FORT WORTH NEGRO SHOT AND KILLED IN ATTEMPTING ESCAPE

FORT WORTH, Oct. 11.—David Rann, confessed negro bandit, who had admitted more crimes than any other negro in the history of Tarrant county, and who last week was snatched from three different mobs by officers and taken to Dallas, was shot to death early this morning between Fort Worth and Dallas trying to escape. Officers had him in an automobile bringing him back to Fort Worth for trial.

RED RIVER HEARING MOVES TO VERNON. WORK HERE ENDED

The Wichita Falls hearing in the Red river boundary case came to a close at 11 a. m. Tuesday, and Tuesday afternoon the commissioner, attorneys and court reporters moved to Vernon, where the Wilbarger county hearing will open Wednesday morning. On Thursday there will be a brief hearing at Quannah, and from there the party will go to Austin for the final Texas hearing.

W. C. WITCHER LAST WITNESS HEARD HERE

W. C. Witcher, administrator for the Lucy O'Neill Saunders estate, was the only witness Tuesday morning. His cross examination was punctuated by several near-clashes with John Fain of counsel for the government. Mr. Witcher on direct examination testified particularly as to the existence of stumps of large trees in the river bed the trees evidently having been of considerable age.

THOUGHT AUTOMOBILE TRIP WOULD BE SAFEST WAY

DALLAS, Oct. 11.—David Rann, confessed negro bandit, was in charge of Sheriff Carl Smith of Tarrant county and a deputy, it was stated at the county jail here. The Fort Worth officers arrived here at 5:00 o'clock this morning and 10 minutes later with the negro in custody, started for Fort Worth. The Fort Worth officers here were making the trip by automobile because he feared his movements would be noted had he traveled by train or interurban.

BRIDE OF FEW MONTHS SUICIDES AT HOUSTON

HOUSTON, Oct. 11.—Zelma, you have lost your best pal. With these words, Mrs. Jennie St. Cyr, 37, a bride of a few months, drew a pistol from folds of her dress and fired a bullet through her heart Monday night.

PERSHING WILL GO TO LONDON TO HONOR 'UNKNOWN SOLDIERS'

LONDON, Oct. 11.—General Pershing, chief of staff of the American army, will come to London before October 20 to lay the medal of honor voted by the United States congress on the tomb of the unknown British soldier in Westminster Abbey, the British foreign office announced this evening. The Associated Press was informed today that General Pershing's name never was mentioned in the exchange of notes between the American embassy in London and the British foreign office relative to the bestowal of the medal. Responsibility for what officials in each place characterized as "a most unfortunate mistake" was not laid solely at the door of British officials.

THIRTY ARE KILLED AND MANY INJURED; TRAIN IS WRECKED

RIGA, Oct. 11.—Counter revolutionists in the Ukraine wrecked a passenger train from Kiev near the station of Teterovo and passengers were killed and many injured, according to a wireless dispatch received here today. The survivors of the wreck, the message said, were fired upon by bandits who later captured them and took them to a forest where they were all killed and 15 of them were shot and killed.

HOLD ELABORATE FIRE PREVENTION OBSERVANCE HERE

NATION WIDE OCCASION IS COMMEMORATED IN WICHITA FALLS TUESDAY.

SCHOOL CHILDREN HEAR NUMBER OF SPEAKERS

"Ninety Per Cent of All Fires Are Preventable" is Message Most Emphasized.

"Ninety per cent of all fires are preventable" was the message that was hammered into Wichitans Tuesday morning, in the observance of Fire Prevention Day.

A parade through the business district, and talks by a number of Wichitans at the public schools, constituted the observance of the day, it being a nation-wide occasion. Fire Chief McClellan thought that the occasion warranted something special in the way of observance here, and he accordingly made plans for the parade and for talks in the schools.

All of the city's fire-fighting equipment was in the parade, each machine being decked with banners emphasizing the need of guarding against fire.

FIELD SECRETARY OF COLORED ORPHANAGE SEEKS AID IN CITY

Rev. M. P. Graham, field secretary of St. John's Colored orphanage, located three miles north of Austin on a 300-acre tract in Wichita Falls, asking the citizens, both white and colored, for emergency money necessary for the maintenance of the institution.

Graham comes highly recommended and bears credentials from state officers. The field secretary is holding services each evening in the colored churches of the city in an effort to raise the emergency fund. He stated Tuesday that he is well pleased with the co-operation of the colored citizens here.

R. L. Staples, secretary of state at Austin, endorses Graham as follows: "The St. John's Colored Orphanage home established in this city is a very worthy enterprise. They have a valuable piece of property here consisting of a large farm north of the city limits where many orphans are taught industrial pursuits. M. P. Graham, whom I have personally known for the past 20 years or more is soliciting subscriptions in aid of this home. He is thoroughly reliable and any donation given him will reach the proper channel and the same will be greatly appreciated and remembered by the beneficiaries thereof."

SHRINERS ARE PROMISING SOMETHING DIFFERENT IN COMING MUSICAL REVUE

The Times has received the following:

Although the "Oh, Joy, Musical Revue," which Maskat Temple band and patrol will present soon at the Wichita theater, is classed as a musical show, the first scene in "The Band and Patrol Club" is novel, in that it lets the audience "in" to the fact that there is a considerable plot to follow, and in conversation between Dick Morrison and Ned Fleming and Bob Wagoner, who are respectively representing none other than Bob Nolan, Horace Robbins and Dr. J. H. Fletcher, the plot develops speedily. The audience is given to understand that there will be a reason for everything that follows, the "reason" being Miss Ruth Nolan, a "simplicity," the charming little lady, who lived years ago, and has suddenly returned with a very strong desire to see everything. From this point throughout 11 beautifully staged scenes, simplicity is complied by the audience, proceeds to see everything. And as has been stated, although there are 11 scenes, which run without an intermission, the entire performance only occupies two hours.

"This is quite out of keeping with the popular idea of an amateur show," says Lewis Lacey, who is directing the production, "and this is one of the biggest surprises that we can promise the audience, the fact that we can start on time and finish on time." Members of the cast, who are rehearsing nightly in the ballroom of the Kemp, are enthusiastic in their praise of the piece and are unanimous in declaring it the cleverest thing ever attempted by local people. The cast is selected from Wichita's most accomplished talent, and includes some of those of dramatic ability, of some 75 in number. The advance sale of tickets is already being looked forward to by numbers of people who are desiring to see early and assure themselves of a desirable seat.

Hardly Knows How To Estimate Value

"I hardly know how to estimate the value of the benefit I have received from Mendenhall's Number 40," writes Mr. Morris Law, of National Soldiers Home, Wis. "I was a sufferer from chronic constipation of many years standing," he continued, "which finally developed into stomach trouble and I was unable to eat anything that did not cause intense suffering. I tried several doctors as well as everything I heard of that was recommended for my complaint. I was also troubled with catarrh and had dropsical swelling in my feet and ankles which the doctors said was caused by a weak heart. I had about given up hope of getting any relief when I read your advertisement. Number 40 and concluded to try it. I have taken two bottles and have received such wonderful benefit that I cheerfully recommend it to anyone suffering as I was."

"Number 40" is recommended for blood troubles from any cause; chronic constipation, rheumatism, indigestion, stomach and liver troubles, eczema, skin troubles, etc. Acts on the liver, removing waste matter from the system, thus cleansing the blood of all impurities and doing away with the need of cathartic pills and tablets. RAIL SURVEY FROM BYERS TO WAURIKA STARTED TUESDAY

Surveying of the route from Byers to Waurika over which it is expected this city will be given a new and important rail outlet in the near future, began Thursday morning. Frank Kell, Captain McFarland and A. W. Allen left here by auto early Tuesday to personally supervise the starting of the survey; they were to be joined at Byers by Col. George Byers, who was largely instrumental in the building of the Wichita Valley from this city to Byers, and who is very anxious to see the Byers line extended to Waurika.

The biggest handicap in the construction of the road is the Red River crossing, which will be an expensive undertaking.

NO CASES TO TRY AS MEN ARE IN JAIL OUT OF COUNTY

Criminal cases were to be tried Tuesday morning in the county court at law, but the court was forced to be idle the greater part of the morning as the defendants in the cases set for trial, Sewell Fields and H. T. Scott were in jail in Clay county and could not attend. Sewell Fields was to be tried on a charge of adultery and Scott on an appeal case from the city, in which he stands charged with vagrancy.

JUDGE ROGERS ORDERS THREE BONDS FORFEITED TUESDAY

Judge Guy Rogers ordered three bonds in criminal cases forfeited Tuesday morning when the cases were called for trial and no response was made. Two bonds of \$250 each in which M. Mitchem and H. W. Preston were bondsmen, and B. M. Fugitt was principal were ordered forfeited. In one case Fugitt stood charged with slandering and in the other theft under \$50. The \$50 bond of Jerry Wood on appeal from the city, with J. J. Long and Virgie A. Hanson was also ordered by the court to be forfeited.

GOOD ROADS BILL SCHEDULED TO BE PASSED THIS WEEK

Judge R. E. Huff, in answer to an inquiry sent Monday, received a telegram from Lucian W. Parrish Tuesday morning in which the congressman stated that the good roads bill, on which passage depends whether Wichita county will receive any federal aid for the Iowa Park-Wilbarger county road, is scheduled to pass both the house and senate this week.

Mr. Parrish stated in his message that the conference committee had recommended the passage of the bill and that it was his opinion that the bill would go through both legislative bodies without opposition.

The delay of the passage of the bill caused more discussion in the commissioners' court Monday, as it was formerly pointed out that if the project now under construction were completed before the appropriation was made that the county would lose the federal aid promised which amounts to \$100,000.

SEVENTY-FIVE CIVIL CASES PLACED ON RETIRED DOCKET

Seventy-five civil cases in the county court at law were placed on the retired docket Tuesday morning by Judge Guy Rogers, which is the last step before the cases are entirely dismissed. The cases so treated have been long standing on the court's docket and unless attorneys in the cases make some motion within the near future to have them replaced in the trial docket the cases will all be dismissed.

REORGANIZATION OF HOUSE COMMITTEE ON APPROPRIATIONS

GREATER ECONOMIES AND MORE CO-OPERATION EXPECTED TO RESULT.

COMMITTEE DIVIDED INTO TWELVE SUB-COMMITTEES

These Will Pass Upon Appropriation Demands of Various Departments.

WASHINGTON, D. C., Oct. 11.—A business-like reorganization of the appropriations committee of the house has just been announced by Chairman Martin B. Madden, representative from the First Illinois district recently chosen to succeed former Congressman James W. Good of Iowa as head of this all-powerful committee. As a result it is confidently predicted greater economies can be effected and more efficient co-operation obtained between congress, departmental heads and the budget bureau than has been possible heretofore.

Under the arrangement determined upon by the 25 members of this committee, which controls the purse strings of the nation, are divided into 12 sub-committees and each will be assigned the duty of considering and passing upon appropriation demands arising in or for one of the several departments. This means duplication of appropriations will be eliminated as will the confusion as to just what supply bill should carry a particular requirement.

The committee on appropriations heretofore has been divided into 13 sub-committees, one for each of the 12 regular annual appropriation bills and one for all deficiency appropriation bills. As a result the bills have not been constructed along very well defined lines and it has been impossible to determine total appropriations for any given department without consulting at least two bills. In the case of army appropriations it would be necessary to inspect the fortification and sundry civil bills to sum up the military appropriations, while the civil activities of the war department have been cared for in the legislative, judicial and executive, river and harbor and sundry civil bills.

The first budget, under the new budget act, will be submitted to congress in December by President Harding. The act provides for submission of two budgets, one to follow the outline of the old book of estimates and the other, or alternative budget, to be made up according to such arrangement as Director Dawes, with the approval of President Harding, may prescribe.

The committee and the director of the budget are in accord with the plans for the alternative budget and under this anyone may tell at a glance the amount called for by any one of the departments or any one of the bureaus. It will be necessary to wipe out the system which has obtained for years and in place thereof the various appropriation bills will be designated as follows:

Treasury department, District of Columbia war department, legislative establishment, Postoffice department, Agricultural department, Interior department, independent offices, Navy department, departments of State and Justice, departments of Commerce and Labor, deficiencies.

In keeping with this the effort has been made to group the various governmental activities under particular heads and by this means all bills providing appropriations to be extended through a given department will be handled by one of the sub-committees.

FAVORABLY REPORT BILL TO CONTINUE EMERGENCY TARIFF

WASHINGTON, Oct. 11.—The emergency tariff instead of expiring November 27, would remain in effect until February 1 under a bill favorably reported today by the house ways and means committee. The life of the duty embargo would be extended as well as the rates carried in the emergency act.

TWELVE DEMOCRATS VOTE FOR BORAH TOLLS BILL

WASHINGTON, Oct. 11.—The Borah bill for tolls exemption of American coastwise vessels passing through the Panama canal was passed by the house Monday, Oct. 11. The measure now goes to the senate, where it is expected it will be subject to indefinite delay in consideration. At least until after the conference on limitation of armament.

Before proceeding to a final vote the senate rejected without a roll call two substitutes offered by Senator King, democrat, Utah, to authorize the president to negotiate for arbitration of the tolls question and to appropriate \$2,000,000 as a subsidy for American vessels using the canal. Debate on the Borah proposal disclosed a split in party ranks, opponents declaring the bill was inopportune while Senator Borah, republican, Idaho, declared he had talked with President Harding and Secretary Hughes and they did not share such views.

Twelve democrats voted for the bill on the roll call while 17 republicans voted in opposition, so that the democratic support was regarded as the determining factor. Democrats who gave their support to the bill were:

- Ashurst, Arizona; Broussard, Louisiana; Harrison, Mississippi; Reed, Wyoming; Robinson, Arkansas; Shields, Tennessee; Stanley, Kentucky; Underwood, Alabama; Walsh, Massachusetts; and Walsh, Montana.

Two other republicans, Dupont, Delaware, and McLean, Connecticut, were paired against the bill. In referring to the armament conference, Senator Borah said he did not understand that this conference will involve the United States bartering away any substantial right.

"I have talked with those most responsible for and concerned in the conference," he added, "I have had a full understanding and in discussion. The fears expressed are not shared by them."

STATE AND DEFENSE BEST IN THE CASE OF J. Q. DENNY

OKLAHOMA CITY, Oct. 11.—Both the state and defense rested today in the trial of J. Q. Denny, state legislator, charged with living immorally with a 20-year-old girl. The defense move came as a surprise immediately following the completion of state testimony. The defense did not place a witness on the stand. Denny was accused of living with Virginia Lloyd during the session of the eighth Oklahoma legislature early this year. The girl committed suicide after the legislature adjourned.

IMPORTS AND EXPORTS DECREASE IN SEPTEMBER

WASHINGTON, Oct. 11.—Values of imports and exports of merchandise each fell off materially during September, according to figures made public today by the department of commerce. Imports for September were \$180,000,000, the lowest for any month this year.

SPECIFIC QUESTIONS HAVE BEEN SUBMITTED REGARDING THE KLAN

AUSTIN, Oct. 11.—An opinion as to the legal status of the Knights of the Ku Klux Klan and the activities of the organization and its members has been requested of the attorney general's departments by the Travis county grand jury. The request was signed by Guy A. Collett, foreman of the grand jury to County Attorney John W. Hornsby and submitted by that official to the attorney general's department.

Five specific questions are asked by the grand jury and when answered will be the first expression from the state's highest legal authority on the operations of the Ku Klux Klan in Texas.

The first question propounded is: "Under the laws of the state of Texas, is it unlawful to be a member of the Knights of the Ku Klux Klan, No. 81, realm of Capitol City Klan, No. 81, realm of Texas, Knights of the Ku Klux Klan?"

"If your answer is 'No' then the following questions arise for our consideration in Travis county: "No. 2: Is it unlawful for a member of said organization to be present at a meeting in which a threatening notice (as defined in the penal code articles 1182 and 1189 of the acts of 1919) is authorized to be sent or posted, if said member in question does not participate further in the execution of the authority to send said threatening notice, but which notice is sent or posted by others who were authorized to do so, while member under consideration was present and member has knowledge of its execution?"

"Number 3: Is it unlawful to remain a member of said organization after said member has knowledge that an illegal notice has been sent to a person in the name of or by such organization, though member was not present when legal notice was authorized and did not participate in sending or posting same?"

"Number 4: Is it unlawful to remain a member of said organization after knowledge that violence has been administered to a person by or through said organization on or by direct means of its sanction, though member in question did not participate in the meeting authorizing said violence?"

"Number 5: Is it unlawful for two or more persons to conceal their identity by masks, robes or other devices and parade upon a public street, road or park with the avowed purpose of advertising the existence and strength of the organization in that particular community but with no expressed or implied intent to do violence and no overt act is committed by marchers during or incident to said parade?"

"I have talked with those most responsible for and concerned in the conference," he added, "I have had a full understanding and in discussion. The fears expressed are not shared by them."

Very Next Dose of Treacherous Drug May Start Terrible Suffering.

The next dose of calomel you take may sicken you. It may shock your liver or start home necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your drugstore and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel. It can not be trusted any more than a leopard or a wild dog. Take Dodson's Liver Tonic which straightens you right up and makes you feel fine. No salts, necessary. Give it to the children because it is perfectly harmless and can not sicken.

GEORGIA NEGRO FATHER OF THIRTY-TWO CHILDREN

SAVANNAH, GA., Oct. 11.—A. B. Burgess, a negro employed by the Atlantic Coast Line railway, probably has the largest family in Georgia. He is the father of 32 children and has had three wives. Twenty-six of the children are living.

The negro has been blessed with seven sets of twins and two sets of triplets.

When the last set of twins were born, Burgess and his wife had run out of names for them and they went nameless, until they selected their own names when they entered public school.

Burgess shied at selecting names when he found that among his progeny he had been "doubling up," having two "Willies" and two "Sallies" in his flock.

FIRST MEETING OF AMERICAN DELEGATES MAY BE ON MONDAY

WASHINGTON, Oct. 11.—The first meeting of the American delegates to the conference on limitation of armament may be held tomorrow with the arrival from New York of Ethel Root. It was said today at the state department that while no time for the meeting actually had been set and the convenience of Senators Lodge and Underwood must be consulted, that it was possible that the American representatives would get together during the day with Secretary Hughes.

QUARANTINE PROPOSED TO CHECK RAVAGES OF EUROPEAN CORN BORER

WASHINGTON, Oct. 11.—Proposals that the entire northeastern portion of the country stretching from the western Indiana border to the Atlantic and from the Ohio and Potomac rivers to the Canadian line be placed under quarantine to check ravages of the European corn borer, a new insect pest, were up for hearing today before the federal horticultural board.

The proposal gave all the appearance of being one of the most hard fought issues which have come before the horticultural board, states within the proposed area seeking to prevent the quarantine and those without, but adjacent to it, seeking imposition of restrictive measures.

AN OPPORTUNITY FOR DEMOCRATIC LEADERSHIP.

Even the republican members of the senate finance committee were unable to withstand the clamor against the reduction of income surtaxes to a point where the very wealthy might be expected to pay them rather than invest in tax exempt securities.

The tax bill was approved by the republican members of the committee by a vote of 5 to 4 and it is reported that some of the four will oppose the provisions of the bill on the floor of the senate.

Discussing the situation of the republicans in the New York Times says:
"The republicans in congress are in a condition of mental prostration, economic destitution and intellectual bankruptcy.

If there is still a public opinion about tax law revision, it will be heard by the exhibition of congressional incapacity, has not reached the pitch of despair about income tax relief, it is high time representations were made at Washington that would spur congress to action.

The emperor of Japan, Yoshihito, is in immediate danger of death.
Official announcement of the Mikado's death would have tremendous bearing on world affairs, especially the relations between Japan and the United States.

Today is the one hundredth anniversary of the death of George Williams, founder of the Young Men's Christian Association movement, a movement that has spread throughout the world and which is one of the greatest forces for good of the age.

he entered the employment of Hitchcock & Rogers, London merchants, afterward becoming the head of the house.
"Stirred by conditions surrounding their associates, Williams and a friend, named Beaumont, in 1844, discussed plans for bringing these young men within the reach of the Christ that they had found helpful.

"Not a church, but a religious society, it grew rapidly. Today it extends around the world, with 2,000 organizations, 1,483,000 members and property valued at \$148,000,000. Within seven years after its birth it was domiciled in North America, where it has its greatest strength, with 2,395 associations, 825,581 members and \$123,548,900 in property.

"John Wannamaker, his intimate friend since 1871, tells of his last meeting with Mr. Williams in 1905, shortly before the latter passed away. Upon that occasion Mr. Williams sent this message to the Y. M. C. A.:

"Tell them for me to be faithful to Jesus Christ; keep together, pray much, go forward, keep sweet."
"In 1894 Williams was knighted by Queen Victoria.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

THE SELF-PITIER.
The world isn't anywhere nearly as interested in us as we oftentimes imagine that it is. A man really is important only as he accomplishes important things.

I recently received a very lengthy letter from a young man who worked day after day in a sugar refining factory. He wrote that for a long time he felt everything and everybody was against him.

White passing along the street yesterday I came across a soldier who had lost his legs in the service of his country. He was selling pencils. But he was not begging! Rather he was giving. For he had a smile and a "God bless you" for everyone who passed him.

Oh, we're travellin' together. An' we're smillin' when we can; We're sharin' in the weather An' we're sharin' in the plan; We spend awhile in sorrow, An' we stop to shed our tears.

Oh, it's arm in arm we wander, With Old Father Time as guide, As he leads us over yonder Where the happy souls abide; An' we stoop to pick the roses, That are bloomin' on the way, An' we take as God disposes, To the endin' of the day.

Oh, we've suffered an' we've sorrowed, An' we've feared that all was lost; From our stock of faith we've borrowed When our way was tempest tossed; But somehow the skies grew clearer, An' the sun came out anew; An' we found our friends were dearer When we'd seen the trouble through.

NEW NATION WITH 4,000,000 PEOPLE

Lies Between Mexico and Nicaragua With Tegucigalpa as Its Capital.

TEGUCIGALPA, HONDURAS, Oct. 10.—A new nation having an approximate area of 100,000 miles and a population of 4,000,000 comes into existence when the governments of Honduras, Guatemala and Salvador will cease to function and the Provisional Federal Council of the Central American Federation composed of those countries, will take charge.

The new republic lies between Mexico and Nicaragua, with Tegucigalpa as its capital.

The pact of the union was signed early in January of this year at San Jose, Costa Rica, by the three mentioned states and Costa Rica, whose national assembly rejected it later by a vote of 19 to 20.

Nicaragua refused to sign the pact on account of differences with its neighbor, Costa Rica, over the fulfillment of the Bryan-Chamorro treaty, which gave to the United States special right for the construction of a new inter-oceanic canal through its territory.

Similar considerations apparently prevailed in Costa Rica but in both countries the public opinion is divided and a unionist party is endeavoring to bring about some time, the union of Nicaragua and Costa Rica to the federation.

If this union comes to a fulfillment, the population of the new nation would be increased by 1,000,000 inhabitants and would extend its boundary down to Panama.

The union of these latter republics has been a national aspiration since 80 years ago when political troubles destroyed the Federal Republic of Central America which, as a whole, liberated itself from the Spanish power in 1821 and maintained its unity until the 1850's.

The text of the treaty of union provides for a government modeled of the lines of the constitution of the United States, with three separated branches, the executive, legislative and judicial, although the executive is modeled more on the Swiss system.

A constitution embodying these provisions was finally approved by the constituent assembly which met in September at Tegucigalpa.

In so far as it does not infringe on the federal constitution, each state retains its autonomy and independence in the management and direction of its internal affairs and will carry on the governmental functions not specifically delegated to the federation.

The executive power reposes in a federal council composed of popularly elected delegates, each state to elect one councillor and one alternate, for the term of five years. Alternates may enter into the deliberations of the council but have no vote.

From among their number, the council elects one president and one vice president to hold office for one year. They cannot succeed themselves.

The legislative branch reposes in two houses, one of senators and the other of deputies. The senate consists of three senators for each state, elected by the state congress for the term of six years and will renew itself by thirds every two years.

The house of deputies is composed of popularly elected representatives, the proportion of one to every 100,000 inhabitants or fraction of more than 50,000. The deputies are elected for four years and must renew by half every two years.

The judicial power is vested in a supreme court and other courts established by law. Supreme court judges will be seven in number and will be elected for life by the senate from a list of eligibles prepared by the federal council.

Liberty of thought and conscience and many democratic principles are provided for.

GRAND REUNION OF THE DOUGHBOYS AT CONVENTION

KANSAS CITY, Oct. 10.—There'll be a grand reunion of the doughboy and the doughnut when the gang comes here Oct. 21, Nov. 1 and 2, for the third annual convention of the American Legion. The streets will look like the roads to and from the front lines during war days in France.

The veterans will find, as they leg it down the streets of Kansas City, doughnut doughnuts on all sides of them. These familiar looking sights will bear the nameplates of the Salvation Army and in the aperture will be a smiling face which will bring back memories of never to be forgotten days. The face will be that of a Salvation Army lassie, and in her hands she'll have crisp, flaky doughnuts to hand out to the famished and coffee to slake the thirst.

The Salvation Army, be it known, is about the only organization which has been declared by the city fathers to be a free lance during the convention. A blanket permit was issued by the board of public works, authorizing the army to put up its coffee and doughnut stands wherever it please.

The Army is going to have one wherever food is in demand.

HELP OF ALL NEEDED DECREASE ARMAMENT

By HERBERT QUICK
WASHINGTON, Oct. 11.—No one can blame Japan for entering the disarmament conference in a guarded way.

HERBERT QUICK

Her whole future, in some respects, may hang on the decisions. So may yours. So may those of the British empire.

Japan has left many loopholes open for withdrawal if she desires to withdraw. She insists on her reservations that "matters concerning only a few nations or which are accomplished facts" ought not to be brought into the discussion.

Does the Shantung matter concern only a few nations? And how about the Siberian occupation? What of freedom of immigration under this head? And the Yap Island controversy? How many of these are "accomplished facts?"

Japan has a treaty of alliance with Great Britain, now expiring. Japan wants this treaty renewed. Great Britain dislikes to denounce the treaty. Yet not only Great Britain, but some of her colonies do not want it renewed unless on terms satisfactory to us.

Japan's Future
If this treaty is not renewed, Japan may be isolated. But she wants friends and allies.

How will Italy and France line up in the conference? I think it fair to say that they will look at the Pacific ques-

tions with something of the eye of outsiders; and that should make for justice.

Japan's desire for friends and allies ought to impel her to accept every just decision.

Open Meetings
There has been a good deal of honest opinion expressed in this country in favor of perfectly open meetings of the conference.

It is perfectly safe to say that the meetings will most of them be held in private. When tentative propositions are put forward diplomats do not like to have them prematurely discussed. Such discussions often make it impossible for the person making them to back out.

The most that we can expect from the disarmament conference is that an honest policy of publicity be arrived at.

The civilized world will be on trial this fall and winter. It will be on trial as to its truthfulness and as to its sense of justice.

And its statesmen will be called upon for a higher statesmanship, a more lofty exaltation of spirit, a more complete dedication to the good of not only their own peoples but of the world than ever before.

It is easy to make war—for statesmen. To make peace takes a greater man. To plan for permanent peace, the greatest of all.

We, as a people, shall be on trial. Let us see how broad we can be, how fair, how sympathetic with other peoples.

Fearful of Result
My last word is that I am fearful of the result.

Our people and the peoples of other nations will support almost any effective plan to remove the crushing load of war they carry; that load so well described in Japan's note as "the deadening burden

GATESVILLE INQUIRY CONTINUED AT AUSTIN

Attempt to Establish Responsibility For Alleged Cruelty at State School.

GATESVILLE, TEXAS, Oct. 11.—The board of control, headed by Chairman S. B. Cowell, returned here today from Austin to continue its inquiry into conditions at the state juvenile training school, where Dell Thames, 14, died September 25, as a result, it is asserted, of punishment inflicted because of alleged disobedience to rules of the institution. When the inquiry was adjourned Saturday until today the board announced it would begin an attempt today to establish responsibility for alleged cruelty to inmates of the school.

H. G. Twyman, removed as military instructor at the school following Thames' death, is being held in jail here without bail for action by the January grand jury. He was charged with murder in justice court.

URGE WESTERN ROADS TO GRANT SPECIAL RATE FOR THE LEGION CONVENTION

WASHINGTON, Oct. 10.—Fifteen western senators joined hands today in telegrams to officers of the principal western railroads urging that the western carriers grant a one-cent-a-mile rate to the Kansas City convention of the American Legion. Eastern railroads have already granted such a rate.

REPORT VISIBLE SUPPLY OF AMERICAN GRAIN

NEW YORK, Oct. 11.—The visible supply of American grain shows the following changes:
Wheat increased 2,155,000 bushels.
Corn increased 3,521,000 bushels.
Oats increased 1,679,000 bushels.
Rye increased 117,000 bushels.
Barley increased 138,000 bushels.

PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left every female or egg undisturbed for one year?

To rid the pesky bedbug, get ready and will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading hospitals, hotels and railroad companies as the safest and most economical way to stop future generations of bedbugs.

Week of October 9th

"Fire Prevention Week"

FIRE IS THE GREAT ENEMY--the RUTHLESS DESTROYER

Desolation follows in the track of his pitiless terrible flames.
 What cry is more dreadful than that of Fire! Fire!

Fire destroys over \$500,000,000 worth of property in the United
 States every year. Nearly 90% of all fires are preventable. During
 1920 there were enough fires to average one every minute of the day.

Are you protected? Are you doing your part toward protecting
 your community from devastation?

How about your fire insurance? If fire destroyed your store,
 your factory, your home, tonight, would your loss be fully covered.

Have you proper equipment of fire extinguishers and other de-
 vices for fire prevention?

GERMAN FLAG NOT MUCH IN EVIDENCE OVER THAT COUNTRY.

BERLIN, Oct. 10.—The black, red and gold flag of the German republic is less in evidence than any other of the dozens of more official emblems which wave from houses of every town and city of the country. The most popular banner is the black, white and red of the former empire.

In some provinces and in a number of towns the republican flag has never been flown, is not recognized, and cannot be purchased.

Even in Berlin, seat of the government, the flying standards of the empire outnumber those of the republic, which appear generally to be restricted to necessary official use or to popular demonstrations in favor of the new regime.

The red flag of the communists usually flies side by side with the republican colors during any popular parades or manifestations.

In some quarters this situation has caused agitation against monarchical propaganda and here and there has resulted in fights between the police and adherents of the monarchy or between monarchists and republicans, but on the whole it has passed unnoticed.

The only definite effort to prevent the use of the flag of the republic has come from the official interests which are strenuously seeking authority to retain their old colors—the flag of the empire with the outline of an iron cross in the upper right hand corner.

It is argued this flag was known in nearly every part of the world before the war and that its abandonment would handicap German shipping, which is seeking with all available means to regain its pre-war prestige.

The government has indicated that a referendum may soon be held to permit the people generally to decide whether the demand of the mercantile interests should be granted.

Each German state holds proudly to its old colors—the black-white of Prussia, the blue-white of Bavaria, the green-white of Saxony, and among the German residents, the yellow-white of Upper Silesia. East Prussia flies the flag of the empire, and declares it will have no other.

Supporters of the republic profess confidence that the great majority of the people would willingly support the republic in an emergency, notwithstanding the wide-spread attachment to other flags.

NIAGARA FALLS WILL PROVIDE POWER FOR OPERATING RAILROADS

By NEA Service
WASHINGTON, Oct. 10.—Electricity before many years will replace steam in running trunk line railroads between Chicago and the Atlantic seaboard as soon as industrial and financial conditions become stable, federal power experts say.

Niagara falls, greatest water power source on the American continent, will supply electric current for New York state railroads, and possibly for all big lines in the middle west.

Trunk roads would have been well on their way to electrification before the end of the year if they had not been hindered by war time and post-war conditions.

Only two barriers stand in the way of rail electrification today. They are: One—Financing the project. Two—Arranging rights of way for carrying current from Niagara.

Cost of electrification will be around \$10,000 a mile. But use of electricity would bring about immediate economies, and the money thus saved could be used in retiring bonds.

Present equipment
Electrification doesn't mean that present rail equipment will be junked. It will be transferred from the electrified trunk lines to the steam branch lines, where it will replace old equipment.

ABRAHAM LINCOLN'S SON IS "HERMIT OF GEORGETOWN"

By N. E. A. Service
WASHINGTON, Oct. 11.—This story is about the hermit of Georgetown. Georgetown is the oldest, quietest quarter of Washington. The atmosphere of colonial days still hangs over its antique red brick buildings and shaded brick sidewalks.

Georgetown's hermit is Robert Todd Lincoln. He is the son of Abraham Lincoln.

Few Georgetown people have seen Lincoln. Those who have describe him as a neat old man.

"Mr. Lincoln ain't home," a negro gardener tells you. "He's at his country-house in New Hampshire. But he never sees no one, anyway, even when he's here."

Lincoln's story
If Lincoln would talk to you, he would tell this story. "I was born at Springfield, Ill., Aug. 1, 1842, while my father was beginning his fight in the state politics. That makes me 90 now."

"In 1869 I was graduated from the University of Illinois at Urbana. While father was at the White House, I was beginning my course at Harvard."

"Then the war broke out. I left school to serve as a captain on General Grant's staff."

Charge Attitude of Bankers Toward Builders Hold Down Construction.

By NORRIS QUINN
WASHINGTON, Oct. 10.—High interest rates and a lukewarm attitude of the part of bankers toward prospective home builders is tying up home construction.

That's the conclusion of the division of housing and construction, department of commerce, after a nation-wide survey of building credit conditions.

Secretary Hoover ordered the probe. It was carried out by mailing questionnaires to building and loan association secretaries in every part of the nation. The survey shows:

That heavy discounts exacted on second mortgage notes virtually amount to an interest rate of 11 to 20 per cent.

That in many sections funds for financing second mortgages are impossible to get.

That many banks are loaning very little of their savings funds to home builders, diverting it into channels where profits are greater and turn over quicker.

BRITISH AND IRISH RESUME CONFERENCE

Following Forenoon Session Adjournment is Taken Until Later in the Day.

LONDON, Oct. 11.—Affiliated transport workers, railway employes, miners and metal workers have been called to meet in a conference on November 11, the date of the opening of the Washington conference on limitation of armaments, according to a decision of the International Federation of Trade Unions of Great Britain.

Robert Williams, secretary of the Transport Workers Union, informed the Daily Herald, organ of labor, last night that the conference would call on the peoples of America and Europe to "wage war against capitalism in the only effectual way."

"When politicians and statesmen vote credits for war munitions," he continued, "they will have to reckon with the question whether the workers will produce and transport them."

ALL THE NEWS OF ALL THE SPORTS ALL THE TIME

GREAT INTEREST IN AGGIE-S. M. U. GAME

Coach Bible Does Not Regard S. M. U. Lightly As In Past Years.

COLLEGE STATION, TEXAS, Oct. 11.—Probably more interest is attaching to the game that will be played between the Texas Aggies of College Station and the Southern Methodist University eleven on the Dallas fair grounds October 12, than any early season game the Farmers have played in years. At least, that is so far as the Aggie fans are concerned.

For the first time in recorded history the Aggies will go into a conference game having already been scored on by a minor college team. Howard Payne, by working a spectacular 25 yard forward pass on the Aggie gridiron secured a touchdown and the first score on the college field since 1915.

Other significant things cast reflections on the coming game are: S. M. U. in the annual game with Texas A. & M. at Dallas last year held the Aggies to the least profitable victory and place that game since the gridiron secured in training, to prepare an eleven that can defeat the College Station team this year.

Coach Bible's early season training has been affected greatly by his knowledge of what was going on in the opponent's camp and he has put his men through a great deal of hard scrummage to meet the exceptionally strong team that will meet in Dallas. Had this been done with the team that went through the season last year up until the championship game with the University of Texas unscathed on, there would be little doubt of the outcome October 12.

But only a remnant of that powerful aggregation remains as a backbone of this year's team. The change has been made. Coach Bible has added men of an entirely different type than that used by Higginbotham and Mahan.

There probably will be several substitutions made by Coach Bible during the game, but few of these will take place in the line. Wilson and Smith, veterans of last year, will cover the ends. Carthage, veteran and around that nucleus Coach Bible has added men of an entirely different type than that used by Higginbotham and Mahan.

The backfield in which the change has been wrought is H. Morris, quarter on the right wing and his tackling mate will be L. S. Keen instead of Drake, all-southwestern tackle of last year. Murrain, last year's guard will work on the center and his place filled by Joe Brown, former squad man, and his mate will be Dietrich, another former star.

McMillan and Pinson, both stars of inter-organization teams last season, will fill the places at half. Buckner, a squad man of last year, probably will appear at fullback in a conference game for the first time and is likely to be substituted by Johnson, who showed up well in the Howard Payne game.

Captain Wier still has his ankle in a plaster and will not be in the game at his old halfback position.

New High Record For the Players' Share This Year

NEW YORK, Oct. 10.—The players participating in the 1921 world series will divide \$295,522.33, a new high record for the players' share.

The increase in the players' share is due to the fact that the total amount of money available for the players' share has increased from \$250,000 in 1920 to \$295,522.33 in 1921.

The players' share of the 1921 world series is the highest in the history of the game. It is a record that will stand for many years to come.

An Interview in 10 Rounds With Knockout Mayor

By N. E. A. Service. NEWARK, OHIO, Oct. 11.—This is an interview in 10 rounds to a decision with Herby H. Scott, fight referee, sport editor and the new mayor of Newark. Gong!

Round One Interviewer feints with this: "Tell me something of your early life." Scott rushes in: "Born in Chillicothe, Jan. 9, 1872. Son of an editor—which gave me an advantage at the outset. Newsboy at five. Have done everything from setting type to editing a paper since then. But I finally became a sport editor, because I love a contest."

Round Two Interviewer jars Scott with: "Believe in prize fighting?" Scott gets in some wicked jabs before the clinch: "I believe in boxing. Like to referee clean boxing bouts. But the real good comes from doing the boxing, not watching it. That's why I encourage pure amateur exhibitions."

Round Three Scott doesn't give the interviewer a chance. "Trouble with us Americans is we don't get enough real exercise. I mean, actual participation in sports. Rubbers, veterans and around that nucleus Coach Bible has added men of an entirely different type than that used by Higginbotham and Mahan."

Round Four "Are you doing anything to encourage public recreation?" the interviewer drove out. "You know it," Scott came back. "We've got an amateur baseball league, and other kinds of amateur organizations. And we're doing everything we can to encourage them."

Round Five "Like politics?" "Everybody should. I ran for president of council because friends urged me. And I became mayor when the chief executive was wanted as the result of a law enforcement scandal. But I like work, and sports, and people. And I'm glad to do my bit for the town."

Round Six "What do you know about mayoring, anyway?" "Say, young fellow, how could I have been a city hall fighter and not know more about what was going on than anybody else in the hall? I didn't miss but five council meetings in 15 years. Say, young man, I know a lot more than you ever had the space to print."

Round Seven "Believe in law enforcement?" "Do it! Ouch, say, young man, this town is as tight as a new pair of shoes. It's so tight it squeaks. Law enforcement, speaking seriously—or the all-time lack of it—is what made me mayor. You can bet your last nickel we're enforcing the law."

Round Eight "How can you referee and be sport editor, and mayor all at once?" "System. Having a place for everything and everything in its place. A time to do everything, and doing it then. Teamwork, too. You need teamwork wherever you are, in a city hall or newspaper office."

Round Nine "What are you going to relieve unemployment?" "Rushing public works—paving and sewer construction for one thing. Every city should do the same. Every village, too, for that matter. Every little job helps nowadays."

Round Ten "But is this a good time for cities to take on public works in great quantities?" "The best time that could be if they get a dollar's worth of goods and service for every dollar spent. That's my motto. I think I'm getting at least 99 cents worth."

Decision Leaves that to the crowds who sported before the office of Referee-Sport Editor-Mayor Scott whenever a big sport event is on, and hear him announce the results hot off the wire—no matter how long it takes. Whether he "uppercuts" or "man caught off first."

Knockout for the mayor: "Jim Thorpe, the great ex-Carlisle star, and Charles Brickley, the game's greatest drop-kicker."

CHARGE MINNESOTA PLAYER WAS INTENTIONALLY INJURED MINNEAPOLIS, Oct. 11.—Aroused by reports on the campus that Arnold Oss, star half back on the University of Minnesota football team, had played his last game for the Gophers as a result of injuries suffered in Northwestern contest last Saturday, students were preparing to circulate petitions calling on the athletic board of control to sever relations with Northwestern university.

BEST WOMEN GOLFERS IN COUNTRY COMPETE AGAIN PHILADELPHIA, Oct. 11.—More than 100 women golfers were to tee off today at the Huntington Valley Country club in the tournament for the Bertha cup. Among the entries were Miss Cecil Leitch, British woman's champion, Mrs. Fred W. Letts of Chicago, who defeated Miss Leitch last week in the national tournament; Miss Alexia Stirling, who was de-throned as national champion at the same tournament; Miss Edith Leitch of England and many other prominent American golfers.

FANS AT SERIES WATCH SCRIBES PREPARING "DOPE" NEW YORK, Oct. 11.—Busy newspaper men in the Polo Grounds press box are one of the side shows that attract crowds after the main show is over. When the game ends, thousands rush upon the field. Before heading homeward, hundreds always pause in front of the press box to watch the reporters, some of them pawing typewriters, others dictating to telegraph operators or hurriedly compiling various statistics for fans all over the country.

COLONELS AND ORIOLES TO RESUME PLAY THURSDAY LOUISVILLE, KY., Oct. 11.—The Louisville Colonels leave tonight for Baltimore, where they play in the Junior's world's series, resumed with the international leaguers Thursday. The team is credited with two games.

WILLS KNOCKS OUT GUNBOAT SMITH IN QUICK TIME HAVANA, Oct. 10.—Harry Wills, negro heavyweight pugilist, this afternoon knocked out Gunboat Smith in one minute and seven seconds of fighting. Six clean blows from Wills, among them a crushing right to the back of Smith's neck, dazed the former sailor, and a left uppercut to the jaw sent him to the floor, where he was counted out. Smith did not load a blow.

See where the old rumor of Danny Clark going to the Browns has been revived. We told the public about that the middle of last summer when Walter went to St. Louis. The Browns wanted him then and probably want him now. However, they haven't got him nor are the two clubs any closer to a deal now than they were last summer when we wrote the story. There has been no correspondence of any sort since that time and the season for deals is not open yet. It's old stuff (about three months) but these rumors are good space fillers.

On the Other Hand

By GROVE Plenty of Room Popping up of the Meusels into the spotlight of the world series in the second brother act in the big show in as many years brings to mind once more the truth of the statement that there always is room at the top, no matter how many entries there are from a single family.

Wheeler (Doc) Johnson and his brother, Jimmy, cavorted on opposite sides of the 1920 world series. Tommy Gibbons started to box long after his brother, the veteran Mike, had become known to the ring, yet Tommy has built a reputation for himself sufficiently good to get a crack at the world light heavyweight title.

Tim Callahan captained Yale football team last season. His brother, Mike, captained Princeton. Both started, Tim making the All-American, Halfback "Hodge" Workman and his brother, Noel, both played on the 1920 Ohio State football team. And both started.

The sister of Miss Cecil Leitch, British French and Canadian golf champion kin in the recent Hollywood tournament for the American golf title, and stayed in the race almost as long as Miss Cecil.

In the race for fame, there's plenty of room at the top, even for every member of the family. That is, if the members have the stuff.

D'Oro is getting ready to autograph the billiard chalk at Pittsburgh. There was a man in our town Who made more hits by far Than any player in the game— He was a Stove League star.

What's the Matter With Us, Anyway

By JOHN L. LEWIS
President, United Mine Workers of America.

The industrial stagnation affecting the nation is both material and psychological. Our industries, farms, mercantile establishments and banking houses were geared to war production with its extraordinary requirements.

All records were surpassed in the production of agricultural products, coal, steel and all raw materials and finished articles. Abnormal and excessive profits in business became a reality as to change our sense of value and proportion.

We became a nation of boom-busts and destroyed the tools of conservatism to which we had hitherto made obeisance.

With the cessation of the war the flow of war materials overseas necessarily stopped. With the destruction of foreign credit impoverished Europe was unable to buy.

A New Panama. A new Panama for our life was then discovered and the same was sketched from the house tops that labor was too prosperous and that wages must be reduced.

Behold then the result: widespread lowering of wages, with a consequent reduction in the worker's standard of living; multiple employment of buying and the increased stagnation of industry.

As in the period following the war of the rebellion, the return of the country to its normal basis should have been spread over a number of years, but the haste of our mad counselors forced the submission to a major operation and the patient has collapsed under the knife.

Further wage reductions will but intensify our industrial and commercial agony.

The most of living is far from keeping pace with the reductions already forced. The nation needs time to adjust itself while business burrows from its ruins and commerce is gradually revived.

Common Sense. We desire fewer platitudes from our statesmen and the application of a greater degree of the rules of common sense. Our nation is solvent and our assets exceed our liabilities by prodigious values. Practical plans should be immediately devised to provide work for our vast army of unemployed.

This must be done if we are to avoid the stagnation of our social fabric in addition to the economic we are enduring from our other ailments. It will take time to ascend the slopes, but the mountain can be scaled.

Tomorrow—Francis H. Dixon, Vice President of the Guaranty Trust Company of New York

"Gets-It" Ends All Corns

Just As Good For Calluses. Money Back If It Fails.
Thirty seconds after you touch the corn with this liquid corn remover the jabbing, stinging pain of it stops, for all time.

No corn, hard or soft, is too old or too deeply rooted to resist "Gets-It." It immediately dissolves and softens the red, raw tissue from the true flesh and soon you can peel it right off with your fingers as painlessly as you trim your nails.

Don't cut or burn. Don't use corns and pomphs. Don't cut and trim them. REMOVE them with "GETS-IT." Costs a little at any drug store. Mfg. by E. LAWRENCE & CO., CHICAGO.

HARDING WILL ACT AS PEACEMAKER IN WEST VIRGINIA WAR

TO ASK THAT PROMPT AND PERMANENT SETTLEMENT BE EFFECTED.

EXPECTED TO ADDRESS LETTERS TO SENATORS

Attorneys For Both Sides Are Busy Preparing Cases For Senate Hearing.

WASHINGTON, Oct. 11.—President Harding will use his personal influence to effect a settlement of the dispute between West Virginia coal miners and operators which has blazed forth frequently in armed conflict during the past few weeks.

Before the mine and is aired before a senate investigating committee Oct. 24, the president probably will address a letter to the committee, urging that a final settlement be effected.

When senators William S. Kenyon and Samuel M. Shortridge returned from their investigating tour of West Virginia, the president entertained them at dinner and discussed with them every angle of the mine war.

Attorneys for both operators and miners are busy preparing the cases they will submit when the senate hearing opens.

Phillip Murray, vice president of the United Mine Workers of America, will be in charge of the miners' side. H. W. Houston, of Charleston, W. Va., attorney for the union in West Virginia, will present local evidence.

Both will be aided by W. Jett Lauck, union economist.

The operators will send half a dozen lawyers—possibly the same who represented them at the previous congressional investigation.

T. L. Felts, head of the Baldwin-Felts detective, whom miners accuse of furnishing strong-arm men to the operators, and Doug Chaflin, Logan county sheriff, who commanded the state forces in the Logan battle last August, probably will be summoned.

Dr. Richard Gabot, professor of social ethics and dean of the social ethics department of Harvard university, will testify in behalf of the miners. He has made an extensive probe of the use of spies and detectives in industry.

The miners will present their side first. They will charge:

That operators control the law-making and enforcing machinery of West Virginia.

That operators have denied miners free speech, assembly and travel and have caused miners to be intimidated and maltreated by armed guards.

That one operators' association spends \$32,000 a year to "buy" deputy sheriffs.

That miners have been evicted from company houses without notice and with no consideration for mercy or decency.

Houston will bring more than a score of witnesses from the West Virginia trouble zone to support these charges.

Attorneys for the operators will deny all these accusations. They will contend they are trying to prove:

That unions have instigated armed rebellion.

That non-union miners have been forced against their will to unionize.

Settlement Planned

When all the evidence has been heard, the senate committee will present a proposal designed to effect a permanent solution and will ask both factions to sign them. This is the agreement that has been suggested.

One—the operators agree that miners shall not be denied free speech, assembly or travel or the right to join unions.

Two—the miners agree they will not coerce or intimidate men into joining the union or operators into recognizing the union.

Three—to enforce this agreement, a board of conciliation shall be named, following the precedent set by President Theodore Roosevelt in settling the anthracite difficulties in 1902. The enforcing machinery, similar to that adopted in the packing industry at Chicago when Judge Alschuler was made federal labor administrator.

DECLARES EUROPE TO BE ON THE UP GRADE

Turn For Better Comes With Signing Of New French-German Pact.

By N. E. A. Service

PARIS, Oct. 11.—The turn for the better has come to Europe. France and Germany will trade with each other and cooperate their giant industries to put Europe back on its financial and economic feet.

That is how continental bankers and diplomats interpret the indemnity agreements signed at Versailles by Louis Loucheur, French minister of liberated regions, and Dr. Walter Rathenau, German minister of reconstruction.

By this agreement which diplomats expect will be officially ratified by the French and German governments, Germany will deliver to France for rebuilding the war-devastated regions about \$1,500,000,000 worth of building materials, machinery, etc. by May 1, 1924.

Continental bankers say that signing of the Loucheur-Rathenau agreement means that France has been won over to Germany's claim that Germany cannot pay a full indemnity in gold, but that she will pay in kind.

TOURS 48 STATES ON HORSEBACK

Van Cleef Gulick and His Horse, "Pet."

Van Cleef Gulick and His Horse, "Pet."

By NEA Service

BOSTON, Oct. 11.—Around the United States on horseback.

Van Cleef Gulick, young ranchman of Hintonville, Iowa, has completed about one-fourth of the trip already—and he is still galloping along.

Gulick plans to visit every state in the Union and then write a book about it, with pictures of high spots from California to Maine.

He started from his home town May 22 and recently reached Boston. Sliding out of his saddle, Gulick shook hands with Governor Cox of Massachusetts and then let the governor sit astride his travel partner, "Pet," for a short time.

Then Gulick was off on his journey again. He has covered 2,700 miles of his 12,000-mile trip.

"The outdoors is the place," says Gulick. "Pet and I are great pals. She'll make the grade all right. We go broke now and then. But we get new features of us—and then let us eat again."

REPORTS RESULT IN MANY COMING HERE LOOKING FOR WORK

Reports of improved conditions in Wichita Falls have resulted in many people coming to this city seeking work, according to Mrs. C. E. Ouseley of the Welfare Council.

"Conditions have greatly improved here as to unemployment," said Mrs. Ouseley, "but there are still too many home people wanting work to justify anyone coming here expecting to get employment readily."

A steady reduction in the number of jobless here is indicated by reports to the council.

COTTON MARKET

New York Cotton

NEW YORK, Oct. 11.—A further decline at the opening of the cotton market today attracted a good deal of covering, but the market was held steady by the acceptance of profits to remaining short sales tomorrow, when the market is expected to be opened.

The opening was at a decline of 2 to 2 1/2 points, and the market closed at 22 1/2 points, net lower under overnight selling orders and in sympathy with easier stock market.

NEW Orleans Cotton

NEW ORLEANS, Oct. 11.—While prices were lower at the opening of the cotton market today, in response to a lower level of the New York market, the market here was held steady.

THREE GOVERNMENTS CAN INSURE PEACE

Opinion of Premier New Zealand, Who Suggests a Triple Treaty.

By N. E. A. Service

HONOLULU, Hawaii, Oct. 10.—A great step will be taken toward insuring peace in the Pacific when the Washington disarmament conference is a tripartite agreement between Great Britain, America and Japan.

The British premier, Lord Macdonald, who passed through Honolulu recently on his way home from London after a tour of the Pacific, is the all-British premier.

It is Premier Massey's first official utterance on the subject since leaving the British capital, London, Oct. 12, 1919.

"Australia and New Zealand are more interested in the Pacific than any other nations in the world," said Massey.

I regard the imperial conference that has just concluded its sitting as being the most important gathering of representatives from the different parts of the British empire that has ever been held.

A great deal of the work has been essentially the sort which is usually done by a cabinet rather than by a conference.

Meeting Epical

The conference was epoch-making in that it has marked the first occasion that the representatives of the dominions have joined in the government of the empire as a whole.

Very important matters have been dealt with and momentous decisions have been arrived at which will have a far-reaching effect in the direction of empire unity.

I am very strongly of the opinion that we have laid the foundations of a system which will, in years to come, give us a satisfactory form of government for the British empire.

Massey is 64 and in his tenth year as New Zealand's premier. Mrs. Massey and their daughter accompanied him to England.
