PRINTERS GATHERING AT INDIANAPOLIS

Baseball Tournament and Other Athletic Events Planned For Next Week

By Associated Press. Indianapolis, Aug. 5.—Hundreds of union printers arrived in Indianapolis today to attend the ninth annual Union Printers' Baseball tournament which will be held during the coming week. The program for today included a "get together" meeting at the hotel headquarters. President McGowan of Chicago delivered the address for the association. A. B. Hattery spoke for the local organization. Others on the program were Mayor Joseph E. Bell and Charles A. Bookwalter.

The first ball games will be played tomorrow. Pittsburgh will meet the Indianapolis team and Chicago will play Boston. After those games the teams to take part will be decided by a process of elimination the winners meeting to play others each day until the championship is decided. Sunday night there will be a musical entertainment for the women and men together.

Except for three ball games, beginning at 10:30 o'clock Monday morning that day is open with no definite program. Tuesday also will witness three games. The big evening's entertainment for the men will come Tuesday night. The affair is to be in the nature of a stag smoker. Jack Dillon and his sparring partner, Gus Christie will box four rounds, to be followed by a ten round bout between Pat McMahon of Indianapolis and Roy Hurst of New York. Tommy Dillon and Stewart Bonnelly an Indian, will then go for six rounds. Four rounds between boxers who are not known so well will close the evening's entertainment. While the men are at the smoker the women delegates will be entertained at another affair.

A twenty-five mile automobile race at the Speedway will be the attraction Wednesday morning. Four well known race drivers will compete. The race of the day is to be used for a

picnic. Thursday the ball games and a dance in the evening are on the program. The championship game will be played Friday afternoon. The prizes are the Garry Herman cup and Langston trophy. A business session Friday night, at which officers will be elected and the next tournament city selected will close the affair.

More than 1,000 districts where union printers are employed will be represented at the tournament and 1,200 persons or more are expected to attend before the end of next week. The present championship team is in St. Louis. There are eleven baseball teams in the organization. They are: New York, Boston, Washington, Cincinnati, Indianapolis, St. Louis, Chicago, Cleveland, St. Paul, Philadelphia and Pittsburgh.

MUCH SHORT-TIME PAPER HELD BY RESERVE BANKS

Washington, August 5.—Short-time paper, running from ten to fifteen days held by the federal reserve banks, increased more than \$4,000,000 during the past week, according to a statement of the bank's condition August 4 issued today by the federal reserve board. It shows a total of bills discounted of \$199,934,000, total gold reserve \$365,163,000, total resources \$613,257,000, and earning assets \$193,271,000.

KATY EXTENSION RUMOR CURRENT

MANY INDICATIONS THAT FORGAN-CITY LINE WILL BE BUILT.

SERVICE TO DENVER

Information From Reliable Sources Leads to Belief That Work is to Be Undertaken.

From indications which seem to point conclusively toward an extensive building program on the Northwestern and other Katy lines it is entirely reasonable for Wichita to expect for the next two years to see the Katy the southwest's greatest railroad system and the Wichita Falls division equal if not superior in importance to the "main line" division of the Katy. Through passenger trains over the Northwestern to Denver, with sleepers attached to go straight through to the great cities on the Pacific coast will be the result of the new regime if it goes through according to information from authentic but unofficial sources.

Rumor has had it for several months that the Katy was planning this and that extension, toward which the officials of the company professed ignorance or showed hesitancy. However, the true significance of the plans of the road have not been heretofore realized if reports now current prove to be true, and from the authoritative sources from which they have come there seems little reason to doubt that the next few months will see the beginning of construction of the plan. It seems that the chief piece of construction contemplated in these plans is for the construction of about 100 miles of track linking Garden City, Kansas with Forgan, Oklahoma, the present northern terminus of the Northwestern. From Garden City, the report has it, passenger trains will be operated from Galveston to Wichita Falls into Denver, running under joint trackage agreements over the lines of the Santa Fe, in Colorado, Kansas and Oklahoma and the Union Pacific railroads. The connection with the Union Pacific will be at Winona, Kansas. At Garden City, Kansas the Northwestern will effect a connection with the Santa Fe at Scott City, Kansas with the Missouri Pacific at Winona with the Union Pacific.

To say that Wichita Falls would be immensely benefited by being on another of the lines of trans-shipment of grain, as well as passenger traffic, is a division of the railroad from the immense amount of new business that the new extensions would carry through would be to express the merely obvious.

Other indications which show the extension to be a logical one for the Katy, and which seem to sweep away doubts as to it being planned by the road are cited in support of the current rumors. Much of the new territory reached by the road through the extension is virgin territory as far as railroad facilities go and the general trend of development in the Southwest and West has so far passed it up, although in resources and possibilities it is not surpassed by any section in the United States and seems marked for a great wave of development in the near future. As an indication of the business possibilities of the region the record of the section of the road between Woodward and Forgan is cited. This strip of road 8.4 miles in length which is of comparatively recent construction now brings the road about 4,000 car loads per year of wheat alone. It is thought that the new strip from Forgan to Garden City will bring at least 3,000 car loads of this kind of business annually, to say nothing of the immense amount of business in Southern Colorado, Western Kansas, and points even remoter that road will be able to handle on account of the shorter haul to Galveston and Houston.

The new extension will mean a saving of several hundred miles in business handled by the Katy for these regions to Galveston and Houston. The fact that the Katy is now in

CULBERSON CLUB HAS PASSED 500

MANY ADDITIONAL NAMES ARE ENROLLED FOR HIM SATURDAY.

LABOR MEN SIGNING

Lists in Circulation at Electric, Iowa Park and Burkburnett Get Many Names.

The 500 mark was passed in the Culberson Club membership in Wichita Falls Saturday and Culberson's friends here believe that the end of the week just opened will see the membership in the local club close to the thousand mark. This was not due to any extraordinary number of members already signed and who will sign at Iowa Park, Electric and Burkburnett. No report was received from Burkburnett and Electric yesterday but it was believed the aggregate of the names already signed at those places would be in excess of 200.

A partial list of those signing for membership yesterday follows: Most of those signing for membership yesterday hunted up the persons who carried the membership lists and members has been little solicitation. This week it is planned to give all who will an opportunity to sign.

Culberson's excellent record on labor legislation is well known by union men, who are among the most enthusiastic in his support.

UNIQUE CONTEST IN AMERICAN LEAGUE

Seven Teams Have Average of 500 or Better and Are in Running For Pennant

By Associated Press. Washington, Aug. 5.—The present race in the American League is headed by all veteran baseball fans for some weeks, were in the place of the records of recent seasons on this contention. On August 5th, seven of the eight clubs composing the league had a present average of 500 or better. St. Louis held seventh place with a .375 batting average while the Athletics in last place were .293 points behind the Browns.

Boston in first place, was but three points ahead of Chicago and the New York Yankees, which led the league for some weeks, were in third place, 33 points behind the leader and four points ahead of Cleveland in fourth position. Between Boston in first place and St. Louis in seventh there were just 79 points difference in percentage. 7% games. With something like ten weeks of play remaining any one of these seven clubs might be conceded a chance for the 1916 pennant and the situation is unique in the history of the big league pennant races.

STATE OFFICIALS LEAVE FOR HOUSTON CONVENTION

By Associated Press. Austin, Tex., Aug. 5.—Governor Ferguson and other state officials will leave tonight for Houston to attend the convention next week. Several officials will not leave until tomorrow and the Travis county delegation leaves Monday. The governor has completed his speech of acceptance which he says will be brief.

SECURITY LODGE PLANS MEMBERSHIP CAMPAIGN

A big membership campaign will be inaugurated by the Knights and Ladies of Security at the regular weekly meeting Monday night at the Carpenter's hall, 717 1/2 Eighth street. The campaign will be waged through the remainder of August and all of September and on the first meeting, August 14, in October a special meeting will be held with the officials of the grand lodge as the guests. It is proposed at this time to adopt a class of fifty, the number of members to be obtained in this campaign. The champion drill team of the grand lodge will put on the adoption work, promising something of unusual interest in lodge circles.

The local lodge of the Knights and Ladies of Security has 152 active members, the membership having been tripled within the last year. L. H. Tilden is president and P. E. Hunter, financier. The grand lodge numbers 198,000 members, being one of the largest fraternal and protective organizations in the country. The order has been in existence 26 years and within the past few years the membership has enjoyed unprecedented growth.

ALL ENGLAND IS MAKING SHELLS

STORY OF HOW MUNITIONS SUPPLY WAS MADE SUFFICIENT IS TOLD.

MISTAKES AT START

Many Mistakes Before Real Situation Was Understood and Necessary Work Done.

Associated Press Mail Correspondence. London.—When the British forces in France began their great offensive bombardment on June 27 and for days hurled into the German lines such an avalanche of steel and lead as the world had never known before, even the people of England expressed wonder that it should have been possible to assemble so vast a store of munitions. The story of how these supplies were created constitutes one of the most important chapters in the history of British achievement during the war.

been carried out may be gathered from the statement that the largest of the new plants covers an area nine miles long and from three to four miles wide.

A staff of 5,000 people has been required to supervise the work. At the head of this staff and responsible only to the minister of munitions, has been a man whose organizing ability has been accorded widespread recognition. He is Dr. Christopher Addison, internationally known for his medical research work. For some years he has devoted his attention to politics, and besides holding a seat in the House of Commons had been Parliamentary secretary to the board of education before entering on his present duties as parliamentary secretary to the ministry of munitions.

At the outbreak of hostilities two years ago there were only three important government munitions factories in the British Isles. Today some four thousand government-controlled firms, employing more than 2,000,000 workers, are turning out virtually all of the tremendous amount of war materials which have gone to equip the five million British soldiers in the field. The organization of this great industry has been accomplished in a little more than one year by the ministry of munitions which was established in May, 1915, under the leadership of David Lloyd George. In that time every available resource of the country has been built for the production of munitions. Some idea of the scale upon which this organization has

in the country and it was evident that it was entirely inadequate to meet the demands. There were, however, a great many private firms which could be brought in to make munitions and it was decided to mobilize them for national service. In order to do this we created an organization embracing the entire country. The country was divided into districts in each of which a working-board of management was set up. By means of this scheme of local organizations thousands of firms have been brought in, many of which had never before been engaged in munition-making. They are now producing shells, or a grenade, or a bomb, before, much less than made them. Now munition making in some form or other has extended itself to every considerable town—indeed to large numbers of villages.

An earnest desire to help, an adaptability and eagerness to learn "have brought into munition-making the most remarkable assortment imaginable of shops and factories. In one era alone shell bodies or the components of shells are being made by engineering works, but in confectionary works, by a music-roll manufacturer, by an infant's food maker, by a candle maker, by a flour miller, by a tobacco merchant, by an advertising agent, in general breweries, by siphon manufacturers and so on. Shells and good shells have been turned out by machines and methods which would be horrifying to the apostles of orthodoxy.

"What all this amounts to in the aggregate you can form some conception of when I tell you that a calculation made three weeks ago showed that there were being turned out weekly by firms who a year ago had not been engaged in munition work sixteen times as many heavy shells as were being produced a year ago by all the national plants and private armament firms put together. Of course, this does not apply to their present output. Numbers of munition makers who have hitherto been engaged in producing quite different goods have sacrificed their business and goodwill in order to take up the manufacture of munitions. They have done it for the asking and ungrudgingly. Many of them will find themselves at the end of the war with great part of their good will and plant in the hands of the government. Coincidentally with this program of bringing in private firms it became evident that even with their help the output would not be sufficient for the ministry of munitions proceeded to provide a large number of "single purpose" factories, that is, plants where the work could be specialized. Skilled engineers divided the work up into a number of repetition operations such as could be done with a few weeks' training by women or unskilled labor. There were also established fifty-three national shell factories of this kind, all of which have either been built or reconstructed by the government. Of these thirty-eight are under the management of the boards previously referred to. Others are managed for the ministry by experienced munitions firms.

Quality First

THE NEW WAY TO SPELL ECONOMY—

G-H-A-L-M-E-R-S

A cheap piece of machinery, like the boy with a little knowledge, is sometimes a dangerous thing.

Men are buying better and better lawn mowers, and reapers, and printing presses, and gasoline engines and pumps.

Why? Because they find it pays. Probably there's no better example of this in the case of automobiles than Chalmers cars.

Figures show that over 75 per cent of men who have bought Chalmers cars this year previously owned a \$500, \$600 or \$800 car.

And the great big increase in Chalmers sales (792 per cent in six months) has come from towns just like this.

In the old days Chalmers cars were sold for the most part in towns like New York and Chicago.

You can find Chalmers cars most any time of the day in most any block in such towns even now.

But in the smaller communities Chalmers cars are most numerous today. Because the people in towns like this were quickest to see the value, note the endurance, and observe the wonderful performance.

Particularly of this 3400 r. p. m. Chalmers, which is, in our opinion, the most able car that ever came to this town.

Price \$1090 Detroit, a car well worth \$1400.

also to bring in the manufacturers of machine tools. Every machine tool made during the last twelve months has been disposed of as directed by the ministry of munitions. The tools have been sent where they were most needed for the making of munitions.

"One of our most anxious problems has been the supply and the distribution of skilled labor. There was not enough skilled labor to go round. This fact was recognized by the trades unions and the government has received their hearty assistance throughout in the distribution of skilled labor and in the dilution of skilled labor with unskilled. The introduction of unskilled labor into the field of skilled labor is a sacrifice of skilled labor to which no too high tribute can be paid. Skilled men have trained and instructed unskilled workers and in thousands of cases have willingly been moved from piece work to day wages with the result that they have earned smaller wages than the people they had trained to receive at piece work.

"This position was rendered more difficult by the fact that many skilled workmen crowded into the army. More than 45,000 highly skilled workmen have since been withdrawn from munition work. They go where they are sent. This has given the ministry of munitions control of a large body of skilled workmen who can be moved as required. Apart from the manufacture of ships, aeroplanes, etc., which do not fall under the charge of the ministry of munitions, there are now employed in the munition industry some seven hundred thousand women. It follows that there has been much labor expended in housing munitions workers. The women have been built and we have provided accommodations for sixty thousand people in twelve months.

"People from all classes of society have joined in the manufacture of munitions. There is, for example, on the staff of the ministry of munitions the daughter of an earl who worked for six months as the laborer in a munition factory. Large numbers of the best known families have devoted themselves to work in the canteens and in the hospitals for the wounded in the factories. There is a department in the ministry which is solely concerned with the provision of canteens for munition workers and these can be provided meals for 500,000 people daily. This enables them to get their food under decent conditions. Charges are made to cover the cost.

Dr. Addison pointed out that it has been necessary to interfere arbitrarily in private industry in order to carry on the munition work. Private and public building has been stopped in many cases in order to move the labor elsewhere or to economize material. What applies to the building trade holds good with many others. How this interference has been cheerfully borne, he declared.

He stated that as a result of the demands upon the ministry of munitions the formulae for many chemicals and processes which formerly had been made by the Germans had been discovered by English scientists and that these things were now being manufactured in this country. Whole villages have been built and the ministry of munitions is no more the equipment of the factories and works extensions all over the country with power and plant on up-to-date styles. Accurate and modern machine tools will add enormously to our industrial strength in the markets of the world.

It is stated that the heads of the different departments of the ministry of munitions are largely directors and managers of great industries who have volunteered their services and have given up their own private business work to labor for the country without remuneration. As one has put it, "the ministry of munitions is, in fact, the general staff of the British industry, organized for war." The man who has given credit for affecting reductions in shell contracts prices which saved the government 400,000 pounds a week.

NASHVILLE TEAM GETS PLAYERS FROM ST. LOUIS

Nashville, Tenn., Aug. 5.—The Nashville Southern association club has secured pitcher Mike Cahan and outfielder Tobin from the St. Louis American League, an outfielder, will be returned to the Browns when McCabe and Tobin report.

TRYING TO CAPTURE REBELLIOUS CARRANCISTA

El Paso, Texas, Aug. 5.—General Francisco Gonzalez, commander at Juarez, ordered 700 cavalrymen today to comb the hills south of that city to apprehend Mariano Tames who, with six men of the volunteer defense corps deserted yesterday with the announced intention of joining Francisco Villa in the Mexican district of Tamaulipas. Tames recently attempted to organize a revolt.

OJINAGA IS EVACUATED BY DE FACTO FORCES

Presidio, Texas, Aug. 5.—The de facto garrison of Ojinaga under Colonel Jose Rios evacuated the town today. Rios was ordered to proceed to proceed southward along the Conchos river to investigate reports that a small band of bandits had been operating between Tulas and the frontier. Ojinaga was occupied by volunteer forces composed largely of Mexican ranchmen.

WAGE INCREASE GRANTED RAILWAY TELEGRAPHERS

Chicago, Aug. 5.—J. T. Gillick, general superintendent of the Chicago, Milwaukee & St. Paul railroad announced today the settlement of differences by officials of the road and a grievance committee of the 2200 telegraphers whereby the telegraphers were granted a flat increase in salary of three dollars a month, effective August 1. The telegraphers had asked an increase of 15 per cent.

Merrill Blair of Quanaah is spending Sunday in the city with friends and relatives.

Lee Haney of the First National Bank has returned from a vacation spent with relatives in Lone Oak and Tulsa and Oklahoma City.

The fire department made a quick run to 1609 Tenth street Saturday where the blowing up of a gas stove had alarmed the people of the house. However no fire resulted.

ONE NEGRESS CUT, ANOTHER ARRESTED

Knife is Wielded Saturday Night and Victim is Taken to Hospital.

"Oh yes, you are Tracy's woman aren't you?" asked night club Mr. Don. "I am a negro woman who was brought to the station last night as a party to a cutting scene. 'Are you and Tracy married?' 'No, sir, answered the woman. 'I don't play that married game. I got a lawful husband in McKinney.' 'He ain't doing you much good, there is he's asked the of. 'Well s'uh you see I go to see him once in a while.'"

The woman was arrested on a charge of cutting another negro woman, Lulu Black, in a fight, at the 1700 block on Tenth street, 10:30. The cause of the fight did not come out. The woman, so it is said, "didn't know why the other woman started something with her, and not knowing what the other negro had and not wanting to take any chances she started cutting operations with a knife. A gash was cut in the black woman's left arm, on the 1st side of the neck and another to the back of her left side about six inches above the hip. The wounds are said to be not serious and the negro woman is in a general hospital for emergency treatment. The knife wielder, whose name was Lillie Steward, was placed in the county jail.

No Watermelons For Troops Along Border, Are Ruled Unhealthy

By Associated Press. El Paso, Texas, Aug. 5.—(Room spread over the army camps here to night when the news that watermelons have been banned by the authorities was received. It was stated that the melons of the southwest carry infection and that they are not whole some. The order is applied to all camps along the border. It has been discovered that watermelon rind is the only kind of garbage that cannot be disposed of; it cannot be burned or effectively buried and tends to cause flies.

MANGUM SUSTAINS HEAVY FIRE LOSS

Two Newspaper Offices, Theater and Other Buildings Destroyed Saturday.

By Associated Press. Oklahoma City, Aug. 5.—Fire tonight destroyed a theater, two newspaper offices and five other buildings in the business center of Mangum, totaling a loss of between \$25,000 and \$30,000. Nobody was injured. Heroic work of members of the volunteers fire department prevented the flames from reaching across the street and igniting a row of the town's principal stores. The Mangum Star, whose shop was razed by the flames, was the oldest established newspaper in Oklahoma.

DYNAMITE IS FOUND BY BOYS IN BARN

May Have Been Left By Yeegman—Police Investigation.

The local police are rather mystified by the finding of several sticks of dynamite, with caps and several feet of fuse, by school boys in a barn at a vacant house at 1606 Justin street Saturday. The boys, John Kay and Cecil Sanders were playing about the house and came upon the explosive hidden away in an old sack. Although the police think it is possible that the boys ran across some yeegman's cache it is thought that more probably some one had been using the dynamite in a legitimate way, had some left over and stored it in the barn, forgetting it when they moved away.

VISITOR FROM ROTAN NOT SO BAD, AFTER ALL

"Mac, here is a had one from Rotan who has been telling them down in the flats that none of this law could arrest him," said Officer Burns to Night Chief McDonald as he and Officer Glenn brought an incarcerated individual into the station from the flats. "We have been just trembling all over since we heard it," continued the officer with a laugh. The party in custody had quite a lot of money and valuables on his person and attempted to secure his release by paying a fine, saying that he was registered at a local hotel and wished to spend the night there. He was told that he was then registered at the city's hotel and was shown to his room in the lockup.

SUFFRAGISTS PLAN TO RAISE \$500,000 CAMPAIGN FUND

New York, Aug. 5.—Efforts will be made by the leaders of the Women's Party, it was stated today, to organize a group of 1,000 women to raise a fund of \$500,000 for use in the campaign for votes for women this fall. Mrs. O. H. P. Belmont will go to Newport to start the movement.

RESERVE IN EXCESS OF LEGAL REQUIREMENTS

New York, Aug. 5.—The statement of the actual condition of clearing home bank and trust companies for the week shows that they hold \$132,311,780 reserve in excess of legal requirements. This is an increase of \$3,955,470 over last year.

TEXAS COMMISSION TO ACT ON STRIKE

Receives Many Requests to Take Some Action in Threatened Rail Strike.

By Associated Press. Austin, Texas, Aug. 5.—That the rail commission of Texas will adopt resolutions favoring arbitration between carriers and employes in the threatened railroad strike in that state is now practically certain. The commission during the past several days has been receiving numerous copies of resolutions adopted by commercial organizations of Texas as well as letters and telegrams from shippers and individuals, urging that the threatened strike be settled by arbitration and that the Texas commission use its influence in that direction.

SABINE COUNTY VOTES TO RETAIN PROHIBITION

By Associated Press. Bronson, Texas, Aug. 5.—Sabine county remains in the prohibition column by a vote of 514 to 204, with one small loss to hear from. The county has been dry for ten years.

300-MILE RACE WON BY RICHENBACHER AT TACOMA

Tacoma, Wash., Aug. 5.—Eddie Richenbacher won the Monte-Marathon 300-mile automobile race at the Tacoma Speedway today. Thomas Milton was second and Dave Lewis third. The winner's time was 3:21:49.

DAUBERT FORCED TO QUIT IN FIRST GAME SATURDAY

By Associated Press. Brooklyn, August 5.—Jake Daubert, first baseman for the Superbas, had to retire in the first game today because of severe pains in one of his legs. He will be out of the game for several days.

SPEAKER BACK IN GAME AFTER SPRAINING ANKLE

Cleveland, August 5.—Tris Speaker, who sprained his ankle a week ago to day, picked four innings in today's game and got two hits out of three times up.

BOSTON'S PROTEST IS DISMISSED BY LEAGUE

By Associated Press. Boston, Aug. 5.—The protest of the Boston Nationalists against a decision of the League of Nations in a game here with Chicago July 25 which the Braves claimed cost them the contest, has been dismissed by President Tamm of the league, according to announcement made today by President Haughton of the local club. The league executive ruled that the umpire's decision, which gave Zimmerman of Chicago three bases and a run on a throw into the dug out back of first base, was correct.

FIRST SALE OF COTTON MARKED IN LOUISIANA

By Associated Press. Church Point, La., Aug. 5.—The first sale of the 1916 cotton crop in Louisiana was brought here late yesterday. It was grown in Arcadia Parish, weighed 517 pounds and sold for fifteen cents a pound.

SOUTHERN MILL TAKINGS ESTABLISH NEW RECORD

By Associated Press. New Orleans, Aug. 5.—The world's takings of American cotton during the year ending July 31, were placed at 14,171,000 bales by Secretary H. G. Hester of the New Orleans Cotton Exchange in his annual report issued today. These figures compare with takings of 13,516,000 in the previous season and 14,512,000 bales two seasons ago. Southern mill takings placed at 4,047,000 broke all former records, according to the report, as did takings of 505,000 by Japanese, Chinese and East Indian mills.

TULSA NEGROES AROUSED BY SEGREGATION PLAN

By Associated Press. Tulsa, Okla., Aug. 5.—Aroused over a segregation ordinance passed by the city commissioners the negro citizens of Tulsa will hold a mass meeting tomorrow to formally protest against the law. The segregation ordinance prohibits negroes from owning property or residing in a block wherein 75 per cent of the residents are whites. A similar law was turned down by a democratic administration two years ago. The present city officials are all republicans.

CALIFORNIA PROGRESSIVES INDORSER PRESIDENT WILSON

By Associated Press. San Francisco, Aug. 5.—President Wilson was unanimously indorsed here today at a conference of California progressives.

DALLAS LINEMAN MAY BE FATALLY INJURED

By Associated Press. Dallas, Texas, Aug. 5.—J. M. Roach, lineman, was probably fatally injured when he was hurled to the ground when the pole he was working was struck by lightning this afternoon. He was seriously burned.

PRESBYTERIAN LADIES' AID SOCIETY THANKFUL

"The Ladies' Aid society of the First Presbyterian church wishes to express its appreciation to each and every one who did his part to swell the number of votes which enabled it to win the first prize of one hundred dollars offered by the Jones-Kennedy company. Also to the Jones-Kennedy company and its employees who it express its appreciation for courtesies extended to those ladies who collected votes."

By Associated Press. Forest Hills, N. Y., Aug. 5.—By a score of six matches to one the eastern tennis team defeated their western opponents in the inter-sectional tournament which has been in progress for several days.

LARGE INCREASE IN MANUFACTURES

CENSUS BUREAU'S LATEST ENUMERATION SHOWS BIG GAIN SINCE 1909. VALUE, 22 BILLIONS. Increase of 17 Per Cent in Five Years—Progress Is Indicated in Many Ways.

By Associated Press. Washington, Aug. 5.—Value of manufactures in the United States was \$2,246,223,000 in 1914, the census bureau reported today in announcing its preliminary statement of general results of the latest census of manufactures.

In the five year period from 1909 the date of the previous census, manufactures increased \$3,742,711,000 in value or 17.3 per cent. In the period since the 1914 census manufactures have made rapid increases but no estimate of their value for this year has been made by the census bureau.

Increases were found in all items except proprietors and firm members which decreased 3.1 per cent, salaries increased 37.2 per cent, capital 27.3 per cent, salaried employees 22 per cent, primary horse power 20.1 per cent, wages 19 per cent, materials 18.3 per cent, value of products 17.3 per cent, value added by manufacture 15.8 per cent, wage earners 6.4 per cent and a number of establishments 2.7 per cent.

Capital invested was \$22,590,800,000 a gain of \$4,362,610,000 over 1909; persons engaged 8,265,426, of whom 7,036,337 were wage earners, 964,217 salaried employees and 264,872 proprietors and firm members.

MANY CHANGES IN FILIPINO AFFAIRS

Important Positions Are Filled By Natives For First Time In History. By Associated Press. Manila, Aug. 5.—Some of the biggest shifts of the personnel of the government of the Philippines in recent years are now occurring through resignations of retirements, opening a number of executive positions to native Filipinos.

In accordance with the policy of the present administration, Parry T. Edwards, director of agriculture, has retired, terminating fifteen years of service for the insular government.

He, like a number of others, has taken advantage of the retirement act passed at the last session of the insular legislature, whereby government employees of long service may retire with a pension of a year's full pay.

He is to be succeeded by Adriano Hernandez, one of the most progressive Filipinos in the government service, who for the past year has been an assistant director of the bureau of agriculture.

A resignation that has caused still more surprise is that of Stephen Howard Parry T. Edwards, director of agriculture, who for the past year has been an assistant director of the bureau of agriculture.

McConkey and Otto Stehlik planned to go by train. R. E. Hull, A. H. Britain and W. E. Fitzgerald will not attend. DISTURBANCE CREATED BY NEGROES AT BURKBURNETT (Burkburnett Star) A party of five, two men and three women, all of African extraction, living at this place appropriated a car belonging to a local citizen who was away from home with his family, and took a joy ride to Wichita Falls last Tuesday night. While near Mrs. Lowell's home south of town at a late hour, they stopped and engaged in quite a lot of quarreling, loud talking and shouting, whereupon Frank Watkins was notified, and as the party came into town, put them under arrest. Two of the party had pistols on their persons. They were carried to the county jail on the following day. The others paid their fines and were given their liberty.

Monday afternoon at 4 o'clock the Woman's Alliance of the First Baptist Church will meet in Bible study session. The monthly meeting of the Christian Women's Meeting of Missions will

IMPROVEMENTS IN CITY'S PARKS

PLAY EQUIPMENT, SWIMMING POOL AND OTHER FEATURES ARE PROPOSED.

BEAUTIFY CEMETERY

Fence, Walks and Rest Room Are Desired—Small Bond Issue May Be Asked.

The park board is planning some extensive but comparatively inexpensive improvements which will do much to make Wichita Falls known as a city of beautiful parks. Playground equipment, a swimming pool and other betterments are contemplated. Probably the chief improvement contemplated by the board according to Dr. Reed is the beautification of the Riverside Cemetery. The plans of the board in connection with the cemetery contemplate first completely fencing the grounds. The rest of the property will be fenced with ornamental fencing of a similar character but of less expensive material. A concrete building which is designed to serve the dual purpose of a chapel and rest room also figures in the board's plans. This building will call for an expenditure of about \$2,000 according to the board's estimate. Both a rest room and a chapel have been sorely needed at the cemetery in the past. Many burials from other towns here would be held at the chapel if there were such a place, in the absence of which the various undertaking concerns provide chapels which have not proved satisfactory as a building for that purpose at the grounds. Some vaults for the keeping over of bodies brought from other towns while awaiting burial, or where the burial is delayed for some other reason will be provided. Toilet accommodations will also be provided. Besides the fencing and the chapel several walks will be laid out if the plans carry, and the grounds will be laid out according to the best principles of landscape gardening. One feature of the work proposed calls for the setting out of a row of cedars along the bluff marking the bank of the river similar to the row of cedars set out last year at the Huff-McGregor park.

The Rotary Club will help the park board with that part of their plans that call for the laying out of a children's playground at the Huff-McGregor park. The Rotary Club is expected to undertake to raise the money to provide the swinging bars, chutes and other appliances for the amusement of the children while the grounds will be set off and laid out by the board. It is also planned to build a large open air swimming pool at the Huff-McGregor park between Broad and Burnett and Sixth and Seventh streets. The dimensions of the pool, which is to be of concrete, will probably be fifty feet by a hundred or a hundred and twenty-five feet. Part of the pool will be so constructed as to permit the deep diving stunts so dear to the heart of the expert swimmer.

THIS CITY IS GOOD RECRUITING POINT

Furnishes More Soldiers and Sailors Than Many Cities That Are Much Larger

That Wichita Falls is the best point of anywhere near its size for recruiting for the various branches of the regular service is demonstrated by figures for the past month from the headquarters of the recruiting service for both the army and the navy for this the Dallas district. Wichita Falls ranks far above the offices in cities of the same size in the number of recruits it has supplied for the regular services, and also ranks above many cities with many times the population of this city. The record for the navy district which follows sets a new high-water mark for recruiting in the district, 118 recruits having been secured during the last month as against the highest record of the past of 116 which was made in August of last year: Dallas 2; Oklahoma City 20; Fort Smith 19; Abilene 13; Waco 12; Wichita Falls 11; Fort Smith 4; Denison 4; Tyler 3; Muskogee 2 and Texarkana 3. For the army recruiting district the following figures are given out: Dallas 20; Wichita Falls 18; Denison 15; Fort Worth 8; Waco 7, and Marshall 4. It will be noticed that Wichita Falls stands next to Dallas in the army list and also stands above any other Texas city save Dallas in the number provided for both branches of the service. As to the local recruiting, for the past week the army seems to have cornered the market, getting five while the navy failed to secure a single recruit. The army men are at a loss to explain the absence of recruits at their station, although one jokingly attributed it to the fake stories of the hardships of the army life which have recently been emanating from the border correspondents. The recruits secured by the navy during the week are: Elvin Freeman of Argyle, Texas, a former service man who recently completed four years of duty and liked it so well that he is going back for more; and one enlisted as a first class fireman; F. A. Parks, Bomarton, yeoman; Henry Graves, Electra, apprentice seaman; Homer Stordavant, Memphis, apprentice seaman, and Louis Duffern, Robert Lee, Texas, apprentice seaman.

BAG WORM FIGHT IS NEARLY FINISHED

Pests Practically Eliminated, Total of 871 Trees in City Being Treated

The war on the bag worm, the tree pest which for a time threatened to do serious damage to shade trees in this city is now approaching its final stages, substantial progress having been made in the past week in eradicating the parasite. Practically all infested trees have been sprayed with poisonous solutions and while the bag worms have not been entirely eliminated, they have been reduced in numbers to a point where they can be readily controlled. A total of 871 trees have been sprayed under the direction of J. B. Nail, the special officer designated by the city council to take charge of the work. Mr. Nail has completed his inspection of the city and has found very few property owners who were not unwilling to take prompt steps to have their trees treated. He reports practically everyone willing to help and says the spirit exhibited by Wichita Falls was a greater help in eradicating the worms.

In the court house yard where the bag worms were very numerous, the trees were carefully treated and the results when inspected by Mr. Nail, County Judge Harris and County Commissioner Jackson, it was estimated that 90 per cent of the pests had been destroyed. Mr. Nail says that he also found some leaf worms and a species of boring worm which burrow under the bark and caused much damage. These pests were also killed to a large extent.

As a result of the work of Mr. Nail, under the direction of the city council and the Civic League substantial results have been attained. Mr. Nail asks that any who suspect the presence of the worms in their trees notify Dr. Reed, who will see that action is taken promptly.

QUANAH CHILD FALLS INTO CISTERN BUT IS RESCUED

(Quanah Observer)

Friday Walter Jordan's 13 months old child was playing near the opening of his underground cistern when the bucket, fastened on the pull rope, was sitting. The child knocked the bucket into the cistern, and the rope, taking a turn around the leg, pulled the youngster in. It was 15 feet to the water, which was about ten inches deep. Mrs. Jordan's screams brought Dave Mathis from a block away. Mathis tied the end of the rope to the fence and slid into the cistern where the child was floating, but unconscious. He worked over the little one vigorously and then yelled for a blanket. Rolling the child up into a package, he tied it to the rope and it was pulled up. Mathis then managed to climb out. Ben Richardson in his fitness, broke the speed limit getting to town for Dr. Hanna, who in turn made his getaway at a half-racing gait. After a few minutes work Dr. Hanna had the child out of danger.

First Baptist Church.
 Tenth and Austin Streets. The church of the hearty welcome. Sunday school 9:30. Rev. E. B. Moore of Henrietta will preach at the morning service. M. C. Eldson, the assistant pastor, will speak at the evening service. B. Y. P. U. at 7:15. Woman's Alliance will meet for Bible study Monday at 4 p. m. Prayer meeting Wednesday 8 p. m. Royal Ambassadors at 7:15. Sunbeams Thursday morning 9 a. m.

Walnut Street Mission.
 Sunday school 3 p. m. The assistant pastor will preach Thursday evening at 8 p. m.

First M. E. Church, South.
 All the usual services on Sunday. Sunday school at 9:30. Our Sunday school attendance has kept up remarkably well during the hot weather, and we are very anxious for it to continue so. Preaching by the pastor at 11 a. m., followed by the Sacrament of the Lord's Supper. We urge all Methodists who haven't yet united with us to do so at once. League de-

otional service at 7:15. We will have a beautiful picture Sunday evening portraying the life of Sampson. The evening sermon will be preached by the Rev. J. Sam Barcus, presiding elder. We begin promptly at 8:15. Prayer service on Wednesday evening at 8:15, to which our people are urgently invited. All of our services will be short and interesting.
 You can sometimes catch the mosquito bite with greenbacks.—Innapolis Star.

STATEWIDE PRIMARY IS HELD IN KENTUCKY SATURDAY
 Louisville, Ky., Aug. 5.—Candidates for Congress, for judge of the state court of appeals and for various county and municipal offices were to be nominated at a statewide primary election being held today in Kentucky. In seven of the eleven congressional districts the only aspirant for nomination at the hands of his party as a candidate for Congress is the present incumbent. Six of these districts the first, second, third, fourth, fifth and sixth congressional districts are represented by democrats. The tenth congressional is represented by a republican. Candidates for judge of state court of appeals are to be nominated only in the seventh appellate district.

**URGES STUDY OF
BANK BUSINESS**

C. E. McCUTCHEEN OF THIS CITY
READS PAPER AT COLO-
RADO MEETING.

NEED FOR TRAINING

Says Those Wishing to Enter Banks
Should Have Special
Instruction.

A plea for more special training for
young men who enter the banking
business was voiced Friday by C. E.
McCUTCHEEN, assistant cashier of the
First National Bank in this city, in
an address before the Denver chapter
of the American Institute of
Banking at Palmer Lake, Colorado.
Mr. McCUTCHEEN said:
A history of the different profes-
sions show that in the majority of
lines of business undertaken by men,
there is some school of instruction,
some special training offered, some
course of study open that will help the
worker in the younger part of his life-
work. There are medical schools for
the man who would cure the sick;
schools of dentistry for the who pro-
cesses to practice over the dentist's
sign; there are law schools; schools
of Journalism; theological seminaries
for those who would preach the Holy
Writ; schools of engineering and ar-
chitecture; schools of mining and mu-
sic; in fact there is some special
study waiting for the student who de-
sires to become proficient in the
line.
None so with banking. The school
of instruction, until recently in bank-
ing has been the old, conservative
and ambition sapping school of hard
knocks with cruel experience as in-
structor; the cage, the school room,
a small salary and little encourage-
ment from his superiors as handicaps.
This has been the method used in
the past in developing talent in the
banking profession.
Not so many years ago the Ameri-
can Institute of Banking Section of
the American Bankers Association
was established, and it proposes to
apply orthodox educational methods
to the particular subject of banking.
It proposes to educate bankers in
banking as well as offering the first
footing for the young man just start-
ing in the profession. The study
course offered by the institute are
designed to instruct in banking the
same as the text book on surveying
is designed to instruct the entry
civil engineer. It proposes to make
a thorough banker who may be de-
veloped the more easily by experience
and the more quick.

The A. I. B. recognizes that the
changed scope and methods of mod-
ern business are confronting the bank-
men of today with many new and
complex problems, that banking is
more than a mere business, that real
banking is a science and therefore
merits and rewards careful study of
its principles. It proposes that ev-
ery energetic, ambitious young bank
man in the country shall have the
opportunity to receive the advantages
of a practical course in banking edu-
cation.
Bankers' associations, bank officers
and directors all over the country
have been convinced that no more
profitable work can be undertaken
than that of instilling into bank em-
ployees in the course of study in bank-
ing and commercial law provided by
the A. I. B. The benefits of a sys-
tematic course of instruction in the
subjects treated in the courses of
study provided cannot be overestima-
ted. Many prominent bankers think
it should be compulsory for every
bank employee to take these
courses upon entering the employ of
any bank, instead of being left to
haphazard what knowledge or busi-
ness he can in his work, day by day.
The costly errors made by inexperi-
enced and untrained bank employes
year by year are theirs to be paid
or the knowledge needed for their
success in the business in any way
they can, is alone sufficient argument
to instigate every bank officer in this
subject.

Every man who enters a bank
should have a fair education gained
in our public or private schools. But
for the deeper study of banking, law
and of banking itself, the student
must seek the more extended courses
offered by the A. I. B. and devote
himself to the more intensive study.
His general education gained from
many sources, stands him splendidly,
but he is now to become a specialist.
—a banker; hence like the other pro-
fessional men mentioned above he
must begin to specialize, and this he
may do in two ways: First, by the
daily training of the counting house;
second, by the help of available study
courses prescribed by master teach-
ers, such as the A. I. B. instruc-
tion.

One great feature of the A. I. B.
course is that before a student is
graduated and given a certificate he
is obliged to undergo a rigid examina-
tion.
No one could hope to become a
pupil simply by reading a book by
Jess Willard or listening to lectures
delivered by Jack Johnson. Neither
can anybody become a bank officer
by reading what someone has writ-
ten about banking, or listening to
what an instructor says on the sub-
ject. To become a pugilist it is nec-
essary to study the science of attack
and defense, and to suffer the experi-
ence of an opponent to the law or a
straight body blow to the solar plexus.
To become a banker it is nec-
essary to study the science of money
and credit and to undergo practical
experience in some banking institu-
tion. Education in the theory and
practice of pugilism, however, should
be reinforced by punching a bag so
designed that it will kick back after
the manner of a mule. Education in
the theory and practice of banking
should be reinforced by systematic
organization—classes and examina-
tions—the process through which stu-
dents reproduce knowledge imparted
to them—the "comeback" in mental
discipline similar to the rebound of
the punching bag in pugilism. Stu-
dents who realize they are to be ex-
amined pay closer attention to their
lessons. The losses of examination
also corrects omissions and miscon-
ceptions otherwise inevitable in any
system of study. A great part of
the A. I. B. course is the examina-
tion.
The wonderful progress of students
of the A. I. B. courses is sufficient
proof of the merit of these study
courses. Institute men by the
scores in recent years have risen in
their profession, and these men are
unanimous in declaring all credits for
their rapid successes to the knowl-
edge gained from the A. I. B. work
and properly and conscientiously ap-
plied. In the north and east 75 per-

**OLD SETTLERS TO
MEET AT GRAHAM**

Will Hold Three Days Reunion Begin-
ning Wednesday. Many Fea-
tures Planned.

The old settlers of Young county
will meet at Graham for a big reunion
three days this week, beginning Wed-
nesday and ending Friday. Many
will attend, several from this city be-
ing on the program. A barbecue
acrobatic flight, baseball games, rid-
ing tournaments, fireworks and other
features are planned for the three
days. The program follows:
First day, morning, 10:00, music
by all county band.
10:30 address of welcome—C. W.
Johnson.
11:00 band.
11:15, response to welcome—R. J.
Johnson, A. J. Wheat.
11:45, riding tournament.
Afternoon, 2:00 noon by land.
2:30, organization of Old Settlers
Association.
3:30, baseball game
5, acrobatic flight.
Night, big show.
Second day, morning, 10:00 band.
10:30, address—F. A. Martin.
11:15, Old Settler meeting.
11:30, band music.
Riding tournament.
Afternoon, 2:00 band.
2:30, address—John C. Kay.
3:30, baseball game.
5, acrobatic flight.
9, fireworks and acrobatic.
Night, big show.
Third day, morning, 10:00 band
10:30, address—R. T. Arnold.
11:30, band.
11:30, riding tournament.
12:00, big free barbecue dinner.
Afternoon, 2:00 band.
2:30, address—Jack Glasgow.
3:15, band.
3:30, old settlers' story telling, con-
ducted by J. W. Akin.
3:30, baseball game.
5, acrobatic flight, Lester Miller.
Night, big show.

**PANHANDLE'S CORN
YIELD TO BE LIGHT**

Forage Crops Doing Well, However.
According to Katy's Commercial
Agent

The corn crop of the Panhandle will
probably not be over twenty-five per
cent of the normal yield according to
the information that E. J. Pope, com-
mercial agent of the Katy Division, was
able to gather on a trip through that
section last week. That section has
not had a real good rain since last
September, says Mr. Pope. Last win-
ter was unusually dry one, and the
snowfall which usually averages con-
siderable more than twenty inches
was a bare two inches.
The cotton and the other feed crops
besides corn, such as kafir corn and
milo maize are looking fine, good
crops seem to be assured.
While away Mr. Pope visited Am-
erillo, Childress and other Panhandle
points along the Denver, returning
Saturday morning.

**ROUND UP OF NEGROES
MADE BY VERNON OFFICERS**

(Vernon Record)
The sheriff and his assistants have
been busy since last Saturday round-
ing up a company of gamblers and boot-
leggers, both whites and blacks.
Twenty-seven out of a list of twenty-
nine negroes had been convicted of
gambling and six are still held in
custody on charges of bootlegging.
Complaint has been filed against some
fifteen white men for gaming, some
have plead guilty and paid their fines,
the rest have made bond and will be
tried later. Four whites are in cus-
todly also for bootlegging along with
the blacks. The negroes were caught
in the north part of Vernon and the
whites at several places in and near
the city. A barrel of beer was found
buried in the ground under a house,
fourteen pints of whiskey were dis-
covered in the chimney in one house
and twenty-four pints in the wall of
another. Of the twenty-seven negroes
convicted of gaming about ten have
paid their fines, while the others are
in the county jail serving their time.
The sheriff and his helpers are being
congratulated on bringing these of-
fenders of the law to account, and
many are expressing the hope that
those who are sent to jail will be
forced to work out their time on the
county roads rather than lie in jail
and be fed by the county.

In Chicago, statistics show the present heat wave is kill-
ing the babies, 104 per cent faster than the heat of last
year and on this account the sale of unpasteurized milk
is prohibited by city ordinance.

**We Pasteurize All
of the Milk We
Put Out**

and we do not charge a cent extra for the work of Clari-
fying and Pasteurizing. It is put in a thoroughly washed
sterilized bottle, covered with an air tight cap, and is as
nearly perfect as milk can be.

Wichita Falls has the best babies in the world, so lets
give them the best milk to drink that can be had.

Our Ice Cream is along these same lines, regarding
purity and good flavor. Likewise the Bulgarian Butter-
milk that has become so favorably known.

We will be glad to have your order.

HONOR GUARD IS BUSY WITH PLANS

PLAN FOR SWIMMING IN RIVER ABANDONED—WILL USE LAKE POOL.

HEAR MORE LECTURES

Many Plan to Attend State Encampment Opening at Fort Worth August 14.

"The of swimming hole" in the Wichita river will not be the scene of future swimming lessons of the Girls Honor Guard, contrary to the announcement made Friday as Lieut. Carver and the girls have found that the seal of parental displeasure has been set on swimming in the river, as many consider it not safe. So the river swim for Monday morning has been called off and the girls will swim in the pool at Lake Wichita. Six o'clock is the hour for the swim and there will be several instructors on hand so that the girls will be perfectly safe. Lieut. Carver will make arrangements for the transportation of all girls of the Guard who want to take this instruction. With just two lessons there are already several of the girls who now will venture several strokes all by themselves, who had never before made an attempt at swimming and by the end of next week they are all expected to rival Annette Kellerman, according to the instructors.

The third lecture of the week was given Friday by Dr. J. T. Gibson, of the care of the teeth and mouth. Dr. Gibson described the mouth as a source of infection of improperly cared for and urged on all the importance of keeping teeth and gums in a good condition. A clean, healthy mouth is one of the first requisites toward a perfect state of health, the doctor said, and the best service for self and country is possible only when the body is perfect. Monday afternoon at 6:30 another lecture will be given by either Dr. Everett Jones or Dr. A. D. Pailtho. At this time the girls are to bring magazines for the soldiers on the border. Magazines of any kind that contain

good reading matter are desired and Lieut. Carver asks that all the girls bring those found in their own homes and also ask their friends for their periodicals after they have finished with them. The need of reading matter is one keenly felt down on the border, where time hangs heavy on the hands of the boys in khaki between drills and chases after bandits and the Guard, organized for service, finds the call for magazines for the soldiers one that falls directly within their jurisdiction.

The camp at Fort Worth which is to commence August 14 is the subject of much interested discussion among the local Guard and there are about a dozen members who are planning to attend. The details of arrangements for the camp life have been received by Miss Carver from Fort Worth and they sound very attractive. There has been some hesitancy on the part of some mothers in Wichita Falls in letting the girls attend the encampment for fear that, situated on the shores of Lake Worth as it is, danger of drowning will ensue. Every assurance is given that this will not be the case, as every emergency has been prepared for.

The Wichita Falls company of the guard now consists of thirty members including Lieut. Genevieve Carver. The list follows: Mrs. Adams, Misses Louise Bullitt, Theresa Smith, Tempe Thompson, Caro Belle Blair, Adele Adickes, Marion Mauer, Vera Stokes, Ruth Heath, Christine Hoxie, Electra, Mable Simpson, Delphine Wyatt, Annetta Monroe, Alice Duran, Lillian Patin, Lillian Metzger, Kathleen Blair, Bertha Mae Kemp, Pauline Mears, Dorothy Beavers, Pauline Hicholt, Audrey Adickes, Benjamin Jackson, Frances Urban, Marcor, Ma. Ruby Moore, Helen Stone, Rose and Flora Reisenberg.

The following excerpts are from a lecture on "The Mouth as a Center of Infection" given Friday afternoon before the Guard by Mrs. J. T. Gibson, D. D. Sc.

No less an authority than Dr. J. H. Kellogg of the Battle Creek sanitarium, says "A foul tongue and decaying teeth indicate mouth infection, insidious auto-intoxication and general low resistance. In other words a mouth containing a coated tongue and decaying teeth shows that the body is slowly poisoning itself by its own excretions and lowering its power to resist the invasion of disease. Lack of proper mastication is due to defective teeth. For proper digestion it is nec-

essary to thoroughly mix the saliva with the food. Starch digestion only goes on in the presence of the saliva. A vigorous stomach may attack particles of food of considerable size, but the process of digestion is correspondingly slowed according to the size of the particles swallowed. The smaller the particles of food, the more firmly ground the quicker and easier the stomach does its work.

"That is an axiom that we dig our graves with our teeth which is true in more ways than one.

"The teeth are composed of three different substances, Enamel, dentine, and cementum. The roots of the teeth are composed of cementum, a substance resembling bone. Beneath the enamel is the dentine, a bony substance not so hard as the enamel which composes the crown. A cavity in the center of the crown and the roots of the teeth contains the tooth pulp or nerve, which is a mass of tissue, blood vessels and denture filaments. The function of the pulp is to nourish the teeth.

"The food of the present day does not need much chewing, but chewing is the correct nature intended for the teeth. There is a fixed law of nature which demands that every living thing must perform the work designed for it or lose the power to perform it and the teeth are no exception to the rule. Various diseased conditions are due to impacted or non erupted teeth, varying from slight nervousness and tooth actual insanity. A large number of insane people have never cut their wisdom teeth and many cases of insanity have been relieved and some cured by operations removing these impacted teeth from the jaws.

"After continuing at length on the causes of decay, the paper discussed the dread disease of the mouth, pyorrhea, which means a flow of pus from the gums.

"The symptoms are given. First, the gums bleed freely upon brushing the teeth, inflammation continues until pus is formed, which gradually escapes into the mouth. The teeth attract pus, gradually loosen and come out. It takes about twenty years for a tooth to be cast out by the process. In the meantime several gallons of pus have been swallowed, a drop at a time. These pus germs taken into the body cause a general lowered condition and abscesses or other diseased conditions may and do occur on other parts of the body because of them.

"We have a slogan in dentistry that, 'A clean tooth never decays.' How can we keep the teeth clean? Is the first place a yearly visit to the dentist to remove the stains and tartar which accumulate is absolutely necessary. For the average individual the teeth should be brushed after the last meal of the day with powder or paste as the case may require. Silk floss is excellent for cleaning between the teeth, taking care not to wound the gum. The teeth should be brushed with an up and down movement as well as across. Anyway to get them clean, giving special attention to the back teeth. Rinsing the mouth thoroughly during the operation either with tepid water or a diluted antiseptic as the case may require. After you have done your best to clean your teeth of iodine over the teeth, this will stain the residue left after your mouth has been thoroughly cleaned."

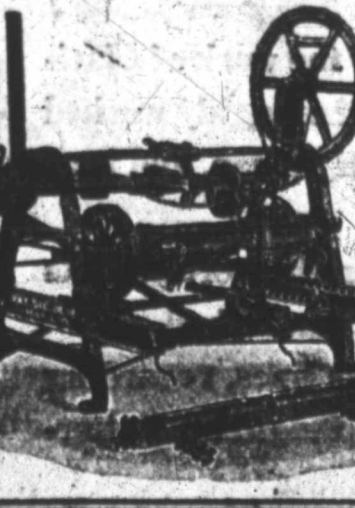

Attention Ladies

Serve our delicious Ice Cream for Your Dessert today. It will save you labor, money, and worry. It is absolutely pure and sanitary. Our cream is always fresh, well packed and delivered to your door. The flavors today are, Caramel Nut, Chocolate, Peach, Strawberry, Pineapple and Vanilla.

TWO JURIES REPORT UNABLE TO AGREE

Those in Samples and Myers Cases Are Discharged By Judge Bonner Saturday

Concluding a busy week in the 30th district court, Judge Bonner yesterday discharged two juries that were unable to agree on a verdict and all juries summoned were relieved from duty.

The jury in the case of the state against E. S. Samples, charged with receiving stolen goods, was called for the second time at 9:30 that they were unable to agree and were discharged by the court. It is understood that they stood 10 to 2, there was little probability of a change from the result of the original ballot. The jury had been out since 11 o'clock Friday.

Shortly afterward Saturday the jury in the case of Ed Myers who's charge was with the theft of a steaming, was discharged upon their report that there was no hope of agreement. About 10 o'clock a report was made to the effect that the last ballot stood six and six, but the judge requested a further consideration of the case. In the final report it is understood the jury stood 9 to 3, the majority favoring a verdict of not guilty.

Both of these cases have been transferred to the 78th district court and will be called for trial again next Thursday, for which date a jury has been summoned.

There will be no jury cases in the 30th district court until August 21, but it is possible that a few divorce suits and other non-jury cases will be heard by Judge Bonner in the meantime. On August 23, the last week of the present term of the court, the grand jury will reconvene to conclude the business of the present session. Before Judge Bonner yesterday Paul Conway was granted a divorce against Oran Conway and was also given the custody of their child. A divorce has also been granted to Della Pailtho against Paul Pailtho.

ARREST YOUNG MAN ON VAGRANCY CHARGE

Too Numerous Visits To District Alleged—Other Police Court Cases

A young business man of this city was up before Judge Whiteley on a charge of vagrancy, the allegation of the arresting officers being that he had been a too frequent visitor to the flats. He acknowledged that he was given in that section of the city probably on an average of four times a week but it asserted that most of his visits were connected with business with the designers of that region. The case was passed until further investigation could be made by the authorities.

A party charged with intoxication and another charged with using profane language in a public place entered pleas of guilty and contributed \$5 each to the city treasury.

The Surgeon—"Don't worry, old chap. You'll get something some day, and then I'll be—" The Intimate Friend—"My dear boy, be assured of one thing—I'll never let you cut me up—I'll live first."—Life.

SCHOOL BUILDING PLANS ADOPTED

CONTRACT FOR NEW STRUCTURE ON LEE STREET TO BE LET SATURDAY.

PLANS FOR OPENING

Rules for Minimum Age Limit and Medical Examination to Be Enforced.

Plans for a new ward school building to be built across the Fort Worth & Denver tracks fronting Lee street were approved at a meeting of the school board held Saturday morning and the contract for the building will be awarded on next Saturday.

The plans, which were prepared by Field & Clark, provide for a modern two-story, eight room brick building, and will be in keeping with the character of structures recently constructed in connection with school development in the city. It is expected that sixty days will be required for the erection of the building, and in the meantime the present frame structure will be used in order that the term of school may not be interfered with. After the new building is completed the old frame house will be

Production and Price

Do the great variety of Sixes and the fluctuating prices seem confusing and perplexing? Let's reason it out.

What controls price? Production. As a manufacturer's production increases, his production cost, per car, decreases. Therefore the plant with the largest production is in a position to give more of everything and charge less for it.

We are the world's largest producers of Six and Four Cylinder Automobiles.

Consequently you get in the Overland Six a larger and more powerful motor—a longer wheelbase—the convenience of electric control buttons on the steering column and an almost endless list of other comforts and refinements.

—yet what is the price? Not \$1200 or \$1300 but \$1145.

And when it comes to a Six Cylinder performance, remember the Overland Six is the star of them all.

One ride will convince you.

KATY GETS MILLION FOR MOVING TROOPS

Transporting of Men and Supplies to Border Brings Handsome Revenue

The recent troop movement meant a nice little plum for the Katy lines, netting them probably well over a million dollars all told with the movement of the troops and the supplies for them. This was all the more juicy as far as the road was concerned as it was if it had dropped out of the clear sky, coming as it did in addition to the regular anticipated revenue of the road. The movement lasted only about 30 days.

As the road is in receivership this money instead of going to swell the dividends of the stockholders will go right back into the road, bettering the accommodations and service that the road will be able to render the public.

The Katy handled approximately 48,000 troops during the troop movement according to information from an authoritative source, on which the road's profit was an average of ten dollars per head, netting them in the near neighborhood of a half million on this item alone. It is confidently asserted that the handling of the millions and supplies for these troops swelled the road's profits to well above the million mark.

FAMILY AWAKES TO FIND HOUSE AFIRE

Residence of A. E. Stevens at 511 Scott is Damaged Early Saturday

The family of A. E. Stevens, 511 Scott, had a narrow escape from a fire which broke out at their home about 3 o'clock Saturday morning and was not discovered until it had gained considerable headway. The fire department made a quick run to the building which was enveloped in the flames when they arrived on the scene, but three lines were laid from the big Seagrave machine and the fire was subdued in short order. Mr. Stevens' loss on his household effects is thought to have been light, and was covered by insurance. The loss on the building which was owned by Miles O'Reilly was about two hundred dollars, covered by insurance.

The work of the fire department in so quickly conquering the blaze which apparently had doomed the building and its contents by the time they had arrived on the scene has provoked much of complimentary comment on the streets.

NEW TRAINMASTER APPOINTED ON KATY

J. J. Johnson To Take Position Here—Succeeds S. B. Moore in Local Offices

A circular received at the local Katy offices announces the appointment of J. J. Johnson as trainmaster of the Katy. Johnson has served for a half year as chief dispatcher at the Greenville Katy yards. He will assume the duties of his new position Monday, Mr. Johnson is a brother of A. S. Johnson, superintendent of the Denison division. The Greenville Herald has the following to say about Mr. Johnson: "This is a most deserved promotion for Mr. Johnson, for there is no man in the employ of the Katy more energetic, capable nor more alert in the interests of the company. Before coming to the Katy Mr. Johnson was with the Southern Pacific at Victoria. Mr. Johnson succeeds S. B. Moore who was moved to San Antonio during the troop movement and later appointed trainmaster on the Denison division to handle the trains on the Dallas end of the division. During the interval between the departure of Mr. Moore and the appointment of Mr. Johnson, G. W. Barr, chief dispatcher at the local office has been performing the duties of the trainmaster while W. P. Walker, first truck operator has been discharging the duties of chief dispatcher. Both these gentlemen will return to their regular duties with the arrival of Mr. Johnson."

Help Wanted—Male

WANTED—Man and wife who are experienced milkers. None but experienced hands need apply. A personal application is desired. House furnished. Phone 183 or apply Holstein Dairy Barn. 73-3c

For Rent—Offices and Stores

FOR RENT—The best established dental offices in the city. Phone 426. 23-10

NOT TO CHANGE COLORADO ROUTE

RATON MEETING DEFEATS EFFORT FOR NEW ROUTE THROUGH TEXAS.

TALLEY IS HONORED

Wichitan Elected President of Association—Will Meet in Vernon Next Year.

Special to The Times.
 Raton, N. M., Aug. 5.—There will be no change in the route of the Colorado to Gulf Highway, the association promptly discounting the effort to move it further southward, at the session held here this week. D. F. Talley of Wichita Falls, one of the most energetic highway workers in the country traversed by the road, was chosen president of the association, and John Thomas was named as a member of the executive committee. The next meeting of the association, in 1917 will be held at Vernon, Texas, an invitation from that city being accepted. The meeting here was largely attended. While the movement to change the route gained little or nothing, the association was very satisfied to see a very bad share at the present time.

LABOR DAY PLANS TO BE CONSIDERED

Trades Council Will Meet Tomorrow Night To Discuss Proposed Celebration

What promises to be one of the most important meetings of the Wichita Falls Trades and Labor Council in some time will be held at the Labor Temple Monday night. At this time the matter of an appropriate Labor Day celebration will be decided on and committees will be appointed to take up the work of preparation. Discussing the matter, Chairman P. Anderson of the board of trustees, stated yesterday that much enthusiasm was being manifested over the movement and that the meeting promises to be a largely attended one. Mr. Anderson was not in a position to forecast the action of the council in leading with Labor Day matter, but gave it as his opinion that the occasion would be appropriately celebrated. He urges the attendance of every delegate to the night, and suggests also that all union men who can do so, be in attendance.

SESSION TODAY BY LOCAL SOCIALISTS

Meeting Expected to Consider Plans For Encampment to Be Held at Lake

The Socialists of this county will have a special meeting today in their hall upstairs over Seltz' blacksmith shop and in connection with the meeting refreshments will be served and a general get together good time will be had. This meeting has been called to make preparations for an encampment to be held here, possibly at Lake Wichita, for three days, about August 26. The encampment will be attended by members of that party throughout the 10th representative district and a large number are expected. It is planned at this time to arouse a greater degree of enthusiasm in the election of the fall and to perfect plans for polling by far the largest vote that has ever been recorded in this district by the Socialists, and for this occasion it is announced that there will be a number of the party's best speakers in the state.

WILL DRILL WILSON WELL IN THIS WEEK

Prospects in Art Oil Company's Project Deemed To Be Very Encouraging

The promising well of the Art Oil Company of this city, which has given promise of development, will be drilled with Monday evening or Tuesday morning, as the result of some delay going the required depth is announced, however, that the indications for a satisfactory production are still good and much interest is being manifested by those who are keeping in touch with this territory. Mr. not connected with the enterprise have stated that they expect satisfactory results, in which event they will be further development and that will mean much to this section and to Wichita Falls. The well is located on the Wilson ranch about six and a half miles from

LOWER PANHANDLE I.O.O.F. WILL MEET

Local Lodge to Consider Plans for Iowa Park Convention Tomorrow.

The question of a Wichita Falls representation at the Lower Panhandle Association of the I. O. O. F. meeting to be held August 15 and 16 at Iowa Park will come up at an important business meeting of the Odd Fellows Monday night at their hall. A large delegation is expected to go from the local lodge and some steps may be taken to obtain the next meeting of the Association for Wichita Falls. However this is not definitely decided on as yet, as there are a number of counties in this district and since this meeting is being held in Wichita county there may be some objection to holding the next meeting here. The first degree will be conferred at the meeting, Monday night, and other business taken up. A large attendance is expected.

AT THE THEATERS

WAR PICTURES TO BE SHOWN 2 DAYS

Reproductions of German and Austria-Hungarian activities in Russian Poland will be shown at the Empress Theatre Wednesday and Thursday under the supervision of The Times Light and one half reels of film with hundreds of miles of scenery taken in the devastated country swept by the Teutonic forces in their recent assault against the Russians. They tell a story of suffering among aged men, women and children, forced to flee during the siege of their town, and returning to find their homes ruined either by shell, fire or the torch applied by the retreating forces.

"On the Firing Line With the Germans" or a more appropriate title might be "The Adventures of a Press Photographer in War Ridden Europe" for in fully 50 per cent of the scenes Wilbur H. Durborough, one of many photographers from this country who figures in the pictures, is shown conducting a "somewhat personal" tour over the ground from the time he leaves for the battlefield until after the fall of Warsaw. With him the spectators visit the soldier's grave, stand alongside the Kaiser, the Crown Prince and Princess, when he commands some officer for bravery, examine the different types of guns, from the rapid fire to the heavy mortar, view the surrounding country from an observation balloon, visit the wounded in the hospitals, bury the dead in the battlefields, watch the convalescing soldiers go through a course of gymnastics under the instruction of a scientist, see them return to the front to fill the gaps made by other wounded and dead and inspect the ruined forts and bridges. Accompanied by an Austrian, German or Hungarian officer newly acquired territory is visited, and a tour is made through the evacuated Russian trenches and underground strongholds that resemble Liddesborough rather than places of safety from flying bombs.

The German engineers construct a pontoon bridge in the midst of the spectators and later stretch telephone and telegraph lines of communication between stations on the field of bat-

VAUDEVILLE OPENS HERE SEPTEMBER 5

Interstate vaudeville will begin its season at the Wichita Theatre, Tuesday, September 5, and the New York office having charge of the routing of these acts claim that the first week will see a mammoth array of talent.

Heretofore acts of the higher class have never appeared in cities of less than 50,000 population, but with the arrangement made with General Manager Holbitzelle of the Interstate Company, every act sent to Texas will be seen here. The Interstate is an exhibition of the celebrated Orpheum tour, whose reputation for quality in varieties is unequalled. Even the better class of houses in New York and Chicago are booked by the Orpheum people.

This season will bring to Wichita Falls many novelties. In New York and the larger cities Russian dances are the craze. General Director Marjorie Beck of the Orpheum circuit has imported several celebrities in territories that will directly appeal to lovers of this style of entertainment. Those who delight in modern dances will appreciate the number of acts booked. Every one is a feature production in itself. Acts carrying large pony choruses are also arranged for early showing at the Wichita Theatre.

Manager Sol Dan requests patrons to send in their reservations early, as the vaudeville offerings are on each Tuesday matinee and night.

Movie Calendar

MONDAY: Geraldine Farrar in "Maria Rosa" at the Empress, Myrtle Gonzales and Val Paul in "It Happened in Honolulu" at the Gem.

TUESDAY: Carlyle Blackwell and Ethel Clayton in "His Brother's Wife" at the Empress.

WEDNESDAY AND THURSDAY: Great German war pictures shown by The Times and the Empress at the Gem.

FRIDAY: "The Masked Rider" with Harold Lockwood and Max Allison starred at the Empress. "The Secret of the Submarine" big serial at the Gem.

SATURDAY: Edith Sterling in "Nancy's Birthright" Mutual Masterpicture at the Empress.

RED FEATHER FEATURE AT THE GEM MONDAY

"It Happened in Honolulu," a Red Feather feature will be shown Monday at the Gem. Myrtle Gonzales and Val Paul are starred as the two young people whose love story makes the picture. Larry Crane, the junior partner in the firm of Crane & Son, wholesale fish dealers. Old Jim Crane, the head of the concern, is a self-made man. From small beginnings he has built the business up until it is known from coast to coast. Larry will not take his work seriously, and arrives at work late every morning. He has an arrangement with the janitor by which the latter is accustomed to smuggle in his breakfast. In his spare time Larry finds much pleasure in the company of Mabel, a girl with whom he has a distinct understanding and are only waiting until Larry becomes settled before they marry. Mabel's father, who has risen from a poor fisherman, and is now the proud possessor of a shoe factory. In his early days, the old man owned a tannery, but this part of their life is secret. Mrs. Wyland carries the family affairs with a high hand, and her husband is a henpecked individual. The mother's conversation is all of ancestral hall, blue blood, titles and high social standing when the story opens, mother has definitely decided that Mabel shall be married to Percy Weatherfield, a fortune hunter with an attractive title. Mabel, being typically American, is not easily converted to her mother's love of the nobility, much preferring the careless, happy-go-lucky young fish merchant. Father thinks a great deal of Larry, but being henpecked, is afraid to come out with his own opinions. So Percy and Larry are rivals and they go to all sorts of extreme in trying each to rid himself of the other. When Mabel's mother finds Larry and his daughter in a close embrace one day she hies her family off to the Orient, urging Mabel to forget Larry, and they take Lord Percy along with them. Larry decides to follow Mabel, and his father have some words and the embarrassment of a clerk in his father's employ at the time he leaves throws a black suspicion on him. He is arrested just on arriving at Honolulu and thrown into prison. From there the picture combines elements of drama, comedy, pathos and mystery but finally the story is brought to a most satisfactory close with the lovers in embrace, Larry having been cleared of suspicion.

GERALDINE FARRAR AT THE EMPRESS MONDAY

Geraldine Farrar is to be the star at the Empress Monday in one of the most interesting pictures the Paramount company has issued for some time, "Maria Rosa." The following review, taken from the World gives a splendid idea of the value of the picture.

Having seen Geraldine Farrar in all her great roles, both on the singing and on the silent stage, I have no hesitation whatever in saying that in the part of Maria Rosa she has reached her greatest histrionic triumph. "Maria Rosa" provides wonderful opportunity for an artist of the first class, a great and abiding love, great simplicity coupled with great cunning are the chief characteristics of the part. Miss Farrar makes the conjunction of these elements in a woman's heart seem overwhelmingly real. She does become merged in the character she is asked to portray and the audience is therefore treated to the rarest of pleasures—seeing a sublime part in the hands of a highly gifted artist who performs the part with the expectations of the dramatist. The story brings home a fact which we all know, but which is ever new—the power of love over a woman's heart and whole existence. The heart of Maria Rosa, simple and trusting, finds itself cruelly deceived and betrayed, not by her lover, but by a treacherous rival of her lover. She is a woman when she makes the fearful discovery to ask quickly and to dissemble feelings which best tumultuous, all at the very gates of her soul. With the same intuitive flash she realizes both the deceit that has been practiced upon her and the need of saving her beloved from the suspicion of murder. She rises to the situation in a manner which will make this play stand out far above every average production. The sympathy of the audience, great as it must be, is surpassed by the interest and by the gripping suspense. The slightest mistake must have meant failure. The tragic points in the film are developed with masterly skill, making the happy ending all the more pleasing. Atmosphere and lighting effects are up to the highest Lasky standards, but cannot conclude without saying something for the added charms of novelty and variety in this feature. Old Spain has never been depicted with more charm and sympathetic understanding whether on stage screen or canvas. The support of Miss Farrar was good, but she rises high above the rest of the cast.

MANY AT IOWA PARK ARE FOR CULBERSON

Thirty Six Membership Roll on First Day and Many Others Expected

Thirty-six members were secured for the Culberson Club at Iowa Park the first day the membership paper was in circulation. The roll is still being circulated and a hundred members are counted on from Iowa Park. Those who signed Friday include the following:

T. W. Parker
N. F. Strickland
G. T. Smith
F. A. McCleskey
J. C. Hines
D. E. Holcomb
J. A. Tanner
J. E. Plunket
J. A. Deakins
George Mills

GERALDINE FARRAR AT THE EMPRESS MONDAY

"Where Are My Children?" to be here two days

Those who have anxiously awaited a chance to view the Universal's mammoth production of "Where Are My Children?" the photodrama which enjoyed a sensational run at the Globe Theatre, New York will have their opportunity soon when the famous picture will be given its premiere at the Wichita Theatre where it will continue for two days.

Never in the history of motion pictures has so delicate a subject been treated with such marked realism as this humane plea for the regulation of birth control. The Smalleys, creators of "Scandal" and "Hypocrites" produced it, and they have given it a mounting as lavish as the silent drama has yet conceived. Originality has been the Smalley slogan ever since feature productions have become popular. In "Where Are My Children" they touch subjects which are of vital importance to every man and woman who has the interest of the present and future generation at heart. The morbid and sensational will find no comfort in "Where Are My Children?" It is a powerful indictment of race suicide.

Every strata of life is reflected in its mission—from the wife of the district attorney of New York to the all-trusting little daughter of his housekeeper who was the victim of the time brother-in-law. The trial of the physician for malpractice is one of the most compelling climaxes yet given to motion pictures. Evidence against him is taken from the district attorney that before sitting in judgment of others, he should investigate the affairs of his own household, and this is the most startling development in the denouement of "Where Are My Children?"

"WHERE ARE MY CHILDREN" TO BE HERE TWO DAYS

From coast to coast
A Remarkable Chain of Home Testimony. And Wichita Adds Its Voice.

From north to south, from east to west: in every city, every community, in every state in the Union, it is being testified to with a grateful praise for Doan's Kidney Pills.

40,000 representative people in every walk of life.

Publicly testify to quick relief and lasting results.

And it's all for the benefit of fellow sufferers.

The grand chorus of local praise for Wichita Falls is well represented. Well known Wichita Falls people tell of personal experiences.

"Who can ask for better proof of merit?"

Emory Stephens, painter, 1410 Sixteenth street, Wichita Falls, says: "My kidneys were pretty badly disordered and as a result, my back pained me quite often. The kidney secretions were very painful in passage and contained sediment. Two boxes of Doan's Kidney Pills strengthened my back and kidneys and cleared up the kidney secretions."

Price 50c at all dealers. Don't simply ask for kidney remedy but get Doan's Kidney Pills—the same that Mr. Stephens had. Foster-Milburn Co., Buffalo, N. Y.—Advt.

PLANS FOR TROOPS WHOSE TERMS END

Will Be Mustered Into National Guard Reserve or Remain With Colors.

By Associated Press

August 5.—National guardsmen now in federal service who complete their required three years of active service will be transferred to the national guard reserve or the colored reserve territory unless they desire to continue with the colors for the full six years of their enlistment and if furnished to the reserve will be sent home at the expense of the government. This announcement was made by the war department today.

In computing enlistments on the new basis, full allowance will be made for time already served under superceded enlistment contracts.

Men discharged from guard regiments because of physical disability or other cause will be mustered out at their state mobilization points. The government will pay transportation charges to the state camps, whatever they may be.

FROM COAST TO COAST

Oil Field Worker Is Struck by Lightning
(Burkhour Star)

Will Van was badly shocked by lightning during a thunder storm last Monday evening while at work on an oil derrick on the Hallesman lease. He was rendered unconscious by the shock, but fortunately did not fall to the ground, otherwise he would most likely have been instantly killed. He is reported to be recovering splendidly and will likely suffer no permanent injury.

DAILY TIMES WAR PICTURES

Wednesday and Thursday

The Motion Picture Scoop of the War!

8000 FEET

—OF—

Thrilling Battles Charges and Bombardments!

SEE

—the belching artillery behind the lines, protecting the advance of the troops far ahead—see these thousands spring up from field after field—men charge under the screaming hail of their own shells—See this human tidal wave break over the enemy trenches, with its glittering crest of bayonets sweeping forward, until all opposition is overwhelmed.

ON THE FIRING LINE WITH THE GERMANS

See actually more of the German battle lines than many German soldiers witness. See with the eye of a motion picture camera that traveled by auto with the vanguard of Von Hindenburg's army—that peered over first line trenches of the enemy—that dashed through shell and shell, over the battle in a war aeroplane.

Witness the Germans assailing the fortress of Novo Georgeievski—declared impregnable—with infantry, artillery, machine guns, cavalry, aeroplanes—constantly attacking day and night for a full week. They captured trench after trench by desperate open field charges against a hail of bullets. Then the big guns wrecked the last ramparts of Russian Poland.

See these thrilling, vivid, terrific spectacles. See seven consecutive months of the war—Hospitals, Armies, Camps, Prisoners, Great Supply Trains as well as the battles.

Don't miss this brilliant photoplay of events you read about just a short time ago—brought direct from the reach of deadly bullets.

Storming Novo Georgeievski
