DEMOCRATS GAIN MANY SEATS IN N. Y. ASSEMBLY

RIDDLE IS NOMINATED FOR U. S. AMBASSADOR TO ARGENTINE REPUBLIC

DEMOCRATS SWEEP CITY OF NEW YORK, LEADING BY 417,986

PLURALITY LARGEST EVER RECEIVED BY DEMOCRATIC CANDIDATE.

NINETY-FIVE PER CENT OF VOTERS GO TO POLLS

One of Quietest Elections Held in the History of the Metropolis.

NEW YORK, Nov. 2.—Democratic candidates headed by Mayor John F. Hylan made a clean sweep of the principal city and county offices in yesterday's municipal election, the mayor receiving the unprecedented plurality of 417,986. The complete vote in the city's 2,079 election districts was: Hylan 754,874; Henry H. Curran, republican, running on a coalition ticket, 336,888, and Jacob Fanken, socialist, 83,269.

Mayor Hylan's plurality is the largest ever received by a democratic candidate for any office in this city and is comparable only with President Harding's plurality of 434,071 in the presidential election last year. The highest previous democratic plurality was that of former Governor Alfred E. Smith who carried the city over Governor Miller by 319,925 in last year's election.

Approximately 95 per cent of the city's 1,243,940 registered voters, which included 47,015 women, went to the polls. John H. Voorhis, veteran commission of elections, declared it was one of the quietest elections in his career. No serious disturbances were reported.

In every borough the coalition candidates went down under the avalanche of democratic votes, the mayor's plurality in each case exceeding the total vote cast for Curran.

Get All Important Offices. The smashing democratic triumph gives the party all the votes on the important board of estimates and apportionment, which consists of the mayor, comptroller, president of the board of aldermen and the five borough presidents. The democrats also are assured of a heavy majority in the board of aldermen. In the state wide contest for associate judge of the court of appeals, Townsend Scudder, democrat, carried the city by plurality of 361,975 over William S. Andrews, republican.

There was a heavy slump in the socialist vote. Jacob Fanken polled approximately 82,000 less for mayor than the vote cast for Morris Hillquit four years ago. Socialists

elect Louis Weiss as assemblyman in the fourth Bronx district, and August Claessens in the Seventeenth New York district.

Women candidates for municipal and county offices with the exception of Miss Annie Mathews, successful democratic candidate for registrar of Manhattan county, did not fare well in the results. Miss Mathews, defeated her republican opponent, Miss Helen Varick Dewell, by a vote of approximately 2 to 1.

PROSECUTION RESTS IN CASE OF WILLIS TODD

WEATHERFORD, TEXAS, Nov. 2.—The prosecution in the case of Willis Wayne Todd, Parker county youth, alleged to have confessed to killing James McNeal, Fort Worth chauffeur, died at 10:30 o'clock this morning. The defense opened at 11 a. m. developing an insanity plea. Chief of Police Harry Hamilton, Fort Worth, last of the state's witnesses today, described the finding of McNeal's body and various articles of his clothing.

DEMOCRATS MAKE SWEEPING GAINS

(Continued from Page 1.)

They gained five seats upstate and many more in New York City. Returns from 133 assembly districts show the election of 32 republicans, 48 democrats and at least two socialists. The present assembly is composed of 118 republicans, 28 democrats and two socialists, one seat having been made vacant by the expulsion of Henry Jager, socialist.

Miss Marguerite L. Smith of New York, republican, the only woman member of the 1921 legislature, was defeated by a democrat. August Claessens, socialist, who defeated the republican in the 1920 assembly on the grounds of the district, was victorious in a Manhattan district. Republicans carried 21 of the majority candidates and the democrats 12 in municipal elections in the state yesterday, excluding New York City.

Four republican strongholds—Albany, Syracuse, Yonkers and Onondaga—where republican administrations have been functioning for years, were carried by the democrats.

The present republican mayor in Buffalo, George S. Beck, was defeated by reelection by another republican candidate, Frank X. Schwab, who ran on a platform declaring for an amendment to the constitution set to permit the sale of light wines and beer. Lackawanna, the only city in the state having a socialist mayor, will inaugurate a democratic mayor on January 1.

After twenty-two years of uninterrupted power, the republican administration in Albany city and county were defeated after the most vigorous and most bitter campaign in two decades. The chief ammunition of the democrats was aimed at William Barnea, republican county leader for many years, and one of the most prominent republican farmers in the nation. A scandal involving charges of the theft of 79 car loads of coal purchased by the city was blamed on the republican administration by the democrats. The trolley strike which has been in force since January also figured in the campaign.

SHANK IS ELECTED MAYOR OF CITY OF INDIANAPOLIS. INDIANAPOLIS, Nov. 2.—Samuel Lewis Shank, republican, was elected mayor by the largest plurality ever given a candidate for that office in the city election held here yesterday, according to unofficial returns received from all but three of the 146 precincts in the city. Returns from 143 precincts out of 146 in Indianapolis gives Shank a plurality of 23,460 over Boyd M. Ralston, democrat. The vote for these precincts was: Shank 48,914; Ralston 24,853.

Ora Davis, republican, was leading Donn Roberts, democrat, by what appeared to be a safe margin in the mayoralty contest at Terre Haute. Returns from 49 precincts out of 54 in the city received early today give Davis 4,214; Roberts 1,491. Dr. L. H. Quick, republican, defeated mayor of Muncie over Dr. Martin H. Bunch, democrat, by a majority of 1,190 votes. Much interest was centered in the contest at Terre Haute and Muncie as Donn Roberts and Dr. Bunch, both of

Fox denied a motion asking for an immediate trial for Mrs. Obenshain.

whom had served sentences in federal prison, were making the race after a law had been passed by the Indiana general assembly which provided that any person who had been convicted of violating a state or federal law could not hold city or state offices.

DEMOCRAT IS ELECTED COMPTROLLER OF MARYLAND. BALTIMORE, Nov. 2.—William H. Gordy Jr., democrat, was elected comptroller over State Senator S. Metzgerott, his republican opponent, at yesterday's election by a de-

clative plurality. He carried Baltimore by 15,167 votes. The democrats claim the rest of the state for him by about 4,000.

The democrats also carried both branches of the general assembly. According to nearly complete returns, they elected 11 of the 12 senators voted for yesterday, giving them 21 members out of 27 in the upper branch and 79 of the 106 members of the house of delegates.

Miss Mary Blateau, democrat, of Hartford county, appears to have been elected to the house of delegates.

MANY DELEGATES ATTEND MERCHANDISE CONFERENCE. KANSAS CITY, Nov. 2.—More than 100 representatives of central western trade and commercial organizations are here this morning to attend the opening session of the merchandising conference under the auspices of the domestic committee of the United States chamber of commerce.

Theodore Whitmarsh, New York, and Alvin E. Dodd, Washington, are the principal speakers on today's program which includes a noon luncheon and an informal dinner this evening for the national committee and visitors. Personal conferences will be held tomorrow morning.

In addition to Mr. Whitmarsh and Mr. Dodd, the national chamber of commerce delegation includes Thomas Wilson, Chicago; Julius H. Barnes, New York; Richard Waido, New York; A. Lippolis, Filene, Boston; R. E. Kennington,

MRS. INMAN BELIEVES HUSBAND IS INNOCENT

DENISON, TEXAS, Nov. 2.—"I believe Elmer Inman is innocent of the charges on which he was convicted," was the substance of a statement Mrs. Elmer Inman made to a newspaper reporter last night. She admitted that he had broken about suddenly but, she said, "You will have to ask science why I did it." She denied Inman made love to her while he was her father's chauffeur and an inmate of the Kansas state prison. "I have not informed my father where I am, because I do not think it necessary," Mrs. Inman also stated that she has no plans for the future other than that she will remain in Denison indefinitely. She was surprised about the publicity in the affair, which she "considers strictly personal." She was apparently not surprised to learn her marriage was reported to be illegal.

TOM SLAUGHTER GRANTED PERMISSION TO APPEAL

PINE BLUFF, ARK., Nov. 2.—Tom Slaughter, who was convicted and sentenced to die in the electric chair at Little Rock December 16, for the murder of Bliss Adkisson, Tucker convict farm trustee, yesterday was granted permission to appeal his case to the supreme court by Circuit Judge W. B. Sorrels. The decision by the court automatically stays execution for sixty days during which time counsel for the defense may file his appeal.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis. Guarantee to Strengthen Eyesight 50% In One Week's Time in Many Instances. A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. Victims of eye strain and other eye weaknesses and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says after using it: "I was almost blind. Could not see to read at all. Now I can read everything without glasses. My eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed so hazy with or without glasses, but after using this prescription for 15 days everything seems clear. I can do both near and distant work without them. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitude more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting

MRS. KING SPEAKS OF WORK OF BUREAU OF CHILD HYGIENE

SAN ANTONIO, TEXAS, Nov. 9.—Accomplishments of the Texas bureau of child hygiene during the past year for the health and care of children and an outline of the county public health nurses' work were told to the Texas Congress of Mothers and Parent-Teacher associations in convention in San Antonio last night by Mrs. Lydia King, director of the bureau.

There are 40 public health centers in Texas under the direction of the child hygiene bureau, she said. Adjustment of salaries to obtain efficient educational workers for the bureau's field program was urged by Mrs. King.

"After completing our first year, which ended September, 1920, there were 58 public health nurses doing county public health work in Texas," Mrs. King said. "Today we have 72, of these 16 having been appointed since Aug. 1. It has been most encouraging that possibly one-third of our nursing services are now being financed jointly by county and city funds.

"Due to the fact that there are so few prenatal clinics in Texas, in January, 1921, we started our monthly prenatal letters to expectant mothers. These letters are instructive and helpful to the mothers. A baby layette pattern, with a pamphlet on the care of the baby and also on prenatal care are mailed on request. With the sixth and last letter a birth certificate is attached. This, we hope, will be the wedge which will enable us to have an accurate record of births and deaths, an arrangement we hope may be consummated with local health officers whereby the public health nurse may deliver these in person.

"By a recent legislative act of the 37th legislature, a law was passed providing that all doctors, physicians, midwives, nurses, or those in attendance at child birth shall use prophylactic drops in the eyes of the new born to prevent ophthalmia neonatorum. These silver nitrate ampules are mailed out free of charge for indigent cases. An appropriation was also made for an inspector of maternity homes, with traveling expenses. An especially well qualified person will be necessary for this work, as the field is new and much assistance can be given not only in this work, but in the supervision of midwives and assisting in placing Texas in the birth registration area.

"In the development of the school nurse, we are co-operating with the state and local boards of education. School inspection has been well developed in many localities, although the degree of efficiency in conducting this work has been varied."

MANY MILLIONAIRES IF MEASURED BY RUBLES AT PRESENT MARKET VALUE

MOSCOW, Nov. 9.—Americans and Englishmen now coming to Russia suddenly find themselves millionaires in rubles. Because the relative value of rubles compared to dollars or pounds. A hundred dollars is equivalent to several millions of rubles.

The first effect of being a millionaire is to make the stranger haggle over the prices of commodities then in a few weeks the realization that a million rubles is not very much money and that everybody in Russia who has anything at all is a millionaire just like himself.

A small shopkeeper has a daily turnover of 20,000,000 to 30,000,000 rubles. Even the boys who drive cabs or sell cigarettes about the railway stations are millionaires, handling 1,000,000 to 2,000,000 daily. A million is jokingly referred to as a "zemon" so little is it esteemed. Being wealthy in Russia is very much of a burden. The newly rich carry their money in satchels or handbags. It is so bulky that a whole valise full of it is needed for a journey of a few days.

The money has depreciated in

GRACE LUSK IS GIVEN A TEMPORARY RELEASE

MADISON, WIS., Nov. 9.—Grace A. Lusk, Waukesha school teacher, serving 12 years in prison for the murder of Mrs. David Roberts in 1917 as the climax of a love triangle, was granted a temporary release from the state penitentiary today by the governor Blaine.

She will leave the prison as soon as arrangements can be made for her to receive surgical treatment, which the governor says is necessary to save her life. Action on her application for a pardon will be deferred until the result of the treatment is known, the governor said.

ASK \$25,000 DAMAGES BECAUSE OF KILLING OF MISS EMMA CHILDERS

LIVINGSTON, MONT., Nov. 9.—Mr. and Mrs. J. N. Childers of Wichita Falls, Texas, have brought suit in district court here against the Yellowstone Park Transportation company asking \$25,000 damages because of the death of their daughter, Miss Emma Childers, who was killed in an automobile accident in Yellowstone Park last July.

The plaintiffs allege that the accident, which occurred near Lake Junction, was due to carelessness on the part of the company and its agents.

Village Should Rapidly Develop Into Large City

DERBENT, CAUCASIA, Nov. 9.—The elixir of long life consists of soured cow's milk, cheese made from sheep's milk and white bread, according to Dr. Sadowni, professor of physical chemistry at the University of Kiev. He has located a village in the mountains near Temir Khan Shura, the new capital of the Daghestan republic, where 18 men out of a total population of 120 are more than 100 years old. Investigation showed they ate those foods exclusively.

Many persons transported here from the famine regions of central Russia are migrating into the mountains, where this food is to be had in abundance.

PRaises DONLEY COUNTY AND PANHANDLE SECTION

CLARENDON, TEXAS, Nov. 9.—R. F. Morris, a native of South Carolina, gives his opinion of Donley county and the panhandle in the following interview:

"I have known this section for 14 years and have owned land all this time, and have been in this section during the growing season every year and during all of these years have never seen a crop failure. This section will grow any kind of crops adapted to the temperate zone almost to perfection.

"Cotton will make from one-half bale to a bale to the acre. This country is free from the boll weevil, these cotton lands are almost invaluable and we do not properly appreciate their value. With means is found to destroy the weevil, cotton will continue to bring a high price, but cotton is not the only blessing for us.

"The farmer can grow more of everything as adapted to this section than he can possibly gather because of the death of this region a high, healthful altitude, specially adapted to growing stock to be fattened for the market. Also the human family seems to thrive amazingly judging by the happy, healthy children we see here. The people here are good and kind and

PLURALITY LARGEST EVER RECEIVED BY DEMOCRATIC CANDIDATE.

NINETY-FIVE PER CENT OF VOTERS GO TO POLLS

One of Quietest Elections Held in the History of the Metropolis.

NEW YORK, Nov. 8.—Democratic candidates headed by Mayor John F. Hylan made a clean sweep of the principal city and county offices in yesterday's municipal election, the mayor receiving the unprecedented plurality of 417,986. The complete vote in the city's 2,072 election districts was: Hylan 754,574; Henry H. Curran, republican, running on a coalition ticket, 236,888, and Jacob Fanken, socialist, 83,209.

Mayor Hylan's plurality is the largest ever received by a democratic candidate for any office in this city and is comparable only with President Harding's plurality of 484,471 in the presidential election last year. The highest previous democratic plurality was that of former Governor Alfred E. Smith who carried the city over Governor Miller by 319,929 in last year's election.

Approximately 95 per cent of the city's 1,243,340 registered voters, which included 417,915 women, went to the polls. John R. Voorhis, veteran commission of elections, declared it was one of the quietest elections in his career. No serious disturbances were reported.

In every borough the coalition candidates went down under the avalanche of democratic votes, the mayor's plurality in each case exceeding the total vote cast for Curran.

Get All Important Offices

The smashing democratic triumph gives the party all the votes on the important board of estimate and apportionment, which consists of the mayor, comptroller, president of the board of aldermen and the five borough presidents. The democrats also are assured of a heavy majority in the board of aldermen.

In the state wide contest for associate judge of the court of appeals, Townsend Souder, democrat, carried the city by a plurality of 581,871 over William K. Andrews, republican.

There was a heavy slump in the socialist vote. Jacob Fanken polled approximately 82,000 less for mayor than the vote cast for Morris Hillquit four years ago. Socialists

elector Louis Weiss as assemblyman in the fourth Bronx district, and August Claessens in the Seventeenth New York district.

Women candidates for municipal and county offices with the exception of Miss Annie Mathews, successor of Miss Helen Varigle Haswell, by a vote of approximately 2 to 1.

The vote in this city on the constitutional amendments, based on very incomplete returns, showed large majorities against the soldier civil service preferment amendment and the amendment providing for increased salaries for legislators and a substantial majority in favor of the literacy test for voters.

PROSECUTION RESTS IN CASE OF WILLIS TODD

WEATHERFORD, TEXAS, Nov. 9.—The prosecution in the case of Willis Wayne Todd, Parker county youth, alleged to have confessed to killing James McNeal, Fort Worth politician, rested at 10:10 o'clock this morning. The defense opened at 11 a. m. developing an insanity plea. Chief of Police Harry Hamilton of Fort Worth last of the state's witnesses today described the finding of McNeal's body and various articles of his clothing.

DEMOCRATS MAKE SWEEPING GAINS

(Continued from Page 1.)

They gained five seats upstate and many more in New York City. Returns from 118 assembly districts show the election of 82 republicans, 46 democrats and at least 20 socialists. The present assembly is composed of 118 republicans, 28 democrats and two socialists, one elected having been made vacant by the expulsion of Henry Tager, socialist.

Miss Marguerite L. Smith of New York, republican, the first woman member of the 1921 legislature, was defeated by a democrat.

August Claessens, socialist, who lost his seat in the 1920 general assembly on the grounds of seditious activities, was victorious in a Manhattan district. Republicans carried 21 of their majority candidates and the democrats 115 in municipal elections in the state yesterday, excluding New York City.

Four republican strongholds—Albany, Syracuse, Yonkers and Oneonta—where republican administrations have been functioning for years, were carried by the democrats.

The present republican mayor in Buffalo, George H. Buck, was defeated for reelection by another republican candidate, Frank X. Schwab, who ran on a platform declaring for an amendment to the Volstead act to permit the sale of light wines and beer.

Lackawanna, the only city in the state having a socialist mayor, will inaugurate a democratic mayor on January 1.

After twenty-two years of uninterrupted power, the republican administration in Albany city and county were defeated after the most vigorous and most bitter campaign in two decades. The chief ammunition of the democrats was aimed at William Barnes, republican county leader for many years, and one of the most prominent republican laymen in the nation. A scandal involving charges of the theft of 79 car loads of coal purchased by the city was blamed on the republican administration by the democrats. The trolley strike which has been in force since January also figured in the campaign.

SHANK IS ELECTED MAYOR OF CITY OF INDIANAPOLIS

INDIANAPOLIS, Nov. 9.—Samuel Lewis Shank, republican, was elected mayor by the largest plurality ever given a candidate for that office in the city election held here yesterday, according to unofficial returns received from all but three of the 164 precincts in the city.

Returns from 163 precincts out of 166 in Indianapolis gives Shank a plurality of 22,450 over Boyd M. Ralston, democrat. The vote for these precincts was: Shank 66,614; Ralston 44,164.

Ora Davis, republican, was leading Donn Roberts, democrat, by what appeared to be a safe margin in the majority contest at Terre Haute. Returns from 49 precincts out of 54 in the city received early today give Davis 4,111; Roberts 7,461.

Dr. I. H. Quick, republican, was elected mayor of Muncie over D. Rollin M. Bunch, democrat, by a majority of 2,100 votes. Much interest was centered in the contests at Terre Haute and Muncie as Donn Roberts and Dr. Bunch, both of

DEMOCRAT IS ELECTED COMPTROLLER OF MARYLAND BALTIMORE, Nov. 9.—William R. Gordy Jr., democrat, was elected comptroller over State Senator S. Metzgerott, his republican opponent, at yesterday's election by a de-

clusive plurality. He carried Baltimore by 15,167 votes. The democrats claim the rest of the state for him by about 4,000.

The democrats also carried both branches of the general assembly. According to nearly complete returns, they elected 11 of the 13 senators voted for yesterday, giving them 21 members out of 27 in the upper branch and 70 of the 104 members of the house of delegates.

Miss Mary Blinston, democrat, of Harford county, appears to have been elected to the house of delegates.

TOM SLAUGHTER GRANTED PERMISSION TO APPEAL

PINE BLUFF, ARK., Nov. 8.—Tom Slaughter, who was convicted and sentenced to die in the electric chair at Little Rock December 16, for the murder of Bliss Adkinson, Tucker convict farm trustee, yesterday was granted permission to appeal his case to the supreme court by Circuit Judge W. B. Sorrells.

The decision by the court automatically stays execution for sixty days during which time counsel for the defense may file his appeal.

MRS. INMAN BELIEVES HUSBAND IS INNOCENT

DENVER, TEXAS, Nov. 9.—"I believe Elmer Inman is innocent of the charges on which he was convicted," was the substance of a statement Mrs. Elmer Inman made to a newspaper reporter last night. She admitted that he had broken about suddenly but she said, "You will have to ask science why I did it." She denied Inman made love to her while he was her father's chauffeur and an inmate of the Kansas state prison. "I have not informed my father where I am, because I do not think it necessary," Mrs. Inman also stated that she has no plans for the future other than that she will remain in Denver indefinitely. She was surprised about the publicity in the affair, which she "considers strictly personal." She was apparently not surprised to learn her marriage was reported to be illegal.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis

Guarantee to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. Victims of eye strain and other eye weaknesses and those who wear glasses will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says after using it: "I was almost blind. Could not see to read at all. Now I can read everything without glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed so heavy with or without glasses, but after using this prescription for 15 days everything seems clear. I was bothered with eye strain caused by overworked eyes which induced fierce headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have cleared my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what has been done for me. It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes and be spared the trouble and expense of ever getting

MRS. KING SPEAKS OF WORK OF BUREAU OF CHILD HYGIENE

SAN ANTONIO, TEXAS, Nov. 9.—Accomplishments of the Texas bureau of child hygiene during the past year for the health and care of children and an outline of the county public health nurse's work were told to the Texas Congress of Mothers and Parent-Teacher associations in convention in San Antonio last night by Mrs. Lydia King, director of the bureau.

There are 40 public health centers in Texas under the direction of the child hygiene bureau, she said. Adjustment of salaries to obtain efficient educational workers for the bureau's field program was urged by Mrs. King.

"After completing our first year, which ended September, 1920, there were 58 public health nurses doing county public health work in Texas," Mrs. King said. "Today we have 72, of these 16 having been appointed since Aug. 1. It has been most encouraging to find that possibly one-third of our nursing services are now being financed jointly by county and city funds.

"Due to the fact that there are so few prenatal clinics in Texas, in January, 1921, we started our monthly prenatal letters to expectant mothers. These letters are instructive and helpful to the mothers. A baby layette pattern, with a pamphlet on the care of the baby and also on prenatal care, are mailed on request. With the ninth and last letter a birth certificate is attached. This, we hope, will be the wedge which will enable us to have an accurate record of births and deaths, an arrangement we hope may be consummated with local health officers whereby the public health nurse may deliver these in person.

"By a recent legislative act of the 51st legislature, a law was passed providing that all doctors, physicians, midwives, nurses, or those in attendance at child birth shall use prophylactic drops in the eyes of the new born to prevent ophthalmia neonatorum. These silver nitrate ampules are mailed out free of charge for indigent cases. An appropriation was also made for an inspector of maternity homes, with traveling expenses. An especially well-qualified person will be necessary for this work, as the field is new and much assistance can be given not only in this work, but in the supervision of midwives and assisting in placing Texas in the birth registration area.

"In the development of the school nurse, we are co-operating with the state and local boards of education. School inspection has been well developed in many localities, although the degree of efficiency in conducting this work has been varied."

MANY MILLIONAIRES IF MEASURED BY RUBLES AT PRESENT MARKET VALUE

MOSCOW, Nov. 9.—Americans and Englishmen now coming to Russia suddenly find themselves millionaires in rubles because of the relative value of ruble as compared to dollars or pounds. A hundred dollars is equivalent to several millions of rubles.

The first effect of being a millionaire is to make the stranger haggle over the prices of commodities then in a few weeks the realization that a million rubles is not very much money and that everybody in Russia who has anything at all is a millionaire just like himself.

A small shopkeeper has a daily turnover of 20,000,000 to 30,000,000 rubles. Even the boys who drive cabs or sell cigarettes at the railway stations are millionaires, handling 1,000,000 to 2,000,000 daily. A million is jealously referred to as a "million" so little is it esteemed. Being wealthy in Russia is very much of a burden. The newly rich carry their money in satchels or handbags. It is so bulky that the whole value full of it is needed for a journey of a few days.

The money has depreciated in

Childers of Wichita Falls, Texas, have brought suit in district court here against the Yellowstone Park transportation company asking \$25,000 damages because of the death of their daughter, Miss Emma Childers, who was killed in an automobile accident in Yellowstone Park last July.

The plaintiffs allege that the company was negligent in the operation of the car, which occurred near Lake Junction, was due to carelessness on the part of the company and its agents.

Village Should Rapidly Develop Into Large City

DERBENT, CAUCASIA, Nov. 9.—The elixir of long life consists of soured cow's milk, cheese made from sheep's milk and white bread, according to Dr. Sadowin, professor of physical chemistry at the University of Kiev. He has located a village in the mountains near Temir Khan Shura, the new capital of the Daghestan republic, where 18 men out of a total population of 120 are more than 100 years old. Investigation showed they ate those foods exclusively.

Many persons transported here from the famine regions of central Russia are migrating into the mountains, where this food is to be had in abundance.

PRaises DONLEY COUNTY AND PANHANDLE SECTION

CLARENDON, TEXAS, Nov. 9.—R. F. Morris, a native of South Carolina, gives his opinion of Donley county and the panhandle in the following interview:

"I have known this section for 14 years and have owned land all this time, and have been in this section during the growing season every year and during all of these years have never seen a crop failure. This section will grow any kind of crop adapted to the temperate zone almost to perfection.

"Cotton will make from one-half bale to a bale to the acre. This country is free from the boll weevil, these cotton lands are almost invaluable and we do not properly appreciate their value. With practically 80 per cent of the cotton lands in the south ruined by boll weevil, the man who owns a good cotton farm in this section is riding easy. It is impossible to grow cotton in the east under such conditions and that alone spells prosperity for this section. Until some means is found to destroy the weevil, cotton will continue to bring a high price, but cotton is not the only blessing for us.

"The farmer can grow more of everything as adapted to this section than he can possibly gather. This is a good stock country with a high, healthful altitude, specially adapted to growing stock to be fattened for the market. Also the human family seems to thrive amazingly judging by the happy, healthy children we see here. The people here are good and kind and

Cypher Club Ball Honoring Brides Beautiful Affair

The Cypher club opening ball at Kemp hotel Tuesday night was one of the most beautifully planned and enjoyable dances given in Wichita Falls for a number of years.

About 75 couples, all honoring the brides of the following: Misses Mary and the colorful dance frocks and handsome formal evening gowns made the scene one of unusual beauty.

The grand march was announced shortly after 8:30 and was led by Mr. and Mrs. Landon H. Cullum. Mrs. Cullum wore her traditional dress in honor of the occasion, and carried a lovely bouquet of plum chrysanthemums, tied with long streamers of tulle. Other brides of '21 in the lead of the march included Mesdames W. M. Hoover, D. G. Rubins, H. S. Hoover, R. A. Bradley, C. L. Anderson, C. J. Keenan, Nathan Lynch and Henry Welch.

The close of the march featured the surprise of the evening, when the brides, assisting in the formation of the Cypher figure, were formally presented with beautiful silver sandwich trays as compliments of the club. A silver loving cup was also presented to the orchestra in token of appreciation of their work the past year with the club.

Sixteen dances and a number of extras were enjoyed during the evening in the ballroom, which was beautifully decorated in the Cypher club colors of purple and gold. The word "Cypher" was formed by purple and gold ribbons, and a streamer across the ballroom, and the programs, distributed by R. J. Marin and Miss Willie Solomon, were in purple and gold.

Out of town young ladies who were guests of the club at the ball included the following: Misses Mary Taylor, Tyler; Kibelia, Enid, Okla.; Sara Dale and Dorothy Bear, Henrietta, Venita Saunders, Fort Worth; Freda Hoover, Fort Worth; and Mrs. Howard Barr, Enid, Okla.

Big Attendance Business Women's Meeting Tuesday

Over 100 members attended the meeting of the Business Women's club at the Y. W. C. A. rooms Tuesday night, half a dozen or more new members and about the same number of guests being introduced at the meeting.

"Ma" Burdick's talk was a feature of the evening, and the new national chapter of the American Legion auxiliary was applauded to the echo. Mrs. Burdick told the club something of the social service work of the Salvation Army, and the lines along which it is effected. She told of the organization of the "Home League," which she called our "Ladies Aid," she explained. The Home League membership work for and visits those in need of help and encouragement all over the city, and its own membership is comprised to a great extent of those who have needed help or encouragement in the past. Mrs. Burdick stated that through the splendid work of the league, 75 children had been outfitting material themselves. Mrs. Burdick also told of the fine work of the Red Cross classes taught by the local Red Cross nurses at the citadel, and the big opportunity for service in the homes it gave the members.

Legion Auxiliary Committees Are Announced Today

A Thimble o' Thought

WHAT IS YOUR TONE!

It would be right interesting if someone could advise a monster tuning fork for each perfect variety of personality in the world, and then let us try ourselves out with it.

How would you like to know just how far you missed the true "tone" of your own personality? Not how far you missed some other personality, but just how far you missed a true expression of your own.

Maybe you'd be afraid to put yourself to the test. In these times of a congestion of reading matter, a multiplicity of creeds, ideas and ideals as far apart as stars, and a new prophet every half hour, our own self is about as eager to lose as a pocketbook in a dense crowd. We not only have to hold tight to it, but we sometimes have to dispute possession.

But it would be wonderful if we could know just how far we had wandered away from the tone that summed up and completed our personality in the beginning. Haven't you known girls and women with deep, dark, true blue "furlishings" right down in their hearts who had somehow, somewhere, acquired a pale pink tone? And girls who would have been lovely with their own rose-petal sweetness of soul who had stumbled into deep purple?

The perfect expression of personality is something that comes softer from solitude than from crowds; softer from thinking than from over-much reading. For reading and reaching-out can be overdone. We need so badly sometimes to put on the brakes and reach in, and find out what constitutes the being that is ourself, unstated or prompted by outside influence. And to get that out of the storm that is present day life and give it a chance to blossom according to the promise of its own bud.

Maybe an individual tuning-fork really wouldn't be a bad idea.

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin. Limber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 40 years. (adv.)

The Difference Between Screen Comics and Comedies

By JAMES W. DEAN.

NEW YORK, Nov. 8.—Two films soon to be released are "A Rural Cinderella" and "Saving Sister Susie." A comparison of the two shows distinctly the extent to which producers are going to get new material for laugh-provoking plays. It has been said that there are only seven jokes in the world. Film comedies seem limited to that number of situations for laughs. "A Rural Cinderella" is a product of the old school of comedy. It is without point. It is a series of burlesque situations joined together in jerky sequence. Each situation is built for a laugh. This type of comic appeals to those with a broad sense of humor, to those who laugh when clown's engage each other with slapsticks. Thus in "A Rural Cinderella" Louise Fazenda dresses in lamp shades and portieres to attend a hick party. Her biscuits are too hard to eat. She puts them under a steam roller. They make fine pancakes. John Henry Jr., the baby comedian, is drenched in a tub. Louise hangs him on the mantle by the seat of his trousers to dry. Another character, a strong man, plows a field without aid of horse

or mule. He picks the plow up with one hand and holds it at arm's length to point directions. The strong man is made impotent when nails in his shoes are clenched in a floor. The humor of the subtitles is as obvious as that of the situations. Too obvious to me, but that means nothing. I have heard thousands laugh at similar titles and situations in other comedies. "Saving Sister Susie" has humor of another sort. It has satire, point, its humor is subtle. Its characters are not in ridiculous situations. All are in "straight" make-up. The action is set against a dignified background. Dorothy Devore is featured as the younger and more beautiful sister of a girl whose matrimonial chances are as slim as her face. The mother in seeking a match for the elder daughter must keep the more attractive one in the background. There is the satire in this plot, for that situation finds many a parallel in real life. "Saving Sister Susie" is built along the same plan as the polite comedies which usually run five reels. Its consciousness speeds up the action, but necessitates some rather crude work in bringing the plot to a hasty close. The difference between these two films is analogous to the difference between burlesque and a Tarkington comedy, or that between a news-

paper comic and a Gibson drawing. The merit of each lies mostly in the eyes of the beholder. **Bebe's Advance.** "The most interesting thing about "Breaking Into Broadway," an old Harold Lloyd comedy just re-issued, is the work of Bebe Daniels. She was "green" to the camera when that was made. In almost every one of her scenes she stopped to look squarely into the camera. That's very, very bad studio etiquette, you know. And now Bebe's a star in her own right. **Through Studio Keyholes.** Snub Pollard's next movie is "On

Location," a satire on movies. "The Sheik" will be exhibited in 250 first-run theaters the week of November 27. Theodore Kosloff fights a duel with Mahlon in "The Lane That Had No Turning." Prince Ferdinand Caspelli took part in a movie at Marshal Neelan's studio. Yep, they all fall for the movies. The next two Pola Negri films to be released in America are "The Last Payment" and "The Red Peacock." Barbara Castleon and Edward Earle are to play the leads in "Easy

Money" to be filmed in Cleveland by Samuel Bradley. Little Charlotte Jackson, Tom Meighan's hero-worshiper in "The Prince Chap," plays with him again in "A Prince There Was." **JAPAN FACES A DEFICIT OF THIRTY MILLION YEN.** TOKIO, Nov. 8.—Japan faces a deficit of 20,000,000 yen for the present fiscal year, the cabinet was told today by Baron Korekiyo Takahashi, minister of finance. He added that current revenues indicated the figure might be even greater.

U. S. IS CREDITED WITH 63.8 PER CENT OF OIL PRODUCTION

WASHINGTON, Nov. 8.—The total production of petroleum oil throughout the world from 1917 to 1920 is estimated by the United States Geological Survey at 1,744,972,000 barrels. Of this tremendous output the United States is credited with 6,425,625,000 barrels, or 62.1 per cent, while its nearest competitor has been Russia with 1,994,921,000 barrels, or 23.3 per cent, while Mexico's production has been but 535,524,000, or 6.1 per cent.

During the year 1920 the United States produced 43,402,000 barrels, or a total of 63.8 per cent of the world production of 68,484,000 barrels. Mexico was second with 15,349,000 barrels, or 22.5 per cent, and Russia third with 25,429,000 barrels. The Dutch East Indies produce 17,529,000; Persia, 12,352,000; India and Kumania, 7,500,000 barrels each; Poland, 5,000,000; Peru, Japan and Trinidad, 2,000,000 each; Argentina, Egypt and Borneo, 1,000,000 each, and scattering production from Venezuela, France, Germany, Canada, Italy, Algeria and England, closing the list with 2,909,000.

Hawaii has two of the largest active volcanic craters and the largest active volcano in the world.

12 HOURS BRING 26 DEGREE DROP IN TEMPERATURE

From 6 o'clock Tuesday evening until 6 o'clock Wednesday morning the thermometer in this city recorded a drop in temperature of 26 degrees. At 1 o'clock Tuesday afternoon the mercury had risen to the 78 degree mark but started to recede when the north winds reached here.

By 6 o'clock in the evening it had fallen to 68 degrees and within an hour and 15 minutes another drop of 10 degrees was recorded. From 7 until 8 o'clock Wednesday morning it gradually grew colder but did not reach the low mark expected. No frost was reported in the county.

At Woodward and Forgan, Okla., however, the norther brought with it extremely cold weather. A low mark of 26 degrees was reported by the railroad agents and it was further stated that ice was plentiful Wednesday morning. Northwest winds continued Wednesday morning but the agents reported that the wind had lost its speed. A clear sky was reported from all points north. At Topeka the Denver 34 degrees was the lowest, while Amarillo reported 40 degrees and Chillicothe 38.

Points south and east reported practically the same weather conditions as in Wichita Falls. It is believed that there will be no change in conditions and similar temperatures are probable for Wednesday night. No rain was reported from any points in the district.

GRANT A WAGE CUT ON SHORT LINE ROAD TO THE 1920 LEVEL

CHICAGO, Nov. 8.—Rates of pay for virtually all classes of railroad employees on the New Orleans and Great Northern railroad were cut today in a decision by the United States railroad labor board to the scale existing March 1, 1920.

The decision said the road was not a party to the case involving the wage decrease of July 1 last. The wage cut announced today, going further than the one ordered last July, would take away the increase granted railroad employees in May, 1920.

A. O. Wharton and W. L. McMenamin, labor members of the board, dissented from the majority opinion. Wharton pointed out several specific instances where he declared experienced workmen had their wages reduced below those in other classes of less experience. Train and engine service employees were returned without qualification to the rates of pay in effect March 1, 1920, but rates for shop crafts and roundhouse laborers were specified by the board, class by class, and station agents were similarly rated.

The decision said the road's representatives testified to an operating deficit of \$500,000 for the year

MINERS TO DECIDE ON PLAN OF ACTION IF WAGES ARE CUT

DENVER, COLO., Nov. 8.—Officials of District 15, United Mine Workers of America, are expected to decide at a meeting in Trinidad tonight upon a plan of action in the event that the Colorado Fuel and Iron company puts into effect a reduction of wages in the southern Colorado coal fields.

Last Saturday the state industrial commission authorized the company to put into effect a 30 per cent reduction which the company had sought to have effective Sept. 1. A strike of the miners at that time caused the commission to take over jurisdiction in the wage dispute and the former wage scale was restored pending decision.

Officials of the company have been in session in Denver this week and it was announced that a decision on wages was one of the subject matters considered. A report from official sources said that a general reduction would be inaugurated probably this week.

John P. McLennan, president of the miners, declared that "any attempt to reduce wages" will result in suspension of work by the miners.

Mine workers declared that since the September strike, the Colorado

Platform Was a Popular One for A New Candidate

YOUNGSTOWN, OHIO, Nov. 8.—A man who has lived in Youngstown only three months and whose platform provided for discontinuance of street car service, turning the streets over to jitney buses and for jailing any citizen who paid taxes under a recent revaluation, yesterday was elected mayor over candidates backed by the major party organizations. He is George L. Oles, who came in from the country, established a residence in a hotel and carried on an eccentric advertising campaign without the support of any particular element or organization.

Other "planks" in Oles' platform permitting "spooning" in city parks under police protection, dismissing the entire police force if it "doesn't mend its ways," and a promise to turn over his salary to charity.

The women's vote is believed to have been responsible for Oles' election.

Fuel and iron company mines, which have been operating under the Rockefeller industrial plan, had been thoroughly organized.

Josef Hayden, the composer, was the father of the symphony and quartet.

Message No. 4

—From the P. B. M. Co. to its Employes

This is the fourth of a series of five messages from this store to its employes.

We have talked about what we owe to our customers, and about price sincerity and its relation to salesmanship; today, let's discuss price sincerity and its relation to the customer.

Sincerity is just another word for truth. Price-sincerity is just another way of saying "telling the truth about prices."

Getting back to that \$35 suit we mentioned yesterday—if we sell that suit to someone for \$33.50, we aren't telling the truth if we offer it to a less favored customer for \$35. It has ceased to be a \$35 suit, and is a \$33.50 suit. To continue to call it a \$35 suit is untruthful—to put the matter mildly.

NO CUSTOMER'S PATRONAGE CAN BE BIG ENOUGH TO BE WORTHY OF THE SACRIFICE OF SINCERITY. No customer can spend enough with us to justify us in disregarding our obligation to our customers as a whole.

And if he could understand our viewpoint, he wouldn't expect it of us.

"The Courteous Service Store."

EDWIN W. FIELD, Milwaukee, Wis.

"I'm convinced if I had taken Taniac two years ago, when my troubles first began, I would have saved a world of suffering," said Ed W. Field, 528 Jefferson street, Milwaukee, Wis.

"My case proved that when a man's stomach goes wrong, everything goes wrong with him. The first thing I noticed out of the way was loss of appetite and next, that no matter how sparingly I ate, I was sure to have an attack of indigestion. This was two years ago and from that time on, until after I started on Taniac, I kept going down hill at a steady rate. I finally got so I couldn't walk a couple of blocks without having to stop and rest and I was so nervous that often I sat up in a chair all night long.

"Taniac has made a new man-out of me, my stomach is as sound as a dollar and I feel fine all the time. I am a firm believer in Taniac because I know it delivers the goods."

Taniac is sold in Wichita Falls by Miller Drug Store, in Electric by Tarlton Drug Co., West Side Drug Co., Drugburnett, and by all leading druggists.

SITUATION MAY COMPEL RUSSIA TO APPEAL TO FOREIGN CAPITALISTS

PARIS, Nov. 8.—Insurmountable economic difficulties may compel Russia to appeal to foreign capitalists for aid in order to stave off disaster, Foreign Minister Clichevin of the bolshevik government is quoted by a correspondent for the Petit-Parisien as saying in an interview at Moscow. Russia's policies are now directed by economic interests, he asserts, and not by doctrine.

He concluded by declaring that while England endeavors to win the confidence of Russia, Germany is trying to take advantage of her.

The Greatest Physician of All Is Pure Blood

When the Foods You Eat No Longer Seem to Do You Any Good—Look For the Danger Signals Which Denote Waste Products in the Blood

How to Clear Your Blood of Waste Products

The blood is the means by which all the tissues of the body are directly or indirectly nourished. You will at once realize that unless the blood is pure, some part of the body will soon become diseased.

Waste products in the blood are an element of danger. Ninety per cent of the people "below par" are suffering with waste products in the blood.

When your blood is loaded with waste products, you become weak, nervous, irritable and easily upset. Other symptoms are pimples, boils, or some other skin disorder; loss of weight; and probably rheumatism.

Your blood is your fountain source of energy—therefore keep your blood rich and pure. Thousands and thousands of men and women have relied on S. S. S. to clear their blood of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality. The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for keeping your blood in good condition.

Get S. S. S. at your druggist. Beware of substitutes. Write Chief Medical Director, Swift Specific Co., D-719 S. S. S. Laboratory, Atlanta, Ga., for special medical advice (without charge). He is helping people every day to regain their health and strength. Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold by all drug stores. (adv.)

U. S. IS CREDITED WITH 63.8 PER CENT OF OIL PRODUCTION

WASHINGTON, Nov. 5.—The total production of petroleum oil throughout the world from 1857 to 1920 is estimated by the United States Geological Survey at 8,744,872,000 barrels. Of this tremendous output the United States is credited with 5,529,693,000 barrels, or 63.1 per cent, while its nearest competitor has been Russia with 1,994,021,900 barrels or 22.8 per cent, while Mexico's production has been but 528,524,000, or 6.1 per cent.

12 HOURS BRING 26 DEGREE DROP IN TEMPERATURE

When You Think of STOVES

THINK OF THE WICHITA HARDWARE

For years this store has been recognized as the stove headquarters of Wichita Falls—and why not? Always a complete assortment of coal, wood, oil or combination stoves, ranges and grates—at lower prices, due to our large quantity purchases.

If your heating problem has to do with warming a four-story building or the smallest bedroom, we have exactly what is needed.

Message No. 4

—From the P. B. M. Co. to its Employes

This is the fourth of a series of five messages from this store to its employes.

We have talked about what we owe to our customers, and about price sincerity and its relation to salesmanship; today, let's discuss price sincerity and its relation to the customer.

Sincerity is just another word for truth. Price-sincerity is just another way of saying "telling the truth about prices."

Getting back to that \$35 suit we mentioned yesterday—if we sell that suit to someone for \$33.50, we aren't telling the truth if we offer it to a less favored customer for \$35. It has ceased to be a \$35 suit, and is a \$33.50 suit. To continue to call it a \$35 suit is untruthful—to put the matter mildly.

NO CUSTOMER'S PATRONAGE CAN BE BIG ENOUGH TO BE WORTHY OF THE SACRIFICE OF SINCERITY. No customer can spend enough with us to justify us in disregarding our obligation to our customers as a whole.

And if he could understand our viewpoint, he wouldn't expect it of us.

FEDERAL COURT WILL OPEN HERE ON DECEMBER 12

JUDGE W. I. GRUBB OF THE ALABAMA DISTRICT WILL PRESIDE.

NOTICE RECEIVED FROM JUDGE WILSON WEDNESDAY

Opening of Court Three Weeks Later Than Usual Date For This District.

The United States district court of the Wichita Falls division of the northern district of Texas will open in this city in the county court house Dec. 12, with Judge W. I. Grubb of the Alabama district presiding.

This announcement was received from Judge J. C. Wilson of Dallas Wednesday morning by the United States Deputy Clerk and Commissioner J. A. Lantz. All attorneys who have cases pending in this court are being notified by Mr. Lantz of the opening date.

The usual date for the opening of the fall term of federal court in this district is Nov. 21, but it was an impossibility for Judge Wilson to come to this city at that time and for some time later and Judge Grubb kindly consented to hold court here this fall.

In all probability court will extend over a period of three weeks and attorneys are urged to have all cases in readiness for trial so that no delay of any nature will be occasioned. The dockets, both civil and criminal, are heavy and in order to make disposition of them there can be no loss of time.

Card of Thanks.
I wish to thank those who were so kind in the short illness of my beloved husband, especially the Woodmen; also many thanks for the beautiful floral offerings. Mrs. M. M. Day

DOINGS OF THE DUFFS

BY ALLMAN.

J. O. Jones of The Times office returned home this week from Dallas, where he was called by a phone message stating that his mother, Mrs. W. A. Jones, had died. On his arrival Mr. Jones found that his mother had rallied from a condition closely resembling death, and she is now on the road to recovery. He had been at her bedside, at the home of his sister in Dallas, a few days previous.

SEWELL FIELDS FACES TRIAL ON ROBBERY CHARGE

Sewell Fields, charged with robbery with firearms, a capital felony under the state laws, will go on trial at Henrietta, Thursday morning at 9:00 o'clock. Everything is in readiness for the trial and a large number of witnesses from this city who have been subpoenaed are preparing to attend court.

A special venire of 150 men has been summoned to report to Judge H. F. Weldon of the 30th district court at 9:00 o'clock. Fields' case is a companion case of that against H. T. Scott, who secured a postponement until next Monday morning when the case was called to trial last Monday. Both men stand charged with the same offense under separate indictments in connection with the robbery of the merchandise store at Dean on October 11.

ALL THE NEWS OF ALL THE SPORTS ARE THE TIME

History of Centre Team Is a History of Moran; Obscure Four Years Ago

LOUISVILLE, Nov. 9.—When "Uncle Charley" Moran, national league umpire, football coach and former professional football player, took a day off from hunting on his Kentucky farm in 1917 and dropped over to Danville, Va. to see his son Tom play for Centre, he unintentionally started something.

The sequel is history now—the vanquishing of the "miracle eleven" of the little Kentucky college. "Uncle Charley," as the now famed coach is known by students, fans and in the press, didn't "kicker" much towards seeing Centre lose that game he went over to see. He saw a dozen weak substitutes sent in by the Crimson coaches.

He was over to see a game he had long before exhausted his meager supply of stabs. That game had not ended before he was correcting faults in preparation for another game with Harvard.

DECISION EXPECTED SOON IN RUTH CASE

CHICAGO, Nov. 8.—Judge Landis, commissioner of baseball, intends to dispose of the cases of Babe Ruth and the other two members of the pennant winning Yankees who violated baseball laws by participating in exhibition games, as soon as he hears what the offending players have to say for themselves.

He was taught to tackle high. To tackle anywhere. He tried to do all he was taught. But all he got was air.

He thought he'd go a hunting. So he grabbed himself a gun; He didn't figure on the trigger— His hunting now is done.

ON THE OTHER HAND

Don't let anyone tell you that boxing is an exercise. The guy who bet his jack on Georgia Tech against Penn State is the same bird who tried to beat No. 19 across the railroad track.

Looks like Connie Mack is coaching Northwestern. Some fellows will lose ten golf balls on a nine-hole links and then haul the caddy out. If they were any good at all they wouldn't have to have a caddy.

Goho Gohar, the Hindu rascal with a college education, would have beat Stranger Lewis had he had a cheer leader.

He stood and stared and scratched his head. Then gazed on what he'd bought. A pole and line and lead and hook. Were what his coin had "caught."

He craved to get himself some game. Ah, he was all amblish. But wondrous, "shall I cast er shoot." If meeting flying-fish.

Charan Goho Gohar is not what you would call a pronounced rascal. It is rumored that Zybkwaski, Cohen and Kelly will bid fair for the all-American.

D'ya ever get one of them dirty looks from a famous football player when you bumped him in a crowded car? We'd like to see Bo McMillin try to get into Harvard.

SIGNALS: VENI, VIDI, VICI

Eugene White Nixon, Football Coach at Pomona College.

CLAREMONT, CAL., Nov. 9.—"Signals: veni, vidi, vici." Quarterback Ray Wilson of the Pomona college football team barked the above signal in a Southern California conference game recently with the result that the opposing eleven was so startled that Captain Voorheis, halfback, came through the line, saw the enemy goal posts not far away, and quickly gopoped the way of a contending hero for a touchdown and ultimate victory.

HOW TO PLAY GOLF

By JESSE P. GUILFORD Amateur Golf Champion of the United States.

Start in Right. Recently I was asked by a young man about to take up golf: "Shall I go to a pro and learn the game from the start, or shall I play around a while, get the hang of the club, and then take lessons?" My answer was, "Start in right. Go to a pro, have him select a set of clubs for you, take your first lesson and follow his advice. Then you will not later be striving to correct your style or lack of style."

DEPORTATION OF DISLOYAL FORCES URGED BY OWSLEY

DENTON SPEAKER IS HEARD BY WICHITA CLUB MEMBERS WEDNESDAY.

SAYS AMERICANIZATION PROBLEM MUST BE MET

Declares Self Government is Controlling Factor in History of Modern Nations.

"The right of freedom of speech never did nor never can imply a right to destroy the guarantor of that right." Colonel Alvin Owsley of Denton, head of the Americanization bureau of the American Legion, told members of the Wichita club at their weekly luncheon Wednesday. Those who advocate the use of force or violence against our government, he said, forfeit the right to the protection of that government and ought to be deported.

Colonel Owsley, who is a speaker of magnetic eloquence, extolled the principles and achievements of the American republic, and paid beautiful tribute to those who had died in its defense.

The American army which went to France, he said, went to save the civilization of the world. It was an invincible army, he declared, and it returned home with the liberty of the world enthroned and freedom again saved.

The great controlling fact of the nineteenth and twentieth centuries, he said, is that great principle of self government.

"I would not exchange all the glory of the American republic," he declared, "for all the glories of all the great empires since time began."

There are now in Europe more than a million persons awaiting admittance into the United States, he said, and the question that should be asked them when they came was not "Where were you born?" but "Have you taken America as your own?"

The American Legion, he said, had been giving three years' study to the immigration problem and was hopeful that it would write into the laws of the country some protection for the principles of the American government and its hundred million inhabitants.

Major Culbertson was introduced and gracefully got out of a speech by saying that he had been in the war with Colonel Owsley and that he had always called on Colonel Owsley to do his speech-making, and said that he could give personal testimony to the fact that Colonel Owsley was as good a soldier and fighter as he was an orator.

Noted Organist Arrives in City Wednesday Eve

Clarence Eddy, internationally famous organist, will arrive in the city Wednesday night for his recital Thursday evening at the First Baptist church.

The organ recital will be free, enabling every music lover in the city to hear one who is said to be the greatest living organist. A silver freewill offering will be taken to pay the expenses of the concert and to apply on the organ fund for the big pipe organ recently installed in the church.

Some of the brief press notices which have followed Clarence Eddy's concert abroad will be interesting to local music lovers. The "Figaro," a leading Paris newspaper, says of him: "The brilliant playing and registration of Mr. Eddy's organ is a revelation among the foremost organists of our epoch, was greatly admired."

The Musical News of London calls him "one of the greatest masters of the art of organ playing."

The Berlin Lokal Anzeiger says of him: "Mr. Eddy's performances were a revelation to the Berlin critics. His manual and pedal technique is brilliant, and his deft and effective registration little short of marvelous. We consider ourselves honored in placing his name on our list of members."

At home Mr. Eddy's critics are just as generous. The New York Globe musical critic said of him this year: "Mr. Eddy is a master of the organ. His technique is prodigious, and his interpretative art comprehensive. It is not putting it too strongly to say that he is not surpassed as an organist in the world."

The B. O. P. class party (First church, south) which was to be given at the home of Mrs. Dan Hardy Thursday evening, has been postponed to Tuesday evening, November 15, on account of the organ recital at the First Baptist church.

GREAT BRITAIN TO BEGIN PAYING THE INTEREST ON DEBT

By Associated Press.

LONDON, Nov. 9.—An arrangement has been made to begin paying the interest on the debt owed by Great Britain to the United States at the rate of \$50,000,000 pounds yearly. It was announced in the house of commons today by Robert Home, the chancellor of the exchequer.

Sir Robert made this announcement in the course of a statement on the budget prospects. He added with emphasis: "I hope this remark about the debt we owe America will not be made the occasion for any discussion of the inter-allied indebtedness. It does not conduce to the friendliness of the feeling between America and ourselves to discuss the matter at all at present."

BELIEVES CONFERENCE IS TO CANCEL OR POSTPONE PAYMENT OF WAR DEBT

By Associated Press.

BERLIN, Nov. 9.—Belief that the Washington conference will result in cancellation or postponement of payment of the war debts owed to the United States by the entente nations is expressed by Dr. Friedrich Rosen, former foreign minister, in an article in the Deutsche Allgemeine Zeitung. In that event, he believes, the German reparations terms will be revised.

Otherwise, he declares, he feels that the Germans have nothing to hope from the conference, as the manner in which armament limitation has been applied to Germany, instead of being a step toward world peace, has only laid the ground for future conflicts with her avaricious neighbors who have been seeking by every means possible to get control of the great German industrial establishments.

The Jewish Relief society is entertaining Wednesday night with a dance at the American legion hall, beginning at 8 o'clock. The public is invited.

COURT HOUSE TO REMAIN CLOSED ARMISTICE DAY

In accordance with the proclamation declaring November 11, Armistice day, a legal national holiday, Judge J. P. Jones issued a request Wednesday that all offices in the county court house close and remain closed through-out the day Friday.

The third anniversary of the making of a truce of world-wide peace will find practically all business at a standstill in the city. It is believed that the court house lawn or perhaps one of the large court rooms will be utilized on that day for a service in honor of America's dead.

DORSH ELECTRIC HAS ATTRACTIVE WINDOW

The Dorsh Electric company has installed an attractive and novel window display in honor of Armistice day. An American flag is kept waving in the breeze created by the motor of a Royal vacuum cleaner. It is the purpose of the Dorsh Electric to keep changing these displays from time to time to show the pulling power of this cleaner.

MANY NEW TESTS IN BUNGER FIELD ARE NOW BEING STARTED

Since the 50-cent advance in the posted price for north and central Texas crude and with the ready demand for the production, increased drilling activity is reported, with the Bunger district of Young county as the scene of the most extensive operations.

Many of the larger companies, including the Texas, Gulf and Coston, have secured acreage in this district. The Coston company has derricks up on the J. W. Howard and the G. T. Parsons land and will begin drilling this week on both tests.

NOTICE

The banks composing the clearing house association will be closed Friday, Nov. 11th to observe Armistice Day.

Customers of the several banks are requested to arrange their business accordingly.

Wichita Falls Clearing House Assn.

The Gulf Production company, which finished the No. 1 well on the Grimshaw early this week with an initial production of 300 barrels, has made No. 2 location and is building a derrick.

Derricks are going up in all parts of the field, as fast as the material is placed on the locations. Among the locations are the Roswell Petroleum company No. 3 and No. 4 on the R. D. Owens tract on the J. A. Driver farm. The Western Exploration company has made No. 4, 5, 6 and 7 offset locations and is building a derrick on No. 4. On the A. Grimshaw tract, Edgar B. Floss has a derrick up and is installing machinery for his No. 1 test. Bradford-Weekly No. 1 on the W. E. Moore tract has spudded in. The Penn Cities company has completed its derrick on the Herron land for their No. 1.

Get Back Your Grip on Health

Every man and woman is born with just so much nerve force or nerve capital—some with more than others. Thousands inherit weak nerves because their nerve force has been squandered by their ancestors.

Your system can only make or create about 20 much nerve force every twenty-four hours, and if from any cause you use it up faster than it is made, you are bound in time to become a nervous bankrupt with all its terrible tortures and alarming symptoms.

In such cases, it is often worse than foolish to take stimulating medicines or narcotics.

What you need is to take something to put more nerve force into your system. This is most effectively accomplished by the free use of Nuxated Iron. This valuable product contains the principal chemical constituents of active living nerve force in a form which most nearly resembles that in the brain and nerve cells of man. It also contains organic iron like the iron in your blood and like the iron in spinach, lettuce and apples. This form of iron will not oxidize nor injure the teeth nor upset the stomach. It is an entirely different thing from metallic iron which people usually take. Nuxated Iron may therefore be served as both a blood and a nerve food or it feeds strength giving iron to your blood and the principal chemical ingredients of active living nerve force to your brain and nerve cells. At all druggists.

DECLARES THAT HE HAS REASON TO BELIEVE SOLDIERS WERE SHOT BY COMRADES ON BATTLE FRONT

J. A. KEMP RETURNS HOME WEDNESDAY; IS MUCH IMPROVED

J. A. Kemp returned home Wednesday afternoon, after a lengthy stay at Galveston, where he has been under medical treatment. Mrs. Kemp, who has been with him, accompanied him home.

Mr. Kemp is much improved in health, but is under doctor's orders to take things easy for awhile. He is rapidly recovering from the nervous and digestive ailments which have necessitated his being under medical care for some time, but will continue to rest at his home here before returning to his duties.

One of the first tasks awaiting him is the tedious one of signing the irrigation district bonds. His signature must appear on each of the 4,500 bonds of \$1,000 value each.

Mr. Kemp expressed much gratification over the sale of the bonds and over the prospects for early starting of work on the project for which he has worked so long.

RAILROAD OFFICIALS DISCUSS PLANS FOR NEW GRAHAM DEPOT

Plans for a union station at Graham, for use by the Rock Island and Wichita Falls & Southern, were agreed upon Wednesday at a conference of representatives of both lines here.

Captain McFarland, chief engineer of the Southern, represented that line, and A. B. Warner of Fort Worth, division manager, was here for the Rock Island.

The present station at Graham is inadequate for traffic needs, and Graham citizens have been anxious to see some improvement made.

Medicated Smoke Drives Out Catarrh

Dr. Blosser's Cigarettes Give Out a Healing and Soothing Smoke-Vapor that Clears the Head, Nose and Throat.

Dr. Blosser is the originator of a certain combination of medicinal herbs, flowers and berries to be smoked in a pipe or ready prepared cigarettes which is meeting with unusual success in catarrhal troubles. As the disease is carried into the head, nose and throat with the air you breathe, as the antiseptic healing power of this remedy is carried with the breath directly to the affected parts.

This simple, practical method applies the medicine where sprays, inhalers, ointments, etc., cannot possibly go. Its effect is soothing and healing and is entirely harmless, containing no cubebs, tobacco or habit-forming drugs. It may be used by women and children as well as men.

For relief from catarrh, asthma, nasal deafness, or if subject to frequent colds, you should try this remedy. Satisfactory results guaranteed. A well stocked drug store can supply Dr. Blosser's Remedy.

A trial package (containing eight cigarettes) will be mailed to any address for ten cents (coin or money) by The Blosser Co., 28 D. D. Plaza, Ch., to prove their benefit and pleasant effect.

TO ARGUE MOTION OF DOC SNOW ON WEDNESDAY, NOV. 23

The motion for rehearing on the appeal case of Doc Snow, held in the county jail upon conviction on a charge of murder, will be argued before the court of criminal appeals at Austin on Wednesday, November 23, according to word received by the defendant's counsel.

The court of appeals several weeks ago affirmed the case in which Snow was sentenced to serve 20 years in the state penitentiary. Counsel immediately filed a motion for rehearing and it has been set down by the court for November 23.

F. H. LEWIS DIES TUESDAY AT HOME NORTH OF CITY

F. H. Lewis, aged 75, died late Tuesday night at his residence 10 miles north of the city. He had

been in poor health for a long period of time and his death was not unexpected. Infirmities of old age and grief over the loss of his wife, who died Oct. 31, are believed to have been the cause of his passing. Mr. Lewis was an old Confederate veteran and funeral services, held in Rosemont burial park at 4

o'clock Wednesday afternoon, were in charge of the Confederate veterans of this city. Rev. Betts of the Methodist church conducted the burial. Mr. Lewis left no immediate survivors.

The sixth arrest to be made in connection with the series of auto tire thefts uncovered Tuesday by the police was report 1 early Wednesday afternoon. Joe Mason, a young man alleged to have been implicated in the sale of some of the stolen property was the one taken into custody.

"Ideas Are the Precious Jewels of Business"

Back in the Spring of 1902, at Kemmerer, Wyoming, an idea was born! It was strong, healthy, courageous! It was destined to grow; to become Nation-wide in all the things that combined, go to make the shoppers' store superior.

It was the idea—the precious jewel of business—from which was to develop the long line of 312 J. C. Penney Company busy stores, located here and there in 26 States.

That idea of nearly 20 years ago introduced a merchandising and selling policy of quality, service, economy—a policy that has weathered the storms and attracted hundreds of thousands of admirers. It is the policy that is carrying on to even greater, more remarkable achievements!

Through this great system of stores—a purchasing power of tremendous proportions—savings created and given to the public—store service that really serves—is afforded buying advantages every man, woman and child regards both a profit and a pleasure.

Happy Old Age

Of course youth is the great time for happiness, but old age has its compensations, too, provided age represents the declining years of a well-spent-life.

But to be happy in old age there must be a good competence secured during the productive years of life. We all must grow old. There is no avoiding it, but there is a way of avoiding a penniless, poverty-stricken old age. That's why we urge people to start a savings account which will be a friend in need as you travel along, and a great comforter during your declining years.

LOCAL OBSERVANCE OF ARMISTICE DAY BEGINS THURSDAY

Observance of Armistice day in Wichita Falls will start Thursday, although the historic anniversary itself comes on Friday.

Appropriately patriotic programs have been planned for most of the public schools for Thursday afternoon. The Rotary club has planned an Armistice day program for its regular weekly meeting at the Kemp, and is expecting a record attendance. Luther Hoffman, commander of the Post Carrigan Post of the American Legion, will be the principal speaker.

With both stores and schools closing Friday, a great crowd is expected to attend the public celebration at the courthouse, at 10 o'clock Friday morning. An address by Honorable Sidney Samuels of Fort Worth will be the chief feature of the program, which will also include some exceptional musical numbers.

REORGANIZATION OF BOYS CLUB PLANNED IN MEETING TUESDAY

The first meeting of high school boys to be held since the defunct Boys Club was disbanded a short time ago was called to order Tuesday night in the parish house of the Episcopal church and planned for the reorganization of the club. Refusal recently of the high school faculty to sanction school scholars' meetings at night met with no little opposition from the boys of the school and resulted in the organization at that time voting to disband the club and plan an independent basis in the near future.

Officers have been elected or appointed by the club as yet. Although it is understood that something of this nature will be done at next week's meeting, the Tuesday session was devoted to a pleating of the constitution and the line of work which the club is to follow in the future.

SPECIAL MATINEE OF "THE ACQUITTAL" TO BE PRESENTED FRIDAY

Announcement that a special matinee showing of "The Acquittal," the current attraction being offered by the Lewis-Worth Stock company, would be given Friday afternoon, November 11, was made Wednesday morning by the company management.

No showing had been planned originally for Friday, but the fact that it is a legal holiday gave rise to the belief that a matinee performance would be acceptable. Regular matinee prices will prevail and no seats will be reserved.

BURGLARY CHARGES FILED TUESDAY IN TIRE THEFT CASES

No further arrests in the auto tire robbery which the city police brought to a successful close Tuesday with the arrest of five men were reported Wednesday morning, although officers were confident that at least two more this as now at large would be apprehended in a short time. The arrest of the five men and the recovery of stolen tires valued at between \$600 and \$800 Tuesday has put an end, police think, to the thieving which has been going on in Wichita Falls for the past six weeks.

In addition to a large quantity of chains and tubes found Tuesday the police also recovered two Ford wheels which had been removed from an auto as it stood in front

of the owner's house. A pair of fancy glass wind shields, designed to fasten on the side of a machine, were also found and are being held for the owner.

The quietest arrested Tuesday were turned over to county officials late in the afternoon and charges of burglary lodged against them by City Detective Bob Hembre and Motorcycle Officers Eyerley and Johnson, all of whom were instrumental in breaking up the ring of thieves.
