Maynard Is First to Complete Trip

ALL HOPE FOR AN AGREEMENT IS ABANDONED BY THE LEADERS AND CONFERENCE IS ADJOURNED

BALTIC PROBLEM IS MOST SERIOUS SINCE ARMISTICE

Believe Lettish Government Will Expect Conference To Furnish Troops.

WHO WILL SUPPLY ARMY IS THE SERIOUS QUESTION

No Enthusiasm In Great Britain For Embarking On Military Expedition.

LONDON, Oct. 11.—The Allied powers have the hardest problem before them since the armistice because of the German-Russian attack on Riga. It is believed the Lettish Government will expect the Peace Conference to furnish troops to resist General Youder Goltz and his Russian supporters. Who will furnish the new armies is a serious question. There is certainly no enthusiasm in Great Britain for embarking on more military expeditions.

All of Great Britain's new volunteer army has been absorbed in the making up of forces of occupation in the Near East. Drafted soldiers are still in the service, and their relatives are awaiting their return from India, Egypt and Mesopotamia. At the same time more than 60,000 troops are engaged as an army of occupation in Ireland. The withdrawal of the British expedition from Archangel has just been finished under pressure of public feeling. Latest news received by the government is described as confirming the view that Germany is deliberately scheming to secure a controlling position in Russia, and that she probably contemplates the occupation of Petrograd.

ATTACK UNDER COVER OF HEAVY BOMBARDMENT

LONDON, Oct. 11.—It was stated in authoritative quarters here this afternoon that a German-Russian attack on Riga was carried out under cover of a heavy bombardment by German guns, forcing the Lettish troops to evacuate the city. The reported capture of Riga is regarded most seriously by military experts here. They say that between these German-Russian troops and the city of Petrograd there is no force that would prove effective in stopping an advance upon that city, from which, once it is reached, it would be difficult to dislodge them.

It was learned during the afternoon that well informed circles in London accepted the capture of Riga as a fact. Their belief is developed as based upon a private dispatch. The Lettish legation here was without news of the latest developments in Riga. It expressed fear that communications had been interrupted.

PIONEER CITIZEN OF HASKELL COUNTY DIES

HASKELL, TEX., Oct. 11.—Spence Peavers, a Haskell county pioneer died Friday at 3 p. m. at his residence in this city after a lingering illness of several months with cancer on the face. He was 89 years of age. He is one of Haskell county's first settlers and was in the organization of the county in 1857. Funeral services will be held at his residence today after which his remains will be laid to rest in the Haskell cemetery.

Report King Emmanuel Threatens to Abdicate

LONDON, Oct. 11.—The Rome correspondent of the Morning Post reports he has learned from a reliable source that King Emmanuel has threatened to abdicate if the army and navy persist in supporting D'Annunzio at Fiume.

The correspondent denies the report that D'Annunzio has been assassinated. An Italian dispatch to the Daily Mail declares that General Cecherini has resigned command of the Florence army corps and after assuming a marching order, directing himself of his own loyalty to King has joined D'Annunzio's forces at Fiume. He was appointed to command of the army corps there, according to the dispatch.

OPEN RUPTURE BETWEEN D'ANNUNZIO AND ZANELLA

FIUME, Oct. 11.—An open rupture occurred Thursday between Gabriele D'Annunzio leader of the Italian insurgents in possession of Fiume, and Prof. Zanella, leader of the Italian population of Fiume opposed to the

NEW YORK, Oct. 11.—Lieutenant Belvin W. Maynard, the "flying parson," won the first coast to coast leg of the army air race, it was announced tonight by officials of the American Flying Club, which assisted the army in the conduct of the race.

His actual flying time for the 2,701 miles from Roosevelt Field, Mineola, N. Y., to San Francisco, had not been officially checked late tonight, reports of the time he spent at the New York control station having failed to reach headquarters here, but it was stated by flying club officials that they felt safe in announcing Lieutenant Maynard first in the flight across the continent.

While Lieutenant Epill Kiel touched the ground at Roosevelt Field 20 seconds before Major Carl Spatz, in the dash from West to East, Major Spatz was credited with second honors, having left San Francisco three minutes behind Lieutenant Kiel.

Lieutenant Maynard's total elapsed time was given unofficially tonight as 47 minutes; Major Spatz's as 53 hours and 41 minutes, and Lieutenant Kiel's was 53 hours and 44 minutes.

WILL START RETURN TRIPS ON OCTOBER 20

WASHINGTON, Oct. 11.—The return trips of the airplanes that participated in the coast-to-coast race will be started October 20, the army air service here announced today. The competing planes will be held at the coast stations until that date for overhauling and repairs.

MAYOR SPATZ FLIES A DEHAVILLAND BLUEBIRD

BUFFALO, N. Y., Oct. 11.—Major Spatz flies a DeHavilland Bluebird, 400 horsepower, Liberty motor, five seats, in command of the American Expeditionary Force in France. He later joined the 90th pursuit squadron and is officially credited with two victories. He was cited for the D. S. C. by General Pershing.

"FLYING PARSON" HOLDS THE "LOOPING" RECORD; 360 WITHIN AN HOUR

MINEOLA, N. Y., Oct. 11.—Lieutenant B. W. Maynard, the "flying parson," withstood the test of the trans-continental air race, will return to the ministry as soon as he is mustered out of the army, his wife said today. She and her two little girls, five and four years old, have been living here since Lieutenant Maynard was assigned to Mitchell Field.

The daring flier is only 27 years old, having been born in Morgan, N. C., in 1892. He has been flying only a year and a half, mostly in France, where he was a test pilot, trying out DeHavilland Liberty-motored planes after they had been assembled. He was noted for the untiring energy he put into his duties and one occasion tested 22 planes in a single morning, having complete 360 consecutive loops in 60 minutes without losing altitude.

SPECIAL COMMISSION TO MAKE ARRANGEMENTS FOR ROUND-THE-WORLD DERBY

NEW YORK, Oct. 11.—The special commission of eleven members appointed to arrange for the first aerial round-the-world derby to be held in 1920 under the auspices of the Aero Club of America, and the Aerial League of America, left here last night for their tour of the globe to select landing places and other details. Eight members will proceed only as far as San Francisco, where they will be stationed, after having stopped off at 15 cities en route. The other three members, Lewis D. Beaumont, Charles J. Glidden and Benjamin Hillman, will sail from San Francisco, November 3, for Yokohama.

As a result of a campaign started by Prof. Zanella against D'Annunzio, the latter summoned the professor to the palace. A long discussion ensued, in which Prof. Zanella, according to the press accounts, exclaimed: "Your presence is perilous to the interests of Fiume."

D'Annunzio, enraged by Zanella's attitude, ordered him to leave the palace. The incident has been widely discussed and has given a further impetus to the movement of the Zanella party which favors a Fiume republic under an Italian protectorate.

According to information reaching the Associated Press correspondent, the plan of General Graziosi representing the Italian Government for the settlement of the Fiume question includes the withdrawal of D'Annunzio's forces and their replacement by Italian regular troops.

INTEREST IN STEEL STRIKE HAS SHIFTED

Now Centers In New York Where Committees Are Urging Concessions.

ACTION WILL BE USELESS UNLESS COMPANY YIELDS

Proposals Are Now Being Submitted by Agencies on The Outside.

WASHINGTON, Oct. 11.—Interest in organized labor efforts to obtain intervention by the industrial conference in the steel strike shifted today to New York and steel centers, where members of the steering committee are endeavoring to secure sufficient concessions from the steel corporations to enable the committee to agree upon a report to lay before the conference Tuesday.

Committees pointed out that conference action would be useless unless the United States Steel Corporation was willing to accept mediation by the conference and agree to reinstate the strikers, pending the report of the adjustment committee, proposed by Mr. Gomper.

E. H. Gary returned to New York yesterday and is expected to confer with the board of directors of the steel corporation, of which he is chairman.

Senator Calder, Republican of New York, in the Senate today demanded that the industrial conference make the interests of the public its paramount consideration, and denounced the "prostitution" by organized labor of the nation's resources for the purpose of ultimate domination of wages, of profits, of political action and of social conventions. He said that "the inevitable logic of nation-unionism is an inner government more powerful than the outer or constitutional government."

Lawrence F. Sherman, executive secretary of the League for Industrial Rights, today made public proposals to submit. The conference has decided that proposals of this nature, from outside agencies, will be furnished to the industrial conference at liberty to bring them up for discussion in the regular way.

One of the bills proposed by the League for Industrial Rights, which associations, whether of employers or workmen, sueable. Another would make it unlawful for any person or corporation to support, or to be a lockout or other kind of industrial warfare, before the parties involved have had time to act upon the terms demanded. The third would make it a misdemeanor for policemen or firemen to affiliate with any labor union not composed exclusively of fellow employees.

COLONEL HOUSE IS SICK ON VESSEL ENROUTE HOME

WASHINGTON, Oct. 11.—Col. E. M. House, one of the American delegates to the peace conference, is ill aboard the steamer Northrop, which is en route to his return home at this time because of a recurrence of the attack. He is due to arrive in New York Monday.

SUBSERVIENT TROOPS ARE NOT INVOLVED

COPENHAGEN, Friday, Oct. 10.—A German telegram from Mittau, received today, says: "Fighting by Lettish and Russian troops between Mittau and Riga, is continuing. None of the troops subservient to the German government is taking part."

A telegram from Koenigsberg, East Prussia reads: "A Russian Colonel Wirkoltsch, commander of the second west Russian Volunteer Corps, has in Schauler (Shavil) proclaimed the part of Lithuania occupied by his troops as Russian territory. The Lithuanian troops in Schauler have been disarmed by the Russians and the Germans co-operating with them."

SENATE VOTES AN INCREASE IN PAY OF POSTAL EMPLOYEES

WASHINGTON, Oct. 11.—The increase of \$39,000,000 in the pay of postal employees was voted by the Senate today. The bill goes to conference with an amendment providing expenses for fourth class postmasters. The total increase the employees' pay recommended by Postmaster General Burleson was \$12,000,000.

DECORATED BY KING OF BELGIUM

Officers and crew of the big navy airplane, the F-3, which took King Albert for a spin over New York city, were decorated with the Order of Leopold II. Ensign Paul W. Carter, who commanded the flight, and Ensign Frank Lamb, the first pilot, received the medals of Chevalier of the Order of Leopold II. Mr. Carter's home is in Greenwich, N. Y., and Mr. Lamb comes from Sacramento, Cal. W. L. Carleton, of Corning, N. Y., chief mechanic, and W. E. Smith, of Rome, N. Y., assistant mechanic, who made the flight, received medals of Leopold II. Both Mr. Carter and Mr. Lamb had active service during the war.

Another Destructive Fire In the Northwest Field; Nine Derricks Destroyed

Damage variously estimated at from \$150,000 to \$375,000 was done when fire swept part of block 58 to the Northwest Burkburnett field last evening. The fire started shortly before 6:00 o'clock and was not reported under control until 10:00 o'clock last night. Block 58 is more densely derricked than any part of the field. There are dozens of derricks and reports circulated among oil men and spectators at the exchanges that possibly 35 derricks had been destroyed, together with the dense clouds of smoke visible from the parts of the city caused consternation. Wild rumors that the field's most disastrous conflagration was raging were heard on all sides and the fire was reported in numerous locations, block 74 and block 52 being the most popular among the rumors as the scene of the fire. It was said at the Southern Oil Corporation offices that the burned area would cover not more than 500 feet, and that not more than nine derricks with machinery and pumps had been destroyed. It was there that the loss was estimated at \$150,000. A spark falling in a tank was said to have started the fire. The A. S. Ayres Drilling Co. was reported to have suffered a comparatively small loss.

PASS LEGISLATION DIRECTED AT THE HIGH LIVING COST

WASHINGTON, Oct. 11.—Legislation aimed at the high cost of living was passed by the Senate today. It adopted the conference report in the bill which provides the food control act, imposing a penalty for profiteering, and extending the law provisions to cover clothing. The bill now goes to the House for final action.

DECLARE SUPPLY OF SUGAR IS BEING SHIPPED ABROAD

WASHINGTON, Oct. 11.—The sugar shortage was discussed again today in the Senate. Senator Smoot, Utah, republican, said he had been informed that the entire Hawaiian sugar crop of about 600,000 tons, has been purchased by Japanese interests and thus taken away from American markets.

WOMAN WHO POISONED HER CHILDREN ADJUDGED INSANE BY COMMISSION

PONTIAC, MICH., Oct. 11.—Mrs. Hazel Luikart, who gave her little girls poison, today was found insane by an Oakland county commission here.

REPORT BOLSHIEVIKI ADMINISTER DEFEAT TO GENERAL DENEKINE

STOCKHOLM, Oct. 10.—The Folkets Dagblad, it has received reliable advices, reporting that Bolsheviki forces in Ukraine have administered a huge defeat to General Denikine, anti-Bolshevik leader, in the south. The Bolsheviki have recaptured Kieff in their advance, the report states.

PETROGRAD SCENE OF REVOLUTION TO DEFEAT BOLSHIEVIK

COPENHAGEN, Oct. 11.—According to a dispatch from Helsinki, Russian newspapers report the serious fighting has broken out in Petrograd between adherents and opponents of the Soviet regime. The "counter-revolutionaries" have taken possession of several important buildings and government institutions. It is said.

CHARGE FRAUDULENT ADVERTISING AGAINST PARTIES IN TEXAS

WASHINGTON, Oct. 11.—The Federal Trade Commission today entered formal complaint charging fraudulent advertising and other unfair practices against S. E. J. Cox, his wife, Mrs. N. E. Cox, both of Houston, Texas; Napoleon Cox, an advertising agent; and the Prudential Trust and Securities Company, the Prudential Oil and Refining Company, and the General Oil Company, all of Houston. They were ordered to file answers with the commission November 25.

NO MAN CAN SERVE TWO MASTERS SAYS UNCLE JOE CANNON

WASHINGTON, Oct. 11.—Having taken 21 separate oaths to defend the constitution, Representative Cannon, republican, Illinois, form of speaker of the House, finds now that he cannot contribute to a fund to be used in creating sentiment that would force senators to ignore their oaths in voting unreservedly for ratification of the peace treaty.

SAYS SITUATION AT STEEL CENTER DUE TO GROUP OF I. W. W.

CHICAGO, Oct. 11.—A statement by Major General Leonard Wood, commander of the central department of the army and of the troops at Gary, Ind., that the situation at the steel center was due to presence of a dangerous and extremely active group of I. W. W. and anarchists, plans for their suppression and a continuation of the strike against the radicals overshadowed interest today in the gradual improvement reported in the industrial district.

Report 2,000 Lives Lost In Wreck of British Ship

ARCHANGEL, Oct. 10.—(Friday)—Two thousand lives have been lost in the wreck of an unnamed British ship on the Norwegian coast, according to a wireless dispatch received here from Helsinki.

NOTICE TO OIL PRODUCERS

At a meeting of oil producers, refiners and marketers in Wichita Falls, a committee was appointed to suggest some plan whereby the general demoralization now prevailing in the Burkburnett oil field could be brought back to normal, and this committee has mapped out a definite plan to be considered, and, as directed a mass meeting is hereby called of all persons directly or indirectly connected with the production or marketing of oil in this section to meet at the Elks Club Rooms on Monday night, October 13th, at eight o'clock.

# SHANTUNG IS SUBJECT FOR MORE DEBATE

Award of Province to Japan Is Denounced in Senate By Senator Norris.

PREDICT MATTER WILL BE DISPOSED OF NEXT WEEK

Treaty Came In For Sharp Attack by Senator Brandegee Of Connecticut.

WASHINGTON, Oct. 11.—Award of Shantung province to Japan came in for further denunciation in the Senate today, Senator Norris, republican, Nebraska, declaring that in "the full knowledge of all the disgraced facts, believers in the religion of Jesus Christ would suffer death before giving approval to a treaty that countenanced it."

Senator Norris was continuing a speech, begun Friday and frequently on the floor, with hardly more than half a dozen members of the Republican side, Senator Lodge, who as chairman of the Foreign Relations Committee, reported out amendments designed to restore Shantung to China, had expected to add his voice in protest, but his speech went over until Monday.

Predictions Made. There were predictions tonight from Republican sources that the Shantung question would be disposed of finally next week, clearing the way for a vote on the Johnson amendments, designed to equalize the voting power of the United States and the British Empire in the League of Nations, considering that similar precautions were made a week ago, many Senators said that while they were anxious to expedite consideration of the treaty, they had little hope of early action.

The Senate met earlier than usual today, and in the first hour the treaty came in for a sharp attack by Senator Brandegee, republican, Connecticut, who particularly denounced the State Department for withholding certain information from the Senate ratification system of Japan, which the Department of Commerce had obtained through one of its agents, and which it was desirable, he contended, that the country should have.

Put Under Seal. A new set of reservations, offered today by Senator Thomas, Democrat of Colorado, deal with American representation in the general labor conference, created by the League, and would provide for American control of its delegates and the right to withdraw from the conference in event this country should withdraw from the League. The other would give the United States exclusive jurisdiction over its domestic affairs.

Those who invest their surplus funds by depositing them in the National Bank of Commerce are certain of absolute safety, 4 per cent interest and the prompt return of their money when they need it.

# ANOTHER MOVE MADE TO END WAR "DROUTH"

Introduce Resolution to Give President Power to Annul Present Law.

EXPECT ATTORNEY GENERAL TO RENDER AN OPINION

Unless President Interferes New Enforcement Bill Is Effective In Ten Days.

WASHINGTON, Oct. 11.—Another move to end war-time prohibition was made today in the House of Representatives. At the same time word went out from the White House that Attorney General Palmer would render an opinion on the constitutionality of recently enacted prohibition enforcement legislation before it was placed before President Wilson for action.

The move in the House was made by Representative Rainey, Democrat, Illinois, and took the form of a resolution which would declare it the sense of Congress that the conditions necessary to the termination of the war-time prohibition act now exist. Passage of this resolution, it was said, would give the President authority to annul the law by declaring demobilization of the army completed.

Decision of White House officials to have the attorney general pass on the bill covering both war-time and constitutional enforcement, enactment of which was completed yesterday by Congress, was in anticipation of attacks on its constitutionality, based principally upon the right of Congress to define intoxicating beverages.

Since the war-time prohibition act went into effect, brewers have been manufacturing 2.75 per cent beer and actions begun by the government to have the sale of such beer declared illegal have resulted in appeals which are now pending in the supreme court.

If the war-time enforcement legislation goes into effect—and it will automatically become law within 10 days after it is sent to the White House unless vetoed by the President—the sale of 2.75 per cent beer would be illegal. As a consequence government agencies which would be charged with the enforcement of the law are preparing to wage an active campaign against violators.

## URGE APPOINTMENT OF AN AMERICAN BISHOP FOR EUROPEAN FIELD

DETROIT, Oct. 11.—Appointment of an American bishop to the European field was urged before the house of deputies of the triennial general convention of the Protestant Episcopal Church today by Thomas Nelson Page, former United States ambassador to Italy. Mr. Page is a delegate.

Declaring there is great opportunity for extension of the work of the church in Italy and Sweden and even in Germany, in the interests of peace and civilization, Mr. Page insisted that "when the time comes for the appointment of a bishop to Europe, none but an American representative of the American church should be selected."

# PRESIDENT MAY BE CONFINED TO BED SOME TIME

Has Long Road to Travel Before Recovery Is Complete, Says Physician.

SPECULATE ON EFFECT OF ILLNESS ON OFFICE

Discuss Expedient Should Business Reach a Point Demanding Attention.

WASHINGTON, Oct. 11.—At 9:45 p. m. the following bulletin was issued at the White House: "The President has had a comfortable day. 'Grayson.'"

WASHINGTON, Oct. 11.—Hope that President Wilson soon might regain his normal health and resume fully the duties of his office was swept away today by the physicians, who announced it would be impossible for him to leave his bed "for an extended period."

The announcement, made after a consultation between Rear Admiral Grayson and three assisting physicians, said there had been no interruption of the President's slow improvement, but emphasized that he still had a long road to travel before complete recovery.

The physicians' announcement brought home to officials the possible effect of the President's illness on public affairs and renewed discussion as to what expedient might be adopted, should the press of executive business reach a point demanding more attention than he could give it.

No Precedent. The constitution provides that in case of the President's disability, the vice president shall act as chief executive, but there is no precedent for such a transfer of authority.

# DELEGATIONS FROM GERMANY AND AUSTRIA MAY NOT BE SEATED

WASHINGTON, Oct. 11.—Money appropriated for the expenses of the international labor conference here, beginning October 29, is expected to be repaid by the League of Nations, Assistant Secretary Ernest H. Greenwood, of the Labor Department, in charge of conference arrangements, today told the House Appropriations Committee.

He asked an appropriation of \$200,000. Committee members showed a disposition to cut this in half, but no action was taken. Mr. Greenwood said it was understood that Germany and Austria had asked permission of the Peace Conference to send delegates, but added that it was questionable whether delegates from those countries were entitled to admission. The United States will not take an official part in the conference unless the Senate ratifies the provision of the peace treaty relating to it.

**Why hens go on a strike!**

The feed elements that make white eggs are a necessary part of the diet. If both the white and yolk contain elements, they can't lay.

**PURINA SCRATCH FEED**     **PURINA CHICKEN CHOWDER**

Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, oats, barley and lucifer make (above bodily maintenance) an average of 224 yolks to 154 whites. Based on data from the same experiments, Purina formulas produce (above bodily maintenance), as follows:

Purina Scratch Feed	247.49 yolks	142.11 whites
Purina Chicken Chowder	102.05 "	203.68 "
Combined Ration	428.54 yolks	424.66 whites

These Purina feeds not only make a practically equal number of white and yolks but save of both than ordinary feeds. Note that Purina Chicken Chowder contains the necessary white-forming elements to balance on the yolk-forming grain ration. That's why it makes hens lay so heavily. Instead of the yolks being absorbed by the hen's system, Purina Chicken Chowder makes the whites to complete the egg and her satisfaction. Just we can absolutely guarantee.

### PANTAGES BILL FOR THE WEEK CONTAINS SIX SPLENDID ACTS

With six acts and a picture instead of five, the Wichita theatre will begin the second week of its vaudeville career for this year tomorrow afternoon at 2:30 o'clock. The first week of the vaudeville season was a success, Manager Kirkpatrick and his associates announced last night that even should business be at a good during the other weeks as it has been during the past week they would be satisfied.

Standing room only has been the rule at the theatre every night except two, while the two matinees given during the week were well attended.

The bill for the week is unusual. Advance notices pronounce it the best program of the Pantages circuit.

Alita Diaz, a beautiful soprano, aptly named in one act just what women have been doing since Mother Eve started on old man Adam long ago—training monkeys. "A Darwinian demonstration of Fun"—the program calls this act.

Two girls make a piano do things in the act of Harris and Nolan, both charming young women and vaudeville actresses.

Sam and Ada Beverly offer mirthful moments of musical malange, mostly comedy, in a good act which has been making a hit over the Pantages circuit. They'll have new jokes and new songs, the advance sheets promise.

The Four Renegades are no one who put knee in their names. If photographs of them are to be believed, they do character studies in song and dance, and wear some very fetching costumes. They do stunts with guns and the like and everywhere they have appeared they have been encored until they had to refuse to perform any more so the rest of the performance could proceed.

Ye olden black-face comedian, in stuff that is new all over the bill, too. Joe Darcy is to appear in black-face guise and he has a laugh in every word and a giggle in each foot, as the papers where he has played. If he is as good as reported, he's well worth an admission fee.

The Kelly Field players, four more stars, are to entertain in comedy, dancing, songs and cartoons. This is one of the big attractions of the Pantages circuit and should go well here.

With six acts and a picture, it is expected by Manager Kirkpatrick to exceed even that of last week. The 7-piece orchestra has played together long enough now to be well into the swing of its music and this goes far toward helping an act to success.

**C. A. WALLING HERE ON A BUSINESS TRIP**

C. A. Walling was here yesterday on his return to his home at Gainesville after a business trip to Burkburnett. Mr. Walling has purchased two ranches in Cooke county and one in Love county, Oklahoma, and is building a fine residence in Gainesville.

The well known integrity and ability of the National Bank of Commerce, and the genuine interest which these men have in Wichita Falls' prosperity is assurance of good banking service to Wichita Falls' business. 135-11c

### NOT SATISFIED UNTIL WIFE TAKES ORGATONE, TOO

Among a dozen or so who last Saturday endorsed Orgatone, the great treatment that has accomplished such remarkable results in and around Wichita Falls, none are more interesting than the one given by Joe Patrone, night manager of the Saratoga Cafe.

"Orgatone has helped me so much," said Mr. Patrone, "and I'll not be satisfied until I get my wife to take it, for I've never seen anything in my life that builds you up and puts you on your feet like this treatment does."

"I've been suffering with bad stomach and intestinal trouble for about six months," continued Mr. Patrone, "and my whole system was out of order. I had gotten so I could hardly get around on account of the pains and severe cramping spells which I would have in my stomach."

"My appetite seemed to leave me entirely for I had dragged around and didn't feel like eating anything and what I did eat didn't taste good or give me much strength. I didn't rest well at night and the hurting in my stomach and bowels kept right on pulling me down all the time and would make me unfit for work or anything else, for I didn't seem to have any ambition of any kind and was not equal to any kind of business."

"At last I made up my mind to try this Orgatone, for I kept reading about it in the papers and they kept putting in statements from people right around me that I knew would not be telling anything but the truth, and I took a notion into my head it was just about what I needed."

"I hadn't taken the second bottle before the medicine began to help me a lot, and by the time I had finished two it had put me to eating and made me gain several pounds in weight. I don't know exactly how much, but I know I have gained for I feel so much better and am filling out more."

"It's an actual fact that I can hardly get enough to eat now, and I sleep just fine and do not wake up with pains in my stomach like I did. The fact of the business is that I simply feel like a different man, and there is no doubt about it as being due to this Orgatone. I'm plenty stout now and feel like working all the time."

"It has done so much good in my case I'm sure my wife is going to take it, too, for it's the finest treatment we have ever heard of and is just what she needs to build her up. We're all tickled over Orgatone at our house and we tell everybody about it."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls exclusively by the T. F. Young Drug Co., under the personal direction of a special Orgatone representative. (adv.)

### COLUMBUS DAY BEING OBSERVED IN DALLAS BY SEVERAL LOCAL KNIGHTS

Owing to the absence of a large number of Knights of Columbus who are attending the Columbus Day initiation in Dallas today, no special observance of the day will be held in Wichita until Monday night, when members of the local lodge and the Daughters of Isabella will attend a dance in the Knights of Columbus hall.

Wichita knights planned some time ago to hold an initiation here today, but it was decided later to postpone it owing to the fact that the degree team from Dallas and Fort Worth, who are putting on the work in Dallas could not be here. Present arrangements are to hold the initiation in the Wichita lodge home two weeks from today. About 50 candidates will be given the work in the first, second and third degrees, according to J. D. Moulder, financial secretary.

About 75 are attending the exercises in Dallas today. A street parade will be the only departure from the customary program for the initiation. Many members of council from nearby cities are expected to be in attendance.

### REV. AND MRS. DRAPER TO LEAVE MONDAY FOR CHICAGO

Rev. and Mrs. Harry F. Draper will leave Monday for Chicago, where they will reside and where Mr. Draper will further pursue his studies. During the past week they have been tendered receptions of a farewell nature almost daily and in many ways have been given evidences of the high esteem in which they are held by members of the congregation and others, who regret exceedingly their conclusion to leave the work in this city.

On Monday evening they were tendered a reception by Mrs. E. L. Richardson at her home which was largely attended and a very enjoyable event. Friday evening the church of the Epworth League gave them a farewell reception at the church, in connection with which a short and appropriate program was rendered.

Mr. Draper preaches his farewell sermons at the church today and their departure from the city is scheduled for Monday evening at 7 o'clock. From this city they will go to Oklahoma City, to attend conference, going from there to Chicago.

### HAVE NOT LOCATED MEN WHO SHOT AT OFFICER

No arrests had been made last night in the attempt of two alleged "dips" or pickpockets to elude arrest by attempting to assassinate Deputy Sheriff J. M. Allen. The sheriff's office and the police both were mystified at the attempt.

Allen told a Times reporter that he had trailed the two men, who were suspected of robbing a transient guest of \$17, and had followed them to Seventh street and the railroad tracks Friday night, when they turned upon him and fired. The bullet passed through Allen's overcoat below the waist and lodged in a wall. Allen was unhurt.

Immediately after the shooting the men fled.

### EIGHT THOUSAND FREE TEXT BOOKS ADDED TO SUPPLY

With the receipt of 800 copies of school text books as the second allotment of the local schools of free text books from the state the shortage of books is relieved temporarily at least. These books comprise practically every subject taught in the schools and will be ready for issue to the students as soon as they are marked and numbered.

Upon being issued to the students the numbers of the books are kept as a record so that when the books are turned in at the end of the school year the responsibility of the students using the books for any damage is fixed and in cases of failure to return the books the value of the books must be paid.

Under the compulsory education law providing for free text books the parents of the children to whom the books are issued assume the responsibility for the care of the states property.

Notice: Owing to our inability of getting help we are compelled to cut our deliveries to one a day, which will be after 3:30 p. m. Live Oak Grocery, phone 2955, 705 Seventh.

Those who invest their surplus funds by depositing them in the National Bank of Commerce are certain of absolute safety, 4 per cent interest and the prompt return of their money when they need it. 135-11c

### BURKBURNETT MAN HAS SKULL FRACTURED AND EYE IS REMOVED

J. A. Martin, 64 years old, of Burkburnett, is in a critical condition at the Wichita General hospital as the result of being struck in the head by a flying piece of steel while he was at work in his shop. The blow fractured the skull over the right eye, and the eye was removed.

Mr. Martin was brought here yesterday afternoon from his home and taken to the hospital.

### Local Brevities

Mrs. E. L. Richardson left last night for Dallas where she will see the State fair and then go to Waco to attend the meeting of the Eastern Star.

Mrs. J. W. Carrithers will attend the meeting of the Eastern Star at Waco this week.

R. M. Moore of Long Beach, Cal., arrived Friday for a visit with his son, Dr. Mark Moore, who has been ill for several months. Mrs. Moore accompanied her son and wife here some time ago.

The National Bank of Commerce is organized and equipped to render specialized and exceptional service in handling the banking requirements of all men and it cordially welcomes their accounts. 135-11c

### Headquarters for Less Expensive and More Becoming Millinery

Our millinery designers and buyers have made the most careful and intensive study of the sort of hats that best become different types of women. The sizes, shapes and trimmings necessary in expressing their individuality in the colors and styles which will best bring out all favorable characteristics.

It is remarkable how the turn of a crown—a touch of color—a bit of tulle—or a cluster of flowers or feathers can change a woman's appearance. Only it takes the experienced designer to solve the secret of the needed touch.

Picturesque Hats, very small and very smart, give to the matron an interesting individuality. Large drooping hats find favor with the youthful type of girl. Chic, practical Suit Hats are necessary to complete the success of any tailored costume. We have a large showing of all three types. Then there's the cunning Hats for children. Fancy little pokes for "best" and serviceable little hats of Velvet for school. Especially to we emphasize our Children's Hats at this time for school.

Prices are very reasonable—the selection is extremely large.

### "MICKY" COMING TO THE EMPRESS ON WEDNESDAY

"Mickey," featuring Mabel Normand is the attraction at the Empress on next Wednesday and Thursday. Mickey had lost her mother and father when she was a bit of a child in a small mining town, and her father's partner, Joe Meadows, had taken it upon himself to bring her up. Her only other relations are an aunt and some cousins, living on Long Island. Mickey grows up a harem-scared little tomboy—the trials as well as the love of the old man's life. The only mother Mickey has ever known is Minnie, Joe's housekeeper, an old Indian woman, who dutifully cares for her and worships the little impish wail.

Mrs. Drake, Mickey's aunt, is striving to maintain a millionaire establishment, with but little or no funds. Her only real asset is her daughter Elsie, whom she is trying to marry off to a man with money. She has Herbert Thornhill in mind, and the engagement is almost closed when the man is called West.

In the West Herbert Thornhill meets Mickey and falls in love with her, despite the evident distrust of Joe Meadows. Joe then decides that it is time Mickey had some women folk to look after her, and she writes to her aunt telling her that Mickey owes a gold mine. This is enough for Mrs. Drake and the girl is urged to come at once to Long Island. Joe takes her there, and just as he leaves the Drake home for the West, he mentions to her aunt that the gold mine is worthless, and much to his sorrow it has not paid for years. The aunt, greatly disappointed, puts Mickey to work as a servant, where the little tomboy gets into all sorts of amusing and pathetic scrapes.

When Herbert thinks he has lost Mickey, he gives up his search and returns to the East. Very soon after, he becomes engaged to Elsie. Reggie Drake, the renegade cousin, meantime makes several unpleasant advances to Mickey, which she repulses.

One evening, during a reception given in honor of Herbert and Elsie, Mickey, the little Cinderella of the household, dresses up in one of Elsie's gowns and escapes downstairs to

the ballroom. She does not get very far, however, before her aunt drags her to her room and locks her in. Mickey is greatly surprised on turning around to discover the intoxicated Reggie, who had evidently been shut in, out of the way, and forgotten about. Mickey uscs all her wits to escape. In getting away, she climbs down the porch, into the garden—and finds herself face to face with Herbert, who has been watching her escape.

After the renewal of their love, Herbert regrets the proposal to Elsie and the acceptance. His lawyer and friend, Tom Rawlins, notices this, and on his own initiative, manages matters perfectly, by informing Herbert that his fortune has been swept away. Herbert believes this to be the truth—and then Elsie breaks the engagement. Reggie sees a chance for a good rambling trick, informs Thornhill that if he could get five thousand dollars and place it on his horse, he would win back his fortune. Thornhill manages to scrape together the money and the bet is made. Reggie then fixes matters with his jockey to double-cross Herbert, by pulling his horse and losing the race. Accidentally Mickey overhears the plans. She realizes the full importance of the scheme and plans to take the jockey's place. She is winning the race, when the horse stumbles and throws her. The crowds gaze in amazement when they discover that the jockey is Mickey. She is severely hurt, but recovers shortly afterwards.

Reggie now presses his suit with more vigor than ever. Out-riding with her one day he traps her in an old country house and tries to attack her. Thornhill, who has followed, comes to her rescue, but it is only after a long and furious fight that he succeeds. And after that they are married, and to make matters ideal, Reggie is killed. Thornhill that his fortune was never really lost after all.

### "THE REASON WHY" AT THE PLAZA MONDAY

"The Reason Why," one of Elinor Glyn's most successful works. Select picture made by Clara Kimball Young, and her own company; the scenario by Mary Murillo and the direction by Robert G. Vignola. This feature will be the attraction here on Monday at the Plaza Air Dome.

Yvonne Martinoff (Miss Young) is widowed by the sudden death of her husband, the prefect of police, at the hands of an infuriated mob; she escapes with her 7-year-old son, Mimmo, in which she is utterly wrapped up. That night the fleeing Yvonne comes upon a dead woman who is her exact prototype; on the dead body she finds a letter, addressed to Zara, from her uncle, Francis Markrute, a London financier, asking her to come and live with him although he has never seen her.

Yvonne decides to impersonate Zara, comes to London where she places Mimmo under competent care, and goes to Markrute's home. He wants to have her marry Lord Tancred of Wrayth Hall, and is willing to do her by lifting all the mortgages on his estate in addition to a handsome cash settlement. Before Tancred and Yvonne meet, each refuses to enter such a sordid arrangement, but it is a mutual case of love at first sight. The girl, however,

overhears Markrute discussing the financial terms and she grows cold. How their marriage is consummated, how Yvonne cannot endure the sneers of Tancred's relatives, how he misunderstands her coqueness and even suspects her of the worst, how she eventually makes a full confession to Markrute and her husband, and how the pair finally find their true happiness, make a noteworthy photodrama with Clara Kimball Young in a highly artistic portrayal of the heroine.

### ROLE IN "DAY DREAMS" MADGE KENNEDY'S BEST

Madge Kennedy reveals in comedy situations as only she can in her newest Goldwyn Picture, "Day Dreams," by Cosmo Hamilton, which comes to the Gem theater Monday. It depicts the life of a country girl, Primrose, whose imagination and wild dreams have surrounded her with fairyland talk—princesses, white knights and all. She is later disillusioned by a scheming suitor, who has grown weary of having his proposals of marriage rejected with the reply that she is awaiting the white knight to claim her as his princess and sail with her to his castle across the sea. A white knight does come to her, though she subsequently learns he is an ordinary mortal doing the bidding of her disappointed suitor and that the castle the spurious knight takes her to is the converted home of the same scheming individual.

Primrose turns the tables on him at a banquet, for which he has hired a vampire to expose the knight. The dream girl's announcement that she will marry the very man he has hired to deceive her brings one comedy situation after another. Beautiful settings abound in "Day Dreams," ranging from an expansive duck farm to spectacular scenes aboard the galloon, which takes Primrose to her fairyland.

By favoring the National Bank of Commerce with a constantly growing patronage the people of Wichita Falls and vicinity indicate their appreciation of the helpful, progressive service which the bank renders. 135-11c

Mr. and Mrs. Wee Grisson of Kansas City are the guests of Mr. and Mrs. A. M. Hepler, 1204 Kemp boulevard. 135-11c

Mrs. Gene Buck

Their friends in theatrical circles will be surprised today to learn of the marriage of Miss Helen Falconer, actress, and Gene Buck, lyric writer, another romance of the stage. The wedding took place in the rectory of St. James' Church, in New York, and was performed by the Rev. Father Vincent de Paul McGean, onetime chaplain of the Fire Department, and a friend of the bridegroom through their work together for many church charities.

Miss Falconer and Mr. Buck have been friends for three years, but few even knew of their engagement. Apparently the secret was well kept in the families. The couple were attended only by Miss Margaret Falconer, sister of the bride, and Joseph Buck, brother of the bridegroom, who was best man.

The National Bank of Commerce affords its customers every commercial banking service and supplies it in the spirit of intelligent and cordial cooperation. 135-11c

### PICTURE SHOW FIGHT IN TEXAS IS AT AN END AS RESULT OF DEAL

DALLAS, TEX., Oct. 11.—The south-west film war has ended in sale of the Hulsey interests to the S. A. Lynch Corporation of New York, according to apparently reliable reports from New York City today.

Consideration is not known, but it is understood a majority of the theaters operated by the Hulsey interest—said to include show houses in Dallas, Fort Worth, Waco, San Antonio, Houston, Galveston and El Paso, are involved.

The two interests have been bidding against one another for Texas' motion picture shows for sometime and a city fight has resulted.

A prominent film company in New York today said it understood the sale as being consummated but refused to be quoted because of business reasons. F. Freeman, New York, business agent for the Lynch interests, would neither deny nor affirm the sale.

### ASSESS FINE OF \$25 ON PLEA OF GUILTY

Charged with theft of a suitcase, L. L. Waggoner pleaded guilty in county court yesterday and was fined \$25 and costs. He had not paid the fine yesterday afternoon and still was in jail.

He was arrested by the city detective department on a charge of stealing a grip belonging to the Willis brothers, the value being under \$50. He told Detective Johnson that his mother was seriously ill in Wolf City, Oklahoma, and that he was enroute there.

### SYRIAN PRINCESS TO LECTURE ON HISTORY OF NATIVE LAND

PRINCESS RAHME HALDER

Concurrent with the white man's triumphal entry into the Holy Land and the world's concern over the deplorable conditions of its people, is the visit of a real Syrian Princess, native of that famous country, one born and reared in old Palestine and one who speaks most fluently the ancient Syrian language. Princess Rahme Halder, daughter of the oldest country in the world, the country from which modern ideas of civilization sprang, is spending a few days in Wichita Falls, and tonight and Monday night at the First Presbyterian Church, corner Tenth and Bluff, will give two of her widely heralded entertainments.

Sunday evening at the First Presbyterian Church, Princess Rahme will present her popular address, "Under Syrian Stars," presenting a modern, as well as ancient picture of Palestine for it is very difficult for us in far-away America to realize that the Palestine of today is the same, in manner and mode of living, as it was thousands of years ago.

Just now, when the Near East is holding such a conspicuous place in the deliberations, this lecture by a native Princess of the historic land has unusual attractions. The Princess Halder is thoroughly acquainted with the needs and conditions of her own people and presents them with the warmth and fervor born of sincerity.

Monday evening at 8:15 at the church the Princess will present her own drama of "Naaman, the Leper," based on the old Biblical story, the first and last scenes being enacted between the Princess and her companion. Cleverly is interwoven the part of the Hebrew captive maiden in bringing to the household of Syria, the knowledge of the Prophet Elisha and of the true God of Israel; and in entering a plea for the great General Naaman, afflicted with the hated

### "MARRYING SQUIRE" TIES NUPTIAL KNOT FOR THREE COUPLES ON SATURDAY

Justice of the Peace C. J. Arrington, Wichita Falls "marrying squire," added three more to his list Saturday afternoon when he tied the nuptial knots that bound H. G. Jones of Minneapolis, Minn., and Miss Myrtle Cheston of Lawton, Okla., J. D. Gayton and Miss Ora Secker of Burkholder, and Lewis Heyworth and Miss Bertie Thies of Lawton, Okla.

Those who invest their surplus funds by depositing them in the National Bank of Commerce are certain of absolute safety, 4 per cent interest and the prompt return of their money, when they need it. 135-11c

### Famous Dancer Is Coming to Wichita Falls

Wichita is to have a real, high-class and refined school of dancing. Carl Hack and Perdita Greenwood will occupy the second floor of Maer & Heydricks building, Ninth and Travis streets. The studio will be 50 by 150 and will be equipped with up-to-date reception rooms, dressing rooms, etc.

Miss Perdita Greenwood is a graduate of Mrs. T. Clark's School, St. Louis; Miss Irene Summa, who is a graduate of the Alberta School of New York; Madame Bonlight, wife of the premier dancer of the Metropolitan House, New York, and Fortia Mansfield Sweet, professional pupil of Pavley-On-rainsky.

The care and discrimination will be so as to keep the high standard of the classes unimpaired.

Modern ball room dances, aesthetic, Grecian, Egyptian, interpretive, fancy and social dancing, ballet, toe, Greek and Russian will be taught.

Announcement will be made later of the commencement of the juvenile, kindergarten and high school classes.

Miss Greenwood and her mother will arrive in Wichita Falls shortly, coming from St. Louis, and will be pleased to meet the women of Wichita Falls and mothers of prospective pupils.

Carl Mack, who is located at the Westland Hotel, is making arrangements to have the academy opened at

### DRIVERS CAN HELP MAINTAIN THE ROADS BY EXERCISING CARE

"Drivers can do as much, almost, for the maintenance of good roads as highway engineers," declares Alfred F. Masury, chief engineer of the International Motor Company, manufacturer of Mack trucks.

"Did you ever notice," asked Mr. Masury, "in going up a hill, particularly one paved with asphaltic concrete, that the surface on the right hand side of the road is wavy and rough, while that on the left hand side is smooth?"

"The reason is this: The extra traction required to climb the hill wears and tears the surface, while there is little or no traction down hill.

"Another thing, the right hand track of the road in either direction is the one which is worn most. This is because of the arched surface of the road which throws the greater weight and strain on the right hand side of the roadway. Truck builders and wagon makers have even adjusted their axles and springs so as to withstand the greater strain on the right hand side of the vehicle.

"The custom of arching the road ways was formed in the early days of road making when dirt and porous surface roads were the ones mostly in use, and it was necessary to give sufficient pitch to the surface of the roadway to drain off the water and prevent it from penetrating the surface of the road to soften and weaken the roadbed. With modern water-tight surfaces, the necessity for arched roads does not exist and engineers are designing roads with very slight pitch.

"Drivers can prevent wear to the surfaces of the roads and even im-

prove their conditions, if instead of driving in one track or on the edge of the road, they will drive over the middle and other less used parts of the road when traffic permits. The one thing that is fatal above all things to road surfaces, whether dirt or paved, is driving in tracks, which subjects one small part of the road surface to all the traffic and damage that the whole road accommodates. Traffic should be evenly distributed over the entire surface of the road, and a little thoughtfulness and care in this respect on the part of drivers will do much to add to the permanence and excellence of our roadways."

### DOUBLE WEDDING IN WHICH BRIDES ARE TWINS AS ARE ALSO BRIDEGROOMS

While at Carthage, Mo., last week on business, Staley Field, the architect, ran across the following item in a Carthage paper:

"The reason will take place at the home of J. R. Teague, near Alba, tonight when his twin daughters, Lola and Lela will be married to Dr. Harmon S. Loveless of Lockwood, Mo., and Dr. Herman Loveless of Greenfield, Mo. The bridegrooms are twins, sons of Charles Loveless, living on a farm near Tucker's ford.

"Dr. Harmon Loveless has a large veterinary hospital at Lockwood, and Dr. Herman Loveless has a similar establishment at Greenfield. It is reported that the two men so resemble each other that it is almost impossible to distinguish them apart; likewise the twin prospective brides. The marriage license was issued this forenoon."

The well known integrity and ability of the men directing the affairs of the National Bank of Commerce, and the genuine interest which these men have in Wichita Falls' prosperity is assurance of good banking service to Wichita Falls' business men. 135-11c

## A Tested Flour

Belle of Wichita is a Double Tested Flour.

At the Biggest Mill in Texas it passes the most rigid tests of skilled chemists and bakers before it is submitted to the final verdict of critical housewives.

Its steady, increasing sales proclaim its popularity with housewives who demand a quality of flour which imparts that fine, smooth texture and perfect flavor essential to good bread and cake.

Ask your grocer for Belle of Wichita Flour.

### Reliable Brands

For delicious corn muffins and corn cakes use Belle of Wichita Cream Meal. It is made with the same regard for purity and high standard that characterizes all Wichita Mill & Elevator Company products.

TO BAKERS: Bakers Pride Flour is the ideal flour for bread making because it is milled from hard wheat and contains the maximum amount of gluten. Its use means more and better loaves—more and better satisfied customers.

### CLASS OR RANK IS ELIMINATED BY THE LEGION

State Organization Makes No Distinction in Election of Officers and Delegates.

CONSTITUTION ADOPTED IN MEETING AT DALLAS  
Members Urge Designation of Nov. 11 as National and State Holiday.

DALLAS, Oct. 10.—Declaring for 100 per cent Americanism, white supremacy and a representative government, the first convention of the Texas division of the American Legion here today adopted a constitution setting forth its aims. Resolutions adopted included one urging designation of November 11 as a national and state holiday in commemoration of the signing of the armistice by Germany, and another providing for organization of women's auxiliaries of the organization. The convention, at the request of enlisted men, voted to eliminate all distinctions of class or rank in selection of delegates to conventions or state officers, and also voted down a proposal to bar from the organization's conventions any person employed by the state or nation in an official capacity. The constitution defines the legion state officers as that of state commander, vice commander, adjutant, historian, master-at-arms and a chaplain. Those are to be elected annually and are ineligible for re-election except in the case of the adjutant and the historian. State headquarters are to be at the home of the adjutant, though the 1920 convention may designate a permanent state headquarters. The constitution recognized no prohibition of sex as to membership in the legion or as to holding office in the organization. It declares in all cases where the word "he" is used it shall also be held to include women. There are to be two delegates elected annually to the national convention, by majority vote of the delegates assembled at the state convention. An original clause in the constitution providing that a man must have honorable discharge from the army to be eligible for membership in the legion was amended so as to provide that national guardsmen and those yet in the regular army may become members.

NINETIETH DIVISION HAS REUNION AT THE FAIR  
DALLAS, Oct. 11.—Veterans of the 90th Division, scrappy national army men from Texas and Oklahoma, had their lining at the Texas victory fair today, meeting in reunion and "comparing notes" with fellow statesmen in the 86th Division, which held its formal reunion yesterday. The 90th received its training at Camp Travis, San Antonio. The state convention of the American Legion also continued today.

### OVERPAYMENT OF NEAR TWO MILLION ON WAR CONTRACT

WASHINGTON, Oct. 11.—Over payment of \$1,822,000 by the government on a claim of \$3,000,000 bought by the steel car company, Hammond, Ind., on ordnance contract, was charged by L. J. Blakey, an accountant before the House War Department Committee on expenditures today. Blakey claimed that Colonel E. L. Hughes, in charge of ordnance work in the Chicago district, had refused to consider his audit of 500,000 was overpaid on a gun carriage contract and the balance on salvage work.

### OVERRULE MOTION OF THE KANSAS CITY SOUTHERN REGARDING VALUATION

WASHINGTON, Oct. 11.—Overruling the motion of the Kansas City Southern Railway Company and subsidiaries to dismiss the federal valuation proceeding because of lack of jurisdiction, the Interstate Commerce Commission today made final the tentative valuation as corrected, against which protest was made. Investment cost of the system with the exception of the Glenn Pool Tank Line Company, was placed at \$46,978,042. Cost of reproduction new and cost of reproduction less depreciation of all property other than land used exclusively by the carrier for the purpose of a common carrier, were put at \$41,538,531 and \$33,975,849 respectively.

### UPSON IS WINNER OF BALLOON RACE

ST. LOUIS, Oct. 11.—The loss of the balloon Wichita was officially recognized here today when Major A. Lambert, in charge of the national championship balloon race, officially announced that the race had been won by Ralph H. Upson, the latter having traveled 1,059 miles. H. E. Hone/well finished second with a distance record of 920 miles, while E. S. Cole was third with 680 miles.

### PITTSBURGH MAYOR SAYS NEUTRALITY IS POLICY OF THE CITY

PITTSBURGH, PA., Oct. 11.—"We are neutral in this strike," Mayor E. V. Babcock of Pittsburgh told the Senate investigation committee today. Lack of violence has been due largely to the conduct of the strikers themselves, he added. Residents appealed to the authorities, he said, to prevent meetings, fearing outbreaks of violence. "It is not our policy to prevent meetings," the mayor testified, in explaining that his only interest is to preserve order. Babcock said he did not think any plants in this district have been shut down by the strike. "I don't know of any," he said. "We got our reports from officers stationed at the mills." Attorney Rubin interrupted: "Why have you prevented meetings?" "We allowed meetings on the north and south sides at first but as the situation grew more tense we decided in the interests of public safety to allow them only on the south side." Babcock said many residents complained of the meetings and expressed fear.

### AUTOMOBILE BANDITS ESCAPE WITH PAYROLL

TOLEDO, OHIO, Oct. 11.—Bandits in an automobile escaped with \$5,000 in an automobile after holding up two men carryin' the Pinkerton Tobacco Company payroll and shooting an employee, George Hillman. He received two shot wounds and is expected to die.

### AGREE TO ARBITRATE STREET CAR STRIKE AT OAKLAND, CALIF.

OAKLAND, CAL., Oct. 11.—Oakland street car men today agreed to arbitrate their differences with the company. Arbitration will be conducted under regulations drawn up at the meeting with the railroad commission late yesterday. The men, who have been on strike since October 11, will go back to work without loss of seniority.

### MINISTER OF DEFENSE SUPPRESSES NEWSPAPER

BERLIN, Friday, Oct. 10.—Gustave Noske, minister of defense, has suppressed the newspaper Freiheit for three days because of its accusation "that central murder stations" were being maintained in Berlin which were offering assassins big money inducements and employing weak-minded persons for similar purposes.

### MOHAMMEDANS PROCLAIM WILSON AS "PROPHET"

NEW YORK, Oct. 11.—President Wilson has been proclaimed a "prophet" by Mohammedans in Egypt, according to information received here today by the Inter-Church World Movement from Mark S. Roy, who has been a missionary of the United Presbyterian Church in Alexandria since 1908.

### APPEAL CASE TO TEST OPERATION OF SHOWS ON SUNDAY

AUSTIN, TEX., Oct. 11.—A test case to determine whether or not the operation of moving picture shows on Sunday is a violation of the Sunday closing law was filed in the court of criminal appeals today. The case is appealed by J. J. Hegman who was recently fined \$20 in the Travis county court for operating a picture show on Sunday.

### The truth about Front Lace Corsets

To Paris belongs the credit for the original front lace Corset, but the front lacing style never passed the novelty stage in France, and did not become popular in this country until—

**La Camille**  
THE FRONT LACE CORSET WITH THE

**Ventilo**  
back and VENTILO front shield appeared upon the market.

Without exception, LA CAMILLE is the front lace Corset of greatest value; the one having the best materials for the price; the most perfect design and with the exclusive VENTILO features which prevent pressure on the spine, insure ventilation and greater range of adjustment. There are many imitations of the VENTILO features. Don't accept them; they are inferior. The newest feature in La Camille is the Loxit non-tilting clasp. Does not pinch, gap or come unfastened. Model illustrated is a topless sport corset intended for slight figures. Very low, lightly boned. Has elastic all around top. Made of fancy brocade in white and pink. See this wonderful display in our Corset Department.

PRODUCERS HAVE REMEDY IN OWN HANDS.

A still further reduction in the pipe line quotation for Burk Burnett crude is said to be in prospect, and as a matter of fact, it is well known that the posted prices of the big companies no longer govern the price paid for a considerable part of the Burk Burnett production.

A continued decline in the price of crude here will be a most serious blow to the oil industry in this section and will sooner or later seriously affect all business.

There is every reason to believe that as soon as the facilities are improved for handling the production that there will be a demand for every barrel of oil that can be produced in the Burk Burnett pool at the highest pipe line price paid in the mid-continent field. Oil stocks are declining; refiners must have the high grade Burk Burnett oil. Some of them are now getting it at less than half its market value because they can provide facilities for transporting it.

Hurrah for the "flying parson." He has finished ahead of all other flyers on the westbound flight in the great trans-continental air race. 1914 Germans continuing victorious drive through Belgium take Ghent. Allied left begins attack; moves in Northern France to prevent aid to Von Kluck; Germans retire slightly, but mass about Ypres in preparation for a renewed attack.

1915 Bulgaria strikes her first blow; crosses Serbian frontier at three points, but is thrown back; Allies greatly outnumbered in Balkans realize their peril; Russia to send an army to Serbia's aid.

1916 Socialists in German Reichstag say nation wants peace; speak of Belgium restored. Allies north of Somme strike for heights near Bapaume-Peronne road, making some progress.

1917 Rain checks British attack on Ypres front after average gain of 800 yards; victors pierce German lines coming within 500 yards of Passchendaele. U. S. government mobilizes shipping facilities; will take over all American ships above 2500 tons.

1918 Germany agrees to accept Wilson's terms; is ready to evacuate invaded territory to gain armistice; says government speaks for the people. Gouraud takes Vouziers as French drive in Champagne goes on victoriously; 16-day fight accomplishes complete defeat of enemy.

GOOD PROGRESS IS MADE ON TESTS IN MONTAGUE COUNTY

NOCONA, TEX., Oct. 11.—The Red River Valley Oil & Gas Company test on the W. W. Jones farm, has cased with 15 1/2 inch at 400 feet, and is shut down for the 12 1/2 inch which is past due, having been shipped from Electric on the 2nd. The 10-inch is here and unloaded.

The Frank V. Wright test in the W.S. corner of the Fielding Secret survey and north of Saint Jo, is reported to have had a good showing of oil and some gas at 2,550 feet, and went into salt water. A hard lime rock was found around 2,400 feet, and from this point to 3,000 feet, the well has been dry and mostly in blue shale which is considered a condition quite favorable. It is understood the well will be drilled to 3,500 feet or deeper.

It is given out that Frank V. Wright has taken the contract for drilling the Illinois Bend well, work to commence when the Fielding Secret well has been completed. The derrick is up for this test and two car loads of coal has been delivered, an some of the casing is ready on the ground. Attention will be directed to this and the foregoing well for some time.

This oil showing found in the Munster well, Munster being the first station east of Saint Jo, and over in Cook county, caused considerable comment, but was caused off for a deeper test. This find encourages the Munster company to believe a paying well should be encountered in lower formations. It is just possible this oil migrated from a lower level. The drill will help to solve the problem.

A log of the Shafter well, drilled on the J. D. Jameson farm about four miles east of Montague in 1915, shows that gas was found in a 30-foot sand picked up at 2,245 feet. This is encouraging and is taken to indicate that the Belcherville-Montague anti-line should be productive of oil and gas.

REPORT YOUNGSTOWN PLANT IN OPERATION

YOUNGSTOWN, OHIO, Oct. 11.—The first iron manufacture in the Mahoning Valley since the steel strike began was poured from a blast furnace at the Youngstown Sheet and Tube Company early this morning, according to an observer outside the plant who saw the metal poured from the furnace. Activity at practically all other plants here indicates an attempt to manufacture iron soon.

STAMFORD AFTER BETTER FACILITIES FOR HANDLING THE EXPRESS BUSINESS

STAMFORD, TEX., Oct. 11.—The chamber of commerce is supporting the local jobbers in their petition for an express depot here. In addition, they are asking for a solid express train to be operated over the M. K. & T. railroad between Waco and Stamford. The handling of express keeps the passenger trains from one to four hours late. Express business increases daily.

The express depot is asked so that perishables might be protected. Shippers are forced to deliver to the express office and the office is too small to store the shipments so the stuff is set outside regardless of weather conditions.

# WITNESS TELLS OF TREATMENT OF STEEL MEN

Says They Were Locked in Cellars and Told They Were to Be Hung at Dawn.

CRUELITIES ARE ALLEGED BEFORE THE COMMITTEE

Declares Citizens of Town Were Drilled and Given Guns to Intimidate Workers.

By RAYMOND CLAPPER (United Press Staff Correspondent.)

PITTSBURGH, Pa., Oct. 11.—Declaring strikers had been locked in cellars and told they would be hung at dawn, William Feeney, ex member of the state legislature and formerly a coal miner told a detailed story of alleged cruelties to steel workers at the hearing of the Senate investigating committee here today.

Attorney W. B. Rubin, general counsel of the strikers, declared the men testifying against the steel corporation would be blacklisted and for that reason, he desired the identity of witnesses to be kept secret.

Chairman Kenyon hesitated to agree to this and told Rubin it would be put up to the committee.

Citizens Are Drilled.

Feeney, representing steel workers in the Donora district, declared that for days citizens of the town drilled and were given guns, and the "riff raff" were called in to attack the strikers, he said.

"When we attempted to hold a meeting on a vacant lot these deputes armed with rifles and shot guns marched down on our men with eight returned soldier boys in uniform and an American flag in front and five hundred men behind," Feeney declared.

"I saw how the stage was set for a long casualty list. Two hundred yards below was the state constabulary lined up in battle formation."

Feeney said he ordered the men to go back.

"There is the riff raff lined up ready to attack us. We went back to Donora and got the men seated peacefully on the hill side," Feeney said he then addressed the men.

## WORLD FAMOUS TEXAN AT STATE FAIR OCT. 17

A Fort Worth boy, Lieut. Ormer Locklear, who has thrilled millions all over the country by performing his amazing feat of changing from one airplane to another in flight, the only person in the world to accomplish this feat, will perform this super-stunt at the Texas State Fair in Dallas on "Locklear day," Friday, Oct. 17.

to murder them with 500 deputes there craving for the blood of those people. The state constabulary rode up to our men seated on the grass. They said: "Get up or we'll ride the horses over you." I ordered the men to move. We went down the hill. They ordered two of our boys who were holding American flags to unfurl them.

"In the town one of our men wearing a soldier's uniform was talking to aged man who a trooper rode up,

Feeney continued. "The trooper rode up and clubbed the old man who has two sons abroad. They ordered the man to take off his uniform although he had a perfect right to wear it."

"Will you please stick to the facts," Senator Kenyon requested as Feeney launched a bitter verbal attack on the authorities. "You'd feel as strongly about this as I do if you had seen men and women clubbed," Feeney retorted. He said one woman in delicate health

was beaten while on her way to the butcher shop.

Trumped Up Charges.

Feeney asserted that strikers were being imprisoned on trumped up charges. When asked if witnesses were present to corroborate this statement, Attorney Rubin said he did not know the committee would require it.

The next witness was Father Kasnici, Roman Catholic priest of Baddock. He declared worshippers were attacked by state troopers as they were leaving church on September 24. He said the only excuse the troopers could offer was that they were "told to keep the crowd moving." Kasnici said he was told of this incident by two sisters. They were not present at the hearing.

P. H. Brogan, secretary of the Clairton strike committee told of alleged brutal tactics of state troopers. He said on one occasion he had seen a soldier throw an American flag in the mud and shoot at strikers attempting to hold a meeting.

"What we want," said Brogan, "is to get the fourteen hour day cut out. Nobody is strong enough to do it. We are going to fight until we get it. This is the most important thing of all. We want the union recognized, too, and we want enough to live on in an eight hour day." Brogan said he was discharged from the Clairton mill because he joined the union.

He testified he received a straight salary of \$8 a day from the union as compared with the \$6.84 a day he says he received while working for the steel company.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

NEW YORK, Oct. 12.—Almost sensationally bullish weather and crop advice led to further active buying in the cotton market this morning and sent prices into new high ground for the movement.

The market opened firm at an advance of 29 to 40 points on the reports of heavy general rains in western sections of the belt and bullish overnight spot advice.

NEW ORLEANS, Oct. 11.—Excessive rainfall in the western belt caused the buying movement in cotton to continue today and it forced prices to new high levels for the week.

NEW YORK STOCKS. NEW YORK, Oct. 11.—Accompanied by rumors of combinations and mergers, pools gave another upward twist to motor shares and their specialties today.

CONGRESSIONAL OIL COMPANY At 10 Cents a Share THE only offering of actual production in dividends... THIS low cost offering price cannot and will not last long—limited supply of oil is going rapidly. A stock with such holdings—actual developments—visible assets—paying dividends—cannot long remain at a price of 10c a share. An advance is sure and it is only a question of how high the price will go—maybe 50 per cent—100 per cent—perhaps 200 per cent; but you know that you are going to have an increased market profit with quick action and sure returns from actual oil production.

COMPARE this offer with the market—compare from every angle. Where can the moderate investor beat this offer? YOU CANT LOSE In a Burk Burnett producing, dividend paying oil company, that offers you the positive, assured production. Make all checks payable to the Wichita Trust Company, Bankers Building, Wichita Falls, Texas, and mail direct to them. They are acting under a steel bond protection contract that assures you the actual return of your stock, thus eliminating the risks and hazards usually taken in oil assignments, contracts and legal documents pertaining to the holdings of this company now on file in the offices of county clerks in counties where various holdings are situated.

ACT NOW from delay, as it requires quick action. Price may advance any time upon selling out of present allotment. REFERENCES: First State Bank, Dallas, Texas. ## equal to two spoonfuls of most other baking powders

Calumet Baking Powder has double the ordinary leavening strength. You use only one spoonful whereas you use two spoonfuls of most other brands. It is by far the most economical baking powder.

You pay about half the amount asked for high-priced brands. It goes twice as far as most other brands—so you save when you buy it—you save when you use it. But the most important economy of

**CALUMET**  
BAKING POWDER

is in its superior quality. Regardless of price, Calumet is the highest grade baking powder made. It is absolutely pure in the can—in the baking. Leaves no harmful residue.

Calumet, wherever placed, always gives satisfaction. It is the largest selling brand of baking powder in the world and is made in the largest, cleanest, most up-to-date Baking Powder factory in existence.

The millions of housewives who use Calumet secure better bakings at a more economical cost than those who do not use it.

With all this evidence of superiority—with all this proof of better bakings why should you be satisfied to stand the exorbitant expense of over priced powders or the faults and failings of cheap, inferior brands. You shouldn't—and you *won't*—after one Calumet bake-day trial.

### Beware of This—

When you buy a pound can of Calumet, you get a full pound—16 ounces—no short weights. Some baking powders are now being put on the market in 12-ounce cans instead of pound cans. Be sure you get a pound when you want it. Remember—Calumet is not made by the Trust—not sold at Trust prices.

### Valuable 72-Page Cook Book— Handsomely Illustrated in Colors

Every housewife should have it. The most comprehensive Cook Book ever issued. Hundreds of selected recipes formulated by eminent Chefs and Domestic Scientists. 276 Home Helps that show how to save work, time, money—how to have better things to eat at less cost. Send slip found in a can of Calumet and three 2-cent stamps to help cover expense of packing and mailing. No matter how many Cook Books you have, you need this valuable volume of household aids.

# McClurkan's Great, New Stock of Seasonable Merchandise for Men, Women and Children

If any concern ever had cause to feel on good terms with the whole world, that concern is McClurkan & Co. For little less than a miracle has been performed in this concern's behalf. Three weeks ago our store suffered a serious fire. Much of our goods were destroyed, some were badly damaged, others slightly damaged. Such merchandise as could be salvaged was taken out, placed in another building and offered to the people of Wichita Falls and surrounding territory at unheard-of prices. Literally thousands of people attended our sale daily, and today these thousands know that when McClurkan makes an announcement it can be taken at its face value without question.

### Bishop Suits

New Fall Suits of Silvertones, Suede Velours, Man's Wear Serge, in brown, gray, navy blue, taupe and reindeer; of Broadcloth, Wool Velour, Checks, Stripe Prussia. Exclusive models in all popular shades and colors.

These Suits are of authentic and exclusive origin, and "custom made" construction; edges, collars, pockets, and lining all hand-worked.

## \$75,000.00

### Crisply Fresh Merchandise

Today, three weeks after our fire, we have a \$75,000 stock of crisply fresh merchandise in our store ready for your inspection. In the face of present market conditions and the congested freight conditions everywhere, and especially on roads leading to Wichita Falls, this is little short of a miracle.

Any shipper in Wichita Falls will appreciate the gigantic efforts that could have made this possible. But the efforts were not all our own. Never have friends been more loyal. Wholesalers came to our aid with a generosity that could not have been asked for. Manufacturers side-tracked prior orders in order that they might come to our help. The railroads generously gave our goods right-of-way. To these people, the hundreds of people in the great manufacturing centers of the North and East, and the hundreds between these centers and Wichita Falls, and in Wichita Falls, who extended a helping hand, we are duty and truly thankful.

### Bishop Coats

A large number of distinctive models in very fashionable Coats developed in Silvertone, Frost Tip, heavy Velours and Kerseys; black, brown, navy blue, reindeer, plum, burgundy and polli. Lined throughout with silk.

New Winter Coats of Silver Tip, Boullvia, Frost-alls, Suldine, with striking collars and deep gauntlet cuffs of Raccoon, Australian Opossum, Beaver, Nutria, etc. Many styles that cannot be enumerated here.

### GIRLS' SCHOOL DRESSES

Girls' School Dresses in becoming, youthful models of Chambray or dark colored Gingham, in red, green, brown and copenhagen blue. Dresses that will delight the girls and young ladies as well as their mothers.

Exceedingly attractive values in Girls' Serge Dresses. Round neck waist line models with painted combination color silk stitching. Butterfly slide belt. These garments are of very excellent quality.

We also have a beautiful line of Girls' Coats in heavy Silvertone Velours, button trimmed with suspending straps to the waist. Beaver Plush collars and cuffs trim these most effectively.

We are Making an Equally Attractive Showing of Boys' School Togs.

### FAMOUS "ANNIS"

Tailored or silk braid and embroidery trimmed. Sizes for women and misses in blue Tricotine or Men's Wear Serge. Unusually attractive prices.

### SNAPPY FALL OVERCOATS

Every garment a real value. Fabrics are sturdy, styles modern, and the prices are right. A big showing in the very latest models of the tailor's art.

#### BOYS' RAIN OUTFITS

Coats and Hats to match of the regulation waterproofed, rubberized olive drab and dark-colored Raincoat Materials. The very thing for school and play wear on rainy days.

### Fancy Sile Shirts and Neckwear for men and boys

One of the most complete assortments of Men's and Boys' Furnishings ever brought to the Southwest. Especially attractive offerings in Men's Fancy Silk Shirts and Neckwear, Pajamas, Bath Robes and Hosiery.

This is a department store in every sense of the word. No less care is taken in the selections of necessary things for men and boys than in selections for women and girls. All the very latest styles, and not an old shop-worn article in our store. Men salesmen who know the requirements of the well-dressed man and young man.

Wives! Invite your husbands on your next visit.

### SUITS FOR MEN AND YOUNG MEN

MISS FRIBERG WEDS IRVING KARRENBROCK

An exceptionally pretty church wedding took place Wednesday, October 8, at 9:00 p. m. at the First Methodist church, corner of Seventh and Lamar, when Miss Estelle Friberg, daughter of Mr. and Mrs. G. E. Friberg, 1511 Tenth street, became the bride of Irving Karrenbrock, Rev. Harry F. Draper reading the beautiful ring ceremony. The massed greenery of lace ferns and anemones formed the altar, which was an attractive background for the wedding party, the bride and her attendants being gowned in autumn modes, in dark rich colors, while the groom and his groomsmen wore the conventional black.

The musical setting was an attractive feature, the program being arranged by Miss Blanche Potter, accomplished accompanist and organist. Cadman's "At Dawning" was sung by Mrs. A. M. Hepler, accompanied by Miss Potter. The interlude "Spring Time," by Scott, was played on the pipe organ by Miss Potter; then followed, "All For You," sung by Mrs. Harry F. Draper. The Leheng's Bridal Chorus was used for the processional, Miss Potter being again at the organ, and for the recessional Mrs. Roy Marquande played the Swedish Wedding March.

The bride wore her traveling suit of brown duvety, hat, shoes and all accessories in harmony. She carried a large bouquet of bride's roses and buds, with a shower of lilies of the valley and satin ribbons. The maid of honor, Miss Nettie Friberg, sister of the bride, wore a frock of midnight blue satin, with harmonizing accessories and carried a French basket, filled with Killarney buds and fern, the basket tied with tulle. Miss Edith Van Deren, brides-

maid, wore a frock of heaver brown georgette and satin, and Miss Mildred Corhill, the second bridesmaid, was gowned in midnight blue georgette and satin. Both bridesmaids carried large French baskets, filled with American beauties and fern, and tied with tulle. The groom was attended by his brother, Homer Karrenbrock, as best man. Groomsmen were: Floyd Friberg, brother of the bride, and Homer Bachman. The ushers were Messrs. R. O. Andree, Walter Friberg, Gus Hocks and Gus Heck.

Immediately following the ceremony Mr. and Mrs. Karrenbrock left for St. Louis, Mo., to visit the groom's parents. They will also visit other northern points on their wedding trip, and will be at home after December 1 at 2204 Ninth street.

Wednesday's wedding is of more than usual interest locally, both bride and groom being prominently connected in this city and very popular in their circle of friends. The bride is the daughter of Mr. and Mrs. G. E. Friberg, for a number of years residents of Wichita Falls, and is a graduate of the local high school. The groom is assistant cashier of the Wichita State Bank and Trust Co., and is considered one of the most promising of the young business men of the city. A large number of friends are united in congratulations to Mr. and Mrs. Karrenbrock.

NEW CENTURY CLUB HOLDS FIRST MEETING

Wednesday afternoon the New Century Club resumed its meetings, a study hour being combined with the open meeting with which the club has been accustomed to open the year. The meeting was held in the Kemp Public Library with Mrs. G. Clint Wood as leader. Mrs. C. B. Peider, the retiring president opened the

meeting, giving a short talk before turning over the office to Mrs. Walker, the 1919-20 club year president. Mrs. Walker responded, and her address was followed by the club's welcome to the new members, given by Mrs. J. C. A. Guest. Mrs. W. B. Hamilton responded in behalf of the new members. Ralph Waldo Emerson is the first author to be studied by the New Century Club this year, and Wednesday's lesson was an introduction to this author and his work. Mrs. Wood proved a very capable and interesting leader and the study hour was profitable and enjoyable.

The club's officers for this year include: Mrs. Wade Walker, president; Mrs. N. M. Clifford, vice president; Mrs. J. C. A. Guest, recording secretary; Mrs. C. E. McCutchen, corresponding secretary; Mrs. J. B. McDaniel, treasurer; Mrs. S. H. Burnside, federation secretary.

The members present at Wednesday's meeting were: Mesdames Norris Martin, Joe Daniel, J. S. McDaniel, T. P. Adams, J. C. A. Guest, Wade Walker, C. B. Felder, W. B. Hamilton, G. C. Wood, C. J. Barnard, Whitney Burnside, C. W. Snider and W. W. Silk. Miss Maude Barnard, of Nashville, Tenn., house guest of Mrs. C. J. Barnard, was the club guest.

MUSICIANS CLUB HOLDS FIRST MEETING THURSDAY

A promise for several musical attractions by artists of nationwide reputation is held out to music lovers of the city, in the intention that the Musicians Club members expressed at the initial meeting of the season, held Thursday afternoon, at the Kemp library. This meeting was turned into a business meeting and a discussion of the year's work. The purchase of a grand piano for use of the club at its meetings was also discussed and further action promised. The year books will be ready for distribution shortly, it was announced by Mrs. Walter S. Robertson, who was in charge of the program for the year.

In the absence of Mrs. Huff, the president, Mrs. Walter Robertson, first vice president presided. The program which had been announced for this opening meeting was postponed until October 23, it was announced. The year's programs and the programs for the six open meetings were discussed at length. The members present were: Misses Florence Sammons and Bessie Lee

Bartlett; Mesdames Walter S. Robertson, Wade Walker, McKnight, H. A. Walker, J. C. Mytinger, B. M. Bell, S. J. Ashmore and F. R. Coltrid.

NEW IDEA CLUB IS TO REVIVE STUDY PLANS

A revival of the of the original plan of the club, to study current events and civic and domestic developments, is to be made by the New Idea Club, according to the recent decision of the club members. When organized, the club took its name from the program of "new ideas" which was discussed at each round table, but for some time the meetings had been given to social hours and fancy work. They turned into knitting parties during the war and the Red Cross activity, but now the study and the round table is again to become a feature. Wednesday's meeting of the club was held with Mrs. P. S. Campbell as hostess, at 1611 Tenth street. The round table discussion proved very interesting, summer vacations and information gleaned by the members from observations during that time being the topics.

The hostess served a tempting salad course to Mesdames Harry Thornberry, Andree, Newton, T. E. Dobson, Ross Corlett, M. E. Carey and J. J. Simon.

TRAVEL CLUB MEETS THURSDAY MORNING

"Population in Relation to Natural Resources" formed the study topic of the Travel Club this week, the meeting being held at the Kemp Public Library. Mrs. J. W. Akin was leader. A short business session and the roll call, answered by current events, preceded the program. Mrs. J. W. Akin

had the subtle "Our Disappearing Natural Resources," and Mrs. R. E. Thornburgh had an excellent paper on "Our Increasing Population."

GIVE BIRTHDAY PARTY FOR BABETTA JOSEPH

In celebration of the birthday of her daughter, Babetta, Mrs. Leon Joseph entertained a number of the little girl friends at her home this week. Various games were the order of entertainment and Mrs. W. Hirsch and Mrs. B. Ojatsch assisted the hostess in serving refreshments. The guests included Nathalia Lehen, Helen Sylvia Lehen, Ellen Collins, Marguerite Collins, Adele Collins, Mattie Lou Phillips, Paxton Phillips, Ester Rosa Ojatsch, Thelma Scott, Walter Allen, Valtie Allen, Charles Bulford, Helen Marjory, Gerald and Bernard Wait, H. Rutledge, Arthur White, Marvin Hodgekias, Frances and Guy Lutridge, Babetta and Rosaline Joseph.

JOINT HOSTESSES TO THE ALTAR SOCIETY

Mrs. W. E. Fitzgerald and Mrs. J. J. Moran were joint hostesses to the members of the Altar Society of the Church of the Sacred Heart, meeting at the home of Mrs. Fitzgerald on Monday afternoon. Plans for holding a bazaar on December 10 were discussed and the following appointments made: Mrs. Lewis, chairman of the fancy work booth; Mrs. Delaney, chairman of the Japanese booth; Mrs. Hutton, chairman of the delicatessen booth. A social hour

followed the business session, and the hostesses served ice cream and cake as refreshments. The members present included: Mesdames Delaney, Hall, Bullitt, Larkum, Lewis, Morse, Albright, Keim, Robinson, Walsh, Riddle, Oeschner, McMahon, Walker, Moulder, Hatton, Moran, Brown, Bates, Hughes, Maddock, Coffe, Hargrave, Davis and Misses Sullivan, Howe and Ryan.

ENTERTAIN IN HONOR OF VISITING RELATIVES

Honoring Mr. and Mrs. R. T. Priddy, Mr. Priddy's parents and Mrs. Ashley Horne, mother of Mrs. Priddy, Mr. and Mrs. W. M. Priddy were at home to a few friends on Tuesday afternoon of last week. Pink roses decorated the home. Miss Theresa Veale, accompanied by Miss Adele Adickes, entertained with a vocal solo. A violin solo by Mrs. Bruce Greenwood added to the program. Mrs. Greenwood was accompanied by Mrs. A. H. Britain. The hostess served a dainty refreshment course. Mr. and Mrs. R. T. Priddy were visiting from their home in Keyville, Va. Mr. Priddy has returned to his home but Mrs. Priddy will continue her visit here. Mrs. Horne is here from Clayton, North Carolina. Her stay is indefinite.

MRS. CHESHIRE HOSTESS TO THE WESLEY GIRLS

Mrs. H. C. Cheshire was hostess to the Wesley girls in the regular meeting on Friday afternoon. The usual social hour was enjoyed with the

members present busy with fancy work. Attendance Friday was limited by the unpleasant weather. The hostess served an appetizing salad plate with hot tea to Mesdames M. G. Catter, E. E. Trawick, Leon Deaton,

### Every Other Person Has Seborrhea

Nearly everyone suffers from the scourge of seborrhea. But there is no need for people longer to have dandruff and falling hair. Famo stops seborrhea and ends falling hair and itchy scalp. It destroys the seborrheic germ by penetrating to the hair glands. A healthy scalp results and vigorous new hair grows. Famo contains no alcohol to dry the scalp and cause grayness. It is sold on a positive money-back basis. If you are not satisfied with the results of the large bottle which costs One Dollar, your money will be returned.

There is also a small bottle of Famo at 35 cents. Famo is sold at all toilet goods counters and applications may be had at the better barber shops.

Seborrhea is a scaly, itchy, greasy film from the sebaceous glands of the scalp. The seborrheic secretion forms in scales and flakes and is commonly known as dandruff.

### LANDING OF MARINES AT TRAU RECALLS ITS PAST HISTORY AND ENDS INSIGNIFICANCE OF NAME

WASHINGTON, Oct. 11.—"Trau is conspicuous proof that history, like lightning, may strike where least expected," says a bulletin from the Washington headquarters of the National Geographic Society.

"The span of Trau's annals extends to a period before the time of Christ, and its past has been eventful, but none of these events had any marked bearing on the course of the world's history. The other day a few United States Marines were put ashore there to help preserve order; and this object lesson of what the League of Nations entails may make clear the new world order that the Paris peace conference outlined for the United States to accept or reject.

"The 2000 years or more of Trau's history were best summed up by Edward A. Freeman when he said: 'Sclavonia the parent and Spalato the child are names which never can become meaningless to any one who has a decent knowledge of the history of the world. But the name of Trau will probably always be purely meaningless.' 'Always' is a long time; and September, 1919, may mark the fore-closure of that prophecy.

"One should hasten to say that for centuries Trau has been far from meaningless to lovers of nature, beauty, of the mellowing influences of time, and of the little frequented eddies along the main currents of tourist travel. Though it might be difficult for the casual visitor to find home comforts for a night's sojourn there; connoisseurs have written rapturously of its 'bright-golden and rose-red vineyards which edge the startling blue of the sea'; of its cathedral porch, a work which, in simplicity of conception, combined with richness of detail and marvelous finish of execution, has never been surpassed in romanesque or Gothic art; and of its people, 'endowed with susceptibility for every virtue; skillful, industrious, very diligent in their own affairs, liberal, benign, polite and disposed to religion and piety.'

"The fictions loyally accepted by the residents often are more fascinating than cold fact. One would prefer to believe that the city received its name from the Greek word for watermelon, because of the shape of the island on which it nestles, rather than credit its derivation from Trahilon, whence Greek colonists came about 250 B. C. Or that the cypress bush, growing between two rocks,

which shelters a statue of its patron saint, Giovanni Orsini, was planted miraculously and is nourished mysteriously by that saint's spirit, rather than that it was put there surreptitiously by his devotees. Or that the Lion of St. Mark, over its ancient and beautiful Porta Marina, varies from its statuary type in that the book he holds once lay open with the customary 'Peace to St. Mark' inscription and was snapped shut when Venice, relinquishing the city, rather than it was placed there as it now stands because Venice was at war in 1454 when the gate was erected.

"Trau literally is a little city on a little island. It is about 16 miles west of Spalato, by the road across the connecting bridge. The town and its commune have less than 20,000 inhabitants. It breathes the air of medievalism. Many of its streets are too narrow for wheeled traffic, and too crooked to make it easy for a pedestrian to find his way about. They are vaulted frequently by arches, but there is no sense of squalor, since nearly every turn discloses some specimen of sculptured or architectural beauty. The houses, many of them built so well 400 years ago that they have never been turned down, were placed with tremendous compactness for military reasons, but relieved with all possible beauty, because Traurini-Slavs and Latins alike had a keen appreciation of the aesthetic. A reminder of this middle age culture is the house wherein was born the father of Dalmatian history, Giovanni Lucio. He was Italian; the famous western door of the cathedral, sometimes described as 'the glory of all Dalmatia,' was the work of a Croatian.

"Trau has been isolated; but also cosmopolitan. Byzantines, Hungarians, Genoese and Venetians thought it worth fighting for and the Saracens looted it. Hungary captured it; Napoleon's army took it in 1805, the Austrians gained it seven years later, and since then it has been quiescent, until now.

"King Bela IV. of Hungary, fled there after the Tartars had overrun his country, and though the pursuers, as events proved, could not take the strongly entrenched city, he proceeded to the adjoining island which still is known as Kragevac, or the king's abode, because of that incident.

"Before the world war Trau had an inconsiderable trade in fruits and wine."

## "How to Buy"

Watch the business men at the fair

THAT'S one of the things business men are expert in; they know "how to buy." Watch them purchase livestock or maybe farm machinery or anything else; they have a sharp instinct for intrinsic value; they insist on the finest quality; they know its economy.

Buy your clothes that way; we buy them for you with those things in mind, and we buy

**Hart Schaffner & Marx Clothes** because they're all-wool, stylish, serviceable, carefully tailored; because they give you more for your money than any other clothes.

There may be other clothes that offer good quality, but there are no other clothes that you can be absolutely sure of. You get your money back if you think the clothes don't deliver as much satisfaction as you think you have coming.

### ROOSEVELT MEMORIAL DAY AT FAIR OCTOBER 27TH

DALLAS, TEX., Oct. 7.—Roosevelt Memorial Day will be observed throughout Texas on Monday, October 27th. On this date the birthday of Col. Theodore Roosevelt, exercises will be held in every public school and practically every college of the state and United States. Non political and non partisan, it is the desire of the Roosevelt Memorial Association that the teachings of Col. Theodore Roosevelt on Americanism be revived and cultivated among all young men and women.

State Superintendent of Public Instruction, Miss Annie Blanton, has announced that the date would be observed in all public schools of the state. This same observance is being held in public schools in practically all other states. Previously the many college presidents who are serving as members of the State Executive Committee assented not only to the observance of the date but also to the organization within their respective institutions of Roosevelt Memorial Societies.

The Texas campaign in the interests of the Roosevelt Memorial Association is perfecting its organization. In approximately two hundred counties, organizations have been arranged and plans are being outlined for the active campaign to be conducted during the week October 20, October 27th inclusive for the purpose of securing funds to provide a suitable memorial to Col. Roosevelt both in Washington and La Oyster Bay.

At the recent meeting in Dallas, Judge W. F. Ramsey, formerly of the State Supreme Court and now of the Federal Reserve Bank made an appeal to the people of Texas to get behind the movement and insure its success. Many other prominent Texans are taking an active part in the campaign.

A booth has been secured at the Texas State Fair and literature will be distributed explaining the movement and urging assistance. No memberships will be solicited nor funds asked. The effort will be made to have activities of this nature conducted through the county organizations. Texas State headquarters are located at 1600 I-2 Main street, Dallas.

# RED CROSS BUSY NOTWITHSTANDING THE WAR IS OVER

### LOCAL CHAPTER HOME SERVICE SECTION FINDS OPPORTUNITY FOR WORK.

### SUMMARY OF ACTIVITIES

Statement is Submitted That Public May Know Extent of Local Service.

Wichita Falls' chapter of the American Red Cross is experiencing some of the busiest weeks in its history, despite the fact that for almost a year now there has been no necessity for surgical dressings or supplies for the hospitals at the front. The home service section, which was overshadowed by the great war, and the war work that the institution was responsible for, has been active in Wichita Falls since the cessation of hostilities and the trained nurse, Miss Louise Kodadek, in her September report shows a total of 546 visits made during the month of September and a total of 51 cases treated.

The home service work of the Red Cross is now able to be more actively prosecuted and the local chapter's funds, and the time of Miss Kodadek is spent in visiting and the needy families of Wichita Falls. Miss Kodadek is also giving instruction to classes in home nursing and first aid in different parts of the city. In order that the people of Wichita Falls may fully appreciate what is being done by the Red Cross, the following summary of work for the past month is given:

Number of cases visited, 456.  
Number of treatments given, 328.  
Number of cases, 51.  
Number of cases discharged, 42.  
Old cases beginning month of October, 9.  
New cases beginning month of October, 6.

Diseases nursed:  
Small pox, 8.  
Typhoid, 2.  
Tuberculosis, 1.  
Malnutrition, 5.  
Infected wounds, 7.  
Erysipelas, 2.  
Miscellaneous, 18.  
Babies on formula, 7.  
Total, \$1.

### CHEMIST WINS LASTING GRATITUDE.

"I tried several doctors and all kinds of medicine, and had about given up all hope of getting better. I did not think it possible that any medicine could be so wonderful in its effect as *Mary's Wonderful Remedy* has proven in my case. You sure have won my lasting gratitude. I could not work at all and had constant pain in my stomach before taking your medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. —Jack Taylor and druggists everywhere. (adv)

### EPISCOPAL CONVENTION WANTS EARLY ACTION ON THE TREATY OF PEACE

DETROIT, MICH., Oct. 11.—"Early action" on the peace treaty with such effective guarantees as the Senate may consider advisable "to protect the world from conditions that may menace its peace" was the sense of a resolution adopted late yesterday by the House of Bishops, at the Protestant Episcopal convention, in session here.

### A. M. JAMES DISPOSES OF INTEREST IN BANK LOCATED AT DALHART

DALHART, TEX., Oct. 11.—A deal was consummated today whereby the controlling interest formerly owned by A. M. James in the Midway Bank and Trust Company of Dalhart was acquired by R. M. Cook, active vice-president of the Interstate National Bank of Kansas City and his nephew, Chas. C. Woods, president; W. E. Farwell, cashier; S. E. Brown, assistant cashier; L. B. Steele, secretary. This new connection with one of Kansas City's strongest financial institutions will afford a long needed opportunity to develop the locally large cattle loans of this vicinity.

### KEMP GOES TO ATTEND COTTON CONFERENCE TO BE HELD DURING WEEK

J. A. Kemp left Friday night to attend the international cotton conference at New Orleans this week. This conference will be attended by cotton men from all over the world, including about eighty of the leading bankers and manufacturers of England. Mr. Kemp is chairman of the Texas representation. Measures for the stabilization of cotton prices will probably be brought before the conference. Mr. Kemp has been prominent in the effort to secure a fair price for cotton for several years and his selection as chairman of the Texas delegation was a recognition of his efforts in this line. Mr. Kemp was optimistic over the possibilities that beneficial results would follow the conference.

### POLK AND LEWIS ARE LEADING CANDIDATE FOR AMBASSADOR TO ITALY

WASHINGTON, Oct. 11.—Under Secretary of State Frank B. Polk and former Senator James Hamilton Lewis are leading candidates for the vacant post of Ambassador to Italy, according to information in well informed circles today. Henry P. Fletcher, ambassador to Mexico, who has been mentioned for the post, will return to Mexico City, it is said. Let the Times Job Printing Co. take care of your printing wants. We believe we give good service. 135-11c

### JOE JONES ELECTED VICE PRESIDENT OF 36TH ASSOCIATION

Joe H. Jones of this city was elected vice president of the 36th Division Association at Dallas at the first annual meeting of the Association last Friday. Dr. J. H. Hulien of Houston was elected president of the association. Mr. Jones served as a sergeant in the Supply Co. of the 142nd regiment. His election came as a complete surprise to Mr. Jones who was seeking no honor from the association. A large number of Wichitans who served in the 36th division attended the reunion. Members were in attendance from many points over Texas and Oklahoma and the meeting was a most enthusiastic one.

### WORK IS SUSPENDED ON STAMFORD LAKE

STAMFORD, TEX., Oct. 11.—Work on Lake Penick on the Clear Fork has been temporarily suspended on account of high water resulting from recent rains. No damage has been done to the construction already as the work was not advanced enough.

### QUITE A DEMAND FOR DODGE BROS. CLOSED CAR

McFall Brothers, dealers in Dodge Brothers motor vehicles, report many sales on closed cars during the past month and several unfilled orders on file. In Dodge Brothers four-door sedan and three-passenger coupe, every attention has been given to details that enhance the pleasure of motoring. These models are manufactured exclusively in Dodge Brothers plant, which fact is an assurance that the best of material and workmanship is used in their construction, backed up by years of experience in manufacturing and the careful inspection given these cars before shipment. The sedan and coupe are finished in rich upholstery, the same grade and material as used in the more expensive motor-cars. The equipment of cord tires and wire wheels, with one extra wire wheel, adds materially to the appointments of these cars. The closed car season is now at hand and with additional shipments promised during the next few weeks it would be advisable for those interested in an early purchase of the sedan or coupe, to investigate these models at the salesroom of McFall Brothers.

The well known integrity and ability of the men directing the affairs of the National Bank of Commerce, and the genuine interest which these men have in Wichita Falls' prosperity is assurance of good banking service to Wichita Falls' business men. 135-11c

### Ugh! Calomel Sickens; Salivates!

Please Try Dodson's Liver Tone  
I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out—Your head is dull; your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into sour bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a bottle of Dodson's Liver Tone for a few cents under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine; your liver will be working, your headache and dizziness gone, your stomach will be sweet and you bowels regular. You will feel like working; you'll be cheerful, full of vigor and ambition. Dodson's Liver Tone is entirely vegetable, therefore harmless and can be taken by the most delicate. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

### ADITORIAL

The line between success and failure—between a greater or a lesser degree of success—is sometimes exasperatingly small. A store may possess all the requirements that make for success except the vital one of actually achieving it. Just a little more care—a little more promptness—a little more tact—a little more cheerfulness—a little more desire to please—a little more quickness in catching an idea and giving it expression—a little more reliability is all that is needed to sway the balance—to lift that store out of the crowd and develop an individuality that will receive prompt recognition. Many stores possess the wherewithal, the opportunity, the ability to do this, but many of them fail to appreciate the necessity. Obeying to a nicety all the tenets of service and courtesy, we endeavor to maintain the high standards we set long ago, and our success may be credited to our unwavering efforts to be better than the rest.

# NOTABLE INCREASE IN OPERATIONS IN CLAY COUNTY

PRACTICALLY EVERY PART OF  
THE COUNTY BEING TESTED  
FOR OIL.

## REPORT ON WELLS DRILLING

List Includes Some Wells That Have  
Reached Interesting Stage of  
Development.

Special to The Times:

HENRIETTA, TEX., Oct. 11.—Individual operations in Clay county, outside the Petrolia field, are increasing in number, and practically every part of this county is being tested for deep oil sands, promising interesting developments in the coming months.

A report from various tests under way follows:

Nipissing Mining Co. A. B. Edwards ranch, four miles north of Henrietta, section 7, Memphis, El Paso & Pacific Railway Co., is drilling at 1,800 feet.

Scalping Oil Corporation, Scalping ranch, twenty miles southwest of Henrietta, section 14, Houston Tap and Brazoria Co. survey, is drilling at 600 feet.

National Oil Fields Co., Stanfield ranch, fifteen miles northeast of Henrietta, Wylie Morse survey, has reached a depth of 1,850 feet.

Depositors Oil Co., Stanfield ranch, fifteen miles northeast of Henrietta, Z. L. Stringer survey, is drilling with a rotary at 2,000 feet.

H. H. Temple, No. 2, H. Boddy ranch, nine miles northeast of Henrietta, block 14, Angelina county school land, spudded in and the drill is at 200 feet.

Silk-Langford well on block 1891, Texas Emigration and Land Co. survey, is working actively with the drill around 3,200 feet. This well is practically on the line of Clay and Archer counties and is to be a 4,500-foot test in an effort to prove up a sand similar to that found in the Ranger field.

Prudential Securities Co. is drilling around 1,600 feet on its well, Kelt's farm, block 39, Kemp & Newby subdivision, nine miles west of Henrietta.

Elk-Petrolia Oil Co. on the Joe Douthitt ranch, twelve miles almost due north of Henrietta, is drilling at 600 feet.

Weymann Oil Co. on Stanfield ranch, three miles northeast of Henrietta, P. C. Harraess survey, is installing machinery and preparing to make a thorough test of all sands.

Southwest National Petroleum Co., on the E. L. Taylor tract, block 189, Byers Bros. subdivision, two miles north of Byers, has suspended operations temporarily on account of a warped casing, with four joints pulled off.

Cueba-Dome has a rig on M. Cueba ranch, section 21, Montague county school land, nine miles northeast of Henrietta. This dome is the highest point in Clay county, and the structure has been pronounced very favorable by a number of noted geologists.

H. H. Temple No. 1 on H. Boddy ranch, block 22, Angelina county school land, nine miles northeast of Henrietta, is a rig.

Clay-Tex Acreege Syndicate has a

# CONGRESSIONAL OIL COMPANY ACQUIRES A LARGE ACREAGE

Arrangements whereby the Congressional Oil Company will acquire the holdings of the Texas National Petroleum Company, consisting of more than 4,000 acres, are under way.

The company has plans to begin active operations for drilling within the next thirty days.

Big Six Oil and Gas Co. has a rig on block 31, Graves subdivision, Orange county school land, E. Collier ranch, four miles south of Henrietta. The company has plans to begin active operations for drilling within the next thirty days.

Washington, Oct. 11.—The United States army is definitely launched in the field of vocational training for motor transport corps. It has no objection in the matter, for men skilled in automotive vehicle operation and repair do not exist in anything like adequate numbers for the requirements even of civil life; and the war with Germany has demonstrated that no matter how good our army may be in other respects, its efficiency will be conditioned by that of the motor transport branch.

Therefore, the army is organizing schools to train men in various branches of automobile repair, construction and operation. They are real schools under trained teachers where the time of the pupil is wholly devoted to receiving instruction.

Apart from the military necessity, the automotive industries will benefit by the establishment of this training system.

The United States Civil Service Commission is receiving applications to fill 150 positions of assistant instructor in motor transport training schools. The entrance salaries range from \$1,800 to \$2,400 a year. Detailed information may be obtained from the United States Civil Service Commission, Washington, or from the secretary of the U. S. Civil Service board at the postoffice or custom house in any city.

Drilling report for the Ajax Oil Company for the week ending October 11, is as follows:

Well No. 2, block 89, drilling at 550 feet.

Well No. 3, block 86, shut down at 1050, account repairs.

Well No. 1 (Ranger), Dean tract, drilling at 1,000 feet.

### IMPORTANT DEVELOPMENTS SHOWN IN WEEKLY REPORTS FROM FIELD

Weather is proving a very disagreeable factor in the developments of the entire Wichita Falls district, and the week of bad weather, which has been experienced, has resulted in what amounts to a shut down, not only in developments, but in news from the field as well. Travel in the field is not only impracticable, but is practically impossible, at nearly all points, and the only safe means of locomotion in the mud is "shanks mare" or "hay-burner," and the hay-burners are rather scarce in this section, while very few folks care to mislead their faithful pedal extremities by taking them out in such mud. A cut who said, "When Mister Henry says to stay at home, I stay too," stated the situation succinctly and here have been no efforts made to improve on his explanation.

The three most interesting phases of the week's developments, there have been some developments, in spite of the bad weather, is the report, which is from authentic sources, of an oil sand below 1600 feet in the Kamp-Munger-Allen deep test on the Munger ranch, west of Iowa Park; the completion of the two new wells in the shallow south Burk Burnett field, the Shappell and Texhoma wells on the Daniels; and the finding of an oil sand at 1685 feet in the Skyline company's test on the Holman farm, in the north part of Block 818. From the first and the last future developments will be awaited with interest, while the second confirms the confidence operators expressed a week or so ago, that a rich new shallow sand had been opened up south of Burk Burnett.

Several additional completions, supplementing the list published earlier, are reported from the northwest. The Benson Oldham or Marie Elizabeth, if it is known, has been completed by J. I. Staley, who took over the contract, and is reported better than 500 barrels. This is on the north line of Block 88, Benson Oldham's No. 1. Also, also in Block 88, is reported good for 1200 barrels. The Golconda Oil Company No. 2 is reported to have completed its No. 1 well, also in Block 88, estimated at 1,500 barrels. Other recent completions reported include: Western Oil Corporation and Pat Casey, No. 2 Taylor, Block 97, 500 barrels, same No. 3 Taylor, 1,500 barrels; same No. 5 Taylor, 1,500 barrels; Swindler et al, No. 1 Elsea, Block 88, 1,200 barrels; O'Neal et al, No. 3 Vogel, Block 74, 1,250 barrels; Nabor and Brandage, No. 1 Taylor, Block 93, 2,500 barrels; Livingston Oil Corporation and Bryan Brothers, No. 2 Taylor, Block 97, 1,600 barrels; Mid-Co. Petroleum, No. 1 Taylor, Block 97, 2,500 barrels; J. I. Staley & Company, No. 2 Taylor, Block 96, 750 barrels.

Owing to the bad weather the drilling summary is very short this week, including the following:

Dark George Oil Co., No. 2 W. F. George, drilling around 1,400 feet.

Burk Sheffield Oil Co., No. 1 W. F. George, standardizing.

Mo-Tex Oil Co., No. 1 W. F. George, standardizing. This well has made a flow but is now reported rigging up a stand ard, the well blowing itself in before final completion.

Carov Brothers, No. 2 Elsea, block 88, standardizing.

Special to The Times.

VERNON, TEX., Oct. 11.—The receipt by local grain dealers of permits covering the shipment of special cars of grain to the Galveston ports has been interpreted by grain men as evidence of an early relief of the freight congestion which has amounted, practically, to an embargo in this county for nearly all the summer. Thousands of dollars are tied up in grain stored in granaries over the county and the marketing of this crop will serve to relieve, considerably, the tenancy of the economic strain resulting from the embargo.

The National Bank of Commerce affords its customers every commercial banking service and supplies it in the spirit of intelligent and cordial cooperation.

## Look at the Essex

Do as 10,000 Owners Are Doing, Compare its Qualities With Large Costly Machines, the Only Type by Which Essex Performance Can Be Compared

### From this Viewpoint

We ask you to ride in the Essex that you may know how it matches the performance of costlier, larger cars.

Until you have experienced its performance you will not know that it is an unusual car.

Its size and cost naturally leads you to regard it as you do other cars of similar size.

But 10,000 owners and other hundreds of thousands of motorists know that except for its price, its size and the economy of its operating cost, the Essex bears no relation to even cars of the better quality light weight medium priced class.

**Choose the Essex for Performance**

Any Essex owner will tell you the most inspiring things about acceleration and speed.

We have many customers who tell us they prefer driving the Essex to any car they have ever known.

Its ease of operation, the power which eliminates much gear shifting, the speed that puts the Essex in the lead of any car they wish to pass, are qualities that account for much you hear among motorists.

**Endurance too, is Now Evident**

Remember the Essex has seen hard service. Its performance range is so large, owners use their cars on trips heretofore undertaken only by larger cars. The Essex has shown it has no narrow limitations. It is safe to use for any trip you would undertake with any automobile.

It meets every service and Essex owners tell their friends how little attention they are required to give their cars.

**Let Those Qualities Decide You**

Regard the Essex in the service you expect from it, as you would any car regardless of size or cost.

If the Essex were as large as the cars whose performance it matches, the price would have to be as high.

But because it has no useless length or useless weight, costly car quality in every detail, is possible with proportionate saving in cost.

Let us show you the Essex in the way that reveals its true qualities.

There is a five-passenger touring model, a sedan for five and the roadster.

Each is as beautifully and completely done as any car you could want. Think how people endorse the Essex. The sole reason for their enthusiasm is Essex quality.

Add your personal experience to what everyone is saying for the Essex.

We have more than 50 Essex Cars enroute from the factory and can make delivery in all models.  
Price \$1775 delivered, including freight and war tax.

# MOTOR TRUCK IS DESTINED TO REVOLUTIONIZE WHOLE FREIGHT MOVEMENT OF UNITED STATES

In handling freight by motor truck two principles are involved: first, speed; second, cost. Every question in connection with the use of motor trucks falls under one or the other of these heads.

In comparing railway freight charges with motor trucks freight charges it is necessary to include all the incidental items of expense connected with them.

Sometimes manufacturers figure that a railway freight rate of 50 cents per hundred pounds is cheaper than a motor truck freight rate of 75 cents per hundred pounds between the same points. In the freight rate of 50 cents all the expense of making the shipment, starting with the boxing or packing cost, and all other expenses incurred until delivery is made to the receiver in good order, have been overlooked.

The general traffic manager of one of the largest manufacturing concerns in the United States figured out what it cost them to ship freight by railroad and by motor truck between various eastern points. In railway freight cost he included the first class freight rate, by which their goods would have to be shipped, plus 15 cents per hundred pounds teaming charges from shippers warehouse to freight house, 15 cents per hundred pounds teaming charge from freight warehouse to receiver's warehouse, plus 24 cents per hundred pounds increased cost of boxing to cover shipments on account of increased weight caused by increased boxing.

Without including several other items of expense, this gave the following table of comparative freight rates per 100 pounds:

From	To	Via Freight Truck	Via Motor Truck
Yonkers	New York	\$1.04	\$2.00

In addition to this, it is necessary in practically every case to prepare material for freight shipment in an entirely different way than when it is shipped by motor truck direct from shipper to receiver. There is a considerable additional expense for crating, or to protect by other means to prevent loss or damage in transit. This extra expense is necessary because of the number of handlings less than carload shipments received at the hands of the consignees and carriers after the material leaves the shipping department. This increased protection and expense can be greatly reduced if shipments are made by motor truck, as the packages only need protection for loading at shipper's warehouse, in transit without

transfer, and unloading at receiver's warehouse. Then in shipping by motor truck, instead of by rail, a great amount of clerical work in the form of extra bookkeeping, billing, etc., is eliminated. Where extra packing is necessary extra room is required for the boxing department. Then if railway freight shipments are delayed there is the additional trouble of tracing them. If the shipment arrives in damaged condition there is the further difficulty of collecting from the railroad company.

Contrasted to this is the example of Marshall Field & Co., who guarantee to make delivery within 50 miles of their store within 24 hours, so well is their motor transportation system organized.

Boxing often carried from 10 per cent to 20 per cent of its weight in moisture, unless it is kiln dried prior to boxing. The Otis Elevator Co. estimates that by the use of motor trucks it saves more than \$100,000 a year in lumber alone.

Delivery time is all in favor of the motor truck and if manufacturers will take into account all the various costs and charges which are part of true freight transportation costs, they will find that motor trucks can be operated successfully and economically in competition with railways for distances between 10 and 125 miles.

In figuring the cost of operating trucks there are many faulty systems in use. These systems overlook many items which find their way into the expense account and often they cause considerable loss to the operator who overlooks them. The following table gives items of cost which must be determined upon the basis of size of truck, miles traveled and tonnage hauled:

**Assumption—**  
Working days per year.  
Miles per day.  
Miles per year.  
Miles in life of car.  
Investment.  
Chassis with standard equipment.  
Body.  
Fixed Charges—  
Interest on investment.  
Fixed depreciation (exclusive of tires).  
Wages.  
Garage rent.  
Operating charges—  
Maintenance.  
Tires.  
Gasoline.  
Oil and grease.  
Total cost per annum—  
Operating cost per day.  
Total cost per ton mile.

Often trucks will do unusual mileage at surprisingly small costs for repairs. The 2-ton truck operated by M. Mauro of Plainfield, N. J., has traveled 45,000 miles with practically no expense for repairs. Another in the service of the List Brewing Co., of Plattsville, Wis., has traveled 30,000 miles and the only repair expense incurred was \$65 on account of the driver allowing the motor to freeze up last winter. Such remarkable service as this cannot always be expected; but these instances serve to show the possibilities of a good truck if given reasonable care.

# DEALERS REQUESTED TO CO-OPERATE IN AVOIDING DELAYS

DETROIT, MICH., Oct. 7.—Quick and concentrated action toward the relief of the threatening freight car shortage is being undertaken by the automobile industry. The efforts at present are being directed primarily against unnecessary delays in loading and unloading and in preventing the holding of cars for "prospective movements."

As they did two years ago, when the freight car shortage reached an alarming stage, Dodge Brothers, Detroit motor car manufacturers, have asked their entire organization, which extends to virtually every locality in the United States, to co-operate in the "speed-up" campaign. A Dodge Brothers executive commented on the situation as follows:

"We have asked all our dealers to notify us by wire as soon as they discover that an automobile freight car or a string of cars is being unnecessarily held up. We are positive that hundreds of such cars are on the sidings, particularly in the western districts. Presumably these cars are being held for 'later consignment,' but we must eliminate the 'later' and get these cars moving now. We emphasized our statement that dealers themselves should not be under no circumstances lose time in unloading and turning freight cars back to the railroads. If every trifling delay is eliminated the situation will be much less severe than the present outlook indicates and motor car dealers will benefit to a degree proportionate with their efforts to relieve shortages."

It was added by the executive that there are fewer freight cars in active service now than at any time in the last three years.

The campaign undertaken by Dodge Brothers is in line with the advice of the director general of the railway administration, who conceded a few days ago that there was grave danger of a

freight car shortage. In asking shippers to give their co-operation, he suggested prompt loading and unloading of freight cars, and hauling by motor truck as the most important means of affording relief.

# GREAT BRITAIN URGED TO BUY HER FOOD FROM THE BRITISH DOMINIONS

LONDON.—Instead of buying food from the United States and South America, Britons are urged by Sir Charles G. Wade, agent general for New South Wales, to buy food from the British Dominions.

"However great may be the disarming power of the League of Nations I cannot close my eyes to the possibility of another world wide conflagration and the risk of our supplies being cut off," said Sir Charles. "In our own interest and for the purpose of national defense this country must be self-supporting. What we cannot produce within this island must be imported, and self-interest demands that we shall insure a constant supply of raw materials from our own kith and kin on whose cooperation we can rely, rather than be at the mercy of the changeable good will of a foreign nation."

"Our export trade again is seriously menaced alike by enemy and Allies. Already the United States and Japan have made incursions into British supremacy in the East. Both of these nations are already equipped and ready for keen competition in commerce with the United Kingdom, while this country is suffering from an epidemic of increasing cost and diminishing output."

"To recover or maintain British markets a friendly field in the Dominions will be a great help, and a preferential tariff may stave off the danger of under-cutting by foreign competitors."

# WEST TEXAS FARMER FACES TWO PROBLEMS

DALLAS, Oct. 7.—West Texas farmers face two very difficult problems at this time, the harvesting and marketing of immense crops of cotton and grain, according to Walton Pettee, representing the cotton classing and marketing work of A. & M. College and the United States Bureau

of Markets. Mr. Pettee has just returned from an extensive trip through the west.

"The cotton and grain crops in the west," he said, "are very large and far beyond the ability of the labor now on the ground to harvest. Immense stacks of grain are to be seen at every railroad station and on almost every farm, while many thousands of acres of grain sorghum are yet to be harvested. The market for these grains has declined recently to a point well below the cost of production and farmers are faced with the alternative of losing their grain, as there is not sufficient storage space nor, indeed, are there enough

railroad cars available to haul it to market.

"Many laborers from other sections are now going to the west to work in cotton fields, but the supply is wholly inadequate."

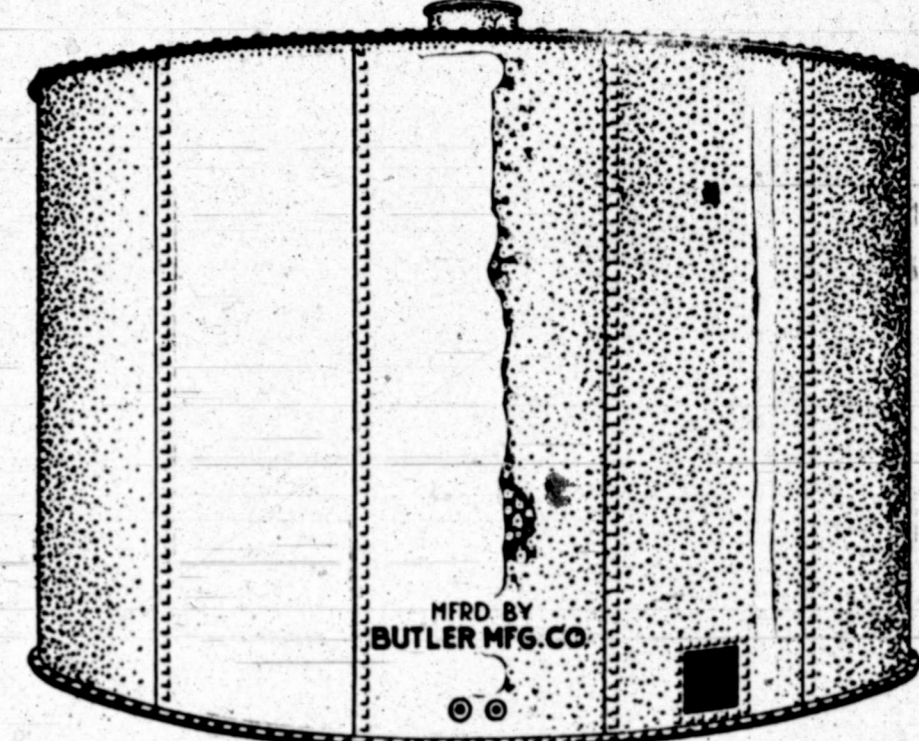

Mr. Pettee says the weather has lowered the grade of much of the cotton now coming to market and that substantial premiums are paid for good grades and staples above an inch in length.

**Where Can I Find Relief From Itching, Terrifying Eczema?**  
Question on Lips of Afflicted.  
There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source, which is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., which acts by cleansing the blood. Get a bottle to-day, and you will see results from the right treatment. **The Buick Steering Gear**  
The Buick steering gear has been designed to combine the attributes of safety and ease of operation.  
The principal advantages are entire relief from road shocks being transmitted through the steering mechanism, and ability to follow the tracks in mud or sand without wearisome maneuvering and without the danger of jumping the ruts. So that the easy handling of the Buick steering mechanism will be appreciated by all drivers.  
As a result of this design, the factor of safety in Buick steering gears is very high. And because of the leverage provided by the large steering wheel, anti-friction bearings and the positive lubrication of every part, the car may be operated for many hours at a time without fatigue to the driver.
