Deer Hunter Fatally Shot in Iredell Accident Last Thurs.

Iredell (Sp.)—The second deer season fatality in Central Texas was recorded in Bosque County last Thursday.

Bobby McAbee, about 30, of Carswell Air Force Base in Fort Worth was fatally shot about 3:30 p.m. while hunting with three other men on the old J. S. Strickland farm about seven miles north of Iredell.

Bosque County Sheriff Clark Royal said Mr. McAbee had "left his stand" and was moving around in the brush when the fatal shot was fired. The sheriff said one of Mr. McAbee's companions told him the group thought the movement was caused by a deer.

Justice of the Peace Roy Gosdin of Iredell ruled Mr. McAbee's death was accidental.

Royal listed the men hunting with Mr. McAbee as James R. Simons, Nolan R. Ray and Lee Ranler. He said all were stationed at Carswell.

The sheriff said Ray fired the fatal shot.

"The group came in late Wednesday night and early Thursday," Sheriff Royal said. "They went out Thursday morning and took their stands around a canyon leading up to a mountain. They were supposed to hold their places, but apparently Mr. McAbee did not."

Royal said the other three men told him they heard noises in the brush near their stands about 3:30 p.m. and that Ray fired a shot toward the noise.

The group later found Mr. McAbee lying on the ground.

but not distributing tickets are First National Bank and Barrow-Rutledge Funeral Home.

The annual trade-at-home event is sponsored by merchants with the idea of giving people in this area an added incentive to shop at home. Hico stores are completing their Christmas stock daily, and offer a large assortment of gift selections for the buying public.

Members of the Civic Club committee who worked the program are Ray Cheek, Conda Salmon, Wayne Rutledge, M. I. Knudson and Bill Howard.

"He was shot once," Sheriff Royal said. "The bullet hit him right under the chin. It was fired from a 30-30 rifle."

The sheriff said the other men apparently failed to see Mr. McAbee.

"He was dressed in khaki clothing," Sheriff Royal said. "That made him especially hard to see since all the leaves on the brush up there are yellow like khaki this time of year."

Royal said the group called him from the scene and he in turn called an ambulance. The ambulance took Mr. McAbee to a Meridian hospital but officials said he was dead when he arrived.

Mr. McAbee was the second deer season fatality in Bosque County this year. The first, Henry Everett Moore of Waco, drowned about 5:45 a.m. last Wednesday when the pickup truck in which he and a friend were going to their deer lease overturned into Neil's Creek about eight miles west of Clifton.

Henry C. Cozby 78, Dies in California; Stephenville Rites Held

Henry G. Cozby, 78, retired former resident of the Carlton and Stephenville areas, died Monday, Nov. 14, in San Diego, Calif., where he has resided the past several months with his daughter, Mrs. G. A. Pittman.

Funeral services were conducted Sunday afternoon at 1:30 from the Chapel of the Stephenville Funeral Home.

Besides Mrs. Pittman he is survived by five sons, Berle Cozby of San Angelo, Wayne Cozby of Carlton, George Cozby of Hico, Homer Cozby of Stephenville, and Milton Cozby of Salt Lake City, Utah; and a daughter, Mrs. Raymond Koonsman of Stephenville. Also a number of other relatives.

Lori and Ronnie Elson spent this week in Gorman visiting their aunt and uncle, Mr. and Mrs. Floyd Elson.

WOMAN'S LUCK—While husband Bill was down in the Hill Country pursuing his buck last week, wife Joyce Boyd casually went about the business of bringing down this fine 8-point buck practically in her back yard. The buck was killed last Friday morning on Boyd Ranch, five miles south of town. This is the first deer ever killed on the place, and Mrs. Boyd was especially proud of the fete.

CHAMPS—Iredell High Dragons won their first district championship in several years during 1960, posting a 9-1 season record. The Dragons advanced to bi-district playoffs, and were defeated Thursday night by Lueders in a game played at Albany.

Iredell Defeated 64-22 in Bid for Bi-District Honors

The Iredell Dragons, who had previously won their district championship, journeyed to Albany last Thursday night where they met Lueders for the bi-district championship.

The Dragons were defeated 64-22 by a good Lueders team, which

is favored to cop regional honors.

In the first quarter the pattern of the game was indicated. However Mike Phillips managed to score a touchdown and the kick for two points was good. Lueders was far from being idle in that period, and at the end they were leading 30-8. Rex Garvin and C. A. Honey were outstanding for Lueders. Junior Reeves added further trouble for the Dragons with his terrific kicking ability. Lueders led at the half 42-8.

Phillips managed to push his way into the end zone for another touchdown, as did Ronnie Herrin in the last half. Victor Worley came through with more points for the pirates and the final score read 64 to 22.

The Dragons finished with one of the finest season records in history of the school. Their greatest thrill came when they defeated Walnut Springs enroute to the district title.

The Dragons and their coach, C. H. Mims, will be honored at a banquet to be held Dec. 9. Two hundred persons are expected to attend.

Five of the team members this year, Otis Bakke, Mike Phillips, Jerry Craig, Glenn Collier and Larry Burns are seniors. Jerry Wiese, manager, is also a senior.

Otis Bakke and Mike Phillips were captains, and Miss Peggy Davis was elected Queen of the Dragons.

Even with the loss of the five seniors, Iredell will probably field a contender for the title next year as squad members gained much experience during the season.

Works With Farmers to Improve Good Management

A. L. MILES

One of the most important factors in business is planning, and ranching is definitely no exception.

Product of his business and rancher faces many uncertainties and unknowns. Some of these are drought, market damage, and parasites. Also faces market hazards he has to sell his products at low prices.

After decisions have been made the land owner is furnished a folder containing a soil map. On this map is recorded the findings of the technician making the soil survey. In addition a complete record is made of the land owner's decisions on plan of operation.

All farmers and ranchers are urged by the board of supervisors to take full advantage of the opportunity to develop an overall plan of operation. Once a plan is fully developed it should be kept available for ready reference in carrying out the details. When in doubt consult the technicians. It is their responsibility to keep up to date on latest technical information in agriculture.

Keep the plan in a handy place. Left in the attic to accumulate dust it is worthless. Consulted often it will prove a source of valuable information that will enable you to conserve and improve your land and increase production.

HUNTER KILLED NEAR IREDELL LAST THURSDAY

Deer hunting got off to a good start on Wednesday morning, yet a fatal accident marred the pleasure of the hunt in the Iredell section last Thursday afternoon.

A hunting party of four servicemen from Carswell Air Base, who were hunting on the Lane lease about five miles north of Iredell. The group thought that all men were stationed on their stands when one of the hunters left his stand and was mistaken for a deer by one of his companions and was killed instantly.

They had thought they were using every precaution to not have an accident when this occurred, thus ending what had planned to be a happy occasion.

It seems that they were young men from the Northern states stationed at Carswell and were taking advantage of the hunting season. One deer had been killed.

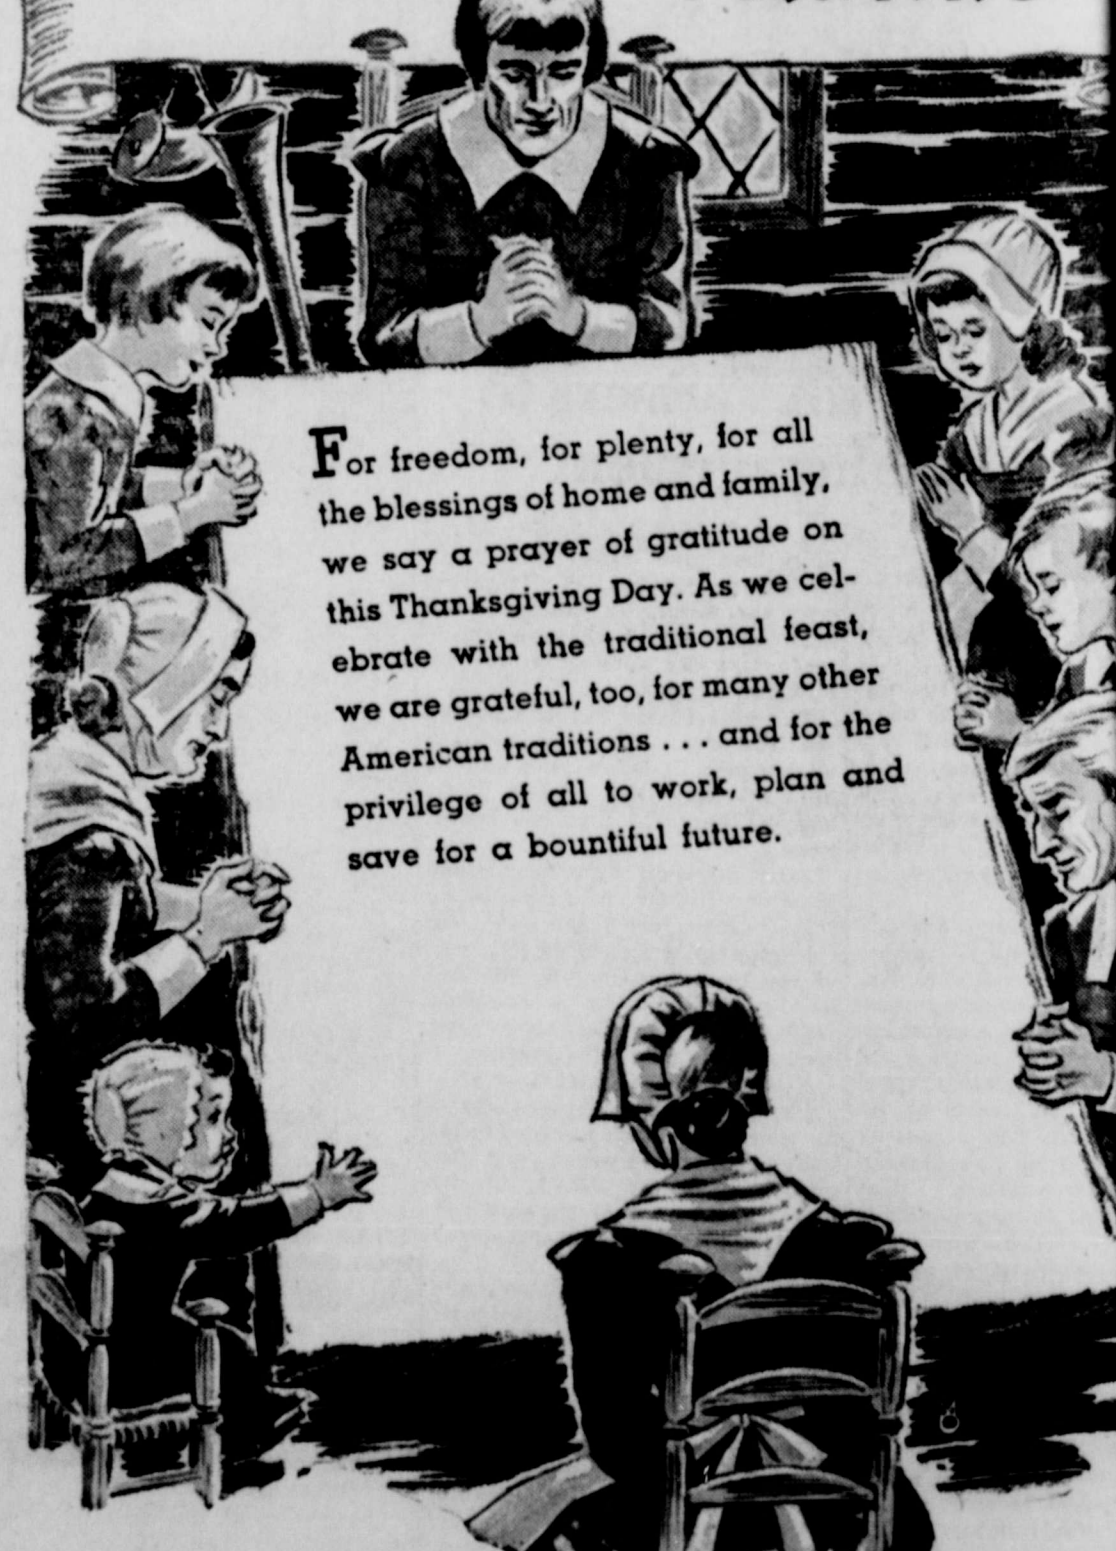

week and went hunting. Visitors in the home of the Charlie Tidwells Monday were Mrs. Leon Roberts and sons of Waco, Mr. and Mrs. Bob Grant of Stephenville, Dr. and Mrs. D. D. BEEF WEEK SET—Governor Price Daniel last week officially proclaimed December 4-10 as "Beef Week in Texas" for 1960, the 6th traditional state-wide observance of the Texas Beef Council. Governor Daniel is shown handing proclamation to Hugh A. Fitzsimons of San Antonio, president-elect of the Council.

Our school will close Wednesday for the Thanksgiving holidays, resuming classes on Monday.

Mr. and Mrs. Loraine Blakley, who live near the Leon River, but their children attend Fairy school, moved to Fort Worth the first of the week. Both Mr. and Mrs. Blakley have been working up there for several months, but their shift changed and they no longer could arrange to go from here. We hate to lose them from the community, but wish them success. Leland Appleby of Fort Worth assisted them in moving.

H. H. Wolfe recently suffered a facial stroke, and we are glad he was able to attend church Sunday.

Wishing all a happy Thanksgiving.

HENRY G. COZBY BURIED HERE SUNDAY AFTERNOON

After funeral services were held in Stephenville Sunday afternoon at 1:30 the body of Henry G. Cozby, 78, was conveyed to the Carlton Cemetery for burial by the side of his wife.

Mr. Cozby passed away Nov. 14 in San Diego, Calif. where he went three months ago to visit his daughter, Mrs. G. A. Pittman, and where he never recovered from serious injuries he received in a fall from a tree.

A short service was held at the graveside here.

Besides Mrs. Pittman, he is survived by another daughter, Mrs. Raymond Koonsman of Stephenville; five sons, Beryl of San Angelo, Wayne of Carlton, George of Hico, Milton of Salt Lake City, Utah, and Homer of Stephenville; one brother, Richard Cozby, who lives in a northern state; one sister, Mrs. Purley Sharp of Carlton. All were present for the funeral. Other survivors are many, and also a host of friends.

Carlton Basketball Girls Receive New Uniforms

Carlton, Nov. 22.—The Carlton Girls played Carbon at home Nov. 18, which was the first game in their new suits. At the first of the school year the girls asked Supt. A. J. Barron about new suits and later discussed the project with the Board of Education. Nita Sharp and Rita Chapman presented the request before the assembled Board and received their blessing. The girls agreed to raise part of the money which they have done.

The suits were ordered from B & B Sporting Goods of Waco who agreed the suits would be delivered before Thanksgiving. After the first of November several of the girls began to ask when the suits would arrive but always got the same answer, "sometime."

The Carlton girls have not lost a game this season, and from the way they played Carbon in their new suits they are not planning on losing one in the near future. Several fans commented that the girls had improved at least \$216.10 which was what the suits cost. As Carlton Activity Fund paid the balance, be sure to eat an extra hamburger at the next home game.

Carlton Elementary School Children Visit Fort Worth Zoo

Carlton, Nov. 22.—Mrs. Jewel Parrish's first and second grades and Mrs. Freddie Sills' third and fourth grades made an all-day visit to the Fort Worth Zoo recently. As the trip had been planned since the middle of October, all of the children were looking forward to the trip. They had previously visited the circus animals at Stephenville.

Mr. R. L. Roberts drove the school bus and everyone was ready by 8:45. Everyone laughed about being warned not to get into any cages, and the teachers about which ones were to be allowed on the bus for the return trip.

An adult must make the trip to a zoo with a group of children to have any understanding of its value. For instance one of the high points of interest was the giraffes. It was not their long necks being discussed, but why was papa giraffe taller than mama? Baby giraffe was cute and funny, but why was the spots on each a different shade of the same color?

In the herpetarium each adult received a card, "Please do not tease the snakes or tap on the glass." That was fine, but the children were interested in why some of the snakes were large and others small. None of the snakes were very nice, because all of them stuck out their tongues.

Each child brought a sack lunch. It was heaps of fun to see what someone else had and to show what was in your sack. It was

The First Baptist Church of Goldthwaite celebrated its Diamond Jubilee last Sunday in a day of wonderful services. This writer served that beloved church as pastor for four eventful years and was on the morning program.

ALEXANDER

By MRS. ALICE WILSON

Mr. and Mrs. Keith Earl of Dallas visited here Friday with old friends. Mrs. Earl is the former Miss Lilla Alexander, daughter of Mr. and Mrs. Will Alexander.

Mrs. Ada Langly and daughters and daughter-in-law of Bullard visited Mrs. Alice Wilson and other friends recently. Mrs. Langley will be remembered here as the former Ada Splaun.

Mrs. Mattie Theford of Carlton visited during the week end with her daughter, Alice Wilson.

Mrs. Annie Webb, who has been ill for several days in the Dublin Hospital, is improving. Her many friends wish for her a speedy recovery.

Mr. Bob Moore, who has been confined to his bed for several weeks, is showing improvement.

Visitors last week in the home of Mrs. Webb were Mr. and Mrs. H. L. Evans of El Paso, Mr. and Mrs. A. D. Gray of Taylor, and Mr. Herman Webb and sons of Commerce.

The Alexander "42" Club met Friday night, Nov. 18 in the home of Mr. and Mrs. John Edge, and drew names and made plans for their Christmas party, which will be held in the home of Mr. and Mrs. Van Garrett Sr. in Dublin Dec. 15. Those present Friday night were Mr. and Mrs. Ches Morgan, Mr. Sharp of St. George, Mr. and Mrs. Clem Ross, Mrs. Van Garrett Sr., and Mrs. Gussie Billingsley of Dublin, Mr. and Mrs. George Switzer of Stephenville, Mr. and Mrs. Jack Chaney, Mr. and Mrs. Temple Caudle, Mr. and Mrs. J. R. Williams, Mrs. Ruth Shaffer and Mr. and Mrs. Joe Driver. Coffee and cake was served.

Mr. and Mrs. Vernon Hewitt of Walnut Springs spent Sunday with Mr. and Mrs. Zeb Tidwell.

Sunday visitors in the home of Mrs. Alice Wilson were Mrs. Sybil Sowell and daughters of Hico, Mrs. Irma Mae Sones and daughters of Dublin, and Mr. and Mrs. Frank Holcomb and son of Dublin, and Mrs. Mattie Theford of Carlton.

even a good idea to trade items now and then to see if it tasted the same as home grown.

It was a happy, but tired group of thirty children which returned to Carlton between 4:30 and 5. The bus driver and adult leaders should be complimented on their allotment of time, as they had announced that they would return by 5. Carlton is fortunate in having a large number of leaders in the community to help on trips of this kind. On this trip Mrs. Roberts and two children, Mrs. K. C. Griffin, and Mrs. Claudene Carrol made the trip. Both Mrs. Parrish and Mrs. Sills expressed the school's thanks to these ladies for helping make the trip to the zoo safe.

He enjoyed it as he has not often enjoyed anything in life quite so much. The crowd was large despite the foul weather of the day that continually threatened rain and increasingly disagreeable conditions.

All the speakers of the Celebration were former pastors. There was President W. R. White of Baylor University, Pastor J. T. Ayres of First Church, Brownwood Ray V. Mayfield of Lufkin, Evangelist Charles Jackson of Dallas who was reared in the church, and this writer. At noon a wonderful meal was served that huge crowd at the Youth Center building just across the street from the church, which is on the site of the church from its beginning until the new building was erected in recent years. The women of the congregation proved their skill as cooks and hostesses at that meal.

Twice the church suffered from fires and the loss of its church buildings. That happened first in the year the church was organized in 1885. Then it happened soon after the new building was erected a few years ago. But each time the church heroically stood up and took the loss with true Christian spirit and built again. Now one of the most beautiful and commodious buildings to be found in the state is the church's home and place of worship and service.

The present pastor is Presnal H. Wood, a youngish man of fine ability and fraternal spirit and untiring energy. He has done a monumental service these years of his pastorate which began in 1957, and in spite of the visiting pulpit committees that beseege him, he continues steadfastly with his good work, to the very great gratification of his brethren. He is an excellent preacher and an unusual administrator, a faithful pastor to help the individuals of the membership, a friendly spirit that endears him to all who have any contact with him.

Then there are the people of the church. They are friendly, sacrificial, solicitous of human welfare, missionary in spirit, sustainers of good works in every realm of Christian endeavor. It is not often in life that this person has enjoyed anything as he did the

visit last Sunday, seeing and shaking hands with the hundreds of such dear friends. It was twenty odd years ago that I was the church's pastor, and a lot of changes have occurred in many persons of the membership. For example there was the comely young woman who came rushing up to me to tell who she was—a mother of four beautiful little daughters, who, when I was located at Goldthwaite was a delightfully friendly child of a much-loved couple that lived out west of Pecan Bayou on a farm where wife and I often visited with great joy. Then there were other persons who in spite of the years have retained their comeliness and one

can discern the add that come to hum that desirable qual Emly, daughter of church's most loved Anderson family, and notable husband splendid sons of were Robert and greatest characters known, and Annie marvellous mother and Frank and they are so numerous able that one names in an article May the Father's continually on His at Goldthwaite.

Much to Be Thankful

Let us pause to give thanks on this day for the plentifulness this land of ours enjoys . . . Thank God for the multitude of blessings we enjoy as individuals, as families, as a nation.

Coffee Time
CHATTER

By HELEN OGLE

It's hard to realize that it is time to enjoy the Thanksgiving holiday, but apparently everyone is ready for another sample of turkey and dressing, or possibly some of the venison.

May I say a special thanks to all who sent in early copy and to the merchants who remembered with their early ad copy. It's rushing enough to get the NR off the press, but without your help, it just couldn't be done. Thanks so much.

Buddy Randals must be planning a trip or week end of golfing, as he was in early with an arm load of bank statements to be trimmed down, and that always works up to a cup of coffee.

Lucille Jacobs enjoyed this past week end, visiting friends, and took time out to catch a nice bait of fish. Her husband wasn't wasting his time either, as he came home from the deer lease with food for the table.

James Cryer says our wading pool is not closed for the winter—it only has a new bottom in it.

Mr. and Mrs. Joe Wuemling of Grand Prairie are parents of a son, Bart Allen, who was born at Hico Hospital at 6:44 p.m. on November 10. The new arrival weighed seven pounds and eight and three-fourths ounces. Paternal grandparents are Mr. and Mrs. H. D. Wuemling of Route 6, Mrs. Ed Blum is maternal grandmother. The new mother is the former Miss Jean Brown.

Mr. and Mrs. Albert Brown and family of Bay City visited in the home of his mother, Mrs. W. H. Brown this past week end.

It was nice to say hello to Mrs. Earl Creman of Garrison, who is a former Hico resident. She and June Howard were catching up on old times over a cup of coffee.

Conda Salmon was out early Monday working diligently to get the final details of bonus days in order.

Mary Jo Patterson and Willa Dean Lackey enjoying coffee and visiting during a rainy afternoon.

Leonard Howard can really deliver papers in a hurry when it's pouring down rain but he takes all the short cuts possible.

Thoma Rodgers was banging away with the hammer, as she was posting the new bulletins in the P.O.

George Kilgo and Ralph Turner swapping new talk as they enjoyed an early morning cup of coffee.

Mary Elson was in town early Monday and said it was awful lonesome with the children gone, and husband away at work, so she just had to take the day off for visiting and coffee time.

Red Lackey must have had a lot on his mind or a number of chores to do last Thursday, as it took three trips back to town to find out where he'd left the morning mail.

Since we are rushed for press time, I'll cease with the chatter and wish you all a happy holiday. Remember to call in your reports of visitors, visits, or any events of the holiday.

Things you won't regret: Doing a kind act, keeping your temper under control, telling the truth when a lie would have helped, and refusing to listen to malicious gossip.

REPORTS OF HOLIDAY VISITORS WANTED

During the Thanksgiving holidays many residents will have guests or go visiting. Please drop a card to the News Review early next week or call an account of your visitors, parties or visits.

Your cooperation will be appreciated by the publisher.

TRY HALF TURKEY FOR THANKSGIVING

Do you feel your family is too small for a big Thanksgiving turkey? Try half or a quarter turkey this year. It will cut down on roasting time and you won't have the problem of leftovers.

Here are the directions for roasting half or quarter turkey: Rub the cut side with salt. Skewer skin to meet along cut edges to hold the skin and meat together during roasting. Tie the leg to tail piece and tie a cord around the breast to hold the wing flat.

Place the bird, skin side up, on a rack in a shallow pan. Grease with cooking fat and cover with a fat-moistened cheesecloth. Baste during roasting. Set oven for 325 degrees F. Here is a guide for roasting times:

Three and a quarter to five pounds, 3 to three and a third hours; 5 to 8 pounds, three and a half to four hours; 8 to 12 pound, 4 to four and a half hours.

Prepare your favorite stuffing as usual and bake in a greased pan or casserole during the last one or one-half hours of roasting time. To perk up the stuffing, baste with pan drippings or giblet broth.

CHRISTMAS FOOD IDEAS FEATURED IN BULLETIN

One of the most popular bulletins on the available list now is "Christmas Time at Home." And no wonder—this colorful bulletin is filled with ideas for Christmas menus, Christmas food gifts, and lots of tested recipes for cakes, cookies, holiday breads, candies, and even holiday beverages that will be sure to please family or friends.

PROCESSING AND FOOD DOLLARS

By John C. White, Commissioner
Explanations of why the farm- er's share of the American food dollar keeps going down generally come up against the established fact that as the amount of food processing increases the farmer's share of the food dollar declines.

The farmer's share of each dol- lar spent for food in 1959 was 28 cents. In 1949 it was 40 cents, and went up to 53 cents in the war year of 1945.

The wheat grower's share of each dollar spent for white flour is now 33 cents. When the flour is mixed with other ingredients and baked as white bread, the farmer's share for his wheat drops to 12 cents.

The corn grower receives 18 cents of each dollar spent for corn meal, but only nine cents of the dollar for cereals such as corn flakes.

On fresh green beans, the farm- er receives 43 cents of each dol- lar. But if the green beans are processed and frozen, he gets only 19 cents of the dollar.

There are, of course, exceptions to the rule. Take citrus, for in- stance. For fresh oranges, the grower receives 32 cents of each dollar spent. This goes up to 38 cents for canned orange juice, and 43 cents for frozen orange juice concentrate.

The wheat used in baking a 20- cent loaf of bread costs less than three cents. In 1959, when the re- tail price of a one-pound loaf of bread averaged 19.7 cents, the miller got 6 cent of a cent, the baker- wholesaler 12 cents, and the re- tailer 2.9 cents. The other 1.4 cents went for transportation, stor- age, handling and other process- ing.

The fact, of course, is that to- day the American housewife is buying convenience—freedom from the kitchen chores. They are also buying food with less waste, need- ing less trimming, sorting, or washing.

Three so-called ready-to-serve meals costing \$6.70 for a family of four could be prepared in the home kitchen for \$4.50, or \$2.20 less. The homemaker would use about five and a half hours to prepare these three home-cooked meals from start to finish, but only about one and a half hours to get the three ready-to-serve meals on the table.

The food cost saving of \$2.20 in the three home-cooked meals would represent an hourly wage of 55 cents for the four extra hours of work in preparing them.

Those examples are extreme. Most families actually use a com- bination of foods — unprepared, partially-prepared, and ready to heat and serve.

THANKSGIVING

STILL MEANS THANKS

Our Pilgrim Forefathers conceived Thanksgiving as a day to stop and take stock of all the good things in life. They were beset by problems—economic, political, big and small—but they found time, once each year, to thank God and thank each other for all the good things they enjoyed.

We are thankful, too, for the opportunity we have to serve the people of this fine community with quality Purina Feeds.

'Giant Eye' Symbolizing Research Hope Is Visited by Small Birth Defects Victim

The lights dim, and in the darkened high-ceilinged room a somber-faced little boy stares at the pilot light of a towering microscope.

This is the electron microscope at Ohio State University Hospital, Columbus, Ohio, a giant inquiring eye nine feet tall, capable of magnifying the human cell 100,000 times.

The small boy with the rather sad little face is Kevin Sharp, 3½ years, of Grove City, Ohio, who wanted to see a jumbo-sized version of the toy microscope given him on his last birthday by his doctor. Kevin has to see his doctor regularly because he is a victim of spina bifida, or open spine. He is paralyzed from the waist down and cannot play ball—or indeed play much at anything.

Such mobility as he has is made possible by his crutches and leg braces.

Kevin's is one of the significant birth defects the cause of which is being pursued today by The National Foundation with New March of Dimes contributions. Congenital malformations afflict 250,000 infants annually in the United States and are responsible for the deaths of 34,000 babies each year who are stillborn or die within four weeks of birth. The health organization's expanded program also includes arthritis and continued work in polio.

In his excitement while reaching for the eyepiece of the vast instrument, Kevin probably didn't know that in the ultra-powerful lens of such electron microscopes, scientists hope some day to pinpoint the cause of the savage embryonic mishap that crippled him before he was born. By comparing normal and abnormal cells under tremendous magnification, researchers hope to discover, for example, why Kevin's spine never fused during his mother's pregnancy, or why some other little boy or girl is born with excess fluid on the brain—another baffling birth defect which The National Foundation is studying.

"At his birth, doctors gave Kevin only a few hours to

live," says Mrs. Gerald Sharp, his mother. "In addition to his open spine, he had two clubfeet which are now much improved due to surgery and physical therapy. He is a brave and happy little fellow even if he smiles so rarely. My husband and I thank God that today wider research is being done into birth defects."

She adds somewhat wistfully:

"My husband Gerald and I met in an orphanage in Xenia, Ohio. We became childhood sweethearts. Like other young

people, we longed to raise a family, and a healthy one.

"Why should this unaccountable accident have happened to us? But we count our blessings. Perhaps fewer Kevins will be born to the next generation. We certainly pray so."

The lights return and, supported by his crutches and braces, solemn little Kevin struggles back from the microscope. But at that moment, looking up at his mother, there's the suggestion of a smile around the corners of his mouth.

COUNTY AGENT REPORTS

Record books and farm accounts

are two things that not too many farm operators keep. Records are becoming more important each year, with income tax records to keep, social security, etc.

The A & M College for a long time has recommended farm account keeping. Too, the college has a record or account book that each year many farm operators order from the college book store. This year there are several businesses in Hamilton who have these record books for those who would like to have them.

Along in January there will be a school in Hamilton on income tax for farmers and also on keeping and using the record book.

Water is one of the most important things in livestock raising. A good water supply is an asset to any livestock operation. Too, good clean water is most important to the livestock feeder.

W. J. Watson, Jonesboro, has been feeding out calves for a number of years. Since he started his calf feeding program he has had to make some changes in his water troughs. Some of his troughs were deep and held too much water for him. He partially filled them with rocks then covered the rock with concrete.

This made it take less water to fill the troughs too. Watson cleans out the troughs every other day and says in doing this his cattle will drink more water. By adding the extra bottom in the troughs he does not waste as much water and he can clean the troughs much easier.

From time to time I'm asked if insecticides applied to fields build up residues in the soil and then affect the production of crops. The experiment station conducted two field experiments during 1955-59 to determine the effects of large amounts of insecticides applied to soil on the germination, growth and yield of several crops.

One test was at College Station and the other at Denton. Insecticides applied at Denton were toxaphene, DDT, parathion, dieldrin and benzene hexachloride. Initial applications included two dosages levels, the equivalent of the calculated amounts that would be applied over periods of 10 and 20 years. The above insecticides, with the exception of parathion, were included in the initial treatment of soil plots at College Station. Dosage, however, was the equivalent of the amount of insecticides normally applied during 5 years.

No additional applications were made at Denton, but subsequent annual applications were made at College Station. No reduction occurred in the yield of cotton grown on the College Station plots that were treated with recommended yearly doses. Also insecticides had no apparent effect on yields of

grain sorghum and alfalfa from 1 and 2 years after the cotton.

Germination and yields on the Denton plots were lower than that on untreated plots, but it must be remembered that the amount of insecticides applied were far greater than normal.
