

1000 BODIES STREWN ALONG THE BAYS

No Action Is Expected On the Peace Treaty During Present Week

SAYS WILSON THE MONARCH OF QUITTERS

Term Is Applied by Senator Sherman in a Speech Opposing League.

CHARGES THAT PRESIDENT IS SEEKING THIRD TERM

Crisis Has Been Reached and Choice Must Be Made, Senator Declares.

WASHINGTON, Sept. 16.—Senator Sherman, republican, Illinois, attacking the League of Nations today in the Senate, declared if the league covenant were ratified as drafted, American mothers "will put cradles for their sons to fill the muster rolls of armies to give their lives in foreign wars."

Repeating attacks by President Wilson on senators opposing the league, the Illinois monarch asserted "the President himself is the crowned monarch of quitters without a rival in the western hemisphere" and "that his silence and speed when escaping from his imperial principles is as abysmal and swift as primal chaos."

"We have now reached that crisis," said Senator Sherman in the course of a lengthy and spirited address, "where we must choose between exhausting ourselves to make the old world safe for some of its nations and making the United States safe for the American people."

"When we decline to ruin ourselves," he continued, "we wreck our government and destroy our country by a mad crusade around the world as the guardian angel and knight errant of oppressed humanity everywhere, we are denounced as quitters and traitors by the senator from Nebraska (Mr. Hitchcock) and our executive who avows he thinks more of the league than his oath to protect the government."

Suggests Third Term Plan.

Suggesting that President Wilson is inclined to seek a third term, Senator Sherman declared:

"The President's second term begins from the capital is the threshold of that candidacy. He has announced the league and treaty are greater than our government. He is ready to die for it. Never in his most exalted heights has he been ready to die for our government. A third term he puts by again and again. But each time is gentler than the other. To save the greatest document in the world's history no sacrifice will be refused. A third term on an issue of subordinating our government to the league is as little as international patriot can offer to the world. Who would not hear voices in the air on such a proposal? The travesty of such a service will justify him in doing anything. The issue is joined now."

ARRANGE FOR RELEASE OF DR. J. W. SMITH

WASHINGTON, Sept. 16.—Definite arrangements have been made with leaders of the bandits who kidnaped Dr. J. W. Smith, an American physician near Chihuahua City, Mexico, for release on payment of \$50,000 ransom today, according to a Chihuahua City dispatch to the state department.

AIRPLANES SENT TO SEARCH FOR SURVIVORS

SAN ANTONIO, TEX., Sept. 16.—Seven light Curtiss planes left Kelly Field at 12:00 o'clock today to visit the vicinity of Corpus Christi and search for survivors of the storm which may have been marooned on the many keys along the gulf coast.

Colonel Fehet, department air service officers stated that in event the pilots found that conditions would permit the use of the larger and more powerful De Havillands, this type of ship would be immediately dispatched to assist in the search.

REPORT GROWING SENTIMENT FOR SYMPATHETIC STRIKE IN BOSTON

BOSTON, MASS., Sept. 16.—Sentiment in favor of a general strike in sympathy with the striking police was growing in Boston today.

The United Hebrew trades of the city with a total membership of 30,000 workers voted to walk out if the Central Labor Union calls a general strike.

Other unions voting on the strike question gave unmistakable signs that they are in favor of such action.

Central Labor union executives stated that in the event of a general walkout workers in industries vital to the life of the city would not be called out. Firemen in hospitals, the men of the fire department of the city, milk wagon drivers and others employed in necessary work would be ex-

(United States Correspondent.) WASHINGTON, Sept. 16.—Senate leaders today decided that there would be no real action this week on the peace treaty, formally called up yesterday.

There will be speeches but actual reading of the treaty is to go over probably until late in the present week or even to next week, Senator Curtis, republican whip, said.

The reason is that Senator Lodge and others opposing the pact in its present form want to leave Senator Hiram Johnson free to complete his stumping tour against the League.

Senator Borah, who also has been stumping, was called back to Washington today by Senator Lodge.

Much hickering is likely to spring from this situation, which is not to the liking of Senator Hitchcock and other administration leaders. Hitchcock is determined today to make treaty opponents bear full responsibility for any undue delay. He intends to prod and harass them all he can, and if possible, force them to speed up.

The treaty could be ratified within two weeks, Hitchcock said today. Delay will not help the opposition's cause, he said, because every senator's vote is now fixed, both on amendments and reservations.

Senator Sherman will address the Senate today. Wednesday and Thursday the honors to Pershing will prevent treaty consideration. Friday Senator Reed will speak. If there is a session Saturday someone will be ready with a speech.

Senator Sherman today planned to attack Hitchcock and President Wilson on the ground that they have shifted their positions on the United States foreign policy and now are trying to force the country to go to a course they inveighed against.

At the time the Lusitania was sunk, Senator Sherman said, the United States was a neutral nation. Now it is a belligerent nation.

MEAN A BRITISH WORLD, DECLARES JOHNSON

DES MOINES, IOWA, Sept. 16.—Ratification of the League of Nations covenant may mean establishment of a British world, according to Senator Hiram Johnson, the senator after speaking in Des Moines last night.

A crowd of 5,000 heard Johnson. The prolonged cheers which have greeted him before were silenced in tears last night. The senator solemnly talked of the mothers who have appealed to him to help bring soldiers back from Siberia.

Johnson's theme was bolshevism, which the President here urged should be cured by the covenant.

"Bolshevism is bred in the hearts of women whose sons went to fight Germany and who have been shot down in Siberia," Johnson said.

CARDINAL MERCIER, UPON HIS ARRIVAL IN BALTIMORE, and CARDINAL GIBBONS. © U. U.

Desiring in writing that victory in the great war was due to the American army and leading General Pershing as a "general leader." Desideratus Cardinal Mercier, hero priest of Belgium, left New York for Baltimore, Md., after reviewing for half an hour the historic parade of the First Division. On arriving in Baltimore the Belgian prelate was warmly greeted by Cardinal Gibbons. Before leaving for Baltimore Cardinal Mercier prepared a little statement, in which he said:—"The American army won the war. General Pershing is a general leader: to him our respect, to him our universal gratitude."

ARREST EIGHT CHARGED WITH BANK ROBBERY

Government Agents Have Been Working Quietly on the Cases Recently.

KANSAS CITY, MO., Sept. 16.—Eight men, said to be members of the bandit gang responsible for numerous Kansas bank robberies and during the spring and summer, are under arrest according to Fred M. Tate, of the United States secret service here.

Government agents quietly arrested suspects and locked them up in Kansas City hotels, during the last week, Tate indicated.

Six of the eight men were secretly removed to Kansas yesterday, Tate said. The other two are under arrest at Memphis, Tenn.

Minor Poffenberger, arrested here two weeks ago; his twin brother, Major Poffenberger, arrested at Lawrence, Kansas, with a Cadillac car said to have been used in bank robberies; Thomas Brown, arrested here late Thursday shortly after arrival from St. Paul and a large number of Liberty bonds were taken from his trunk; Dr. W. H. Queen of Wichita, Kansas, accused of being the disposer of the stolen bonds, his son, Emerson and Charlie Blevins, arrested at Memphis Friday night; Edward Adams and Harry Clayton, two bandits shot by police in a revolver battle here September 5.

Secret men accomplished the arrests and recovered over \$100,000 of the total of \$200,000 worth of Liberty bonds, according to Tate.

He declared that the two Poffenbergers and Brown have admitted connection with the robberies.

Secret service men declared they have evidence that the three, together with Clayton and Adams, are implicated in the signature to that document.

Some one of the Bartlett, Benton, Newton and Abilleville, Kansas, bank robberies. It was indicated that the government men are still on the trail of the remainder of the stolen bonds and money.

Kansas bankers and surety companies had offered rewards totalling close to \$50,000 for the robbers when convicted. This is the first general roundup of bandits since the Dale Jones bank was apprehended.

SERBIA IS TO SIGN THE PEACE TREATY

PARIS, Sept. 15. (Havas.)—Serbia, one of the two nations which did not sign the Austrian peace treaty, Rumania being the other, will attach a belated signature to that document, according to the Echo De Paris today.

BANDITS HOLD UP CHICAGO BANK

MINNEAPOLIS, MINN., Sept. 16.—Five heavily armed bandits held up the Chicago Lake bank today and escaped with \$10,000 in cash, after locking three employees in the vault.

Relief Being Rushed To The Stricken City

HOUSTON, TEX., Sept. 16.—Corpus Christi wants good, substantial food, that can be cooked, according to a message sent today to Houston by the Corpus Christi relief committee.

The message read:—"Have plenty of provisions for 24 hours. Have plenty of beds for present emergency. Thousands are homeless in Corpus Christi. Send food, like meat and potatoes and meal, that can be cooked."

This message was relayed from Kingsville.

AUSTIN, Sept. 16.—The adjutant general's department has ordered 100 men and eight officers of Troops 1 and 2, Seventh Cavalry, Texas National Guard, under command of Major John C. Tobe, to go from Houston to Corpus Christi as soon as transportation facilities will permit.

Captain W. J. Morris is ordered to proceed from Kansas City with 50 men and three officers of Troop 1, Second Cavalry, Texas National Guard. The orders were issued at noon.

ADJUTANT GENERAL AWAITS INFORMATION

AUSTIN, TEX., Sept. 16.—The adjutant general's department this morning is awaiting further information from Corpus Christi before taking active steps to relieve federal authorities who went to the relief of the stricken city last night by request of Governor W. P. Hobby.

The governor said in a proclamation issued at midnight last night that he requested the Southern Department commander to send relief, because there would have been some delay in assembling state supplies and men. He also said that the relief train from San Antonio was expected to reach Corpus Christi by daylight.

Acting Adjutant General W. D. Cope and Rangers Sergeant J. B. Brooks, Fred Mark and Charles B. Tackwell left during the night for Corpus Christi. The Rangers are instructed to get information back as quick as possible but nothing has been heard from the city since last night.

Colonel H. C. Smith, acting adjutant general here, said this morning that the National Guard company at Karnes City and one from San Antonio would be sent to relieve the federal troops if subsequent developments make this necessary. He has not decided which one of the two companies at San Antonio will be called.

RED CROSS TO AID STRICKEN SECTIONS

ST. LOUIS, Sept. 16.—Red Cross headquarters here today telegraphed Miss Mildred Seaton at Corpus Christi, Texas, offering assistance in the food district.

E. B. Orr, director of disaster relief and A. W. Jones, director of civilian relief are leaving here tonight and will arrive Wednesday morning, according to the message sent by Alfred Fairbank, manager of the Southwest division of the Red Cross.

Orr directed relief when Mattoon, Charleston and other Illinois towns were wrecked by cyclones.

RELIEF MEASURES LEFT TO DISTRICT OFFICERS

WASHINGTON, Sept. 16.—Official reports to the coast guard from the Texas storm district said relief measures have been left entirely to the discretion of the district officers. While virtually all extra equipment east of Galveston had been rushed to Key West, where the storm first broke, cutter at Galveston offers means of transporting supplies to devastated regions.

DEATH ROLL INCREASES AS NEWS IS RECEIVED FROM OVER AREA; PROPERTY LOSS IS TEN MILLION

AUSTIN, TEXAS, Sept. 16.—At least one thousand bodies are strewn along the shores of Nueces and Corpus Christi bays, according to information contained in a telegram received this morning by Governor Hobby from Brigadier General J. F. Wolters, Texas National Guard headquarters at Houston. General Wolters wired that reliable information to that effect had been received at Houston.

He also advised that a supply and relief train was leaving Houston this morning for the devastated district in charge of Brigadier General John A. Hulen, T. N. G.

At the adjutant general's department it was said that preparations were being made to send three hundred Texas National Guardsmen to the stricken sections along the Texas coast. The troops are to move as soon as the call comes for them from Assistant Adjutant General W. D. Cope, who is now enroute to Corpus Christi.

CORPUS CHRISTI, TEX., Sept. 16.—A steady rain has begun falling turning the rapidly drying streets into a slush of mud and interfering with the clearing away of the debris. This will also add greatly to the suffering and privations of the thousands of destitute and homeless.

HOUSTON, TEXAS, September 16.—More than 200 bodies have been recovered from the beach in the district surrounding Corpus Christi, according to message received by W. G. Choate, assistant general manager for the Federal Railway offices here, from Dr. W. C. Reinhart, of Corpus Christi, today.

Over 100 bodies were washed ashore near the ranch of S. B. Allen, the message said.

The message came over a railway wire from Allen, Texas, where Dr. Rhinehardt went from Corpus Christi, in order to get in communication with the outside world.

The Houston-Galveston relief train will not leave Houston until 9 o'clock tonight, because of delay in assembling supplies. Army officials at Camp Logan are sending blankets and medical supplies for the relief train.

BY THE ASSOCIATED PRESS.

Mounting rapidly as reports from heretofore isolated sections began trickling in, the death list as the result of the tropical hurricane which Sunday swept the Texas gulf coast and around Corpus Christi, was variously placed at from seventy to 150 today.

Just what the storm's toll was probably will not be known for several days, for reports show bodies of victims found at scattered points along the Nueces and Corpus Christi bay, one compilation giving the total recovered at several points as seventy.

The victims found along the bay shores were believed to be largely from Corpus Christi, their bodies whirled away from the city by the receding waters of the ten-foot tidal wave that swept in on a sixty-mile gale early Sunday.

Reports from Odem, Texas, were that the situation in Corpus Christi was "increasingly serious" and the mayor of Sinton, north of Corpus Christi, reported the bodies of twenty-one storm victims had been gathered in a schoolhouse five miles from Sinton.

Another report from Odem was that a Dr. W. C. Reinhart, who returned last night from Corpus Christi, said the number of dead there, at Port Aransas and Portland, might reach 2,000 and that it was estimated that 200 to 300 have drifted across the bay, from Corpus Christi and other points.

There was no way of confirming this report but it seemed discounted in view of the fact that the Associated Press was in leased wire communication with Corpus Christi up to 3 o'clock this morning and at that hour officials of the city and newspapermen still were of the belief that the death list in the city would not exceed twenty-five.

It probably will be impossible to count the Corpus Christi dead until the wreckage glutting the streets has been entirely cleared away, as it is recognized that many victims may be beneath the debris.

CORPUS CHRISTI, TEX., Sept. 16.—Reports early this morning indicated that the death toll from Sunday night's hurricane is steadily mounting while the list of missing is being gradually culled. Scores of unidentified bodies, up for lost, have been rescued, some across Nueces Bay where they floated on the ruins of their wrecked homes or other debris driven inland by the storm. Many of the rescued remained in the water for hours and were at the point of exhaustion and suffering intensely from exposure. It is impossible to give an approximate death list and it may be several days before all the missing are accounted for and the number of victims known.

Destruction Indescribable.

The destruction wrought by the storm in the lower part of the business district and along North Beach is almost indescribable. With the coming of daylight the work of clearing the piles of debris that in many cases utterly blocked the streets was resumed. Hundreds of men from the cotton fields of the surrounding country have been brought here to assist in this work. The work has entirely receded from the streets, greatly facilitating the work.

Seven additional bodies were brought to the morgue in the courthouse this morning, bringing the list of known dead up to seventeen. Approximately 100 are still unaccounted for in the city. Many of them are, however, believed to have been rescued without any report having been made to the municipal or military authorities.

Additional Dead.

The seven dead brought in this morning were: F. W. O'CONNOR, fisherman of Corpus Christi; H. PRATER, city policeman; MR. AND MRS. W. P. HELCHER, Mr. Helcher was a prominent real estate man of Corpus Christi. Three unidentified bodies of girls, ranging from five to fifteen years of age.

Patrolman Prater lost his life while attempting to save Henry Spiker and twenty-two other persons who were in his home when it was carried away by the tide. All of these are still among the missing.

Food Situation Serious.

Despite the arrival of the relief train from Kingsville and Robstown and the military train which came in this morning bringing rations and bedding, the food and housing situation is still desperate.

BANK DEPOSITS \$34,148,992 400 PER CENT GAIN IN YEAR

Deposits in Wichita Falls banks at the close of business September 12, totalled \$34,148,992, according to statements issued in response to the call from the comptroller of the currency. Last year at this time, after one month and a few weeks of the wonder year's business activity brought about by the Fowler discovery in the Burk Burnett townsite, the deposits totalled \$8,965,806. This is an increase of better than 400 per cent in deposits in a year's time, the most phenomenal increase, it is believed, in banking history of this section.

Since Jan. 1, 1919, a new banking institution that now has deposits of more than \$2,000,000, has opened its doors, and one more new bank is to be opened in a short time, it is announced.

The deposits for each bank, for 1918 and 1919 follow:

| Bank | 1918 | 1919 |
|-------------------|--------------|-------------|
| City National | \$12,422,000 | \$4,200,000 |
| First National | 10,794,500 | 3,271,200 |
| Natl. Bk. of Com. | 4,284,000 | 783,500 |
| Wichita State | 2,416,820 | 620,945 |
| American Nat'l | 2,121,972 | |

THREE AND A HALF BILLION DEFICIT 1919

Situation Is Presented to the House in Speech by Representative Good.

CONDITION CONFRONTING TREASURY IS ALARMING

Declares Demands on Treasury During Present Fiscal Year Are Staggering.

WASHINGTON, Sept. 16.—The Federal treasury already faces a deficit of \$3,591,273,345.26 for the present fiscal year. Representative Good, Iowa, chairman of the House appropriations committee, declared in a speech to the House today.

Good sounded a warning that "the actual condition confronting the treasury is so alarming that we may well pause and calmly consider obligations already existing and that must be met before entering on enlarged programs which call for additional expenditures."

The demands on the treasury during the present fiscal year are staggering, Good said. While the average peacetime expenditure of the government is slightly more than \$1,000,000,000 Good declared that the total requirements of the government, outside of the present urgent deficiency bill and appropriations will be asked for by June 30, 1920, will be \$10,818,301,885.26. The revenues for the fiscal year, he said, will be \$7,227,028,540.

Wants Finance Officer. Good strongly recommended the appointment by President Wilson of a national finance officer to have complete oversight of all government expenditures, so that economy may be practiced to the limit by the government, adding that the high cost of living probably can not be materially reduced while the government continues its "orgy of spending."

Good enumerated the revenues of the country as follows: Internal revenue, income, excess profits and estate taxes, \$4,940,000; customs \$260,000,000; public lands \$3,000,000.

Callus? "Gots-It" Will Peel It Off!

Nothing on Earth Like Simple "Gots-It" for Corns or Calluses.

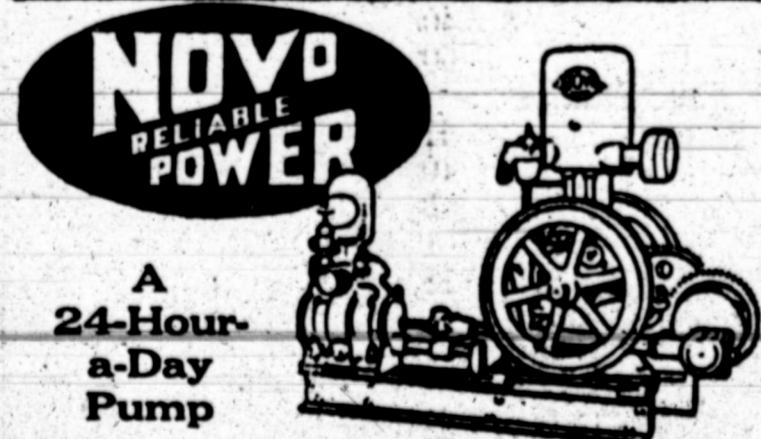

A callus, or thickened skin on the sole of the foot, which makes walking a misery is of the same nature as a corn. "Gots-It"

Use "Gots-It" and Dance, Even with Corns removes it as easily as it does the toughest corns. By using a few drops of "Gots-It" the callus will be able to peel it off with your fingers. In one complete piece just as you would a banana peel. It leaves the skin free and smooth as though you never had a callus. You need no more fussy plasters, sticky tape, "package" bandages, knives or scalpers for corns or calluses. "Gots-It" is the national corn remover, the biggest on earth, used by millions. It never fails. "Gots-It" is the only sure, guaranteed, money-back, corn-remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill.

Sold in Wichita Falls and recommended as the world's best corn remedy by Meach Taylor Drug Store, The Miller Drug Store, Wilford Harrison Drug Co.

1915 6 in. d. c. News (Oil Fields) ★

Novo Type U, a double-acting force pump, good for pressures up to 500 pounds, will pump a two-inch stream against a three-mile head, and will keep the water coming 24 hours a day, seven days a week.

For water supply in oil fields, Type U is an ideal outfit. Requires 1 1/2 to 1 3/4 H. P. Outlets for Pumping, Blowing, Air Compressing, Boiling.

NOVO ENGINE CO. 1100 E. 10th St., Wichita, Kan. Factory and Main Office Located, Shanghai, New York, Wash. D. C., Chicago, Ill., Dallas, Tex.

600; war salvage \$400,000,000; Victory loan installments \$1,032,000; postal service \$404,928,240.

Of the expenditures, Good said \$7,345,258.58 is for direct appropriations while the balance will be expended this year under appropriations previously made.

Economy Is Urged.

Good called upon the President to use his authority to practice the strictest governmental economy.

"He has the authority under the law and should exercise it to the end that estimates for appropriations may be greatly reduced and that the treasury, which is the first line of defense against public extravagance, may re-establish its lines on a policy of efficiency and economy," the chairman declared. "Explaining the big reductions made in the estimate embodied in the deficiency bill which he called up today, the committee cut estimates down to one-third the amounts requested."

Regarding the high cost of living, Good said it was due to the following causes:

"An increase in the circulating medium, the amount being doubled.

Increased prices.

"Increased prices are made necessary by increased cost of production, due in turn to increased wages, decrease in labor efficiency and increase in taxes. The increase in the wage scale in many industries is as much as 100 per cent and yet labor is only from 50 to 60 per cent as efficient as before, according to testimony before the committee. A tax of almost \$5,000,000,000 a year has been passed on in the long run to the consumer."

"Large increases in exports, amounting, in the case of food stuffs, to six times the amount in 1914.

SENTIMENT FOR A LARGELY INCREASED FORCE OF POLICE

With a growing and favorable sentiment among the members of the council as well as among the leading citizens favoring it, it is expected that the near future will see a material increase in the number of men on the Wichita Falls police force. Expressions to the effect that the city should have at least fifty men in uniform, with around a dozen plain clothes men, and additional motorcycle men and mounted police, have been growing in frequency within the past few weeks.

"We now only have about one policeman to about four thousand inhabitants," said H. A. Bundy, police commissioner, in discussing this proposition. On the basis of one man to a thousand population, which is about the minimum standard recognized in cities in this country, we should have at least double what we have now.

"As it is now, with only half our force on duty at any one time with one man on a motorcycle, one man on a motorcycle, and one or two other necessary special details, one call to the police station just about strips the chief of available men, and a couple of calls together leaves him with no one to send. With this condition of things existing, it means that we can not make the slightest attempt at patrolling the residence section."

LABOR TROUBLE ON INCREASE IS LATEST REPORT

Thirty-Two Strikes Put Up to the Department Since Truce Was Asked.

APPROXIMATELY 15,000 MEN ARE NOW IDLE

Other Trouble Not Reported Will Bring Total Number Idle to 200,000.

By RALPH F. COUCH (United Press Staff Correspondent.)

WASHINGTON, Sept. 16.—Thirty-two strikes have been put up to the labor department for settlement since August 26, when the industrial truce asked by President Wilson was to have gone into effect.

The figures in the hands of the department's conciliation bureau indicate, according to officials, that since the asking of the truce, labor troubles have been on the "upward trend" rather than downward.

Employers have declared but four lockouts during the three weeks since August 26, involving less than 800 men, the bureau records show.

Officials of the labor bureau emphasize that their figures show a very small proportion of the men actually on strike since they include only disputes in which the bureau has been asked to step in. The statistics are generally taken, however, as a very clear indication of whether strikes are on the increase or decrease.

Men now idle through strikes total approximately 15,000, according to the bureau's reports.

Threatened strikes, where unions have voted walkouts and have served ultimatums on their employers, total more than 21,000, while thousands more men are involved in labor disputes classed by the department as "controversies" and which have not yet reached the stage where a strike vote has been taken. This does not include the threatened steel strike.

In addition to the strikes which have been reported to the conciliation bureau and which have thrown about 15,000 men out of work, officials of the bureau estimate that other labor troubles as yet officially unreported would bring the total number idle to a figure above 200,000.

Recognition refused. Refusal of employers to recognize

ABOUT 150,000 STEEL MEN IN VICINITY OF CHICAGO TO STRIKE NEXT MONDAY

CHICAGO, Sept. 16.—Orders for members of the steel workers union in the vicinity of Chicago to strike next Monday at six a. m. were received by locals today. About 150,000 in the vicinity of Chicago will strike, according to union officials. It will tie up the steel industry in Gary, Indiana Harbor, South Chicago, East Chicago, Joliet, Dekalb and Milwaukee. Union leaders will meet here Friday night to make final arrangements for the strike in this district.

FIND FOURTEEN MEN LOST FROM BAR

KEY WEST, Fla., Sept. 15.—Fourteen men who wear aboard the barge Monongahela when it broke away from the tanker Ligonia during the hurricane a week ago are safe. The barge with the men aboard was found adrift twenty miles from Key West.

GOVERNMENT HAS EVIDENCE WORLD'S FOOD SUPPLY IS CONTROLLED BY PACKERS

CHICAGO, Sept. 16.—Correspondence purporting to show that the big five packers control the world's food supply today was in the possession of the government, Isadore Kresel, special assistant attorney general announced, and will be presented to the Federal grand jury here tomorrow. The letters were obtained by Francis J. Henry of the Federal Trade Commission, whose department is assisting the Federal prosecutors in building up their case against the packers.

The union is the principal cause of strikes which the labor department is now attempting to mediate, indicating, officials say, that organized labor is pushing its campaign. In some of the strikes wage demands is a secondary cause. In most, however, the only demand is the right of collective bargaining.

Government conciliators are offered to work on controversies is immediately they are called to the attention of the labor department, officials said today. Nearly 50 government mediators are working night and

day in every part of the United States, since the industrial truce was asked, department records indicate.

Sluggish Livers

are quickly relieved by Granger Liver Regulator. A dependable vegetable remedy for liver complaints, constipation, dyspepsia, and indigestion. Promotes a healthy condition. Fully vegetable. Non-habit-forming. Sold by druggists everywhere. 25c per box. Granger Med. Co., Chattanooga, Tenn.

Yes; S. S. S. Is Purely Vegetable Nature's Safe Blood Treatment

On the Market Half a Century. When you are in perfect health, and are enjoying a strong and vigorous vitality, it is then that your blood is free from all impurities. You should be very careful and give heed to the slightest indication of impure blood. A sluggish circulation is often indicated by

an impaired appetite, a feeling of lassitude and a general weakening of the system. It is then that you should promptly take a few bottles of S. S. S. It will aid in cleansing the blood and build up and strengthen the whole system. S. S. S. is sold by all druggists. Valuable information about the blood supply can be had free by writing to the Swift Specific Co., 30 Swift Laboratory, Atlanta, Ga.

What real dependable banking service will do is reflected through the above statement.

OVER TWO THOUSAND SATISFIED CUSTOMERS IN SEVEN MONTHS.

"And During All That Time We Never Missed a Train"

Eighteen months ago E. P. Hobbs of Temple, Texas, bought a ton and a half transfer bus equipped with Goodrich De Luxe Tires to carry baggage and passengers to and from trains. In all that time the faithful little bus has never missed a train—day or night.

The part the Goodrich Tires have played in Hobbs' dependability is a large one.

In the first place the tires have worn down so slowly no lay-ups for replacements have been necessary. In fact, Mr. Hobbs says, he expects months of service yet before this step becomes pressing.

In the second place, the rubber in De Luxe Tires has shown so much resiliency that no delay for repairs has been occasioned—due, of course, to extra-thick cushion of De Luxe Tires.

If De Luxe Tires can show such splendid results for Mr. Hobbs, surely they can bring a greater degree of dependability to your service. Try them.

REITNER CASES ARE DISMISSED TODAY BY COUNTY JUDGE

Holding that the information was insufficient and that it was no breach of the laws of Texas for a woman to wear khaki overalls and shirt opened at the throat, Judge Jones in county court this morning dismissed the case of the State vs. Mrs. A. S. Reitner. Because Mrs. Reitner had committed no offense against the law, Judge Jones held that her arrest and the arrest of her husband were illegal. Hence, Reitner, charged with resisting arrest, had resisted what the court held was an illegal arrest, therefore had committed no offense against the law.

Both cases were dismissed. Motion Sustained.

Immediately upon the call of the case, a motion was submitted to the court by Attorney Gibson, counsel for the Reitners. In which he claimed the information was faulty in that it charged no offense against the laws of this state. Judge Jones sustained this motion.

Charges were filed against Mr. and Mrs. Reitner Saturday following their arrest by Deputy Sheriff Allen. He had cautioned Mrs. Reitner that she must not appear on the streets in male attire, but she had not heeded the caution. When he remonstrated, a fight ensued between Mrs. Reitner and the latter was forcibly taken to the courthouse, a large crowd later forming.

Petitions were circulated demanding that Allen be ousted as a deputy sheriff, but it has been alleged that he was forced to be rough with Reitner to get him to the sheriff's office after the real arrest, and, as far as known, no action has been taken.

Allen Makes Statement.

In a statement, Mr. Allen declared Reitner had struck at him three times before he grabbed him and pulled him from his automobile. He kicked him in the court house yard only after Reitner had struck him in the mouth, said Allen, and he drew his revolver on his prisoner to quell his fighting spirit.

"As long as I am an officer," said Allen, "I intend to see that the law is enforced without fear or favor. If I think the laws are being violated it is my duty to make arrests. It is up to the courts to construe the laws, and I abide fully by what the courts say."

"I did not want this couple to be punished if they were not guilty. If they were guilty, then I did want to see them punished. I have no feeling of malice in the matter and as far as I am concerned the incident is closed. I merely did my duty."

Judge Jones' decision opens up a wide range as to the style women may wear. In explaining his decision, Judge Jones told a Times reporter that he was not responsible—that the government itself had allowed women to dress in khaki trousers and blouses or shirts; that all women working in factories, the fields and even in elevators during the war had been instructed to dress that way, and "if the government made the rule it was not up to me to say it was wrong."

Frank Kell spent Tuesday in Dallas in attendance at a meeting of the board of directors of the Regional Reserve bank of the Dallas district.

THREE GIRLS CAUGHT IN VICE RAID PLEAD GUILTY TO CHARGES

Three girls caught in a vice raid by Deputy Sheriff McDonald Monday evening pleaded guilty to charges of vagrancy in county court this morning and were fined \$1 and costs each. One of the men with them was fined \$5 and costs and one \$1 and costs.

One girl, pretty, minus paint and "fixin's"—got wrong, doubtless, because of the helishness of some man—sobbed as she pleaded with Judge Jones and Assistant County Attorney Martin for leniency.

The man she had been with had made his own bond and paid his own fine, but he overlooked the girl who was assisting down the primrose path where the white lights glare. Of course she didn't count. She was "bad" when he met her, perhaps, while he, oh, he was one of those saintly mortals who put the burden on the woman and left her to her fate, aggravated in his very selfishness and egotism.

However, Judge Jones, in his wisdom and with the kindly view the takes of life, lightened the woman's load and weighed heavier that of the man.

FEMINE FALL STYLES TO BE QUITE DIFFERENT FROM THOSE IN VOGUE

CHICAGO, Sept. 16.—Femine styles the coming fall are to be much different than those now in vogue—much different, in fact.

Skirts will be longer, much wider and in every way more conservative. And in this connection, there is a war just starting—a war by the American women to make the styles more conservative.

This was the news coming from within the Fashion Art League in convention here today.

And the doughboy is at the bottom of the whole thing. In France the Parisienne beauties wear extreme and when he started home he was full of new ideas of style. But the American girls rebelled—they went on a fashion strike, demanding new styles.

The correct skirt length, according to Miss Alla Ripley, president of the league, should be six to eight inches above the ground. Of course the width will be built around the person, but generosity will be plentiful among the designers. It was pointed out, forty-seven inches was agreed on as the average width for the slender person.

SALVATION ARMY DRIVE ENDORSED BY ELKS CLUB

Endorsement of the Home Service drive of the Salvation Army was unanimously endorsed at the Monday night meeting of the Elks club, and a committee appointed with Stanley Field as chairman, to cooperate in every possible way with B. F. Johnson, county campaign director, in furthering this campaign.

MISS JEWELL RUSSELL DIES AT BURKBURNETT

Funeral services for Miss Jewell Russell, who died Monday in her home in Burkburnett, were held from the Hines Undertaking Chapel at 2:30 this afternoon. Rev. E. A. Barnes was the officiating minister. Burial was in Riverside cemetery. Mr. and Mrs. A. G. Russell, parents, survive.

AMUSEMENTS

"SMASHING BARRIERS" COMING TO THE GEM

The manager of the Gem Theatre announces that, beginning Friday he will show Vitagraph's latest serial thriller, "Smashing Barriers," a brand new concoction of daredevilry and romance, written especially for William Duncan, the most famous male star of photoplay serials today.

Instead of opening this serial with a lot of blood and thunder action, Vitagraph has taken an altogether new track and starts off the interest and excitement with something altogether unusual for a serial, a college football game. "Comin'" at this season of the year and with the action woven around a sport that is kind in American athletics, it is a welcome relief and full of timely tension for motion picture fans in any part of the country. An exciting moment in a football game has never failed to give the proper thrill, and it won't fall here.

William Duncan has as his chief support in this newest serial, Joe Ryan and Edith Johnson, favorites of the other previous Duncan thrillers.

"IN WYOMING" PLEASURES PATRONS OF THEATER

Many who saw "In Wyoming" at the opening performance at the Wichita Opera House Monday evening, were unanimous in their praise for the real live Western story which was so well presented by the Wichita Stock Company. It is a well written play by Willard Mack which was intensely exciting with daring and romance; sparkling with wit and many amusing situations, where everyone admired the hero, loved the heroine, and fervently hated the villain.

From a critical viewpoint it would be difficult to judge on merit alone the best part. Hank Jones by Horace Noble in his character part was the source of all the fun. Bob Ricketts, played by Kernan Cripps, was the ideal conquering hero, and Steve Gordon as the cattle rustler played by Earl Ross was equally good.

Bob Ricketts is the foreman of Dalby's ranch near Casper, Wyoming. He falls in love with Jenny Summers, the new school teacher, presented by Miss Bobby Robbins. Steven Gordon, one of the boys on the ranch, is also in love with her. He is guilty of

stealing cattle from his boss, David Dalby, and is suspected by Willie Seltie, a detective. The climax is reached in the hat act when Steve Gordon kidnaps the school teacher and is rescued in the mountains by the hero Bob Ricketts.

All credit was due the Wichita Stock Co. for their meritorious presentation of "In Wyoming" and their endeavors have been rewarded in the nightly crowds in attendance.

Beginning next Monday they will present "A Pair of Queens," which is a high class rollicking comedy and which everyone should enjoy.

GARDNER'S RAGTIME REVUE PLEASURES AIRDOME PATRONS

Good songs, clever dancing, a whole lot of wit and humor and an amusing musical/skit pleased packed houses at the shows at the Plaza Airdome last night. The company this week is Gardner's Ragtime Revue, and the name is deceiving, for it leaves the impression that there might be any number of black-faced folk, where, and it's a pleasing surprise, there is but

Mrs. Mary Gross will have charge and will show hats from the most exclusive houses in the East. Mrs. Gross has had many years' experience in millinery business and will be glad to give her personal attention. We will open for business Wednesday morning, September 17.

GROSS-CONNELL MILLINERY CO.

one. But Mr. Harry Welch, really is almost a 5000' Wichita himself. Ruby Pigroon, who plays the soubrette roles in a different playlet each night, is charming. She has a good voice, is pretty and her "Chicken Farm" and "You Know What I Mean" brought several encores.

Jack Russell, who vied with Welch for comedy honors, sang "Can You Tame Wild Women?" with variations that made the song new and better. Gypsy Morrison, who plays the leads, Roscoe Haggarty, who has a rather weak part, left behind. But the rendition of "Madhattan" was excellent, and George Bartz, whose songs and acting are good but whose laugh is better, are among the over-all. What the Plaza has offered in some time.

The company's chorus, made up of two Stead, Edna Tipped, Peggy White, but Stead, Marie Griffin and Tot Shirley, all good to look upon and all good dancers, did excellent work.

HUCKINS TO MANAGE NEW HOTEL PROPERTY TO BE NINE STORIES

Joseph Huckins Jr., of the well known Huckins family, prominent in hotel management circles of the South, will have the management of the new Wichita Falls hotel, now building at the corner of Eighth and Scott, C. W. Snider, who has been in charge of the building operations and one of the financial backers of the hotel, stated this afternoon. The contract for the management has been pending with Mr. Huckins for some time, and he has been here from Oklahoma City for several days. J. A. Kemp will be associated with Mr. Huckins in the hotel management company, Mr. Huckins to have the active management.

ADVISORY COMMITTEE TO MEET OFFICIALS OF ROADS TOMORROW

The first meeting of the advisory committee from the chamber of commerce with officials of the Denver and Katy roads, which will be tried out in lieu of the terminal manager plan as a means to bring about a prompt exchange of business and co-operation between the two systems at this point in the handling of freight, will be held Wednesday morning. It was announced, following advice from S. A. Covington, acting general superintendent for the Denver, that he will be in Wichita Falls at that time. J. F. Hickey, general superintendent for this district of the Katy, is permanently stationed in Wichita Falls, and is the Katy representative who will act with the board. The chamber of commerce committee is composed of T. R. Noble, F. N. Lawton, M. A. Bundy, M. E. Cox and Hubert Harrison, secretary.

SEVERAL AUTOMOBILES HAVE BEEN RECOVERED BY SHERIFF AND FORCE

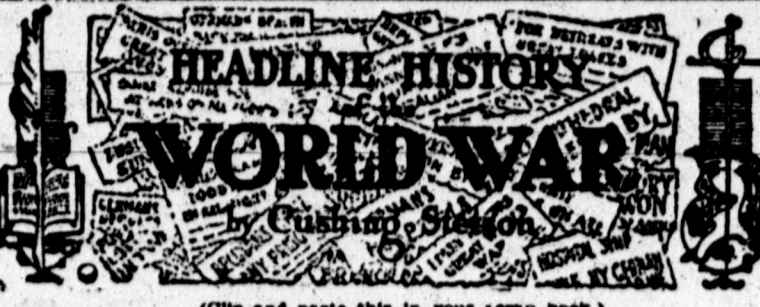

More than a half dozen automobiles that had been stolen from owners in Wichita Falls have been recovered by Sheriff McFall and deputies within the last few days. One car was found in Little Rock, Arkansas. One on the Mexican border, being taken into the southern republic. Three were in Oklahoma, at Sayre, Chickasha and Temple, while two or three have been found in Texas. In some instances the thieves also were caught, and they will be brought back here for trial.

WICHITA CLUB IS TO RESUME LUNCHEONS

Ladies of the civic league will again serve the luncheon for the Wichita Club, which will resume its meetings with the luncheon in the basement of the First Christian church, it was announced by E. H. Eddleman, secretary, Tuesday. The first meeting is regarded as an especially important one for the program of work for the coming year will, in large measure, be formulated at this meeting.

LEAGUE DIRECTORS ARE DETERMINED TO PUT JOHNSON OUT
 CHICAGO, Sept. 16.—Three American league directors met here today for the avowed purpose of forcing the resignation of President B. B. Johnson. Charles Comiskey, Chicago; Harry Frazee, Boston, and Jacob Ruppert, New York, charging that Johnson had many things to explain and that he had done much to embarrass a person holding his high office. Johnson served all technicalities in calling the meeting. Care was taken not to leave an opening for Johnson to begin a legal battle. "It will be hard to make a man getting \$30,000 a year resign," Frazee said. The others were more confident. Johnson was out of the city but the directors planned to meet in his office, James Dunn, Cleveland, the fourth director, did not attend. Gossip before the meeting included charges by Ruppert and Huston, New York, that Johnson wanted to have a control in the New York club just as he held an interest in Cleveland. It was stated also that the Federal League suit, costing organized ball \$400,000, would be thrown up to Johnson. Directors said there had been an opportunity to settle that case out.

PREMIER NITTI FACES A CRISIS RESULT FIUME

Denunciation of D'Annunzio Causes Complication of Much Consequence.

ITALY IS PERMITTED TO DEAL WITH THE MATTER

Anarchy Reigns in the City and Allied Flags Are Being Torn Down.

PARIS, Sept. 16.—Premier Francesco Nitti of Italy, faces a governmental crisis as a result of his denunciation of Captain Gabriele D'Annunzio, who last week entered Fiume at the head of a strong force of "irregular" troops who has since that time been receiving reinforcements, according to advices from Rome. The Supreme Council of the Peace Conference, under the jurisdiction of which Fiume stands, has decided to allow Italy to deal with the serious situation that has arisen in that city, deeming it a purely internal matter. According to reports from Fiume, American detachments which have been in Fiume have gone on shipboard while British and French troops have been confined to their barracks possibly to forestall a clash with the D'Annunzio forces. General Badoglio, deputy chief of staff of the Italian army, has arrived at Fiume and has issued a proclamation to the D'Annunzio soldiers to return to their respective units but there is nothing to indicate his advice will be followed. Captain D'Annunzio, according to a Belgrade dispatch, has proclaimed a union of Fiume and Italy, the message adding that anarchy reigns in the city and that Allied flags have been torn down. Francesco Tittoni, Italian foreign minister and head of Italy's delegation at the Peace Conference, will leave for Rome today.

MOVE TO SUPPRESS GABRIELLE D'ANNUNZIO

ROME, Sept. 15.—The government's first move toward the suppression of Gabrielle D'Annunzio's adventure in Fiume will be directed by General Badoglio, deputy chief of staff. An official statement announced today that immediately upon his arrival in Fiume he would issue a proclamation inviting D'Annunzio's followers to return to their regiments. D'Annunzio's forces total 2,800, it was stated today. Cost of whom automatically followed their officers because they were told the government approved the Fiume coup.

Government officials said today that several of the Post's followers already had returned to their regiments. The garrison at Fiume, it was added, had refused to join D'Annunzio. Information received by the government today said that in an effort to excite public feeling the agitators at Fiume had circulated leaflets declaring the Nitti cabinet had resigned. British and American troops have embarked from Fiume. The French contingent has returned to its base.

RESCUE ABOUT 175 REFUGEES AT ODEM

CORPUS CHRISTI, TEX., Sept. 16.—Approximately 175 refugees have been rescued at Odem, about 30 miles west of here, according to a telephone message received here. They had been carried across Nueces Bay on wreckage. All of them were suffering greatly from exposure. They are being cared for by citizens until ships can be sent there to bring them to Corpus Christi.

SQUINT AT THE SCORE.

Yesterday hero—Pat Duncan, the Red's rookie outfielder, sneared one for a homer and helped Slim Salteo beat the Giants 7 to 0 with brilliant work in the field.

Connie Mack's kindergarten scored a six run rally in the ninth inning but lost to the leading White Sox, 11 to 10.

Friberg singled with two on in the tenth and the Cubs trounced the Phillies 4 to 3.

St. Louis gained on the Braves in the contest for sixth place by winning 4 to 3.

Brooklyn copped a double bill from the Pirates 6 to 0 and 4 to 3.

MANAGER FOR DEMPSEY REFUSES \$150,000 FOR A CHAMPIONSHIP BOUT

NEW YORK, Sept. 16.—Jack Kearns manager of Champion Jack Dempsey, has refused to consider an offer of \$150,000 for a championship bout in London, according to reports here today.

M'GRAW CONCEDES THE PENNANT TO CINCINNATI

NEW YORK, Sept. 16.—John Mc-Graw, manager of the New York Giants has conceded the National League pennant to the Cincinnati club, according to a message received last night by club officials here. The message stated that McGraw was returning here and had appointed Christy Matthews temporary manager.

The Reds can clinch first place by defeating the Giants tomorrow. As New York is assured of second place, McGraw intends to go to Texas from New York to look after business interests.

FAVORITES DEFEATED MONDAY AFTERNOON

COLUMBUS, O., Sept. 16.—Three of the four favorites in the opening program of the two weeks grand circuit race meeting here were defeated Monday afternoon. The biggest surprise was the defeat of Grace Direct in the King stake, 2:06 pace, by Sarnardo, who won in straight heats. The best time was 2:02 1/4 in the first mile.

The 2:11 trot with 16 starters saw Direct Forbes win in straight heats. It took four heats to decide the two year old colt trot. Day Star finally taking first money. Duettes captured second money.

Hollybrook Kate won the 2:07 trot with Buey's Lassie a good second.

NEWSPAPER OPINION IS EVENLY DIVIDED

DETROIT, Sept. 16.—Newspaper opinion was about evenly divided on the outcome of the Jack Sharkey-Pete Hermann no-decision 10 round bout here last night.

Sheeley put up an aggressive battle but appeared to get to the hantam-weight champion at will, showing particularly well in the eighth, ninth and tenth rounds. Hermann, however, landed many telling body blows and displayed superior ring generalship throughout. Neither man appeared the worse for punishment in the melee.

PASSING OF STRAW LID INCITES A RIOT AND ONE IS KILLED

NEW YORK, Sept. 16.—One negro was killed, two others wounded, a policeman beaten and dozens of other persons suffered blackened eyes and lashed noses, as a result of a race row here today following the destroying of out-of-season straw hats.

DEVELOPMENT REPORT FROM ARCHER COUNTY

The oil situation of the county is one of vital interest to the citizenship of the county, as well as to the various non-resident land owners, who possibly bought their lands years ago at \$1 per acre and are now sitting in the shade at Palm Beach enjoying the breezes and the from \$1 to \$50 per year oil lease money being tendered them.

These people are raising considerable fuss with us at times because we do not tell just what's what in the oil development work.

We can't tell what's what because we can't find out or decipher just exactly or even near to what's what.

Take for instance the Sinclair test 2 1/2 miles southeast of Archer City. This well was spudded in April 14th, 1918. A force of men have been busy nearly all the while since, yet the well is now only around 1500 feet. Of course they lost a 1200 hole by losing tools in it, but they have had ample time to lose a dozen such tools and yet be more than 1500 feet in No. 13. An oil showing and small gas strike two months ago seemed to have shattered their nerve morale towards going any deeper. Several of the hands quit this week and were immediately replaced by others, which may mean the company intend to rush drilling a little more in the future than they have in the past.

Another instance is of the Ashton test on the Lewis Herron ranch, which three weeks ago we announced on the sand and underreaming the last 150 feet preparatory to being shot and tested. Authentic information today leads us to now state the well lacks 100 feet of being down to where the pay sand could reasonably be expected. We can verify neither report, as both came from what should be reliable sources, however we are tempted to believe the latter on the grounds that the land owner, Lewis Herron, believes it.

The Murry well on the Coleman ranch, 16 miles northeast was reported 30 days ago probably a 60 barrel producer being handicapped by salt water. The salt water yet seems to be master of the situation, as the operators have as yet failed to get it cased off in order to further penetrate the sand and make a production test.

The Silk-Langford well 12 miles east of the Zack Scott ranch seems to be pursuing the even tenor of its way at around 3,000 feet, but no late reports from it.

The Rangebourn test 10 miles northeast being made by Dr. Von Hagen have recently had a labor trouble but satisfactory replacements have been effected and drilling is in full swing.

Out of about 25 wells drilling in the county the above, and possibly a special notice or two in another column is all we have been able to ascertain in about three weeks diligent inquiry.

However, the Secretary of the Ar-

JAPAN IS VICTIM OF HIGH COST OF LIVING

By RALPH H. TURNER (United Press Staff Correspondent)

NEW YORK, Sept. 16.—Out in Japan, the time was—and not so long ago either—when the foreign resident could live like a food profiteer on an income that wouldn't maintain parlor, bedroom and bath in the States.

A clap of the hands speedily brought forth a refinance of servants who aggregate salary would scarcely supply Coney Island money for a New York domestic maintaining a household of 20 to 25 obtained a house roomy enough to accommodate two or three families of American apartment dwellers. And the food bill, including afternoon tea and generous entertaining for the rest of the "colony," would just about settle for the butter and eggs at the corner grocery in this country.

But now—!

Japan, like every other civilized land, has been struck head-on by the high cost of existing.

Roderic C. Penfield, American representative of the World Salesman, published in Yokohama, who has just returned from the Mikado's domain, told today how high prices have hit that country.

"Dignity in Japan is all the deeper," Penfield said, "and official alarm all the keener, because of the wide gap which was spanned when prices jumped to the present level, almost a year ago, when I reached San Francisco that I must pay 35 cents to have a silk shirt laundered and \$75 for a dress shirt. In Japan the standing price was four cents—a garment whether it was a cotton undershirt or a dress shirt with 'boiled bosom.'"

cher County Commercial Club, we understand is to soon take up the public matter, and will visit the different operations weekly and give the newspaper a concise statement of proceedings.—Archer County News.

began to assume a threatening aspect. There is scarcely any reserve stock in Korea, most of it having been sent to Siberia to supply the Japanese army.

"The Koreans, moreover, have planned much less rice than usual, arguing that whatever the size of the crop, the Japanese government will commandeer it at low prices. The Chinese, also, are hesitating to export rice to Japan, feeling they will need it themselves.

"The government has prepared measures against hoarding and profiteering, but so far they seem to have had no effect.

"Servants, who, because of their low wages, always have offered foreign residents an advantage over life in America, are now demanding twice their former pay. Through their guild, they are able to enforce many of their demands. In one case an American family, because it owned an automobile, was ordered to employ a man servant instead of a woman. It was held that if this family could maintain a garnet car, it could afford to pay a man's wages.

"House rents have gone up from one-third to one-half. Coal is about 1 1/2 a ton; kerosene is 50 cents a gallon and gasoline is about a dollar a gallon.

"Custom-made silk shirts, which in the old days were the supreme delight of the American tourist at \$4 or \$5 apiece, now cost from \$7 to \$10.

"And rikisha fares—no longer will a coolie pull you all over town for half a dollar. Shorter hours, higher pay and lighter loads is the slogan today of the rikisha men's union."

"It was somewhat of a jolt," he said, "to learn when I reached San Francisco that I must pay 35 cents to have a silk shirt laundered and \$75 for a dress shirt. In Japan the standing price was four cents—a garment whether it was a cotton undershirt or a dress shirt with 'boiled bosom.'"

Passing the Word Along

THERE'S a good fellowship between car-owners which makes everybody anxious that the other should get all the benefits going in the handling of his car.

That's why there is so much mouth-to-mouth advertising of Firestone Gray Sidewall Tires.

One man tells the story of the better-than-ever work he is getting this year from the Gray Sidewall Firestones. The other buys a set—and so the good word passes along.

Result—wonderful and constantly growing numbers of this tire all over the West.

REVOLTING DETAILS OF CRUELTY INFLECTED ON AMERICAN WOMEN BY MEXICAN BANDITS ON BORDER

WASHINGTON, Sept. 16.—With a number of persons subpoenaed and waiting to be heard, further angles of the Mexican situation were expected to be laid before the Senate foreign relations sub-committee investigating relations between this country and Mexico.

The sub-committee last night held its first night session and heard its first woman witness.

Miss Agnes Laut, who recently returned from Mexico, in advising against intervention in Mexico, laid before the committee last night a solution of the Mexican problem which she characterized as "the beneficent pacification" of Mexico.

"Years of Crucifixion."

In corroboration of her assertion that widespread corruption had inflected on Mexico "nine years of crucifixion" and that "95 per cent. of the people are looking for help," Miss Laut described several of the brutalities of which she knew. She told the committee of two girls who had been clubbed to death and of two American women who were carried into the mountains of Sonora and there forced to remain by their captors who shaved the sides of their feet to the quick to make simpler the task of guarding them.

Carried to Hills.

An American girl from Nebraska, she said, now is somewhere in the hills, the captive of Mexicans who dragged her from her home near the Gulf coast. When the band appeared they roped her father and mother and

ARMY NOW NUMBERS LESS THAN ONE-TENTH OF PEAK WAR STRENGTH

WASHINGTON, Sept. 16.—The seven regular divisions which the War Department plans to maintain at full strength today comprise only 31,473 officers and men, or but little more than the strength of one division. The first division because of its scheduled parade here tomorrow has been kept as near intact as possible and now includes 17,000 men including temporary personnel, but the other six divisions average around 2,500 officers and men each.

On September 9, the army numbered less than one-tenth of its peak war strength, 401,979 officers and men being on the rolls. There was 46,000 in Europe, 5,500 were enroute home and the remainder were in this country.

SIR EYRE CROWE IS BRITISH MEMBER OF SUPREME COUNCIL

PARIS, Sept. 16.—Sir Eyre Crowe, assistant under-secretary of state for foreign affairs in the British cabinet, since 1912, will arrive tomorrow from London, having been appointed British plenipotentiary on the supreme council of the peace conference. He will have the rank of an ambassador.

Sir Eyre Crowe will succeed Premier David Lloyd-George as a member of the supreme council of the conference. Following the signing of a treaty with Germany, Mr. Lloyd-George was forced to return to London and could go to Paris only at frequent intervals. A. J. Balfour, British secretary of state for foreign affairs, took the premier's place until after signature of the Austrian treaty when he announced he would return to London.

TOWNLEY AND GILBERT TO REQUEST NEW TRIAL

JACKSON, MINN., Sept. 16.—Attorneys for A. C. Townley and Jos. Gilbert of the National Non-Partisan League today were preparing to plead for a new trial. Townley and Gilbert were sentenced to serve 90 days in the Jackson county jail on the charge of conspiring to teach sedition. It was the maximum sentence. Judge Dean granted a stay of execution for 60 days to allow the plea for a new trial.

MICHIGAN FEDERATION OF LABOR IN SESSION

LANSING, MICH., Sept. 16.—To discuss industrial unrest and ways and means of remedying the situation, the Michigan Federation of Labor opened its annual convention here today. Great interest was centered in election of a president Friday.

It is generally understood Carl Young, Muskegon, president will be opposed for reelection by former president Clauden Taylor, Grand Rapids. The greater part of today was to be consumed in seating delegates and routine business.

GERMANS HAVE QUIT COAL COMMISSION

BERLIN, Sept. 16.—German representatives have withdrawn from the international coal commission because the principles fixed by the commission for the distribution of regulations regarding the distribution of fuel are "irreconcilable with the agreement concluded at Versailles," according to a statement issued here.

Oil Worker Says He Feels Like Brand New Man

"My health has improved so much since I began taking Orgatone treatment two years ago that I feel like I have been made over into a new man," says G. Fisher, who lives in West Tulsa, Oklahoma, and is a well known oil worker in that city. In a recent interview with the Orgatone representative.

"I wish," continued Mr. Fisher, "that every sufferer from stomach trouble would just experience the wonderful relief I did in trying out this treatment. I have been benefitted beyond my belief, and I think it is time to talk for the benefit of others."

"About twelve years ago I began suffering from a gaseous condition in my stomach, and I suppose I had the meanest case a man ever had. At times during the day I would get so drowsy I would almost go to sleep, and felt languid and tired out all the time. I could hardly sleep at night and would wake up in the morning more tired out than when I went to bed."

"I was in bad health otherwise, too. My appetite was very poor. I couldn't get any satisfactory sleep or rest, and felt very much inclined to give up from a lack of strength and energy. I tried doctors and treatments but nothing gave me more than a little temporary relief until I began using Orgatone."

"It has been two years ago since I took my course of this meritorious treatment and I have since become a new man every since. I feel better in every way, and I sleep every night like a healthy child. My appetite is better, I sleep well and have gained in weight and strength. I have tried everything I could hear of for my trouble and kept getting worse. At last I bought Orgatone, and the change it has made in my condition is remarkable. It has done great things for me and I feel it my duty to let the public know about it."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls exclusively by the F. F. Young Drug Store, under the personal direction of a special Orgatone representative.

The Choice Prizes of Life Are Won By the Healthy and Strong

The weak, soft, flabby-minded—these who are deficient in vigor and vital force—have ever had to suffer the humiliation of being ruthlessly shoved aside by their stronger rivals. A clear, ruddy complexion; bright eyes; hardened muscles; and a well knit-together body of elastic step and easy, constitute a trump card in any game—whether of love or business.

If you feel that you are out-cleaved, lacking the stamina to stand up and claim your own, don't delay another day in commencing to take

LYKO
The Great General Tonic

It will restore that confidence you need to combat the opposing forces of social and business life: it will give you the heart and spirit to do and the courage to challenge the world to your right to a place in the Sun, because it will rebuild your physical strength and mental power to a state of perfect health, strengthening your run-down system with the most nourishing because of its great aid to digestion. LYKO is a refreshing appetizer and an exceptional general tonic in those subnormal conditions of the physical and nervous systems, such as muscular and mental fatigue, nervous exhaustion, general weakness, or debility following a protracted illness or the result of a wasting disease. It's truly Nature's first assistant as a restorative agent—a really remarkable reconstructive. All druggists have LYKO. Get a bottle today and begin at once to feel and look better.

Small text: "Small text describing LYKO's benefits for general health and vitality." data-bbox="290 517 535 630"/>

Why Mazola Saves Money in Cooking and Makes Food Better

In deep-fat frying, not a single drop of Mazola is wasted. Fry fish or onions, even garlic, in Mazola; strain and use it over and over again—even for cake making. Mazola absorbs no flavors or odors.

Use 1/4 to 1/3 less Mazola for shortening than butter or other shortenings.

No smoking—no soggy foods. Foods cooked with Mazola, or in which Mazola is used, are wholesome, healthful, easy to digest.

FREE Cooking made simple and economical when you consult the new 68-page Corn Products Cook Book. Recipes by experts. Attractive illustrations. Free—write for it today.

Wichita Falls Lodge meets first and third weeks at 8:30 p. m. Secretary, C. M. Woodman. Circle 141 day at the Swartz Club 8 p. m.—Mrs. W. O. W. Come night at 8 o'clock at St. Paul Apis. Circle invited. Prizing night, C. M. Woodman.

AUTHORIZED DENIAL OF THE STATEMENTS MADE BY BULLITT

LONDON, Sept. 16.—An "authorized" denial of statements made by William C. Bullitt, formerly attached to the American peace delegation, before the foreign relations committee of the United States house, is printed in London newspapers this morning.

London morning papers express in their editorials views which are colored by their political predilections, some criticizing what they regard as Mr. Bullitt's "breach of confidence."

The Post in a satirical editorial bearing the caption "The Explosive Bullitt," scores both Premier Lloyd-George and Mr. Bullitt.

The Post also expresses the opinion that if Secretary Lansing endorses Mr. Bullitt's statements regarding the secretary's views, it will be all over with the treaty as far as the United States is concerned.

Not Disposed of.—The Daily News maintains the official denial does not dispose of Mr. Bullitt's assertions and argues suspension of judgment until the implications contained in it are put beyond a reasonable doubt.

Some newspapers raise the question as to who the denial itself "entures" and worthless, the Herald, the labor organ, claims to be able to confirm Mr. Bullitt's statements.

JAPAN IS REQUESTED TO FIX A DATE FOR RETURN OF KIAN CHAU

HONOLULU, Sept. 16.—The United States has asked the Japanese Government to fix a definite date for the return of Kian Chau to China, according to cable advice received today by the Nippo Jiji, a Japanese daily newspaper.

UNABLE TO LOCATE GOODS BOUGHT FROM GOVERNMENT

Through the failure of the government authorities to advise city officials of the car number in which surplus stores to be sold by the city was shipped, the authorities have searched local railroads for a week in a fruitless effort to locate their car.

GREY GANDER CO. SELLS FOR ALMOST A HALF MILLION

For a little less than a half million dollars cash, the Grey Gander property, the first well on the five acres opening up production in block 88, in the Waggoner pool, was sold on Monday to H. R. Longley of Kansas City. The property has one producing well and two others which are ready for completion as soon as the oil can be cared for. It is owned by three men, F. L. McCoy of the American National Bank, through which institution the sale was transacted, R. T. Harris and J. H. Darby, the latter of Lancaster.

SMALL FLU FIRE CALLS OUT THE DEPARTMENT

A flu fire in the Seratoga cafe at 1 o'clock this morning caused a run of all fire-fighting apparatus from the central fire station. The fire was quickly extinguished, the damage being nominal, and covered by insurance.

Score One for Jess. OKLAHOMA CITY, OKLA., Sept. 16.—Score one for Jess Willard. He's a reincarnated Samson and a better man, according to the Rev. E. L. Thompson. His Delilah was a he-man.

DIAMOND D OIL CO. IS TO SET CASING TOMORROW

The Diamond D Oil Company's No. 1 Elsea will set casing tomorrow, according to announcement from the field. The officials of the company announce that a 50 horsepower boiler, two 1,500-barrel tanks, a pump and other material is being installed and connection with the pipe line is promised in a day or two.

The Diamond D lease offsets the Grey Gander lease to the northeast. The Diamond C Oil Co., which was organized by the promoters of the Diamond D, is drilling at 1480 feet on No. 1, and has already made storage arrangements.

LIGHT DOCKET IN THE POLICE COURT TODAY

Ten dollars was the amount of the fine imposed by Judge Ogle in police court Tuesday following the trial of a negro on a charge of assaulting another.

A butcher knife was the weapon used and the assaulted negro was not hurt, having been hit in the head. The docket this morning was the lightest in weeks. Two fighters, three or four auto law infringers and a vag constituted the total of wrongdoers the court had to deal with, and he must have taken the number into account and measured his punishments thereby, for he was lenient.

MUSCLE SHOALS HAS FIRE ESTIMATED AT \$2,000,000

SHEFFIELD, ALA., Sept. 16.—Fire last night entirely destroyed warehouse No. 4 of the J. G. White Engineering Corporation at Muscle Shoals. The loss was estimated at \$2,000,000. The major portion of the loss was on electrical equipment.

London.—The secret's out. Miss Maud Byrge, welfare worker, says the principal things girls talk about when men aren't near are: "Blouses, boys, and health."

1000 BODIES ARE STREWN ALONG CORPUS BAY

Continued from Page One.

serious today. Thousands of persons lost everything they possessed in the way of property and personal belongings and only escaped with the clothing on their backs. Many of these were clad only in bathing suits.

Several of the city bakeries have been able to resume operations and their entire output is being turned over to the Red Cross for distribution. Churches, public and private buildings that escaped damage from the storm have been picked at the discretion of the Red Cross and organized to care for the homeless and hungry.

Communication Paralyzed.

Communication of all kinds in and out of Corpus Christi is still practically paralyzed. Trains are being operated only over the Texas and Mexico. Hundreds of people are besieging the telegraph and telephone offices awaiting an opportunity to send word of their safety to outside relatives and friends.

Colonel Glover Johns, who recently returned from overseas, was appointed provost marshal this morning, relieving Lieutenant Johnson. He is in command of the Rest Camp personnel, following the listing of Captain B. M. Egeland, commander of the company. He is allowed to enter the wrecked area of the city without a military pass.

A careful survey of loss in Corpus Christi and vicinity resulting from the terrific hurricane which swept this city and section last Sunday, a general finance committee composed of representatives of the banks, leading business men and the city authorities, the total property loss has been placed at not less than ten million dollars.

Thousands Lose All.

While considering the intensity and extent of the storm, the general committee will doubtless be exceedingly small, probably not exceeding one hundred. Thousands of people have suffered the loss of all their worldly goods and are now homeless. The entire business section of the city is stricken. Business houses which were not destroyed are so badly wrecked that they are practically unusable. Homes by the hundreds with all their furniture and clothing of their occupants were swept away by the tidal wave which reached a height of ten and a half feet in view of these appalling circumstances, the general committee is sending an appeal to the public at large including citizens of other states as well as the people of Texas, for financial aid.

The state will be requested to issue a proclamation asking citizens of every city of Texas to take immediate steps to aid by the appointment of committees who will take charge of raising funds. The request is made that instant action be taken as great suffering is certain to result unless the aid is immediate.

Property Loss Heavy.

Property damage at Port Aransas is known to be the most extensive in the history of the town. The entire town has been destroyed or is in the process of being destroyed. The Magnolia Petroleum Company, Texas Company, Sunset Fuel Company, Aransas Harbor Terminal Railway from Aransas Pass to Port Aransas harbor, Aransas Pass Channel and Dock, Electric Light plant, Aransas Electric Light plant, Aransas Electric Company's warehouse and compress, government docks and piers, engineering and machine shops and headquarters, life saving station and private property in Port Aransas, which is situated on Harbor Island.

Boats in the harbor were loading cotton for Liverpool, government dredge Comstock, tug R. P. Clark of Galveston, oil barges Junita and Susquehanna.

Cotton numbering 8,500 bales which was in the warehouse to be loaded on the Median is known to have been washed away. It will be salvaged along the coast of Red Fish, Corpus and Aransas bays.

BELIEVE 500 PERSONS DROWN AT ROBSTOWN

SAN ANTONIO, TEX., Sept. 15.—Fifty bodies have been recovered and 500 persons are believed to have been drowned in the vicinity of Robstown, Texas, 15 miles from Corpus Christi, according to radio messages received from Brownsville at Port San Houston here today.

Brigadier General F. C. Marshall has left Brownsville to assume charge of the situation, the radio message said. Martial law has been declared throughout the storm area.

A military relief train carrying 60,000 pounds of flour, 30,000 pounds of sugar and general supplies in five cars left Brownsville today. More supplies are needed.

MORE THAN SEVENTY BODIES ARE FOUND

SINTON, TEX., Sept. 15.—Sinton is acting as the relief headquarters territory where already seventy bodies, mutilated beyond recognition, have been found. Count so far, but there were forty found at West Port, twenty-two at White Point, four or five below Odem and a few at Portland.

Among the known dead are: Mrs. Longwell, Corpus Christi; Miss Brock, 12 years old, Corpus Christi.

No one was killed at Sinton but property damage was high.

Undertakers from Houston arrived early today and have begun the work of embalming throughout this territory.

Bodies are being held at ranch houses and schools.

TROOPS PATROLLING THE MAIN STREETS

CORPUS CHRISTI, TEX., Sept. 15.—With troops patrolling the main streets and relief trains headed this way from many parts of the State, Corpus Christi today began slowly emerging from the wreckage caused by the full hurricane which struck the city early Sunday, bringing death to an unknown number of persons and doing property damage of millions.

It was impossible this morning to get anything like a correct estimate of the fatalities. In the city proper the death list was placed by some officials at between 15 and 25, but that was regarded by many as far too conservative.

One report in circulation today, but as yet unconfirmed, was that 125 bodies, most of them recognized as residents of Corpus Christi, had been taken from a reef near Portland on Nueces Bay, upon which Corpus Christi is situated.

More than 2,000 persons were made homeless by the storm and the problem of taking care of them was one officials faced with the coming of relief trains. It was expected that by night most of those made destitute by the storm could be taken care of.

Considerable anxiety was expressed regarding the fate of the launch "Wanda" with 15 persons on board.

ternoon on a fishing excursion. Since the storm no word has been received from the party, which included four women.

Fears also are entertained that a heavy casualty list will be reported from surrounding towns, several of which were directly in the path of the storm.

Dispatch Relief Trains.

The despatch of relief trains followed energetic action taken last night by Governor William P. Hobby and General Joseph T. Dickman, commander of the Southern Department of the U. S. Army. At the request of the governor, General Dickman immediately despatched a train with food, medical supplies and blankets. In the meantime the governor issued a proclamation calling upon all citizens of the State to lend assistance to the storm sufferers. Indications early today were that the governor's appeal was meeting with success.

That the death list in connection with the storm was not huge was due to the fact, officials believed, that most persons were given ample warning of its coming.

Struck Sunday Morning.

The storm struck early Sunday morning and was accompanied by a tidal wave that sent a wall of water 10 feet high sweeping over the business district of the city. When the tidal wave was at its height, virtually every second floor down town was under water.

By the time the worst of the wind had passed United States soldiers stationed here had taken charge of the situation and continued ceaselessly at work until the morning of the 15th.

All day Sunday soldiers wearing trench helmets could be seen braving the heavy gale while doing rescue work.

Military rule was invoked late yesterday and no one was allowed to enter the wrecked portions of the city. All foodstuffs that had escaped damage by the water were sold under direct supervision of city officials, one day's rations being allowed to the consumer.

The city was in darkness last night and a large portion was without water and sewage facilities.

Railroad lines are reported to have been badly damaged and only few lines will be usable for days to come.

Absence of authentic reports from Aransas Pass, Port Aransas and Rockport today caused some uneasiness. Boats will be run to Portland late today, it was announced, in an effort to determine the extent of the damage to the causeway, railroad line and telephone equipment which pass over the reef.

Many stories were being detailed today of the bravery of the soldiers who included members of Company I, 37th Infantry. Citizens by the score also were coming in for their medals of praise for daring acts performed in saving lives. Members of Company I took up the rescue work shortly after their camp was demolished and today were still lending valuable assistance in the rescue of marooned residents of North Beach.

Wade Water to Aid.

Hundreds of civilians were to be seen yesterday wading in water along Chapparral and Mosquito streets, assisting refugees to leave houses and hotels in those localities.

One of the most disagreeable features in connection with the storm was that the water which poured upon the city became coated with crude oil from wrecked oil barrels, tanks and storage basins along the bay front. Women and children and babies especially when the oil filled their eyes and noses. Many persons taken from the water were black from the greasy fluid.

A feature that appealed to many who visited the storm area today was that although thousands of dollars worth of merchandise were strewn about the business district, few or no attempts at looting were to be seen. Only two or three arrests on looting charges have been made, according to officials.

Clear the Wreckage.

As soon as the waters began receding, street sweepers appeared and started clearing away wreckage from their places. Most of them reported, however, that little of their merchandise could be salvaged.

Volunteers this morning began the work of clearing the streets of wreckage. The removal of debris will take some time, as houseboats, fishing craft, and floatam of every description is piled high in all of the main thoroughfares. Especially is this true in the North Beach district, the city's bathing and pleasure district. There only the United States marine

hospital and one large residence are standing.

Wreckage is piled high around the Spohn Sanitarium, near the North Beach district, where more than 250 refugees were rescued yesterday by the Red Cross. Many residents of the North Beach were included in the number, having fled there from their homes to escape the rising water. Several were severely injured. Hundreds of persons were compelled to spend Sunday in the court house, federal building and other large structures. Many of them were still there early today, food and water being provided them by hastily organized Red Cross committees.

STORM STRIKES THE WEST COAST SUNDAY

HOUSTON, TEX., Sept. 15.—The storm struck the west coast near Corpus Christi Sunday noon, carried buildings and wreckage 20 miles inland. At Odem and Sinton and intermediate farm or ranch houses near the Nueces River 70 are known to be dead, that many bodies had been rescued by searching parties up to last night.

After torrents of rain all morning and a heavy wind, the big wave struck the town about 2:00 o'clock Sunday afternoon, the water rising four feet in less than ten minutes. This was followed in a few minutes by large waves which washed houses from their foundations and tossed them about as though they were made of paper. A house washed from its foundations would be carried like a battering ram against a nearby structure and both would crumble instantly. Many people caught in the wreckage were killed almost instantly.

Where the railroad tracks were washed away they were twisted into the shape of a corkscrew one half to two miles in length. Huge bridges, timbers weighing thousands of pounds, bales of cotton, parts of houses and their furnishings, cattle, rabbits etc., were thrown into the tops of trees by the waves at this point and left there as the waters went down.

The S. A. U. G. railroad west from Odem has been washed out and bridges on the Gulf Coast Line south from there have tied all traffic except the gulf coast north to Houston.

The first relief work was organized by Charles Ladd of Kansas City whose train was tied up at Odem early yesterday and who organized searching parties to bring in the flood sufferers. The first relief work was organized by Charles Ladd of Kansas City whose train was tied up at Odem early yesterday and who organized searching parties to bring in the flood sufferers.

ANNOUNCE SCHOOLS POSITIVELY TO OPEN ON SEPTEMBER 29

Wichita Falls schools will positively open on September 29, it was announced Tuesday by Lee Clark, superintendent of the city schools. "While the repairs on some of our buildings may not be quite completed by that date, I want to say that we will open at that time, making other arrangements for carrying on the work where the repairs are still under way," said Mr. Clark. "In addition to the fact that repairs on some of the buildings may not be completed, we may be additionally handicapped through the failure to receive our full allotment of text books, but we have made arrangements for overcoming this difficulty as well.

"Practically a full force of teachers has been secured, and board and room has been secured for them in practically every case.

"In the case of the high school, the opening should go throughout without a hitch, as there are no repairs in progress, the books have been secured."

CALIFORNIA NEXT TO HEAR APPEAL IN BEHALF OF LEAGUE

HUGH BAILLIE (United Press Staff Correspondent)

ABOARD PRESIDENT'S TRAIN.

Sept. 15.—California, home state of Senator Johnson, who is on tour in opposition to the peace treaty, will be entered today by President Wilson in his campaign for ratification.

The President will meet his first California crowd this afternoon, his slight strain at the beginning of his line into that state about 12:30 p. m. (Pacific time).

It was considered unlikely that there would be rear platform speeches, as Wilson is saving his voice for his efforts in the big California cities. His voice seemed to show evidence of a slight strain at the beginning of his Portland speech last night but as he talked it improved and grew stronger.

"Shantung Not Mentioned."

Shantung has not been touched upon by the President since he reached the Pacific coast. It is one of the principal points of opposition attack, and the President will fully explain his viewpoint of it in California, when the Japanese question is alive. He mentioned it in several middle western speeches.

The Presidential train had no stop scheduled for today. It will reach San Francisco tomorrow, the President remaining two days in San Francisco and Oakland, speaking in both cities.

Takes a Stroll.

Wilson took a stroll on the way around his train shortly before it left Portland last night. He stood slowly down the platform in view of several hundred who had congregated to see him off, then crossed the tracks to the dark side of the train away from the station lights and rambled back to his private car. This was only the second walk of more than 100 yards that he had taken since he left Washington.

Wilson in his recent speeches has seemed to be addressing his remarks to those senators who oppose the treaty, as well as to the constituents. At Portland last night he said flatly he had no respect for some of his opponents, but with regard to others he said: "I pray God that the gentlemen who are delaying this thing may presently see it in a different light."

Body Sent Home.

The body of Ben F. Allen, of Cleveland, one of the newspaper correspondents, who was killed in an automobile accident at Portland yesterday, is being sent home in charge of a secret service man.

Robert T. Small, one of the injured newspaper men was able to continue the trip. Hospital Reynolds of Baltimore was left behind in the Good Samaritan hospital with a fractured arm and shoulder.

MEXICO CLAIMS A LEGAL PRECEDENT IN HANDLING OIL LAND

MEXICO CITY, Aug. 27.—(By Mail)

—Legal precedent for the republic of Mexico to nationalize its lands which are now devoted to the production of petroleum, is claimed in a statement recently furnished to the Associated Press by Leon Salinas, sub-secretary of the department of commerce and industry which has this question in charge.

Laws and statutes governing the development of coal and oil deposits date back to the days of the viceroys in Mexico, the statement says, and since that time there has been a series of decrees and laws that firmly establish the rights of the republic in this regard.

The question is now in the hands of the Mexican congress for revision with a view to adjudicating claims made by foreign companies with vast interests in Mexico.

As early as 1793 the Spanish government by laws known as "Mining Statutes of New Spain" established the absolute dominion of the crown over mines and their products in Mexico, says the statement.

Bento Juarez, president of Mexico, decreed in 1863 that the nation has direct dominion over coal beds.

In 1881 the supreme court of justice decided that the coal laws were subject to be denounced and that the "Mining Statutes of New Spain" were still in force. Two years later the congress of the union amended the federal constitution, establishing the right of that congress to issue mining and commercial codes which should be binding throughout the republic.

Based upon such authorization and exercising the authority granted by the legislative power, the president in 1884 issued the first mining code of the Mexican republic which declared, in substance, that the coal and oil of the subsoil belonged to the owner of the surface. This principle was followed in the mining laws issued by congress in 1892 and in 1910.

The statement declares that later, in 1917, article 27 of the constitution proposed amendment to which has been submitted to congress by President Carranza, recognized the dominion of the nation over the hydrocarbons and the system of concessions for the exploration and development of petroleum. It is claimed that in a measure which is now proposed is founded upon the principles of the constitution.

STEAMER BAYRANTO LOADED WITH WHEAT FOUNDERED IN GULF

HAVANA, Sept. 15.—Eighteen men of the crew of the British steamer Bayranto, from Galveston for Marseilles, who had been picked up at sea from a life boat, were landed here today by a British ship.

Galveston, Tex., Sept. 15.—The British steamer Bayranto, Galveston to Marseilles with a full cargo of wheat for the French government, has foundered in the eastern gulf, according to wireless reports received by Fowler and McVitie, the local agents for the vessel, today. The message was signed by the captain of the ship and it is hoped that all hands were saved. The members of the crew together with the officers are reported aboard the schooner Fayan, enroute to Havana and they are expected to arrive there today or early tomorrow. The steamer left Galveston September 7.

The Bayranto is a steamer of 2,976 tons net register. She was built in 1905 and is owned by the Bay Steamship Co., Ltd., London, the cargo out-catch and thousands of birds and other game were drowned or killed by the storm.

The first man rescued here following the storm was J. G. Griffith, 66, a fisherman of the Reef, Corpus Christi, and who fought for his life for nearly 24 hours before being rescued. During the heavy rain and the waters were rising he had gone into a home on North Beach to assist in moving an invalid lady to the second floor. While occupied at that task the waters rose four feet in ten minutes and the lady took refuge on the roof. The house soon broke to pieces and he saw the others drown while he was unable to help them.

ONE-ARMED WOMAN AGED SEVENTY-ONE ROBBED AND BEATEN

SAPULPA, OKLA., Sept. 15.—Grand jury here today indicted a woman it is feared may die from injuries received on Sunday when she was attacked at her home near here by robbers. She had sold a cow on Saturday, and the men entered her home and beat and dragged her about the house in an effort to locate the money. It was hidden in clothing torn from her body.

The aged woman lost an arm several years ago in a railroad accident and has been washing for railroad employees to make a living. They were indignant over the attack and threatened to help teach the perpetrators, if caught.

LAUNCH TO ROCKPORT TO INVESTIGATE DAMAGE TO CORPUS BAY

A launch in charge of Charles McManus, of the local United States employment service, left here shortly before noon for Rockport in an effort to learn the extent of the damage. The launch will also stop at Port Aransas.

BRITISH STEAMER STRIKES A MINE

LONDON, Sept. 15.—The steamer Westovada struck a mine off Ter-schelling light-house on the Dutch coast today, according to telegram received by Lloyd's. The crew has abandoned the vessel, which is slowly sinking.

SIEMER HAS ARRIVED WITH 19 SURVIVORS

CHARLESTON, S. C., Sept. 15.—The federal shipping board steamer Calno has arrived here with 19 survivors of the crew of the British steamship Bayranto, 2,900 tons, which was sunk September 14 off Key West and which is believed to have foundered.

The New Suits for Women that will Form the Fall Fashion Picture....

The charming apparel that will soon be seen on well-dressed women who promenade our avenues, is still A SECRET to most eyes. But well-informed women cannot be denied. They are coming each day to our Suit Section and they know the new fashions—many already possess them, and will have first and fullest enjoyment of them.

These are the days when the Tailored Suit gives fullest distinction and comfort.

The smartest and most becoming varieties are here.

MASS MEETING TO DISCUSS QUESTION OF WATER SUPPLY

DECISION IS REACHED BY DIRECTORS OF THE CHAMBER OF COMMERCE.

ITS IMPORTANCE IS URGED

Details of Meeting Will Be Arranged by Committee Appointed This Morning.

Decision for the calling of a general mass meeting for Monday night for the discussion of plans for assuring a water supply adequate at all times for the present and future needs of Wichita Falls was taken at the Tuesday morning session of the directors of the chamber of commerce.

This action was taken as the result of a discussion as to ways and means for meeting the future needs of the city, as well as assuring a plentiful supply of water in the event of a recurrence of two years of drought which was the case in 1917 and 1918, which was taken at the Tuesday morning session of the directors of the chamber of commerce.

Went City to Control. Sentiment on the part of several of the directors was however to the effect that the people of Wichita Falls should themselves construct and own the entire project, giving them control and the first call in all events on all the water, and disposing of any surplus which might be on hand to the owners of land along the water line for irrigation purposes.

Advantages Suggested. That this would be an ideal solution was agreed by Mr. Kemp, who gave as his opinion that the need of city for water was a matter of such importance as to overshadow everything else.

The water supply is our most pressing problem," said G. Clint Wood.

First Attention to All Orders For the Sick

In this discussion, "Another year of drought such as has only recently been brooded would cost Wichita Falls \$10,000,000, and would take us 20 years to get over it. I was living in Beaumont at a time when Beaumont could have averted a situation like this for an expenditure of \$1,000,000, which they declined to do, and it took them 15 years to get over it. At any rate, another drought would cost us at least three times what the water supply would cost. Of course for the present we are in very fair shape for water on account of plentiful rains. But it is an elementary fact that we can not build a city and depend on Providence for our water. And it is further a fact that the citizens of Wichita Falls, was supplemented by T. B. Noble. "We would never get over the effects of it," he said.

Would Create District.
The plan for the financing of the project which seemed to meet with most favor on the part of those taking part in the discussion was for the creation of a drainage district embracing Wichita Falls and a few hundred acres of the surrounding country available for future industrial sites, and have this district vote and own the water project, selling such amount of water as should seem desirable for irrigation purposes along the route of the canal from the principal reservoir to the city. By the creation of this district, which while it would not represent the city government itself would in effect be the same, as the people of the city and of the district would be identical, the bonds for the project could be voted without affecting the amount of bonds which could be voted for by the city sewer extensions and other civic improvements.

Further details of the matter will be discussed on Monday night's meeting, which will be held at a place designated later, and which is expected that the views of the general public on the matter will be expressed.

Committee is Named.
An arrangements committee for the mass meeting was appointed with the following members: B. F. Johnson, T. B. Noble, G. Clint Wood, W. S. Curlee and J. S. Bridwell.

Endorsement of the Home Service Fund drive by the Salvation Army, unanimously adopted, a decision to try out for a few days the working of the advisory committee with railroad officials in the effort to clear up the local freight situation before proceeding further with the effort to secure a terminal manager here, the appropriation of funds to defray ex-

ponses of prominent educators who will be brought here as speakers at the Teachers Institute held by the city schools, and approval of the contract made by the housing committee for permanent quarters in the Kemp & Kell building, were other matters which were disposed of at the meeting. J. A. Kemp, first vice president, was in the chair at the meeting, which was attended by Hubert Harrison, secretary, and the following directors: Myles O'Reilly, B. F. Johnson, G. Clint Wood, J. M. Bland, W. W. Silk, H. B. Hines, C. E. McCutcheon, W. S. Curlee, J. C. Ward, J. S. Bridwell, T. B. Noble, C. E. Rodgers and C. W. Read.

SPANIARD IS CONVICTED OF ADULTERY AND FINED \$500 IN COUNTY COURT

A jury in county court found Della Aprea, who claimed to be a Spaniard and who vehemently denied that she was a Mexican, guilty of adultery and assessed her punishment at a fine of \$500 in county court Monday afternoon.

The woman in the case, who acknowledged visiting the man's room five nights, bowed her head in shame as she told her story and as Assistant County Attorney Martin scathingly ridiculed her and the man.

JUBILEE SINGERS IN CONCERT THIS WEEK

CHARGE THEFT OF DRILLING TOOLS IN BURKBURNETT FIELD

Not being able to get an oil well, M. E. Clifford did the next best thing and stole an oil rig, so the state charges in formal complaint. At an examining trial before Justice of the Peace Gwinn he was held to answer to the grand jury on two charges of theft, bond being fixed at \$2,000 in each case.

In a statement to Assistant County Attorney John Martin, Clifford is alleged to have acknowledged stealing the rig, a number of tools, a quantity of casing and pipe and other articles necessary to drilling an oil well. He was arrested late Monday by the sheriff's office.

The value of the tools and equipment alleged to have been stolen by him was given by Mr. Martin at \$15,000. All of it belonged to J. L. Sciona, who furnished the information upon which the complaint was filed. The well from which the tools and machinery were alleged to have been stolen is located near Burk Burnett.
