ADMINISTRATION IS ATTACKED BY COL. ROOSEVELT

FORMER PRESIDENT IS SEVERE IN HIS CRITICISM OF WILSON AND THE POLICIES HE HAS PURSUED.

Battle Creek, Mich., Sept. 30.—President Wilson's administration was assailed by Theodore Roosevelt in an address which he delivered here today on behalf of the candidacy of Charles E. Hughes. He referred to President Wilson as "a man of words" and to the republican candidate as "a man of deeds."

President Wilson, as he spoke, was surrounded by a large crowd of young democrats who came from New York on a special train and marched more to a special Shadow Lawn, with bands playing and banners waving. Frequently he was forced to stop for more than a minute at a time while applause continued.

The Overseas News Agency announces that it is stated on competent authorities that Germany has reached no decision concerning submarine warfare. The state ment minimizes articles appearing in German newspapers regarding American aviators serving with hostile allies and declares the German government does not consider such acts as breaches of neutrality.

During September the British in their advance on the Somme lost almost 120,000 officers and men. This is at the rate of 3,800 a day, but falls below the daily human cost for August. The offensive began July 1, 1916, and the British have lost approximately 300,000 men in their effort to break the German defense.

An important change in Macedonia in Suburbia on the Austro-Italian front or on the eastern front are announced. The Overseas News Agency announces that it is stated on competent authorities that Germany has reached no decision concerning submarine warfare.

GORGEOUS DISPLAY OF FASHION FANCIES

(Continued from page one)

The windows and inside the store many handsome models were shown and the crowd, particularly the men, found much to admire in the comprehensive stock of the newly opened exclusive ready to wear shop.

Kahn's Company. A showing of negligees and evening dresses featured the model parade at the Kahn store.

Showing of Men's Goods. Particular attention was paid to the feature of the show by a number of firms and there is no reason today why all should not be well informed as to the character and make of goods made in the United States.

At Kahn's, in addition to a very attractive window display, a living model was used in illustrating the different styles and patterns and a large crowd was attracted to the store throughout the entire time of the show.

Hardware Firms Participate. Parmenter Bros. displayed a line of sporting goods, including ammunition in one window.

Miscellaneous Lines. Vic Stamfl never forgets or fails to join in any move of public interest and on this occasion he arranged a

very attractive display of fancy cakes, bread and other delicacies. His window was attractively decorated with flowers.

Several fine mounted specimens of catamount, one of them standing over a rabbit which he was in the attitude of just having killed, displayed before an effective background of green branches and Navajo blankets.

Among the more attractive displays devoted exclusively to men's goods were those of the Brown and Hendrick.

A miniature bride and groom who, after their marriage and a wedding feast, started their married life in a miniature home with perfect appointments on a reduced scale.

A novel and original scene which drew and held a crowd, out one of the windows of the Brown and Hendrick Company throughout the evening.

A handsome dining room set of the William and Mary period, occupied the window of the North Texas Furniture Company.

At the store of B. T. Burgess, two attractive windows were shown, in one of which were featured articles of jewelry that had been made by the firm in the store.

The \$35,000 collection of diamonds, which were worn last night at the vaudeville by Miss Ables, was the feature of the window of the Art Jewelry Co.

NATIONAL LEAGUE RACE IS CLOSE

BROOKLYN LEADS BY ONLY HALF A GAME BUT HAS AN ADVANTAGE

AMERICAN SETTLED

Boston Red Sox Have Pennant Safe In the Johnson Organization.

By Associated Press. Chicago, Sept. 30.—Brooklyn will begin its final drive for the national league pennant in first place by half a game with Philadelphia second. Brooklyn has four games yet to play, all with New York, and Philadelphia has six to play with Boston in four days. Because Brooklyn cannot complete its old schedule of 154 games, it has a slight advantage over Boston. For instance, if both teams should win all their remaining games, their victories would be the same in number, 95 each, but Brooklyn would have lost 53 and Philadelphia 58. Boston should sweep the series with number 95 each, but Brooklyn would have four, Boston would win the flag. New York cannot win now. The standings are as follows:

Brooklyn	91	59	606.66
Philadelphia	89	58	606.43
Boston	85	61	632.19

The best Chicago can get in the American League now is a tie. The standings are:

Detroit	90	51	606.68
Chicago	88	64	578.97

Brooklyn, Sept. 30.—Brooklyn came back this afternoon by hitting Alexander hard, and won from Philadelphia, thereby winning first place after losing it by dropping the morning game 7 to 2. Alexander lost because Brooklyn could hit him when hits were needed. Packard singled, took second on a balk, thrif on Banker's sacrifice and scored on Stock's out.

Philadelphia	7	10	3
Brooklyn	2	5	1

Batteries: Rigby and Killifer; Pfeffer and Miller.

SECOND GAME
Philadelphia 1 3 3
Brooklyn 6 16 1

Batteries: Alexander and Killifer; Marquard and Myers.

Cincinnati Wins Two.
Pittsburg, Sept. 30.—Cincinnati won a double header here today 5 to 4 and 5 to 3.

TO FIGHT PARALYSIS NEW YORK HAS TO EXAMINE A MILLION SCHOOL CHILDREN

TEACHER EXAMINES NEW YORK SCHOOL GIRL

The infantile paralysis epidemic falling time this session is questioned and in-reducing the attendance at the opening sessions of the public, parochial and private schools in New York city. Officials of the board of education estimated that the total enrollment was only about 15 per cent below what would have been regarded as normal, which is, roughly, about 1,000,000. Of these 150,000 about 100,000 were kept at home by their parents through fear of the epidemic. The other 50,000 appeared ready to attend the schools but were sent home by physicians and nurses of the department of health because they came from premises where cases of poliomyelitis are under quarantine or because they had only recently returned to New York from the country and failed to bring with them the proper certificates. Several educational innovations marked the opening chief among them being the inspection of every child by nurses and physicians of the department of health, the inauguration of a system of compulsory physical training for the first time in the history of American education and the fact that the year marked the beginning of the compulsory military training for boys more than sixteen years of age, the first time such a system has ever been provided by an American state. Every child who enters the schools for the first time this session is questioned and inspected for signs of an infectious disease, and none is permitted to enter a classroom until the inspection has been completed.

Break Winning Streak.
New York, Sept. 30.—After Denton had shut out Boston in the first game of the double header 4 to 0, New York's 26th great victory, the great winning streak of the home team was broken in the second game which Boston won 8 to 3. Though locals broke the old major league record of 26 straight, they just missed tying the world's record for all established leagues, made by the Corsicans, Texas League team in 1902 when it won 27 straight games.

Boston	8	1	1
New York	4	9	1

Batteries: Rudolph and Gowdy; Denton and McCarty.

SECOND GAME
Boston 8 13 3
New York 3 8 2

Batteries: Tyler and Blackburn; Smith, Anderson, Tesreau, Sallee and McCarty.

DALLAS VISITORS PAY TRIBUTE TO EVIDENCE OF PROSPERITY HERE

VISIT LAKE WICHITA

Excursionists Are Entertained With Dutch Lunch at the Elks Club Room.

"We came up here to patronize the business men in these little towns, but when we got to Wichita Falls we found that he had hugged a bear," said R. E. L. Knight, president of the Dallas State Fair, and spokesman of the Dallas trade-trippers at Lake Wichita Friday night. "In Wichita Falls we found a city that is as big in her ways and her views as is Dallas." Mr. Knight then paid an eloquent and glowing tribute to the industry of the citizens of Wichita Falls who have built their city in a few years from an inconspicuous country town. He said that he characterized as "one of the proudest cities of Texas who rears her queenly head above the plains, and who is famed by the breeze of the famous Lake Wichita." Mr. Knight made especial mention of a number of the manufacturing enterprises of the city, and from the tenor of his remarks it was evident that the fac-

tory city had made a deep impression on the ad his fellow travellers. He also briefly described the attraction to be offered this year at the fair. Hundreds were attracted to the lake in spite of the nipping weather by the concert rendered by the crack Dallas band. The band played two hours with scarcely any intermissions, and the dancing floor and the porch of the pavilion were crowded throughout the evening by dancing couples among which the elders vied with the more youthful in point of numbers.

Judge R. E. Haff presided at the Dutch lunch rendered the visitors at the Elks club immediately before they were taken to the lake. Mayor Britain briefly bade the visitors welcome and turned the city over to them. Dave Kahn, of the International Traveller's association replied in the same spirit and all hands attacked the more substantial part of the festivities. The visitors were carried to the lake in automobiles of which there were more than thirty furnished for the occasion.

RUTHLESS SUBMARINE WAR IS TEST OF CHANCELLOR'S POLITICAL LIFE

BETHMANN-HOLLWEG AND MEMBERS OF THE REICHSTAG

According to reports from London, a great political crisis has been slowly developing in Germany. The pan-Germans before the opening of the reichstag on September 29, have been making every effort. The correspondent says, to overthrow Chancellor von Bethmann-Hollweg. The Berliner Tageblatt is quoted as saying: "Tension in the atmosphere of imperial politics has reached such a high point that a discharge must follow if the empire is not to suffer lasting damage."

pendens show that the pan-Germans are fighting for a policy of ruthless submarine war, the chief obstacle to which is the imperial chancellor. A conference of the Socialists of the German empire has adopted by a vote of 251 to 5 a resolution declaring the country must be defended until its enemies are prepared to conclude a peace guaranteeing the political and territorial integrity and the economic development of Germany, according to a telegram from Berlin received at Amsterdam and forwarded by the Reuter Telegraph company.

SOLDIERS OF EMPIRE STATE TO VOTE ON BORDER WITH EIGHT FOOT BALLOT

SECRETARY HUGO and EIGHT FOOT WAR BALLOT

New York state soldiers of the Mexican border are to appear on the lengthy ballot, the longest ever used in a combined national and state election and the first "war ballot" since 1898, when American soldiers were on Cuban soil. A carload of election ballots for the border about Oct. 20, Secretary Hugo will send a representative from the election bureau of his office to Texas to complete arrangements for polling the soldiers' vote. The form of the ballot will make election day a busy one for the soldiers. Neither the names of parties nor candidates will

appear on the lengthy ballot. The name of every candidate to be voted for must be written in the blank space beneath the title of the office that is to be filled. A pamphlet of several pages is to be distributed among the soldiers prior to election day, and this will give the names of all candidates of various parties for all offices, ranging from presidential elector down to town and ward. Each company headquarters is to be a polling place for the men of that company. A complement of soldiers, named by the company itself, will serve as inspectors. Voting will be carried on in the camps at McAllen, Mission and Pharr. Polls will remain open during hours to be named

- by the commanding officer at each post, but for a period of not less than three hours.

LOCAL HIGH IS PLANNING TRIP

Getting Ready For Battle With Burk Burnett Eleven on Next Saturday

That the local high school eleven has picked out a big bite in meeting Burk Burnett next Saturday for their opening game becomes more and more apparent as time wears on, the defeat of the heavy Grandfield team by the Burk Burnett boys Saturday to a 62 to 0 count being the latest evidence to be introduced into the case. The Burk Burnett team is said to be much heavier than the local squad and it is an axiomatic conclusion that

the local boys will have to put in some hard ticks during the coming week to be in shape to beat the up-country eleven.
 As yet the local squad has not attempted any ambitious and complicated trick plays, but Coach King, mindful of the value of a thorough grounding in the rudiments of the game, has put them through a hard week in this department, and has worked the squad very much on anything except the simpler plays. However, it is his intention to open up during the week and whip them into shape to show a varied attack on the Burk Burnett lot next Saturday.
 The Burk Burnett squad has the advantage of about two weeks longer training than the locals, but the hard and conscientious work done by the home guard since the beginning of their training should counterbalance that.
 The enthusiasm shown by the backers of the local club is expected

to manifest itself in a large crowd of local rooters accompanying the squad when they invade foreign territory next week, in fact many of the members of the high school athletic association have already announced that they will accompany the club, some going up in cars and some accompanying the team on the train.
 A "pop" meeting to enlist members of the rooting party is scheduled for next Friday evening immediately preceding the trip.
MORGAN MAY FLOAT ANOTHER BRITISH LOAN
 By Associated Press.
 New York, Sept. 30.—J. P. Morgan, whose banking firm is financial and purchasing agent for the British government, and Walter Hines Page, American Ambassador to Great Britain, were among the passengers who sailed for England today on the American liner, New York.
 Although it has been reported in

the financial district that Mr. Morgan's mission was to arrange for the flotation of a new British loan of \$25,000,000 to be backed by American securities, the financier refused to confirm the rumor.
YOUNG MAN HELD UNDER \$2,000 BOND
 Bert Sissley, the young man who was arrested here last week on the complaint of a young woman whom he is alleged to have brought here from Pennsylvania, was held to the federal grand jury after a hearing in the federal court at Fort Worth Friday on a charge of violating the Mann act. His bond was placed at \$2,000.

EXPLANATION AS TO MEXICAN BANKS

Statement is Issued Giving Reasons For Closing the Two Institutions

By Associated Press. Mexico City, Sept. 30.—A statement was issued by the treasury department today in regard to the possible closing of the Bank of London and Mexico and the Banco Nacional. The directors of these two banks protested against the recent decree, requiring all banks to submit to the supervision of government examiners and giving 60 days in which metallic reserves should be brought up to the amount of capital. The directors of the two banks in question at first refused to turn over their institutions to the government examiners.

The statement says that as the treasury department has no desire to take over the bank without a formal inventory of their assets, the banks were closed until the expiration of the 60 days within which the metallic reserves and paper issues were ordered equalized.

The manager, sub-manager and two directors of the Banco Nacional were arrested owing to a misunderstanding while the findings of the bank examiners were being recorded. After an explanation the directors were immediately released. William Mitchell, manager of the Bank of London was also arrested for disobedience to the decree and agreed to turn over his bank on Friday. The statement adds that rumors that the government intended to take money from the banks of issue are absurd.

Parker Is to Make Speeches for Wilson In Several States

Anbury Park, N. J., Sept. 30.—John Parker, nominated by the progressive national convention for the vice presidency as Col. Roosevelt's running mate, will speak for President Wilson in New York, New Jersey and Ohio, it was announced today.

Parker wrote to President Wilson offering his services and the offer has been accepted.

PAYING BENEFITS TO THE STRIKERS

Fund of \$55,000 Is to Be Distributed Among Street Car Employees

By Associated Press. New York, Sept. 30.—Officers of the Amalgamated Association of Street and Electrical Railway Employees began today the distribution of a \$55,000 benefit fund among the street car men who have been on strike here since September 1. Efforts to organize a general strike in support of the car men suffered a check today when the 900 brewery workers who quit in response to the general call returned to work. Nevertheless labor leaders asserted that 100,000 workers aside from the brewery trades were on strike.

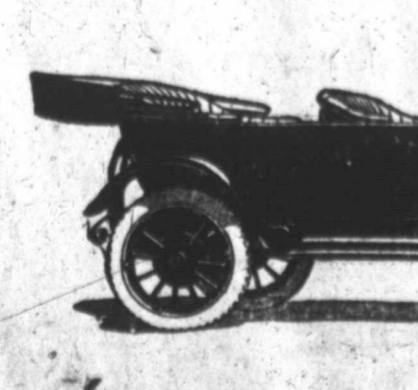

Traction officials say that street car men who quit are returning to their posts at the rate of about 15 men per day and that the places of the strikers are being filled by new men.

George Kay of Dallas, travelling freight agent for the Green and Crescent route visited local railroad offices Saturday.

BRIGADIER GEORGE WOOD IS A VISITOR TO THIS CITY

BRIGADIER GEORGE WOOD OF THE SALVATION ARMY

BRIGADIER WOOD VISITOR TO CITY

WILL SPEAK AT SALVATION ARMY CITADEL AT SERVICES TODAY AND TONIGHT

SUCCEEDS BRIGADIER SMITH WHO WAS RECENTLY TRANSFERRED TO KANSAS CITY WORK

This afternoon Wichita Falls will have its first introduction to Brigadier George Wood, the new commander of Salvation Army work in the southern province who succeeds Brigadier John Smith of Dallas, who is so well known and loved here. The new commander will speak this afternoon at 3 o'clock at the citadel and again at 8:15, the public being cordially invited to attend both meetings. Ensign Robb of the local station is anxious that all interested in the work of the army meet Brigadier Wood. The brigadier who comes from California, where he has been stationed the past six years, is like his predecessor, Brigadier John Smith, an efficient and successful officer with some twenty-five years to his credit. He entered the work in Canada and after four years there was transferred to this country and since then has filled important staff positions in New York, Philadelphia, Chicago, St. Louis, Los Angeles, San Francisco

IRON ORE IS TO BE A BIG ISSUE

Will Figure Largely in Settlement of Accounts Following the War

Paris—Iron ore which was one of the stumbling blocks encountered in the negotiations of peace between France and Germany in 1919 is likely to cause stout contention in the eventual settlement of accounts between the belligerents in this war. If Germany is not beaten into complete submission, it is expected in France that her delegates will stand out stubbornly for the ambitions of a large industrial representation which recently demanded "the establishment of military frontiers that will give Germany the mining regions that are indispensable for the development of the empire."

The mining regions referred to in this quotation from the resolutions of a German industrial committee are the 105,000 acres of French iron land of the Briey basin adjoining the iron lands of annexed Lorraine just across the frontier. They produce fifteen million tons of ore per year—30 per cent of France's total production; they furnish a livelihood to 22,000 soldiers and the steel and iron industries depending upon them give employment to 115,000 iron workers. Without the Briey iron industries would be paralyzed for years to come if not permanently disabled.

If the allies are able to dictate terms, the French delegates will insist upon the return to France of the part of Lorraine that was taken from her in 1871 with the iron lands from which in 1915 Germany took 21 million tons of ore—more than 75 per cent of her total production and 60 per cent of her total consumption. Lorraine in the French point of view, to longer represent a mere sentiment; the sentiment exists, but along with it is the great object lesson of the war—Germany's 45 years of military preparation in which the mines of Lorraine played a leading role. If France is today obliged to cry for "more armaments," it is in the estimation of French specialists, because Germany took from France with Lorraine mineral resources to which she owes 60 per cent or more of the development of her iron and steel industries since 1871. Besides the ore-bearing lands that were mainly needed in Germany, Bismarck demanded in exchange for an extension of the territory left around

The goods themselves, their quality, their desirability in proportion to their prices—these are the things that count. The best thing that can happen to good, desirable advantageously priced merchandise is to be seen—and there is no place where you are more welcome to come and see with your own eyes the many good things we have in store for you to see, and to buy if you choose.

It is the duty of the Jones-Kennedy Co., ever to be active in the interest of its customers. The very first aim of the founders was to GAIN and RETAIN THE CONFIDENCE OF THE PUBLIC, and we should be unworthy our heritage should we forget that INTEGRITY OF SERVICE, and conscientious consideration of every customer's interest were the very foundation principles of this store. The business has multiplied in volume since the succession of its present management and our ability and facilities for operating to our customers' advantage have likewise increased.

We have command of the markets equaled by few and excelled by no other establishment in the country—and such prestige in the gathering of fashion's best merchandise means more to the public now than ever before. You are absolutely sure of every advantage that cash and quantity buying can give you.

Seventy Five Foot Front on Indiana WICHITA FALLS LIVEST STORE

Before all of the iron ore region of Aumetz, Villersrupt and Otange, between Briey and Longwy. But Bismarck had to do in these negotiations with a clever Norman, Monsieur August Puyser Quartier, Thiers' minister of finance, who fought desperately and cleverly to save something of France's future in the iron industry. The discussion finally came down to Villersrupt. "Prince, I give you my word of honor that I never would think of selling you to become a Frenchman, yet you insist upon my becoming German," Puyser Quartier remarked. "How is that?" replied Bismarck. "I do not understand you. Who talks of annexing Normandy?" "I am one of the principal owners of the Villersrupt rolling mills," rejoined the minister. "You see clearly that you are making a German of me by insisting upon Villersrupt." "Oh, very well," said Bismarck. "I leave you Villersrupt, but do not ask anything more of me or I will take it back." That was practically all that France saved of its iron industry, as it existed at the beginning of the Franco-Prussian war. France's production of steel and iron would still be insignificant had not an obscure English clerk, named Thomas Dickson, covered a process of dephosphorizing iron ore which he sold for 50 pounds

OKLAHOMA TOWN IS QUIET AFTER LYNCHING

By Associated Press. Nowata, Okla., Sept. 30.—Nowata is quiet today after the lynching of two negroes, one of whom escaped from the county jail yesterday, shot and killed Deputy Sheriff James Gibson. Search for a third negro is being made. The mob last night dispersed quickly after the lynching, its members unwilling to face Rev. H. Pierce, a Methodist minister, earlier in the night had dissuaded the mob from lynching one of the negroes after he had been suspended from a tree in the parsonage yard.

REPORT CAPTURE OF THE BREMEN IN A STEEL NET

By Associated Press. Washington, Sept. 30.—Another report of the capture of the German merchant submarine reached official circles here today from unofficial, but usually reliable sources. According to this account which is given credence by some high military officers the Bremen was seen three weeks ago at a British naval station. The Bremen is at big British naval station at Rosicah at the east coast of Scotland, having been captured in one of the steel nets, used with such success by British against underwater boats. More than 17 submarines are said to have been taken or destroyed by these nets. In spite of insistent reports of the Bremen's capture, her agents in this country apparently still are confident that she is safe on the high seas. Washington, Sept. 30.—Funeral services for the late Rear Admiral C. E. Vreeland, U. S. N., retired, were held here today. Interment with full military honors followed at Arlington National Cemetery. The OLDEST FOOD KNOWN

Biblical history frequently mentions the olive tree, ripe olives and olive oil. The Greeks and Romans highly prized olive cultivation. As civilization and culture traveled Westward, so followed the use of the olive and its oil. It spread to Spain and finally after the discovery of the American continent, was successfully established in California by missionaries in 1769. We have our green olives packed for us by the largest-olive importer and packer in America and handle nothing but the very fanciest of Saville fruit. Our ripe Olives and Olive Oil have been most carefully selected from different packers and each grade we believe to be the very best of the WORLDS production for the price, and each selection is the result of most careful comparison of the offerings of all the biggest packers of Fancy Fruit. On account of our large purchases we are enabled to make cheaper prices than the ordinary dealer.

BIRTHDAY PARTY FOR MAMIE SIMPSON FRIDAY

Little Miss Mamie Simpson entertained a number of friends Friday afternoon with a delightful party, the occasion being her eighth birthday. Numerous games were played for an hour or more and then the children were invited into the dining room, which was beautifully decorated by the mother of the hostess. The big dining table was overlaid with a hand made lace cloth and in the center was the big white birthday cake, agleam with eight tiny pink and blue candles in silver candlesticks. From the chandelier streamers of pink and blue hung down to the corners of the table and were caught in big bows. Pink ice cream was served with the birthday cake. The customary favors were baked in the cake and the little hostess herself cut the dime, while Dorothy Hines cut the ring and Elizabeth Couper the thimble. Plate favors for each guest were tiny baskets decorated with pink and blue forgetmenots and filled with candies. Mrs. Simpson was assisted in entertaining by Misses Elizabeth Webb and Ruth-Crosswell. Miss Webb furnishing music. The guests enjoying this perfectly lovely party were: Berenice Webb, Dorothy Hines, Joe Hancock Jr., Dorothy Reid, Irene Clark, Edna Ray, Reynolds, Mabelle Dringard, Irene Leucke, Mary Pressley, Madeline Hill, Elizabeth Couper, Geraldine Kincannon, Lulu Grace Williams and Dorothy Ferrell.

DIVORCE CASE IN COURT SATURDAY

Mexicans Recite History of Married Life in 78th District Court.

The divorce suit of Videllita Martinez against Rita-Culvas Martinez, occupied the 78th district court Saturday afternoon. The case was not completed and testimony will be resumed at 1:30 Monday. Martinez alleged conspiracy on the part of his wife's parents, who live at Amarillo. Mrs. Martinez in a cross action charges cruel treatment and asks for a divorce of the personal property and the custody of their three young children. The property issue is being heard before a jury.

The couple had been residents of Wichita Falls. Some time ago Mrs. Martinez, taking her children, left her husband and went to Amarillo to live with her parents, following which Martinez filed suit for divorce. Martinez is a native of Old Mexico. Mrs. Martinez although of Mexican descent was born in Texas and was educated in the public schools of Amarillo. She is well educated. Of the witness stand she told of her husband taking her and her children into Old Mexico. She told of the coming of bandits and of disordered conditions. She said that her husband left her there with his father and mother who he returned to the United States and that Martinez' father treated her badly. She also told of instances of harsh treatment by Martinez himself.

Martinez who does not speak English well, denied her story when he took the stand. He told of going to Amarillo to see her at her father's home. He told of his conversation with her there and denied very vigorously that he had attempted to raise

JURY IN WILLIAMS CASE IS DISCHARGED

After deliberating more than 24 hours, the jury in the case of P. C. Williams, charged with the murder of T. C. Hollander, in front of the Newport bar August 18, was finally discharged, reporting that an agreement was impossible. The jury stood ten for the ten year penalty and two for ten five. It is reported. According to statements of the jurors, the jury stood six for the death penalty on the first ballot. However it is said that two of the jurors stood out from the first ballot to the last.

The state was represented in the trial by Lesley Humphrey, district attorney, and Ed Kasper, special prosecutor. The defense was represented by S. Heyner and E. H. Eddleman.

To Our Customers.

Owing to the extreme high prices in general, and especially feed and labor, of which we are large users, we are compelled to advance the price of milk and cream on the first of October.

We are making an extra effort to put out a much better quality product than has been sold here before, and to do this costs quite a little, and we feel that our customers will allow this advance in order that they are sure they get the best possible.

Our drivers will be required to sell at the following prices:

Residences, milk in bottles, 50 cts. per gal.

Drug stores, confectionaries and boarding houses, 35 cts. per gallon.

Cafes and hotels, 30 cts. per gallon in bulk.

Cream accordingly.

We thank you for the business given us up to this time, and will show our appreciation of your continuance as our customer, by giving you a pure, sanitary milk, and the best of service.

The New Autumn Fashions

A review of our display reveals the authentic in Autumn Modes. Every model shown is marked by its smartness, its perfect tastes and by a certain air of distinction that you recognize as being essentially Baum & Gardner. The style tendencies interestingly reflect the varied modes of Paris and New York.

Women's Distinguished Modes FROCKS AND GOWNS

The Silhouette SVELTE, the silhouette of the long, slender line, is the vogue established in Autumn gown fashions. Walking frocks of serge and of satin strike the characteristic Baum & Gardner note of repression—a note of refined elegance and simplicity. Afternoon and calling frocks possess the elusive "differences" of contour and color scheme, and of infinite detail, distinctly Baum & Gardner. Formal evening gowns and dance frocks are of sumptuous metal brocades and other rich textiles.

"JEUNES FILLES" FASHIONS

Typical Modes for the Miss of 14 to 18. Distinctive Types for School and Leisure Hours, for Formal and Informal Wear.

PARIS MODEL HATS

Their Copies and Adaptations

So cleverly have our designers caught the very spirit of the Mode, so artfully have they interpreted it, that it is scarcely possible to distinguish between the imported models and their duplicates. Side by side in the French Millinery Salon, the Paris originals and the copies made in Lovel & Side by side in the French Millinery Salon the Gardner, this season, through "specializing" have produced, with imported materials, perfect copies of the leading Paris successes at \$5.00 to \$50.00

NEW ELEVATORS TO BE ERECTED

Wichita Mill & Elevator Company Has Let Contract For Improvements

A contract to build an addition to the elevators of the Wichita Mill & Elevator Company in the southeast part of the city, which will increase the capacity of the elevators 217,000 bushels, has been let to the Borrel Engineering and Construction Company of Chicago, who will begin work on the structure in the near future, their contract calling for the completion of the work in the early part of January. The present capacity of the elevators is about 480,000 bushels

so that with the addition they will have a combined capacity of nearly 700,000 bushels. The addition will be constructed along the same lines as the older elevators of reinforced concrete.

These elevators are used for the storage of grain for export alone and the addition is due to the growing production of grain in the Western Oklahoma territory tributary to Wichita Falls, and the correspondingly larger business being done by the Wichita Falls concern with that section.

CONDITIONS COMBINE TO EFFECT COTTON CROP

The combined action of lack of moisture, cold weather and material inroads of the boll weevil will cut down the low cotton crop in this section to an inconsiderable figure, according to the opinions of farmers and cotton men expressed yesterday.

DORT
A Supreme New Dort
Model 9 - 1917 Touring Car

The beauty of this new Dort will attract you—the smart, trim lines will excite your admiration—the roomy body and seats, the deep upholstery and the many refinements will appeal to your love of comfort and convenience.

But as a motorwise buyer, these superiorities alone should not be the deciding factor in your purchase of the Dort. The real Dort, the car you are buying for everyday use and pleasure, is beneath the body beneath the hood. The real Dort is a mechanical achievement: the extraordinary motor, the staunch frame and trouble-proof rear axle, the true cantilever springs, the unfailing Westinghouse Starting and Lighting—are only a part of the thorough excellence of the car.

You will appreciate the combination of solid common-sense and comfortable beauty in this car. You will know that the Dort is completely good—that it is a value without parallel among motor cars. You will enjoy riding in the Dort. You will be proud to own it. Many Dort cars are owned by men whose means would permit them to buy the highest priced cars if they chose. SEE THE NEW DORT.

AT THE THEATRES

DONALD BRIAN AT THE EMPRESS WEDNESDAY

Donald Brian, famed stage star and one of the three stellar attractions of the recent success "Sybil" returns to the screen in an extraordinarily funny comedy produced by the Famous Players Film Company of the Paramount program, "The Smugglers." This laugh film will be the main attraction at the Empress Wednesday. As the title of this photoplay comedy clearly indicates, it is replete with adventures, thrills and episodes both amusing and stirring. But underneath the fabric of romance and drama that are connected with the innocent smuggling of valuable pearls by John Kestley Watson is a strong foundation of laughter, for the director of the production, the well known Sidney Glavitt, has never permitted the star or his support to take themselves too seriously, and the result is that the comedy of the plot is ever present and irresistible.

BLANCHE SWEET STARRING AT THE EMPRESS MONDAY

Blanche Sweet, the beautiful and captivating Lasky star, will be seen

sending to assist her by accompanying Mr. Strong to a cafe to dinner. Jimmy and a party of his friends are dining at the same place, and he strongly denounces Ethel. Private detectives employed by Mrs. Strong enter the private dining room just as Strong is about to kiss Ethel, who from her desperate struggles with him, presents a very disheveled appearance. After the detectives leave, Ethel confesses all to Strong. Jimmy goes to Mrs. Strong's home where she is entertaining and as he is trying to persuade her to go with him to save Ethel, Strong and Ethel appear. Ethel, forgetting all conventions, starts to make a public confession. Jimmy takes her from the room, and Mrs. Strong, confronted by her husband, realizes that all is up. Jimmy announces to the astonished crowd that he and Miss Hale are to be married at once. Ethel protests against his sacrifice, but he takes her into his arms and receives the hearty congratulations of the departing guests.

BLUEBIRD FEATURE AT WICHITA SATURDAY

Next Saturday "Wanted a Home" will be shown at the Wichita Theatre. This picture is a Bluebird filmed under the direction of the famous Smallevs. Mina Rogers, an orphan girl, tossed about by the currents of adversity, reads a newspaper and advertisement for a servant. Applying for the position she is engaged as housemaid by a party of professional nurses who maintain an apartment on the commonwealth plan. After a week's employment Mina is told that her services will be no longer required. The day she is to leave, the telephone rings and Mina makes an appointment for one of the nurses, Grace Kelcey, to undertake the care of Harvey Gorman, a wealthy invalid, who lives in a nearby community. Taking a desperate chance Mina presents herself at Gorman's impersonating "Miss Kelcey" and begins her duties. Robert, a convincing villain, is retained as Gorman's male nurse. Dr. Prime takes a marked fancy to Mina and observes how carefully she nurses his patient. The intelligence she shows

in performing her duties, Roberts early discovers that Mina is not a trained nurse, confronts her with her deception and thus obtains upon her by promising to remain a servant. Mina repulses the advance. Roberts makes Jane, a household servant in love with Roberts, senses an intimacy between Roberts and Mina and in her jealous hate turns it into a worst possible construction an incident Roberts has created in his endeavors to smother Mina in his villainous plans. At this point there is a startling change in events and to tell more would ruin the suspense of the story. Suffice it to say that it is of exceptional interest throughout.

WARREN KERRIGAN STARRING AT THE GEN MONDAY

J. Warren Kerrigan, who will appear at the Gen Theatre in his latest picture, "The Beckoning Trail" although only twenty-five at present, has already had a remarkable career in the movies. When a lad there was a lot of lively discussion in the Kerrigan family as to what career this budding young genius should follow. His mother had him a minister long before he was out of swaddling clothes, while his father had him all fixed in life as a lawyer. One of

his elder brothers (Warren is the youngest of eight) had higher ambitions for him and picked out the career of a pugilist. However, Warren himself, when consulted about the matter, said he wanted to be an actor. In fact, for several years before he actually went on the stage he began his preparation by reading extensively. His father was superintendent of a large warehouse and he says that he used to build tunnels among the empty boxes where no one could find him. Often in fine weather he would go out into the woods and declaim to his heart's content with the trees as an audience. It was in the woods that Kerrigan got his love for out of door life. He is an ardent sportsman and can run, swim, and ride with the next person. As a fisherman, too, Warren shines as all the members of his company can testify. And although he never looked for quarrels, he always had his hands full attending to those which his twin brother, Wallace picked out from his home in Louisville and went to New York with boundless ambition and very little experience. But at that he got along much better than the average country boy. His first experience on the stage was with Clay Clement, his brother-in-

law, in his production of "Sam Houston." Next he played juvenile leads in productions of "Brown of Harvard" and "The Master Key." Following these engagements he was featured in the "Road to Yesterday." Then by chance Kerrigan met a man who told him that he was the ideal type of man for the screen. At first he was not tempted but finally the Essanay Company made such a brilliant offer that he could no longer refuse. He left the Essanay Company to join the American Company and later left the American to join the Universal Company, where he is at present located. Mr. Kerrigan has located. Mr. Kerrigan has done some of his best work with the Universal Company, having appeared in "Samson and Delilah," "The Magic Stein," "Dread Inheritance," "The Restless Spirit," etc.

HENRY WALTHALL TO STAR AT MAJESTIC WEDNESDAY

The reception by the public of Henry B. Walthall's latest 5 act Essanay feature, "The Sting of Victory"

to show at the Majestic Wednesday has been remarkable, and the film continues to be shown daily all over the country to the utmost limit of the prints in the field. Additional copies are being forwarded daily to meet the demand. The great genius of the screen, so popular among all classes of patrons, has exceeded expectations—great as these were—in this latest feature and established a new standard for his art. It is a soldier part, one in which Mr. Walthall exhibits the greatest of his powers in his portrayals of his trials—the rendering of the bonds of love and friendship—to satisfy the harsh demands of duty. The picture tells a thrilling story of romance and danger. Scenes for it were laid in the south, the country which Mr. Walthall loves and understands so well. All the wealth of sympathy which he compels on the screen goes with his interpretation of his latest role. Supporting Mr. Walthall is a capable cast headed by Antoinette Walker. Shaw has been with the Miller Drug Store for a number of years. His brother, J. F. Shaw, comes here from Tennessee where he has been in the drug business for a number of years. R. T. Williams has been manager of the Oxford store for some time past. The store will be known as the Shaw-Williams Drug Company and will be under the management of G. W. Shaw. All three of the new firm are practical and experienced pharmacists.

WILL SUPPLY FUEL TO ALL INDUSTRIES

None of the industries of Wichita Falls need suffer if their gas is cut off, notwithstanding that the Panhandle Refining Company's pipe line is not completed. The refining company has 15,700 barrels of fuel oil in reserve at its plant and tank cars in readiness to transport it to any of the industries plants in the city that have tanks ready to receive it, according to a statement of one of the company's representatives yesterday. The first carload of the pipe for the supply line was expected to arrive yesterday. Other cars are en route. Ditches are being dug for the pipe and casing is being put in under the Fort Worth & Denver and Katy tracks to carry the pipes as soon as they can be laid. The Panhandle Refining Company is prepared to push the building of the supply lines with all speed and until the lines are completed are prepared to take care of the industrial plants in Wichita Falls.

CHANDLER SIX \$1295 (F. O. B. CLEVELAND) Answering the Question Thousands Have Asked THE automobile industry is so big, so vital, that rumors run rife in it, rumors founded and unfounded. So it is not strange that thousands of admirers of the Chandler Six, thousands of prospective Chandler owners, have asked "What are you going to do in January? Are you going to bring out a new model? Are you going to build such-and-such kind of motor? Is it true you are going to adopt a new design of body? What about the price?" And this is our answer. In the series of Chandler Sixes which will follow our completion of production of the present series, we shall continue to build as the heart of this great car the same Marvelous Motor which, with some minor refinements from time to time, has distinguished the Chandler for four years past, the same Chandler-design and Chandler-build motor which has become famous for its power and flexibility and simplicity and economy. And we shall continue the beautiful walnut-pannelled tonneau-cowl type of bodies—with soft, deep cushions and lustrous finish—which preceded many recent "new models" by many months. And the price cannot be lowered. In all probability it will be higher. Ask any Chandler dealer or any owner of any Chandler—whether Type 14 or 15 or 16 or 17—if he would have us build some other type of motor. Ask yourself what change could make the present Chandler more beautiful in body design. This is our answer to the thousands who have asked. TEXAS STUDENTS IN OKLA. VARSITY

Thirteen From This State Have Registered at Norman, Oklahoma. Norman, Okla., Sept. 30.—For the first time in the history of the University of Oklahoma, the total enrollment for a year has passed the two thousand five hundred mark, according to figures given out by President Stratton D. Brooks Tuesday morning. The first week of registration for the winter term which began last Tuesday showed 1,657 men and women in actual attendance in Norman and at the School of Medicine in Oklahoma City. This with the summer enrollment of 956 makes the total for the year already 2,577. Additions to the number during the present school term will bring the year's total far beyond the two thousand five hundred mark. It is estimated. Among the 1,657 men and women now doing work at the University of Oklahoma are thirteen students from the State of Texas. They are: Nora Hayes, Palacios; Little Ball, Amarillo; both students in the school of fine arts; Lisle Courtney, Shamrock; M. H. Clay, Trinity; Norwood Hall, Shamrock; all seniors in the school of pharmacy; Mary Reid, Dallas; Norman Brillhart, Kaufman; both seniors in the college of arts and sciences; R. Garland Wickliffe, Chillicothe; and Gray Higgins, Fred-

Deatherage, Dallas, all sophomores in the college of arts and sciences; Mary Washington, El Paso; Eloise Cole, Reid, Dallas; Marie Forney, Archer City, all freshmen in the college of arts and sciences. Regular school work has begun in earnest, despite the crowded condition of all buildings on the campus, the insufficient number of faculty members and the lack of much needed apparatus. Heavy extensions have been made absolutely necessary in many departments, the extra work being accomplished by assigning student assistants to the routine tasks and leaving the regular professors and instructors to do only those things that require careful attention. The increase in enrollment is shown in practically every department of the University, but the one attracting by far the most attention is that of Spanish. From a department with one professor, who gave even a part of his time to other things, two years ago it has grown to a department with five professors and instructors, headed by Prof. Patricio Gimeno, a native of Peru, who was educated in Spain. PLAN CAMPAIGN AGAINST HOOKWORM IN TEXAS By Associated Press Austin, Tex., Sept. 30.—An aggressive campaign for the eradication of hookworm in certain portions of the state is to be inaugurated during the early part of next year by the state health department with the cooperation of the International Health Commission. Several years ago such a campaign was waged with the result that hookworm was eradicated in a number of counties in the eastern part of Texas. Lack of funds caused a cessation of the work but now it is understood that sufficient funds will soon be available to renew the work. mean a serious embarrassment to the firms depending thereon, among whom is the water and light company. The Wichita Gas Company also supplies the water and light company with fuel, but as that company's preparations to burn oil under their boilers are hardly completed far enough to supply more than possibly one or two of their boilers, it may mean that the city will be in partial darkness a part of this week, and that the water supply, owing to the weakening of the pressure, will be very unsatisfactory.

HOLLAND ADOPTS THE U. S. COTTON STANDARDS

Washington, Sept. 30.—The Rotterdam Cotton Exchange of Rotterdam, Holland has adopted the official cotton standards of the United States representing white cotton, according to a report to the office of markets

and rural organization of the U. S. department of agriculture by Edwin W. Thompson, commercial attache of the American legation at The Hague. This is the first official recognition by a foreign market of the cotton standards promulgated by the secretary of agriculture, August 12, 1916 and now in use in all of the important spot cotton markets in the United States.

The department of agriculture has been seeking to interest foreign markets in the official United States standards in the hope of having them made the universal cotton standards. Prior to the adoption of the standards by the Rotterdam Exchange, the office of markets and rural organization furnished a complete set of the standards and sent representatives to confer with the exchange officials.

DECLARES RATES NOT EQUITABLE

Frank Kell Calls Attention to Effect That Classification Will Have on Factories

"It is the most unfair and inaccurate rate adjustment ever offered to any section of the United States that has ever come under my observation," said Frank Kell, yesterday in a statement in regard to the new freight tariffs promulgated for shipments between points in Texas common port territory which were received here Friday.

While the rate of the interstate commission which resulted in the making of these rates, Mr. Kell would venture no prediction as to whether they would ultimately stand or not, he was by no means uncertain in declaring that it was the duty of all interests in the state to fight them to the last ditch.

They Will Add \$175 to the HUDSON SUPER-SIX

This announcement, just made by the Hudson factory, is published for your advantage. We have some cars of the present production due us on allotment. They will be sold at present prices, while they last. After that the Super-Six will cost all buyers \$175 more.

We have just had word from the Hudson factory to the following effects:

- The cars we have ordered of the present production will be delivered at present prices. But all cars of the new production—starting December 1—will cost \$175 more.
- The models will not be changed. The changes, if any, will be only minor refinements.
- There will positively be no change in the Super-Six motor.
- But cars now coming are built from materials contracted more than a year ago. The Super-Six will continue to be built from the same materials. But costs have advanced enormously.
- So cars of the new production must be advanced in price. There is no way out for the maker, save by sacrificing standards. And Hudson will not do that on the Super-Six.

Cars at Present Prices for a Few

We have some Super-Sixes ordered when are still unsold. Some are open models, some enclosed. If we held them they would net us a handsome extra profit. But that profit is yours if you wish to buy now—while our allotment lasts.

It will mean to you a saving of \$175.

All our cars of this production, now on hand or coming, will be sold at present prices.

Note These Facts About the Hudson Super-Six

It is now the largest selling fine car in the world. It holds every record worth having. It has won every contest it entered.

FEW UNDERSTAND THE MILK PROBLEM

Subject is One That Commands But Little Attention From the Public

In view of the recent discussion of the question of dairying and incident to the action of the city council in its efforts to protect the public, the following article from the Literary Digest will be of special interest at this time.

The most recently recognized is the destruction of certain vital elements, which so modify the food as greatly to impair its nutritive value. Milk, fresh from the bovine font, with its rich store of vitamins and enzymes, with the finest quality protein for brain and muscle building, salts to stiffen the bony frame work and to brighten the vital fires of the body, is a natural product.

It, and to a high degree promotes its digestion. Milk when swallowed rapidly as a beverage is likely to form in the stomach large and hard curds, which are very slowly digested. Many persons who suffer from taking milk in this way imagine themselves to be unable to take milk, and so abandon it.

formed when a small amount of milk is taken will be large and tough, whereas if a larger amount of milk is taken, the curds formed will be smaller and also softer. It is of course, impossible for the stomach to make gastric juice that is at once suited for the digestion of meat and for the digestion of milk.

Christian Church on subjects of general interest. Dr. Lowber is from Austin and has travelled extensively both in America and in Europe and Asia. He has been pastor, college professor and University chancellor, and is a member of both the Royal Society and Author's Club of London.

DAIRYMEN WILL ACCEPT NEW FEE

Understood That Association is Satisfied With Action of City Council

That the dairymen will be willing to accept the compromise offered them by the city council in reducing the fee for the tuberculin test prescribed in the new milk ordinance to fifty cents was the opinion expressed by J. A. McSpadden and Mike Emert, two of the most prominent and influential members of the dairymen's association.
