BRITISH ARRIVE AT LE CATEAU QUARTER MILLION GERMANS IN RETREAT

RUMORED THAT KAISER ABDICATES AND GEN. LUDENDORFF RETIRES

(By Associated Press.) STOCKHOLM, Oct. 10.—There is a persistent rumor here that Emperor William has abdicated.

(By Associated Press.) WASHINGTON, Oct. 10.—From one of the European neutral countries today a report reached the state department that General Ludendorff has suffered a physical collapse and relinquished command of the German army.

SENATOR LODGE CRITICIZED FOR HIS STATEMENT

MATTER DISCUSSED AT LENGTH IN SESSION OF SENATE TODAY.

SEN. PITTMAN SPEAKER

Lodge Explains That His Regret Was That President Did Not Go Further.

WASHINGTON, Oct. 10.—Spirited debate on President Wilson's response to the German peace offer began today when the Senate reconvened after a recess since Monday. Senator Pittman of Nevada opened the discussion by attacking Senator Lodge of Massachusetts, the republican leader, declaring Senator Lodge's position on the peace offer as "a piece of good purpose." Senator Pittman read into the record Senator Lodge's statement and also that of Representative Fessenden of Ohio, chairman of the republican congressional committee, criticizing the note. He declared the minority leader had misconstrued the note's meaning.

AUSTRIA-HUNGARY WILL INTRODUCE AUTONOMY ORDER

LONDON, Oct. 10.—It is reported from Vienna the Austro-Hungarian cabinet council has decided to introduce national autonomy in order to make President Wilson's stipulation an accomplished fact.

LONDON, Oct. 10.—British cavalry today reached the outskirts of Le Cateau, the railway junction southeast of Cambrai, which is the immediate British objective, the Exchange Telegraph Company says it learns.

LONDON, Oct. 10.—There were rumors in London last night that Marshal Foch's master stroke was still to come. There is no means of confirming the reports but it seems certain that there is a general enemy retreat going on along the line from Arras to St. Quentin.

PARIS, Oct. 10.—A quarter of a million Germans now are in full retreat between Cambrai and St. Quentin with the Allies hot at their heels, according to the battle front reports that came in through the night. At some points the advance has exceeded fifteen miles in the last two days.

This forward movement of the Allies is regarded as the first step in the great general retreat of the Germans which now seems inevitable, for it is doubtful whether General Ludendorff has such fortified positions on the upper Oise and the Sambre canal as to permit him effectively to resist the exploitation of the victory of the last two days on the Allied side.

NO DEATHS HERE FROM INFLUENZA PAST 24 HOURS

NUMBER OF NEW CASES BELIEVED TO BE SMALL, OFFICERS REPORT.

Outlook at Call Field is Said to Be of a Decidedly Favorable Nature.

No deaths have been reported in Wichita Falls within the last 24 hours of the Spanish influenza, the number of new cases is believed to be small and Call Field reports only 10 new cases within the past twenty-four hours, this being taken to indicate that the precautionary measures of the city and camp authorities were timely and are having the desired effect.

NO QUARANTINE OF HOMES CONTEMPLATED

There will be no quarantine of the homes where members of the family have Spanish influenza, Dr. M. A. Beckman, city health officer, stated this morning, but all cases must be reported to the city health officer and those members of the family who go to public places, such as theaters, are expected to exercise the most rigid precautionary measures.

GREAT DRIVE IN PROGRESS EAST FROM CAMBRAI

ENEMY FAST RETREATING BEFORE ADVANCING ALLIED ARMY.

WITH THE BRITISH ARMY ON THE CAMBRAI-ST. QUENTIN FRONT, Wednesday, Oct. 9.—Last night the British and Americans had reached a point where it was certain the German line with its protruding salient could be cracked. As a matter of fact, cavalry might have gone through the German lines last night in considerable numbers. Only patrols were sent out, however, while the main bodies were held just back of the line.

350 AMERICAN PLANES DROP 32 TONS BOMBS ON HUN CANTONMENTS

(By Associated Press.) WITH THE AMERICAN FORCES NORTHWEST OF VERDUN, Oct. 10.—An American bombing expedition, consisting of more than 350 machines yesterday dropped thirty-two tons of explosives on German cantonments in the area between Wavrille and Danville, about 12 miles north of Verdun.

The American bombing exploit marks one of the high spots in the air fleet operations of the war. In the expedition were more than 200 bombing airplanes, 100 pursuit machines and fifty triplanes. The bombing machines were given splendid protection during the aerial battle which took place during the operations. Twelve enemy machines were destroyed. Only one Entente plane failed to return.

In addition American airplanes yesterday destroyed or brought down five German machines and one balloon. They also took a great number of photographs and dropped newspapers to the American troops.

Day's War Developments

(By Associated Press.)

Victory Is Complete. British and American forces south of Cambrai have won a complete victory. Reports from the front state that the Allies are marching eastward through burnt towns in pursuit of the enemy, who appears to be hurriedly retreating. At some points in this sector the German rear guards are still fighting, but they are being wiped out by the advancing British and American forces.

STARTLING PICTURE OF DESTRUCTION WROUGHT BY THE GERMANS AT LENS

(By Associated Press.) PARIS, Wednesday, Oct. 9.—A startling picture of destruction is drawn by an official "eye witness" who has visited the neighborhood of Lens since the Germans withdrew from that city. Railways and tramways are torn up and are converted into huge piles of twisted rails. Mayor Basley of Lens says that the city has been virtually leveled. The Germans blew up entire sections of the town to establish their trench systems. The population of Lens is entirely gone and the city is dead. Water fills the galleries of the coal mines which used to turn back upon the country from which cut soldiers drive him back. The town has been destroyed by fire, but the blood, ruin and incandescence which he is leaving behind will have a stinging commentary on German practice in a letter to Deputy, Mar-

French Make New Advance. Crossing the St. Quentin Le Cateau railroad, the British and Americans have pushed the front line eastward of St. Quentin and is directly south of the great part of the line on which the British and Americans were fighting yesterday. The advance was reported by which the Germans just north of St. Quentin could escape from the front and retreat in the direction of the Atlantic coast.

FRENCH MAKE NEW ADVANCE

Crossing the St. Quentin Le Cateau railroad, the British and Americans have pushed the front line eastward of St. Quentin and is directly south of the great part of the line on which the British and Americans were fighting yesterday.

FRENCH MOVE TOWARD GUISE

Means the further south the French are pushing toward the Oise in the general direction of Guise. They have made particularly good progress toward the east and southeast of St. Quentin, where they are closely approaching the river. Their columns here have passed Fontaine-Notre-Dame, nearly six miles directly east of St. Quentin. This point is likewise a marked effect in closing the Laon pocket.

PERSHING'S ARMY ACTIVE

The American first army under General Pershing is not being outdone by the other allied forces in the delivery of hard blows upon the Hun.

POURING THROUGH ENEMY LINES

Through the break in the German front, the Allies are pouring through enemy lines. The Allies are pouring through enemy lines. The Allies are pouring through enemy lines.

STARTLING PICTURE OF DESTRUCTION WROUGHT BY THE GERMANS AT LENS

(By Associated Press.) PARIS, Wednesday, Oct. 9.—A startling picture of destruction is drawn by an official "eye witness" who has visited the neighborhood of Lens since the Germans withdrew from that city.

GREAT DRIVE IS NOW IN PROGRESS

(Continued from page one.)

well east of the town, reported captured where the Allies have broken through. The Germans north and south for many miles are endangered for their lines are being turned. Retreats on even a broader scale than that now in progress may therefore be expected.

Officers directing the attack were distinctly satisfied as the news came back in reports from airplanes and a runner who finally came back that showed better than anything else how completely the enemy had been defeated. This was a report from an air patrol which had been seen marching in a column of four into and through the town of Bertry. The men were swinging along entirely unmolested by the enemy.

Enemy Flee in Wild Disorder.

Another patrol brought word that the Germans fleeing in the greatest disorder as far east as Le Cateau. Enemy troops and transports, it was said, were streaming along the roads and even over the fields trying to make their escape, with the British cavalry following over the tanks and armored cars working, they realized that it was extremely dangerous for them to carry anyone who have just attacked marching through a town 10,000 yards in the place where they started a thrust that has been maintained in the war for a long time. Such a thing could only happen now when the enemy is in a state of complete confusion.

Such a high explosive shell imperatively needed in France has been destroyed and the flow of these supplies has been retarded not only for the present moment, but for months to come, unless immediate relief is provided. This relief must be made up at once by putting additional burdens on all other American munitions plants. Within the next forty-eight hours the number of men to be supplied from our state will be wired by the U. S. Employment Service to its Federal State Director. Please issue the necessary notice to your state, county and community councils to put their entire influence behind the employment service in this emergency. This call for men has to be met, yet there should be no difficulty in getting these men. The work is dangerous, but that will not deter anyone, for it is unheavenly that before the American people, public opinion will be solidly behind the employment service and the county labor boards in this emergency.

Wipe Out Enemy Garrison.

The British broke through after smashing down the wire, repulsed counter attacks and then swept down in the rear of the line and wiped out strong German garrisons. The ground in this locality is soaked with German blood and covered with German dead.

Many French civilians have been rescued from the towns that have been re-captured. Five hundred were brought back to freedom in one town alone.

It was soon after the Germans broke and ran that fires began to break out in the whole district behind them and the ground marked with terrific explosions as ammunition, which they had had no time to save was destroyed. Everything combustible in the area against Caudey, Inche, Le Cateau, St. Bonin, St. Souple, Vaux, Andigny and Bohain was fired and since then towns and farms well to the eastward have started burning.

Even this apparently did not satisfy the enemy who seems to have spread his capital of destruction both north and south. It is known that the country in absolute waste. Airplanes have reported "explosions are occurring all over, one place after another."

Latest reports say that the advance continues rapidly.

REQUIRE 139,000 UNSKILLED MEN TO MEET DEMAND

By Associated Press.
CORPUS CHRISTI, TEX., Oct. 10.—Joseph Hirsch, chairman of the Publicity Committee, Texas (Council of Defense, Corpus Christi, Texas, announced the receipt of the following telegram sent by Nathan A. Smyth, Assistant Director General U. S. Employment Service:

"America's biggest shell-loading plant is gone. There are other plants operating, but they are under construction. Work in all is seriously retarded by lack of labor. The ordnance department states immediate relief must be secured. The only way to total labor shortage at once. In view of these facts, it is requested that you should not injure the men in this labor shortage at once. In view of these facts, it is requested that you should not injure the men in this labor shortage at once. In view of these facts, it is requested that you should not injure the men in this labor shortage at once."

Wire from Secretary Lane.

Secretary of the Interior Frank K. Lane, Chairman Field Division, Council of National Defense, wired all State Councils of Defense today as follows: "A stock of high explosive shells imperatively needed in France has been destroyed and the flow of these supplies has been retarded not only for the present moment, but for months to come, unless immediate relief is provided. This relief must be made up at once by putting additional burdens on all other American munitions plants. CATCHER COOPER IS KILLED IN FRANCE

By Associated Press.
ASHTABULA, O., Oct. 10.—John Cooper, former catcher for the Chicago Americans and the Cleveland Federal League teams, was accidentally killed in France September 2, according to word received here from his brother, Cooper played with Duluth and Rockford, Ill., in 1909 and in 1910 was with the Sanitary League. He was drafted at the close of the 1910 season by Chicago. At one time he was a member of the St. Joseph, Mo., and Dubuque, Ia., teams.

AN UNPARALLELED SITUATION FACES MICHIGAN VOTER

By Associated Press.
DETROIT, MICH., Oct. 10.—When the voters of Michigan go to the polls in the November election to decide the senatorial contest, they will bring to a climax a situation almost unparalleled in Michigan political history.

Henry Ford, choice of President Wilson, and carrying the endorsement of the democratic organization despite his announced intention of holding himself free from all party obligations, will have as his republican opponent the newly elected member of the Third Naval district and secretary of the navy in the second Roosevelt cabinet.

Mr. Ford's intention to make any effort to win nomination at the primary, while Commander Newberry likewise took no personal part in the intensive drive in his behalf. Both maintained the same attitude after the primary: the republican ticket and nominated Ford on the ticket.

Interest centered on the senatorial contest from the moment Ford announced that at President Wilson's request he would accept the nomination if tendered him. He did not specify whether he would make the race as a democrat or a republican, and his name went on both ballots at the primary.

Both candidates came in for severe criticism at the party conventions of their opponents. The democrats, first and party leaders scored the expenditure of slightly more than \$175,000 by Newberry's supporters in the primary. Republicans, meeting the following day countered with the charge that Ford opposed war and was an unbeliever in the American soldier.

Next in interest to the senatorial fight is a proposed constitutional amendment extending suffrage to women. The amendment was endorsed by both republican and democratic conventions and an active campaign has been conducted in its support. Republicans are confident they will re-elect the entire state ticket, headed by Governor Albert E. Sleeper. The democrats, however, have a full slate in the field, and are determined to make a strong fight for every office. Their candidate for governor is John W. Bailey.

SABOTAGE BY RUSSIAN RED GUARDS REPORTED

By Associated Press.
HELSINGFORS, FINLAND, Oct. 10.—Sabotage by Russian Red Guards amounting to 29,340,000 marks has already been reported to the State Industrial Commission by 99 firms in various parts of the state. Many firms and private individuals have not yet reported. The industrial commission will recommend to the Senate that the state assist the sufferers with loans of money, and by remission of tariffs on imported machines and raw materials.

Much Depending On "Army of the Rear" Says Naval Officer

By Associated Press.
CHICAGO, Oct. 10.—Upon the army of the Rear—the great army of workers at home—rests the task of making victory of Allied arms possible, and the nation's naval forces are convinced that the "home army" will do its part, according to a letter from a naval officer, who was formerly connected with the Chicago office of The Associated Press.

"I'm on a good ship—a scrapping, happy ship," he writes.

"Coming into my present service really made me appreciate the Army of the Rear, the army back in the United States that is really going to win this war. For upon the pulsing of the great American heart at home depends allied success or failure. And important are the people who are its blood and muscle. Pumping a new vigor into depleted Europe, maintaining a healthy flow in the arteries of communication; creation and stimulation of a healthy, ardent public sentiment is a magnificent task.

"The soldier and the sailor does much in surrendering comforts and facing death and the drab net of sailing details which full bellied him. But the fighter in the ranks behind has quite a large task, too, in combating the pacifist, the profiteer and the traitor. His is the task of keeping the American public alive to the facts of this war and his job is one that is sprouting and developing tens of millions as rapidly as did Jack's beanstalk. Having seen something of each, I have no fear but that the fighters in both ranks will prove worthy of their Americanism."

AMERICAN FORCES RENEW ATTACK ON KRIEMHILDE LINE

BRILLIANT, SPEEDY ADVANCE FORCES GERMANS BACK TO OLD POSITIONS.

By Associated Press.
WITH THE AMERICAN ARMY Northwest of Verdun, Wednesday, Oct. 9.—American forces operating west of the Meuse river returned to the attack against the formidable Kriemhilde line today. This assault was made just south of Romagne and a brilliant, speedy advance forced the Germans back through the positions prepared so long by the Germans. Further to the right the Americans forced their way through Gunwood which was bristling with machine guns. This success made it easier to storm the Namelle trench of the Kriemhilde-Stoube line by sweeping away the flanking fire which had previously rendered its capture so difficult.

FEAR OF REPRIALS IS WORRYING ENEMY

LONDON, Oct. 10.—Indications that Germany is becoming anxious in consequence of threats of reprisals for the destruction of towns in France are afforded by a telegram from the semi-official Wolff Bureau received in Stockholm saying that Donal was burning "as the result of the continuous British bombardment."

The reports that the Germans had set fire to a town they were still occupying was characterized by the agency as ridiculous.

The Germans, according to a Reuters dispatch, from Stockholm also may having fired Roulers, Thourout and Lichtervelde.

CADET LYONS IS KILLED TODAY AT FT. WORTH FIELD

By Associated Press.
FT. WORTH, TEX., Oct. 10.—While in the formation flying stage, which is the final period before receiving a commission, Cadet Perry Lyons of 1904 Walnut street, Vicksburg, Miss., was killed here this morning. A mother in Vicksburg and several brothers in France survive. Before entering the flying service he was a traveling salesman for a Chicago paint concern.

INTERRUPT COMMUNICATION BETWEEN CENTRAL POWERS

By Associated Press.
COPENHAGEN, Oct. 10.—The interruption of direct communication between Germany, Bulgaria and Turkey is shown by an announcement in the Berlin newspapers of yesterday that the Balkan express left that day as usual but that "in view of the unsafe traffic conditions in Bulgaria it probably can run only to Nish."

For Burning Eczema

Greasy sores and ointments should not be applied if good clear skin is wanted. From any drugstore for 35c or \$1.00 for extra large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying. The F. W. Rose Co., Cleveland, O.

Movement Is Rapid.

British cannon had been on the move eastward all day long, in many cases batteries would gallop over the rolling plains of Artois. They would stop, wheel about and fire for awhile and then dash on then repeat the performance. This has developed from a battle of movement to one of very rapid movement.

There is no intention to let the Germans advance to regain their breath and organize their smashed forces. British troops are advancing eastward astride the road from Cambrai to Le Cateau and every hour they are seen further east. The Escourt canal north of Cambrai has been passed virtually along the entire length. It has been left far behind.

The British are absolutely confident they can break any line the Germans may place in front of them. In the fighting south of Cambrai they have cleared the enemy from the last line of the Hindenburg system, which in this locality was extremely strong. Trenches protected by a belt of wire fifty yards deep in which there were numerous concrete pill boxes were common obstacles.

Wipe Out Enemy Garrison.

The British broke through after smashing down the wire, repulsed counter attacks and then swept down in the rear of the line and wiped out strong German garrisons. The ground in this locality is soaked with German blood and covered with German dead.

Many French civilians have been rescued from the towns that have been re-captured. Five hundred were brought back to freedom in one town alone.

Even this apparently did not satisfy the enemy who seems to have spread his capital of destruction both north and south. It is known that the country in absolute waste. Airplanes have reported "explosions are occurring all over, one place after another."

Latest reports say that the advance continues rapidly.

PERSHING'S MOVE IS BROUGHT TO ACTION

By Associated Press.
WITH THE AMERICAN FORCES Northwest of Verdun, Oct. 9.—General Pershing's infantry today went into action on the left wing of the Argonne forest front after a violent artillery bombardment along all night.

The Germans are throwing in reserves on their left flank which now has been exposed in Argonne pocket. The enemy also is endeavoring to withdraw his troops at other points so as to restore the line.

The American artillery on the right wing was active all night. The bombardment met with little reaction on the part of the Germans.

In the center the Americans are holding all the advanced positions which they gained yesterday and are meeting with little enemy activity except for a barrage.

Early this morning the Germans laid down a harassing fire in the area to the rear of the American positions. During the night patrols operated preparatory to further infantry action today and this morning the air fire continued to be fairly active.

Fires have been seen burning on the east bank of the Meuse towards Harcourt, northeast of Vigneulles-sur-Meuse. West of the river conditions have been reported in the towns of Aincreville, Dun and Batherville.

AUTHENTIC TEXT OF REPLY NOT RECEIVED AT BERLIN

By Associated Press.
BASEL, Oct. 10.—An authentic text of President Wilson's reply to Prince Maximilian's note has not yet been received by the German government according to a dispatch from Berlin. Proper examination of the reply can not be made until the official note is received but in any case it is plain that further declaration by the German government will be necessary.

Compare the Price of Good Clothes With the High Cost of Cheap Clothing.

It costs a merchant just as much to sell you a poor suit of clothes as a good one. The transportation cost is just as high from the mill to the maker, and from the maker to the merchant's store. The mill-over-head and labor-cost of weaving poor material may very well be as great as with better goods. When it comes to cutting and making a cheap suit of clothes, the price of the work is out of all proportion to the material.

In their golden rage and hate, the Germans are still burning towns from which they are being driven in northern France.

The news comes that the schools and colleges in which military training is being done are to be kept open the year around.

It is in times like these that the service of the Associated Press can be properly appreciated.

A great fleet of American bombing planes protected by numerous combat planes has flown over the German army dropping death and destruction among the German troops and supplies.

It is an intimation and a warning to Germany of more terrible things to come. Thousands of airplanes are now moving daily from American factories to Atlantic seaports for shipment to the front.

MAJOR ASHBURN

LATELY SUSTAINS A SEVERE WOUND

By Associated Press. FORT WORTH, TEX., Oct. 10.—Major Ike Ashburn, who was connected with A. and M. College and Texas newspapers for many years, was severely wounded in France last month, according to a message to his relatives here. He was commissioned a major at the first officers' training camp and went across with the ninth division.

Major Ashburn is well known in Austin, Tex., his father, Rev. Ike Ashburn, was for a number of years pastor of a church at Archer City, and is now at Bellevue. The Major is in command of the First Battalion of the 358th Infantry, Ninetieth division. He served as regimental adjutant during the greater part of the training period of the Ninetieth divisions at Camp Travis.

HAVE SUSPENDED ALL MOVEMENTS OF DRAFTED MEN

By Associated Press. AUSTIN, TEX., Oct. 10.—All movements of drafted men to Texas camps for this month have been suspended on account of the influenza epidemic. This is done by Provost Marshal General C. C. Brown, upon request of Major John C. Townes, supervisor of selective service.

The order stops five calls for a total of 2,000 men and 1,500 negroes who were to have moved this month.

WAR DEVELOPMENTS

Lines between St. Quentin and Cambrai the Allies seem to be pouring like the sea through a shattered dike. All reports from the front reflect a condition which may result in a general retreat of the enemy, with his troops near Leon rapidly being enveloped.

Americans fighting in the sector between the Meuse and the Argonne forest have again broken the German line, and are pushing forward from which they can level ground ahead with no more elaborate German fortifications that must be stormed. This advance was made in the region of Honnaye, which is on the Kriemhilde line west of the Meuse.

In the Champagne sector the Germans are fighting savagely to hold up the French pursuit of the enemy forces which are being withdrawn toward the north. Along the Suippe, northeast of Rheims, the French have gained new footholds on the north side of the river, in spite of heavy German counter attacks.

FRENCH CONTINUE PURSUIT IN ST. QUENTIN REGION. By Associated Press. PARIS, Oct. 10.—French troops last night continued the pursuit of the Germans in the region east of St. Quentin, the war office announced today. They have passed Fontaine, Notre Dame and Beauroux.

In fighting north of the Aisne, French presses resulted in wresting the plateau de Croix-Sans-Tete from the Germans, while further east a crossing of the Aisne canal was effected in the region of Villers-en-Franch.

Attacking vigorously in the Champagne the French captured 120,000 miles west of Montois.

SENATOR LODGE

TAKEN TO TASK

(Continued from page 1.) It is essential to a lasting and just peace. The President did not enter into a discussion with the imperial German government. He stated that he would not reply until the note was made more definite in certain particulars.

Senator Lodge said this was not the first time that Senator Lodge had voiced his disapproval of the principles and policies and methods pronounced by the President.

Communications urging the only terms to be given Germany should be "unconditional surrender" were placed in the records by Senators James of Washington and Harding of Ohio, republicans.

Senator Lodge Replies. Replying to Senator Pittman, Senator Lodge said that he would not approve the President's note was due to the fact that the President had not gone further.

Senator Lodge said he could not conceive that the chancellor represented anything but a reply which was appointed, because he cannot represent anything else.

Constitutional Viewpoint. "Peace negotiations now being proposed," he said, "are entirely different from the constitutional point of view from the conduct of war."

Referring to President Wilson's last note to Austria Senator Lodge pointed out that he was the first to approve it in the Senate and that he preferred a similar reply to Germany.

Refers to Reparation. Senator Lodge declared something should be done about reparation agreed to before there was talk of an armistice.

On account of influenza epidemic and to cooperate with board of health city officials there will be an meeting of W. O. W. Circle 1087 until further notice.

kind of peace the people want. Result Must Justify Sacrifice. The result must justify the sacrifice declared Senator Lodge, who added that Germany must be placed where she can not break back.

The senator said republicans will give full and hearty support to the President as commander-in-chief of the army and navy because the laws have placed him there but that a higher allegiance is to the country.

Close attention was given the republican leader's speech and as he was being applauded by the senators.

NUT SHELLS AND PEACH SEED ARE NEEDED FOR ARMY

Two hundred peach stones will produce enough gas for one gas mask. Seven pounds of nut shells will produce a similar amount of carbon. A gas mask will save one soldier's life. This privilege of saving an American life is given to the people of Wichita Falls, as the Red Cross is now collecting pits from peaches, apricots, plums, plump olives, date pits, shells from all sorts of nuts. Oil stones and shells can be used as well as new ones and all should be collected immediately, as there must be no slackening in the work of producing gas masks for those who are fighting at the front, where they may be needed to ward off the deadly German gas at any time. American soldiers must have protection and every American at home can help give this protection by collecting the fruit stones and nut shells.

The local Red Cross is to take charge of these collections and ship them to the proper receiving authorities, where they will be transformed into "weapons of war." This is one place where individual effort will count largely and action should be taken immediately. There has been no large response to this call which has been made several times previously in Wichita Falls, but the Red Cross is hopeful that the barrels placed on the streets be filled immediately, and that a great quantity of seeds and shells be secured.

EXAMINATION OF REGISTRANTS HAS BEEN POSTPONED

Examination of registrants of the new draft ages did not begin on Wednesday as previously announced, as the draft board physician, Dr. Beckman, who is also city health officer, is busy with the influenza epidemic and will not be able to attend the examinations for several days. Mr. Thornburn, clerk of the board announced the postponement of the opening of the physical examination will be given later.

The master list by which the order numbers will be assigned has not yet reached the local board, consequently the classification notices can not be mailed out to registrants whose questionnaires have already been received and the class decided upon.

WICHITA FALLS FAR BEHIND IN "LINEN SHOWER"

Wichita Falls is woefully behind in the quota of the "Linen Shower for France," the executive board of the Red Cross announces, and this branch has given fewer articles of the supplies called for than any other branch in the county, in actual number, not in proportion. Electric, Burk Burnett and Iowa Park have all gone over their quota with their contributions, while Wichita Falls has not given anything like what they have been requested for.

The shipment must be made from this city on Saturday, the contributions of the entire county to go at this time. The hospitals in France which have asked for these supplies can not wait. Every day the casualty lists grow longer, meaning more and more Americans wounded and in the hospitals, and the supplies are gradually diminishing. One more effort will be made, during Friday for Wichita Falls to come up to its quota, and the church societies have been requested to make up the deficiency. Officers of the Rotary and Lions Club offered to see that the quota was made up, and several of the women of the churches volunteered for the duty of calling the attention of the various societies to the need, and the possibility that Wichita Falls might not raise its quota.

Make Final Call. The executive board of the Red Cross consequently is making this final call to the women of the city, the housekeepers, to give from their stock of household linen, good sheets, towels, bath towels and handkerchiefs, to the hospitals in France where American boys will be brought from the battle front, and where the need is great, much greater than can be imagined here. The gifts should be in by Friday evening, to the Red Cross workrooms in the Masonic temple.

An idea of how many articles are needed can be gained from the following report of the board: Wichita Falls has given 100 handkerchiefs, already given; bath towels, 40 requested, 128 received; bath towels, 365 requested, 129 received; sheets, 242 requested, 24 received.

The other branches have already sent in the following, going over their quota:

- Iowa Park, 150 handkerchiefs, 300 hand towels, 100 bath towels and 50 sheets.
- Burk Burnett, 150 handkerchiefs, 212 bath towels, 101 bath towels and 50 sheets.
- Electric, 220 handkerchiefs, 280 hand towels, 184 bath towels and 58 sheets.

OVER HALF INCH RAINFALL IN THE CITY LAST NIGHT

Rain in Wichita Falls and vicinity amounted to more than half an inch last night and this morning, the gauge registering 55 inches. North to south a steady rain last night was reported of about the same total precipitation at that visiting Wichita Falls. According to railroad dispatchers reports there was no rain to the south.

THREE-INCH RAIN REPORTED AT ELECTRA

ELECTRA, TEX., Oct. 10.—A copious rain exceeding three inches fell in this section last night. It will improve conditions in feed and facilitate the planting of a large wheat acreage. All water tanks are full and the situation in the oil fields is relieved.

IOWA PARK HAS TWO-INCH RAIN

IOWA PARK, TEX., Oct. 10.—Two inches of rain fell here last night and Wednesday morning, putting the ground in fine condition for wheat sowing and giving that already sown a fine start.

Sergeant Major William T. Christensen is expected to arrive tonight from a training camp in Georgia for a visit with his father, J. W. T. Christensen, and other relatives.

TO THE CATHOLICS OF WICHITA FALLS

Whereas the commandment of the church to hear mass on all Sundays and holidays of obligation obliges every Catholic under pain of mortal sin unless excused for a good reason, and Whereas, these reasons excusing from observing this commandment are generally considered necessary work and ill health, and Whereas, these reasons not existing, you might have conscientious difficulties with regard to the quarantine imposed on our church by the board of health.

There, not being able to address you orally on these points, I feel impelled as your pastor to make the following statements through the press.

That the quarantine imposed for a good reason, truly dispensing every Catholic from his Sunday obligation.

That the daily sacrifice and also the October devotions take place at our regular hours in the convent chapel.

That every Catholic should assist these in spirit by proper home devotions.

Yours in Christ,
P. BONIFACE, O. S. B. Pastor.

W. E. Welch of the Redpath Lyeum Bureau was in the city today. Mr. Welch is at present giving his services to the government, and was here in connection with some propaganda work which may be taken up through the schools, but on which it was impossible to take action at present, owing to the influenza quarantine.

WHY WORRY ABOUT SUGAR

Grape-Nuts is not only nearly solid nourishment but is rich in sugar developed from its own grains in the making.

This feature, absent in the usual prepared cereal, not only saves the use of sugar but provides food material especially adapted to the cooler weather of autumn.

RULES GOVERNING STOCK COMPANIES AND STOCK SALES

Some much sought after information, relative to the organization of the stock companies, and offering of stock for sale, has been received by T. R. T. Orth, secretary of the County Council of Defense, from the Capital Issues Committee at Dallas. As this letter contains instructions as to procedure expected of all stock companies, and answers questions which he is asked every day, Mr. Orth gives the public the letter in full as follows:

Letter From Mr. Ramsey.
"Under our plan of organization our committee here in Dallas, Texas, is charged with the task of supervising all capital issues in the Eleventh Federal Reserve District, there being no provision for establishing local branches of our organization in the various counties. These companies should make application for permission to operate without reference to the amount of their capital or the nature of their operation, whether legitimate or otherwise. It should include the name and address of companies having stock for sale. The government asks and expects all private enterprises to obtain its consent before selling or offering their stock to the public."

I would like for you to inform all inquirers that this is a government requirement, that there are no exceptions to it, and that the Capital Issues Committee at Washington has instructed our committee to immediately report to them the name and address of any concern that is found to be offering its securities without authority from this committee. Also that copies of the regulation and application blanks can be had by addressing a request to the committee here, in care of the Federal Reserve Bank, of Dallas, Texas.

TAX VALUATIONS SHOW INCREASE OF \$2,871,950

Taxable valuations in Wichita county total \$28,218,940, according to the tax rolls compiled by County Tax Assessor T. W. Ragsdale and approved by the county commissioners. This is a gain of \$2,871,950 over 1917 when the valuations were \$25,346,990, and an increase of six and a half millions in the two years Mr. Ragsdale has served as tax assessor.
