

### BOTH STRIKERS AND COAL OPERATORS IN A MOOD TO SETTLE

BASIS DIFFERS LITTLE FROM PROPOSAL MADE BY PRESIDENT.

### BOTH ARE ACTUATED BY TWO COMMON EMOTIONS

Fear Possible Draconic Action by Congress on Reopening After Recession.

By MARK SULLIVAN, National Political Correspondent of the New York Evening Post and Wichita Daily Times. (Copyright 1922, by the New York Evening Post.)

WASHINGTON, Aug. 11.—Both the coal strikers and the coal operators are now in a mood to settle their differences and go to work. The basis on which they are now willing to differ materially from what was proposed by President Harding or from what they could have done on their own initiative any time since the strike began. The question therefore arises: why this sudden willingness at the present moment to do a thing which they have been continuously and stubbornly unwilling to do since April 17?

To those who have followed this strike with any closeness the answer seems plain. The strikers and the operators have now come together actuated by two common emotions—cupidity and fear. Their fear is that if the strike continues in a few weeks there will be an industrial breakdown and the mood of the country as reflected by recent discussions has caused each of them to be apprehensive of what the public might be disposed to do if the industrial breakdown should come. Further than this, both parties to the strike know that the members of the lower house of congress after spending six weeks in contact with the public will come together again next Tuesday and both the strikers and the operators have reason to fear the drastic things that congress might do to the coal industry if the strike should still be in force and an industrial breakdown still a menace.

Move by Cupidity. But even more than their common fear the strikers and the operators are now moved by cupidity. The price of coal because of the strike has now reached a point where the operators can pay the miners any wages they demand and still make enormous profits. Last April when the strike began the price of coal was roughly from \$2 to \$2.50 a ton. Today it is anywhere from \$4 to \$5 a ton. When the operators go to work again they probably will be able to get for several months an average of \$4 a ton for their coal. The net result is that the public pays the bill.

Of course there was no conspiracy in the beginning. The strikers were angry and the operators were aghast. And yet, as things stand today, the net result to the public is exactly the same as if there had been from the beginning a conspiracy between the strikers and the operators to bring about a situation which would secure high wages for the miners and big profits for the operators at the expense of the public.

Should Strike Industry. This is the thing that has usually happened in these coal strikes and it is the thing which ought to be prevented by government action looking to the permanent stabilizing and regulating of this industry. The question ahead is whether assuming the coal strike is settled the country shall merely breathe a sigh of relief over the emergency averted and let the bill or whether the country on the other hand shall keep the lesson of this strike in mind long enough to

### REFUSAL TO MOVE TRAINS SERIOUSLY THREATENS TRAFFIC

WESTERN DIVISION OF SANTA FE PAGES TIE-UP AS A RESULT OF ACTION.

### OTHER CENTERS REPORT A SIMILAR SITUATION

Conference Arranged to Avert a Threatened Walk-Out of Maintenance Men.

By Associated Press. CHICAGO, Aug. 11.—Serious threats to traffic by refusal of trainmen to move trains at points where troops are on guard; renewed outbreaks of violence resulting in several deaths and the possibility of walkouts by maintenance of way men on various roads marked the progress of the rail strike as railroad heads and union leaders gathered for conferences today to separately consider President Harding's proposals for ending the strike.

Members of the "big four" transportation brotherhoods upon whom train movements depend, were authorized by their chiefs to suspend work if they consider strike conditions and the presence of soldiers at terminals and junction points "unbearable." Western divisions of the Atchafalaya, Santa Fe and Santa Fe were threatened with a tie-up of transcontinental trains by refusal of engineers, firemen, conductors and trainmen to operate trains while troops were stationed along the line where outbreaks occurred earlier in the strike.

Other centers throughout the country reported similar situations threatened. Switchmen joined the trainmen in their protests against working under guard and the situation on the Santa Fe at Needles, Barstow and other California points was further aggravated when the entire yard force at Fresno left its post, the men notifying the company they would refuse to return until armed guards were removed. Conference between Santa Fe officials and union leaders were held following joint meetings of "big four" brotherhood men and although no train was held, several eastbound passenger trains were held up at Barstow. Reports from Bakersfield, Cal., indicated the walkout would spread from California to Arizona and New Mexico points on the Santa Fe.

Two San Antonio, Tex., non-through passenger trains New York Central lines in New York City and the other a call boy, were shot, and instantly killed on an asset corner. Their slayings were reported from Birmingham, Ala., an attempt

move to take permanent measures to prevent similar situations in the future. An additional reason, related to the others, why the coal strikers and the operators are willing to settle now is that in the case of the strikers they have eaten into their accumulated funds as far as they think prudent, and in the case of the operators, they have disposed of most of their stock on hand.

Meantime, the railroad strike seems to those who follow it here rather more menacing. The striking shopmen seem in a more truculent mood than they were a week ago. They are strongly displeased with the successive steps President Harding has taken about seniority. Also, in their present position the striking shopmen seem to have a perceptibly greater sympathy from the big railroad brotherhoods than they had in the beginning.

was made to blow up a dining car used for feeding shopmen and laborers in the Princeton yards. The shot missed its mark and blew a hole in a nearby box car. The explosion occurred just before 100 men were due to arrive at the car. Police found a bundle of dynamite sticks in the yards near the car. Dynamite was used in an attempt to blow up shanty cars and a diner in the southern railway yards at Asheville, N.C. Windows were shattered in a car containing eleven workmen.

State rangers were sent to Texas, Texas, in connection with strike disturbances there. Water pipes supplying the Texas & Pacific yards and the union station were cut twice by unknown persons.

### HOUSE FIREMEN REFUSE TO MOVE FREIGHT TRAINS

MOBERLY, MO., Aug. 11.—House firemen employed by the Wabash railroad have voted not to move any freight trains through the local yards until the demands of the striking shopmen are granted. Unnecessary equipment as a result of the shopmen's strike is given by the men as the cause.

The grievances of the firemen have been laid before national brotherhood officials and word was awaited today by the men awaiting, or disapproving the walkout.

### MOTION PICTURE ACTOR INJURED IN ACCIDENT

LOS ANGELES, Aug. 11.—Eugene O'Brien, motion picture actor, who suffered a possible fracture of the skull and internal injuries when he

was run down by a motor truck last night, was reported resting easily at a Hollywood hospital today. Surgeons treating O'Brien's scalp found it necessary to shave off his curls.

### CLAY COUNTY SCHOOLS APPLY FOR STATE AID

HENRIETTA, TEXAS, Aug. 11.—County Superintendent Hugh Moore states that there are about 20 rural schools in Clay county that are applying for state aid and he is filling out applications this week.

### OKLAHOMA RESIDENTS INTERESTED IN HIGHWAY

VERNON, TEXAS, Aug. 11.—Citizens of Davidson, Okla., sent a delegation to Vernon Wednesday for the purpose of conferring with

local townpeople on the designation of the Lee highway through this section. Davidson residents will draft two routes from Davidson to Vernon as part of the transcontinental extension, and both will be forwarded to the association for consideration.

### CARLOAD OF BATHUBS FOR AMARILLO HOTEL

AMARILLO, TEXAS, Aug. 11.—A solid carload of bath tubs has been received for the new Amarillo hotel being constructed here at a cost of \$300,000. The new tubs will be installed immediately.

### Special Prices on Paint during August at The Decorators Co.

New mirrors for mantels at Decorators.—Adv.

HENRIETTA, TEXAS, Aug. 11.—A boy about 15 years of age of unknown mind was found wandering about the streets of Henrietta Sunday. As he could give no further information than that his name was "Frank" and that he "lived in a tent," he was taken into custody Sunday evening by Sheriff Jones and was kept there and notice was given that he was being held here until his father, who resides in Electra, came for him.

### ALBANY EDITOR TELLS HIS COLLEAGUES THAT DAY OF REAL EDITORIALS IS NOT PAST

The address of Richard McCarty of Albany, editor of the Albany News, was one of the chief features of the opening session of the Northwest Texas Press Association Friday morning, his subject being "The Editorial Policy of a Newspaper." The address follows:

There are many factors that go into the making of a successful newspaper—so many that it's hard to stop and dwell on any single factor. For instance, the financial end of a newspaper is very important, as that is the oil that keeps the machinery running smoothly, void of friction—fat ads, job book full of live jobs, a large subscription list, paid in advance—puts out the C. O. D. shipments, gives us a steady income, conducive to light slumbers, and when the first rolls around we can look at bill collector in the face with an honest to God expression, and say, Sonny, here is your money.

But, brethren, you cannot pave your road to glory with golden dollars and wear the crown of honor. Of course, the newspaper man is entitled to a decent living—cards of thanks, church notices, funeral orations and a ticket to the Dallas State fair does not liquidate overhead expenses, buy a new car for the editor in chief, cat's frocks and shoes for our wives and babies. Neither does wedding pond cakes peddle the longings of a healthy digestion. And just here we pause long enough to say, if we had been possessed of an ambition to make money, by a popular social, religious or political toad, we would have shed the castor on journalism.

Now we come to the subject at hand, "The Editorial Policy of a Newspaper"—and God Almighty—lower case—yes, we are talking to the end of good government and clean politics, and especially to newspaper men, have mercy on the men who will commercialize the editorial policy of his newspaper. The news columns of a newspaper belong to the public for the dissemination of news matter and for the discussion of the things that will add knowledge and wisdom, inspiration, stability of character, moral fiber to the community life. But the editorial column of a newspaper belongs to the man behind the gun, and if he is afraid of powder blast, and can't train the gun on the lesser defense, and shell the fort, let him go back to the rear ranks and put a gunner on the job who can shoot for God knows, the crisis is on, and we need men, red-blooded, fearless men—unafraid.

In the early history of journalism the editorial department was the gravamen of the job, and the financial end of the paper was neglected. Advertising then was an unknown art; printed matter, oil stock cer-

### TERRELL DISCUSSES STATISTICS FARM TENANCY IN TEXAS

AUSTIN, TEXAS, Aug. 11.—Although more than half of the 426,032 farms in Texas are operated by tenants, the problem of farm tenancy is showing signs of improvement in this state and a few more years should see a decided increase in the percentage of farms operated by owners or managers. In the opinion of George B. Terrell, state commissioner of agriculture, fifty-three per cent, or 223,309 of the farms of Texas are operated by tenants, according to a bulletin just issued by Commissioner Terrell, while the remaining 47 per cent, or 202,723 farms, are operated by owners or managers. As an indication of the improved tendency of the problem of tenancy in Texas, Commissioner Terrell pointed out that during the past decade farm tenants have increased less than one per cent, while from 1900 to 1910, tenancy increased more than six per cent, and from 1910 to 1920, it increased more than eight per cent. In 1890, 27.8 per cent of Texas farms were operated by tenants, in 1900, 46 per cent, in 1910, 52.6 per cent.

In 61 of the 150 Texas counties, farm tenants outnumber owners or operating farms. In these counties, the percentage of tenancy ranges from slightly over 50 per cent up to 72 per cent, the highest percentage recorded; Navarro county, with 4,375 farms, shows 4,532 farms operated by tenants, or 73 per cent. Other counties with high percentage of tenancy include Caldwell, 72 per cent; Newton, 71 per cent; Ellis, Karnos and Kaufman, 70 per cent; Milan, 69 per cent, and Lamar, 68 per cent. In a majority of these counties, as well as others showing a preponderance of tenancy over ownership of farms, land is so high priced that tenants cannot hope to buy and pay 400-homes and farms land seldom changes hands except by foreclosure or inheritance, the bulletin notes. It is further observed that these counties in most instances, have among the largest number of farms.

Presidio and Zapata counties have the largest percentage of farms managed by their owners or counties in the state, the bulletin shows, with 90 per cent of the farms coming in this class. Hardly county shows 80 per cent of the farms operated by owners and Orange county, 88 per cent. Most of the counties with the large percentage of farms operated by their owners are counties with a small number of farms. It is pointed out that a large majority of the counties in the state show approximately the same number of farms operated by tenants as by owners.

### MORATORIUM IS GRANTED GERMANY TO END OF YEAR

By Associated Press.

PARIS, Aug. 11.—Germany, says a dispatch to the Havas agency from London this afternoon, will be granted a moratorium until the end of this year.

DISCUSS OPENING OF REPARATIONS CONFERENCE

By Associated Press.

LONDON, April 11.—Premiers Poincare, Lloyd-George and Theunis of Belgium had a long conference today previous to the official opening of the reparations conference. Premier Theunis was said to be striving his best to effect a rapprochement between the British and the French.

Premier Poincare returned to his hotel for luncheon after his four hour conversation with Mr. Lloyd-George and Premier Theunis.

"We shall continue our conversations this afternoon," Mr. Poincare told the correspondents. "I have received from Mr. Lloyd-George a written communication which we are discussing."

This referred to the document prepared by members of the British cabinet. The French premier said he did not think there would be any session of the full conference today.

### CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Does May Salivate, Shook Liver or Attack Your Bones

You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crabs into sour bile like dysentery, cramping and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Takes a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it lessens you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and has no salt.

For chafed or blistered feet

There is nothing better than Resinol Ointment. It relieves that hot, dry sensation and gently heals the chafed and blistered spots. Bathe the feet in Auwater before applying the ointment. Prescribed by physicians for eczemas, and similar skin troubles. *At all drugists.*

### CHARACTERISTICS CONFERENCE MERELY SOCIAL MEETING

DENISON, Aug. 11.—"Merely a social meeting," one of the representatives of the five transportation brotherhoods characterized the conference here today between representatives of the Brotherhood of Railway Firemen and Engineers, Brotherhood of Locomotive Engineers, Order of Railway Conductor, W. M. Whitton, assistant chief operating officer of the Missouri, Kansas and Texas railroad, and Colonel C. W. Hines, commanding officer of the martial law zone.

FRIDAY, AUGUST 11, 1932
A THOUGHT FOR TODAY
I will instruct thee and teach thee in the way which thou shalt go: I will guide thee with mine eye.—Psalm 138:8.

TEXAS-OKLAHOMA FAIR, SEPTEMBER 30 TO OCTOBER 4, WICHITA FALLS
NO GROUNDS FOR REPUBLICANS' HOPE FOR SUCCESS THIS YEAR.

THE TIMES HAS COMPLETED THE REPUBLICANS OF TEXAS UPON THEIR PLATFORM AND UPON THE CHARACTER OF THEIR CANDIDATES FOR THE TWO MOST IMPORTANT OFFICES, SENATOR AND GOVERNOR, YET IT DOESN'T BELIEVE THERE IS ANY CHANCE FOR ANY OF THEIR CANDIDATES BEING ELECTED.

THE AMARILLO TRIBUNE BELIEVES LIKE THE TIMES, THAT THERE IS NO HOPE FOR SUCCESS FOR THE REPUBLICANS IN THE COMING ELECTION. THE TRIBUNE SAYS: "THE TEXAS REPUBLICANS SEEM TO FEEL VERY HOPEFUL OF BREAKING THE HOLD OF THE DEMOCRATS UPON THE OFFICE OF THIS STATE."

THE PRESENT SENATORIAL CAMPAIGN IS HARDLY MORE BITTER THAN SOME OF RECENT CAMPAIGNS IN TEXAS AND IT IS NOT LIKELY TO BRING ABOUT ANY GREATER DIVISIONS THAN WERE SEEN IN SOME OF THE CAMPAIGNS OF RECENT YEARS. IT IS THEREFORE PRETTY SAFE TO PREDICT THAT THE DEMOCRATS WILL POLL THEIR USUAL MAJORITY IN TEXAS THIS YEAR.

SENATOR CULBERSON'S ATTITUDE.
It is reported that Senator Culberson is being impetioned to become an independent candidate for senator against the democratic nominee.

THREE AMERICANS SIMULTANEOUSLY DIED OF THIRST IN THE MOJAVE DESERT. THIS PROVES AMERICA IS NOT AS DRY AS A DESERT.
These nights are so warm. We would hate to be a professional wrestler or go to a dance.
Looks as if prices need shaving every morning.

Wichita Falls takes a particular pleasure in welcoming the members of the Northwest Texas Press Association to this city for their annual meeting, for which the forward looking, striving and courageous members of this association it has a feeling of kinship.

Attending the convention there are pioneers and newcomers just as there are in the citizenship of this section everywhere. All are believers in and champions of their communities. They are for everything that contributes to growth and prosperity, to morality and education and advancement generally.

Wichita Falls is proud to have these men and their good wives as its guests. It wants to extend to them a hearty welcome and hope that they have profit and enjoyment in their stay here.

### EXPORTS TO EUROPE ONE BILLION BELOW THE PREVIOUS YEAR

DECLINE OF MORE THAN \$300,000,000 IN EXPORTS TO SOUTH AMERICA.

#### ANNOUNCEMENT MADE BY COMMERCE DEPARTMENT

Exports to Europe Aggregate \$2,067,000,000 Compared With \$3,406,000,000.

WASHINGTON, Aug. 11.—Exports to Europe during the fiscal year ended June 30 were more than \$1,000,000,000 below the previous year and shipments to South America showed a decline of more than \$300,000,000, the commerce department announced today in foreign trade reports.

Exports to Europe during the year aggregated \$2,067,000,000, compared with \$3,406,000,000 during the previous year. Imports totaled \$232,000,000, against \$238,000,000 during 1921.

Exports to South America for the year aggregated \$191,000,000, compared with \$223,000,000 during the previous twelve months. Imports totaled \$16,000,000, against \$45,000,000 in June, 1921.

June shipments to South America totaled \$21,000,000, as against \$17,000,000 in the same month a year ago.

Imports aggregated \$29,000,000, compared with \$19,000,000 in June, 1921. Trade of the United States in exports and imports by principal countries for the fiscal year 1922 as compared with the previous year follows:

France: Exports, \$321,000,000, against \$448,000,000; imports, \$146,000,000, against \$120,000,000. Germany: Exports, \$126,000,000, against \$282,000,000; imports, \$98,000,000, against \$91,000,000. Italy: Exports, \$118,000,000, against \$255,000,000; imports, \$81,000,000, against \$80,000,000. Great Britain: Exports, \$644,000,000, against \$1,812,000,000; imports, \$377,000,000, against \$323,000,000. China: Exports, \$128,000,000, against \$123,000,000; imports, \$109,000,000, against \$118,000,000.

### PRESIDENT MAKES RECOMMENDATIONS REGARDING TARIFF

WASHINGTON, Aug. 11.—President Harding in a letter today to Chairman McCumber of the finance committee, read to the senate, not only urged that a flexible tariff be provided for, but that the tariff commission be made the agency for investigation and recommendation for changes in tariff rates.

The executive wrote that the varying conditions in the world make it essential that there be elasticity in the tariff and declared that the flexible plan proposed would be a "highly constructive and progressive step in retaining the good and eliminating the abuses" in the present system of tariff making.

Mr. Wesley Thurman and son, Jack returned from a month's visit with relatives in East Texas.

### TWO MEN KILLED FIVE ARE INJURED ON THE ADRIATIC

NEW YORK, Aug. 11.—Two members of the Adriatic crew were killed, five were seriously injured and one is missing as the result of an explosion of undetermined origin in her No. 3 hold, according to a wireless message received today at the White Star line.

The message reported that the Adriatic was proceeding to New York at half speed. Coal was stored in the No. 3 hold and officials of the line in the absence of details thought that spontaneous combustion may have caused the explosion.

The men killed were a fireman and a trimmer. Those injured included an electrician and other employees of the engine room.

The Adriatic's passengers know little of the accident, according to White Star officials. The liner is expected to reach New York Sunday afternoon.

#### ADRIATIC SENDS RADIO NO ASSISTANCE NEEDED

BOSTON, Aug. 11.—An R. O. K. call from the White Star liner Adriatic early today telling of an explosion in her No. 3 hold was followed by a series of radio messages culminating in the word that no assistance was needed.

"Everything is OK now," this latest message said. The Adriatic, bound from Liverpool for New York, with 650 passengers, gave her position as latitude 41.33 north, longitude 51.41 west, or about 490 miles east of Portland, Maine. The early messages characterized the explosion as bad and said Captain Davis was trying to locate the cause, but gave no further details. They said the liner was proceeding on her course.

#### WASHINGTON INFORMED NO ONE IS HARMED

WASHINGTON, Aug. 11.—The navy department which has been in constant contact with the Adriatic, on which an explosion occurred during the night, said today their information indicated that no one was hurt aboard the liner and that no assistance was needed.

#### LOCAL BRIEFINGS

M. E. Tittle of the notion department of Perkins-Timberlake store and his family, and Mr. and Mrs. A. G. Chauncey of the clothing department, left Friday on their 10 days' vacation for Medicine Park.

G. H. Wharton of the clothing department of Perkins-Timberlake store returned Thursday night from Hubbard, Texas, where he has been visiting his mother for 10 days.

Mrs. A. M. Liddell and daughter of Fort Worth are visiting relatives in the city over the week-end.

Mr. and Mrs. T. Taylor and sons and their wives, of Houston, La., are visiting in the city and Mr. Taylor for a few days. Mrs. Taylor is a sister of Mrs. Cooper.

J. B. Pitta, police commissioner, and family left Friday morning in their automobile for Medicine Park. They expect to be gone two weeks.

L. K. Barker, of Little Rock, Ark., formerly of this city, is here for a week's visit with his parents, Mr. and Mrs. Barker.

I. Markowitz returned Wednesday from a two weeks' trip to New York. He brought home with him his niece and her husband, and Mrs. H. H. Waldman, who just arrived from Poland. Mr. and Mrs. Waldman expect to locate here permanently.

Will McClure, master counsellor, and George Ross, scribe of Hope chapter of the De Molay, will leave Saturday for Graham, where they will hold a conference with W. B. Lively and C. B. Hockaday. The conference is in regard to the establishment of a chapter there.

A. Marks left Friday for New York and other eastern markets on a buying trip.

A note from Rev. W. F. Grafton, who is now at Denver, states that he and Mrs. Grafton expect to stay for the remainder of the month. They are at 411 Corona street.

Archie Claude Tucker and Miss Beulah Mande Slaughter were married Wednesday by Rev. W. H. Phillips at the Nazarene parsonage. The groom, who is connected with Black's grocery, has lived here for four years; the bride is the daughter of Mr. and Mrs. L. H. Slaughter of 508 Burnett. Mr. and Mrs. Tucker will reside at 1302 Eighth.

Hubert Harrison returned Friday from a trip to Dallas and Oklahoma City where he conferred with officials of the respective state fairs with reference to local fair plans.

East Side Presbyterians. Sunday school at 3 p. m., preaching at 4 p. m. We have been having splendid attendance. The Christian Endeavor will meet next Thursday night with Mr. McKinney leader. There was a fine crowd last Thursday and much interest manifested. A social for the senior society will be given next Friday night at the home of Mr. and Mrs. Dorsey. The Ladies Auxiliary will have their next regular meeting next Wednesday afternoon at the church at 3 p. m. Our last meeting had 14 present, good time and three new members. The Ice cream social was a success and our thanks are to all who helped us in any way.—C. C. DOOLEY.

Mrs. Wesley Thurman and son, Jack returned from a month's visit with relatives in East Texas.

### PIONEER OF DENISON FOUND DEAD IN STORE; REVOLVER IS NEAR BY

### DEPUTY SHERIFF LEAVES TO BRING BACK AUTOMOBILE

The hollow cane idea has been outdone. A new camouflaged container for whiskey was discovered Friday that excels the case in very phase. Frank Morgan and his aides de camp discovered the why and the wherefore of a certain party who was strongly suspected of keeping whiskey on his premises had never been caught despite the many inspections made.

The convention then adjourned for dinner, being guests of the chamber of commerce at luncheon at the Kemp. It was planned to resume sessions Thursday afternoon and quit in time for the baseball game. Talks by Hubert Harrison of the

chamber of commerce, O. C. Harrison of Seymour, Hugh Nugent Fitzgerald of the Record-News and George McQuaid, veteran Texas newspaper man, were heard at the luncheon at the Kemp.

Denison, Texas, Aug. 11.—Reclining in his favorite arm chair, W. A. Peck, 73, pioneer of Denison, was found dead in his little jewelry shop here today, a bullet wound near his heart. A large caliber revolver with one empty shell in it was found near the body.

A member of the sheriff's department will leave Friday night for Idabel to bring back a prisoner and a Marmon roadster. The man was arrested at Valliant, Oklahoma, and was taken to Idabel to the county jail. According to officers here he is alleged to have purchased the automobile on an agreed price of \$700. He tendered a check, officers state, for \$132.35. The check was returned, marked "no account."

## HOW TO COOK VEGETABLES

By BERTHA E. SHAPLEIGH  
Cooking Authority for NEA Service  
and Columbia University

From earliest history vegetables have been an important part of man's diet.

In a little book published in the middle of the 17th century, called "Adam's Larder and Eve's Cookery," the list of vegetables grown and the recipes for cooking them are more varied than those of the average housewife of today.

The Bible speaks of melons, leeks and cucumbers in the time of Moses. In the diet of many, vegetables take the place of meat, and when so used there should be one vegetable which contains protein, that which builds up, and repairs waste—peas, beans and lentils are among such.

Vegetables contain valuable mineral salts which are often lost in the cooking. If a large amount of water is used and then thrown away much of the value of the vegetable is lost.

then fresh water is added to finish the cooking. Asparagus is best when steamed.

Cook other vegetables in as little water as will prevent burning and keep the kettle covered. The water remaining when the vegetable is tender may be used for making a sauce to serve with it or as a foundation for a cream soup the next day.

Carrots cooked in this way taste quite differently, as one gets all of the real carrot flavor.

Starchy vegetables should be put on to cook in boiling water, salted. Greens, as spinach, chard or dandelions, should be washed thoroughly and may be cooked in the water which clings to them. Such vegetables as peas, beans, asparagus and corn should not be salted until they are tender; salt has a tendency to hasten them.

Never allow vegetables to stand in the water in which they were cooked. Drain off the water and keep hot by placing over steam.

Keeping Vegetables Green  
All green vegetables are more attractive if the color can be kept in cooking. It is just a question of setting the color, and bicarbonates of soda, the common baking soda, in very small quantities, will do this.

Do not use more than one-sixteenth of a teaspoon, or as much as can be taken on the point of a vegetable knife, to one peck of spinach or half a peck of peas or beans. If the vegetable stands for a short time in very cold water and then is added to rapidly boiling water the color is kept very well.

Two vegetables that are pretty together and taste well can be served on the same dish or grouped on a platter. Often one can combine several in this way much as New England housewives did when they served a "boiled dinner." Peas and carrots, spinach and beets, cabbage and beets, or cabbage, beets and turnips are good combinations.

Vary the manner of cooking and serving. Sometimes take time to cut carrots and turnips into fancy shapes, mold the spinach in a bowl or pan, keep hot over water, then serve, surrounded with hard-cooked eggs cut in quarters and a cream sauce.

Cut carrots in slices and serve surrounded with peas and when fresh mint is available chop it and sprinkle over the carrots and peas.

like to use corn, and one of their dishes is vegetable—corn and beans cooked together, a delicious dish. Our ancestors did not always have a large number of stanzas and this lack produced many well-known dishes, as chowders, the New England boiled dinner, stews and vegetable soup.

When fish was not available they used corn for making the chowder. With bread and butter, sometimes a sauce to serve with it or as a foundation for a cream soup the next day.

The United States originated the "green corn on the cob" custom. If the corn is tender, cooked well and eaten hot with plenty of butter, is there is anything more delicious!

If the three husks next the cob are left on and bearded at the ends the corn is much sweeter and keeps hot a longer time. Shanks, of course, with these husks on—they are easily removed at the table.

For those who do not like to eat corn from the cob the kernels may be cut from the cob and cooked with butter and just enough water to keep from burning. Salt, pepper and sugar to taste are added.

Boiled corn may be cut from the cob, when cold, and made into many delicious dishes, as fritters and pudding, or may be simply heated in milk and then seasoned to taste with butter added.

A cream of corn soup is one of the nicest of the cream soups, and may be made with fresh or canned corn. Corn and chicken go well together, and when one has a little roasted or boiled chicken and some corn left there may be scalloped and make a very satisfying supper dish.

Chop the chicken, cut the corn from the cob, and place in layers in a buttered baking dish. Season well and add some gravy or milk to moisten. Cover with buttered crumbs and bake until thoroughly heated and crumbs are a nice brown.

Green corn cut from the cob, lima beans, tomatoes, with chicken or beef, make a wonderful stew.

Corn fritters may be served with meat, or as a dessert with brown sugar sauce or maple sirup.

Many people who have an abundance of corn—like to make a relish of it, using tomatoes and onion with it.

Corn is one of the difficult vegetables to can, requiring care and thorough sterilization.

**BUSY BEE FRUIT STORE**  
MOVES INTO NEW LOCATION

The Busy Bee fruit store which was formerly located at 906 Seventh street, has moved into new quarters at Eighth and Indiana streets, better known as Saul's old stand. The furniture and fixtures of the store are done in white, while the walls are a light pink, so that one can readily see where it gets its reputation, "where cleanliness reigns supreme."

The store is divided into departments. The floor of the display windows are of tile, and this is where the vegetables will be displayed. Get the vegetables will be a continuous spray of cold water from the vegetable refrigerator, then the eggs, butter and salad dressings.

in the best refrigerator. On the left is the bakery department, the candy, cigars and cigarettes, pickles, and in the rear is the cash and grocery department. Mr. Marantz has installed a delicatessen department.

Mr. Marantz, the proprietor, states that the new store was built not only for the present population, but for the time when the population would be 100,000.

**INCLUDES IN GASOLINE**  
NATURAL CONSEQUENCE

WASHINGTON, Aug. 10.—The recent decline in gasoline prices was a natural consequence of the fall in the price of crude oil and was not an effort to make a showing in advance of the senate investigation into the gasoline price situation, JON D. CLARK of Denver, vice-president of the Midwest Refining Company, testified today at the senate gasoline investigation. He asserted in reply to questions that the cut of two cents a gallon in gasoline and one cent a gallon on

kerosene was the equivalent of 20 cents a barrel reduction in the price of crude.

Had barn burnt at reduced prices. Decorators Co., 718 Ninth St.—Adv.

Texas-Oklahoma Fair, September 10 to October 4, Wichita Falls.

## Keeps Grudge Alive 2 Years and Then Gets Some Action

When the crowd at the ball park was jubilantly filling out after Thursday's game, a man stepped up to another man, placed his hand on his shoulder and said:

"This is the first time that I have seen you. If you will remember about two years ago, you hit me over the head with a .45. Now my chance has come."

Upon completing his little prelude, Man No. 1 struck Man No. 2 with his fist. The blow landed on the side of the head near the ear. Man No. 2 struck the man's eye and Man No. 1 bent two or three teeth splintering to the floor. This same blow also bent Man No. 2 to the ground.

That ended the episode. Man No. 1, spectators said, was formerly a motor officer engaged in patrolling the lake road. Man No. 1, they said, was a local business man. No arrests were made.

**Kellogg's CORN FLAKES**  
with fresh fruit!  
never was such a hot day feast

Everywhere you go you'll find Kellogg's Corn Flakes awaiting your call! Restaurants and dining cars provide this crisp, delicious, ideal warm weather repast. And, how good these wholesome, nourishing, appetizing flakes taste served with a generous pitcher of cold milk and the luscious fruits now in season!

Eat Kellogg's Corn Flakes for health! They're wonderful all the year 'round—but as warm weather food they are supreme—easy to digest and cooling! Let the children eat all they want! See that Kellogg's are served at least once or twice a day instead of the heavy foods that overtax big and little stomachs! And, see the results in health!

As an extra-treat for dessert some evening right soon, serve Kellogg's Corn Flakes and fresh fruit with a generous helping of cream. You can't realize the treat that's in store!

Be certain you buy KELLOGG'S Corn Flakes—the kind in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!
