MANY PROBES OF EXPLOSION BEGIN TODAY

THREE DEAD AND PROPERTY LOSS OF \$25,000,000 OR MORE RESULT FROM BLOWING UP OF BIG SHIPMENT SHRAPNEL

2 ARRESTS MADE

Men Charged With Responsibility For Disaster—Alleged That Rules Covering Shipments of Explosives Were Not Observed

By Associated Press.
New York, July 31.—While federal and county prosecutors and the Interstate Commerce commission were conducting investigations to determine the cause of, and fix the responsibility for, the great ammunition explosion in Jersey City yesterday with its toll of death, injury and destruction, Mayor Mark Fagan of Jersey City announced that he would demand a congressional investigation of the disaster.

He said that such an investigation was necessary in order to pass more stringent laws for the transportation and storage of high explosives that are provided in present regulations.

Two men are under arrest here today on warrants charging them with manslaughter in indirectly causing the death of one of the victims of the explosion.

Estimates of the casualties place the number of dead at four, with three mortally wounded, 35 suffering from serious injuries and 11 to 20 missing.

Estimates of the property loss range from \$25,000,000 to \$45,000,000.

Many persons who were on board barges moored at the burned piers are missing and it is feared have perished. In some quarters it was believed the total number of dead would reach 12.

Those under arrest were Albert M. Dickman, agent of the Lehigh Valley stationed at Black Tom pier, and Alexander Davidson, superintendent of the warehouses of the National Storage Company, thirteen of which were destroyed by the fire, which followed the explosion. A warrant was issued for the arrest of Theodore B. Johnson, president of a lighting company, one of whose barges loaded with ammunition, is alleged to have been moored at the pier.

Several investigations were commenced today to discover the origin of the fire which caused the awful explosion that destroyed \$25,000,000 worth of ammunition, \$20,000,000 worth of explosives and caused the burning of the Statue of Liberty and the Ellis Island immigration station with the loss of \$100,000 worth of windows in this city.

Frank Hague, commissioner of public safety of New Jersey, charged that the blame of the explosion lay with either the Lehigh Valley Railway Company, the storage company of the lighting company and that some of them had violated the laws of New Jersey, the Jersey City ordinances and the rules of the Interstate Commerce Commission, by permitting barges loaded with explosives to remain at the piers over night. Those barges were being used to transport the ammunition to steamers lying in Gravesend Bay.

At least \$10,000,000—probably \$15,000,000—damage was caused by the destruction of thirteen of the eight warehouses of the National Storage Company in Jersey City. E. L. MacKenzie stated today this loss is amply covered by insurance. The damaged goods included 30,000 tons of raw sugar valued at between \$3,000,000 and \$4,000,000 and 24,000 bales of tobacco.

On consignments of munitions and other supplies going to France, loss will fall on insurance companies owing to the fact that policies issued to the French government cover shipments from the beginning of the trip until delivery. English shipments are insured only "in waterside" in New York while in the case of shipments to Russia policies are written both ways.

The Jersey City police today added to the list of dead Cornelius S. Leyden, chief of the Lehigh Valley rail-

Foreign Governments Object to Decree as Unwarranted—Affects Those Who Own Stock in Big Oil Companies On Coast

By Associated Press.
Washington, July 31.—Foreign share holders in Mexican companies including the great oil corporations on the coast are required to give up their status of their present citizenship ship by a decree just issued by General Carranza.

This decree has long been under consideration and its promulgation has been delayed by strenuous protests from foreign governments supported by the state department on the ground it constituted an unwarranted interference with the property rights of foreigners in Mexico.

REPORT HANKOW IN POSSESSION OF REBEL FORCE

By Associated Press.
Peking, July 31.—In a revolution ary outbreak in Hankow last night a large district was burned and looted and many natives were killed and some Russian women injured before foreign volunteers checked the uprising.

By Associated Press.
San Francisco, July 31.—Hankow, China today, is in the hands of a revolutionary mob and great quantities of property were being burned according to cable advices received here by the Robert Dollar Steamship company from its Hankow office. No details were received.

ALLIED ARMIES CLAIM GAINS ON EAST AND WEST

BRITISH AND FRENCH FOLLOW UP SUCCESS AGAIN. SIXTY MILE FRONT NEAR SOMME RIVER, LONDON REPORTS TODAY

RUSSIANS PUSH ON

Are Pursuing Austrians Following Capture of Brody—Victory For Arab Rebels Against Turkish Forces Is Claimed In Cairo Dispatch

The Associated Press summarizes European war operations as follows: Further advances for general Haig's forces on the Somme front in northern France, where an established attack of the British and French gained ground along a six mile front yesterday are reported in London today.

The new gains which were secured north of Hazentine Le Petit were effected in local operations, the British last night spending their time in consolidating the ground won yesterday.

To the south of the sector, where the French had advanced along the road toward Combes and reached the outskirts of Maurepas, the Germans again launched heavy counter attacks. They achieved no lasting success, according to Paris, being immediately driven out of trenches which they momentarily penetrated near Monau farm. Just north of the Somme and succumbing to French counter attacks at Hem Wood nearby.

The great Russian drive on the eastern front is continuing in undiminished force in some sectors. In northeastern Galicia in the region of Brody, which was captured last week by General Salski, the Russians are keeping up their pursuit of the Austrians who have been pushing back to the Saborit and Sereth rivers.

Dispatches from Cairo announce that the Arabs who are fighting against Turkish rule in Arabia have captured the Turkish sea and fort of Yonbo on the Red Sea the port of Medina.

A Zeppelin airplane that appeared off the English east coast this morning was engaged by a British fighter plane but disappeared while the British air fighter was temporarily disabled, London announces.

SOLDIERS IN FATAL CLASH WITH RAIDERS

TWO AMERICAN TROOPERS KILLED AND ONE WOUNDED IN ENCOUNTER WITH FIVE MEXICANS EARLY TODAY

BAND WIPED OUT

All of Raiders Are Killed, Being Taken By Surprise By Small Detachment of Troop F Eighth United States Cavalry

By Associated Press.
El Paso, Texas, July 31.—Two Americans were killed and one was wounded in a clash with Mexican bandits who had crossed the Rio Grande five miles below Fort Hancock, Tex., early this morning. There were five bandits in the party.

Private John Tony, F. troop, Eighth United States Cavalry and Robert Woods, a United States customs inspector, were killed; Sergeant Lewis Thompson, F. Troop, Eighth Cavalry, was seriously wounded.

Reports to General Bell, Jr., commanding the El Paso military district, indicate all five of the bandits have been killed. The fight occurred about 1:30 a. m.

American patrols had reported that a small detachment of Mexicans had crossed the Rio Grande and apparently were making their way toward an isolated section about 55 miles down the river. It was believed they were either smugglers or stock thieves.

EXPLOSION IN MINE CAUSES 4 DEATHS

Gas Which Had Been Allowed to Collect Is Ignited by Miners' Lamps

By Associated Press.
Pana, Ill., July 31.—Four miners were killed in a mine explosion here early today.

The accident occurred in Springfield Mine. The mine had been shut down for over a day and gas had collected. When the workmen entered the shaft their open lamps ignited the gas.

FRANCE AGREES TO POLAND SHIPMENTS

Acquiesces in Attitude of Great Britain Toward Request of President Wilson

By Associated Press.
Washington, July 31.—Ambassador Sharp at Paris cabled the state department today that France acquiesces in the recent note from Great Britain offering to permit the shipment of American relief supplies into portions of Poland occupied by Teutonic forces on condition that the occupying armies would not seize or remove native food products.

COMMANDER AT COLUMBUS NOT HELD TO BLAME

Washington, July 31.—Extracts from the final report of the inspector general's department on the Villa raid at Columbus, New Mexico, made public today by the war department show that Col. Herbert J. Stocum of the Thirteenth Cavalry has been exonerated from blame for the surprise attack upon his headquarters and the town.

Unless there are unexpected developments the report probably marks the closing of the Columbus incident so far as the army is concerned.

FEDERAL INQUIRY INTO EXPLOSION IS BEGUN TODAY

Washington, July 31.—Investigation of the great explosion in New York harbor to learn if it was the result of the violation of federal laws were begun here today by the department of justice and the interstate commerce commission.

IN THE SPHERE OF WOMANKIND

Open to Question.
I didn't raise my girl to be a voter. I brought her up to make the pies and cake.
I didn't teach her how to run my motor.
I only taught her how to sweep and bake.
Let men of every station do the voting.
The woman's place is always in the home.
There'd be more peace today if all fathers would say:
"I didn't raise my girl to be a voter."
—Life.

Answer.
If I had raised my girl to be a voter I'm sure we both would have more pie and cake.
If I had acted square she'd own a motor.
And have some dough to either blow or bake.
To states wherein the women now are voting I want to take my girl and start a home.
And bring a peace that way.
To dad's sense of fair play.
For father'll raise his girl to be a voter.
—C. C. V.

NEW IDEA CLUB PATTERNS ON ACCOUNT OF CASHMAN DEATHS

There will be no meeting of the New Idea club Wednesday afternoon, owing to the death of Mrs. H. J. Bachman, one of the members. The meeting was to have been held with Mrs. J. J. Simons.

WICHITA WOMAN LOST IN WACO LAST WEEK

Waco, Texas—Herald.—Honoring her sister, Mrs. Ella Lovell, who is soon to leave for a visit in Western Texas and Colorado, and welcoming the presence of Mrs. G. T. Drinkard of Wichita Falls, Mrs. George Stubbelfield was hostess on Thursday afternoon from 6 to until 8 o'clock. A wealth of opinions have made the grounds about this home bright with summer blossoms; gardeners of periwinkles or stinnias, labrets upon which ferns trailed their pretty foliage dotted the

COTTON FROCKS NOW IN VOGUE FOR VARIETY IF SUMMER WEAR USES

Special to The Times.
New York, July 31.—The New York roof gardens, afternoons and evenings, display most charmingly the present vogue of summer cottons. Earlier in the season, when the popularity of silk for blouses and frocks was commented upon because, owing to conditions abroad, cotton was going to waste, it was predicted that cotton and lingerie frocks would take first place for mid-summer wear, and the prophecy has come true. The dainty cotton frock is worn both for afternoon and for evening.

Dainty Veils on an Evening Roof.
On one of the most conservative of the roof gardens, at the dinner hour on an evening or so ago, the absence of

the typical evening gown was very noticeable. In its place the sheer cotton afternoon dress was worn. These are a rule are very simple cut and made. Often a bordered material will be developed into one of the ruffled frocks of the moment, with the trimming aside from its own border, which is used for collar, cuffs, sash ends and to edge the ruffles or "toinches." The finish at the upper edge of the skirt is a detail which goes far toward making the dress attractive. With the striped material especially, is this true. The upper edge of the skirt may be finished with tiny pleats which extend a bit above the narrow hem of the same material, or a narrow band of black or brightly colored fabric or gros grain ribbon. These pleated skirts, when striped materials are used, are often pleated so that one stripe overlaps the other, presenting one solid shade on the outside of the skirt, effectively relieved by the shade beneath with every movement of the wearer.

One of the daintiest of the cotton frocks worn at dinner this same evening, was a pale green organza. Another was a soft gray with a Russian blouse of gray Georgette belted and trimmed with silver. The various shades of green and gray are

give them up, by any means. The sports clothes idea promises to be one of the strongest notes of early fall, and in all probability sports clothes as we know them at the moment will have a permanent place in the Americans woman wardrobe.

Wide, Drooping Brims on Mid-Summer Hats.
The wide, soft brimmed Banko, Web Chow, Panama, Leshorn, hat or henna hats, with just a suggestion of fluffiness, are the favored hats of the moment. These may be worn with sports clothes, and quite as effectively with lingerie and soft silk frocks. The fabrics, cretonne, and the various striped canvas weaves, are liked for sports wear, combined with harmonizing coats and skirts.

is washed, and so on. The punch table was set in a secluded nook in the yard, which was curtained from the front yard by vine-draped trellises. It was tributed to the husband or gentleman's popularity. These deep blue and purple blossoms radiated from the center of the table. They were vased about advantageously, and the sandwich baskets were broked in the blue and violet molasses of the same shade.

CIVIC LEAGUE MEETING
WITH MRS. J. A. RICHOLT

Tuesday afternoon the Civic League will hold its regular monthly business meeting with Mrs. J. A. Richolt, 1008 Austin. The work in the "City Beautiful" contest will come up for the greater share of the attention and it is important that all members be present.

PENSION PLAN OF SWIFT & COMPANY

Fund of \$2,000,000 is Created For Benefit of Packery Employees

By Associated Press.
Chicago, July 31.—Swift & Company announced today that it had established a pension fund for its employees with a foundation of \$2,000,000. The fund, the accumulation of six years' work, benefits the plan as a company throughout the country. It is stated that more than 30,000 men and women are eligible to come under the provisions of the plan.

One of its features is that employees do not contribute to it; the company furnishing all the money necessary to pay pensions. In this connection, the company says it expects to be called upon to pay \$400,000 a year in addition to the income from the fund in order to meet the demands. Pensions are limited to a minimum of \$240 and a maximum of \$2,000 a year. In Chicago alone \$3,000,000 will be paid under the plan as outlined. A pension board has been organized consisting of five members who are officers or employees of Swift & Company.

"Does your wife lecture you?" "No," exclaimed Mr. Meekton. "Why, then, I'll lecture her when she's lecturing a little bit of an audience like me."
—Washington Star.

NORTHWEST TEXAS EDITORS TO MEET

Will Hold Annual Convention Next Month—Program is Announced

Newspaper men of Northwest Texas will gather in Wichita Falls, August 22 and 23 and 24, for the 25th annual session of this organization, and a large attendance is expected. Plans for the entertainment of the visiting editors will be taken care of shortly. The following program has been announced for the convention:

Call to order at 2:30 p. m. by President—Mayor A. H. Britton.
Response—Senator W. A. Johnson, Memphis, Tenn.
President's annual address—C. W. Boner, Bellevue News.
How to Secure the Maximum Business in Small Towns—Ralph Shuffler, Olney Enterprise.
How Should the First Page Be Made Up—J. M. Warren, Clarendon News.
The Influence of Women on Shaping a Newspaper—Mrs. O. C. Harrison, Seymour Banner.
Cooperation of Newspapers—Hon. L. E. Hodges, secretary of state of Arkansas.
The Value of Accuracy in News—paper Making—J. C. Thomas, Childress Post.
Are Headlines of Value to a Week-ly Newspaper—Sam A. Roberts, Haskell Free Press.
How to Get a Good Railroad Printing—Fred Haskett, Childress Index.

NINE PLEAD GUILTY TO INTOXICATION CHARGES

"Cashed-out" Johnson was ordered rained on his bid fine at this morning's session of the police court. Johnson was released Saturday morning on the condition that he would leave town but was taken into custody late Saturday afternoon in an intoxicated condition. Johnson was serving out an old hundred day sentence for vagrancy of which he had about seventy-five days yet to serve. Booze seemed to have been the stumbling block of a number coming before the court this morning, and nine other pleas of guilty being entered to charges of intoxication and fines of \$5 being assessed in each case. A case of vagrancy and one of affray were dismissed for cause.

VERNON ACCIDENT RESULTS FATALLY

B. W. Huggins of Dallas is Killed When Denver Freight Strikes Automobile

B. W. Huggins of Dallas, was fatally injured at 7:50 this morning when the automobile which he was driving was struck by the fast Denver freight, which leaves here early in the morning, at a grade crossing about two miles north of Vernon. He died about twenty-five minutes later. Although his wife and four children were in the car with him when the accident occurred none of them were hurt. The car was demolished. The Huggins family were en route from their home in Dallas to Clarendon where they were intending to visit friends and relatives. According to a report received here from Conductor Frank Dunlavey and Engineer Robert Hall who were in charge of the train the automobile was crossing the track when it suddenly stopped, the engine apparently going dead. The train struck it while going at a speed of about fifteen miles an hour. The injured man was rushed to Vernon and placed in the care of the railroad's surgeon at that place, but his injuries were such that death followed soon after reaching that place.

Later advices served to explain the escape of Mrs. Huggins and the children. When the machine stalled, they promptly left the car, but Mr. Huggins made determined efforts to get it off the track. He was still endeavoring to get it going when the train struck it.

The train was about 200 yards from the crossing when the machine stalled. It once slowed down from 25 to 15 miles an hour, at which rate it was going when it hit the automobile.

The Strong Withstand the Heat of Summer Better Than the Weak
Old people who are feeble, and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking regularly Grove's Tasteless Chill Tonic. It purifies and enriches the blood and builds up the whole system. 50c.

RESOURCES ARE BEING MOBILIZED

TAKING INDUSTRIAL INVENTORY OF COUNTRY PROVES COLOSSAL TASK.

BUSINESS MEN READY

Courtesy and Cooperation Extended to Committee, Which Has Completed Several States.

By Associated Press.
Washington, July 29.—The colossal task of making an industrial inventory of the United States, state by state in an attempt to mobilize America's resources for war, is now virtually completed, according to an announcement today by Chairman H. B. Coffin of the committee on industrial preparedness of the naval consulting board of the United States, who has the work in charge. Just how plants the country over can adapt their equipment to produce the thousands of things from shells to shaving brushes necessary for the government's use in a national emergency has been worked out with the most extreme care through field reports from engineers and chemists who are members of the American society of civil engineers, the American institute of mining engineers, the American society of mechanical engineers, the American institute of electrical engineers, and the American chemical society.

Coincident with the announcement comes the statement from Chairman Coffin that Congress has practically

completed legislation which will carry out the committee's entire program for establishing a firm and enduring foundation for the nation's defense. This will provide for the sending of annual educational orders to American manufacturers in order to teach them during peacetime how to turn out the military and naval supplies needed in an emergency. An industrial reserve will also be created, so that in time of war the skilled mechanic may be kept at work where his services are most valuable instead of being sent to the firing line.

Both the inventory and the legislation growing out of it are the result of a remarkable three months campaign made by a volunteer, unpaid organization of business men and engineers. It marks a new era in the relations of the engineer, the manufacturer and the citizen generally in the safeguarding of the national government, as well as a much closer coordination between various governmental agencies.

In many states undeveloped resources have been classified and given publicity and new industries are promised as the result of information gathered.

Business men the country over received the investigators with the greatest courtesy and cooperation. In only a few cases did they refuse to give the desired information, and then usually under a misunderstanding. The committee's plans, which were quickly cleared up, cover 30,000 concerns, each doing an annual business of over \$100,000 were classified. In addition to many smaller plants with equipment peculiarly suited to turn out material for the fighting line. At the time of the Mexican crisis, Chairman Coffin sent out urgent telegrams to the chairmen of all state boards urging all possible haste and Secretary of War Baker detailed five regular army officers, two of them members of the general staff, to the committee headquarters in New York. Instances from state reports follow:

tion, according to Chairman John C. Greenway, who said the manufacturer looked upon the annual educational orders with great favor.

Colorado will be greatly benefited by the survey, according to Chairman Moore, as local industry will be able to develop much greater elasticity and many new resources till now unknown will be developed. Chairman Ferguson of Connecticut reports that manufacturers there at first looked askance at the plan owing to previous unsatisfactory business relations with government, but that this had been broken down by personal contact.

A permanent cooperation, new in government affairs, between the military service, the technical bureaus of the government, and the committee, has been the direct result in the District of Columbia, according to Chairman Parsons. The development of a charcoal industry in Florida, where now almost none is produced, is foreshadowed in the report of Chairman McLean of that state.

Illinois presented one of the heaviest tasks of the survey, for it Chicago alone over 500 chemical and metallurgical plants had to be inventoried. Chairman Frederick K. Copeland reports through Chairman Philip N. Moore that its chief contribution will be lead and zinc, together with harness, clothing, flour, bakery, and machine shop products. Official maps have been prepared with the location of the plants and their railroad connections. Montana reports through Chairman Mathewson that nearly every town in the state has one or two grasshopper infestations that could be of great value, while the horse markets at Miles City and Dillon could supply cavalry troops.

Over 1,000 high explosive shells a day could be turned out by the railway motor manufacturing company in Nebraska, according to Chairman Holdridge. Guns could also be made there, while food, clothing and mineral supplies are available. Chairman Morris R. Sherrard of New Jersey found the work there so heavy that he divided the state into county divisions with general headquarters in the Newark city hall. The best results were obtained.

Another illustration of how manufacturers with outputs normally totally unrelated to war can swing their resources to the government in an emergency was shown in the case of a silvermith reported by Chairman J. G. White of New York, who is now making thousands of cartridge caps a day for the French "75's" and bullet jackets at the rate of several million a week. This firm could also make field gun ammunition if desired. Texas manufacturers in extending their hearty cooperation to Chairman John B. Hawley, expressed eagerness to receive some of the proposed educational orders. Chairman Horace Y. Winchell of Minnesota reports

Like stealing a doze after the clock goes off—they satisfy!

Zing-z-z-z-z-z-z-z! Seven thirty. Yaw-n-n! And as a fellow buries his head into the pillow for that last "40 winks"—how it does satisfy! Chesterfields do just that thing for your smoking—they satisfy!

But, they're MILD, too! Smokers are pleased with this new kind of cigarette delight—"satisfy," yet mild! No other cigarette ever did or can give them this new enjoyment!

Because no cigarette maker can copy the Chesterfield blend! Try Chesterfields today!

that in Minneapolis alone over 1,4000 industries were examined. Missouri reports through Chairman Philip N. Moore that its chief contribution will be lead and zinc, together with harness, clothing, flour, bakery, and machine shop products. Official maps have been prepared with the location of the plants and their railroad connections. Montana reports through Chairman Mathewson that nearly every town in the state has one or two grasshopper infestations that could be of great value, while the horse markets at Miles City and Dillon could supply cavalry troops.

Over 1,000 high explosive shells a day could be turned out by the railway motor manufacturing company in Nebraska, according to Chairman Holdridge. Guns could also be made there, while food, clothing and mineral supplies are available. Chairman Morris R. Sherrard of New Jersey found the work there so heavy that he divided the state into county divisions with general headquarters in the Newark city hall. The best results were obtained.

Utah, in addition to the routine work, supplied Chairman Ebaugh with maps and drawings of great value. Wyoming, with its multitude of undeveloped resources, was greatly aided by the survey, according to Chairman Nunn, while the great interstate railway repair shops could contribute materially to a mobilization of national resources. Favorable reports were also received from:

Chairman Reese of Delaware, Miller of Arkansas, Schoen of Georgia, Easton of Idaho, Richard Montfort of Kentucky, Koch of Louisiana, Farwell of Maine, Bush of Maryland, C. L. Edgar of Massachusetts, Alex Dow of Michigan, Robertson of Mississippi, Fred Berge of Nevada, Fry of New Hampshire, Conner of North Dakota, Andros of New Mexico, Ludlow of North Carolina, Bosell of Oklahoma, Mason of Georgia, Henry D. Sharp of Idaho, Richard Montfort of Kentucky, McMeen of Ohio, Clark of South Dakota, Newell Sanders of Tennessee, Sinclair of Vermont, Myers of Virginia, Powell of Washington and White of West Virginia.

WILSON'S SPEECH TO BE SENT TO VOTERS

Press Club Agrees to Be One of Principal Addresses of Campaign Literature.

New York, July 31.—The direction which the Democratic National committee hopes to give to the presidential campaign was indicated by the announcement yesterday at the democratic headquarters that 5,000,000 copies of the nominating speech by Martin H. Glynn and 6,000,000 copies of the recent speech of President Wilson before the Press club in the Waldorf-Astoria had been ordered printed for distribution throughout the country. Both of these speeches are arrangements of war.

The Press club speech of the president was selected from the number which he has recently made; it was said, because it expressed in the sharp language his aversion to war and because of the deep impression which it made. The president received the greatest harvest of letters and telegrams of commendation after this speech which has ever come to him after an address of the kind. It was said officially yesterday at the offices of the Democratic National committee that in Pennsylvania alone more than 1,000 voters who said that they had been republicans wrote to the president that they were going to vote for him because of the sentiments expressed in that speech. The proposition which was elaborated in this speech was contained in the words: "Force will not accomplish anything that is permanent." It was in this speech that President Wilson asked a series of questions of his audience regarding Mexico, one of which was:

"Do you think the glory of America would be enhanced by a war of conquest in Mexico?"

That the democratic plan of campaign will be to meet the republican charge that the administration has failed to protect the property and lives of Americans in Mexico and on the seas, by urging that President Wilson has accomplished much by diplomacy and has kept the country out of war, is indicated by the wide circulation which is to be given to the Glynn speech.

IOWA PARK MAN DROWNED SUNDAY

W. T. PHILLIPS MEETS DEATH IN TANK ON TOM BURNETT'S RANCH.

ATTACK OF CRAMPS

Is Seized While Attempting to Recover Fishing Pole Which Had Floated Away.

W. T. Phillips, aged 52, of Iowa Park, met death by drowning Sunday in the tank on Tom Burnett's ranch west of Lawton, Okla., when he was seized with cramps while attempting to recover his fishing pole. The body was recovered. Mr. Phillips was a member of the firm of Hipet & Phillips at Iowa Park. Mrs. Phillips being a sister of H. B. Hines of this city.

Mr. Phillips, with Earl Apple and family had gone to the Burnett tank early Sunday to spend the day fishing. While fishing he lost his fishing pole and when Mr. Phillips was in the tank he was seized with cramps and suggested to him that he sit on the fence which runs across the tank, and wait for the pole to float to him, but Mr. Phillips replied that he would rather fish than wait and started to wade again. He had gone but a short distance when he was seized with cramps and sank in a hole ten or fifteen feet deep.

His plight was not realized by those on the bank until it was too late. Mrs. Apple remarked to her husband that "Uncle Tom was swimming mighty funny" when all at once Mr. Phillips came to the surface again shouting, "Oh, Earl! Earl!" Then he sank for the last time. Mrs. Apple ran to the Burnett ranch house and told some negroes there that Mr. Phillips was drowned. One of the negroes ran to the tank and began diving, and another brought a rope, the body being recovered in less than fifteen minutes. Dr. Clark of Iowa Park was called and left at once, but life was extinct when he arrived.

Mrs. Phillips is in St. Louis buying goods. Mr. Phillips' body was taken to his home, the funeral arrangements being delayed pending Mrs. Phillips' return. The deceased was a member of the W. O. W. and K. of P. lodges, having been K. R. and S. B. of the latter lodge for a number of years. He was one of Iowa Park's best known and most popular business men and the tragedy caused deep sorrow there.

STEPHENS' SECRETARY TO BE VERNON POSTMASTER

(Vernon Record)

The nomination of James V. Townsend to be postmaster at Vernon was sent to the Senate for confirmation by President Wilson Tuesday. The term of the present postmaster, C. J. Farwell, the republican incumbent, who has served as postmaster for the past sixteen years, expires August third, and it is anticipated that Mr. Townsend will be here to begin his duties on that date. Mr. Townsend has been secretary to Congressman John H. Stephens of this city for the last 15 years, and since the democrats came into power he has been chief clerk to the House committee on Indian Affairs. Mr. Stephens succeeded to the chairmanship of this committee. Mr. Townsend's appointment does not come as a surprise to Vernon people, it has been rumored for some time that he was to be appointed as the successor of Mr. Farwell. After the election of President Wilson there were several applications for the position. The retiring postmaster has given splendid satisfaction, and while the vast majority of the natives of the local postoffice are democrats Mr. Farwell has been a popular official. His administration of the office affairs has been efficient in every respect and in the sixteen years of his service the office has grown in importance until the business has multiplied many times over what it was when he received his commission from President McKinley. He had two ambitions as the Vernon postmaster. One was to have free mail service to the local postoffice, and the other was to occupy a new federal building before retiring from office. He was denied the pleasure of the first ambition, but it is likely his successor will see both made in a comparatively short time after taking office.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever take.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

SUGAR'S HIGH COST NEED NOT STOP FRUIT CANNING

Washington.—Fruit for use in pie or salads or as stewed fruit can be put up or canned without the use of any sugar at all, according to the canning specialists of the department. They therefore, advise those who, because of the high price of sugar, have been thinking of reducing the amount of fruit they put up, to can as much of their surplus as possible by the use of boiling water when sugar syrup is beyond their means. Any fruit, they say, may be successfully sterilized and retained in the pack by simply adding boiling water instead of the hot syrup. The use of sugar, of course, is desirable in the canning of all kinds of fruits and makes a better and ready sweetened product. Moreover, most of the fruits when canned in water alone do not retain their natural flavor, texture and color as well as fruit put up in syrup. Fruit canned without sugar to be used for sauces or desserts must be sweetened.

Can the product the same day it is picked. Cut, stem, or seed, and clean the fruit by placing it in a strainer and pouring water over it until it is clean. Pack the product thoroughly in glass jars or tin cans until they are full; use the handle of a tablespoon, wooden ladle, or table knife for packing purposes. Pour over the fruit boiling water from a kettle, place rubbers and caps in position, partially seal if using glass jars, seal completely if using tin cans. Place the containers in a sterilizing vat such as a wash boiler with false bottom, or other receptacle improvised for the purpose. If using a hot water bath outfit, process for 30 minutes; count time after the water has reached the boiling point; the

MUCH SHIP-BUILDING IS SHIPPED ON GREAT LAKES

Ashtabula, O., July 31.—The Great Lakes Engineering Works, a concern which operates a great shipbuilding plant here and another at Detroit, has booked orders for twenty vessels for 1916 and 1917 delivery and it is stated that the corporation cannot turn out four 12,000 ton steamers for 1917 in addition to some smaller craft.

It has been learned that two steamers of Welland canal size will be turned out at the Superior, Wisconsin yards for James Davidson of Bay City, Mich. They will be used in the bulk freight trade on the Atlantic coast. Another order for four steamers of that size has been booked for 1917 delivery by the American Shipbuilding Company. These boats will be built for the salt water trade.

The vessels of Welland canal size will be built at the Cleveland, Detroit, South Chicago and Superior yards and a half dozen big bulk freighters for the lake trade will be turned out at the Lorain yards.

Business Office 187
Editorial Room 187A
Wichita Falls, Texas, July 31, 1916

Dozens of motor tourists are stopping off here daily now and this travel is ranking well up with railway travel. These tourists leave in the aggregate a considerable sum to circulate among the merchants and business houses. They come through Wichita Falls because this city is on two national highways. The fact should be emphasized largely by virtue of her geographical location and not because what has been done here to improve the highway. The fact should be impressed upon the people of Wichita Falls and of the county that one at least of these routes is not permanently fixed and whether it is to continue to run through Wichita Falls and bring to this city and this section the benefits that accrue from this travel will depend upon what we do to improve the highway which forms a part of the route as now laid out. Unless this highway is kept in good repair and is improved we are likely to find someday that the route has been changed.

The Colquitt campaigners will now try to make it appear that his differences with the administration have only been over the handling of the Mexican situation and that in his campaign he has not criticized the President, but rather has complimented him for finally adopting his (Colquitt's) plan for dealing with the situation. The people have short memories, but it can not be believed that they will forget that Colquitt's criticism of the administration has been sweeping and general and that it has been as vicious as it has been unjust. Colquitt has been displeased with practically everything the administration has done, both in its domestic policies and acts and in its foreign relations. Colquitt ought not now to be permitted to make it appear that he is friendly toward the administration. If he is so he is too recent a convert to trust.

FLY STATISTICS.
The San Antonio Light has been compiling some statistics concerning the common housefly. It bases its figures on the premise that one fly laid 120 eggs on June 1. By June 10 there would be sixty of these flies laying 7,200 eggs. The table continues:
June 20—3,600 flies lay 432,000 eggs.
June 30—216,000 flies lay 25,920,000 eggs.
July 10—12,960,000 flies lay 1,555,200,000 eggs.
July 20—76,800,000 flies lay 9,216,000,000 eggs.
July 30—46,556,000 flies lay 5,587,200,000 eggs.
August 9—2,799,360,000 flies lay 335,923,200,000 eggs.
August 19—187,961,600,000 flies lay 22,555,392,000,000 eggs.
August 29—10,977,696,000,000 flies lay 1,317,323,200,000,000 eggs.
September 8—54,561,760,000,000 flies lay 6,547,401,600,000,000 eggs.
September 18—34,379,705,600,000,000 flies lay 4,125,564,672,000,000,000 eggs.
September 28—4,253,564,672,000,000,000 flies.
Figure it up for yourself. If the flies had been swatted in June the task would have been easier. But it is easier to swat them now than it will be in September. Fly it safe. Do away with the fly nuisance now.

ENCAMPMENT FOR FARMER BOYS
Bell county is going to have something new under the sun, despite the old saying that there is nothing of the kind. And this new thing is one of the best that has been proposed in a long time.
On August 1 the farm boys of Bell county are to gather at Salado for a four days' encampment. It is expected that more than 150 of them will be there. The camping quarters will all be arranged and everything placed in order.
The next day, Wednesday, August 2, a three days' school will begin under

the direction of County Demonstration Agent Youngblood and his assistant, J. S. Richardson. This will be a regular farmers' short course and will teach the boys a great deal that neither they nor their fathers ever know about the best farming methods.
On Saturday the boys will be complimented with a barbecue dinner by the Temple Chamber of Commerce. It is expected that this will be made a gala occasion and one that the boys will remember.
While the program calls for a good many lectures on farm subjects, there will be plenty of time for recreation and the boys are prying themselves for the time of their lives. Their personal pleasure will be given the same attention that their schooling receives for these three days.
It looks like the Texas boy is coming into his own. Likewise with his advancement Texas herself is looking "a little up" and good times are in store for us. The children are going to make the State into what their fathers and mothers want it to be. Every boy in Bell county should attend this encampment. Their parents should see to it that they are prepared to stay the whole time and to enjoy every minute of it. It is distinctly worth while.—Houston Post.

COLQUITT AND DEMOCRACY.
Congressman "Bob" Henry, during the campaign closest with the primary election July 27, said repeatedly in his speeches he made during his race for nomination for senator, that former Governor O. B. Colquitt was a republican. No outspoken denial of this charge was heard as coming from Mr. Colquitt.
Whether he be a republican or not, the republicans are claiming him as their own and are exploiting his success in the recent primary election as an evidence of the unpopularity of President Wilson. Thus is Mr. Colquitt furnishing campaign thunder for the republicans to use throughout the campaign and state.

Even within the state, the Lampasas Blade, one of the few republican papers published in Texas, but undoubtedly the most rabid and uncompromising in its support of the C. O. P., says: "Colquitt received a great many more votes for United States senator than any of his opponents. And this proves what the Blade has said many times—that the Wilson administration is very unpopular among the Texas democrats. Colquitt has been an open proponent of the C. O. P. since he was elected to the Texas legislature in 1912. If Mr. Colquitt is making his race on his opposition to President Wilson and the republican administration, he should no longer claim to be a democrat. He should not be asking the franchise of Texas democrats. He would be taking them under false pretenses for democrats of the Texas brand are never going to give a vote to a republican and it is not believed they will contribute to the success of a republican at heart, in utterances and actions, in hiding under the democratic cloak.
The news has gone forth from Washington to eastern papers and other republican organs, all over the country, telling that Colquitt had been defeated by former Governor Colquitt, by reason of the fact that Senator Culberson was a strong friend of the president and that Mr. Colquitt criticized the president and his policies.
Considering this, it is hard to see how Mr. Colquitt can continue to ask the support of Texas democrats, while attacking the democratic president and the democratic party in the nation.—Austin American.

Some provision ought to be made for an inquiry into every fire that occurs in Wichita Falls. This inquiry ought to go into the cause of the fire, the adequacy of the water supply and the effectiveness of the fire department and the press should be permitted to publish the testimony. Through such inquiries the public could be educated in the prevention of fires and the blame could be placed if the water pressure was not adequate or the fire department inefficient.

ANOTHER TEN CENT DROP IN OIL PRICE

New Quotation of \$1.35 Per Barrel Announced For Northwest Texas
Another ten cent drop in the price of oil, the second within a few weeks was announced today by the pipe line companies, affecting Electric, Strawn, Thrall, Corsicana and Moran.
The new price for Northwest Texas as of 11:35 a. m. today with the Magnolia and tomorrow with the Texas company.
Oil prices throughout the country have been declining during the past few weeks, affecting all fields. The reductions are said to be due to the presence of more oil than can be accommodated by pipe lines and storage facilities.

FUNERAL WILL BE HELD WEDNESDAY

Bodies of Mr. and Mrs. Bachman Leave Colorado Tonight—Miss Stella Improved

After having delayed a day in order that Miss Stella Bachman should recover strength for the homeward trip, Harrison Bachman, the oldest son, with his sister and brother, Walter, will leave Colorado Springs tonight with the bodies of his parents, Mr. and Mrs. Bachman, the oldest son, and the Miss Bachmans. The funeral will be held about 10 o'clock Wednesday morning, whether from the house or the First Methodist Church being yet undecided.
There was a feeling of relief among the many friends of the family and the friends of Miss Stella when the message came Sunday night from Harrison Bachman, who had come to Colorado Springs that she received no internal injuries and that bad bruises and a terrible mental strain seemed to mark the extent of her injuries. Her young son, Walter who found his father and mother lifeless and his sister apparently so weak, a considerable distance from her home, like his sister is exceedingly nervous but sustained only scratches.

MISSOURI TO HOLD PRIMARY TUESDAY

Both Republicans and Democrats To Nominate—Prohibition Issue in Initiative Races

By Associated Press.
St. Louis, July 31.—One of the most hotly contested primary campaigns in the history of Missouri is practically closed with the rival leaders in both republican and democratic parties predicting victory for their favorites.
In both parties nominations will be made by direct vote Tuesday for a long list of state offices, for United States senator for congressional candidates; for judges of the three courts of appeal, each of which has appellate jurisdiction over part of the state, for members of the state legislature, and for local offices in each county.

James A. Reed, present United States senator from Missouri, is candidate for re-nomination at the democratic primary. He is opposed by L. A. Martin of Chillicothe, Mo. Three men are in the race for the republican senatorial nomination. They are Thomas J. Akins, St. Louis, who was the republican candidate for senator two years ago, Nathan Frank St. Louis and Walter S. Dickey, Kansas City.
Interest in the primary campaign has centered largely in the contests in both the democratic and republican parties for the gubernatorial nomination.
Seven men are in the race for the democratic nomination. They are Cornelius Koch, of Carthage, present secretary of state; John T. Barker of Flat-Rock, who is an attorney; Arthur N. Lindsey of Clinton; Frederick D. Gardner of St. Louis; John M. Atkinson of Doniphan, formerly chairman of the Missouri public safety commission; William R. Painter of Carrollton, present lieutenant governor; and James A. Houchin of Jefferson City.
The republican candidates for governor are Henry Lamm of Sedalia, former judge of the state supreme court; John E. Swannern of Pueblo, former secretary of state; Charles D. Morris, publisher of the St. Joseph Gazette; and Hugh McIndoe, mayor of Joplin.
Nominations are to be made for senator in half the state senatorial districts, and for representative in every legislative district. The Anti-Slavery League has conducted an aggressive campaign to secure the nomination of men who will vote for a prohibitory law with a "penny" clause and safety clause attached. The object of such a clause is to prevent the submission of the law to a referendum.
Progressive candidates for many offices filed before the progressive national convention was held. As a result of the decision of the Anti-Slavery League the progressive nomination for president, many of the progressive candidates in Missouri withdrew—but the names of the secretary of state to the various county clerks, Joseph P. Fontross of Kansas City, and J. J. Prisco of progressive nomination for governor did not withdraw.

WICHITA ATTENDS ROTARY MEETING

J. M. McFall Reports Splendid Time—Trip Is Marked by News of Fire
Leaving Texas on the Rotarian special, Mr. McFall visited Little Rock, Memphis, Louisville and Cleveland, before reaching Cincinnati, the convention city of this year. Four days were spent in Cincinnati, in which city the delegates were entertained and most royally, everything possible being arranged for the comfort and pleasure of the guests of that organization.
Present at the convention were delegates from all parts of the United States, as well as delegates from Cuba, London, and Canada. The delegates from Texas were entertained and were successful in electing Lynn B. Milan of Dallas, as governor of the Twelfth District.
Leaving Cincinnati, Mr. McFall visited Dayton, where he with other Rotarians, were the guests of the club of that city and of the National cash register company. They next visited Indianapolis and Toledo, after which Mr. McFall went to Detroit, the recognized home of the automobile industry. Here he visited the leading auto factory and supply houses and also took occasion to visit the prominent transfer concern of that city.
It was during his stay in Detroit that he received a telegram announcing

PAY CASH AND PAY LESS AT PENNINGTON'S

200 New Wash Skirts

Monday and Tuesday 10c the Yard

For That Short Trip
A black light weight hand grip in two sizes values \$1.50 and \$1.65 for Friday and Saturday only **\$1.19**

ing the destructive fire in this city, in which he lost heavily, and he at once left for Wichita Falls, notwithstanding the fact that he had purchased his ticket and the train was due to leave within 25 minutes. Mr. McFall was very enthusiastic over the Rotarian convention and did not hesitate to pronounce it the greatest meeting of the kind ever held in the United States.

TUBERCULOSIS FATAL TO WICHITAN SUNDAY MORNING

J. D. Boone, aged 23, died yesterday morning at 7:10 after an illness of some time with tuberculosis. Funeral services will be held this afternoon from the residence 1305 Third, at 5:30, by Rev. R. H. Moore. Mr. Boone is survived by a widow and two small children; also his mother, Mrs. A. Gray, two sisters, Mrs. J. C. Cam of Atchery, Okla., and Mrs. W. D. Bowen of this city and two brothers, C. F. and R. L. Boone, also of this city.

TWO VISITING AUTOMOBILES IN COLLISION HERE TODAY

Ignorance of the traffic ordinance brought about a head-on automobile collision at the corner of Seventh and Ohio about one o'clock this afternoon in which, fortunately, no one was hurt and little damage was done when the Studebaker Six driven by F. B. Morris of Iowa Park ran into another Studebaker driven by J. J. Jannigan of Blair, Okla. Morris, who was going south on Ohio, was on the wrong side of the street, according to Motorcycle Officer Fred Smith, who saw the accident. Both cars were being driven at a slow rate of speed. A front wheel, fender and light of Morris car was broken while the damage to the other car was confined to one broken light. As Mr. Morris was a stranger and Mr. Jannigan did not put in any claim for damage to his car, the officer made no arrest.

RAIL STRIKE VOTE TO BE CANVASSED

J. Y. Prince Leaves to Represent Denver Firemen at New York Meeting.
J. Y. Prince of this city, chairman of the fireman's grievance committee for the Fort Worth and Denver left early yesterday morning for New York, where he will represent the fireman's order for his road in the canvassing of the strike vote recently taken on the eight-hour question. J. S. Flax, P. Dewey, and W. E. Wells, all of Childress, who will represent the Denver conductors, engineers and brakemen respectively, made up the rest of the party. The local KKKY lines will be represented by the chairman of the grievance committee for that system, all of whom are main line men.

Lee Prescott, for tax assessor—\$248.45
W. C. Stone, for county clerk—\$106.40

KEMPER SCHOOLS PRINCIPAL IS VISITOR HERE TODAY

Major A. M. Hitch, principal of the Kemper Military School at Boonville, Mo., is a guest at the St. James Hotel. Kemper has been patronized by many Wichita Falls people and his friends here will be glad to learn that by the last rating of the war department it is still one of the ten honor schools of the United States. It is also the largest military school west of the Mississippi river, and draws more patronage from Texas than from any other state except Missouri and Oklahoma.

JACK OSTEN TO BE PAID MEMBER OF FORCE

The new paid man added to the force at the Central Fire Station will be Jack Osteen it was announced today. He will go on duty tomorrow. Mr. Osteen is one of the most popular of the volunteer firemen, having been a member of the volunteer force for about a year. During that time he has been one of the most regular attendants at fires in the volunteer corps and on a number of occasions has demonstrated his ability as a fireman. The appointment has proved to be a very popular one with the other volunteers. The new fireman is a cousin of George Osteen, one of the firemen at the Central Station.

FUNERAL SERVICES FOR MRS. OSBORN HELD TODAY

Funeral services for Mrs. J. H. Osborn of Thornberry, who died here Sunday at the Amazon-Hargrave sanitarium, took place this afternoon at 4 o'clock from the M. E. Church, north burial being in Riverside. Rev. A. D. Rice, pastor of the local church officiated.
Mrs. Osborn is survived by her husband and three children, all of whom live at Thornberry. She was 46 years of age. A large number of relatives and friends from Thornberry and the nearby community attended the funeral.

Prepare

For possible valuable service to your country as an officer of volunteers, and at the same time secure thorough preparation for college or business, by attending the

KEMPER MILITARY SCHOOL BOONVILLE, MISSOURI

Kemper training makes men of vigorous physique, high ideals and sound scholarship.
Strong references in Wichita Falls.

MAJOR A. M. HITCH
principal is at the St. James hotel and will meet any prospective patrons by appointment.

COURT HOUSE CLASH CASES ARE PASSED

Will Not Come Up Until Next Monday—Seven Are To Face Charges
The cases against the seven defendants, under bond for their appearance in the county court this morning in connection with the disturbance on the court house grounds last week, were passed until next Monday morning, when Judge Harris will convene that court and dispose of the charges that have been filed. These men were arrested in connection with an alleged movement to prevent negroes from working on the construction of the new court house, six of the party being released on bond, while the seventh was detained in jail, a pair of knucks being found on his person when the arrest was made.

CONVICT EFFECTS HIS SIXTH ESCAPE

Gets Away From Illinois Penitentiary—Exceptional Record as Jail Breaker

By Associated Press.

Chicago, July 31.—Clyde Stratton and two other prisoners escaped from the state prison at Joliet yesterday, according to a telegram received by the Chicago detective bureau today. It was the sixth time Stratton has broken from jail in a comparatively short career.

He is the convict who escaped from the Leavenworth by crawling a mile through a sewer. He had escaped four times previously. This time he was serving a fourteen-year sentence for the murder of a banker at Sylvia, Illinois.

CLAYTON LAW MAY NOT BE EFFECTIVE

Amendment Being Considered to Make it Effective Two Years Later Than Planned.

By Associated Press.

Washington, July 31.—After a conference between Chairman Overman and President Wilson the senate judiciary committee considered today an amendment to the Clayton anti-trust law to postpone for two years the effectiveness of a section which after October 15 would restrict dealings between railroads and other corporations having common officials for directors.

The plan is to delay putting the section into effect pending investigation of the railroad situation by the recently created joint committee.

MANY PROBES OF EXPLOSION TODAY

(Continued from Page One)

road police who has been missing since the explosion.

Conflicting reports as to the cause of the fire are still circulated. Lehigh Valley officials assert that an interlocking barge loaded with ammunition was moored at the pier in defiance of their orders and that the first explosion took place on board that vessel.

The big pier just west of the statue of liberty is today a mass of smoking ruins with debris piled hundreds of feet high in places and with the fire still burning. The statue virtually is undamaged but the doors to the pedestal are blown in.

The body of an unidentified man was recovered from the water near the Lehigh Valley pier. A child in Jersey City, according to the police, died from shock after the first explosion.

Many men told stories of having been blown hundreds of feet over land and water.

Some of the sixty or more injured taken to Jersey City hospitals were struck by shrapnel, falling glass or other debris. Nearly all were in the railroad yards or on craft moored near the island, included among them are a few women and children whose homes were on barges.

Every window in the pedestal of the Statue of Liberty on Bedloe's island opposite Black Tom, was broken, and the main door, made of iron and weighing almost a ton, was blown off its hinges. The statue itself however, was not damaged except from the rain of shrapnel which bespattered it.

Although the plant which furnished power for Bedloe's island was shaken and partly put out of commission, the famous Light of Liberty burned steadily throughout the hours of confusion.

Early reports of damage to the buildings on Ellis Island were exaggerated, according to Captain Fry, supervising engineer of federal buildings in New York. Captain Fry said the loss could not exceed \$50,000.

Most of the damage at the immigration station was in wrecked walks and buildings and shattered windows and doorways. Two barges, ablaze and laden with shrapnel shells, drifted to the island. An explosion on one of the barges damaged the structure housing the power plant.

Two other fire-swept craft grounded on the southwest corner of the island, which contains the contagious disease hospital. The medical staff rescued the 450 immigrants on the island to the Battery.

"HELLO! (City National Bank)

When can I get a statement of my account, including today's deposits?"

"Your statement will be ready in five minutes"

This is real, up-to-the-minute bank service—giving the customer the thing he needs at the time he needs it.

This is the kind of service we are now prepared to give to you.

We have just installed a Burroughs Bookkeeping Machine which handles our accounting work and keeps a statement of each customer's account ready all the time, with entries made right up to date.

Any time you want a statement of your balance in a hurry, it is ready for you.

Instead of leaving your pass book for two or three days at the last of the month in order to have it balanced, you get a neatly printed statement each month, showing all checks and deposits and a balance you know is right. Every checking account will receive these regular monthly statements together with the cancelled vouchers.

The Burroughs will also post our ledgers, giving us neatly kept and accurate accounts, and providing an absolute and automatic proof of the accuracy of every entry on our statements and ledgers.

We are sure that the improvement in our service made possible by this machine bookkeeping method will meet with your approval, and that you will appreciate the convenience and protection against error afforded by the mechanically figured statement.

EDUCATIONAL HONORS FOR TWO TEXAS COUNTRY BOYS

Special to The Times.

Austin, Texas, July 31.—A few years ago two country boys, one from Lone Oak, Hunt county, and one from Saginaw, Tarrant county, entered the University of Texas. Before coming to the University one of these boys studied at Texas Christian university, the

other at Polytechnic college. After taking their degrees from the University of Texas and doing special work, each in his chosen line of work, one of these young men went the University of Chicago and was given the highest degree in collegiate circles, doctor of philosophy. The second young man went to the University of California and received the same degree. The University of Texas then called them back to teach; only last week

Dr. Carr Thomas Dowell, the boy from Lone Oak, was called to the professorship of psychology in the University of Kansas. It is a credit to Texas that its own home raised and home educated products are being called to other states to contribute their share to the education of the people. It may be a matter of news to some that former students of the University of Texas, Texas reared and educated boys and girls, are now teaching in many of the leading universities of the nation, including Harvard, Princeton, the University of Pennsylvania, University of California, University of Chicago, Bryn Mawr College, Amherst College, University of Washington, University of Toronto, University of Virginia, Western Reserve university, Leland Stanford university, University of Wisconsin, University of Michigan, Boston university and the University of Maine.

AT THE THEATRES

The Empress. Today is Paramount Day at the Empress with "David Garrick" starring Dustin Farnum as the main attraction.

BLAMES ALLIES FOR WAR'S CONTINUATION

Berlin, July 28.—Reviewing the political events of the second year of the war the German foreign office has given to the Associated Press the following statement:

"Unlike the military situation it is not easy to review briefly the developments in the confused paths of political events but an attempt will be made in the following statement to trace the leading ideas connected with the political problems of the second year of the war."

"The world war was caused by Russia's aggressive policy, supported by France's policy of revenge. But it was rendered possible by the fact that England subordinate to her economic antagonism to Germany all her other interests."

"Whereas Germany's enemies demanded agrandizement at the cost of others—the Russian who wanted Constantinople and Galicia—like France, who desires Alsace, Lorraine and the left bank of the Rhine—and like Italy who seeks Austrian territory—theo begrudge Germany even that she shall try to develop herself economically in peaceful competition and they pronounce it an unpardonable sin against the world's order of things."

"They are not willing that Germany should become great and strong because the other powers want to be the world's masters. They are not willing that Germany should be the center of a world of free nations and economic agrandizement has united Germany's foes in a war of destruction against us."

"The second year, whose end is now approaching has brought the ends of our opponents into clearer view. In Russia this is openly admitted. They want Constantinople as their war goal. There is a war-mad cry for Alsace-Lorraine."

"In England, too, the mask has been dropped; it is openly admitted that Belgium was only a pretext to justify England's policy which was undertaken for only their interests. Germany must never raise her head economically. The world's order of things is to be maintained during the end of the second year of the war."

"It is equally clear that the talk of a struggle of democracy against imperialism is only a catchword of our enemies to hide their real purpose. Surely there can be no struggle for the maintenance of democratic principles when the world is bent on destroying one nation even to the civilians. And is England the democracy she claims to be? Has not the entire development of England during the war shown that England is growing further away from democracy? Moreover, if England had really resorted to war in defense of the rights of smaller nations as she professes to do, the world, she could have without loss of her dignity have answered otherwise than by crying 'destroy Germany.'"

"Chancellor von Bismarck's speech made during the course of the year outlines England's principles clearly. England wants total destruction, war to the knife, which, according to the announcement of our enemy, shall continue after the cannon is silenced for the talk of a permanent peace which they formerly wished to establish. They are determined under the shout that Germany's enemies are realizing over the Paris economic conference."

"It is not enough that the world must be shaken by a protracted blood war. The world must not even there after enjoy a settled peace if the will of the entente powers prevails for the decisions of the economic conference do not signify an economic peace but a permanent economic warfare which never will permit the world to come to rest upon the basis of peaceful competition."

"This shows at the same time that the great words of the entente powers about fighting for the rights of smaller nations and the restoration of our empty sounds, for when Germany's enemies seek to control neutral trade they simply ignore the rights of other countries and base not on the principles of right but on the object of their policy which they allegedly want to abolish."

"Germany and her allies remained fully united and have common interests. Bulgaria as the fourth member, joined the alliance in October, 1915, after having satisfactorily arranged matters with Turkey. Through the accession of Bulgaria which resulted in the subjugation of Serbia the way was opened from Berlin to Constantinople and to Bagdad."

"The alliance of the central powers rests upon a community of political and economic interests. It is an intrinsic necessity for all four states and it guarantees to them among themselves the greatest advantages without in any way affecting the interests of the others."

"Building on one which she already has attained Germany treads the threshold of the third year of the war with unshaken confidence but the goal has not been reached for the enemy has not yet realized the impossibility of subjugating Germany and her allies."

HOW WAR WILL BENEFIT FARMER

ITALIAN AUTHORITY SEES NEW IDEA FOR AGRICULTURE WHEN PEACE COMES.

YIELD NOT REDUCED

Freight Rates, Rather Than Smaller Production, Causing Present High Prices.

Associated Press Mail Correspondence. Rome, July 31.—Vast and beneficial changes in the world's agricultural situation are impending as a result of the war, affecting the welfare of every farmer and the entire population of the earth, in the opinion expressed by The Associated Press by Marquis de Capelli, president of the International Institute of Agriculture. He also declared that there could be, for the present, no food famine in Europe or elsewhere.

"I look for a development of agricultural progress similar to that which the world has seen in industry during the past quarter of a century," said Marquis Capelli. "The war has educated the world and has made it realize the immensity of the problems connected with food supply."

"People in cities who never gave a thought to food or its price have everywhere been compelled to consider how to get food at reasonable prices. Those who have not felt the pinch of such prices, because of their wealth or their remoteness from Europe can only, in some measure, understand what it means to the food masses when told how in France and in Belgium many have risked and lost their lives right on the firing line in the endeavor to force their hand this indispensable product."

"In there a romance more thrilling than their struggle of peaceful labor amid the crashing of bomb and shell. One of the most gripping situations among all those which the light of this cataclysm has brought into such strong relief is that of the future of the food supply for the masses."

"The real war is not the one that arms in every belligerent country, absorbing all the strength and youth of the nations, together with the mobilization in some neutral lands, the destruction in close succession on invasion, might not all these things prove to be warnings that the grain crops may possibly fall short, and that famine may take its appearance sooner or later?"

"This Institute in Rome has, I may say, material at hand enabling it to consider this gravest of all questions impartially, seeing that it is an international institution founded and supported by the governments of every civilized country in the world. Personal interest and impending contingencies do not interfere with these energies, and they are available for aims of wide import, for the well being of the whole world of man."

"In place of watching an unlimited advance in prices brought about by unscrupulous traders and mendacious reports, culminating in the approach of the specter of famine as in former days, the institute has definitely ascertained that last season's grain crops throughout the world were decidedly greater than the normal harvests, and that the nations can rest assured of at least a sufficiency for the present."

"Nevertheless, have not the coming crops a less promising outlook, on account of the draughts, which are so real, already enumerated?"

"I would point to the latest bulletin of the institute demonstrating by convincing figures that, even if the approaching harvest should not prove so abundant as the previous one, the prospect is a better one than that of the average during the preceding five years."

"But it will be at once demanded from me: 'Why then these unheard of prices of bread in Europe, and why these government measures in France?' The answer is simple: the war has interfered with the production of flour more closely? In Italy for instance it is a fact that the present law requires millers to obtain 85 kilos of flour from 100 kilos of wheat, in place of only 70 kilos, as usual, a change which renders the flour less white and attractive to the eye but probably does not interfere with its nutritive qualities."

"This sharp rise of grain prices in consuming markets is the consequence of the immense enhancement in the cost of carrying from export to import countries. I will take just one example. The rate of freight for a ton of grain from Buenos Aires to Genoa in Italy, was in June, 1914, 9.84 francs, while a few weeks ago the rate was 248 francs or 25 times more."

"Every man interested in agriculture becomes anxious as to the serious drawbacks caused by these enormous fluctuations in ocean freights, and at the initiative of David Lubin, the United States Congress has adopted resolutions requesting this institute in Rome to study the matter in all its bearings and to invite the governments of every country to participate in an international conference with the view of making suggestions on the stabilizing of ocean freights."

"The world-wide war has invested the freight question with paramount importance, and it must have results for agriculture quite as far-reaching as those looked for in other directions."

"I should like to say that, in my opinion, and from a national point of view, among the ultimate results of this war will be the increasing interest taken by governments in the development of agricultural wealth, namely, by the encouragement of cooperation and association, by promotion of instruction on agricultural matters, by the creation of many model farms and agricultural intelligence bureaus."

"From the international point of view, I feel convinced that the institute in Rome, already embodying the principle of international cooperation, will in the future obtain from governments such measures as the stabilizing of the rates of ocean freights, the enforcement of regulations against adulterations of foods and seeds, the international protection of birds useful to agriculture, and in many other ways the road will be open for the institute to assist in the development of agriculture."

WAR PICTURES

The Motion Picture Scoop of the War! 8000 FEET OF Thrilling Battles Charges and Bombardments!

ON THE FIRING LINE WITH THE GERMANS

Just Brought Back by Wilbur H. Durborough, War Photographer, who took them on the Battle field while with the German Army.

See actually more of the German battle lines than many German soldiers witness. See with the eye of a motion picture camera that traveled by auto with the vanguard of Von Hindenburg's army—that peered over first line trenches of the enemy—that dashed through shot and shell, over the battle in a war aeroplane.

Witness the Germans assailing the fortress of Novo Georgeievski—declared impregnable—with infantry, machine guns, cavalry, aeroplanes—constantly attacking day and night for a full week. They captured trench after trench by desperate open field charges against a hail of bullets. Then the big guns wrecked the last ramparts of Russian Poland.

See these thrilling, vivid, terrific spectacles. See seven consecutive months of the war—Hospitals, Armies, Camps, Prisoners, Great Supply Trains as well as the battles.

Don't miss this brilliant photoplay of events.

Robbery Victim Taken Into Custody

Found To Be Carrying Pistol. Two Youth Suspected by Him Are Released

Early Sunday morning a young man who came to the city Friday night from Memphis, Okla., complained to the police department that he had been robbed of \$30 and that he suspected two young men who had spent the night in a local rooming house. Officers Burns and Glenn took the two men in charge and separately questioned them. They were promptly released. As explained by the officials they told the same story and so accurate were their accounts of the incident that no suspicion was attached to the fact that they were room mates of the young man at the time the robbery was committed.

It seemed that after the young man had reported the robbery, his room mates gave him \$5 each and this money was turned over to the officers, thinking that no sound developer would come out of the offense.

After the officers were convinced that the robbery was not the result of a trick, it was found that the pistol, which occurred to Night Chief M. Donald to further investigate the complaint, and upon being searched, it was found that he carried a pistol in his inside coat pocket, a weapon of little value, but sufficient to involve him in a charge of carrying concealed weapons, and he was accordingly turned over to the county officers.

Temporary Halt in Ballast Work

Northwestern Unable to Use Shale From New Mexico Mine to Get Other Material

The ballasting operations recently begun on the Northwestern between Dallas and Fredericks have been halted on account of the inability to use the shale from the New Mexico mine. The ballast company is now depending on ballast material. The large pile of shale has been burning out for a good many months. It was probably believed that it had burnt out sufficiently for using it for the ballast job, but when a steam shovel was put to work on the pile it was found to be still burning on the inside and to be too hot to work with. It is said that it will probably two years before the material is available for ballasting.

The proposed ballasting operations will be carried on as planned using some other material than ballast. The officials of the road being especially anxious to get that strip of road ballasted as soon as possible. It is thought that it will probably be the material used in the work. The road intends to push the work as much as possible, but its intention being to eventually ballast the road to its northern terminus.

Persistent rumors of railroad extensions planned for the near future in this section are not credited very much by Superintendent J. W. Bates of the Northwestern at least not for the present. Mr. Bates does not believe that the railroad will do any very extensive work until the eighth hour question and other matters affecting railroad finances are adjusted.

Lost

LOST—An automobile number, 1856, Phone 2107. 68-67c

To Exchange

FOR SALE OR EXCHANGE—Horses, Percheron grey or black, both sex. Cattle, black or red pointed, both sex. Land, tracts not less than five, nor more than 200 acres, one mile south of Wichita Falls. H. V. Dittoe, Room 64. 68-14c

Help Wanted—Female

WANTED—Girl for chamber work. Elite Rooming House. Phone 539. 55-14c

Rain Brings Relief to Burlington, Iowa

By Associated Press. Burlington, Iowa, July 31.—Rain which began falling at 9 o'clock this morning brought the first relief in the spell which has prevailed here the last two weeks with a temperature around the 100 degree mark.

Free Tickets To The Merchants Matinee

For every twenty five cents paid in cash for Want Ads, The Times will give a coupon good for one admittance to the Merchants Matinee at the Majestic Theater. These tickets are absolutely free to those who pay this amount in cash for want ads, but in order to avoid the loss of tickets by those who might not care to use them, The Times asks that those wanting tickets to signify their desire when making the payment.

These matinees will be given each Wednesday afternoon until further notice.

COBB NOW CLOSER TO BATTLING LEAD

Takes Second Place, With Speaker Still First—Changes Among National Batters.

By Associated Press. Chicago, July 31.—While Dave Robinson still holds the lead among the National League batters and Jake Daubert retains second place, this week's averages show changes in the remaining places among the leading hitters. Carey Pittsburh, is ahead in stolen bases with 51; Plack, Chicago, in sacrifice hits with 28; Williams, Chicago, in home runs, with 12; and in total bases with 148, and Burns, New York, in runs scored with 69. Cincinnati leads in club batting with 254. The leading batters who have played in half or more of their team's games are:

Robinson, New York, 349	Daubert, Brooklyn, 320
Wagner, Pittsburgh, 317	Chase, Cincinnati, 314
Zimmerman, Chicago, 289	Hornsby, St. Louis, 288
Long, St. Louis, 286	Wheat, Pittsburgh, 284
Shulte, Chicago, 283	Whitted, Philadelphia, 283
Leading pitchers for sixteen or more games:	
W. L. E. R.	
Hughes, Boston..... 11 2 2.20	
Harcup, Detroit..... 9 2 1.45	
Pierr, Brooklyn..... 16 5 1.88	
Alexander, Philadelphia 18 6 1.46	
Mathaus, Pittsburgh..... 14 5 1.74	
Goobins, Brooklyn..... 9 2 2.52	
Risey, Philadelphia..... 10 6 2.27	
Benton, New York..... 8 4 3.58	
Jacobs, Pittsburgh..... 4 2 3.70	
Senton, Chicago..... 7 3 3.11	

In the American League Cobb took second place, in batting, adding four points to his average over that of last week while Jackson fell off. Speaker still holds the lead. Weaver, Chicago, took the lead in sacrifice hits with 52; Cobb remained in front in stolen bases with 25, no gain over last week; Ekers' eight still is topmost figure in the country, with 14, a feature. Total bases with 173 and in runs scored with 68. Detroit is ahead in team hitting with 256.

Leading batters: Speaker, Cleveland, 381; Cobb, Detroit, 357; Jackson, Chicago, 387; Severid, St. Louis, 303; Burns, Detroit, 301; Sisler, St. Louis, 291; Nussanaker, New York, 288; Hornsby, Boston, 287; Smith, Cleveland, 287; Shotton, St. Louis, 286; High, New York, 285.

ROBBERY VICTIM TAKEN INTO CUSTODY

Found To Be Carrying Pistol. Two Youth Suspected by Him Are Released

Early Sunday morning a young man who came to the city Friday night from Memphis, Okla., complained to the police department that he had been robbed of \$30 and that he suspected two young men who had spent the night in a local rooming house. Officers Burns and Glenn took the two men in charge and separately questioned them. They were promptly released. As explained by the officials they told the same story and so accurate were their accounts of the incident that no suspicion was attached to the fact that they were room mates of the young man at the time the robbery was committed.

It seemed that after the young man had reported the robbery, his room mates gave him \$5 each and this money was turned over to the officers, thinking that no sound developer would come out of the offense.

After the officers were convinced that the robbery was not the result of a trick, it was found that the pistol, which occurred to Night Chief M. Donald to further investigate the complaint, and upon being searched, it was found that he carried a pistol in his inside coat pocket, a weapon of little value, but sufficient to involve him in a charge of carrying concealed weapons, and he was accordingly turned over to the county officers.

WOMEN'S VOTES NEXT NOVEMBER

SUFFRAGISTS TO MEET SHORTLY TO DECIDE WHOM THEY WILL SUPPORT.

CAMPAIGN PLANNED

To Take Active Part in Behalf of Candidate They Consider Most Favorable.

By Associated Press. Washington, July 31.—The women's part in the forthcoming presidential campaign in the movement for equal suffrage, promising the most active participation by women favoring its politics in American history, will be planned when woman suffrage leaders, militants and pacifists meet at Colorado Springs for a three-day conference of the National Woman's Party, August 10, 11, 12. The conference will consider what policy the new suffrage party organized last June at Chicago, shall adopt in the coming campaign to secure submission to the states by Congress of a national suffrage constitutional amendment.

Whether support to the democratic, republican or progressive parties will be given by women favoring its policy, will be definitely decided at the Colorado Springs conference. Each will tour all of the suffrage campaign, it is expected that hundreds of women of the rank and file of suffrage workers will attend. Miss Anne Martin of Nevada, chairman of the women's part of the party, will preside and addresses will be made by many women prominent in the suffrage propaganda.

Plans have already been completed for the campaign of the Woman's Party in the twelve suffrage states, Arizona, California, Colorado, Idaho, Illinois, Kansas, Montana, Nevada, Oregon, Utah, Washington and Wyoming. Headquarters will be at Chicago, in charge of Miss Martin.

A campaign fund which is expected to reach the \$500,000 mark, is also being collected by Mrs. O. C. Belmont of New York. State campaign managers have been selected and a large array of stump speakers chosen. Each will tour all of the suffrage states. Mrs. Charlotte Perkins, Mrs. Rhea Childs Dorr, Mrs. Mary Stanton, Mrs. Bluff, Mrs. Winlow and Mrs. Crystal Eastman of New York and Mrs. J. A. H. Honkins of Morristown, N. J., are among the speakers who will be routed and a publicity campaign with much literature appealing to voting women of the western suffrage states will be circulated. Political cartoons by Mrs. Nina E. Allender, said to be the only woman political cartoonist in the country, will be a feature.

Whether these campaign forces will be thrown for or against the nominees of existing political parties or whether an independent ticket will be formed is the decision to be made at the Colorado Springs conference. The status of the national suffrage amendment in Congress also will be considered at the opening sessions. It is expected that by that time Congress will be on the verge of adjourning and the fate of the Susan B. Anthony amendment probably known. Should the Democrats in control of Congress fail to act upon it, leaders here declared that will be an important factor in the probable decision regarding support of or opposition to the democratic party by the Woman's Party.

Suffragists will judge the democratic party by its deeds and not by its promises, since being the party in power had and still has the power to pass the federal amendment, was the statement of Miss Alice Paul, chairman of the Congressional Union.

During the first day's session at Colorado Springs, Miss Matid Young, special delegate, secretary of the Congressional Union's advisory committee, Mrs. Florence Bayard Hill of Delaware; Mrs. William Kent, wife of Representative Kent of California, and Mrs. Seon Baird Field of Oregon, who brought the monster suffrage petition to the White House last December upon the opening of Congress, will recite the efforts made during the present congressional season for passage of the resolution.

DAN LEE MAKES BOND ON FEDERAL COURT CHARGE

Dan Lee, proprietor of the Chinese laundry at this place, who was recently arrested on a white slave charge and removed to Fort Worth by federal officers, has returned to the city, being released by the federal court on a \$500 bond, which was made by depositing the amount with a Fort Worth bank to guarantee his presence before the court when the case came up for consideration.

When Lee was arrested a number of the patrons of his laundry were unable to get their bundles back for some time, as the other Mongolian in the shop had no means of identifying the packages and refused to give any of them up. Lee's return will probably clear up the troubles of his patrons.

Whether support to the democratic, republican or progressive parties will be given by women favoring its policy, will be definitely decided at the Colorado Springs conference. Each will tour all of the suffrage campaign, it is expected that hundreds of women of the rank and file of suffrage workers will attend. Miss Anne Martin of Nevada, chairman of the women's part of the party, will preside and addresses will be made by many women prominent in the suffrage propaganda.

Plans have already been completed for the campaign of the Woman's Party in the twelve suffrage states, Arizona, California, Colorado, Idaho, Illinois, Kansas, Montana, Nevada, Oregon, Utah, Washington and Wyoming. Headquarters will be at Chicago, in charge of Miss Martin.

A campaign fund which is expected to reach the \$500,000 mark, is also being collected by Mrs. O. C. Belmont of New York. State campaign managers have been selected and a large array of stump speakers chosen. Each will tour all of the suffrage states. Mrs. Charlotte Perkins, Mrs. Rhea Childs Dorr, Mrs. Mary Stanton, Mrs. Bluff, Mrs. Winlow and Mrs. Crystal Eastman of New York and Mrs. J. A. H. Honkins of Morristown, N. Market Report

Local Wheat Market. The price of wheat here remained at \$1.16 per bushel today.

Fort Worth Livestock. By Associated Press. Fort Worth, July 31.—Cattle receipts 6000, 1000 less, 25 cents lower. Steers 16 to 18.50. Hog receipts, 5000, ten to fifteen cents lower. Bulk \$9.35 to \$9.55. Sheep, receipts 5900, steady. Lambs 19 to \$9.75.

New York Cotton. By Associated Press. New York, July 31.—Cotton opened steady today at an advance of one to four points in response to relatively firm cables. The more bullish ideas of the crop conditions were modified somewhat by the report placing the condition at 75.3 and indicating a deterioration of only three per cent for the month. October contracts sold off from \$13.50 to 13.19, while December declined from \$13.39 towards noon. The report from western authorities placed the condition at 75.7 compared with 75.9 last month. Cotton closed steady. August 13.04, October 12.29, December 13.50, January 13.45 and March 13.50.

Chicago Grain. By Associated Press. Chicago, July 31.—Cooler weather tended today to ease off the wheat market. Opening prices which ranged from a shade to 1/4 to 3/4 lower with September at \$1.20 1/4 to \$1.21 and December at \$1.24 to \$1.24 1/4 were followed by slight further declines and then a moderate rally. Corn was firm. Wheat closed unsettled with September at \$1.21 1/2 and December at \$1.24 1/4 to 1/4 with the market as a whole 1/2 off to 1/8 up compared with Saturday.

WARM WEATHER TO CONTINUE IN SOUTH. By Associated Press. Washington, July 31.—High temperatures will continue in the South today and tomorrow, the weather bureau forecast today promising no relief from the warm wave.

COOLER WEATHER IS PROMISED KANSAS CITY. By Associated Press. Kansas City, July 31.—The temperature here at ten o'clock this morning was 80 degrees. The government forecaster announced a cool wave was due tomorrow.

OFFICER OF W. O. W. IS TAKEN ILL HERE Major Crowds Stricken With Appendicitis—Is Removed to Home in Dallas Major Earl Z. Crowds, one of the most active of the officers at the recent encampment of the Woodmen at Lake Wichita was stricken with a serious attack of appendicitis at an early hour this morning and was taken to the general hospital. It was first feared by his physicians that he would have to be operated on at once, but later it was decided to postpone the operation until he could be moved to his Dallas home. He will be taken home on the Denver which left this afternoon. Mrs. Crowds who has been here while her husband was at the encampment accompanied him home. Major Crowds seemed in excellent health up to the time he retired last night having made a trip out to the lake with a party of friends from which they did not return until a late hour. It was several hours after retiring that the sickness developed. Major Crowds remained over here in company with General McDill, Col. Mather and other officers winding up the business affairs connected with the encampment. He was planning to attend the state encampment of the Oklahoma Woodmen at Ada next week. General McDill and the other officers expect to get away this afternoon driving through to Dallas in the general's car, with the exception of Col. Mather who will leave on the early morning Denver tomorrow on his way to Washington and other northern and eastern points on business connected with the order.

GOING TOURING?

NEGRO PORTER TO FACE TWO CHARGES

Indicted For Theft and Perjury Following Theft at Baum-Gardner Store

The 30th district court resumed work this morning, the first case to be taken up for consideration being that of Jim Lyons, colored, indicted at the recent session of the grand jury on a charge of perjury in connection with statements concerning the alleged theft of a number of articles of merchandise from the store of Baum & Gardner. Lyons was a porter at the store and it is charged that he took a quantity of high priced merchandise, which was recovered from the room of a negro woman in this city. The charge of perjury resulted from the testimony of Lyons when questioned about the case. In addition to the charge of perjury, he must also answer an indictment for theft of the goods, an indictment having been returned by the same session of the grand jury that returned the bill for perjury.

Caller—"I suppose you can spell all the short words, Bobbie?" Bobbie—"I can spell a lot of big ones, too. I can even spell words of four cylinders."—Boston Transcript.
