Vol. 14 FRIONA, PARMER COUNTY, TEXAS, FRIDAY, NOVEMBER 10 1939. No. 13

COGITATIONS and APHORISMS of JODOK

I sometimes wonder if the readers of the Star do not get tired of my nonsensical gibberish...

Well, it seems that such a thing would be impossible in the event it is to be original with me...

'Let's see your tongue...' In the long, long time ago, when there were such baby-scaring monsters...

'Gossip, in my opinion, is a personal confession that you are uneducated and do not care to employ and enrich your mind with worthwhile things...

'Shakespeare said: 'How much an ill word may impose lying', and that certainly applies to the gossip...

Now, I consider that a real change from the sort of stuff that usually flows from my typewriter...

I may have a chance to use the other two or three clippings that were handed to me...

At a letter meeting in July, the Post started a move to build a Legion Home in Friona...

The year being now well spent, no special program was sponsored other than the giving little aids to some of the needy of the community...

At the September meeting, new officers were elected for the year 1939 and ten more charter members were...

Friona Post American Legion An Abridged History

A few months ago the Star was favored with a short history of the Friona Post, American Legion...

This being National American Legion Week, we can think of no more appropriate time to make use of Mr Price's most generous offer...

On the 6th of April, 1934, the World War veterans of Friona and surrounding territory, got together for the purpose of learning whether or not there was some way...

After some discussion of the matter, Ray Smith was elected as chairman and Clyde Goodwine as secretary, and it was definitely decided to ask the members of Hanson Post of Amarillo...

The records show that on the 12th day of April, as planned, the veterans assembled and the meeting was called to order by Floyd Sloan...

Those applying as charter members and present at this meeting were: W. E. Anderson, M. S. Weir, J. P. Williams, J. A. Mincher, Parker Mann, Clyde V. Goodwine, Fred Bell, Ray Smith, W. H. Massey, A. H. Hill, H. G. Beene, John F. Stanford, A. L. Brantley, J. J. Horton, Lonnie Smith, A. W. Schwartz, H. C. McCandless and V. L. Todd.

The visitors present at this meeting were: Roy D. Case, Floyd Sloan, Bill Deane, Carrie Nation, Fred E. Young, Charlie Lowe, Will M. Barton, all of Hanson Post No. 54, of Amarillo, Texas, and Bob Lindsay, 18th District Commander, of Borger.

At its first regular meeting in May, the post voted to hold a Memorial Day program, at which time Rev. Samuel Pearson, pastor of the local Congregational church was present...

Following the formalities of the installation, Bob Lindsay presented the Friona Post with its charter, the Post to be known as Friona Post No. 266. The Congregational church gave the Post, as a unit, an invitation to have a special program on July 1st, conducted by Rev. Pearson...

At a letter meeting in July, the Post started a move to build a Legion Home in Friona, and a committee on plans and building, consisting of O. P. Lange, H. C. McCandless, Fred Dennis, S. P. Warren, David Modes and V. L. Todd was appointed.

The results of the work of this committee and the entire membership, as a whole, are now manifest in the very commodious and comfortable building, which is now in use by the Post. A vote of thanks was given to the Santa Fe Grain Company, for its offer of the lots upon which to build the home.

At the September meeting, new officers were elected for the year 1939 and ten more charter members were...

ARMISTICE DAY Parade

The American Legion of Friona and Parmer County, in conjunction with the Entertainment Committee of the Friona Chamber of Commerce, will sponsor an Armistice Day parade here on Armistice Day, Saturday, November 11th.

The parade will start from the school grounds at 2:00 o'clock p. m., and will pass south along Euclid Avenue to Fifth Street, thence east to Main Street, then north to State Highway.

Arrangements for this parade are not yet completed at this writing, but those having the arrangements in charge plan and expect to have the school bands of Bovina, Hereford and Friona included in the parade, also the Legionnaires marching in military formation.

Besides these, there will be the Girl Scouts, the Boy Scouts the Red Cross and other civic and social organizations. Business places are expected to be closed during the parade.

County Basketball Plans Completed

The Parmer county basketball coaches met at the Friona High School building Tuesday night, Nov. 7, and completed plans for the double round-robin basketball tournament; the plan which has been adopted to determine the county winner.

Officials that are eligible to call games were passed on subject to agreement of the coaches. They are: Reeves, Dimmitt; Dodson, Hereford; E. Bates, Clovis; Jackson, Clovis; Williams, Malnesnoe; Moeler, Muleshoe; Stevens, Amherst; Terrell, Portales.

Rules adapted by the district will be used in the girls' games.

Parmer County Basketball Schedule

- January 5: Lazbuddy vs. Oklahoma Lane at Oklahoma Lane; Bovina vs. Farwell at Farwell. January 9: Bovina vs. Lazbuddy at Lazbuddy. January 12: Bovina vs. Friona at Friona; Oklahoma Lane vs. Farwell at Farwell. January 16: Friona vs. Oklahoma Lane at Oklahoma Lane. January 19: Farwell vs. Friona at Friona; Oklahoma Lane vs. Bovina at Bovina. January 23: Lazbuddy vs. Friona at Friona. January 26: Farwell vs. Lazbuddy at Lazbuddy. January 30: Friona vs. Bovina at Bovina. February 2: Bovina vs. Oklahoma Lane at Oklahoma Lane; Lazbuddy vs. Farwell at Farwell. February 6: Friona vs. Farwell at Farwell; Lazbuddy vs. Bovina at Bovina. February 9: Farwell vs. Bovina at Bovina; Oklahoma Lane vs. Lazbuddy at Lazbuddy. February 13: Oklahoma Lane vs. Friona at Friona. February 16: Friona vs. Lazbuddy at Lazbuddy; Farwell vs. Oklahoma Lane at Oklahoma Lane.

Returned from Hunting Trip

Bert Shackelford, local agent for the Texas Company here, returned Monday from the mountains in New Mexico, where he spent last week deer hunting. He reports a most enjoyable outing, with two of the company securing their limit of deer and one wild turkey.

Mr. Shackelford was accompanied on this trip by Ford Welch of this community; A. R. Bateman, of Hereford; Bill Sherry, of Lazbuddy; Aubrey Brock of Bovina; Carl McGuire, of Texico; Dr. Johnson, John Aldridge, Gabe Anderson and Sheriff Earl Booth, of Farwell; and Buzz Weitzell, of Tucuman, New Mexico.

SUFFERING FROM RHEUMATISM

Our good friend and fellow citizen, T. N. Jasper, has been suffering severely during the past several days from another attack of rheumatism. Mr. Jasper is subject to such attacks at intervals, causing him much pain. At this time he is barely able to get about with the aid of a cane.

Reuben H. Kinsley

Reuben H. Kinsley, familiarly known as "Uncle Reube" or "Reube" was born at Upper Sandusky, Ohio, January 25, 1876, the seventh son and the seventeenth child of Samuel Kuenzli.

He was married in 1905 to Miss Pearl Stuckey, and they came to Friona in the early days of settlement on the Texas Panhandle, in 1909. In the early years of his residence in this area, he drilled scores of wells for the land syndicates as his friends say, working almost day and night to get a job done properly and to get a start in life. In 1911 or 1912 he bought a few screws and bolts, and wondering whether or not he would ever be able to sell them, started a hardware business, in a part of the small wooden building where the office of the Merchants' Credit Association is now located.

Although retired, so far as the active business world is concerned, Mr. Kinsley always continued very active, in looking after his property, his farming, his trading, and his various transactions. He never found much time to loaf. He met the accident which caused his death while at work, making improvements around his beautiful home.

Mr. Kinsley was baptized in childhood, and although he never had his name enrolled upon a church membership list, he had some very definite religious convictions by which he lived, and he always enjoyed helping to support the church and its program. He was a thirty-second degree Mason (a good brother Mason, his fellow Masons say) and a charter member of the Khiva Shrine Temple.

In describing the character and personality of "Uncle Reube", we think of such descriptive terms as industrious, thrifty, philanthropic, benevolent, ingenious, ingenious and sociable. Because of his industriousness and thriftiness, he met with material success. But in his prosperity he never became selfish or stingy. He was always ready to contribute his part in any worthy enterprise or to those in trouble or need. Many of us have been helped by him in times of financial embarrassment.

His funeral services were held at the local Congregational church at three o'clock Sunday afternoon, conducted by Rev. C. Carl Dollar, pastor of the church, assisted by Revs. Joe Wilson, pastor of the Baptist church, and L. L. Hill, pastor of the Methodist church.

The remains were laid to their last resting place at the Friona cemetery in the modest tomb which his forethought had already prepared.

To his home town, his County, State and Nation, he was a worthy and loyal citizen; to those among whom he lived, he was a charitable neighbor and benefactor to his good wife he was an ideal husband. And the highest tribute we can pay him is to say that a good man has died, a man whose passing is an irreparable loss.

Dr. Wilbur Meade Returned Home ATTENDED POST GRADUATE REVIEW

Dr. Wilbur Meade, who has been practicing chiropractic in Friona for the past year or more, spent a part of last week in Oklahoma City in attendance at a Post Graduate review in chiropractic, conducted by Dr. Carver, president and founder of the Chiropractic College in Oklahoma City. Dr. Meade returned to his office here on Friday of last week.

Dr. Carver is the leading authority on Chiropractic in this country, he being the author of all the leading text books on this science, and which are considered absolute authority on the branches of the science on which they treat. Dr. Carver is continually studying and developing the science of Chiropractic, and at his semi-annual reviews he gives his students the advantage of any and all developments or advancements made in the science.

Dr. Meade stated that Chiropractic is making rapid advances in the science of healing. This statement is based on two logical and connective facts: viz: the general public is becoming more and more Chiropractic minded, and as a result is demanding the latest and most efficient technique.

The Little Red Poppy

Several folks have asked "Why do we sell poppies?" or "Why the poppies?" To begin, these were the little red flowers that grew so thick in Flander's Field where so many American boys gave their lives. For what?

In our Veterans Hospitals today there are so many disabled soldiers that can while away many a lonely hour making the little red poppies and in so doing, help to provide for their families. To some of us, it may seem like a small job, but to those that are sick in body it means a great deal. There are only 2,740 veterans in Texas that are able to do this job and in this year 1939, they made, and the different units over the great State of Texas, sold 250,000 poppies.

These 2,740 veterans from 1929 to 1939 have been paid for their poppies \$26,161.25, and this went to help in the upkeep of the veterans' families.

The Auxiliary units over the state from the sale of poppies help in the state Child Welfare program, the rehabilitation program, and this year our unit, No. 206 gave \$10.00 to student loan besides giving such aid to the needy in our own community as we were able to share.

So, folks, when any of the poppy girls approach you in their poppy sales, please feel kindly toward them for by your buying a poppy, you too have a hand in helping those veterans who gave the best years of their life in service for their country. This is one of the most worthy things that can be carried on by our American Legion Auxiliary.

By Mrs. Foister Rector.

Program for Armistice Day

Sunday Afternoon, Nov. 12, at 2:30. At Schoolhouse

The churches and American Legion are cooperating in a community and county-wide Armistice program, to be given at the Grade School Auditorium, Sunday afternoon, Nov. 12th, at 2:30 o'clock. The following program has been arranged by the committee:

- Hymn, by the congregation. Invocation, Rev. C. Carl Dollar. Special Music, Friona. Talk, Rev. Hoy, of Clovis. Special Music, Farwell. Address, Dr. Alfred Crofts. Benediction, Rev. Joe Wilson.

Free Kuenzli of Los Angeles, Calif., spent a few days here this week, he having arrived last Friday evening to be in attendance at the funeral of his uncle, R. H. Kinsley.

NEW TAILOR SHOP GONE

The new cleaning and pressing shop that was installed here about two weeks ago by Gene Williams and son, Albert, seems to have made a permanent departure from Friona.

Mr. Williams stated to a representative of the Star, before they left, that their absence would be but temporary, in fact, he did not state that their shop here would be totally abandoned; but that they had purchased another shop at Albuquerque, New Mexico, and that the equipment there was too large for their room and that they were taking the equipment they had installed here to Albuquerque, and would bring that equipment here; but from all appearances they have vacated their room here permanently.

SPECIAL ARMISTICE DAY SERVICE AT M. E. CHURCH

A special Armistice Day service will be held at the local Methodist Church, Sunday morning.

All service men and their families, as well as all others who are not regularly attending elsewhere, are cordially invited to be present. The American Legion Auxiliary invite all other women to cooperate with them in serving a fellowship dinner at the Legion Hut, following the morning service. Ladies, bring your basket lunch and enjoy the noon hour with the rest of us.

Two Friona Boys Enlist in Army

The Star is in receipt of a communication from the District Recruiting Office at Fort Bliss, Texas, stating that John B. Crow and Clarence H. Fallwell (better known as "Buck" Fallwell), both of Friona, have enlisted in the United States Army, and have been assigned to the Signal Corps, Unassigned, San Houston, Texas.

These boys are sons of two of our highly respected families and two of Friona's most popular young men, the former being a son of Mr. and Mrs. A. A. Crow, and the latter being a son of Mr. and Mrs. Clarence H. Fallwell.

FARM WORK PROGRESSING

The farmers of this locality report that their wheat is getting up to a good stand and looking well, and that they are making good headway at taking care of their sorghum grain and feed crops.

Cotton is coming to the local gin in regular manner such as to keep the gin busy all the day and a part of some of the nights. Cotton is reported as opening nicely and making a fair yield, of a good quality.

(Continued on page four)

'Zoned' Sidewalks Encourage Friendly Loafing

Energetic pedestrians of Louisburg, N. C., may claim the sidewalk's center lane, but space at right and left is reserved for those who like a bit of friendly loafing. A tobacco auction town, in some seasons it is crowded by farmers who like to visit for a spell. Pictures at left and upper right show the more ambitious citizens in the center lane, while lower right shows a young couple occupying the corner drug store sidewalk space thoughtfully provided by the "zoning" ordinance.

Spinach and Sleds—All Part of Byrd Expedition

Admiral Richard Evelyn Byrd, left, views with an approving eye the work being done by members of his Antarctic expedition. His look is directed toward two carpenters assembling a dog sled at the Boston army base. Right: the Popeye influence. Two members of the exploration party piling up cases of canned spinach prior to loading it on the ships.

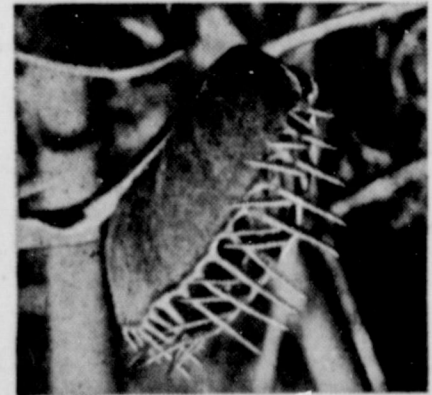

Meat-Eater

A vicious plant is this meat-eating Venus fly-trap, found only in North Carolina bogs. Here an innocent bee unknowingly approaches his doom. Six tiny hairs inside the doubled leaf act as triggers when disturbed, causing the leaves to come together, thus trapping its prey.

Here is poor Bernard Bee after lighting inside the fly-trap and disturbing its "triggers." The leaves fold swiftly together, imprisoning the victim with stiff bristles.

This action causes digestive juices to flow, and the hapless bee will be nothing more than a skeleton in a few hours. He will have been devoured by the plant. An enigma, the Venus fly trap shows the transition between plant and animal life. Gardeners have had very little success growing the plant in other environments.

Tippling Melons May Provide New Alibi

Alibis for an alcoholic breath may take a new twist if melon growers adopt the technique developed by Samuel Untermyer of New York. He gives his melons any desired alcoholic flavor by binding a small bottle of liquor to the stem of the growing plant. The plant absorbs the liquor through a tiny tube in its stalk.

'Dog Show' Behind France's Front Line

An army may march on its stomach, as Napoleon once observed, but its feet have quite a bit to do with the ground covered. Here British troops line up for foot inspection behind the front lines in France, and the grinning Tommies exhibit their "dogs" to the commanding officer who, like all British army officers, watches carefully his men's feet.

Tonsillitis May Have Harmful Heart Effects

By DR. JAMES W. BARTON

IT IS often a number of weeks after an attack of tonsillitis that rheumatic pains and perhaps heart symptoms appear so that the tonsils are not blamed for the rheumatism and heart disease. As so many attacks of tonsillitis are not followed by rheumatism, there may be many, including physicians, who doubt the statement that tonsillitis can affect the heart. It is interesting, therefore, to get some reliable information from the medical clinic of the University of Zurich, Switzerland.

Dr. H. W. Hotz, Basel, in the Swiss Medical Journal, states that during the first part of 1938 there was an epidemic of tonsillitis and many of the nursing staff contracted it. There were many with symptoms of rheumatism and disturbed hearts. It was decided to make electrocardiograph tests on all patients who had inflammatory disorders of the tonsils, and abnormalities were observed in a surprisingly large number. The severity of the tonsil symptoms did not always cause the same degree of disturbance of the heart rate and rhythm, as severe tonsillitis sometimes caused very little heart disturbance and slight tonsillitis sometimes caused a great amount of heart disturbance. It is not to be wondered at, therefore, that a slight sore throat is seldom suspected of being the cause of heart trouble.

Effect of Tonsil Removal

The investigations of Dr. Hotz and others showed that these changes of the rate and rhythm of the heart disappeared after the tonsils were removed. These disturbances of the heart occurred in about half the cases of tonsillitis due to poisoning of the heart muscle and the nerves controlling the heart action.

While it is not recommended that every patient with tonsillitis should undergo the electrocardiograph tests, it is emphasized that physical exertion should be avoided during the first few days after the disappearance of tonsillitis. Dr. Hotz recommends that cases of chronic tonsillitis—persistent sore throat—should, if possible, have electrocardiograph tests and if the tests show heart disturbances, the tonsils should be removed.

Thyroid Gland Affects Personality

A strong, middle-aged foreman in a factory who had always been alert about his work, a good mixer, and very exacting and particular about the work done by the employees, began to get a little heavy in body, slower on his feet, and not quite so careful or exacting about the work done. Then he began to forget things, miss appointments, and a vacant expression of face became noticeable. The superintendent finally found it necessary to acquaint the general manager with the conditions in this particular shop.

After talking and reasoning with this foreman, the general manager came to the conclusion that perhaps he was overworked and suggested some holidays. The foreman simply spent the holidays sitting around home; he wasn't interested in going away or in doing anything different. Up to this time the family physician had not been called in because there were no symptoms of illness—no pain, indigestion or other symptom. However, when he saw the man, the great amount of weight he had put on, and the slowness or sluggishness of mind and body, he suspected an inactive thyroid gland as being the trouble and a metabolism test showed that the thyroid gland in the neck was not manufacturing enough juice. It is this juice that speeds up mental and physical activity.

Thyroid Tablets Used

By giving the man some thyroid tablets to take every day, almost immediately a great change occurred. He became interested in his work, clear in his mind, mixed with the other men as in the old days, and began to lose the surplus fat.

This condition is called hypothyroidism as "hypo" means "less," just as the overactive thyroid condition is called hyperthyroidism, "hyper" meaning more! Just as the hypothyroid patient with his sluggishness of mind and body must be given some thyroid extract to speed up his processes, so must the hyperthyroid patient with overactivity of mind and body have part or all of his thyroid gland removed so that there will be little or no thyroid juice manufactured. (Released by Western Newspaper Union.)

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—This department flushes a swarm of rumors about drastic changes in our naval building plans, said to have been induced by new problems of defense against British disasters.

So far as we can learn, there are impending some possible changes in personnel, and a general check and overhauling of work on new ships to date, but nothing revolutionary. It is indicated that there will be intensive studies and training in coordination of ships, planes and submarines.

At the highest peak of American naval construction in peacetime history, Rear Admiral Alexander Hamilton Van Keuren is made chief of the bureau of construction and repair. That puts him right in the wheelhouse of the navy efficiency drive, as this is the acid-testing bureau for fighting ships, and it bears the responsibility for their being sound and fit, structurally and in design. Defects have been found, and are being remedied in several 10,000-ton cruisers.

Admiral Van Keuren, a navy technician for 36 years, is one of the most highly rated specialists in naval construction. He smokes a drop-stem pipe, carries on easily and informally, and marshals engineering data with a precise mastery of detail. His previous work has been that of industrial manager at the Philadelphia navy yard. He is a dependable safeguard against pitted or pithy armor plate, such as we heard of years ago. He is a native of Michigan, graduated from Annapolis in 1903. His predecessor in the bureau, Rear Admiral W. G. Du Bose, becomes commander of the new model basin at Carderock, Md.

MAJ. GEN. DANIEL VAN VOORHIS, assigned to the supreme command in the Panama Canal Zone, is an officer up from the ranks who has been entrusted with many critically important assignments in the past—among them the guardianship of the bulk of the nation's \$17,000,000,000 gold reserve, at Fort Knox, Ky. The fact of his selection is evidence of the crucial importance of the canal defenses, in the eyes of the high command.

From Zanesville, Ohio, he enlisted in the Tenth Pennsylvania infantry in 1898 and won a commission as second lieutenant in the Philippine insurrection. He is the army specialist in mechanized defense and attack, and just now the canal is a concentration of swift mechanization. In the World war, he was chief-of-staff at Brest, and holds the Distinguished Service medal, the Navy Cross, the Silver Star and the Legion of Honor decorations.

IN HIS new book, "The Defense of Britain," Capt. Liddell Hart, the British military expert, says, "Our chief risk of losing a war lies in trying to win the war." His general finding is that modern war cannot be supported in the style to which it has been accustomed, and observes that "War will only be ended when the power-lusting nations recognize its futility. The growing power of modern defense is bringing that prospect in sight."

In his preceding book, "Europe in Arms," published in August, 1937, he thought there was hope of ending war in the limitations of the military mind. Fat-headed generals would cling to gaudy mass attack and make war so stupid and ridiculous that anybody surviving would just forget it. But the trouble with a war expert is that you can't bottle him up, and other nations in the past have used him as a military consultant.

In the World war, a strippling just out of Cambridge, a captain and a war correspondent, he gave the generals a lacing to the limit of the censorship, and, although they growled menacingly, they took him into their counsels. He invented a lot of new trick plans, including the "indirect approach" and the "expanding torrent" system, and his reputation was well on its way before the war ended.

He has scolded many of the main panjandrums of the big war, in the post-war years, apparently with public approval, judging from the sale of his books. He was a war buddy of Lawrence of Arabia and insisted that this human cryptogram knew more about war than all the generals put together. (Consolidated Features—WNU Service.)

HOUSEHOLD QUESTIONS

Removing Scorch.—To remove scorch from linen place between two dampened Turkish towels and press with a hot iron. The scorch stains will go into the towel and can be easily washed out.

Variety in Fruits.—If your family likes variety, serve stewed prunes, apricots, fresh berries, applesauce, fruit juices and fresh fruits. A whole week can be covered without repetition.

Freshening Celery.—Celery which has become wilted may be freshened by standing in a jug of water to which a pinch of bicarbonate of soda has been added.

For Ink Stains.—Immerse an ink-stained handkerchief in milk immediately after it has been stained, allow it to soak and the ink will disappear.

Removing Mildew.—Mildew may be successfully removed by using kerosene. Saturate the garment with it thoroughly, roll it up and put it away for 24 hours. Wash in warm suds and all trace of mildew will be gone.

Keeping Suet.—When next you buy suet, melt it in the oven, and then pour into jars. When cold it is more easily shredded, and will keep much longer.

Removing Candle Grease.—To remove candle grease from black suede shoes, take a piece of brown paper, cover the candle grease with it, then hold a warm iron over it. The spot will soon be absorbed.

To Thicken Frosting.—If in making frosting you add too much water to the confectioner's sugar, instead of adding more sugar add flour to thicken the frosting. It will be impossible to detect the taste of flour.

HAVE YOU GAS, HEARTBURN?

Wichita, Kans.—Mrs. Lou J. Rehtel, 406 N. Walnut St., says: "I have found Dr. Pierce's Golden Medical Discovery invaluable for relief of gas and acid indigestion. It helps to give one a fine appetite and more strength. When I have felt weak and out-of-sorts it has always helped to make me feel like myself again." Buy Dr. Pierce's Golden Medical Discovery from your druggist today. See how much stronger you feel.

Service to Others
"You're good for something in this world—for service of some kind to your fellow men—or you're good for nothing."—Dr. Reiser.

LOST YOUR PEP?

Here is Amazing Relief of Conditions Due to Sluggish Bowels. **Nature's Remedy** If you think all laxatives act alike, just try this all vegetable laxative. Dependable relief from sick headaches, bilious spells, tired feeling when associated with constipation. Get a 25c box of NR from your druggist. Make the test—then if not delighted, return the box to us. We will refund the purchase price. That's fair. Get NR Tablets today. **NR TO-NIGHT** Promotes sleep.

Useful Delusions
I was never much displeased with those harmless delusions that tend to make us more happy.—Goldsmith.

THE TRUTH SIMPLY TOLD

Today's popularity of Doan's Pills, after many years of worldwide use, surely must be accepted as evidence of satisfactory use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed. Burning, scanty or too frequent urination sometimes warns of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, heaviness under the eyes—feel weak, nervous, all played out. Use Doan's Pills. It is better to prevent a medicine that has won worldwide fame than on something less well known. Ask your neighbor!

JODOK

tors had at last discovered the real cause of the malaria, which caused the chills, and therefore knew how to go about killing the germs of the disease.

I do not think I am much given to prevarication or exaggeration, but it actually seems to me that I have taken enough teas and tonics to have irrigated a good sized tract of land in the Panhandle, and enough pills, had they been peanuts, to have planted a good-sized field with them.

But since the cause of the malaria germ has been discovered by science and the existence of the malaria mosquito has been so widely eradicated, the malaria has long since ceased to be much of a menace to the human race. Rheumatism, however, we still have with us, and its eradication seems yet to be a long way in the future, but science is still making progress and we will yet see that painful disease conquered through the accomplishments of science. And these two diseases I have mentioned are only two of what might be called the minor diseases of the human body, and there are many other more dreaded diseases that have been almost eradicated, or at least are not now considered serious, although many of them were once considered fatal.

And this just brings me back to the present day conditions and the wonderful progress science has made and is still making, and it is my firm belief that science will yet achieve the conquering of all ills to which the human body is subject, for, to me, it is only common sense, that whatsoever man has brought upon himself, he should be able to rid himself of, and it is to science that we must look for the ways and means of doing this.

And I firmly believe I am right in this expression, despite the fact that many people say that science is opposed to Bible religion. On the contrary, it occurs to me that science backs up a commonsense interpretation of the Bible, and it further occurs to me that our Creator intends and expects us to use the mentality He has given us to accomplish the things that He has given us to accomplish for our own good.

I may be called, and perhaps have been called, atheistic in my views, but I firmly maintain that I am not so. Simply because I advocate a common sense view of God and what is commonly termed religion, is no indication in me or any other person, that I or any other person holding similar views along these lines, am or are, atheists or atheistic in our views.

I am a firm believer in the existence of a Supreme Being, and I maintain that I cannot move two steps in any direction or look ten feet in any direction without seeing or feeling what is, to my mind, abundant proof of the existence of such a being. The very fact that we are here if such is a fact, is indisputable proof of such an existence.

I may be accused of being sacrilegious in some of my religious expressions, but I am not so, for I always make such expressions with a sense of the deepest profundity. But however, nevertheless, moreover, notwithstanding, I gladly accord to my neighbor the same right to his view along this or any other important line of thinking, that I serve for myself, and along this line I will quote two more stanzas from Eddie Guest's poem, "Religion":

When The Talk Turns on Religion
By Edgar A. Guest

When the talk turns on religion
I have notions of my own,
I have my version of the Bible
And I've found them satisfactory,
I found them comforting to me,
But I'll never lose my temper if
You chance to disagree.
For religion, as I see it, is a pathway
To the goal,
And is something to be settled by

STAR RECEIVED STATE PUBLIC SAFETY CERTIFICATE

The Friona Star gratefully acknowledges the receipt from the Texas State Police Department of Public Safety its Certificate of Merit, which was handed to the editor at the Star office Wednesday afternoon, by Captain Jim Line, of the State Highway Patrol, located at Amarillo.

This certificate is given in recognition of outstanding contributions to Traffic Safety for the year 1938, and Educational Attainments in making reckless driving unpopular.

The State Department of Public Safety is commended for its part in reducing Texas traffic deaths 21 per cent for the year 1938, and the Star is proud of the credit given it for its part in this noble work.

Captain Line stated that while the reduction in traffic deaths for the state during 1938 was 21 per cent, that for the Panhandle area was 40 per cent for that year; and he further stated that the boys in the department for the Panhandle area confidently expect to make a 40 per cent reduction over the 1938 record for 1939.

Captain Line possesses a most pleasing and social disposition and it was a pleasure for us to make his acquaintance, and his short visit with us was truly enjoyed.

HAD APPENDICITIS

Word comes to the Star office that Forest Gaines was taken to Clovis on Wednesday of last week for an operation for appendicitis.

Early reports of his condition were favorable, but the Star has not been able to get any late reports of his condition, but he is supposed to be recovering satisfactorily.

tween each man and his soul.

Now, I'm not a Roman Christian, but I would not go so far as to fling away the friendship of the folks I know who are. I have lived and neighbored with them, come to love them through and through.

I've respect and admiration for the kindly things they do.

And I've come to the conclusion, though the biggots think it odd, that it makes no difference to me how a good man worships God.

I know Methodists and Baptists, Lutherans, Scientists, and Jews. Whose friendship is a treasure that I wouldn't want to lose.

And I honor and respect them, and I wouldn't dare condemn.

The form of prayer and worship which is comforting to them.

So when biggots talk religion, I just settle back and see.

The helpful friends and loyal every church has given me.

I had the very great pleasure yesterday afternoon, of a very short visit from my good friend, Eric W. Sherman, of Oklahoma City, and when I say "great pleasure," I mean just that. For Mr. Sherman, who is vice-president of the Sherman Machine & Iron Works, of Oklahoma City, is a man of wide experience in the business world and, I may say, in the social world as well, and he has a great power of discernment which enables him quickly to discern the shoddy or the genuine in every person with whom he comes in contact.

In his conversation he has a wonderful power of expressing his ideas, and, although he may use many words, that to some folk would seem superfluous, they do not, to me, seem so, and he always gets the meaning of what he is saying over in a manner that leaves little chance of misunderstanding him. I always learn something from his conversation and by hearing him relate his experiences I learn, without him telling me so in so many words, that he has little use for the shoddy or chameleon character man, but he has a big heart and an abundant charity for the real type of manhood regardless of his social or economic rating, and I know this by the number of instances where he has helped the poor and unfortunate to better conditions in life; and the "good book" says: "Charity covereth a multitude of sins." If such there be. So, I like Eric Sherman, and I hope he continues to favor me with his visits whenever he is in Friona.

Now, I am informed that the veterans of the American Legion of Friona and Parmer County, have arranged for a nice parade to be held here Saturday afternoon, Nov. 11th in honor of Armistice Day, and I most surely am in favor of it, and I shall be pleased if I can, in any way add to the success of this parade and I trust that all our good people will, in every way they can, show their respects for the day and for these boys (many of them showing the weight of years beginning to creep upon them), who risked their ALL in obedience to their country's call, some score of years past.

Lift up the years! Lift up the years,
Whose shadows around us spread,
Let us tribute pay to the brave today,
Who are a fifth of a century dead,
Homemade Doughnuts.

FRIONA POST AMERICAN LEGION

From page one

At a very early meeting in 1935 the membership agreed to accept Buddie Scottie Weir's invitation to make his recreation hall their headquarters, and each member agreed to bring in one new member during the year.

In the early part of June, 1935, the ladies organized a new Auxiliary Unit and received their charter on June 28th, with fifteen members that worked in perfect harmony with the Legion.

It is regretted that the records for 1936 and 1937 were not kept in a manner for future use, but the boys met in September 1937 and elected officers for 1938, and these new officers were installed in January 1938. A lack of interest that had prevailed during these years was overcome and a renewed interest instituted in its place and the work of building the new home was renewed and continued until its completion, and our first check for this purpose was received from the Santa Fe Grain Co. for \$100.00, and an offer from Mrs. Henschel, a former resident of the city, for suitable lots on which to build, was accepted, and with the donations of funds and labor the work went steadily on and the building completed and the boys held open house with a good program of speakers and plenty of eats. The editor of the Star is given acknowledgement and thanks for his efforts in behalf of the Friona American Legion Post.

During all the time since its organization, the Friona Post has been prominent and active in distributing Christmas gifts to those in need and in many other charitable acts, as many of our citizens can testify, who have been the grateful recipients of this work.

This brief resume of the organization and work and accomplishment of the local post, will suffice to give our readers some idea of the value of such an organization to this county, and its worthiness of the support of all good people.

OBSERVE "CAUTION—ROAD REPAIRS" SIGN

Information from Texas Highway Department

AUSTIN—The State Highway Engineer today appealed to the traveling public to observe the "Caution—Road Repairs" signs along State highways as a measure of safety to Highway Department employees and the traveling public. In the past several months, 23 workmen on State highways have been injured by motor vehicle drivers; most of these injuries have been of a serious nature.

"In an effort to serve the traveling public better, the Highway Department often carries on maintenance operations without barricading a highway," the Highway Engineer stated. "If the Department blockaded a road each time a maintenance crew undertook repairs, the main highways of the State would present a steady stream of detours. Our men have been trained extensively in safety and have shown considerable aptitude in taking care of themselves. However, occasions arise in which even the most cautious employee is exposed to grave danger, and many of them have been hurt while performing a public service on the highways for the benefit of the users of the highways."

"It is essential to the service of the traveling public that these maintenance operations continue uninterrupted, and all we as those who use the highways is that they slow down and drive carefully when they come upon a 'Caution—Road Repairs' sign."

"After all, it is just good, common sense to obey these signs. A motorist proceeding at too fast a pace through a repair zone might hit a large road roller instead of a highway workman. And we don't want that, either."

THREE BAPTIST STATE CONVENTIONS FOR NOVEMBER

Baptists of the State will trek to three conferences and conventions during November. Fifteen hundred college students are expected to attend the Baptist Student Union Convention at Hardin-Simmons University, in Abilene, November 2-5.

Ten thousand pastors, laymen and women will go to San Antonio to attend the Baptist General Convention and its two auxiliary meetings, November 12-17.

On Thanksgiving Day and the two days following, the Training Union Convention, 8,000 young people, leaders and sponsors. Special roads have been granted by his and other roads from nearly every section of the State to this convention.

GIP, SCOUT NEWS

Team II

The Forest Cactus patrol laid a trail out to Friona for the special patrol, October 28. They had a winter camp and raised canned apples. November 1st the GIP Scouts met at the hall. They are going to sell Christmas cards.

Team II Scribe

Doris Ann Lange.

T. E. L. CLASS REPORT

The T. E. L. Sunday school class of the local Baptist church met in the home of Mrs. Leon Hart, Friday, November 3rd.

The class began its study of their new book, taught by Mrs. Wilson, which is very interesting.

The next meeting will be December 1st, at the home of Mrs. George Brock, which will be our Christmas meeting. Gifts will be exchanged between twin sisters. All members of the class are requested to be present at that meeting.

Delicious refreshments were served to thirteen members.

HAVE INSTALLED MAMMOTH GRAIN AND SEED CLEANER

The Santa Fe Grain Company of this place, with G. (Preach) Cranfill as manager, has installed one of the most modern and up-to-date grain and seed cleaning machines on the market today.

This mammoth machine is not to be in any way compared to the smaller machines that have been in use for many years, but requires a considerable portion of the space in the end of the company's large warehouse.

It is powered by an electric motor and is absolutely automatic in operation or decreasing the amount of grain or seed taken in, as it is able to handle it and do perfect work. It also keeps its riddles clear of all trash or little that might interfere with the proper passage of grain through them, thus eliminating needless waste of the grain being cleaned, and delivers the grain or seed again to the bins in perfect condition for the market.

While this machine was purchased by the Santa Fe Grain Company primarily for its own use, Mr. Cranfill stated that they will clean grain for their customers who may desire it, if brought in by the truck or car load, but that it will be very inconvenient to clean smaller amounts with the machine.

The people of the Friona territory may feel justly proud of the fact that they have a concern so fully and conveniently equipped for giving the best service possible in the handling of their grain.

PRAIRIE RUSTLERS UNION MEETING

The Prairie Rustlers Union League will meet at Friona, November 16th. Let us all be present and represent our League.

Donalita Hastings, Reporter.

JOHN CHRONISTER RETURNED FROM SOUTH

John Chronister, who recently left here for the Rio Grande Valley, for the winter, and perhaps for permanent residence, returned to Friona last Thursday, and will again take up his residence at Friona.

Mr. Chronister stated that the altitude there in the valley was too low for his health, and that he feared he would pass out before he could get away from there, which was the cause of his leaving there.

He having sold his house before leaving Friona, had no place where to lodge, and the citizens of Friona have assisted him in preparing other quarters where he can comfortably pass the winter as his home. He moved into his new quarters on Wednesday, and will now be at home near the Friona gin.

BAKE SALE

The ladies of the Methodist church announce that they will hold a bake sale on Saturday of this week, at the T. J. Crawford store.

Dressed chickens, pies, cakes and other pastry will be offered for sale.

Ray Landrum, proprietor of the Regal Theatre, made his second trip with his show to Belvidere, New Mexico, Tuesday evening. He reports fair attendance at the show there.

Mrs. D. H. Mead and Mrs. J. Giscler received word Sunday informing them of the death of their brother, Wilbur E. Graybill, at his home at Troutville, Indiana. No notice of his illness had been received.

JUNIOR WOMAN'S CLUB REPORT

The Junior Woman's Club met Tuesday evening, Nov. 7th, in the home of Mrs. Jane Williams, with seventeen members and one guest present.

Four new members were voted in to fill vacancies in the club membership. They were Misses Herta Meyer, Ruth DuPree, and Winnifred McAllister, and Mrs. Chick Schlenker.

The subject for the program was "Trans-Appalachia" and interesting papers were given on "Exploration and Settlement," "The Old Southwest and the Old Northwest", by Ruth Edelman, Mattie Faye Crow and Willo Riddling.

Refreshments were served to those present by the hostess, Mrs. Williams.

Reporter.

ATTENDED DISTRICT RALLY

Among those of the Methodist young people, who attended the District Rally of the Methodist Young Peoples' Department, held at Amarillo last Saturday and Sunday, were Forest Osborn, Lloyd Brewer, Mrs. L. L. Hill, and Misses Juanita Crow, Gladys Jones and Wynona Hill. Others may have attended from here, but were not reported.

All attending report a most enjoyable program and were thoroughly thrilled with what they heard and learned. The meeting was held in the San Jacinto Methodist Church, and Rev. Lloyd Jones was the main speaker at the Sunday session.

Rev. C. C. Black, of New Mexico, spent Monday of last week here as the guest of W. E. Frost and family.

CAKE AND STYLE SHOW WINNERS GIVEN

With over 200 people in attendance during the day, the home demonstration and 4-H girls clubs of the county reported themselves well pleased with their first combination cake and style show, which was held in the gymnasium of the Friona high school, Saturday of last week.

The cake and cookies exhibits drew a good deal of comment during the day, with 62 exhibits on hand, showing plain and fancy cookies, angel food, sunshine and butter cakes.

In the afternoon, 4-H clubbers of the senior division modeled the dresses they had made as the style review, while individual sewing displays were arranged on a table.

During the morning, Miss Eunis Pollis, as a representative of the Singer Sewing Machine Co., in Lubbock, held a demonstration on the making of slip covers, illustrating the manner of using good foundation patterns. She also displayed the proper way to efficiently clean furniture.

A highlight of the day was the presentation of the Gold Star pin for 1938 to Miss Mary Lou Barker, of the Lakeview club, by Mrs. Frank Hastings. After receiving the pin, Miss Barker responded with a brief review of her work as a 4-H clubber.

Mrs. Roy Karr, sponsor of the Midway club, was honored when it was announced that her club, numbering 14, had 100% completion of 1939 projects, with each girl receiving a 4-H pin. All girls in the county who had completed projects were awarded the pins, furnished by the sponsors, with Miss St. Clair, agent, stating that approximately 125 girls out of the 186 membership were on the list.

For the various placements of the day, blue, red and white tags were given. Special awards came in the form of small gold crowns, which were presented to the first, second, and third dress winners, by the Crown Rayon Co.

The election of 1940 officers was also a part of the program, with the following named to serve for the coming year: Mrs. R. F. Jones, Hub chairman; Mrs. Cecil Wiley, Midway vice chairman; Mrs. Will Nittler, Bovina secretary; Mrs. Guy Bennet, Lakeview treasurer.

In the judging, the entries were rated on the merit of individual displays, rather than in regular competition, with blue ribbons going to those rating over 90, red to those rating over 80, and white to those rating less than 80.

Following is a complete list of the winners:

Sewing Division:
Senior girls dresses: Marion Talbott, Friona; Mary Lou Barker, Lakeview; Petrolia Scott, Friona.
Cup towel: Blue—Esta Lee Jordan, Midway; Juanita Saunders, Midway; Helen Taylor, Friona Jr.; Red—Mary Lou Barker, Lakeview; Mary Murrett Gully, Midway; Ma'hara Crim, Midway; White—Marion Talbott, Friona; Abra Jo Coffman, Midway; Billy Larue Jones, Friona Jr.

Sewing boxes: Blue—Willie Ellen Williams, Bovina; Dessa Fern King, Bovina; Red—Billy Larue Jones, Friona Jr.; Helen Taylor, Friona Jr.

Slips: Blue—Marion Talbott, Friona Sr.; Dessa Fern King, Bovina; Rita Wilkison, Okla. Lane Sr.; Red—Helen Taylor, Friona Jr.; Willie Ellen Williams, Bovina; White—Bobbie Jean Barker, Lakeview; Petrolia Scott, Friona; Mary Lou Barker, Friona Sr.; Billie Larue Jones, Friona Jr.

Head scarfs: Blue—Marion Talbott, Friona Sr.; Dessa Fern King, Bovina; Willie Ellen Williams, Bovina; Red—Petrolia Scott, Friona; Lois Crim, Rita Wilkison, Okla. Lane; White—Bessie Ruth Caldwell, Okla. Lane Jr.; Evelyn Crim, Midway.

Apron: Blue—Dessa Fern King, Bovina; Marion Talbott, Friona Sr.; Red—Rita Wilkison, Okla. Lane; Bobbie Jean Barker, Lakeview; Willie Ellen Williams, Bovina; Mary Lou Barker, Lakeview; Petrolia Scott, Friona; White—Dovie Wright, Midway; Billy Larue Jones, Friona Jr.; Helen Taylor, Friona Jr.

Totals by clubs: Juniors—Bovina and Midway tied for first with 15 points each. Friona was next in line with 15, and Lakeview followed with 6.

Senior clubs: Friona placed first with 15 points, Oklahoma Lane was second with 10 points.

Cake and Cookie Division:
Plain sugar cookies: Blue—Mrs. P. J. Syms, Midway; Mrs. George Magness, Farwell; Red—Mrs. Will Jones, Hub; Mrs. Tom Foster, Okla. Lane.
Fancy cookies: Blue—Mrs. E. A. Thomas, Okla. Lane; Mrs. J. R. Caldwell, Okla. Lane; Mrs. C. P. Hastings, Bovina; Mrs. Will Jones, Hub; Mrs. Levi Johnson, Okla. Lane; Red—Mrs. John Crim, Midway.
Sunshine cake: Blue—Mrs. Thad Watkins, Okla. Lane; Mrs. Levi Johnson, Okla. Lane; Mrs. L. C. Woltmon, Midway; Mrs. E. A. Thomas, Okla. Lane; Red—Mrs. R. F. Jones, Hub; Mrs. J. F. Miller, Live-at-Home.
Butter cake: Blue—Mrs. Ella R. Barry, Okla. Lane; Mrs. C. F. Hastings, Bovina; Mrs. R. F. Jones, Hub; Red—Mrs. O. B. Moyer, Live-at-Home; Mrs. J. R. Caldwell, Okla. Lane; Mrs. John Crim, Midway.
Angel cake: Blue—Mrs. S. H. Side, Okla. Lane; Mrs. Tom Foster, Okla. Lane; Mrs. C. F. Hastings, Bovina; Mrs. P. J. Syms, Midway; Red—Mrs. L. C. Woltmon, Midway.

Judges for the day were Mrs. R. Perry, home demonstration agent, Lamb county, and Miss Mary Katherine Couch, Castro county agent.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending Nov. 4, 1939 were 23,075 as compared with 22,547 for the same week in 1938. Decreases from connections were 6,280 as compared with 6,375 for the same week in 1938. The total cars moved were 29,364 as compared with 28,927 for the same week in 1938. The Santa Fe handled a total of 20,929 cars in preceding week of this year.

Little Eda Hart, of Friona, who has been kept out of school for the past four weeks, but is much improved and able to attend school with the use of crutches.

Mr. and Mrs. W. C. Nichols, of Friona, returned from a vacation in California last week.

THE Gift Wife
by... **RUPERT HUGHES**

A thrilling story of love and adventure in the Near East. Action centers on Dr. David Jebb, skilled surgeon, who, while in a strange land, is given temporary custody of a little girl. Cursed with an overpowering fondness for drink, Dr. Jebb finally succumbs to temptation, even in the face of his responsibility. When he regains his faculties, David finds himself in a foreign land, inhabited by a people unknown to him. The child has disappeared... But that's enough—you'll want to find out for yourself how David Jebb untangles the threads of his life. "The Gift Wife" is one of Rupert Hughes' greatest stories.

READ EVERY INSTALLMENT IN THIS PAPER!

Invented the Rocking Chair
Credit for the invention of the rocking chair goes to Benjamin Franklin, who is responsible for so many of the things that make everyday life pleasanter. The story goes that Franklin took a slat-back chair and whittled out a pair of rockers for it, so he could really loll in leisure. Though, truth to tell, it's hard to believe that the versatile Philadelphian rocked away much of his life. This rocker was first made about 1750, and by 1800 it was widely used and continued to be a popular American custom till recent years. It has never been used much anywhere but in America.

Earliest Record of Coal
The earliest historical record of coal is that of Theophrastus, 300 B. C., who says in his book on stones that coal is used by blacksmiths in Greece and Italy. The earliest mention of coal in England was that made by the bishop of Durham, 1190 A. D. Coal was mined in Belgium about 1200 A. D. In 1239 A. D. Henry III granted a license to mine coal. Coal was first shipped to London in 1240. In 1306, the burning of coal in London was prohibited because of the smoke.

TO ORGANIZE BAND MOTHERS CLUB

Monday night, Nov. 13, the mothers of band members in the Friona school system, both grade and high school, are requested to be present at the auditorium at 8:00 p. m. for the purpose of organizing a "Band Mothers' Club."

It is not necessary that you have a child that is a band member, if you are interested in this line of work we will be more than glad to have you as a member.

Miss Grace Boehm, of Whitehouse, Ohio, arrived here last Friday, in response to a telegram informing her of the fatal burning of her uncle, R. H. Kinsley. She is still here at this writing, with her aunt.

VISITED IN NEW MEXICO SUNDAY

Mr. and Mrs. Howard Ford, accompanied by Mrs. Ford's father and brother, W. C. and Ernest Osborn, visited at Clayton, and other points in New Mexico, Sunday.

Among the points of interest visited other than Clayton, were Cauplin Mountain, said to be the deepest and most perfectly formed extinct volcano crater in the United States, the crater being over 700 feet deep. They then visited Raton Pass, and returned home by way of Springer and San Jon.

Fred Kuenzi, of Los Angeles, California, who arrived here last Friday to attend the funeral of his uncle, returned to his home Thursday.

New 1940 CHEVROLET

YOU'LL GO FOR IT
when you see how IT GOES FOR YOU!

Eye it... Try it... Buy it!

CHEVROLET Expect a lot of excitement... expect a lot of thrills... when you step in and drive the new Chevrolet for 1940!

Chevrolet has long had the reputation of being first in acceleration in its price range—because it's the only low-priced car with a super-vitalized, super-silent Valve-in-Head Engine!

It has long had the reputation of being first in hill-climbing, for the same good, powerful, Valve-in-Head reason!

And it out-rides the others, too, because it's the only low-priced car with "The Ride Royal"—the safest, smoothest, steadiest ride known!

We repeat, "You'll GO for the new 1940 Chevrolet when you see how it GOES for you." Better eye it, try it, buy it—today!

ONLY CHEVROLET HAS ALL THESE QUALITY FEATURES

- NEW "ROYAL CLIPPER" STYLING - BIGGER INSIDE AND OUTSIDE
- NEW FULL-VISION BODIES BY FISHER - NEW EXCLUSIVE VACUUM-POWER SHIFT - "THE RIDE ROYAL"—Chevrolet's Perfect Ride Control System
- SUPER SILENT VALVE-IN-HEAD ENGINE
- PERFECTED HYDRAULIC BRAKES - ALL-SILENT SYNCHRO-MESH TRANSMISSION - LARGER TIPOE-ACTIC CLUTCH - NEW SEALED BEAM HEADLIGHTS WITH SEPARATE PARKING LIGHTS

Chevrolet has more than 175 important modern features
*On Special De Luxe and Master De Luxe Series.

"Chevrolet's FIRST Again!"

MacLeish Assumes New Library Post

Because he's "barely got his chair warmed" Archibald MacLeish, new librarian of congress, refused to discuss his immediate plans for the Washington library. The liberal poet and drawing room philosopher succeeds Dr. Herbert Putnam, retired. MacLeish was a former magazine editor.

Streamlined American Army Is Goal of War Department

Old Document Beclouds Origin of Wild Horse

ANN ARBOR, MICH.—A new explanation must be found for the wild horses of the western United States, according to Prof. Arthur S. Alton, University of Michigan historian. The vast herds of roaming horses, from which the nation for many years drew most of its supply, had been held descended from horses left behind by the Spanish explorer Coronado four centuries ago. But a document discovered and translated by Alton tends to disprove this. A muster roll of the Coronado expedition, drawn at Compostela, Mexico, February 22, 1540, shows only two mares in the list of 560 horses taken by the Spanish explorer on his search for the mythical seven cities of Cibola. Scientists have informed Alton that the two mares, even if both were among the horses that escaped to roam the prairies, could not possibly account for the herds.

New Corps Is Formed With Headquarters at Fort Benning, Ga.

WASHINGTON.—Pressing forward with its reorganization program, the American army is formulating corps and general headquarters reserve organizations to go along with the new streamlined divisional organization. The corps troops being organized will be part of the Fourth corps, with headquarters at Fort Benning, Ga. The war department has not yet decided which divisions will be assigned to the corps, but it is expected that they will be the first division, with headquarters at Fort Hamilton, N. Y., the second, with headquarters at Fort Sam Houston, Texas, and the fifth, with headquarters at Fort Sheridan, Ill. The Fourth corps will have, besides the three infantry divisions, the Thirteenth field artillery brigade, and units of five anti-aircraft regiments. Corps troops will include headquarters, a headquarters detachment, a headquarters company, two signal battalions, six ordnance companies, seven quartermaster corps companies, one medical regiment and one regiment of engineers. The Seventh mechanized cavalry brigade stationed at Fort Knox, Ky., and the Sixty-sixth infantry, which is scattered at five forts, are being assigned to the general headquarters reserve. When corps troops have been organized for the Fourth corps, the war department plans to begin organizing corps troops for another corps which has not yet been selected. The organization of other corps will follow, and then the war department plans to perfect field army organizations.

Patterns Sewing Circle

skate, ice skate and generally frolic around outdoors, you can make her feel very happy and look very cute, by means of No. 1825. It's an excellent style for the classroom, too. Has a very full skirt, a nipped-in jacket blouse, and it's finished with cuffs and becoming little collar. Velveteen, wool plaid, corduroy and blanket wool are good fabrics for this.

The Patterns.
No. 1848 is designed for sizes 12, 14, 16, 18, 20 and 40. Size 14 requires 4 3/4 yards of 36 or 38-inch fabric, with long sleeves. With short sleeves, 4 3/4 yards; 1/2 yard contrasting for collar.

No. 1825 is designed for sizes 8, 10, 12, 14 and 16 years. Size 10 requires 1 yard of 54-inch material for jacket-blouse with long sleeves; 1 1/2 yards for skirt; 1/2 yard for contrasting collar and cuffs; 1 1/2 yards 39-inch material to line jacket-blouse; 2 yards to line skirt.

New Fall Pattern Book.
Special extra! Send today for your new Fall Pattern Book with a stunning selection of a hundred perfect patterns for all shapes and sizes. Save money and know the keen satisfaction of personally planned, perfectly fitted garments by making your own frocks with these smart, carefully cut designs. You can't go wrong—every pattern includes a step-by-step sewing chart to guide beginners. Price of Pattern Book, 15 cents.

Send your order to The Sewing Circle Pattern Dept., Room 1324, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Dr. Pierce's Favorite Prescription is a tonic which has been helping women of all ages for nearly 70 years. Adv.

Seek Virtues
It is a much shallower and more ignoble thing to detect faults than to discern virtues.—Carlyle.

AN EXTREMELY new and very becoming dress fashion is yours in pattern No. 1848. It has the smart double swing skirt, is cut on a true princess line that whittles down your waist, and offers a choice of two necklines—one with a tailored collar, the other high and collarless. Also, you can make it with long or short sleeves. The row of buttons down the front is very Victorian—therefore much in fashion. Velveteen, flat crepe, wool broadcloth and faille are smart materials for this.

Sports Two-Piece for Girls.
If there's a lively school-girl in your family, who loves to roller

IT'S POP CORN TIME

THERE is no confection so widely used and universally liked as pop corn. It is a perennial ice-breaker at almost any social function. Here is a recipe that is sure to be enjoyed:

Honey Pop Corn Balls
1 cup honey of tartar
1/2 cup sugar 1 tablespoon butter
1/2 cup water 4 quarts pop corn
1/2 teaspoonful cream
Boil honey, sugar, and water with cream of tartar until it turns brittle when tested in cold water. Add butter. Mix with warm pop corn and shape into balls. Green or red vegetable coloring can be added to the syrup.

Wren Had Last Laugh On Critical Councillors

Sir Christopher Wren, builder of St. Paul's cathedral, and many other famous churches, was partly responsible for the Town Hall of Windsor, in 1686, but the good councillors had misgivings about his work.

They complained to him that the big hall had no pillars to support it, and despite Wren's assurances that it had been designed that way and was safe, demanded that supporting pillars be placed in position.

Wren agreed to do so, and had four pillars erected. But some years later it was discovered that the pillars did not reach the ceiling, and there was a space big enough for a man's hand to pass between.

Don't let winter catch you unprepared

If you want a winter oil that will flow freely at low temperature, yet be sturdy enough to stand up under hard driving . . . if you want an oil of exceptional purity, to give your car the safest possible protection against sludge, carbon and corrosion . . . then drive your car around to your nearest Quaker State dealer and

Home Again!

Miss Joy-Allen Duncan, Richmond, Va., found herself swimming in the middle of the North sea when the Danish freighter "Ronda" went down after striking a mine. Rescued after clinging to driftwood for many hours, Miss Duncan was returned safely to New York.

Girl's Family Must Announce Betrothal In Every Instance

By PHYLLIS BELMONT

MY SON is engaged to a girl who has no mother but a father. What part should I take in regard to announcing their engagement? Should the party be in one of our homes; that is, her's or mine, or is it proper to use a community house where everything is held when many persons are invited? Should I have just girls of her acquaintance or special friends and have a tea or lunch? Thank you. MRS. E. G. M.

Answer—You should not take any part in announcing the engagement, as this must always be done by the girl's family. Her father could give a party for her and, even if she plans the party herself, the announcement should be in her father's name. The party could be given in her home or in the community house. The latter would be excellent, as it offers more facilities for entertaining. Of course, after the engagement is announced you can entertain for her as liberally as you wish. If the party is a daytime affair, a tea or lunch, only girls should be invited, but if you want to entertain in the evening, why not invite couples?

Snow Line

The snow line is the elevation on a mountain slope above which snow and ice exist perpetually. This elevation varies greatly in different localities and from year to year, being influenced by the direction of the slope and by the temperature, moisture and prevailing winds. In the Rocky mountains the average height of the snow line above sea level is about 11,000 feet.

Reddy Fox Visits Green Forest; Flees From Terrible Monster

By THORNTON BURGESS

WHAT REDDY FOX SAW AND DID

Who guards his tongue as he would keep A treasure rich and rare, Will keep himself from trouble free And dodge both fear and care.

THE trouble with a great many people is that they remember this too late. Reddy Fox was one of these. Reddy is smart and sly and clever in some way, but he hasn't learned yet to guard his tongue, and half the trouble he gets into is because of that unruly member. You see, it is a boastful tongue and an untruthful tongue, and that is the worst combination for making trouble that I know of. It has got him into all kinds of scrapes in the past, and here he was in another all on account of that tongue.

Jolly, round, Red Mr. Sun had kicked his rosy blankets off and was smiling down on the Great World as he began his daily climb up in the blue, blue sky. The Cheerful Little Sunbeams were already dancing through the Green Forest chasing out the Black Shadows, and Reddy knew that it was high time he was over by the hill where Prickly Porky the Porcupine lives to make his boast good and prove that he dared meet the strange creature which Peter Rabbit and Unc' Billy Possum both claimed to have seen there. With lagging steps he sneaked along from tree to tree, peering out from behind each anxiously, afraid to go on and still more afraid not to for fear that he would be called a coward.

He had almost reached the foot of the hill without seeing anything out of the usual, and without any signs of Unc' Billy Possum. He was just beginning to hope that Unc' Billy Possum wasn't there, as he said he would be, when a voice right over his head said:

"Ah cert'nly am glad to see that yo' are as good as your word, Br'er Fox, fo' we need some one brave like yo'all to find out what this strange creature is that has been chasing we-uns."

Reddy looked up with a sickly grin. There sat Unc' Billy Possum in a pine tree right over his head. He knew now that there was no backing out; he had to go on. He tried to swagger and look very bold and brave.

"I told you I'm not afraid. If there's anything queer around here I'll find out what it is," he once more boasted, but Unc' Billy noticed that his voice sounded just a wee bit trembly.

"Keep right on to the foot of the hill; that's where Ah saw it yesterday. My, Ah'm glad that we've got someone so truly brave!" replied Unc' Billy.

Reddy looked at him sharply, but there wasn't a trace of a smile on Unc' Billy's face, and Reddy couldn't tell whether Unc' Billy was making fun of him or not. So, there being nothing else to do, he went on. He reached the foot of the hill without seeing or hearing a thing out of the usual. The Green Forest seemed just as it always had seemed. Redeye the Vireo was pouring out his little song of gladness quite as if everything was just as it should be. Reddy's courage began to come back. Nothing had happened and nothing was going to happen. Of course not! It was all some of Peter Rabbit's foolishness. Some day he would catch Peter Rabbit and put an end to such silly tales.

"Ah! What was that?" Reddy's sharp ears had caught a sound up near the top of the hill. He stopped

"Ah cert'nly am glad to see that yo' are as good as your word, Br'er Fox."

short and looked up. For just a little wee minute Reddy couldn't believe that his eyes saw right. Coming down the hill straight toward him was the strangest thing he had ever seen. He couldn't see any legs. He couldn't see any head. He couldn't see any tail. It was round like a ball, but it was the strangest looking ball that ever was. It was covered with old leaves. Reddy wouldn't have believed that it was alive but for the noises it was making. For just a wee minute he stared, and then what you think he did? Why, he gave a frightened yelp, put his tail between his legs, and ran just as fast as he could make his legs go. Yes, sir, that's just what Reddy Fox did.

Modern Madonna

Hortense Dolan, a dancer of New York city, won a recent contest sponsored by the Masterpieces of Art Exhibition at the World's fair. The contest was held to select a modern woman who most nearly resembled the Madonnas painted by the old masters.

French Names of Towns In North Italy Changed

ROME.—The change into Italian of the French names of 32 towns in northwest Italy was announced in the Official Gazette. Many of the towns, which are near the Italo-French border, have been known to tourists by their French names.

Included in the decree are Courmayeur, which was changed to Cormaisore; Chamois, which became Casorio; and Chatillon, which now is Castiglione Dora.

Society for Deaf Has Its Jitterbugs

BOISE, IDAHO.—Even the "jitterbugs" were present when members of the Idaho Society of the Deaf convened at Boise and held their annual dance to climax their three-day annual convention. Members of the society danced to the mute strains of vibrating mechanism which transmitted dance strains to the dance floor, enabling the couples to "feel" the music.

SYMPATHETIC PHILADELPHIA GIRL FORWARDS \$1 TO KING

PHILADELPHIA.—Ruth Treblow, who sent King George \$1 to aid British children evacuated from London, has decided to give up movies, ice cream cones and the other things which girls of 12 like, in order that she may save some more "pennies and nickels" to send 3,000 miles away.

"Since the start of school I've saved \$3 from my lunch allowance and I am going to send that to the

king to help the bomb-threatened children," Ruth said. "I'm going to ask the other girls at school to join me in forming a club in my neighborhood to help those poor boys and girls over there who have to be separated from their parents so they'll be safe from Hitler's bombs."

"I'm going to do what I can about it, even if it is in a small way."

Her enthusiasm knew no bounds as she proudly exhibited a letter

from Walter Elliot, British minister of health.

"You may be sure that whatever you and your friends are able to spare for our poorer children will be gratefully received," Mr. Elliot wrote. He added that her \$1 had been used to buy clothing for a five-year-old girl whose mother died recently and whose father is jobless.

The idea of sending the \$1 was Ruth's very own. Recently Miss

Treblow sat down and wrote the king: "Please accept the enclosed dollar note from my savings which you can use for the children who had to be evacuated from London. Since I am 12 years old, I am very much interested in these children. It is very kind of you to send them away before any real danger occurs."

In her own handwriting she addressed the envelope: "His Majesty King George VI, London, England."

WEEKLY NEWS ANALYSIS BY JOSEPH W. LaBINE

Soviet-U. S. Relations Strained By Molotov's Attack on FDR; Italy Protects Her Neutrality

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union.

EUROPE:

Double Feature

All Hallow's eve found every European ear cocked to Moscow, awaiting history-making utterances from Premier Viacheslav Molotov. Adolf Hitler had 1,500,000 men poised at the front; so did the allies. But war hung in abeyance. For as Russia swung so would the war, because every other European state had declared its status, neutral with leanings either toward Germany (like Italy and Hungary) or toward the allies.

Stolen Thunder

A few short hours before Molotov's speech, Il Duce Benito Mussolini pulled a coup that must have stunned his erstwhile colleague in Germany. Ousted was Propaganda Minister Dino Alfieri, close friend of Nazidom's Propagandist Paul Joseph Goebbels. Ousted were Fascist Secretary Achille Starace, close friend of Deputy Fuehrer Rudolf Hess and the man who gave a signal for the Italian chamber's demonstration against

Germany. He said Nazi-Russian friendship was getting thicker. Next day it was revealed trade discussions were going forward successfully. One report from Stockholm said Russian submarines would be given the Nazis in exchange for German merchant ships, providing a subtle way of staying "neutral."

Poland. He said there can be no question of restoring Poland and that it was absurd to continue the war for that cause. Two days earlier, Britain's Prime Minister Chamberlain had acknowledged Russia's right of invasion to "protect" her Polish blood brothers from Germany.

Balkans. He gave no hint of expansion there, but shook a nasty finger at Turkey for signing mutual assistance pacts with the allies after shunning a treaty with the Soviet.

United States. He precipitated a heated argument which observers thought might end with severance of Soviet-U. S. diplomatic relations. Commenting on President Roosevelt's earlier note expressing hope for continued amicable Finnish-Rus-

Household News By Eleanor Howe

ONE-TWO-THREE-FOUR CAKES

See Recipes Below.

Let's All Have Tea

There's something so social about serving tea! Friends and neighbors drop in for a bit of rest and relaxation, conversation flourishes, and the whole house is aglow with hospitality.

Serving tea is one of the simplest and most gracious ways of entertaining—whether you invite one guest or fifty. It may be a cozy, informal affair with only a few "handpicked" friends invited, and simple bread and butter sandwiches, with a cup of perfectly brewed tea for refreshments. Or, you may plan a much larger, more elaborate tea as a means of entertaining the Parent-Teacher association, the Garden club, or perhaps the Women's auxiliary of your husband's lodge.

Formal or informal, large or small, you'll find that beforehand preparations and carefully laid plans help to make this kind of entertaining easy. Admit the limitations of your budget, your equipment, your time and strength, and don't plan more than you can carry out comfortably and sensibly. Remember that a cup of tea and a slice of bread and butter can make a party if the tea is perfectly made, the bread enticingly thin, and the service dainty and attractive.

Keep sandwiches, muffins, cakes and cookies small and dainty. If your invitation list numbers a large number of guests, bake your favorite cakes in jelly roll pans, frost, and cut into small, diagonal pieces.

Ginger Cream Cakes.

To make these clever little cakes, use the thin gingersnap or cookie ordinarily sold on the market. Allow from three to five to a serving. Put together with sweetened whipped cream in the same manner as in frosting a miniature layer cake. Cover the top and sides generously with the cream, and chill thoroughly. Ground candied ginger may be sprinkled sparingly over the tops. One cup of whipping cream will make six cakes.

Orange Ice Cream.

1 tablespoon granulated gelatin
1/2 cup cold water
1 1/2 cups sugar
1 1/2 cups boiling water
1 1/2 cups orange juice
3/4 cup lemon juice
2 tablespoons orange rind (grated)
2 cups coffee cream
1/4 teaspoon salt
2 eggs (beaten separately)

Soak the gelatin in the cold water for five minutes. Dissolve sugar in boiling water and add to the gelatin, stirring until dissolved. Add the orange juice, orange rind, lemon juice, coffee cream, salt, and beaten egg yolks. Fold in egg whites and pour mixture into freezing container of ice cream freezer. Assemble and cover. Then pack mixture of crushed ice and rock salt (use three parts ice to one part salt, by volume) around the freezing container. Turn crank slowly but steadily. When mixture becomes too stiff to turn, remove cover carefully, take out dasher, and pack down evenly with a spoon. Cover ice cream with wax paper and replace cover. Repack. Cover and allow to harden at least one hour before serving.

At Sea
While the embattled U. S. S. City of Flint steamed carefully down the Norwegian coast to Germany under a Nazi prize crew, the U. S. asked both the Reich and Britain to protect her interned American crew. Washington also reported 27 U. S. ships have been detained by belligerents since the war began. The war at sea came too close to American shores when the British freighter *Coultmore* was reportedly torpedoed 450 miles off New England. Nazi planes and U-boats continued successful raiding of allied shipping, but Britain retaliated by naming Lord Nuffield (her "Henry Ford") to a key post in the air ministry. His instructions: To intensify the navy's North sea blockade against Germany.

One-Two-Three-Four Cakes.
(Makes four dozen small cup cakes)
1 cup margarine
2 cups sugar
4 eggs (separated)
3 cups flour
2 teaspoons baking powder
1/4 teaspoon salt
1 cup milk
2 teaspoons flavoring

Cream the margarine thoroughly. Add sugar gradually and cream together until light and fluffy. Add

egg yolks, and beat well. Sift flour once, measure, add baking powder and salt, and sift together three times. Add flour, alternately with milk, a small amount at a time. Beat after each addition until smooth. Add flavoring. Fold in stiffly beaten egg whites. Bake in small, well greased muffin pans in a moderately hot oven (375 degrees) for about 20 minutes. Frost as desired.

Brown Bread Peanut Sandwiches
Slice Boston Brown bread very thin, spread with creamed butter, sprinkle generously with finely chopped salted peanuts.

Parsley Sandwiches.
Slice day-old bread 1/4-inch thick. Cut into rounds with a doughnut cutter, toast one side, and spread with parsley butter. To make parsley butter, cream butter, add lemon juice to taste, and finely minced parsley.

Banana Nut Bread.
1/4 cup butter
1/2 cup sugar
2 eggs
2 cups general purpose flour
1/4 teaspoon soda
1/4 teaspoon salt
2 teaspoons baking powder
1/2 cup chopped nut meats
1/2 cup wheat bran
1 1/2 cups mashed bananas
2 tablespoons sour milk

Cream butter and add sugar slowly, beating constantly. Add eggs—one at a time—beating thoroughly. Mix and sift the flour, soda, salt, and baking powder. Add nut meats and wheat bran to this mixture. Combine bananas and sour cream. Add flour mixture alternately with banana mixture—beating thoroughly after each addition. Bake in well-greased loaf pan in a moderate oven (350 degrees) about 1 1/4 hours.

Note: This bread is really better if sliced the second day. Delicious for sandwiches with butter or with unflavored cream cheese for filling.

Reception Cakes.
(Makes 90 two-inch cakes)
2 cups shortening (part butter for flavor)
4 cups sugar
16 egg yolks
9 cups cake flour
8 teaspoons baking powder
1 teaspoon salt
2 cups milk
1 1/2 tablespoons orange or lemon extract

1. Cream the shortening; add sugar very slowly, beating well after each addition.
2. Beat the egg yolks until very thick, and add gradually to the creamed mixture.
3. Sift dry ingredients together, and add alternately with the milk and extract.
4. Pour the batter into large jelly roll pans, which have been greased and lined with wax paper.
5. Bake in a moderate oven (350 degrees) for 30 minutes. Cool, and cut into diamonds.

Burglar-Proof
Ordinary window latches can be burglar-proofed by boring a hole in the turning part of the catch. A small padlock locked in the hole will not allow the catch to be opened.

HOW to SEW

By RUTH WYETH SPEARS

red brocade hanging. The diagram shows how the hanging was made from a part of the portier. The edges were finished with dull gold colored braid and fringe; and it hung with matching cord, tassels and an ordinary curtain rod. What became of the stool and the mirror will be told next week.

NOTE: Readers who are now using Sewing Books No. 1, 2 and 3 will be happy to learn that No. 4 is ready for mailing; as well as the 10 cent editions of No. 1, 2 and 3. Mrs. Spears has just made quilt block patterns for three designs selected from her favorite Early American quilts. You may have these patterns FREE with your order for four books. Price of books—10 cents each postpaid. Set of three quilt block patterns without books—10 cents. Send orders to Mrs. Spears, Drawer 10, Bedford Hills, New York.

THE bride came home, but not to weep on Mother's shoulder. "There are too many bare spots in our house," she said; "and I want to rummage in your attic." "You are welcome," replied Mother, "but you will find no antiques—nothing there but junk."

A golden oak dresser; a fish bowl; an old portier; a chromo in a wide gold frame; and an old piano stool; were carted away.

Varnish remover and plain drawer pulls transformed the dresser into a good-looking chest of drawers. A glazier put a mirror in the oval gold frame. Those are dusky pink branches in the fish-bowl—lovely against the rose-

IL DUCE'S STARACE
His demotion . . .

France last winter; Gen. Alberto Pariani, friend of Hitler's Col. Gen. Walther von Brauchitsch and author of the Italian "blitzkrieg" plan for a German-Italian-Spanish drive against France; Gen. Giuseppe Valle, friend of Field Marshal Hermann Goering. Replacing them were middle-of-the-roads like Marshal Rodolfo Graziani, chief of staff. Retained were other favorites like Foreign Minister Count Galeazzo Ciano (Mussolini's son-in-law) and Count Dino Grandi, minister of justice.

In Paris there was a feeling the Rome-Berlin axis had broken down completely. London was also happy, for a few hours earlier Italy's Ambassador Giuseppe Bastianini had made a strong anti-Communist speech. In the Balkans it was thought Mussolini disapproved Russia's expansionist policy, especially since Il Duce did not even wait until Molotov spoke. But in Italy it was a simple indication that Mussolini had his ear to the ground; Italians wanted no pact with the allies, they merely wanted strict neutrality.

Ominous Talk

First allied reaction to Premier Molotov's speech was relief over his failure to declare a military alliance with the Reich, even though he did charge Britain and France

STALIN'S MOLOTOV
... stole his thunder.

sian relations, Molotov said: "One finds it hard to reconcile that with the American policy of neutrality . . . One might think that matters are in better shape between the United States and . . . the Philippines . . . than between the Soviet Union and Finland, which has long ago obtained both freedom and political independence . . ."

Next day, while Massachusetts' Rep. John McCormack demanded from the house floor that Ambassador Laurence Steinhardt be recalled from Moscow, the President dug from his files an exchange of notes with Soviet President Michael Kalinin last April, when Kalinin cabled an unsolicited "expression of profound sympathy" with the President's efforts to safeguard peace. This cable had come one day after Mr. Roosevelt sent peace pleas to Dictators Hitler and Mussolini. Thus the U. S. put Kalinin on record as supporting the President's peace efforts in contrast to Molotov's declaration. Suggested White House Secretary Steve Early: "It would seem that he (Molotov) had the embargo in mind rather than what he termed the President's moral support of Finland."

(Unspotlighted, the neutrality bill wormed its way through the house which voted 237 to 177 for sending it to conference with the senate, conferees to have definite instructions. One instruction: To repeal the arms embargo, by a vote of 243 to 181. Thus congress expected to get out of town immediately. Britain hailed the repeal; Nazidom was enraged. One suddenly discovered danger of cash-and-carry is that the allies will indeed buy more arms but will cut other imports from the U. S. One Britisher thought imports of U. S. industrial products and foodstuffs may fall off \$150,000,000 a year.)

Western Front

Abandoning purely defensive positions, German "shock troops" stormed the French frontier at scattered points as murky weather gave way to sunshine. Fears grew that Belgium and the Netherlands might be invaded. The Dutch proclaimed a state of siege in eight provinces, flooding frontier positions to check any Nazi advance.

At Sea

While the embattled U. S. S. City of Flint steamed carefully down the Norwegian coast to Germany under a Nazi prize crew, the U. S. asked both the Reich and Britain to protect her interned American crew. Washington also reported 27 U. S. ships have been detained by belligerents since the war began. The war at sea came too close to American shores when the British freighter *Coultmore* was reportedly torpedoed 450 miles off New England. Nazi planes and U-boats continued successful raiding of allied shipping, but Britain retaliated by naming Lord Nuffield (her "Henry Ford") to a key post in the air ministry. His instructions: To intensify the navy's North sea blockade against Germany.

RUSSIAN DEMANDS

The Soviet would give Finland part of Karelia (1) in exchange for moving back Finnish frontier northwest of Leningrad (2); Russia wants (3) islands of Seiskari, Hogland, Lavansaari and Tytarsaari; would lease land (4) at mouth of Finnish gulf for naval bases; asks for Finnish part of Rybachy peninsula (5).

were warring not to preserve democracy or restore Poland, but to safeguard their world empires. But sober reflection made the allies worry about:

Finland. Molotov revealed, much to the Finns' chagrin, the stalemated proposals which have occupied these two countries for the past month. Besides a mutual assistance pact, Russia wanted territorial exchanges (see map) which Finland declared would "rob us of the chance of defending the independence of our land."

THE TOBACCO THAT EXPERTS FOUND COOLEST IN TESTS IS THE ONE I'VE ALWAYS ROLLED FOR MILD, TASTY 'MAKIN'S' SMOKES!

ROLL-YOUR-OWNERS, READ THESE SMOKING FACTS!

In recent laboratory "smoking bowl" tests, Prince Albert burned

86 DEGREES COOLER

than the average of the 30 other of the largest-selling brands tested—coolest of all!

YES, SIR-EE—"makin's" smokers—there's a big tip for you here! Experts in a nationally known independent laboratory recently made "smoking bowl" comparisons to find the COOLEST-SMOKING TOBACCO! Automatic smoking and heat-registering machines registered and printed the findings every step of the way. Results—Prince Albert burned 86 degrees COOLER than the average of the 30 other of the largest-selling brands tested... coolest of all!

Thousands of "makin's" fans have always praised P.A. as the cooler-smoking brand. P.A.'s choice tobaccos smoke full-bodied—richer-tasting, YET EASIER ON THE TONGUE. Prince Albert is "no-bite" treated! The famous P.A. "crimp cut" smokes cooler, draws easier. Besides, it rolls up faster, neater—without bunching or spilling—because it lays right. There's no other tobacco like Prince Albert! Get Prince Albert for your papers today. (So cool in pipes, too!)

Troubles of the 'Know-It-All'
"The man that thinks that he knows more than anybody else," said Hi Ho, the sage of Chinatown, "can have a very comfortable time until he gets a lot of other people thinking the same way and expecting him to prove it."

Soul Seales
On the tower of Glastonbury Tor, in England, is a sculptured group showing a human soul being weighed in an angel's scales while a chubby little devil slyly puts one foot on the other end to make the soul seem underweight.

Wood-Wind Instruments
The wood-wind instruments include the flute, piccolo, oboe, English horn, bassoon and clarinet. The saxophone, a brass wind instrument, is not usually included but is said to bridge the gap between the older wood instruments and the brasses.

Washington's Birthday
The first known public celebration of Washington's birthday was in that terrible winter at Valley Forge. An artillery band serenaded his chief in front of his quarters on his birthday.

Church Owns Land in New York
The land on which Trinity church in New York city stands is owned and operated by the Trinity Parish corporation, 72 Trinity place, New York, N. Y.

Japanese Beliefs in Suicide
In Japan, suicide is recognized as the most acceptable means of meeting responsibilities, atoning for mistakes, or satisfying the claims of honor.

An Echo-Less Dome
One of the few echo-less domes in the world covers the star-studded Planetarium at the New York Museum of Natural History. This famous dome duplicates the bowl of the sky; when a complex lantern slide machine on the floor below it projects images of stars and planets on its surface, an actual night sky is approximated. A lecturer identifies the various constellations with a pointer of light for his listeners. In order to enable the speaker to be heard, however, it was necessary to eliminate the discord and echo which would have been set up by the waves of his voice striking against the rounded surface of the dome. To eliminate the echo in the Planetarium dome, it was lined with mineral wool, a soft, fluffy material that is widely used to insulate the side walls and top floor ceilings of homes. The mineral wool acts like a sound cushion. Sound waves striking it are swallowed up and absorbed, instead of being bounced back to annoy those below.

How to Display the Flag
"When the flag of the United States is displayed in a manner other than by being flown from a staff, it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost to the flag's own right, i. e., to the observer's left. When displayed in a window it should be displayed the same way, that is, with the union or blue field to the left of the observer, in the street. When displayed over the middle of the street, as between buildings, the flag of the United States should be suspended vertically with the union to the north in an east-and-west street, or to the east, in a north-and-south street."

Naming Mason and Dixon Line
It is named for two Englishmen, Charles Mason and Jeremiah Dixon, who surveyed the line between November 15, 1763, and December 26, 1767, to settle constant dissension between the Lords Baltimore and the Penn family, the lords proprietors of Maryland and Pennsylvania, respectively.

Rations Required by Live Stock
Animal nutrition experts say that livestock can use proteins to replace carbohydrates, but that carbohydrates can not be used to replace proteins. Rations must contain protein enough to maintain the body and to furnish the amount present in milk or other products being manufactured by the animal.

Observe Two Birthdays
Most Swedish people celebrate two birthdays each year, their real one and another that has been set aside in honor of their given names. For example, says *Country Weekly*, the boy and men whose first name is William observe their second or "national" birthday in April.

Invented Flange for Wheels
In 1789 William Jessop, when constructing a railroad at Loughborough, in Leicestershire, England, (this was either a colliery or quarry railroad) introduced the iron rails with flat top, and wheels with a flange cast upon the tire.

A. A. A. NEWS

There are in the county quite a few cotton farmers who have produced cotton all winter long, and are waiting for the cotton to be picked. The cotton is now in the hands of the marketing card. These farmers are waiting for the cotton to be picked and then they will have a white card. This year is very busy and that these farmers are waiting for the cotton to be picked and then they will have a white card. This year is very busy and that these farmers are waiting for the cotton to be picked and then they will have a white card. This year is very busy and that these farmers are waiting for the cotton to be picked and then they will have a white card.

We have received a small shipment of 1939 Conservation checks. Cards have been sent to all those who have such a check. If you do not have a card you should not make a trip to the office to inquire about your check because just as soon as your check is received a card will be immediately mailed to you. Applications are being signed now. Cards are being mailed to all those who should sign such applications now. Others should not come in to sign the applications until a notice to sign is received because we are not allowed to sign these applications in blank. By Garlon A. Harper, Secretary, Farmer County A. C. A.

REA NEWS
By H. V. Hennen

Hundreds of ways of putting electricity to productive work on the farm will be demonstrated at the big REA farm equipment tour at the Rupert Paul farm, near Texico, on Highway 60, Monday and Tuesday, November 27 and 28.

This traveling exhibit sets up its demonstration with a huge tent, electrical lunch stand, demonstration equipment, and trailer and stationery projects. It is brought here through the cooperation of the local project, the State Extension Service, the neighboring cooperatives in Bailey, Roosevelt and Curry counties, and the Rural Electrification Administration.

The program will start Monday evening at 7:30 p. m., with talks and demonstrations in the big tent. Demonstrations of feed grinders, milking machines, ensilage cutters, cream separators, cream coolers, water systems, household refrigerators, ranges and small appliances, will be held the next day and evening. J. R. Cobb and Miss Kathryn Harris, REA representatives, will share the program with State Extension Service representatives of Deaf Smith, Castro and Parmer counties, who will present much educational material at these meetings on costs of electric power and its use in farm operations.

Until rural electric lines were constructed through the enterprise of the members of the Deaf Smith Co. Rural Electric Cooperative, work-saving electric dairy equipment and household refrigerators could not be utilized by local farm people. Now they may effectively modernize their homes and farms. REA is bringing whole truck loads of equipment to show just what can be done on the farm with the low-cost electric power.

More stringent regulations governing the distribution of fluid milk and more strict requirements of dairy produce processors, compel improvements in the farm dairy. In any case, cleanliness in the dairy brings a bigger cream check. Small sterilizers such as will be shown in the demonstration provide a quick, easy way to sterilize utensils and at the same time supply hot water for washing up.

The old hand-turned cream separator is no longer a slave drives when electricity takes over the job. Also, you get more cream and a higher test, because the separator works better with a constant-speed motor.

If you get less for sour cream than for sweet cream, a cream cooler will add money to your cream checks. Coolers varying in capacity from five gallons up to four cans will be demonstrated at the show. The small five-gallon cooler can be used in conjunction with cream storage in a household refrigerator.

Electric milking machines, more than anything else, help to keep sons and daughters at home on the farm. The single or double milking units take the cramp out of the hands as about one cent per ten cows. Other dairy and household equipment will be demonstrated doing the job with REA power.

Miss Kathryn Harris, REA home economist, will show in her demonstration how the household refrigerator has become a year-around necessity. The demonstrations will include points on the care and operation of the refrigerator, how to select a refrigerator, and its use directly in meal preparation. With the refrigerator it is possible to take advantage of bargains and stock up on food supplies at reduced prices.

An all-electric lunch stand, equipped with small household appliances such as coffee makers, hot plates and electric roasters, will be set up under the direction of the local demonstration agents, so that hot meals will be available to the crowd from morning till night. During the two days' show, kitchen and bathroom planning, electric cookery, lighting and home laundry problems will be extensively studied.

Remember, you are all cordially invited to attend the county-wide union Armistice Day program at the Grade School auditorium, Sunday afternoon, at 2:30 o'clock.
