VOTER ESTIMATE NEAR 8000 AS CORYELLITES REGISTER TO BE HEARD

"Voter registration will probably reach 8000 with this morning's active registration, said Jack B. Whigham, County Tax Assessor-Collector, Saturday morning during the last minute rush.

Whigham had registered over 100 voters in the first two hours of the special Saturday registration not counting the registrations by mail.

By 10:00 a.m. Saturday the Gatesville registration had swelled to 5,541 with still two hours to go and all the mail to be processed. Copperas Cove reported 2098 voters registered through Friday afternoon for a county total of 7639 voters.

Whigham indicated that heavy turnouts in Precincts 2 and 4 were evident probably due to the contested races. Final voter registration will probably reach near the all-time record for voter registration set in 1968 at 8,206.

U.S. 190 and Highway 36 East Loop

HIGHWAY DEPT. ANNOUNCES FUNDING OF TWO PROJECTS

Coryell County has been scheduled for work programs and purchase of right of way for two major projects under the two-year consolidated Highway Program announced Saturday by the Texas Highway Dept. District Engineer, Elton B. Evans, of Waco stated that the two programs in Coryell County included in the two year

program were "grading, structures and surfacing, on US Highway 190 from the east city limits of Copperas Cove to the Bell county line, approximately four miles. The second project slated for funds is the Highway 36 loop east of Gatesville. Evans noted in the announcement that "purchase of right of way"

a distance of approximately 5 miles will be funded on a 50-50 bases with the County government.

Paul Hensler, senior resident engineer at Gatesville, indicated that "preliminary work still must be completed on both projects. He indicated that actual purchase of right of way is still some time in the future on the 36 Loop.

The state release notes "In action that will mean better highway facilities throughout Texas, the Texas Highway Commission today approved a \$406-million, two-year Consolidated Highway Program.

The program calls for construction or reconstruction of US- and State-numbered highways.

In all, a total of 1,968.6 miles of non-Interstate highways will be built or reconstructed under the program. Estimated cost of the construction work is \$365 million.

The program also covers the State's portion of the right of way cost on 1,327.9 miles of US- and State-numbered highways at an estimated cost of \$40.5 million. On these highways, the State shares right of way costs on a 50-50 basis with local governments.

In approving the program, the Commission earmarked funds for needed improvement on many routes of the State-maintained highway system. This will permit the orderly development of plans for construction.

Hornets Win On Foul Shooting

Hornets Grab Three Point Victory From Cross-County Rival

The Hornets broke into the "ease victory column" Friday night as they grabbed off a thrilling three point victory over cross-country rival Copperas Cove 66 to 63.

The Hornets were hot handed in the contest shooting their best game from the field.

The Hornets took a commanding lead in the early stages with field goal accuracy at 47% for the first half and a ten point lead.

The lead dwelled and with approximately three minutes to play the Cove Bulldogs picked up a one point lead. Cove never lead by more than one point.

With 2:40 to play Cove started a stall, waiting for the easy shot or a foul call. The Hornet defense pressed the Cove ball handlers and Mike Mathews intercepted a pass. Mathews drove down court to the Hornet net but missed a lay-up shot. Cove rebounded and gain went into the slow deliberate play waiting for the easy shot or foul.

This time with under 2:00 minutes to play Jim Saunders picked off a Cove pass and headed down court. At the head of the foul circle Saunders stopped and three Bulldogs stole the ball back.

Back down the court Cove slowly came and this time a Bulldog "put up" a shot and Danny Belf rebounded for the Hornets. Belf lead the Hornet rebounding with ten rebounds.

Belf came down to the Hornet offensive goal and passed off to Saunders. Playing with out the ball Belf drove down the lane to the basket and was fouled as the ball was passed in under.

Belf canned the first and then the second foul shot to give the Hornets a squeaky one point advantage 64-63.

Cove came down on a drive

hoping to get off the final two pointer of the game and hopefully a one point Cove victory.

A Bulldog shot missed and Larry Moore controlled the boards for a crucial last minute rebound. Moore passed to Saunders who began working the ball down court.

The desperate Bulldogs fouled Saunders at half court. With seconds, Saunders hit two straight foul shots to ice the victory.

Rickey Thompson was fouled with less than ten seconds to play on the clock but missed the free shot. The Hornets played "no foul" defense and allowed the Bulldogs to get off one last shot which missed.

The first three quarters were just as exciting to Hornet fans as the team played its best basketball of the season. Hornet shooters found the range and maintained the trademark of their otherwise dismal year—their pride and hustle.

The fast paced Hornets dropped in 18 points in the first quarter for a three point lead. The accurate shooting continued in the second quarter as the victory hungry Hornets poured in 20 more points and a ten point halftime lead.

In the third quarter the Hornets took a 13 point lead at one point but the Cove bulldogs stormed back and cut the lead down to eight points at the start of the exciting fourth quarter.

Cove kept up the attack and with almost three minutes left to play picked up the lead for the first time. Then the excitement began.

Looking at the statistics of the game Mike Mathews lead the Hornets with 23 points. Mathews hit on eleven field goals and one free throw. Ma-

MPL NOW MARKETING KASSAY-LANKENAU LUNG NATIONWIDE

Medical Plastics (MPL) is one step closer to their stated goal of a complete medical man-

ufacturing with the introduction last week of their new Kassay-Lankenau Lung Model.

General Manager, Charles Wise, made the announcement Friday in a news release, "The (lung) model is now in production and being shipped to customers nationwide." Wise explained in the news release "It introduces a new dimension for studying the anatomy of the lung because it is cast from molds which can be taken apart along the actual lines that divide the segments."

The release notes "the normal human lung is divided into ten segments on the right and eight on the left."

According to the release, "Each segment is further divided into millions of small air sacs resembling clusters of grapes. The right adult lung when filled with blood weighs twenty-two ounces, the left twenty ounces. In the bloodless condition, the right lung weighs eight ounces and the left seven ounces. The healthy young lung of a non-smoker, which we have reproduced is soft, spongy, light weight and has a light pink color appearing very much like sea foam. As a person gets older the lung turns to a slate gray, depending on the amount of atmospheric dust or smoke inhaled.

Dr. Dezso Kassay, of Philadelphia, noted authority on the lung, cast the first experimental model in 1966. This led eventually to the improved model we have today.

see Medical Plastics page 2

The new lung model to be marketed by Medical Plastics Laboratories is pictured above with Production Manager, Don Jake Saunders. Saunders is holding the right lung and separating two segments showing the interior structure.

...Production Line

The Lung Model production line at MPL is based around the exact artistic reproduction of the human lung. Here Mrs. Wilma Peavy, Fred Ochoa and Mrs. Etta Wilson are painting special coloration to segments of the lung.

Oglesby Lions To Sponsor Rattlesnake Hunt Feb. 28 - Mar. 2

The Oglesby Lions Club will sponsor a rattlesnake hunt Feb. 28th through March 2nd announced Project Chairman, H.L. Burlison, last Friday.

Hunters must register with the Oglesby Lions at the Oglesby High School and pay a \$2.00 entry fee before hunting. Burlison noted that hunting must be within a 30 mile radius of Oglesby.

Hunters from all over the state are inquiring about the hunt and Burlison anticipated a large local turnout for the event.

The Lions have planned a street dance for Saturday night. Local citizens will be able to buy expertly cooked rattlesnake steaks in Oglesby during the three day hunt.

The Venomaires, a non-profit club, which collects venom from rattlers and other poisonous snakes will conduct the hunt. All snakes entered for prize become the property of the club.

Prize money totaling over \$225 will be presented. The

longest snake, most pounds of snakes each day, most total pounds, snake with most rattlers, smallest snakes, and oddest snake will receive money and trophy awards.

There will be additional prizes for live coral snakes during the hunt. All prize snakes must be Western Diamondback rattlers.

Burlison noted that no firearms are allowed in the hunt areas and all snakes must be captured live.

Robert Scott Elected Secretary Of Saf-Bi

Mr. Robert Morton Scott of Morton Scott and Son in Gatesville, has been elected Secretary of the Southwest Associated Furniture Buyers, Inc. (known as Saf-Bi)

Saf-Bi is a member owned corporation of 84 of the southwest outstanding furniture stores, who have joined together to pool their buying power to secure volume prices on merchandise purchases and better low cost advertising. Saf-Bi was formed in 1960 at the Dallas July Furniture Market by a group of Texas Furniture Dealers who had become acquainted through the State Retail Furniture Association. Its membership now includes furniture dealers in the neighboring states of Oklahoma, Arkansas, and Louisiana.

Saf-Bi is the largest Furniture Dealer-Owned merchandising and buying syndicate in the United States with office in the Dallas Trade Mart.

Miss Margo Veazey Selected GHS Basketball Sweetheart

Beautiful and vivacious Margo Veazey was selected by the boys varsity Basketball squad Friday as the 1969-70 Basketball Sweetheart.

Margo, daughter of Mr. and Mrs. Billy H. Veazey was presented a bouquet of red roses by Danny Belf.

Miss Veazey is an active member at GHS. She has played basketball for four years and this year she was captain of the team, besides an outstanding guard. Miss Veazey received All-Tournament laurels at the 1969-70 Baylor Tournament.

Also a member of the track team, Margo runs the 440 dash, the mile relay and the hurdles. She ran in the State meet in Abilene last year.

Elected to the post of varsity cheerleader is just another of Miss Veazey's honors. Margo is presently a Senior at GHS.

Tonya Price, ace rebounder and forward, for the Gatesville Hornets chases the ball wherever she finds it. Here she passes off to Barbara Patterson. The Hornets were unsuccessful in their effort to capture a third straight district title.

HORNETTES LOSE IN HEARTBREAKER 51 TO 43

The Hornets had their District Championship string broken this season as the Rockdale Tigers downed the locals in two head to head contests. The Tigers and Hornets met Thursday night in the local gym for the second and very important District decider.

The Hornets played within range of victory all night but a lack of rebound strength on the offensive board spelled the difference. Several times during the game the girls moved to within four points of the very tough Tiger team.

The quarter scores for the game were Rockdale 11-Gatesville 9 at the end of the first quarter; 29 to 19 at the half; 38 to 28 at the third quarter break; and 51 to 43 at the bell.

In the latter stages of the game the girls made several charges to within three points only to have the Tigers regain their comfortable lead.

In the second half Kathrine Mayberry played outstanding defense making several key

pass interceptions. The game "status" show the Hornets hitting on 13 field goals while the Tigers canned 14 field goals. Coach Gerald Poe noted the real difference came in the foul shooting where both teams shot at 63% but Rockdale made 23 of 37 while the Hornets made 17 of 27.

Hornette scoring was as follows: Debbie Hairston, 0-1-1, Barbara Patterson 8-4-20 high point, Betty Swindall 1-0-2, and Tonya Price 1-2-4.

Eberhart Promoted in Apparel Assn.

Washington, D.C.—Bruce L. Eberhart, son-in-law of Mrs. T.M. Hall, 1010 Saunders Street,

Gatesville, has been promoted to Office Manager for the American Apparel Manufacturers Association.

Eberhart has been the Association's Director of Communications since affiliating with it in 1966, upon retirement from the U.S. Air Force. He retired as a Major having been in the public information field over 20 years.

The American Apparel Manufacturers Association is the country's largest trade organization representing the apparel industry, with members in 43 States, the District of Columbia, Puerto Rico, and 13 foreign countries.

Eberhart is married to the former Marjorie Hall. She is presently spending a week in Gatesville visiting her mother and sister, Miss Louise Hall. The Eberharts reside in McLean, Virginia, just outside Washington.

EBERHART

Auto Registration Begins

TAX OFFICE READY—The Coryell County Tax Office is ready and waiting to register Coryell vehicles in the annual registration program period which will end during the spring. New this year is the blue and white license plates for the state of Texas. The plates, white with medium blue figures, go on sale Monday as part of the registration program.

...Medical Plastics

Don Jake Saunders, Production Manager and Medical Artist supervised the research and development at the Medical Plastics Laboratory. Much time, effort and money was spent in research before a single model was available for sale. Every item in the lung model is manufactured in our laboratory at Gatesville except the wire holder attached to the base.

Our biggest market will be with the chest surgeon, general surgeon, medical and other schools and lawyers. Other medical specialties will be interested to a lesser degree. It will be used for patient and student explanation.

H.T. Jenkins, Sales Manager will direct the sales promotion and advertising.

MPL has been in operation since 1950 and has been from its inception one of the worlds most unique industries. Company brochures note that MPL is the worlds only company to cast the individual bones of the human body by hand from molds made of human bone, thus insuring the faithful reproduction of each bone. MPL soon developed beyond the ori-

ginal skelton and began reproducing muscle tissue, nerves, arteries, ligaments, tendons, and pathological conditions.

Major production items of the 30 employee plant include skulls in a variety of features, spine models, teeth and jaw models, heart models, hands, feet, complete leg models, and female pelvis models. Each detailed model can be assembled into the MPL Master Skelton Model costing \$1,268.

MPL has increased its direct sales until in 1970, it is estimated the company will total 75% direct sales and 25% through distributor. Wise points to this change noting that promotion of the Medical Plastics name in recent years has been extensive. Wise dispelled the notion present in Gatesville area that MPL was in a non-completion market, during a recent interview.

...Hornets

threws was joined in "double figures" by two other Hornets Jim Saunders with 6-6-18 points and Larry Moore with five field goals for ten points.

Other scoring included Danny Belf 2-2-6; Steve Palmer 2-1-5; and Victor Bird with 2-0-4.

All Hornet scorers scored more than the three point margin of victory.

The Hornets hit on ten of 17 free throws with four of these foul shots coming in the crucial last two minutes of play. Rebounding was lead by Belf with ten, Moore picked up eight and Saunders had seven.

The markets for the MPL product line are as varied as the product itself. Wise notes that the most sales are one time sales although there is models which will only interest the chest surgeon and a narrow group of specialists.

Many MPL's sales are professional conventions where salesmen contact many potential customers at display booths.

The product research department at MPL has recently completed work on a female pelvis which is already on the production line. Research cost on the department will begin development of a male pelvis soon.

...Census

in 3 to 5 weeks. Census takers will be able to make between \$60 and \$100 per week depending on their efficiency.

2. Receive a pension as a former Federal Government employee or military officer.

Applicants must meet the following qualifications:

1. Be U.S. citizens, 18 or older, of good moral character.
2. Pass a written test demonstrating ability to understand printed instructions and to do simple arithmetic.
3. Be able to walk a lot, climb stairs, work on your feet, see and hear well.
4. Have a car and a phone available for your use.

Applicants may not:

1. Engage in any form of political activities during the period employed.

Heat-Treated Grain Digests Easier

"Popping" the grain added a lot of bulk to the feed as is evidenced by the bulk density figures for loose-fill samples which ranged from 49 pounds per cubic foot for the original whole grain to about 6 pounds per cubic foot for the completely popped grain.

"Cattle which were fed the dry, heat-treated grain showed significantly higher digest-

ibility of dry matter, organic matter, non-protein organic matter and nitrogen-free extract, but not of fats, fiber or protein," Sorenson noted.

An unknown part, but not all, of the increased digestibility could be attributed to the lower level of feed, the grain and feed processing engineer explained.

"No differences in digestibility were found among cattle fed three different fractions of "popped" grain indicating that dry heat rather than "popping" per se was the reason for changes in performance," Sorenson concluded.

Bob Poage Acts On

Pesticide Legislation

Washington D.C., Jan. 27... Legislation designed to give Americans the same protection of their food supplies from pesticides and insecticides used on farm commodities shipped into the United States that is provided on domestic crops was introduced today by Chairman W.R. (Bob) Poage, D-Tex., of the House Committee on Agriculture.

His action follows recent issuance of regulations by the Department of Agriculture sharply restricting the use of DDT and other chemicals on American farms and ranches.

Amending the Federal Insecticide, Fungicide, Rodenticide Act, the measure introduced by Poage states that agricultural commodities imported into the United States "shall be prohibited from any country has determined that such country has at least equal restrictions" with respect to the use of such pesticides and insecticides.

The Department issued regulations withdrawing the required registration of those chemicals believed to contaminate the environment beyond certain tolerance levels.

"If it has been determined that American producers must abandon the use of certain types of pesticides in the interest of public health," said Poage, "then it is certainly logical that we should not permit the entry from other countries of commodities which may bear the same contamination we seek to avoid in regard to our domestic production." DDT is just as poisonous when sprayed on crops abroad as it is at home.

Aside from the public health aspects of the matter, the lawmaker said, it would be patently unfair to force the American producer to turn to the use of more expensive pesticide substitutes, where they can be found, and worsen a foreign competition problem which already involves production of crops with labor that is far cheaper than that paid farm hands in this country.

CORYELL COUNTY NEWS

gatesville at a glance

by sally jund

IT HAPPENED, IT HAPPENED...I finally made my new year's resolution come true! I bought an item made in Japan. It was a pair of "stop-sign-shaped" sun glasses with rose lenses. I guess now I can look at the world through rose colored glasses! I'll let you know how it looks! Sukiaki...Sukiaki...Sukiaki!

WACO GARDEN CLUBS INVITE LOCALITES TO FASHION SHOW...What fun it is for any woman to view the latest fashions for any season of the year—especially when they are presented for age groups to fit a varied audience! I wonder what the big colors for spring will be? What skirt length? What styles?

If you have questions about the BIG fashion news for spring answer them Wednesday at the Waco Garden Clubs' annual spring fashion show at the Nell Pape Garden Center on North Fifth Street. The group cordially invites all Gatesville Garden Club members and the general public to the fashion event. Tickets are \$1.00 per person and may be purchased at the door. As a special treat, coffee will be served at 10 a.m. and the show will begin at 10:30 a.m.

Serving as coordinator and commentator for the show is Mrs. Carole Bileck, manager of Olga's. Ten women of varying ages and sizes will model versatile ensembles from the firm's spring collection designed to carry them through the day, a spokesman said.

Mrs. Willie Harrington, Elizabeth Arden cosmetic representative, will demonstrate the correct use of her cosmetics on a member of the audience.

RETURN FROM FRENCH ALPS...What a fun time it was for Eugene and Carol Butch of Bryan to travel to the French Alps and enjoy snow skiing. Eugene is the son of Mr. and Mrs. Carl Butch of Whitehall.

The pair flew to Geneva, Switzerland aboard a plane chartered by a faculty-student tour group from Texas A&M and the University of Houston. The 250 persons in the tour group then bused to the French Alps where the skiing was marvelous, according to the Butchs.

The fun ended all too soon Sunday when the skiers returned to Bryan and the life of a college teacher. Eugene teaches in the A&M School of Engineering.

Food For Thought

Mrs. B. A. Snoddy

"I regard iniquity in my heart, the Lord will not hear me", Psm. 66:18.

"Regard" means to hold in high esteem; to show respect or consideration for, and look upon so as to accept, or give heed to, so—if we regard sin, or iniquity, or accept it, or give it consideration, or heed to it, the Lord will not hear us.

If I should have a line of thought for this weeks writing, I would like to call it "The Standard of God's Word."

"Behold, the Lords hand is not shortened that it cannot save, neither is his ear heavy that it cannot hear, but your iniquities have separated between you, and your God, and your sins have hid his face, that he will not hear" Isaiah 59:1 and 2.

We are living in a time when sin and iniquity abounds; violence is covering the earth. We used to hear of awful things happening in other lands, other states other communities. We could not believe it could ever be in our beloved homeland, but we have only to listen to the daily news to know that it is happening in our homeland; sometimes very near home.

Now, we have those whose lives are so wicked, they never pray, they never hear from heaven, so they come up with the theory that God is dead—And to them he is dead—There are those who tell us that the Truths of God's word, which are written to admonish us, are only myths, and will soon all be written off out of the minds of the people. The "Thou shalt not's" are out dated codes of living, so say some of the modern educators, but the Bible says: "The word of God endureth forever."

While the weather was cold last week, we did a lot of study in the word of God, and we found some amazing truths, and some standards the old saints of God lived up to, and these are written as examples unto us, and to admonish us—

"All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness, that the man of God may be perfect, thoroughly furnished unto all good works" IITim. 3:16,17.

We wish to bring a few old Bible characters, and tell you some of the standards they lived by. We have time for only a few of them, and a few state-

ments concerning them:

The first I wish to bring is Job. The word of God says he was a man that was perfect and upright, one that feared God, and eschewed evil. Now the word eschew means to abstain from, or shun something wrong or distasteful, so we believe Job was a man who kept himself! He kept the members of his body under subjection. He made a covenant with his eyes, Job 31:1. Do we need to do that today? How about some things in print? How about obscene pictures? How about some things on T.V.?

There are some good things to see, and hear, on T.V. but some of it is not fit for anyone to look at. Jobs covenant with his eyes was concerning a maid, I believe it would be good to make a covenant with our eyes. Another Bible character I wish to bring is David. The Bible says he was a man after God's own heart. He was one of the forefathers of our Saviour, according to the flesh.

He sinned—yes, but he repented with bitterness of heart. He cried out to God: "Attend unto my cry, give ear unto my prayer: I am purposed that my mouth shall not transgress" Psm. 17:3.

Oh, that is the unruly member! How deep harsh words can cut and hurt. How we can hurt our friends, our neighbors, our Pastor, our loved ones, by not purposing to not transgress with our mouth, as did David. He also said in the same prayer: "Hold up my goings, in thy paths, that my footsteps slip not". He needed help from God to help him walk uprightly.

These scriptures can be used as instructions in righteousness. Then David added: "Keep back thy servant from presumptuous is taken from the word presume, which means probable but not conclusive evidence (Don't tell it, as if it was positive, unless you are certain) Presumptuous also means to go beyond what is right or proper.

Then David finished by saying: "Let the words of my mouth, and the meditations of my heart, be acceptable in thy sight Oh Lord." Meditation is what we think about. These still instruct in righteousness. Let us also consider Daniel who gave us insight on how to live for God. He was one of the children of Israel taken captive, and car-

ON DEAN'S LIST AT BAYLOR ...Dr. and Mrs. Otis C. Ray can be proud of their daughter Sue! Sue is a senior at Baylor University in Waco (Sue is a former roommate of mine.) She is majoring in political science with a minor in sociology and was named to the University's Dean's List this semester with a 3.6 average!

Sue will soon tackle the difficult entrance exams to various law schools around the state. She will graduate from Baylor at the spring commencement exercises. Congratulations Sue! We're proud of you!

MY SENTIMENTS EXACTLY ... Reprinted from the Goltswaite Eagle!

I saw an article last week in the "DeLeon Free Press" in the form of a big ad that I thought was pretty good, so I'm passing it on to you. "We do not intend to be inquisitive....But—your friends and neighbors always like to know if you have been on a trip, entertained guests, celebrated a birthday, caught a big fish, moved, eloped, had a baby, been in a fight, sold your sheep, cut a new tooth, sold out, had an operation, painted your house, had company, got married, been robbed, been shot at or stolen anything. Please report all your news as early as possible." I think that pretty well sums it up. Wouldn't

this be a funny old world if we didn't hear all these things?

Miss Ayres-McCarley To Marry Saturday

MISS AYERS

Mr. and Mrs. Harold Ayers of Jonesboro Star Route, Gatesville, have announced the approaching marriage of their daughter, Geneva, to Jim McCarley, son of Mr. and Mrs. George McCarley of Phoenix, Arizona.

The wedding will take place at 4 p.m. Saturday, Feb. 7, in the Westview Baptist Church, Gatesville. Following the ceremony, a reception will be held in the home of the bride's parents.

ried to Babylon during the reign of Nebuchadnezzar, and he had a lot of pressure put on him, to give up his standard of living.

But Daniel purposed in his heart, that he would not defile himself with the portion of the Kings meat, nor with the wine, which he drank, Dan. 1:8.

Our world is being filled with things that will defile our bodies—Know ye not that your bodies are the temples of the Holy Ghost? That's what we are created for—to glorify God. I Cor. 6:20.

Satan is trying to make it legal to smoke marijuana, and to use drugs. Once our country sides seldom had a liquor store, now—very few counties are not open to them.

But God's people are to purpose, not to be defiled. We cannot glorify God with an unclean temple, and further more God says, that those who defile the temple of God them, will God destroy, I Cor. 3:17.

But this purpose of Daniels heart paid off for him. When the crisis came, he was able to meet it. We don't know what is in our tomorrows. We may need God's help instantly. He said to come boldly to the throne of Grace, to find help in time of need, but he also said if we regard iniquity in our hearts, he will not hear us.

Daniel learned that, hundreds of years ago when he faced the lions den under Nebuchadnezzar, he didn't have to repent, he had already purposed not to defile himself.

Neither did his friends, the three Hebrew children, when they refused to bow down to the image that the old King set up and commanded everyone to fall down and worship it.

They replied that their God was able to deliver them, but if he didn't they wouldn't bow down before it.

God didn't keep them out of the fiery furnace he just went in there with them and the only thing the fire did was to burn off the shackles they were bound with, before they were cast in; they themselves were not even burned nor was the smell of fire upon them.

The image set up by Nebuchadnezzar is a foreshadowing of the end of time, when the Anti-Christ will also set up an image and demand that every one worship it. Rev. 13:14-15. These scriptures, I've been given, are written for our admonition for correction for instruction in righteousness that the man of God may be perfect thoroughly furnished unto all good works.

I'm glad for the word of God, aren't you? I'm glad God has shown us, by his word how to live, aren't you? Truly these are some of the standards as found in Gods word.

To Note Golden Anniversary

The children of Mr. and Mrs. J.L. Glass will honor their parents with an open house on their 50th Wedding Anniversary Sunday, February 15th, in their home at 202 Spindletop St.

Friends and neighbors are cordially invited to attend from 2p.m. to 5 p.m. Mr. and Mrs. Glass, both natives of Coryell County, married February 14, 1920.

The couple have 4 children: Mrs. Cleatus Geiselbrecht of Gatesville, Mrs. Varnell Wolff of Gatesville, June Glass of Austin and Robert Theford of Temple. They have 12 grandchildren and 11 great grandchildren.

MR. AND MRS. GLASS

Miss Gordon To Wed Lonnie Southerland

Mr. and Mrs. Fred Gordon of Hamilton announce the engagement and approaching marriage of their daughter, Donetta Lou, to Lonnie Lynn Southerland, son of Mr. and Mrs. Jessie Southerland of Gatesville. The wedding will be at the Church of Christ in Hamilton June 21, 1970.

Local Cancer Society

To Meet February 9

The Coryell County Chapter of the American Cancer Society will meet in the county court room Monday February 9th at 7:30 p.m.

County Chapter President, Dr. Wm. F. Floyd announced this week "the program will include a film," "Journey Into Darkness," and will be of interest to everyone.

The general public is invited and urged to attend.

Loy Brown, Jr.

In Vietnam

U.S. Army, Vietnam(AHTNC) Dec. 22-Army Private First Class Loy G. Brown Jr., 20, whose parents live in Flat, Tex. was assigned Dec. 13 to the 1st Infantry Division in Vietnam as a rifleman.

CARD OF THANKS

Our heartfelt thanks go to all who extended comforting sympathy and help in the recent loss of our loved one. For the beautiful service, floral offerings, food and other kindnesses we are deeply grateful. The family of Mrs. W.G. Hord

PROUD PARENTS OF THIRD CHILD...Mr. and Mrs. John Franks of Brownwood are the proud parents of a baby girl, Marcella, born January 29th at 1:40 p.m. in a Brownwood hospital.

Little Marcella weighed in at a healthy 8 pounds and 2 ounces. She joins a brother Brian, 4, and a sister Holly, 2, in the Franks household.

Grandparents are Mr. and Mrs. Howard Franks and Mr. and Mrs. Carl Blum both of Gatesville. Equally as proud are great-grandparents, Mr. and Mrs. R.O. Blum of Cranfills Gap, Mr. Calvin McFadden of Jonesboro and Mrs. I.R. Franks of Gatesville.

John is business manager of the soon -to-be completed school for delinquent girls in Brownwood.

PARENT-TEACHERS TO HOLD ANNUAL TALENT SHOW FEB. 10

The PTA annual-school talent show will be Tuesday, February 10, at the Gatesville High School auditorium at 7:30 p.m. Students from elementary, junior high, and senior high schools are participating.

Instead of the chili supper which usually accompanies this annual event, there will be an intermission during the talent show in which refreshments, homemade pies, brownies, coffee, and punch will be served in the cafeteria.

Elementary students on the program will be: Preston Tatum, Howard Porter, Marlene and Garlene Balze, Sheila Fisher, Rose Fisher, Stephanie Sims, Shane Springstun, Mary Wicker, Laura Stephens, Kathy Wise, Brian Brown, Kim Hollingsworth, Lisa Christmas, Lorenzo Ford, Greg Henderson, Lee Ford, Stanley Sims, Jan Bridges, Lisa Hafercamp, Suzanne White, Kim Gossett, Kathy Daschofsky, Kari Donald-

son, Scott Stephens, Jeff Arnold, Andy Gomez, and Drew and Andrea Meeks.

Junior high school students participating will be Sheryl Stewart, Kathy Porter, Becky Esparza, Glenn Delano, Debbie Shirley, Brenda Butch, Janet Porter, Patricia Barnett, Pam Cobb, Ellis Fain, Terri Bankhead, Kathy Tull, Anita Collins, and Bobby Hamilton.

High school students are Al Pearce, Gerald Booker, Charlene Kelly, Shirley Hamilton, Tommy Fowler.

A variety of talent will be offered; piano solos, dance routines, twirling routines, comedy skits, and vocal numbers. Tickets for the show are 25¢ for students and 50¢ for adults. They may be purchased from students who are selling them, or may be purchased at the door the evening of the show. The proceeds of the show and refreshment hour will be used to purchase some worthwhile

addition to the schools. One year the PTA purchased a speaker's stand for both the elementary auditorium and the junior high auditorium; last year bubbler sprinklers were added for the convenience of the children on the play-ground at elementary school; another year a concrete walk-way over the ditch between high school and junior high school was constructed for the convenience of the bus students who crossed this area daily to board their busses.

"We hope everyone will want to come see the performance of these fine youngsters," one of the PTA officers stated. "Not only will you enjoy this display of local talent, and can have your dessert or snack at intermission, but you will be helping with a worthwhile project of the PTA unit. The more people who come, the more good the PTA can do with the proceeds."

Ceremony Unites Miss Durrett And Stephen Martin In Victoria

The First United Methodist Church in Victoria was the scene of the nuptial ceremony uniting in marriage Miss Georganna Jo Durrett of Victoria and Stephen Lee Martin of Killeen at 7:30 p.m. Tuesday, Jan. 20.

Miss Pamela Hale To Wed February 28

MISS HALE

Mr. and Mrs. Ollie Hale of Jonesboro announce the engagement and approaching marriage of their daughter, Pamela Kathleen, to Bryant Pringle, son of Mr. and Mrs. James B. Pringle of San Antonio.

Miss Hale is a graduate of Southwest Texas State University at San Marcos and is presently teaching math at Harris Junior School in San Antonio. Mr. Pringle, also a graduate of Southwest Texas State, is teaching English at Poteet High School in Poteet.

The wedding will be February 28.

of Killeen at 7:30 p.m. Tuesday, Jan. 20.

The bride is the daughter of Mr. and Mrs. George Durrett of Victoria and the bridegroom is the son of Robert C. Martin of Victoria and Mrs. Alan Langford of Houston. He is a grandson of Mr. and Mrs. B.W. Lee of Gatesville, who attended the wedding.

Rev. Bill Hathaway performed the double ring ceremony. Mrs. Lewis Williams was organist and Mrs. Joel Cook soloist.

The bride, given in marriage by her father, wore a street-length dress of white satin with a scoop neckline. The sleeves of the bridal dress were of full-length imported lace, and the bride carried out the tradition of wearing something old, new, borrowed and blue.

She carried heirlooms from both the bride's and the bridegroom's families including a handkerchief and a diamond ring. She wore a shoulder length veil of bridal illusion, and she carried a cascade bouquet of white rosebuds.

Leslie Lee Edwards served as the bride's maid of honor. James Sadler served as best man. Joseph McClannahan and John Durrett brother of the bride, ushered.

The bride's mother was attired in a rose crepe dress with black accessories and a white carnation corsage.

The mother of the bridegroom wore a grey ensemble and black accessories.

A reception followed at Wesley Hall at the Church.

For wedding travel, the bride wore a light blue wool knit dress and gray accessories. After their wedding trip, the couple is at home in Killeen.

The bride is a 1968 graduate of Victoria High School where she was vice-president of Future Homemakers of America in 1967-68 and was selected Homemaker of the Year 1967-68.

The bridegroom also graduated from Victoria High School in 1968 and is presently employed as a flight instructor with Skylark Airways. He also attends Central Texas College.

COLORFUL FIRST YEAR GARDEN

Annual flowers are the perfect solution for the first-year gardener and the use of black plastic makes it possible for him to have a weedless, practically workless area.

The perfect solution to a colorful garden for the new home owner is annual flowers. Of course you'll set out as many permanent plants, like trees and vines, as your flatish pocketbook permits, but then you can fill the rest of the space with annuals. Lots of color, low, low cost!

Choose tall annuals for planting against the house, lower ones for massing in front of them and plant them the modern way, through black plastic covering, to minimize that bugaboo of all gardeners—weeding.

Prepare the soil by turning it over to loosen it, then raking it to level and make soil particles fine. Add fertilizer, then rake again. Cover the area or areas with sheets of black plastic and hold the edges in place with soil heaped on them. This will prevent wind from blowing the plastic while plants are still small.

Plan before you plant so that you'll have a color scheme compatible with the outside of your house and use flowers that will serve as ornaments when you wish to use them indoors.

You will find that massing one color or one kind of flower next to a larger or smaller mass of another kind or color is the easiest way to achieve a striking all-over effect.

Your plan complete, use 6-inch-long wooden plant labels, stuck through small slits in the plastic, to mark the various areas. The name of the plant you intend to use, likewise the color, will help guide you as you plant.

Lift seedlings from your seed bed or bring the flats or boxes in which you've started seeds to the planting area as soon as seedlings are 3 to 4 inches tall. Make slits in the plastic at proper intervals (10 inches to a foot for petunias, 2 feet for hollyhocks) for the particular plants you are using and set out each plant through one of these slits.

Insert trowel through slit, make a generous hole, spread out the roots of a seedling and firm soil to roots. Water thoroughly and lay plastic back in place.

Because of the plastic, there will be little or no weeding necessary. Rain will enter through the slits or a perforated hose may be let run for several hours to take the place of rain.

Green Thumb Tips

A pencil and a seed catalog are the gardener's best friends during winter.

They furnish a way to pass the time and help to turn dreams into realities.

Add a pad of cross-section paper to pencil and catalog and you add another dimension—the plan for later planting.

Anyone can count squares—you don't need to be either an artist or a landscape architect. And approximate footages of the areas you intend to plant can be stepped off at any time of year.

An interesting and unusual house plant that can be grown from seeds is the Jacaranda tree—a 50-foot native of Brazil.

Fern-like leaves and blue flowers make this one of the world's outstanding trees.

Of course no tree will grow in your window but seeds planted in the garden will furnish dainty foliage all summer and a plant or two potted to bring indoors will be a conversation piece all winter.

If you live in an area where salt is used on paths to melt ice, beware of the after-effects on nearby lawns or plants.

If you must use salt, flush the nearby plants with a copious supply of water just as soon as weather permits—certainly in early spring.

This fertilize as early as possible to give injured plants a chance to survive.

And if you live where it's warmer, plant seeds of quick-flowering annuals like poppies and bachelor buttons or cool-weather annuals like larkspur and sweet peas unless, of course, you sowed their seeds earlier.

As a matter of fact, poppy and bachelor button seeds can be planted even in the North, even on top of snow.

They may not come up in a perfectly straight row, but sprout they will when the soil and air warm.

Perhaps you thought that morning glories were the only flower that opened early and closed late? Not so.

Bartonia, more commonly called Blazing Star, opens at night and stays that way until noon of the next day.

And, of course, you know that four o'clocks get their name from their habit of opening at four in the afternoon.

Have you ever tried growing mushrooms during winter? It's a rewarding experience.

You need a place where the temperature stays between 50 and 60 degrees.

You buy the mushroom spawn and plant it in rich soil, water well and keep covered until the first buttons show.

Public School Menu

Monday
