DEVOTED TO THE INTEREST OF FRIONA AND PARMER COUNTY.

Volume 2, Number 25.

Friona Texas, Friday, January 28, 1927.

\$1.50 Per Year.

## Women's Club In Interesting Meet-Program

Mmes. Kinsley and White were hostesses to the Guest Day meeting of the Friona Women's Club at the home of Mrs. Kinsley on Wednesday afternoon, January 26. Guests and members were met with the generous hospitality characteristic of the hostesses. The home was beautifully lighted, adding much to the cheerfulness of the occasion.

The meeting was called to order by the retiring vice president, Mrs. J. C. Wilkinson, who in a very pleasing manner introduced the members of the new staff. The club gavel was gracefully presented to the new president, Mrs. D. W. Hanson, who responded in her own sweet way to the responsibilities that she is to assume.

Members responded to the roll call with current events, entering into a short discussion. Mrs. Goodwine, in behalf of the club, presented the retiring vice-president, Mrs. J. C. Wilkinson, a lovely electric lamp in token of her very efficient and enthusiastic work in the club. Mrs. Wilkinson expressed her sincere thanks and appreciation to the club in a very effective manner.

All business was dispensed with other than the appointment of the following committees:

Program Committee, Mmes. Wilkinson, Reeve and L. F. Lillard. Park Committee, Mmes. Walker, White and J. G. Weir.

Better Homes Committee, Mmes. Kinsley, Maurer and Crawford.

Finance Committee, Mmes. Goodwine, Lange and Sears.

Mrs. R. L. Bledsoe favored the club with a solo with Mrs. Crawford at the piano.

The next was an original rhyme contest by the club members, with Mrs. Hanson receiving the first place. Mrs. Reeve was second and Mrs. Lange third.

Copies of these rhymes will appear in the Star from time to time.

Mrs. Blackwell gave a most interesting and educational review and discussion of the "Plutocrat," by Booth Tarkington.

Mrs. Hanson entertained at the piano.

Ten club ladies dressed to represent their day and time gave comic and serious readings impersonating famous and historic women.

Mrs. Truitt—Betsy Ross, U. S. A. Flag.

Mrs. Hughes—Susan B. Anthony, Votes for Women.

Mrs. Reeve—Carrie Nation, Prohibition.

Mrs. Sears—Nancy Hanks, Pioneer American Mother.

Mrs. Crawford—Jennie June, A Pioneer for Clodum.

Mrs. Lack—Dollie Varden, Dress of Beauty.

Mrs. Euler—Pocahontas, American Indian Princess.

Mrs. Livings—Ma Ferguson.

Mrs. L. F. Lillard—Mrs. Wiggs, of Cabbage Patch Fame.

Mrs. Lillard gave very forcefully a parody, "The Member Who Is Always Late for Club."

These characters brought the evening's entertainment to a most interesting climax.

The meeting then adjourned and the following guests and club members were then served a most delicious luncheon, tastefully and appropriately decorated with favors carrying out club colors, green and yellow.

Guests present were Mmes. A. N. Wentworth, Arthur Hughes, O. A. Miller, Booth, Pritchard, John Hartwell, Welch, Wilson, Geo. Messenger, A. C. Young, A. B. Short, J. M. Osborn, Dilger, L. Watkins, Misses Price, Odem, Cearley. The members present were Mmes. R. L. Bledsoe, Blackwell, Crawford, Euler, Eberling, Goodwine, Geyer, Hanson, Hart, Hicks, Hughes, Lacy, Lange, C. L. and L. F. Lillard, Livings, Maurer, Reeve, Truitt, Schenker, Walker, J. G. Weir, Wilkinson, Wright, Kinsley, White, Sears.

The next regular meeting will be held at the home of Mrs. Goodwine on February 9th.

## THE BUSY LITTLE CLUB.

Once there was a little club, Of ladies, quite a few, Organized some years ago, To create some interests new.

Their meetings were most pleasant ones, Programs instructive, too, For some time they failed to see

There were other things to do, Then one day back in '22

The Federation bee Came buzzing 'round this little club And it buzzed persistently.

At last they gave heed to this bee,

And joined the Federation, And since then, what this club has done,

Has been a revelation.

They've put on carnivals and plays, They've run the picture show, And soon could start a bank account—

With pride they've watched it grow.

But do not think their only aim Is one of gain or greed, They always spend quite willingly Whenever there is need.

They've made a pretty little park, And there put down a well, They've helped the school, they've helped the town,

Done far too much to tell, And now the object, so I'm told, Of this industrious band

Is build a club house in the park Just small, you understand.

Indeed, they know not how nor when This dream may all come true, But if they work as in the past,

I believe it will, don't you? The name of this small club? you ask,

Why! Is there any doubt? Of course 'tis

The Friona Women's Club, That all this tale's about.

MRS. D. W. HANSON.

Our president has called on us, To bring a rhyme today, And I would give a good one, too, If I knew what to say.

But since I don't, I think I'll say To each one, "Howdy do," And then to make my rhyme come right,

I'll simply say "adieu." F. W. REEVE.

## WHY WE GO TO CLUB.

Some go to club to enjoy themselves,

Some go to see who's there; Others go to show off their newest dress,

Or the latest cut of hair. Some go to get out of work at home,

Some go to spite hubby who wanted the car;

Others to hear whose on the program—

To really see how smart they are.

Some go to eat the refreshments, Some to run the whole affair—

But it really makes no difference, Just so we all get there.

MRS. O. T. LANGE.

## Former Friona People Here Last Tuesday

Mr. and Mrs. D. W. McMillan of Fort Wayne, Indiana, and Mr. and Mrs. F. S. Ferguson, of Van Wert, Ohio, spent a few hours in Friona and vicinity Tuesday afternoon.

These people were at one time among the leading citizens of this place and the gentlemen while here were engaged in the real estate business and at one time owned a considerable acreage of Plains land in the vicinity of our town.

They were on their way to California and detoured at Amarillo and took the stage bus to this place in order that they might spend a few hours with their former neighbors and friends who are now the pioneer settlers of this locality.

They then boarded the west bound 9:30 train to resume their trip westward.

During the few hours they were here they made short calls at the homes of Mrs. Goodwine, Mrs. Maurer, Mrs. Henschel, T. J. Crawford, R. H. Kinsley, F. L. Spring and L. F. Lillard.

## HORSE DIES SUDDENLY.

On Monday afternoon of this week as H. W. Wright was enroute from his home to town with his team and wagon, one of the horses took suddenly sick about a half mile from the farm and died before he could get it out of the harness.

Mr. Wright says he did not notice anything wrong with the animal when he left home. He stopped as soon as he saw it was not feeling well and began unbiting it before he could accomplish the act it had fallen down dead.

This was one of his large work horses and its loss will be a serious handicap to its owner in his farming operations.

F. W. Reeve and F. H. Hodge spent a part of the day Tuesday in Farwell attending to legal and business matters.

## TAKES SICK WHEN LEAVING SCHOOL.

On Monday evening a few minutes after school was dismissed and just as Mrs. Don Angell was entering the bus for the homeward trip she was seized with convulsion.

She was taken back into the building and to the school kitchen and a physician was called, who pronounced her condition too serious to admit of moving to her home. She therefore remained at the school building during the night and throughout the day Tuesday, during which time she was repeatedly seized with convulsions at frequent intervals, although medical and chiropractic skill were both being used to relieve her.

Her condition was so serious and the chance of her recovery so hopeless that school was dismissed for the day as soon as the pupils had assembled Tuesday morning.

Late Tuesday evening she was taken to the hospital at Clovis where she has since been. The last report received, Thursday morning, is that she is improving. Indications are, however, that no permanent improvement is manifest.

## FRIONA VS. FARWELL.

Friona and Farwell are to engage in a basketball game Friday, January 28, if the weather is good. The game will be played in Farwell on their out-door court. If the weather is bad the game will be played on the Friona high gym.

## Lazbuddy News.

The farmers have been delayed with their threshing on account of bad weather.

One of Rudolph Pyritz's horses got cut in a barbed wire fence last week but is getting better now.

Mr. and Mrs. Short are going to move to the Joe Paul place this week.

Mrs. Gordon Duncan was a guest in the Pyritz home Tuesday morning.

Ed Steinbock and R. Pyritz hauled feed to Muleshoe this week.

Those who surprised Miss Gertrude Pyritz Saturday night in honor of her fourteenth birthday were Misses Bonnie, Freda and Alma Dyck, Elizabeth Welch and John and Herbert Dyck. The evening was spent playing forty-two. At twelve o'clock coffee and doughnuts were served and all left wishing Miss Gertrude many more happy birthdays.

Most all of the Lazbuddy men were seen in Muleshoe last Tuesday.

Mr. and Mrs. Willie Steinbock and baby were on the sick list last week, but are better at this writing. Mr. and Mrs. John Steinbock were also sick last week.

We are sorry to say that Miss Wanda Dyck has had another sick spell. Mrs. Claude Heath is also on the sick list.

Mrs. Ballard was a guest at the Ballard home one evening last week. Mrs. Ballard is able to be up again. Little Neil Welch was also sick and had to be brought home from school but is able to attend again.

Mr. and Mrs. Sam Welch were guests at the Pyritz home Sunday night and a game of forty-two was played.

Frances Steinbock was a guest in the Sam Welch home on Tuesday night.

## TEACHERS' MEETING.

Owing to the very unfavorable weather last Saturday, there was a very small attendance at the meeting of the Parmer County Teachers' Association, which was held here on that date.

Prof. Goza, of the West Texas State Teachers' College at Canyon, was present and delivered a most able address and those who were fortunate enough to hear him, speak loudly in praise of his ability.

A noon luncheon had been prepared by Miss Bowman and her Domestic Science class for the visiting teachers and other visitors from out of town, but owing to the fact that none of the other teachers of the county were present, all those present were invited to partake of the luncheon or which it is said there was a superlative abundance.

## STORK-O-GRAMS.

Born to Mr. and Mrs. David Mosley, Saturday, January 22, at their home seven miles south of Friona, a son.

Born to Mr. and Mrs. Charles S. Burnes, Tuesday, January 25, at their home in Friona, a daughter.

L. G. Simpson was a business visitor in Farwell Thursday.

## Plant Grower Says Can Grow Living Here

"We are sleeping on our rights," said Russell Daniels a few days ago, when he was interviewed by the Brand reporter. Mr. Daniels is now planting frost proof cabbage plants and has them up. Spring time is only a little way off. A hurried inspection revealed eight sections measuring three by six feet, and ten sections measuring four by eight, for cabbage plants alone. "At the home place," Mr. Daniels said, "one section three and a half by forty, with a glass cover, will be devoted to the growing of four varieties of pepper plants. This bed is so constructed that it can be converted into a hot house at a later time." Mr. Daniels said he was going to raise ten varieties of tomato plants and thousands of celery, egg plant, onion, collard, cauliflower and sweet pepper plants. "Many believe," Mr. Daniels said, "that celery is a difficult plant to grow, but it is easy when you know how. I produced from two rows, forty-five feet long, over twenty-five dollars worth of celery and we had all we wanted for ourselves."

Mr. Daniels is now catering to the wholesale trade as well as the retail trade and is advertising as far west as a hundred miles and in other directions far beyond the Hereford trade territory. Mr. Daniels' father, J. H. Daniel, will assist in the work this year.

—From The Hereford Brand.

## Methodists' Laymen Convention at Bovina

People of the Methodist congregations at Bovina and Friona will hold a Laymen's Convention at the Bovina church Sunday, January 30th.

This being the fifth Sunday of the month, Rev. Gilliam has no regular appointment for Friona, but will preach here at night, when his sermon will be especially addressed to the ladies. The installation of the local missionary officers will also occur at this meeting.

Following is the tentative program for the Laymen's Convention at Bovina:

Song—Congregation, Scripture Reading, Romans 12—Smith.

Address—Opal Jones "Sunday School"—A. C. Curry, W. E. Williams

Song—Congregation LUNCHEON

Song—Congregation Young People's Work—Miss Swanson, Mrs. W. E. Williams.

Piano Solo—Mrs. W. L. Smith. Address—J. L. Hamlin

Missionary Society—Mrs. Key Special—Mrs. Hastings

Church and Sunday School Music—Grisson

Round Table Discussion, "Tithing"—Mrs. Ezell, Leader.

Financing the Church—J. W. Parr, J. F. Foster

Song—Congregation

## West Lazbuddy.

The epidemic of smallpox which has been general in Muleshoe lately is nearly over. It is said that everyone not having been vaccinated took the disease, as it was started at school. There has been no school since Christmas, but was to be resumed Monday.

Prof. Lewis and family and Miss Burney spent Sunday as guests at the Otto Trelder home.

George Trelder transacted business in Farwell Tuesday.

Miss Constance Gischler who has been visiting her sister, Mrs. Geo. Trelder the past week returned to her home in Friona Friday.

Prof. Lewis and wife made a trip to Farwell Saturday.

Otto and George Trelder were in Muleshoe Saturday.

We are very optimistic over the good roads we shall soon have, as grading on the roads from Friona to Muleshoe and from Lazbuddy to Farwell has been started.

The weather has been changeable lately, with pretty days and bad days interspersed. However, it takes them both to live, so we do not complain.

## RETURN FROM DALLAS.

M. A. Crum, of the M. A. Crum real estate office here, returned Saturday night from a three weeks' stay in Dallas and vicinity, where he went on a mission connected with his business.

Mr. Crum says there is lots of rain in that part of the state and the fields and roads are very wet. He says the financial condition of the farmers there is much worse than it is with the Plains farmers.

## TRUCK OVERTURNED.

Word was received at the Star office this week of the wreck of a truck near Parmerton, six miles west of Friona, some time Tuesday night.

There were five men in the truck when it turned over, all of whom were more or less injured. As we get the report, the driver of the truck, who lived at Muleshoe, was the most seriously injured and that another of the party was suffering from being badly crushed and bruised.

One other is supposed to have had a broken arm and another had a broken shoulder. The parties who picked them up took the two most seriously injured to the hospital at Clovis. The other three were left at Bovina.

We do not give this as authentic as we have been unable to get any direct information.

## Parmer County Teachers' Meeting

Due to the cold weather which hit Friona last Friday night the Parmer County Teachers' meeting was not as well attended as the local teachers had expected.

A very interesting program was rendered. The program committee very successfully represented the activities of the school, as will be seen from the following program:

Starry Emblem March—Junior Orchestra.

The Old Deacon's Version of the Story of the Rich Man and Lazarus—Helen Crawford.

The Linden Tree—Girls' Glee Club.

The Gnomes Song—Girls' Glee Club.

Give Me a Ukulele (ukulele duet) Helen Crawford, Virginia Lillard.

High School March—Senior Orchestra.

At Peace With the World—Misses Brewer.

Address—Prof. Goza.

After the program the guests were invited into the dining room where a delicious three course luncheon was served. The menu was as follows: Chicken a la king, baked potatoes in half shell, scones, Waldorf salad, cranberry jelly, olives, three of a kind sherbet, Lady Baltimore cake, coffee, salted nuts, mints.

This splendid luncheon was prepared and served by Miss Bowman and her class of domestic science girls.

A very profitable business meeting was held in the afternoon and the guests left about four o'clock.

## HAS MOVED TO IDALOU.

J. T. Mattingly loaded his household goods and farming implements on an emigrant car here Monday to be shipped to Idalou, located about fifteen miles east of Lubbock where he has rented a farm.

Mr. Mattingly has been for the past year located on the land northwest of Friona which did belong to Mrs. Mattingly's father, W. N. Farris, but Mr. Farris recently sold his land and Mr. Mattingly was obliged to move elsewhere for a farm.

After making several unsuccessful attempts to secure a farm near Friona, he got the farm to which he is moving. Mr. and Mrs. Mattingly are well liked by all our people who were fortunate enough to make their acquaintance and it is with regret we see them leave our community.

## FOURTH LYCEUM NUMBER NEXT THURSDAY.

Differing from other entertainers is Noah Beilharz, for 19 years a familiar and outstanding figure on the lyceum platform, through whose genius in the recreation of notable stage personages and unusual characters of modern classics they live again to become the personal acquaintances of those who will hear him when Beilharz appears on February 3, at usual evening hour, in school auditorium.

Beilharz is equally at home whether recreating the whimsical Yankee characters from Edward Eggleston's "Hoosier Schoolmaster" or "The End of the World," its companion piece, or in endeavoring with the breath-of-life Charles Klein's beloved "Music Master," or that ever delightful "Mister Antonio," of Booth Tarkington, in which Otis Skinner won his greatest stage success.

He relies, but only to a suggestive extent, upon wig and costume. It is for the most part through Noah Beilharz's own genius in characterization that they live. By his voice, by his gesture, by his facial expression, he imparts to them the qualities of a real and memorable impersonation.

M. A. Crum and J. O. Jones were business visitors in Hereford Wednesday.

## CALLED TO CANADIAN.

Prof. H. J. Buckner was called to Canadian, Texas, Sunday by a message stating the severe illness of his father, A. O. Buckner, who was in the hospital awaiting an operation.

In company with his brother, Prof. R. A. Buckner, of Bovina, he departed at once to be with their father. Word received on Wednesday stated that the elderly man was improving. C. V. Goodwine has been substituting in the school room for Mr. Buckner during his absence.

## GILLIAM-SMITH WEDDING.

The wedding of Miss Flora Gilliam and Mr. L. A. Smith, of this place, which occurred on Thursday night, January 20, was quite a surprise to their friends here.

Miss Gilliam is the new secretary in the M. A. Crum real estate office and Mr. Smith is the local agent for the Santa Fe railroad. Both these young people came to Friona about the first of the year and took boarding at the Friona Hotel, where they first met. The friendship thus formed grew into love and ripened into matrimony.

On the evening of their marriage the young people drove to Farwell, accompanied by some of their friends, where the nuptial knot was tied.

The bride in this marriage is the daughter of Rev. and Mrs. W. B. Gilliam, of Bovina, Rev. Gilliam being pastor of the local Methodist church here.

The Friona friends of these two estimable young people wish for them a long and happy married life.

## Education Association To Have Big Meeting

The Department of Superintendence of the National Education Association will hold its fifty-seventh annual convention at Dallas February 26 to March 3, inclusive, with Dr. Randall J. Condon, superintendent, of Cincinnati public schools, presiding.

The Department of Superintendence is the largest department of the National Education Association. Its membership is composed of administrative officers. The department was started in 1865 at Philadelphia as the National Association of School Superintendents and it has since grown to a membership of more than 3600.

One of the outstanding features of this convention is its exhibit. There will be the usual commercial exhibit with its yearly improvements and enlargements and a special educational exhibit sponsored by the department. Dallas is said to be especially fitted to such a purpose due to its fair park.

The convention will have its official beginning when Dr. Condon, president of the department, opens the exhibit Saturday, February 26. This is the first time an official opening of exhibits has been held and it is intended to emphasize that these exhibits are distinctly an educational feature of the session.

The Sunday afternoon vesper service will be held in McFarland auditorium of the S. M. U. Dr. Geo. W. Truitt, of Dallas, one of the great preachers of the South, will deliver the address. The musical features of the program will consist of organ numbers by Palmer Christian, head of the department of music of the University of Michigan; two numbers by the string section of the National high school orchestra, led by Jos. E. Maddy, supervisor of music at Ann Arbor, Mich., and two numbers by the Choral Society of the S. M. U. Mr. Christian will give an organ recital in the Fair Park auditorium Sunday evening at 8 o'clock.

## FORMER FRIONA PASTOR WRITES.

The editor this week received a copy of the Bulletin of the First Congregational church, of Salisbury, N. C.

Rev. J. M. Peyton who was formerly pastor of the Congregational church at this place, is now pastor of the Salisbury church and the Bulletin is a good index of the progressive spirit of the church and its pastor.

It gives an account of the action taken at the committee meeting, stating plans made for the church work, and quoting the topic for the forenoon sermon next Sunday—the topic of the mid-week prayer meeting and for the Christian Endeavor prayer meeting. The Bulletin closes with a special and most cordial invitation to attend and take part in all these services. The letter also contained a ticket for the oyster supper to be held in the church basement on the night of January 28, and we saw would enjoy some of those oysters.

## Auto Wrecks On the Highway Endanger Lives

A short while before dark last Saturday evening a Star touring car, containing two occupants and bearing a California license number, and rushing along on State Highway No. 33 at a rate of fifty miles per hour or better, when taking a curve a mile west of Friona skidded on the ice covered road and turned over.

The car was traveling east and headed toward Amarillo as its destination and the occupants, when they were able to state who they were, proved to be Mr. and Mrs. Ernest L. Coffee, of 2211 Shattuck Avenue, Berkeley, California. Mr. Coffee is a salesman for the Star Motor Co., and with Mrs. Coffee was spending his vacation driving through to visit his father, who lives in Amarillo.

From all appearances it is believed the car must have rolled entirely over at least three times and was a total wreck so far as the wheels and body were concerned.

The Star's information is that the first person to arrive at the scene of the accident was a young man in the employ of the Wilkinson Implement Company here. He found the occupants of the car lying some thirty feet west of the car in an unconscious condition, they having evidently been thrown clear of the car at its first revolution, and the car had continued rolling the thirty feet from them. The young man was unable to give assistance to the unfortunate people alone, so he drove into town where he secured help and returned and brought them to the Friona Hotel where they were given surgical attention by Dr. McElroy.

Both parties seemed to have fallen on the left shoulder and side and were severely bruised but so far as could be ascertained no bones were broken. Mrs. Coffee did not fully regain consciousness until some time during the night. Both Mr. and Mrs. Coffee were suffering great pain and not being satisfied with the opinion of the local physician, a doctor from Amarillo was called, who, after an examination, rendered practically the same opinion. The unfortunate people were taken to Amarillo on the train Sunday night where an X-Ray would be taken of their injuries.

The heavy fog which prevailed during the forenoon Saturday gave way to a drizzling rain in the afternoon, which froze as rapidly as it fell, and soon had the ground covered with a sheet of ice, producing the conditions of the road which was so dangerous for fast driving. It is reported that Mr. Coffee was aiming to make a record of 375 miles in a day under adverse weather conditions, by reaching Amarillo that night.

The wreck of the car which had apparently been in prime condition prior to the accident, was purchased by Roy Cox and Dr. McElroy and Roy drug it in town Saturday evening. But yeggs had relieved it of its battery.

## Splendid Prospects In the Rhea Community

Herman Schuler was in Friona Tuesday and while here called at the Star office and had his name added to the Star's subscription list.

Mr. Schuler is one of our progressive farmers and says the prospects for a good wheat crop this year were never better in his locality and that land will be in fine condition for farming for row crops.

He and his brother are now busy breaking sod and he thinks sod breaking could not be better.

## Going Full Speed

### If Back Hurts Flush Kidneys

Drink Plenty of Water and Take Glass of Salts Before Breakfast Occasionally.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

### Royal Expenses Cut Down

The spirit of economy is hitting the imperial princes of Japan. Recently all of the princes of the blood were placed on an allowance budget and now the authorities have decreed that in the future residences of members of the imperial family shall not occupy more than 80,000 square feet of land.

### DEMAND "BAYER" ASPIRIN

Take Tablets Without Fear if You See the Safety "Bayer Cross."

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 26 years. Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

### Treasure Trove

At Grand Rapids, Mich., Hugh P. Perry is showing a diamond ring appraised at \$500 which his wife recently found in a second-hand sofa purchased several years ago. Mrs. Perry located the ring while recovering articles their small child had hidden in the furniture.—Indianapolis News.

To Have a Clear, Sweet Skin Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and just on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Advertisement.

### At a Woman's Luncheon

Louise—I think one is as good as another.  
Julia—You think all dressmakers are equal?  
"Heavens, no! I thought you were talking about religions."

### "DANDELION BUTTER COLOR"

A harmless vegetable butter color used by millions for 50 years. Drug stores and general stores sell bottles of "Dandelion" for 35 cents.—Adv.

### Twin Professions

Politician—"The farmer gets his living from the soil." Voice—"So does the washer-woman."—Progressive Grocer.

"Temperamental" usually applies to those who are long on the temper and short on mental.

DR. W. B. CALDWELL AT THE AGE OF 83

## Constipation! How to Keep Bowels Regular

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated men, women, children, and particularly old folks had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement

but, best of all, it never gripes, sickens, or upsets the system. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself.

## Dr. Caldwell's SYRUP PEPSIN

### Czechoslovakia's Atheism

Seven per cent of the pupils and students of Czechoslovakia's schools, colleges and universities are atheists, or without confession, according to the statistics recently made public. Among the university students the percentage is highest, namely 18 per cent. In the industrial schools the figure is 13, in the commercial schools 12 and in the elementary or graded schools 7. The average in the kindergartens, where the religion of each child or absence thereof is given by the parents, the percentage is 10.

### Matter of Filling

A farmer living near Cicero came home to lunch one day from corn-husking and while at dinner was told by his wife that the flour bin was empty.

Immediately their three-year-old son scrambled away from the table and came back in a few minutes to inform them soberly that the flour bin no longer was empty.

On inspection the parents found the child had taken his pet cat and deposited it in the bin.—Indianapolis News.

No man is hurt but by himself.—Diogenes.

A glutton young—a beggar old.

Too often, in an amateur show, "a good time was had by all" except those who had to look on.

# From breakfast to bed SHREDDED WHEAT

for any meal all the year 'round - the whole wheat in a digestible form - all the bran you need.

A gospel of despair ought to make people angelic. What else would there be to do but be good?

Every delay is hateful, but it gives wisdom.—Publius Syrus.

### WHERE THE COUNTY AGENT COUNTS.

The following article, which is  
an editorial from the Minneapolis  
Tribune, Minneapolis, Minn., will,  
we believe, be of considerable in-  
terest to those of our citizens who  
are interested in securing a county  
agent for Farmer county. The  
editorial follows:

The Tribune has already called  
attention to the peculiar organiza-  
tion of agriculture—an organiza-  
tion excellently adapted to carry-  
ing on old traditions but not at  
all well adapted to the meeting of  
changed conditions. While the in-  
dustrial army is composed of a  
handful of generals and millions of  
enlisted men the agricultural army  
is composed of a handful of en-  
listed men and millions of gener-  
als. Let a handful of generals  
give orders and in a week or a  
day the industrial practices of half  
a century will be revolutionized  
throughout the industrial army.  
The organization of industry is  
such that revolutions in indus-  
trial practices may be made with  
almost unbelievable promptness the  
moment changed conditions make  
them necessary. The organization  
of agriculture is such that no mat-  
ter how imperatively they may be  
demanded, revolutions in agricul-  
tural practices may only be made  
with great effort, great delays, in-  
finite patience, and incalculable  
losses of money.

Let us support that industry, for  
example, were in the plight of ag-  
riculture today. Let us suppose,  
too, that a revolution in industrial  
practices could put industry on its  
feet. Within a year that revolution  
would have been engineered. The  
orders from the various head-  
quarters would be rushed down  
the line to the next ranking offi-  
cers; from the next ranking offi-  
cers they would be quickly rushed  
to the sub-officers; from the sub-  
officers they would quickly be  
rushed to the enlisted men. The  
operation would be comparatively  
simple.

Yet, as it happens, agriculture  
today, and for the past several  
years, has been standing in need  
of a revolution in its agricultural  
practices. Some progress, it is true,  
has been made, but how astonish-  
ingly small-like it has been! This  
is because each of the millions of  
individual generals has to be indi-  
vidually reached and individually  
convinced that the revolution is  
necessary. And after that each  
of these individual generals has  
to learn the new and complex tech-  
nique of the revolutionized agri-  
culture.

It is because of the foregoing  
reasons that The Tribune has been  
stressing particularly the impor-  
tance of the county agent work.  
The county agents are the men who  
have to carry the messages to these  
individual generals, convert them  
to the idea of the revolution, and  
finally show in detail what the re-  
volutionary practices are. It is  
the organization, or rather lack of  
organization, of agriculture, which  
makes the county agent so signifi-  
cant. Countless of these isolated  
and individual generals are not to

be got at in any other way. No  
body of men in existence can do  
as much toward speeding up the  
revolution as an aggressive, alert  
and intelligent group of county  
agents.

### PIGS DO WELL ON SWEET CLOVER.

Just now is a good time to sow  
sweet clover and each enterprising  
farmer who is after some good,  
dependable pasture crop for his  
pigs and dairy cows will do well  
to plant at least a few acres of  
this crop which is making such  
rapid strides in popularity.

Have your land properly pre-  
pared and sow now so the seed  
will be in the ground and the  
dampness and freezing will have  
the hull softened and ready for  
germination as soon as the neces-  
sary warmth comes in the spring.

Sweet clover furnishes one of  
the best and cheapest pastures for  
growing pigs. This is evidenced  
by the following short article tak-  
en from Farm Life under the cap-  
tion "Sweet Clover for Pigs."

"At the Kansas station last  
season pigs did better on sweet  
clover than on alfalfa. The pigs  
on both kinds of forage also got  
corn and tankage, but those graz-  
ing sweet clover gained a little  
faster and were valued ten cents  
a hundred weight by the porker-  
buyer.

Thus, the sweet clover pigs paid  
\$7.69 more a head than the alfalfa  
ones for their forage, though the  
cost of grain was the same for  
each group.

"In previous tests at the Kansas  
station clover has been close to  
alfalfa in its value as pasture for  
pigs, but this is the first time it  
has proved best. The reason is  
believed to be last summer's hard  
drought, which the sweet clover  
stood better than the alfalfa."

### May Get Farmers' Short Course Here

In response to the petition sent  
in from Friona praying for the  
International Harvester Company  
to hold one of the Farmers' Short  
Courses here, the secretary has re-  
ceived the following communica-  
tion:

Amarillo, Texas,  
January 22, 1927.  
Chamber of Commerce,  
Friona, Texas.  
Gentlemen:

We were glad, indeed, to re-  
ceive your splendid petition and  
you may rest assured that we will  
give all possible consideration to  
Friona with regard to holding one  
of our short courses there.  
Mr. Wolfe will be in this terri-  
tory about January 28th and if  
we decide to visit you, you will  
be given notice of our coming so  
that you may arrange an advance  
meeting of your prominent business  
men and others interested in this  
course.

Yours very truly,  
INTERNATIONAL HARVESTER  
COMPANY OF AMERICA,  
By J. I. Stone.

### Car Skids On Slick Road; Driver Escapes

Last Saturday night about nine  
o'clock as Harry Meady was re-  
turning from Clovis, where he had  
been on business, his car skidded  
on the icy road and turned over.  
This occurred just as he came  
near the wreck of the Coffee car,  
which, owing to the curve in the  
road, appeared to Harry to be ly-  
ing in the middle of the road and  
be accordingly steered as far as  
possible to the side in order to  
escape hitting the wreck and at  
the same time put on his breaks to  
check his speed. The setting of

the brakes caused the rear wheels  
to skid around and thus run into  
the ditch, which caused the car  
to overturn.

Harry found himself free with  
the exception of one foot, which  
he freed by removing it from his  
shoe. Some men who were there  
viewing the wreck helped him to  
right his car and he drove on into  
town. He found himself very sore  
physically Sunday and Monday,  
but no serious injuries were sus-  
tained.

### COMPLIMENTS THE THRESHER MEN.

Mr. and Mrs. L. F. Beckner were  
in from their farm home east of  
town Monday. They completed  
threshing last week and Mrs. Beck-  
ner took occasion to tell the Star-  
man in her wholesome and friend-  
ly way of her high appreciation of  
the men who did their threshing  
for them.

Their headed grain was threshed  
by A. S. Curry with his comb  
and the bundles were threshed  
by F. N. Welch with his large  
machine. She says each of these  
men and their crews comported  
themselves in the most gentleman-  
ly manner and gave them the most  
efficient services and the best of  
work. For a combine manager  
there are none who can excel Mr.  
Curry and as a large machine op-  
erator there are none better than  
Mr. Welch.

### Texas & Texans

By WILL H. MAYER

### Publicity That Harms.

The kind of publicity that Aus-  
tin has been getting recently  
is not doing the city or state any  
good. The sensational newspaper  
reports of crime and criminal trials  
pictured in lurid superlatives and  
printed on the front pages of all  
the papers of the country, create  
the impression that the capital of  
this state is a hotbed of vice and  
crime and that court trials are as  
attractive to the society sets of Tex-  
as as to the circus is to the average  
country boy. Some of the reports  
going out would make the unin-  
formed believe that manslaughter  
and bank robberies are the chief

diversions of the ministry and the  
bobbed flappers and that attend-  
ing their trials is the principal  
pastime of the rest of the popula-  
tion. Then the impression exists  
that if by chance any one should be  
convicted of crime, the governor  
stands at the court room door ready  
to sign a pardon.

### Correcting Harmful Reports.

While Texas has every reason to  
blush at conditions that have ex-  
isted in the state, they have been  
much overdrawn by newspapers  
that have played up the criminal-  
ity of the state, and often for the  
purpose of drawing attention  
from conditions closer to home.  
It is well known in every news-  
paper office that the best way to keep  
attention from a harmful piece of  
news is to give streamer headlines  
and large front page space to some-  
thing else and play down the in-  
jurious item in small space on an  
inside page. Eastern papers deli-  
ght to picture Texas as a wild  
and woolly state and any excuse  
for doing it is eagerly seized upon  
by most of them. A bad reputa-  
tion travels with ten times the  
speed of a good deed. Texas needs  
some organized and active propa-  
ganda to offset the harm that has  
been done the state in the past  
two years by exaggerated reports.

People are too much inclined to  
censure the newspapers for giving  
too much space to sensational  
news. That they do this the papers  
themselves stand ready to admit,  
but the fault is with the people who  
demand that kind of news. The  
paper that would ignore crime, or  
that would devote the least possible  
space to reporting it would soon  
find the people buying some other  
paper, and its support would be-  
come so weakened that whatever  
influence it might have would be  
lost through lack of circulation.  
It is possible of course for a paper  
to devote an undue proportion of its  
space to such things, and for the  
desire for gain to be the motive  
prompting this, but nine out of ten  
publishers would far rather leave  
that salacious news out of their  
papers if they could do so, even at  
a loss. They depreciate as much as  
any one the sentiment that de-  
mands such news, but they can't  
ignore it.

### Too Much Lobbying.

Everybody agrees that there is  
too much lobbying done in Austin  
during a legislative session, and  
the legislators themselves would  
like to get rid of most of it. It is  
possible for a citizen not in the  
legislature or for a group of citi-  
zens to give valuable and helpful  
information to a legislative commit-  
tee but three-fourths of the lobby-  
ing about legislative bills is  
prompted purely by selfish inter-  
ests and is done by the lobbyists  
solely for the fees they get. While  
Governor Tom Campbell may have  
been a bit extreme in his antago-  
nism to lobbyists, it has to be ad-  
mitted that he pursued the right  
policy against this evil, which is  
becoming a menace to good govern-  
ment and should be checked.

### Kingsville Park.

The Kleberg Town and Improve-  
ment Company, which owns much  
of the property around Kingsville,  
has deeded a large and beautiful  
tract of improver land in the  
heart of Kingsville to the city to  
be used as a park. The tract is  
already a lovely park and has been  
well kept by the land company as  
an asset to their other property in-  
terests, but with this transfer it  
becomes a community property and  
will always be retained as a city  
park. Too many park sites given  
to cities are unsightly and remote  
tracts of land unfit for any use  
to which the owners can put them,  
but this is the most valuable vac-  
ant property in all Kingsville.  
Wealthy citizens like the Kings and  
the Klebergs, who delight to do  
good with their wealth are a great  
blessing to a country.

Farmers who know the sturdy John  
Deere marvel at its great power. They  
see this compact, light weight tractor  
—hundreds of pounds lighter—out-  
performing larger, heavier tractors in dif-  
ficult conditions in the field and at the  
belt.

### Here's the Reason:

This 15-27 H. P. tractor  
weighs only 4,000 pounds—  
hundreds of pounds lighter  
than other tractors of the  
same rating; power ordinar-  
ily wasted in moving excess  
weight in the field is applied  
to the drawbar of the John  
Deere.  
The John Deere is hun-  
dreds of parts simpler—it's  
the tractor of fewer and  
sturdier parts. Fewer  
moving parts reduce fric-  
tion, one of the biggest  
power thieves in many other  
tractors. Belt pulley is  
mounted directly on crank-  
shaft—no power loss.  
All operating parts of the  
John Deere are automati-  
cally oiled and completely  
housed in a dust-proof case  
—oiling is positive, dust  
and sand cannot get in to  
cause friction, loss of power,  
and undue wear.  
John Deere one-piece  
frame holds all units in per-  
manent alignment.

The great power of the John Deere will sur-  
prise you. Drop in and see this sturdy trac-  
tor next time you are in town. Let us arrange  
a demonstration.

TURNER & PARR  
TRADING COMPANY

you may not trade with us. Our grocery de-  
partment can supply you with everything nec-  
essary for your table and our service station  
with everything you want in that line.  
**Hix Service Station Hix Grocery**  
R. L. HICKS, Proprietor

## CHURCH ANNOUNCEMENTS

### CONGREGATIONAL CHURCH.

Rev. Starke's sermon last Sunday morning on "The Bible and the Public Schools" was a most able discourse and should have been heard by all who are interested in the Bible or the schools or both. His lecture Sunday night was the Catholic church, in which he extolled the many very meritorious policies of this great church. The subject of his lecture Sunday night will be the Unitarian Church. He announced that this series of lectures will close with the Congregational Church as his subject on Sunday night, February 6.

### B. Y. P. U. PROGRAM, JAN. 30.

"The Sermon that put shoes on the Gospel."  
President in charge.  
Report of group captains.  
Special music—Mrs. Dilger.  
Introduction.  
Meeting place of Association—Catherine Conaway.  
The opening session—Granville McFarland.  
The Outcome—Tex Knight.  
Dr. Fuller co-operate with Carey—Elroy Wilson.  
Reading, Your Money.—Ernie Pritchard.  
Duet, In My Heart There Rings a Melody—Rachael and Lucille Wimberley.

### M. E. MISSIONARY REPORT.

The M. E. Missionary society will meet with Mrs. J. W. Parr next Tuesday, February 1.

The lesson will be found in the Missionary Voice, with Mrs. Walker as leader.  
Everyone come at 2:30 and be on time.

### PROGRAM FOR BAPTIST W. M. U. FEBRUARY 1.

Leader—Mrs. Short.  
Subject—What is a Missionary?  
Scripture Reading, Psalms 68—Leader.  
What is a Missionary—Mrs. Lockhart.  
The Missionary of Today—Mrs. Dilger.  
The Modern Missionary Heroism—Mrs. Landrum.  
Talk on Margaret Fund and its Help to Missionaries—Mrs. Pruitt.  
Reading, William Carey's Vision—Mrs. Stevick.  
The next meeting and the above program will be at the home of Mrs. Dilger.

### M. E. MISSIONARY SOCIETY REPORT.

The Missionary Society met with Mrs. E. B. McLellan January 20. There were eight members and three visitors present, Rev. Gilliam and Mmes. Hart and Brookfield. Mrs. Brookfield joined the society. The devotional was led by Mrs. McLellan. The seventh chapter of Matthew was read and fully discussed by Rev. Gilliam.  
The leader then turned the meeting over to the president who took care of the business. The meeting was closed by the benediction, by Rev. Gilliam.

**Jackman's**  
Women and Childrens Wear  
Clovia N. Max.

The pastor, Rev. Gilliam, will preach a special sermon to the women on the fifth Sunday, January 30, and will have the installation of the missionary officers.  
Every member of the society is urged to be present. Everybody come.  
MRS. E. S. WHITE, Reporter.

Stamford—Approximately a quarter of a million dollars annually will be saved by shippers of the South Plains section due to activity of the West Texas Chamber of Commerce in their behalf. The West Texas Chamber through its traffic department has successfully presented the Santa Fe differential cases to the Railroad Commission and as a result South Plains shippers will be relieved of paying the western differential.

### GISCHLER MUSIC.

The wedding of Miss Constance Gischler and Mr. Grant Musick occurred Thursday evening at Clovis, where this young couple had driven to have the nuptial knot tied. Mrs. Musick is the daughter of John Gischler, local grain dealer, and Mr. Musick is employed by the Wilkinson Implement Company. They will make their home with Mr. and Mrs. Wentworth of this city. Their many friends join the Star in wishing them a happy, prosperous life together.

Mainview—Hale county has added 16 fine registered bulls to its bull circles. The animals were brought from Ohio by Paul Huey, county agricultural agent.

# Doctor Covers Wide Territory

## Ozark Mountain Physician, 80 Years Old, Travels on Horseback.

Kansas City, Mo.—At eighty years of age, riding horseback about the forest trails of the high-ridged Ozarks in the Current river country of Ripley county, Missouri, day or night, rain or shine, in heat or penetrating cold, pleasant weather or stormy, facing hardship and privation, his object is to bring relief to the stricken, ease to the suffering, health to the sick, and life to little children. He is the epitome of Dr. Taylor C. Estes, who for almost sixty years has patrolled his district of rural Missouri.

But years haven't left Doctor Estes untouched. Although never tall, he has as yet resisted that tendency of age to shrink and shrivel upon itself. His hair is long and white, faded; yet his brows are bushy and tend to a bit of color, while his luxuriant mustache is still tinged brown. Clear blue eyes gleam at you.

Native of Indiana. Doctor Estes was born in Hendrix county, Indiana, son of William O. Estes of Virginia. He received his general education in the public schools of his day and his medical training at a Chicago medical school. His first practicing was in Cumberland county, Illinois, where he remained until the second year after the close of the Civil war. Then he went to Pulaski county, Missouri, for a short time and finally found his select spot in the Current river country 25 years ago. He has "raised two families," to use his own words, and of 18 children born 11 still are alive.

Doctor Estes has been not only physician and confidential adviser to thousands of families, but also in the busiest years of his practice in Pulaski county was ordained minister and evangelist.

Covers Much Territory. Doctor Estes' territory extends in a radius of sixteen or more miles in each direction. Of course, he is not the only physician in the territory and he does not have the obligation of going extreme distances to succor the sick. Yet his average trip, he estimates, is 12 miles over the mountains tops. Fifty miles is the longest single trip he remembers to have made. In his previous practice in Pulaski county, where there were fewer doctors, his range was 20 miles in each direction. Doctor Estes has worn out many horses in his career. How many, he can't remember. A horse does not last long carrying a man at all hours over the ridges of the Ozarks. In Pulaski county and in the earlier years of his residence on the Current river, it took a stable of six excellent saddle horses to keep him mounted for all his calls. Nowadays, however, he keeps but one.

Held in High Esteem. In his blue denim shirt, collar open at the neck, jeans pants held up by gaiters, buckskin shoes, Doctor Estes does not look the scientist and physician which he is; yet he never failed to have and hold the confidence of his community, throughout which and in neighboring fields he holds high reputation.

Recalling the days of the World war and the epidemic of influenza, he told of hardships and struggles to keep up with the disease through his territory. "Almost everybody in this section of the country had it," he declared. "Some homes had as many as six cases at once. The big trouble was to get them to keep windows and doors open. The biggest strain, of course, was getting about to all the cases and watching them through the crisis."

His pay? Doctor Estes seldom or never is paid at the time he makes the long, twelve-mile, six-hour horseback ride to attend a patient. Most likely such pay as comes will reach him long afterwards and as likely as not, it will not be in cash. The biggest proportion of patients in such a district as this, until recent improvements came to it, cannot afford to pay a physician for saving a life, for it is all they can do to sustain the life that has been snatched from blackness. Those who have surplus crops pay in hay and corn, in wood and forage, occasionally in a chicken or game.

of the tree with a huge ball of earth around them. A compact wooden frame was then built around the ball to hold the earth to the roots. A cable was fastened around the framework surrounding the roots of the tree and the other end was attached to a heavy truck. The tree was pulled out of the hole by the truck, then along 50 feet of road and on to a trailer attached to a large truck by which the tree is being transported to Washington.

## OLD YEW TREE FROM VIRGINIA IS TAKEN TO WASHINGTON, D. C.

Experts Engaged for More Than Week in Digging Roots and Arranging for Removal.

Richmond, Va.—A beautiful yew tree owned by Clarence Hicks of Port Royal, Va., has been bought for \$1,000 by the St. Albans guild of Washington and is being taken to Washington to be planted on the grounds of the National cathedral where President Woodrow Wilson is buried. The tree is a very fine specimen of the variety known as Irish yew—a shrub with the pyramidal or columnar habit of the cypress; the branches are mostly vertical, of dense growth and dark foliage. It measures 20 feet in height and 30 feet in circumference.

The removal of the tree has been no simple task. For more than a week experts have been engaged in the work, digging a great hole 40 feet in circumference and removing the roots

## Private Sits Pretty on Top of the World

Washington.—The army has a private who is in command of his detachment. At 68 degrees north, in the northern interior of Alaska, is the little town of Wiseman. Here the signal corps of the army has established a radio station which is the most northern in the world. Private Elmer J. Ulen, signal corps, is the operator in charge. Ulen is more than the radio operator. He is also United States commissioner, postmaster, and head of the school board. He lives in the best home in the town and is regarded by the community as its leading citizen.

## He "Charms" His Fish Then Lands 'em, Maybe

Fairbanks, Alaska.—A novel tip for anglers may be gleaned from the methods of "Old loguk," medicine man and sovereign of an isolated tribe of Eskimo, living on the wind-swept flats between the Yukon and Kuskowin rivers in western Alaska.

Every spring before the salmon run up the rivers to spawn, "Old loguk" journeys to the river mouths, where he performs queer incantations and magic rites. Wearing a wooden mask resembling a salmon trout, he dances and chants, commanding the fish to swim up the stream to his people.

For this mysterious power "Old loguk" exerts over the fish, he visits every home and collects as his share one-fourth of all the fish caught by the native fishermen.

## \$10,000 Hunting Ledge Is Given to Trapper

Woodland, Wash.—When George Moody, trapper and guide, returns from tending his long trap line he turns an electric light, shakes down a furnace, and rests his tired limbs on a mohair davenport. Recently he was bequeathed a \$10,000 hunting ledge in the Cascade mountains near Eugene, Ore., by the will of the late Herman O. Vogel, Los Angeles millionaire. For twenty years Moody acted as guide and friend to Vogel each autumn during the hunting season.

## He's Gaining Fame in the Movies

"Shanganah of El Palomar," big Irish wolfhound shown here with Mrs. Horatio S. Bonestell, the owner, who lives in Oakland, Calif., promises to become famous in motion pictures.

## She Makes \$175 a Week; Supports Family of 18

New York.—Mrs. Cornelia Bolster, forty years old and cheerful, is making a success of one of the hardest jobs in New York—the running of a family of 18 on a combined family income of \$175 a week.

The secret, she says, is system. She runs her home in West Two Hundred and Twenty-eighth street like a hotel, with work, meals and sleep regulated like clockwork and a budget to care for the last penny.

The 16 children range in ages from one to twenty-two, with five of the older children helping their father to meet the family budget.

Mrs. Bolster's weekly budget calls for expenses of \$130, enabling her to save something each week. Food costs the family \$70 a week and some of the items are: Twelve loaves of bread a day for \$1; 10 quarts of milk, \$1.10; 6 to 8 pounds of meat, \$4; 5 pounds of butter, \$3; rent \$97 a month.

## Woman Guesses How Hungry Rooster Gets

Newton, Kan.—It took a town woman to guess correctly the number of kernels of corn a famished rooster would eat in an hour's time.

Mrs. T. L. Davis of Newton won the contest, an entertainment feature of the Harvey county poultry show here. The rooster had fasted three days before the contest and within the allotted time ate 153 grains of corn, the number guessed by Mrs. Davis.

## Hound Dog Valued at \$25 Ends Case Costing \$2,000

Emine, Mo.—Typical of many found in the Ozark mountains, a black-and-tan hound dog ended a court case here by the "testimony" which it gave. It obtained also the acquittal of Lewis Wells, its owner, charged with stealing the animal.

Wells said he bought the dog from John Widlers. As Widlers took the stand, the dog leaped to show devotion to the him as an old friend. The dog, worth \$25, ended a series of trials which cost \$2,000.

## Yawn Locks Jaws

Paris, Ill.—Miss Nora Caruthers of Neoga, while yawning, dislocated her jaws, locking them. Two physicians labored for several hours before she was relieved.

## Beaters Must Work

Camden, N. J.—Wife beaters who are serving time must work on the county farm or live on bread and water alone, if Walter Gross, new sheriff, has his way.

## QUEER QUIRKS IN HUMAN DESTINY

By HARRY R. CALKINS

### Disobedience Brought Victory

THE disobedience of an army once relieved Europe from a threatened invasion by the Turks who had conquered the Eastern Roman empire, taking Constantinople.

The capital of the Eastern empire fell into the hands of the Turks in 1453 and two years later Mahomet II was hammering at the walls of Belgrade, bent on extending his conquests throughout Europe. The pope and John Capistrano, papal legate and general of the Capuchins, preached a crusade to Europe, but without success. Feudal noblemen prayed and the people slaughtered Jews, it being the naive custom to blame all misfortune on this unhappy race, but armies to fight the Turks were lacking.

At length Capistrano, traveling through Germany and preaching war, gained a few thousand of peasant followers. They were armed only with flails and pitchforks but they were ready to die for Christianity. Capistrano bravely led his mob to join John Hunyades and the little Hungarian army, who were planning to relieve the besieged army in Belgrade.

The motley army floated in boats down the Danube, attacked and dispersed the Turkish fleet and entered the beleaguered city. Hunyades, in command, saw little hope of making effective soldiers out of Capistrano's peasants. He sternly forbade an attack upon the Turks, hoping to make a successful resistance within the walls of Belgrade. Artillery of the enemy battered down these walls in lines, but the inhabitants of the city had built a secondary line of defense. Encountering the new wall the Turks were discouraged. At this time, the fanatic followers of Capistrano could no longer be restrained. Despite Hunyades' commands and his promise of death to any who disobeyed, they burst over the walls and charged the enemy.

The first intrenchment was taken by storm, then a second and a third. The Turkish host of 160,000 was soon in great disorder. Hunyades, perceiving the success that disobedience to his orders had brought, joined the attack with his cavalry and Mahomet II was beaten. His power was so badly crippled, in fact, that it was many years before he could take the field again.

### Patrick Henry's Chance

PATRICK HENRY, the famous colonial patriot, might have remained a handy man around a Virginia inn and the American Revolutionary party would have lacked a powerful leader, if a lawsuit had not arisen in 1763, which no other lawyer of Virginia dared to defend. It was Henry's chance and he made the most of it.

His neighbors laughed heartily when they heard that Patrick Henry was going to be a lawyer. They had known him as a lazy, good-natured fellow, fond of dancing, fishing and playing the fiddle. He had failed as a storekeeper and as a farmer, and was now helping with the general work about his father-in-law's tavern at Hanover Courthouse. When he asked for a license to practice law, the judge examined him and found he knew no law, but he promised faithfully to study and was admitted to practice. Naturally no clients came to a man in whose industry the community had no faith.

There came a time, however, when Patrick Henry found a client. The Church of England was the official church of the colony and the people, many of whom belonged to other sects, were required to pay the Episcopal clergyman whether they attended their churches or not. The house of burgesses had decided against the right of the preachers, but the king had overruled the provincial legislators.

The influences behind the clergymen were powerful. No recognized lawyer in Virginia would defend the people against them, but Patrick Henry said he would. The courtroom was crowded when he left the tavern bar "to plead against the parsons." Most of the visitors had come to laugh at the clownish figure of the attorney. Patrick Henry surprised them. He talked but little about the law, but he placed the authority of the house of burgesses above that of the king. He was accused of treason by counsel for the preachers, but the jury returned with a verdict awarding the clergymen just one cent damages, which meant victory for the young orator.

Patrick Henry was elected to the house of burgesses on the reputation made in that trial and a few years later all of colonial America was thrilling to his defiant words:

"Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take, but as for me, give me liberty or give me death!"

### Hairs on Human Head

Instruments recently invented are capable of counting the hairs on the head and giving other data of interest to hairdressers. It has been shown that the number of hairs growing on the average head is from 100,000 to 250,000, varying with the texture of the hair. Human hair grows at the rate of half an inch a month.

### Saved by Lariat

Point Pleasant, W. Va.—After clinging for 16 hours to a tree partly submerged by a flood here, Charles Musgrave was rescued by means of a lasso thrown around his shoulders by a farmer.

### Coming Fast

Knoxville, Tenn.—Twins and triplets have arrived at the home of Mr. and Mrs. John Johnson within a year. Mrs. Johnson, who is twenty-eight years old, now has had seven children.

### Rickshaws Passing

Tokyo.—The rickshaws are passing. In 1897 there were 39,018 in Tokyo and in 1926 the number was 8,343.

(By REV. F. B. FITZWATER, D.D., Dean of Day and Evening Schools, Moody Bible Institute of Chicago.) (©. 1927, Western Newspaper Union.)

### Lesson for January 30

THE CHRISTIAN OVERCOMING TEMPTATION

LESSON TEXT—Luke 4:1-13; I Cor. 10:12, 13.

GOLDEN TEXT—In that He Himself hath suffered being tempted, He is able to succor them that are tempted.

PRIMARY TOPIC—Obeying God Always.

JUNIOR TOPIC—How to Stand Against Temptation.

INTERMEDIATE AND SENIOR TOPIC—How Christ Helps the Tempted.

YOUNG PEOPLE AND ADULT TOPIC—How to Overcome Temptation.

Christ's temptation was Messianic. No one has ever been tempted just like He was—led into the wilderness by the Holy Spirit to be tempted of the devil (Matt. 4:11). While we are not tempted as He was, the devil uses the same methods on us. This temptation was not:

1. A preparation for His work, but rather its first conflict. In His baptism we have the symbolic act of the dedication of Himself to the work of redemption through the cross—the making full a righteousness.

2. It was not to see if Christ would stand fast, nor to see if He would fall under the most crucial test, He could not have failed.

3. It was to show Christ as an object upon which we may rest our faith with unshaken confidence. He came as the second man, the head of the new race. The temptation therefore was a demonstration of the inseparableness of the divine and human nature in the incarnation.

1. The Temptation of Christ (Luke 4:1-13).

1. The Place (v. 1).

The wilderness of Judea. The first man, Adam, was tempted in a garden with the most pleasant surroundings. The second man, Jesus Christ, was tempted in a barren wilderness surrounded by wild beasts (Mark 1:13).

2. The Method (vv. 2-12).

Christ as the world's Redeemer sustained a three-fold relationship—Son of Man, the Messiah and Son of God, therefore Satan made each one a ground of attack.

(1) As Son of Man (vv. 2-4).

Satan made his first assault upon Him as a man by appealing to the instinct of hunger. Satan urged Him to use His divine power and convert a stone into bread. Hunger is natural and sinless. Real human life experiences hunger. The temptation was in satisfying a right hunger in a wrong way. To have yielded in this case though His hunger was desperate, would have been to renounce the human limitations which He had taken for our sins. In the incarnation He became identified with humanity, so He chose to abide in fellowship with man.

(2) As Messiah (vv. 5-8).

Here the temptation was to grasp His rightful dominions by false means. The devil offered to surrender unto Him the world if He would adopt his methods—worship him. The force of this temptation was in the fact that the kingdoms of the world are Christ's by God's covenant with Him. God's method by which Jesus was to possess the world was the sacrificial death on the cross.

(3) As Son of God (vv. 9-12).

Here Satan tries to induce Christ to presume upon God's care. He quotes a Messianic Psalm to induce Him to so act. To do the spectacular thing in order to get notice is to fall into Satan's temptation. For Jesus to have placed Himself in danger in order to get God's special help in delivering Him would have been to sin.

(4) Christ's defense (vv. 4, 8, 12).

It was the Word of God. He met and repulsed the enemy with "It is written." Our defense is God's Word.

(5) The Issue (v. 13).

Satan was vanquished.

II. The Temptation of Believers (I Cor. 10:12, 13).

1. Temptation is to be expected (v. 12).

From the appearance of Satan in the Garden of Eden on down through the ages men and women have been assailed by the tempter. These facts are God's admonitions unto us upon whom the ends of the world are come. Caution is always necessary. Overweening self-confidence is most perilous to those who rest in the security of their divine election while neglecting a life of holiness.

2. Divine help available (v. 13).

All temptations which come to us are those which are common to the race. No one should surmise that his temptation is peculiar. God is faithful and will not allow the temptation to go beyond the ability of the one tempted. He will provide a way of escape.

### Through the Needle's Eye

Before the camel passed through the eye of the needle, they took the burdens off his back.—King's Business.

### God's Cross

God lays His cross upon those whom He loves, and those who bear it patiently gain much wisdom.—Luther.

### Praise

Praise is contentment rippling over into gladness, like the music of the brook.—Mark Gur Peares.

## YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

Hurry, Mother! Remove poisons from little stomach, liver, bowels

Give "California Fig Syrup" if cross, bilious or feverish

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Fig Syrup," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless, "fruity laxative" because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Fig Syrup," then see that it is made by the "California Fig Syrup Company."

### Big Viola Is Found

A viola found in Edinburgh, Scotland, has a body 17 1/4 inches long, or 2 1/2 inches longer than the average viola. It was made by Hieronymus Amati, the master of Stradivarius.

### Aim High

Who shoots at the midday sun though he be sure he shall never hit the mark, yet is sure he is that he shall shoot higher than he who aims at a bush.—Sir Phillip Sidney.

## Special Offer to Victims of Indigestion

Your Druggist Says Pleasant to Take, Elixir Must Help Poor Distressed Stomachs or Money Gladly Refunded.

You can be so distressed with gas and fullness from poor digestion of dyspepsia that you think your heart is going to stop beating.

Your stomach may be so distended that your breathing is short and gaspy.

You are dizzy and gray for quick relief—what's to be done.

Just one tablespoonful of Dare's Mentha Pepsin and speedily the gas disappears, the pressing on the heart ceases and you can breathe deep and naturally.

Oh! What blessed relief; but why not get rid of such attacks altogether? Why have them at all?

Especially when any druggist anywhere guarantees Dare's Mentha Pepsin, a pleasant elixir, to help you or money back.

**Grove's Tasteless Chill Tonic**  
Invigorates, Purifies and Enriches the Blood. 60c

Sorrows remembered sweeten present joys.—Poliok.

Writing has one great advantage: It makes no noise to annoy people.

Many a man's good reputation is due to what isn't found out about him.

## Colds Fever Grippe

Be Quick-Be Sure!

Get the right remedy—the best men know. So quick, so sure that millions now employ it. The utmost in a laxative. Bromide-Quinine in ideal form. Colds stop in 24 hours. La Grippe in 3 days. The system is cleaned and toned. Nothing compares with Hill's.

Be Sure It's HILL'S Price 30c

CASCARA QUININE  
Get Red Box with portrait

## Too Much "Acid?"

Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

**DOAN'S PILLS**  
60c  
Stimulant Diuretic to the Kidneys  
Foster-Milburn Co., Mfg. Chemists, Buffalo, N. Y.

## TRY THIS FOR A COLD-IT'S FINE

"Pape's Cold Compound" ends severe colds or grippe in few hours

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only thirty-five cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

## SIMPLE GEORGETTE FROCK; WRAPS FOR YOUNG GIRLS

A MAZINGLY clever fabric manipulation with dependence placed upon striking color for individualism rather than the presence of applied trimming—this is the fashionist's conception of a perfect gown for dinner, dance or formal afternoon wear.

For the dress which relies entirely upon fabric manipulation, georgette has proven itself an ideal medium. The Paris vogue for black has given an exceptional style prestige to the

made a study of apprelling the younger generation have decided that certain furs are essentially youthful in appearance.

First and foremost among youthful dressy furs is gray fox, and this is being lavished on the formal wraps for the young daughter of the household. From a distinguished Paris atelier comes the exquisite wrap pictured here to the right. It is handsomely furred in gray fox, and thus

FEATURED BY ABSENCE OF TRIMMING

all-black georgette frock for evening wear, void of trimming but abounding in the intricacies of floating panels and draperies, myriads of tiers.

Two of the most recent items in fabric treatments are the inset belt and the large bow of self-material. Bows similar to that which enhances the dress in the picture are being featured more than ever on dresses of soft sheer goods.

As to belt effects, the smartest are worked in as part of the making of the dress, and in a measure, answer to the call for intricate seaming, which dressmakers say is part of the styling program for the coming sea-

son. Panels suspended from the shoulder also give unique and graceful touch to this model aptly demonstrating the beautiful effects achieved in the handling of the material, which mark the more exclusive styling.

Color plays a most spectacular part in the late winter's style program. It is a flame color georgette which was chosen for the development of the frock here shown, this brilliant shade distinguishing it from the ordinary at any social gathering. Reds of every hue are very fashionable for evening wear.

Captivating tone-on-tone effects are employed for many a georgette party dress. For instance, a tiered skirt uses a deep shade for the lower tier, graduating the color to lighter as the tier tiers approach the waistline.

Designers who cater to youth are giving much thought and time to the creating of evening wraps for the girl in her teens. Those who have

FURRED IN WHITE AND GRAY

they are not—and what cares youth if the "looks" be there.

The very newest thing for chic winter resort wear is the straight wrap-around cape. French imports include hand-painted white velvet ones done in bright futuristic design. Often a white fur collar is extended into tuxedo revers down each side of the front, such as grace the wrap to the left in the picture. This youthful cape made of white cloth would be practical not only for immediate wear, when Valentine parties bid the girl in her teens to come and look her prettiest, but for future wear over the sheer print frocks which the mode declares are again to be fashionable, such a wrap would prove ideal.

Silver lame trimmed with white rabbit fur is the joy and the pride of the young girl this season. The smartest types are of the straight narrow coat genre.

JULIA BOTTOMLEY.

## LIVE STOCK

### BABY BEEF GAINS ON CORN FODDER

Practical cattle feeders have learned from experience that corn fodder is not satisfactory as the only roughage. Many have fed it as a supplement to legume hay and silage with good results, but its value compared to corn silage was apparently a question.

Colorado made a study by feeding two lots of baby heaves, in which one lot received corn fodder and the other corn silage. In addition both lots received barley, linseed oil meal and alfalfa hay.

From one acre 3.82 tons of dry cut corn fodder was obtained, which cost \$15.45 a ton in the bin. The cost of one acre was \$59.02. The corn silage received from one acre amounted to 11.7 tons, which was figured at a cost of \$7.50 a ton. One acre yielded in corn silage \$87.75 worth of feed. Both lots of calves were fed 208 days. The corn fodder lot gained 2.01 pounds per head per day, while those receiving corn silage gained 1.99 pounds per head per day.

In order that cattle feeders may figure the cost of gains at their own prices, the amounts of feed required for 100 pounds of gain are given here. The calves receiving corn fodder required 845.9 pounds of barley, 205.5 pounds of corn fodder, 51.6 pounds of linseed oil meal and 230 pounds of alfalfa hay for 100 pounds of gain. The corn silage calves required, for 100 pounds of gain, 350.7 pounds of barley, 52 pounds of linseed oil meal, 462.9 pounds of silage and 246.7 pounds of alfalfa hay. At prevailing prices when this test was made cheaper gains were put on by the corn fodder fed calves.

This test indicates that corn fodder will put on greater and cheaper gains than corn silage in a ration of barley, linseed oil meal and alfalfa hay for baby heaves.—B. W. Fairbanks, Extension Live Stock Specialist, Colorado Agricultural College.

### Culling Demonstrations Given on Western Ranges

The old order is slowly changing on the open range in favor of the modern cattleman who substitutes quality for quantity to satisfy the changing demands of the consuming public for lighter weight and better quality beef. To help the cattlemen make this change, grading demonstrations are being conducted in the western range states by the United States Department of Agriculture all the way from the irrigated valleys of Washington and the mountain ranches of Montana and Wyoming south to the desert ranches of Arizona and New Mexico. These demonstrations are conducted on isolated ranches sometimes 75 miles from a railroad or at the shipping pens, using herds at hand, and are attended by cattlemen who often come 100 miles to learn how to cull and grade their cattle.

The financial benefits of marketing cattle by grades and the benefits of national standardization of grades, so that cattlemen everywhere may know what is meant by a certain grade, are being emphasized. In some of these remote valleys or isolated desert ranges are found remarkably good stock of good blood lines, type, and conformation.

### Exercise Is Essential for Ewes During Winter

An abundance of exercise for the ewes during the winter months is an important factor in making the breeding flock profitable. When given little opportunity to get out in the open, weak lambs, lacking thrift and vigor, are sure to be produced. A goal toward which the sheep man could profitably aim, is to so plan the feeding that his breeding stock would be obliged to walk as much as two miles every day. This often can be accomplished by scattering roughage over a wide area when the weather is clear. Another suggestion is to close the barnyards from the flock during the day, obliging the sheep to rustle for feed in the field.

### Sheep Care at Lambing Time Is Very Important

In a few weeks the lambs will begin to appear, and now is time to get ready for them, advises E. G. Godbey, associate animal husbandman, who says that since sheep go through most of the year without much attention, there is a tendency to neglect them at lambing time, when they really need a little care and feed, yet every time a ewe fails to bring a lamb or loses a lamb the profit on that ewe is lost, for while her wool may pay the board bill, it will not return much profit.

### Feeding Iron to Pigs

One of the newest adventures in live stock feeding at Iowa State college is the feeding of iron to pigs. This has been fed in the form of iron oxide to fatten pigs and to spring gilts that are to be kept over. It has been found that the iron causes the pigs to make more rapid gains at lower cost. The experimenters called attention to the fact that iron is one of the important constituents of the red color in blood, which is associated with vigor and vitality.

### WHY CHANGE?

A friend of ours complains that the coal he gets nowadays isn't what it used to be or what it should be for the cost. We are reminded of the story of an inventor who went to a coal dealer and said: "I have here something that you'll want, something new—a substitute coal that you can sell at half price."

"Shucks!" returned the coal man. "Haven't we got one already that we sell at full price?"—Transcript.

### REJECTED

Edward—Could we marry on my salary?  
Mary—Just about, but I'd want to eat the next day.

### Old Habits Cling

Irate Husband—Why is it that con-founded new maid never answers when we ring the bell?  
His Wife (placidly)—I don't think we'd better be too exacting at first, Horace. The girl tells me she used to be employed at a telephone exchange.

### Case of the Docs!

First Puglist—I'm hard, I am!  
Second Puglist—"Uh, huh! After I investigate your anatomy with my boxing gloves there'll be somebody investigating your anatomy with rubber ones.

### A Parist

"Sarah ammoniac—you have it, of course."  
"Do you mean sal ammoniac?" asked the druggist.  
"I believe it is sometimes called that," replied the lady stiffly.

### Improved With Age

Health—George Washington could not tell a lie.  
Jewett—Well, statesmanship was only in its infancy in his time.

### Not That Way

He—People are saying you married me because I had money.  
She—Nothing of the sort! The reason was that I had no money myself.

### Real Courage

Maxine—You can say what you like about Reggie! He's brave, anyway.  
Velma—How so?  
Maxine—He keeps a pet squirrel.

### SUFFICIENT FOR HIM

"Son! You left this office early yesterday. How was it you said nothing to me?"  
"I said good-by, sir!"

### Mother's Tip

Friend—I suppose you cook what your husband likes.  
Young Bride—No; mother put me on to a better plan than that. I started housekeeping with the understanding that he is to like what I cook.

### A Skeptic

Murdock—What did Mr. Dubb do after missing his seventh putt?  
Joyce—Took out his tape measure and measured the ball, then the diameter of the hole.

### A Liberal Parent

"What did her father give her when they were married?"  
"He gave her permission to return home after three quarrels and separations, but stipulated that after more than three they would have to arrange their reconciliations elsewhere."

### Quite the Reverse

Patient—I can't afford to be sick.  
Specialist—Is your business so profitable?  
Patient—No; yours is.

for Coughs

### Ladies—Don't Throw Away Your Hose and Silk Lingerie

because of Runners and Pulled Threads. Mail us \$1 and we will send you a very ingenious device, the only device for sale that will repair them without detection. Any lady can use it. We also want demonstrators and territory agents in your locality. A very attractive and remunerative proposition will be made to some live and wide-awake representative. Burnett-Raymond Sales Co., 314-15 Pioneer Building, Birmingham, Alabama.

### Woman Athlete Honored

Frau Lisbeth Scheider, of Dresden, is the first woman to win the German golden band awarded for excellence in athletic proficiency. The golden band is the highest athletic award given, and can be won only by persons above forty years of age who have kept up for a long period of years a record for faithful training and successful participation in contests. Frau Scheider is a member of Dresden's women's swimming club, Dresdensia.

### Frosting for Cakes

Most people like their cakes frosted and chocolate continues to hold first place as the favorite icing. When making Fudge Frosting add 1/2 teaspoon Calumet Baking Powder to a mixture of 2 cups sugar, 1/2 cup milk and 2 squares of bitter chocolate.

### Indeed She Is

She—Just think, I didn't learn to speak until I was four.  
He—Oh, well, you are making up for it now, aren't you?—Berlin Nagels Lustige Welt.

The charm of a bathroom is its spotlessness. By the use of Red Cross Ball Blue all cloths and towels retain their whiteness until worn out.—Adv.

A fine new building gives the public as much delight as a fine new statue.

No man is entitled to credit for being good if he isn't tempted.

### Does Weakness Detract From Your Good Looks?

Holdenville, Okla.—"I had no appetite and could not sleep—was always nervous. I doctored with one doctor, then another, with no relief, until I tried Dr. Pierce's medicine. I took six bottles of the 'Favorite Prescription' and three of the 'Golden Medical Discovery,' and now my pains have all left me and I am as well as any woman. My complexion is clear, too. Before using Dr. Pierce's medicine I was skin and bones. I am well now and can do my own work without a dread. I feel like a new woman."  
—Mrs. Ruby Sunderland, 1108 So. Oak St. All dealers.  
In Liquid or Tablet form.

### BABIES LOVE

30c & 90c At all Druggists

## Cuticura Soap

Best for Baby

Soap, Ointment, Talcum sold everywhere. Samples free of Cuticura Laboratories, Dept. M, Malden, Mass.

### Checkers Ancient Game

The game of draughts or checkers is said to be of the greatest antiquity. Pieces of checkerboards and men have been found in tombs of Egyptian rulers of a date not later than 1600 B. C. Some of these are at present preserved in the British museum. Homer in his "Odyssey" speaks about this game being played by the suitors of Penelope.

### Find Lost Comet

Enser's comet, which was lost from view after it passed near the sun this year, was located again by two German astronomers. It was then of the thirteenth magnitude and invisible to the naked eye.

## A Raw, Sore Throat

eases quickly when you apply a little Musterole. It penetrates to the sore spot with a gentle touch, loosens the congestion and draws out the soreness and pain and won't blister like the old-fashioned mustard plaster.

Musterole is a clean, white ointment made with oil of mustard. Brings quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, neuritis, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. Jars & Tubes

## MUSTEROLE

WILL NOT BLISTER  
Better than a mustard plaster

Friona High School

# CHATTER

Volume 1, No. 9

## SENIOR ACTIVITIES.

The Seniors have again shown their prowess by winning the two basketball games played on the high school gymnasium January 20. There are five Senior girls, so they played five-member style. They won a game from the Sophomores by a score of 12 to 8.

The Senior and Sophomore boys' team played the Junior and Freshman boys' team at gym period. The score at the end of the game was 20 to 9 in favor of the Sophomores and Seniors.

The jealous Juniors were about right in their conception of the Seniors on Kid Day in last week's paper, but didn't we have fun? We were so proud of our appearance that we had our pictures taken. We have now assumed our old role as dignified Seniors.

## SENIOR PARTY.

On Friday night, January 21, a group of high school students, consisting of the seniors and basketball boys, were entertained at the Wimberly home. Due to weather conditions, several of those invited were unable to be there. Nevertheless a nice sized bunch were pleasantly entertained for a few hours, after which dainty refreshments were served. Each one received as a favor a letter "S" made of rose mounted on a gray background, rose and gray being the senior class colors. On the favor was written the following words: "Senior Party, January 21, Class of 1927.55"

## SOPHOMORE LITERARY CLUB.

A meeting of the Sophomore Literary Club was held Friday, the 21st. Irene Campbell made a report on "The Rainbow Trail," by Zane Grey. Bessie Harry told about the author's life and Edith Turner criticized his work.

## CHAPEL EXERCISES.

On Friday of last week the Seniors had charge of the chapel exercises. The school assembled in the auditorium to find the eight Seniors seated on the platform.

A want ad in the Star will result in buyer and seller getting together. Two-bits will convince you.

## GET RID OF HATCHING WORRIES!

You cannot afford to bother with setting hens and small, old-fashioned incubators when we can hatch your eggs for only 3 1/2 cents per egg. We have the finest hatching machines that money can buy, operated by steam and electricity. Moisture automatically supplied by live steam and the temperature is always just right. Bring eggs on Wednesdays and Saturdays.

## Beautiful Chicks

Order your chicks NOW. We shall soon be sold out on everything but the late hatches. Can supply Leghorns, Rocks, Reds and Buff Oringtons. Ask for price and full particulars at once.

**WICK'S MAMMOTH HATCHERY.**  
"New Mexico's Largest and Finest Hatching Plant."  
CLOVIS, N. M. ROUTE A

The exercises were opened with a song, "Flag of the Free," with Opal Wimberly at the piano and Esther Reeve as leader of the song. Following this Mr. Buckner, the sponsor, introduced the Seniors as they would appear twenty years from now. Alice Guyer read a prophecy of her class and Charles Conaway gave the "Picture of the Class of 1927." The song, "The Student's Way," was sung in closing.

## RE-ORGANIZATION OF THE JUNIOR CLASS.

The Junior class met and re-organized on Monday of this week, when the following officers were elected:

President, Arvis Hughes, re-elected.

Vice President, Mary Louise Trull.

Secretary and Treasurer, Otto Whitefield, re-elected.

Chairmen of entertainment and refreshment committees were appointed by the chairman of the entertainment committee. The entertainment committee is, Bethel Hix, Mary Louise Trull and Estelle Harris. The refreshment committee is, Arvis Hughes, Mary Reeve and Katherine Parr.

## GRADES.

The grades for the class rooms last week are as follows:

Room 20	94
Room 3	100
Room 4	100
Room 7	94
Room 8	99
Room 9	99
Room 26	97
Room 25	96
Room 24	96
Room 23	100
Room 21	99

On account of unfavorable weather conditions, the Freshmen did not get to take their "moonlight" ride which had been planned for the 21st.

## FRESHMAN LITERARY CLUB.

The Freshmen met last week to organize a literary club. They elected officers and will have their first meeting Friday, January 28. Their officers are, President, Ola Pritchard; Vice President, W. C.

Knights; Secretary and Treasurer, Frank Trull; Chairman of Program Committee, Estelle Welch; Committee, Martha McFarland, Milton Wilkerson and Mary Wely. Their colors were the same as the class colors, green and pink, and their motto is "Watch Us Climb." The monthly dues are ten cents and the fine for not bringing up one's part of the program is also ten cents.

## Prickly Pear-a-Grafts.

### EARLY BASEBALL.

The first mention of baseball is in the Bible.

Eve stole first, Adam stole second, Gideon rattled the pitchers, Goliath was put out by David, and the Prodigal Son made a home run.

### NOTHING MUCH.

"Pa, what are ancestors?"  
"Well, my son, I'm one of yours, your grandpa is another."  
"Oh, then why is it people brag about them?"

### LIFE.

- A rattle.
- A celluloid ring.
- A mechanical toy.
- A watch.
- A pair of long pants.
- A job.
- A car.
- A girl.
- A wife.
- A gramophone.
- A public position.

An illuminated address.  
An operation.  
A magnificent funeral.  
Another address.

## WHO IS SHE?

She doesn't like a shady joke.  
She doesn't hike.  
She doesn't smoke.  
She doesn't swear.  
She never flirts.  
She doesn't wear  
Those knee-high skirts.  
She doesn't dance.  
She doesn't slug.  
And goofs in pants.  
Don't mean a thing.  
She doesn't use those  
Beauty salves  
But won't refuse to  
Show her calves.  
You ask her name?  
Well, that's a wow.  
She's not a dame—  
**SHE'S A COW!**

## DO FISH HAVE FENDERS?

Miss Price was playing with some fish and had her hand down in the water, when Miss Odom exclaimed:  
"Oh, Miss Price, take your hand out! Their fenders will cut you!"

## SAFETY FIRST.

Mrs. Fowler—"Johnnie, if you eat any more you'll burst!"  
Johnnie—"Well, pass the cakes, mommy, and get out of the way."

## CIRCUMSTANTIAL EVIDENCE.

"I'm sorry to have to do this," said Charles Conaway, as he spread the jam on Bobby's face, "but I can't have suspicion pointing its finger at me."

**Evidence of Prosperity.**  
The Southwestern Bell Telephone Company announces that it will spend \$12,000,000 in Texas in 1927. Among the extensions will be 7,600 miles of new long distance wires and about 25,000 new telephones. The heavy expenditure is required to keep up with progress of the state.

## Results.

Thursday I lost a gold watch which I valued very highly, as it

was an heirloom. I immediately inserted an advertisement in your Lost and Found column and waited. Yesterday I went home and found the watch in the pocket of my other suit.  
God bless your paper!

## Low Down.

Dat dere new boy am down right mean—ah done saw him holdin' de lantern while his old mammy chops de wood.

## Certainly, Madam.

Bride, on phone—Hello, Jones' butcher shop? Please send me a pound of mince meat, and be sure it's a nice young mince!
