TOP ENTERTAINERS IN THE "NINTH" ANNUAL: PENS UP

This here rodeo's rockin' right
along! So says Gen. Mgr., Eiland
Lovejoy.

And, Chairman Horace Gallo-
way and his crew are putting the
pens and chutes up, and the show's
to be a super-doooper.

Headlining the acts for the en-
tertainment of the fans will be
Weaver and Juanita Gray, top
headliners in trick riding, roping,
and those side-lights that make
the rodeo THE thing, anywhere
west of Brooklyn. Nothing can
take the place of the Dodgers,
there.)

The Weavers, featured their
"educated horse that kick the
football," and the dancing horse,
"Smokey." They're so good, they
showed at 22 spots in Tex., La.,
Kans., Ark., Colo., Wyo., Nebr.,
Mont., and Ariz. (There's a chance
for you to "get" the state abbre-
viations, if you need'em.)

And, they've played the Chey-
enne show for the ppapsptpp four
years. Now, if anybody can do
that, they've certainly got some-
thing on the "horse" as you'll have
to say in this case.

Of course, this is just a tid-bit
of what's really coming—there'll
be the Greatest Parade ever to
assemble in Gatesville, about
which, more later, and beginning
today, June 1.

The Gatesville Fire Department
will discard their rubber boots,
slickers, and "Sherlock Holmes"
fire helmets, and don the cowboy
leathers, kerchiefs, shirts, pants,
big 10-gallon hats, and whatever
else's got a western air about it.

We're going to tell you a lot
more about this show, but in clos-
ing, this old American Custom is
supported by a lot of guys over
around Okinawa—yes, they're
fighting to keep it that way, and
your fight, is to dig down and get
this "unlucky" 7th over, and over
quick!

Mrs. Donald McKinney, Mrs. E.
R. Nuey, and Bill Bamburg attend-
ed the funeral of Joe Hopper in
Stephenville last week.

Miss Margaret Wicker and Miss
Norma Lee Anderson are visiting
in Gatesville after attending school
in Abilene for the past year.

Photo by Army Signal Corps.

One of the Army's famed "hellcat" tank destroyers, which was developed at Camp Hood, has just fired at a tar-
get hundreds of yards away in this picture. This renowned weapon of war and scores of other vehicles and guns
will be described, demonstrated and fired before the eyes of those Central Texans attending "Camp Hood's

I'D HATE TO FARM
WITHOUT WOLVERINES!

That's What Farmers From Coast to Coast Say About

**WOLVERINE
SHELL HORSEHIDES**

THEY'VE said it for many years. They wouldn't wear anything else because Wolverines are not only second to none in their remarkable toughness but are the most comfortable work shoes money can buy. Soft as buckskin—tough as nails—and they even dry out soft after soaking. Shell Horsehide is the only leather with a natural tough center layer that strengthens and reinforces the leather as steel rods do concrete. And Wolverines are the only work shoes on earth with both soles and uppers all genuine Shell Horsehide. Wolverine's secret triple-tanning process adds the amazing softness and extra comfort while retaining the months and miles of money-saving extra wear. Come to our store and try on a pair of these wonderful work shoes.

WITH THE COLORS

Roswell AAF.—Destined for B-29 Superfortress combat assignment Lt. Lewis L. Dyson, son of Mr. and Mrs. John T. Dyson, Rt. 3, Gatesville has entered a streamlined 5-weeks course at the AAF Training Comand's B-29 transmission school here to become pilot.

His training will be as a member of a 5-man unit consisting of the airplane commander, who actually flies the ship as the first pilot, the pilot who serves as his assistant, and the flight engineer, whose duty it is to "engineer" the battle plane to and from its bomb-dropping rendezvous.

Here's a part of a letter written to Mr. and Mrs. Will Rutherford by their son-in-law, April 30.

Since you heard from me last, I have crossed the Rhine river. It is about 4 times as big as the Lampasas and flows very swift and deep. The country is flat, fruit trees are in full bloom and they make a very pretty picture.

"One would think he is in Holland, because there are about 8 large windmills. The people are mostly refugees that work in the fields, as the German people fled with the army.

"I asked one refugee why they use cows for beasts of burden and he said that was the only thing left. They didn't have any gas for their tractors and the German army took all the horses. He also said the cows gave milk.

"Some German women that remained behind are real Nazi, and some of our boys that talked to them in German were disgusted to hear them say how much they worship Hitler.

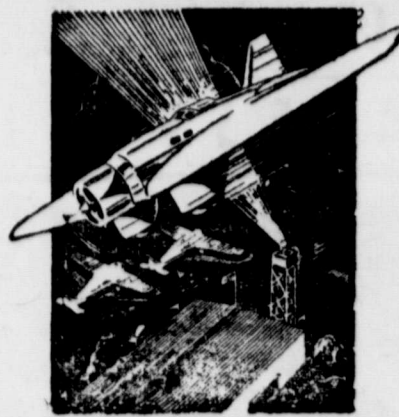

"It seems that west of the Rhine is where the Christians lives as you would find a picture of Christ in nearly every home, whereas, east of the Rhine, all you find is draped pictures of Hitler.

"Most of the roads are dirt, and the better ones are made of cobble stone. "Berlin as you probably heard is nothing but a broken down stone factory, and when the wind blows they have a dust storm from the broken brick.

Here's one from Cpl. J. M. Woodson, who's still over there. He's a son of Mr. and Mrs. Ernest Woodson of Gatesville.

"Mom, I have a German officers' garrison cap, field cap and a bay-

as soon as I find a box or something to send them in. Also have a German flag and an Iron Cross. My outfit has been awarded the battle participation stars and so I'll get three of them. We haven't gotten them, but will soon. They are bronze stars and are worn on the European Campaign ribbon.

"These people have sure gotten what they asked for and the little town that I'm near now is flat and only a few buildings that haven't been hit. Some of them try and make friends, but they don't get very far because they are just not good and just as band as the German soldiers.

"Some of the boys that our outfit captured were 12, 14 and 16 years old.

"They are going to send a lot of guys home from over here and some will go to the Pacific. This isn't a secret any longer. Some outfits will go directly to the Pacific without furloughs home and some will get furloughs and then go. Some will stay in the states; some over here. So you see, no one knows who is going, or where, yet. It shouldn't be long before they tell us what, and until then, I'm just sweating it out. . . ."

Cpl. George W. (Weldon) Rogers, sends us a nice bunch of post cards showing beautiful scenes in the Swiss Alps, but doesn't say hehe's there, or not. Also, was a copy of Stars & Stripes, V-Day Edition, and one German and some French coins. The pictures are beautiful, and most of them were

printed in Dresden, Germany, so don't know whether he is in Germany or Switzerland, but hope it was the latter, even the Germany before the war, was beautiful and parts of it, we are certain, still are.

**LOW POINT!
LOW PRICE!**

HERE'S WHERE WE WANT THINGS "LOW"!

Of, if you don't, you get to feeling low, sure enough! Naturally, it's to our interest to make our prices as low as is commensurate with the quality you demand we have, and that's exactly what we do.

As for the point business, we don't have a heck of a lot to do with that—only collect 'em, and turn 'em in.

But, fortunately, there's enough leeway that we can suggest a variety of Meats, Fruits, Vegetables and Groceries that won't leave your "point system" panting at the mouth, so to speak.

Leave us have a chance, as they say "up north."

3-YEAR POST-WAR FARM-MARKET HWY PLANS RELEASED

It's the 3-year plan, and it's post-war, so don't start raveling over these "proposed" farm-to-market roads.

The State Highway Department's plan is for \$30,000,000 to be provided by the state, the same amount by the nation, and the work to be done in Coryell county, too.

The Commissioner's Court has drawn up plans, and these were submitted to the highway department which oked these:

Turnersville to Highway 36, 9.5 miles Bee House to Purmela via Pearl, 12 miles; Hwy., 36 1 mile E. of Flat to Seattle, 9 miles; Osage to U. S. 84, 3 miles west of Oglesby.

Now, bear in mind, this is a "post-war" plan, no money has been allocated, nothing has, or will be done until the manpower

situation eases up, and the rest of the war (2-3rds) has been won.

'ANTI-LAWS' GETTING BUSIER SHOP ENTERED, TRUCK TAKEN

Law east of the Leon had a little activity this week, and Byron & Walker's Cleaning plant was entered Wednesday night, a window pane being knocked out, a window opened, and \$2 or \$3 in pennies taken from the cash register. Nothing else was found missing, yet.

Gatesville Frozen Food' ex-army truck was taken early Thursday morning from in front of Harry Jones' home on Waco street, and hasn't been seen since. A neighbor heard the motor start about 3 a. m.

Five DB's are still out, two got out Friday and three out later this week.

As we went to press Thursday, the truck was found near Hamilton.

"85, OR BETTER"

Under the new point system, these are the only Coryell county boys we know of that have been discharged from the Army by this system.

First, was Alvin M. Taylor, who returned recently from the South Pacific, and while here, reported to San Antonio where he was discharged.

S/Sgt. Raymond Painter, son of Mr. and Mrs. Homer Painter, of Gatesville Rt. 2, near Osage, came in Wednesday with 127 points most of them decorations. He'd had 3 years, 11 months and 5 days of World War II.

Know any others?

Let's raise the money in the MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on Iwo Jima, four thousand men—more and more—died to take the long step forward to Victory. Twenty thousand others suffered wounds. Yes, we're on the way to Tokyo!

At home, your contribution to Victory is measured in dollars. The

Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!

POSSUM FLATS... 18-CARAT ADVICE

By GRAMM HUNTER

May 25, 1945.

Dear Friend:

The South won a great victory this week when the Interstate Commerce Commission recognized the long standing freight rate discrimination against our section and ordered that it should be corrected. It will be some time before all of the complicated rate structure can be re-written, but this is a definite recognition of the injustice of the "territorial" freight rate system now in effect. Just as high freight rates have stifled trade in sections of this country, so have tariffs prevented a free flow of world trade.

All week the House has been debating the bill to extend the power of the President to negotiate reciprocal trade agreement with

other nations. This is the program of Mr. Hull and President Roosevelt. Under this program our country has materially reduced the tariff barriers that did so much to bring all world trade to a standstill in the late twenties. Without world trade there is little prospect of either world prosperity or world peace.

To my mind it is perfectly simple. The United States cannot sell to the rest of the world if we refuse to buy from the rest of the world. With what could they pay us? Surely we cannot go on lending everyone else money with which to buy our products. That but postpones the problem. With what will the debts be paid if we make it impossible for other countries to send us their products?

Nor do I see the danger in imports that many people profess to see. The greatest industries of America have been built without any tariff protection. The automobile industry was the first real mass production industry and it was the first to pay really high wages. It was developed in competition with all the world. On the other hand, the cotton textile industry has always paid scandalously low wages, but it has operated behind a tariff wall. In short, the experience of the past proves that high tariffs do not assure high wages.

In Texas we must market a large part of our cotton crop abroad. So long as we must sell in a world market, we are at a terrible disadvantage when we have to buy in a protected market. The reciprocal trade treaties have helped to strike down these barriers. They are not a complete remedy, but they are the only practicable method of negotiating tariff rates that we have. Surely everyone will agree that trade and business did pick up after the Democratic party inaugurated this policy. Surely no one could seriously contend that Congress can intelligently fix all of the tens of thousands of separate tariff rates. Everyone knows that to go back to the old system of the Republican days would result in a stay-nation of world trade and a field day of jockeying and intrigue for favored positions for each pressure group. I think this matter is of great importance to our country and the whole world. It is thought we will vote tomorrow (Saturday.) I had intended to be in Texas this week-end to attend some of the commencement exercises over the district, but I do not feel that I should be away when an important vote comes up, so I am staying here. I shall come home when it seems that my work here will

allow it.

This afternoon the Texas Delegation met with Mr. B. F. Vance, of the State A. A. A. office, and with Mr. C. D. Walker, Southern Director of A. A. A., to discuss the 1945 Conservation Program. The Agriculture Committee met this morning and every morning this week to give further study to the school lunch program. I hope we will be able to work out a practicable lunch program. I think this program has been most helpful, but the committee is running into a number of unexpected problems.

The new Cabinet officers came as a surprise to me. I know Mr. Clark, the new Attorney General, quite well. He is an able lawyer from Dallas. I also know Congressman Anderson, the new Secretary of Agriculture. He is from New Mexico and has done a fine job as Chairman of the food investigation committee. I have a high regard for both Mr. Wickard and Judge Marvin Jones, but I am glad to see the entire agriculture program again under a single head. I am sure Mr. Anderson will handle this difficult job.

With best wishes, I am
Yours for Victory,
"W. R. POAGE"

He's a columnist of Squadron A, here, and is with "a 3-piece combo," the "WRECK HALL Wrecks," which plays noons over station MESS for the men of Kearney. Sammy ain't doin' bad there, and started his career in these parts with the old 893rd TDBn., ending up, marrying a daughter of Mr. and Mrs. Tom Young's. NOT SIX-SHOOTERS, JUST PLAIN RIVIT GUNS

No, those aren't "six-shooters" the two Texas soldiers in the picture are playfully pointing at each other, but are the pneumatic guns they use in repairing Fifteenth Air Force heavy bombers.

Now sheet metal workers in a 15th Air Force Service Command air service squadron, Pfc. Marvin A. Watson, left and Cpl. James D. Chilton, right were friendly high school athletic rivals back in the late '30's.
