Any freezes which winter may still bombard us with will be low blows after this and crawling back into golashes and mackinaws isn't a pleasant contemplation either. Oh well, enjoy today's high and let tomorrow's low drop where it may.

built better...work longer!

When Chevrolet builds a truck, it builds a quality truck. This policy makes sense. Chevrolet trucks work a long time . . . cost less than many other makes to operate and sistently bring a higher trade-in price . . . and, as a result, are bought by more people.

We invite you to come in and

examine this quality closely and to take a 1962 demonstrator out for a good long test drive. Note the cab comfort, the good visibility, the smooth ride, the solid feel of its quality. Compare Chevrolet truck features with those of other makes. Then decide which are your wisest investment. We're sure it will be Chevrolet's.
