### DECLARE PEACE RESOLUTION IS SURE TO FAIL

House Democrats Claim Republicans Will Not Be Able to Muster Enough Votes

By HERBERT W. WALKER  
(United Press Staff Correspondent)

WASHINGTON, April 2.—Republican leaders in congress will not be able to muster enough votes to pass their peace resolution over a veto of the president, leading house democrats declared today after a canvass. Both Champ Clark, Missouri, democratic floor leader, and Representative Flood, Virginia, ranking minority member of the foreign affairs committee, stated it would be impossible for the republicans to force the resolution through by a two-thirds majority, necessary to override a veto.

President Wilson has indicated to close advisers that he will not sign the resolution, which, if democratic predictions as to the house vote are true, means that a legal peace will not come until the senate and the president have agreed on some kind of a treaty. This in all probability will not be until after the elections, unless the president yields to the senate reservations.

Democrats are massing their forces for an attack on the resolution, when it comes up in the house. Pressure is being exerted by administration leaders outside congress. Homer S. Cummings, chairman of the democratic national committee, is expected to confer with house leaders during the next few days and urge them to stand by the president.

Determination of democratic party leaders to use the republican peace resolution against its authors as campaign material was evidenced, democrats said today, by the statement of Homer Cummings with regard to the resolution.

Cummings, who said he had no difficulty finding out what President Wilson thought about things, declared the peace resolution was "the lowest ebb of moral incapacity to which republican leadership has yet sunk."

He said it was an attempt to surrender American honor and to usurp powers which congress does not possess.

### FORMER MEMBER DECLARES SHIPPING BOARD A FAILURE

LOS ANGELES, April 2.—The United States shipping board, as such, was a failure, H. M. Robinson, former member of the shipping board, said last night at a dinner given by the World Traders of Los Angeles.

Mr. Robinson declared the sale of the government operated ships would mean a comparatively small loss. "The ships constructed by the government have cost about \$2,800,000,000 and when sold will net the government about \$2,000,000,000," he said.

### WAGE INCREASE WILL BE PASSED TO THE PUBLIC

Price of Coal to be Advanced to Cover Recent Advance in Scale of Miners

CHICAGO, April 2.—A general increase in coal prices will be passed on to the general public today or tomorrow to pay for wage increases to miners, retail coal dealers of the middle west predicted today.

With the removal of federal regulation of coal prices, effective yesterday, coal operators announced increased, immediately effective.

Today some retailers were still selling at the March prices but this, they explained, was due to the fact that the new prices had not been received from the operators.

Increases will range from 25 cents to \$1 a ton.

Chicago dealers today said they expected to quote higher prices this week. Only one increase has been made effective. Pocahontas coal has been boosted \$1 a ton. Coal was still being sold on March prices for immediate deliveries. Quotations for future delivery were refused.

Consumers in Indiana have already been assessed. Dealers have added 25 cents a ton to the price of Indiana and an eight cent West Virginia split. An increase of 50 cents was added to the price of West Virginia (canal).

At Detroit, Oklahoma City, St. Paul and Denver there have been no increases but dealers say there will be. Coal in Denver today was selling slightly below March 1 prices, due to a glut on the market.

At Des Moines, reports indicated a general advance of 10 per cent throughout Iowa, an average increase of 75 cents per ton.

Even Los Angeles boosted its coal prices. Coal there today was selling for \$16 a ton as compared with \$15 last year.

At Milwaukee, the price of coke was advanced 10 cents for all sizes. Dealers in St. Louis liked prices slightly. Coal delivered to factories was raised five cents and to residences 30 cents.

Coal in San Francisco was \$1 a ton higher today than last September, when it sold for \$14.50 a ton. An increase of 45 cents a ton was recorded at Springfield, Ill. Dealers in Lincoln, Neb., predict that prices are going 25 per cent higher.

Prospects for increased cost of coal this month is being prices of building materials. All products requiring coal in their manufacture are affected.

### SUFFRAGE LEADERS IN DELAWARE CLAIM MEASURE NOT DEAD

DOVER, DEL., April 2.—Despite the decisive defeat yesterday by the lower house of the Delaware legislature of the resolution to ratify the woman suffrage amendment, friends of the measure said today it was by no means dead, as a ratification resolution is still in the senate and the parliamentary situation is not such as to make it impossible to reconsider the vote in the house.

Suffragist leaders were greatly encouraged by the announcement late last night that Alfred I. Du Pont would support the resolution, and declared they would make every effort to have it reconsidered in the house when the legislature reassembles Monday.

### WORKMEN'S ARMY MUST DELIVER ARMS BEFORE APRIL 10TH

DUSSELDORF, April 1.—Soldiers of the workmen's army in the Ruhr district must make a delivery of their arms to local authorities before April 10 under the agreement reached between the government and the central committee of the workmen's general conference at Essen today.

They will not be considered rebels if fighting ceases throughout the district by noon tomorrow.

The general strike throughout the Ruhr industrial and mining district has been ordered off.

### TEMPERATURE FALLS TO NEAR FREEZING

**DR. KNICKERBOCKER  
GIVES A SYNOPSIS  
OF QUOTED SERMON**

Rev. H. D. Knickerbocker, in a statement to the Times announcing services at the First Methodist Church South Sunday night, and discussing a communication that appeared in the Times Tuesday criticizing his sermon last Sunday night, says among other things that his critic who said he came recently from Mexico used tarantula juice and serpopin "poison" and that an unvarnished synopsis of the service is as follows:

"Prompted by the counsel of one of the city fathers who recently made a speech before a local congregation and gave an illustration of unspokeable immorality amongst some boys and girls in their teens, said: 'the city can't do much to remedy such conditions. It is the duty of the homes and churches to cure them.' The pastor prepared two sermons revealing startling and terrible conditions of immorality and setting forth the only possible remedy, better homes, more discipline and more religion. The first of these sermons preached last Sunday night resulted in practically the whole audience of more than 1,000 pledging themselves to a program of better homes, more religion and a more devoted consecration of the churches as the prime factor of morals and Christian character. The audience with practical unanimity gave its cordial endorsement of the motives, the methods and the message of the service."

"Sunday night we will preach the second chapter of the sermon on the 'Midnight Morals of Wichita Falls.' The principal sub-topic will be 'The Slaughter of the Innocents.' Parents are especially urged to hear this sermon. Incidentally a 14-year-old boy will make a suitable reply to the 'man from Mexico.'"

"At 11 a. m. we will have a great Easter service and reception of members. We expect to receive more than 100 members at this service. The subject of my sermon will be 'The Golden Hammer of Life.' Special music at both services."

**BLACKIE MILLER IS  
TO BE RETURNED TO  
ISLAND OF JAMAICA**

From the state school for juvenile delinquents at Gateville to a beautiful home in suburbs in Kingston, Island of Jamaica, is the good fortune that has overtaken "Blackie" Miller, Wichita Falls youth recently convicted here on a charge of juvenile delinquency and sentenced to serve four years in the state school for delinquents.

Immigration officials have located relatives of "Blackie" in the Jamaican island and he is to be returned to his homeland, according to information furnished by County Probation Officer Morgan who recently escorted the juvenile to the state reformatory.

"Blackie" told officials here that he was placed upon a ship when he was a child of nine years old and landed at Gateville. According to the Jamaican's story, his mother planned to follow later, but he never heard from his parents after coming to Texas. Officials were inclined to discredit the youth's strange story but investigations carried out by federal officials indicate that "Blackie" told the truth regarding the adventures of his boyhood.

**FEWER MINOR CASES  
ARE BEING FILED**

The past week has been marked by a decrease in the number of vagrancy and gambling cases filed in the lower courts. Not more than 10 complaints alleging petty offenses have been filed. Few raids have been carried out during the past week.

**FACTORY DISTRICT  
ORGANIZES FOR CITY  
DEVELOPMENT WORK**

Another of the neighborhood districts was organized Thursday night when residents of the factory district and of the Sam Houston school neighborhood met at the school, and perfected the preliminary arrangements. Another meeting will be held next Thursday night, and a committee consisting of Mrs. J. A. Pierce, Mrs. Charles Creel, George Felton and H. E. Russell was named to make arrangements.

T. E. Williams of 2501 Grant was elected district chairman. Roderic Tait of the Civic Bureau of the Chamber of Commerce assisted in the organization work.

Two meetings will be held tonight, one for District D at the Travis school, where a strong organization was formed last week, and another for the white residents of District I, at the Walnut Street Baptist Mission. Speakers from the Chamber of Commerce and Civic League will attend both meetings.

Eight of the districts are now organized, and it is hoped to increase the number to ten at tonight's meetings. Plans are under way for organizing the remaining districts, and for getting the "block party" meetings started next week. Members of the Civic League and of the Civic Bureau of the Chamber of Commerce feel that an excellent start has been made.

**TOTAL SCHOLASTIC  
APPORTIONMENT IS  
\$8.50 PER CAPITA**

AUSTIN, April 2.—With the authorization today by the state board of education of an additional scholastic apportionment of \$1 per capita for the present school year, the total apportionment reached \$8.50 per capita, the highest in the history of the state.

"This money," said the state superintendent of public instruction, "will probably not be available before June 1, or later. School boards have power under the law to borrow money to pay teachers promptly and pay the interest from the school fund. It is hoped that this additional apportionment may extend the terms of many schools which otherwise must close in April."

**FRENCH OFFICIALS TAKE  
SAME VIEW AS WILSON**

PARIS, April 2.—President Wilson's statement to the house of representatives in Washington yesterday that Marshal Foch has no authority over the American troops on the Rhine was not called here in full. The French foreign office therefore is not as yet acquainted with its exact terms, but it was said in official circles that President Wilson's conception of the status of the American troops appeared to be the same as the French official view, namely, that the troops were in the occupied area under armistice terms, as the American senate had not ratified the peace treaty.

Thus far, however, it was explained at the foreign office, the commander of the American force of occupation has acted in harmony with the orders given by Marshal Foch to the other occupying troops. Major General Allen of the American force simply taking over for his own account the orders issued by the marshal, just as the American representative with the Rhine commission acts in harmony with the French head of the commission, although technically not under his authority.

**STRIKE OF BARBERS  
HAS BEEN SETTLED**

The strike in Wichita Falls Friday morning when chair men and proprietors reached an agreement and more than 100 journeymen returned to work. The agreement is in reality a compromise, shaves being advanced from 25 cents to 35 cents but the journeymen barbers still receive 60 percent of the proceeds from their labor. They asked for 65 per cent but agreed to return to work if they were granted the 55 cent shave. Striking barbers returned to their chairs at 7:30 o'clock Friday morning.

**EXPECT COUNCIL TO  
BE CALLED TO MEET  
ON APRIL 19 TO 22**

PARIS, April 2.—In French circles the expectation now is that the meeting of the supreme council of the peace conference in San Remo will be called for April 19 to 22. The Turkish peace delegates, it is understood, will be invited to present themselves toward the end of April to receive the peace terms.

It is not anticipated that the session will be long and it is thought that the Turks may be able to begin their examination of the terms of the treaty early in May. The procedure is expected to be the same as the other treaties, the Turks being given time to study the treaty and present their observations on it.

The supreme council will then study the observations and prepare its report.

The San Remo conference may have occasion to make the final decision of some questions regarding the Hungarian peace treaty.

**PREPARE TO ENTERTAIN  
TEXAS FARMERS LEAGUE**

WACO, TEX., April 2.—The local chamber of commerce is preparing to entertain the Texas Farmers' league, which is to meet here Saturday afternoon. It is understood that the league will perfect plans at the Waco meeting to present to congress a petition for action looking to the financing by the government of the cotton crop through the federal reserve banks.

**Program Indicates Versatility of Noted American Singer**

Lucy Gates, known as "America's own marvelous coloratura soprano" will sing in the first M. E. church, South, under the auspices of the Musician's Club on Thursday, April 8. Her program for the occasion is an indication of her versatility as an artist, including as it does songs classic and modern, florid arias with brilliant runs, trills and high E's and the latest in French and Russian exotico-melodramatic songs; also—and on this subject the Yankee prima donna is emphatic—songs by American composers—and a few old-fashioned ones—"the kind my mother loved"—to use her own words. Lucy Gates ranks prominently among those who have helped to develop the American spirit in art. Her rich and wondrous voice, very human in its qualities and perfectly trained, combined with her natural spontaneity and vivacity of manner combine to make her one of the distinctly attractive personalities at present before the concert public. She has scored a tremendous success from the Atlantic to the Pacific, from Canada to Mexico, wherever she has sung, and her services are in demand to the limit of her power to give them.

**Amusements**

**MARGUERITE CLARK AT THE EMPRESS THEATER**  
The familiar story of the country girl who aspires to be a great artist is given a brand new twist in "Luck in Pawn." Marguerite Clark's latest Paramount-Artcraft picture, which will be the attraction at the Empress theatre for two days, commencing today. Generally in fiction the aspiring heroine wins immortal fame with masterpieces just as she is about to succumb to starvation. "Luck in Pawn" treats the situation in a much more true-to-life and pleasant manner. Anabel Lee, the pretty heroine, played by Miss Clark, is a country girl whose mother has paid for her art training by considerable sacrifice. Anabel is informed by a noted painter that her talent is infinitesimal and is feeling pretty blue when a bored young millionaire, attracted by her unaffected clothes and ingenuous manner, strikes up an acquaintance with her. The pretty love story that follows, with its rather startling ending, is said to furnish a thoroughly entertaining comedy picture in Miss Clark's best manner.

**"THE GREATEST QUESTION"**  
D. W. Griffith's latest production, "The Greatest Question," a photodrama embracing the most important problem of all ages, will be seen at the Majestic two days, commencing today. In this production which Mr. Griffith has made under his contract with First National Exhibitors' Circuit, the producing genius affords thought for the followers of Occultism. Few heart strains have ever found their way into either literature or the motion picture with the gripping sensation that features Griffith's treatment of communion with the dead. Perhaps because of the many mothers who have lost sons through the Great War, Mr. Griffith brought forth his inspired solace. Those who expect a picture that taxes the mentality to follow are scheduled for disappointment. In true Griffith fashion the story takes place on a farm among a wretchedly poor but happy family of rural people. The war deprives the family of the support afforded by the only son. The prayers of a mother and her supplications for the safe return of her boy apparently go unheeded. The youth is swept from the coming tower of a submarine when he prefers a death of self-sacrifice to risking the lives of other members of the under-water craft's crew. The shock of the lad's death shakes the Faith of the entire family. Then a revelation, brought about in typical Griffith style, brings the family to a state that would even be a surprise to the foremost exponents of the art of mysticism.

The executive committee of the Women's Auxiliary of the Central Presbyterian church was entertained at luncheon Wednesday, March 31, at the home of Miss Mary Edmiston, 2014 Teuth street, the occasion being the close of the church year, plans for the coming year were discussed. A delicious four-course luncheon was served and the afternoon was spent pleasantly in an informal social manner. Those enjoying Miss Edmiston's hospitality were: Mesdames George Fleming, H. E. Wilson, F. R. Johnson, D. B. Reed and Phil Kover, committee members, and Rev. and Mrs. Guy Davis and Dr. J. F. Reed, visitors.

**OFFICERS ARE SEARCHING FOR THE "MYSTERY HOUSE"**

Officers are still searching for the "mystery house," which somewhere in the dense forest of derricks north-west of Burburnett has been so cleverly camouflaged to deceive the eye of its former owner. The owner of this "mystery house" was arrested by county officials about two weeks ago. Shortly afterward the wife was also placed in the county jail and when officials again visited the place the house was gone. Extensive search in the oil regions has failed to disclose the locality of the "missing bungalow." County officials are working on the theory that some Newkirk citizen, searching for rooms, decided that a good way to beat the "great profiteer" was to steal his house, and acting upon this impulse moved the bungalow to another part of the field and remodeled it to evade detection.

**To the New Presbyterians in the City.**  
Why not come into the church Sunday without a visit from the pastor. The religious census put into our hands 790 names for the First Presbyterian church. There are 132 families and 139 individuals who are Presbyterians or prefer the First Presbyterian church. It is a physical impossibility to visit all these people in a short time. An opportunity will be given Sunday morning for you to line up with our forces in the city. If you do not happen to have your church letter come in and the clerk will get your letter later, if you now have no church relationship you can be received on profession of faith. Parents are asked to present their children for baptism Sunday morning. You will be given a welcome. Come Easter morning.

**MODISH EASTER MAIDS IN GAY SPRING CLOTHES**

By MARGARET ROHE  
Writer for the Ladies Free

NEW YORK, April 2.—Some spring hats early "give to sport" and February brings some out, but Easter's the official day when in full bloom they come to stay and every head that bows in prayer is sure a chic chaplet to wear. If styles are blue and unadorned the church parade is something fine and latest hints from Paris vie with home grown garments and they are more colorful than all to see and Easter eggs, all hectic dyed, will look quite as when side by side with maid or matron in display in latest mode for Easter day.  
For colors vivid and bizarre it is decried that we must wear and glittering shiny things as well and so the modish Easter bells will gleam and glisten, glow and glint till ardent eyes will have to squint, of Easter hints, I do aver, who gaze adoringly at her. Oil-cloth and lacquered stuff are fine to give them necessary shine, metallic fabrics, jet and beads, and now to meet these shiny needs they're even using bits of glass and it is not considered crass to wear a frock with quite a bit of broken glass set into it with silken and metallic stitch in Oriental manner rich. A bit of pain would give me, too, to wear a bit of pane but true it is that many a lass feels all dolled up in bits of glass.  
The Oriental touch is such a bit twill overshadow much all other trends of fashion's whim even bouffant models dim. 'Tis true the frock of taffeta with puff and fluff will show but is! It simply cannot supersede those models of the straight line broad that bear the Oriental stamp. They're worn by ingenue or vamp with equal charm and savor faire and win for each admiring stare.  
The gloves for Easter most ornate show stitching colorful and quaint, insets of different tinted kid for fashion's favor make a big around the wrist in set design. They're really something very fine and when you're thus hand in glove there's something more that you will love to have forever well in hand on Easter when you join the band of paraders as you go devout to church to doubly show devotion and your new spring clothes and that's a bag of studs that shows a new Egyptian addition of some gay colored composition that forms

**CHARGE TEN FELONIES IN COMPLAINTS FILED**

Ten felony complaints have been filed in justice courts here during the past week. A major portion of the complaints alleged theft of property valued at over \$50. Preliminary hearing in several of the cases was waived and the defendants bound over to await action by the grand jury.

# SUFFRAGE WILL BE OCCASION FOR POLITICAL RACE

### Both Parties to Stage Contest for Honor of Furnishing 36th Ratification

WASHINGTON, April 2.—Final defeat of suffrage in Delaware will start a race between national organizations of the democrats and republicans for the credit of making possible the suffrage amendment.

Suffragists say they have not yet given up hope for ratification in Delaware.

Republicans point out a republican victory and that 26 of the 35 ratifying states have republican legislatures.

Democrats feel that if they can furnish the thirty-sixth state they also can claim a large share of the gratitude of women voters in the next election.

Democratic entries in the race for the credit of final ratification would be North Carolina and Louisiana.

Republican entries would be Vermont and Connecticut.

The governor of North Carolina, according to suffragists here, has indicated that he may call a special legislative session in June and that he feels that there are good chances suffrage would be approved.

The Louisiana legislature meets in regular session in May.

# Invades Newtown Fully Equipped With the "Heavy Artillery"

Attired in the regulation movie picture outfit and displaying a piece of "heavy artillery" in each hand the "bad man" from Copper Gulch has again invaded the peaceful town of Newtown which are nestled among the towering derricks of the northwest extension fields. Complete details of the "bad man" in his advent into Newtown are lacking but vague rumors are to the effect that he dashed into a cold drink establishment at Wagoner City a few nights ago and began operations by firing his artillery into the ceiling. The "bad man" then selected the knobs which adorn a soda fountain faucet as a target and proceeded to shoot at the place in general. Meanwhile a general exodus had taken place, the proprietor leading the procession into the streets followed by startled customers and frightened soda dispensers.

The proprietor jumped into an automobile and came to Wichita Falls filing a complaint against the alleged "bad man" and county officials are now searching for the man with the "heavy artillery."

# BELIEVE DEEPER WELL WOULD INCREASE THE PRODUCTION K. M. A.

Belief that the production in the Kemp-Munger-Allen No. 1 could have been materially increased by further drilling, which Mr. Kemp has expressed since the well was first brought in, is substantiated by these latest developments. The new well was producing about the same amount of oil that the Kemp-Munger-Allen discovery well has averaged since its completion from the top of the sand, before it was drilled further in. It has been impossible because of the condition of the hole to deepen the discovery well, but even at that the well has made a record which for steady, consistent production is unequalled by any of the entire Wichita Falls district.

# CITY ELECTION ON TUESDAY IS UNDER THE NEW CHARTER

### PROVIDES FOR ELECTION OF MAYOR AND THREE MEMBERS BOARD OF ALDERMEN.

### BALLOTS ORDERED PRINTED

### Held That Sections of Charter Provide for Election to Be Held April 6.

BalLOTS were ordered printed for the election of a mayor and three aldermen at the election on Tuesday, April 6, specifically provided for in the new charter, at a postponed meeting of the city council Friday morning at which the returns from the charter election were canvassed and the charter declared adopted.

The ballots were ordered printed in this manner as the result of a theory advanced by Alderman Curlee to the effect that prior notice of the election was not necessary as the present charter specifically provided for such notice; that the provisions with regard to the nomination and election of officers go into effect immediately with the adoption of the charter, and that the council is required to canvass and declare the result of the election at the next regular meeting following the election.

Officials whose positions were formerly elective, and which are now appointive, could hold office at the outside, even if elected on April 6, only until April 13, when the charter goes into full effect, it was declared at this meeting, even if it were not for the fact that the new charter specifically provides for the repeal of any former provisions in conflict with the provisions of the new charter.

The council conferred with Judge R. E. Huff and A. H. Britain, members of the charter commission, who gave opinions to the effect that the procedure outlined above is the proper one in accordance with the clauses in the new charter governing such action.

The election of the mayor and two aldermen is called for expressly by the charter. The third alderman is to fill the vacancy created by the resignation of H. F. Weidon.

The charter provisions governing this matter follow:

Section 10. The board of aldermen shall consist of a mayor and five aldermen elected by the city at large for a term of two years and until their successors are chosen and have qualified. A general city election for the choice of aldermen shall be held on the first Tuesday in April of each year. At such election held in 1920 and in each even numbered year thereafter, a mayor and two aldermen shall be elected and at such election held in 1921, and in each odd numbered year thereafter, three aldermen shall be elected. The mayor and aldermen elected in 1920, together with the three aldermen whose terms expire in 1921, shall constitute the first board of aldermen under this charter.

Section 22. All elections held under this charter, whether for the choice of candidates or for the submission of questions to the electors, shall be conducted in accordance with the general election laws of the state; and except as otherwise provided in this charter such general election laws shall be applicable to and control all such elections. The election judges and other necessary election officials for conducting all such elections shall be appointed annually by the board of aldermen. The election judges shall conduct the elections, open the ballot boxes, take therefrom and count the ballots, whether for candidates or questions, and after the result thereof on the tally sheet as provided by

# POLICE BELIEVE A WOMAN IMPLICATED IN SWIFT ROBBERY

KANSAS CITY, MO., April 2.—Police today believed a woman is implicated in the theft of the Swift & Company pay roll of \$45,840 yesterday.

A friend of the police saw a man and woman abandon the big car used by the bandits. This friend, police say, said the woman carried a satchel answering the description of the one in which the bank messengers were delivering the pay roll. According to this informant, the woman and her escort boarded a street car, and disappeared. Police found \$740 in "change" in the abandoned automobile.

Police believe two of the bandits left the holdup car soon after the trio made their getaway—that the third drove on picking up this woman companion, then later turned the loot over to her for holding.

Joe Macaluso was still held by police today in connection with the robbery. He claimed his car was stolen by the bandits for use in bagging the Swift payroll.

# CHILE NOT TO ACCEPT INTERVENTION IN THE BOLIVIAN DISPUTE

SANTIAGO, CHILE, April 2.—Chile will not accept intervention in the Chilean-Bolivian dispute or any other disputes she may have with her neighbors, either from the United States or any other power, the Chilean government declared today in a communication handed to Joseph H. Shea, the American ambassador.

The note, which was in reply to the last United States note, said in part: "Our ambassador in Washington advises this government that the secretary of the state department has informed him that in this emergency the United States has assumed the same position that President Wilson adopted in the Peruvian-Chilean incidents, limiting it to the character of conciliatory advice and not meaning to press intervention until his mediation or good offices be asked by both parties."

"According to this information," Chile considers the meaning of the United States government's note as clearly expressed, that is, that the United States does not think of any

# DISPLAY WINDOW USED AS STUDIO FOR ARTIST

Jack Browne, artist, is drawing big crowds in front of the P. B. P. B. M. is marketing the articles, that Mr. Browne is painting and will take orders for future delivery it is announced.

The decorations are guaranteed to be washable, to stand laundering and dry cleaning without injury to either the fabric or the decoration.

Two studios are now engaged in doing this painting on clothing as originated by Mr. Browne, one in Paris, France, and the second in Tulsa, Okla.

form of intervention in Chilean, Peruvian or Bolivian affairs, except with the reservation that all the interested parties should jointly ask the good offices of mediation of the United States government.

"Chile never has accepted foreign interventions and, without boasting, states that she will not accept them in the Tacna-Arica problem, or any power or group of powers."

### CULLEN F. THOMAS DEFENDS WILSON

(Continued From Page One)

was not known to the public. Thomas asserted that Bailey was the attorney for a liquor association, and declared that Bailey for years had fought the battles of the legalized liquor traffic, and has spoken favorably of Governor Edwards of New Jersey, who wanted to make New Jersey wet in spite of the action of the states in ratifying the prohibition amendment.

"In the senate we find him associated with Aldrich of Rhode Island, with Sibley of Pennsylvania, the central figure in a scandal which was a national disgrace, and defending Lorimer of Illinois, on the grounds that even if his seat were bought from the Illinois legislature, he could not be unseated because he did not know that the money was used in this manner—associated with these arch-republicans, he fought the leadership of Cleveland bolted that of Bryan, and now repudiates that of Wilson, and still has the hardihood to call himself a democrat," the speaker continued.

"In the state conventions which this distinguished ex-citizen of Texas had attended during his periodical visits to the state, he has based his main fight against the constitutional amendment blotting out the legalized liquor traffic, and against the giving of suffrage to women, and the fight is being made now on these two issues mainly. Yet both now and in 1916 we find him willing to give up all his convictions, and endorse the leadership of women. If we will make a political swap with him, and allow him to carry these issues of his.

**Will Be No Compromise.**

"There will be no compromise with him in this fight, which he has started and which we intend to finish. The fight will be fought out on the issue as to whether the Democrats of Texas will follow the standard of Wilson, or the black flag of Bailey. Speaking of the achievements of the democratic administration and of Wilson, the speaker declared that they included winning the war, passage of the federal reserve banking law, the establishment of farm loan banks, the passage of the woman suffrage amendment, and the liquor amendment, and the adoption of a "broad and liberal policy toward organized labor."

"He has all but wrecked his health in your cause," the speaker said, referring to him as the "Sick Man of the White House."

Bailey's status as a citizen of Texas was also attacked at some length, and his present attack "from within, more insidious than a fair and square attack from an enemy on the outside and

in the open could possibly be," was also attacked at length.

W. F. Weeks, who opened both the forenoon and evening sessions, referred to Bailey as the "Democratic Backslider," the "La Follette of the Democratic Party," a negative quantity, a constitutional objector, and declared that the "Book of Lamentations was the only one with which he was acquainted. Mr. Weeks also accused Mr. Bailey of making a prejudicial appeal to the farmer and laborer, and attacked his war record.

**Prince of Peace.**

Mr. Wilson was pointed to by the speaker as the spokesman of all the weak and oppressed of all lands, and characterized as the "Prince of Peace."

"Of the three great disgraces in the democratic party of which I know, Bailey was the central figure in two of them," he declared. "The first was when he took some money while United States Senator from a man known as H. Clay Pierce. There might be some difference of opinion among the people of the state as to his right to take this money, although some of them did not think he had this right and there was an investigation about it. But there can be no difference of opinion as to whether he should have lied about it."

"The second was the career of Jim Ferguson of Texas, who by the way, is Bailey's right hand bower, although kept somewhat in the background. You all know what Jim Ferguson did and what he was impeached for."

"The third is this treacherous attack which he is making on our party from within, and which is in the interest of the republican party."

"Why only last week when he spoke from this platform a member of the state republican executive committee was on this very platform with him."

R. E. Huff, who was introduced by Mr. Weeks as one of the "Immortal Forty" delegates who made the nomination of Wilson possible at Baltimore in 1912 was presented by Mr. Weeks, and introduced the speaker.

"The time has come again that the tried and true democrats who see and know that the party has accomplished some good, to work together and see that only tried and true democrats are sent to speak for the party at San Francisco," J. A. Kemp introduced the speaker at the night session, and paid an eloquent tribute to the leadership of Woodrow Wilson.

"I care not from where you come, whether you were raised among the people of the north or under the sunny skies of our Southland, nor what your political faith may be, he said in part. "However you may be, you cannot either condone or excuse this unjustified attack being made on that man in the White House who was our standard-bearer and commander in chief in the Great War which we have just come through."

A warm tribute to J. A. Kemp was delivered by Mr. Thomas at the beginning of his evening talk.

"I am glad and proud of the privilege of being introduced to you by that city builder, that empire maker, who is your neighbor and my friend, and

who would be an ornament to the governor's chair of Texas," he declared amid applause.

On the stage with the speaker during the afternoon there were about 20 Wichitans and slightly less than that number at night, including:

### The Story of Modern Bread Making—Chapter I.

### Buying the Flour

Chemical Analysis Eliminates Guess-Work

**W**HEN you want high quality flour you ask for some well-known brand, which is possibly a little higher priced than the average and assume that you are getting unusual quality.

But when we buy flour for KLEENMAID Bread we don't assume anything. We know exactly what we are buying before we buy it.

The quality of wheat varies from month to month, in the different sections. The quality of every mill's product varies considerably during the year, in spite of the mill's best efforts to hold it standard.

Our only safeguard is to compel the mills to submit samples of flour from each carload we consider buying. Our

chemists analyze the samples and unerringly pick the best flour. They learn the exact amount of moisture, ash, gluten, acidity, etc. They make an actual baking test. We then order. And when the shipment arrives a second analysis is made to check up and make sure there was no mistake.

We thus know the exact food value of the flour which goes into KLEENMAID Bread. And by keeping in constant touch with many sources of supply, we are always able to get strictly highest quality flour—properly milled and of maximum food content.

Scientific selection of flour constitutes reason number one, why you will always find KLEENMAID Bread standard in quality, fine in flavor, and of maximum food value.

KLEENMAID Bread is truly

# PALMER SAYS PACKERS CAN'T MENACE TABLE

**Testifies Before the House Agricultural Committee at Washington**

WASHINGTON, April 2.—The packers "can never again menace the food table of the United States," because of the governments dissolution agreement with the "Big Five," Attorney General Palmer today declared before the house agricultural committee.

The agreement, Palmer said, obtained infinitely more for the people of the United States than they would have gained had criminal proceedings been brought against the packers.

The threat of criminal action forced the packers to accept the decrees, the attorney general said, adding that indictments would have been asked had the packers not made "complete surrender to the government."

"Any violation of this personal injunction will enable the government to bring the big packers into court and punish them for contempt of court."

Regarding the effect of the decrees on prices, Palmer said: "I believe this is a great step forward. I do not promise it is going to mean immediate lowering of prices."

"There is great strength in the argument of an efficient, big concern, resulting in lower prices to the consumer, but it is the argument of the efficiency of the autocracy. At any rate, what we have done, if we destroyed that efficiency, which might result in lower prices to the consumer, but it is the argument of the freedom of our democratic kind of government for business."

Palmer rapped the long congressional record of the packers, saying that no real results had been obtained.

**Met Every Complaint.**

The divorce decree, Mr. Palmer said, "met every just complaint that had been made by consumers, producers or competitors, against the packers."

"It met them by a judgment with means for enforcing it," the attorney general continued. "The managers and influential stockholders in the packing corporations can be convicted of contempt of court and imprisoned for any violation of its terms. This makes these five great packers butchers and nothing else. They are no longer a menace to the food tables of America with control of most substitutes."

"I got more for people by the civil action than I ever could by proceeding against them as criminals. No business man ever has been sent to jail for violation of the Sherman act in all its history."

By leaving the packers the use of refrigerator cars for transportation of meat only, he said, we took the poison out of the practice.

**Has Five Aims.**

"I wanted to accomplish five things: First, to take the packers out of the stockyard business, out of the

# RAILWAY WAGE QUESTION AGAIN UP TO WILSON

**Placed Before the President for Third Time Since Last Summer**

WASHINGTON, April 2.—The whole railway wage controversy was placed before President Wilson today for the third time since railroad labor filed its demands for a general increase in wages last summer.

In a letter to the president, B. M. Jewell, chairman of the railway committee, which constitutes the labor party on the railroad wage board, said he regretted very much "to advise you of our failure to obtain any beneficial results from these conferences."

The employees, Mr. Jewell said, were keenly disappointed at the position taken by the railway executive's committee which announced last night a deadlock and the withdrawal of the railroad members from the conference.

Mr. Jewell did not ask the president to lay the wage controversy before the railroad labor board, which is to be nominated by the president as provided in the transportation act and on which the public will have representation.

Attached to Mr. Jewell's letter was correspondence setting forth the attitude of the men and the executive committee. E. T. Whiter, for the railway executives, wrote that while an agreement as to wages might be reached by direct negotiations between representatives of the roads and the men the executives do not believe congress contemplated a settlement involving so great an addition to transportation costs without the public being represented in the conferences.

Replying to this letter, Mr. Jewell said he believed the reason given by the managers for terminating the negotiations was "not in accord with our understanding of the law."

"The attitude of your committee in failing to carry out the wishes of the president of the United States comes as a surprise to us," Mr. Jewell wrote to Mr. Whiter. "It will result in keen disappointment to our constituents as well as the general public, both of whom are parties at interest and entitled to more consideration from the bi-partisan board than you have elected to give."

"We understand from this that your committee has definitely declined to assume the responsibility and perform the duty which is so clearly desired in the public interest, and which the transportation act, as we understand it, contemplates that of agreeing in conference upon rates of pay for railroad employees which are just and reasonable."

An official reiterated that, at the request of the president they were going along to give the transportation act a fair trial, although they did not endorse any of its provisions. They took the position that with the breaking up of the joint conferences, the whole matter was made more difficult since the union membership was becoming restless.

# ROB A FOURTH BANK IN OKLAHOMA IN WEEK

**CHICKASHA, Okla., April 2.**—The fourth Oklahoma bank to be held up and robbed in one week was the First National bank of Alex, when late yesterday a lone bandit entered the bank, held up L. L. Laws, the cashier, and one customer, taking \$3,000 in cash. He escaped in an automobile with two other men who were guarding the outside.

Two of the alleged holdups were later captured near Bramley. One was identified by Laws as the man who entered the bank. One of the men owned he had robbed the bank, but stated that his companion had nothing to do with the affair. Posses are searching for the third member of the trio.

# SEVERAL CONTRIBUTIONS TO NEAR EAST RELIEF

Several contributions to the Near East relief fund are reported by N. Stubblebine, of Dallas, who is now well under way with the preliminaries of the campaign, assisting the local committee. The contributions include the following:

J. A. Kemp, \$1,000; Carter McGregor, \$120; R. E. Shepherd, \$120; J. C. Hunt, \$200; labor locals, \$122 cash, \$60; Mrs. O. W. Beeman, \$60; C. A. Stutzman, \$125; C. W. Coffey, \$60; A. P. Winches, \$50; Mrs. J. B. Sisk, Iowa Park, \$50; J. C. Galbraith, \$100.

Easter morning would be a good time for all new Presbyterians to unite with the church. If you prefer the First Presbyterian church, be on hand for membership. Children will receive baptism at the morning hour. N. F. Grafton, Pastor. 307-2c

### URSULA BRODERICK JURY IS EXPECTED TO REPORT TODAY

ST. LOUIS, April 2.—Whether Ursula Broderick, 16 years old, shot and killed her stepfather, Joseph Woodlock, as he lay sleeping in their home here April 14, last, or whether, as she contends, she fired the shot that caused his death, in defense of her honor, are the questions that must be answered by the 12 jurymen in whose hands the fate of the girl rests.

The case went to the jury last night, for a sealed verdict. After two hours of deliberation, no agreement had been reached, and court was adjourned. Judge Kiene ordering the jury to report at 11 o'clock this morning.

The defendant, according to attorneys, is the youngest girl who has ever faced a first degree murder charge in this state. Conviction on the charge carries with it life imprisonment, the killing occurring before the capital punishment law was restored in Missouri.

### PRELIMINARY HEARING WAIVED BY ACCUSED

H. A. Johnson and Lee Tostrey, oil field workers, charged by complaint with the theft of an automobile, waived preliminary hearing Friday and their bonds were fixed by \$1,000 each before Justice R. V. Gwinn. The defendants were remanded to jail in default of bail. They are alleged to have stolen an automobile from the business section of the city, late Thursday. The car was later recovered by county officials.

An invitation to you: Come to the First Christian church and Sunday school next Lord's day—Easter Sunday. It will be a high day. 204-61c

### BUSINESS AND PLEASURE WILL BE COMBINED BY THE BUSINESS COUNCIL

Business and pleasure will be combined at tonight's session of the business council of the Chamber of Commerce. Street lighting and paving matters are on the business program, while the Wichita theater management has promised some vaudeville as an entertainment feature after the business is disposed of.

Figures are expected to be furnished the council on the total cost of both the downtown paving and the "white way" system, and it is probable that some definite action on both of these matters will be taken.

Chairman E. F. Johnson requests that all members of the council be present.

### SHERIFF McFALL IS CITED TO APPEAR AT FORT WORTH

Constable J. E. Nail has received papers from the sheriff of Tarrant county requesting that Sheriff Bob McFall of this county be in the criminal court building at Fort Worth on Monday to show reason why the recent fine and jail sentence assessed by Judge George E. Hoesy of the criminal district court should not be imposed. Constable Nail has served the papers. County officials do not take a serious charge of the Fort Worth judge. The sheriff is alleged to have failed to serve certain papers sent here from the Tarrant county criminal district court. McFall, however, asserts that the papers were properly served.

### PRICE OF SUNDAY PAPERS INCREASED

CHICAGO, April 2.—The Herald and Examiner announced today that its Sunday edition hereafter will be sold for ten cents. Formerly it sold for seven cents. ### AMERICAN PARTY IS ATTACKED IN MEXICO BUT MAKES ESCAPE

WASHINGTON, April 2.—Lieutenant Colonel Robert M. Campbell, United States military attaché at the embassy in Mexico City, his wife and an American woman doctor named Paine were attacked by rebels a few miles from Mexico City but escaped through "quick work and quickness of action," the state department was advised today.

The attack took place at Tros Marías, a small station on the railway from Mexico City to Cuernavaca, to which place the attaché was going for an outing. The rebels with dynamite wrecked the train and destroyed the track for some distance. Colonel Campbell and the members of his party escaped without injury, the attaché stated. The women of the party hid in the woods near the station until the rebels left. The fate of the members of the crews and other passengers on the train was not stated.

Details of the attack are being forwarded by mail from the embassy at Mexico City.

### CANTATA SUNDAY NIGHT AT CHRISTIAN CHURCH

The cantata to be given Sunday night at the First Christian church by choir of 25 voices promises to be one of the principal musical features of the Eastern observance here. The choir, under the direction of Miss Agnew, has been practicing earnestly for several weeks on the cantata, which is entitled "The Life Everlasting". There are a number of solo parts and special features.

There will be no sermon Sunday night at this church. At the Easter morning service Mr. Keevil will preach upon Easter's significance, and a campaign is being waged to have every member of the denomination in

### DEPARTMENT ANSWERS TWO FIRES THURSDAY

Two small fires, neither of which amounted to very much loss, but which were dangerous on account of the high wind, were attended by the local fire department Thursday. The first one occurred about 4 o'clock in the afternoon and resulted in the burning of a small servant house at 1407 Travis street. The damage will reach \$100, it was said. A small frame bunkhouse at Lucile and Denver, occupied by a plumbing contractor, whose name was not learned, constituted the second fire. It happened about 9 o'clock Thursday night and was nearly burned to the ground when the department arrived. Several mattresses and a quantity of bed clothes formed the loss of the contents of this building.

The war has made table linen very valuable. The use of Red Cross Ball Blue will add to its wearing qualities. Use it and see. All grocers. 6c.—Adv.

### Chance for Revival of Boxing in Gotham Gone a Glimmering

By HENRY L. FARRELL  
(Times Press Correspondent)

NEW YORK, April 2.—Chances for a revival of boxing in New York apparently have been killed.

The same group who gave the sport a black eye and whose regime of fixed fights and set-ups, ruined the sport to be thrown several years ago, have pounced on the Walker bill and strangled the founding.

The substitute element objected to that part of the Walker bill which made licenses necessary for every one interested in a bout. The avenue to their former fields of easy money was obviously closed and they started their machinery working.

Senator Walker, sponsor of the 15 sound decision bill which passed the senate, is disgusted with the tactics employed by the opponents of the bill and announced he will make no effort to get it out of assembly committee. The members of the "old gang" started their attack with the charges that the Walker bill will be full of "political perogatives" with its being commission and its license commission.

Making little headway in that line, they shifted rumors that the Inter-national Sporting Club drew up the bill, and the president of which, Major Biddle, was named most prominently as the choice of Governor Smith for the commission chairmanship.

The report that stated that the government was about to investigate the actions of the club in "feeling stock" without giving anything for it, and British sentiment was injected into it with the claim that organizers and founders of the club were not naturalized Americans and it was a plan-making plan promoted by the National Sporting Club of England.

Last week at a private dinner given by the club in honor of George Carpentier, films of the Dempsey-Willard fight, shipped in from England were shown. The gang seized upon this as the climax of outrages perpetrated by the club and they have almost demanded federal action.

### Kerr is Scheduled to Work in Game Here on Saturday

Dick Kerr will pitch tomorrow's game against the Spudders. This was finally announced this morning by Boss John Collins of the Sox Yaungien team which opens a three-day engagement with the Spudders here this afternoon.

Kerr has been the big drawing card with the club this season. His feat of winning two ball games in the 1919 world series has made him a rich man in the baseball hall of fame and every place the Sox have played on the current training trip, there has been a call for the little hurler.

A wire was received this morning from Houston, stating that Kerr was slated to join the main team there today. This was labeled a mistake by Collins, however, as his orders call for Kerr to pitch tomorrow's game here. He said that there was absolutely nothing in the report that Kerr was to return to Houston and that the big left hander of the 1919 series was to appear here tomorrow, rain or shine.

Fred McMullin, Sox third baseman during the temporary case of hold-out sickness among the Gleason clan, will come here sometime today and report to Collins. McMullin is a clever third sacker and his presence at the hot station will materially bolster the Yan-nigans. Lutske, present third sacker, will move up to short and Eddi-Murphy will go to the keystone bag, while Marquis will relieve Hanson in right field. This arrangement will give Collins an aggregation that will look pretty steady on the field. The infield will be made up of seasoned men, and the outfield will be aided by the presence of Marquis, who is an outfielder by preference.

The ladies of the Brotherhood of American Yeomen will hold an Easter market, consisting of home-baked cakes, pies, salads, deviled eggs and chicken at the Water and Light office, 811 Indiana avenue, commencing at 10 o'clock, Saturday, April 3. 307-11c

### AVERAGE OF TWO BURNS A DAY BURN IN TEXAS

AUSTIN, April 2.—An average of two barns a day burn in Texas, according to reports made to the state fire marshal. In this connection, the fire marshal said:

"This immense loss of valuable feed is being felt by the farmers to a greater degree than in other years and the fire marshal's office has received many inquiries regarding the origin of the fires.

"No report has been received tending to show these barn fires to be of incendiary origin. On the contrary, it

is believed that the fires are caused by spontaneous combustion. When crops were gathered in the fall, hay, corn and oats were hurried into the barns without allowing sufficient time for curing. Had the hay been entirely wet, it is probable that combustion would have come earlier in the season; but it is agreed that slightly wet hay might lie in the barn until even a later date than this and still heat to such an extent as to cause fire.

"It is recommended that every farmer having hay stored investigate it at once, and if it is found heating or still damp, it is urged that it be moved away from other property of

value and allowed to air until all danger is removed.

"Prompt attention to this recommendation may save many barns and much feed during the next few weeks, and it is better to devote a little time to fire prevention than to lose valuable property."

# 85,000 Acres Wharton Ranch Wilbarger County

I am the owner of an undivided 1-5 (one-fifth) interest in the oil and gas lease on all the above 85,000 acres, less one section around each of the three improvements on said ranch. No valid assignment has ever passed to more than 3,000 acres of this lease and I signed that assignment, and it shows upon the abstract that way. I still own my 1-5 interest in 80,000 acres of this lease including the well and the acreage of the Prescott-Peoria Co.

I advise buying this acreage now as present prices will look cheap in 90 days. I will join in any assignment of this lease or any part of it **Provided I am consulted and approve the price and I receive my part of the money,** as I do not want to stop development by legal proceedings, unless forced to.

I will sell part or all of my interests and make my title stand up. No title is valid to an acre of this lease unless it is signed by Guy L. Waggoner, representing two-fifths; W. G. Burton, two-fifths and myself one-fifth, who are the owners of this lease. We are now handling this property as agreed in our trusteeship and assignment of record May 16, 1919 at Vernon, and all assignments or deals made without my consent and signature are void.

I made a favorable report on this land and secured the lease because of the favorable showing I had found.

### SOME TEN THOUSAND POPULATION IS ADDED TO POPULATION OF CITY WITH ADOPTION OF NEW CHARTER

Some 10,000 additional population has been gained, and the area of Wichita Falls has practically been doubled, as a result of the adoption of the new charter, according to surveys made by City Engineer John A. Donald.

There are now included in the city limits of Wichita Falls a total of 6,758 acres, or 10.58 square miles. Mr. Donald states, whereas before the adoption of the charter the area of the city was 3,488 acres, or 5.43 square miles. The additional population included for the most part, lives in the Sibley-Taylor addition, the factory district and in the Refinery district in North Wichita Falls.

People living in the newly annexed districts, included in Wichita Falls through the adoption of the new charter, will be entitled to a vote in the city election Tuesday, April 6, according to an offhand opinion given the Times by Judge R. E. Huff, chairman of the commission which drew the charter, provided they have the necessary qualifications for voting in county and state elections.

"While I have had no opportunity to study the question, it would be my opinion that since the charter will be in force for the purpose of electing officers, it will be in force so far as giving the people in the newly acquired districts a vote in the selection of officers for the city," he stated.

### LUCKY BALDWIN IS REPORTED BAILING AND SHOWING OIL

The Lucky Baldwin Company's No. 1 Mungler, offsetting the Kemp-Munger-Allen Oil Company's No. 2 Mungler is reported bailing, and showing oil, preparatory to completion. W. S. Shankle, president of the company, is supervising the bringing in of this well, and expresses confidence in making a similar one to the discovery well out of his No. 1. The sand was entered around 1760 feet, and there has been very little water trouble so far, it is reported.

### CONTRACT FOR A NEW FIRE STATION ON SEVENTH STREET

The contract for the construction of the new fire station to be erected in the Huff McGregor park on Seventh street was awarded to J. A. Pitts whose estimate came to \$10,800, by the city council at a called meeting Friday morning. Owing to the unsettled labor situation the bid did not include the plumbing and electrical work. The contract for the electrical work was given to the Texas Electric Company on a bid of \$174. Herbert Voelcker, of Voelcker & Dixon, architects, was instructed to make the necessary arrangements for securing a bond from the contractor and closing up the deal. According to the contract, the work is to begin immediately.

Permission to lay an underground conduit to carry telegraph wires on Eighth street to the new City National bank building was given the Southwestern Telegraph and Telephone Co.

Other business transacted by the council consisted of the routine work of checking police and other monthly reports.

### CASING BEING SET IN KEEN AND WOLFF WELL

The Keen and Wolff, No. 1 Mungler, two locations to the north of the Boger-Art et al well, reached the sand at 1741 feet at the same time that the new well entered the sand, but has been held up to the present time because of lack of casing. Casing has been secured, and is being set today.

The Sinclair's test, 2,100 feet north of the Boger-Art et al, is on the sand around 1746 feet, and is expected to be completed immediately.

### ANOTHER FLOW MADE BY PRESCOTT-PEORIA WELL IN WILBARGER

Another flow was made by the Sigler (Prescott-Peoria) well on the Wharton ranch south of Vernon at about 9:30 Thursday night after a cave which bridged the thirty-odd feet of open hole at the bottom of the well was drilled and the hole bailed, according to local operators who visited the well. The flow threw dirt, mud and oil high into the derrick after being bailed, according to reports. Underreaming for eight-inch casing is now in progress.

Excitement in Vernon and Wilbarger county continues to be intense over this, the first wildcat production in Wilbarger county, and the first production outside the leases of the Electric pool which lie across the Wichita-Wilbarger county line.

While indications of drilling activity are offered by a number of new locations made since the blowing in of this well, no definite steps toward actual drilling have yet been reported.

Hydrometer tests of the oil from the well vary from 32 to 36.5 in the gravity of the oil, which is very black, resembling the oil from the Fowler well in color.

### ADMISSION PRICE IS AGREED UPON BY THE TEXAS LEAGUE

FORT WORTH, TEX., April 2.—Texas League magnates voted Friday at a special meeting held here to increase the admission prices to all scheduled championship games this season. The new admissions will be general 50 cents, grand stand 75 cents. This was made applicable to all clubs except Wichita Falls, which must charge more in order to meet a five cents additional per person to be paid visiting clubs. President-Manager Walter Salm of Wichita Falls said he would charge 55 and 85 cents.

The increased admission was fought by Paul La Grave of Fort Worth and Hans Patterson of Dallas. They contended for the present charge of 25 and 65 cents.

The waiver rule was amended after an attempt had been made to have it abolished. Under the new ruling, managers must ask waivers and clubs refusing to waive on a player, must notify Secretary W. G. Ruggles at Dallas within twenty-four hours after receiving notice. In the event more than

one club refuses to waive on a player, the award will be made by lot.

An attempt was also made to suspend the rule which provides each club must carry two recruit players. La Grave fought to have the rule abolished on the ground that with the increased cost in admissions, clubs would have enough money to buy players, and was unsuccessful.

A loving cup will be presented to the club turning in the best attendance receipts for the opening home game.

### NEW SUITS FILED IN LOCAL DISTRICT COURTS

The following new cases have been filed in the 78th district court: Blair and Montgomery Drilling company vs. Queen Eight O' company, et al. debt and receiver. Effie Hanks vs. Will Hanks, divorce.

New suits filed in the 30th district court are: American State bank of Burkburnett vs. Bass Petroleum company, garnishee, W. N. Willey, defendant, garnishment. J. B. Vicars vs. T. E. Sullivan, debt. Crude Oil Marketing company vs. Premo Oil and Gas company, debt. G. E. Henderson vs. B. C. Armstrong, debt.

## A. & M. COMMITTEE MEETS AT EASTLAND TO PLAN CAMPAIGN

STAMFORD, April 2.—The Agricultural and Mechanical college committee of the west Texas chamber of commerce will convene at Eastland April 3 for the purpose of arranging all details in connection with the campaign which the organization will immediately begin to wage for the location of a standard A. and M. college in some west Texas town. The committee is composed of B. Reagan of Big Spring, C. M. Caldwell of Breckenridge and O. L. Slaton of Lubbock. Others who will attend are President H. P. Brelsford and Manager Porter A. Whaley of the organization.

At the annual convention of the organization held at Abilene Jan. 22 this year, resolutions were adopted authorizing immediate steps to be taken to recover for the west an agricultural and mechanical college whose services would more nearly adapt themselves to the western portion of the state. Realizing that the state institutions already maintained are limited in finances, the organization will proceed to outline a plan whereby the funds of the state may be increased sufficiently to make possible the operation of two such A. and M. colleges. The west is united, and back of the organization in its plans to secure the college.

The organization has received the cooperation of newspapers which heretofore have opposed the establishment of a west Texas A. and M. college in the west. One of the strongest opponents in the shape of a newspaper has come out strongly for it. The organization will also try to suggest a way to make the location among towns so that it will be above board and fair without causing confusion and disgust, as was the case a few years ago.

## WOOL GROWERS TO HAVE HEARING AT WASHINGTON

SAN ANGELO, TEX., April 2.—Wool growers of the southwest will be given a hearing in Washington April 15, by the bureau of markets of the department of agriculture on their claims for losses of hundreds of thousands of dollars in 1919 through alleged undervaluation of wool by governmental agencies.

Representative C. B. Hudspeth, in a telegram received here last night said the hearing had been arranged and urged sheepmen to have representatives in the national capital with proof that their wool had been appraised 7 cents too low.

The Central Storage company, whose patrons claim to have lost \$500,000 in 1918 through improper valuation of long spring wools, announced it would represent its customers at the hearings. Sam H. Hill and J. Miles O'Daniel, vice president and secretary, respectively, of the company, will present the growers' claims, it was said. Other wool growers in the southwest probably will send a similar committee to represent them.

The department of agriculture has agreed, according to information here, to "fix a correct valuation" on the wool.

## ADOPT SCHEDULE FOR WEST TEXAS EXHIBIT AT THE STATE FAIRS

STAMFORD, April 2.—The itineraries for agricultural and mineral exhibits which the west Texas chamber of commerce will send to state and national fairs of the union this fall, were adopted at a meeting of the exhibits committee of the organization which met this week. The exhibits department is under the supervision of J. C. Wells, former secretary of the Big Spring chamber of commerce, who became a member of the executive staff today. Itineraries follow:

General Exhibit No. 1: Missouri state fair, Sedalia, Aug. 7-14; North-western Ohio state fair, Toledo, Aug. 23-28; Ohio state fair, Columbus, Aug. 30 to Sept. 4; Kansas Free state fair, Topeka, Sept. 13-18; Tri-State fair, Memphis, Sept. 25 to Oct. 1; South-western state fair, Atlanta, Oct. 16-25; Georgia state fair, Macon, Oct. 25 to Nov. 5.

General Exhibit No. 2: Illinois state fair, Springfield, Aug. 20-28; Illinois-Indiana fair, Danville, Aug. 23 to Sept. 4; Indiana state fair, Indianapolis, Sept. 6-11; Tennessee state fair, Nash-

## TEXAS AND PACIFIC HAS RECONSTRUCTION PROGRAM

EL PASO, TEX., April 2.—Sensing a period of unprecedented prosperity and passenger and freight traffic the Texas and Pacific Railroad Company is preparing to undertake a reconstruction program which will make that railroad the best in the Southwest, according to J. A. Somerville, general manager.

The entire road will be relaid with 80 pound steel rails and only steel coaches will be operated into El Paso, he stated here a few days ago. The company has already ordered 60 steel coaches and acquired 70 oil burning locomotives. Mr. Somerville declares that the bulk of transcontinental traffic which has passed over other cross-continent lines will hereafter move over his line. The newly discovered oil field at Pecos and Taylor is helping to make the territory traversed by this line the most populous in the southwest, according to the West Texas Chamber of Commerce.

Can you watch the traffic downtown a few minutes without thinking of accidents? Do you know you may be next? Better let us protect you and your family. Call 529. Eekrote-Insurance, 220 Commerce building. 365-37c

## QUARTERLY MEETING OF THE BANK EXAMINERS

AUSTIN, TEX., April 2.—The quarterly meeting of bank examiners began today and will continue through Saturday. The meeting is presided over today by George Waverly Briggs, retiring commissioner of insurance and banking; while J. D. Chesney, appointed by the governor to succeed Mr. Briggs, who has resigned, will preside tomorrow when he will assume his duties.

## STAMFORD TO HAVE SEVEN COTTON GINS

STAMFORD, TEX., April 2.—With the building of two new gins for which contracts have been let, Stamford will have seven gins. The county of Jones of which this city is the largest in population, now ranks as the third cotton producing county in the state.

A new building boom has struck Stamford. Many new residences are being erected, a large addition to the Stamford sanitarium, several new brick buildings, and still there is a call for new buildings. The housing proposition here is still very serious. Building of an apartment house is being urged by the Chamber of Commerce.

## ABILENE REPORTER IS TO HAVE NEW PRESS

ABILENE, TEX., April 2.—In keeping with its policy of standing abreast with the city, the Abilene Daily Reporter announces that it will shortly install a perfecting Dimey press capable of running off 16 pages at a time at the rate of 30,000 an hour. Recently the owners let a contract for the first unit of their new home, the unit costing \$55,000.

## Will Not be One Day Without PE-RU-NA

This Lady TELLS Her FRIENDS

Mrs. Mary Fricke, 507 Bornman St., Bellevue, Ill., is just one of the many thousands of ladies throughout the country who, after an agony of years, have at last found health, strength and vigor in PE-RU-NA.

Her own words tell of her suffering and recovery better than we can do it: "I suffered with my stomach, had awful cramps and headaches so I often could not lay on a pillow. Saw your book, tried PE-RU-NA and got good results from the first bottle. To be sure of a cure I took twelve bottles. I have recommended PE-RU-NA to my friends and all are well pleased with results. I will not be one day without PE-RU-NA. Have not had a doctor since I started with PE-RU-NA, which was about fifteen years ago. I am now sixty-three years old, hale, hearty and well. Can do as much work as my daughters. I feel strong and healthy and weigh near two hundred pounds. Before, I weighed as little as one hundred. I hope lots of people use PE-RU-NA and get the results I did." An experience like that of Mrs. Fricke is an inspiration to every sick and suffering woman.

If you have catarrh, whether it be of the nose, throat, stomach, bowels, or other organs, PE-RU-NA is the remedy. It is not new; it is not an experiment. PE-RU-NA has been tried. PE-RU-NA has been used by thousands who once were sick and are now well. To prevent coughs, colds, grip and influenza and to hasten recovery there is nothing better.

PE-RU-NA will improve the appetite and digestion, purify the blood, soothe the irritated mucous linings, eradicate the waste matter from the system. It will tone up the nerves, give you health, strength, vigor and the joy of living. Do what Mrs. Mary Fricke and thousands more have done—try PE-RU-NA. You will be glad, happy, thankful.

### DEVELOPMENTS IN WILBARGER COUNTY OVER A WIDE AREA

By A. C. McCONNELL.

VERNON, April 2.—As developments are being extended over a wide area, the Wilbarger field is gaining favor with foreign operators. Vernon has been literally swarmed for the past few days with oil operators, promoters and lease holders. They are here from the four corners of the globe and should a good producer be brought in from any one of the wells now reported to be on the sand, outside of the Sigler and Tee-Pee wells, the stage is set for a first class boom. Vernon is getting the overflow from all the oil centers. Scouts for the big companies have checker-boarded the county and are securing acreage in the territory immediately surrounding the various tests and Sigler wells. Geologists are still singing the songs of this county, and the leasing game has been very active surrounding Vernon and leasing has come down to almost the city limits.

Vernon is in the midst of the greatest building boom known in her history, and property values have more than tripled in price, and there is no telling how high prices will go. There is not a vacant residence of business house in Vernon, with about 100 new houses going up and several additions are being planned and Sigler City is the baby town.

It is rumored the Frisco is preparing an extension of their line from Vernon to Seymour, where they will be able to tap the rich oil fields of Stephens and Eastland counties, giving them a direct competition from these fields to Kansas City. Nothing definite as to the outcome of this rumor is ascertained, but the matter will hinge no doubt as to the course the Ringling road will take. The action of the Ringling project is being watched very closely by Vernonites. The Frisco has already announced they will extend from Vernon to Sigler City, the new town near the Sigler well.

**DEBATING TEAMS TO DISCUSS FEDERATION**

AUSTIN, TEX., April 2.—Debating teams representing the University of Texas are scheduled to appear tonight in three intercollegiate debating contests on the subject, "Resolved: That Teachers Should Affiliate With the American Federation of Labor."

Robert M. Fields and John D. Coker will uphold the affirmative against a team from the University of Utah, in Austin.

Carl B. Calloway and Judson Francis have gone to Norman, Okla., to take the affirmative against the University of Oklahoma.

Jack Blacklock and B. T. Bower, will debate the negative with representatives of the University of Colorado at Boulder, Colo.

A Texas team won the decision over a team from the University of Arizona here March 28, and tonight's contest will decide the standing of the University of Texas in the four-state association.

### GRANDFIELD BECOMING A CITY OF RESIDENCES

GRANDFIELD, OKLA., April 2.—Grandfield is nothing if not enterprising. When hundreds of families began moving here from the Texas oil fields, Grandfield began immediately making itself into a modern city.

It purchased a site on the Red river for a waterworks—a site which could be leased today for \$100,000, but which the city refuses to consider selling or leasing. It is laying an eight-inch water main from this site into the city, is installing water mains in the city itself, and has contracted for a fire department; equipment capable of throwing water over a ten-story office building.

It is to lay from four to five miles of concrete paving this summer, and approximately 14 miles of sewers, part of the material for which is already on the ground.

It is constructing one of the most modern and up-to-date hospitals in the state; the contract has been let for a new \$125,000 high school; a city hall and fire station are soon to be constructed.

The three banks of Grandfield have nearly \$3,000,000 in deposits, and have grown to powerful institutions in space of only a few months.

Grandfield has 10 lumber yards, insuring plenty of material for scores of residences under construction, and its dry goods and clothing stores, with stocks valued at from \$40,000 to \$100,000, are among the most modern in the southwestern part of Oklahoma.

It has three motion picture theaters and one vaudeville house, and all popular lines of automobiles are represented by distributors. Growth of the town is indicated by the increased business done by all these companies.

### MARCH PRODUCTION IS 35,994 BELOW FEBRUARY RECORD

OIL CITY, PA., April 2.—According to the monthly review of activity in the oil fields of the country, made public here today by The Derrick, new production during March amounted to 266,574 barrels, a loss of 35,994 from the February record. Wells completed numbered 2,394, or 231 more than in the previous month. There were 432 dry holes and 138 gas producers, the review said. New York at the close of March showed 2,933 rigs and 7,341 wells drilling.

### STATE DEMOCRATIC EXECUTIVE COMMITTEE WILL MEET THURSDAY

DALLAS, TEX., April 2.—Selection of a date and place for holding the Texas state democratic convention will be the principal work before the state democratic executive committee at a meeting here, Thursday April 8.

The call for the committee meeting, issued last night by M. H. Wolfe, chairman, said cities desirous of becoming host for the state convention should lay their claims before the executive body at once.

IMPORTANT PROGRAM WILL CONFRONT THE COUNCIL OF LEAGUE

WASHINGTON, April 2.—A full and important program will confront the council of the league of nations when it assembles in Rome April 27.

The organizing committee for the court has been at work and has noted acceptances from Lord Phillimore, of England; Baron Des Camps, of Belgium; Mr. Loder and Mr. Vesnitch, of Jugoslavia, as well as from Eilhu Root from America.

END OF FIRST MONTH OF PRIVATE OPERATION FINDS CAR SHORTAGE

WASHINGTON, April 2.—The first month of private operation of railroads ended with the nation in the grip of a serious car shortage.

The car shortage is blamed in part for rising living costs. The agriculture department, officials fear a shortage of refrigerator cars will delay prompt movement of many perishable foods due at market beginning about May 1.

Coal mines are now closed 30 per cent of the time on account of the shortage of cars and other transportation delays, according to reports to the United States geological survey to the interior department.

Easter Means Gifts

"she" at least demands special notice on Easter; she expects you to send her some little token of your love for her. Such tokens are best illustrated by candies and perfumes, a large stock of both of which we have, in packages selected particularly for Easter. She'll love such gifts as these and love the lover who sends them.

CANDY

Candies, chocolates, bon bons, all mixtures and assortments, plainly and decoratively packaged. Wonderful qualities and clever gifts. Place orders early.

PERFUMES

Perfumes in fancy bottles will make wonderful little Easter Gifts representative as they are of the natural flowers of which they are made. Daintees to the dainty girl—gifts that she will adore. See that she gets them.

ATLANTA—President Wilson's name which has been entered by petition in the Georgia presidential preference primary, was withdrawn.

WASHINGTON—Wage negotiations between the conference committees representing the railroads and the unions were broken off when railroad representatives declined to consider demands which have been estimated to total one billion dollars, unless the public was given a voice in the discussions. The controversy now probably will be referred to railroad labor board to be appointed by President Wilson under the transportation act.

HOUSTON—George "Buck" Weaver, third baseman of the Chicago Americans, who recently left the team at Waco, Texas, declaring he was not satisfied with his salary, rejoined the team here.

STOUX FALLS, S. D.—Unofficial returns from 54 of the 64 counties of the state on the general primary election of March 23, showed the following figures on the contest for the republican presidential nomination: Wood 28,302; Lowden 22,543; Johnson 23,429.

WASHINGTON—Homer S. Cummings, chairman of the democratic national committee, announced that plans for the national convention in San Francisco would be discussed at a

meeting of the committee on arrangements in Chicago April 30. THE HAGUE.—The Dutch government plans to issue shortly an "orange book" embodying the correspondence passing between the Netherlands government and the entente concerning the allied demand for the surrender for trial of the former German emperor.

Proclamation

We hereby proclaim the week beginning March 29th and ending Saturday, April 3rd as BERT BEAN COFFEE WEEK in Wichita Falls and respectfully request each inhabitant of said city to repair to his favorite grocer and purchase a pound of coffee fresh from the roasters of said BERT BEAN and drink thereof as much as seems good.

For it "Dispellet, the cares of the great, and bringeth back those who wander from the path of knowledge—Coffee is our gold and in the palace of its illusions, we are in the enjoyment of the best and noblest society. Every care vanishes when the cup bearer presents the delicious chalice to our lips. It circulates freely through our veins and does not rankle there. Grief cannot exist where it grows, and sorrow humbleth itself before its powers. Viva La Cafe."

Witness our hand in our office where Sixth street intersects Ohio in the City of Wichita Falls on Saturday, March twenty-seventh, in the year Nineteen Hundre. Twenty.

EYES

Most people, you included, perhaps, are extremely negligent in the care of their eyes, and very culpably so in regard to their children's eyes. The public generally has no idea of the number and variety of present day eye defects and often resort to glasses selected at random which are entirely unsuited to the conditions of the eye. Many glasses selected in this way which "seem to suit exactly" at first, prove most injurious and often result in permanent injury. Come and talk over your eye trouble with us.
