Lid Off For Farmers In 1949 For Soil Building Practices

In this weeks Coryell County ACA Committee meeting the "lid was taken off" farm limits for carrying out soil building practices under the 1949 program to all Coryell County farmers.

All farm limits have been raised in order that the farmer might have a better opportunity to carry out practices such as applying superphosphate to winter legumes and constructing terraces and ditches. In addition to these practices, the building of tanks, wells, establishing or improving permanent pastures by planting pasture grass seed, and the sodding of permanent pastures have also been added to the list of practices for 1949. All or any of these practices mentioned above should be completed by December 15, 1949, as all funds for the year must be accounted for at the end of the year.

The lifting of this limit was due to an additional amount of money received for this county and also that the farmers have not been using up the money which was set aside for the purchase of superphosphate.

The County Committee felt it would be more profitable to the farmers in Coryell County if the limits were lifted and the funds for the county used to a good advantage. It is urgent to remember though that all superphosphate and winter legumes should be purchased before November 15, 1949, and should be in the ground by December 10, 1949. If you anticipate carrying out any of the above mentioned practices, now is a good time to do so since the farmer will only have to pay approximately 40% of the cost.

First come, first served, until all funds have been exhausted.

Louise Colgin Named Assistant Leader For Tumble, At U. of T.

Miss Roberta Louise Colgin of Gatesville has been elected assistant leader of Tumble, Women's Tumbling Club, at the University of Texas.

Tumble is one of 10 member clubs of the University of Texas Sports Association which is sponsored by the Department of Physical Training for Women.

Miss Colgin, daughter of Mr. and Mrs. John R. Colgin, Sr., of Gatesville, is a senior majoring in physical education, and is a member of the Physical Education Majors Club, Campus League of Women Voters, Wesley foundation, student Methodist group, and Cap and Gown, senior women's organization.

W. E. Schmitt, Borden Man Is Lion Speaker: Also, All Over County

W. E. Schmitt, Southwestern Representative, The Borden Co., of Nashville, Tennessee, has been the "speaker of the week" in all the communities of Coryell County and at the Gatesville Lions Club Wednesday noon.

Mr. Schmitt, whose company assisted in putting on a "Dairy Production Week" in Coryell Co., has just about told everyone that could be interested, that grass was the greatest factory for Coryell county, without hurting or depleting any other crops.

From grass to cow to milk to market to money, is the story and Mr Schmitt has laid it all out, and stated there is nothing better than proper grass management, which ends up in folding money, and seven days a week.

There's work connected with it, and a lot of brains—and in his opinion—more brains than it takes to run Gatesville business, and he might be right about that.

Mr. Schmitt furthers the idea that farming is a \$ and cents business, and takes careful management, a lot of work above the neck and plenty of know-how, with super ample quantities of common old sweat woven in the picture.

But, in spite of all these, he reiterates, that farming is a great business, and THE industrial program for a community like Coryell county.

He spoke Monday at Evant, Tuesday in the District Court room in Gatesville, Wednesday at Turnersville, and Thursday at the Grove, and tonight, he goes to Pearl.

Mr. Schmitt and the Borden Company are endeavoring to instill the yen for dairy production into the people of Coryell county, for everybody's benefit.

DISTRICT NOTES FROM SCS OFFICE

J. H. Lowery, a cooperater of the Mound Group, was looking for a fertilizer drill last Saturday to put in vetch and rye.

Mr. Lowery is planting 18 acres on deep sandy land and will use it entirely as a soil-improving crop. He intends to follow the vetch and rye next year with peanuts.

Earl Summerford, a cooperater of the Purnela Group has approximately 20 acres of winter peas planted and up. The rain during the past week should make them really grow the next month.

All farmers of the district should get their peas and vetch planted during the next two weeks if at all possible. They should inoculate the seed and put at least 200 pounds of 20% superphosphate per acre or 100 pounds of 45% phosphate per acre with all legumes.

The conservation practice of terracing is still moving along rapidly. Terraces were profiled out on the following cooperators farms during the past week: Travis Latham, 2.7 miles; Boyd Cheatham, 1.7 miles; R. A. Schultz, 3 miles; Jake Smith, 1.8 miles; Wm. E. Green, approximately 1.2 miles.

Terrace lines were run on the following cooperators farms by the

Technicians of the Soil Conservation Service: James Yows, 2 miles; Leon Reese, 2.5 miles; Herman Foust, 1.5 miles; Joe Hanna, 2690 lineal feet of diversion terrace; Jeff Buckner, 1.5 miles of terrace.

Joe Snider, a cooperater of the district, has gotten his fertilizer and peas. These peas will be planted as soon as the weather permits and will be used as a soil improving crop. Mr. Snider planted winter peas last year and was well satisfied with the results he received.

Lee Ortego, a cooperater of the district program, and whose farm is northwest of Gatesville, has had the Technicians of the Soil Conservation Service run 3.5 mi. of terrace lines. These terraces will be the large channel type and will be constructed by County Commissioner Carroll in the near future.

Archie Necessary and Harmon White, cooperators of the Arnett Group, have both gotten around 200 sacks of superphosphate. This will be used on soil-improving crops. Mr. Necessary said, "He intends to put in approximately 75 to 80 acres of vetch." Other cooperators of the group will be planting peas and vetch as soon as the weather permits

Hallowe'en Carnival At Ames-Hay Valley

During the regular meeting of the Home Demonstration Club on Friday, the 21st, the table for the Educational Exhibit at the Better Baking Contest was planned and constructed after a short business session.

Mrs. Sam Powell, Sr. who is the Mother of our Council Delegate, Mrs. James Yows, was elected to provide the flower arrangement as she is a capable member of the Garden Club in Gatesville.

Our table is to use "What We Accomplish and Learned During October" for the theme, consequently fall colors will dominate in the decorations with "Closet Accessories" and "Storage of Clothing" providing the articles theme.

On Friday the 28th at 8 p. m. at the Community Center there will be a short Movie and Hallowe'en Carnival, so broadcast this information to your friends and neighbors. Games suited to the individual desires will also be available. You will enjoy it, so bring your whole family and have fun with your neighbors.

BY BILL DAVIS

This past week has been Dairy Production Week. W. E. Schmidt of the Borden Company, has been selling the advantages of dairying to people all over the county. But two-thirds of his talk was on successful farming. Agricultural leaders would nod their heads and smile knowingly when he would hit the nail on the head and thru illustrations sew up an air-tight argument for good farming.

According to Schmidt, every farm is an industrial plant where the whistle never blows; the farm is a food and feed crop manufacturing plant; it is best to sell the feed crops through animal machines (that must be kept in repair); pasture is the greatest crop of all; and, dairying offers more security than any other phase of farming. He also emphasized that the successful farmer stays on his place and works hard all year long like any successful business man.

Why am I intensely interested in all this? Because ninety percent, if not more, of Gatesville's income comes from the farm. When Coryell County's farmers are prosperous, the business people of Gatesville are prosperous.

ABOUT TOWN...The Sherrill Kendrick's will move to the Rio Grande Valley. Sherrill will sell insurance there and keep his business here. Leaird's Department Store and the Cozy Cafe are proud

of their new neon signs...the new Meeks' Cafe will furnish Gatesville a much needed private dining room...

This Week's PERSONALITY is Eugene T. Mayes Jr., manager of Mayes' Radio and Maytag Co. E. T. was born and reared in Gatesville. Graduated from Gatesville High School, Class of '36. Took radio service correspondence course while in high school. Served an apprenticeship under Cecil E. Wallace who was employed with Mayes' Radio and Maytag Company. Accepted Civil Service Radio Mechanic job in '42. In November, 1944 was employed as Foreman of the 314 Sub Depot of Signal Shop of the Waco Army Air Field. In 1944 came back to Gatesville...is a member of the C-C Live Wire Club and of Gatesville Masonic Lodge. Believes Gatesville's foremost need is "a payroll that will employ at least two hundred employees"...hobby is hunting and fishing...wife's name is Florene, has one daughter—Carolyn Kay.

IF Gatesville were an industrial center with plentiful transportation facilities, I would say "Let's concentrate on the problems of Management and Labor, Etc."

Here's what the Gatesville C-C can do to further our agricultural set-up: (1) Continuously work for better markets in Gatesville; (2) Promote an annual County Fair; (3) Work out a program where better livestock can be brought into the County; (4) Continue to sponsor shows where a farmer is recognized for his quality product; (5) Become familiar with those farming and lend our assistance to agricultural leaders whose endeavors are toward that end; (6)

Consult with agricultural agencies and farm leaders for the purpose of working out our own long range farm program so every one will understand what we are doing.

Miss Elizabeth Adams of Killen and Mrs. J. A. Johnson and son, her cousin, of Los Angeles, California, were Thursday morning visitors in Gatesville.

Miss Rose Ella McCoy of Baylor was a Sunday visitor in the home of her parents, Mr. and Mrs. B. E. McCoy.

Rev. and Mrs. C. A. Morton left Thursday for El Paso to attend the State Baptist Convention, which will be held the first of the coming week.

Mrs. Ben Adams and son of Rogers were visitors with Mr.

How Much Government?
It's 2,272 miles from New York to Salt Lake City, Utah. Yet, if all the civilian employees in the executive branch of our federal government were six feet tall (they're not), and you placed them head to toe on U. S. Highway 30, they'd reach the distance easily with 1.4 miles to spare. This comparison is conservative. It was based on an estimate of 2 million government workers in the executive branch alone.

Perhaps nobody can ever know just how many there are. During the first four months of this year, they increased at a rate of more than 450 a day. Use another comparison. There is one executive worker in the federal government for every 21 income taxpayers. In other words, these 21 taxpayers are paying the salary of the 22nd man. And that's just in the executive arm of the federal government.

Paying the Piper
Each and every American citizen must not fail to be interested in this problem of mushrooming government. As long as we fool ourselves into the habit of asking for more government, we'll see more and more added to the payrolls and we'll pay higher and higher taxes. We need to decide how much government we want. Certainly the more of it we set up the more we have to pay for. At the rate we have been going in the last decade, most of us will be working for the government in a few years.

That would be one of the simplest ways to take the country into socialism. Let most of us be drawing paychecks from the government, in salaries and various benefits, and we would have socialism right here without voting for it. What we need constantly to remember is that the government has not a cent to spend except what it collects from you and me and from our neighbors.

It's Up to Congress
Our next Congress will have a real test, and a real opportunity. Last year, the 80th Congress provided this historic opportunity by establishing a commission to study the reorganization of the executive side of our government. Membership of the Commission includes some of our most public spirited citizens. These experts are giving the structure and functions of many a government agency a thorough going over. They are also studying expenditures, with the idea of proposing changes that will bring both economy and efficiency.

Must Say: "No!"
The 81st Congress will have the job of acting upon whatever recommendations the Commission may present. It is not an easy task. Any executive finds it hard to lop off an office here, and an office there. When the government starts a service, it is hard to find a stopping place. Moreover, each and every department will fight to the finish for increased personnel and more money.

May the coming Congress find enough gizzard and grittle to stand up and say no. We must end waste and extravagance in government. When nearly thirty cents out of every dollar you earn goes directly or indirectly toward support of federal government, that is too much. We cannot continue to be the strong and financially stable nation we must be, unless something is done to curtail the spread of government.

Had RHEUMATISM So BAD That He Had To Quit Working

Mr. Jerry Watkins, chief of detectives of the city of Hot Springs, Arkansas, suffered with rheumatism so much and the aches and pains were so terrible that he had to quit working in an effort to regain his health after he had tried everything which his friends recommended.

Detective Watkins is well known and his countless number of friends throughout the country will rejoice to know that he is now healthy, free of rheumatic aches and pains and now working hard.

Mr. Jerry Watkins

"For several years," Mr. Watkins says, "I suffered from a rheumatic condition in the hip and leg. I was very nervous and finally developed migraine headaches. I tried all kinds of medicines but nothing seemed to do me any good. I seemed to be growing worse and worse and was finally advised to take a leave of absence from my work on the police force in an effort to recover my health."

"The pains in my head sometimes were unbearable. I suffered tortures and I was miserable. At night particularly I lay awake and could not sleep."

Mr. Watkins said that someone finally persuaded him to try HADACOL, and after taking the first bottle he said he could see an improvement in his general condition.

"On January 14th of this year," he said, "I felt so much better I decided to go back on the job. The examining doctor told me I was in perfect health. Now I am

working from 8 to 12 hours daily and I am able to sleep as any normal person. I have taken six large size bottles of HADACOL and all my friends know I owe my good health to HADACOL."

Mr. Watkins is one of the many thousands of people who suffered from a deficiency of the B vitamins and the minerals that HADACOL contains and who, therefore, found relief in HADACOL.

It is a well-known scientific fact that the lack of only a small amount of the B vitamins and certain minerals in your system will cause certain bodily disorders such as nutritional neuritis, which causes the aches and pains commonly known as rheumatism, and there is no known cure for the ailment except the administration of the needed vitamins and minerals. This is why people who suffered for years and years never were able to obtain any relief until they took the vitamins and minerals the lack of which was causing the disorders.

HADACOL does not contain only one but has five of the B vitamins and four necessary minerals. It comes to you in liquid form so that it will be easily absorbed by the blood and, therefore, carried to the parts of the body which need them most.

So, it matters not where you live—no matter who you are—if you have tried all the medicines under the sun, you should be fair to yourself and give this wonderful preparation, HADACOL, a trial. And if your disease is caused by a lack of the B vitamins and minerals which HADACOL contains, then don't go on suffering—don't continue to make your life so miserable. Temporary relief for you is not enough. Take HADACOL.

Sold at all leading drugstores. Trial size only \$1.25, but save money; buy the large family economy size, only \$3.50. If your druggist does not handle HADACOL, order direct from The Le Blanc Corporation, Lafayette, La., and when the postman brings your package, just pay the amount plus the c.o.d. and postage. If you remit with the order we will pay the postage.

Then, if you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.—Adv.

Hadacol Now Nation's Best Selling Tonic

Sale of Hadacol, which is made with five of nature's B vitamins and four imporant minerals, has spread from a small section of Louisiana to more than 20 states, and is now the nation's largest selling tonic.

Dudley J. LeBlanc, President and founder of the LeBlanc Corp., Lafayette, La., makers of Hadacol, has announced plans to expand the sales of Hadacol to the entire nation within the next year.

Dudley J. LeBlanc

Mr. LeBlanc is directing the south's largest advertising campaign for Hadacol and newspapers, especially weekly newspapers, are playing an important part in this effort.

The LeBlanc Corp. is using every weekly and daily newspaper in Louisiana, Arkansas, Mississippi, Texas, Oklahoma, Tennessee and Alabama this week to tell the story of how Hadacol put the Chief of Detectives of Hot Springs, Ark., back on the job after all else failed. He had suffered from a deficiency of B vitamins and certain minerals, which Hadacol contains.

"You must use the newspapers, daily and weekly, if you want to bring your message to the grass roots of America, the towns and wonderful rural areas," said Mr. LeBlanc.

Besides being founder and President of LeBlanc Corp., Mr. LeBlanc has many other business interests, and is President Pro-tem of the Louisiana state senate. He is well known for his work for pensions for old folks and other social advances.

Mr. and Mrs. L. P. Jackson, Mr. and Mrs. J. D. Cole and sons, Mr. and Mrs. F. P. Hornets Take On No. 1 Spot Team La Vega Tonight At Holmes Stadium

TOP CONTENDER IS FOE
IF LOCALS TONIGHT
AT HOLMES STADIUM

La Vega, tonight!
The luckless Gatesville High School Hornet Eleven of 1949 have a really hump to get over tonight, and they'd have to do some awfully vicious playing to match the speed and splendid play of the East Wacoans, La Vega. They're just about the top ball club in old 19-A, and it'll be a—at this time—dry field.
Last year's 20-19 victory of the La Vegans over the Hornets will go down in history as one of the most hectic battles of all time, and but for the clock, Cotton Davidson's arm and "Burr" Roberts' arms might have changed the score, but, "time marched on" and too fast to erase that big one point lead. If it could only be that close tonight.

La Vega, altho they lost Bobby Brooks and several other stellar performers, have more than it takes, and to keep the score anywhere within reason, the Hornets

are going to have to get up and hump.

Last feeting of the Hornets was an improvement, and Coach Lloyd Mitchell is not the let down type, and with a week's work, something can happen which will cover the Hornets with plenty of glory, if not, victory.

All the odds, are against the luckless Hornets, and from now on, a win in either remaining contest would be a surprise, with the possible exception of Itasca.

Hamilton is apparently the leader in their district, and McGregor, who it looks like will take the Gold Football, as Hamilton is likely to take the Old Cowbell, will probably eke out the Thanksgiving tusse.

There IS one fact remaining, and that is, the Hornets can't be any lower in the percentage column.

Lineup will probably be Hightower and Anderson, ends; Cook and Edmondson, tackles; Carothers an Hitt, guards; Williams, center; G. Jones, Curry, L. W. Meeks and Walker, backs.

FLOOD WATERS
High water washed this car one-half block against this foot bridge in a heavy rain at San Antonio. The heavy rain flooded low areas of the city, drowning two persons and keeping firemen and police busy evacuating families from their flooded homes. (AP) Wirephoto
