Today thousands of Coryell County School children are a bit sad at the opening of county schools for 1970.

Gatesville High School Junior High and Elementary students returned to classes and began the pre- mid-term schedule of work this week.

Jonesboro schools opened classes today as did Evant and Oglesby.

The sadness upon returning to the "ole grind" will fade away as the basketball tilts, spring banquets, and Easter holidays bring them closer to the dismissal at the end of the term.

## Tools Valued At \$500 Taken From Kalyn Mfg

Burglars made off with approximately \$500 in tools from Kalyn Manufacturing Co. in Gatesville sometime Thursday night reports Sheriff Windy Cummings.

Larry Hinson, an employee for Kalyn indicated that the burglary occurred between 1:30 p.m. Thursday and 8:00 a.m. Friday when he returned to work.

Entry was made through the overhead door at the rear of the building. Wrenches, power tools and other metal working equipment were stolen as was cash from a cold drink machine and a small amount of money from the front office.

Fresh tire tracks were visible in the newly graded road beds around the building. Police Chief Gene Goins and Deputy Sheriff Roland Burke made plaster castings of the tire impressions.

## Feed Grain Program Announced By ASCS

Producers in Coryell County will receive notice of their feed grain bases and an explanatory leaflet on the 1970 Feed Grain Program in January, according to Robert L. Melbern, Chairman of the Coryell County Agricultural Stabilization and Conservation (ASC) Committee.

Sign-up period for the voluntary farm programs - including wheat and cottons as well as feed grains - will be Feb. 2 through March 20.

The major change in the 1970 Feed Grain Program is the no advance diversion payment clause. The program allowed advance payments last year and officials estimate that much of the funds were used as operating money. This change will mean that farmers will have to seek other methods of financing operations.

ASCS Office manager, Clois Stone, estimated that last year 90% of farmers on the program accepted the advance payment provision.

The 1970 Feed Grain Program will be much like the 1969 program, the ASC Committee Chairman said. Provisions of the 1970 Wheat and Cotton Programs were announced earlier. Melbern gave the following details on the Feed Grain Program:

1. Acreage diversions and diversion payments.

Minimum diversion at 20 percent of a farm's feed grain base acreage will be required for program participation. No payment will be made for this first 20 percent diversion, except for small farms.

Payments will be made for additional diversion of corn, grain sorghum, and barley. Maximum acreage that can be diverted for payment will be the larger of 30 percent of a farm's feed grain base or 25 acres less the qualifying 20 percent diversion. Payment rate for this additional diversion will be based on 40 percent of the total county price support (loan plus support payment) times a farm's projected yield of the crops involved. No advance diversion payments will be made.

Upper limits will be established on the per-bushel

rate which will be paid for the additional voluntary diversion of feed grain acres. The maximum payments will be: for corn, 60 cents per bushel; for grain sorghum, 55 cents per bushel (not hundredweight); for barley, 45 cents per bushel.

2. Price-support loans and payments.

National average price-support loan rates on all feed grains will be the same as in 1969. However, corn loan rates, while unchanged, will be at \$1.08 per bushel, "No. 2" basis - which is equal to the 1969 level of \$1.05 for average quality.

The National average loan levels of the other feed grains will be: grain sorghum, \$1.61 per hundredweight; barley, 83 cents per bushel; oats, 63 cents per bushel; rye, \$1.02 per bushel. (Price-support is required by law for oats and rye, but there are no provisions for acreage limitations.)

Price support payment rates will be: corn, 30 cents per bushel; grain sorghum, 53 cents per hundredweight; barley, 20 cents per bushel. Price-support payment for a farm is arrived at by multiplying the per bushel price-support payment times the farm's projected yield times the smaller of the planted acreage or 50 percent of the farm's feed grain base.

3. Small farm provisions.

A farm with a feed grain base of 25 acres or less will be able to qualify for payment on the first 20 percent of its diverted acreage, with the payment rates based on 20 percent of the total county support rate times projected yield. For the remaining diverted acreage on small farms, the diversion payment will be based on the 40 percent payment rate, subject to the maximum limitation.

Producers with feed grain bases of up to 125 acres will have the option of temporarily reducing their base to 25 acres to become eligible for the small farm provisions. In such case, no corn, grain sorghum, or barley is to be planted for harvest on the farm and the temporary 25-acre feed grain base must be put to conserving uses.

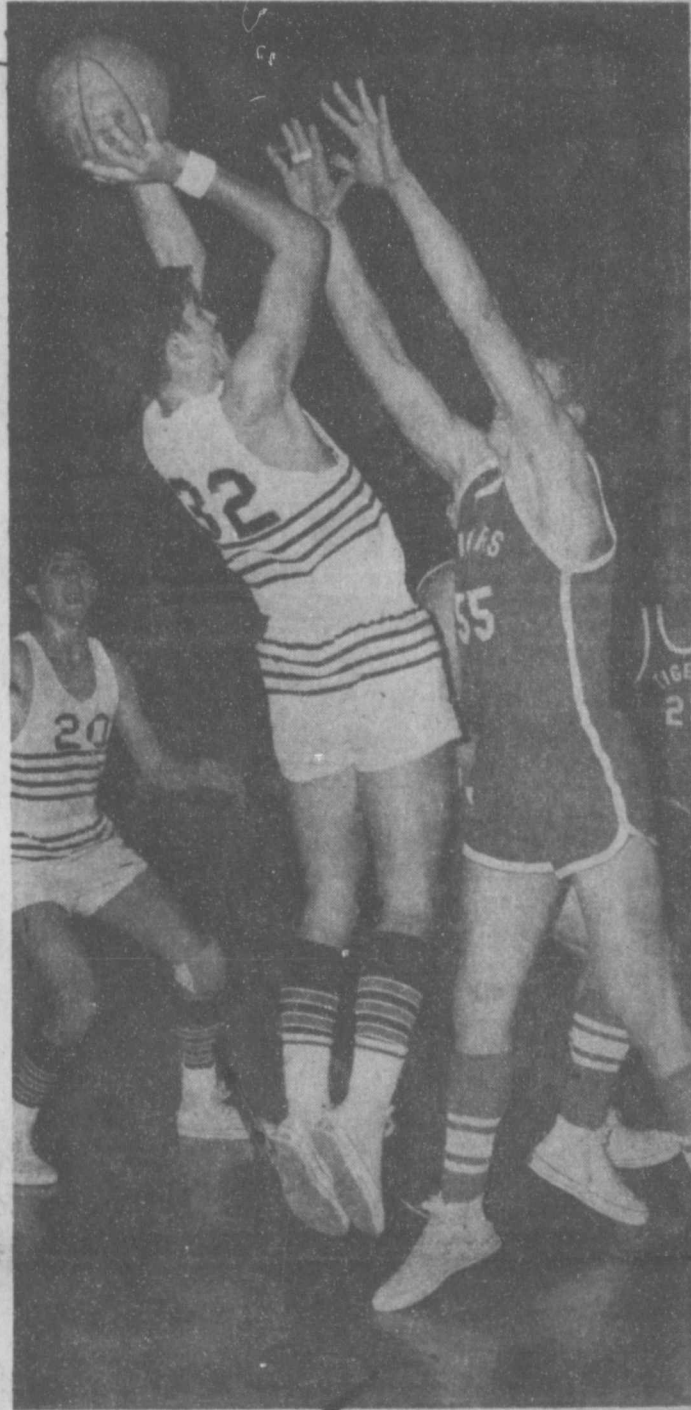

4. Other program provisions.

Soybeans planted in lieu of feed grains will not earn price-support payments.

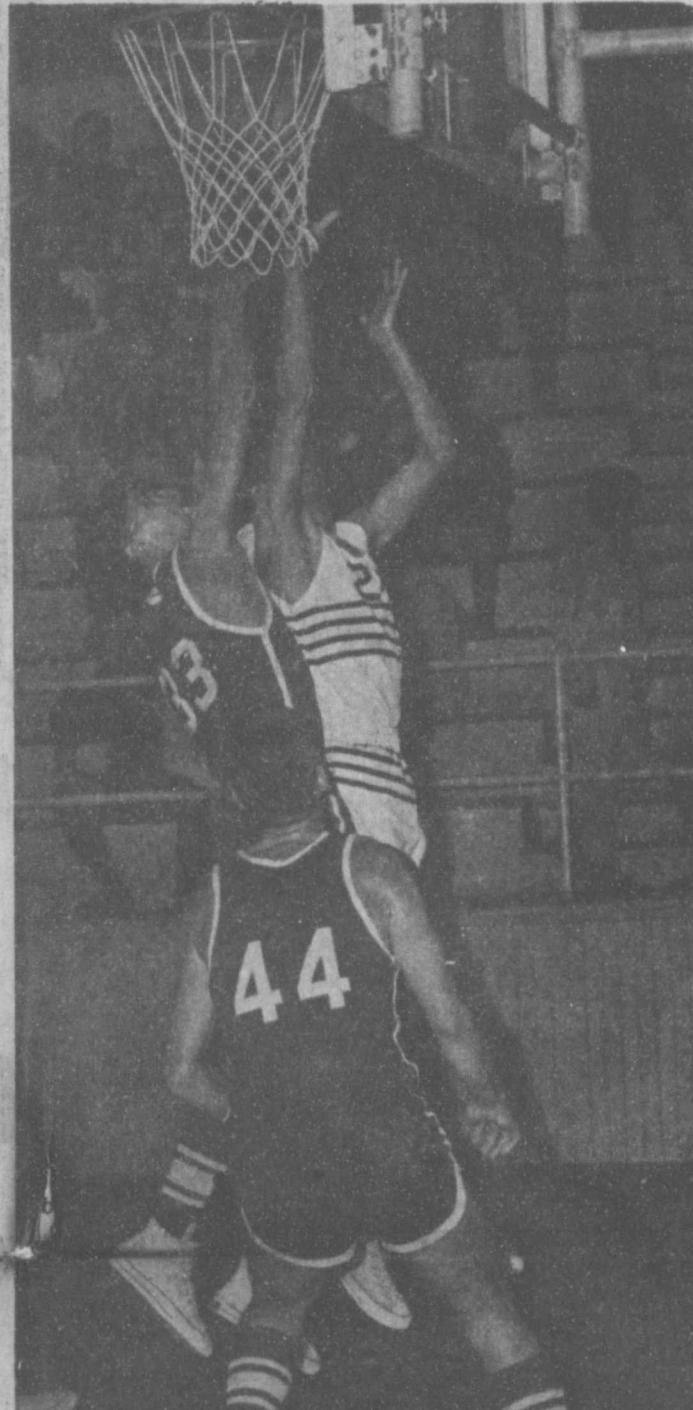

Malting barley will not be exempt from diversion requirements in 1970 since supplies are more than adequate to meet needs.

Substitution provisions relating to wheat and feed grain acreage will continue as in previous years.

Announcement will be made prior to sign-up time on production of substitute crops on diverted acres.

Mike Mathews (No. 32) sends a jump shot to the basket in the second quarter of the Hornets district opener with Belton. The tall Tigers forced the Hornets to shoot from outside.

Danny Belf lead the Hornets with 16 points against Belton and many of his shots were contested like the one above. In close the Hornets could not out jump the Tigers and rebounding was a Belton monopoly.

### Holiday On Ice Set For Waco

Waco...Hundreds of Central Texans already have purchased tickets for the upcoming Holiday on Ice Show. It will be presented at the Heart O' Texas Coliseum the nights of January 20, 21, 22, and 23.

Mail order tickets have gone to patrons in Temple, Bryan, Marlin, Clifton, Mexia, Calvert, Copperas Cove, Belton, McGregor, and other central Texas towns.

Tickets may be purchased at the box office on Bosque Blvd. from 9 a.m. to 6 p.m. beginning Friday, January 8.

"We want to emphasize the

fact that there will not be a Saturday performance of Holiday on Ice in Waco this time," said fair manager Leon B. Dolens. "Baylor already had a basketball game scheduled for Saturday when we booked this outstanding attraction. Thus, we are having shows on Tuesday, Wednesday, Thursday, and Friday nights at 7:30 p.m."

Mail orders will be filled promptly. Tickets are priced at \$4 for a box and rink side seats, \$3.50 and \$3 for reserved seats, and \$2 for general admission.

Tickets for children under 16 are half of the above price.

The Hornet Cagers opened the 14 game district race against the pre-season favorite Belton Tigers at the Gatesville High School gym Friday, Jan. 2.

The Hornets faced a typical district foe this season as Belton and most other District 13 AAA teams are taller and more experienced than the young Hornet squad.

Belton's height came to the front in the early part of the contest as blocked shots and turnovers stopped the Hornet offense-cold.

Tim Brown, a tall Belton forward, lead the scoring with 20 points. George Caldrige poured in 17 points as the Ti-

gers hot hand and top notch defense controlled the game.

Belton pulled out to a 16 to 7 lead at the end of the first quarter and in the second quarter the Tigers piled up 20 more points to lead 36 to 18 at halftime. A full court press by the Tigers shut off the Hornet shooters.

The Hornets improved their scoring in the third and fourth quarters with 14 points in each period. Belton scored 23 points in the final quarter to pull away from the Hornets.

Belf lead the Hornet scorers with 16 points (7-2). Mathews had 2-4-8, Bird 0-1-1, Moore 3-0-6, Saunders 2-3-7, Thompson 2-1-5, Palmer 1-1-3.

The number of cases will be light due to the October recall of the June 1969 Grand Jury. Below are listed the 20 persons called for possible Grand Jury duty Monday:

Mr. A.K. Arnold, Mr. Claude Dudark, Mr. Edward Schoenewolf, Mr. James Reid Powell, Mrs. Charles D. Wise, Cleo Woodard, Benton Walters, W.T. Hix, Allen R. Bennett, Paul A. Martin, and Norris Smith all of Gatesville.

## Landowners Sign Up For ACP Programs

"More than 60 persons inquired at the Coryell County ASCS office Friday about applications for the 1970 ACP 'Approval Practice' Program, reports ASCS Office Manager, Clois Stone.

Stone said the applicants signed up for various phases of the ACP 16 approved practices. For 1970, Coryell County has been approved for \$59-\$40.00 in conservation programs.

The line of applicants formed early. "Some of them got an early start by being at the office by the time it opened at 8 o'clock," he said. At first the ASCS committee will release about 75% of the approved money (approximately \$44,500) holding back 25% for later in the year at a later sign up periods.

The "Hold back" is designed to reserve funds for available some of the practices when they are most needed.

Below are listed the practices funded under the ACP Program:

1. Establishment of a permanent vegetative cover for soil protection or as a needed land-use adjustment.
2. Improvement of an established vegetative cover for soil or watershed protection.
3. Improvement of vegetative cover on range land by deferred grazing.
4. Controlling competitive shrubs to permit growth of adequate desirable vegetative cover for soil protection on range or pasture land.
5. Constructing wells for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.

6. Constructing dams, pits, or ponds for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.
7. Installing pipelines for livestock water as a means of protecting vegetative cover to make practicable the utilization of the land for vegetative cover.

8. Constructing permanent fences as a means of protecting vegetative cover.
9. Establishment of permanent sod waterways to dispose of excess water without causing erosion.
10. Establishment of perman-

ent vegetation as protection against erosion.

11. Constructing terraces to detain or control the flow of water and check soil erosion.

12. Constructing diversion terraces to intercept runoff and divert excess water to protected outlets.

14. Establishing vegetative cover for summer protection from erosion.

15. Application of cotton burs as a mulch to control wind and water erosion and to improve soil structure and permeability.

16. Treating land in home gardens by desirable soil building improvement measures.

Financing under most of the 16 practices is set up on a 50-50 participation basis with some programs only receiving 30% support.

## Cove Girl Dies In New Years Eve Crash

Killeen-A single-vehicle accident on the Clear Creek Bridge on Highway 190 New Year's Eve took the life of a 19-year old employee of the Mid-Texas Telephone Company.

Miss Gail Hummer, daughter of Mr. and Mrs. Thurmond Hummer, 505 Turner St., Copperas Cove, was reported dead on arrival at Darnall Army Hospital at Ft. Hood.

The girl was reportedly on her way to work in Killeen from her home in Copperas Cove when her car struck the west end of the bridge, about a half mile west of Central Texas College on Highway 190. According to Texas Highway Patrolman, Mike Feary, Miss Hummer was alone in the car. A spokesman for the telephone company said that she was scheduled to work Wednesday night.

The fatality was Coryell County's sixth highway death for 1969.

The body will be taken to De Ridder, La., for graveside services at 1 p.m. Saturday. Miss Hummer was born Nov. 13, 1950 at De Ridder, and lived in Copperas Cove since the age of four. She attended school in Copperas Cove.

Surviving are her parents; two brothers, Jerry Hummer of Copperas Cove and Wayne Hummer of Houston, a sister, Mrs. G. Litchfield of Troy; grandparents, Mr. and Mrs. C.C. Hummer of De Ridder; and her grandmother, Mrs. Terah Hummer.

## MIDNIGHT FALSE ALARM

False alarms at midnight are the best kind of fire to have on "any night especially cold nights."

Saturday morning at 12:45 a.m. three units of the Gatesville Volunteer Fire Department and 20 volunteers answered what was thought to be a house fire at 1307 St. Louis St.

Fire chief, Pat Patterson, explained Saturday that vapor from a floor furnace was thought to be smoke by the occupants. Patterson said "of course we were glad it was a false alarm."

A beautiful girl and her escorts are in the "Pooch Parade," one of the huge production numbers in the 24th edition of HOLIDAY ON ICE. The big skating extravaganza comes to Waco from Jan. 20 thru Jan. 23.

# Bone Marrow Transplant Operation A Victory Over Rare Birth Defect

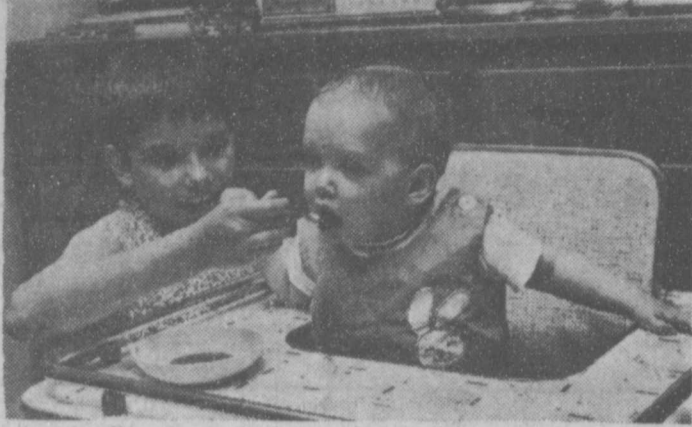

The Camp family knew about birth defects long before their son David was born. Although they had four healthy daughters, the life of one of their nephews had been claimed by a hereditary disease seven years earlier.

Every father wants a son, but Mr. Camp knew that his nephew's illness had been "sex-linked"—that is, girls carry the gene but boys get the illness—and that if his wife bore a son, he would run a 50-50 chance of being afflicted.

When David was born on March 19, 1968 in Wallingford, Conn., his parents and doctor were on the alert. At first, David seemed a fine, healthy looking 7 pound 10 ounce baby. But Dr. Jerome L'Heureux did not relax. He knew that if David was suffering from the same condition as his cousin, the signs might not show up initially.

Three months later, the insidious illness was discovered in laboratory tests. As feared, the diagnosis was sex-linked lymphopenic immunologic deficiency.

The prognosis was not good. Effects of this disease had always destroyed its victims'

HELPING HER BROTHER, David, is a habit with Doreen Camp. She was the donor for a bone marrow transplant that corrected a rare immunological birth defect in the Connecticut lad.

lives before their first birthday.

**Years of Research**  
Agammaglobulinemia (AGG) was first described in 1953. David's body lacked the normal defense system which helps us fight infections. Even a mild childhood illness could cause his death because of the deficiency in his ability to produce antibodies.

As far as Dr. L'Heureux knew, nothing effective could be done for David.

But when he consulted with his colleagues about the case,

one called his attention to the AGG research work of Dr. Robert A. Good at the University of Minnesota.

He contacted Dr. Good and initiated a string of events that led to the first successful bone marrow transplant in history—giving life to one little boy, and giving hope to many others afflicted with immunologic deficiencies.

Dr. Good is one of the many researchers whose work is supported by grants from the National Foundation-March of Dimes. A professor of pediatrics and microbiology at the University of Minnesota, he has been a National Foundation grantee since 1960.

He and his associates have been conducting a variety of research projects related to birth defects of the immunity system and bodily defenses. To correct such defects, Dr. Good wanted to transplant healthy bone marrow into patients with such defects in order to reconstitute their immunologic systems.

Other investigators had considered this line of treatment, but previous attempts at transplantation had failed because

of overwhelming, and ultimately fatal—graft-vs.-host reactions.

Most people are familiar with the concept of the GVH reaction today because of the publicity that heart transplants have received. When foreign material enters the body, antibodies tend to build up and attack or reject this material. This is the "rejection reaction"—the body rejects the donor material.

The GVH reaction is essentially the opposite of the rejection reaction. The antibody cells of the graft or donor material attack the host body into which it is transplanted.

The reaction can be minimized only by matching the donor material as closely as possible to that of the patient.

The well-known process of blood typing, i.e., assuring that a person with type A blood is not transfused with type B blood, is analogous to the matching which must be done before a transplant. But the marrow-grafting procedure is much more difficult.

### Miracle in Minneapolis

This is where previous attempts had failed and where Dr. Good and his associates succeeded.

By August 1968, the entire Camp family had journeyed to the March of Dimes Birth Defects Research Center in Minneapolis.

After extensive testing of David's four sisters, nine-year-old Doreen was chosen as the donor. On August 24, the transplant was performed. About two ounces of marrow was withdrawn through a hollow needle from Doreen's hipbone and injected into David's abdominal cavity.

On September 2, Labor Day, David began to take a turn for the worse. But after an initial bout with the dreaded GVH reaction, his symptoms subsided and the donor cells seemed to take hold. A second transplant was required in November and David began to improve dramatically.

Christmas 1969 was a very merry one for the Camp family. David was home again—a healthy little boy. The doctors' instructions: "Treat him like a normal boy."

RETAIN FISCAL RESPONSIBILITY  
BOSS, COULD I HAVE A RAISE?  
FEDERAL EMPLOYEES

**PUBLIC RESPONSIBILITY**  
Public spending control is essential in the nation's fight against inflation, and it's up to Congress and the Executive Department to shoulder the responsibility.  
However, the federal pay bill recently passed by the House and now being considered by the Senate could set a precedent with decided inflationary results.  
The bill would set up an eight-man commission (four department heads and four employees) with the avowed purpose of keeping federal pay scales comparable with those in private industry. But the fact is federal pay scales have moved up faster than those of most industries and have moved up faster than the rise in the cost of living.  
The bill would provide a system of automatic increases at least as generous as those in the past, and get it into law while inflation is still in the air.  
Giving control of the purse strings on Federal salaries to those who would directly benefit is really an abandonment of legislative and executive responsibility.  
The Administration has indicated that the present bill is inflationary and will be vetoed, if passed by the Senate. Congress, by rejecting this highly inflationary measure, could support the President in his efforts to stem inflation.

EVANT NEWS by Cornelia Kreid

Evant Outlook for New Year Happy

As this goes to mail, a seasoning rain is falling. It did not come in time to dampen the Christmas spirit at Evant, but is just right to insure the outlook for a happy new year. No serious illness, wrecks, or local deaths occurred at Evant this holiday season, so far, which is a good record anywhere. Much news will have to either wait for next week or be left out altogether, as the writer can not write until the news is called in. The local phone number is 3437. Readers you help make the news; you must call it in, before this column can take a "letter from home" to far away readers... And they love it. Many people read Evant news who do not even know anyone at Evant; imagine that! So let us keep Evant on the map and on people's minds....

All the Williams family, who are near in Texas even came for dinner Christmas at the home of Mr. and Mrs. Taylor Williams, but the big news is the call from Billy Ramsey, who lives in Fairbanks, Alaska, at three o'clock in the morning of Dec. 26th. No one minded getting up to talk, and the news is good, too, that he will soon be out of the service, but plans to continue to make Alaska his and his family's home. IT'S HERE, IT'S HERE...The New Year has finally arrived and resolutions have been made by each of us in an effort to improve ourselves during 1970.

One of my resolutions is to persuade the readers of this column to bring in or call in their news items during 1970. During 1970 I would also like to see better response from local clubs or organizations. Is your club worthy of membership-if so publicize the fact! Let people know what your group is doing.

## SENATOR'S REPORT

Ralph Yarborough

There has been a great rush of legislation through the Senate in the past few weeks. There have been many victories for Texas in appropriations measures and a great victory for all taxpayers in Senate passage of the first increase in the personal exemption on income taxes in 21 years. Here is a brief rundown on some major legislative items: Personal Income Tax Exemption: For the best, most direct tax relief for the individual taxpayer, I have been pushing for an increase in the personal exemption since I first entered the Senate in April, 1957. This year, Senator Albert Gore of Tennessee and I joined forces to get through an increase from the present \$600 to \$800. The Yarborough-Gore amendment will raise the personal exemption to \$700 in 1970 and \$800 in 1971. Our amendment also provides that the first \$1000 income will be nontaxable. This will provide greatly needed tax relief to low and middle income families. In the Senate we also voted to increase Social Security payments by 15% with a minimum Social Security payment of \$100 a month. The Senate exemption increase and the Social Security increase now go to the House of Representatives. I hope they agree with the Senate to give some relief to the small taxpayer. Public Works Appropriations-The Senate managed to win major increases over the bill which passed the House of Representatives. As a member of the Senate Appropriations Committee, I was able to add increases on some Texas projects and money to start work on new projects-Aubrey Reservoir near Dallas, Cedar Bayou on the Gulf Coast and the Corpus Christi Ship Channel. The bill provides money for many needed water development projects and flood control protection. I also added beginning money on Millican Dam on the Navasota River, but the House of Representatives conferees struck it out in conference. Voter Registration: At this point let me remind all Texans to register NOW so they will be eligible to vote in the many important elections in 1970. Remember you must register by January 31, 1970, to qualify to vote in any election at any time in 1970. Many statewide, county, city, and district officers will be elected in Texas in 1970, and important constitutional amendments are on the Texas ballot.

Interparliamentary Union-Enroute to the Interparliamentary Union Meeting in New Delhi, India, the U.S. Delegation stopped first in Moscow and then went to Tashkent, capital of the Uzbek Soviet Socialist Republic. Uzbek is a central Asian Soviet Republic which produces over 70% of all the cotton grown in the Soviet Union. As a representative from the U.S. Senate, I got to compare Soviet cotton growing methods with those used in Texas. After the official meetings in India, we stopped and visited with U.S. troops in several tense spots in Asia.

Year End Report and Greeting: This year of 1969 has been a full and busy year. In January, 1969, I became chairman of the Senate Labor and Public Welfare Committee, thus becoming the first Texan in 16 years to be chairman of a regular permanent major Senate committee. It has meant long hours, day and night and extra work, but it has brought great satisfaction, as I have been able to do more for Texas and for people everywhere in the nation, than ever before. The Labor and Public Welfare Committee has jurisdiction over all education, health, aging, mental health, alcoholism and narcotics, manpower training, labor, poverty, veterans education and hospitalization, railroad retirement and much other legislation in the Senate.

Many of you came to Washington during the year and I want to thank all those who stopped by the office. Some of you I had the privilege of seeing personally. Senate and Committee work kept me from visiting with each of you as I would like to have done. Remember, if you do get to Washington, stop by the office. If I am unable to visit, a member of my staff will be glad to assist you.

Lawlessness continues at home and it will not be cured simply by passing more laws. Our parents are going to have to accept more responsibility in the proper training of their children and our courts are going to have to give our law enforcement officers more cooperation.

Finally, we are still faced with inflation and it is probably not going to be cured without some real sacrifices, but in my judgment, it still can be cured in time to avoid a great Depression like that of the 30's if we are willing to make some temporary sacrifices.

In spite of these problems, I think the American people have both the ability and resources to overcome their difficulties and to continue to enjoy the greatest and finest country in all the world.

## Senator's Report From Bob Poage

Happy New Year to everyone! Indeed, it will probably be in the New Year before you get this. I hope you all enjoyed a pleasant Christmas. For Frances and me, it was good to be at home and see our friends.

Although the Congress acted on many of the measures before it, it seems to me that it was a mistake to postpone the convening date of the next session until the 19th of January. I know that the Appropriations Committee will get lots of work done before that time, but I would think that it would be better for the session to start earlier and try to adjourn earlier. I do not know whether I will have to go back to Washington before the convening date or not. If not, you will receive no more Newsletters until the last week in January, but I will be at various places in the District in the meantime.

Since we will hardly be at home long enough to get our office transferred down here, I would suggest that those who have problems continue to contact us at Washington. Actually some of us will be in Waco and some will be in Washington, but you can always reach us through the Washington office--by writing 2107 Rayburn Building, Washington, D.C. 20515, or by phoning Area Code 202, 225-6105.

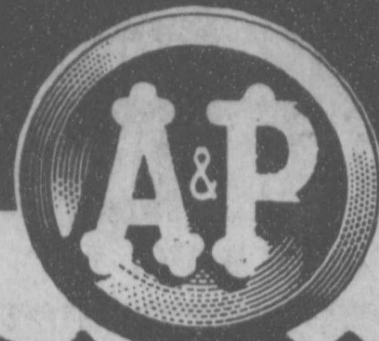

We are going to start the new year with the same problems which have plagued us during 1969. The war in Vietnam goes on and while I hope the President can by his withdrawal policy induce the communists to change their attitudes, I frankly can hardly expect it. I think we are going to have to prove and use our military power in order to end the war.

Lawlessness continues at home and it will not be cured simply by passing more laws. Our parents are going to have to accept more responsibility in the proper training of their children and our courts are going to have to give our law enforcement officers more cooperation.

Finally, we are still faced with inflation and it is probably not going to be cured without some real sacrifices, but in my judgment, it still can be cured in time to avoid a great Depression like that of the 30's if we are willing to make some temporary sacrifices.

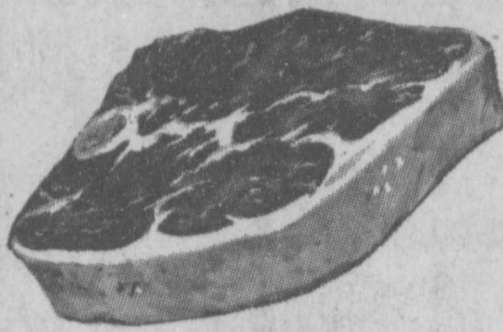

In spite of these problems, I think the American people have both the ability and resources to overcome their difficulties and to continue to enjoy the greatest and finest country in all the world.
