REVOLUTION IS RAGING IN PORTUGAL

HOBBY NOT TO BE CANDIDATE FOR GOVERNOR BUT ANNOUNCES FOR DELEGATE TO CONVENTION

MOVEMENT ON FOR NEW PARTY IN THE NATION

"Liberal Democratic" Name Suggested With Hoover and Parker Candidates

CREDITED TO DEMOCRATIC LEADERS OF THE SOUTH

Stated That Hoover and McAdoo Are Only Candidates Seriously Considered

AUSTIN, TEX., March 5.—Gov. W. P. Hobby today announced as a candidate for delegate-at-large to the national democratic convention, and stated positively that he will not be a candidate for reelection as governor.

The governor's announcement was accepted here as virtually assuring that the present field of gubernatorial candidates would remain unchanged until the July primaries. These candidates are:

R. E. Thomason of El Paso, B. F. Loycey of Greenville, Pat M. Neff of Waco and Dwight L. Lewelling of Dallas, all avowed supporters of the present national administration, and former Senator Joseph W. Bailey, leader of the "liberal" faction of the state democratic party and an announced anti-administration man.

Governor Hobby made his announcement in a statement of approximately 1,000 words, in which he defended his administration and reviewed its achievements, and urged support of President Wilson's administration.

"One of the candidates for governor has assailed the administration of which I am the head and the party whose mandate I hold," the governor declared. "Having renounced every platform pledge and every promise made to the people I am anxious for the people to determine the issue."

It is as a means of seeking this expression of the people that the governor says he is a candidate for delegate-at-large to the San Francisco convention. For the governorship, he declares, there are candidates "well qualified in character and ability and who stand for those principles and those achievements which have recently made the democratic party in this state and nation so useful to mankind."

Governor's Statement.

In a formal statement the governor said:

"Answering appeals that have come to me from many parts of the state to enter the race prompts me to say that I will not be a candidate for governor in the primaries this year, but I will be a candidate for delegate-at-large to the national democratic convention. When I complete my present term I will have served three and a half years as premier in the field of the party which constitutes the customary two terms. I have no desire to hold the office for a longer period. There are many of those in the field who are well qualified in character and ability, and who stand for those principles and those achievements which have recently made the democratic party in both state and nation so useful to mankind. Again, I would not complicate the political situation at this time by entering a race which would confuse many of those who support me and who so loyally two years ago and who now are divided in their allegiance between the several candidates for governor."

"One of the candidates for governor has assailed the administration of which I am the head and the party whose mandate I hold. Having renounced every platform pledge and every promise made to the people I am anxious for the people to determine the issue."

"I do not claim that I have been faultless or free of mistakes in my administration of the state's affairs. However, a program of achievement and progress that has advanced the material and moral progress of Texas and has benefited the people has been my aim. Therefore, not as a means of seeking political preferment, but because I am too grateful for the honors already given me to ask for that, but as a means of seeking an expression of the people, I will be a candidate for delegate-at-large."

"Under the leadership of the democratic party our country won the war, and there is nothing in the history of our people which is more prouder."

(Continued on Page 11, Column 1)

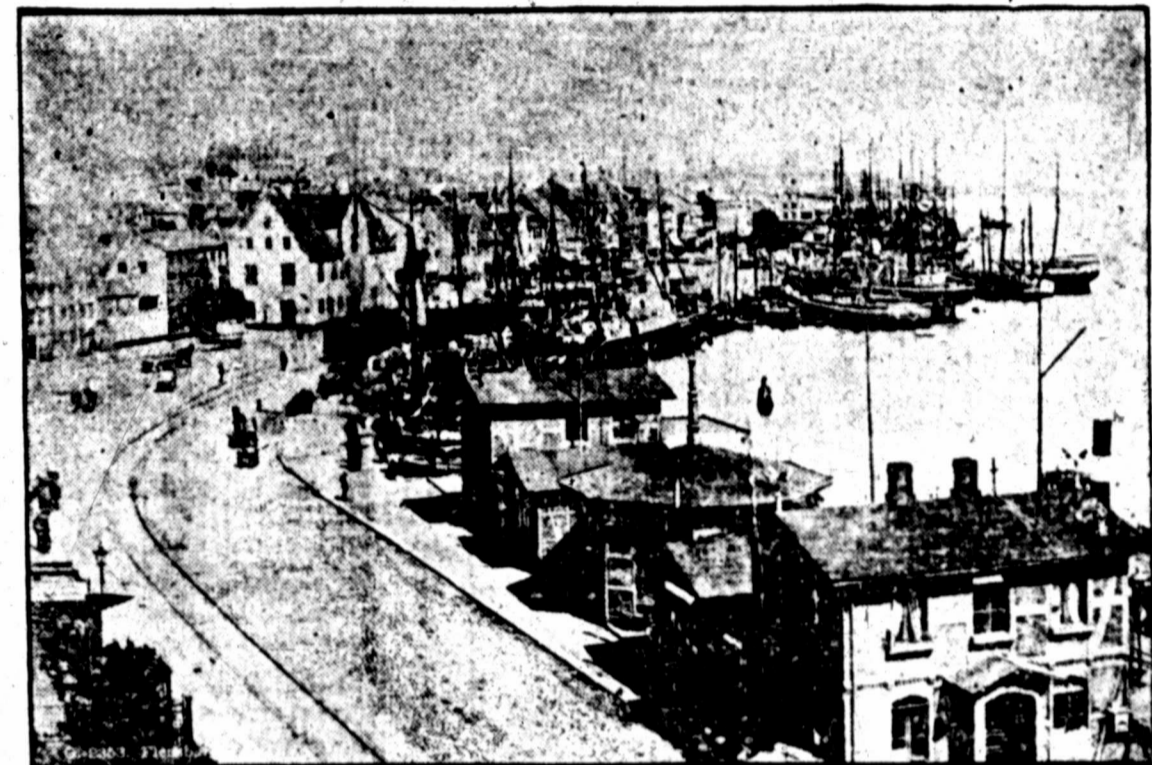

AUSTIN, TEX., March 5.—Gov. W. P. Hobby today announced as a candidate for delegate-at-large to the national democratic convention, and stated positively that he will not be a candidate for reelection as governor.

The governor's announcement was accepted here as virtually assuring that the present field of gubernatorial candidates would remain unchanged until the July primaries. These candidates are:

R. E. Thomason of El Paso, B. F. Loycey of Greenville, Pat M. Neff of Waco and Dwight L. Lewelling of Dallas, all avowed supporters of the present national administration, and former Senator Joseph W. Bailey, leader of the "liberal" faction of the state democratic party and an announced anti-administration man.

Governor Hobby made his announcement in a statement of approximately 1,000 words, in which he defended his administration and reviewed its achievements, and urged support of President Wilson's administration.

DOCKS AND WATER FRONT AT FLENSBURG, GERMANY

Flensburg, in Schleswig-Holstein, which is now controlled under the Inter-Allied Commission has a wonderful situation for commerce, and a great deal of shipping is done there. The view shows a great many vessels at the docks. As you will notice, the majority of them are large submarines.

NATIONALISTS WILL CONTROL TURK CABINET

Are Expected to Strongly Oppose Ratification of Terms of Peace Treaty

CONSTANTINOPLE, March 4.—Turkish nationalists are expected to be prominent in the new cabinet and such prominent figures as Rauf Bey, deputy for Sivas, and even Mustafa Kemal, nationalist leader in Anatolia, may have places. It is considered probable the new cabinet will strongly oppose ratification of a peace treaty if it does not recognize claims of the nationalists.

Allied high commissioners here have been insisting the cabinet should better conditions in Anatolia, especially since recent disorders at Marash and in Cilicia. The Constantinople government has been virtually powerless at Mustafa Kemal's forces in Asia Minor will not accept peacefully the partitioning of Asiatic Turkey which the supreme council is believed to contemplate. It is universally conceded Mustafa Kemal represents the real power of Turkey.

Allies Control Contested.

Although the British, French and Italians hold Constantinople and the straits securely with their navies, allied tenure of occupied portions of Asiatic Turkey is being vigorously contested. Mustafa Kemal's organized forces are variously estimated from 500,000 to 1,000,000 with the cooperation of various Arab and Kurd bands. Turkey supporters predict war this spring or sooner if the Greeks are left in Smyrna and the French in Cilicia.

Through their control of the Turkish chamber of deputies it is asserted Mustafa Kemal's nationalists virtually dominate the Constantinople government and laugh at allied threats to the Sultan and allied naval display in the straits. The real government is at Angora, beyond reach of naval guns, and the nationalists boast the allies cannot recruit armies and raise sufficient money to carry on war in the interior of Asia Minor or retain occupied sections. British assumption that Arabia, Palestine and Mesopotamia are already under control is contested by the nationalists.

HOLLAND DECLINES TO DELIVER KAISER

THE HAGUE, March 5.—The Dutch government today for the second time refused to deliver the former German emperor to the allies for trial.

OBSERVERS SEE NEW VICTORY FOR GREEK PREMIER

Such a View is Taken of Decision As To Thrace, Smyrna and Adrianople

LONDON, March 5.—Political observers today saw in the decision of the council of foreign ministers to award Thrace, Smyrna and Adrianople to Greece, another victory for Premier Venizelos.

The decision of the council was announced officially last night. It came after considerable debate. Earl Curzon, British secretary of state for foreign affairs, presided.

Details remained to be worked out, the announcement said. These have chiefly to do with a plan to keep the holy places in the territory awarded to Greece open to "holy pilgrims and under nominal Turkish control."

Turkish warships probably will be demolished, it was learned. Premier Vaidovod of Rumania has replied to the peace offer of Foreign Minister Tchitcherin of soviet Russia, according to reports.

ECONOMIC PLAN OF PREMIERS IS BEST SOLUTION

Such is Position Taken By French Government With Reference to Germany

By HENRY WOOD
(United Press Staff Correspondent)

PARIS, March 5.—The French foreign office announced today that the economic decisions of the council of premiers with regard to Russia and Germany, had been modified to meet the French viewpoint.

The text of the economic notes will be given out soon.

PARIS, March 5.—The French government takes the position that the European economic policy as agreed to by Trevelyan, Lloyd George and Nitti will lead to the rehabilitation of Germany's industries more quickly than France, according to an authoritative statement today.

The government's position may be outlined as follows:

Germany's industries were little affected by the war because German territory was not invaded extensively. Hence German manufacturers face much easier problems than do the French. It is believed that France's greatest industrial cities were laid waste and her factories wrecked with typical Teuton thoroughness.

The number of manufacturing establishments was reported at 5,229 with a capital of \$80,372,934.

TRAVELERS BRING REPORTS OF BATTLES RAGING IN THE CITIES; MILITARY TRAIN IS ATTACKED

LONDON, March 5.—Travelers from Portugal report firing at Lisbon (Lisboa) and Viseu according to an announcement today by the ministry of the interior here. Reports from the frontier state homes were thrown and shots were fired at a military train at Nelwpuu, 41 miles from Oporto.

DEFINITE MOVE TO END DEBATE ON THE TREATY

Expected to Be Made Saturday According to Statements of Senators

MAY BE A MOTION TO COMMIT TO COMMITTEE

Another Plan Is To Bring Up Article Ten and Quickly Dispose of Issue

By I. C. MARTIN
(United Press Staff Correspondent)

WASHINGTON, March 5.—Senator Hitchcock, democratic leader, has written President Wilson asking him to receive Senator Simmons as an adviser of general senators who want to compromise on the reservation to article 10 of the treaty, it was learned today.

Senators concerned in the move to get the president's view said they simply wanted to know what the president thought. They would then make up their minds, they added, whether to go against his wishes or abide by them.

Senator Knox, republican, today offered in the senate a reservation providing that the credit of the United States shall not be pledged by any representative of the United States or by the League of Nations without the prior consent of congress. The senate began considering the reservation regarding the powers of the reparations commission to interfere with American commerce.

Change Is Submitted.

The negotiations which resulted in the decision to ask President Wilson's permission to ask ahead began when Senator Keating, a mild reservationist, presented to Lodge a proposed modification of the Lodge reservation on article 10. Lodge agreed to submit it to the democratic Senator Watson who was defeated for this and took it up with Simmons. When Hitchcock saw the proposed change he said he thought it ought to be laid before the president.

The proposal is said to include written into the Lodge reservation specifically that the United States will not use its military or naval forces, the economic or diplomatic pressure or its financial resources to preserve the territory and independence of any other nation. The Lodge reservation does not now specify these means but simply says the United States assumes no obligations to protect other nations. Advocates of the proposed change declare it softens the Lodge reservation without really changing its intent. Many of Lodge's supporters, however, declare it weakens the reservation materially.

BAILEY DECLINES TO ACCEPT CHALLENGE OF MR. THOMASON

FORT WORTH, March 5.—Former Senator Bailey will not accept the challenge of R. E. Thomason, who they leave their gubernatorial aspirations to a primary in their home county. Cooke, with the understanding that the loser in such a primary will retire from the state race, according to Tom C. Bradley, of Fort Worth, who has a telegram to that effect from Bailey. The challenge was issued during Thomason's speech at Gainesville, March 2, opening his campaign for governor. Bailey is now in Washington. Similar telegrams were received by friends of Bailey in Dallas, including Judge Greenwood and John J. Simmons.

POPULATION OF THE PHILIPPINE ISLANDS TOTALS 10,350,640

WASHINGTON, March 5.—The population of the Philippine Islands placed at 10,350,640, according to figures compiled in the 1918 census, called to the insular bureau here. Of that number 8,420,857 are Christians, 1,649, being Catholics. There are 55,000 other foreigners in the islands, 45,158 being Chinese, 6,844 Japanese and 4,015 Spanish.

The number of manufacturing establishments was reported at 5,229 with a capital of \$80,372,934.

SHREVEPORT HAS POPULATION OF 43,874 SHOWING INCREASE OF 56.6 PERCENT SINCE 1910

WASHINGTON, March 5.—Population announcements of 1920, issued today by the census bureau include: Shreveport, La., 43,874, an increase of 15,859, or 56.6 per cent over 1910. Joliet, Ill., 38,372, an increase of 3,602, or 10.7 per cent over 1910. Anderson, Ind., 29,767, an increase of 7,291, or 24.4 per cent. Muncie, Ind., 34,524, an increase of 12,519, or 52.2 per cent. Lexington, Ky., 41,534, an increase of 6,435, or 18.3 per cent. Kingsport, Tenn., 25,884, a decrease of 24, or 0.1 per cent.

Of the group of six cities whose population was announced today by the census bureau, Shreveport, La., showed the largest growth in the decade from 1910 to 1920, the increase being 75 per cent, while in the ten years from 1890 to 1920 the increase was 33.7 per cent.

GOVERNOR HOBBY TO ADDRESS MEETING AT DALLAS ON SATURDAY

DALLAS, March 5.—Governor Hobby has accepted an invitation to address the state-wide meeting of democratic here tomorrow, according to Jasper Collins, secretary of the committee on arrangements. The governor wired acceptance last night, he said.

Four avowed candidates for the democratic gubernatorial nomination previously had announced their intention of addressing the meeting, the announced object of which is to organize the state-wide convention to the democratic national convention which is in sympathy with the national administration. These four were R. E. Thomason, B. F. Loycey, Pat M. Neff and Dwight L. Lewelling.

JAPANESE GOVERNMENT WILL ABANDON SIBERIAN EXPEDITION IN LINE WITH AMERICAN POLICY

HONOLULU, March 5.—The Japanese government has decided to abandon the Siberian expedition in line with the American policy, according to a cable message from Tokyo received by Shingo, a Japanese language newspaper here today.

The first detachment of Japanese troops will leave Vladivostok March 20 simultaneously with the departure of the last Czechoslovak troops, the message said.

The soviet government's peace offer to Japan according to the cablegram, asks recognition of Lenin's de facto government and resumption of full diplomatic relations, promising to end terrorism simultaneously with acquiescence with the offer and to recognize Japan's special rights in Siberia.

PRESIDENT VINSON TO "LECTURE" STUDENTS

AUSTIN, TEX., March 5.—President Vinson of the Texas university today called a joint meeting of the freshmen and sophomore classes of the university this afternoon for an address on the recent rioting at the annual freshmen reception in which several students were injured.

A rigid investigation of the affair will be made, Vinson said. He has just returned from Washington, D. C.

BURK-DIVIDE CASE BEFORE AUSTIN COURT; MOTION IS ARGUED

AUSTIN, TEX., March 5.—The case of the State of Texas, vs. the Burk Divide Oil company et al., which involves lands along the Red river in dispute between Texas and Oklahoma came up in the 53rd district court here today on motion of the defendants that the state court waive jurisdiction pending action upon their application for transfer of the case into federal courts.

The state, represented by E. F. Smith, assistant attorney general, contended that the state court should retain jurisdiction until the application is passed upon and maintain the Texas receivership of the land until a federal receiver is appointed.

MAN CHARGED WITH MURDER OF FAMILY IS PLACED ON TRIAL

ABERDEEN, MISS., March 5.—Charles Marshall, charged with the murder of Robert Miller, a farmer, and three members of his family, who were shot and killed at the Miller home near Amory on the night of January 15, last, was brought here early today under military guard for trial.

A detachment of 100 state troops under command of Colonel C. R. Dalbey, accompanied Marshall aboard the special train on which he was brought from Jackson where he has been held for safe-keeping and will guard the court house and jail while the trial is in progress.

About 20 witnesses have been summoned by attorneys for Marshall to testify in support of their motion for a change of venue which, it was announced, will be taken up immediately after he is arraigned today.

In advance of the hearing today it was announced that only persons directly interested in the case will be allowed in the courtroom during the trial.

BOUNDARY CASE IS BEING HEARD TODAY AT ENID, OKLAHOMA

ENID, OKLA., March 5.—Judge Frank A. Youmans again took up the matter of the Red river controversy case in federal court here at 2 o'clock this afternoon. Further arguments were heard from attorneys representing the Judsonia Developing association of Oklahoma men, against Sam Sparks, et al., Texas defendants, asking for a temporary injunction, involving a million dollar lease, with a large producing oil well in the Red river. The Judsonia people declare the defendants are holding their property by force of arms. Hearing is expected to be completed today.

NOT A VIOLATION SAYS THE ATTORNEY GENERAL

AUSTIN, TEX., March 5.—It is not a violation of the Sunday law for church singers and organists to render music in the churches Sunday and receive pay therefore, ruled the attorney general's department today. The question came up in connection with the blue law enforcement at Fort Worth on Sundays.

ONE MAN IS DEAD RESULT OF FIRE

CHILLICOTHE, O., March 5.—One man was incriminated and another was missing today following destruction of the community house at Camp Sherman by fire early today. The property loss was placed at \$170,000.

TWO KILLED IN RAID ON MOONSHINE STILL

HUNTINGTON, W. VA., March 5.—Two men were shot to death and a third is believed to be dying from wounds following a battle over a moonshine still near the Kentucky-Virginia line, according to word received today by R. L. Mullins, relative of one of the victims.

AMARILLO PLANNING FOR THE ERECTION OF LARGE AUDITORIUM

AMARILLO, March 4.—According to President A. S. Stinnett of the Panhandle Plains chamber of commerce, plans are soon to be made for the erection of a large auditorium in this city, to be used by the citizens of the Panhandle for livestock and agricultural exhibits of the Panhandle. Panhandle people have long felt the need of such a building, but because of the fact that there has never been an organized effort to erect same, it has passed almost with a second thought. Now, that the Panhandle Plains chamber of commerce has the matter in hand many people feel sure that it will only be a matter of a few months until such a building will be erected. The building will be centrally located, having the home office of the organization, together with special guest rooms for each county in rotation by the organization. These rooms will be used by out-of-town members as rest rooms, and will have agricultural exhibits on display during the entire year. Representatives from each county will only supply literature describing conditions in their midst, and when prospective home-seekers visit this city, by going to the office of the Panhandle Plains chamber of commerce they will be in position to get a panoramic view of the entire country, making it an easy task to decide just what portion of the country will best fill their needs. The cost of such a building will not be great when it is considered that 25 counties will aid in its erection. Panhandle hereford breeders have offered to assist.

MORE THAN 500 WELLS DRILLING NEAR FRANKELL

FRANKELL, TEX., March 4.—More than 500 drilling wells are now working in the territory immediately surrounding Frankell. It has become the most active part of the so-called Caddo pool in Stephens county since the big wells at Nesscity and in that vicinity were brought in following each other to the number of five or six within the past thirty days. From the Williams well two miles north of Frankell to the production that is now surrounding Breckenridge the drilling has picked up with good roads and pleasing developments until this territory is easily the leading factor in the Stephens county situation. In the immediate vicinity of Nesscity, four miles north of Frankell the small fellows seem to have been able to break into the big holdings and the drilling there is intensive in some places the rigs being so close together as to remind one of the halcyon days of Burkburnett. This drilling resulted from the uniform heavy production found in several wells within a radius of three or four miles of that place two of which were right at the town's center. The recent advances that make crude oil worth \$3.50 now have added to the stimulus that good road conditions started and there is more heart and enthusiasm in the drilling than there has for several months. This is coupled with the rapid construction work on the Wichita Falls, Ranger & Fort Worth railroad that is now completed almost to Breckenridge and promises to be operating trains regularly to this place after March 15th.

HOLLAND EXPECTED TO OFFER TO GUARD FORMER EMPEROR

THE HAGUE, March 4.—Holland's answer to the second allied note relative to the extradition or internment of former Emperor William of Germany will probably be handed Premier Lloyd George by the Dutch ministers in London this week. Intimations have been that the Netherlands government will express its willingness to guard the erstwhile monarch and prevent anything that might threaten the peace of Europe. Night and day shifts are working on the Kaiser's new residence at Doorn, to which abduction was made at first because it obstructed a public road, is now near completion and the authorities have waived opposition to the work. A trainload of furniture arrived at Doorn from Berlin several months ago and recently five additional truck loads were received there. The building has been radically remodeled, half of the first floor prepared for Count Hohenzollern's occupancy, while one of the wings will be given over to the former empress. While unprotected by high walls or a moat, the Doorn estate is now in reality a 200 acre cage that can be easily guarded and within which the Dutch government expects William of Prussia to spend the rest of his days.

INTEREST IN HARDEMAN COUNTY DEVELOPMENTS IS INCREASING; EXCHANGE OF LEASES CONTINUES

QUANAH, TEX., March 4.—Interest in the Hardeman county field continues to increase, while the exchange of leases continues to be active. Improved weather conditions has enabled all operators to move material and supplies to their locations, and indications point to a rapid completion of wells now being drilled. The Proven Fields company has made location in section 232. The Fort Pitt Corporation has installed all machinery for their deep test in section 333 of the Peniston tract, and will begin drilling within a few days. The Mid-West company is making rapid progress on their Wheat No. 7 in section 184. This well is in formations that are very favorable, and the officials expect a well in a very few days. The Mulkey test being drilled by this company is casing off their first water, and will be running day and night by the end of the week. The Great Western company, drilling in the Hopkins county school land is expecting their new derrick, and upon delivery, will erect same over their test which stands at 1010 feet. The Chillicothe Hardeman company, drilling in section 67, block 16 are reported to have resumed operations. The Wilbarger Oil Co. is ready to resume drilling on the Carter tract in section 21, block 10. The Groesbeck Oil Co. on the Sparks tract, northeast of Quanah, has completely overhauled all equipment and are now drilling with double crew. The Walters company in section 99 of the Gilliam tract has received some new bits for their rotary, and report good progress in the limestone formations through which they have been drilling. The Neo-No-She company in section 41 of the Stewart tract has set their 12 1/2 inch casing and report rapid progress with a double crew. Daniels and associates location in section 37, block 10. A small Texas company location in section 207. Drilling at 1500. The Frizzell Oil Co., No. 1 Norton, drilling at about 1500 feet. Formations are good, indications are good for a well in the near future. No. 2 on Edwar Norton tract has derrick completed over hole that is 250 feet deep. No. 3 Porterfield has derrick completed over hole recently drilled with star machine to depth of 1000 feet. Two sets of rotary tools have been purchased for these wells, and work will begin as soon as delivery can be secured. R. H. Frizzell of this

company has purchased a building at corner of Main and Second streets, and is having the second floor of same arranged and will use for oil offices. The Proven Fields company has made location in section 232. The Fort Pitt Corporation has installed all machinery for their deep test in section 333 of the Peniston tract, and will begin drilling within a few days.

RECENT ADVANCE IN THE PRICE OF CRUDE OIL IS STIMULATING DRILLING

JAKEHAMON, TEX., March 4.—The recent advance in the selling price of crude oil has operated to stimulate drilling in the Hog Creek field and its several extensions and now there is more drilling under way to the east and north of both sides of the county than has been seen since last fall. On the northern extension of the pool the best results seem to be had and there is a score of new wells being drilled in the vicinity of the Guadalupe College survey just south of Edhobby. East of this place in the Erath-Eastland county field on both sides of the county line there are fifty or more drilled wells in the recently proved extension of the Hog Creek pool. Refiners who have production of their own or supplies assured under time contracts are feeling good despite the high cost of crude, but the little fellows who have no production of their own and are dependent upon the market are not jubilant over the advance in crude as it makes their raw material cost too much. But refiners especially in the northern part of the pool are satisfied with the market inasmuch as they are able to sell their fuel oil at a price above the market for crude in some instances owing to its excellent lubricating qualities to refiners who further process the residue left from the skimming and re-size upon the lubricating qualities. One Ranger refinery has been offered \$4.00 a barrel on a time contract for the so-called fuel oil left after the gasoline and kerosene has been extracted.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal. Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey rock and rye, or any other cold and cough remedy they have ever tried. All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to slip into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoons with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it. When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

FRENCH TO ASSIST U. S. GRAVE VISITORS

PARIS. (By Mail).—Arrangements are being rapidly perfected in Paris for assisting Americans who will come to France this year to visit the graves of their soldier dead in the battlefields. For six months, the American Red Cross has been conducting a central information bureau here where are handled all inquiries from war-grave visitors, and these are assisted in arranging their itineraries to the cemeteries in the devastated region. The success of the information bureau has been such that the French government proposes to supplement it by the establishment of a central office which will provide hotel rooms and railway tickets. The central office will have a branch in every railroad station, and English-speaking clerks will be on duty to inform strangers arriving in the city as to where they can find the rooms and accommodations they require. Several schemes are on foot in Paris for the erection of large new hotels, and at least one of these will be operated on American plans, with an American staff. A British syndicate is also arranging to erect an all-British hotel of 2,000 rooms, the largest hotel in France.

Income Tax Service at This Bank U. S. REVENUE AGENT STATIONED HERE who will be pleased to assist you in making your income tax rendition. You are cordially invited, whether a customer of ours or not, to avail yourself of his services. This service started Monday, March 1st. CITY NATIONAL BANK OF WICHITA FALLS Resources Over Sixteen Million Dollars

SUBSCRIPTIONS FOR THE WELFARE COUNCIL TOTAL ABOUT \$5000

With only a few of the committees making partial reports, and with the business section of the town not yet even skinned, the welfare council budget subscriptions reached a total Friday morning of around \$5,000. Two floors of the new City National Bank building yielded \$1,200, with only a few of the new occupants at home.

The general confusion which is resulting from the moving of various companies and individuals to the new office buildings and interchanging in the old office buildings has made it a difficult matter for the committees to call on all who are on their lists, and is also making it difficult for the committees, many of whom are also moving, to get to work.

"We will work as long as necessary to raise the budget which the council needs," Mr. Martin, the president of the council stated Thursday. "We have started under difficulties, however, and with the success which the teams which have been able to get to work have made, it seems assured that we will not have long to work, when we can finally get started in earnest."

"The crying need for funds with which to get the day nursery, particularly of all the departments, in operation was again emphasized by Mrs. C. E. Ousley, secretary, who told of a new case which adds four more children to the large list of those needing the day nursery. The father is unable to assist in the support because of his physical condition, and the mother is also ill, and the four children have no care, nor opportunities. They are not eligible for entrance to an orphan's home though their condition is practically the same as if they were orphaned. The welfare council can care for them, when the \$20,000 fund is raised.

TEN MINUTE SERVICE ON SOUTHLAND LINE ALL DAY WHEN NEW CARS ARRIVE

Ten minute service will be maintained throughout the day on the Southland street car line with the receipt by the traction company of the four new cars for this line which have been ordered, and the arrival of which is expected by April. It was announced Friday by L. L. Albritton, general manager. At the present time a 10-minute service is maintained during the busy morning and evening hours, and 15-minute service throughout the day.

This is the first photograph of the Caruso family, taken while the great tenor was celebrating his forty-seventh birthday. Gloria, who is the child's name, is now two months and a week old, and already shows symptoms of being a great soprano.

MANY TRAIN CREWS ARE BEING LAID OFF RESULT OF CHANGE

Since the return of the railroads to private ownership more than a score of train crews working out of Wichita Falls have been laid off, it was learned Friday. The Katy is reported to have laid off in the neighborhood of 12 crews, and the Denver roads about an equal amount.

Twice as many men are being used as when the railroads were in government hands, according to a comment of one of the local railroad men in the city.

WILL BE PRACTICALLY NO CHANGE IN SITUATION Although the slack which comes

every spring, following the winter rush, will result in considerable improvement of the conditions on the railroads in and out of Wichita Falls, and will result in praise on the part of shippers for private operation, and a consequent damnation for private control, there will be practically no change in the railroad situation following the change of management.

"One advantage I see in the private operation, however, will be a return of the competitive spirit, which was missing when all the roads were operated under one agency, the government. This will probably result in some little improvement of the situation. No matter how conscientious a man, or organization is, it can not quite do as good work without this impetus as when the competitive element is present."

AUTO DEALERS NOT TO TAKE ACTIVE PART IN THE STYLE SHOW

The automobile dealers will not take active part in the Annual Spring Style Show, according to a decision reached by them at a meeting Friday morning. Twelve members were present at the session.

The reasons given by the auto men are not enough time in which to prepare for a show, no place to hold the show and no cars to show.

"We will, of course, give the show our unanimous support," said Lloyd Weaver, who presided at the meeting. "The men voted to do everything they can to make the style show a success, but lack of cars and facilities makes it impossible for them to put on a show at the present time. For instance, some of the men have not a car in their show rooms. Should a show be held they would be compelled to borrow cars from their customers in order to have an exhibit of any kind. Poor deliveries make it impossible to promise anything better for some time."

"Even if we had the cars, we would not be able to put the thing over the way it should. The dealers certainly would not want to put the cars on the street to show them, and there is no showroom large enough to house all the entries. "We will do everything in any other line we can to put the show over right. We will advertise it and devote our time to it and the men in charge may be assured of this association's support throughout."

Mr. Weaver further stated that it was probable that an automobile show might be held some time in the future, when better deliveries and a place to house the cars could be secured.

The meeting of the style show

IMPORTANT MATTERS TO BE DISCUSSED TONIGHT AT MEETING OF OIL MEN

Important matters in connection with the income tax will be discussed at a mass meeting of those interested in oil development at the Elks club at 7:30 tonight. The meeting has been called by C. H. Clark, president of the Wichita County Oil Producers' association. All interested in the development of the oil industry are urged to be in attendance.

FIRE DAMAGES HOUSE BELONGING TO BOB McHAM

Two rooms and the roof of a one-story frame home at 1205 Lamar street, belonging to Bob McHam, were burned and the furniture was damaged by water Thursday afternoon about 5:30 o'clock. In spite of the high wind the fire department put the fire out promptly and saved the adjoining property from catching from the sparks. The damage is reported to be partially covered by insurance. The house is occupied by Elmer Fyle, train dispatcher for the Fort Worth & Denver railway here.

POSTPONE MEETING OF THE CITY COUNCIL

The meeting of the city council scheduled for last night was postponed due to the absence from the city of Aldermen J. M. McFall and M. A. Bundy.

Every department of housekeeping needs Red Cross Ball Blue. Equally good for kitchen towels, table linen, sheets and pillowcases, etc.

Call Field News

Sale of Buildings. Wednesday afternoon about 50 persons motored to the field for the purpose of attending the auction sale of the unused buildings. They were well repaid for their trouble as most of the smaller buildings found ready buyers among those present. Starting at the headquarters building the sale took the buildings in order towards the farther end of the field and then returned to the lower end. By that time the weather had changed and the rain and wind storm put an end to further selling. Mr. Farnell, who acted as auctioneer, announced that the rest of the buildings would be offered for sale in about 15 days and that any of them would be sold at private sale before that time.

Ladies' Sewing Circle

The Ladies' Sewing Circle met this week with Mrs. Fitzsimmons. For the past two weeks the ladies have been sewing for the hospital. This week all of the time was spent in making surgical sheets which are very badly needed. New officers were elected at this meeting, Mrs. Duffy being the new president and Mrs. Shaw the new secretary-treasurer. It was also decided that this week Saturday the club members would entertain their husbands with a "wiener" roast and dance in the community house.

Gun Club

The management of the Gun club announces an attractive program for this week's shoot. The program will start at three o'clock and anyone wishing to learn to shoot will have a chance to practice before that time. This is an excellent opportunity for beginners to learn the game as there are always experienced shooters on hand ready to give advice. The program for the day will con-

sist of four events as follows: 10, 15, 10, 15 birds. The second squad formed in each event will be for the ladies and any who wish to try out their 20-gauge guns. Regulation targets will be thrown but the contestants in this squad will stand nearer the trap house. Interesting prizes will be given the winners in each squad and event.

Removal Notice

It is a pleasure to announce to my friends that I am now located in my new office on the second floor of the National Bank of Commerce building and will be very glad indeed to see them at any time. The building is not quite completed yet, but three elevators and an excellent stairway are working perfectly and it is very easy to find the many offices that are now occupied. Wichita Falls city property. "Since 1914" continues to be my special field of endeavor and I will appreciate having you call if you desire to sell or purchase any form of Wichita Falls real estate. I thank you. Very cordially, J. Wilkie Gilbert, 220 National Bank of Commerce Building. Telephone 629. 278-28c.

BUXOM MAIDS MUST REDUCE TO WEAR 1920 CLOTHES.

By MARGARET ROHE (Written for the United Press). To spring styles all for slim folks are. And so to get more trim, the fatted, flaring and stunts, do despatchly begin.

NEW YORK, March 5.—It's really no use if you are one of those 200-on-the-hoof figures to hope to carry off with any degree of chic one of those girlish little Eton jacket suits. As for the happy, hippy flounced and panned taffeta frock model or the pleated skirt and separate slip on blouse effect the saleslady who persuades one on your plump personality should be shot at sunrise.

Yet the fat female must wear smart as well as panteing with embonpoint. It is a cruel fate that fashion should design exclusively for willow wand figures this spring. There is simply only one way Fatima may hope to scale the heights sartorially and that is to tip the scales less ponderously.

Judge is impressing importance of jurors serving when called. Judge Edgar Scurry in attempting to impress upon men who had asked to be excused from jury service in the 5th district court Thursday their duty to serve, told them that the jail was full of prisoners who ought to be given trial.

There's never a scrap of paper, a written word, to spoil the delicious and intriguing mystery of the dose. That's probably the reason that the plump patients don't understand why with every five pounds loss they gain a year of age, why with every ounce off there's a wrinkle on. For the favorite motto of the reducing doctor is: "A little thyroid makes the whole world a different place." Only he adds and adds "and a lot of thyroid makes 'em thin quick." So the answer to this get-thin-quick method is spelled thyroid with a capital T and when the patients have reduced sufficiently to fit the spring styles they are also reduced to a fit state for a sanitarium.

THIRTY DAYS AND \$150 ON A PISTOL CHARGE. George Clement, said to be an oil field worker in the Burk Burnett section, pleaded guilty in county criminal court today to carrying a pistol and was fined \$150 and assessed a 30-day jail sentence.

WANT LAWTON TEACHER OUSTED FROM SCHOOL

All But Few of Pupils and Faculty Quit Pending His Removal

LAWTON, OKLA., March 5.—With but twelve pupils remaining in the school and the entire faculty with the exception of President Farley, Mrs. Farley and one teacher having resigned, the Cameron state school of agriculture here may be forced to close its doors. Practically the entire student body left the school Wednesday following the resignations of the faculty when an investigation by a committee from the state board of agriculture failed to sustain informal charges made by students and faculty members against President Farley. The students refuse to return unless President Farley is removed.

NO FORMAL CHARGES FILED WITH BOARD

OKLAHOMA CITY, March 5.—"Unless specific charges of moral turpitude or of gross incompetency are made against President Farley of the Cameron state school of agriculture at Lawton, are brought, it will be the policy of the board of agriculture to sustain him in an effort to maintain the school with the least possible disturbance until the end of the term," President John A. Whitehurst of the state board of agriculture said last night. No formal charges against Farley have been filed as yet, Mr. Whitehurst said. Personal complaints were made to members of the board Wednesday while they were investigating conditions at the school, he said, but they were not considered of a nature to warrant the removal or censure of President Farley, as he has been requested by the students. The charges which brought about the investigation of conditions at the school were made against Mrs. Augustus, his wife, and her resignation Monday removed necessity for presentation of further evidence, Mr. Whitehurst said in conclusion.

YOUNG MAN TAKES POISON THURSDAY; CONDITION CRITICAL

A man believed by the police to be H. L. Lowell, wanted in Arizona, California and Louisiana, who has been working as a druggist in a local drug store, is facing a lingering death due to the effect of two bichloride of mercury tablets taken before his arrest. Lowell, alias R. Maynard, was arrested by Night Chief Scott and Officer Dodson about 9 o'clock Thursday night, where he was working, on the information of a young woman who said she knew him in Tucson, Ariz., and who told the police he was under indictment at that place for forgery and swindling.

Soon after the arrival of the young druggist at the city hall he showed effects of some sort of a strain, but the officers paid no attention to him at first, thinking it was due to nervousness. Later, however, he started rattling and admitted taking the poison tablets. An antidote in the way of the whites of a dozen eggs was poured down the victim and Dr. Beckman, who had been summoned as soon as it was learned he had taken the tablets, used the stomach pump. A temporary bed was made for him in a room at the city hall and Officer Jackson, formerly a hospital sergeant in the army, attended the man. He was suffering intensely Friday morning but the attending physicians could not determine the chances he has of recovering on account of the fact that no one knows exactly the time that elapsed between the taking of the tablets and when treatment was given him.

Mr. Goodfellow states the man admitted being the hunted party when confronted with the circular and picture sent out by the Arizona authorities. Papers found on the man showed he had received a dishonorable discharge from the navy. When he was taken ill he gave the officers an address of a young lady to notify in case of death.

PROPOSES PAYMENT OF A LUMP SUM OF \$500 TO SOLDIERS

WASHINGTON, March 5.—Payment of a lump sum of \$500 to each person who served in the military or naval forces of the United States was urged before the house ways and means committee by Marvin Gates Sperry, national president of the Private Soldiers' and Sailors' Legion. He opposed proposals of representatives of other soldier organizations for adjusted compensation varying from \$20 to \$50 for every month of service and said the services of 4,000,000 young Americans never could be paid by the skimping, miserly additional compensation bills pending before congress. "The \$500 grant," he told the committee, "should not be paid for some at so much a day or month, but as a helping hand from the government to aid in restoring former service men and women to positions of civil life from which they were called, without charge or contract, without money and without price, to serve in time of need."

RUSSELL DEFIES ROBERTSON TO SUBMIT ISSUE OF POLAND PLAN OF BOLSHIEVIKI

Suggests Committee the Names On Which Be Drawn By Blindfolded Child

OKLAHOMA CITY, OKLA., March 5.—Campbell Russell, state corporation commissioner and editor of "Cat" which publication has carried on a bitter fight against the governor's pardon and parole board, in a statement this morning defied the governor to put his political future in the hands of an Oklahoma jury. "I dare you to knock the chip off my shoulder," Russell said in broaching the plan, "either James Robertson or Campbell Russell should be eliminated from public life for the public welfare."

Russell suggested trial by a jury selected from members of the Oklahoma constitutional convention by a blindfolded child, his or the governor's resignation to follow the verdict. Russell's duty to the governor is the outcome of a bitter fight in which the editor attacked the governor's policy of handling pardons and paroles. At frequent intervals the fight burst into flames. The governor bitterly assailed Russell on the floor of the Democratic state convention recently and last week, investigated the so-called "Cat" charges. The investigation resulted in a report that there was no evidence upon which to base impeachment proceedings.

Russell's latest attack is in the form of a statement in which he proposes that the governor and himself put written resignations in the hands of the jury with instructions to file same with the secretary of state as soon as the verdict is reached. He insists that the "Cat" be allowed as testimony and that names of witnesses and records cited in the charges be furnished to verify the correctness of the "Cat" statements.

EARLY INVASION OF POLAND PLAN OF BOLSHIEVIKI

State Department Tells Committee This Government is So Advised

WASHINGTON, March 5.—A Bolshevik attack and invasion of Poland is imminent according to government advice, said a state department agent before the house rules committee in urging food relief by the United States grain corporation for Poland, Armenia and Austria.

Apparently the Bolsheviks, successful on all other fronts, are about to concentrate against Poland. "The Poles have shown wonderful patriotism but without aid they cannot hope to hold out much longer. They have been on the verge of signing peace with the Bolsheviks several times." Cassel read from state department reports showing that the Bolsheviks are causing a plague of typhus in Poland, which unless soon checked, he said, will threaten the world with the greatest plague in history. "The Bolsheviks are loading their typhus victims in armored motor cars taking them to the Polish border and forcing the Poles to accept them," he said. Cassel testified in connection with a drive to force Republican house leaders to allow passage of a bill providing \$50,000,000 for relief of Poland, Armenia and Austria. Cassel told of starvation conditions in Austria and said that in Vienna children were keeping alive on one meal daily.

Effect of Dry Law Reflected in Views of Peace Officials

NEW YORK, March 5.—District Attorney Swan said in a statement today that although prohibition had been in force only a short time, drunkenness and disorderly conduct have diminished, but murder and more serious crimes have increased.

More Crime in St. Paul. ST. PAUL, MINN., March 5.—"I think there is more crime since prohibition became effective," Captain Rowan of the police department said today. "Of course there are not so many drunks. We have more thievery and holdups. The slot machines and gambling in former saloons keep us busy."

Cut Crime in Half. CLEVELAND, O., March 5.—Prohibition cut crime in half in Cleveland, Chief of Police Smith said today. "I attribute the 50 per cent decrease in crimes of violence to the closed saloons and enforcement of prohibition," Smith said.

Decrease in Crimes. SAN FRANCISCO, March 5.—A decrease in crimes and arrests here recently was attributed today by Captain of Detectives Matheson to prohibition. Daily drunk arrests in San Francisco now average five or six, as compared to 50 or 60 of pre-dry days. "Cases of non-support and wife beating are becoming rare," Matheson said.

Too Early for Comparison. CHICAGO, March 5.—Chicago has had as many murders and arrests here recently was attributed today by Chief of Police G. J. Garry, chief of police, declared today. "Prohibition has hardly had time to make a real comparison possible, but there has been just as much crime in Chicago as in previous years," Garry said. "We've had as many murders and other crimes as formerly. The professional criminal, however, usually is not a drinking man anyway."

FOR SALE

Six-room house, bath, breakfast room, hardwood floors throughout. All built-in features; 2-room house, garage, etc. \$12,500.

Jackson Arrives and Is In Trim Shape For Bout Monday

Nate Jackson, one of the leading heavyweights in the game, and who is scheduled to go 12 rounds with Dick Griffin at the C. A. C. Monday night, arrived in the city Friday morning. Jackson looks to be in wonderful condition and should make things interesting for Dick.

A few words right here about Jackson and his reputation might not be amiss. In the first place, Jackson has a 10-round draw with Champion Pete Herman to his credit. He has been boxing around Hot Springs, Kansas, Tulsa and New Orleans, of late only, while working out in those cities he has added a few scalps and shekels to his collections. Jackson is one of the highest class boxers yet brought here by Edwards.

Jackson will put the finishing touches to his training here this afternoon and Saturday. After that he will just do enough to keep him from going stale. He will have Battling Squire as a sparring partner. The latter is a crack fighter. The boys have been training together and will leave Fort Worth early Saturday in order to get here and work out Sunday afternoon.

Dick is in Fort Worth working out with Freddie Hill. Hill is looking like Freddie's and it. The boys have been training together and will leave Fort Worth early Saturday in order to get here and work out Sunday afternoon.

Uncle Sam Came Out of World War With Sport Fever

By HENRY L. FARRELL
(Staff Writer)

NEW YORK, March 5.—Uncle Sam came out of the world war with a sport fever. Symptoms of a "deadly interest" in athletics were shown by the government when the Yank army was being trained and later when it was yearning for something to do in the fall after Armistice day.

The army then got its feet real wet in sports. It promoted two of the biggest games of history—the A. E. F. tournament and the inter-allied games. The task called for executive genius, united tact and car loads of American pep. The success of the two ventures not only gained universal commendation, but it showed potential possibilities of the army's hand in the athletic world.

The war department has declared a policy of government control of athletics, but it slowly is working into it. The handwriting is evident on the wall with government support of collegiate polo, re-organization of the New York State Military League, numerous indoor track meets held this season under the auspices of various army organizations, boxing bouts held by the army and posts of the American Legion.

If universal training is adopted by the United States it is a safe assertion that the army will direct practically all of the nation's junior athletic activities in the case in Belgium and several other European nations. The Olympic games, as is known, are to be conducted by the Belgian war department.

MORRIS TO HELP ORGANIZE WESTERN TEXAS LEAGUE

FORT WORTH, March 5.—J. Walter Morris, president of the Texas League and also of the Western Texas League, today announced that he would send representatives to Sweetwater are San Angelo, Abilene, Ballinger, Brownwood and Coleman. This will make the third professional league for Texas.

"HANK" GOWDY IS ALSO A POLITICIAN

COLUMBUS, O., March 5.—"Hank" Gowdy, major league ball player, is battling 300 as a politician.

Columbus men who saw service in the war have organized a Republican Service Men's Club with Gowdy as president. The club will take active part in the state and national campaigns this year.

MUST ANSWER FEDERAL CHARGE

According to their own statements, both Jack Dempsey (left) heavy-weight boxing champion of the world, and his manager, Jack Kearns, are glad of the chance to vindicate themselves publicly of the charge of conspiracy to evade the draft law that has been brought against them.

Sport Slams Jack Dempsey May Be Last Opponent Georges Carpentier

By STAFFORD

Nate Jackson is here. The fast featherweight is going to work out at the C. A. C. every afternoon now.

Manager Johnnie Nee of the San Antonio Bronchos is the first victim of the training season, according to word from the city.

"Wonder if Mr. Nee was sprung during spring training."

For that matter they tell us Ham Patterson is standing "Pat."

Just a week and a day until the opening of the baseball exhibition season. The Dallas All-Stars are coming here for a trimming then, and after that it will be some bigger game served to a Spudder.

This New York Giants-Boston Red Sox clash on the 22nd should draw a record-breaking crowd. The local fans and visitors will have an opportunity of seeing such stars as Harry Hooper, Evert Szent, George Burns, Larry Doyle and the rest of the bunch.

It looks as though Benny Kauff will have to send his regrets, however, Benny pulling a prize home, and bought a car from a fellow that didn't own it. Of course, according to Benny's friends, it was perfectly innocent on Benny's part, but he'll have to tell it to the judge. In the meantime, the Giants have come south and Kauff is still repining in northern climes.

Charlie Greenberg, Ohio avenue champion, is preparing up this afternoon for 12 open-toe-cummers match St. Patrick's day. While the Ohio avenue title will not be the only thing open for competition, it will be one of the most interesting contests.

Joe Pats has offered a silver trophy for the six weeks officers' event. Now it's up to Joe to step out and cop the prize. Or would that be considered good etiquette?

The Panthers are warming up for the regular season by playing basketball. Chances are they'll need the baskets before the end of the season.

Why not get up a contest to see who is to be the Spudder mascot for the coming season? The contest would not lack entrants, and a baseball suit would make any youngster work. Think it over, Walter.

Dandy Dick Griffin is due to arrive from Fort Worth today. Resplendent Richard is also due to work out a couple of times. There are a few classy men training here, so there's no lack of workout material.

What the managers should try as a training camp game is football. It would afford them an excellent opportunity of getting a line on whatever "bone" there would be in the camp.

Some other suggestions to training camp managers:

1. For training the eye, why not put a Mason's jar (jar full of beans on exhibition) just back of second base and as the player rounded the sack let him guess the number of beans in the jar.
2. For training the wind: Put a light spring hat on the player's brow and let him chase it around town on one of those windy days.
3. For training the arm. Start a doughnut and taffy factory and let the boys workout on 'em products. This would also be conducive to good control.

Them wuz the days—When a player trained on beer, pretzels and cheese.

Training Camp Tips

SAN ANTONIO, TEX.—The New York Giants will have to stand pat on its present club. Manager McGraw, who arrived here yesterday to take charge of his squad, admits that efforts to secure Roger Hornby, Rabbit Maravilla, or Milton Stock had failed although big offers had been made for them.

Babe Smashing Bats.

JACKSONVILLE, FLA.—The arrival of Lefty O'Doul, the first of the Pacific coast delegation, and the smashing of seven bats by Babe Ruth, marked the workout of the New York Yankees here yesterday. Duffy Lewis, Bobby Messersmith and "Truck" Hannah, listed among the missing, were expected to arrive today.

May Join the Dodgers.

JACKSONVILLE, FLA.—Outfielder McHenry and Mayor Heathcote, of the Cardinals, may join the Brooklyn Dodgers before Wilbert Robinson heads his flock north. President Ebbets is said to have offered Jeff Pfeffer, his holdout pitcher, to Branch Rickey for two of the above three players.

Rain Interferes.

WEST BADEN, IND.—Rain busted the Pirates training schedule yesterday but a strenuous workout was given the advance guard indoors. Pitcher Frank Herbst, the Waterbury recruit, is rounding into good form following illness.

Five Indians Missing.

NEW ORLEANS.—Five Indians are still among the missing from spring training. They are infielders Harry Gardner, Joe Evans and Joe Harris, and catchers Thomas and O'Neill.

Thomas sent word he'd arrive Saturday. O'Neill has signed and is at Cleveland. Harris is still a holdout. Cleveland will meet a team composed of veterans of the Third Division in an exhibition game here March 18.

To Play at Dallas.

BOWNSVILLE, TEX.—Fourteen of the St. Louis Cardinals were working out in Houston today and will go on to Dallas for games with the Texas League team there Saturday and Sunday. They will return and clash with the Houston team Monday, returning to their practice lot here Tuesday.

Pitcher Holden and infielder McClary reported yesterday increasing the Cardinals' line-up to forty men and making it easily the largest outfit in Southern training camps.

Watching the Skies.

MACON, GA.—Debris Tigers were watching the skies today. Yesterday the clouds spilled all over the place and interfered seriously with Jack Coombs' plans for working Jennings pitchers.

Best for Practice.

HOT SPRINGS, ARK.—Despite sore joints, all of the Red Sox players reported for practice. "Big Babe" Feherty, the Sox rookie, continued to round the ball around the lot.

Braves Knocking 'Em Out.

COLUMBIA, GA.—The Braves, led by Captain Murray, after yesterday's "skull" practice due to a rain storm, got in some stiff batting practice today. Besides Feherty, the Catholics' pitcher was out to the park today but did not don a uniform.

Moran Goes to Florida.

CINCINNATI.—Three stars of the world's champion Reds—Eddie Rousch, Peinie Groh and Hod Eller, were unlisted as a small party of Red's headed by Pat Moran, left here today for the Reds training camp at Miami, Fla.

Eddie McDonald Is Causing Some Worry In Camp of Spudders

Will Eddie McDonald report? If you have the answer to that question, you can save Walter Salm and his assistant in the person of Secretary Gray considerable worry.

McDonald is now the missing link. With him here ready to play, Salm would be as well healed as any manager in the league as far as fast infielders are concerned. If he does not come—it's up to Salm to scout up someone else.

It would be a real job, however, for Walter to get another McDonald. Of course, he might be able, and probably would be able to fill up the gap at the keystone station with some youngster, but he'll have a hard time filling Eddie's boots or even one-half of one per cent of them.

The fact of the matter is—Eddie's the class. He's a fighter from the word go and he doesn't know when he's licked. That's why he's so valuable. He's in there all the time, fighting and crabbing and getting the players filled with pep and pep is what wins ball games.

At the present time, Eddie is at his home in Albany, New York, or at least that's where he's supposed to be. He writes and says that he is undecided whether to come south or not, as it would be a lonesome trip without the comforting feeling of a sturdy coal shovel leaning on your arm, or some reason like that.

That isn't natural. Few and far between are the human beings who would pass up a trip to the Sun-Down South (?) at this time of the year and it is probable that Eddie will finally give up the coal shovel and it's lures and finally decide to mosey southward. If he does, he'll make Walter Salm feel mighty good.

Smoking Economy—that means El Toro 8c

Even if you can afford high priced cigars it's foolish to buy them when you can get a delightfully fragrant, mild El Toro for 8 cents.

Our own plantations yield the carefully cultivated leaf that goes into these wonderful cigars. And our own sanitary factories make them—by hand.

INCREASE IN PRODUCTION WITH RAISE IN PRICE ADDS \$50,000 DAILY TO INCOME OF OPERATORS

With a \$5,000 barrel per day average run for the Wichita Falls district the past week the runs for the district marked up the largest increase made by any week for the previous several months. The increase, which came entirely from the Red River pool and the extensions of the Wagoner, together with the 50 cent boost in the price of crude oil meaning better than a \$50,000 a day additional in the pockets of Wichita Falls oil producers.

Of exceptional interest among the completions are the Emerick-Daniger, No. 1 Michna, and the Mo-Tex, No. 1 Evans, both of which affected extensions of the Wagoner pool into territories previously considered condemned, or semi-condemned. The Emerick-Daniger was not far from production, but the Mo-Tex was very close to a hole abandoned months ago as dry. Neither has been finally completed, but both are flowing from 600 to 800 barrels per day while awaiting completion. Another and considerable addition to the total production of the district is looked for right away from the Red River pool, for although no completions were reported this week, one of the tests on the sand of the Lincoln, Brewer and McDaniels in block #21 is reported flowing around 400 barrels while preparations are being made to drill deeper into the sand. The Woodburn Oil Corporation's No. 1 Roberts, in block #20, has a hole full of oil and is now completing, and the Burk-Wagoner Oil Co. and Wagoner & Green are scheduled to complete several tests which have been on the sand for some time.

Two completions came this week from the South Burk Burnett 1200 foot sand, the Schaffer & Mangum, No. 3 Daniels, being good for about 500 barrels, and incidentally setting a new high record for completions in this pool. The Sinclair Oil and Gas Co., No. 1 Daniels, previously carried as a 100 barrel well, has been put on the pump and is making 250 barrels. Only three abandonments are reported this week for the entire district, one from the Red River pool, the Burk-Northern Oil Co.'s No. 1 Durfee, one from the Texoma-South Burk Burnett district, and one from the Electra district. The Burk-Northern was north of the northeast corner of block #22 and the farthest west of any of the completions in the Red River pool to date. The hole was abandoned at 1500 feet. The sand at 1530 made only a slight showing of oil, and further drilling held out no prospects for a betterment. The average number of completions are shown by the Wagoner.

The list follows:
Electra Completions:
Standard Drilling Co., No. 1 Zieser, (Wagoner) 200 barrels.
Johnnie Tolbert Oil Co., No. 6 Coleman, 20 barrels.
Buffalo Texas Oil Co., No. 2 Grace Jennings, dry and abandoned, 1200 feet.
Schaffer & Mangum, No. 3 Daniels, 500 barrels.
Sinclair Oil & Gas Co., No. 1 Daniels, pumping better than 200 barrels, (previously carried as 100 barrels, swabbing).
Wichita Oil Co., No. 1 Daniels, abandoned dry at 1520 feet.
Burk Burnett, Wagoner, Townsley and Magness Petroleum Co., No. 19 Hardin, 20 barrels.
Texas Barnett Oil Co., No. 1 Evans, 600 barrels.
Lincoln Brewer & McDaniels, No. 1 Allen, block #21, 400 barrels.
Langford, Staley & Chensault, No. 2 Brannon, block #9, 100 barrels.
Preston Phoenix Oil Co., No. 1 Taylor, block #7, salt water.
W. G. Skelly, No. 11 Wagoner, lease B, block #7, 100 barrels.
W. G. Skelly, No. 12 Wagoner, lease B, 500 barrels.
Margay Oil Co., No. 5 Wagoner, block #8, 150 barrels.
Margay Oil Co., No. 6 Wagoner, block #8, 125 barrels.
The Texas Company, No. 33 L. Morgan, 100 barrels.

FREAK OILS PROVIDE A SUPPLY OF GASOLINE FOR MANY OIL OPERATORS

FRANKELL, TEX., March 4.—Gasoline generally costs the producer of crude oil as much money as is paid for motor fuel by any other user of the product. For gasoline is a product of petroleum and comes from a refinery. It is one of more than 100 petroleum products and crude oil is not readily divided into its derivatives. But there are some producers of crude oil in the Stephens and Eastland counties oil fields who buy neither lubricants nor gasoline and yet they are not refiners. This is due to freak oils in some of the wells that afford lubricants in the crude state of the oil and to the remarkable gasoline content of the gasses from most of the wells. It is in the latter that many leases are able to secure ample gasoline for their motors. A drip is arranged in a gas line and into this the gasoline falls condensed by the cooler atmosphere. In cold weather it is usual in some leases to collect several barrels of gasoline a day from one well. In hot weather the condensation is less and sometimes an arrangement is made to cool the gas pipes by running them through water before the drip is reached. On the Griffith lease

of Jake L. Hamon south of this city sufficient gasoline is secured for a large fleet of motor cars and for other motor use on the lease. It is this gasoline content in the crude gas of the Eastland and Stephens county fields that makes the installation of casinghead gasoline production of petroleum. In most instances this casinghead gasoline is too light and explosive for use in its crude state in motor vehicles.

Possibilities Of Trade With Australasia

THE BROKEN HILL STEEL PRODUCE AT NEWCASTLE, NEW SOUTH WALES.

WHEAT AWAITING SHIPMENT EXPORT AT WILLIAMSTOWN, MELBOURNE, VICTORIA. AUSTRALIA RANKS HIGH AMONG THE GRAINERS OF THE WORLD.

BUSINESS CENTER OF THE THRIVING CITY OF MELBOURNE.

By FRANCIS H. SIBSON, Vice President Guaranty Trust Company of New York.

COMMERCIAL relations between the United States and Australia have made rapid strides during the last year. Yet Americans still know little about the vast trade opportunities in a country larger than the United States, but with a population less than that of New York City.

In 1913 Australia bought German goods valued at \$35,000,000, and the United States sold her products worth only \$25,000,000. In the year ending June 30, 1919, American exports to Australia reached the value of \$100,000,000.

Besides producing more wool than any nation in the world, and ranking high as a producer of wheat, Australia possesses fabulous wealth in iron, zinc, gold, copper, tin, silver, tungsten, platinum, and radio-active oils, as well as diamonds, sapphires, emeralds, opals, tourmaline, and rubies.

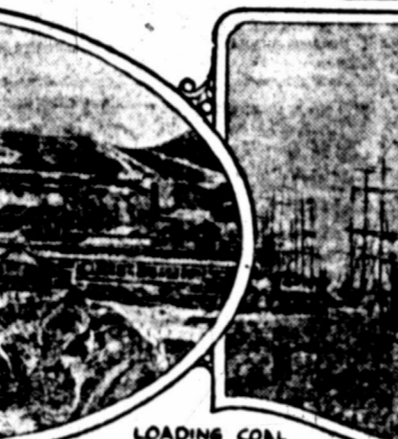

Australia could easily support a population of 50,000,000. Her markets should be especially cultivated by the United States as the seasons in the two countries are exactly reversed.

Since Australian merchants place orders about nine months before goods are required, American orders could be filled in the dull season in the United States between the regular seasonal shipments for domestic trade.

"One of the great drawbacks to trade relations between the two countries is the question of credit," writes

GOLD AND COPPER MINE AT MT. MORGAN, CENTRAL QUEENSLAND, AUSTRALIA HAS GREAT MINERAL WEALTH.

LOADING COAL AT AN AUSTRALIAN PORT—COAL IS ONE OF AUSTRALIA'S KEY PRODUCTS.

A FLOCK OF MERINOES—AUSTRALIA PRODUCES MORE WOOL THAN ANY OTHER COUNTRY IN THE WORLD.

AN AUSTRALIAN OSTRICH FARM—ONE OF THAT COUNTRY'S UNUSUAL INDUSTRIES.

the American Trade Commissioner in Melbourne. "American manufacturers would hardly consider appointing an Australian representative and allowing him to take orders on open account, with thirty to sixty days' sight draft after arrival of the goods. The American salesman would find considerable difficulty in ascertaining the financial standing of local merchants, and, on the other hand, Australian merchants accustomed to the liberal terms granted by English and German houses, would not be inclined to make purchases and pay cash when the goods were shipped. Some Australian bankers realize the situation and are willing to make arrangements with New York banks to pay American manufacturers for their goods upon receipt of the invoices and shipping documents when properly authorized by the Australian merchants, who will pay the interest, exchange and collection

fees upon terms prearranged with the bankers. This gives the American merchant the cash payment which he desires, guarantees the Australian that the goods have actually been shipped, and in addition local banks provide the credits necessary for the Australians to do business."

Australian merchants feel that while it is advisable for representatives of American firms to make trips to the Australian market, in order to establish connections, local agents can conduct the business more satisfactorily.

Another drawback to increased trade with the United States has been a lack of good agents. Types of American machines, for example, which later had large sales, were out of the Australian markets for years because our manufacturers did not put a sample machine into the hands of a good agent. Unnecessary risk of this kind

can be avoided by an exporter by thorough investigation in advance—through banking connections—as to the reliability of the Australian agent.

The largest manufacturing centers and the largest engineering shops are in Sydney, New South Wales, and in Melbourne, Victoria, which places produce an equal amount of manufactured goods. A rapid growth in the meat-canning industries of Queensland will result in an increased demand for

American machinery. The same is true of Western Australia with its gold mining development.

There is growing scarcity of many goods in Australia, the chief shortage which must be replenished being found in tin plate, galvanized iron, wire and copper cable, steel and iron girders, joists, plates, sheets and bars, gas tubes and fittings, paints, shellac, putty, cutlery, tools, aluminum, enameled and hollow ware, gasoline en-

Australia as elsewhere in the world. Medium and fine grade shoes, though a little higher in price, are preferred by most Australians, who are willing to pay the difference. The importance of textiles, also, in the Australian import trade may be seen from the fact that this industry furnishes about 25 per cent of the total revenue from customs and excise. American exporters should adopt British widths.

Trade with New Zealand—a thousand miles from the Australian continent—differs from that with Australia except as concerns engineering appliances and machinery. Most of the goods sold are similar to those suitable to the smaller cities of Pennsylvania or Illinois. The population is rural, only a small proportion working in factories, and the great demand there is for cottons, flannels, gloves, velvets and trimmings, automobiles, labor saving machinery, hardware, especially stoves, axes, saws, picks, spades, forks, carpenter's tools, lamps, wire netting and galvanized iron and American lace and embroideries.

When speaking of Australia and New Zealand collectively, they are generally referred to as "Australasia." Almost every article made in Australasia is protected by an import duty. It must be remembered that Australasian wage earners are well paid comparatively and can afford to pay for the best quality. In selling to the agricultural population outside of the cities, the American exporters have to deal with storekeepers' associations, through which source the up-country stores buy large quantities of goods.

The list of American goods advertised in Australia ranges all the way from motor trucks to chewing gum, and includes typewriters, clocks, patent medicines, pianos, cameras, fountain pens, corsets, toilet articles and soap. California apples, asparagus, sweet corn from the Middle States, canned salmon and herring, sardines and lard compounds find a ready sale in Australian markets. A large trade has grown up with the Pacific Northwest in lumber, principally Oregon pine, as the result of the lack of native woods suitable for building purposes. The extensive forests of Australia are made up almost entirely of hardwoods and are largely of the eucalyptus or gum species.

One of the most striking characteristics of Australia as a market for goods is the concentration of about 60 per cent of the population of the country in the capital cities. A similar condition cannot be found in any other part of the world.

Australian business houses lately have been seeking agencies for combinations of American manufacturers organized under the Webb-Lewis handling allied lines of goods from different groups of manufacturers, in order that they may be able to furnish full lines to the retailers who deal with them.

The Australian banking business is divided among twenty-seven strong banks with numerous branches. Unity of action on the part of the banks is common. All banks doing business in Australia quote the same exchange rate on London, all charge the same rates of exchange between different cities in Australia, and all ask the same rates of interest on loans.

Since the war many Australian importers have arranged for cash payment against documents in New York. The value of uniform price lists for the maintenance of complete files of prices is constant. Australian importers are consistent readers of leading American machinery trade journals and inquiries frequently follow on the strength of their advertisements.

American shoes are as popular in

"KEMP-HARVEY" NAME SELECTED FOR NEW MILLION DOLLAR HOTEL, OPEN WITHIN NEXT SIXTY DAYS

About 60 days from today the Kemp-Harvey, Wichita Falls, new million dollar hotel, will be ready to receive guests. These important announcements, the name, and the date of completion, were made today by C. W. Snider, of the hotel investment company. The new hotel is named in honor of J. A. Kemp and R. O. Harvey, who have helped largely to make the hotel possible, both through their activities and their subscriptions.

Some of the hotel furnishings are already in the city, and large quantities continue to arrive each week while all possible speed is being made on the construction work remaining unfinished, and on the interior finishing. Joseph Hunkins Jr. has the lease on the hotel and has had all the furnishings ordered for some time. His hotel management personnel is being formed at present, and no delay other than that of construction details is expected to hinder the opening of the hotel around the first of May.

HOBBY NOT IN RACE FOR GOVERNORSHIP

(Continued From Page One.)

than the victory which destroyed Prussian rule and made it possible for freedom and democracy to survive. There are those who were opposed to our going into the war, and they have been complaining of everything that has happened since. The democrats of Texas should sustain President Wilson in that gigantic undertaking and endorse his magnificent leadership through it all. A league among nations to avoid wars in the future and save the young manhood of our country from offering their lives on the field of battle became a part of the treaty of peace. The democrats of Texas should favor such a compact.

"Our country has been rescued from Wall Street financial control by the establishment of the federal reserve banking system and interest rates to the farmer have been lowered and assistance to the farmers in buying farms and becoming home owners has been given through the establishment of the federal land bank system. These forward steps alone should evoke the favor and support of Texas democrats.

Refers to Record.

"Under my administration the doors of the University of Texas, which were closed, have been opened, and the doors of the saloons, which were open, have been closed. Prohibition has been written into the state constitution, and for the first time

MOVEMENT ON FOR NEW NATION PARTY

(Continued From Page One.)

Bryan and had voted for both Taft and Roosevelt. He said in his campaign that he had always been a 'progressive' and wanted no democratic support unless it was from men who believed in just that kind of democracy. He was nominated by a majority of 17,000 votes.

Want Liberals to Combine.

He is said now to be one of those political leaders in the south who think the liberals of the south and north should combine to get control of the democratic convention at San Francisco.

Hoover's strength is said to be general in the southern states—markedly so in Texas. M. H. Wolfe, democratic state chairman of Texas, declared openly that either Hoover or McAdoo would be the best for the democrats to nominate. The Dallas News appears to be supporting Hoover, though not yet definitely committed to him.

If the administration would give the slightest indication, openly, that it either favored or was not opposed to Hoover's selection it would mean that many delegations would immediately fall in line behind him. Negligible sentiment for Attorney General Palmer is disclosed in the canvass.

NEW YORK, March 5.—Governor Allen of Kansas arrived here today. He will speak tonight at a banquet of the League for Industrial Rights, in the Waldorf-Astoria.

"Whether the party shall stand by what has been accomplished or go backward is the issue. Whether the party shall stand by what is written in the organic law of the land, or whether the party shall be led off by inaudible attacks to break down and nullify the recent amendments to state and federal constitutions must be determined.

"I shall therefore ask the people at the fountain source, the precinct primaries, May 1, to give a definite expression to the end of endorsing or repudiating that which has been accomplished under my administration and for that purpose submit my candidacy to the democrats of Texas for delegate-at-large."

MOVE TO END DEBATE ON THE TREATY

(Continued From Page One.)

mentary procedure and language upon which the senate usually conducts its deliberations.

The consideration of reservations went on today, Senator Lodge angered by the refusal of democrats to stand by the work of the recent bipartisan conference has announced he will offer no more amendments to the Lodge reservation.

At the same time democrats are awaiting word from the White House concerning a proposed compromise on Article 19 prepared by Senator Kellogg and submitted by him to Lodge, by Lodge sent to the democratic leaders and by them transmitted to the White House with a request that the president pass on it.

There is little hope among senators that Wilson will accept it.

It is understood not to change vitally the Lodge reservation and the president has been extremely emphatic in saying he would never accept a reservation containing the principle of the Lodge proposal.

SECOND CHALLENGE TO DISSOLVE PARLIAMENT

OTTAWA, ONT., CANADA, March 5.—A second challenge to the unionist government to dissolve parliament and call again an election was issued by T. C. Crear, leader of the new farmers' party, which was won every bye-election in its organization.

MONTOUR OIL CO. IS SUED BY COMMISSION; ASK FOR \$1,050,000

ASTIN, March 5.—Suits brought at the instance of the Texas railroad commission for alleged continued violations of the oil and gas rules of the commission, was filed here today against the Montour Oil Company, organized under the laws of Delaware and operating in Wichita county, Texas. Penalties aggregating \$1,050,000 are asked, together with application for appointment of receiver and injunction to prevent further drilling, marketing oil, or collecting proceeds from oil marketed since Feb. 1, 1920.

The Montour Oil Co. recently acquired the properties of the I. X. L. Oil Co., on the Morgan, south part of the Waggoner field.

VERDICT FOR DEFENDANT IN THE MYERS CASE

A verdict in favor of the defendant was returned by a jury in federal district court Friday afternoon in the case of W. C. Myers et al vs. Moore-Kyle company. The verdict was returned on a cross action taken by the defendant. The case, which involves several large oil interests of Wichita Falls, has been on trial before Judge James C. Wilson since Monday.

J. R. Polk is now at 901 Eighth street, corner Lamar.

D. M. PERKINS & CO. Insurance Real Estate OUR BEST BUYS

Floral Heights We have an exceptional beautiful five-room bungalow with all modern conveniences; has garage, servant house; no other such bargain in Floral Heights; this home is only \$8500, terms.

Filmore Street Beautiful five-room house, hard wood floors, modern, garage and servant house; a good buy at \$8,000; terms.

Bluff Street This five-room dwelling is close in, has all modern conveniences, built-in features, new tile in kitchen for occupancy, \$8,000; terms.

Kemp Boulevard East front lot close in on Kemp Boulevard, with a nice two-room garage; has gas and lights, \$2450; terms.

Polk Street Five-room house, modern, built-in features, garage, driveway. This house has exceptionally nice large rooms, \$8500; terms.

Some Exceptional Bargains We have about twenty homes most of them close in, which range in price from \$1400 to \$5000. Most of these homes are modern and are worth twice as much as we ask for them. Some of these homes are owned by parties leaving town, and are anxious to sell, but most of them are owned by parties who have prospered so that they want to invest in more substantial homes in the city. These homes are cheap only in price. You had better see us at once before the most desirable ones are taken. Three of these homes sold yesterday.

See Our Lots Vacant lots in all parts of town for homes, business or for track lots. Some of these lots are at a bargain. Let us show you these bargains.

Special On Scott, a four-room house on a lot worth twice what we ask for it compared with lots adjoining it. This is business property, but with improvements now on it it brings a handsome income. See us at once for this special bargain at \$5000; terms.

AUTO LICENSE FUND AMOUNTS TO \$30,000 FOR WICHITA COUNTY

A total of \$62,000 in automobile licenses have been paid into the county treasury during the months of January and February, it was announced by County Auditor M. M. Murphy Thursday. The \$30,000 of this sum, however, will be used by the county, the remaining one-half going into the state treasury. The amount going into the county treasury will be appropriated to the general highway maintenance fund. A total of \$50,000 of the 1919 auto licenses is still in the county treasury which brings the total county road maintenance fund to approximately \$80,000. This money cannot be used, however, under the present status of the county road system and is lying in the county depository drawing interest at the rate of 5.61 per cent.

NUMBER OF WICHITANS TO ATTEND DEMOCRATIC CONFERENCE AT DALLAS

A number of Wichitans will attend the democratic conference at Dallas Saturday. The conference has been called by a number of representative Texas democrats who are friends of the democratic national administration.

Among those who will go from Wichita Falls will be R. E. Huff, J. A. Kemp, Alex. Britain, G. D. Anderson and Fred Weeks. These will probably be the only ones. There will probably be others.

SUMMONED AS JUROR WANTED AS WITNESS

The name of one negro was drawn in the recent petit jury panel for service in federal court. The same negro, who resides in Wichita Falls, was also subpoenaed as a witness before the federal grand jury and was dismissed from jury service.

MORE THAN 40 ARRESTS AND 10 CONVICTIONS ON FELONY CHARGES RECORD OF THE PAST TEN DAYS

More than forty arrests on felony charges with ten convictions, followed with penitentiary sentences varying in length from two to twenty years in the last ten days is Wichita county's answer to the unparalleled crime wave which has engulfed this section in recent weeks. More than twenty charges alleging felony crimes have been filed in justice court in the past three days and has been the aftermath of the exposures of wholesale robbery and burglary schemes of a clever band of yeg-men known to be operating here. The frustrated plans of a gang of highwaymen to rob a local bank netted several arrests and the exposure of a tailoring establishment at Iowa Park resulted in three arrests. The robbery by firearms of two persons said to have been engineered by a woman, netted four more arrests. Four women have been arrested on charges of highway robbery or receiving and concealing stolen property, during the past week.

NEW JURY IS DRAWN FOR FEDERAL COURT

A new petit jury panel has been drawn for duty in federal district court here next week. The petit jurors being used during the present week will be excused from further service on Saturday afternoon, it is understood.

THERE'S SAFETY IN

Try "Purity Butter"

TODAY—its rich nutty flavor and its purity (pasteurized) milk will make it the favorite butter in your home.

AT ALL GOOD GROCERS

Pure Milk Products Company

The Agency of Specialists

Most men are honest—but it is only those you trust who have an opportunity to embezzle. Our company pays over a million dollars annually in losses under bonds. It is an honor for a man to be able to furnish a bond. Keep up the morale of your officers and employes and protect yourself with Fidelity Bonds issued by our office.

The best time to think of a loss is before it happens

LOWRY-FINCH & COMPANY Successors to Patterson-Reese & Prothro

"ESTABLISHED SINCE 1883"

616 Eighth Street Phone 87

Automobile, Workmen's Compensation, Public Liability, Plate Glass, Residence Burglary, Personal Accident and Health, and Bonds of Every Description.

Glasses as a Last Resort—

Many people positively refuse to give glasses proper consideration in the matter of relieving headaches and nervous troubles.

They take all manner of cures and medicines, but are at last driven to glasses.

Then it is—

"OH, WHY DIDN'T I DO IT SOONER."

Art Jewelry Co.
