WELL, THIS ISN'T IT! WON'T BE 'TIL TUESDAY

A few more days to wait for the announcement of the winner of the 1946 Stork Derby Contest, sponsored by the News and Gatesville merchants.

Here's the payoff! Which, right now, looks like nobody wants it. To this very instance, we have no candidates, according to the rules of the contest. Meaning,

NO BLUE BIRTH CERTIFICATES.

Now, if somebody'd go around and get me (and, I'm a four-timer) a \$25 bond, and presents from these merchants, brother, I'd be sitting on somebody's front steps as soon as the "swish" to the stork was out of hearing.

Evidently, war wages, etc., etc., has stopped even this in Coryell county. Maybe they're just not interested. Now, if that's so, we could just hold everything over until next year, and just say: "No dice" and wait, giving a blank to Mr. or Miss 1946. And, we would not like that a little bit.

Here are those who are interested in your "tot" and have something for him or her: Sparkman's Grocery and Market, White Auto Store, The National Bank of Gatesville, City Drug Store, Martin Scott & Son, Mrs. J. B. Graves, Florist, Jones boys inc., Ltd., The Palace Theatre, Foster Drug, Gatesville Drug, Modern Cleaners and Coryell County News.

Those in the "bonding business" are H. B. Davis, 5, 10 & 25c Store, Tom V. Freeman, Real Estate, The Cooper Co., Inc., Wholesale Grocers, Modern Cleaners, Brown & Chambers Grocery and Market, Gatesville Auto Supply, E. L. Sadler 5, 10, & 25c Store, A & P Store, Guaranty Bank and Trust Co., Jones-Miller Motor Co., Arnold Electric Co., Ashby Brothers, Magnolia Distributors, Horace Jackson, Insurance, Sherrill Kendrick, G. P. Schaub Milling & Grain Co., Perry Brothers, 5, 10 & 25c Store, Sparkman's Grocery and Market and Cozy Cafe.

In the neapast, we've had the following winners: Gary Glenn Graff, Harvey Richardson, Vernon H. Wells, Sara Lynn Scott, Joe Kermit Derrick, Ray Van Brown, Glenda Fay Blanchard, Joyce Marie Featherstone and Cynthia Ann York.

Bring the birth certificate, your identification, and claim the prizes sometime after Monday, January 15 at 1 p. m.

Deadline, January 15 at 1 p. m.

ONLY 474 PAID POLL TAX UP 'TIL 10:45 THURSDAY: 'TIL 31

This is going to be a great, g-r-e-a-t, g-r-e-a-t year, so the politicians say. Everything's great political years.

But, here in Coryell County, it isn't going to be so great unless some of you folks start paying for the "scratching" privilege. Yes sir, only 1474 have paid their poll taxes in Coryell county up to 10:45 A. M. CST, or is it CDST, Thursday.

County Assessor-Collector Bert Davis says usually there are between 3000 and 4000 polls, and that leaves a grand rush for these remaining days of January.

Still, the boys with the "homing pigeon" or whatever else they call this discharge Button, get one on the house this year, and that will swell the vote considerably.

As the C. of C. should say: "Pay your Poll Tax!"

A. L. CHOLLAR TO BE TRANSFERRED TO AUSTIN

A. L. Chollar, head of the State Highway Office here, and formerly a captain in the U. S. Army, with two or more years in Alaska, has been named Senior Designing Engineer of the Texas State Highway Department at Austin, and will report January 15.

Mrs. Chollar and their daughter will probably join him when housing can be arranged. He was stationed here with the Highway department for a number of years before the war.

NATIONWIDE TELEPHONE STRIKE TOMORROW?

NEW YORK, N. Y. Jan. 10, (AP)—A nationwide disruption of telephone service by tomorrow thru established picket lines around major exchanges threatened today in the wake of a strike of 8,000 telephone installation workers in 44 states.

JANUARY 15, FINAL DATE FOR REPORTING AAA PRACTICES

Farmers that have carried out soil-building practices for payment under the 1945 AAA Program are reminded that January 15, 1946 is the final date for reporting practices, carried out from August 1 to December 31, 1945. This includes small grain (oats, wheat, barley, etc.) seeded on the contour in the fall of 1945.

Dairy feed payments are now being made on October, November and December, 1945 sales receipts for whole milk, cream and butter. February 28, 1946 is the last day sales receipts for this period may be submitted to the county AAA Office for payment.

BANKS OF GATESVILLE HOLD DIRECTORS MEETING

On Tuesday, January 9, the National Bank of Gatesville held its annual directors meeting. The stockholders met and elected the same directors, who in turn elected the same officers.

The Guaranty Bank also having met on January 9, had a meeting of its stockholders, who elected the directors. The meeting was held in Meeks Cafe and chicken dinners were enjoyed by the entire staff.

That evening they elected officers and these new names appear on the employees list: Waldine Swindall, Nathale Simms and Paul J. Ashby.

C. C. Sadler, President, stated that the bank has had the best year in its history.

Behind Your Bonds Lies the Might of America

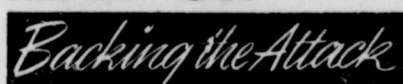

UTAH'S METALS

In reckoning the Nation's wealth from which War Bond holders will be beneficiaries in years to come, most people fail to recognize the importance of Utah as a mineral producer. They will be surprised to learn that the value of Utah's total ore in 1933 exceeded that of all other states. It gave the world gold, silver, copper, lead and zinc worth \$124,348,439. It topped all states for gold output with \$13,361,705 and stood second for copper, \$63,993,000; lead \$9,305,000 and silver \$6,619,392. Its ore deposits have scarcely been touched.

POSSUM FLATS... STARTING THE NEW YEAR RIGHT!

By GRAHAM HUNTER

January 4, 1946.

Dear Friends:
When I left Washington two weeks ago I stated in my letter that I would write no more until the Congress re-convened. It now develops that the Congress will not re-assemble until January 14. Of course, the first several weeks

of any session are always devoted to organization, and it is improbable that any business of importance will be attended to until up in February. In the meantime, I have had an opportunity to accompany a Naval group on a tour of our Pacific outposts, including Tokyo, Shanghai, and Manila, as well as many of the islands of the Pacific. I believe this to be an opportunity that any Representative should take, hence I am leaving Waco Friday afternoon (January 4). I shall join the group and fly from San Francisco January 6th. We expect to be gone three weeks. We should be back in Washington about the last week of this month. In the meantime, Mrs. Poage and all the members of my staff will be in Washington to attend to any matters that come up, so do not hesitate to write me at any time.

While the agriculture committee group of four members of which I am Chairman, are anxious to get all the first hand information we can relative to the possibility of silk and rubber culture, with a view of establishing these industries in the United States (particularly in the South, where we so desperately need new cash crops to take the place of cotton), I think it is even more important that we see first hand the conditions under which our boys are living, and the arrangements that are being made for their return to this country. Every true American must be interested in seeing to it that the boys who won the war are accorded every possible consideration and assistance in getting home. At the same time, we know that our very National safety, as well as our international commitments require the maintenance of substantial forces in many parts of the world. I want to see what our real needs are.

I have received many letters from boys in the Pacific, charging neglect and lack of adequate consideration (particularly denial of the use of existing transportation facilities and the retention of men for whom there is no work). I know of no way whereby Congress can get the facts and really help these boys unless Members are willing to make the trip to personally see the conditions. I know from past experiences that the mere fact that a group of Congressmen come into an area often results in a definite improvement of conditions. We should not keep any man in service simply to enable some officer to hold a high rank. In fact, everybody who is not needed to do a job should be returned home at once. These boys and their parents ask us to help them. I know of no other way whereby we can help them without seeing the conditions. So long as we have not seen them the War and Navy Departments tell us that the conditions do not exist. I want to be able to put my finger on the conditions which should be corrected and be able to speak with the authority of personal knowledge. If we can help relieve only a few of the thousands of "forgotten" men on lonely island

outposts. I will consider our trip worthwhile.

Looking even further, we must all realize that our country has reached a stage where it is the most powerful force in international affairs. Today, Congressmen must not only be able to reflect the views of the people of their district, and be able to present those views in Washington; they must also pass on the problems of all parts of the world. Obviously, it is impossible for Congress to have the same familiarity with the problems of China and of Holland as with the problems of Milam County, Texas, or Cook County, Illinois, but surely the obligation is present to get all the information we can about all the problems with which we must deal. I am, therefore, very glad of this opportunity to get a little first hand information. I know of no substitute for personal observation. I think that just at this particular time we are especially fortunate to be able to go where we can be of service to our soldiers and sailors. At a later date I hope to be able to see more of the agricultural production of other lands but just now our chief concern is the welfare of our boys.

It goes without saying that I have enjoyed my short visit at home. When I get back to Washington I shall resume my weekly news letter. In the meantime, I wish for everyone of you a very Happy and Successful New Year.
Yours sincerely,
"W. R. POAGE"
Congressman, 11th Texas Dist.

The wind made its strongest dip at the Jeff Smart farm breaking off limbs of trees and uprooting large live oaks, took the roof off of a shed, blew large sheets of metal roofing for one half mile and blew a heavy piece of lumber loose from the shed and hurled it into the roof of the family residence.

The family (not the state) is the social and economic unit in the United States. In this respect our country stands almost alone. France went collectivist in the autumn election. England went collectivist last August. Russia has been collectivist since shortly after World War I. Germany and Japan are no longer powers. America is the one powerful stronghold of liberty for the individual.

Old-world politicians glibly predict that Uncle Sam will be next to follow Russia's example, but they don't know America. Income per person here is twice that of any other country. Even before the recent war, industrial wages in America were twice as high as in England; four times as high as in Russia. Our national income was bigger than that of any six other countries — you pick 'em.

A Relative Matter

In its early stages, communism always is perfumed with a savor of freedom — freedom from something. Britain has more liberty than France today; France more than Russia. Even the Russians may feel better in a delirium of paternalism than butchered by repeated revolutions, but that's not saying much. A convalescent can be better than an invalid but still not be envied by a well man.

England used to have free, private enterprise but the government tinkered with it until it was no longer free. Taxes squeezed corporation profits until the owners could not keep their plants modern. As a result, volume could not grow and wages could not rise. The unhappy workers finally gave the nation a staggering swig of Russia's political vodka and elected a state-ownership parliament.

An Invalid Republic

France, the world's habitual battle ground since Caesar, had another problem. Her small business men and farmers (many of them, at least) preferred open competition but the country's capitalists were bankrupt by years of German occupation. To get going after the war, the French submitted to government, the only power with authority to assemble the needed capital and set up credit to do business.

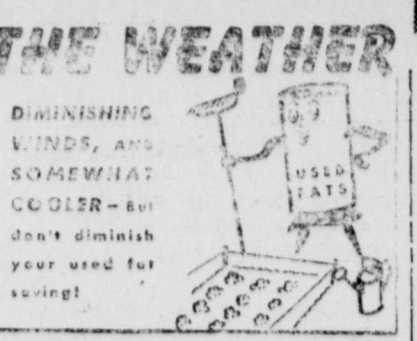

No such difficulties face the American people. Our factories are still financed, can yet keep modern. Our land has harbored no pirate army. This nation has little to fear but cheap labor; not here, of course, but abroad. Collectivism means cheap labor — wages uniform and low. Such countries can imitate American products, make them poorly and sell them cheaply right in America if we permit.

Forget the Tariff

This same set of facts has been presented by people plugging for a high protective tariff but that's only a crutch. The modern, 16-cylinder method for beating cheap-labor competition is to produce, America's skilled workers using America's costly machinery can turn out any manufactured product, in better quality and at a lower cost than is possible in a cheap-labor setup.

There is a collectivist theory that manufacturers will make too much profit for the good of society unless their workers slow down production. It is not true. No friend of Labor will put any obstruction in the way of maximum production because it is the road over which men must march to better wages and higher living standards. It is also this nation's escape from collectivism which brings slavery.

Auction Sale
 E. L. Turner, Mgr.

Rain, was the order of the day Tuesday at the Gatesville Commission Coman's sale west of town on U. S. 84, Highland Addition.

Quality was the watch word for the sale and an unusual fine offering was made, even tho it was raining cats and dogs most of the day.

O. K. Lovejoy brought in a load of cattle that led the bidding with \$14.55 per hundred, a nice bunch of cattle, if we ever saw any.

And, Boone Williamson, another good rancher from out around Pearl, Harmon way, had a nice bunch of stockers that netted \$13.30.

R. L. Woodson's, cattle, all brought near the premium getting him \$14.00 per hundred for his feed, money and trouble.

Irving Kitchen also got the same \$14.00 for his, and showed a good bunch of well-tended to cattle.

Both buyers and sellers were a bit short, but what wouldn't be, with the weaher "as was". It practically took a row boat to get there, and a seaman to land you, after you got there.

Bring'em over to the auction Tuesday's, there'll be someone there that'll take what you got, and pay a nice price for it. Let's all go, and bring something we don't need.
