMANENTLY ESTABLISHED AT KILLEEN

TOM CONNALLY 716P

Congressman Poage's telegram read:

WA 1 11r NT GOVT 3 EXTRA—WASHINGTON DC JAN 14 1941 HONORABLE FLOYD ZEIGLER COUNTY JUDGE CORYELL COUNTY

GATESVILLE TEXAS

ARMY HAS THIS AFTERNOON DEFINITELY ANNOUNCED ESTABLISHMENT OF A

TANK DESTROYER TACTICAL AND FIRING CENTER FOR CORYELL-KILLEEN CANTONMENT AREA. HEADQUARTERS BEING MOVED FROM FORT GEORGE MEADE MARYLAND TO KILLEEN EFFECTIVE JANUARY 15. TEMPORARY HEADQUARTERS IN TEMPLE UNTIL QUARTERS AVAILABLE AT KILLEEN. THIS INVOLVES SAME AREA THAT HAS BEEN PREVIOUSLY CONSIDERED BY ARMY. I REALIZE ROAD AND TAXATION DIFFICULTIES THAT THIS IMPOSES ON CORYELL COUNTY. AM ANXIOUS TO BE OF EVERY POSSIBLE HELP. HAVE ALREADY CONTACTED PROSPECTIVE COMMANDER OF UNIT AND SOUGHT HIS COOPERATION FOR ROAD TO GATESVILLE. AM READY TO BE OF HELP IN ANYWAY THAT I CAN IN THIS CONNECTION.

W. R. POAGE, 11TH DISTRICT CONGRESSMAN

The camp, which will take an

outlay of \$22,800,000, and handle an estimated number of men from 30,000 to 52,000, will be built in a hurry. It will cover an area of 75,000 to 100,000 acres, with the cantonment proper in Bell and Coryell counties near Killeen. Total square miles used by the camp are reported to be 100.

All of the camp area will be 5 miles west of Killeen and north 12 or 13 miles. All the camp area will be north of the railroad and highway 190 from Belton, Killeen and Lampasas. It will be bounded on the east by the Gatesville-Killeen road, which intersects highway 7 north of the site, and on the west by the Gatesville-Copperas Cove road, according to reports. Property of 350 families in this area will be acquired.

This area has been surveyed, abstracted and appraisal values on all the properties, but government officials have not announced the values.

FAST-MOVING OUTFIT

The tank-killer units, begun for experimental purposes at Fort Meade, now are described as the toughest, fastest moving outfits of the army's present ground forces. They are organized to carry on an offensive attack against tanks, and are not to be confused with anti-tank units, which are designed only to scout out the attacking tanks, delay them and set up a defense.

Personnel and material of various and sundry tank units now in existence will be used to train the thousands of men at the Killeen center.

Three types of self-propelling high calibre guns provide the main fighting force of the tank killers; the half-track, a steel-sided car equipped with wheels in front and caterpillar tracks behind, able to travel over almost any kind of terrain and equipped with a 75-mm cannon and anti-aircraft guns;

the jeep, small cars that bounce over almost impassable ground and which are armed with 37-mm guns that can swing in any direction; and the swamp buggy, a modified jeep without a body and equipped with oversize tires which enable it to travel across swampy ground, carrying a 37-mm.

Architectural, survey and engineering work has been done under contracts by W. C. Hedrick, Inc., and plans and specifications are reportedly complete so that bids may be taken for construction work.

This site was inspected in December by Col. A. D. Bruce, attached to the army's tactical and firing center at Ft. George Meade, Maryland, along with his staff composed of Col. Richard Tindall, Lt. Col. H. T. Mayberry, Lt. Col. Geo. Beatty, and Major G. R. Tyler of the construction division, office of the chief engineers, Washington.

Being "28" Won't Get Anything Now: To Be Re-Classified

Under recently amended regulations no distinction is made in classifying registrants over 28 years of age and registrants under 28 years of age. Men over 28 years of age had been placed in Class I-H by reason of age and were not subject to induction. Under new regulations, this classification no longer exists and all local board have been instructed to reopen immediately all cases of I-H registrants and to place each registrant in the class found by the board to be proper under current regulations, without regard to age.

All such registrants, will receive written notice of reclassification; General J. Watt Page urges all registrants, regardless of classification to keep in touch with their local boards and to notify them immediately of any change of address as a registrant becomes liable to severe penalties provided by the Selective Service Act if he fails to notify his local board promptly of any change of address. Likewise, Gen. Page emphasized that all registrants who are expecting to be called into a branch of the armed forces should notify their local boards and report all devel-

Value In Scrap! Both Money and "A Slap At The Jap"

According to N. Foote, Chairman USDA Defense Board for Coryell, county it has announced that Max Hoffman of Dublin is on the list provided by the State USDA Defense board for the collection of scrap iron. The slogan is "Scrap! Scrap! Scrap the yellow bellied Japs with your scrap iron!"

Search every junk pile, fence row, creek and wherenot. Scrap iron is more useful than gold, and every pound will count.

Keep all bolts and spare parts that you may need, than let the junk dealer have the rest. The government, thru the OPM and OPA, has put a strict control on the price of handling of all scrap iron, so you may rest assured that it will go where it will do the most good.

One good place to put this money, would be to buy Defense Bonds stamps, or a part in the Red Cross.

Mr. Foote continues, "I am sure you do not realize the seriousness of the situation, but let me remind See SCRAP, Back Page, Col 4

opments in connection therewith in order to enable the board to cooperate with the registrant in this respect.

Tire Board No 51 Established Now At City Hall: Rules

Coryell County Tire Rationing Board, No. 51 has established offices at the City Hall here, and will be open from nine until eleven a. m. for the service of the public.

Tuesday morning of each week, the board will meet to consider all applications filed, and if there are more than the quota for the county, the board will be controlled by the Office of Price Administration, and preference will be given to the war program, public safety, health and morale of the county.

The following are necessary before you can get a tire or tube, and none can be issued unless your case fits these:

No certificate shall be issued unless the applicant for the certificate certifies that the tire, casing or tube for which application is made is to be mounted on:

(a) A vehicle which is operated by a physician, surgeon, visiting nurse, or a veterinary, and which is used principally for professional services.

(b) An ambulance.
(c) A vehicle used exclusively for the maintenance of one or more of the following:

Mr. and Mrs. Jessie Tutor have moved to our community. We extend these folk a welcome.

IN MEMORY OF ROXIE RUSSELL

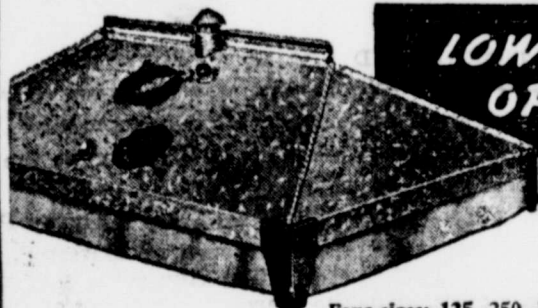

It was on Sunday afternoon at 3 o'clock, January 4, 1942 the death angel winged its way into the home of S. O. Russell and claimed for its victim our dear friend, Roxie Russell. How we miss you each day. It seems like I can feel your beckoning hands, your sweet memories around me creep. How it seems like I can see your sweet face, hear your tender voice saying—Dear, be good to one and

all, live a Christian life by doing good deeds. It is so sweet just to know we will meet and have no sorrow or care when we meet our loved ones. There will be no more sad parting in that beautiful home, and all of our troubles will be over when we meet on that golden shore.

How sad it was; the day while standing by the bedside of our friend and knowing her Saviour had taken her flight from this world of sin and care on to the arms of our loved ones who wait for us.—Written by Leona Pierce.

THAT "WILD OATS" MAN IS HERE AGAIN: LOANS ON FEED, SEED

No, you can't borrow any money to "sow wild oats" from Eric E. Brown, Field Supervisor for the Emergency Crop Loan Section of the FCA (Farm Credit Administration if you don't know the N. D. Alphabet.) We tried it.

Loans, however, for the production of 1942 crops are now available to farmers, and he'll take them, for feed, and for seed. Security is required, that is, a first lien on the crops financed. Loans are only made to farmers who can't get the money somewhere

else. The Agency is cooperating and urging farmers to cut cotton stalks early in an effort to control boll weevils. All borrowers are urged to take this precaution to protect their crops. Boll weevils don't effect the kind of a crop we were turned down for a loan on.

HORNETS WIN TWO MORE CAGE CONTESTS; PLAY ITASCA TODAY

ROUT BROWNWOOD AND VALLEY MILLS QUINTS BY LARGE SCORES

By JOHN FRANK POST JR.
News Sports Editor

Those ballhawking Hornet basketeers polished off two more major opponents with stunning victories Monday and Tuesday to begin their week's cage chores. First, they traveled over to Brownwood to engage the BHS Lions, who slipped by the Hornets 29-28 in their first game of the season. They were determined to avenge that one-point defeat, and this they did in grand style. They humiliated the Brownwood lads with a 56-30 beating, and the score would have been much higher had not Coach Pruitt begun generously sprinkling his line-up with reserves early in the third quarter. The Hornet scoring machine was hitting on all cylinders from the outset of the contest, and they kept piling up point after point until they had built up a tremendous lead by halftime, and from there they coasted on to their fifth win of the season.

Cotton Blanchard, team captain who uses a fine one-handed shot to great advantage, led his mates to victory, meshing 20 points to cop scoring honors for the night. Close behind him were Manning and Fry with eighteen and fourteen points respectively. Top scorer for the losers was Clardy, who slipped in 11 points. He was the boy who led the Lions when the defeated Gatesville here two short weeks ago.

TROUNCE VM EAGLES, 41-20
Tuesday night the Hornets returned to the conference wars, and thoroughly trounced a hapless crew of Valley Mills cages, 41-20

and thus added another victim to their ever-growing list of beaten district rivals. Bub Wilkinson, big Hornet guard, started the scoring when he tapped in a neat follow-up shot in the first minute of play. Warren of the Eagles sank a long one to knot the score, but Manning and Fry bucketed field goals in quick succession, and the rout was on. From that time the Eagles were never in the ball game. The locals were in the lead by a 25-9 margin at the half, and continue to increase that lead as the game progressed.

Lanky Ken Fry, as polished a performer as Gatesville has boasted for many years, sank seven field goals and two gratis shots for a total of sixteen tallies, which led the field. Right on his heels was the hustling Blanchard, who tallied fifteen markers for a two-game total of 35 points, which is nice goal shooting in anybody's league.

HORNETTE B SQUAD WINS

In the night's curtain raiser the Hornette reserves showed great form as they massacred the Valley Mills sextette with a 37-8 win. Eubanks and Scott led the scorers with 16 and 11 points, while Apel shone on defense.

BOYS PLAY ITASCA TODAY

The Hornets will tussle the Itasca Cats in a return game here at the local gym at two o'clock this afternoon. Last week the Hornets won from the Cats 40-25 in their own bailiwick at Itasca, so they are highly favored to win again this afternoon.

CONF'ENCE SCHEDULE REVISED BY LEAGUE EXECUTIVES

The entire set-up for this se-

tion's basketball district has been revised by the league executives, thus nullifying the conference schedule published by the News Tuesday.

There will be no regular league schedule, but the four teams comprising the southern bracket of the district will meet in a championship tournament here in the local gym January 30. The four teams entered will be Gatesville, Valley Mills, Clifton, and McGregor, with the winner of this tourney clashing with the winner of the northern bracket, which includes Mart, La Vega, Teague and West. The district champion will then compete in bi-district and regional contests, just as they do in football, with the regional champion winning a place in the state meet.

The Hornets have no set schedule for the next two weeks, but local fans may be sure that Hornet mentor Pruitt will have plenty of practice games matched to afford them a chance to witness his fast-moving club in action.

SPORT SCRAP

By POST

After watching the Hornets massacre the Valley Mills team Tuesday night, we left the local gym thoroughly convinced that this year's outfit is the best developed at GHS since Hazen Ward, Seth McLarty and other old-timers brought Gatesville a county title the first year the gym was built. Pruitt has a squad of fast, hustling boys who are strictly offensive-minded, and so far they have managed to keep their opponents on the run all the time. All five of his regulars—Frye, Manning, Blanchard, Wittie and Wilkinson—are dangerous from any point on the court, and all of them fire away when they think they have an even chance of sinking it. This style of attack has been highly successful this year because there has always been two or three gold-shirted boys grouped under the backboard to follow up the shot in case it goes awry. Their passing is fast, well-timed, and accurate and their defensive play leave nothing to be desired. They are a colorful outfit, always on the move, the kind of club that local fans have long been waiting for.

The Hornets have two boys that are sure to win places on many all-district teams. These two boys are Frye and Blanchard, both of whom won cage letters last season. They are the boys that are good for two points when the team needs them, and they are both smooth players who make difficult shots look easy.

The upsets which are always so plentiful in the Southwest conference races have started early this season. The A & M cagers dealt the prestige of the Rice Owls, pre-season favorites, a shattering blow Tuesday night when they won from the Houston lads, 36-34. The league seems to be pretty well balanced this year with Arkansas and Rice ranking as one-two favorites and the Baylor Bears looming as the darkhorse.

Since the decision to decide the district championship with a tournament, the Hornets have become overwhelming favorites to cop the championship of the southern bracket. They have already defeated the competing clubs by large scores, and if they continue to improve they will do well in the bi-district and regional playoffs.

The Hornettes, under the tutelage of capable Charley Barton, have another one of those alert, smooth-working clubs with reserves aplenty that have become the rule rather than the exception at the local high school since Fred Schwarz built up a state champion three years ago. They are sure to capture the county championship, and may go far in that state race.

Pvt. Robert Clements Formerly of C. Cove Killed, Philippines

CECIL ROBERT CLEMENTS.

Claimed by Fort Worth, where he was employed, Pvt. Cecil Robert Clements, 32, formerly of Copperas Cove, was killed near Manila on December 30, according to advices to his relatives.

Pvt. Clements enlisted in the army last Summer. He went to Fort Worth 15 years ago from Copperas Cove where his father John H. Clements lives. He lived for a while in Keller, but his last address was the Majestic Hotel. Private Clements attended Bran-

ley-Draughon Business College in Fort Worth in 1929, and later worked as a multigraph operator and typist. He was a stock man in the supply department of a mail order firm when he quit work last August 2.

Charles Clements a nephew also lives in Fort Worth, and a sister, Mrs. W. A. Hazelwood of Newark whose husband is employed in Ft. Worth.

Clements had two former wives, La Nell Shivers and Kathlyn Wilbanks Clements, the latter being married to Private Clements from February, 1940 to June, 1941.

Other survivors include four brothers, Dr. E. R. Clements, San Antonio, Dr. J. W. Clements, Texarkana, Dr. C. C. Clements, Groesbeck, and Lonnie Clements, McGregor, and two other sisters, Mrs. Glenn Hinson, Copperas Cove, and Mrs. R. F. Schoepfer, Houston.

Clements is the third casualty for Coryell county, or very near, the second being a boy from Adamsville, and the first being Hartley Franks of Gatesville.

NAVY RECRUITERS TO BE HERE TUESDAYS: CALL FOR MORE MEN

L. A. Marks, CMM, USFR, announces a Navy Recruiting man will be in Gatesville at the Post Office on Tuesdays of each week.

The Navy and Marine Corps literally needs thousands of young men, and these services have and will take the first shock, but admittedly, the land forces will take an even worse shock when they get going. Enlist now, in the service of your country.

J. D. BROWN JR. GETS A TELEGRAM FROM TOM CONNALLY IN REGARD TO THE KILLEEN CAMP

Yesterday evening about 7:30 I received the following telegram from Tom Connally:

WASHINGTON, D. C., JAN. 14, 1942
J. D. BROWN, JR.:

TANK DESTROYER TACTICAL AND FIRING CENTER PERMANENTLY ESTABLISHED AT KILLEEN.

(Signed): TOM CONNALLY.

This means that I will have an enormous amount of work to do very shortly.

However, it does not mean that I will slight my business for my land owning friends who have made the Brown Abstract Company the success I think it is.

I have been enabled to employ very efficient help and can get to your business more promptly than ever before. Only a rush of government orders such as I had for a few days in early December would cause me to set aside anyone's work.

I do promise that I will not delay any war department order to do any body's work, and for that reason, I will appreciate all the more any civilian business that comes my way, for it helps my office force to keep busy. If I hadn't had the civilian business that I have enjoyed I wouldn't have been able to have kept from three to five typists busy the past four months. I appreciate and thank everyone for their generous patronage, and particularly those who permitted me to delay their work while I was getting out the war department orders. You have helped me, and I sincerely believe the war department also.

Remember Pearl Harbor, Guam, and Wake, too.

WORKING CONDITIONS CERTAINLY HAVE IMPROVED AROUND OUR PLACE SINCE THE BOSS STARTED THAT MODERNIZATION PROGRAM

Efficient, modern principles of ranching and farming not only make working conditions better but they increase production, reduce time and labor costs, and increase profits. They also make farms and ranches more enjoyable places to live.

Farms and ranches should be as efficient as any factory. Cameron's new Ranch and Farm Building Service provides this efficiency. This is one of the many Cameron services by specialists for which you pay not one extra penny. Investigate its value today.

CAMERON'S New Plan Book

Here is a practical, new "Plan Book" which offers you new plans of farm and ranch buildings which are:

1. The most economical to build for their specific purposes.
2. Designed to increase your income and profits.
3. Constructed to last—reduce upkeep—increase the value of your investment—save you time, needless steps and work.

CAMERON'S New Survey Service

For lower operating costs, carefully plan your buildings; their location, construction, interior layout, and the use of correct materials. Cameron's new "Ranch and Farm Survey Service" is exactly what you need. Special survey forms enable you, with the help of a trained Cameron Man, to plan your improvements and profits for years to come.

EXTRA DOLLARS FOR FARMERS AND RANCHMEN

To plan for extra dollars and increase profits on ranches and farms, Cameron's "Survey Service" includes these things: (1) Making a survey of your present buildings and layout. (2) Working out findings of this survey on the Cameron "Survey Form," furnishing you a written record of the layout, design, condition, and efficiency of your present buildings and equipment. (3) On the basis of this information, determine scientifically what must be done to permit your ranch or farm to operate at lower cost for higher profits. (4) A definite program of improvements is laid out.

This need not be completed in one year necessarily, but through the years it will reduce your operating costs and increase your profits. As you proceed with the plan, it is designed to begin paying for itself.

Behind this new service is the 74 years experience of Wm. Cameron & Co. in meeting the needs of Southwestern Farmers and Ranchmen. This survey and plan service will assist you in improving your income, the value of your investment, and your permanent security. Don't fail to take advantage of this new Cameron service... IT'S FREE!

Chapter One

Mr. Skeates, career-shattering critic of the London Daily Post, entered the precincts of that mighty institution in a particularly bad frame of mind. No one, in the memory of the oldest employee, had ever seen him in good humor, but on this occasion, his humor was decidedly bad. He snarled at the porter, when that aged gentleman offered a mild "good evening." He snarled at his secretary, pretty Ann Williams, when she offered a mild "good evening." Mr. Skeates, it seemed, was in no mood for greetings.

The reason for his ill temper was soon disclosed. Mr. Skeates had just returned from witnessing a bad performance of "Othello." Nothing disturbed Mr. Skeates so much as violence done to the immortal Shakespeare.

"Take this down, Ann," he said sternly, and began to dictate:

"Once more, after a long interval, London presents us with this most dramatic of all Shakespeare's plays: Othello, where the human soul gropes and is lost in the pitch-black

never converse with nameless ladies. On principle."

Ann returned to the telephone. "I'm sorry—Mr. Skeates can't speak to you now." She replaced the receiver.

Mr. Skeates resumed his dictation, blasting away at the unfortunate Mr. Davey, and winding up with conventional kind phrases for other members of the cast. He concluded with one foot outside the door, and then, with a curt farewell, was gone.

Ann began at once to transcribe her notes. She has scarcely finished, and was on her way out to the composing room when a visitor was announced, a handsome young woman, in a state of unusual agitation.

"I must see Mr. Skeates," she said. "Immediately."

"I'm sorry," said Ann. "He's not in."

The woman's agitation increased. "But it's impossible. He can't have gone yet. I telephoned only a few minutes ago and he was here then."

Ann smiled. "Oh—it was you at the telephone? I ought to be grateful. You saved my pom-pom."

But the woman was in no mood

"Good Evening, Mr. Skeates," said Ann, but it seemed he was in no mood for greetings.

taverns of jealousy. Now when a theatre takes it upon itself to let this work of Shakespeare shine forth in a new light—at least it must provide itself with actors who possess the soul with which to bring the poet's characters to life . . ."

Mr. Skeates picked up a scissors from the desk, and snipped off the moustache of an imaginary enemy. "But!" he said impressively. It was a fearful "but." There followed a devastating onslaught upon the unfortunate actor who played the Moor.

"We are accustomed," said Mr. Skeates savagely, hacking away with the scissors at the offending program he had brought back from the theatre—"We are accustomed to actors who bravely make the most of a small part; Edmond Davey puzzles us by timidly making the least of a big one . . ."

Ann, taking down the dictation, found her attention caught by the progress the scissors was making in the direction of the pom-pom on her hat, resting upon a hatrack.

"Mr. Edmond Davey's Othello was—apart from his black make-up, wan and colorless. His love was without passion—his jealousy without rage. In the great murder scene, he was so phlegmatic that one did not for one moment fear for Desdemona's life . . ."

The scissors was poised dreadfully about the pom-pom. One snip, and—but at that moment the telephone rang. Mr. Skeates lowered the scissors. An breathed a sigh of relief, and turned to answer the phone.

"A lady wants to speak to you," she said. "She won't give her name." Mr. Skeates was annoyed. "I

for pleasantry. "You must help me," she cried impulsively. "I'm Barbara Halford—the actress. I played Desdemona this evening. At the premiere of Othello. Tell me—was the review good or bad?"

Ann stiffened. "I'm sorry. You will be able to read it yourself tomorrow morning . . . the paper will be on sale on every corner . . ."

"No. I must know now, before the notice goes into print . . ."

She seemed so greatly disturbed that Ann relented. "Well, since you rescued my pom-pom, I'll tell you—Mr. Skeates wrote very well about you."

Miss Helford trembled. "It's not myself I want to know about . . . the part means little to me . . . I have come about Edmond Davey—the actor who played Othello. Please—please—tell me how Mr. Skeates writes about him!"

Ann looked around carefully. "I'll tell you," she whispered. "If Mr. Davey was really as bad as Mr. Skeates described him—he'd better look around for another job. He might join the navy."

Miss Helford appeared about to faint, but pulled herself together.

"Listen," she said coldly and concisely. "And realize that I mean this. As it stands at present, Mr. Skeates' review will not be printed."

"Are you mad?" Ann cried. "You must leave at once!"

But Miss Helford refused to budge. "No, I'm not mad. A bad review by Skeates is death to any actor. It means ruin to his career. And Edmond Davey's career must not be ruined!"

TIRES—

- (1) Fire fighting services.
- (2) Necessary public police service.
- (3) Garbage disposal and other sanitation service
- (4) Mail services.
- (5) To enforce such laws as

relate specifically to the protection of public health and safety.

(d) A vehicle with a capacity of 10 or more passengers operated exclusively for the transportation of:

- (1) Passengers as part of the services rendered to the public by a regular transportation system.
- (2) Students and teachers to and from schools.
- (3) Employees to and from any industrial or mining establishment or construction project, except when public transportation facilities are readily available.

(e) A truck operated exclusively for one or more of the purposes stated in the preceding sections or for the transportation of one or more of the following:

- (1) Ice, and or fuel.
- (2) Material and equipment for the building and maintenance of public roads.
- (3) Material and equipment for the construction and maintenance of public utilities.
- (4) Material and equipment for the construction and maintenance of production facilities.
- (5) Material and equipment for the construction of defense housing facilities and military and naval establishments.
- (6) Materials essential to render roofing, plumbing, heating and electrical repair services.
- (7) Materials transported by any common carrier:
- (8) Waste and scrap materials.
- (9) Raw materials, semi-manufactured goods; and finished pro-

ducts, including farm products and foods, provided that no certificate shall be issued for a new tire, casing or tube to be mounted on a truck to be used for (a) the transportation of commodities to the ultimate consumer for per, family or household use; or (b) transportation of materials for construction and maintenance except to the extent specifically provided by subsections 2, 3, 4, 5, and 6 of this section (e).

(f) On farm tractors or other farm implements, other than automobiles or trucks, for the operation of which rubber tires, casings or tubes are essential.

(g) On industrial, mining and construction equipment, other than automobiles or trucks, for the operation of which rubber tires, casings or tubes are essential.

All the above are subject to change by OPM and in addition to the eligibility of the vehicle, it must be one usually garaged, located and normally stationed in the county; tire or tube to be replaced cannot be retreaded, recapped or repaired for safe use at such speed as the applicant might be reasonably expected to operate.

For example, an ambulance, police car, or physician's car, since they answer emergency calls, might be able to buy a new tire when another applicant could not qualify for a tire or tube.

Before consideration from the board, it is necessary for John Washburn Sr., or Jr., at Washburn's Garage Gatesville, to make a "certificate of inspection" showing condition of the tire or tube to be replaced, and they are entitled to a charge of 50c for removing and replacing the tire on the car.

This particular garage has been chosen because they do not sell tires, and have had long years of experience. Tubes or tires may be purchased anywhere when the Board has ok'd the purchase and need. Purchase must be made in 30 days after issuance of the permit.

If the car owner (or trucker) has another vehicle which can be used and is already equipped with serviceable tires or tubes, and the applicant must not have more than one spare tire.
