Heretofore, we've gotten awfully nice letters from Supt. T. H. Jenkins of McGregor High School. This one is, too. He's just that kind of a guy!

There was a "painting episode" in McGregor prior to the McGregor-Gatesville game here. These episodes are usually done by some overzealous "somebodies" that you can hardly put your finger on. Sometimes in school. Sometimes, out of school.

A bus load of students were sent, we are told, by Superintendent L. C. McKamie, to apologize for the stunt, a disgraceful way to "celebrate". Of course, the apology was accepted in good faith. Mr. McKamie, they say, too, dug out of his own pocket and paid for having the mess cleaned up.

Now, all this is UNNECESSARY, and VERY UNSPORTING, everyone will readily admit.

We're not by ourselves in not wanting this to happen, either from this end, or the McGregor end. It's simply very bad business.

McGregor and Gatesville do, and always have, rivalry, but, in the main, it's carried on with, as Mr. Jenkins says: "maintained on a high plane" and he says, "If you and I and the other good people who like this maintained, can do something about the painting up of school property the night before games, let us do it."

The day before he'd outlined the sportsmanship which has always prevailed at the Gatesville-McGregor football game, and said: "it has fallen flat this morning with the discovery that some 'visitors' have painted on our school building entrance with box-car-size lettering".

What can be done to stop this sort of stuff, we don't know, unless everybody makes themselves a "committee-of-one" to see that it don't happen, and if it should, certainly to turn in the culprits and not be easy with the punishment.

It's a plain danged, dirty shame!

X-Rays For Coryell Residents To Be Given December 7 thru 11

For four days in December, you can have your chest x-rayed for tuberculosis, free of charge in Gatesville, if you live in Coryell County.

At the request of Coryell County Medical Society, the Texas State Health Department workers will move their mobile X-ray unit on those dates.

Phillip W. Guass, Health Department official, visited Gatesville last week and announced plans for the service, and said many persons say have TB and not know it, as symptoms are practically nil in the early stages of the disease, and yet, a person with open TB usually infects four.

Byron Leaird McClellan was named general chairman of the project for Coryell County and will direct an intensive publicity campaign for the survey.

* "a small American mammal, usually black with white markings, which gives forth a liquid of very offensive odor when frightened or attacked" —WEBSTER.

One of them things visited Headquarters tent of Central Texas Fox Hunters Association, Wednesday afternoon. It happened like this!

Ambling down the East Range Road minding its own business — hunger — probably, this mammal saw a man on a horse approaching on the side of the road opposite the tent. This man and his horse also looking for a little fun, gradually edged the mammal across the road.

Nothing else around except a bunch of Fox Hunters, and with all the dawgs tied, the mammal spied the tent. G. I. cans were there, maybe with enough left-over eats, or the scent—to attract him, so, he went into the tent.

President Tom Freeman, Publisher DuBose of Mexia, City Secretary, and Secretary of the CTFHA, Eiland Lovejoy and one Bob Saunders were there.

There was an immediate calm. A deadly one. One which was even more chilled by the "left-over" odors of the mammal. There was some talk of a gun. Some of loosing a dog. But, with three full days of the CTFHA to go, a new tent would have to be erected, and many people would have to change clothes, and the entire equipment in that tent would have had to have been aired for days and days.

So, as the utter quiet of the big woods remained even in the tent, where tall tales were being told, the mammal finally decided there was nothing in the tent to appease his hunger, and took off for happier hunting grounds.

CTFHA business, was then, and then only, resumed! There was no damage. Nice kitty!

University of Washington Again Quizzes The News About Semi-Weeklies

Sometime ago the News filled out a lengthy questionnaire about the operation of semi-weekly newspapers, which with others, was used as the basis of a "Semi-Weekly Survey" in "The National Publisher" newspaper trade magazine.

Vernon R. Frost, Director, Management and Advertising Division University of Washington, School of Journalism, Seattle 5, Wash., writes in part:

"Since the Semi-weekly Survey appeared in 'The National Publisher' last spring, the twice-a-week has come in for more recognition than ever before. Quite a few of the larger weeklies have changed over, and many agency people have become aware of the trend in publication in 'the larger small towns' of the nation".

Most of the information in this query was relating to "town circulation" and how it was handled, by boys, or who. The "who" in this case, is our own little carrier boy, Mat Jones, who's been doing it for about 8 years, or, since World War II started.

McGregor School Building Whitewashed: Guilty Persons Sought

By Hammil
Who dunnit? Somebody made a special trip to McGregor last Thursday night and painted the McGregor school building Supt. L. C. McKamie of Gatesville, called a special meeting of the GHS students to determine what to do about the situation. It was decided to send a group of students consisting of a few football boys, some student council members and various other students to McGregor to apologize for the act and to restore the good feelings between the two schools.

Mr. McKamie paid for having paint removed from the building. He didn't pay for it out of the school funds, but out of his own pocket. He hopes that this will help make the McGregor citizens have a higher opinion of GHS.

INDEX OF TEXAS BUSINESS
The level of business activity in

Texas business showed little change in September over August the University of Texas Bureau of Business Research reported. The Bureau's composite index of business activity declined less than 1 per cent from the post-war peak of 233 reached in August (1935-'39=100). The drop in the components: department and apparel store sales, 6 per cent and pay rolls, 5 per cent. The remaining

four components registered increases: electric power consumption, 5 per cent; crude oil runs to stills and miscellaneous freight car loadings, 2 per cent; and employment rose fractionally. In comparison with September, 1947, the composite index for September was up 14 per cent, with all of the components higher than in the previous year. (AP) Photo Chart.

The Bees played their last game of the season last Wednesday when they played the State Boys at the local field. The game ended all tied up 13-13. The Bees would have scored more likely if there had been more time as they were on the 4 yd line when the game ended.

The Bees can rest easy until next year when they will be filling some talented shoes.

Basketball has started rolling. The girls played a few games already. They played Friday nite and lost to the Turnersville girls.

Both games were as tight as a hat band. The A and B girls both put up a terrific struggle before finally bowing by a score of 15-12 and 22-20. Lingefeldt, in my estimation is the most talented player on the Gatesville team.

She was high point girl with 13 points in the game with Turnersville.

Nottingham was held out of the game due to ailment of a knee, but she will be able to play in future games.

Don't know when the boys will start basketball, but they will have a good team; although they have just one starter back.

AUSTIN, Texas, November 20.—While the Taft-Hartley labor law has become one of the most important issues to come before the 81st Congress as a result of President Truman's election, most Texas voters don't know enough about the law to state its general purpose.

In a statewide survey of 1,500 eligible voters, The Texas Poll finds only 46 per cent know that the general purpose of the Taft-Hartley law is to regulate labor unions. The weight of opinion among these informed voters is against relaxing the law.

Soil Conservation Summary

1948 is fast coming to a close. A summary of services rendered by the Coryell County Tripple A office is an indication of how much interest farmers are taking in soil conservation.

720 farms participated in the program in 1948, in 1947, 709 farms participated. This was a gain of eleven farms.

During 1948, 95,760 acres of cropland was owned by the 720 participating farmers. There are 200,000 acres of cropland in Coryell county and around 2,200 farmers. Thus over half the farmers were not participating in 1948 and over half the cropland was out of the program.

The addition of superphosphate as a fertilizer in connection with the growing of legumes is becoming a standard practice. In 1947, 350 tons of superphosphate was purchased through the AAA and in 1948, 1042 tons (nearly twice as much) was purchased. In 1947, 6773 acres were seeded to winter legumes and 5782 acres to summer legumes. In 1948, 8284 were seeded to winter legumes with a smaller acreage 2734 acres to summer legumes. Of course the summer drought discouraged summer legumes in 1948.

Vetch and a grain crop are becoming a popular mixture. Vetch seed bring a high price. One farmer reports \$108 per acre from the sale of his vetch. Austrian Winter Peas with suitable season and sufficient time to mature have made a wonderful soil building crop. Hubam clover seeded about March 1st, with small grain furnishes grazing on stubble fields and enriches the soil.

Interest in Terraces

Looking further at the summary we see that 160 miles of terraces were constructed in 1948, and that 119 miles were built in 1947.

The Trend

The object in bringing out the comparison of what was done in 1947 and 1948 is to show that the farmers are becoming conscious to the need for terraces, drainage ditches, phosphate and legumes. When a farmer turns under Austrian Winter Peas on five acres

and follows by making five bales of cotton—one for each acre—it is time to stop and listen. Yes, sir, farmers are using good equipment, good seed, well prepared soil as far as planing is concerned and many are giving much thought to the increased fertility needed.

SAFETY SPEED SIGNS ON HIGHWAY CURVES

A new type of highway sign, an advisory speed sign designed to aid traffic safety, will soon make its appearance on Texas main highways. Part of the Texas Highway Department's program of speed zoning, the new sign will advise motorists of the maximum safe and comfortable speed on curves and turns which are not considered safe to travel at speeds

above 50mph. It will be a sign with a yellow background and black numerals and letters.

The speed indicated on the sign is not the maximum at which a turn may be taken, but is the maximum at which the average car can take the turn without any uncomfortable side-throw of its passengers and still stay on its side of the road.

The speed indicated is calculated by the use of a Ball-Bank indi-

cator, an aircraft device which measures the degree of force in any turn. Highway Department test drivers will try each turn at increasing speeds until the maximum is determined.

The Governor's Highway Safety Conference held this spring recommended that the Texas Department institute a program of speed zoning and marking curves with safe speeds, and the new signs are a result of that recommendation.

This Week in History

NOVEMBER 21 TO NOVEMBER 27

328 years ago this week, on November 21, 1620, a group of 41 men aboard the ship Mayflower in Cape Cod Harbor, signed their names, to the Mayflower Compact, forerunner of the great documents of freedom and law that were to follow in later years. The signers agreed "solemnly and mutually in the presence of God and one another to form a body politic and to frame such laws as they might need, to which they promised all due submission and obedience". These courageous men were Pilgrims who had sailed from England, more than 100 days before, to seek religious freedom in the New World.

TRULY A CLASSIC! HORNETS KEEP TROPHY, WIN 21--6

A FIGHTING BULLDOG GOES DOWN: BOTH CLUBS SPENT AT GAME FINAL

Nothing was the matter with District 19-A's 1948 Classic—the Gatesville-McGregor annual clash. McGregor's Bulldogs tore in with a fury that in the opening moments of the game, looked like it was "to wet to plow" for the Hornets, who, as has been recently, started slowly, but, in games that mean as much as this annual clash it is only natural to start slowly. They were, no doubt, seeing what they had to do, before exposing anything. They found out. In the first five minutes of the game, McGregor scored 6, but failed to get the extra by the pass route.

Here's how it happened: Harding for McGregor kicked to Davidson on the kickoff to the 5, he hands to Roberts on the 25, and he fumbles, Riley recovering for the Bulldogs.

Harding makes 9, they measure, but it's 10 and enough for a 1st D. Dickie stopped him. This chart shows the amount of liquified petroleum gas average Texas domestic consumers use each month of the year. Consumption in December will be almost twice November's, if the past two year's patterns are followed. Adequate storage has been advocated to spread out the winter demand on available supply.

Sport Scraps

Here are the Thanksgiving day predictions by Mun' and Frank Eck, Associated Press Sports writers, and, being Thanksgiving, and after, es entitled: "Just our Meat".

Denver to beat Wyoming; Utah to rout Utah sta.; Mo. to nip Kans.; Brown to trim Colgate; Texas to crush Aggies; Wake Forrest over South Carolina.

And, for the following Saturday: Army to submerge Navy; Holy Cross to nip Boston College; Maryland to beat W. Va.; NYU to edge Fordham; Mich. Sta. to crush Santa Clara; Penn Sta. to trim Wasa. Sta.; Villanova to edge N. C. Sta.; Notre Dame to trim Wash.; Detroit to nip Tulsa; Okla. to route Okla. Aggies; Ga. to edge Ga. Tech.; Clemson to nip Auburn; Miss. Sta. to nip Miss.; Ore. Sta. over Nebr.; Wm. and Mary to nip Arkansas; Tenn. to take Vandy; N. C. to crush Va.; VMI to wallop VPI; Ala. to rout Fla.; Tulane to crush LSU; SMU to beat TCU; Baylor to edge Rice.

Season: 168 right; 62 wrong; 6 ties. Percent .730.

And Humble says of these, of course, Texas-A&M over practically any station Thanksgiving Day, and for Saturday, at 1:50 SMU-TCU over WBAP-570, and at 2:20 p. m. Rice-Baylor, WFAA 820.

Coach Lloyd Mitchell and his 1948 football team have done a remarkable job this fall, losing only one game, and that the La Vega game, which went 19-20. They only had a letdown, which is very, very unusual, when they tied Hamilton Bulldogs 13-13, and finished in a blaze of glory when they stopped a very potent club, McGregor Bulldogs, as you already know. A grand season, we'd say

Here are some results: La Vega 47, Mart 13; Dublin 20, Hamilton 12.

In the SWC: Baylor 6, SMU 13; Rice 21, TCU 7; Ark. 55, Tulsa 18; Others, Mich. 13, Ohio Sta. 3; Okla. 60, Kans. 7; N. Car. 20, Duke 0; Pitt 7, Penn State 0; LSU 26, Ala. 6; Northwestern 20, Ill. 7.

GSSB Inmates Flee At Grid Game Thursday Night At De Leon

Three boys on the GSSB football squad made a broken field run around their guards and sprinted to freedom before their game started Thursday night.

They were to play a game with Comyn, and while the Gatesville squad was limbering up under watch of their guards in the gym before the game, the three boys slipped into the shower, climbed out the window, and haven't been seen since.

Sgt. Charles Campbell, formerly of Lackland AAF, San Antonio, was here for the McGregor-Gatesville game, and leaves this week for Roswell Army Air Field at
