

BE IN LINE FOR PREPAREDNESS TOMORROW MORNING
SOUTHERN DEPARTMENT OF ARMY DIVIDED
UP AND FUNSTON'S COMMAND IS SMALLER

INCREASE IN EFFICIENCY EXPECTED FROM CHANGES

By Associated Press. Washington, July 3.—With more than 150,000 troops assembling along the Mexican border, the war department today took steps to decentralize direct administration of 1800-mile frontier in the interest of efficiency, probably to pave the way for the appointment of a supreme commander to coordinate all military activities on the international line.

The border, formerly in the southern department, from the Gulf of Mexico to California now is divided into three military departments commanded by Major General Frederick Funston, Brigadier John J. Pershing and Major General J. Franklin Bell. War department officials said the new order which automatically relieves General Funston of supreme command on the border and the enormous responsibilities that have crowded upon him, has no significance as indicating preparation for war.

There was no announcement in regard to the probable selection of a senior major general to be in command of the border guard and field forces. There are indications that Major General Leonard Wood, former chief of staff, now commanding the department of the east, is being considered in this connection.

The war department announced today that the order creating a new department to be known as the New Mexico department to be commanded by Brigadier General Pershing, had been temporarily suspended pending the readjustment of minor details of the arrangement.

The new order is the promotion of General Pershing under the army bill now effecting. It provides for three additional major generalships and it is thought General Pershing will be given one of these posts in recognition of his services in his pursuit of the Gadsden bandits.

The present southern department is divided as follows with assignments of command as indicated: A. The southern department, to be under command of Major General Frederick Funston, to embrace that part of the present department to a line east of El Paso.

B. The department of New Mexico with headquarters at El Paso, to be established under command of Brigadier General J. J. Pershing, to extend from western boundary of southern department to the 109th meridian.

C. That portion of the southern department west of the 109th meridian to be assigned to the western department under command of Major General J. F. Bell with field headquarters for same at Douglas, Ariz.

General Bell is now in command of the western department with headquarters at San Francisco. He is at present chief of staff of the army.

Pending the appointment of an officer to supreme command the functions of the three departments will be coordinated through the war department.

FUNSTON GIVEN LESS TERRITORY AT OWN REQUEST

REORGANIZATION OF SOUTHERN DEPARTMENT IS MADE UPON HIS RECOMMENDATION — MAY PROMOTE PERSHING.

MORE TROOPS COME

Train After Train Arrives and Proceeds to Border and Mobilization Proceeds Rapidly, Being Now Nearly Complete.

By Associated Press. San Antonio, Tex., July 3.—Uninterrupted progress in the mobilization of the national guard was made today and General Funston and his staff studied maps that showed an army along the border line of more than 65,000.

To augment this number troop trains were reported busily moving from north and east while scores of freight trains bearing supplies and equipment were moving towards depots designated by the quarter master's department.

Secretary Baker's order, placing the American army stretched along the Mexican border, under three commanding officers, reducing Major General Funston's command to those troops the Texas line was recommended here as further indication that the administration was preparing to use all the forces at its command in dealing with the Mexican situation.

The division of authority along the border was recommended to the war department two weeks ago by General Funston who suggested to the department that if general field operations in Mexico were undertaken greater efficiency could be obtained with three major generals.

In his recommendation General Funston suggested that his command be reduced to a line from the Gulf to a point a short distance east of El Paso leaving El Paso in the district that has been placed in charge of General Pershing.

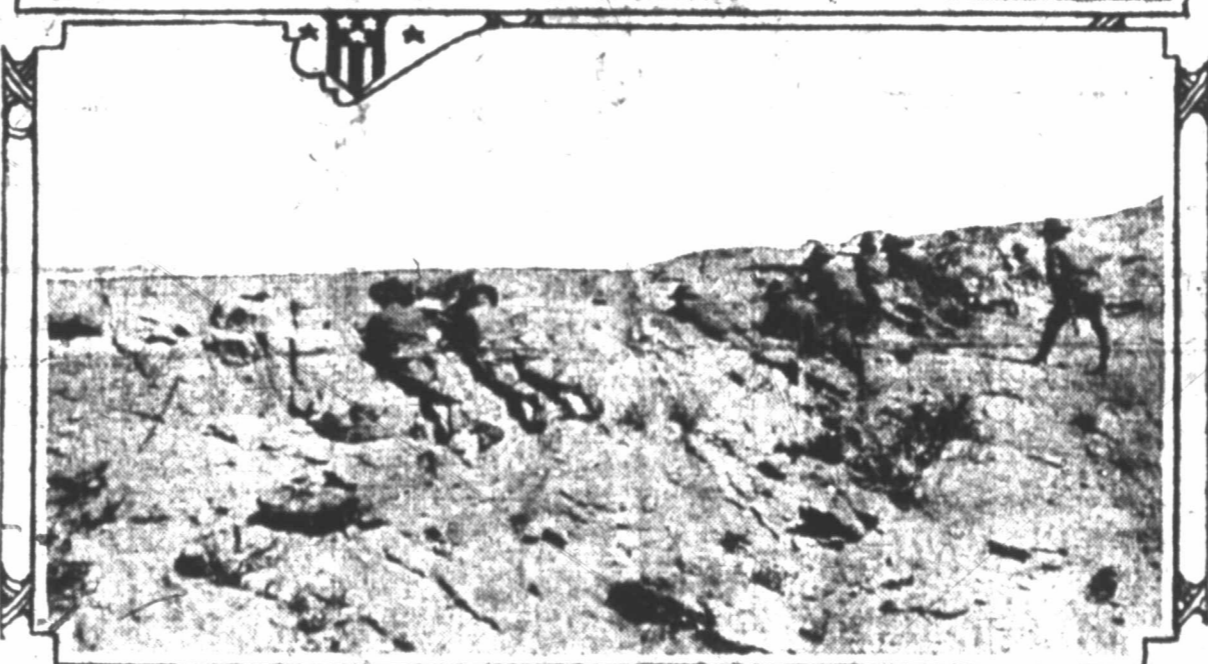

Trains bearing guardsmen and supplies began crowding regular trains onto the sidings early today but railroad men were confident that the mobilization would be completed without serious congestion of freight and passenger trains.

The guardsmen's camp was not increased here today but reports of the arrival of more men at other points were received. Additional troops reached Laredo and the First Illinois Cavalry were due at Brownsville probably tonight. The Second Kansas reached Eagle Pass and the Massachusetts Field Artillery went in to camp at El Paso. Two sections of the New York Cavalry passed through Denison, Texas, on route to the Brownsville district. The Fourth New York Infantry also passed Denison on the way to Brownsville.

The first Wisconsin troops to get into the south will be a battery of field artillery and a troop of cavalry. They are expected here tomorrow and will go into camp near the Hillside.

Reports from the border indicated no disturbances last night or early today. The expedition into Mexico below Fort Hancock came to an end last night when Captain Eiding returned to the American side without having encountered any bandits. General Pershing continued his scouting with aeroplanes over the Mexican line.

MEXICAN CALLS "PECULIAR NATURAL CONDITIONS" HIS COUNTRY'S DEFENSE

"SOMEWHERE IN MEXICO"

"All the good people of both countries ought to get together and work for peace, for war, if it comes, will be hell on earth while it lasts, and it will last a long time. Andras Garcia, the Mexican consul at El Paso, said: 'The United States will have to face a united people and a people determined to fight to the last ditch.' He continued: 'Besides, we have more than 200,000 veterans, trained to a style of warfare that makes the best use of our peculiar natural conditions. The Americans will encounter heavy losses in exterminating the Mexican people, for that is what the war would be. War would mean a terrific destruction of property in Mexico, as we realize. The estates of the wealthy reactionaries, who are responsible for the present embroilment, will be turned into deserts. Every means ought to be taken by both sides to avoid this threatened destruction of life and property.' Two views of American soldiers in the 'peculiar natural conditions' mentioned by Senor Garcia are seen here. They are pictures of American troops clambering over rocks in northern Mexico and bring from behind sand heaps.

TROOP TRAIN FIRED UPON NEAR ABILENE

Bullet Hits Engine Cab—Soldiers Not Allowed to Hunt for Guilty Party

By Associated Press. Abilene, Texas, July 3.—One shot was fired on a troop train eight miles west of here Saturday night the bullet striking the engine cab near the engineer it was reported today. When the train was halted a mile further west soldiers are said to have wanted to return and search for the person firing the shot but permission was refused by officers in command.

ANOTHER CARRIZAL PRISONER RETURNS

Corporal is Brought to Juarez by Mexicans—Troop Trains Continue to Arrive

By Associated Press. El Paso, July 3.—Corporal F. Cooke, the twenty-fifth survivor of Carrizal to be taken captive by the Mexican troops was being held in custody today in Juarez. General Goetz, Mexican commandant, announced however, he expected to receive authority from General Trevino today to return Cooke who was captured over a week ago at Villa Ahumada.

Reports from the border indicated no disturbances last night or early today. The expedition into Mexico below Fort Hancock came to an end last night when Captain Eiding returned to the American side without having encountered any bandits. General Pershing continued his scouting with aeroplanes over the Mexican line.

ILLESS FATAL TO HETTY GREEN, RICHEST WOMAN

SUCCUMBS TO PARALYSIS THIS MORNING AFTER SEVERAL WEEKS' SICKNESS—HAD SUFFERED SEVERAL STROKES.

LEAVES BIG ESTATE

Estimates Range From \$20,000,000 to \$100,000,000—Thriftness in Spite of Wealth Chief Characteristic of Notable Woman.

By Associated Press. New York, July 3.—Mrs. Hetty Green, said to be the wealthiest woman in the world, died at her home here today at 8:05 a. m. Mrs. Green had suffered three strokes of paralysis during the past two months and for several weeks had been practically helpless. Her death occurred at the home of her son, Col. Edward H. R. Green at No. 5 West 90th street.

Wall street's estimate of her fortune ranges from \$20,000,000 to \$100,000,000. Hetty Green was the world's most remarkable mistress of finance. Her fortune she has left is close to \$100,000,000. The richest woman in America, she lived almost as frugally as a shop girl. Her home was wherever she chose for a time to hang her hat on the black cape and bonnet, often in the hall bedroom of some cheap boarding house or in some remote and modest flat around New York.

Her eccentric extremes of economy led to a popular misconception of her as a "self-made woman." As a matter of fact she was born rich. In 1865 she inherited some \$25,000,000 which accumulated upon itself until in fifty years it had multiplied nearly ten times. She also inherited family traditions which had been a bride for three centuries and which she was anxious to perpetuate in her children.

She was born at New Bedford, Mass., in November, 1834 about the 20th, according to her testimony at one time in court. She was a descendant on her mother's side of Henry Howland, brother of Pilgrim John Howland of the Mayflower, who named the place after Bedford, his family home in England. In succeeding generations the Howland family became famous in the whaling industry and shipping trade with China, and had an irreproachable social standing. Edward Mott Robinson, who had also amassed a fortune in a similar way in New Bedford, married Abby Howland, of whom Hetty Robinson, the future mistress of finance, was born. She was sent to a Quaker school on Cape Cod and to a Seminary in Boston, and got her first lessons in finance when her aging father entrusted her with some of his books.

She was just 30 years old when her father died suddenly leaving her his nine millions, one million outright and the income from the other eight, the principal to be held in trust for her children. It is forgotten that Hetty Robinson, then Robinson, was belle in New York society. According to her own stories she "often danced the whole night through" and that the aunt expressed the hope that Hetty would some day become, as she did, the richest woman in the country.

The division of the aunt's estate, however, was not as expected. Three years after the aunt's death Hetty Green appeared in the United States circuit court in Massachusetts with a will which she had substituted

(Continued on page 5th.)

ALLIES FOLLOWING UP GAINS ON WEST FRONT

Continue To Push Germans Back At Many Points After Initial Successes

The associated Press summarizes European war operations as follows: The marked successes won by the British and French in initiating their offensive along the western front are being systematically and successfully followed up. Heavily pounding the German second line south of the Somme, the French have captured two lines of trenches along a three mile front and have taken the village of Hebecourt, two miles east of Dombiarre. The captured village is on the road to Perrone which town is apparently the immediate objective of the French forces in this sector. It is five miles distant from the furthest thrust of the French advance.

Furious Fighting Reportee All Along Front Of Offensive

By Associated Press. British Headquarters in France, July 3.—Fighting continues intense on virtually the whole British front. Above the Ancre there has been no important change. The British have heavily bombarded Kiepval. At Laboiselle severe fighting is proceeding. North of Fricourt the British have pushed their positions forward to higher ground. The situation here is promising for the British. A heavy shelling of Mount Auban by the Germans continues. The British appear to be well established in the town. The number of German prisoners taken in the south exceeds 4000. The weather continues favorable.

ARMY PROMOTIONS SUBMITTED TODAY

Mills Nominated For Major General—Colonel Odd to Be Promoted.

By Associated Press. Washington, July 3.—Army promotions under the new reorganization law submitted to the Senate today by the nomination of Brigadier General Albert L. Mills, now chief of the militia division, to be made a major general. The following colonels were nominated Brigadier generals: Charles G. Morton, Fifth Infantry; Granger Adams, Fifth Field Artillery; George A. Dodd, cavalry, unassigned; Edward H. Plummer, Twenty Eighth Infantry; Clarence P. Townsley, coast artillery.

REFUGEES RETURN FROM WEST COAST

More Than 300 Brought Back By Transport—Fleet Now in Mexican Ports

By Associated Press. San Diego, Cal., July 3.—United States army transport Buffalo with more than 300 American refugees from west Mexican ports was reported by radio today nearing San Diego and was expected to dock before night. The Buffalo's last port of call was Mazatlan. Other advices said that Admiral Winslow commander in chief of the Pacific fleet was at Mazatlan aboard his flagship the San Diego. Five other fighting craft of the fleet also were in the same harbor. The remainder of the Pacific fleet is distributed among the various Mexican west coast ports.

PRESENT DEMAND FOR WITHDRAWAL

Socialist Labor Party Calls on President To Take American Troops Out

By Associated Press. New York, July 3.—A demand asking that all troops be withdrawn from Mexico was sent to President Wilson today by the national executive department of the socialistic labor party.

RUSSIANS OPEN NEW OFFENSIVE FURTHER NORTH

By Associated Press. Berlin, July 3.—The Russians have launched an attack against the Army of Prince Leopold on the central section of the eastern front. The war reports say the Russians succeeded in advancing at one point but otherwise were forced to retreat with heavy losses.

BERLIN ADMITS SOME GAINS FOR ENTENTE FORCES

By Associated Press. Berlin, July 3.—The war office report today says that continuation of the French and British drive on both sides of the Somme has not gained any advantage for the allies north of the river but south of the Somme the Germans withdrew a division to the second line positions.

BLAME OF IRISH REVOLT PUT ON BIRRELL'S HEAD

By Associated Press. London, July 3.—The Royal Commission which investigated the Irish rebellion in its report submitted today says the responsibility for the outbreak does not rest with Baron Wimborne, the lord lieutenant, since resigned, who is declared to have been in no way answerable for the policy of the government. The chief secretary for Ireland, Augustine Birrell, who resigned shortly after the suppression of the outbreak, was primarily responsible, says the report.

IN THE SPHERE OF WOMANKIND

The American flag. Your flag and my flag and how it flies today in your land and my land and half a world away: Rose red and blue; red its stripes forever gleam; Snow white and gold; white, the good forefathers' dream; Sky blue and true blue with stars that gleam bright; The stories, golden of the day, a shelter through the night.
Your flag and my flag, and oh, how much it holds! Your land and my land, secure within its folds; Your heart and my heart beat quick at the sight; Sun kissed and wind tossed, the red and blue and white; The one flag—the one flag—the flag for me and you, Clarifies all else beside, the red and white and blue.
—Selected.

MR. AND MRS. CARTER MCGREGOR ENTERTAIN AT DINNER

Miss Lillian Avis and Harry Baum, whose marriage has been announced to take place July 17, were honored at a dinner Sunday evening at the St. James hotel. Mr. and Mrs. Carter McGregor entertained. The table was centered with a large cluster of pink carnations and the place cards were very appropriate for the occasion. Being hand painted to simulate diamond rings. Covers were laid for eight and the menu served was: Cream of tomato soup, olives and pickles, chicken a la king, potatoes, asparagus and lemon ice; fruit salad and wafers, cantaloupe ala mode, coffee and angel-food cake. The others included the guests of honor, Miss Avis and Mr. Baum; Misses Simpson and Lillian McGregor; Messrs. Jake Avis and Bobbie Burns and the host and hostess, Mr. and Mrs. Carter McGregor.

FIBERG CROCHET CLUB MEETS WEDNESDAY

Mrs. C. A. Andrews of the Fiberg community entertained the F. M. C. club Wednesday afternoon. Officers were elected for the coming year. Miss Ruth Musgrave, being elected president. Miss Edith Faxon, vice president; Miss Mary Geyer, press reporter and Miss Lamb, secretary and treasurer. Refreshments of cake and lemonade were served following the afternoon work with crocheting and chatting. Those present were: Misses Ruth Musgrave, Edith Faxon, Ethel Mae Lamb, Mary Geyer, Ora Parker, Alma Faxon and Gertrude Williams. The next meeting will be held July 12 with Miss Ethel Mae Lamb as hostess.

WICHITA GIRL WINS HONORS AT LOCKPORT ACADEMY

Miss Ethel Bean returned Saturday night from Lockport, N. Y., where she has been attending St. Joseph's Academy for the past two years. Miss Bean brought with her a medal won for the highest grade in the school in application for the year. Her father, accompanied her home, have gone to Lockport to be present at the commencement exercises. This is Miss Bean's first trip home since enrolling in St. Joseph's two years ago and her return is greeted with much pleasure by her friends.

RENEWED ACTIVITY BY YAQUI INDIANS

De Facto Government Makes Little Progress Against Red Men Who Are Well Organized

By Associated Press. Guaymas, Mexico (By mail)—Reports from outlying districts indicate renewed activity on the part of the Yaqui Indians. This has been anticipated by these families with conditions in Sonora because the campaign inaugurated by the de facto government in January for the purpose of ridding the country of the Yaquis has not as yet been a success.

Approximately seven thousand troops were mobilized under General Diez to drive the Indians from their strongholds in the Sacatehina mountains. In the Sacatehina mountains the soldiers were equipped with the under-riding. They lacked discipline, organization and spirit and although the Mexican government may have desired an aggressive campaign, the local leaders and men had no intention of taking the offensive against the savages whose fighting ability was well known. For this reason the soldiers were ordered to operate against the warriors. The strength of the Indians is not accurately known, but is estimated as being about ten thousand of whom approximately four thousand are well armed fighting men. This force generally operates in bands of fifty to one hundred or more, which make swift and unexpected raids upon outlying ranches and villages during the harvest season and at other times if their food supply happens to run low. Spies are maintained throughout the farming districts who keep the tribe well informed and assist in the raids. The Indians dress as do the ponis with shirt and trousers of faded blue denim or khaki, usually the latter and it is more easily procurable for many Yaquis have served in the revolutionary armies. A large stray hat, not unlike that worn by northern cowboys, with brim turned down, protects them from the sun and conceals their identity when necessary; and their feet are protected in the rough country by leather sandals, garachos as they are called. This similarity of garb makes it difficult even for the best of detectives to distinguish the Indians from troops of the de facto government and as a result bands have been able to enter towns before they were actually in the news. For example, the town of San, Sonora, was raided last year. The inhabitants saw the spotted band approaching and drums rattling, but it was thought that an expected detachment of troops was arriving. Not until the soldiers were actually in the town was it realized what had happened. Men, women and children were forced out of their homes and

ONE-PIECE FROCKS OF ALL KINDS FOR CONVENIENT WARM WEATHER WEAR

Special to The Times. New York, June 28.—Just at this time of the year, when we are all of us finding the cost very irksome indeed, one-piece frocks play a most important role. Of course, there never is a closed season for them, but at this time their real charm is being appreciated. Fabrics important considerations. Aside from the simple, trim models of serge, gabardine, tulle and taffeta, which one meets everywhere on the avenue these bright days, the shop windows are gay with volles, nets, figured organdies and the dainty, interesting Tub Frocks. Of course, many of these dainty, lace-trimmed, buttoned frocks are anything but economical when one considers that they will not launder, but must be cleaned each time they are soiled. However, there are many dainty materials which will launder and make up quite as effectively—figured volles, colored handkerchief linens, crepes, many of the organdies and most of the imported novelty cottons, when simply trimmed. Particularly effective summer frock, suitable for almost any day.

Imported cottons, fashioned into frocks which are wonderfully appealing. Each day new models appear, no two exactly alike, though obviously of the same family, each obvious.

driven to the town plaza where all were stripped. Terrified and helpless they, shod with the same packed clothing, looted the houses, gathered in the horses and mules, and rode off unaccompanied with four of the young girls. The Mexican wife and family of an American, John Lehr, were carried off by the Indians during a raid upon the town of Guaymas Grande during November of last year after the seventeen-year-old son had been killed, but these captives were released last month when the Indians were forced to abandon one of their many water holes upon the unexpected approach of a vastly superior force of Mexican troops.

Want of food and clothing causes the Indians to make their forays and for this reason the productive lands of the American settlement south of the Yaqui River have been subjected to many costly incursions which have laid waste most of that region and forced the majority of the settlers to abandon their farms and return, in many cases penniless to the United States. Late information indicates that the Indians are now operating in the northward in the vicinity of Otila, a small town on the Southern Pacific Railroad, 30 miles north of Guaymas.

NINE DEFENDANTS FACE JUDGE IN POLICE COURT

Nine defendants faced Judge Whitman in the police court this morning and all were assessed fines of \$5 for carrying offenses. One party was fined \$5 for vagrancy. According to the evidence he had up quite a case on a woman down in the States and spent much of his time in that quarter. The woman was fined \$5 for putting on a big dress three last Saturday night. Two parties were charged \$5 each for carrying a sound of rattles on a passenger train through here last night. Three more drunks got the usual fine and one drunk was allowed to go without a fine. However, it was ordered by the court that he be held in jail until his train left, and he will be seen aboard by an officer. Another vagrant who drew a five dollar fine completed the docket for the morning's session.

CITIZENSHIP IS SERMON SUBJECT

REV. N. F. GRAFTON DISCUSSES THIS THEME SUNDAY NIGHT.

RIGHTS AND DUTIES

Responsibilities Go With Privileges, He Says—Draws Lesson From Life of Paul.

The glories and privileges and also the responsibilities of citizenship formed the theme of the evening sermon of Rev. N. F. Grafton of the First Presbyterian church, Sunday. Mr. Grafton's subject was announced as "Under Three Flags" and he took as

his text and subject lesson Paul's three-fold citizenship with the "sermon" of his sermon Paul's message to the Philippians, "Our Citizenship is in Heaven."
Mr. Grafton said in part: "Paul had the privilege of living under three flags, he boasted of his Hebrew nationality, declared that he was a free born Roman citizen and in our text announces that his citizenship is in heaven. There are individuals in Texas today who have lived under three flags, under the flag of the republic of Texas, under the Stars and Stripes and under the flag of the Confederate States of America. There is something in flags and banners that grips the hearts of men, something in them that makes a man willing to die for the flag of his country. His story is silent as to the first banner under which men marched. About the first record is that of the old Roman eagle. The Stars and Stripes have been the subject of many spread eagle speeches and to them has been given the best thought of some of America's greatest men.
"I have recently had the pleasure of reading the great Fourth of July orations beginning with Henry Ward Beecher and concluding with Albert Beveridge. These orations manifest

the feeling of our American citizenship, the Stars and Stripes.
"Flag of the free heart's home and home
By angel hand the valor given,
They stars have lit the welkin dome
And all their hues were born in heaven;
Forever wave their standard sheet,
Where breathes the free but falls before us
With freedom's soil beneath our feet,
And Freedom's banner streaming o'er us."
"Paul was proud of his lineage. He boasted that he was a Hebrew of the Hebrews; he had a glorious history back of him. It was no mean thing to be a Jew. It is no insignificant thing to be an honest Jew today. My father taught me to have the deepest respect for the Hebrew, for back of him is the history of a great people."
"It is no small thing to be able to say, 'I am an American citizen.' I am glad that we are teaching patriotism in our public schools, and inculcating in the minds of the youth of the land a deep regard for citizenship.
"Not only was Paul a Hebrew of the Hebrews but he was a Roman citizen as well. He was born at Tarsus, the chief city of Cilicia and it was his pleasure to call it no mean city. Three

BELLANS Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

times in the life of Paul he demanded his rights as a Roman citizen and towards the close of his life he appealed to Caesar, which was the right and privilege of every Roman citizen. He was taken to Rome and his case was heard by the Roman emperor. Religion makes a good citizen of a man. Christ taught us to render to Caesar the things which are Caesar's. The Saviour was always respectful of his obligations to the civil authorities, so ought we to be.
"Paul was not only a Hebrew of the Hebrews and a Roman citizen but he was also a citizen of Heaven. Earth was but his tenting place. Heaven his final abode. He is justly proud of his citizenship in the three kingdoms.
"Citizenship carries with it the idea of home. The American home is the ideal home. When France had no word in her language to express the idea that she got from America she borrowed our word "home" and it has meant much to her in recent years. Two things bring men to our shores—the thought of freedom and the thought of home—love for home and for children labor in the hearts of men, it is the heart of the man who comes to our country to make it his abiding place. I saw this remarkably illustrated in a scene that took place in a city in New York City. Some Italian laborers were employed there. The inspector of public health passing that way noticed that one of them had the white plague. He demanded that he come out of the ditch and cease to work. When the Italian was made to realize that he could no longer win bread for his family he cried with the tears running down his face, "I gotta make da mon for da keed."

with certain limits. In the recent diplomatic victory over Germany respecting the underselling of American and other life our government has been careful to define the limits of protection. No man has the right to go into Mexico in order to make dollars and after being warned to leave that country, to demand the protection of the American flag.
"With Paul I am delighted that I am a citizen of three kingdoms. I count it a great privilege to claim citizenship in America, to have waving over me the greatest of all banners, the Stars and Stripes. I am glad to be a citizen of Texas. I was born here. I expect to die here and have my body mingle with Texas soil. But above all things I take supreme delight in being a citizen of Heaven, of having the privilege of marching under the blood stained banner of Prince Immanuel."

MERCHANTS' TEAM WINS AT ELECTRA

Gets Big End of 12 To 3 Score. Lowry's Pitching is Feature of Contest

The Merchants' team of this city administered a decisive defeat to the fast Electra team Sunday afternoon, taking the big end of a 12 to 3 score. Wichita Falls had the better of the argument from the very beginning of the game and increased the advantage with each succeeding inning.
Features of the game were the pitching of Lowry of this city, and the splendid work of Houston in the left garden and with the stick Lowry was in fine form and held the opposing sluggers to three safeties. At one time he was in any serious danger and his work seemed to improve as the game progressed.
Houston in his field, took everything that came his way, playing a star holding game. He was also very effective as a slugger, furnishing the hits that brought in five of the runs.
The entire team played gilt edged ball and Manager Ben Williams returned full of enthusiasm for the splendid showing made against a team with the reputation of that of Electra.

Following comprised the Wichita Falls lineup: Houston, left fielder, center; Naylor, right; V. Lowry, first; Avis, short; Seal, second; Tubb, Pryor, third; Stanfield, catcher; Lowry, pitcher.
The Merchants' team will play Bobby Myers' fast Anson team at the lake tomorrow afternoon, beginning at 3:30.

MANY ENTRIES IN GUN CLUB'S SHOOT

July Fourth Program To Be Largely Participated in, Visitors Expected

All arrangements are complete for the gun club shoot to be held at the Katy Athletic Park tomorrow, beginning at 8 o'clock in the morning and if the list of entries made against an indication, it will be an event of unusual importance in the history of this sport in Wichita Falls.
The shoot will continue from 8 to 10 o'clock, when a recess will be taken in order to permit those in attendance to take part in the preparedness parade, the program to be resumed at 1 o'clock p. m.
A number of visitors are expected to attend from outside the city and for these a special event will be arranged, a rifle having been adopted that only active members of the club can participate in the program that has been prepared for the occasion.

ONLY THREE TRIPS WEEKLY BY LOCAL TO NEWCASTLE

The Newcastle local which has been leaving Wichita Falls at 9:15 in the morning and returning at 4:45 in the afternoon has been taken off during the dull season and will run on Monday, Wednesday and Saturdays only. This order went into effect today.

BAND'S PLAY AS SOLIDERS BOARD TRAINS ON THEIR WAY TO FRONTIER

ENTRAINING FOR THE BORDER. Scenes like the one shown in the picture have been common in most of the large cities of the United States in which the national guardsmen have been entraining on their way to service on the Mexican border. The men march through city streets, frequently escorted by relatives and friends and preceded by the regimental bands. In the picture the band is seen playing the men into the train.

Like a snack before bedtime —they satisfy!

When you "rob the ice box," you know how you relish that last "bite" before bedtime—it does satisfy! When you smoke, Chesterfields do exactly the same thing—they satisfy!

Yet, Chesterfields are mild! This is something entirely new to cigarettes—this combination of mildness with "satisfy!" It hasn't been done before. This new kind of enjoyment comes to you only in Chesterfields—because no other cigarette maker can copy the Chesterfield blend! Try Chesterfields—today!

ELECTION TONIGHT BY LABOR COUNCIL

Will Make Plans For Preparedness Parade at Session to Be Held

Considerable interest is being manifested in union labor circles in the meeting of the Trades and Labor Council tonight, at which time officers are to be selected for the ensuing year, and a large attendance of delegates is expected.
Added to the nominations for the various positions, already made, will be other names submitted tonight. There are about twenty unions affiliated with the central body, each union being entitled to three delegates and three votes in the deliberations of the organization.
Other matters of importance are expected to come before the meeting, including preparations for participation in the preparedness parade tomorrow.

CHINESE LABOR MUCH USED BY NATIONS AT WAR

Associated Press Mail Correspondence.
Hongkong—Chinese carpenters have been sent in large numbers from India to work with the English expeditionary force in Mesopotamia. Officers at Hangoon received special instructions to employ Chinese carpenters for work with the English military forces, because of their great skill in building all sorts of temporary shelters and bridges. Russia has drawn upon China for large numbers of laborers to work in Siberian mines to build railways and replace white labor in agricultural districts robbed of their men by the war, and France has also drawn upon China for agricultural labor.

PREPAREDNESS

Yes, we believe in preparedness both national and individual. We are ready, therefore to satisfy the needs of all our customers. We are offering a line of

Summer Jewelry at Popular Prices

The Houston Post intimates that the editors and politicians who have been counting Oscar B. Colquitt out of the senatorial race will be surprised when the votes are counted. The Post is right. Colquitt is still a big factor in the senatorial race.

THE SOUTHWEST AND THE SOLDIER BOY

The sending of the national guard to the border will give Texas and the Southwest the greatest advertisement they have ever had. It is unfortunate, however, that their coming is at the hottest season of the year and that they find the country suffering from the effects of an unusual drought.

It is just and proper that the negroes of the city should have a part in the preparedness demonstration tomorrow. Negroes have responded to the country's call as willingly and as promptly as the whites.

NEGROES' PARADE PLANS COMPLETE

Will Have Band and Many Residents of Both Sexes in Line

Negroes of Wichita Falls will show their colors for preparedness tomorrow, staging a parade which will follow the main demonstration. They have made extensive plans for the parade and expect many members of their race to participate.

On account of the sudden illness of one of the babies, the famous Keyes quadruplets which were to have been on display at Lake Wichita today, Tuesday and Wednesday were taken to their home this afternoon by the parents, Mr. and Mrs. Fluke Keyes of Altus, Okla.

Kansas City Is Asked to Feed Hungry Militia

By Associated Press. Kansas City, July 3.—Lieut. Col. Charles P. Hunt, commanding the 314 men of the First Infantry regiment, Pennsylvania national guard, who reached Kansas City this morning, appealed to Mayor George H. Edwards to supply his men with food. He declared they had been on practically half rations since leaving the home station Saturday and since yesterday had been almost without food.

CRIMINAL DOCKET IN DISTRICT COURT

Judge Bonner convened the 30th district court this morning at ten o'clock preparatory to a week's work on the criminal docket. Of the 36 jurors summoned, only 16 answered when their names were called, some having been excused until Wednesday morning, while others were excused for the entire week.

COUNTY COURT IN SESSION THIS WEEK

County court convened this morning with Judge Harvey Harris presiding. At the forenoon session the civil docket was taken up and the following business had been disposed of at 3 o'clock: F. D. Wheeler vs. the Denver and Northwestern, D. B. Brockett and J. P. Nowlin, each with a case against the same roads being an action for damages due to high water, all contained on account of the failure of plaintiff to provide a satisfactory bond.

THEFT OF TRADING STAMPS ALLEGED

Some weeks ago the representative of the S. & H. Trading Stamps had about \$200 worth of the stamps of that company stolen while in the city, the matter being reported to the officers and the merchants interested in this premium plan. The numbers of the missing stamps were furnished and a constant watch has been kept, it being expected that they would be presented for redemption.

DOUBLE HEADER AT LAKE PARK TUESDAY

A double header ball game will be one of the features of the Fourth of July entertainment at Lake Wichita tomorrow afternoon. The first game which will be between Bobby Myers' Anson team and the Wichita Falls Merchants' team will be called at 2:30 P. M. and will be followed by a game between the Burk Burnett team and the winner of the first game.

ALL IN READINESS FOR PREPAREDNESS PARADE

DEMONSTRATION STARTS AT TEN O'CLOCK TUESDAY

PROSPECTS FOR GREAT NUMBER OF MARCHERS AND AUTOMOBILES IN LINE IN OBSERVANCE OF JULY FOURTH

PARADE BY NEGROES

Will Have Separate Demonstration of Their Own Immediately Following Main Parade—Final Arrangements Completed This Morning

All that the committees and workers can do to make tomorrow morning's preparedness parade a grand success has been done, and the rest depends upon the patriotism and enthusiasm of Wichitans. The committee has been given every reason to believe that there will be a tremendous demonstration.

The order of parade has been revised in some particulars and, as finally approved, is published in an adjoining column.

The negroes of this city, feeling that the performance of members of their race at a parade is a matter of participation in any preparedness movement, will have a parade of their own. C. C. Trimble is in charge of the arrangements. The negro parade will be held immediately following the main parade, and will take the same line of march; it will include a band, numerous marchers, and some special features. It is promised, and while it will not be a part of the main preparedness parade it will be held in the line of keeping with the spirit of the occasion.

Arrangements are being perfected today by the various organizations and unions who will take part. Most of the important lodges of the city, including the Elks, the Woodmen of the World and the Knights of Pythias, will take part. The meeting of the Trades and Labor Council tonight is expected to complete plans for union labor participation in the demonstration. The Boy Scouts, the high school cadets, the Rotarians, the railroad men and others were also perfecting their preparations today.

The railroad men will be led by Jack T. Ringenback who was placed in charge. Mrs. Ringenback hopes to have at least half of the 1906 railroad men in this city in the parade and secured the promise of both Katy and Deaver officials of a holiday for all employees who are not needed in the handling of grain. Mr. Ringenback expects the railroad end of the demonstration to be a highly creditable one. His card follows:

This is a call to the colors in a peaceful way. Show your appreciation of the grandest flag in the world by getting in line opposite the Union Station at 12:30 sharp.

Some of the deputations for political offices have suggested that they have a section in the parade, and this was agreed to by the committee. It is expected that most of the office

ORDER OF PARADE

Those taking part in the parade are requested to clip this card and preserve it for reference tomorrow.

Grand Marshal W. N. Bonner on horseback.
Sheriff, city marshal and attendants.
Car carrying Mayor Britain, President R. E. Huff of Chamber of Commerce, President Joe Art of Retail Merchants' association, County Judge Harris.
Band.
Rotary Club.
High school cadets, in charge of Major Bullington.

Boy Scouts, in charge of Rev. N. E. Grafton.
Lodges and societies, headed by Knights of Pythias.
Labor unions, in charge of President L. E. Wilson and C. C. Willard.
Railroad men, with Jack T. Ringenback as deputy marshal.
Postoffice employees.
Candidates' section.
Professional men, with Dr. Q. B. Lee and Orville Bullington as deputy marshals.

Merchants and manufacturers, with J. F. Riggs and F. N. Lawton as deputy marshals.
Other organizations and individuals.
The car Parade Committee Chairman C. W. Reid.
Other decorated cars.
Fire department.

Undecorated cars, in the following order—Cadillac, Buick, Chalmers, Hudson, Overland, Mitchell, Studebaker, Maxwell, Hupmobile, Chandler, Dori, Case, Page, Oakland, Franklin, miscellaneous makes with the Ford contingent bringing up in the rear.
All marches will go in double file.

hunters will be in line among the marchers.
Grand Marshal William N. Bonner will be at the head of the parade, on horseback, instead of in an automobile as at first planned.

The committee wishes again to emphasize the fact that while as many decorated cars as possible are desired in the parade, no car need remain out because it is not decorated. The car Mrs. Richard Debeloy has been added to the list of decorated machines.

Mrs. J. K. Fauntleroy, who won a prize in last year's July 4th parade and Mrs. Frank Cullinan also will have decorated cars in line.

Attention is again called by the committee to the fact that there will be a place in the line for everyone who desires to march, no matter what his business or calling may be.

ONLY \$75 FIRE LOSS SUSTAINED DURING MONTH OF JUNE

The fire loss for the month of June was about down to the limit of possibilities, only \$75 being lost by fire in Wichita Falls last month. During that time the fire department was called out only three times and each time succeeded in quelling the blaze before any damage resulted. It had been twenty days today since the department was called on to make a run.

Be always displeased at what thou art, if thou desire to attain to what thou are not; for where thou hast pleased thyself, there thou art content.

MRS. HETTY GREEN, WEALTHIEST WOMAN IN COUNTRY, IS DEAD

(Continued from page one)

Mrs. HETTY GREEN.

For the one already probably the largely assumed the management of his mother's property. Typical of some of the turnovers by which they made large sums of money, was the sale of hundreds of acres of land in Chicago which they had obtained years before under foreclosure proceedings for a few hundred thousand and which sold for millions.

Hetty Green's investments were largely in mortgages and whenever she invested in anything it was only after she had made the most minute personal examination of the properties. She never disclosed in detail the secrets of her success, but she admitted it was mainly in buying when things were cheap, and never selling until they were high. If asked for advice as to what would be good to invest in, her epigrammatic answer was usually, "The Other World."

While never intensely religious she was a frequent attendant at Quaker meetings, and only a few years ago she, like her daughter, was baptized in the Episcopal Church. She emphatically denied that her disposition was miserly. During the panic of 1907-08 she made loans which lifted over many wealthy New Yorkers. Two years before the panic it was said, she had gathered in a large portion of her money and was prepared when the storm broke to lend a helping hand, at a good rate of interest. It was sometimes intimated that upon her death the country might be surprised at the disposition she would make of her wealth.

A man who is always well satisfied with himself is seldom so with others, and others as little pleased with him. —La Rochefoucauld.

Both Hetty Green and her husband were here for many years, but on separate accounts. Old Wall street men have told innumerable stories about her citizenship. Once she had negotiated once for a special engine to take her from Philadelphia to New York so that she might not lose a chance to make several thousand dollars before the close of the stock exchange. A price was named by the railroad company for an engine and one car. After bargaining a few minutes, Mrs. Green made this final proposition:

"Take off the car and make it \$3 less. If I ride in the locomotive cab." This she did, and reached Wall street in time to make a successful turn.

Dressed in simple and sometimes shabby black, with a little bonnet that would stand a lot of wear, the woman of millions moved about in downtown New York, guarded only by few who had been initiated into the secret of her identity. She never rode in a carriage and was never seen at the theater or opera. Her abiding place was usually a nursery to the tax collector, whom she admittedly dodged.

William Jennings Bryan when in Congress arguing in favor of an income tax said:

"Hetty Green enjoys an income which can scarcely be less than \$3,000,000 a year, yet she lives at a cheap boarding house and spends only a few hundred dollars. This woman, under our indirect system of taxation, does not pay as much towards the support of the federal government as a laboring man whose income of \$500 is spent upon his family."

Her most pretentious home was at Bellows Falls, Vt., where she spent many summers, but even this place was notorious there for never being in repair. In winter she hid herself in some of the least expensive neighborhoods around New York, guarding her identity by putting the name of her pet dog, "Dewey" on the doorplate. Her daughter Sylvia was her only companion. The latter kept her from society, but in 1909 consented to her marriage, at the age of thirty to Matthew Astor Wilks, a wealthy New Yorker of 67 years, who was her mother's first husband.

She worked herself for a time to a suite of rooms in one of the most fashionable Fifth avenue hotels, but this luxury was soon given up.

It was Hetty Green's ambition to make her son, Edward Howard Green, the richest man in the country. She put him through many severe tests to try out his business qualifications. A story is told that when he was a boy she sent him out to the street corner to sell the morning paper from which she had read the financial news. She finally sent him to Texas where he eventually worked himself to the front as a railroad man and financier. Since 1893 he has been president of the Texas Midland Railroad and a factor in many other interests. In late years

Joe Mears, Jr., Observer.

Note: Can any car at any price do better on the roads of this region?

Consumers Cash Store

811 Ohio Phones 1551-1531

Compare these ten salient Saxon features with those on any automobile at any price:

- 1st: Tall, stylish, cellular radiator of large water capacity, with large hose connections, insuring a cool motor under all circumstances.
- 2nd: Continental high-speed motor, "best by test" as used in 143 other different makes of cars, but in no other or 6-cylinder car made under \$1,000.
- 3rd: Extremely heavy frame, which is to the automobile as the foundation is to a house. This adamant construction holds the units together and minimizes the harmful rattles.
- 4th: Two-unit starting and lighting system with Bendix drive, as used on all high-priced cars and very few under \$1,000.
- 5th: Vanadium steel Cantilever springs front and rear, minimizing the rebound, thus eliminating the breakage and assuring a maximum of comfort.
- 6th: Timken axle and bearings front and rear, and throughout the chassis, together with helical bevel gear, where 3 teeth are always in mesh, as used only in higher priced cars.
- 7th: Disc clutch of the dry-plate type with Raybestos lining, using three small soft springs instead of one heavy stiff spring thereby insuring smoothness and ease of clutch operation continuously.
- 8th: Atwater-Kent ignition and Rayfield carburetor, always insuring a hot even spark, and economical vaporization, which combined gives greatest flexibility of speed without vibration or shifting gear lever.
- 9th: Exceedingly light weight of evenly balanced Saxon "Six" with 112-in. wheel base built of standard units, insures the greatest mileage of tires and the economical use of gasoline.
- 10th: The beautifully finished jet-line body the convenience and ease of handling this car in operation and the roomy seating capacity for five or more people makes the Saxon "Six" at \$885, delivered, the best all-round purchase under any and all conditions.

THEN ASK US TO PROVE.

The fuel consumption is less, runs slower, in high gear, runs faster in intermediate gear, climbs steep hills slower and pulls deeper mud and sand.

BIG CATFISH CAUGHT IN LITTLE WICHITA RIVER

(Archer News)

A fifty-five pound cat fish was caught in the Little Wichita river, seven miles northeast of the city, by a seining party on Tuesday. And the big fish was actually brought to town and weighed in the presence of several credible witnesses. Thirty-five pounds of smaller fishes were caught in the same drag. The Saturday previous, we are informed, Messrs. Nelson and McCoy, in a hole about two miles up the river, caught two big cats which were not brought in for proof of their weight, but it is stated one weighed 70 pounds and one 50 pounds. For several years past, seining parties have reported getting their seines torn up by big fish in the Little Wichita, but public opinion has always been to the contrary and attributed the damaged nets to snags, imagination and John Barleycorn. Public opinion has now changed, and the result is that many of our citizens are becoming amphibious in their attempts to catch a still larger resident of the river. Many old loggers disapprove of fishing as idling, but we are strong for it. In fact the Bible advocates it.

Actor—"There is such a thing as eating too much." Poet—"So I have heard. I wonder what it is like!"—Chicago Herald.

At the MAJESTIC

AT THE THEATRES

The Gem. King Baggot, movie star to become a matinee idol is the attraction today at the Gem in a Universal feature, "Half a Rogue." This film is the story of Harold McGraith's famous novel of the same name in pictures. Mr. Baggot plays the part of Dick Warrington, a successful New York dramatist. Warrington has played a fast game in the metropolis and later when he returns to his home town and enters politics this is used against him. There is of course a love interest to make the picture all the more attractive and the story of the triumph of Dick Warrington over the gangster forces of the town and also his winning of the heart of a little makes one well worth the seeing.

The Empress. Today Lenora Ulrich is starred in a Paramount production, "The Heart of Paula" at the Empress. Mexico, the land of golden romance and black treachery, is the setting of the story of an American hero and a girl of the land of the Montezumas.

The Majestic. Owen Moore and Dorothy Gish are stars in "Little Meena's Romance," which will be shown at the Majestic today and Tuesday. Dorothy Gish, who is playing Meena in "Little Meena's Romance," is rounding out an international career of distinction. When her attention was called to the fact that she played a little German peasant in her first screen play for "Triangle," Old Heidelberg, an English child in "Jordan is a Hard Road," the Yankee in "Betty of Graystone," and a Dutch girl in "Little Meena's Romance," she just laughed and said it was her way of being neutral.

ANITA KING AT THE EMPRESS WEDNESDAY

"The Rise," a Lasky-Paramount feature will be on the program Wednesday at the Empress.

Anita King, the girl who made such a remarkable transcontinental trip in an auto, is the support of Victor Moore in this thrilling feature. The qualities of courage and modesty which endeared the former Paramount girl to so many motion picture audiences are with her in this production. She combines youth, beauty and femininity in charming proportions. Of the work of Victor Moore nothing more need be said than that he is at his best in this film. He manages to get into complicated situations consisting of strange mixtures of humor and pathos and he utilizes his opportunities to the utmost. Humor and sensation are the two dominating characteristics in this film and they make the feature highly acceptable to every audience. The story is quite simple, but it is not at all hackneyed and it leads to a number of amusing "denouements." The father of the darling auto girl gives a splendid portrayal of the inventor, who absorbed in his work loses all sense of proportion and even responsibility. Exciting scenes abound; they all grow out of the plot quite naturally and the law of dramatic probabilities is never flagrantly violated. The scenes showing the race and its thrilling incidents will hold every audience.

NEW PARTY MAY BE ORGANIZED BY PROS

Get Together Conference Called of Dry Leaders in Political Faiths

By Associated Press

Chicago, July 3.—Leaders of the prohibition party and members of the "committee of sixty," which made unsuccessful attempts to get prohibition declarations in the platforms of the republican and democratic parties, have called a "get-together" conference to be held in St. Paul, Minn., July 15, the day preceding the National Prohibition Convention.

Fifteen thousand men and women of all political faiths, including governors, ex-governors, congressmen, clergymen, bankers, leaders in civic and reform movements, editors, educators and labor leaders, are receiving invitations to this conference. The object, as explained by national prohibition headquarters here, is to effect "an amalgamation of the 'born' reform forces of the country into a political party which shall have as its central platform plank national prohibition, and which will also advocate a whole category of governmental reforms and progressive legislation."

The program as announced included free and open discussion of prohibition as a dominant issue, whether a new party must be formed in order to obtain prohibition, what name such a party should bear, the possibility of forming a coalition with other parties, the now in existence and the relation of prohibition to other reforms.

Among those who will lead discussion are: Governor of Kansas, signed the prohibition law and afterward ran for president on the prohibition ticket, and Charles H. Randall, representative of the 14th district of California and the first congressman ever elected by the prohibition party.

The chairman of the conference has not been fully determined upon, but it is expected to have for its president a man of national reputation who is not a member of the prohibition party. Several prominent progressive leaders have been suggested but no announcement as to their willingness to preside at such a gathering has been made.

CITIZENSHIP URGED IN MANY CHURCHES

Sermons on This Subject Delivered From Pulpits Throughout Country Sunday

Special to The Times

Washington, July 3.—Throughout the country Sunday the doctrine of citizenship preparedness was proclaimed yesterday. The clergy of the United States with remarkable unanimity adopted the appeal of the bureau of naturalization of the U. S. Department of Labor that a citizenship sermon be delivered on the morning of July 2, that day being the date selected because of its close proximity to Independence Day, which means so much to all American citizens. The gospel of good citizenship was proclaimed in churches and synagogues, in homes and in public places, in large and prosperous congregations and small, struggling bands of worshippers alike—a universal proclamation of the need of the necessity of instilling ideas and patriotism in the minds of foreign residents.

It is the desire of the Bureau of Naturalization that one Sunday in each year be set aside as Citizenship Sunday, on which will be preached at the morning service in every church in the United States an outline course in citizenship. This proposition has been placed before the churches of all denominations, and the responses to this feature of the Bureau's activities have been highly gratifying and indicative of the establishment of such a day as a permanent institution. It was with a realization that the churches could aid materially in forwarding the good citizenship movement and inspire to immediate and aggressive action communities which have not already joined this great educational movement, that the bureau of naturalization made this appeal, and the results show a pronounced success.

In approximately 650 cities and towns, located in 45 states of the Union, the public school authorities, in cooperation with the bureau of naturalization of the U. S. department of labor, established evening schools for the instruction of their foreign-born population. In all of these cities and towns the intention is to reopen the night schools at the beginning of the fall term. Advice has been received from other places where, for one reason or another, they have as yet been unable to join in this movement, that the public school authorities have determined to open night schools for alien instruction at the beginning of the next scholastic year.

Great results have already been accomplished and greater are expected. The bureau of naturalization since the first of last October has sent the names of approximately 200,000 candidates for citizenship to the public school authorities of the country. It has also sent personal letters to all of these to induce them to enter the public schools. It has prepared an outline course in citizenship, thousands of copies of which have been sent to public school teachers. It has also prepared a syllabus of the naturalization law, which it has sent out with copies of preliminary naturalization forms to aid teachers in the instruction of candidates for citizenship. The cooperation of the public schools with the national government has come in stay, and the next scholastic year will show a tremendous increase all over the country.

The bureau of naturalization has perfected its plan for a citizenship convention of the public school teachers, superintendents and other prominent educators of the United States, which will be held in this city during the week beginning July 10 for the purpose of exhibiting the results of the work of the foreigners in the night schools throughout the country and formulating a complete course of citizenship instruction, based upon the outline course and upon the studies and experiences of the public school teachers. A large and representative attendance is assured.

FAMOUS HINDU POET IS GIVEN OVATIONS IN JAPAN

Associated Press Mail Correspondence

Tokio (By Special Telegrams) Rajnarath Tagore, the famous Indian poet, who has come to Japan to study the psychology of its people, has received a remarkable ovation here. His path was strewn with flowers and garlands, and he was escorted by a band of his admirers to a party of Buddhist priests, who boarded the poet's train and performed a service of welcome, burning incense all the while. The poet will stay several months and as far as possible live a life of asceticism. This will be difficult, for admiration for Tagore and his work is one of the powerful influences which dominate the Japan of today and the people have arranged everywhere to show their homage.

Many Girl's Unfit to Be Wives Says Writer Urging Preparedness for Matrimony

Zoe Beckley in the New York World.

Preparedness for marriage! That is the kind of preparedness we all believe in, and no dispute about it. At least I can't see any objection to understanding the fact that ninety-nine in every hundred of us women rush, flop, ester or are urged into marriage without an ounce of knowledge or a pinch of preparation, and pay dearly for our ignorance. Our grandmothers and great-grandmothers (see old tombstones and cemetery records) were sacrificed by thousands because they believed even less in preparedness for marriage than does the newer generation.

Think back a bit. Did your mother see to it that you had an informed mind and a sound body before you slipped down the aisle at the time of your wedding march? Or did she concern herself chiefly about your lovely gown and the lobster patties for the bridal breakfast?

She's Teacher to Millions.

These phrases belong to Anna Steese Richardson, who in the last two years alone has had a reading public of some 15 million mothers, and needs no introduction to those familiar with the current magazines.

For twenty years she has earned her living and the blessing of a womanhood by teaching preparedness for marriage, motherhood, child rearing and good citizenship. She has turned her own motherhood to the account of those who need advice, but have no one to give it to them.

Recently she has lectured in great department stores of the most famous cities from the debutante, blushing under her first proposal, to the grandmother, who has almost forgotten her business and her obligations and showered her with thanks.

"I don't dream how hungry women were for such instructions," Mrs. Richardson exclaimed when I saw her.

"And what did you tell them was the best sort of preparedness for marriage?" I asked.

"Physical preparedness," she promptly replied Mrs. Richardson. "Perhaps you don't know that just as one's mental condition depends on the physical, so a happy marriage depends on a happy body. I will go further and say that no woman has a right to marry until she has set her bodily house in order. Fifty per cent of divorces can be traced directly to some unsatisfactory relation between husband and wife that has a physical cause. You needn't look surprised; it is true."

"You blame mothers for that?" "Assuredly I blame mothers for that," nodded Mrs. Richardson vigorously. "How many mothers pay attention to the physical condition of their girls unless there's something very much the matter? Why, a well-to-do young woman wrote the other day: 'I wish you could tell me if there's anything wrong, I am perfectly well in every way; yet I wake up every morning with a headache.'"

"Imagine! Perfectly well! I found that girl has an internal disorder which neglected, could easily have made her an invalid for life. That is the typical case, thousands of such girls marry every day with their physical organs all wrong, or slightly wrong, and then wonder why they find themselves 'miserable,' or at least melancholy, joyless, disappointed wives."

"Seventy-five per cent of the cases in women's hospitals are because of injuries received in childbirth or its after effects. Of that number one-half or 37 per cent of gynecological cases are women who are absolutely unfit for marriage. Personally I believe 50 per cent of these women could have been made fit had their mothers looked to their physical condition throughout girlhood."

"Mrs. Richardson's marital preparedness propaganda grew out of her work of organizing 'better babies' campaigns."

"I worked backward," she exclaimed. "I seeking reasons for poor babies; I found poor mothers. In seeking the cause of the poor mothers, I found—but what did I not find?—ignorance, neglect, faulty education, carelessness, prudery; they were all there. Anybody of the fault could have been corrected before marriage. So I found myself educating mothers to educate their daughters to educate themselves."

"I receive thousands of letters from girls who say their mothers do not, and in some cases will not tell them anything of the fault, could they be healthy young women, happy wives and intelligent mothers."

"So I do it," said Mrs. Richardson, simply. "For nowadays, thank God, we can talk of these things openly. Our grandmothers laid down their lives and their happiness in silence, and mention the happiness of their husbands, because it has considered coarse to know about your own body. Now we talk about it in department stores."

MASTODONIC BOXING CONTEST!

JULY 4th

VICL OKLAHOMA

ARTHUR PELKY vs TEXAS TATE

Champion Heavyweight of Canada, Weight 210 pounds. vs Champion Heavyweight of Southwest, Weight 210 lbs.

BURKBURNETT WINS BRILLIANT CONTEST

Game is Scoreless Until Last of Ninth When Lone Tally is Registered

Wichita's long drive to center field, scoring a runner from second with the only tally of the game, won a pretty pitching duel for Burdette of Burk Burnett against Bobby Myers for Anson and ended the fastest diamond contest of the season at the Lake View today.

The hit was good for three bases, but the runner who scored the winning runs was on second and Wilbur's 2-7 was credit for a double. The final score

Grand 4th of July Celebration

LAKE WICHITA

THREE DAYS!

Sunday, Mon., and Tue., July 2, 3 and 4

Plan to Spend the Day in the Best Spot in Texas.

Fun For Everybody

Athletic Sports, Band Concerts, Boat Races, Motorcycle Races, Free Picture Shows, Picnic Parties.

Double Header Tomorrow at 2:30 P. M.

The Wichita Falls Merchants will play Bobby Myers' Anson team, immediately following the Burk Burnett team will play the winner.

General Admission 25c.

Grandstand, 25c.

GRAND FIREWORKS DISPLAY

As a fitting close to the great celebration a magnificent display of fireworks, including the firing of the wonderfully realistic waving of the National Emblem in colors. This is positively the most stupendous exhibition that has ever been given in Wichita Falls.

Fun for Everybody

POLICE SUSPEND NUMEROUS FINES

Fines Collected Mostly From Those Who Are Amely Able to Pay Them

The somewhat prevalent idea that the police are inclined to persecute the stranger who is down on his luck and without friends or money is refuted as far as Wichita Falls is concerned by the figures of the police department for the month just passed. During the month \$144.50, or more than half of the fines imposed in the police court, were suspended. In practically every case the state receiving the benefit of the suspended

sentences were working men passing through who temporarily fell from grace, and to have collected the fines would have left them flat and no way to get to the places where they were working.

Most of the fines collected were collected from men who were amply able to pay the same. Only \$15 worth of fines were worked out on the streets and in every instance they were worked out by old offenders who the authorities thought needed a lesson.

BANK EXAMINERS HOLD QUARTERLY CONFERENCE

Associated Press

Austin, Texas, July 3.—The regular quarterly conference of state bank examiners was being held today with Commissioner of Insurance and Banking John S. Patterson. Assignment of examiners to the eighteen districts of the state will follow the conference.

FLEMING TO MEET JAP BOXER AT VICI

Will Appear in One of Preliminaries to Tate-Pelky Heavyweight Bout

Carl Fleming, local boxer, has been hard at work for the past few weeks getting in shape for his meeting with Young Togo, the Jap terror, at Vicl. Oklahoma, tomorrow. He has been working out with three or four of the local boxers, and the bout at Electrica with Andy Davis Saturday night put the final touch on his training for the fight. The Japs said to be a tough fellow, having fought Estilind Nelson in a draw a few months back, but Fleming is confident of beating him.

The Fleming-Togo bout is to be one of the preliminaries to the fight between Arthur Pelky and Texas Tate, which has attracted much interest among local fight fans, and the prospects are that many will go from here on the special that leaves early tomorrow morning. In addition to these two bouts, Young Avilegate and Frankie Manilla will step ten rounds as a preliminary to the big fight.

DALLAS HAS THIRD GAS PIPE MURDER

Carpenter Succumbs to Blow Received Saturday Night—Had Been Robbed.

Dallas, Texas, July 2.—With the death of W. G. Graton, carpenter, at a hospital here today local police are confronted with another "gas pipe murder case," the third in seven months. Graton's skull was crushed Saturday night while he was walking home in the residence district. The purpose of the assault was probably robbery as the murdered man's pockets were rifled and all his money taken.

MID PACIFIC ISLANDS UNDER BRITISH DOMINION Associated Press Mail Correspondent. Melbourne, Australia. (By mail)—Ocean, Fanning and Washington Islands in the Pacific have been attached by the British government to the Gilbert and Ellice Groups for administrative purposes. During November last the native governments of the Gilberts and the Ellices which had been British protectorates since 1892 were at their own request attached to the British dominions since the title of the Gilbert and Ellice Islands Colony. It therefore follows that Ocean, Fanning and Washington Islands will now be part of that colony. Ocean Island is famous for its rich deposit of phosphate rock and Fanning Island is the site of a relay station of the Canadian, Australian, New Zealand cable.

THE ART OF BLENDING TEA!

The whole art of successful Tea blending being to combine body and pungency with some particular and distinct flavor in order to please a majority of that portion of the public for whom the Tea is specially prepared, and at the same time to arrange its constituent parts in such a manner that this most desirable result may be obtained at a more moderate cost to the consumer than that of

any single higher priced variety. But it must be understood that all combinations of Tea as a rule must depend upon the general character, grade and flavor, most in demand in the particular section or district for which they are intended.

This being the case DON'T IT STAND TO REASON that the best results are to be obtained by the blender who knows the likes and dislikes

of his public and the character of the water in which his teas are to be drawn?

Our local experience in Tea blending covers a period of twenty-seven years. We carry a complete line of New Seasons importations and feel we are in a position to meet your most exacting requirements.
