Number 26.

CALL IS ISSUED FOR 70,000 MEN

45,000 ARE NEEDED TO COMPLETE NEW REGIMENTS OF INFANTRY AND ARTILLERY.

25,000 VACANCIES

Urgent Appeal for Single Men Between 18 and 40 Years to Join Colors.

By Associated Press.
Washington, June 12.—The war department today called for 70,000 additional recruits in order to fill the regular army to war strength before June 30.
"The cavalry, engineers, coast artillery, signal corps and quartermaster corps of the regular army have already been brought to war strength," says an official statement.
"Forty five thousand recruits are needed at once to complete the new regiments of infantry and field artillery. Twenty five thousand additional recruits are desired at the earliest practical date to fill vacancies in the regular army of 300,000 men may be maintained."
"Facilities are in readiness for placing these 70,000 men under proper training."
"It is the earnest desire of the war department that 70,000 single men between the ages of 18 and 40 who have no dependents enlist in the regular army before June 30, 1917."

REGISTRAR IS MADE DEFENDANT IN SUIT

Amended Petition Filed by Plaintiff in University Injunction Proceedings.

By Associated Press.
Austin, Texas, June 12.—When the hearing of the injunction suit was resumed this morning before Judge Graves of the Twenty-sixth District Court, J. C. Hutcheson Jr., of Houston, submitted an amended petition of the plaintiff in which E. J. Matthews, registrar of the University and secretary of the board of regents, was made a party, and the answer of the defendant presented by Judge Matthews.
Mr. Matthews was not brought in as a party in the original injunction suit because of his being the custodian of the regents' records, and apparently to obviate any question of the venue of this court.
The defendant's plea of jurisdiction was taken up and argued until the noon recess. C. C. McDonald, for the defendant, cited a number of authorities tending to establish the suit against a regent of a state institution in this official capacity is a suit against the state; and since the state can not be sued without its consent, he is arbitrary but not an act depending upon his own discretion.
Mr. Hutcheson replied that the plaintiff does not claim a right to enforce his contract against the judgment of the board of regents.
It was admitted that a state official can be compelled by mandamus to perform a purely ministerial act, when he is arbitrary but not an act depending upon his own discretion.
The court then adjourned until the afternoon.

WILL TAKE CARTER TO KANSAS CITY, KANSAS

By Associated Press.
Kansas City, June 12.—John A. Johnson of the criminal court of Green county, Missouri, said yesterday that plans had been made to bring Dick Carter, arrested yesterday at Hutchinson and later released, according to reports from there, to Kansas City, Kan., for investigation. Judge Johnson was taking statements from C. J. Piersol and Cletus Adams two of the prisoners previously arrested.

SPEAKER CRITICIZES SOCIAL INSURANCE

By Associated Press.
Pittsburgh, Pa., June 12.—That the United States must be kept safe for democracy was the plea of E. Forrest of Chicago in an address here today before the National Conference of Charities and Correction. Mr. Forrest appeared as a critic of social insurance. Charges and criticisms made by Mr. Forrest included the following:
That when social insurance is established in the United States freedom of individual action will cease.
That social insurance condemns and destroys the present order of society.
That it establishes communistic control of labor, displacing elective officers of organized labor through appointment of communists.
That the commission is more powerful than the state governor and will control state politics.
That the net benefit from an expenditure of laborers' wages, estimated at \$750,000,000 will be the addition of an unnecessary third civic agency empowered to search out disease creating conditions.
That the tendency of health insurance, well safeguard, breeds malingering, as evidenced by actual experience.

MORE CANTONMENT SITES ANNOUNCED

Fort Riley, Kansas, and Des Moines, Iowa, Announced Today—Only Four More to Select.

By Associated Press.
Washington, June 12.—Fort Riley, Kansas, and Des Moines, Iowa, were today by Secretary Baker today to the list of approved sites for divisional cantonments for the new army.
Twelve of the sixteen sites have now been approved.

55 ARE INDICTED FOR CONSPIRACY

OFFICERS SEARCHING THROUGH WEST TEXAS FOR MEN NOT UNDER ARREST.

MORE INDICTMENTS

Federal Grand Juries Still Investigating, But Believed Most of Leaders Arrested.

ARRESTING MANY BLACKS IN MISSISSIPPI

By Associated Press.
Dallas, Texas, June 12.—Federal agents were scouring several West Texas counties today seeking to arrest those of the 55 men indicted by the United States grand jury yesterday for alleged seditious conspiracies, who have not yet been taken into custody.
Officials refused to state the exact number of men they now have behind bars, but it is known they number only a small part of the 55 indicted. More indictments are expected in various parts of the state. Federal officials say, however, that these will be followers rather than leaders.

THE OPINIONS GIVEN YUANHUNG CONFLICT

By Associated Press.
Tokyo, June 12.—Conflicting opinions as to President Li Yuan-hung's proper course in the present political crisis was given today by Dr. George Morrison, a British subject, and general adviser to the president, and Professor Ariga, Japanese advisor to the president, who were called on by the executive for advice. The president has taken no definite action in response to General Chang Huan who recently arrived at Tieu Tsun with a body of troops and demanded that the president dissolve parliament.
Mr. Morrison said, "I urge retention of parliament, even if the president by legal subterfuge could justify dismissal of parliament, the world would never believe it had been done from a legal motive, but rather from fear of Chang Huan."
Mr. Morrison said, "I urge retention of parliament, even if the president by legal subterfuge could justify dismissal of parliament, the world would never believe it had been done from a legal motive, but rather from fear of Chang Huan."

MORE AMERICANS ARRIVE IN FRANCE

150 Ambulance Drivers and 75 Nurses Have Landed at Bologne, in That Country.

AMERICAN STEAMER PETROLITE IS SUNK

Two Boats With Unnamed Number of Crew Reported Missing By Consular Report.

PETROLITE CAPTURED BY GERMANS

By Associated Press.
New York, June 12.—The Petrolite, a vessel of 3,710 tons was owned by the Standard Oil company of New York. She left here April 30 for Savona and Lagnhorn, Italy. The vessel carried a crew of 38 men, of whom 10 were Americans. The ship was armed and carried a gunner's crew.
The time and place of the attack was not given in the dispatches.
The Petrolite, a tank steamer, first figured in the news nearly two years ago, an attack upon her by an Austrian submarine threatened to sever diplomatic relations between the Vienna government and the United States. The ship was shelled by the submarine and aboard her were wounded. The submarine sent a crew aboard the ship and removed valuable supplies. She then was permitted to proceed. The incident was the subject of a series of notes between the United States and the Austrian government.

SUPREME COURT RULES AGAINST INSURANCE CO'S

By Associated Press.
Washington, June 12.—Very large annual loss in federal income tax revenue from insurance companies and treasury refunds of the several million dollars already collected are prevented by a supreme court decision today in favor of the government in a test suit by the insurance company of North America.

EARTHQUAKES AND VOLCANIC SHOCKS FREQUENT IN SALVADOR'S HISTORY

ERUPTION IN SALVADOR - UPPER VOLCANO OF SAN SALVADOR. CITY OF SALVADOR IN FOREGROUND. LOWER - TOWN NEAR JOLCANO.

The earthquake and volcanic disaster to the Republic of Salvador is the sixth time that the city of San Salvador, capital of the republic, has been wholly or in large part wrecked by volcanic eruption of earthquakes, the previous disasters having occurred in 1594, 1658, 1854 and 1873. The loss of life in 1873 was only about fifty, and in none of the cases was it large.
The city, which has a population of about 64,000, lies some thirty miles from the Pacific and about three miles southeast of the volcano of San Salvador. It was founded in 1525, and, despite the frequent disturbances of nature, is one of the most attractive

and well administered of minor Latin American capitals.
The republic of San Salvador is the most densely populated of Central America, having a population of 1,223,000 in an area of 222 square miles. Agriculture, the principal industry, has suffered heavily from the incessant earthquakes and volcanic activity but the government has recently attempted to promote its interests by encouraging the growing of cotton and by establishing an agricultural college and model farms near the capital.
The capital stands on the plateau, some 2,900 feet above the average sea level, which includes most of the

republic aside from the narrow belt of coastal plains. From this plateau rise a group of volcanoes, geologically of more recent origin than the main chain of the Cordillera, which falls into five groups running from Izoce on the west to San Miguel on the east. The loftiest peaks are Santa Ana of the Izoce crater (8,300 feet) and San Miguel (7,120 feet), center of the group of cones which bears its name. The San Salvador group, of volcanic origin, now active, is about thirty miles east of the Izoce crater.
The pictures show, upper, the city of San Salvador and the volcano which wrecked it and, lower, a Salvadorian village overlooked by a volcano.

CONTRACT AWARDED 16 WOODEN SHIPS

Goethals Makes Award Today For Shipping Boards Emergency Fleet Corporation.

By Associated Press.
Washington, June 12.—Contracts for construction of 16 wooden ships were let today by Major General George W. Goethals, general manager of the shipping board's emergency fleet corporation. Ten went to Sanderson & Porter, a New York concern, and six to the Maryland Shipbuilding company of Baltimore.

DIVISION SUPERINTENDENT OF ASSOCIATED PRESS DEAD

By Associated Press.
Washington, June 12.—Arthur W. Cobb, superintendent of the southern division of the Associated Press, died here today of a complication of diseases, after a lingering illness. He was 49 years old. Before coming to Washington, Mr. Cobb had been superintendent of the western division at San Francisco, and before that had served the Associated Press in many places and in many capacities.
Entering the service as a telegrapher 25 years ago, he had risen to superintendent of division. Mr. Cobb's last work was perhaps as he might have wished it, for when a volunteer in the service of the American liner, St. Louis, as the first armed ship to cross the submarine zone, he responded and made the perilous voyage for the Associated Press.

BUTTE IS NOW BURYING HER DEAD

By Associated Press.
Butte, Mont., June 12.—Butte today is turning attention to the burial of the dead of last Friday night's fire at the Granite Mountain mine of the North Butte Copper Mining company. More than 20 funerals were held this morning. Twenty-five unidentified bodies were buried last night. The total dead is estimated at 171.

PHYSICIANS NEEDED FOR NATIONAL GUARD

By Associated Press.
Houston, Texas, June 12.—The Texas National Guard needs medical officers. With the raising of new divisions the National Guard places have been created for many physicians. The doctors are needed at once, and, according to Major O'Reilly of the medical corps, the physicians will obtain experience in the army which will prove of benefit in his practice, aside from the patriotic duty he will perform.

SECURITY VEILS SEARCH FOR KEET BOYS ABDUCTORS

By Associated Press.
Springfield, Mo., June 12.—Security veiled today the efforts being made by county and city authorities to round up the persons guilty of the abduction and murder of Baby Lloyd Keet. No verification could be had of numerous reports to impeding arrests but it seems that new developments would come from cities other than Springfield. Some officials have left here mysteriously on missions that took them to unknown points in the middle west. No direct information was obtainable as to their exact destination.

West Point's Head Leaves Academy and Goes to France Soon

Colonel John Biddle, Superintendent of the Military Academy at West Point, has been relieved and assigned to command the new Sixth regiment of engineers now being organized in Washington for service in France.

DISABLED U-BOAT IS FOUND BY NEUTRAL

German Submarine U-52 Towed Into Cadiz with Her Engine Disabled.

By Associated Press.
Cadiz, Spain, June 12.—Spanish torpedo boat No. 6 this morning discovered German submarine U-52 with a crew of 20, disabled from gun shots which had struck her engine. She was towed into Cadiz and stripped of her wireless apparatus. Repairs will take at least two days.

GERMANS BOMB RUSSIAN BASES

Berlin Admiralty Statement Tells of Successful Raid by Sea Planes on Sunday.

By Associated Press.
Berlin, June 12.—An attack by German sea planes on Russian bases in the Baltic is announced by the admiralty. The statement follows:
"Some of our sea plane squadrons on Sunday successfully dropped explosives and incendiary bombs on Russian bases Libau (on the south coast of Courland) and Arensburg (on the island at the entrance of the Gulf of Riga. Part of the military buildings were almost destroyed by fire. Our seaplanes returned undamaged."

INJUNCTION PREVENTS ACTION BY REGENTS

By Associated Press.
Austin, Texas, June 12.—The board of regents of the University of Texas met here today, but a quorum failed to materialize, and it was impossible to transact business because of the fact that the nine members of the board were enjoined. The board is scheduled to meet later this afternoon, but it is not likely any important business will be transacted. The board is to adjourn until some time in July, at which time it is expected the Lomax injunction will have been determined and the question of the University appropriation settled.

PROTESTS AGAINST HOLDING SOCIALIST DELEGATES

By Associated Press.
London, June 12.—The holding up of the Socialist Labor delegation to Russia by the Seamen's Union is causing a good deal of comment and occupies a considerable space in the papers. There is a sharp conflict of opinion and Ramsey McDonald and Frederick W. Jowett, heads of the delegations, have received strong support from the Glasgow Trades council. The trades council has telegraphed to the premier, the shipping controller, the foreign minister and the labor party protesting against the holding of the delegation.
Several of the morning papers confirmed a report that McDonald and Jowett have signed a guarantee that they would insist upon restitution of all shipping for murder and destruction committee by German submarines. The papers say, however, that labor delegates' opponents say their action has come too late.

DALLAS GIRL DIES FROM ACCIDENTAL SHOT

By Associated Press.
Dallas, Texas, June 12.—Clara Langston, 16-year-old daughter of a prominent local firm, died today from a shot fired at a hospital here early today. Yesterday while cleaning house she dropped the gun off the mantel, it exploded when it hit the floor and a bullet entered the girl's abdomen.

GOVERNOR NAMES EXEMPTION BOARDS

Austin, Texas, June 12.—The Governor yesterday finally completed the list of military exemption boards. The list embraces about 1,000 names, there being 20 boards in the larger counties of the state, one city and one county. The city board is again subdivided into two and three boards.

VON BISSING SAW BELGIUM SUBDUED

PUBLISHED MEMORANDUM OF LATE GOVERNOR REVEALS PLANS.

GERMANY'S PURPOSE READY TO BE SIGNED

Aim of Present War Only to Gain Room For Concentration For Second Mighty Conflict.

Copenhagen, via London, May 23. (Correspondence of The Associated Press.)—The memorandum of the late Governor General Bissing of Belgium, in which he advocated the annexation of the little kingdom and the policy for Germany is published in full in "Greater Germany," a review issued by Deputy Bismarck of the Prussian Diet, a national, liberal and annexationist.
The unhampered readiness with which the inhumanism calls for the detronement of the Belgian royal house, the exploitation of Belgian resources and preparation for a new war to follow the present struggle shows that the document was not intended for public view.
Von Bissing realized that Germany can have little hope of making friends with Belgium after the war, and warns against "illusory reconciliation" and calmly talks of the value of booty from Belgium, and the advantages of possessing the country from a military, naval and economic standpoint. He points out that the offensive prosecution of the present war was possible only through the invasion of Belgium, and speaks regretfully of the fact that the German right wing had to sweep laboriously past the Dutch province of Limburg.
The memorandum says the aim of the present war is to gain room for the concentration and advance of German arms in a new war against England and France, and that with the possession of Belgium, it is doubtful if the new war could be prosecuted on an offensive basis.
Discussing the subject of the policy of the iron general, Von Bissing laments the mistake of a vacillating policy of conciliation as attempted in Alsace-Lorraine and German Poland and says they must never be repeated in Belgium.
The pictures show, upper, the city of San Salvador and the volcano which wrecked it and, lower, a Salvadorian village overlooked by a volcano.

ESPIONAGE BILL FINALLY PASSED

PROVIDES FOR DEATH PENALTY FOR SPYING, PENALIZES OTHER OFFENSES.

GERMANY'S PURPOSE READY TO BE SIGNED

Censorship of Newspapers Cut Out, Mails Are to Be Censored.

By Associated Press.
Washington, June 12.—The administration espionage bill was finally approved by the Senate today without a roll call and sent to the White House for the President's signature. Provisions for a newspaper censorship were cut and modifications in other respects had been made.
The most important legislation retained gives the President authority to embargo exports. The law would punish espionage by death or long imprisonment, penalizes interference with foreign commerce, provides for enforcement of neutrality, authorizes seizure of shipments of arms designed for unlawful purposes, fixes penalties for injuring vessels in foreign commerce or disturbance of foreign relations and imposes new restrictions upon passports.
Other provisions are for censorship of the mails and extension of the use of search warrants.

SENATE COMMITTEE TO INVESTIGATE FUSES

By Associated Press.
Washington, June 12.—Charges that the type of detonating fuse in navy shells is inferior will be instituted by the Senate naval committee tomorrow when the inquiry begins as to a letter by Senator Franklyn B. Rowland, which showed confidential information in the ordinance bureau was being disclosed by a spy or traitor. One phase of the inquiry will be to discover how the highly confidential matter in the letter became known to the writer.

SAYS HEALTH INSURANCE IS SOCIAL JUSTICE

By Associated Press.
Pittsburgh, Pa., June 12.—Greater intensity of production required for war needs will prove the desirability of establishing workmen's health insurance as well as strengthening workmen's compensation laws, in the opinion of Dr. John B. Andrews, of New York, secretary of the American Association for Labor Legislation, who addressed in an address today before the National Conference of Charities and Correction.
"Health insurance is not charity," declared Dr. Andrews. "It is social justice. The responsibility for sickness is shared by industry, the worker, and the state and all three share in the benefits of public health."
Progress toward health insurance has been rapid in this country, according to Dr. Andrews. Civic, medical, commercial and labor organizations in ever-increasing numbers are endorsing public health insurance as the need and the benefits are understood. He asserted that the interest that united in opposition was made up of the private insurance companies. The proposal for universal health insurance is a step toward leveling the playing field between private competition and public insurance. The local mutual funds are made up of contributions from the employer, the employee and the worker. The plan is a fair distribution of the cost and the democratic management is making a strong appeal, particularly to the workers whom it is aimed to assist. The favorable findings of legislative investigation and commissions in Massachusetts and California have stimulated the movement toward legislation.

PROGRESS OF LOAN MARKED BY CLOCKS

Thirty Big Clocks on New York Street Corners Mark Millions Being Subscribed to Loan.

By Associated Press.
New York, June 12.—Thirty big clocks placed on prominent street corners marked the progress today of the Liberty Loan in the Second Federal Reserve District. The minutes of the clock hands show the purchase of bonds in this district and hour hands point to the purchase throughout the country.
The loan committee announced today that although subscriptions to the reserve bank of New York now exceeded the \$600,000,000 allotment for the district made by Secretary McCauley by more than \$50,000,000 that the total is still short of the \$1,000,000,000 the committee here set at the start.

ORDERS TO PROCEED WITH PROSECUTIONS

Leniency Will No Longer Be Extended to Those Who Have Failed to Register.

By Associated Press.
Washington, June 12.—Arrest and possibly a year's imprisonment today threatened men of registration age who have failed to enroll for army conscription. "Governors have orders from the War Department to cease extending leniency to those who did not register and to prosecute violators vigorously. The early publication of lists of registered men is expected to aid in detection of slackers."

STATE AUTHORITIES CONFER WITH I.C.C.

Action Against Illinois Railroads for Refusing 2-Cent Fare Awaits Conference.

By Associated Press.
Springfield, Ill., June 12.—Future action by Attorney General Brundage against Illinois railroads which have put the 2-cent passenger rate into effect, as permitted by the Interstate Commerce Commission instead of the two-cent rate decreed by the state public utilities commission depends on a conference at Washington today. Brundage said his first assistant, James C. Wilkerson and Attorney Clarence Buckingham, were to confer on the problem with members of the Interstate Commerce Commission at the National Capitol today and that he was awaiting word from Mr. Wilkerson before taking action.

BULGARIA WILL NOT CARRY WAR IN GREECE, PREMIER SAYS

By Associated Press.
Berlin, June 12.—Bulgaria has no intention of trying to carry the war into Greece, according to a statement by the Bulgarian premier, Radoslavov in an interview given to the Berlin newspapers of Saturday.
The premier said the Bulgarians were in a position to successfully assume the offensive, but added:
"It is not in the direction of our politics, however, to carry the war into Greece. The violations of international law which the entente has permitted itself in Greece are no incentive for us to follow suit."

NEW YORK GARMENT MAKERS GET WAR WAGE INCREASE

By Associated Press.
New York, June 12.—By a referendum vote it was announced today that 15,000 workers on children's clothes have accepted the offer from manufacturers of a 1-week increase in wages as a war measure. A \$3 a week increase was originally demanded.

B. K. BEDELL APPOINTED ASSISTANT REGISTRAR

By Associated Press.
Austin, Texas, June 12.—Dr. W. B. Collins, state health officer, today announced the appointment of B. K. Bedell, of Galveston, to the position of assistant registrar of vital statistics.

RAILROAD COMMISSION CONTINUES HEARING

By Associated Press.
Austin, Texas, June 12.—Because of the present war conditions prevailing the railroad commission today at the request of petitioners continued to October hearing the proposed revision of existing rules governing reciprocal demurrage at the regular monthly hearing now in progress.

ITALIAN COMMISSION OFF FOR TEN DAYS TOUR

By Associated Press.
Washington, June 12.—The Italian mission, its work completed, leaves today for a ten days tour of the country prior to its departure for Italy. The head of the mission, the Prince of Udine, will remain here because of his illness which caused postponement of the trip last week. He plans to join the party at New York.

ONLY RAIDS REPORTED ALONG BRITISH COAST

By Associated Press.
London, June 12.—Military operations on the British front in France last night consisted solely of raids on both sides of the Nueve Chasse and east of Armentieres and north of Ypres, according to the official British war department statement.

Home Drying of Vegetables and Fruits

Washington, D. C.—Dry vegetables and fruits for winter use if tin cans and glass jars for canning are scarce and expensive. This is the advice of specialists of the U. S. Department of Agriculture, who recently have studied the possibilities of conserving food to meet war needs in spite of difficulties that may be experienced in obtaining canning containers. Drying is a well-recognized and successful way of preserving certain foods before canning can be resorted to, the specialists point out, and modern methods make it still more practicable than formerly, either in the home or by community groups.

Method of Drying. Three methods of drying have been found by the department specialists to give satisfactory results. These are sun drying, drying by artificial heat, and drying with air blasts, as before

an electric fan. Trays for drying by any one of these methods, as well as tray frames for use over stoves or before fans, can be made satisfactorily at home. Frames and trays for use with artificial heat may be purchased complete if desired. Home-made trays may be made of side and end boards three-fourths of an inch thick and two inches wide, and bottom boards of lathing spaced one-fourth of an inch. If desired, one-fourth-inch galvanized wire mesh may be tacked to the side and end boards to form the bottom of the trays. Frames for use before fans may be made of wood, or convenient size. Frames for use with artificial heat should be made of non-inflammable material to as great an extent as possible. As many as six trays may be placed one above the other when artificial heat is used. In drying before a fan the number of trays that may

CAN'T SAIL THE SEAS BUT HELPS IN ENLISTING THE SAILORS

TWO VIEWS OF U.S.S. RECRUIT

The U. S. S. Recruit, the only land battleship ever built in this country, was "launched" on a navy and marine recruiting campaign in Union square, New York. The wooden dreadnaught, which is a huge miniature of a first class battleship, was built under the direction of the mayor's committee on national defense. It is the headquarters for the recruiting in the New York district of the navy, America's first line of defense. As a fully rigged land battleship the Recruit presents an inspiring sight to the thousands of men and women who cross Union square every day. More than anything else since the recruiting campaign has begun the presence of

the dreadnaught is expected to bring the arrival of war directly home to the people of New York. Measuring 290 feet from stem to stern and forty feet beam, the Recruit has been built to offer much needed quarters for both the navy and marine recruiting forces. A spacious waiting room for recruits and applicants, physical examination rooms, both fore and aft; doctors' quarters, shower baths and numerous other accommodations for officers and men are provided in the architectural plan of the vessel's interior. There is also an office through which all the recruiting reports for New York are given out for publication.

Vegetables and Fruits

Vegetables and fruits will dry better if sliced. They should be cut into slices one-eighth to one-fourth of an inch thick. If thicker, they may not dry thoroughly. While drying, the products should be turned or stirred from time to time. Dried products should be packed temporarily for three or four days and poured each day from one box to another to bring about thorough mixing and so that the whole mass will have a uniform degree of moisture. If during this "conditioning" any pieces of the products are found to be too moist, they should be returned to the trays and dried further. When in condition, the products may be packed permanently in tight paper bags, insect-proof paper boxes or cartons, or glass or tin containers.

Recipes. Spinach and parsley. Spinach that is in prime condition for greens should be prepared by careful washing and removing the leaves from the roots. Spread the leaves on trays to dry thoroughly. They will dry much more promptly if sliced or chopped.

Garden beets, onions, carrots, turnips, Parsnips, cabbage. Turnips—Select young, quickly grown, tender beets, which should be washed, peeled, sliced about an eighth of an inch thick and dried.

Carrots should be well grown, but varieties having a large woody core should be avoided. Wash, peel and slice crosswise into pieces about an eighth of an inch thick.

Parsnips should be treated in the same way as carrots.

Onions—Remove the outside papery covering. Cut into thin slices and dry.

Cabbage—Select well developed heads of cabbage and remove all loose outside leaves. Slice the cabbage, remove the hard, woody core, and slice the remainder of the head with a kraut cutter, or other hand-slicing machine. All the product under this heading should be "conditioned" as described above.

Beet tops, Swiss chard, celery and rhubarb.

Beet Tops—Tops of young beets in suitable condition for greens should be selected and washed carefully. Both the leaf stalk and blade should be cut into sections about one-fourth inch long and spread on screens and dried.

Swiss chard and celery should be prepared in the same way as beet tops.

Rhubarb—Choose young and succulent growth. Prepare as for stewing by skinning the stalks and cutting in to pieces about one-fourth inch to one-half inch in length and dry on trays.

All the products under this heading should be "conditioned" as described above.

Raspberries. Sort out imperfect berries, spread select berries on trays, and dry. Do not dry so long that they become hard enough to rattle. The drying should be stopped as soon as the berries fail to stain the hand when pressed. Pack and "condition."

VINSON REFUTES GOVERNOR'S CHARGE

Cites Figures to Show That University Students Are Faculty Loyal and Patriotic.

Austin, Tex., June 12.—Dr. R. E. Vinson, president of the University, on having his attention called to a statement said to have been made by Governor Ferguson in a speech at Kerrville and published in a San Antonio paper, charging the University with disloyalty toward the National government in the present war, issued the following statement: "In his speech at Kerrville on Saturday, Governor Ferguson is reported in a San Antonio morning paper to have said: 'I have found far more disloyalty in the State University at Austin than among the Germans or the people of any other nationality.' The obvious and only reasonable interpretation of this statement is that the governor has charged the University with disloyalty to the United States in our war with the German government. What are the facts? (1) Within less than a week after the declaration of war every student in the University, man or woman, was enrolled in classes studying some form of military training. (2) Nearly 400 students are serving in the military training camp, 315 of these are now in camp, the others having been rejected on account of physical disability. (3) Besides their own military training, students are acting as Red Cross workers, and are now on their way to France. (4) The young women entered courses in first aid, Red Cross work and food conservation. Fifty of them are now traveling throughout the state, giving demonstrations in canning and food preservation. (5) The faculty of the University voted unanimously to give credit for the spring term's work to all students who entered the training camp or volunteered for military service. (6) The faculty itself formed a military company, and drilled regularly three days a week for the last two months of the term. A dozen faculty members who did not enter the military company are cultivating a two-acre garden for the benefit of the Red Cross. (7) At the last regular faculty meeting held this year, the faculty adopted a resolution expressing its wish that every member of the faculty should invest at least ten per cent of his salary and income for the year in Liberty Bonds. Many had already done this before the governor's veto of the University appropriations checked the movement. (8) The Austin Star, the only newspaper of the University community contributed to the Army N. M. C. A. fund proportionately more than any other class of Austin citizens. (9) The University offered the unlimited use of its laboratories and instructors to the United States government for any form of training that might be desired, and the Austin Star is the only newspaper in the South—chosen for the training of military aviators. (10) The Governor's statement that the University is disloyal in this war is a gross and unjust reflection on the University, its faculty, students, and ex-students."

JAPAN'S GOLD HOLDINGS LARGEST IN HER HISTORY

Associated Press Mail Correspondence. Tokyo—Japan's holdings of gold reached \$470,000,000 on May 14, an increase of \$6,500,000 over the previous week, says a report of the Finance Department. This is the highest record in Japan's financial history. The government share in the figure is \$172,000,000 while that of the Bank of Japan is \$298,000,000. The largest portion of this record figure is kept overseas. There is \$288,500 deposited or invested in London and New York while only \$121,500,000 is kept at home.

COMMENCEMENT OF COLLEGE OF MUSIC OPENS

A very small audience was gathered at the high school last night to hear the first of the commencement exercises of the College of Music. Those who attended were mostly members of the best recitals that have been given by students in this city. The stage was tastefully decorated with a large American flag, college banners of red and white, and great banks of ferns. Those taking part, acquitted themselves with credit, and their work spoke eloquently of the ability of their instructors. Miss Siler who was to have appeared in four numbers, was absent, having been called home on account of her brother's departure for the training camp. The piano students, who are now to receive their teachers' certificates, showed good technical equipment and thorough musical training. Miss Georgia McEllassie, who opened the program has good musical sight, and will undoubtedly develop style with experience. Miss Frances "Bobby" and her Chippin' numbers, displayed artistic feeling, and, with plenty of good hard work with her present instructor, Mr. E. L. Krebs, will acquire more technical mastery. Mrs. Maxwell's work was well balanced, and like that of all the students plainly showed sound instruction. Mrs. Katherine H. King was the sole representative of the vocal department and J. Uly Woodside's teaching. Mr. Woodside could have hardly had a more faithful one. Mrs. King's work throughout was marked by the most artistic shades, and true musical feeling. Over and above this, however, there is evidently a very thorough grasp of the technical foundations of singing; without which the best of talent becomes obscured. Her enunciation was at all times of the clearest, no word being lost. Her mezzo voice work on her final encore was a clever exhibition of a very difficult but very effective part of her art; but was somewhat hampered by too much accompaniment. Mr. Krebs has every reason to be proud of his graduates. His work is conscientious, accurate, and thorough, and his students are as fortunate in their teacher as he is in his students.

MARINES TO LEARN FRENCH ON WAY OVER

Washington, June 12.—"Ray vav yay mwah kong ler de-nay serah iray," is the proper way to toll a Frenchman to wake you up when dinner is ready, according to a little "French in one lesson" that has been distributed among the United States Marines who are going to France. Every sea-soldier on the firing line will be supplied with a handy little pocket dictionary that contains about a thousand practical words and phrases together with the phonetical pronunciation, according to Hannibal, Charlemagne, or whoever it was that originated the French language. It is just the size to fit handily into the breast-pocket of a uniform. Doubtless the little volume will lend a hand to his American comrade when he comes to a particularly knotty problem. Should the sea-soldier become peeved at the intricacies of the language, he may say, "Ock-on-pay"—just like that. It means "busy."

BRITISH AIRMAN ESCAPES FROM GERMAN PRISON

Associated Press Mail Correspondence. London—Not until he appeared before the king the other day to be decorated with the Distinguished Service Order did it become known to the public that Squadron Commander Edward F. Briggs, the first British airman to attack a Zeppelin base, and who was taken prisoner, had escaped from Germany. Briggs was captured in an attack on a Zeppelin factory at Friedrichshafen, in November, 1914. Commander Briggs, with four other British officers, was being transferred from a prison camp in Bavaria, when they made their bolt for liberty. Darkness was coming on when their train passed the spot where they were to be reintended. Bolting from their boards the four men jumped out of the railway coach and for two days and nights made their way over ploughed fields to the Dutch frontier. They were without food and suffered great hardship from thirst. Briggs had been a prisoner for 25 months. The decoration was made for his daring deed.

NATIONAL BANK OF COMMERCE
"The Bank That Wins Confidence and keeps it"
WHY YOU SHOULD HAVE A SAVINGS ACCOUNT WITH THE NATIONAL BANK OF COMMERCE
Because a Savings Account in this strong bank is an investment that is always worth its full-face value, plus accrued interest, and you know that you will get your 4% interest year after year, with unfailing regularity.
If you invest in speculative securities with the hope of obtaining a higher rate of interest than can be secured at a strong, safe institution such as this bank, you run grave risk of losing both your principal and interest.

The Times today is distributing as a supplement to its regular edition application blanks for the Liberty Loan. It is doing this to bring directly before the people of Wichita Falls and surrounding territory the needs of their government and their patriotic duty in the premises. It hopes that many will fill out these blanks and take them to their banks tomorrow. Whatever is done must be done promptly. These application blanks must be in the federal reserve bank by noon Friday and it will not do to wait. Waiting has been the trouble with this loan—waiting by individuals until a more convenient time for themselves—waiting for the other fellow to furnish the money.

The time for waiting is gone. The time for action—and that quickly is here. The bond issue is short subscribed. Millions of dollars are necessary to complete the subscription. This money can only come from the masses of the American people. It is your duty as you love your home and your country to subscribe for this loan. Friday will be too late for you to have your part in this loan, but it won't be too late for you to suffer from the results of your waiting. War doesn't wait. Every delay of the moment when America can put the full weight of her mighty force into the conflict means that our chances of winning in this conflict are lessened by so much. If Germany wins and imposes her peace terms the United States will pay a staggering indemnity. German leaders have made no secret of their intention of imposing such indemnities. There will be no waiting or delays by Germany if the time ever comes when she can collect such an indemnity. The American people will pay it—not next fall or some more convenient time—but immediately. This indemnity will make the present war loan look like thirty cents and our children's children will be burdened by the taxation necessary to pay it.

Every American citizen ought to want to have a part in this loan. In the years to come your children will be prouder of the legacy of a fifty dollar Liberty Bond than anything you will leave them. If you are not one of those who registered last Tuesday and do not so much as subscribe for a Liberty Bond your children will some day be embarrassed when somebody innocently asks, "What part did your father have in the war?" It will be a great deal of satisfaction to your child to say: "My father was too old to register, but he subscribed to the Liberty Loan and gave what help he could to the Red Cross."

For the United States to fail to over-subscribe this loan would encourage our enemies as not even a smashing victory at arms in Europe could encourage them. If the report should be borne to Europe that we had failed to subscribe the loan our allies would feel the bitterest discouragement of the war. For the United States at this juncture to fail to over-subscribe the bonds might give our enemies such advantage that they might seize the opportunity to enforce a peace on our allies that would mean that the United States would be left to battle alone against a Russian militarism.

For the South-west to fail to do its part and for Texas to fail would be a humiliation and a reproach that all of us would feel most keenly. For Wichita Falls and Wichita county to fail to do its part toward this loan is inconceivable and such possibilities cannot see print.

For the individual to fail to do his part will deprive him of a feeling of satisfaction and patriotic exaltation that ought to be one of the compensations for the bitter sacrifices that all of us must make.

There is still some lack of information concerning this loan. These facts may be stated here. The total amount of the Liberty Loan is to be \$2,000,000,000. Government bonds that have been named Liberty Bonds will be issued. These bonds will be the obligation of the United States government and will be backed by all the resources of the government. The bonds are issued in amounts from \$50 to \$100,000. The interest rate is 3 1/2 per cent per year. Interest is payable on December 15 and June 15. If before the war ends, bonds paying a higher rate of interest are issued, the holders of the bonds now being raised may exchange

them for bonds bearing the higher rate of interest.

A fifty dollar bond may be bought on the following terms: \$1 on application; \$9 June 25th; \$10 July 30th; \$15 August 15; \$15 August 30th. One hundred dollar and other bonds of higher denominations may be bought on proportional payments. All the banks in Wichita Falls are offering to advance the money of these bonds on the most liberal terms extending the time of payment far beyond the limits named. The first thing that the reader ought to do tonight is to fill out the blanks he finds accompanying The Times and take it in the morning to his banker. If desirable the line at the top of the blank on which is printed "Supplement to The Times" etc., may be cut off. This was printed on the blank only to comply with postal regulations so that the blank might go through the mails with the paper.

If our men must fight to win this war their families must live while they are doing the fighting. Many business concerns, in order to help this family or the soldier and make him feel more at ease while at the front, have adopted the plan of giving to the wives and daughters of soldiers employment while the war lasts. In a number of instances the positions made vacant by the husband or brother have been given to the wife or sister who were dependent on him for support. Of course, the instances where this has been done are rare, but when it is possible the plan should be adopted. And another thing that should be kept in mind is this: the cost of living is higher now than there is any just or legitimate cause for; for the past two or three years the American people have been outrageously exploited by the American "war hogs" who have realized more profits during that time than for any ten years prior to 1914. They are the fellows who have formed a strong combination to corner the price of foodstuffs of every kind. Sharp, shrewd men are at the head of this combine, and while the prices of certain foodstuffs make a sudden drop, it is only while such product is yet in the hands of the producers, and just as soon as the larger per cent of the crop has been marketed, this strong combine will proceed to force the price up to an unreasonable and in many instances a prohibitive figure. Naturally, the man who goes to war does not feel good at the prospect of leaving his loved ones behind to fall victims to these exploiters. They must be restrained by the strong arm of the government. In other words, the government that calls upon its men to fight, and if necessary sacrifice their lives for his country, should not permit a combination of speculators to further enrich themselves at the expense of those who are doing the fighting.

The Memphis Herald points out that while one of Governor Ferguson's reasons for vetoing the University appropriation was that the cost was about \$50 per student, he at the same time signed the bill appropriating about \$1200 per student for the A. and M. College. The Herald mentions this, it says, not because it has any objection to the A. and M. appropriation but merely to show that consistency is not always regarded by the Governor.

The Kaiser and von Hindenburg are still insisting that God is with them and their armies, but apparently the British and the French are going right ahead forcing the Germans back and those who fall to fall back are taken prisoners or killed. Many of the prisoners taken in the last great British drive seemed really glad of the opportunity to get out of a losing fight. The British, it seems, are just now getting into fighting trim, and if they make progress like they have for the past few weeks, the Germans will soon be forced from French and Belgian soil. When they are forced back into their own country the Kaiser may come to the conclusion that if he can save it from being trampled over and crushed in about the same way as Germany trampled and crushed Belgium, he ought to be satisfied. Aided by the United States, that is just about what is going to happen to Germany. The Kaiser is being made to realize the outcome now else he would have never aided and encouraged the movement of the socialists to bring about separate peace with Russia. He started this war for the purpose of conquering the great powers of the world and acquiring more territory. Before it is ended he will be satisfied if allowed to hold what territory and power he started out with.

THE BATTLE FOR DEMOCRACY IN GERMANY.

Carl W. Ackerman in the Saturday Evening Post.

I was in St. Quentin, France, when the bulletin was posted in front of the Hotel de Ville that the Lusitania had been sunk by a German submarine, killing more than one thousand passengers. German officers and men alike, who had seen so much of death among soldiers and civilians in Belgium and Northern France, praised the von Tirpitz submarine war, and remarked that they were glad the German navy was at last helping the army win the war.

From Brussels I sent a dispatch reflecting the army's attitude; but upon arriving in Berlin a few days later I learned that the telegram was not forwarded to New York, because the foreign office had notified all neutral powers that "the German government desires to express its deepest sympathy at the loss of human lives on board the Lusitania."

This von Tirpitz war measure brought about more of a crisis in Germany than between Germany and the United States, because the foreign office realized that, unless the military authorities were curbed in their ruthlessness, the whole world would be against the Fatherland. But the foreign office and the chancellor had the commander-in-chief of militarism, the kaiser, against them; and Secretary of State von Jagow had to sign the notes containing German excuses. They were prepared and written in the navy. Von Tirpitz and the army were so embittered because the United States objected to such a method, they were so frightened of the first effects of the President's note upon the minds of thinking Germans, that they were forced to a defensive position.

Being keen students of German public opinion, and realizing the influence they had over the people through the censorship and the press, the military bureaus started an anti-American campaign. Newspapers and magazines were flooded with sharp articles attacking the United States, its methods, its aims, its intentions. The first effects of the President's note upon the minds of thinking Germans, that they were forced to a defensive position.

During the following months Hitler's attacks upon America were circulated in Germany. Posters containing a reproduction of the Declaration of Independence with a bloody hand over the face of it were widely distributed. The public was informed that the United States was already killing German fathers and sons at the front without declaring war.

Thus there were two strong forces opposed to each other, and the submarine crisis, which everyone believed was between Berlin and Washington in reality between German militarism and German liberalism. This internal dispute, though it did not come to a crisis until the Sussex was torpedoed, will go down in history as the biggest battle the German military party had to fight before America's entrance on the side of the Allies. The fight was so keen, so bitter, so extensive that nearly every one in Germany was considered either as a follower of von Bethmann-Hollweg or of von Tirpitz.

Even foreigners living in Germany were known as pro-Bethmann or pro-militarist followers. At times parties were organized and two political parties were founded—the Bethmann party and the Tirpitz Gesellschaft.

The United States is at war today, not only to make democracy safe and to destroy the dragon that prevents democracy in Germany. For two tireless years democracy has been fighting in Germany. The Kaiser knows that what they did not know in August 1914—that is, they know they can have peace whenever they are ready to think for themselves, instead of having the Kaiser think for them.

The Emperor knows it, too. He promised a "People's Kingdom of Hohenzollern" after Congress declared war. These two years of turmoil, debate, dissatisfaction—this period which gave the people an opportunity to think, which encouraged the Socialists to demand franchise reforms, and which made the people wonder whether their ministers should not be responsible to Parliament—were referred to in the press as neue Orientierung—new orientation.

WOMEN IN INDUSTRY.

Women stepping into the actual jobs of men who have gone to war, and "holding down" the jobs to everybody's satisfaction, have begun to appear in the statistical analyses of the warring countries. The concrete record makes it plain at a glance why the recognition of women's capabilities, and the fact that women do not man the guns.

The British association for the advancement of science, which is the United States department for labor has reported, noting that about half a million women have been added to the number of wage workers in Great Britain from the beginning of the war up to April, 1918, and that in the same time considerably more than a million women have been or indirectly reported men. The difference in the two estimates being due to changes in the occupations of work in women. Many, for instance, have left domestic service and employment entering chiefly to women's pants. Ammunition workers, the investigators while properly cautious, conclude that women are regarded "on slender evidence" as superior or equal to men in respect to output, on heavier, more skilled work as inferior. It is the general opinion also, that women do not stand night work as well as men. On the whole, such differences as there are between the men and women workers may be largely differences of training. The question of the industrial school is involved, for this is where the "higher industrial qualities" are fostered.

Women probably will attend the industrial schools approximately in proportion as they accept the occupations to which they lend as permanent their work. They will not spend years in equipping themselves with technical fitness for doing what they expect, or hope, to quit doing soon after they have begun. Much the same question is involved in the problem of the woman trade unionist. Mutual need and mutual responsibility have been difficult to foster with the "comparateness" of wage-earning prevailing as an ideal. The effect of the entrance of women more and more into trades heretofore chiefly followed by men has stimulated woman's interest both in preparation for her work and in organization to protect herself as a worker. Men workers, partly in consequence have encouraged the latter tendency. Men and women are being brought together as fellow-workers. The changing political status is largely a reflex of this fact.

We are fast moving away from the kindred theories that a woman's business is to supply beauty and to supply charm; and that she is to be a domestic creature comforted with the thought that she is a home-maker. Response to the call for every woman to do her bit for the nation's need is naturally paying little attention to

FURNISH MONEY OR SUFFER INVASION--SUBSCRIBE NOW!

Special to The Times.

Dallas, Texas, June 12.—In an effort to get the people of the district to take the right viewpoint in the present national crisis, the officials of the Federal Reserve Bank at Dallas, issued the following statement this morning.

There are certain things in this world which have to be done, and done at once.

The doctor says "appendicitis, immediate operation necessary." You do not talk of your money being "tied up." A near relative is sick and calls for you. You do not say, "if this were October, I could go."

You are told "your home is on fire." You do not say, "let the neighbors attend to it."

The Liberty Loan proposition is in line with the cases referred to. It is one of those urgent things which come up from time to time which must be attended to.

Your business, your safety, your income, your savings, your self-respect and pride are threatened. This is no time to trifle.

Germany has said we shall pay for the war.

We can be made to pay by one means only viz— invasion.

We are faced with the fact that we must find money, arms and men immediately, or we shall be dead morally and financially.

There are certain things in the life of an individual and on nations which have to be done, and done at once. You are face to face with such a situation now.

Your intelligence, your common sense, your self-respect tell you to stir yourself and meet the situation like a man.

"Money tied up." If this were October I could do it. "Let the neighbors do it." are all beside the point. A man should be ashamed to talk such nonsense.

You are face to face with one of those things which have to be done, and done at once.

THIS IS "BATHERS' DAY" IN CORPUS CHRISTI.

By Associated Press.

Corpus Christi, Texas, June 12.—Everybody in Corpus Christi was expected to take a bath today.

The day was designated as "Bathers' Day," signaling the opening of the summer season in Corpus Christi. Bathers in the bay were to be indulged in by every person who owned or who could procure a bathing suit.

Nineteen seventeen model bathing suits have been in demand for several days and dealers this morning reported that the visible supply was practically exhausted.

Interest was added to the day's prizes through the offering of a prize for the best looking men, women, and girls in bathing costumes. The most attractive costumes also were to win prizes for those wearing them.

WALLING GROCERY CO. BUYS 2ND STORE.

Takes Over Farmers Supply Co. In Addition to Perry Brooks Grocery Store.

The Walling Grocery company, which last week took over the Perry Brooks Grocery in the Masonic Temple, yesterday closed a deal for the Farmers' Supply company, and is now in active charge of that business. Mr. Walling has also gone to Quahab to look at a stock of merchandise, with a view of purchasing it if the price can be agreed upon. This latter stock is composed of general merchandise. Messrs. Ray & Gwynn, who have been the owners of the Farmers' Supply company for the past six months, will continue their partnership, and will conduct the store in the factory district, and probably also engage in other lines.

Mrs. J. E. STAMPLI, W. M.
Mrs. DAK DAKAN, Sec.

either of these ideals. The married woman who is a wage-earner is but coming back under different conditions in reality. Her husband, when the woman in the frontier home was an actual producer of social wealth, the decision that a married man within the age limit for the draft cannot necessarily gain exemption on the ground that his wife is dependent upon him, or, if she is, perhaps she needn't be.

Many women who are entering the industrial field on account of the war are likely to continue in it. The probability has been recognized in organized labor's precautions against men, workers, withdrawn for the war, being replaced permanently by more tractable and lower-paid women workers. It is being recognized also by many of the women who have voluntarily agreed to give place to the men when the time comes. Industrial conditions will have to be readjusted to meet the new make-up of the industrial army, and, meanwhile, even those women workers who withdraw from industrial life will have acquired an understanding of it and an appreciation of the men and women in it, and of their problems which will be of prolonged social importance.—Springfield (Mass.) Republican.

CITY BUYS \$18,550 LIBERTY LOAN BONDS

Cash on Hand in Sinking Fund Order Invested by the City Council.

At a called meeting of the City Council this afternoon Mayor Britain was authorized to invest \$18,550 of the city's sinking fund in the Liberty Loan. It has been the custom to invest this sinking fund in the city's own bonds of its county bonds, but the council believed it a patriotic duty to invest the amount on hand in government bonds.

REGISTRATION WORK STILL INCOMPLETE

Large Force Still at Work on Registration Records—May Get Through Today.

County Clerk Kelley and his force of voluntary assistants expect to complete the hardest part of the work connected with registration this afternoon. Ever since last Tuesday they have been submerged and overwhelmed with work, and with no reward except the satisfaction that comes from duty well done.

The work of arranging the cards in alphabetical order, making duplicates of all cards adding and enclosing in a dozen different ways, has been simply enormous. The young ladies who, have so faithfully added in this work certainly deserve the large box of candy that a gentleman said he would give them.

Market Report

Chicago Grain Futures.

By Associated Press.

Chicago, June 12.—Reports of increased arrivals of wheat in Great Britain, a liberal floating supply and a favorable domestic crop outlook, lowered prices here today. Opening prices were unchanged to one cent lower, with July at 2.38 and September at 2.08. The close was unsettled, one to five cents net lower, with July at 2.13 and September at 2.08. Corn closed nervous, at losses of one-fourth to 3/8 cents, net.

New York Cotton Futures.

By Associated Press.

New York, June 12.—The cotton market showed even greater activity and strength today, with July contracts reaching the 25-cent level on a renewal of the recent buying movement. The market opened firm, at an advance of 31 to 52 points, with the active months selling 56 to 62 points above last night's closing figures during the early trading. Cotton closed steady, with July, 24 1/2; October, 24.35; December, 24.33; January, 24.58; March, 24.76.

JAPAN BACKWARD IN AVIATION BRANCH

Special Press Mail Correspondence.

Tokyo.—Army authorities are striving to overcome Japan's backwardness in aviation in the fact that eleven Japanese aviators received diplomas this month from the Nippon Flying School. This is the largest class to be graduated in Japan from a civilian aeroplane institution.

In addition to instructing aviators the school maintains its own aeroplane factory near Tokyo, and accepts passengers for flights, charging \$7.50 for each person.

INSURANCE MONOPOLY YIELDS BIG REVENUE
Associated Press Mail Correspondence.
The Hague, Netherlands.—The proposed state monopoly of the life and fire insurance business in the Netherlands ultimately would yield \$5,000,000 annually, according to the rough estimate of Finance Minister M. V. F. Treub. The object of the plan, which would only very gradually come into operation, is to find the money needed to meet the prospective new war loan.

TO RAISE \$25000 FOR RED CROSS

CHAMBER OF COMMERCE APPOINTS COMMITTEE TO HAVE CHARGE OF CAMPAIGN.

CALL MASS MEETING

Liberty Loan Meeting Called at the Wichita Theater for Wednesday Night.

Miss Willie Mae Kell appeared before the Chamber of Commerce this morning to report on her trip to Wichita, Kan., where she attended a Red Cross conference. Miss Kell opened her report by saying that Wichita Falls and Beaumont were the only two towns of any size in Texas that were represented by women, the other towns sending the biggest and busiest men they had. "When I saw this," she said, "I began to feel that Wichita Falls was a slacker. But upon reflection, I remembered that she had never yet fallen down on what was required of her, and decided that she simply did not know of the importance of the meeting."

Many of the most prominent men in American business were at the conference. Miss Kell said, and they were bending all their efforts to raising \$100,000,000 for Red Cross equipment. Furthermore, it must be done immediately. The week of the 18th had been set aside as Red Cross week, in which to raise the money, and the portion allotted to Wichita Falls as her share was \$25,000.

Miss Kell said that the statistics on mortality at the front showed that six hundred men out of every thousand were put out of action; but that the activity of the Red Cross redeemed five hundred and thirty-eight of these, thus bringing down the casualty list to the extraordinary low figure of sixty-two per thousand. Miss Kell regretted, she said, that Wichita Falls was not represented by one or more important business men, as she felt sure that had one or more of them been there, they would have returned so aflame with the purpose of the cause, that the money would have been raised instantly.

After Miss Kell's report, Mr. Kemp was appointed chairman of a committee to act upon the matter of raising the funds. R. O. Harvey and Nat Henderson were Mr. Kemp's choice of assistants, and it was decided that these gentlemen should confer with representatives of the other trading points of the county, and form a joint committee on the matter.

Frank Kell then made his report on the activity of the committee on the Liberty Loan. It was proposed, he said, that the Electric committee call another meeting there tonight, as the former meeting at that point had not been sufficiently representative.

Mr. Kell then proposed that there be called another mass meeting at the opera house tomorrow night at 8 o'clock. He suggested that the secretary of the Chamber of Commerce notify every business establishment in town, and the heads of all the manufacturing concerns to come to the meeting and bring as many of their employees as they could. It would be the object of the meeting, he said, to underwrite what yet remained of Wichita county's share of the Liberty Loan. The suggestions were adopted. It is of the utmost importance that everyone be present at this meeting for the purpose of finishing up the subscriptions. There remains only two days in which to make up the half million that Wichita county has undertaken, and what is to be done must be done immediately. If it should be possible to exceed the amount set, Wichita county would have just cause to feel proud of the patriotism and self-sacrifice of her citizens.

thus leaving the field of fresh taxes for the needs of urgently called-for social legislation. Meaning, the insurance men are up in arms against the government's designs on their business, prophesying only evil and financial failure for this projected experiment in state socialism.

FIRST LOAD OF WHEAT EXPECTED ANY HOUR

Wichita Falls grain men were expecting the arrival of the first wagon load of wheat of the new season's crop this afternoon or tomorrow morning. Several threshing outfits were expected to begin operations in different parts of the county this morning. The weather is almost ideal for threshing. The heat from the sun is ameliorated to some extent by the lively breezes. The straw will be dry and as it is short it will run through the separators much faster than it can be hauled up and the loads pitched off. There was no definite quotation for the new crop this afternoon in the local markets. Grain men said the opening would be around \$2.10.

To the People of Wichita Falls and Surrounding Territory

We wish to announce that we have taken over the Farmers' Supply Co. store at 717 Eighth street, and in connection with our store at 720 Tenth street, now have a stock of the finest groceries aggregating from \$15,000 to \$20,000, all bought at prices that will mean a saving on every item sold to our customers. MORE JUDGES NAMED FOR THE ROUND-UP

Miss Mulhall Enters "Bud" Analnet Foot-Racer Who Issued State Challenge.

The foot racer who claims to be able to outrun any horse for a distance of one hundred and fifty feet, turn a stake and back, has already had one take-up on his claim. Miss Lucille Mulhall has undertaken to ride "Bud" against him, and he will undoubtedly have to bump himself to get away from this combination.

CAMP SITE CLEARED BY THE BOY SCOUTS

Honor Guard Camp Site Being Gotten Into Condition for Pitching Tents.

Underbrush is being cleared away by energetic Boy Scouts who are fulfilling the Boy Scout mission of being there when needed, plumbers are at work, electric connections made at the Girls National Honor Guard encampment site at Lake Wichita, getting the ground ready to receive the tents which will be erected the latter part of the week in readiness to receive the 600 Texas girls who are to take the ten days training commencing June 18.

Captain Robert E. Gordon, the commandant, and Captain Genevieve Carver spent this morning and afternoon arranging for supplies, visiting the butcher, baker and candlestick maker getting all things in readiness. Captain Gordon in addition to having charge of the military instruction when the camp opens and being in general control of the camp will supervise the commissary department.

For all of these duties his experience in the United States army has rendered him especially capable and the camp will run on a scientific basis from the very beginning. There will be no delay in getting the tents up or the camp laid out; all these details are being attended to now without waiting for the girls to arrive.

The Boy Scouts, in addition to clearing off the camp site are to act as camp guards and will be on hand to perform any service that may be desired of them. The scout leaders of the city will also co-operate with those in charge of the camp.

Hands of Dan Hardy, Tom Roberts and Jeff Waggoner, Brian and Ruth Roach have already telephoned ahead for reservations. Homer Wilson was out at the grounds all day, supervising the construction of pens and fences, and getting a plan of the grandstand. The entire grand stand is to be reserved at 25 cents per, the bleachers only being reserved for the purpose.

The reservations for autos are now on sale, and it is possible to rent seven feet of the front row for one dollar. Wilson says that the reservations are going rapidly, and anyone who prefers to see the show from their own auto rather than the grandstand, had better get busy immediately, if not sooner.

RECITAL TONIGHT BY MISS EDITH SLATEN

Miss Edith Slaten, who has been connected with the College of Music since its very beginning, will be heard in recital tonight at the high school auditorium.

This is a flaming story of burning love. It throbs and thrills and grips attention like a vise. Relentless persecution by an infatuated chief of police of a beautiful young Russian girl, forms the basis for the intense action in this startling drama. The climax of the play is unexpected, but convinces. Altogether this is a splendid offering.

EVERY NIGHT

IN THE SPHERE OF WOMANKIND

YOUR FLAG AND MY FLAG.

Your flag and my flag, And how it flies today In your land and my land And half a world away! Rose-red and blue-red The stripes forever gleam: Snow-white and soul-white— The good for the soul: Sky-blue and true-blue, with stars to gleam aright— The gloriole guidon of the day; a shell over through the night. Your flag and my flag! To every star and stripe The drums beat as hearts beat And fifers shrilly cheer: Your flag and my flag! A blessing in the sky. Your hope and my hope— It never had a foe: Home land and far land and half the world around, Old Glory hears our glad salute and ripples to the breeze: Your flag and my flag— And, oh, how much it holds— Your land and my land— Secure from the foe: Your heart and my heart Beat quicker at the sight, Sun-kissed and wind-tossed, Red and blue and white: The one flag—the great flag—the flag for me and you— Glorified all else beside—the red and white and blue— Walter D. Nesbit.

GIRLS AUXILIARY MEETS AT BAPTIST CHURCH

Meeting in regular session the Girls Auxiliary of the First Baptist Church Monday afternoon studied "The King's Highway." Miss Ruth Brown, who is a student missionary, telling the lesson in story form that was most interesting. A business session was held following the program, the girls deciding to meet for the remainder of the summer at 5 o'clock on Monday morning. Instead of in the afternoon. Both circles met together and refreshments of tea and sandwiches were served by the circle leaders, Mrs. C. W. Rountree and Miss Lucy Smoot. Present, Misses Earle Carter, Winnie Crawford, Lila Mae Roark, Jeanette Prince, Willie Towery, Celestine McHam, Ruma Brown, Lucy Smoot, Mrs. C. W. Rountree and Lucille and William Howard Rountree.

FIRST PRESBYTERIAN SOCIETY HEARS MISSION REPORTS

Reports from Presbytery by Mrs. A. H. Carrigan and from general assembly by Mrs. J. W. Callister took up the time of meeting of the Missionary Society of the First Presbyterian Church Monday afternoon. Mrs. C. J. McDowell conducted the business and Mrs. J. A. Kemp and Mrs. Fred Couper were hostess during a short social time serving delicious ice cream and cake.

FIRST METHODIST AID TO SERVE MOTOR LUNCHEON

Plans for the dinner which the First Methodist Aid Society will serve the Motor Club at the church next Tuesday were discussed at the business meeting Monday afternoon. Both societies will be present, which followed an all day social meeting with a picnic luncheon served at noon.

Miss Aubrey Walters will entertain the J. Y. A. Club in its regular session Friday afternoon.

GIVE PREFERENCE TO FAMILIES OF MEN

Denver Road Will Reinstate Enlisted Employees and Give Preference to Members of Families.

In addition to encouraging by precept and example the sale of Liberty bonds, the Fort Worth Railway Company has adopted a liberal and patriotic attitude toward enlistment of its men in the army and navy. A copy of a letter sent out from Fort Worth.

To All Employees: "For the information of employees who may resign to enter military or naval service, it will be understood that while these companies cannot agree in advance to indefinitely keep open any positions for such employees, they will, nevertheless, endeavor to reinstate former employees at the termination of their military service, so far as they can consistently with their duty to the government, the public and their own bodies of employees; and as far as possible their seniority rights shall be protected.

"Preference of employment in these companies will be given to members of the families of enlisted employees."

LOCKSMITHS ACTIVITY GET HIM INTO TROUBLE

Associated Press Mail Correspondence. London—A German locksmith from Berlin has been sentenced at Cassel, Germany, to six months imprisonment for an unusual exploit. The locksmith, a youth of 20 obtained possession of the uniform of a captain, and accompanied by a girl friend, made a tour of garrison towns in Central Germany, especially Saxony. He described himself as captain of a mine-throwing company, and with the aid of false stamps, had provided himself with the requisite papers. He arrived at each barracks, decorated with numerous orders and medals, and in each case inspected the military guard, and then filled out orders granting leave to a certain number of officers and men, and signed free passes for their railway journey to wherever they wished to go.

Gaining Ground IS EASY in Sport or Business WHEN BODY AND BRAIN ARE WELL FED Grape-Nuts FOOD There's a Reason

Practical Tasks Need Practical Clothes

Munition workers have founded a cult for overalls. Their comfort and freedom of movement for house work, where skirts and frills impede. These strap in below the knee in a buttoned band, while huge pockets are a handy detail. The material is blue gingham.

WORLD IS GROWING STEADILY BETTER

Passion For Service Probably Never Before So Widespread Says Speaker at Conference.

Pittsburg, Pa., June 12.—Declaring his belief that "the world grows steadily better and that poverty grows less," despite days like these when the world is at war and the dark side of life is prominent, Frederic Almy, of Chicago, as president of the organization, delivered the opening address before the Forty-Fourth Annual Session of the National Conference of Charities and Correction, speaking of the subject, "The Conquest of Poverty."

Other speakers at the opening session were Mrs. Charles Watkins, Gilman of New York, who discussed "Poverty and Woman," and Raymond Robins of Chicago, whose subject was "The Challenge of a Changing Social Order."

"We are living in an age of havoc and we should prepare now for peace, so that after the war is over reconstructing will follow destruction," said President Almy. "If this cloud of war is to have a silvery lining it will come only through effort, and as social workers we have a responsibility."

"Already, during the war the world has gained in unreamed places. I think we all agree that in spite of the value of intelligent autocracy, democracy will in the end lessen poverty, by giving more opportunity to the poor, and in the last one hundred years the proportion of democracy and autocracy have been reversed. Today democracy is almost universal and autocracy the exception, and the end is in sight."

Next to lack of opportunity, lack of character is a chief cause of poverty, and I mean lack of character betwixt among the rich and contemptuous many of the causes of poverty. Fortunately the church, which more than any other agent lifts character, is to a considerable extent becoming a more efficient cause of better character. Since the church attacked the great causes of sin as well as individual sin, we have seen a wave of progress. Drunkenness is less, murder is less, public morality is more. Though politics are bad enough, the standards of public morality have risen and much that was formerly accepted as natural to man's selfishness. There are as great souls as today in the time of the crusades. In scores of instances picked from all time there is an universal passion of service which enters in intensely anything seen in the age of charity, but I doubt if it was ever so widespread or so intelligent as now.

Read there ever formerly to compare with the present effort for social justice in compensation laws, social insurance generally, minimum wages law, shorter hours, housing, industrial education, public health and a long and blessed list which augurs well for the further reduction of poverty. Even wealth is becoming more social and the Rockefeller, Carnegie and Sages, who made their money perhaps according to the standards of their day but who spend it far above those standards, are not freaks, but a type. Better than this the number who are satisfied to be neither rich nor poor, and who will not prefer wealth to life is steadily increasing.

"Genius is not more than it used to be in quality, but in quantity. The heights are no higher, but more people are on the heights. The glory that was Greece and the grandeur that was Rome have become widespread. What Judea gave to the world is still being given and the discount which the world is so general and so hopeful makes me believe that if we put our shoulders to the wheel and attempt the impossible, no shorter a time will it be. I want to see all the weights removed from the lowest of mankind until he can rise to the full stature of which he is capable. Then, and not until then, will there be an end of poverty."

MORE NORWEGIAN ESSELS ARE SUNK Christiania, June 12.—The Norwegian bark, Deveron, has been sunk. Four men were lost. The captain and another man were wounded. The Dagbladet report that the Arctic cutter, Severe II, has been sunk. The crew was saved.

Have You Tried PABLO?

THE new hot weather drink. Pablo is pure, healthful and invigorating. Its good old "hoppy" taste delights the palate and refreshes all the way down. Pablo, the non-alcoholic thirst-quencher, will make your lips smack with joy.

Convince yourself with a glass of ice cold, satisfying Pablo today at any good drink-stand or buy a case from your grocer.

The Happy HOPPY DRINK

At the Theaters

The Empress

Directed by Emilie Sinaur and with Robert Warwick and June Elvidge as the stars and with Henry Hull in the cast "The Family Honor" will be the notable offering at the Empress theater today. This attraction is the latest offering by World Picture Brady-Made and it sets a new mark in interest and entertainment. The feature plunges into the story at once and not for a moment during the five reels does the interest slacken in the slightest degree. The story tells how a young man falls into the clutches of a vampire, he is going to the dogs on her account, drinking heavily and going to great lengths to get money to lavish on her, when his older brother appears on the scene. The older brother takes things in his own hands—looks into the vampire's reputation and decides that he must take desperate measures to save his brother. So he makes love to the vampire himself and takes the blame when the younger man steals from his father to get more money for the woman. But, finally, a strange thing occurs, the older brother falls in love with the vampire himself and she demonstrates that she is really possessed of a human heart after all. Everything ends happily for the elder brother. This splendid feature will be the attraction at the Empress theater today.

The Plaza

Tonight the open air theater is featuring "Liberty" the famous serial of patriotic motifs in which Marie Walcamp is starred.

"SEVEN DEADLY SINS" AT MAJESTIC WEDNESDAY

Manager Johnson of the Majestic Theater, has looked something new in motion pictures. It is a group of seven five-act features with a wonderful star in each photoplay. The series is called the Seven Deadly Sins, and the pictures are produced by McClure Pictures and released by Superior Pictures, Inc. The new nine million dollar corporation, through the Triangle exchanges. The stars are to be Ann Merdock, Holbrook Blinn, H. B. Warner, George Le Guere, Shirley Mason, Charlotte Walker and Nance O'Neil. The sins are "Envy," "Pride," "Passion," "Wrath," "Greed," "Sloth" and "Sin not announced," known merely as "The Seventh Sin."

The Gem

"The Honor of an Outlaw" is the feature picture. Harry Carey and "Slim" Dubrey are the stars. Harry Carey is a name to conjure with, as the saying is, in Western pictures, and in Fred Kelsey he has a most sympathetic director. Kelsey assumed a threefold role in the production of this Gold Seal, of which he is the author and producer, and in which he took a minor part. He adapted Carey's character of "Cheyenne." Harry, the outlaw, and around this picturesque figure he wove a tale which is unusual in that, the ending shows the separation instead of the union of the "man and the girl." There is a fight in the second reel which beats anything seen in recent pictures, and there is an ending which will give the most hard-end fan a lump in his throat.

GOODS STOLEN IN RIVER CACHED FROM FOUNDRY

Elgar Omery, known as "Speck" Omery, has been lodged in the county jail on complaint of burglary. He is alleged to have broken into the Wichita Foundry and Machine Shop Sunday night and stolen a quantity of copper, brass and iron.

The stolen goods were recovered from the river. Some boys reported that suspicious looking persons were hiding in the river, and Deputy Constable Napp went down to investigate. The culprits saw him and ran, with the deputy in hot pursuit. They escaped but Omery was later captured. Other arrests are expected shortly. The stolen goods were identified yesterday afternoon by Mr. Christine Shop. A heavy roll of copper wire, probably hundred pounds, and a large corner kettle were among the articles stolen. The goods would weigh about three hundred pounds.
