

RENEWS PLEDGE OF FRIENDSHIP TO BRITISH PEOPLE

PRESIDENT IS PRINCIPAL SPEAKER AT CEREMONY AT YORKTOWN

COMMEMORATE FINAL SURRENDER OF BRITISH

"Unthinkable That Either Should Again Lift the Sword Against the Other"

YORKTOWN, VA., Oct. 12.—A doctrine of enduring friendship between the United States and Great Britain was pronounced by President Harding today at a ceremony commemorating the final surrender of the British expeditionary forces here to the revolutionary army of Washington.

Surrounded by high officials of his administration, and standing within sight of the spot where Cornwallis laid down his sword in 1781, the president declared in deliberately chosen words, a sentiment of peaceful relationship between the two great English speaking nations for all time to come.

"The trustfulness of preserving civilization," he continued, "we were naturally arrayed together, and the conviction of a civilization worthy of that costly preservation will exist peace and war against conflict for all time to come."

Four members of the cabinet, including the secretary of state, were in the company of officials who heard the proclamation, and participated in the anniversary demonstration.

Other distinguished guests included prominent members of the diplomatic corps at Washington.

In the course of his prepared address, the president took occasion to renew the nation's pledge of participation in the broader affairs of the world and declared his belief that the time had come for "essential co-operation" among nations generally, for the betterment of the world.

"We must not claim for the new world," said Mr. Harding, "certainly not for our colonies alone, all the liberal thought of a century and a half ago. There were liberal views and attitudes which were the result of a passionate devotion to more liberal tendencies in France. The triumph of freedom in the American colonies greatly influenced liberal views in the world. Inevitably, this liberal public opinion, deliberative and growing dominant, brought Great Britain and America to a policy of accommodation and pacific adjustment for all our difficulties.

There has been honorable and broken peace for more than a century. We came to common sacrifices and ennobled association in the world war, and a future branch of our peaceful and friendly relations is unthinkable. In the trustfulness of preserving civilization we were naturally arrayed together, and the convictions of a civilization worthy of that costly preservation will exist peace and war against conflict for all time to come."

"Our thoughts have lately been concerned with those events which made history on the scale of a world, rather than of a continent. Yet the lesson is the same. It is the lesson of real interdependence among the nations which lead civilization."

"In our great crisis, nearly a century ago, France came to our aid and made our independence possible. In her supremely anxious hour, we gladly went to her support and did our part to secure her liberty. A grateful republic fulfilled an obligation which the passing generations had not dulled.

"Reflecting together, and the nobility of our participation, our ties of kinship, friendship and fellowship, and appraising anew the way the world has moved, we must share the aspirations to realize the noble ideals for mankind, there is a fresh hungering for understanding and cooperation, a clear conviction of purposes and devotions and loyalties not limited to sovereigns nor national boundaries. As the fortunate, successful citizen is both inspiration and example to the community of his growth, so must the fortunate and successful nations help the world to the higher and nobler levels of accomplishment. Here at Yorktown was sealed the charter of the new and free America, but in the charter was written the rational liberalism of the maturing eighteenth century crying out from both continents."

"Shall mankind, then, go on yet for generations, for centuries, knowing but refusing to be guided by the truth? No! If conscience and reason are properly asserted, I believe the time is come when there must be recognition of essential cooperation among nations, devoted each of them in its own peculiar national way, to the common good, the progress, the advance of all

FORMER KING OF BAVARIA IS DEAD

Passing of Ludwig III. Closes a Most Picturesque Career

LONDON, Oct. 18.—Ludwig III, former king of Bavaria, whose throne crumbled when the German armies were defeated, and former Emperor William fled from Germany, died yesterday at Sarvar castle in Hungary. His death closed a most picturesque career.

Ludwig III, a picturesque figure in Europe for three-quarters of a century, renounced his throne as king of Bavaria on November 13, 1918, having held it a scant three years. Disaster broke heavily on the venerable ruler as his wife, Marie Theresa, who was Princess Royal of Hungary and Bohemia, died in the same day.

After his abdication Ludwig fled to Switzerland and later to the Austria-Tyrol with other royal members of his household. At one time he was reported to be living at the Castle of Vaduz under a fictitious name and also to have been driven to the Alps by Spartacists. In March, 1919, he received permission to reside at Zizers, and thither he went a few days later to take up his residence. He remained nearly a year in Switzerland, where life vicissitudes in virtual exile and in financial distress is said to have threatened his sanity. He was secretly ill for several months and was once erroneously reported dead.

On December 22, 1920, Ludwig returned to Wildenwart, southern Bavaria, where he has remained most of the time since. Bavarian royalists held a monster demonstration on the occasion of the seventy-sixth anniversary of his birth last January 7.

The foreign relations department has failed," the editorial continues, "yet every one knows how serious a thing it is for Mexico to lack the friendship of the United States, England and France. All our foreign policy consists in of good administration at home, that is, care, vigilance and protection of foreign capital invested in Mexico."

It is asserted the finance department is the only one functioning commendably, and that in a restricted manner.

"The government's agricultural policy," the newspaper asserts, "has caused a scarcity of the prime necessities of life. The right to property has disappeared in Mexico and no landowner considers his titles valid. Land is now of no value in Mexico, and there is no agricultural credit. If there is no guarantee for the possession of land, what hope is there for any citizen of fair legislation and justice? What incentive is there to work and save? If this

After deliberating for more than an hour Tuesday afternoon, a six-man jury in the case of Joe Mason, local service car driver on trial in the city police court for vagrancy, reported that it was unable to arrive at a verdict. Judge Ogle sent the jurors back twice with instructions to render a decision if at all possible, but at the end of an hour reports came that the jurors were as badly hung as ever.

Mason's case will be called for trial again in the near future. City Prosecutor Zeh Nixon stated after the trial.

LEADING PAPER OF MEXICO CITY TAKES OBREGON TO TASK

DECLARES CONGRESS IS INCOMPETENT AND THERE IS LITTLE HOPE

OBREGON CABINET ALSO VIGOROUSLY CRITICIZED

Serious to Lack Friendship of the United States, England and France

MEXICO CITY, Oct. 13.—President Obregon's administration was subjected to scathing criticism today in an editorial printed by the newspaper El Universal and signed by its editor, Felix F. Palavicini. The journal, which has been a consistent supporter of President Obregon since his inauguration, declares congress is incompetent, and that there is little hope that anything good may come from it.

"Although united at the beginning of the Obregon administration," the newspaper says, "congress is now divided against itself, and is wasting its time in personalities and petty matters, forgetful of the needs of the nation."

The Obregon cabinet is vigorously criticized. It being fully asserted the foreign relations department has failed to create fraternal relations, even with Latin-American countries.

The government's agricultural policy, the newspaper asserts, "has caused a scarcity of the prime necessities of life. The right to property has disappeared in Mexico and no landowner considers his titles valid. Land is now of no value in Mexico, and there is no agricultural credit. If there is no guarantee for the possession of land, what hope is there for any citizen of fair legislation and justice? What incentive is there to work and save? If this

CLAY COUNTY BOND ISSUE IS DEFEATED

FAILS TO RECEIVE MAJORITY WITH TWO-THIRDS MAJORITY REQUIRED

SPECIAL TO THE TIMES.

HENRIETTA, TEXAS, Oct. 19.—With Jolly, Stanfield and Doss yet to report, the vote in the \$2,000,000 bond election in this county Tuesday stands: For, 433; against, 949. The bonds failed to get even a majority, and a two-thirds majority would have been necessary.

Workers for the bonds are disappointed, but not discouraged, and are already laying plans for creating road districts which will improve the main highways of the county.

Petrolia and Henrietta voted for the bonds, and Bellevue also gave them a nominal majority. The four Henrietta precincts went over two to one for the bonds, and the vote in the city of Henrietta was favorable by an even larger majority, but each of the city precincts has a

number of rural voters who cut the majority down. It is thought that the vote in Henrietta alone was about four to one for the bonds.

Henrietta supporters of the bonds feel that the good roads program has been delayed perhaps a year, but are confident that it will eventually be consummated.

DALLAS COUNTY MAN GOES TO PRISON ALONE

DALLAS, TEXAS, Oct. 19.—Un-guarded and placed on his honor to report at the state penitentiary, E. E. Renner, a Dallas county farmer convicted of violation of the state liquor law, left here last night for Huntsville to begin serving a one-year sentence. He paid his own expenses and carried his commitment papers, having requested that he be permitted to go to prison alone and "get it over with."

INMAN FINED \$100 ON AN AGGRAVATED ASSAULT CHARGE

### COOL WORTHER ON ITS WAY SENDING MERCURY DOWN

Relief from the sweltering rays of a midsummer sun arose in sight Wednesday morning with the report from the railroad agent at Morgan, Wisconsin, that a cool norther had struck that place early Wednesday and that the thermometer was slowly receding. At 8 o'clock Wednesday morning the temperature was 55 in comparison with 72 in Wichita Falls. The agent stated that the wind velocity was not over 20 miles per hour but that the effects were noticeable. Tuesday afternoon the mercury rose to the height of 92 degrees in Wichita Falls and warm weather was reported from all points along the railroads. The norther with its effects had not reached here at late hours at this morning, the reporting there that the temperature was 50 degrees at 10 o'clock.

### DRIVER HURT, CAR SMASHED IN CRASH EARLY WEDNESDAY

An auto wreck which furnished a thrill to a score or more spectators at Eighth and Scott, resulted in the demolishing of a Ford touring car, slight injury to one man and a general shaking up of three others at 8 o'clock Wednesday morning. John Clark of 1104 Indiana was out about the face when the machine in which he and two companions were riding was struck and overturned by a car driven by H. C. Raymond, 1907 Travis. Reports from eyewitnesses of the accident stated that the Raymond machine was running north on Scott and the Clark car west on Eighth. The Clark car was knocked over on its side, Clark, who was driving, was the only one injured in the crash. Neither of his two companions, whose names could not be learned, were injured. The Raymond car was not badly damaged.

### GOLD COAST OF AFRICA ORDERS TRUCKS FROM WICHITA FALLS, FOREIGN TRADE IMPROVING

The Wichita Motors company has just received an order for ten 11-ton trucks to be shipped to the Gold Coast, Africa. These trucks are to be equipped with pneumatic tires, and will be used in hauling general merchandise from the coast to the interior cities. All of the roads in the Gold Coast colony have been built and are maintained by the British government, and the authorities refuse to permit trucks of greater than 11 tons to operate on the government roads. J. G. Culbertson, president of the Wichita Motors company, reports that inquiries from many foreign countries are now being received, and that sales in foreign countries will continue to improve from time to time. He further calls attention to the fact that nearly all motor transportation facilities in foreign countries have depreciated during the World war, until the owners are now discarding their old trucks for those of modern design and practice.

The countries in South America, Africa and the far east are purchasing practically all of their motor trucks from firms in the United States, as the large European manufacturers are not yet in a position to compete with the North American manufacturers. Mr. Culbertson believes that the export business in motor trucks has now passed the low mark and that foreign orders will increase gradually from now on.

### IDLE 12 MONTHS HE IS NOW BACK ON JOB

#### Ohio Man Lost a Year On Account of Stomach Trouble—Is Now Well and Strong

"Only a man who has to work for a living knows what it means to get back on the job after not hitting a lick of work for a whole year. I lost twelve months straight time on account of stomach trouble. One of the worst cases I guess any man ever had. Tanlac not only made me a well man again but built me up 19 pounds in weight. I am writing all my friends in other cities to tell them of the wonderful news." The above statement was made by George B. Lowe, well-known employe of the Goodyear Tire and Rubber Co., living at 451 McGowan St., Akron, Ohio. Tanlac is sold in Wichita Falls by Miller Drug Store, in Electra by Tarleton Drug Co.; West End Drug Co., Burkburnett, Texas, and by all leading druggists.—(Adv.)

### ALL WATCHES ON KATY INSPECTED BY LOCAL EXPERT

The semi-annual inspection of all employees' watches was held Wednesday by the Wichita Falls and Northwestern Railway company. G. H. Phelps of Hattom & Friedly conducted the inspection. Mr. Phelps was accompanied on his trip by D. C. Dobbins, trainmaster; W. P. Danforth, road foreman of engines, and G. W. Campbell, division engineer. The inspection of employees' watches is held twice a year and reports made on every instrument inspected. Officials of the Northwestern reported Wednesday that the road opened with a 100% average on Tuesday, which was the first day of the two-week no accident drive. No injuries were reported and not a single accident of any nature occurred during the first 24 hours of the drive.

### School Children Waste \$15,000 in Paper Every Year

That at least \$15,000 in the annual expenditure for school writing paper, tablets, etc., could be saved by the parents of the public school children of Wichita Falls by an arrangement for quantity purchase of paper, was the opinion voiced by Principal Glass of the Junior High school at a meeting of the Junior High Parent-Teacher council Tuesday evening. "We could build a decent ward school building every year on what we wasted in the piece purchase of tablets and writing paper," he stated. He went on to give details of the retail piece prices of such material, and the price for which it could be purchased by board in quantity, with the cost of distributing taken care of. The saving effected would amount to from \$2 to \$4 a year for each child in the schools, he stated. As there are 5,000 or more children in the public schools, the saving would total between \$15,000 and \$20,000. "Each school child spends from \$5 to \$14 a year for writing material during the school months," he said, according to figures compiled in a recent census taken in some of the rooms. Mr. Glass' idea was for the school board to arrange for the quantity purchase of paper and for its distribution at gross cost.

### Colored Folks to See "Springtime" Saturday Evening

The colored gentry may see "Springtime" Saturday evening, according to a vote of the Business Women's club Tuesday night. It was at first intended to reserve the entire Wichita theatre for white people, on account of the 50c ticket and the quick sale of the Big Bally. It was later decided, however, to reserve the entire theatre for the colored people, on account of the 25c ticket and the quick sale of the Big Bally. The women of the club voted unanimously to turn the gallery Saturday night over to the colored people and give seats in the balcony to white people who have already arranged to occupy the gallery Saturday night. Ticket sellers were accordingly instructed, and it was stated by the colored folks who wish to see "Springtime" could purchase tickets from any of the business women. From the Y. W. C. A. at the theatre Saturday night, though they are advised to secure them before that time on account of the limited gallery space.

### CIVIL CASES SET FOR TRIAL IN 78 DISTRICT COURT FOR OCTOBER 31

### DR. GUILLE'S BIBLE LECTURES BEING HEARD BY LARGE AUDIENCES

Dr. George Guille spoke to a very appreciative audience at the Central Presbyterian church Tuesday morning at 10 o'clock; and in the evening at 7:45. His subject for the evening service was "The Relation of the Believer to His Heavenly Father." A communication says: "Dr. Guille is a Bible teacher of unusual merit and in the lectures

that he is giving shows a knowledge and insight into the teachings of the Word of God unsurpassed by anyone who has ever visited Wichita Falls. "Those who are attending these lectures are being greatly helped and many have expressed themselves as having had a great many difficult passages of scripture which they have been unable to fully understand, made clear to them by Dr. Guille's lectures. These lectures will continue at ten o'clock in the morning and 7:45 in the evening, up to and including Friday. It is urged that the people of Wichita Falls, Wn., are interest-

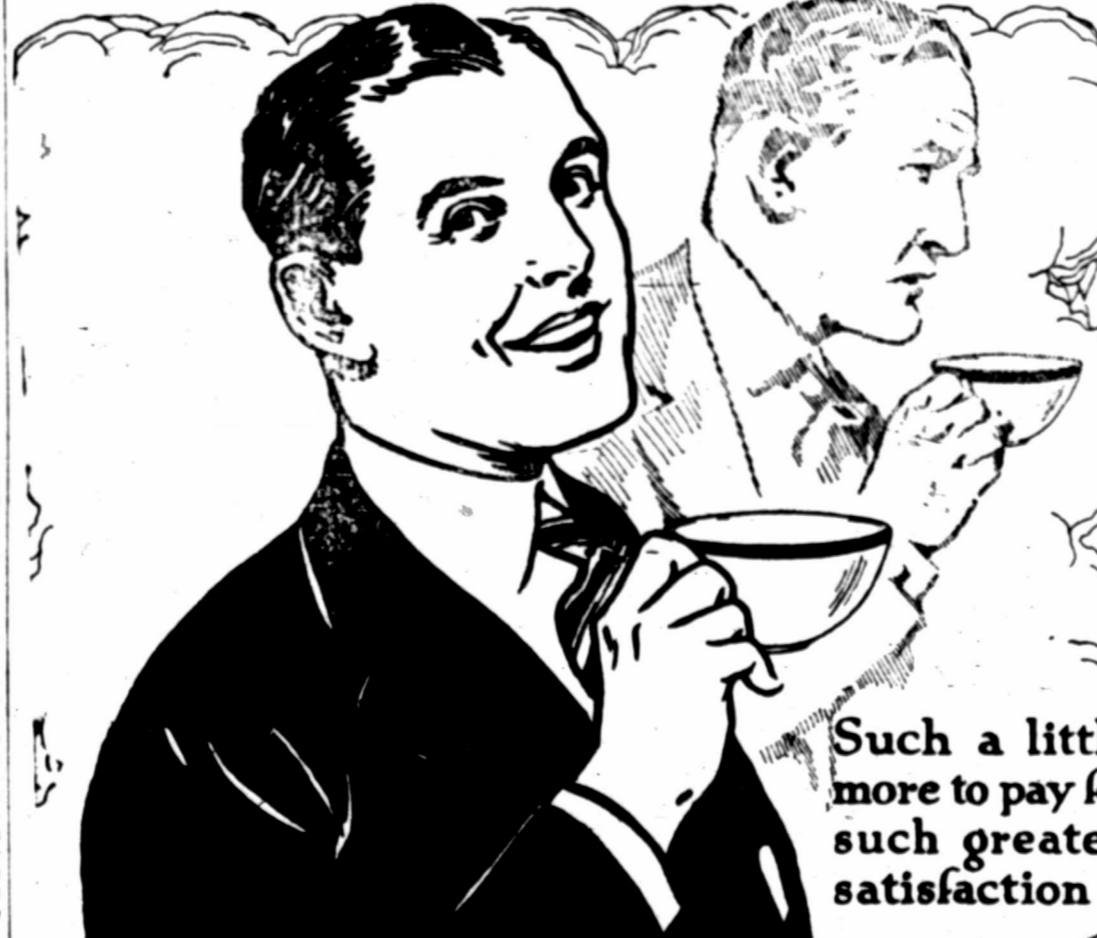

### Prince Albert's a new note in the joys of rolling 'em!

Talking about rolling your own cigarettes, we'll tell you right here that Prince Albert tobacco has 'em all lashed to the mast! You've got a handful-of-happiness coming your direction when you pal it with P. A. and the makin's papers! For Prince Albert is not only delightful to your taste and pleasing in its refreshing aroma, but our exclusive patented process frees it from bite and parch! And, for a fact, rolling up Prince Albert is mighty easy! P. A. is crimp cut and stays put, and you whisk it into shape before you can count three! And, the next instant you're puffing away to beat the band! Prince Albert is so good that it has led four men to smoke jimmy pipes where one was smoked before! It's the greatest old buddy-smoke that ever found its way into a pipe or cigarette!

FRED KEYS GIVEN SENTENCE OF TWO YEARS IN PRISON

Fred Keys was sentenced to two years in the state penitentiary in the 99th district court Wednesday morning upon the trial of his case in which he stood charged with the theft of property over the value of \$50. It was alleged that on or about April 18, 1921, he stole four automobile tires from the car owned by C. F. Carter. A confession in which the youth admitted the theft was read to the jury. The defendant pleaded guilty to the charge and filed an application for suspended sentence. The jury deliberated but fifteen minutes before arriving at a verdict. When the verdict was read in open court the aged mother of the boy broke down and wept bitterly. She had to be carried out of the court room.

TOURNAMENT PLAY OPENS WEDNESDAY AT COUNTRY CLUB

Play was scheduled to start Wednesday afternoon at the golf club in the first round of the golfers' magazine tournament. The qualifying round has been in progress since Saturday, and 49 players earned the right to go into the competition. Not over one week will be allowed for each match. The pairs for the first match follow: T. B. Cochran vs. C. C. Parfet, Harry May vs. T. M. Rinehart, C. E. McCutchen vs. C. E. Watson, Lloyd Weaver vs. C. H. Jeld, G. P. Hepply vs. H. F. Dohs, A. E. Myles vs. L. E. Martlew, Will Gray vs. Will Daniels, W. U. McInteuen vs. W. J. Goodwin, N. M. Major vs. Doc Furlison, H. A. Robbins vs. J. S. Glass, D. H. Rubsam vs. J. L. Art, Fred T. Cooper vs. C. J. Norton, M. Stanforth vs. C. J. Norton, A. H. Britain vs. C. J. Barnard.

SIBLEY TAYLOR TO GET NEXT SCHOOL. PATRONS ARE TOLD

Residents of the Sibley-Taylor addition and vicinity were told Tuesday night by the school board that the next school building to be erected would be in that part of town. This promise was given in connection with a request from a committee of school patrons, that their children attend the Austin school instead of the new Barwise school. The board was told that the latter was less convenient than the Austin school would be. The change was not authorized Tuesday night, being held in absence pending further investigation. Only the regular routine matters were discussed by the board at its session. Questions arising in connection with the opening of schools for the term have so engrossed the school authorities that little attention has been given to plans for the new high school, but it is expected that further steps on this project will be taken shortly.

NEGRO'S HOUN' DOG LEADS TO ARREST OF HIS OWNER

ABELINE, TEXAS, Oct. 18.—A negro is in jail here today to await action of the federal grand jury on a charge of robbing a mail box—betrayed by his favorite houn' dog. Persons who saw the negro at the mail box noticed his dog and the officers in searching for the culprit, located him by the animal.

RECORD OF LOCAL GOLF COURSE AGAIN CUT BY COCHRAN

Making five "birdies," T. B. Cochran has again lowered the course record at the Wichita Falls Golf & Country club, turning in a card of 65, five less than par for the course. That he has not yet reached the limit was indicated by the fact that he missed one or two short putts in "making the record score." Only a few days ago he had lowered the previous record, held by himself, by turning in a score of 67. Cochran is now a "plus" man in the club's handicap list, and five other players are now in the scratch position. These are W. E. Norton, Dudley Golding, John O'Donahue, Fred T. Cooper and P. Burns. The last-named player has turned in several cards of less than 80 and has come to the front rapidly. In recent weeks he has been one of the club's best players.

TOURIST CAMP IN SCOTLAND PARK IS BUREAU'S NEW PLAN

Scotland Park, in North Wichita, will be this city's municipal camping ground for automobile tourists next season, if plans adopted at Wednesday afternoon's meeting of the park bureau are carried out. The members of the bureau voted to dispose of the recently acquired tract on Barwise street, which was deemed too difficult of improvement to be suitable for camping. However, it has no shade and little natural beauty, defects which are absent in Scotland Park. Members of the bureau thought the Barwise street tract could be sold without loss, if not at a profit. A budget of \$17,000 for work in the parks during the coming year, was approved; this will be applied entirely to existing tracts.

NINE YEAR OLD BOY WINNER OF RANGER

William Van Cleave, age nine, 1629 Pearl street, is a very industrious and ambitious boy. When he heard that The Times was offering a brand new \$69 Ranger bicycle to any boy or girl who turned in 25 new subscribers, he threw his hat in the ring, secured a subscription book and went to work. Yesterday he was awarded the fourteenth bicycle that The Times has given away in this campaign. William has the distinction of being the youngest person who has been rewarded a winner. The methods he used can be copied by many other boys and girls with success. He kept on the job about all the time for new families who moved into town and signed them up. Workers in this campaign who have not finished their quotas are reminded that they have plenty of time to do so. The Times wants every boy and girl who has started to receive one of these handsome bicycles. Come in and let the bicycle manager give you some suggestions and assistance. He will be pleased to see you.

IT HAPPENED IN WICHITA FALLS

And is happening to Wichita Falls People Every Week.

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and over-tax the kidneys. J. H. Nance, painter, 306 Lee St., Wichita Falls, says: "My work, which requires a lot of bending and stooping, caused my back and kidneys to get in bad shape about three years ago. Across the small of my back there was a steady, bearing-down pain and mornings when I got up my back was so lame and stiff, I could hardly straighten up. I did not feel as if I had any sleep at all. When ever I bent over, I would become dizzy and weak and often I had had headaches. I used Ison's Kidney Pills on the advice of my neighbor and two boxes cured me." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Ison's Kidney Pills—the same that Mr. Nance had. Foster-Milburn Co., Mrs. Buffalo, N. Y.

**"IN THE PUBLIC EYE"**  
FRED GOSS  
IS THIS WHAT YOU FEAR?  
FOR LIFE  
A great many persons have an aversion to wearing glasses, because they believe if they commence wearing them, they will have to keep it up for life. This is a very false idea. Many persons who get glasses at the first alarm are afterwards able to lay them aside, but if the eyes are neglected until the condition becomes chronic glasses may have to be worn for life. You cannot afford any but the best Optical service.

TO RAISE \$35,000 IN COMBINED DRIVE FOR 1922 CHARITY

Approximately \$25,000 will be required to maintain the charitable and benevolent agencies of Wichita Falls during 1922, and subscriptions to this fund will be solicited in a campaign the date of which is to be fixed shortly. It was decided Tuesday night at a meeting representatives of the organizations at the chamber of commerce. The previously indorsed plan of having a combined campaign, in the work and process of which all organizations will share, was definitely decided upon, and a committee consisting of C. H. Clark as chairman, N. H. Martin, Wiley Robertson, J. R. Bridwell, Mrs. Frank Kell and Mrs. C. R. Hartsook was named to be in general charge. This committee will meet Thursday night at 7:30, at which time the several organizations will present their budgets. Six organizations were represented, and it is probable that a seventh, the American Legion, will also be included when the figures are made up. The Welfare Council, Salvation Army, Y. W. C. A., Day Nursery, Boy Scouts and Girls' Home and Aid Society were represented Tuesday night. If the full amount sought is obtained, each organization will receive its pro-rata. If there is a deficiency, the fund for each organization will be reduced in proportion. Attending Tuesday night's meeting were T. B. Noble, Hubert Harrison, J. S. Bridwell and C. H. Clark, for the chamber of commerce; H. F. Johnson, "Pa" Burdick, Otto Stehlik, N. O. Monroe and Wiley Robertson for the Salvation Army; Mrs. W. W. Silk, Mrs. C. R. Hartsook, Miss Margaret Duhose, Miss M. R. Kerr for the Y. W. C. A.; Mrs. Frank Kell, Mrs. R. J. Goodale for the Day Nursery; H. E. Taylor for the Boy Scouts; J. C. Hunt and Miss Kate Henriele for the Texas Children's Home and Aid Society.

BREAK CHEST GOLDS WITH RED PEPPER

Ease your tight, aching chest, stop the pain, break up the congestion. Feel a bad cold loosen up in just a short time. "Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out. Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once. The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles."—(Adv.)

Many Human Ills Are Due To Impurities in the Blood

Pure, Rich, Red Blood Nourishes the Body and Fights Off Disease

Waste Products or Impurities Cause Many Forms of Rheumatism, Skin Disorders and a Lowered Vitality

How S. S. S. Clears the Blood of Waste Products. Your system is continually taking in nutrition and throwing off waste products. This process goes on all during life. But, sometimes the organs do not properly function and these waste products, instead of passing out through the pores of the skin, through the kidneys and through the alimentary canal, are absorbed in the blood. Then the blood becomes poisoned, and cannot properly nourish the system. If health sets in, you may lose your strength and vitality; or you may have rheumatic pains in the muscles and joints; or you may be troubled with bad boils, sores or some other skin eruptions. All because of the poisonous waste products in the blood. Nature now needs help. She has done her best but is failing. A blood purifier should be used at once to assist nature to throw off these waste products. S. S. S., the standard blood purifier and system builder, is the ideal remedy in these cases. The effect of S. S. S. is to rid the system of the poisons which are causing the trouble. For over 50 years, S. S. S. have proven to be of unusual merit. Get S. S. S. at your druggist. Use it strictly according to directions and write Chief Medical Director, Swift Specific Co., 721 S. S. S. Laboratory, Atlanta, Ga., and let him help you regain your health and strength. He is helping people every day. Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold by all drug stores.

Times Are Better Improvement in Collections Seen

Hubert Harrison, general manager of the chamber of commerce, is confident that times are getting better. Collections of chamber of commerce dues are the standard by which he judges such things, and the collections have picked up materially in recent weeks. A similar report is made by merchants generally.

PROMINENT KANSAS LAWYER DIES AT FORT SCOTT HOME

FORT SCOTT, KAN., Oct. 19.—Jacob Isaac Sheppard, 59, prominent as a lawyer here for many years, died at his home here early today.

## A DAY OF FAITH

More of faith and less of suspicion and doubt is the great need of the world today. It is needed everywhere—in our daily living, in the domestic affairs of our country and in international relations. If the world could only have faith, there need be no more wars. If the people only had abounding faith industrial depression would end.

After reading the new novel by Arthur Somers Roche, "The Day of Faith," Governor Thomas McRae of Arkansas has proclaimed a "day of faith" to be observed in that state on November 1. Says the governor's proclamation:

"I do declare November 1 as a legal holiday, to be known as The Day of Faith; and, mindful of the tragical years behind and of the dreadful potentialities of the future, I do enjoin all good citizens on that day to offer prayer for the success of the disarmament conference; to acknowledge the rights and virtues of their neighbor, whatsoever be his nation, his race, or his creed; and as evidence of that faith which is within them, at the hour of noon on such Day of Faith, reverently to speak the allegorical words 'My Neighbor is Perfect,' hoping, without selfrighteousness, that where Arkansas dares to lead, the world may not fear to follow."

Commenting upon the action of the Arkansas executive, Mr. Somers says:

"Governor Thomas McRae, in declaring legal holiday in Arkansas to be known as 'The Day of Faith,' has rendered articulate the wish of mankind. For 19 centuries the founder of Christianity has been revered in preaching, but disdained in practice. Governments have done honor to His name, but carefully avoided emulation of His deeds.

"Yet there is abroad in the world a new spirit, a spirit that sees the great teacher not as a dreamer but as an extremely practical man who laid down not merely laws for spiritual guidance but for daily living in the family, the nation and the world.

"Practical considerations have ruled the world for thousands of years and the man who proclaims that people are innately fine of soul is scorned as a visionary and we are advised to avoid him lest we wreck ourselves upon the rocks of material disaster.

"Yet the so-called practical men who have ruled the world and sneered at what they term impracticality have made a pretty mess of things.

"Ten millions of dead and ten millions of crippled and millions more of starving women and children pay tribute to their practicality.

"A world crushed by the twin burdens of despair and fear is asking to what dread pass practicality has led it. From this wilfully blind leadership the world is turning in sick dismay. It has worshipped at the absence shrine of practicality too long and now it must inevitably turn to that thing which it has so long disdained—the heart of man!

"It is not enough to pray that disaster may not overcome us. We must at length cease to quarrelsome children in a world of infants and stand forth as adults in a world grown mature.

"Governor McRae by his splendid action has challenged the world to vow its belief in the doctrines given us 19 centuries ago.

"Can the world in this moment of social, industrial and international chaos afford to ignore that challenge? Can the governors of other states fail to understand that Governor McRae has pointed out the only possible way of escape from the perils that beset us?

"Can the national government or the world ignore him? Or do they prefer us still to worship at the feet of the lecherous god of practicality to whom we have just paid the bloodiest tribute in history? Shall we let McRae lead us to the light or do we prefer darkness?"

"Do we dare try Christianity for one minute?"

## SHANK'S MARE

Walking is becoming a lost art. Autos, street cars, motorcycles, bicycles and trains are enslaving and weakening us.

Dr. John H. Finley, former university president and New York state commissioner of education, walked from New York to Elkhart, Ind. The spectacle of a man plodding along that auto highway was so unusual that Finley was arrested at Rahway, N. J., for vagrancy.

Walking is such a lost art, Finley points out, that he got a lot of space in the newspapers and set New York gossiping for weeks, by arriving recently from Europe and remarking that he had walked 100 miles on the boat on the way across.

When we need something, nature adds it to our bodies. Thus she grew a long neck on the giraffe so it could nibble the tender leaves and buds in treetops.

And when we no longer need a thing, when it becomes dormant by not being used, nature takes it away. For instance, the fish in Mammoth Cave, which are blind because they do not need eyes.

Imaginative artists have drawn pictures of men on Mars, with huge heads and puny legs. That would be the natural result of a civilization of intellectual activity and physical inactivity.

It would be interesting to come back to Wichita Falls in another hundred years and see if habitual riding on wheels will have stunted and withered men's inactive legs. Our fingers are shorter than those of primitive man who had to have long fingers for tree-climbing.

Whether future men have small legs or none at all, does not bother us. But, most certainly, the majority of modern people suffer from a great deal of bad health that could be cured by a brisk walk daily. Various cities now have walking clubs, and it is a movement that should become national.

The world's walking record is one mile in six minutes and 25 1/2 seconds, held by G. H. Goulding of Canada. If you want to realize how you have neg-

lected your leg muscles, go out and try to walk a mile in 15 minutes.  
Right now—autumn, with its bracing air and its scenic beauties—in the best time of the year for walking. Try it for exercise, for health. And, if you are a business man, inclined to get to the office in the morning with a fagged brain and jaded nerves, walking to work will rejuvenate you and double your efficiency.  
To be sick, less, walk more. Ask the Boy Scouts.

## COUNTRY WOULD WELCOME REDUCTIONS IN FREIGHT RATES

Independent of any consideration of its effect on the ordered railway strike, the country would welcome a reduction in freight rates. The present high freight rates are a brake upon the commerce and industry which cannot make the progress they ought until the rates are reduced. The high rates are particularly burdensome on the agricultural industry. In some sections of the country the high rates are effectively putting the farmers and stock raisers out of business. There are other industries, too, that are heavily burdened, so heavy in some instances that they have been crushed.  
After the issues involved in the contemplated strike are settled one of the first things that ought to be demanded from the railroads is a reduction in rates. There are indications that the railroads themselves realize that rate reductions have already been too long postponed.

## TODAY'S TALK

By GEORGE MATTHEW ADAMS

**GROWTH**  
There is no more inspiring sight than to witness growth—or to be brought face to face with it unexpectedly.

To plant a tree and go back after years to see it towering as a thing of strength and beauty; to see a grown boy or girl whom we have not seen since babyhood; to come in contact with some mature mind, finely and nobly developed—does anything stir one more?

I like to see vacant lots give way to great buildings filled with people carrying on useful enterprises.

But to look upon the work of a great brain is the best example of growth to be found.

And it was this kind of a picture that I looked upon when, of an evening recently, I ran through some of the writings of Goethe. So splendid were some of the sentences that I give them to you here:

"The mind endowed with active powers, and keeping with a practical object to the task that lies nearest, is the worthiest there is on earth."  
"Character consists in a man steadily pursuing the things of which he feels himself capable."

"Try to do your duty and you will know what you are worth."  
"Piety is not an end but a means; a means of attaining the highest culture by the purest tranquility of soul."

"We are not born to solve the problems of the world, but to find out where the problem begins and then to keep within the limits of what we can grasp."  
"The truest liberality is appreciation."

"Love of truth shows itself in this, that a man knows how to find and value the good in everything."  
These are positive views of conduct that mark out growth for the one who will take them to himself. That which makes a man in his personal experience better and more rounded, touches and enlarges the entire world of men and women.

If you can feel yourself growing from day to day, you may rest assured that success and happiness will deal kindly and well with you!

## JUST FOLKS

By—Edgar A. Guest

**A WATCH.**  
Oh, whether the dollar be a costly thing,  
Or one of the dollar kind,  
It matters not if its clacking spring  
Is one that a child may wind.  
There are just two tasks for a watch to do:  
Keep time through the busy year  
And then when the work of the day is through  
To tick at a youngster's ear.

Some crave the watch with the costly case  
And some with a rare design  
But give me the watch I may freely place  
In tinier hands than mine.  
Yes give me the watch that a little boy  
May climb on my knee to see,  
And claim from its ticking the thrill of joy  
I knew at my father's knee.

Thick and heavy the silver case  
Which closed with a heavy snap,  
But never a watch could take its place  
As I clambered to his lap.  
And never a watch shall mean so much,  
Though it be of the costliest kind,  
As that which my father let me touch  
And taught me how to wind.

So I hold that a watch has a two-fold plan  
And a double task to do;  
It must mark the minutes which pass for man  
And then when the day is through  
It must swing on its chain for the girl or boy  
Who chooses to climb his knee.  
And give to the youngster the golden joy  
Of its glorious mystery.

(Copyright, 1921, by Edgar A. Guest.)

## SMILE A WHILE

By TOM SIMS

A sign of a good winter is "Help Wanted."  
Solomon had 700 wives, so he had to get wise.  
Counterfeiters are not the only ones making illegal money.

The proper way to read a menu is look at the price and see what you can get for it.  
The mouth of the Amazon is over 100 miles wide. The Amazons were a race of women.

Columbus' wisdom was shown on his first trip. He stayed outside the three-mile limit.

## COMMON SENSE WAYS TO KEEP WELL

### HOW GERMS ACT

By DR. R. H. BISHOP

The common conception concerning germs is rather hazy. People regard these little animals or organisms as beasts of prey that lure in wait for their victims in out of the way corners.

Now the germ as a rule is a very delicate creature. It must have food to live upon and darkness to live in. Sunlight usually destroys germs immediately as does the usual temperature of the outdoor air.

Warmth, food and darkness are the essentials this organism must have to live and multiply.

Germs multiply under favorable conditions in terrific numbers. It is only the fact that they cannot get enough food that keeps them from filling up the earth in a few hours.

The dark interior of the human body that is somewhat low in resisting powers is an ideal place for germs to multiply and do their poisonous work. Thus we come to the conclusion that it is from persons and not inanimate things that do not contain the conditions for germs that diseases are "caught."

Many people are afraid to touch a car strap or a book that has been used by strangers and many people, much as they like money, are often afraid of old, worn-out currency.

It is the fact that germs are everywhere, where old, worn-out currency is received for redemption, it is said that infectious disease has never occurred among the clerks who handle it.

## AGRICULTURE FUND AID TO U.S. FARMERS

By J. R. HOWARD

President. American Farm Bureau Federation.

Plans for the distribution of the billion dollar fund for the benefit of the financing of American agriculture through the war finance corporation are being rapidly perfected.

The war finance corporation has set up in the principal cities of the country agricultural and livestock loan agencies consisting of committees of five or more men, usually at least three who are banker residents of the central city, and two other members representative of contingent territory.

The purpose of these agricultural loan agencies is to receive and pass upon loans from the local banks or cooperative associations within their territory. If the loan is approved by the agricultural loan agency, they pass it on to the war finance corporation for final consideration, following which, if favorable, the funds are immediately placed at the disposal of the bank or cooperative association making application for the loan.

The farmer thus gets his direct loan through the local bank or cooperative organization.

At a recent meeting at the American Farm Bureau Federation headquarters in Chicago, Chairman Eugene Meyer, Jr., of the war finance corporation board, reviewed very

## YOU AND I

Had Ancestors 200 Years Ago Who Were Shocked by Women Who Smoked.

Smoking by women spreads. In our country, cigarettes, in England, dainty little pipes. In the East, long, slender, as big as hatchet handles. Observing which, many lament the waywardness of modern life.

Smoking by women was very common in the British Isles three hundred years ago, according to an old book dug up by the London Society. It is recorded that the chief luxuries in the rural districts are snuff, tobacco and whiskey. Tea and sugar are little used, but the use of whiskey has come very great. The use of tobacco may almost be said to be excessive, especially among the female sex. There is scarcely a young woman by the time she has learned to spin but has also learned to smoke.

Each century seems to have the same problems. Man runs in a circle. Wonder when hoop skirts and powdered wigs will come back?

**KIND.**  
Destroying an old building in Diamond street, Pittsburgh, workmen find \$4,000 in old bank notes. On the back of one is a note indicating that the owner of the roll has disappeared a large fortune.

Why did the man, who had gone down a fortune, take his last \$4,000, hide it and desert it? There is a mystery for your Sherlock Holmes, Monsieur Lecocq or Inspector Faurot.

Would you, falling from wealth to poverty, throw away your last dollar? Hardly—unless you realized that money had ruined you, deprived you of the finer things of life.

**MOVIES.**  
There are about 42,000 moving picture theaters in the world, according to latest reports.  
More important: Nearly half of them are in the United States.  
This is another indication that our standard of living is the best in the world. The proof is, that we have meted service.

**FIRE.**  
If you saw a man throwing his money into the gutter, you would suspect him of being a miser. The late Coal Oil Johnny scattered \$5 gold pieces in the streets. It was so unusual that he became the talk of the world.

Yet in the last five years, forest fires in the United States have burned over 55,488,000 acres, an area greater than Ohio and Pennsylvania. Most of these fires were preventable. Just a case of a man throwing money away, multiplied by 164,000,000.

**CARAVAN.**  
Machinery invades all the fields of romance. Whalers fire harpoons from an electric cannon. Sperry invents a device to keep a ship from rocking during a storm. And now a French company will establish automobile caravan service across the Sahara desert.

Getting nearer home, the Horse Thief Detecting society at Middletown, N. Y., was formed in 1877 to combat horse thieves, disbanded. Members will form a new society to catch automobile thieves. Before long, the inventors may force even it to disband and start a new society to catch airplane rustlers.

**WITTS.**  
The mail man tapped an ultimatum on the desk this morning in the form of a letter from T. Hanley of Brooklyn in which he says, "There was so much talk of Johnny Kilbane's hands being brittle, we thought we would remind you that during the recent Kilbane-Früh battle his mitts came through unscathed. How come—how come?" He is right. Although Johnny bit Frush harder and probably more times than he ever did any other

### LEGION HOPES FOR BIG DELEGATION TO KANSAS CITY MEET

A delegation of at least 25 from this city to attend the national convention of the American legion at Kansas City early in November is hoped for by officers of the local legion post, and as a very low rate has been granted it is expected that this city will be well represented.

### THREATEN TO TEAR DOWN U.S. FLAG AT EMBASSY AT PARIS

PARIS, Oct. 19.—Threats to tear down the American flag over the American embassy here are contained in many letters which have been received at the embassy in the last few days protesting against the conviction in the United States of Nicola Sacco and Bartolomeo Vanzetti, two Italians, for the murder of Frederick A. Parmentier, manager of a shoe manufacturing establishment at Braintree, Mass. In all between 300 and 400 letters of protest have been received at the embassy in the last few days.

### I. & G. N. WILL MAKE EFFORT TO OPERATE TRAIN SERVICE

GALVESTON, Oct. 19.—Receivers of the International and Great Northern railway have issued a statement to its patrons on threat of a strike in which it is stated: "Should the strike take place in pursuance to the duty which it owes to the public the International and Great Northern railway will endeavor to secure such men as may be necessary to operate its trains. It may not be possible to secure immediately sufficient men to give the public standard train service, but it is confidently believed that some trains can and will be operated."

### MAN NOT TRAVELER UNLESS JOURNEY TAKES OVER DAY

AUSTIN, Oct. 19.—A man is not a traveler when he consumes only one day in making a trip or journey, according to the court of criminal appeals, and is therefore not entitled to carry a pistol. The decision was rendered in affirming the case of Paul George of Williamson county, who was fined \$100. In making the trip from Taylor to Austin, George claimed he was a traveler and entitled to carry a pistol. The trip took two hours.

### \$9,500,000 FINES IMPOSED ON INSURANCE CO.'S

JACKSON, MISS., Oct. 19.—Chancellor V. J. Stricker today issued a decree in the Hinds county chancery court imposing fines aggregating nearly \$9,500,000 on fire insurance companies formerly doing business in this state. Thirty-three companies were fined \$133,375 each. Others were fined from \$1,000 upward.

### BRIANDS PLANS TO ATTEND MEETING OBJECT OF ATTACK

By Associated Press. PARIS, Oct. 19.—Premier Briand's plans for going to Washington to attend the conference on limitation of armaments and Far Eastern problems were made the object of a direct attack by the opposition to the government during the debate in the chamber of deputies this afternoon.

### LOWEST PRICE FOR FLOUR IN 6 YEARS AT MINNEAPOLIS

MINNEAPOLIS, Oct. 19.—Following yesterday's decline in the wheat market, flour broke to new levels here today, touching \$7 a barrel for the first time in about six years.

### SLIGHT DECREASE IN COST OF LIVING

WASHINGTON, Oct. 19.—Based on statistics for 32 cities the cost of living in the United States decreased 1.7 per cent from last May to September 1 and 1.1 per cent from June 1920 to September, according to figures announced today by the bureau of labor statistics. The decrease from May to September ranged from 0.1 per cent for Portland, Me., to 3.8 per cent for Jacksonville, Fla., with New York showing a decrease of 1.1 per cent and Houston 2.6 per cent.

### NEGRO ACCUSED OF THE MURDER OF LITTLE GIRL SHOTS A POLICEMAN

VINELAND, N. J., Oct. 19.—Louis Lively, the negro accused of killing a little girl at East Moorstown, N. J., last spring, was arrested here early today after shooting a policeman. According to the police he confessed he killed the child. A small crowd surrounded the jail after his arrest became known, but every precaution was taken to guard the prisoner.

### LEWIS REPRESENTATIVES TAKE CHARGE IN KANSAS

PITTSBURG, KAN., Oct. 19.—Van A. Bitter, personal representative of John L. Lewis, international president of the United Mine Workers of America, and George L. Peck, provisional president of district No. 14, this morning took official charge of the headquarters of the district. Hearl Maxwell, a Howat board member, was the only Howat faction official in the office when Bitter and Peck appeared. There was no show of opposition to Bitter and Peck.

### HOWAT NOT PLANNING DUAL ORGANIZATION

COLUMBUS, KAN., Oct. 19.—"Kansas miners are not planning a dual organization but are fighting to remain in the United Mine Workers of America without sacrificing their principles," Alexander Howat asserted this morning in an interview given through the bars of his cell in the Cherokee county jail.

### WELL KNOWN SHERMAN JEWELER IS DEAD

DENISON, TEXAS, Oct. 19.—Fred Marcus, well known north Texas business man and president of the Marcus Jewelry company of this city, died in a Sherman sanitarium early this morning following an illness of two weeks. His body will be shipped to St. Louis for burial.

### DOMINION EXPRESS ROBBED BY LONE BANDIT

MOOSE JAW, SASK., Oct. 19.—A robber today held up the Dominion Express messenger on the Vancouver-Toronto express between Swift Current and Moose Jaw, rifled the safe and dropped from the moving cars. Railway officials are checking up to determine how much loot was obtained.

### COURT HOLDS PAROLE LAW CONSTITUTIONAL

AUSTIN, Oct. 19.—Constitutionality of the parole law of Texas was upheld by the court of criminal appeals today in the case of Jewel Redwine of Eastland county. He was granted a parole from the penitentiary by Governor Hobby and reinstated in the penitentiary when Governor Neff revoked it recently, instituting habeas corpus proceedings. The court upheld Governor Neff's decision and ordered him reinstated to the penitentiary.

### FOUR KILLED IN LUMBER CAMP ACCIDENT

CARSON, MISS., Oct. 19.—Three white men and one negro were killed and several others injured last night when twenty-two cars of a log train of the J. J. Newman company became separated from the engine on an upgrade and crashed into a work train about two miles from this place.

# ALL THE NEWS OF ALL THE SPORTS ALL THE TIME

## Ketchel's Death Marked Last of Real "Middles"

The fact that it has been eleven years since there has been a real middleweight fistie champion was brought to mind recently upon the occasion of the thirtieth anniversary of the death of Stanley Ketchel. In that entire period no worthwhile fighter has arisen to replace Stanley or one who can be mentioned along with Nonpareil Jack Dempsey, Bob Fitzsimmons, Tommy Ryan, Kid McCoy and Billy Smith, real middleweights and real champions.

Old timers say that Frank Klaus was only fair, George Chip not so good, Al McCoy anything but a champion, while Mike O'Dowd who, it is said, won his title in a suspicious looking bout, Bryan Downey and Johnny Wilson are hailed as the best.

Tex Rickard, fight impresario extraordinary, brands Wilson publicly as a disgrace to the sport and states emphatically that Johnny can never appear in a match he promotes. Those who know Downey best give him credit for little save his willingness to battle.

## Bryan Only Fair

Bryan, they assert, has some ability to take punishment, hits only fair, and knows nothing of ring generalship, the type of generalship that wins titles and plus the prefix great to a fighter.

What lovers of the sport now hope for is the rise of several ambitious suds who will shake the "chess champions" in a dark closet, give the patrons their money's worth, restore the old game to its class and give boxing a boost by a championship match that will leave nothing to wish for.

It is believed the country has such boys needing only development to make them masters of their craft, boys whom the name fighter fits, boys who will elevate the old game as it never has been boosted in the public estimation before.

## ENGLAND ALL "HET UP" OVER MATCH BETWEEN CARPENTIER AND COOK

London newspapers indicate that the British are taking seriously the coming bout between Georges Carpentier and George Cook for December 2. Cook is said to be a tough fellow who can take a lot of beating, but is considered a light hitter for a heavy-weight. With the present dissatisfaction with Joe Beckett as England's heavyweight champion, British favor has continued to follow Georges' ring career, and London's greatest crowd is expected to see the December 2 bout.

Of course Georges cannot afford to take much of a chance for he is booked to meet Tommy Gibbons in the United States, probably in January, and Gibbons is somewhat shaky when it comes to fighting. If Cook should chance to defeat Carpentier, of course the Gibbons engagement would be canceled. If Cook makes a fairly good showing, Carpentier will not be considered the same drawing attraction he is now.

## Sport Shots

By PAUL W. LARKIN

Cochran Viner sent his High school charges through one of the stiffest practice sessions of the year yesterday afternoon at the Junior High school grounds, and before the session ended the eleven assumed the aspect of a real team. Harry was assisted by Louis Duff, former Kansas university line man, who had charge of the line men in the preliminary work. The two men injected more pep into the boys than they have shown all year, and if they can only retain it until Saturday afternoon local fans will have an opportunity to see the Wichita come out on the long end of the score in their mixup with Graham.

The work of the backfield, which includes Stringer, Brashear, Kenley and Chewing, was especially pleasing to Viner. He claimed that his quartette has more natural football ability than any high school backfield he ever saw, and though they were not much to learn, they will be long before they make life miserable for their opponents. They have all kinds of speed and as soon as they get the art of feinting and sidestepping down well, there will be no stopping them. All the backfield men, especially Stringer, were a good deal in the use of the straight arm and feinting.

Too much practice cannot be devoted to the correct use of the straight arm. It is undoubtedly the most effective method there is for holding over a tackle, and there never was a good broken field runner who didn't have the art down pat. The runner who can use his arms to good advantage while traveling at top speed is usually long gone when he once gets past the primary defense. Viner's quartette showed Baylor last Saturday the value of a good straight arm as it was the unanimous opinion of the critics that the Bearers "straight armed the Bears to death."

The most radical change that has been made since Viner took charge of the squad is the shifting of "Hunks" Walker from the backfield to the line. Walker is a good line plunger, but is hardly fast enough for the backfield, and as a result Viner now has him holding down a berth at guard. The big fellow is at his best in this position and is counted upon to rip many a hole in the opposing line through which his mates can pass.

Walk also did the majority of kicking early in the season, but that lot, now fallen to Hembree, the speedy, right end, Viner is loud in his praise of Hembree's toe and expresses the belief that he will hold his own with a punter in this section of the state.

We have stated several times in the past that a Wichita High school player had little encouragement to try for the team. He has always been handicapped by the lack of proper equipment, though the public is taking more interest this year and the prospect of always losing has been eliminated. Good coaching is responsible for the latter and is about all that is keeping the boys together this year.

There is about \$50 in the treasury and most of the boys are wearing out football shoes and other apparel

## 1921 TITLE WINNERS SHOW THAT CHAMPIONS ARE MADE—NOT BORN

Top row, left to right, Dan Shea, Babe Ruth, Ethelinda Bleitrey, Mrs. Mel's Maternity, Jim Barnes. Bottom, Peter Manning and Jack Dempsey.

The bird who chirped "Champions are born, not made," was talking in his sleep. And you can easily prove it to yourself if you'll check over the leaders of 1921 as they stand on the eve of the summer sporting season's hibernation.

The best of them, you'll find, were made—made through sheer determination.

It was determination alone that made Ethelinda Bleitrey the greatest all-around swimmer that the female sex ever developed.

As a girl Ethelinda was thin and round-shouldered. Her health was bad, but she determined to build herself up. She went at outdoor exercises, including swimming, vigorously. In 1921 she shattered world's swimming marks one after another.

Last April, in a New Jersey competition, she made 50 yards with the backstroke in 34.4. Later she lowered the world record at that stroke to 25 for 100 yards to 1:17.5-5 and for 150 yards to 2:10.1-5.

In the free style she lowered the world record for 100 yards to 1:11.2-5 and the American record for 100 yards to 1:06.1-5, for 400

yards to 5:44 and for 440 yards to 6:10.4-5.

Joek Hutchison was a caddy in Scotland. Not any better than the other caddies, and not any worse. But constant application and effort on his part as he grew up in United States enabled him to go back to Scotland last summer and win the British open golf championship against the stars of the home of golf.

And you say they were BORN? Babe Ruth with Baltimore wasn't a great star. He didn't shine especially in the National League, for his batting average there was only .221. It wasn't until he began to put in a lot of deep study on the psychology of hitting home runs that he really began to get some place. And now? Well, two world records for home runs in two consecutive seasons is not so bad.

And you say they were BORN? You'll find it true of all the rest of those who head the survival of the sport fittest list. Long Jim Barnes, winner of the national open golf championship at Washington last summer, never had an easy time with a masher. He has chased

championship matches for years, and never won. But in between he hunted up the keenest of competition and gradually built himself up until he copped.

Dan Shea is much like Barnes. He worked hard, here and there at this and that—and finally grabbed off the championship of the decathlon or all-around track and field athlete title.

It's the same with 'em all—Mrs. Melia Ejarstedt Malloy at tennis, Jack Dempsey in the ring, or even the trotter, Peter Manning, on the track.

Champions are born, yes. But not born champions.

which is absolutely necessary for their protection and comfort. Of course no football player expects to be exactly "comfortable" while on the gridiron, neither does he expect to be in misery. The Junior high gridiron is anything but a velvet greenward such as collegians and numerous high school athletes are accustomed to and when a Wichita hits the dirt and stones on the local grid he realizes that he is not falling into a feather bed. It is practically impossible to get a start on that ground without proper shoes, yet many of them are laboring daily under that handicap.

The Business Women's Club has promised the high school authorities a cut in the proceeds of "Springtime" to be given over to the athletic treasury. This is an example that could well be followed by other clubs and organizations.

This said on very good authority that several public spirited citizens in Wichita see that some of their boys on the team want for anything, and they are getting results. Electra players have everything to work for and everything to work with. Local griders, at the present writing, have little to work for and less to work with. The signing of a real coach has helped matters much, but when his men are handicapped he suffers in like proportion.

## "She" of Ireland Real He Golfer, Joke of Tourney

Details of a clever joke played on golfers who participated in the national tournament at St. Louis recently are here disclosed.

During the tournament it was rumored at the clubhouse that "Miss Dorothy Chambers, woman champion of Ireland," was a member of a mixed foursome.

More than once the long drives of the "Irish woman champion" caused astonishment in the gallery. The spectators began to wonder why this woman marvel was being kept from holding the first place among stars of her sex.

When the "fair" wizard drove the ball for a distance of more than 250 yards at the fourth cup the photographers crowded around.

The gallery closed in to get a closer view of the "hard driving woman" who at this moment swept a way a wig, disclosing none other than Reginald Lewis, the Connecticut state champion.

## DALLAS UNIVERSITY WINS FROM GREENS 20 TO 0

DALLAS, TEXAS, Oct. 15.—The football team of Dallas University defeated the Grubbs Vocational College eleven of Arlington at the state fair stadium here today, 20 to 0. The local eleven outwitted their rivals and exhibited superior line play.

Thompson Outpoints Marks. HOUSTON, TEXAS, Oct. 15.—Johnny Thompson of Houston, 125 pounds, outpointed Joe Marks of Philadelphia in a ten-round main event bout here tonight.

In our gardens of sleep there remain many an unmarked grave. Now is the time to remember them. A. G. Deatherage, 406 Seventh street. Phone 5440. 153-71c

BUT SAYS—Chesterfields, three packages for 25c, a quarter of a dollar, at SUTN SMOKE SHOP 615 North Street Next Door to Wright's Clothes Shop

## On the Other Hand

Strange things happen in the sporting world. Consider the case of the two Gibbons boys. Tommy is slated to go on with the famous Mr. Carpenter some time in February, but now brother Mike may beat him to the Greek Profile. Mike Collins, manager for Mike Gibbons, has signed a contract for a bout with Ted Lewis and Carp across the pond.

Gibbons is sure to beat Lewis, but with Carp he is making the same mistake that the Frenchman did when he fought Dempsey. He is conceding too much weight. He will weigh in at 162; Carp will be 15 pounds heavier. That's too big a handicap even for a battler like Mike.

RUTH'S PSYCHOLOGY. Babe Ruth's psychology is to hit the ball, swing on it, bust it; put all he's got behind it; hit it or miss it.

He is the hardest hitter because he hits the hardest.

Twice the mighty Bambino stepped up to the plate in batting practice before one of the work series games—and struck out. The third time he hit the ball out of the lot.

But that is the theory of the Bambino, hit it or miss it. He makes far more homers than his teammates—and strikes out oftener.

But the Babe's always working. For he strikes out as hard as he hits a homer.

Our choice for All-American baseball team. Catcher—O'Neill. Pitcher—Mays. Infield—Stiller, Hornsby, Hornsby and Hornsby. Outfield—Cobb, Ruth and Ruth.

I'll bet we'll all get a thrill when they wheel Leach Cross into the ring.

## GIBBONS AND O'DOWN BARRED IN TULSA ALSO

TULSA, OKLA., Oct. 18.—Mike Gibbons, Mike O'Dowd and their managers, trainers and camp followers, will arrive here tomorrow night to begin their work in the championship of punch swapping. The Gibbons-O'Dowd party was on its way from Wichita, Kansas, here tonight when Governor Robertson fell in line with the attorney general of Kansas and ordered last the bout in which they were to appear next Thursday night be stopped.

Sheriff William McCullough said he received verbal orders from the governor to see that the contest was not permitted and said there was nothing for him to do but obey.

## SPORTING GOODS

We make a specialty of Sporting Goods—Guns, Ammunition and Basketball accessories, Tennis goods. A very complete line of Fishing Tackle.

For your convenience, we sell Hunting License.

Lewis-Jones Hardware Co. 820 Scott Phone 6463

United States they are Jim Barnes, Hutchison and Alex. Siding, who are registered as American citizens, but came from the Isles.

What is it? Haven't America as good courses as they find anywhere in the world? Sure they have, but England is the home of the "elusive pill," and race temperament has the most to do with it. The average American is a fast, nervous, impatient sort of player, and the sooner he can get on and off, the better he likes it, while the English golfers play that slow, concentration game which leads to the mastering in the end.

He wasn't much to look at. As down the field he'd plod. But every time he'd hit a guy. They'd put him 'neath the sod.

### This Renewed My Strength

"Lyko was my health's salvation. I was all run down, had no pep, and was slipping back in business, but this wonderful tonic soon made me well and strong. It will make a new man of you also."

## LYKO

The Great General Tonic puts new vigor into tired, listless, debilitated people. It relieves habitual constipation by regulating the bowels, aids digestion, increases the appetite and tones up the general system so that the bodily functions become normal again and then new strength and vitality return.

### It Is Pure

Lyko gives you the laxative tonic properties of selected drugs compounded under the supervision of chemists and is always effective as to its therapeutic value before leaving our laboratories.

Ask Your Druggist

Get a bottle of Lyko today if you feel the need of a good laxative tonic. It comes in original packages only.

## Formation for Pass or Punt

Coach East Tech High School, Cleveland

A pass play that has been found very successful is outlined above. The line-up, as shown, No. 1 runs through the defense to take a pass if one is made. No. 2 blocks the tackle, No. 3 stands off the guard. No. 4 backs the center and No. 5 and 6 block the guard and tackle respectively. No. 7 goes down the field to a receiving position for a punt.

The ends and backfield men take the direction shown. No. 9 acts as a protection to the passer, No. 11. No. 11 receives the ball from center, starts as if to run the end, but stops suddenly and passes to man who is free. Nos. 8 and 10 are the men most likely to take this pass.

Of course, with this formation, Nos. 8, 9 and 10 could make end runs, while No. 11 also is in position to kick, pass or run the ends.

It was this formation with Chick Harley in the No. 11 position that Ohio State used to win many of its big games.

## Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.
