WANT COMMITTEE TO MAKE STUDY OF OIL CONSERVATION

GOVERNOR IS REQUESTED TO NAME REPRESENTATIVE CITIZENS.

TO RECOMMEND PLAN TO THE LEGISLATURE

Suggestion Embodied in Resolution Of Committee of Texas Chamber.

DALLAS, Jan. 27.—Governor Neff has been requested by the Texas chamber of commerce to appoint a committee of representative citizens of the state to make a study of petroleum conservation...

The exhaustion of the petroleum supply would mean the destruction of the modern industrial and commercial fabric. Despite this fact, the Texas chamber of commerce points out, present methods of developing, producing, storing, distributing and consuming petroleum are grossly wasteful.

This report shows that Texas has 29 per cent of the petroleum reserve supply of the United States and a large percentage of Texas' annual income is derived from her oil fields.

POLICE SERGEANT IS AMAZED BY REPORT OF ATTACK BY BULL

NEW YORK, Jan. 27.—Dismay and other emotions awaited the sergeant on duty at police headquarters here yesterday when he picked up the telephone and heard a hysterical feminine voice announce: "I've been attacked by a bull!"

"Whaddy mean, bull?" asked he. "No, no," the voice replied, "a kind of a cow with horns."

The disturbing bovine, escaped from a herd at a steamboat landing, was corralled. A gunboat has been invented that absorbs 70 per cent of the gun's recoil.

COOK COUNTY HOSPITAL ACCEPTS LEPER PATIENT

CHICAGO, Jan. 27.—The Cook county hospital has accepted a leper as a patient without any hesitancy, it became known today.

The patient is Carl Oscar Peterson of Stockford, Ill. For five years he has been suffering with leprosy and added that Biblical references probably had much to do with forming popular conceptions about the disease.

It required about four months for Canada to get census returns from places within the Arctic Circle. Canada's census this year cost more than \$9,000,000.

"LITTLE HSU" IS LEFT A LONELY OUTLAW IN CHINA

PEKING, Jan. 27.—Gen. Hsu Hai Tsing, known throughout China as "Little Hsu," is left a lonely outlaw by a recent presidential decree which pardons his six companion leaders of the Anfu party who fled when they were ousted from power in 1920.

It is considered unlikely that "Little Hsu" will be made the object of presidential clemency owing to the fact that he has been constantly intriguing against the government.

Hsu and the other six leaders all held important commands in the Chinese army and took part in the activities of 1920 when the Anfu club controlled the government and was kept in power through Premier Tuan Chi-Jui.

An Army Marches On Its Stomach, Said Napoleon

The Great Corsican Knew That Success in Life Depends Upon Your Strength, Energy and Endurance.

When Napoleon led his victorious armies through Europe, his every enemy was not the nations defending themselves against his smashing onslaught; but he was confronted by the graver question of how to provide nourishing and strengthening food for his soldiers.

What such people need to enable nature to bring back their strength and vigor, restore their lost weight, and put them in fighting trim, with over red blood, energy and vigor through their veins in Taniao, the powerful reconstructive tonic and body builder.

REORGANIZING FARM AS FUNDAMENTAL INDUSTRY

WASHINGTON, Jan. 27.—If you want to be fancy about it, you didn't have any deeper sense of responsibility, you could picture...

TEXT DOSE CALOMEL MAY SALIVATE YOU

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no pain when a person should take the salivating calomel.

about the relative merits of sheep or hen manure for the asparagus bed, and farmer Tom Wilson, that horsey-hair-topped coupon cutter, whose name heads the third largest packing industry in Chicago, speculating with farmer Jim Bell, whose deer coat is not as dusty as you might expect to find on one of the two or three biggest flour millers in Minneapolis, as to whether the groundhog is likely to appear on schedule the second of next month.

Farmer Eugene Meyer Jr., you could say that when you saw farmer Eugene Meyer Jr., who runs a big New York banking house, talking earnestly with farmer Senator P. H. McNamara, backed in the corner of the room, he was negotiating the loan of \$25,000 to meet the road taxes due next Wednesday, and promising to pay it back just as soon as the mule calf is old enough to sell for veal.

If farmer King Gardner were only here with the rest of them, he could write a whole chapter about that announcement Secretary Wallace of the department of agriculture made the first day to the effect that if anyone had forgotten to bring along his dress suit he needn't let that fact run away from the white house reception Monday night.

You could imagine farmer Theo Price, who has bought and sold more cotton and heretofore the farmer in New York markets than any other living person, walking right straight up to the president with his overalls and Mr. farmer Gifford Planchot extending a hand, still moist, to Mrs. Harding with an apologetic explanation that the hour of the reception was so early that she had to come straight in from milking, without waiting to wash up.

The truth is that these men and women prominent in other lines of industry are not more than one to ten among the sure-enough farmers who own the great majority of the agricultural publishing businesses in the United States.

Incidentally one Wall street banker is here in the role of a kind of guide and advisory expert from farmers. B. M. Baruch knows probably more about the intricacies of marketing and trade than any other living man. He knows all the devices by which the middleman and the forestallers have been able to hornsaw the farmer, and he has dedicated himself to showing the farmer how to beat the game.

That policy, under the leadership of the farmer and the farmer's friends, may turn out in either one of two ways. "Either we may become a closely integrated, strongly self-contained and more or less economic unit with other nations, with a high tariff and foreign trade as a secondary matter, and with the farmer looking mainly to the domestic market or we may take the other direction. If the farmers come to believe that their best business prospects lie in a quick resumption and extension of our foreign trade they may express their power in a greater kindness toward the idea of closer association with other nations, and a review of the decision made by the 1920 election in favor of isolation.

The one sure thing is that it is the farmer and a first consideration for the farmer's economic interest that is going to determine our future for several days. Let us deliver yours now.

RADIO EXPERT TELLS YOU MORE ABOUT HOW TO CONSTRUCT YOUR WIRELESS TELEPHONE APPARATUS

Matthew L. Bergin, radio expert and director of the Radio Institute of America, New York, is telling to a few readers how to make their own wireless phone receiving set.

By MATTHEW L. BERGIN With the tuning coil constructed, the making of the fixed condenser comes next.

If you can't get any paper, use the coil found in cigar boxes. Will take six sheets of waxed paper, 4 by 5 inches.

Bandwich these in alternate layers. Solder a piece of copper wire to two ends. Wrap together with the two wires sticking out. Tape the roll.

Be sure not to damage the paper when rolling it. This condenser stores up the signal current that is rectified when a message is coming in.

If you want to be neat, you may make a case of tin—for the condenser but it is not necessary.

Now Waves Come. The radio waves coming through the air from the oscillator they will have no effect on the telephone receiver—unless they are changed into direct current.

This consists of a bit of mineral galena is the best clamped under a fine wire point.

A bit of treated crystal costs about 25 cents. This mineral may be held in place by a clip—an old suspender clip. But it is better to have it screwed firmly in a small cup.

The "Cat Whiskers." Resting lightly on the mineral should be this fine wire—"cat whisker" it is called.

This should be supported in some way so that it can be adjusted easily. A good way is to attach the wire to a little rod, supported on a stand. If no rod is available, the end of the wire can be screwed firmly to the base of the instrument, and the wire adjusted by the fingers.

If the beginner has difficulty making this part of the apparatus he may buy it for \$1 in a supply store.

It is the heart of the radiophone receiving set—a very delicate part. Be sure that it is properly constructed.

When you are all set, prepare for the mounting. Measuring the Apparatus. Take your base—4 by 12 inches.

Fasten the tuning coil by two screws passing through the base to the head pieces of the coil.

The "lead-in" wire from the aerial is attached to the slider rod on top of the coil.

The other rod—set in front of the coil—is connected to the left binding screw from this post that the instrument is grounded.

Draw a piece of wire to a water pipe, lightning rod or any other fixture that is grounded. Clean a part of its surface. Draw a band of metal around it. Solder your wire to this.

Ground Link Important. It should not be forgotten that the ground connection is quite as important as the aerial.

If there is any difficulty soldering the wire, buy a ground clamp. It sells for ten cents.

From the slider rod in front of the coil draw another wire through the base. String it to the under side where it is connected with the left hand wire leading from the fixed condenser.

This condenser should be set on more binding posts. Connect one post to each side of the condenser.

Then hook up your telephone receivers—and your circuit is complete. See that none of your wires touches another.

In fastening them under the base, use small tacks—or gummed paper. Look at your binding post to the right. Be sure that it is connected to the aerial.

Look at the binding post to the left—be sure that it is grounded. Start listening in. Move your slider back and forth; adjust your detector.

If you have carried out these instructions carefully and are within range of a radio station—You will soon be in touch with the world—Through the air!

more binding posts. Connect one post to each side of the condenser. Then hook up your telephone receivers—and your circuit is complete. See that none of your wires touches another.

Be Sure You Get a Full Pound You used to ask for a large can of baking powder and get 16 oz.—a full pound. You can't depend on getting a full pound today because some baking powders are now put up in 12 oz. or 3/4 pound cans, and are 4 oz. short of a pound.

Never ask for a can of baking powder—always say "give me 16 oz., or full pound." A large can of Calumet always did and still does contain 16 oz. or a full pound.

Form the habit of careful buying—be sure you get full value for your money. Calumet lasts longer and goes farther—you save when you buy it—you save when you use it. Don't regret—use Calumet.

Mayor Cline Discusses Work of Municipal Welfare with Mission Federation; Splendid Reports Made

Mayor Cline's talk on the proposed work and responsibility of the Municipal Welfare organization was a feature of the meeting of the Federated Mission Societies Thursday afternoon at the First M. E. church, south, and it was the first opportunity for the mayor to discuss the work of the new municipal plan, the hundred and fifteen or twenty women present were thoroughly interested in all that the speaker had to say.

"The municipal board must have the cooperation of the church organizations," stressed the keynote of Mayor Cline's definition of the plans to the women.

"The women of the churches must not feel that the municipal board has any idea of taking away the social service work from the church. It is desired, rather, to work out a mutual understanding; a plan by which, through the central office downtown, all cases, both those that are handled by the church and those that come to all the other service organizations, can be handled and recorded in such a manner as to avoid waste of our social service money and effort, and imposition on our social service workers. We do not want charitable work to be had on any one person or organization; we want to put sufficient business and system into the plan that it will be best for everybody concerned."

Mayor Cline spoke of the difficulty of merging the work of the charitable organizations, and of the necessary elasticity of purpose and spirit of cooperation which must obtain before it can be done successfully. He defined the point of contact, the church and the municipal organizations and promotion of the social service work. He stressed the importance of keeping a strict record of all cases handled, and of having a list of the names of the two classes into which social service subjects are divided, and said that the transient class should be handled by the church organizations.

Nursery and Church Reports.

Mr. Cline's talk was received with deep interest, and the details of his explanation evidently much appreciated. Following the talk, the Day Nursery report and splendid reports of social service work from the various church societies represented were given. Mrs. Goodner gave the Day Nursery report, naming a total of 215 children who had been in the nursery during the past four months, counting each child's report each day. A list of gifts donated since the last report, and some things badly needed at present were mentioned.

The First Presbyterian report was not ready. Mrs. D. J. Carithers gave the report from the First M. E. church, south, naming a total of \$2,714.05 expended during the past quarter on church and social service work. Mrs. E. E. Gering, social service secretary, gave the report of work in cases, including visits to sick and strangers, clothing and food to the needy, Christmas service, medical attention provided, etc.

Mrs. W. E. Chancey reported for the Floral Heights M. E. church, naming a total of \$326.65 spent in social service work, exclusive of church work. Mrs. E. E. Gering, social service secretary, gave the report of work in cases, including visits to sick and strangers, clothing and food to the needy, Christmas service, medical attention provided, etc.

The First M. E. church, Seventh and Lamar, was not represented at the meeting, so that reports were not heard. The Jewish Council of Women gave a very interesting report through Mrs. Horwitz, naming the Memorial fund for Mrs. Pink, the Junior Auxiliary work, and plans for the coming year already entered upon.

The Catholic church social service work was reported by Mrs. H. M. Fitzgerald, with \$182.35 named as expended in charity work the past quarter.

of the last meeting and gave the secretary's report, and Mrs. R. J. Goodale gave the treasurer's report, naming the receipts for the quarter—\$1,078.75 and the disbursements \$1,078.75.

An announcement from the Y. W. C. A., inviting the women to attend an open forum meeting Sunday afternoon, was read. It was stated that Mrs. Hucklebee and Mrs. Tom Smoak would give talks on "Tribute" with music by Mrs. Fyfe.

Roll call by churches resulted in the following report: Sixteen from the First Presbyterian, 41 from the First Methodist, 11 from the Floral Heights Methodist, three from the First M. E., six from the Jewish church, 16 from the Catholic, nine from the Episcopal, nine from the First Christian, five from the Southern Presbyterian, and 10 from the First Baptist.

A nominating committee comprised of Mesdames J. A. Kemp, J. Perkins, Jeff Waggoner, Erwin Karrenbrock, Wolfson, Riddle, Karrenbrock, Downing, Fleming and Maxwell was appointed to report nominees for the election at the next meeting, after which Mrs. John W. King sang a solo, "By the Waters of Minnibonk."

Next Meeting With Catholics.

The Federation accepted the invitation of the Catholic women to hold the next quarterly meeting with them, and a vote of thanks was tendered the First Methodist hostesses for their hospitality.

JUDGE BEN LINDSEY'S WIFE REAL BENEFACTOR TO GIRLS

MRS. BEN B. LINDSEY.

And then Mrs. Lindsey talked about her work.

"When girls come to me with their confidences I know it is because they read understanding in my face."

Of course all of Judge Lindsey's friends know the important part his wife—formerly Henrietta Brevoort of Detroit—has played in his life.

In Charge of Girls.

"I am his secretary and I have charge of the girls' work," Mrs. Lindsey explained. "Naturally I try to conserve the judge's strength and time by arranging his appointments. I did study to be an interior decorator—yes—I have decorated the old Lindsey home after converting it into apartments. You see, we needed the money."

"The court is my life." And now she said the work for boys is a universal accepted fact, the girls' work is important.

"The key to the future seems to me to lie in the judge's new method—recognizing three ages in every girl—the biological, psychological and chronological."

"Many a girl who is a court case could have been saved if her parents had recognized these different ages. We have so many cases of girls who are chronologically 14, but who are biologically 20 and psychologically 10."

"These are the girls offered up through ignorance not only as victims but as temptations of society."

BOROS CLUB DISBOUSES RILEY

The Boros club discussed the life and work of James Whitcomb Riley at its Wednesday afternoon meeting, held at the home of Mrs. W. P. Lowry, with Mrs. Burke Taylor as an interesting leader. Readings of Riley's were given by Mrs. R. E. Hillburn and Mrs. Burnside.

During the business meeting a tree will offering was taken for the Travis school piano fund, after which refreshments were served to Mesdames Harrison Bachman, A. W. Burdick, M. E. Glover, J. D. Harris, R. E. Hillburn, Stanley McGregor, Burke Taylor, and Ernest Archambeau.

The next meeting will be held with Mrs. Stanley McGregor at her home, 1408 Topeka, which will be a regular monthly business meeting of the club.

SIBLEY-TAYLOR COMMUNITY MEETING THURSDAY NIGHT

The residents of the Sibley-Taylor addition held their weekly meeting Wednesday night to hear the report of the committee on civic work appointed at last week's meeting, the night meeting following the afternoon organization of the women's Civic League, in which the men are cooperating.

The men, together with the women of the league, are working on the "pay your poll tax" campaign, the Sibley-Taylor addition having more than 200 voters. Members of the league discussed a number of matters of interest to their organization and the community with the men at this meeting.

The next meeting will be held Wednesday night, February 1 at the Temple at Twenty-second and Yale.

Mr. Kleinschmidt of Canyon is the guest of Mr. and Mrs. Ernest Archambeau.

Mrs. S. C. Mays of Atlanta, Texas, who attended the funeral of T. J. Taylor, and remained for a few days with her daughters, Mesdames H. A. McCarty and Leon Deaton, has returned home to Atlanta.

ADVENTURES OF THE TWINS "The Fat Old Pillow"

By OLIVE ROBERTS BARTON

It seemed to add to his misery when the maid came out and started to beat him with a stout cane.

Pillows of all sizes and shapes were pinned to a clothesline between the maple trees in the yard. It was housewifery time and the whole family of them was getting a sunning. The grand-daddy of all the pillows, a big fat bolster, was doubled over the line right on his stomach, as though he had a tremendous pain from overstuffing, like kiddies get on holidays.

It seemed to add to his misery when the maid came out, and started to beat him with a stout cane. He swelled up still more with indignation, probably, until he was in a fair way to burst. In fact, he was bursting. A tiny rip appeared in one of his sides which grew to quite a size and in a twinkling several fluffy feathers had crowded out and fluttered away over the tree-tops up into the sky.

"Oh, look," cried Nancy. "They're sailing straight into the sun!"

But as she said she had said it she remembered—and Nick remem-

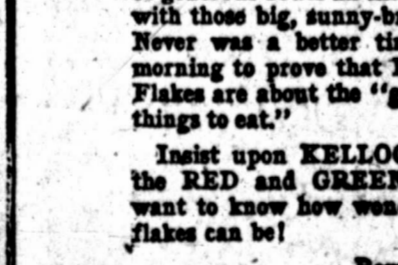

You never tasted Corn Flakes so joyously flavored, so crispy-crunchy as Kellogg's

That's why big and little folks who know the difference insist upon KELLOGG'S! The thing to do is to make comparison—Kellogg's against any other kind of corn flakes you ever ate! If it's all-the-time crispness or delicious, appetizing flavor you want—well, just eat Kellogg's! And, what a delight to know they're never leathery or tough!

You'll get so cheerful about Kellogg's that the day's best hours will be when it's time to sit down with the family in front of generous bowls all filled most to bursting with those big, sunny-brown Corn Flakes! Never was a better time than tomorrow morning to prove that KELLOGG'S Corn Flakes are about the "gladdest of all good things to eat."

Insist upon KELLOGG'S—the kind in the RED and GREEN package—if you want to know how wonderfully good corn flakes can be!

Remember—KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.

WOMAN'S COMPLEX LIFE

Woman's complex life with its multitudinous calls is given as the reason for many a nervous breakdown. Home work, social obligations, dressmaking, and the care of children keep the 20th century woman in a whirlwind of activity until headaches, dizziness, backache, nervousness and oftentimes more serious ills which are peculiar to her sex alone. Such women should not despair, but be guided by the letters so often published, and which come from women who have been in just such conditions, but who have been restored to health by Dr. J. C. Pinkham's Vegetable Compound.

This is a root and branch medicine that contains no drugs and can be taken in safety by any woman.

Be Careful What You Wash Your Hair With

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely free of alkali. It's very cheap and beats anything else all to pieces. You can get Mulsified at any drug store, and a few ounces will last the whole family six months.

Simply moisten the hair with water and "rub it in, about a teaspoonful of Mulsified is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, makes the hair shine and is soft, fresh looking, bright, shiny, wavy, and easy to manage. It cleanses, it tones and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified—adv.

SIX LITTLE INDIAN CHILDREN STRUGGLE IN CANADIAN SNOW

REACH RAILWAY STATION AFTER A FORTNIGHT OF TRAMPING.

FATHER AND MOTHER VICTIMS OF INFLUENZA

Herein Efforts of Elder Secures Aid of Neighbor Thirty Miles Away.

Fort William, Ont., Jan. 25.—Six little Indian children who left the frozen bodies of their father and mother in the northern trapping wilderness, today reached Watoomo on the Canadian government railway after a fortnight of tramping over snow-covered ground. The five younger children ranging upward from a baby of a few months, were brought back by their 14 year old brother and a neighbor.

Their father, Atchimo Nan Tuche, trapper, and their mother, both died of influenza in the family's woodland hut on Friday, January 12. That day the father called Atchimo, the oldest boy, to his bedside, told him the end was near, gave him \$1,200, the fruits of his trapping, and bade him care for his brothers and sisters. There was little food in the home.

Unable to bury the bodies, Atchimo left them in the shack with the five other children while he set out on snow shoes to fetch the nearest neighbor, 30 miles away. Two days later Atchimo came back with John Hingooch, the neighbor. The five hungry tots were chewing raw moose flesh. They had burned most of the furniture to keep from freezing. The bodies of their parents were frozen stiff.

The younger children were packed on the dog sled by Hingooch and Atchimo. The long mush to Watoomo where they were fed and given medical aid.

It is feared the little baby will die.

TESTS CONDUCTED IN LOCAL SCHOOLS FRIDAY MORNING

Standard psychological tests such as have been given to Wichita county students this week were conducted in various city schools Friday morning by C. T. Gray, professor of educational psychology of the University of Texas. Dr. Gray, who is an established authority on his subject, has conducted the local tests in the same manner as those given in other communities of the state.

He appeared as principal speaker at the morning high school chapel period and in the course of his remarks took up several phases of education, stressing especially the need of intensive application to studies during youth. Several concrete examples of cases wherein early neglect of opportunities for study had proven costly were cited by Dr. Gray, from which he brought out the advisability of making the most of school.

His work with the school children and conferences with teachers took up the larger part of the day.

9 HIGH SCHOOL BOYS LEAVE THURSDAY TO ATTEND CONFERENCE

Nine high school boys, under the supervision of faculty member, left Thursday afternoon for College Station to attend the State Older Boys' conference that opened in A. and M. college today. Those making the trip were Paul Whitley, Lester Prothro, Joe Bashara, Charles Fuller, Edward Kadane, Polly Clark, Wallace Bright, Jack Martin and Leo Haney.

J. T. Rundell of the high school faculty is acting as advisor and chaperon of the party.

The conference convenes Friday afternoon and will close with large services Sunday night. The local delegation will probably return home Monday evening.

JUDGMENT FOR DEFENDANT IN GARNISHMENT SUIT

Judge P. A. Martin rendered judgment in favor of the plaintiff in garnishment suit styled Powell Walker Drilling Co. vs. National Bank of Commerce upon proof of the case Friday.

Southern Producing company entered the suit as intervenor, claiming that the money garnished was theirs.

PLAINTIFF GETS VERDICT IN SUIT FOR \$2,000 DEBT

The Gusher Oil company was granted a judgment of \$2,000 against J. T. Bradley and others, and \$1,200 against Findley Leach Oil Co., in the 39th district court Thursday evening by Judge P. A. Martin. It appeared from the testimony that four oil companies pooled small tracts of land together in order to get a drilling site with the understanding that each was to bear one-fourth of the expense. The suit was for money alleged to be due on this agreement. The defense was that money had been paid in and had not been duly credited.

OVER 7,000 HAVE QUALIFIED AND 3 MORE DAYS REMAIN

Late Friday afternoon it was estimated that approximately 300 more voters of the county had qualified during the day so that by counting this number and the 300 that qualified Thursday, the total number of poll taxes paid and exemptions secured has reached 7,299. Of this number 6,445 are poll taxes and 854 exemptions. The number of women who have qualified has run close to 1,250.

Only three more days remain in which to pay the poll tax for after midnight Tuesday the poll tax books for 1923 will be eternally sealed to any prospective purchaser.

EXTEND TIME FOR FILING GOVERNMENT RETURNS FOR 1921

Notice that an extension of time in which to file fiduciary returns, partnership and personal service corporation returns and information returns covering compensation paid to employees has been received at the local internal revenue office. All such returns must now be filed not later than May 15, the notice states.

This extension is granted with respect to the returns above mentioned and which are required to be filed for the calendar year 1921 or for any fiscal year ending in 1921.

SANGER BROTHERS PURCHASE ASSETS OF FREEMAN-BLACK

Sanger Brothers of Dallas have purchased all of the assets of Freeman-Black company of this city and Freeman Brothers store of Vernon, according to an announcement made from the offices of M. E. Stevens, trustee in bankruptcy.

The purchase price for the assets of the local store is said to have been \$22,000, while that of the store at Vernon was \$7,500.

Freeman-Black company and Freeman Brothers both filed voluntary petitions in bankruptcy in the United States district court two weeks ago. Since that time the store has been closed.

This Hi-Jacker Asks for Time But Takes Money

Telling the time of night to a stranger proved costly for F. H. Seagrave, 1218 North Seventh street, who was held up by a lone hi-jacker near the Burnett street bridge and robbed of \$175 shortly after midnight Thursday. Mr. Seagrave reached for his watch when the stranger accosted him, he told the police, and soon found a gun thrust in his ribs.

The hi-jacker was a large man, weighing close to 200 pounds, his victim believed.

GAINES MOTOR QUINTET OUT TO STOP 'CASEYS' TONIGHT; LEGION AND ANTLERS IN FIRST CLASH

Football Referees Have Troubles as Well as Umpires

The baseball umpire at one time was believed to have the toughest job in the world. In those days, to be one of the officials at a college game, whether it was baseball, football or basketball, was regarded as soft picking. Things have changed considerably in the past ten years. The unlimited support shown by the general public gives the umpires as tended to greatly improve the life of the arbitrator.

Two more fast games are carded for tonight at the Legion hall in the city basketball race with a chance of one of the leading teams being toppled from its lofty perch. The undefeated rights of Columbus will bend every effort to keep the Gaines Motor outfit from spoiling its clean record in the second bill of the night. While the Legion and Antlers will open the festivities. Each of these teams has won the most games and with great satisfaction that another defeat is apt to knock them out of the running for the title to be won.

RUBE WADDELL GETS BROWN DERBY AS BASEBALL'S MOST UNUSUAL CHARACTER—ALTROCK

Who is the most unusual character that has ever been connected with baseball? That would be a hard one for most people, but not so old Nick. Of course modesty prevents me from selecting myself. That would be my truthful answer to the question. However, I hate concocted people. That of course eliminates Nick Altrack from the running. Some people are going to select Tim Hurlst, or Silk O'Loughlin; others will pick Cobb while some of the old-timers will hand the honor to Arlie Latham for being baseball's most unusual character. For a player to be rightly considered unusual he must be an individual, it would be necessary that he be a left-hander. That at once eliminates all right-handers.

INTEREST TURNS TO THE SELECTION OF A SUCCESSOR TO POPE

CONCLAVE HAS BEEN CALLED FOR FEBRUARY SECOND IN ROME. TWO-THIRDS MAJORITY NECESSARY FOR ELECTION

Question of Church and Italian Government Enters Largely in Discussions.

By Associated Press. ROME, Jan. 27.—With the body of the late Pope Benedict laid to rest beneath the flagstones of St. Peter's, the interest of the sacred college and the vatican household turned today to the selection of his successor. A conclave has been called for February 2 to choose the new pontiff.

The question of a rapprochement between the church and the Italian government enters into the election. A thorough canvass of opinion in the vatican shows that the peace party, or those advocating closer relations with the government, are virtually deadlocked with the irreconcilables, or those opposing a rapprochement, in the number of votes each faction can muster.

Twenty-nine cardinals headed by Cardinal Gasparri, or acting head of the church, are known to favor continuance of Benedict's policy, which was understood to have been directed toward a resumption of relations with the secular college are thought to be just as strongly divided, while nine are classified as neutral.

The attitude of the American cardinals—O'Connell of Boston and Dougherty of Philadelphia—is unknown at the vatican, but the opinion is expressed that, unless a compromise is reached, an opportunity for a foreign cardinal to be elected pope.

The majority elected by the Italian members of the sacred college is so evenly divided that vatican officials admit it depends upon the attitude of the foreign cardinals.

The boom for Cardinal Maffei, archbishop of Pisa, who was mentioned as favored by the government, most prominently mentioned as a neutral candidate should a deadlock be reached in the conclave. He is 67 years old and was raised to the purple in 1911.

For the first time in history women will be permitted to be present in the quarters occupied by the conclave. They are sisters of mercy who will preside over the destinies of the cardinals' kitchens, which heretofore have been supervised by monks.

The arrival of Cardinals Schulte of Cologne, Bertram of Breslau, Faulhaber of Munich and Piffert of Vienna today brought the number of foreign cardinals in Rome up to 19.

HEAVY SNOWFALL IS REPORTED IN SOME SOUTHERN STATES

WASHINGTON, Jan. 27.—Snowfall to a depth which marked new records over periods of from three to 20 years were reported today from several southern states, as an aftermath of the storm which has been central off the south Atlantic coast throughout the early part of the week.

With the statement that "storm warnings remain displayed between the Virginia capes and Cape Hatteras," the weather bureau today predicted further snowfall in 16 states in the east and south down to the northern Alabama-Mississippi line.

Virginia reported the heaviest fall in many years. At Danville 12 inches was recorded, a 20-year record being broken. Street car service in Lynchburg was badly crippled and Richmond reported a steady fall this morning.

In Georgia the visitation consisted mostly of sleet with damage confined largely to interference with communication. Savannah was practically isolated.

Florida faces freezing temperatures if the weather clears in the northern section, the weather bureau said. North and South Carolina and eastern Tennessee and Kentucky may expect snow tonight.

The lowest temperature reported yesterday was at Northfield, Vt., 22 degrees below zero.

guarantees granted to male workers and the conditions of their employment shall surround them with every safeguard of their health and strength and guarantees them the full measure of protection which is the debt of society to mothers and to potential mothers. Few women are engaged in any way in mining, but it may be as well to announce this proposition as to pass it by.

"9.—Children under the age of 16 years shall not be employed in the industry, unless permitted to have issued under state authority.

"10.—Six days shall be the standard work week in the industry with one day's rest in seven. The standard work day shall not exceed eight hours a day.

"11.—Punitive overtime shall be paid for hours worked each day in excess of the standard work day.

"12.—When a controversy or dispute arises between operators and mine workers there should be no strike or lockout pending a conference or a hearing and determination of the facts and principles involved.

Senator Kenyon said his plan offered a solution for the coal industry problems, which bids fair to confront us more acutely before another season shall pass.

"The Kansas industrial court idea he said, had been proved futile. The Kansas court, he added, "cannot be a success because it has no underlying code of rules or principles."

RENT COMMITTEE IS TOLD OF SOME SKY HIGH CHARGES

\$400 FOR 18x25, WITH \$5,000 BONUS WAS PAID DURING BOOM.

TO INVITE LANDLORDS TO GIVE THEIR SIDE

All Who Have Been Mentioned To Be Given Chance to Be Heard.

What is believed to have been a record figure for business rentals was established at the chamber of commerce rent committee hearing Friday afternoon, when it was shown that \$400 a month, plus \$5000 bonus, plus some substantial improvements on the building, was paid for 18x25 feet.

That figure is thought to be a high mark, even for "boom" days. Last year it was reduced to \$100 a month and this year's rent will be \$400 monthly.

One landlord and seven tenants appeared before the committee Friday afternoon, but the general run of testimony did not indicate figures as much out of line as those reported Thursday, with the exception of the \$400 charge above mentioned. In several cases, the possibility of ready adjustment of differences was seen.

The one landlord who appeared did so on his own motion as "landlord's day" for the committee is to come later, and all whose names have been mentioned will be invited to come and talk matters over. This landlord said he had voluntarily reduced the rent from \$400 to \$400, and that the tenant was considerably behind at the reduced figure.

Two joint tenants complained of \$250 a month for 28x30 feet and thought \$175 a reasonable figure. A hotel lessee who is paying \$375 for 32 rooms, and also paying plumbing bills amounting to \$25 monthly thought \$200 a reasonable charge.

The committee also heard a tenant who is paying \$125 a month but who has received notice to vacate for advance to \$200. The tenant said the advance was due to an offer by an enemy of his, and that it was a fake offer.

REDEMPTION NOTES OF EITHER SERIES ARE REDEEMED AT PAR

DALLAS, TEXAS, Jan. 27.—The treasury department authorizes federal reserve banks to receive for redemption Victory notes of either series at par plus accrued interest to date of such redemption, commencing immediately and up to and including February 1, 1922. This is in addition to the fact that Victory notes may be applied in payment of the new issue of treasury gold notes now offered for sale to the public through federal reserve banks dated February 1, 1922, maturing March 15, 1925, and bearing interest at the rate of four and three-quarters per cent.

REDUCTION IN WAGES OF OPEN SHOP PRINTERS

CLEVELAND, Jan. 27.—Wages of employees of a number of commercial printing houses here will be cut 10 per cent February 1, it was learned today. These shops, it is said, include most of those which have been working under open shop conditions since the strike last spring.

Compositors and pressmen, the highest paid of the employees, have been averaging \$45 for a 48-hour week, it was said.

POWER LINE TO BE BUILT AT ONCE BY IRRIGATION DISTRICT

DIRECTORS EMPLOY DALLAS MAN TO SUPERINTEND ITS CONSTRUCTION

MAY BECOME PART OF HYDRO-ELECTRIC SYSTEM

Both Farms and Towns in Irrigated Area to be Supplied With Current Later.

A decision to proceed at once with the construction of the electric transmission line from Wichita Falls to the two irrigation damsites was reached Friday morning at a meeting of the district directors.

Fred A. Jones of Dallas, an experienced engineer, was employed by the district to construct the line, it being decided not to do the work by contract.

The line will be used during the construction period to furnish power for various operations at the damsites, and is expected to materially cheapen some features of the work.

NORTH SIDE PARK PLANS DISCUSSED AT LIONS' MEETING

A report on work being done in connection with the North Side Park improvement project taken under consideration by the club recently was the principal feature of the Lions club session, held in the Kemp hotel Friday noon.

The committee on the plan, as outlined by Mrs. E. B. Snook, representing the club, appeared feasible. No definite suggestions were offered by the committee, but it is to continue the work through the coming week and exact plans, it is thought, will be submitted soon.

A. F. Gage, local landscape architect, gave a brief report on the plan and the program and offered his services in case the Lions really start improvement work.

During the business session a poem descriptive of Lion ideals and purposes, written by C. F. Carter, was read by H. J. Bruce, secretary of the club.

DOLLS FOR GROWN-UPS ARE THE LATEST CRAZE IN FASHIONABLE PARIS

PARIS, Jan. 27.—Dolls for grown ups, dolls that are from three to five feet in length, that are dressed with trailing hair, are the latest craze in fashionable Paris.

A favorite is a pale faced pierrot with wide staring eyes and bright red, low-shaped hair. He is placed in the corner of a settee and his white face and black silk costume produce quite an effect.

TIMES DAILY MARKETS

COTTON MARKET.

NEW YORK, Jan. 27.—There were rallies in the cotton market during today's trading. At the 10 o'clock level, contracts there were a good deal of price fixing for the week-end and some buying for a week-end reaction.

There was continued covering later and rather more buying for a week-end reaction. The opening was a little lower to 10 1/2 cents under overnight selling orders, but after showing considerable weakness early, Liverpool rallied and the market here soon showed not a trace of weakness.

If cows gave only cream—Libby would can it just as it came from the dairies. But cows' milk is largely water.

Libby takes out half this moisture by evaporation—and adds nothing.

So it is cows' milk, double-rich, fresh and absolutely pure, that you get in the air-tight Libby cans at your grocer's.

Use it on your table and in all your cooking—as cream, just as it comes from the can—as milk, diluted with an equal amount of water.

The yellow package with the name Gooch's Best represents "the very highest quality" in macaroni.

And you'll be surprised at the great number of delicious, rich flavored dishes you can make from this superior macaroni.

Be sure you get Gooch's Best. Book of recipes sent upon request.
