The new rates will be \$3 per month for primary grades, \$6 for intermediate grades, \$7.50 for high school and \$10 for junior college. Former charges were \$1.50, \$2.50 and \$3 for primary, intermediate and high school work. Owing to the fact that the district takes in considerable territory outside the city limits, comparatively few tuition pupils have been enrolled in the past, so that not many families are affected by the increase.

RECORDS TALK

Fred K. Smith Vs. W. (PAT) Murphy

38 Years a Citizen of Wichita County

3 Years in Wichita County

Referring to the Daily Times issue of August 24th on the eve of the election and reading the W. W. Murphy, for sheriff ad, and following that by reading their ad in the Record News of today, we see, "Those Whom the Gods First Made Mad" and reading their desperate plight, we see the truth of that old adage—"Their Destruction."

These ads will be reviewed and we will ask the reading voters to notice that no proof is submitted in any charge made by this committee against Fred Smith and none cited.

Answering these false charges, one by one; Tom Hunter flatly denies receipt of any telegram whatsoever from R. R. English of Haskell, Texas, and he says that the first mention of said telegram to him, is the purported copy in the Times, falsely conceived by the Murphy committee.

The reading public has Mr. Hunter's permission to ask the Western Union for a copy of any telegram received by Tom Hunter from Mr. English.

As to the purported double rendition of the Thomas & Bland property, we submit this proof: Letter from J. T. Bentley, the official investigator of the county, formerly employed by the Law Enforcement League, as follows:

August 25th, 1922

FRED K. SMITH FOR SHERIFF COMMITTEE, Wichita County, Wichita Falls, Texas

Gentlemen

As per request I furnish you this information: While making investigation of various offices of Wichitz county relative to law enforcement, the matter of payment or non-payment of taxes on lots One to Six L. & S. Addition Burkburnett by Thomas & Bland, came to me.

I visited Mr. Tittle, Tax Collector, examined the records and failed to find any rendition of this property. I found and examined the Board assessment No. 716-14BB, the assessment of this property by the commissioners valued at \$24,000.00. I found and examined cancellation certificate No. 662, marked "does not exist" and cancelled.

I failed to find in my search a double rendition. I asked Mr. Tittle to furnish me facts, showing the reason of these instruments, and if double rendition, though he agreed to furnish them, so far, I have received neither.

An examination of the Deed Records show that long after this an assignment was filed executed by Thomas & Bland, conveying this same property to Penn Burk Oil Company for \$15,000.00, which instrument is dated May 17th, 1920, and of record in Vol. 160, Page 636.

Yours very truly,

J. T. BENTLEY

Telegram addressed to Lon A. Smith, Comptroller, Austin, Texas, signed by G. H. Watson is as follows:

"Kindly check your records and wire me whether state taxes for year 1919 were paid on oil and gas lease separate from the fee estate lots 1 to 6 block 2 Loehfner Schwagier second addition town of Burkburnett, Wichita county. They should have been assessed and paid in the name of J. M. Bland and Mack Thomas. Stop. This is absolutely necessary and in dead rush. Answer quick collect for old friendships sake."

Signed.

G. H. WATSON

Answer to this wire follows:

"Oil lease assessed to Thomas & Bland covering 110 acres abstract number one nine three including lots one to six Loehner Schwagler Second Addition town of Burkburnett there was no block number given. It was assessed separate from fee estate."

Signed,

LON A. SMITH, Comptroller

Watson then wired the Comptroller:

"Your telegram complete except you do not state whether or not you have in fact collected these taxes. Records of this county show that the certificate was cancelled by cancellation certificate number 662 and that no county taxes were paid on these six lots. It is my purpose to know whether or not you collected state taxes for the assessments for the oil and gas lease on these particular lots.

G. H. WATSON

To which the Comptroller answered:

"State did not collect any taxes from the assessment of the oil and gas lease on these six lots in question while account was cancelled by certificate comptrollers number four five seven naught six."

LON A. SMITH. Comptroller

With reference to the false charge that Fred K. Smith collected fines and retained them in certain cases numbered in this ad, your attention is directed to the audit made by Mr. Murphy for year ending Dec. 1st, 1921. Copy follows:

We have made a complete audit of the sheriff's department for the fiscal year beginning December 1, 1920 and ending December 1, 1921, and make the following report:

Passing to the ad in this morning's Record News, the other having been fully answered, we find only one charge made and that charge is against the Commissioners' Court of Wichita county, men in whom the voters of this county by their vote have reposed confidence. A letter from one of the members of this court follows:

PRED K, SMITH FOR SHERIFF COMMITTEE,

Wichitz County, Wichita Falls, Texas.

ENTLEMEN:

Referring to W. W. (Pat) Murphy's charges in the Record News o

this morning, you are advised that at the time of this transaction, the Commissioners' Court was composed of

J. P. JONES, JUDGE J. S. FORE, R. L. EADS,

H. H. HAYNES,

each of whom we believe are well known to the voters of Wichita county.

The charge that Pat Murphy and Fred Weeks, his attorney, brought a road contract out into the light of day and compelled the Commissioners' Court to make changes which provided for only 44 miles of road, is absolutely false.

The contract which they no doubt have in mind was not let to any person, firm or corporation, but was a contract for Wichita County to build its 44.7 miles of road at actual cost plus the usual commission for superintending. No provision of that contract would have permitted this 44.7 miles of road to cost the County \$2,090,000.00 or any other sum other than the actual cost, plus this commission.

Every mile of the Wichita county road that has been built has been built by the county at net cost plus the commission.

Now, it is true that Pat Murphy and Fred Weeks wrote a contract for the building of the Wichita county roads, allowing the usual percent commission to Potts & Prentice for the superintending of the construction of the road, in which contract they permitted a clause to be added allowing these contractors to profit 25 per cent of the reduction in labor charges during the life of the contract. Trusting confidence in Murphy and his attorney Weeks the Commissioners Court allowed this contract to be executed with that provision in it which would have cost this county thousands of dollars but for the fact that the Commissioners Court, learning the true meaning of this clause, under threatened litigation, procured abandonment and cancellation of that provision of the contract.

Yours very truly,

J. P. JONES

Most every man and woman in Wichita county knows and reposes confidence in one or more of the members of this court and a great number knows personally and reposes confidence in each member of this court and knowing their honesty and integrity as we do, it is difficult for us to discuss this infamous charge being unable to conceive of these men, as a body acting as one, pulling a crooked deal, and we do not believe that any voter in this county will think for a minute that they did and we submit to the county, but for the acts of these Commissioners, that the county would have lost thousands of dollars on account of the reduced wages for labor in the county since 1919. Had it not been for the attitude of the commissioners on this contract after they fully understood the provisions therein, giving to the superintendent of construction of this road 25 per cent of the reduction in these wages as written by Mr. Murphy and his attorney Fred Weeks.

Your attention is further directed to the fact that the loan of this \$100,000.00 by W. W. Murphy to these individuals in Wichita county, heretofore named, reduced the cash on hand of the county to such an extent that it was necessary for the county to cease building its roads for a time until negotiations could be made for cash, more than two-thirds of the loan being yet unpaid.

Answering the charge of Murphy's committee that Fred Smith was short in the funds of the City Hall, while city marshall, wish to submit letter of Jules E. Ehlers:

"FRED K SMITH FOR SHERIFF COMMITTEE.

As auditor, I audited the books of the account of Fred K. Smith, City Marshal, at the close of his term. I found and reported that Smith owed the city \$30 and that the city owed Smith \$100.00 for his last months salary, showing a balance due Smith of \$70.00.

(Signed)

JULES E. EHLERS

This being the last issue of this paper, this committee will make no further charges against Murphy for the reason that it does not desire to be in the attitude of making any eleventh hour campaign charges to which Murphy and his committee might not have an opportunity to answer before the voters go to the polls.

AN OPPORTUNITY FOR THE DEMOCRATIC PARTY IN TEXAS.

There are great needs in Texas that can only be with a constructive program. These needs can mand the imagination and the genius of the peoe of state and when we get to work to fill them we Il forget many of the petty side issues that are ing the people and tearing them asunder.

One of these needs is a system of state highways aversing the state from border to border in differat atractions so that there may be better communiion and transportation between the different com ties and sections within the state.

Another is the development and improvement of the public school system of the state so that edumay become general and universal and the andard of citizenship raised thereby.

The third is a triple need that can be met by gram that involves all three and the elements flood control, reclamation and irrigation.

Here are great needs that ought to command the est and effort of the people of this great state. opportunity for public service is as great as needs. The democratic party in Texas has maintained its commanding position in public irs in the state. Here are problems that are rorthy of the high position of the party, and if the eratic party can offer no solution of them we expect some other party to do so.

Isn't it time that the democrats of Texas quit se bandying of cheap personalities and bickerings and get together on something fundamental and he state convention get down to fundamentals and en to offer a constructive program that would mand the support of all the forward looking fees in the state?

The opportunity is at hand. Let us hope that the party leaders are big enough to see it,

JUST FOLKS

My boy, when you shall older grow, There's much which you shall come to know. You shall discover, as you learn, Strange things at every twist and turn, And you shall hear, as on you pass, Class bitterly denouncing class, And find all forms of discontent Supported well by argument; Nor will the truth be very clear In all the heated speech you'll hear.

You'll see the strong oppress the weak, The powerful trample down the meek. And dreaming that the world is fair, With good men smiling everywhere, You'll wonder, as you older grow, Whether this life is good or no. You will be torn from side to side Find rottenness decaying pride, And see ingratitude destroy The very fountains of its joy.

For ages long all human thought Injustice revels rampant here And difficult is thinking clear, For in the tumult and the shout At times your best of friends you'll doubt, For they will very often do What seems a vicious thing to you, But you will note that every plan Is to reform the other man.

Be true yourself, my boy, and give Your neighbor every right to live. Be fair, be honest, brave and strong And certain that you do no wrong, For laws, nor force, nor argument, Will end the storm of discontent The hope of justice lies with you, In all you are and all you do; That is your purpose and your trust, That you shall never be unjust. CHEWING YOUR FOOD

By DR. R. H. BISHOP. Some years ago a great deal of public interest was awakened by s plan of eating food slowly, put forth by Horace Fletcher. It consisted merely in counting a certain number while chewing your food. This pro-cess was called Fletcherising. slowed up and took the full alloted time for his food. It would be well for all of us if we would adopt a similar plan and stick to it. We eat too fast. We let our teeth off with too little work and give our stomachs too much.

The trouble with "Fletcherising" food, however, is that it's tiresom It's about as pleasant as calisthenfor a certain number of counts. Thorough mastication means mas-ticating up to the point of involuntary swallowing. It doesn't mean forcibly holding the food in the mouth, counting the chews, or etherwise making a bore of eating.
The evils of insufficient mastica-

turned round and asked, "Am I in

"Yes. Do you know the way?"

"Yes. Start carving, will you? And order lots of beer." He disappeared round the top of the starranse. Antony went slowly in.

When the first edge of his appetite had worn off, and he was able to spare a little time between the mouthfuls, Bill gave an account of his adventures. The landlord of the "Flough and Horses" had been unable decidely sticky—Bill had been unable made that death necessary. If the identically police have to be told anything. Philip got into trouble. He had been hurried through a cheap grammer school and into a London office, and liscovered there that there was not much fun to be got in this world on two pounds a week. I had a frantic letter from him one day, saying that he must have a hundred and I went to Mark for the money. "Only to borrow it, you understand; he gave me a good salary and I could have paid it back in three months. But no. He saw nothing for himself in It, I suppose; no applause, no admiration. Philip's gratitude would be to me,

not to him. "I begged, I threatened, we are gued; and while we were arging, Philip was arrested. It killed my mother-he was always her favorite -but Mark as usual got his satis-faction out of it. He preened himself on his judgement of character in having chosen me and not Philip twelve years before!

'Later on I apologized to Mark for the reckless things I had said to him, and he played the part of mognanimous gentleman with his accustomed skill, but, though outwardly we were as before to each other, from that day forward him see I was his bitterest enemy. "If that had been all; I wonder if should have killed him? "Two years later I had to reconsider my position, for my revenge was being taken out of my ands. Mark began to drink. Could have stopped him? I don't think s, but to my immense surprise I found myself trying to. perhaps, getting the better of reason; or did I reason it out and tell myself that, if he drank himself to death, I should lose my revenge? Upon my word, I cannot tell you; but, whatever motive, I did genuinely want to stop it. Drink is such a beastly thing, anyhow.

Additional sands, shown in the log of the Castlebury well which is not far distant, will be sought after by Heinzerling drillers. Thus far the stratas encountered have compared

BEAUMONT, Aug. 25.—The Exporters handed the Spudders another lacing here yesterday and out their Texas league lead to half a game while the Cats were hanging a defeat on the Buffs. Lou Kraft, though hit fairly hard and accorded wretched support at times, managed to keep his hits scattered well enough to allow only three Wichitans to cross the plate while five of his mates were counting.—Rip Wheeler was at last charged with defeat. Having been saved on the previous day when the Spudders knotted the count with Ruth in the bax, he essayed to keep his long winning streak intact, but was belted for three runs in the fourth and left the fourth and fifth runs on the sacks in the fifth when relieved by Pat Flaherty.

The Spudders outfielded and outhit their opponents, but could not deliver the necessary blow in the pinches. A good example of this occurred in the opening frame when two singles. a pass and a double Club— W. I. Pct.

Local Citizens Indorse Parnell

To the Voters of Wichita County:

We know that it is of the most vital importance to the citizens of Wichita county that careful consideration should be given to the selection of its representatives in the Texas legislature to the end that they be thoroughly qualified and capable and especially fitted for this position. We therefore submit to the voters of the county our indorsement of J. D. Parnell, and do so after having carefully investigated his record while he was a member of the legislature from this district in 1919 and 1920. Many matters of importance to this county and district were before that body during those two years, among them the oil legislation, the amendments to the irrigation laws, the appropriation for the completion of the North Texas Insane Asylum and many other matters of importance to this county and disrtict. We have found that his efforts in the interest of his constituency were untiring and were entirely satisfactory and successful. There will be many important measures before the legislature which will convene in January of 1923, and we feel that his experience and ability will enable him to more thoroughly represent us.

In commending him to the voters of Wichita county we do so only in the spirit of fair mindedness and we feel in the best interests of the county. We know that he will be fair minded on all questions and always alert and active in the interest of the people of this county.

SOME GOOD HAM RECIPES.

alling off of the export demand for hams, owing in part to cool, dis-agreeable weather abroad, have made hams relatively cheap, not only as compared with normal prices for them, but also as compared with meat products.

"Nanook of the North," showing at the Strand theatre for the last half of the week, is a picture out of the ordinary and unfolds a story of biled—the shank belied and the

rind used for seasoning. Ham butts and shanks, delicious nutritious, economical meats, are even less expensive than the whole ham. They can be prepared easily, moreover, in a variety of ways. Concerning hams, Henry C. Wal-lace, secretary of agriculture, said

"Scientists of the department of agriculture who have been studying different foods, recently reported that tests of fresh hams, smoked hams, and pressed boiled ham all indicate that ham is relatively rich in vitamines, those mysterious bene-ficial elements which have been

found to be necessary to the most vigorous health,"

The following recipes may be of value to those housewives who are not familiar with ham butts and shanks
