Harold V. Mr. Ratliff, we understand, was secured by Superintendent L. C. McKamie, who is a close personal friend of Mr. Ratliff's.

Ratliff, besides being a "sports writer" of superlative note, has also turned writer, the "bound" kind, and has written a book, illustrated by that illustrious illustrator of the Dallas Morning News, Bill McClannahan, and the book is entitled: "I Shook The Hand..." which is a resume of his 25 years of reporting the feats and color of the athletic treats who have touched him indelibly, and included are stories about Nelson, Baugh, Dizzy Dean, Willard, Satchel Paige, Hogan, Jesse Owens, Amos Alonzo Stagg, Dana Bible, Diedrickson, Strangler Lewis, Francis Schmidt, Dempsey, Defaret, and even Jinx Tucker.—That's what his "brochure" says, but haven't had the -2.75, so we haven't bought, yet! ### THANKSGIVING!

The "giving's alright, but the "thanks" par'ts what we neglect!

Don't care what you think about this country, if the elections suited you or not, still the best danged spot on earth.

Not many places where you can; go to church if you want to, and to the church you want to; say anything you like that you're big enough; go to a football game, dance, or anywhere, and just whoop and holler, or just sit tight and watch the scene unfold. Boy, is THAT great—

Yep, we ought to put the THANKS in THANKSGIVING! And mean it! Nobody here tellin' you you can't do nothin' Been in countries where if you went to the next town you had to register with the police, post office department, and even had to get a "passport" to get in another state of the same country.

Now, we have Dixiecrats, Democrats, Republicans, Prohibitionist, Socialists, Communists, Wallaceites, etc., etc., and we can scream and holler for this'n or that'n and have our likes and dislikes, but when it's all boiled down, the end-point is AMERICANISM, and all caps.

We don't look to Rome or Moscow, and even tho the trend is to look to Washington, you can look or not. You have the privilege of being a "believer" or not, and regardless, you won't get rubbed out.

This is USA, this Turkey-eating USA is a pretty danged good outfit, and for one moment, today, THANKSGIVING, when you're doin' "as is, where is" stop and be THANKFUL, and, vow to keep it, this way!

### Do You Envy Profits?

All the talk about profits and profiteers has put a lot of us on the wrong track. There has been so much of this misleading talk during the past decade that some of our youngsters are beginning to think there is something immoral about making a profit at all. Some of them take it so seriously that they think the profit system should be junked in America.

On the contrary, I am convinced that the profit system is the very sparkplug of our economy. I have given this subject a lot of study. However, it isn't very difficult to see that workers are in for trouble if they are employed by a business that doesn't make a profit. More than this, I think profits are too small for the good of workers and the good of the American public.

Some people seem to think that if no profits were made at all, the workers would get more wages. This cannot be. My belief is that the part of the sales dollar called profit actually helps the workers more than it helps anyone else. More than that, I believe it can be proved that the part of the sales dollar called profits actually helps labor more than does the part of the sales dollar called wages.

Consider an example. Fifty years ago it required 8 hours' work for one man to shape the top of a gasoline tank for an automobile. He was paid less than \$1 for the job, which he did by hand. Finally, the automobile idea caught on, and vehicles sold. From profits, the companies have continually built up better and better plants. Tools are good and efficient. Working conditions are always being improved. Profits have brought all these things.

Nowadays, an auto worker shapes the top of a gasoline tank in one minute, instead of eight hours. He is happy to work in a clean and sanitary plant. He uses modern tools that are productive and efficient. Most of the back-breaking labor is done by electricity or other power. Even after the cost of keeping up the plant and its modern tools, the modern auto worker earns \$10 a day instead of the \$1 a day of fifty years ago.

Was it wages that enabled the worker to increase his pay ten-fold? Just asking for higher wages didn't mean that they were forthcoming. There was more to it than that. It was profits that built the improved plant and bought the improved tools. Had no profits been made the workers would still be working for \$1 a day, or less. This is not difficult reasoning, but it shows what profits are worth to the workers.

Everybody Profits  
What about the public? If the modern automobile like the Ford or Chevrolet had to be made by hand, it would cost \$50,000 to make at present wages. Yet, with modern tools such a car is made and sold for less than \$2,000. That is what profits have done for the public. Today it is possible to buy an automobile for 4 per cent of what it would cost if no profits had been available for better plants and tools.

This money for modern plants and efficient tools can come from only two places: from profits, or from loans. But the business that is not making profits cannot borrow for long. In reality, then, this money must come from profits. Better plants and tools couldn't be had without profits. If we stop profits we stop increases in wages and we stop the march of production toward lower prices. That way, we injure both workers and the public.

## KITCHEN MEMO

BY JEAN CLARKE

Any new way of cooking meat loaf is always a welcome addition to the recipe file. Broiled Meat Loaf uses only six ingredients and can be popped under the broiler flame for quick cooking. Mix together 1 lb. hamburger, 1/2 cup bread crumbs, 1 egg, 1 tbsp. grated onion, 1/2 cup tomato soup, 1 tsp. salt, pepper. Shape into two firm loaves and place on broiler grid. If you broil with the thermostat wide open, the loaves should be at least 3" from the flame and broiled about 12 mins. on the first side, 10 mins. on the second side. If you set the thermostat at 350°, place meat 2" from flame and broil 15 mins. on each side, which cooks it to well done.

If there's not quite enough batter to fill all the cups in muffin tins, pour water into the empties before placing in the oven to prevent burning of empty cups.

Any cooking food creates smoke and vapor of varying degrees. Many modern gas ranges take care of this problem with "smokeless" broilers which means, literally, that smoke rising from cooking food is consumed by the broiler flame.

Crackers spread with peanut butter and broiled until bubbly make excellent appetizers.

In 1859, reported *The American Gazette*, one hundred families used gas for cooking. Today two out of three of the 38,000,000 families in this country cook with gas.

Leftover bread crusts cut into small bits, browned with butter or margarine in oven or frying pan, make economical croutons for soups.

## District 19-A Coaches Send NEWS Their All-Conference Selections: Here's Composite

This is the "All-Something" Season, and, so we've asked the Coaches of District 19-A to pick their selections for the All-Conference Team of 1948. Here is what they say:

Ends: Kramer of West and Taylor of Itasca are certainly the ends. They got 5 votes each. Devorsky, La Vega and Allison must make the second team. Devorsky got 3 votes and Allison, 1.

Tackles: There were a great divergence of opinion here. White, of McGregor, is the leader with 5 votes, so he's certainly on. Davis of Itasca, and Charles Walker of Gatesville, got 2 each, so, being from Gatesville, and having the coaches vote, we naturally pick Charles Walker, as the 2nd man on the All-Conference club for Tackle.

Goode, La Vega; Alfie, Clifton; Cryar, La Vega; Miller, Mart; and Brookshire, Gatesville, all got one vote. So, we're going to put on our second, Alfie of Clifton and Brookshire of Gatesville. You can put who you like.

Guards: Tops, is Griffith, La Vega, coaches say, with 6 votes.

Collins, Gatesville, is the other member of the first string, with 3.

Surely Deiterman, West, gets a cinch on one position on the "2d" as he got 2 votes, and there are three 1 vote ties for the other place, Jesse, Itasca; Meeks, Gatesville and Williams of McGregor. We take the authority of putting Meeks on this 2nd All-Conference.

Center: January, La Vega walked away, getting 4, Franks of Gatesville, 1, Podsednik, West 1, Eskridge, Mart 1. Poor little Mart ought to get one on, but, for homefolks, we're putting Franks (due to the tie) on this 2nd club.

Backs: (need four of them for each team) This is the way the coaches voted: Harding of McGregor got 7, Brooks of La Vega 6, Davidson of Gatesville 5, Bryant of La Vega 4, So that's the 1st string.

Heading the 2nd is Daniels with 3 and then you can add three others that got one each, Painter, Gatesville; Johnson of La Vega, and Pustovsky of West.

So, reviewing, here's the first District 19-A All-Conference Club of 1948.

### OBSERVE TRAFFIC SIGNS

A view like the one pictured will soon confront Texas motorists. The new type of highway sign will serve to warn of the maximum safe and comfortable speed for curves and turns.

These signs are part of a new program of advisory speed zoning by the Texas Highway Department and represent a step recommended by the Governor's High-

way Safety Conference.

Motorists who utilize the speed advised on these signs will find that there is no side-throw in their cars at this speed.

The speed indicated on the sign was determined by a scientific study of each individual curve and turn, and will vary because of the different elements such as degree of turn and the amount of bank on each separate curve.

## THANKSGIVING

A Whole Lot In Those Words!  
A Whole Lot To Be THANKFUL For On Any THANKSGIVING

ONE Thing, that you have your 'selection' of places to BUY YOUR GROCERIES like MURRAY'S, and are not 'told' where to go. 'told' where to buy, 'told' what to buy.

YOU do that yourself. We don't try to 'tell', we just 'ask' you to trade with—
