GRAHAM CHURCHES USED FOR SCHOOL FOR TIME BEING

The churches of Graham are being used six days in the week, according to Sheriff Wallace of Young county, who was here yesterday.

The public school building at Graham was burned last week. After the fire arrangements were made to continue the schools in several of Graham's churches. While there is some inconvenience the plan is working out very well, Mr. Wallace reports.

The school building was valued at about \$60,000. There was \$20,000 insurance. It will be necessary to vote bonds before another building can be erected.

Mr. Wallace stopped in Wichita Falls on his return to Graham from Fort Hill where he had taken a deserter whom he had apprehended.

LOCAL BOY TELLS OF EXPERIENCES IN NAVY SCHOOL

FINDS TRAINING AT GREAT LAKES TO BE MOST STRENUOUS AFFAIR

A Wichita boy has written home from the Great Lakes training camp north of Chicago that he expects to be ordered any day for duty on a U-boat destroyer, he boy has recently completed a course of gunnery on the "Yantis", and the training seems to have been pretty rigorous.

"I am sure glad to get off that old 'Yantis' he writes. 'I have got my rating, though, and that will help me. We had an awful snow storm, the letter continues, 'last Monday night, I had to row a boat all night. Four degrees of fever next day. All right Wednesday, however. We had to paint the whole ship inside and out before leaving, and it was a job. The mast is about one hundred feet high. Sure is scary up there. We painted it battlement gray."

All the men are long and lean from the training on the "Yantis", the letter says; but they are tremendously fit, and in splendid shape.

"Mr. Marland told us," the letter says, "that we were liable to go any day on a submarine destroyer. Quite a few have gone already. We have to be an all round bunch—everything on one of those boats. They are small but powerful, and can run faster than any other boat or submarine on the sea. It is said you eat breakfast in Rhode Island, and dinner in New York; some speed, I would like to be on one of them but every man has to be a man, and to his part, and to his business; for he is responsible. The crew isn't more than forty or fifty, officers and all. They are under and out of the water, go right through the waves—go so fast they don't rock. Will be some fast life, don't you think?"

"I have just signed up for another Liberty Bond this a. m. They are good news, but I am sure glad to be off the 'Yantis.'"

GEORGE WALSH in "THE YANKEE WAY"

"Smile-a-Minute" GEORGE WALSH, the happy star of the Fox Film Corporation, in the speedy little play which contains more "pep" in five minutes than the average comedy does in 30 reels. It all began in a cabaret and how was our hero to know that the beautiful girl whom he saved from the annoying attention of a would-be masher was a princess in disguise? So when father sends him to Lithuania a spot in the Balkans, where he succeeds in causing more excitement than that small kingdom had known in many years and he meets his princess she is just naturally has to disguise her Yankee methods as she brings her back to the good U. S. A. Suappy, pepper, thrilling and fitting the star like a dress suit.

WM. ELLIOTT, F. RAY COMSTOCK and MORRIS GEST PRESENT
EXPERIENCE

By GEORGE V. HOBART
"The Most Wonderful Play in America"
9 Months in New York—7 Months in Chicago—5 Months in London

A WORD TO THE PUBLIC
From MR. I. MARKOWITZ

The magnificent production of "EXPERIENCE," the most wonderful play in America, with the original New York company will be presented at the Wichita Theatre under the auspices of Messrs. Wm. Elliott, F. R. Comstock and Morris Gest, for matinee and night on Saturday, November 17th.

"Experience" is without doubt the greatest success of this modern generation. It ran for nine months in New York, five months in London, seven months in Chicago and five months in Philadelphia. In every community where "Experience" is presented it always receives the enthusiastic endorsement of the clergy of all creeds and denominations.

"Experience" is a modern morality comedy drama by George V. Hobart telling in ten vivid and powerful scenes the temptations confronting Youth—the average young man—going forth into the world to seek love and fortune.

"Experience" is properly called "The Most Wonderful Play in America." I know of my own knowledge that this play has been seen everywhere. I am sure it will arouse enormous interest here. It is one of the biggest shows I have booked. I don't believe another such a big will come along for several years. I am proud to be able to present "Experience" to the theatregoers of this city and especially glad to announce that this "Experience" organization, with a cast of 30 capable players, is considered by the critics the best "Experience" company ever assembled.—I. MARKOWITZ, Manager Wichita Theatre.

The Reserved Seat Sale will open Monday, Nov. 12, at the Grand Drug Store at 10 a. m.—Phone 323

Reservations will be held until Saturday morning, 9 a. m. No longer. Out of town reservations will receive usual prompt attention.

PRICES—Night \$2.00, \$1.50, \$1.00, 75c. GALLERY 50c
MATINEE PRICES—\$1.50, \$1.00, 75c, 50c. GALLERY 30c

"WAR TAX" Get this Clearly

The Law commands theatre to collect the "War Tax" which is 1 per cent on the price of tickets; this tax is to be paid by the purchaser of such tickets (Sec 700, War Tax Law).

Youth, in "Experience," having thrown away his money in the Golden Cabaret on the Primrose Path of Pleasure, and having failed to make a fortune playing roulette. As the Corridors of Chance, goes into the Street of Disillusion, which leads up to the entrance of the Golden Cabaret. Youth still believes that his friends of the Primrose Paths of Pleasure, will not spurn him now that he is poor, but Experience warns him that he has a mistaken idea of the sort of friends he is associated with in the Golden Cabaret.

Experience says "I don't want to discourage you, my boy, but friendship made through the wine glass are only as the vapors of the night, and they fade and die in the morning of reality." Youth, questioning Experience says "Don't tell me these friends of mine are going back on me simply because my clothes are getting a bit shabby. That is not fair to them." Experience answers, "I am not unfair, don't depend on your friends here." Just then Pleasure comes up and Pleasure haughtily passes him by and Youth learns that she speaks to him now in a different voice. Experience says "The voice of Pleasure is always the thrust of a dagger in the dark."

Style and Beauty come up to the youth also fail to recognize him and disappear into the Golden Cabaret. Frivolity and Wealth come to Youth both ignore Youth, but Youth richer contemptuously offers them money, which Youth has so lately refused to refuse.

The Street of Disillusion with the tale that many of us have had to learn reluctantly in life, and that is one of the very human epigrams of experience, the modern morality play drama which comes to the Wichita Theatre November 17th.

Woodmen's Campaign
 Is Showing Results,
 Good Talks Heard

The campaign just started by Camp 3001 W. O. W. is showing results. Nearly 100 members of the W. O. W. and Woodmen Circle were on hand last night, and a most enjoyable evening was spent. Sandwiches and coffee were served in the way of refreshments.

Clerk Heyster and Deputy Ogle discussed the merits of Woodcraft, and urged the members to work for the unbidding of the order, and to attend the meetings. A prize of \$1.00 was put up for next Wednesday night for the member drawing the lucky number, and it is most earnestly desired that a full attendance be present.

It is thought that some time in November a large class of candidates will be initiated, and it is also planned to put on the Morning, Noon and Night degrees upon such candidates who care to take it in the very near future.

The battle royal staged by five dusky knights at the meeting last night, was indeed a treat for those who saw it. The floor being quite slick, and the combatants keeping their shoes on, resulted at times in nearly all of them being sprawled out on the floor together in a heap, and created a great deal of amusement for those who witnessed the battle. No blood was shed or serious damage resulted in the affray.

Y. M. C. A. FUNDS FOR USE IN WAR BEING GATHERED

J. W. Hogue, manager of the Y. M. C. A. war fund for this district, is just returned from Burkburnett, where he says the work was taken up with the utmost enthusiasm. Mr. Hogue had no sooner mentioned his object in coming before a gathering of some thirty of the business men of Burkburnett, than he was told, "Go on up the line, and look after the rest of your territory; we will send you a draft for the amount then you want it." "I'm in for anything that will help whip the Germans," said one gentleman, and that sentiment was echoed throughout the meeting.

Today Mr. Hogue will go to Iowa Park, and will cover "Iowa" and "Bowie" before returning here about the middle of next week.

Kemp Receives Wire.
 J. A. Kemp has received a wire from J. W. Stringer to the effect that as soon as he returns, he may be counted to stand solidly behind the movement here, and do all in his power to help raise the money. A banquet will be held on Friday, November 9th, to which the committees from the whole district will be invited. The speaker for the occasion will be announced later.

Wherever Mr. Hogue has been so far in the district, the object for which he is working has been loudly acclaimed as being as worthy and as important as any that is being undertaken in the prosecution of the war. "Men have opened their hands and their pocket books for this cause, because they are realizing," Mr. Hogue said, "that the Y. M. C. A. is doing a very vital work in caring for the soldiers at the front, supplementing as it does, the purely military training which the government provides."

"The recreation of the soldier, all his leisure time, is being looked after by the Y. M. C. A.," Mr. Hogue continued. "The ministrations of the association, however, are not being thrust upon him. They are there for him when he wants them, and the experience of the association has been that he does want them. Writing rooms are provided for him, reading rooms, athletic equipment, gymnasiums and occupation for all his spare time. He can take advantage of the opportunity. These things help to keep the soldier fit—to keep his mind of his troubles, and to lessen them. They help to keep the trenches filled with clean healthy men, and so help to win the war."

STOKES ELECTRIC BUSINESS SOLD TO NUNN ELECTRIC CO

Announcement of the purchase of the Stokes Electric Company by the Nunn Electric office, with branches in Amarillo, Oklahoma City and Tulsa, Okla., was made this morning by J. Lindsey Nunn, the work of taking inventory of the stock being well under way this morning under direction of J. A. Wright of Amarillo, Texas, manager of the company. B. C. Workman of Amarillo, will be in charge of the local office.

"We have faith in the future of Wichita Falls," was Mr. Nunn's remark this morning. "I have watched this city for a long time and long ago determined to make substantial investments here on the first opportunity. The opportunity has now opened, and, of course, we feel pretty good as to the outlook."

The local house will be both wholesale and retail and the management claims that it will be one of the best in the state, carrying a complete line of high class electrical appliances, including heating devices, and in addition an excellent line of sporting

SELLS-FLOTO BOSS ANIMAL MAN TELLS OF EFFECT OF MUSIC UPON WILD ANIMALS HE CONTROLS

"When I was a little shaver I used to read stories about music charming animals. The yarns always got my imagination to soar like a kite. I never got over 'em entirely, for I've seen lots of things about music and beasts that other animal men seem to overlook."

The boss animal man of the Sells-Floato Circus, which will exhibit at Wichita Falls, was talking.

"To tell the truth, however, the pictures of the gentle missionaries playing on a cracked harmonica while the man-eating Bengal tiger halted his pounce upon them is a bit far-fetched. Music makes some 200 animals mean. In the circus music is a sort of call to action for the beasts—they know it means parade and performance. It and the crowds of people get the jungle folks restless. Music is a sort of cue for them. I remember one group of lions that worked in the stock arena a season to a certain tune. One day the band struck. The show went on just the same, but when the animals came stalking into the arena and jumped upon their pedestals they gazed around and at each other as though they missed something. Then it developed that they would not work. Their trainer did everything in the world to get 'em going, but it was no use. Those lions missed that music. They considered it a part of their act. But, of course, I would not say that they were waiting for the particular tune. I think any would have served."

Evidently there are not so many bargain hunters in Wichita Falls, The local postoffice authorities report that the mails for the last two or three days have not been unusually heavy.

With the coming of the automobile attendance upon the regular meetings of fraternal organizations began to decrease. We have an idea that with the coming of automobiles and the erection therein of lodge buildings, the fraternal organizations will again come into their own.

The United States will have a tremendous merchant marine by the end of this war. And, by the same token, it will have a tremendous foreign trade.

THE TRUE SOLDIER.

Undoubtedly it is the duty of every American housewife to sign a Hoover pledge card, thereby enlisting under the flag for the vigorous prosecution of the war against Germany in that way in which she is best fitted.

But the soldier who enlists in the army and then refuses to fight is worse than no soldier at all. He sets all the rest of the men in his company a bad example and thereby does his country damage rather than good.

The woman who signs a Hoover pledge card and then fails to ascertain exactly what are her duties under her enlistment into the service of the United States, is falling short of that which is expected of her by the country. She is at least "over-looking" a fight.

Instructions are going to be sent signers of these cards from time to time by the Food Administration. They will be more in the nature of suggestions than instructions. Substitutes for costly articles of food, or for articles of food needed more by our allies than by ourselves, will be suggested and the way to make them palatable will be shown.

Every woman should become a student of domestic economy if she is to enlist in the service of her country through food conservation, and those who prove best students and are able best to apply those things which they have learned, will in truth be the best soldiers; will in truth be dealing the heaviest blows against autocracy, inhumanity, barbarism.

IS THIS AN IMPENDING CATASTROPHE?

There are indications of further unrest among the railroad workers of the country.

Members of the Brotherhood of Railway Trainmen have formulated demands which would make \$5 a day the minimum wage.

The Switchmen's Union of North America has drawn up a schedule for a fifty per cent advance.

A crisis is declared to be impending. There are indications that those who predicted that the passing of the Adamson law would not settle the railroad situation, but would merely postpone the crisis, were true prophets.

We have a very distinct recollection that with the passage of the Adamson law a very large number of influential Brotherhood leaders declared that the men had been entirely satisfied; that a strike had been definitely averted; that the men, patriotic as they are, were determined to stand by the American government to the last ditch, and that no new demands would be made throughout the period of the war.

On the other hand, the managers admitted that they had granted the demands of the men more from patriotic motives than any others; because they did not desire in any way to be responsible for bringing about

a situation, or having part in a situation, which would endanger the United States during the most critical period in its history.

The roads have been practically under government supervision since the beginning of the war. The managements have moved heaven and earth to expedite government shipments of supplies and materials and to handle promptly the troop trains which have streamed from end to end of the country.

Now what are the men going to do? Are their wages so far less than those of other people that they cannot make small personal sacrifices for the sake of the country which is feeding and caring for them and their families? Will they forget that the increased cost of living is striking them less hard than it is striking most of the people of the country whose average pay is far less? And will they forget, too, that their services to the country at this time are absolutely indispensable in the movement of men and supplies; that if they strike they will in fact be aiding the Germans with more certainty than would the mutiny of a great army?

We do not believe that any of the working people of this country will so far forget their duty as to bring about dangerous embarrassments at this time. We know that, as a class, the railroad men are just as patriotic as any other people and we do not believe that they will press their claims, however just, to the point of damage to the nation.

For each of us has been pinched a little by the necessities of war, and each of us, being men, will accept our burden as men should, smilingly and with unflinching fortitude, remembering, as we stay-at-homes of necessity must, that whatever our lot may be, it cannot compare with that of the flower of American manhood who must endure the slaps of the trenches in France, must face the shot and shell of the enemy's guns and work with their hands as few of us back in America will have to do.

American labor, we are sure, will remember these things and proper adjustment of any differences will be made without the necessity of paralyzing the nation's transportation facilities.

WHAT THE PAPERS ARE SAYING

GREAT BRITAIN. About Operations Against Italy. London, Nov. 1.—The military correspondent of the Times says of the Italian operations:

"The fact that General von Buelow with an inconsiderable force of German troops has burst through the Julian front, and that Austrian columns have found other badly defended points in the Carnic Alps is very unfortunate and we have no need to minimize the gravity of the situation. Italy's eastern frontier temporarily is lost."

The correspondent finds a silver lining to the cloud in that although the season approaches for the operations in France and Flanders to die down there is nothing to prevent fighting on the Italian plains throughout the winter. This is advantageous to the side with the greatest resources. He adds:

"The Germans beckon us to the Italian front and with a very heavy good will we shall oblige them."

ITALY. About The Disaster On The Isonzo. London, Nov. 1.—The disaster on the Isonzo was welded together, all sections of Italy and has suppressed political antagonism, says the Milan correspondent of the Daily Telegraph, who adds that everything is being done to meet the invasion. Troops are being rushed from depots and all available sources are being drawn upon, and all the great arteries of transport are being utilized for military purposes.

Hundreds of convalescent officers are demanding that they be sent to the front. The whole third army of the Carlo, with its guns and material got away safely, the correspondent adds and will give battle "when the time comes." The Austro-Germans are being held in check and the concentration on the Venetian plains is proceeding without hindrance.

FRANCE. Regarding Royalist Disturbances.

Paris, Oct. 31.—The Temps prints what is apparently an inspired statement of the governments proceedings against the royalist newspaper L'Action Francaise, who editor Leon Daudet recently made charges of treason against Louis J. Malvy, former minister of the interior. It says that the government has received information leading it to believe that the royalist movement was preparing to act against the government. The matter was placed in the hands of the military authorities and the department of justice in order to throw light on this as well as on other cases under investigation.

A search showed the Temps adds, that the information received concerning arms was exaggerated but that the plan of mobilization of the L'Action Francaise league was found. It was dated during 1913-14 and it is

HALLOW'EEN HERE CELEBRATED WITH PLENTY OF NOISE. WISHERT LECTURE SEAT SALES ARE BEING MADE FAST.

NO PROPERTY DAMAGE OF IMPORTANCE, HOWEVER, HAS BEEN DISCOVERED.

The movement for a "sane Fourth" seems to have extended to include a Halloween—comparatively so, and the eye dedicated to All Souls' passed off, if not without noise, at least without much damage. Bands of these souls, but newly released from Purgatory—for no known reason—paraded the streets, and invaded the picture shows, wailing unmelodiously and arranged as in a group evidence and there was no lack of hideous masks and an even more hideous din.

A gate or two was removed by souls on the ramparts, and B. M. Dillard's car took unto itself wings, though this may have been the work of mere mortals. Undoubtedly mortal was the party tearing around town in an automobile with a fifty gallon gasoline tank in tow on a ten-foot rope. This contrivance performing wild parades as the car took the corners, was a source of considerable danger to pedestrians, and other traffic, and of much annoyance to the police. Although the driver was known to be he could not be apprehended till after the affair was over, and so far nothing has been done about it, though it is not certain that the matter will rest here.

NEGROES ANXIOUS TO ANSWER CALL OF THEIR COUNTRY

A degree of enthusiasm which probably surpasses that shown by any of the white draft contingents which have left Wichita Falls previous to this date, is being shown by the eight negroes who will represent this county at Camp Travis as the first negro contingent, according to members of the local draft board. Not only are those negroes whose names come first in the list anxious to go, but other negroes who will not be called until several more contingents are needed are coming to the office and insisting that they be sent on at this time.

The eight local negroes, with three or four transfers from other counties, will leave here sometime today or tomorrow. Clarence Davis will captain the party. There will be eight men in the party, those certified to go being Louis Dodds, George Lewis, James Washington, Dezzie Windom, Clarence Davis, Elmer Colwell, Ed Isaacs and Levi Brown. Walter Jones is the alternate in event that anything prevents any of the others from going, which is improbable.

TODAY'S MARKETS

SYMPATHETIC DROP WITH STOCKS MADE BY PRICE OF CORN

Chicago, Nov. 1.—Corn prices weakened today in sympathy with the New York stock market and owing to weather conditions, likely to promote the movement of new grain. Selling, however, was not of an urgent character. Crop reports to a leading authority indicated that the yield per acre was about 4% of a bushel more than had been figured on Oct. 1, but that husking was late and damage to quality more severe than was expected. Opening quotations, which ranged from 1/4 to 3/8 cents lower with December \$1.17 1/2 and May \$1.12 1/2 to \$1.12 were followed by a moderate additional setback.

COTTON MARKET PROVES NERVOUS THROUGHOUT DAY

New York, Nov. 1.—The cotton market showed renewed nervousness and irregularly renewed trading today. The opening was steady at an advance of five points on December but generally 9 to 21 points lower and the active positions sold about 10 to 21 points under last night's closing during the first few minutes. This was due to a renewal of yesterday's selling movement and carried January contracts off to 26 1/8. There was buying at this decline by brokers with Liverpool and trade connections, however and prices soon steadied, working about 5 to 7 points above yesterday's closing before the end of the first hour. A local authority estimates the condition of the crop at 58.6 against 64.5 last month and 57.3 last year and the amount gathered at 73 percent against 84 last year and 72 two years ago. The outlook was for continued fair but cold weather in the south.

SALVATION ARMY WORKERS CLOSE SESSIONS HERE

SESSIONS OF BODY END WITH SPECIAL REVIVAL SERVICES.

After closing the two days' conference of Salvation Army workers of North Texas with a special revival meeting last night at the Citadel, Commissioner Estill of Chicago and his party left this morning for Oklahoma City, where the commissioner will lecture tonight. Tomorrow the party will go to Tulsa for a special meeting similar in character to the one just closed here. Both the commissioner and the visiting officers were much interested in the work accomplished at Wichita Falls and the council was considered very much of a success.
Enjoy Dinner.
Commissioner Estill and the visiting Salvation Army workers, Mayor Brittain, County Judge Harvey Harris, Councilman E. G. Hill and several citizens were guests of Ensign and Mrs. Robb at dinner at the St. James hotel at five o'clock Wednesday evening that was an Epicurean delight.
Breadwinner George Wood of Dallas, presided as toastmaster and responses were made by Adjutant James of Fort Worth, Adjutant John Wood of Dallas in behalf of the Army, and by Rev. H. F. Draper of the Ministerial Alliance of the city. Judge Harris, representing Wichita county and Mayor Brittain, representing the city.
The local men voiced the appreciation felt here for the work of the army and of Ensign and Mrs. Robb.
Estill Speaks.
Commissioner Estill briefly spoke an appreciation of Wichita Falls and of the Salvation Army workers of North Texas. He said that the apparent appreciation of Ensign and Mrs. Robb here and their standing was not exceptional for Salvation Army workers and that there was a growing appreciation of the Army throughout the country. He charged those who heard him to continue to work as faithfully as they had in the past and said that what was being done here ought to be an inspiration to them.
At the conclusion of the banquet breadwinner George Wood presented Ensign and Mrs. Robb with a purse of \$40 as a token of the appreciation of the Salvation Army of North Texas.

ALWAYS THE CHOICE WHERE NO CHANCES ARE TO BE TAKEN

War time is no time for trifling. No time for experimenting. The best of Army and Navy equipment is demanded—the best of men to man it—and finally the best, most nutritious foods for those men.

CALUMET BAKING POWDER

bears the distinction of being selected for Army and Navy use. Because of its dependability—its absolute certainty of producing pure, wholesome bakings. It is sure. It is safe—that's why it has won Uncle Sam's selection—why it should win yours—and will if you will but give it a trial.

AUSTRIANS CLAIM MANY PRISONERS

(Continued from Page 1.)
strengthening of the Italian national feeling.
The French in their successful offensive north of the Aisne in the region of Lach last week captured 12,157 prisoners, including 237 officers. The guns taken numbered 180. There has been little infantry fighting in this region and the German crown prince has been unable to carry out counter attacks of any strength. The artillery duel continues violent.
Count Von Hertlin has not accepted the German imperial chancellor's pending conferences with Reichstag leaders.
British Resume Campaign.
Indications from Palestine are that with the advent of favorable weather the British are resuming their active campaign up the Syrian coast. The capture by British troops of Beersheba, approximately 40 miles southwest of Jerusalem, is reported in an official statement today.
Seven groups of German airplanes, totaling about thirty machines, made an effort to bombard London last night, but not apparently more than three of them succeeding in penetrating to the heart of the city, a few others reaching the outskirts.

MAJORITY IN REICHSTAG REJECT NEW CHANCELLOR

London, Nov. 1.—Count George Von Hertling has been rejected as imperial chancellor by the Reichstag majority leader, according to special dispatches from Amsterdam which construe this as a rebuff to the emperor and a victory for parliamentarism. The messages, however, apparently were written before the German wireless statement was sent out yesterday announcing that Von Hertling had been offered the place and was consulting with Reichstag leaders.
An Amsterdam dispatch to the daily Express says that Count Von Hertling had conferences with the major-ity leaders and that they opposed his appointment because he was against the Reichstag resolution for peace without annexation and the democratic parliamentary system.

Amsterdam, Nov. 1.—The grave of Grand Duchess Alexandra Pavlovna of Russia, in Budapest, according to a dispatch from the Hungarian capital, has been broken open and the body stripped of its jewelry. The chapel containing the grave also was robbed. The grand duchess was the first wife of Arch Duke Josef Palatine of Hungary.

WICHITA COUNTY WOULD BE FIRST ON LIBRARY FUND

COUNTY IS MAKING GOOD START TOWARD SECURING ITS QUOTA

It may be a little too early to sound the blare of trumpets, but it is believed that Wichita county will be the first to send in its quota for the War Libraries fund. Dr. H. Smock, county chairman of the committee, stated that Wichita Falls had already covered the minimum of \$1000, and that there was every prospect of over-subscribing the maximum by this evening, when the money will be sent to Austin.
From Electric and Iowa Park come the reports that the fund is going strong. Both J. W. Dunn, and J. T. Overby, chairman of those towns, said to Mrs. Smock yesterday, "Don't worry, we shall bring in our quota without any difficulty," and W. D. Cline, chairman for Burkburnett said that the work in that town had been most encouraging, and that the quota would be reached.
By Saturday, the complete returns of the county will be available, and the money sent in. Two thousand dollars is the amount required from the county.

SAN JACINTO PARENT-TEACHER CLUB MEETS WEDNESDAY

The first meeting of the club year for the San Jacinto Parent-Teachers Club was that of Wednesday afternoon when the club attended to essential matters. Co-operation in the food conservation move was pledged by the club after an address on the subject by Attorney Ed Tapler and the club will meet only once a month on account of the members having given their time to the Red Cross work. The attendance was very good.

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. A little zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.
Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.

HALLOWEEN PARTY GIVEN BY MRS. W. N. RAWLS

A jolly Halloween frolic was enjoyed by the young friends of Mrs. W. N. Rawls, who opened her home at 412 Burnett to the boys and girls for a Halloween masquerade. The house was decorated with pumpkins, jack o'lanterns and other Halloween symbols with a large American flag given the place of honor and the national colors were tastefully mingled with the festive Halloween decorations. Music by Miss Ruby Edwards, whose stories before the masques were removed and various games entertained the young people. After nine o'clock the party in their ghostly attire paraded through the business section, returning to the Rawls home for more music and fun. There was no refreshment the hostess making a donation to the Red Cross in place of the "eats". Four soldiers from Fort Sill, Privates Ed. Dr. and Mrs. R. H. Graham entertained a number of little girls on Wednesday in honor of the fifth birthday of their small daughter, Lily. The house was decorated in a Halloween scheme with pumpkins, black cats and other motifs to delight the children. Games and contests amused until late in the afternoon, the prize in the contest going to little Frances Reid. Refreshments consisted of ice cream cake and candies with pumpkin jack o'lantern favors. The small hostess was pleasantly remembered by the little guests with numerous gifts. Those present were: Dorothy Reid, Mary Moevius, Lenore Walker, Mildred Reid, Sally Maer, Stout, Frances Reid, Gladys Nelson and Corinne Tucker.

The Gem

Today Little Zoe Rae and some other players, kiddies and grownups, are to be seen in "Captain Kidd" a modern treasure island story. Zoe meets a bad, bold pirate, and inflicting him that she loved pirates, goes to his island cave with him, prepared to have a wonderful time. It just happens that the villains the piece select the island as a hiding place for some very important bonds the theft of which comes near to wrecking everybody's happiness. Zoe and her pirate discover them, and experience the usual thrill which finders of hidden treasure have always known in story books and in reality. The thief has no idea that the island is inhabited by two children but he takes the precaution of cutting a hole in their boat, and when the joys of pirating pall, as they must when you are six years old, and the two children set out for home, they are threatened with a real, wet death and this is where Zoe does some of her most extraordinary emotional acting. Her terror is as real as that of Madame Bernhardt herself, whom Zoe long ago adopted as her model.

WINDOW DISPLAYS ARE TO BE READY BY NIGHTFALL

PUBLIC GIVEN INVITATION TO VISIT STORES THIS EVENING.

The public is cordially invited to come down town tonight and inspect the window displays of the many merchants who have given their window space to the work of the Food Administration. Pledge cards may be obtained from any of the stores, and those who have not already received the cards are requested to ask for them.

The displays are many and varied, but all tend to one end, and all teach one lesson—that of conserving food that is needed by the allies of this country in the war. "Conservation," says one of the Food Administration pamphlets, "does not mean less food, it means less waste. Coal, for instance, on the parlor floor, is waste; in the kitchen range it is fuel." The slogan "Food Will Win The War—Do Not Waste It" appears in many windows, and in most of the displays are shown the foods to use and what to do without. Corn meal, corn syrups, rice, beans, potatoes, sweet potatoes, buckwheat flour, fireless cookers—the Frisco Furniture Company has a complete demonstration of these—fresh vegetables, fish, and all the foods that are being urged as substitutes for wheat flour, meat, sugar and so forth, are to be seen in the windows, the arrangement varying with the individuality of the merchant. A great deal of thought has been expended on the displays, and much originality shown. Placards appear bearing many legends: "Your Sample Needs Food; Don't Waste It," "Our Own Waste Makes Our Allies Want," "Food Will Win The War," "Save a Loaf a Week; Help Win The War," and many other such slogans are in great profusion. One prominent merchant put the whole matter in a nut-shell this morning. He said, "After all, the window displays are not the important thing, nor even signing the pledge cards, it's keeping the pledge that will win the war."

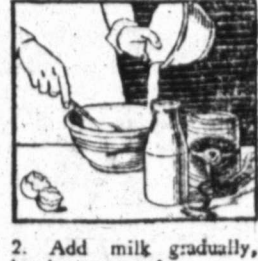

BOY DIES AT SHERMAN AFTER AUTO ACCIDENT

By Associated Press. Sherman, Texas, Nov. 1.—Lester Lee Blackwelder, sixteen, died here today from injuries received in an automobile accident at Gunter last night.

\$\$\$ WAFFLES \$\$\$

1. Mix and sift flour, baking powder and salt.

2. Add milk gradually, beating constantly.

3. Cook Cottolene, yolks of eggs well beaten, and whites of eggs beaten stiff.

We agree with you about waffles. They must be crisp. No! We don't doubt that your waffles are crisp. But perhaps you'd like them even more crisp.

If you would, why don't you try some economical Cottolene Waffles? Wholesome, economical Cottolene, you know, has a delightful habit of making all foods "crispy"—waffles included.

If you prefer to use your own recipe, be sure to use one-third less of economical Cottolene than you would of expensive butter.

Why "one-third less"? Simply this: Wholesome Cottolene is unusually rich—even much richer than butter. It contains no water or salt. So it goes farther.

Our recipe given here has an established reputation for making delicious, crisp waffles. Will you try it?

- 3 1/2 cups flour
- 2 rounded teaspoons baking powder
- 1 level teaspoon salt
- 2 cups milk
- Yolks 4 eggs
- Whites 4 eggs
- 1 tablespoon melted Cottolene

Picture No. 1 shows how to start

Cottolene

"Makes Good Cooking Better"

Yes! Economical Cottolene is also superior for frying and for all cake-making.

4. Beat mixture thoroughly.

5. Cook in hot waffle iron well greased with Cottolene. Brown first one side then the other.

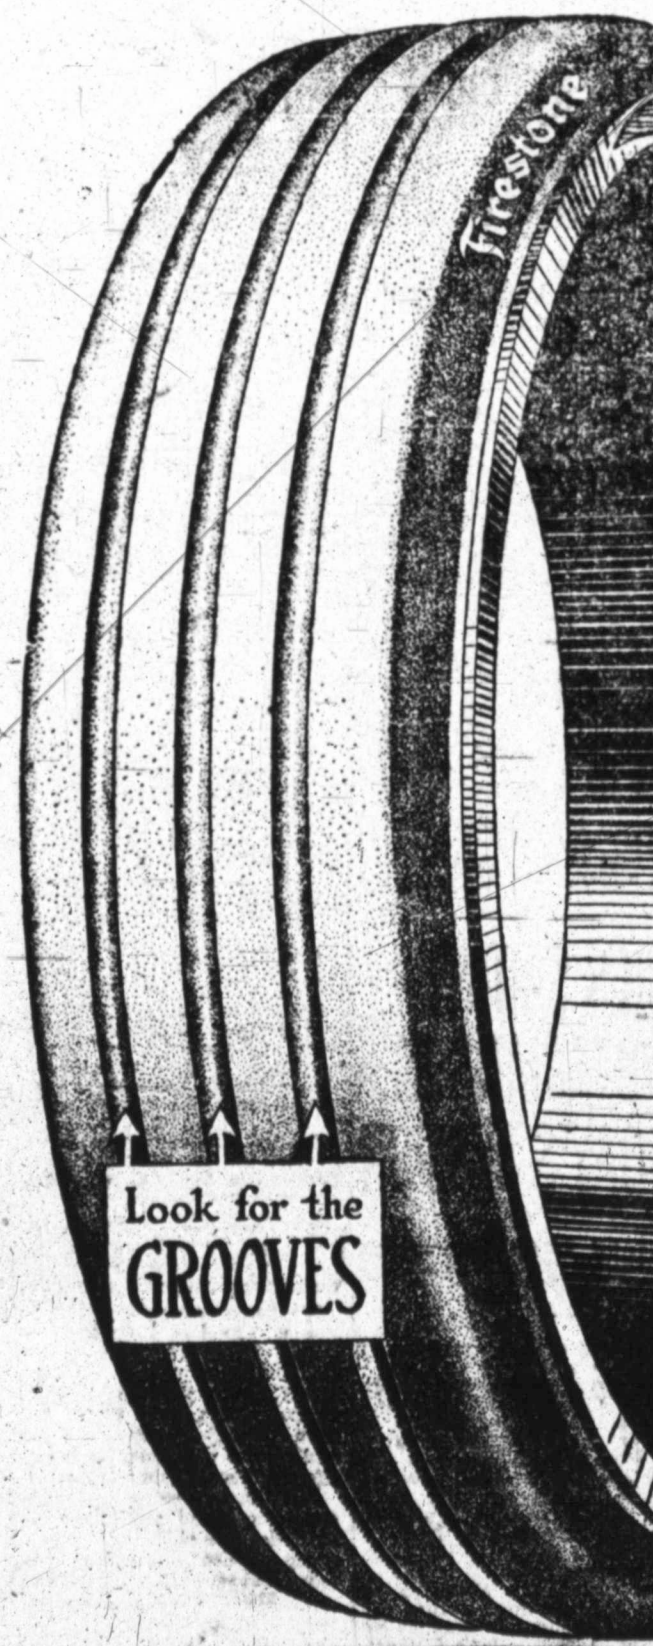

6. Serve with maple syrup.

Men in Dallas are now compelled to go to bed without a 'nightcap' and to get up in the morning without an 'eye-opener,' says the Waxahachie Light. Reports from Dallas, however, indicate that the men are still going to bed and that none of the disasters that had been predicted to follow a dry vote in Dallas county have yet occurred.

ADJUSTMENTS MAY BE NECESSARY.

Discussing the dissatisfaction voiced by many farmers with the government's price for wheat, the Wichita Eagle says: 'Unless a halt is made somewhere, sometime, unless some price is taken as a standard, and other prices are leveled down to it, there will be no end to the price inflation that has continued unchecked now for several years.'

The Eagle says the inequities of the present system must be corrected and declares that private profits in the handling and milling of grain must be done away with. The Eagle advocates the government operation of mills and elevators and the scaling down of the prices of other commodities to the level of the wheat price.

The people of Wisconsin will soon be called upon to elect a successor to Senator Hustling who met his death in a hunting accident. Senator Hustling was a Democrat. He was a patriotic American and stood for the assertion of the rights of humanity and of Americans in particular.

Reports from Tulsa indicate that the I. W. W. is attempting to strike at the American armies and the destruction of property in the oil fields for the purpose of crippling the oil industry, now one of the most vital for the conduct of the war.

THE OPPORTUNITY OF DRAFTED NEGROES.

Eighty thousand negroes this week will leave their homes to go into the training camps of the new army. They will comprise the largest force of negroes ever gathered for military service in the United States and will comprise one of the largest forces of negroes ever gathered under one banner since the days of Hannibal.

proach upon them. Whiskey and women, have been too much for the black troopers who have shown the right metal when under fire.

Happily for the negroes who are now going into the training camps, the idea that a man must be brutalized before he can become a good soldier is no longer held by the military leaders of the country and every effort is made to keep drink from the soldiers and to keep them free from moral contamination.

The negroes who are going into the training camps have opportunities before them which they would not have had but for the war. The training camps are great schools in which men are being trained and developed and educated, physically, mentally and morally.

Opportunity to raise the standing of their race is also the portion of these drafted negroes. If these negroes learn to fight, and do fight, as men of their race have often fought, and their conduct is, soldierly, as it ought to be, they will win a new respect from the white citizens of this country.

The training camp and battlefield will furnish at once an opportunity and a test for the individual drafted negro and for his race.

The day of the dime as the least valuable coin in circulation in the West has passed. The man who doesn't take care of the pennies under this new government tax bill is going to find somebody else taking care of the dollars.

Southern cooks are going to teach Chicagoans what's good. They are going to bake them a few old fashioned 'hoe cakes' and maybe a little 'nig bread.' Oh, boy!

A SCIENTIFIC TEXAS GOVERNMENT—AND HEAVEN!

In announcing his opposition to a general survey of all state departments by the House and Senate investigating committees, appointed by the recent special session of the legislature, Senator McNealus has suggested instead that the incoming legislature take steps to place the state government upon a scientific basis.

In our humble opinion the Senator's last suggestion is far better than his first. We cannot see in what manner a thorough investigation of the operation of the various state departments at present, made with a view to the elimination of wasteful or questionable methods of business, can conflict with the placing of the entire state government later upon a more scientific basis.

UNCLE SAM TO NAIL THE LIARS.

Just about the greatest curse in this world is the liar. There was a time when the nation which lied, which failed to keep the faith, was placed in the same category with our civilian untruthfuls.

Only untruths could have started throughout the country such sporadic uprisings as were occasioned by the F. L. P. A. and other anti-draft organizations. These untruths were put into circulation by friends of the Kaiser.

But the private liar against the American government is now going to find that his path is strewn with thorns. The United States authorities propose to arrest such men, thus striking at the root of practically all the evils with which the country has been stricken since its entrance into the great war.

EXEMPTION BOARD SEEMS LIKELY TO BE FULLY UPHELD

That few appeals from the decision of the local exemption board on the ground that the men drafted have persons dependent upon them will meet with reversals when they are examined by the district board, is indicated by the fact that ample provision has been made for dependents by the government.

GOVERNOR'S OFFICE

The following telegram has just been received from the Provost Marshal General and is transmitted for your information and guidance. (No. 9355.) In connection with decision on claims for discharge on the ground of dependency and for consideration in determining appropriate action relative to reopening dependency cases under the provisions of Compiled Rulings No. 12, subsection (m), your attention is invited to the following important extracts from the Act of Congress approved October 6, 1917, providing family allowance, allotments, compensation and insurance for the military and naval forces of the United States: Section 201 provides for allotments of pay of every enlisted man compulsory as wife divorced wife in certain cases; compulsory allotment to child, voluntary as to other persons. Monthly compulsory allotment shall be in an amount equal to family allowance heretofore paid but not more than one-half pay, nor less than \$15.00. The enlisted man may allot any portion or amount of his pay in addition to the compulsory allotment for such purposes, and persons as he may direct, subject to regulations. The Secretary of War may require that any portion of one-half pay which is not allotted shall be deposited in the military pay deposit fund for the benefit of the man. Compulsory allotment may be waived by written consent of wife supported by evidence of her ability to support herself and children. Compulsory allotments may be excused for good cause shown.

(a) A family allowance not to exceed \$50.00 per month, in addition to pay allotted by the man shall be paid out of the treasury of the United States. Such family allowance shall be paid upon application, which may be made by the man, or made by or in behalf of the beneficiary. No family allowance shall be paid for any period preceding November 1, 1917. Family allowance will be paid from time of enlistment.

(b) If there be a wife and one child, \$25.00. (c) If there be a wife and two children, \$32.50, and \$3.00 for each additional child. (d) If there be no wife but one child, \$5.00. (e) If there be no wife but two children, \$12.50. (f) If there be no wife but three children, \$20.00. (g) If there be no wife but four children, \$30.00 with \$5.00 per month additional for each additional child.

(h) If there be one parent, \$10.00. (i) If there be two parents, \$20.00. (j) For each grandchild, brother, sister, and additional parent, \$5.00. (k) The Act contains certain provisions relative to contribution from the government and allotments from enlisted men's pay, but which are too long to include in this telegram. Compensation for death or disabilities is also provided for.

(l) This brief resume of the outstanding provisions of the Act is transmitted to you in order that you may be officially advised that the government has made certain provisions for dependents of men in the military and naval service. (m) This telegram should not be construed as directive in any sense but merely information. I am confident that the provisions of this Act will be of considerable aid in disposing of requests to reopen dependency cases under the provisions of Compiled Rulings No. 12, subsection (m).

'CROWDER'

Notice has been received that copies of the Act of Congress have been forwarded to the governor, and these will be promptly distributed to local and district boards as soon as received.

HORSE SHIPMENT FINALLY CLAIMED BY OWNER HERE

The owner of the 105 head of horses and mules which were received at the local Wichita Valley freight office over a week ago made his appearance Saturday and took charge of the stock. It seems that the stock had been shipped from a small town near Abilene, and were in charge of a young boy who had instructions as to where they were to go. Misunderstanding on his part caused him to bring the stock to this city, and thinking he was not needed any longer returned home. The owner was waiting for the stock in another nearby city, and when they failed to show up made inquiry, and finally located them here.

ART OF CAMOUFLAGE, GROWTH OF GREAT WAR, PREDICTED LONG BEFORE CONFLICT BEGAN

Reporters Are Introduced to Invisible Uniform by Man Who Hid in Open Field and Defied Detection by the Keenest Eyes.

CAMOUFLAGE, which is now familiar to every reader of war news, is generally regarded as one of the most interesting developments of the present struggle.

It is usually thought of as the fruit of experience on European battlefields, a science come to its own on the western front. So Man's Land had brought to perfection behind the lines.

Impassioned improvisations of artificial forests and rocks, made of feathers of canvas, mud and mud, which hold together more readily than mud and wood, began to set the stage of war with artificial muckers and illusions. Despite their serious purpose these fragile houses will possess an unusual and significant of the present struggle.

But as a matter of fact, the history of this new method of warfare is very old, as old as the art of disguise. It is a science which has been practiced by warriors since the dawn of time.

Mr. Albert Henry Cox, who is a newspaper man, demonstrated to the reporters the efficiency of his method of concealment, which he had learned from his study of the art of disguise.

Mr. Cox arranged the layout of the article in his column for appearing in the evening edition of the paper, and the editor and announced that he had designed a uniform which would make him invisible.

It sounded like a fairy story, like the tales of the Arabian Nights, which had a power of conferring invisibility upon a wearer. Such indeed is the nature of the art, which has made the art of old days come true.

Clad in his military street clothes, Mr. Cox left the reporter and photographer in front of his house, donned his mysterious uniform and promised the two journalistic investigators that he would take up a position in plain sight in one of two fields about fifteen acres in extent which surrounded the house. It was agreed that he should shout when he was

...the reporter and the photographer followed an old road through the middle of the field. It was lined with logs which were covered with a layer of moss. These logs all looked about alike and the two men scanned the field on both sides in search of the man who was hiding.

The photographer was walking a little in advance of the reporter when suddenly a voice which appeared to come from a log in the distance called out: "You are being watched over me."

Thereupon the man in the camouflaged uniform stepped out from behind the log and the reporter and photographer followed him to the edge of the field.

Mr. Cox explained that the camouflaged uniform was made of canvas, mud and mud, which hold together more readily than mud and wood.
