In the
SPRING
a young man's
FANCY

When you put on your new outfit, his "fancy" turns to YOU! You're the one to distract him from today's news, to momentarily blot out the headlines for him. He wants to see you in clothes more feminine than ever before.

If he's in the "military", he wants more than ever to see you in your loveliest best—and why shouldn't he. It's a great part of your "defense" and your "offense" to do this for your one "him".

Spring is just one, the only one of those times, when everything "blossoms"—when our lives get a much needed "uplift" after a drab and colorless winter. C'm'on, it's Spring!

We are receiving so much mail these days in regard to the 40 hour week and related subjects that I have wondered just how many of our people read these weekly letters. I have tried to give the people of Central Texas a factual report each week of the matters that come before the House, and to advise them both as to my vote and the action taken by the House. It is, therefore, a little surprising to find that many of our people either don't know or have forgotten that the House of Representatives has already actually passed, by a rather substantial vote, a bill, on December 3, 1941, which as I explained at that time required arbitration of strikes in defense industries; required union officials to account for the funds they took in; and put a stop to the disgraceful and un-American racket of charging American citizens exorbitant fees to work on a Government defense job. This was known as the Smith Bill. I voted FOR it. It has been lying in a Senate committee ever since. This is not the fault of the Texas Senators, but it must be remembered that Congress is composed of two houses, and that the House of Representatives has acted on this matter.

Likewise, many of those who write in seem to have forgotten that at least 62 of us in the House voted FOR the suspension of the 40 hour week during the war. I was one of the 62. The vote was taken on February 27, 1942, on the Smith Amendment to the War Powers Bill. I have heretofore tried to explain this bill in this column, and the opponents of my stand led by a small group in Waco, who I think are primarily interested in promoting political opposition to me, have been very critical of my vote. I am, however, still convinced, as I said in a radio speech on April 7, 1941, that "France fell because of weakness behind the line". That it is impossible to win a war on an "eight-hour, five-day-a-week" basis. I can't, however, understand why so few of those who write don't know how I have voted, and don't know how the House has voted except that most of those who write do so from the larger cities where my news letters are not published regularly.

I know, of course, that the people of Central Texas are fully aware of the seriousness of the situation. They have proven for the past two years that they were more ready to face the facts than the people of other sections, and that they were well ahead of many members of Congress. Our people are cheerfully making every nec-

essary sacrifice. They are assuming their full share of responsibility. They want everyone else to do likewise, but they are disturbed. They want action. They are, as all people are, disposed to blame someone for the delays and defeats we have suffered, and I feel the same way.

I, therefore, welcome this expression of public interest and take it as a good sign. The people of our Democracy are not always very discriminating. They may blame a Congressman for the failure of the Senate to act, or they may blame the Legislative branch of government for the acts of the Executive, but in the long run they will insist on a sound course of action on the part of their government. This is the strength and virtue of Democracy. Under such a system no matter what happens to individuals the nation will live, and that is the one big thing. This nation must win this war so decisively that there will never again be any threat of another outbreak of international banditry—and that is the way we are going to win it.

During the past week the House has considered what is known as the Second War Powers Bill, specifically conferring on the President a number of powers that it seems desirable for him to have in order to more effectively conduct the war. I realize that the President must have very broad powers, and I voted for the bill which was passed. I could not, however, agree that a necessity existed for the establishment of the so-called Women's Auxiliary Corps to the Army. I realize that there are many services which women can properly render in support of and in aid to the Army. I think, however, that the women, like men, should serve either as civilians or as outright members of the military forces. I realize that most of the newspaper articles in regard to this bill gave the impression that these women (150,000) were to be enlisted in the Army itself. I recognize that in spite of my antipathy against calling on our women folk to do our fighting that such a force might be very useful if we had a place to put them, but at present we don't have adequate facilities for our men. And, the fact is that this bill leaves the women who enlist free to resign just as civilian employees are. I cannot under those circumstances see what advantage would be gained by putting a uniform on these ladies. They certainly wouldn't be soldiers if they could quit any day they didn't like their food or their uniforms—and that is what

they could do under the bill. I, therefore voted against it in spite of the fact that it was evident that it would pass by a substantial majority. I simply don't believe in the creation of additional agencies to duplicate work already being done without any fanfare.

Helping to win a war

THE HOUSEWIVES OF AMERICA are a vital factor in this war. In the program to make America strong by making Americans stronger they are the guardians of the nation's health.

NUTRITION IS YOUR BUSINESS because good health and energy are imperative. To help do your bit toward building your family's health, serve well-balanced, vitamin-rich meals. It isn't enough just to select the right foods at the market, for many of the health-giving vitamins may be lost if the food is cooked improperly.

"I WILL WASTE NOTHING"—Pledge yourself that the vitamins in the food you buy actually reach the family table and you'll be helping to win the war.

LOCAL MAN "QUOTED" ON CRAZY WATER'S PROGRAM IN FEB.

Harry Flentge, prominent young Gatesville attorney was quoted recently on the Crazy Water Crystals program from Mineral Wells, which is presided over by the one and only Hal Collins. The "quotes" were:

"Across America, to which we owe the priceless heritage of personal freedom and spiritual privilege has fallen the threat of conquered nations and crushed peoples.

"In so critical a period we need to renew our sense of history; to make vivid in our minds the struggles and sacrifices of those great Americans who gave us our Con-

stitution and our Bill of Rights; to understand very clearly that these great gifts can be held only by a strong and united people. We need to toughen our mental and spiritual fiber to meet the stern demands of troubled times."

We don't know the occasion, but the words were "aired" by Mr. Collins on his February 27 broadcast.

Defense Clean-up Week Proclaimed By Governor

Civilian Defense Clean-up Week in Texas has been designated for March 29 to April 4, in a proclamation issued by Governor Coke Stevenson.

The proclamation reads: Whereas, America is at war, as in time of peace, is dependent upon the resourcefulness of its citizenship; and

Whereas, the health of our citizens and the preservation of property from destruction by fire is of vital importance to our Nation as an important part of its Victory Program; and

Whereas, the welfare and safety of our citizens can be insured by giving consideration to those matters which would protect their lives and property against disease and fire, and thus serve as a vital aid to our National Defense Program; and

Whereas, the Texas State Health Department and the State Fire Insurance Department have, for a number of years, sponsored a State Clean-up campaign as an aid to health and fire prevention; Now, Therefore, I, Coke Stevenson, Governor of the State of Texas, and as Chairman of the National Defense Committee for Texas, do hereby designate the week of March 29 to April 4, 1942, as

CIVILIAN DEFENSE CLEAN-UP WEEK

in Texas, and I earnestly call upon the citizens of Texas, particularly our city and county officials, fire departments, public schools, both urban and rural, civic and patriotic organizations, to cooperate in emphasizing the importance of good health and fire prevention.

"EGO" IN EGGS! THESE HENS ARE REALLY SHOWIN'

You just brag on somebody or someone and they'll "bust a —"! We must have done a little too much bragging on Mrs. Yard Hen. Lately, she's really been doing her bit, and they have not been little bits.

Competition seems to be the life of trade, and, now comes a hen owned by Mrs. G. T. Moore of near Caufield school house "out on the mountain" that's really done a big job, yes, in fact, three of them. She didn't stop at one — not her — she made it three, and that's what we really call Food for Freedom.

Come on, hens, we'll write you up as long as we can think 'em up. We might, however, have to pay a license for being in the poultry business.

Large Crowds Are Attending Revival Now In Progress

In the first week of the revival, now in progress at the First Methodist Church, the services have been well attended, and the Rev. W. Harrison Baker of Sherman has been bringing excellent messages.

The audiences have also been enjoying the music, under the direction of the Rev. C. G. Spindler of Tulsa, Oklahoma.

The pastor, the Rev. E. L. Craig, and the members of the church invite every one to attend the services, which are held daily at 10 a. m. and 8 p. m. The revival will continue through Easter Sunday, April 5th.

NORTH EAST WEST SOUTH

A SUMMARY OF WORLD, NATIONAL AND STATE NEWS

JAPS AFTER INDIA

NEW Delhi, India, March 25—(AP)—Japan reached out for India by sea tonight, occupying the Andaman Islands in the Bay of Bengal, barely 500 miles off the United Nations' Ceylon-to-Calcutta supply route, and struck by land toward the riches of central Burma in heavy fighting which partly outflanked the British-Chinese positions at Toungoo.

MACARTHUR DECORATED

Washington, March 25 (AP)—The award of the congressional medal of honor to Gen. Douglas MacArthur for conspicuous gallantry and intrepidity in action against the invading Jap forces in the Philippines was announced today by the War Department.

JAPS BLASTED AT WAKE

Washington, March 25 (AP)—Striking powerfully at the flank of Jap supply lines into the southwest Pacific, an American tank force raiding within 1000 miles of Yokohama has virtually wiped out enemy installations on Marcus and Wake islands, the navy announced today.

"SOME" AIN'T DOIN' BAD

Washington, March 25 (AP)—Evidence of high salary and bonus increases to naval ordnance manufacturing executives—one as high as 1331 percent—was presented to Congress today in an attempt to prove they were born of huge government war orders.

NO CANUCTS TO 'STRALIA

Ottawa, Ont., Mar. 25 (AP)—Canada will form two new army divisions but will not attempt to send a Canadian expeditionary force to Australia, Prime Minister W. L. MacKenzie King told the House of Commons today.

NAZIS BOMB ENGLAND

London, Mar. 25 (AP)—German raiders heading inland roared over the southeast English coast early today in the face of a terrific anti-aircraft barrage.

WPB ORDERS

Washington, March 25 (AP)—The war production board intruded into the very personal matter of male whiskers today with an order sharply curtailing the manufacture of razors and razor blades.

RUMANIA-HUNGARY SCRAP

Bern, Switzerland, March 25 (AP)—Growing friction between Rumania and Hungary lent support Wednesday night to the belief that Adolf Hitler again is playing one Balkan junior member of the Axis against another, this time in an effort to gain increased armed support for his Russian campaign.

ANOTHER ON E. COAST

Norfolk, Va., Mar. 25 (AP)—A medium-sized British merchant ship was torpedoed and sunk by an enemy submarine off the Atlantic Coast on March 18, the Fifth Naval District announced Wednesday.

BIDDLE-ARNOLD SCRAP "WORDS ONLY"

Washington, March 25 (AP)—Atty. Gen. Biddle rapped the knuckles of Asst. Atty. Gen. Thurman Arnold for accusing organized labor of "injuring and destroying" independent business and of holding farmers and consumers "at its mercy."

SKI TROOPS IN STARAYA RUSSA

Moscow, Mar. 25 (AP)—Red army ski troops were reported tonight to have penetrated the outskirts of Staraya Russa, the anchor of the besieged Nazi 16th army, and the Soviets announced officially that a savage 2-day German counter-attack supported by planes and tanks in the same general area had been repulsed.

FDR OPPOSES LABOR CHANGE

Washington, March 25 (AP)—A compromise version of the Smith war-labor bill emerged on Capitol Hill Tuesday night, but its principal provision drew the provision of President Roosevelt.

He didn't like the idea of time-and-a-half after 48 hours, not 40. Calls it a wage slash. Looks to us like it might also be called a "tax slash."

PERSONALS

Miss Gladys Marie Phillips, student at Sam Houston Teachers College in Huntsville, and Miss Evelyn Hensler, instructor in that institution, were guests of relatives and friends here Wednesday afternoon.

SIDE GLANCES ON TEXAS HISTORY

By Charles O. Hucker
University of Texas Library

El Dorado in Reverse

Texans have been prone to praise their country by extravagant descriptions of its bad qualities as well as its good ones: "the biggest mosquitoes," "the worst northerners," "the bitterest sandstorms," and "the hottest summers." In doing so, they spoke with pride, as if such attributes should lend glamor and fascination to the land—and it did!

But one Charles Hooton, Britisher, who just about a century ago paid a visit to the Republic of Texas, wrote a stinging chronicle, not in affection for the country but with the deliberate aim of persuading "through the influence of fact, any projecting Emigrants from following in the same fatal footsteps."

In a thin volume, "St Louis' Isles, or Texiana," which he published some six years later, in 1841, in London, a rare copy of which is found in the University of Texas Library's voluminous Texas Collection, Hooton unleashed a bitter tirade against Texas—its climate, the "unhealthiness of the people," the stores which "resemble a series of modern museums" full of curiosities, the lack of art and literature, the profanity of the citizens, the danger from lurking Indians. In short, there was nothing about the country that he liked.

"Gone to Texas"

The people who populated Texas fared little better in Hooton's estimation than did the country and its improvements. "Texas generally may with safety be regarded as a place of refuge for rascality and criminality of all kinds—the sanctuary to which pirates, murderers, thieves, and swindlers fly for protection from the laws they have violated in

other countries and under other governments," he declared.

"It has become almost a proverb in the United States, that when a runaway debtor is not to be found, when a slave-stealer is totally missing, or a murderer has contrived to elude justice, he has chalked upon his house-door, 'G. T.'—Gone to Texas. Nor has this passed into a proverb without much fact to support it . . . in the main, scoundrelism, under one shape or another, constitutes the larger portion of the present population of Texas."

100 Years Ago in Texas

"Still lingering upon our mind are the impressions made upon the occasion of the inauguration of Gen. Houston. Methinks I see that manly form (with eloquence even in its appearance), lofty in its every aspect, with majestic intellect and towering mind, and withal that complete proportion of person, when he reached the door of the House of Representatives, with all eyes turned upon him, we saw him borne along by the assistance of crutches—our feelings were indescribable. The thought that this had been occasioned by the wounds he received at the battle of San Jacinto, upon the day which decided our fate as a nation and gave us liberty as a people; and that now, with this addition to a still uncured wound received in a hard fought battle in our fatherland, upon his person, he came forward to take upon him the control of the affairs of Government, at a time when there was no other NAME given by which our country could be redeemed save that of Houston."

"The amount of Texas cotton received at Natchitoches, La., this season, up to the 31st Dec., is 1489 bales."

"Texas money is quoted in the New Orleans Bulletin of the 17th at from 5 to 8 cents on the dollar."

"A LARGE PIG.—Mr. David Young, of Hanover, Morris county, has raised a pig this season, which is remarkable for its rapid growth. It was killed on Monday, the 22nd inst., being not quite 8 months old, and when neatly dressed, weighed 312 pounds.

"He ought to have Lamar to build 'pig-pens' for him."—The Daily Texian (Austin), Feb. 2, 1842.

FARMERS AND HOMEMAKERS HAVE MEETING AT POWELL HOME MARCH 19th

On March 19th a group of farmers and homemakers met with Miss Pearl Scarlett, home supervisor, and N. A. Waldrop, farm supervisor of the F. S. A., in the home of Mr. and Mrs. Winifred Powell.

A demonstration of a hot-bed and cold frame was given which was very interesting. Comparisons of the growth of plants grown in the hot bed and those grown in the commonly used seed bed gave the former a very marked preference.

The entire group was enthusiastic over the demonstration given by Miss Scarlett on how to kill the insects which are so destructive to our vegetable gardens. The methods used were a poison used in the form of a dust shot from a dust gun (which can be bought for a small sum), and a home-made duster which can be made from material everybody has at home. We were also glad she could tell us just what to use and where to get the dust, or poison, for best results.

Another interesting demonstration carried out was two or three methods for killing out the too

numerous red ant beds. A number of us will be putting this into effect soon, I am sure.—Written by one who was present.

WITH THE COLORS

Got a card from Corp. Clint White, 411th Signal Company, Will Rogers Field, Oklahoma City, Okla., and he says: "I like the army fine. There's a boy in my company that went to school with Sonny Hair and C. H. Wallace Jr. He's a nice kid; name is Smith. This is a fine field, good eats, clean place, bed time, 9:00 p.m. Your friend, Clint White."

Thanks, Corporal, we kind of liked the old Army we were in, and from what we hear, you're eatin' better than we did. We had too much "slum" and too many Sat. P. M. and Sunday P. M. meals

of plain old "baloney", cheese cold meat, and tea — army tea.

SPORTS IN THE NEWS

By JOHN FRANK POST
News Sports Editor

FRIDAY, MARCH 27, 1942

The local high school athletes are now working out every afternoon for track and field, the March sport. Although there will be no county meet competition, Pruitt will take his best boys to the district meet.

All next year's gridiron hope.

fuls are out for track. Pruitt intends to harden them up and increase their speed, so that they will be in top shape for the coming spring football sessions, which will begin the first week in April. About thirty-five boys reported

for the initial practice.

Harry Stiteler is the new Waco High coach. Madison Pruitt was an applicant who was given serious consideration for the job.

If Pruitt should leave the local high school, it would be a distinct loss to Gatesville athletics. Since taking over the athletic directorship here, Pruitt has instituted a schoolwide physical education program that benefited every boy enrolled. During this emergency, this is something that should be stressed in the extra curricula activities of all our public schools, and Pruitt was a jump ahead of the other schools by inaugurating his classes two years ago. This program has more than proved its worth, and been a boon to athletics at the local institution.

Because of a dearth of material, the past two football seasons have not been what you would call successful, and prospects are not too bright for next year. This has caused faint grumblings on the part of the townspeople, but Pruitt has given the boys great tutoring. The development of gridiron stars in junior high is due to start paying off soon, and with Pruitt's detailed coaching, we may experience a Golden Era in Gatesville football.

Pruitt has shown that if he is given the material, he can get results. This year's basketball team

is ample proof of that fact.

While on the subject of mentors let us pause to congratulate P. T. Lemmons on the fine record he has compiled at Jonesboro since taking over the coaching reins there. His basketball teams have won the county several times, and have always been strong contenders for the coveted crown. Popular with players and fans alike, Lemmons is a fixture at Jonesboro as long as he wishes to stay there.

Following is an all-county team selected by the vote of the Jonesboro players and coaches.
Stanton, Evant forward
Lemmer, Ireland forward
Crawford, Turnesville center
Dewald, Copperas Cove guard
Smith, Pearl guard

CHESS PLAYERS TREK TO "BIG D" TO SEE, PLAY WITH CHAMP

WORLD'S CHAMPION

George Koltanowski

Several of Gatesville's chess playing fraternity will take on the "champ" in Dallas, March 29, when George Koltanowski, famous European chess master, will match his wits against 200 "opponents", in the Baker Hotel Crystal Ball Room. This 200 will be the "world's record" number of games going at one time, and Mr. Koltanowski, the world's champion blindfold

chess player (34 games in Edinburgh, Scotland, in 1937) and ex-champion simultaneous chess player (160 games in Antwerp, 1931) will take on 200 of Texas' best.

Mr. Koltanowski is now professional and manager of the Dallas YMCA Chess and Checker Club. Chess players interested in this trip, either as players or witnessing the spectacle, can get in touch with Evan J. Smith.

Mr. Ward Burris, Sports Editor, The Express, San Antonio, Texas.

Dear Wardie:

Well Chum, I'm all right, how's yer tires? With the high cost of livin' and lovin' the way it is, it looks like we run out of autos and other stuff about the same time we run out of payments.

I seen where a lot of feetsball coaches has rushed out to join the Army, which shows things get perty desperate when you don't win games.

Looks like the Rushians are a doin' all they can to get Hitler out of the Red.

I went to town to find a greetin' card to send the boy friend in the Army. I wanted one to sympathize with a shut-in. He's in the guard house. I went on down to the honky tonk and asked 'em if they served crabs. They said they didn't bar anybody.

My little cousin Imogene seen a deer the other day and asked what it was. I said its what yer ma calls yer pa sometimes. She said, Oh, a rat, huh?

I get a great kick out of our soldier boys. They used to be boy scouts I guess, but now they are girl scouts.

I seen where the Cubs went to Catalina Island to train and rode in glass bottomed boats. When the war is over we ought to donate them boats to Hitler and the Japs so they can review their fleet.

If you need a couple of my burros to ride to work when yer tires gets worn out, let me know.

I'll be a seein' you Pal. Keep 'em Flyin'.

Yourn,

LOONY LUCY (...)

LAND FOR SALE

I either own or am exclusive agent for a number of small ranches and farms situated in various parts of the county. I also own a number of nice lots in Gatesville, all of which I am anxious to dispose of. All the real estate owned by me or under my control as agent is for sale at its market price. I will be glad to discuss these properties with prospective buyers and give directions how to look them over.

In addition to the above I also know of a lot of places that are for sale, and I am never too busy to discuss these matters with prospective buyers. I think I know as much about Coryell County land and its value as any man in the county and while my advice may not be worth anything, it is free to my friends who are now seeking new homes.
