She flew the coop!

Had a girl operator, while on vacation, stayed until Thurs noon, pulled out; we got back following Saturday. Found following Saturday, machine was broken, and had \$2.50 hour operator to work—didn't set line.

Had advertised in DMN for operator, and it's going on 2nd week and still no operator; still machinist ain't got her to fix machine. Hadda pay operator \$2.50 per hour tho he didn't set 1 line of type—no fault of his.

Friend Freeman's helped a lot, but he's terribly busy with Courier, and The Waco Citizen came to the rescue last Friday, and the 'youngsters' with saw and hammer, casting box, etc., got out the others. And, we're still moving!

Been offerin' up to \$100 for 40 hours, and so far, no takers. Man told us the machine we bought in '38 listed today for \$14,000 so we can keep it, and it'll be worth more when we're erady to retire. Steel Strike will make it worth more—or less.

Noticed the new state taxes! Up on tobaccos, of course, cars, radios, TV's, and nearly anything pleasurable a Texan could want is up. They're going to make snuff dippers out of a lot of us tobacco users. Bring on your cedar tree toothbrushes.

Recently we went by the TVA, and what do you know, we think it was established to immerce the Baptists in. The states around are as full as Texas is with Baptists. There must be a jillion.

Best way to tell you about the vacation is to quote you the courasy card receipts we got for gasoline we bought, and that would prove where we went. We ain't going to quote the amounts. Heres the towns: Jonesville, La, Laurel, Miss., Attalla, Ala., Athens, Tex., Carlisle, Ark., Centerville, Tex, McEwen, Tenn., Benton, Tenn., Hot Springs, Ark., Texar Cherokee, N. C., Crossville, Tenn., Jasper, Texas., and Woodstock, Ala. but not in that order. The amount will only worry us when they cmoe from the oil companies. It WAS one of our best trips and we can recommend the Smoky Mountains—they'er grand.

Hooray for Ike! He vetoed some of the "pork." Guess the gimme boys'll override the veto. You know, they want to be relected with your money, and T'ell with the country, and the jetting inflation. You suckers.

UNDER 17, OVER 65 GET EXEMPTIONS TO HUNT, FISH

AUSTIN, Sept. 8—Exempt fishing permits are not required of all fishermen under 17 and over 65 years, according to the fiscal director, Texas Game and Fish Commission. "These are only courtesy cards, more or less," said the director. "Certified drivers' licenses or other legal documents are just as valid."

With the exception of deer hunters, the same holds true for hunting licenses. Anyone in the same age group must have exempt licenses when hunting deer because of the license tags that must be fastened on the deer kill.

Persons residing on their property who wish to hunt on this property must have an exempt license. This license is not valid for any other piece of property, however.

It is not necessary to send applications to the Austin office. All regional offices, which are located

ABUNDANT LIFE

by ORAL ROBERTS

GOD HEALS LUNGS OF INFANT SON

One of my greatest joys is to receive a letter from a mother telling how God has miraculously healed her child.

When Jesus heals a little child, older people are deeply moved, and I am no exception.

"At the birth of our son," writes a mother from Indiana, "the delivering doctor and the hospital staff noticed that the boy was having difficulty in breathing.

"They put him in the hospital nursery and treated him for excess mucus. But he failed to respond to treatment and got steadily worse.

"To help diagnose the trouble numerous X rays were taken. The pictures showed a fibrous growth in our baby son's lungs. He was given oxygen to keep him breathing, but the doctor said his condition would be fatal within 24 to 48 hours.

"Since my husband and I had strong faith in God and trusted Him to heal our boy, we immediately requested our friends to pray with us.

"During that first night, while I was so worried over our baby, God met my faith! He assured me that everything was going to be all right.

"The doctor didn't offer us any encouragement for four days. But I had faith God

would heal our baby. Then the doctor said there was some hope he would live! We kept our faith strong and continued to pray all during that time.

"On the fifth day, more X rays were taken. They showed no growth tissue in our baby's lungs whatsoever! We were allowed to take him home, but the doctor asked us to return at the end of the week for a checkup to be sure.

"We did return, and he told us our son's lungs were as good as anybody's and there was no sign of weakness.

"Our boy is now four years old. He is in good health and is normal in every way. There is no evidence at all of any bad effects from the growth!

"My husband and I give God the glory and praise Him for our son's healing!"

Why did God heal this stricken newborn babe? Because the parents possessed faith in abundance! Their faith and earnest prayers brought healing for their child from God!

How strong is your faith today? Will you keep holding on, or will you give up easily?

Persistence and faith will pay off for you, too. God is a good God, eager to listen to your problems and to solve them for you.

YOUR MERCHANT MARINE

N. S. SAVANNAH

"America has the lead in atom power for ships. Let's keep it!" said Ralph E. Casey, president of the American Merchant Marine Institute, at the July 21 launching of the nuclear merchant ship Savannah.

Besides the Savannah, we have an atomic aircraft carrier, a destroyer, a cruiser and 33 submarines built or building. The private merchant marine industry must accept this responsibility of progress.

One American company, Esso Standard Oil, has already offered to build and operate a nuclear tanker, provided the Government contributes the power plant. A second American Line, Isbrandtsen, has proposed cutting one of its present ships in half and inserting an atomic power unit in a prefabricated hull section.

It is forward thinking like this which will give substance to President Eisenhower's prophecy that the N.S. Savannah will be the "forerunner of atomic merchant and passenger fleets which will one day unite the nations of the world in peaceful trade."

Proper study light at home means a better student at school

Good light at the study table aids concentration, combats eye fatigue, makes home study hours more productive. In most instances a good table lamp equipped with a 150-watt bulb will provide the right amount of light for easy seeing. The lamp should be tall enough to spread light over the work area and properly shaded to conceal the light source from the eyes. A diffusing bowl is recommended to prevent glare. If the lamp has no diffusing bowl, a 150-watt white indirect bulb may be substituted.

It has its own built-in diffusor.

Brucellosis Has To Go County Agent Herrmann Said This Week

This is the first in a series of articles on Brucellosis—a major problem in Texas.

Brucellosis is a contagious disease of animals and man caused by a bacterial agent. In cattle, it has been called Bang's disease and contagious abortion. In swine it also is referred to as contagious abortion. It sometimes is referred to as undulant fever in man.

Livestock raising is a gamble at best. But animals with brucellosis are like crooked dice—your only profit is experience.

Infected cattle suffer a 20 percent reduction in milk production. They calve on the average of once every year-and-a-half rather than once a year. In addition, the resulting abortions, sterility and difficult breeders increase replacement needs by 30 percent.

Whether you are a producer of milk or beef, these losses apply to you. A beef cow that loses 20% of her milk production will wean a calf 10 percent lighter than normal.

Swine producers fare little better with this disease. Infected sows abort or give birth to weak litters. Sows frequently become sterile following abortion. The disease damage the bone of the spine, with resulting paralysis in up to 20 percent of infected swine.

And that's not all. Brucellosis is the most common cause of fistula of the withers in horses. It frequently is responsible for waterbags forming on the knees of both horses and cattle.

Human cases of brucellosis are being diagnosed with increasing frequency among persons handling livestock or drinking unpasteurized milk.

Less tangible losses occur in addition to the ones listed. Loss of markets for Texas breeding and stocker cattle is becoming a serious problem. The shortage of healthy replacement dairy stock is commanding attention. The con-

stant threat of the disease becoming established in the sheep and goat flocks of Texas cannot be ignored.

This adds up to only one conclusion: Brucellosis HAS TO GO!

BRUCELLOSIS

Some of the leading cattle producers of Coryell County met Wednesday night Aug. 26 at the courthouse in Gatesville to discuss animal health problems. The group unanimously passed a resolution that Coryell County cattlemen start work on brucellosis or "bangs disease" eradication.

Brucellosis costs every cattleman money by actual disease losses, fading market for breeder animals, and loss in calf weaning weights.

Highlights AND Sidelights

TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—People who have been writing Gov. Price Daniel in the past few weeks say "no more taxes, please."

In mid-August the governor announced he would call a special session to raise money for higher teacher pay only if the people demanded it. He said he also wanted to find out how legislators felt after they had had a chance to be home a while and talk with the folks in their districts.

In the weeks that have transpired, there has been a heavy volume of mail running strongly against the special session idea. Lawmakers also are taking a dim view of being called for a fifth round of money hunting.

Whether this means that prospects for a teacher pay session are out remains to be seen. It could mean only that the teachers, their families, friends and other school-minded people have been too busy with "back to school" work to get their letters off to the governor.

On the other hand, it could mean that the people are getting tired of taxes and spiraling wage scales. Pinch Already Felt

Perhaps the reason many Texans weren't eager to have another tax session was that they were beginning to feel the bite of new taxes already passed this year.

State Treasurer Jesse James' report shows that many stocked up on cigarettes and liquor during August, before higher taxes on these items became effective in September.

Sale of liquor and cigarette tax stamps soared to \$5,227,642 in August. This is \$1,098,496 higher than sales for August, 1958.

No statistics are available for the pre-tax selling of items which got hit for the first time. But heavy advertising campaigns indicated that merchants hoped the buyers would clear their stores during August of such items as air conditioners in order to avoid the 3 percent sales tax.

Governor Defends Veto

Governor Daniel's office has suggested that the State Hospital Board tap its \$1,200,000 emergency fund to eliminate any fire hazard to the 800 oldsters housed in the Confederate Home in Austin.

Governor Daniel vetoed a legislative appropriation to build new quarters for these patients. His action brought some reactions of

Legislative employees will have to wait until Nov. 4 to get their next pay check.

In its last special session the Legislature approved a \$330,000 fund transfer for these between-sessions expenses by voice vote. But all bills not passed by a two-thirds record vote cannot take effect until 90 days after the session ends. Hence, the November date for this action.

Legislature also appropriated \$1,000,000 for legislative expenses, but this was vetoed by the governor. He said he felt they could get along on the \$330,000.

Arrangements were being made for some 20 House and Senate employees, who've missed two pay days now, to get low interest rates from loan companies.

Attention, All Boat Owners

State Highway Department has announced that registration and licensing of boats under the new water safety act will begin next month.

Boat owners will have until March 1, 1960, to get their certificates and identification numbers.

Forms now are being printed and will be distributed to boat dealers, county offices, Highway Department Offices and other public offices.

Cost of the licenses will vary with the size of the craft. Here is the scale: Boats under 16 feet in length, \$1; 16 to 26 feet, \$5; 26 to 40 feet, \$10; 40 feet or more \$12.50.

Boats, regardless of length, if equipped with a 10 hp motor or less, will be exempt from the tax as well as the numbering provision of the law.

Cost of Citifying

In the past ten years Texas prison population has rocketed from 5,000 to 11,000.

Some might wonder if the state is reverting to the lawless ways of the Old West. Not so, according to O. B. Ellis, general manager of the Department of Corrections. Seemingly, it's "progress"—or at least a parting with old ways—that's causing the trouble.

In citing what he feels are the reasons more Texans are getting behind bars Ellis put "urban movement" at the top of the list. "A good old country boy moves to the city," Ellis explained, "has a 40-hour work week and doesn't know how to use his time."

Ellis also blamed no jobs for youngsters and misplaced values—"too much home

FALLOUT SHELTER FOR A NEW HOME

**For Family Protection
 in Nuclear War**

ANOTHER type of shelter which gives excellent fallout protection can be built as an added room to the basement of a home under construction. It would add about \$500 to the total cost of the home. The shelter illustrated here is based on such a room built into a new home in the Washington, D. C., area in the Spring of 1959. Important considerations for each type of shelter are: arrangement of the entrance, ventilation, radio reception and lighting. "The Family Fallout Shelter" is available in paperback form for \$1.00.

Results of Disunity

"Behold, how good and how pleasant it is for brethren to dwell together in unity!" — Psalm 133:1

Read your BIBLE daily
 and
GO TO CHURCH SUNDAY

YOU may know from experience the havoc caused by disunity in your own church. What about the world as a whole?

Disunity among Christians has caused the establishment of over 250 sects and has limited the spread of Christianity to only one-third of the world's population.

But more important, disunity is causing Christianity to fail in the solution of the big social, political and cultural questions of the age.

These problems must be solved if Christianity is to survive. The solution must start in our own backyards — with our neighbors of other faiths.

Rev. and Mrs. Vance Duke and children and Mrs. J. B. Jones had lunch with the Gayle Calhouns last Sunday.

Mrs. J. B. Jones spent last week at Turnersville. She was taking care of Mrs. W. A. Gardner. She reports that her brother Jake Smith is out of the hospital and that he is slowly improving at his home.

The group that went from here to Ft. Worth to Newton Smith's 65th birthday celebration were Mrs. Mike Smith, Mrs. Bertha Spencer, X L. V. Buster, X Gayle Calhoun, X Bruce Jones, X Curtis Smith, Dale Smith, Mrs. J. B.

Jones, Walter Smith and Miss Carolyn Calhoun.

X B. K. Parrish, Bryan, Donald and Rodney of Evant were guests of the H. J. Parrishes Monday.

Quite an interesting reunion took place at the Hill Parrish home Sunday night, when Flora Jones and Myrtle Hodges spent the night together.

Their friendship dates back to their early girl hood. Flora Smith and Myrtle Hill, two local belles decided to become schoolfarms, together they attended NTSTC, Denton. Later, while they were teachers they shared each others trials and tribulations and rejoiced at each other's successes. Mrs. Hodges has been away for many years living in New Mexico and Wisconsin. We all rejoice that she and her husband have come home to settle down among the green pastures of Central Texas.

Misses Sherry and Patty Davidson spent last week in Ft. Worth as the guests of the Clyde Marcum family. While there, these talented little misses were called on to give two radio renditions. One of special sons, the other as choir members of the North Side Assembly Church in its broadcast.

X James Ray Streater of Ft. Worth visited relatives here, the Kautzches, Elams and Browns.

X Robert Norman Hamilton and daughter, Pam of Evant visited the A. A. Kautzches family Monday.

Mrs. Mae Gandy and son, Jan of Hamilton visited the J. O. Davinson family Wednesday. Mrs. Gandy is much improved from her recent illness.

Mrs. L. G. Brown and children visited the Jim Vest family at

Purmel Saturday.

X J. O. Winslar were happy to have as their guests Monday, their grandson, Petty Officer Stanley Jones of Memphis, Tenn. He is attending an officers training school for the Navy. He has finished the course offered in Tennessee and is being sent to San Diego, Calif., for higher courses. He is the son of X Virgil Jones of Gatesville.

Miss Nellie Jean Billingsley who is employed by the State Highway Department at Austin visited her parents, Minister and Mrs. James Billingsley and family, also her granbmother, Mrs. H. J. Billingsley last week end.

Mrs. Paul Stewart, daughter Connie, and a lady friend, all of Denver, Colo., visited her parents, X George Parrish, Tuesday. She took her little son, Johnnie Frank, back to this home where he will enter school.

Mrs. J. O. Winslar and Mrs. T. J. Smith and Mrs. H. M. Brown visited Grace Elam and Bessie Brown Wednesday.

Mrs. W. R. Robinson of Granbry is spending this week with her daughter and husband, X Jackie Brewer.

Last week, X J. B. Sanders had as their guests, their grandsons, L. H. David and John Williams of Odessa.

the Great Books speak to Today...

On Judges

If a judge is compelled to torture and punish the innocent because his office and his ignorance constrain him, is he a happy as well as guiltless man? Surely it were proof of more profound consideration and finer feeling were he to recognize the misery of these necessities, and shrink from his own implication in that misery; and had he any piety about him, he would cry to God: "From my necessities deliver Thou me!"—St. Augustine, 354-430 A.D.

The laws were first taken from the Greeks... and then we find that they are reduced into a Latin style... How, then, could these old dotards be able to understand aright the text of the laws, who never in their time had looked upon a good Latin book, as doth evidently enough appear by the rudeness of their style, which is fitter for a chimney-sweeper, or for a cook or a scullion than for a juris-consult and doctor in the laws!—Rabelais, French satirist, 1495-1553.

A voluminous code of laws is one of the inconveniences necessarily connected with the advantages of a free government. To avoid an arbitrary discretion in the courts, it is indispensable that they should be bound down by strict rules and precedents, which serve to define and point out their duty in every particular case... those precedents must unavoidably swell to a very considerable bulk, and must demand long and laborious study to acquire a competent knowledge of them. Hence it is that there can be but few men in the society who will have sufficient skill in the laws to qualify them for the stations of judges.—Alexander Hamilton, "Federalist," 1787.

deeds, etc.—facts useful chiefly in lawsuits.

You still have to think of the record, since you may have to go to trial some time. So keep good records of your affairs. also think of the law in the future tense—in terms of built-in safeguards for plans which they want to go through without legal hitches. Our heavy income and death taxes have made people plan ahead legally, rather than wait for the ax to fall. Any time you buy or sell a home or a business or make an investment you have choices of how you may do it—some wise, some not, in view of your circumstances. Should you insist on an abstract or accept or offer instead a title insurance policy. (Your lawyer has a definite part to play in either event.) Should you do business as a sole proprietor, a partnership, or corporation? Do your contracts set out ways of meeting unexpected events? How best may you serve your estate (and also carry out your wishes)—by a will or a trust, or by direct gifts?

While all of these things point forward, the past in the form of court records can serve you by showing where trouble may come from. As more and more people know the symptoms of legal trouble—where to look for legal hitches in plans before big trouble starts, there will be fewer law suits and better human relations. And where does trouble sometimes start? Most often where you lack a clear grasp of your relationship, your rights and duties, and your own and the other fellow's resources—in transactions involving large personal or financial stakes.

"The Ball's Ours!" Not Easy, But Hours: Hornets Stop Bulldogs 28-12

GHS Hornets defeated McGregor Bulldogs 28-12 Friday night in a renewal of an ancient feud running back to the '08s or earlier, and Byron McClellan, break-

SEVEN EXHIBIT IN SEARS SWINE CONTEST AUG. 29

Seven 4-H club boys exhibited their gilts being raised in the Sears Swine Program at the Coryell County Community Center in Gatesville Aug. 29.

First lace gilt was exhibited by John Wilhelm, Jonesboro 4-H club. Other placings were as follows: James Marvin Baize, Turnersville second; Loy Hubbard, Turnersville, third; Danny Neal Tyler, Ireland, fourth; Sammy Leach, Turnersville, fifth; Seaborn Ashby, Jonesboro, sixth; and Phillip Wolff of Flat seventh.

Wilhelm and Travis Moore, owner of the boar in the program, will compete in the show at Waco Saturday, Sept. 12. They will compete against Milam, McLennan, Falls and Bosque counties.

Bennie Whitesides, Evant High School principal, judged the show. Whitesides was formerly assistant county agent of Milam county and was on a national winning livestock judging team at Texas Tech.

ARE YOU A SPACE EXPERT?

Test Your Knowledge About The Solar System

Can you answer these questions about space known by the average 10-year-old? In the film, "The Solar System" produced by Coronet Instructional Films, world's largest producer of educational films, the nature of our solar system is explored. The film, intended for intermediate and junior high school students, provides a visual concept of the solar system.

Check the answers you believe are correct. If you get all right, consider yourself a space expert; if you get two correct, you're average; if you get one or none right, study up on space.

(See box below for correct answers.)

LOOKING AHEAD (Legally Speaking)

You can tell a lot about people by the way they regard time.

Do they put stock mostly in the past—their record; the present—their direct joy in work or play; or the future—their plans.

Why not use all three dimensions of time? Past experience to guide, the present for zest, and the future to realize dreams.

Lawyers report a sharp shift in the way people regard time and the law: Of old they thought of law in terms of past facts like failures to meet legal duties, mis-
