NUMBER 238.

## 25 RANGERS TO OIL FIELD TODAY

### OIL INTERESTS WILL BE ACTIVE IN MEXICO SOON

Expect Wild Scramble to Resume Developments Result of New Permit Plan

### WILD CATTING PREDICTED ON AN EXTENSIVE SCALE

Three Major Reasons Are Assigned for the Expected Activity in Developments

MEXICO CITY, Jan. 24.—American oil companies in Mexico will begin by next week to file applications to drill new wells as provided in the recent presidential decree, it was believed here today.

The effect of the decree, which grants to oil companies the right to apply for provisional permits to drill new wells, was expected to bring about a wild scramble to resume development.

Application for permits must be made through the agents of the department of commerce and industry at Tampico and Tuxpan. The applicants must comply with the government regulation to show title papers, plans, location of wells and other details.

The expected campaign of development is watched with great interest for three major reasons:

- Reasons Assigned.
1. The world-wide demand for oil.
  2. From the standpoint of international competition. A majority of the American companies have drilled no new wells in the last year, while the leading British companies have complied with all government regulations and proceeded to develop their holdings.
  3. Many of the largest wells in the Tampico district have been abandoned by the encroachment of salt water.
- This last development, it was predicted, will lead to extensive "wild-cattling," especially to the south of Tampico along the coast in the state of Vera Cruz and westward into the mountains in the states of Vera Cruz, Tamaulipas, Coahuila and Nuevo Leon and south of the Texas border.
- American oil men here predicted at least 100 new wells will be drilled in Mexico during 1920, the 25 principal American companies and their subsidiaries taking a leading part.

This development, it was pointed out, will mean a great influx of American oil men here, to designers and other oil men. Plans for construction of pipe lines and tank farms to cost \$50,000,000, gold, also are under consideration.

The probable discovery of new fields has heightened interest in the situation, although drilling under the provisional permits is subject to passage of final law by congress. If congressional action should be adverse to the present contentions of the oil companies, the companies must either comply with any new regulations or abandon their wells, except in cases where wells are not completed.

### CHICAGO SCHOOL TEACHER HAS BEEN SUSPENDED

CHICAGO, Jan. 24.—Miss Helen Pratt Judd, Chicago school teacher indicted by a special grand jury Wednesday for alleged radical activities directed toward the overthrow of the government, has been suspended until "there has been a thorough investigation of the matter."

Peter A. Mortensen, superintendent of schools, announced today.

Robert C. Moore, secretary of the Illinois State Teachers' Association, addressing 250 Chicago teachers, said low wages were responsible for radicalism in the public schools.

### LABOR DISPUTES IN KANSAS TO BE SOLVED BY INDUSTRIAL COURT CREATED BY THE LEGISLATURE

### SEVERAL ARRESTED IN CONNECTION WITH MURDER IN MEXICO

MEXICO CITY, Friday, Jan. 23.—Several men suspected of being implicated in the murder of Earl Bales and F. J. Roney, American oil men, are under arrest at Tampico, according to reports from Colonel Francisco Franco, in charge of the military police there. None of the prisoners has confessed but one of them is said by the police to have been wearing a sweater belonging to one of the Americans. This garment was blood-stained and the man, whose name is Castro, is alleged to have tried to get rid of it when apprehended.

### CHICAGO PLANS TRIAL OF 85 OF "RED" LEADERS

Charged With Conspiracy to Cause an Armed Revolution in the United States

### MRS. ROSE PASTOR STOKES INCLUDED IN THE NUMBER

Those Indicted Are Alleged to Be Leaders of the Communist Party in United States

CHICAGO, Jan. 24.—Chicago authorities today plan to bring to trial here 85 leaders of the Communist party indicted by a Cook county grand jury yesterday. The charge is conspiracy to cause an armed revolution in the United States. Among the radical leaders named in the indictments were:

Mrs. Rose Pastor Stokes, now out on bond pending appeal to the United States district court of appeals at St. Paul of her conviction by Kansas City federal court of three violations of the espionage act. She is a member of the central executive committee of the Communist party.

Nicholas I. Hourwich, editor of the New York, largest Russian paper in the United States.

Charles E. Authenburgh of Cleveland, Ohio, national secretary of the Communist party.

Louis E. C. Frajna, editor-in-chief of the Communist party publications.

Isaac E. Ferguson, chief counsel for the Communist party, now under indictment in New York for criminal anarchy.

Charles Dirba, Minneapolis, member of the national executive committee.

Daniel Eibaum, Detroit, member of executive committee.

K. B. Karosses, Philadelphia, member of executive committee.

Dennis E. Holt, Detroit, named as "an agent member of the party."

L. K. England, former majority candidate in Moline, Ill., and Perry Shipman, both state executive committee members of the Communist Labor party, against whom indictments were returned Wednesday, were brought to Chicago last night after arrest in Moline. They were to be arraigned today.

### GOVERNOR TO CALL CONFERENCE ON THE SCHOOL SITUATION

AUSTIN, TEX., Jan. 24.—Governor Hobby will call a conference of school officials, boards of managers of the various educational institutions and the board of control for Feb. 3 to consider measures for the relief of the Texas school situation, according to a statement made by the governor today.

Dr. R. E. Vinson, president of the University of Texas, who is active in the movement, said that in his opinion, the conference will not request the governor to call a special session of the legislature, but will gather and present to those with authority to act facts concerning conditions which are adversely affecting both the public schools and colleges.

### WELL KNOWN AUTHOR AND CLERGYMAN DEAD

YONKERS, N. Y., Jan. 24.—The Rev. Cyrus Townsend Brady, well known author and Episcopal clergyman, died of pneumonia at his home here today.

### TOPEKA, KAN., Jan. 24.—Labor disputes in Kansas, which affect the public interest, in future will be solved by a court of industrial relations. The bill creating such court, designed primarily to protect the public from "warring factions," and at the same time give ample protection to both capital and labor, became a law in Kansas today with its publication in the official state paper. The measure was signed last night by Gov. Henry J. Allen, following adoption by both houses of the legislature.

The lawmakers concluded their legislative efforts with a feeling of satisfaction with the law which, they believe, may become a national measure for prevention of labor troubles. The entire personnel of the court has not been named in time for confirmation. The measure was to be confirmed by the state senate this morning. The other two members of the court probably will be named in time for confirmation by the special session of the legislature, which will take final adjournment next Wednesday.

### Leave in Automobiles About Noon; Believed Enroute to Take Possession Of Property Held By Oklahomans

Texas Rangers are expected to be in possession of the strip of land along the south bank of Red River claimed both by the state of Texas and the State of Oklahoma. They are expected to get possession of the property without resistance, according to Sam Sparks who has filed claims with the state of Texas for a large part of the land in controversy, but they are prepared for any eventualities.

Eight automobiles carrying twenty-five rangers left Wichita Falls at 11:35 Saturday morning for the Northwest field. The rangers were armed with high-powered rifles and carried tents and supplies as if prepared for a long stay. Owing to the condition of the roads it was believed that fully two hours would be required for the trip. The automobiles were heavily loaded and the going over the muddy roads is certain to be slow. No word had been received from Red river up to 2:30 this afternoon.

It is said the rangers will disarm any persons found in the strip carrying weapons and it is probable that the strip will be made a military zone.

A big crowd saw the rangers leave and speeded them on their way with cheers and yells. Half an hour before they pulled out, the rangers had gathered in small groups in "Wall street," the alley between Seventh and Eighth, Ohio and Indiana. The presence of the men, easily identified as rangers, and a line-up along the alley of eight Ford cars was sufficient to draw a crowd that grew in size steadily.

Beyond the admission that the oil field to the northwest was their destination, no ranger in the party would talk. But there appeared a general air of "something doing" as the line of flivvers pulled out of the mouth of the alley and headed to the north.

### EARTHQUAKE OF SEVERE NATURE AT VANCOUVER

People Are Greatly Excited but Little Damage Results as Reported

VANCOUVER, B. C., Jan. 24.—A severe earthquake shock was felt here shortly after 11:00 o'clock last night. People rushed in alarm from many buildings but no damage other than interruption of telephone service in some instances, has been reported.

Reports from Victoria and other nearby points reported feeling the shock. It was at first thought the shock was the result of a heavy explosion nearby.

### WINDOWS IN A NUMBER OF HOUSES ARE BROKEN

BELLINGHAM, WASH., Jan. 24.—An earthquake shock was felt here shortly after 11:00 o'clock last night. At Anacortes, Wash., near here, windows in a number of houses were broken and brick walls were cracked, according to reports reaching here.

The quake was felt in varying degrees of intensity in a number of towns in the northwest section of Washington.

### THREE DISTINCT SHOCKS ARE FELT AT SEATTLE

SEATTLE, WASH., Jan. 24.—Three distinct earthquake shocks were felt here at 11:08 o'clock last night. So far, no material damage has been reported.

### UNABLE TO RESCUE SHIP FROM FLOES OUT FROM CHICAGO

CHICAGO, Jan. 24.—The fight to free the freighter, Sidney O. Neff, hemmed in by ice floes four miles off Chicago harbor since Wednesday, was renewed today. A forty-mile gale which swept the lake yesterday and early today continued to pile up floes against the wooden sides of the little steamer and threatened to crush it. Food and fuel were reported running low.

An Alpine expedition by eight men under the leadership of Captain John O. Anderson of the coast guard failed to reach the freighter late yesterday. The men were bound together with 20 feet of rope. They struck open water about a mile from shore and were forced to abandon the trip. Fifteen men are aboard the Marooned steamer.

### DIG THROUGH 26-IN. WALL TO ROB BANK

DALLAS, TEX., Jan. 24.—Robbers used pickaxes and crowbars to smash their way through a 26-inch brick wall into the vault of the First Guaranty bank at Cedar Hill, near here, and escaped with more than \$5,000 worth of liberty bonds and war savings stamps last night.

The robbery was discovered this morning and the county authorities here notified. The robbers cut all the telephone wires leading from the bank building and isolated the town by cutting the telephone cable to Dallas. Considerable money in the bank was untouched, as the robbers apparently were unable to open the safe.

### TRANSPORT ARRIVES OFF QUARANTINE TODAY

NEW YORK, Jan. 24.—The transport Northern Pacific, carrying General Connor of the A. E. F. from France and 271 passengers from the disabled transport Powhatan, arrived off quarantine early today.

### DISPOSITION OF THE JACKSON ESTATE IS IN HANDS OF JURY

FORT WORTH, TEX., Jan. 24.—The \$500,000 estate of John E. Jackson, consisting entirely of cash and bank stock, for which the National Spiritualist society on the one hand and a common-law son and a secret wife on the other are contesting, is in the hands of a jury today after a sensational trial of two weeks' duration.

First the son had to establish the fact that he was born of a common-law marriage, then the secret wife had to prove that she had been married to Jackson many years before his death, for the first paragraph in the eccentric capitalist's will proclaimed that he was a bachelor. Following this the two were allowed by the court to begin a fight for part of the wealth, all of which had been left to the National Spiritualist society.

### WEATHER DEMORALIZES TRAFFIC IN NEW YORK

NEW YORK, Jan. 24.—Sleet storms last night and today near the Atlantic seaboard demoralized telegraphic service in New York state and between New York and the territory of which Pittsburgh is the center. Wire companies were unable to provide regular wire service west of New York except to the government and press associations, and even this service was badly hampered. Service will be crippled until moderate weather melts the ice now encrusting wires, it was stated.

### KEELING OF OPINION BOUNDARY WILL BE SETTLED IN COURTS

AUSTIN, Jan. 24.—W. A. Keeling, assistant attorney general, who has been in Wichita county in connection with the boundary dispute between Texas and Oklahoma, returned to Austin today and said that when he left the boundary day before yesterday there were no indications of a pending conflict between state rangers and Oklahoma deputies. Mr. Keeling was of the opinion that the matter will be settled in the courts.

### PASTOR TO DISCUSS THE GIRL TO MARRY

Sunday evening 7:30, at the First Methodist church, Seventh and Lamar, letters written by some of the most prominent young men of the city, upon this topic will be read by the pastor, Dr. Hingham, following which he will deliver a lecture on the theme "The Girl to Marry." This church will be comfortably heated. A fine pipe organ, good singing, splendid orchestra.

### WARNS PEOPLE NOT TO BECOME PANICKY

WASHINGTON, Jan. 24.—Surgeon General Blue of the United States health service today warned the country not to become panicky at the influenza situation despite an apparent increase in the number of cases.

Nowhere, he said, is there any indication that the disease is beyond the abilities of local authorities to fight it.

### CONFERENCE ON CASE OF KAISER THE NEXT MOVE

To Determine Whether Next Demand Will Be Directed to the Hague or Berlin

PARIS, Jan. 24.—Conferences between premiers of Great Britain, France and Italy will be held before the next move in the proceedings to extradite former Emperor William from Holland is decided upon, according to information given the Associated Press by the French foreign office.

Whether the next demand for surrender will be directed to the Hague or Berlin will be the main subject to be determined.

The next meeting will be held in London but as no date has been fixed the matter can not be left pending a long time. The Associated Press is understood that at least one premier is not averse to asking Berlin to call for the return of Count Hohenlohe to Germany, a demand demanding that Germany deliver him over to the Allies in accordance with the provisions of article 227 of the treaty of peace.

Sentiment in official circles here is against such procedure, as there is no desire that the former emperor return to Germany. It is doubtful whether Germany would obtain possession of him. It is also feared the presence of Count Hohenlohe in Germany would solidify the monarchist party, which is reported to be gaining strength daily.

### DECLARE REQUEST VOID OF LEGAL JUSTIFICATION

PARIS, Jan. 24.—Holland has refused to grant the Allied request for extradition of the former Kaiser.

The reply of the Dutch government to the Allied note was handed to the foreign office late last night. It characterized the Allied request as devoid of legal justification. After reciting the demands, the Dutch reply said:

"The queen has the honor to observe that obligations which for Germany could have resulted from article 225 of the Treaty of Peace cannot serve to determine the duty of Holland, which is not a party to the treaty."

Continuing the note declared Holland "cannot admit in the present emergency other duty than the imperative of the laws of the kingdom and national tradition."

The constitutional law of the kingdom," the note added, "cannot permit the government of Holland to agree to the desire of the powers to withdraw from the former emperor the benefit of its laws."

### FORMER EMPEROR WAS EXPECTING A REFUSAL

AMERONGEN, Friday, Jan. 23.—Former Emperor William of Germany was not surprised by the formal refusal of the Dutch government to comply with the Allied demand for his surrender, it was declared today. News of the decision was first communicated to Bismarck castle to the Associated Press correspondent here.

A refusal of extradition had been expected from the first, the correspondent was told. He said the residents had never been officially informed that such a decision had been or would be reached.

### TUMULTY DENIES THE PRESIDENT IS PLANNING TO LEAVE WASHINGTON

WASHINGTON, Jan. 24.—Secretary Tumulty denied a widely circulated report that President Wilson would soon leave for Monticello, going later to California for a long rest.

"Not a word of truth in it," said Tumulty.

Asked whether the President was considering taking a trip, even if definite plans had not been made, Tumulty said:

"I haven't heard anything about it."

### ONE IN EVERY 100 IN CHICAGO HAS THE "FLU"

Sixteen Hundred Telephone Operators Ill and Service is Handicapped

### REPORT 2,193 NEW CASES WITH TOTAL OF 48 DEATHS

Three Hundred and Forty-One New Cases of Pneumonia With 53 Deaths

AUSTIN, Jan. 24.—While scattered cases of influenza have been reported from various parts of the state and a local epidemic threatened in Dallas, said C. W. Goddard, state health officer, today, there appears to be little danger of a state-wide epidemic at present, and reports indicate that the disease is milder than it was last year and is accompanied by less severe complications. However, Dr. Goddard said, with epidemic in states to the north of Texas and the appearance of the disease in the state, citizens should exercise every precaution to prevent its spread.

CHICAGO, Jan. 24.—With one out of every 100 persons in Chicago ill with the "flu" today, according to health department estimates, Health Commissioner John Dill Robertson prepared to continue his offensive against the epidemic.

There were 2,193 new cases of "flu" reported yesterday and 45 deaths. New cases of pneumonia totalled 341 with 53 deaths.

Telephone service was seriously threatened with 1,600 operators off duty with "flu."

### TWO THOUSAND NEW CASES EVERY 24 HOURS

CHICAGO, Jan. 24.—Influenza and pneumonia continued to spread in Chicago today at the rate of more than 2,000 new cases every 24 hours. The highest death record for any 24 hours since the epidemic began was reported. There were 2,513 new cases and 101 deaths. At the Great Lakes Naval Training station the total deaths reached 118 and the total number of cases 1,024.

Dr. John Dill Robertson, health commissioner, predicted the contagion will continue until it has hit every person who is not immune.

Industrial establishments today reported their working forces had been depleted 10 per cent by the epidemic. Health authorities still were struggling with a serious shortage of trained nurses. The health commissioner recommended that 1,000 nurses on special cases in hospitals be released immediately for emergency work and their places taken by student nurses.

Dr. Robertson renewed his efforts for better sanitation in restaurants and for more heat in surface and elevated cars. He requested the mayor to revoke the licenses of a number of restaurants and others placed for "general insanitation," which he said was aiding the rapid spread of the disease.

### REAL INFLUENZA SAYS DOCTOR EARL CARR

CHICAGO, Jan. 24.—Dr. Earl Carr, senior grade lieutenant in charge of the main laboratory at the Great Lakes Naval Training Station, has isolated the influenza germ, he announced today.

"It is the real influenza bacillus discovered by Pfeiffer in England," Dr. Carr said. "I took the sputum from a person near death from influenza, washed it in a salt solution placed it on blood media, picked out the influenza bacillus colonies and transferred them to a separate media. There can be no doubt about it."

### COUNCIL OF CHURCHES REGISTER A PROTEST

WASHINGTON, Jan. 24.—Vigorous protest against representation of religious organizations in the League of Nations was presented to President Wilson and Secretary of State Lansing by the Federal Council of Churches.

### PREMIER NITTI IN ACCORD WITH CLEMENCEAU AND LLOYD GEORGE ON SOLUTION ADRIATIC QUESTION

ROME, Jan. 24.—Premier Nitti is in complete accord with Clemenceau and Lloyd George in his efforts to settle the territorial dispute in the Adriatic between Italy and Jugoslavia, according to an official communication issued today.

The statement outlined Nitti's negotiations with the allied leaders in the recent Paris conference. It did not bear out a report from Paris which said Jugoslavia had accepted the proposals put forward in the recent allied note to the Belgrade government.

The official communication said the following points were decided at the Paris negotiations:

1. The pact of London is valid and binding and Italy may ask enforcement at any time.
2. Agreement with Jugoslavia in settlement of the Adriatic dispute is advisable.
3. Agreement between the interested nations is essential to prevent opposition on the part of the United States.

The communication said the question of Turkey in Asia Minor was discussed in a friendly way, but decision was postponed until the next meeting.

### FREEZING WEATHER TO THE TEXAS COAST BY SUNDAY MORNING

NEW ORLEANS, Jan. 24.—Cautionary storm warnings for small craft were ordered displayed along the Texas coast at 9 a. m. today by the weather bureau.

Moderately fresh northerly winds were predicted for today and tonight. Freezing temperatures nearly to the Texas coast by Sunday morning was forecast.

SCENE AS RADICALS VOTED FOR DESTRUCTIVE MEASURES INVOLVING OVERTHROW OF GOVERNMENT

COMMUNIST CONVENTION AT CHICAGO WHICH ADOPTED MANIFESTO AND CONSTITUTION CALLING FOR OVERTHROW OF U.S GOVERNMENT BY FORCE AND VIOLENCE

WOMEN'S CHAIRMAN MAKES APPEAL FOR POLL TAX PAYMENTS

Poll tax payments will give more money to the school fund of the state of Texas, which so sorely needs support and funds, and for this reason the women of the state should pay their poll taxes "to a woman."

Mrs. Ames' appeal follows: "Two years ago when we were in the midst of our war work and were practicing self denial that the foes of liberty and justice might be defeated as speedily as possible, we were called to cast up arms and to take the very principles for which our young men were fighting and dying in France."

"Now comes the terrible aftermath of all war-reconstruction. We must fit ourselves to care for the problems that beset us. We must prepare our children to take up the burdens that this generation has laid upon them."

"The greatest debt that we owe to the state is education. If we fail in this, we have failed as mothers and as citizens. Our public school system is the greatest asset of democracy and it is the key stone in the arch of our development."

"Our schools need our support, they need our vote, and they need the immediate relief that our poll tax money will give them."

"We are faced with the necessity of rearing a strong race of men and women, who from childhood shall be taught loyalty to this great republic, and to the ideals of our fathers. Education alone will accomplish this. Mothers divide this responsibility with the teachers, and the school room is the second home of childhood. What are we preparing to do for this home where our children spend more than half of their waking hours? A cry has gone out through the state that our best trained helpers are leaving the teaching profession, that if this exodus continues during the next year as it has in the past, our schools will slip

CHILD OF CHORUS GIRL POSSIBLE HEIR TO MILLIONS

PEGGY MARSH

The right of Henry Anthony Marsh to share in the estate of Marshall Field was the subject of hearing in the Superior Court in Chicago. Its claimant is three years old and is the son of Henry Field, grandson of the multi-millionaire Chicago merchant, and Peggy Marsh, a former chorus girl. Her allegation that Henry Field was the father of her child was virtually admitted by Marshall Field Sr after his brother's death, when he established a fund of \$100,000 for Peggy Marsh in settlement of a contract between her and his brother. The hearing started concerns the right of Henry Anthony Marsh to share in the income and ultimately in the principal of a \$5,000,000 trust fund.

back ten years, and our children will suffer. The appeal has been made to the women to save not the home alone but the very soul of the home—the children. How can men and women rest contented when such disaster faces them? The immediate cry is for money to keep open our schools. Poll taxes this month should bring to our public schools over a million dollars, a third of which must come from the

OFFICERS AT ABILENE SEE WHISKEY STILL

ABILENE, TEX., Jan. 24.—Federal and local officers today seized a complete whiskey still in a negro's house, and now the officers are looking for the negro.

HOUSTON REPORT ON GULF COAST WEATHER

HOUSTON, TEX., Jan. 24.—Winds on Texas coast: Moderate northerly. Shippers forecast: Protect 36-hour shipments to interior points from temperatures 2 to 28. Weather conditions and highway bulletin: Moderate to heavy rains have been general in the cotton belt. Roads are in bad condition and automobiles will not be able to pass.

Dental Notice—Dr. Green, dentist. Easy workman; work guaranteed; prices very reasonable. 613 1/2 Eighth street.

The World's Greatest Butter Producing Cow

This wonderful cow produced 28043.7 lbs. of milk and 1470.5 lbs. of butter in 365 days. Her owner, Bernhard Meyer of Finnerde Stock Farms, Finnerde, N. J., says that during her test she was fed mostly on

SCHUMACHER FEED

This cow as well as 32 other World Champions have made their world records when fed SCHUMACHER FEED. You will make no mistake in feeding YOUR cows the same feed that has helped produce more world's champions than any other feeds in the world combined. We can supply you. J. G. JONES GRAIN CO. Telephone 57 514 Sixth St.

Call Field News

West End Activities. The committee appointed at the dance last Saturday evening distributed notices of a meeting this week to a Community or Social club. The meeting will be held in the officers' mess building at 9 o'clock Saturday night. At this time temporary officers will be appointed and committees selected. These committees will be detailed to look after the various interests of the people on the field. Beside the social activities such as dances and amusements there are many things which need attention. These would include health and sanitation, clean-up work, better trolley and telephone service and many others.

Sunday School.

The second meeting of the Sunday school will be held in the school room of the Cadet School building at 11 o'clock Sunday morning. Classes will be organized and officers selected.

Gun Club. Several of the sporting enthusiasts on the field have clubbed together and purchased a clay pigeon trap and

targets. As soon as the weather will permit they are planning to hold practice shoots. It is thought that there are enough shooters on the field to make it possible to hold competitions with the other clubs in the county.

Notes. Mrs. William Loyland is confined to her quarters with a bad cold. Several other members of the field are sick and everyone is very much afraid of an influenza epidemic. Aviation Hall plans to entertain this week as usual if the sun shines.

Ill Fortune Has Attended Members of Peace Council

PARIS, Jan. 24.—Ill fortune has attended the men intimately associated with the framing of the treaty of Versailles, in the opinion of Premier Lloyd George of Great Britain, according to a newspaper article published here. Lloyd George was so convinced

next president of the French republic that he considered the race over. In conversation with a member of the chamber of deputies, the British premier is said to have expressed an opinion that the "peace treaty was hard luck for anyone having had a hand in it."

"Yes," the deputy is quoted as replying. "Premier Orlando is out of office, Premier Clemenceau is again in private life and President Wilson has not with reverence in Washington. Only you have been spared."

"Yes, and in less than six months it will be my turn," is the reply attributed to the British leader.

The average bank balance to the credit of each depositor in the United States, on June 30, 1919, was \$651.92, which is a little less than the previous year.

NEURALGIA or Headache—rub the forehead and temples with VICK'S VAPORUB—YOUR BODYGUARD—30¢, 60¢, \$1.25

HELPLESS! City, county, state and national issues of far-reaching importance are to be decided in 1920's elections. You are helpless no matter how your interests may be affected, unless you hold a POLL TAX RECEIPT. One short week remains. By next Sunday it will be too late. PAY YOUR POLL TAX at the court house, or at PEOPLE'S STOCK EXCHANGE FIRST NATIONAL BANK CITY NATIONAL BANK CITY HALL.

YOU CAN'T WORK WELL WITH A COLD

Relieve it with Dr. Bell's Pine-Tar-Honey. NOBODY likes to be around a person suffering from a heavy cold. It exposes them needlessly. You can take care of your job and keep business and social engagements shortly after you begin using Dr. Bell's Pine-Tar-Honey. For it is prompt in helping Nature expel phlegm, allay inflammation, ease breathing, and driving away irritating coughs. Use it—give it to the kiddies. Don't suffer a minute longer than you have to. The ingredients used in Dr. Bell's Pine-Tar-Honey are highly beneficial in promoting the relief cold-sufferers seek. Safe and economical. At all druggists. 30c, 60c, \$1.20.

Give the Family PODOLAX. Correct those tardy bowels naturally, pleasantly, comfortably with Po-Dolax. Liven the bowels. Keep the family healthy, comfortable, free from constipation and its dangerous results. 40¢ Druggists everywhere. PODOLAX LIVES AND STOMACH

THE TIMES HAS FOR SALE A FEW COPIES OF ITS New Year's Edition. These are wrapped ready for mailing. The postage charge for mailing a single copy of this paper is about ten cents. The paper will be mailed from the Times office to any address in the United States for 20 cents. Copies wrapped ready for mailing will be sold at 10 cents each.

### SEARCH THE RUINS FOR MORE VICTIMS OF FIRE IN DALLAS

DALLAS, TEX., Jan. 24.—Search of the remains of the Main hotel was being made early today to determine whether more than two are dead as a result of last night's fire. The known dead are: JOSEPH A. CHASTAIN, expressman; T. T. COWAN, telegraph repairman, Arkansas. Among the more severely injured is Pat Gallagher, fireman, whose leg was broken when 20 firemen fell from a second-story window. Others were hurt jumping from windows.

### Unfortunate Case Before City Court Saturday Morning

A man was arrested Thursday by the city police on complaint of his wife who swore to a variety of charges very unpleasant to read, including that he did not support her and that he was not working. In court Friday morning the man, who is an ex-soldier, claimed he was unable to work on account of being affected with tuberculosis. He told of his travels in search of health since he was discharged from the army how he had gone first to El Paso, the various points in New Mexico or Arizona, how he stayed in a hospital in Tucson until he learned his wife was working at Burkburnett. "When I found that Judge," the man dramatically declared, "I decided to come back here whether I was sick or not for I had just as soon my wife was in hell as Burkburnett." He came back to this city, he said, but his wife would not have anything to do with him and she told him she was suing him for divorce. His repeated efforts to effect a reconciliation with his wife resulted in his notifying the police. Much of the testimony that was introduced in an effort to prove that the man was a vagrant resembled some of the cases in the propaganda sent out by the public health service on the subject of marriages wrecked by ignorance and folly. Judge Ogle was loath to pass on the case until a thorough examination of the man could be made by the city physician to determine whether or not he was suffering from the disease he claimed. When the doctor's diagnosis was completed he recommended that the man be released and allowed to leave town.

### EIGHT INDICTMENTS RETURNED ON FRIDAY

Four bills of indictment alleging forgery were returned Friday afternoon against J. Hendricks, oil field worker. He is said to have forged the name of Wichita Falls business men to instruments and received money totalling more than \$200. Hendricks is being detained in the Wichita county jail. Four more indictments were returned by the grand jury, but the persons are not under arrest. The grand jury adjourned Friday afternoon until Monday morning at 10 o'clock.

### At the Churches

**Floral Heights Methodist Church.** We think we can have the High School building comfortable enough for all of the regular services. But if after arriving we find that it endangers health to go ahead with the services, we shall be reasonable enough to let you go. We intend to have the services if at all practicable. —W. L. TITTLE, Pastor.

**St. Paul's Lutheran Church.** Eleven-day Holydays. Sunday School at the usual hour. 9:30 a. m. Morning services at 10:30 a. m. Berea Bible class will have their Bible study meeting at 7:30 p. m. At 9:30 p. m. the Bible class will have their monthly business meeting. The entertainment committee of the Bible Class will meet Wednesday night at 7:30 at the parsonage. Everybody is cordially invited to worship with us, especially the many strangers in town are kindly asked to make our church their house of worship in prayer. Come, you are always welcome. —C. M. BYERS, Pastor.

**PROVIDE COAL STOVES FOR BAPTIST CHURCH.** Rev. O. L. Powers, pastor of the First Baptist church, announces that three large coal stoves have been installed in the church and that protection from the cold is assured for each of the Sunday services. The pastor further announced that a sufficient supply of coal had been secured.

**EXECUTIVE COMMITTEE ARRANGING PROGRAM FORT WORTH, TEX., Jan. 24.**—The executive committee of the Texas Farmers' union is in session here today to arrange a program for next week's state convention in Dallas and to discuss moving the headquarters of the union to some other Texas city. The headquarters office has been in Fort Worth for the past 10 years. President today is presiding at today's session.

**PUPIL OF MILLER.**  
**YONE NOGUCHI**  
Yone Noguchi, one of the foremost poets of Japan, arrived in San Francisco six weeks ago. He has been lecturing in Chicago for the past month and will remain in New York until the middle of February. Born in Tushima, Aichi province, Japan, in 1875, he quickly rose to one of the most talented literary lights of the Western hemisphere. He was educated at Keio Gijuku University, Tokyo, where he is now professor of English literature. In 1913 he lectured on Japanese poetry at Macdonald College, Oxford. He has spent much of his time in the United States, especially in California. With Joaquin Miller, the California poet, he lived far from the haunts of mankind in a cave for three years. He became Miller's devoted pupil. He published his first poems during this period in "The Lark," a little magazine published by Gelett Burgess in San Francisco. He walked extensively through Southern California and a Yosemite Valley. He lived for a year in London and has travelled many times L. Continental Europe.

Experts have estimated that one rat will consume 40 to 50 pounds of food in a year.

### BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratory, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

### TO COMPLETE CENSUS REGARDLESS OF TIME

WASHINGTON, Jan. 24.—While it had been hoped to complete the enumeration work in 14th decennial census in 15 days, Director Sam L. Rogers of the census bureau said today the time would be extended and that the count of the population of the country would be completed regardless of the time necessary.

### FORMER GOVERNOR OF ILLINOIS HAS PROTEST

CHICAGO, Jan. 24.—Former Governor E. F. Dunne protested against the reported manner in which Chicago authorities have proceeded against radicals at a meeting attended by 150 persons last night. Miss Jane Addams of Hull House presided at the meeting, and Professor I. Freund of the University of Chicago also was a speaker.

# Here's the Newest Hobby Rider — the Amateur of the Movies

A Group of Shoshone Indians, Whose History Mrs. Brandeis Is Writing, and Who Have "Adopted" Her to the Extent of Making Her an Honorary Princess.

By Ethel Thurston

EVERYBODY knows about the movies when they are professional. It would be hard to think of anything that is more familiar. The amateur of the movies—the enthusiast who has a movie camera of his or her own is less known, but this sort of hobby rider is new. Some day the amateur movie artist will be as familiar as the amateur photographer with a kodak. Today we come upon the domestic motion picture machine—in the back yard, maybe—with a kind of thrill. People ask, "Is it the same size?" meaning, does it put the same size picture on the screen.

Of course the answer to this is that the size of a picture on the screen is determined by the distance between the projecting machine and the screen—not by the size of the picture originally taken.

But first let us consider a typical movie amateur whose work has attracted considerable attention, and who really represents the sort of enthusiasm we associate with the word amateur.

Mrs. E. John Brandeis of Fairacres, Omaha, Nebraska, a charming "fan" with a camera, is the niece of John Brandeis, prominent in the Northwest, and a conspicuous member of the Omaha Chamber of Commerce.

She is a well known society matron of the younger set of Omaha, New York and Paris. Her beautiful estate, "Fairacres," on the outskirts of Omaha, is one of the show places of the Northwest. She maintains two homes in New York, one at the Knickerbocker Hotel and an apartment on Riverside Drive.

Incidentally, for her own pleasure and in loyalty to the West, she recently played the leading role in a motion picture entitled "Where East Meets West," which was made under the auspices of the Omaha Chamber of Commerce, with the personal supervision of Harry Levey, director-general of the Educational Department of the Universal Film Company. The purpose of the picture is to take the city of Omaha visiting throughout the United States. It will be shown to the members of the 8000 Chambers of Commerce in the United States.

The picture itself is a triumph of modern photography and shows wonderful panoramic views of Omaha and its environs which boast of much scenic grandeur. Omaha is a notable spot in United States history, being on the route of the Lewis and Clark expedition and the spot where those intrepid explorers negotiated the first treaty with the Shoshone Indians, whose hunting grounds were in the locality of the present site of Omaha.

Mrs. Brandeis showed her altruism by volunteering to play the star role in the "Where East Meets West" picture and gave up her time, estate, automobile and blue ribbon mare in the interest of her city. Although this was her first appearance before the camera, Mrs. Brandeis proved to have the grace and poise of the professional star, and throughout the picture showed her ability as a horsewoman and motorist. She drove her French racing car and spirited mare, winner of innumerable ribbons, throughout the picture. Beautiful scenes of her estate are also shown throughout the picture.

As further evidence of her interest in her home city she is writing a history of the city of Omaha dating from quaint records of the medicine men of the Shoshones before the arrival of Lewis and Clark on down to the present day.

Many of the Shoshone Indians are the personal protégés of Mrs. Brandeis, who has the great distinction of being the first and only white princess of this tribe of Indians. The present chief of the Shoshones made a special trip to her estate to confer this honor on her for her commendable work in behalf of this once populous but rapidly disappearing tribe. There is only one restriction placed on Mrs. Brandeis as a Shoshone princess, and that is that she must

On the Right, Mrs. Brandeis with Her Motion Picture Camera.

How Motion Pictures for Fun Are Made by Mrs. John Brandeis, and Why the Family Film is Likely to Be Popular.

Mrs. Brandeis, in Shoshone Indian Dress, Wearing the Feather That Marks Her as Honorary Princess.

Mrs. Brandeis in Riding Costume with One of Her Companion Characters in the Play Instituted by the Omaha Chamber of Commerce.

wear the lone eagle feather which constitutes the headdress of the Shoshone brave at the front of the headband instead of the back.

Mrs. Brandeis is said to be the only society woman in the United States who owns and operates her own motion picture camera. The camera, which is a wonderful piece of craftsmanship, cost \$3500. It weighs only 32 pounds and, therefore, is easily handled. Yes, her hobby is motion pictures, and at Fairacres she has a motion picture theatre built expressly for her according to her own plans, as well as a fully equipped and

well appointed laboratory where she develops and prints her own negatives.

Mrs. Brandeis has many thousands of feet of films in her own private collection, and among other interesting topics has many prints depicting the Shoshone Indians in their war dances and picturesque feasts. Many scenes of the Shoshones are brought into the Omaha Chamber of Commerce picture, the Indians making a special trip to Fairacres where they gave their grotesque war dances on the lawns of the estate. All pictures that Mrs. Brandeis takes are

made for charitable organizations and other societies. She is shortly going to Bryn Mawr, Pennsylvania, at the special invitation of Miss Helen Taft, president of Bryn Mawr, to take motion pictures of this most beautiful institution for the higher education of American women.

Wherever Mrs. Brandeis travels, she always brings along her ribbon-winning mare, her French automobile and her motion picture camera.

Mrs. Brandeis is typical of the movie amateur in her invasion of "leisure." The result of the work of the amateur is many records of social events not hitherto thought of as subjects for the screen.

One movie amateur has been picturing his grandchildren since each was a few days old. The first pictures show the nurse with her little bundle of humanity. Then Father trying to hold the fragile infant. Then Mother, when she is sitting

up. At last here is Baby crawling, and afterward taking its first steps. The result is that Baby is seen growing up on the screen. One film is reserved for each family in Grandfather's circle. To each film bits are added—twenty, forty, a hundred feet at a time.

In some cases this particular amateur has pictures of the weddings that began the domestic dramas. A certain 3 o'clock wedding in an ivy-grown church was recorded last summer as the bridal procession came down the sunlit path from the church door just after the ceremony. No objection, of course, to fragments of courtship as beginning these real life, happily biographical screen dramas.

It is the experience of motion picture amateurs that it is easier to get people to pose than in the case of the ordinary fixed position snapshot, and that they are less critical of the result.

## Leonardo De Vinci as an Anatomist

LEONARDO DA VINCI, the painter of "Mona Lisa" and "The Last Supper," is now recognized as the first great scientific anatomist. Although he accomplished so much toward a correct understanding of the human body, his work was destined to have no tangible, traceable influence on the immediate development of anatomy and of medicine, because as a writer in the Journal of the American Medical Association points out, it was not to become known generally until many generations had passed and then only through fragmentary records. Van den Broek points out that Leonardo's work in other sciences also remained sterile in the same sense as his work in anatomy. He is said to have studied the question of aviation over many years and to have declared that the flying machine must be built like the body of a bird so that the aviator "can balance himself and move through the air like a big bird, to the everlasting glory of the nest where he was born."

As further examples of the scope of his interests may be mentioned his studies of plant life, his interpretation of the sea shells on the mountain tops around Florence, and then the note in large letters on one of his sketches: "The sun does not move." A child of free love, disinherited, disliked by his stepbrother, and often misunderstood, Leonardo, after 400 years, is taking his right place in history as one of the most gifted and original of investigators.

"When Leonardo da Vinci died in 1519," says the authority above mentioned, "his anatomic notes and sketches passed by will to his faithful friend Melzi who, while he lived, guarded them as his most precious possession, but, unfortunately, this reverence did not pass with them to his heirs. Yet, notwithstanding their extensive, roundabout and still in large degree untracked travels, a very large part of Leonardo's anatomic manuscripts and drawings at last found safe abodes and became available for study and reproduction under favorable conditions.

"The fourth centennial anniversary of Leonardo's death has brought out a number of articles in which his work, particularly in anatomy and physiology, is discussed in the light of the latest

investigations that anatomists, historians and linguists have made of it.

"It appears to be established beyond any question of doubt that Leonardo commenced to dissect when he was about 37 years old in the hospital of Santa Maria Nova in Florence, that he continued this work in Milan, and that he dissected in Rome in 1513, when he was 61 years old, at which time Leo X. forbade further work of that kind. It is stated that in all he dissected more than 30 bodies of men and women at various ages, besides various animals. Nor is there any longer any question about the absolute originality and complete independence of his anatomic work, which he carried far beyond the requirements of anatomy as pertaining to art. This is shown in the remarkable circumstance that he paid more and closer attention to the internal organs than even Vesalius or the other anatomists of that period. What interest has the artist in the cerebral ventricles, the internal arrangement of the heart, the course of the deeper nerves and vessels? It was a great love of anatomic and physiologic investigation, of science, that led him to work on and on through the years, stealthily, no doubt, with poor illumination and under many other difficulties, but to what amazing results!

"Hopstock, one of the editors of Leonardo's Windsor manuscripts, himself an anatomist, after a careful review of all the published manuscripts, gives in essence this estimate of Leonardo as anatomist:

"No one before him dissected so many bodies and no one understood the results of his dissection so well as he; no one before him represented in drawings the muscles, vessels and nerves as they are, which he did; no one before him knew the heart so well, but whether he understood the circulation, or thought he had a definite idea of the correct explanation of the circulation of the blood, remains doubtful. He was the first to represent correctly the skeleton, to inject vessels with a solidifying mass, to make casts of the ventricles of the brain, to practice serial sections. As revealed by the notes, which cover a period of 30 years, and his marvelous red chalk drawings and impromptu sketches by the side of the dissected body, his work throughout is characterized by an almost uncanny accuracy, deep physiologic insight, untiring zeal and an unflinching sense of the beautiful."
