

2ND ARMORED IS HOST TO 24 TEXAS NEWSMEN AT FT. HOOD TUESDAY

By Mat Jones Jr., and Joe Kermit Jines, Coryell County News Representatives

Tuesday, 24th, the 2nd Armored Division was host to 24 newsmen at the big Central Texas military installation, Ft. Hood, for review of troops in the field.

Representing newspaper, radio and TV stations in all parts of the state we spent most of the day sitting units of the division on maneuvers at North Ft Hood, a part of a special press-day program, for which we were guests of Maj. Gen. W H S Wright, commander of Ft Hood and the 2nd Armored Division.

We witnessed field exercise by several units, which are now in the 8th week of an 11-week intensified training program designed to put it in top combat readiness.

Briefed by Col Wm A. Burke, Division Chief of Staff, we were taken to the combat training area, 24 miles north of Ft. Hood post headquarters, making the hop in an H-37 Mojave helicopter, the toured the field command center of Combat Command A with Brig. Gen. Ralph E. Haines, assistant division commander, and Col. Hugh E. Juigley, CCA commander.

We then boarded armored personnel carriers and were taken to the field mess area of Co. D 50th Infantry for lunch with Gen Wright, Col. Everett A Luckenbach, Combat Command B commander and Lt Col R D Harwood 50th Infantry commander.

After lunch, we watched a field maneuver at the Tank Infantry Combat Course, with tanks, artillery, mortars and infantry of the division functioning together to take objectives under actual combat conditions. Joe was riding in one tank, Bob Bantiverter, of WACO, and Chester Rogers of The Houston Chronicle was in a companion tank and it got rough, and a piece of shrapnel nicked Rogers on the hand and arm, getting in through an opening in the tank.

At another section of the Fort Hood range, we saw Battery A of the 14th Artillery Bn., in action with Lt. Col. JWB Walters, commander and Capt. Albert P. Girard, battery commander, and visited the fire control center and some of the camouflaged 105-MM guns, which were extremely mobile in the field, being mounted on full track, heavily armored vehicles.

In a combination farewell briefing and impromptu press conference at the end of the day, Gen. Wright told the newsmen that his division is now full strength and has all of its equipment—883 officers, 81 warrant officers and 13,613 enlisted men. 1,500 are being sent to Europe to take custody of prepositioned equipment and maintain it with General Haines heading the advance force, for various stations there.

Gen. Wright said the 2nd Armored Division and the 4th Infantry Division of Ft. Lewis, Wash., are being considered for deployment overseas. Training has been adjusted to include use of atomic weapons, Gen Wright said, but no nuclear devices have been fired at Ft. Hood, and none are expected to be.

Brazen Burglars Banged Box: Brought 90 Bucks Boys Bound From SSB

Noon Wednesday, burglar or burglars snatched a lock box (election box) in District Clerk Carl McClendon's office, 2nd floor of the courthouse and got away with \$90, \$10 in checks.

They took the box in the grand jury rest room and opened it, leaving the box there. Mrs. Fay Shelton found it there.

District Clerk Carl McClendon said he had stopped payment on the \$10 check given on a Temple bank by lawyers Taylor and Taylor of Temple. The rest was cash, and all of it was for fees and child support funds.

Elie Hayes of Tax Assessor-Collector's office saw someone run up the stairway, stayed a short time, and then run down, but didn't pay any attention to who it was. The District Clerk's door was not locked, but there'll be one on it by the time you read this. Both Mr McClendon and his 'girl Friday' have the same luncheon hour, as do most of the courthouse staff.

BEFORE THE AGE OF THE HANDOUT

It seems almost heretical to bring it up in this Age of the Handout.

But there's a colossus of a statue in this country that was built without one cent being contributed by the Federal government.

The Statue of Liberty, 75 years old this Fall, was financed exclusively by the people of France and the United States. In particular, school children of both countries poured their pennies into the popular subscriptions. Neither the French nor United States governments were asked to aid in the construction of the statue and the giant pedestal which bears it.

The United States owes this great symbolical statue to French friendship and the personal enthusiasm of Alsatian sculptor Frederic A. Bartholdi. In 1875,

it was decided that the French would build the statue and transport it here; and the American people would finance the building of the pedestal.

In France, citizens of 180 cities raised \$250,000. In this country, an American committee raised \$125,000 for the pedestal, but it wasn't enough. Then a champion of the cause appeared; Joseph Pulitzer, owner of the New York World, popularized a campaign for funds.

School children were appealed to, and they contributed their bit. Benefit theatrical performance, sporting events, entertainments and balls were sponsored. The campaign raised \$100,000 from 120,000 individuals.

On Saturday, October 28, 1886 the torch held high in the right hand of the Statue of Liberty was lighted. In his dedicatory address, President Grover Cleveland said: "We will not forget that Liberty has here made her home; no-

shall her chosen altar be neglected."

We promise we won't forget where Liberty is. We will not forget, either, that patriotism has to be bigger than government; and as freedom-loving men and women, we must keep a close watch on government—lest it buy away our liberty with our own money!

The ENCO Energy Rocket
Only \$2.95* with coupon from your neighbor in a HUMBLE uniform

This Humble exclusive is a fascinating toy. So safe and easy to use, a small fry of six can run it. So much fun, even Dads will monopolize it.

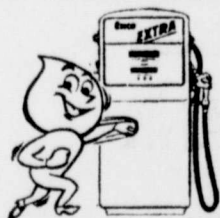

Its principal parts are of Escon,® Humble's tough new plastic. It's battery powered, easy to assemble, (and the car is securely held together by screws). Simply start it, place on track and after a turn or two, throw the switch. The car zips down the side-track into a plastic bumper and wh-o-o-o-sh! The rocket zooms toward the ceiling (but doesn't hit it).

Ask for a coupon at the Humble sign in your neighborhood today. Mail with \$2.95* (cash, money order or check) to address on coupon.

*(plus State tax where applicable)

Without coupon—You can buy the Enco Energy Rocket without a coupon for \$5.95.* Mail cash, money order or check with name and address to Rocket, Humble Oil & Refining Company, P. O. Box 1244, Houston 1, Texas.

GLENN WHITE NAMED CHIEF OF POLICE AT TUESDAY COUNCIL

—69—

Tuesday evening, the City Council named Glenn White chief of police for Gatesville replacing R. J. Lipstine who had resigned.

Other action that night was the appearance of 4 Main Streeters who were among a lot of others asked by the Council to appear before them on the Main Street question. Appearing were Clyde Moore, Frank Woodson, Carl McClelland and A. C. Brasher.

The new street widening was discussed and matters pertaining to the citizens, the city and the State Highway Department, according to City Attorney-Judge Albert Dickie.

PRISON RODEO STAR — U. S. BONDS, the newest of the rock'n roll singers, whose recordings have hit the top of the hit parade, will perform Sunday, Oct. 22 at the 30th Annual Texas Prison Rodeo in the prison's \$1 million stadium in Huntsville. The rodeo, a thrilling, two-hour show, begins at 2 P.M. Bonds will sing a number of his top tunes, including one of his latest recordings, "Quarter to Three." Supporting Bonds presentation will be a host of prison's toughest convict riders atop the saltiest rodeo stock found anywhere. Other specialty events include a calf roping event, a girls' barrel race, plus mounted quadrilles from various parts of Texas. Net proceeds from rodeo ticket sales pay for inmate rehabilitative services not allocated by the State Legislature. The rodeo is held each Sunday during October.

Community Public Service Company Wins First In Nat'l Safety Contest

Community Public Service Company has again won first place in its group in the Public Utilities Division of the National Safety Council's annual fleet safety contest. It was announced at the National Safety Congress in Chicago on October 19.

This is the seventh time Community has won such a first-place award since the National Safety Council began its fleet award program 15 years ago, says H. A. Biffle, CPS manager here. In addition, the power company has won two second place awards during the 15-year period.

Community's fleet, which is comprised of 277 vehicles, operated 4,013,000 miles during the 12-month contest period with only eight chargeable accidents. This

is a rate of .19 accidents per 100,000 vehicle miles. Average rate for the 37 utilities reporting in the group is 1.30

Community Public Service carries on an intensive year-round safety education program for employees, not only for vehicles operated but also in personal and line safety techniques. Responsible for this continuous safety program is the CPS safety department headed by Personnel and Safety director W. J. Millican of Fort Worth. Safety director for this area is Jake Perry of Clifton.

October 20

Dear Friends:

A few days ago when I was speaking to a group at home, I pointed out that an atomic war would probably result in the establishment of a military dictatorship in this country. So many of my listeners appeared shocked and seemed to have never contemplated this prospect that I felt I should at least call this probability to the attention of our people.

Inasmuch as any atomic war, if it comes, will almost surely be instituted by a surprise attack from U S S R, and as Washington will surely be one of the first targets, it is very probable that the President, his Cabinet, the Supreme Court, and, if in session the Congress will all be killed. There is little likelihood that we will have any constitutional officials to take control of any of the three branches of civil government.

Of course many of the higher officers of the Armed Forces will also be killed, but many of them will, at any given moment, be in points of safety outside of Washington. There will also be some members of Congress who will be out of the line of destruction, but they will be too few to get a quorum. The entire country will have suffered the greatest losses of history. (Russia will have undoubtedly suffered comparable retaliatory damage, but that will not influence the situation here). There will be need for prompt and absolute control. It is not a matter of description of never. The military authorities will be forced to act. All our liberties will be lost overnight.

This is not a pretty prospect, but I feel that we will do well to face the facts. If we are among those who survive, we should recognize that we will never again enjoy the kind of world we have known. We may well find ourselves devoting all our efforts just to getting enough food and shelter to live.

I do not mean to say that we should not defend ourselves just because the price is high. On the

contrary, I think that our preparation to retaliate hard and fast is our best available protection against war. Weakness on our part will not deter a Soviet attack. We must convince the Russians that we will suffer any disaster rather than dishonor. At the same time, we must explore and endeavor to develop every possible means of avoiding conflict. We must avoid threats but steel ourselves to honor our commitments.

ABUNDANT LIFE

by ORAL ROBERTS

BE HONEST WITH YOURSELF

A big man stood at the corner of a vacant lot one day and watched two boys in a race. One was the street-urchin type; one, a vigorous schoolboy. They were about the same age and weight, and in every way well matched. When they came to the corner lot, though, the schoolboy stopped while his friend took the short cut across the lot. The watching man was interested.

"Why did you stop so soon, my boy?" he asked. "It seems to me that you were a step or two ahead when you quit."

The boy looked up. "Don't you see that sign?" he asked, pointing to a sign which read "No Trespassing." "I'm no law-breaker."

"Who owns this lot?" the man continued.

"Oh, Mr. Janssen. He's in California for the winter."

"Away for the whole winter? Then how could he know if you went across his lot?"

"Maybe he couldn't, but I would know," was the simple answer.

Later, this man sent this boy, then eighteen, on an errand of trust and of much importance to them both. "I picked him out," the man explained, "be-

cause I never knew him to take advantage of a situation. He is honest with himself."

It is strange, but many people feel that the wrongs they do are done in secret. They forget that there are always two who know: God and themselves. The Bible says, "Be sure your sin will find you out." It may seem that one little sin did no one any harm, but God's law says differently. Sin is always harmful. Because there are no cars at the intersection, a person may feel all right about running a red light. But it will be easier to disregard the next one, at which time there may be other cars going through.

The Bible says, "Blessed are those who hunger and thirst for justice, for they shall be well satisfied" (Lamsa Translation). Many times it seems that we are wasting our time doing the right thing, but Christ promised that if we would try our best to do the right thing, we would be well rewarded.

It is always better to do the right thing. When you are tempted to cheat just a little, resist the impulse. Instead, do something good for someone. You'll be much richer for it. You'll discover abundant life.

NEWS IN THE SPORTS WORLD

Vest's Trojans Guests of GHS Hornets Tonite at Holmes Stadium: Battle For Survival

GHS Hornets have 3 to go, and winning the 3 could put, no, would put them in an almost unchallenged 2nd spot in 17-AA, and the Marlin Bulldogs could pluck the feathers of the Hillsboro Eagles, then, the local could be tied for Championship of District 17-A.

It's worth a try, boys. Three more to go: BIG ONES: West 13; West 20, Georgetown; West 13; West 20, Georgetown; La Vega 28, West 0; Connally 10, West 14.

Now, they've played some rather good ball clubbs and turned in a nice trick at each. There were no sleepers.

Coach Darrell Carlile started the season with 10 lettermen including 4 starters. Eugene Bajer, a rock-hard, 170-pound guard, one of the '60 Tribune Herald Super Centex squad heads the list, with Lewis Cepak, 185 center; Bobby Plsek, 180 and Ernest Kaska in backfield. Billy Kolor 150 and Jerry Sparks halfbacks and Gary Kreder, the other halfback. Wayne Wilson and Larry Kreder 155, ends, and Larry Haidek 190 and Robert Hessel 204 tackles and Mike Plocek also guard.

"The Trojans will have their eyes focused on possible upsets of Hillsboro, Gatesville and Marlin," so you see they're after us, and why not!

Lineup for the Hornets, barring a few slight injuries, will be somewhat as is, and they should be, after a week off, in the pink, and ready to go.

It ought to be a ball game, and which ever one wants it most, will more'n likely win. We believe the

WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

A striking example of the dangers inherent in concentration of a major industry is contained in the new contract between Big Autos and Big Labor.

There is no question that the auto industry, tied as closely as it is to the steel industry, and others, is one of the major factors in the national economy. And because the industry has become concentrated, it is particularly vulnerable to Big Labor.

The new contract calls for an average 7 cents per hour wage increase each year over the next three years. It also calls for greater layoff benefits, as well as greater medical, life insurance and pension benefits, paid for by the employer.

But in addition, the contract calls for a further pay increase of 1 cent per hour for each 1/2 point rise in the official cost-of-living index.

Thus, there enters into this the fine point of which comes first, the chicken or the egg.

Obviously, costs of production are going to rise. This settles the question that at the end of the year, the average worker's direct wages will amount to about \$2.59 per month, and the additional fringe benefits will equal this, if not more.

This, means, then, that the costs of new autos will keep on going upward, and that cost is an important factor in setting the cost-of-living index.

Hence, the workers will get further increases in pay because they have forced the cost of living to go up.

No mention is made of tying wage increases to increases in production, thus any automatic wage increases tied to cost of living without calling for more production per man hour is built in inflation that is highly fallacious.

And entirely left out of all these considerations is the welfare of the independent dealer who must sell the production of Detroit. This is somewhat like having an army composed entirely of the quartermaster corps and no combat troops.

In the final analysis, the entire automotive industry depends on independent dealers selling the product of the plants. To do this requires men of ability, integrity, and who have the courage to risk their own capital. Because automobiles have to be sold, and sold effectively, and every time a contract such as this new one causes price increases, the selling job of the dealer becomes just that much more difficult.

Thus, when two giants such as Big Autos and Big Labor meet in battle, not only are the interests of the public disregarded, but also unrecognized is the important group who makes it possible for them to have an industry to negotiate about.

By contrast it is interesting to note that in the new contract between Big Autos and Big Labor, the company is to cut hours from 44 to 40 per week, and give a raise of 10 cents per week, which would still be less than one-third U.S. wages, but the union was holding out for ten minute afternoon tea time.
