

Don't claim to KNOW the answers, but, always shooting at something!

This three column cut sticking outside this column is not our answer to Coryell County and Gatesville's problems—it's the sum-substance of a lot of editor's opinions on the hopes, aspirations, and plans for helping their home counties, and towns, as published from time to time in the Publishers' Auxiliary. Their graciousness is the cause of our running this three column cartoon, which we think, is advisable in this section of the country.

Maybe, you don't agree, but what's wrong with "Encouraging civic clubs; Urging adult recreation facilities; Campaigning for playgrounds; Sponsoring shopping events; Campaigning for home ownership; Encouraging 'specialty' retail lines; Seeing opportunities for youth; Sponsoring civic beautification; working for new industries; cementing relations with farmers.

NUMBER 32

Legion Members Invited To District Convention In Clifton April 17-18

Members of the local American Legion Post have received an invitation to attend the District Convention, dance and barbecue of the American Legion next Saturday and Sunday, April 17 and 18, in Clifton.

The Clifton Post has invited members from our city to attend the dance at the new club house Saturday night; accommodations

will be available for those wishing to remain over.

The Sunday program will begin with church services at the College auditorium at 10:30; the barbecue at 11:30, and the convention program starting at 1:00 o'clock. The program will include the dedication of the new club house of the Clifton Legion.

Jack Bankhead was seriously injured by a horse Wednesday morning and is in the local hospital.

Kansas City Wants Simmons' "History Of Coryell County"

Just about, we don't have any! That is, Frank Simmons' "History of Coryell County".

And, every now and then, we get inquiries about the book and folks wanting copies. Want prices in 5s and 10s, and then, they want to know what other books.

One of these fine days, we are going to have to get hold of this historian, or another, and print another "History of Coryell County". The '36 edition is almost "out of print".

Talou Balch and Ruth Franks were heard over a Dallas radio station Saturday morning, when a group of girls from Gatesville high school "did" Dallas Saturday, visiting SMU, Love Field, and many other points of interest.

Mrs. Robert Stout and daughter of San Angelo were visitors in Gatesville over the week end.

Exhibitionists Play All Over County In Baseball Sunday

Up in the northeast, the traditional rivals, Jonesboro-Turnersville match came out with Turnersville 23, Jonesboro 2, the latter composed mostly of young, inexperienced players.

As a late inning at Seattle, the count was 13-3 for the colored White Hall Eagles, a real baseball aggregation when it comes both to baseball and comedy. More than 100 cars were at the game, giving indication of the number of people, and interest.

Coryell City-Goldthwaite had a mid-season game at Coryell City, which with a ninth inning run gave the visitors a 2-1 victory.

At Purmela another Goldthwaite aggregation stopped Purmela 23-13 in what must have been a slugfest.

Gatesville's VFW took a slow game which ended 4-3 for the VFW over Pideoke.

Earlier in the week Hamilton downed the Gatesville Hornets there, 11-10, and Jonesboro high and Flat had one, Jonesboro 10, Flat 3.

In the softer ball, Red's Rambler's dropped another to Moody, Sunday a week ago, 14-1.

Gatesville Hi plays Turnersville this p. m. at 3 at hi school.

The Coryell County Baseball League opens Sunday, 18th, and the managers meet tonight to iron out any difficulties, adopt rules, etc., etc. at the Messenger office at 8.

The schedule is set up, and all it lacks is their approval, and the order, then, will be "Play Ball!"

HOW CAN NEWSPAPERS HELP BUILD THEIR COMMUNITIES?

Of course, we might say we've been doing all this. And, for most items, we have. But, have we CONCENTRATED ALL agencies, clubs, etc., etc., on these objectives?

Now these may apply here, or there may be others that should be included, and, of course any plan is elastic enough to re-work, or add to, but, any plan is not a plan, unless it works, even tho it is an attempt and an attempt is better than nothing.

Let's ALL hit it together

Mrs. Lawrence Jaye visited at the bedside of her mother in Cameron last week. Her mother is very seriously ill.

Mr. and Mrs. D. H. Kramer of Odessa were week end visitors in Gatesville with Mrs. Kramer's parents, Dr. and Mrs. J. C. Ward.

Buster Brown, Too Don't Choose To Run: State Senator

To The Voters of 21st Senatorial District.

After careful consideration, I have decided not to offer as a candidate for re-election as State Senator from this district.

The pressure of my business is such that I cannot afford the sacrifice of my time in making a campaign and in properly serving the interests of this District for another four years, if elected. To fulfill the duties of the office properly required a great deal of time and expense. I do not feel, at this time that I can afford either the time or the expense.

The voters of all County honored me with four terms as Tax Assessor-Collector, and the voters of this district rendered to me a signal honor in electing me their State Senator in 1944.

During my political life, I have

worked hard and diligently to serve my constituents.

I shall ever be grateful for the honors accorded to me and sincerely hope that the people of this county and of the district feel that I discharged my trust in a capable manner.

BUSTER BROWN.

gentine meat—and prove it by eating an average of 25 pounds a month each. Since a lot of the three million inhabitants of the city are children, this means the adults eat more than a pound of meat daily. The U. S. average is only three ounces.

The average consumption of meat is nearly twice the bread average—12 pounds of bread per month compared to 25 pounds of meat. One reason is that the great number of Italians here eat spaghetti instead of bread.

Texans in Washington

By L. T. (TEX) EASLEY
AP Special Washington Service

WASHINGTON, April 10. (AP)—The federal aid to education bill, passed by the Senate and waiting final action in the House, would be a big help in financing of local school systems in Texas.

Out of a general appropriation of \$300,000,000 (M) a year authorized by the measure, starting July 1, Texas would receive approximately \$11.90 per student between the ages of 5 and 17.

An idea of how Texas would fare under the formula: Minnesota would get \$5.10 per student and Mississippi \$28.50. In 25 states there would be a flat allotment of \$5 per pupil.

The measure would NOT interfere with the states in operation of their own school systems. Many southern legislators were worried at first that the bill could not be passed without granting the federal government power in such matters as race segregation. But no such restrictions have been written into it.

Mail from many parts of the country poured into the office of Rep. Bob Poage of Waco commending him for his fight for repeal of the 10-cent a pound tax on colored margarine.

From a California woman, Poage received a letter saying: "My husband was so doggone mad when they shelved your bill to repeal the margarine taxes that he darn near blew his top."

"He came home and kicked the dog and took gack \$10 that he had given me to get a new hat and stockings and then went out and bought 28 pounds of Nucoa. Then he threw all the butter we had out on the floor and jumped all over it and said if he ever found any of the stuff in the house again he would pound me in the face with it."

"He said he felt just like the people did before the Boston Tea Party. That was the first I knew he had ever been to Boston."

The serious mail that comes into congressional offices these days has one dominant theme: Will there be war?

Texas congressmen, of course, do not have a yes or no answer. Rep. John E. Lyle of Corpus Christi expressed his views in the Congressional Record.

He did it in introductory remarks in inserting in the official congressional journal the text of the recent Texas state-wide radio speech of Rep. Lyndon B. Johnson.

"Mr. Speaker, war is not inevitable," said Lyle.

"The opportunities for peace have not been exhausted. Armed conflict is, however, more likely each day the United States delays the implementation of a positive active program of militant opposition to the spread of communism."

He then listed three courses which he believes this country must follow to stop communism: 1. Put the Marshall Plan into effect; 2. Actively participate in strengthening the United Nations; 3. Mobilize and maintain a mili-

MAKE IT YOURSELF CENTER IS BOOMING

PEORIA, Ill. (AP)—If a lady needs a new purse, she can buy it or make it. If a man wants an ash tray, he has the same choice.

The Peoria recreation board runs a center where folks who are handy with their hands can turn out the things they fancy.

Among the products are slippers, wallets, artificial flowers, metal serving trays, plates, cups saucers, tea pots. Some 500 persons participate,

tary strength of operational and combat efficiency sufficient to destroy any nation or groups of nations which war is possible in the foreseeable future.

In another issue of the Congressional Record, Rep. Olin Teague of College Station inserted a letter from the Rev. N. R. Stone, a Corsicana Methodist clergyman.

"There are some great questions, besides politics, that need attention in 1948," wrote the minister.

"When the question of giving is up for any cause whatsoever, the first thing to consider is, are we able, have we got it to give?"

"If this nation is to survive and retain her place among the leading nations of the world as a leader, she must plan a more economical regime. A debt that has been accumulating for 15 years will not be easily liquidated."

Excerpt from news letters sent out by Rep. Wright Patman of Texarkana: "It is my opinion that none of the so-called civil Rights proposals will become law."

"THE NEW TERROR"

By
EUGENE C. PULLIAM
Publishes
The Indianapolis Star and
The Phoenix Republic & Gazette

Note: These articles, this one, and others to follow, were written by Publisher Eugene C. Pulliam of The Indianapolis Star and The Phoenix Republic & Gazette, following a trip over Europe, where he visited every country, except Russia, and says in his foreword: "Only Russia closed her doors to us. But even Russia cannot stop the flow of information. We learned much of Russia because she did close her doors. We learned from her neighbors—those who deal with her daily and showed us whereof they spoke...What we learned, we reported. They are facts—not rumor or guess. They are what we know."

We also quote the "gist" on the front cover of the brochure, which reads: "Soviet aggression poses an even greater danger to world peace than Hitler's ambitions..."

SWEDEN:

Fear of Soviet Grips Western Europe

Stockholm, Sweden—The Russian menace to peace in Europe is far more acute today than was the German threat 10 short years ago.

Politically, western Europe is in the same state of apprehensive turmoil that it was in 1937, but economically it is in far worse shape.

In every country in Western Europe as well as in these Scandinavian countries of the north, the widespread question is, "Will the Americans save us from Russia?"

Already Russia dominates by economic pressure and controls, by sheer force of her own armed troops two-thirds of the wheat-producing lands of the continent. Soviet secret police are organized and effective in all Russian satellite states, and in every country the Communist party is serving as a front for Soviet propaganda dealing in hate and ridicule for Americans.

In not a single country have we

found any formidable support for Russia—only fear of Russia.

There is a strong Communist Party in France, but Frenchmen who voted Communist are not pro-Russian. They fear Russia as much as other people do, but they voted for the Communists because they thought it would help their economic situation. Now they know they were fooled by Communist promises.

The Communists are out of the French government and will not get back in except by a military coup.

But the Russian fifth column is active in France. It also is active in England, Belgium, The Netherlands, Denmark and here in Sweden and Norway.

Everybody fears the Russians. They know they are helpless to defend themselves against Russia unless America comes to their economic aid. Intelligent and informed people fear the collapse of incumbent governments which are striving to placate and appease Russia with diplomatic phrases while looking prayerfully toward the United States for aid that will save them from the menace of Soviet dictatorship.

Stalin's plan for domination of Europe is much farther along than was Hitler's in 1937. In that year, Hitler controlled Germany and Austria and had virtual control of Czecho-Slovakia. But in England, France, Belgium, The Netherlands and in Sweden and Norway there was tremendous industrial production. There also were stable governments that could be organized in opposition to Hitler. Today there is a vastly different picture and it is a tragic one.

The combined strength of western European countries, even if it could be organized in a unit, which is utterly impossible, is not sufficient to check the march of Soviet dictatorship. Lenin laid down the fundamental plank of Soviet expansion when, shortly before his death, he ordered his followers to keep pressing ahead with unflinching determination until the Red flag waved in every land from Moscow to Gibraltar. That is where the Soviets are headed. That is their objective and they will gain it as surely as the sun rises in the east unless the United States moves quickly to restore industrial and agricultural production in Germany.

Russia will win or lose in Europe largely on the turn of events in Germany. If America moves fast enough, the iron curtain will be frozen on its present line. If

we falter or back out entirely, Russia will overrun and control Europe within two years.

In later dispatches, I will give the story of the mounting fear of the mounting fear of Russia as we found it in each country. But everywhere it is the same question, "Will America Save us from the Russians?"

Senator James Taylor Names Locals on Education Committee

Senator James E. Taylor, chairman of the Ilmer-Aikin Committee, has notified these persons of their appointment to membership on the Coryell County Advisory Committee to Study Education. At the time of notification, each member was mailed a copy of the Committee handbook, "Let's Look at Our Local Schools in Texas" as a guide to the countywide study of the public school systems.

These committees are being established in every county in Texas primarily for the purpose of making a careful study of the local schools to ascertain the facts concerning the local schools for the benefit of the local citizens. Through the cooperative study, these facts, together with recommendations, can be transmitted to the Statewide Committee for consideration in making recommendations to the public school system of Texas.

Those named are: Ollie Little, County Superintendent; W. R. Goodson, Copperas Cove; P. T. Lemmons, Jonesboro; O. C. Cook, Evant; and L. C. McKamie, Gatesville; Elementary teachers are Mrs. Ouida Wiggins, Turnersville; Miss Maude Alyce Painter, Gatesville; Housewives: Mrs. H. A. Davidson, Mound; Mrs. D. A.

SAVE USED FATS!

**HELP YOUR COUNTRY...
HELP YOURSELF!**

There is still a very real need for every ounce of used fats we can salvage. The world-wide shortage is greater today than ever before. Please... keep saving and turning in your used kitchen fats. P. S. Yes! you do get paid for them... and you know how ready cash counts today.

Keep Turning in Used Fats!

TEXAS CITY ONE YEAR LATER
Oil pipe lines for loading tankers were back in service within a month after the Texas City disaster, April 16, 1947. Over a million tons of liquid cargo and searain dry cargo ws shipped from the port in February, 1948, an amount only slightly below the overall tonnage figure for March, 1947, the last full month of operation before the disaster. (AP)

W. Lee O'Daniel Tells Cost of Marshall Plan

WASHINGTON, D. C., April 10. (Spl.)—The National Administration's give-away European recovery program will cost Texas

taxpayers \$2,002,323,164.00. These figures have been supplied Senator W. Lee O'Daniel by the Congressional Library in a statement giving the total cost of this program beginning July 1, 1945 (running up to June 30, 1947, and the present proposal commonly called the Marshall Plan.

In the breakdown, the total cost to the taxpayers of Coryell County will be \$6,313,344. For the first two years since the close of World War II, based upon a per capita of \$183.03, the cost is \$3,701,965.00. The cost to taxpayers for the Marshall Plan is \$2,611,379. These figures for the Marshall Plan are based upon a per capita of \$129.11.

Senator O'Daniel caused the Library to work up the costs of the Administration's European Recovery Program so that the exact figures would be available for all who are interested and that they might know what to expect in the way of government taxes in the future. The government tax, it will be seen, far outranks the state, county, and municipal taxes combined.

One-third of the \$17,000,000,000 Marshall Plan donation goes to England at a time when that country is working out a gigantic trade agreement with Russia. Senator O'Daniel says. The papers have been filled with these proposals and the Congress has telegraphic advices that the English-Russian proposal is for England to manufacture and deliver to Russia from the North England Locomotive Works 1000 narrow-gauge locomotives at an estimated cost of \$30,000,000. England is to receive the major portion of 3,100,000 tons of steel.

Other items Russia intends to purchase under this agreement will include \$600,000 worth of scientific laboratory apparatus, 2,400 flat trucks, 2,400 winches, 200 excavators, 54 caterpillar loading cranes, 250 auto timber carriers, 14 tugs and 4 dredges, 1,500 50-kilowatt mobile Diesel electric generators, 24 steam power turbine stations, \$4,000,000 worth of plywood equipment, \$1,500,000 worth of timber-mill equipment, 48 voltage transformers, 10 sets of oil-purifying apparatus and 300 100,000-kilowatt electric motors.

Practically every item in this list of proposed purchases is made of steel of which this country is in serious need and which Senator O'Daniel says is sorely needed to properly equip and maintain a fast moving, hard hitting national defense. Under such an agreement, Russia will pay England for this steel which the taxpayers are giving to England under the proposed Marshall Plan, says the Texas Senator.

Ducks' eggs contain more fat than hen's eggs.

The common oyster annually disperses around 60,000,000 eggs.

DEAF MUTES HAVE FUN AT DANCES

BERLIN—(AP)—One of the loud-

est bands in Berlin plays for dancers who can't hear a note. The Berlin Deaf Mute bi-monthly balls pack a big hall to capacity. For one recent dance 1,000 turned out.

The dancing was preceded by some pantomime skits performed by deaf mute actors. Before the band swung into a number it hoisted a placard designating whether it was waltz, polka or fox trot.

The dancers, some of them children under 10, displayed amazing sense of rhythm. They obtain their rhythmic sensations through vibrations.

Cow Brings Truce To Arabs and Jews

JERUSALEM (AP)—It happened near Jerusalem. A cow which had heard nothing

of partition troubles escaped from its Jewish owner into Arab territory several miles away.

But the mukhtar (village elder) of the Arab hamlet did not believe in war. He phoned to the

TEXAS CITY ONE YEAR LATER

The Monsanto Chemical Co. plant at Texas City, Texas, which suffered damages of \$20,000,000 in the tragic disaster that struck Texas City on April 16, 1947, is still being rebuilt. The company expects to get the plant into operation early this summer. Shortly after the disaster Monsanto purchased 57 acres of land (left side of picture) and began the giant expansion program in conjunction with its rebuilding. All structures behind and to the left of the searain (center) are part

of the expansion program. Area at the right and right background is the old plant. The Grandcamp blew up in the north slip, shown in this view taken from the top of the grain elevator, which was severely damaged and is not now in use. (AP) Photo.

Jewish mukhtar of the cow's native village that he would be prepared to return the cow—but how? Soon ten unarmed Arabs drove the animal into no man's land between the two villages and there it was received by ten equally unarmed Jews. They met and parted with mutual peace greetings of "salam", "shalom."

★ ★ Fashions ★ ★

Few fabrics broadcast a woman's good taste as much as the butcher-lynon suit shown above

Few investments yield such dividends. That far-traveling green plus the neat tailoring that always marks butcher-lynon will make her equally attractive at both ends of a trip. In brown, navy and black. Rayon and cotton. In sizes 8 to 18, 10 to 16; about \$18. An E & K original, Cohama fabric.

In the course of a 70-year life, the average human heart spends 40 years resting.

The facts you need to choose a washer wisely!

BENDIX
(all photographs unretouched)

BEFORE **AFTER**

washing in the Bendix. Each spot represents a germ colony. washing in the Bendix. Germs have been practically eliminated.

MACHINE "C"
(all photographs unretouched)

BEFORE **AFTER**

Compare with Bendix results in top picture.

"HOW THE TESTS WERE MADE"

The soil removal tests were made in accordance with the Test Manual of the American Washer and Ironer Manufacturers' Association, with water temperatures of 160° for the automatic machine and 125° for non-automatic type machines as specified by the Manual.

For the germ removal tests the washing procedure as above was supplemented by a pre-determined rinse procedure established from contact with authorities in the field of home laundering including the manufacturers of the machines used. The Bendix was used in accordance with the manufacturer's published instructions. Staphylococcus aureus bacteria (bacteria commonly used for test purposes) were used to measure efficiency of germ removal. The four washers used, three non-automatic and a Bendix automatic Washer, were purchased in the open market by the Pittsburgh Testing Laboratory.

No general words . . . no vague statistics . . . but actual, unretouched photographs SHOW THE BENDIX METHOD IS MORE THOROUGH!

At last it's possible to know in advance what results to expect from the washer you buy. No more disappointments if you read and heed the results of tests just completed by America's largest independent testing laboratory.

The Bendix outwashed all others tested for both soil and germ removal.

Matched against three leading non-automatic washers in two-way tests of washing thoroughness, the Bendix did a much better job than any of the others, according to reports from the Pittsburgh Testing Laboratory.

In soil removal tests, the Bendix automatic Home Washer removed 23.3% more soil than the "next-best" machine tested.

In germ removal tests, the Bendix did 10 times as good a job as the other washers tested!

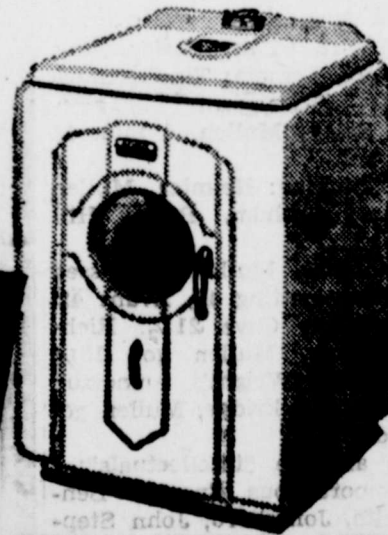

Best way is also thriftiest and easiest!

According to the Pittsburgh Testing Laboratory's report, the do-everything Bendix used 40% less soap than the average of the other washers tested, and averaged 10 gallons less water for a single load of clothes! Get the whole story and see a demonstration at your authorized Bendix Dealer's.
