MESSAGE TO POPE A GRAVE CHALLENGE SAYS LLOYD GEORGE

STATEMENT MADE IN HOUSE OF COMMONS IN REPLY TO QUESTION.

TO HAVE EFFECT ON PEACE NEGOTIATIONS

Grave Anxiety Felt Over Possibility Of Success of the Conference.

LONDON, Oct. 24.—Prime Minister Lloyd George, answering a question in the house of commons today regarding Eamonn de Valera's message to Pope Benedict, said the publication of Mr. de Valera's message especially in the middle of the peace negotiations, constituted a grave challenge.

"The position of the government on the question involved in the telegram has been made abundantly clear," the premier continued. "We do not propose to recede from it and the conference cannot proceed on any other basis."

LONDON, Oct. 24.—Grave anxiety over the possibility of negotiations between the British government and Sinn Fein Ireland continuing to a successful conclusion was felt here today. The conference between members of the British cabinet and representatives of the Sinn Fein was resumed, but there was evident feeling that the situation was such as to give ground for concern among those hopeful for an adjustment of the Irish controversy.

Michael Collins, minister of finance in the Sinn Fein government, who went to Dublin Saturday, returned here last night. It was understood that Prime Minister Lloyd George had laid before the Irish delegates certain questions expressed in large numbers. Every train arriving today brought in hundreds of veterans and visitors to join the throngs already arrived.

PROGRAMS CONFLICT FOR ARMISTICE DAY

Officials in Charge Seek Some Way Out of Threatened Difficulty.

WASHINGTON, Oct. 24.—Officials in charge of arrangements for the armistice conference and those formulating the program for the American unknown dead exercises on Armistice day, are somewhat perplexed as to how the two events can be arranged without having the programs conflict.

The military escort for the unknown dead is scheduled to leave the capitol with President Harding and cabinet members at its head at 8:30 o'clock on the morning of November 11. The exercises in the amphitheater at Arlington as planned would continue well into the afternoon and would be followed by luncheon for the distinguished visitors.

While the opening session of the conference would, in the opinion of some officials, be more appropriately held in the morning and adjournment taken out of respect to the American unknown dead and recognition of Armistice day, it would seem impossible to meet before 8 a. m. in order to avoid conflict with the observance of Armistice day.

MEDIATION OF THE MINGO CONTROVERSY IS NOW PROPOSED

Brotherhood Chiefs Outline Attitude In Railway Controversy

By Associated Press.

CLEVELAND, OHIO, Oct. 24.—The attitude of the union chiefs was explained following a conference of four or five of the big five leaders Sunday, in a statement by Warren S. Stone, president of the Brotherhood of Locomotive Engineers, in which the chiefs reiterate their hope that a solution acceptable to the employees may yet be found.

The statement follows: "With regard to the position of the employees of the railroads at this time we can only say that their representatives are patiently awaiting for any development that would appear to offer a solution of the problem that now confronts them."

"We are not now nor have we ever been desirous of being a party to a strike, but when it is quite apparent that the railroads propose to not only reduce wages but to take from those employees practically all the conditions of service that have been maintained for many years, and the railroad labor board is unable, or fails to give any assurance that the interests of the employees will be protected from such onslaughts by the interest that control the transportation lines of our country, nothing is left for the employees but to stand on their constitutional rights to retire from the service of these carriers."

"We are advised through the newspapers that the interstate commerce commission has authorized a considerable reduction in freight rates. Notwithstanding the fact that wages of the railroad employees have been reduced 12 per cent since July 1, there was no talk about a reduction of freight rates until this crisis came. Now the railroads are attempting to gain the sympathy of the public in this crisis by this late reduction of rates."

"The public would never have received this reduction with the consent of the railroads, had the railroads not been confronted with this emergency."

"I do not construe their action to be a break with the brotherhoods. They are probably reserving to themselves the right to take action in the matter in their own way and pursuing their own tactics."

President Lee of the trainmen issues a statement on the "human side" of the railroad wage question in part as follows: "It is to be wondered whether the public really understands the railroad wage reduction question. There are more through freight brakemen in the United States than there are in all other train and yard service employees combined and this class of service and the passenger train employees represent the lowest rates of wages paid."

"A through freight brakeman is paid at present \$4.48 for an eight hour day or at the rate of 56 cents an hour. If the proposed wage cut is made effective he will receive 51 cents an hour, or \$4.08 a day. Passenger service employees receive two cents an hour more than this and local freight and yardmen receive a slightly higher rate."
